

I am introducing an amendment today that will require a leasing plan from day one of President Biden's Presidency, Inauguration Day, when this bill is enacted into law. President Biden will have to come up with a plan to tell the American people how he will clean up his mess and refill America's SPR.

Mr. Chairman, I urge my colleagues to support this amendment, and I yield back the balance of my time.

POINT OF ORDER

Mr. PALLONE. Mr. Chair, I insist on my point of order.

The Acting CHAIR. The gentleman will state his point of order.

Mr. PALLONE. The pending amendment violates the germaneness requirement of rule XVI, clause 7. That rule precludes amendments "on a subject different from that under consideration."

The subject matter of the underlying bill is a requirement that the Department of Energy issue a plan related to the leasing of Federal lands for oil and gas drilling before certain first drawdowns from the Strategic Petroleum Reserve.

However, the subject matter of the pending amendment is different. The pending amendment introduces a new subject matter to the bill by requiring a plan for drawdowns that have already occurred. Because the pending amendment is on a different subject than that of the underlying bill, I urge the Chair to hold this amendment as not germane.

The Acting CHAIR. Does any other Member wish to be heard on the point of order?

The gentleman from South Carolina is recognized.

Mr. DUNCAN. Mr. Chair, I wish to speak on the point of order. This is absolutely germane. It is the same subject, and it meets all the rules.

Mr. Chairman, I support the amendment.

The Acting CHAIR. Does any other Member wish to be heard on the point of order?

The gentleman from New Jersey makes a point of order that the amendment offered by the gentlewoman from Georgia is not germane.

Clause 7 of rule XVI, the germaneness rule, provides that no proposition on a subject different from that under consideration shall be admitted under color of amendment.

The bill prohibits the drawdown of petroleum products in the Strategic Petroleum Reserve until the Secretary of Energy has developed a plan to increase the percentage of certain Federal lands leased for oil and gas production. The amendment changes the calculation of how much land would need to be leased to offset the drawdown.

The Chair finds that the amendment is within the subject matter of the underlying bill. It is, therefore, germane. The point of order is overruled.

Mr. PALLONE. Mr. Chairman, I rise in opposition to the amendment.

The Acting CHAIR. The gentleman from New Jersey is recognized for 5 minutes.

Mr. PALLONE. Mr. Chairman, first of all, I think the gentlewoman's previous amendment was about the policies of the President being political. And I think this amendment is more political than anything.

First of all, as we know, what the underlying bill does is it says that if the President wants to release crude oil from the Strategic Petroleum Reserve, then he has to put together a plan that would require more leases on public lands.

What the gentlewoman's amendment says now is that she makes this retroactive and goes back to the day of the President's inauguration—again, a very political decision to use that date—and says that any releases from the reserve beginning on the day of the President's inauguration, we would also then have to go back and make sure that we sell or lease additional leases on public lands to cover those releases from the reserve back to the inauguration.

So, the bureaucracy of all this in itself I think is absurd.

But the point is that she is essentially saying that now we have to lease more public lands when, in fact, there are about 9,000 leases already on public lands, half of which are not being used. The oil companies do not want to pump more oil because that brings down the price. They don't want any releases from the Strategic Petroleum Reserve because that brings down the price.

So all that the Republican majority is doing here is trying to help the oil companies, trying to make sure that there are no tools on the part of the administration to increase the supply, to bring down the cost of gasoline at the pump. Whatever the oil companies, which are making huge profits, want to do, that is what they want to do, as well.

So I would just again say that this amendment may be germane but it is certainly detrimental to what the President and the Democrats are trying to do to help people deal with affordability.

□ 1000

We understand that the price at the pump is prohibitive, and we have to continue to choose whatever tools we have to try to bring it down.

The Republicans, on the other hand, don't want to do any of that. They want to make political points, and they want to do the bidding of the oil companies.

Mr. Chairman, I oppose this amendment, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentlewoman from Georgia (Ms. GREENE).

The amendment was agreed to.

AMENDMENT NO. 61 OFFERED BY MR. LIEU

Mr. LIEU. Mr. Chair, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 2, line 11, insert "and any drawdown that the Secretary determines will result in a net profit for the Federal Government" after "(d)".

