AFFORDABLE AND SECURE FOOD ACT

Mr. BENNET. Mr. President, this weekend, families all across America will sit down in their dining rooms for a holiday meal, and they are going to have to pay more for that meal than they ever have before. They are going to have to pay more for bread and more for butter, potatoes, eggs, vegetables. Literally, almost everything that is going to be on America's tables this holiday season is going to be more expensive than it has ever been.

Although there are several reasons for that phenomenon, somewhere at the very top is the profound labor shortage that exists in American agriculture. Today, America's farmers and ranchers are short more than 100,000 workers all across this country to plant seeds, to pick berries, to raise cattle, and to do the hard, essential work of feeding this country.

It is why growers all across America are banging down the doors of this Capitol, pleading with us to fix the broken H-2A system for farmers.

It is obvious to everybody who has had anything to do with this system that it is completely broken. There is no argument that can be made that it is not. To start, the H-2A program is not even open to year-round jobs. That is just the beginning of the trouble. That is every dairy in America who has to milk their cows two or three times a day, including the holidays. It is
