

by \$100 million. According to the gentlewoman's statements, she is opposed to taking \$100 million from the management account of the Department of Education because we need to make sure that we have bureaucrats, rather than providing the funding for disadvantaged children across this country.

My objective is to make sure that the money that we spend actually goes into our communities rather than Washington, D.C., and the bureaucracy that has been created here.

I think this amendment is important. I thank the gentlewoman for acknowledging she does not believe we should increase the funding further by opposing this amendment. She thinks we should spend the \$100 million on bureaucrats rather than the children. I thank her for acknowledging that.

Mr. Chair, I reserve the balance of my time.

Ms. DELAUR. Mr. Chair, I think as chair of this committee for 4 years, in a bipartisan way, we increased Head Start funding in higher numbers than had been dealt with in the recent past.

I applaud the bipartisanship of that effort to deal with Head Start funding because of how critically important Head Start is, but it is stunning to me that we could look at a \$750 million cut in Head Start with this bill.

You mentioned spending. I will get back to you on revenue. Let's collect revenue, so we can make the public investments in Head Start and in education and other areas that have been begging. Let me assure the gentleman I will work along with all of my colleagues. I will fight against cuts to Head Start. Head Start will always be a priority for me.

The Acting CHAIR. The time of the gentlewoman has expired.

Mr. LAWLER. Mr. Chair, clearly the gentlewoman hasn't met a dollar that she doesn't like to spend.

We don't have a revenue problem in Washington, D.C. In fact, our revenue is at its highest levels ever.

This is not an issue of revenue; it is an issue of spending.

In the prior 2 years, in the prior Congress, the Democrat majority increased spending by \$5 trillion in 2 years in new spending. It is unsustainable. It is why we have dealt with record inflation under this administration. It is why energy costs have skyrocketed; grocery costs have skyrocketed.

The gentlewoman would like to continue down that path and just keep spending money we don't have. This appropriations process that we are going through, we have to make decisions. We have to make cuts that actually bring our government into size.

If it was up to her, not only would we spend everything they have spent over the last 2 years, they would probably increase it another \$5 trillion because who cares? It is not their money; it is the American peoples' money. It is the taxpayers' money.

We have to make decisions. That is why we were elected, to govern.

I felt this amendment appropriate because I do think the Head Start program is important. I do think it provides valuable opportunities for underprivileged children across this country, and we need to continue to fund it, but the gentlewoman would just like to spend money we don't have, make it up out of thin air. It doesn't work that way.

Mr. Chair, I would encourage all of my colleagues to support this amendment, to increase funding for this critical program, and pay for it by eliminating funding for bureaucrats in Washington and spending that money on the children.

Mr. Chair, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from New York (Mr. LAWLER).

The amendment was agreed to.