The Acting CHAIR. The gentleman from California is recognized for 5 minutes.

Mr. LIEU. Mr. Chair, this amendment would create an exception allowing for a drawdown of the Strategic Petroleum Reserve if the Secretary determines that the drawdown would result in a net profit for the United States.

Let me tell you what this is all about. I can summarize this debate of the last 2 days into one sentence: Joe Biden lowered your gas prices, and Republicans are upset about it.

That is what this is about. Joe Biden lowered your gas prices last year, and that makes Republicans mad.

How do we know? They said it out loud. The gentlewoman from Georgia earlier this morning just said that Joe Biden lowered your gas prices for political reasons.

I don't care why the President lowers your gas prices. If any President can lower your gas prices, we should support that President's action.

If prices surge later this year, if gas prices surge again, Joe Biden should be able to use the tools at his disposal and lower your gas prices again. We should be giving the President even more flexibility to use the Strategic Petroleum Reserve to lower gas prices.

Joe Biden lowered your gas prices, and Republicans want to keep him from doing that again.

We don't want to stop the President from lowering your gas prices. We want Joe Biden to lower your gas prices again if he can do that.

There is another reason this Republican bill is so stupid. Not only did Joe Biden lower your gas prices, but the United States of America made a profit on it. Buy low, sell high. It was brilliant what Joe Biden did.

He released the Strategic Petroleum Reserve at a time when gas was high, and that helped lower gas prices, and then he refilled it at the lower amount. The U.S. made \$4 billion on Joe Biden's action.

Republicans always want to say: Let's run government like a business. Joe Biden did exactly that when he lowered your gas prices and then made a \$4 billion profit for the United States of America.

Adopt my amendment, which would make this stupid bill better, and then vote against this bill.

Mr. Chairman, I yield back the balance of my time.

Mr. DUNCAN. Mr. Chair, I rise in opposition to the amendment.

The Acting CHAIR. The gentleman from South Carolina is recognized for 5 minutes.

Mr. DUNCAN. Mr. Chair, recollection serves me that you guys on that side of

the aisle blocked an amendment or a bill that Republicans put up during the Trump administration that actually made this very point, to allow President Trump to buy oil at a low price and refill the SPR. You all said no. You can't make this stuff up.

The government should not be in business. The government is here to serve the people, to meet the constitutional responsibilities enumerated in the Constitution of the United States, and I don't see that the government is a business that should make a net profit on anything.

Taxpayer dollars go to purchase something as a strategic asset for emergencies, not to be traded as a commodity so that the government can make a profit. I guess you all wanted to make a profit so you could keep spending money—over \$31 trillion in debt.

The government shouldn't impose price controls at all. That is not what a democratic republic does.

If Democrats are so concerned with fiscal oversight of the Department of Energy, they should take a look at the so-called Inflation Reduction Act, which allocated over \$400 billion in Federal funding to clean energy.

Picking winners and losers in the marketplace, that type of government control over our energy is the exact type of policy that got us here in the first place, that got us to where we are today, why we are even having this debate.

I look forward to conducting future oversight over the implementation of the Inflation Reduction Act during this Congress, and I will say once again, and I will say it ad nauseam, the SPR must only be used to protect Americans in the time of a true emergency—natural disaster, war, that type thing—not for political purposes, as it was used by this administration to lower gas prices before a midterm election to influence politics in this country. That was the wrong use of it.

If a Republican administration had done that, you would be making the same argument that I am making, that it was wrong. It was wrong then; it is wrong today; and it will be wrong tomorrow. It shouldn't be used that way. It is for national emergencies, period.

Mr. Chair, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from California (Mr. LIEU).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. LIEU. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from California will be postponed.

AMENDMENT NO. 62 OFFERED BY MR. LIEU

Mr. LIEU. Mr. Chair, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 3, line 9, strike the closing quotation mark and the final period.

Page 3, after line 9, add the following:

(4) MARINE MAMMAL PROTECTION.—The plan required by paragraph (1) shall not include oil and gas leasing in any tract located on the Outer Continental Shelf if oil and gas leasing of such tract would adversely impact any marine mammal.

The Acting CHAIR. The gentleman from California is recognized for 5 minutes.

Mr. LIEU. Mr. Chair, this amendment would limit oil and gas leasing on the Outer Continental Shelf if the leases would harm marine mammals.

Not only does the Republican bill keep Joe Biden from lowering your gas prices, it also is going to harm marine mammals. I rise today to try to improve this terrible underlying bill.

What this would do is it would prevent harm to marine mammals if my amendment were adopted. Currently, House Republicans are continuing their attacks on our public lands and public waters.

The U.S. is already the world's top producer of oil and gas, and the fossil fuel industry already has large portions of land that they are not using to drill. Of the over 26 million acres of public lands that fossil fuel companies control, half are unused.

As a co-chair of the California Coastal Caucus and a Member representing the beautiful Los Angeles County coastline, I know that my constituents and I want an end to all offshore oil drilling, not another expansion.

In October 2021, an estimated 126,000 gallons of crude oil spilled into our waters off the coast of Huntington Beach. This harmed our beaches, wildlife, and coastal communities.

Oil spills continue to be one of the greatest perpetual threats to our coastal communities and marine life. We simply cannot allow an expansion of offshore oil drilling.

We need to continue to build on the work of the 117th Congress to drive us toward true energy independence through renewable energies and new technologies.

Mr. Chair, I ask for adoption of my amendment, and I yield back the balance of my time.

Mr. DUNCAN. Mr. Chair, I rise in opposition to this amendment.

The Acting CHAIR. The gentleman from South Carolina is recognized for 5 minutes.

Mr. DUNCAN. Mr. Chair, this amendment seeks to delay the operation of the bill pending an unregulated contingency.

Let me just say this: I was on the Natural Resources Committee for a while, and I think the person in the chair was on that committee, as well. I remember we were talking about seismic testing, and there was this huge outcry that seismic testing would harm marine mammals.

We got a letter on BOEM's website that said that there is not a single

verifiable instance anywhere in the world, off the coast of Africa and the Mediterranean, off the coast of the United States, anywhere in the world, that a marine mammal was harmed or killed by seismic testing.

I just read an article this week, though, that whales are washing up onshore, and they believe it might be attributed to offshore wind production. Are you going to include that in this? Those are marine mammals.

It is just amazing that these amendments are put in place. This amendment invokes an entirely different statute and agency, the Marine Mammal Protection Act and the Department of Commerce. I could make the argument that it is not germane. I am not going to do that.

This amendment prohibits a leasing plan from including any tract on the Outer Continental Shelf if it would adversely impact marine mammals. Show me where a marine mammal has been killed from oil and gas production or exploration.

As I just pointed out, there is not a single verifiable instance, and ironically, that was during the Obama administration. That was Obama's Bureau of Ocean Energy Management that had the letter on their website, their chief biologist.

That was a fun debate in that committee. They were holding up seismic permits, but they would permit a wind farm offshore, a solar panel that was frying birds or knocking endangered species out of the air in a heartbeat, but wouldn't let us go after these abundant resources that we had offshore and onshore.

This is nothing more than an attempt to delay the implementation of H.R. 21. There is nothing in the bill that changes any laws relating to protection of marine mammals.

It is worth noting that about offshore wind.

Mr. Chair, I urge my colleagues to vote "no" on this messaging amendment from the other side, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from California (Mr. LIEU).

The amendment was rejected.

AMENDMENT NO. 77 OFFERED BY MR. NICKEL

Mr. NICKEL. Mr. Chair, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 2, line 11, after "(d)" insert "or if the Secretary determines that a situation exists in which a delay in executing a drawdown of petroleum products in the Reserve in order to comply with this paragraph will worsen inflation".

The Acting CHAIR. The gentleman from North Carolina is recognized for 5 minutes.

Mr. NICKEL. Mr. Chair, I rise in support of amendment No. 77.

Listen, the American people have been hit so hard by inflation and the

rising cost of goods. In its current form, the Strategic Production Response Act deprives the Federal Government of one of the most important tools in its toolbox to fight inflation and to lower gas prices.

Mr. Chair, my amendment is simple. It would protect our ability to fight inflation by releasing oil from the Strategic Petroleum Reserve and would create an exception clause to ensure that the Secretary of Energy can draw down the reserve if a delay in drawdown would worsen inflation.

Releasing oil from the Strategic Petroleum Reserve in response to Russia's invasion of Ukraine was a critical strategy that helped lower gas prices for American families. This bill, without my amendment, could hurt working Americans struggling so hard with rising prices.

Mr. Chair, I urge my colleagues to support my amendment to protect American families from rising gas prices and runaway inflation.

Lowering gas prices is not a political tactic; it is a question of survival for many Americans.

Mr. Chair, I yield back the balance of my time.

Mr. DUNCAN. Mr. Chair, I rise in opposition to this amendment.

The Acting CHAIR. The gentleman from South Carolina is recognized for 5 minutes.

Mr. DUNCAN. Mr. Chair, the Biden policies are causing inflation across this country and not allowing America to come roaring back after the pandemic.

The first thing he did was stop oil and gas production in this country—ended leases, stopped Federal leasing—and that has caused gas prices to go up, which affects all of our constituents, not just the lower income ones, but all of them.

The lower income people pay a higher percentage of their discretionary income for energy due to this administration's policies. That means they have less money to spend on other commodities that they want to buy to improve their lives.

If you want to lower inflation in this country, let's get the economy back. One way to get the economy back is to provide cheap diesel fuel so that those commodities can be transported across the country and so that diesel fuel is affordable for the farmers to plant their crops and harvest their crops.

Inflation is going to continue because of this administration's policies affecting energy prices for our farmers. Commodities are going to be higher than they are today because of the input costs. Fertilizer comes from energy sources. That is an input cost. Diesel fuel for tractors and trucks transports the crops from the farm to the processors to the store.

If we want to lower inflation in this country, we do it through American energy dominance. We have the resources. All we have to do is go tap them. Increase supply to meet demand.

That is how you lower prices, and that is how you address the inflationary data that we are seeing.

Inflation is caused by this administration spending too much money, printing too much money, and not increasing American energy security. Providing plans under H.R. 21 that will lead to an increase in production of American energy creates wealth, creates jobs, creates tax revenues, leads to lower prices, and definitely combats inflation.

□ 1015

We know this from the shale revolution, which helped hardworking Americans; added to their jobs, added to their bank accounts, added to their spending, increased economic activity, a healthy economy, limited inflation.

Energy is the foundation of everything in modern life. When the price of energy goes up, everything does. It is not just transportation fuels.

When you put a barrel of hydrocarbon under pressure, it separates, and miraculous products are produced that are used by this Nation and the world, so it is not just for transportation fuels.

Low-income Americans feel the pain the most. Let's support building a healthy economy to reduce inflation and ensure American energy security.

I will go back. This bill deals with the SPR. The drawdown by this administration to affect energy prices for American constituents—voters—right before an election wasn't a proper use of it then, it won't be a proper use of it today, and it will not be a proper use of it in the future. It is there for emergencies for this Nation. That is what it should be used for.

We need to replenish the SPR so it will be available in a time of a true emergency in this country.

Mr. Chair, I urge my colleagues to vote "no" on this amendment, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from North Carolina (Mr. NICKEL).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. NICKEL. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from North Carolina will be postponed.

(d) DEFINITIONS.—In this section:

(1) COVERED COUNTRY.—The term “covered country” means a foreign country located in the Western Hemisphere, other than Venezuela, with respect to which the Secretary of State, in consultation with the Secretary of Defense and the Secretary of Energy, determines that increased crude oil refining in that country would promote the national security and economic interests of the United States.

(2) COVERED ENTITY.—The term “covered entity” means a covered country or a third party that owns or operates an oil refinery located in a covered country.

(e) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary of Energy to carry out this section \$90,000,000 for fiscal year 2024, to remain available until September 30, 2026.

Mr. DUNCAN. Mr. Chair, I reserve a point of order against the amendment.

The Acting CHAIR. A point of order is reserved.

The gentleman from New Jersey is recognized for 5 minutes.

Mr. PALLONE. Mr. Chairman, I rise to offer an amendment which would add the text of my Buy Low and Sell High Act, which I reintroduced last week along with my colleagues, Representatives CRAIG, CROW, KUSTER, SPANBERGER, and TRONE.

Mr. Chairman, we heard quite a bit earlier today, as well as yesterday, on how problematic the underlying bill before us is, how it does not represent a serious attempt to tackle the challenges and opportunities that come with the Strategic Petroleum Reserve to make sure it can be put to work for all Americans while helping fuel transition to a 21st century clean energy economy.

Now, unlike my colleagues on the other side of the aisle, even when Democrats are in the minority, we do not become a Party of No. We stand ready to work on ideas that will seriously improve this country and to propose our substantive ideas to improve bills brought before the House, and that is what I am doing today with this amendment.

The Buy Low and Sell High Act is a serious bill that takes the Strategic Petroleum Reserve seriously. It doesn't use it as a political football, but instead, regards it as a valuable tool to our arsenal of energy security.

The amendment would create an economic petroleum reserve within this reserve that would be specifically to sell crude oil when prices are high and buy crude oil when prices are low. Some of the profits for that would then be reinvested into the American economy, accelerating the electrification revolution that everyone from President Biden to the CEO of every automaker can tell us is happening, not in the future, but right now.

It would also create a network of regional product reserves, so we have a full national network of crude and petroleum products.

The Colonial pipeline hack nearly 2 years ago was illustrative of the need for regional product reserves. Crude by itself doesn't do us any good without refining capacity and the infrastructure to take it across the country. Regional product reserves can fight local shortages immediately.

My amendment also includes Ms. HOULAHAN's important bill, which goes further than our Republican Chamber did 2 weeks ago, in preventing barrels from our strategic reserves from going not just to China, but also not going to Russia, Iran, and North Korea.

Unlike our colleagues, Mr. Chairman, Democrats are not soft on Russia. We are not soft on Iran. We are not soft on North Korea.

Finally, the bill would build on the work in the fiscal year 2023 omnibus bill that this Chamber passed last month to give the Department of Energy further flexibility with congressionally mandated sales from the reserve and required the Department of Energy time those sales to maximize revenue back to the American taxpayer.

Now, these are all commonsense ideas. They should be bipartisan ideas. They are certainly more serious than the bill before us today.

Unfortunately, it seems that Republicans aren't willing to engage in a serious endeavor like this. They are not willing to hear our dissenting views on this.

In any case, I would ask this amendment be adopted so we can take a serious look at what needs to be done to address the energy crisis.

Mr. Chair, I yield back the balance of my time.

POINT OF ORDER

Mr. DUNCAN. Mr. Chair, I insist on the point of order.

The Acting CHAIR. The gentleman will state his point of order.

Mr. DUNCAN. Mr. Chair, the amendment violates clause 7 of rule XVI of the Rules of the House because it is not germane to the underlying bill. It fails the tests for subject matter and fundamental purpose.

The amendment opens up new statutes and topics. Specifically, the amendment would amend section 3009 of America's Water Infrastructure Act of 2018; page 27, line 8 for reference.

That statute is not amended by H.R. 21. It is not even discussed.

The amendment would create a new regime of government supply and price controls not at all contemplated in this bill's simple leasing plan. It is totally different in subject matter, totally different in purpose, totally different in the end game. For that purpose, the amendment is not germane.

I would also note that this amendment has been determined to have an impact on direct spending, although CBO has not yet determined the magnitude.

I say the amendment is not germane in so many ways, and I look forward to the ruling.

The CHAIR. Does any Member wish to seek to address the point of order?

Mr. PALLONE. Mr. Chair, the amendment meets the germaneness requirement of clause 7 of rule XVI.

The amendment is germane because the amendment does not introduce a new subject of the text proposed to be amended.

The subject of the introduced bill is applying certain requirements to drawdowns from the Strategic Petroleum Reserve. The subject of the amendment also applies certain requirements to drawdowns.

Again, Mr. Chairman, I have to stress that the reason that this amendment is germane is because we are trying on the Democratic side to seriously address the energy crisis and the energy future of this country.

The Republicans are not doing that. They are simply using political points and trying to prevent the use of the reserve to actually help reduce the cost of gasoline at the pump.

The CHAIR. The gentleman from South Carolina makes a point of order that the amendment offered by the gentleman from New Jersey is not germane.

The bill prohibits the drawdown of petroleum products in the Strategic Petroleum Reserve until the Secretary of Energy has developed a plan to increase the percentage of certain Federal lands leased for oil and gas production. The amendment addresses sundry additional subject matters, including the Home Heating Oil Reserve, State energy transportation plans, and assistance for Western Hemisphere refineries.

The Chair finds that the amendment goes beyond the subject matter of the underlying bill. It is, therefore, not germane. The point of order is sustained.

Mr. PALLONE. Mr. Chairman, I move to strike the last word.

The Acting CHAIR. The gentleman from New Jersey is recognized for 5 minutes.

Mr. PALLONE. Mr. Chair, I know we are closing the debate now on the underlying bill, but I will say one more time, we have been at this 2 days now. We have had a lot of amendments. I certainly appreciate the fact that we have had an open rule and that Members on our side of the aisle have had an opportunity to present amendments and speak. A lot of our new Members have had that opportunity.

The bottom line, Mr. Chairman, is that this underlying bill makes no sense, and it is strictly a political message. It is going nowhere. The President has already said that he would veto it, and the Senate won't take it up.

The bottom line is that as Democrats what we are trying to do is address affordability issues for the American public in the context of gasoline prices. We knew as prices went up that we should use every tool in our arsenal to try to bring them down. That is what

President Biden did. He decided to use the Strategic Petroleum Reserve to provide more supply and bring down prices. It succeeded in doing that. His actions did that. From the price in June at a high, it went down about \$1.69 per gallon.

Why would the Republicans want to deny the President—not just President Biden, but any President—that opportunity?

We are just trying to address the concerns that the American people have.

We did it on drug prices by saying we are going to negotiate drug prices.

We did it on insulin by saying we wanted to cap it at \$35 a month.

Democrats are constantly trying to address these affordability issues, many of which resulted from the COVID crisis.

The bottom line is, I don't understand why the Republicans would suggest that the President not be able to do that.

They talk over and over again about how it is necessary to lease more public lands at a time when over half the leases that are out there are already not being used by the oil companies because the oil companies don't want more oil. They don't want more supply. They want to keep the price down. If there is more supply and more pumping of oil domestically or internationally, they lose those huge profits that they have made in the last few years.

Please, don't hamstring this administration. Let us use the reserve in part to try to bring prices down and let the President continue to have that option.

Mr. Chair, I would urge opposition to H.R. 21, and I urge my colleagues to vote "no."

Mr. Chair, I yield back the balance of my time.

Mr. DUNCAN. Mr. Chair, I move to strike the last word.

The ACTING Chair. The gentleman from South Carolina is recognized for 5 minutes to strike the last word.

Mr. DUNCAN. Mr. Chair, the more things change, the more they stay the same. Members of Congress are standing on this floor talking about buy low, sell high.

I look back two Congresses ago during the Trump administration, and the Republicans stood on this floor and offered this very thing: to allow the President of the United States to buy a commodity—oil—at the lowest price possible so that we could replenish the SPR. Thank God for acknowledging that fact.

Unfortunately, oil isn't cheap right now. You're not going to be able to buy oil very low. Unless we change the policies of this country and start producing American energy, increasing supply to meet demand lowers prices. It is very simple: Economics 101.

The answer to our energy insecurity is not reflexive Democrat Big Government price controls which will restrict energy resource development and supply and drive up energy costs, which we are seeing, adding to the current inflation rate which is over 6 percent.

The GDP numbers came out today. Very slow growth in this Nation. We have a solution: produce American energy, fuel the economy, help your constituents, lower transportation fuels, lower energy costs for their homes through American energy resources. Price controls always end with gas lines and fuel shortages.

Truckers were stuck this year on the side of the interstate for days because of diesel fuel shortages. I talked about that earlier.

Consumer prices are through the roof. Anything transported by an 18-wheeler is going to cost more on the consumer shelf because the price of diesel fuel is passed on to the consumer in the prices. It is how the economy works.

Cargo ships, planes—everybody is paying more for fuel. That will result in higher prices and inflation as a direct result of the Biden administration's policies to end American energy production and ultimately, American energy dominance.

The U.S. is the number one oil and gas producer in the world, and we have the resources here to produce millions more barrels a day.

H.R. 21 is about restoring U.S. leadership in the world in the realm of energy production. It is about reducing political interference in markets and unleashing the benefits of free and open markets and encouraging innovators to invest and take risks, and end our dependence on OPEC to demand and set price controls for our global market.

The shale revolution just didn't happen in countries with price and supply controls. It happened because of innovation in this country. It happened in America where we encourage the entrepreneurial spirit instead of a top-down government-controlled economy. It is estimated that the shale revolution saves U.S. consumers \$203 billion annually. That equates to about \$2,500 per family.

Guess what?

Because of the Biden administration's policies, those same constituents of ours are paying about \$2,500 more per year in costs; not just energy costs, but inflationary costs all across the spectrum.

□ 1030

It also lowered energy-related greenhouse gas emissions by an estimated 527 million metric tons per year because of natural gas.

If we want to alleviate the burden of record-high energy prices on the American people, the American families, Democrats should reverse the regulatory death grip on the policies they have on the oil and gas industry.

I have a solution: Build more pipelines in this country, and let's get the resources where they are needed in our States and in our communities, in our homes.

Rather than destroy the SPR by turning it into a political tool, as we

saw the Biden administration do, let's unleash American energy production and become American energy dominant once again.

Mr. Chair, I urge a "no" vote on this amendment, and I yield back the balance of my time.

MOMENT OF SILENCE FOR VICTIMS OF THE HALF MOON BAY SHOOTINGS

Ms. ESHOO. Mr. Speaker, I seek recognition to pay tribute to those who lost their lives in my congressional district in the community of Half Moon Bay on Monday of this week.

Mr. Speaker, seven lives, seven precious lives, farmworkers in a community that is as all-American as can be, about 11,000 people. It is a bucolic community on the magnificent California coastline. It is known for its pumpkin festival. It is known for its Mavericks competition in terms of surfers, but also, for over a century, it has been known for its flora culture and its agriculture.

It was on Monday that one individual went to a nursery—actually, where he worked. He knew exactly who he was pursuing. It was intentional. It was targeted. It was execution, and children witnessed this. Children witnessed it.

He left that site, drove about a mile and a half to Highway 1, which is the scenic highway with the magnificent Pacific Ocean on one side and the community on the other, to another nursery and murdered three others.

The first 3 weeks of this New Year: 39 mass shootings in the United States of America. We always come to the floor: Thoughts and prayers, thoughts and prayers.

My thoughts are, I don't think we are safe anywhere anymore—churches, schools, community centers, now at nurseries where agricultural workers work, dance rooms, restaurants.

I believe sincerely, number one, in prayer. My prayer today is that there will be a collective examination of conscience in the Congress because we have a responsibility in this. We all do, regardless of party.

This is a matter of conscience. It is a moral issue. When the number one cause of death of children in our Nation is from gun violence, we have to stop and examine our conscience.

We say home of the brave, land of the free. My prayer today is that we will be the home of the safe.

These are whose lives were taken on Monday: Zhishen Liu, 73 years old; Aixiang Zhang, 74 years old; Qizhong Cheng, 66 years old; Jingzhi Lu, 64 years old; Marciano Martinez Jimenez, 50 years old; Yetao Bing, 43 years old; Jose Romero Perez, 38 years old.

God rest them.

COMMONSENSE SOLUTIONS FOR FARMERS AND RANCHERS

(Mr. ALFORD asked and was given permission to address the House for 1 minute.)

Mr. ALFORD. Mr. Speaker, I rise today as a voice for the farmers and ranchers of Missouri's Fourth Congressional District and our Nation.

I promised to listen to their concerns and their needs, find real solutions, and serve their voice here in Congress. Today, I am proud to stand before you as I introduce our very first bill, the Amplifying Processing of Livestock in the United States Act. We call it the A-PLUS Act.

This is our first bill, and as a member of the House Agriculture Committee, I am dedicated to finding commonsense solutions for our farmers and ranchers, whom I represent.
