

speaks to President Guice's dedication to students and faculty, as well as his unwavering commitment to excellence and higher education.

His leadership facilitated groundbreaking faculty and student research, multiple national and global rankings, historic enrollments and graduations, notable philanthropic campaigns, and the innovative expansion of the school's campus.

President Guice kindled public and private partnerships, bridging the gap between government resources and private-sector efficiency. He truly understood the concept of "town and gown" by working diligently with Ruston local officials to make sure it always felt like that special college town where students could enjoy both the campus as well as the beautiful amenities the city of Ruston has to offer.

He consistently inspired both students and faculty to seize their potential, ultimately enabling the university to achieve higher goals year after year. He promoted diverse perspectives among his teams and encouraged each person around him to pursue their passions, and then he would give them the runway to fly.

I remember attending an event where President Guice was giving a campus update to the community. He asked all of his faculty and staff to stand up. He gave all the credit for every success that Louisiana had under his presidency to them. That is the kind of man President Guice is: always working behind the scenes, giving credit to others, and delighting in their successes.

There is a reason people call Louisiana Tech a family. You can't help but feel it when you are on their campus. That kind of culture comes from the top down.

Kristi Stake, a professor at Louisiana Tech, said it best when I asked her about him. She said that Dr. Guice never wanted the focus to be on him. He always put the spotlight on the people around him, especially the students. He accomplished a lot that people will probably never know.

President Guice continuously put students' success as his top priority as he created a thriving environment where students felt welcome. He supported the development of strong academic programs, a robust school culture, and a place where students could be successful.

We know that beside every strong man is often an equally strong woman. Kathy Guice has served selflessly by his side as the first lady of Louisiana Tech. They have opened their home to countless students, faculty, and staff, helping to cultivate that warm family environment.

□ 1100

Also not lost on me are the sacrifices a person makes when they are in public service, especially the toll it takes on your family life. Nevertheless, Kathy was always up for the challenge, making everyone feel welcome. She is the

ultimate steel magnolia, and I thank her for her service.

Today, I echo thousands of Louisianians in celebrating President Guice's retirement from his influential career at Louisiana Tech University and his extensive legacy that will continue to grow and thrive because of programs, innovation, and partnerships that he helped to form during his tenure. He will be fondly remembered by friends, faculty, and students, and his work will continue to benefit the community. He may be retiring, but we know he will always be there cheering on the Bulldogs.

I thank Dr. Guice. He transformed an entire region, and for that we will be forever grateful.

#### RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until noon today.

Accordingly (at 11 a.m.), the House stood in recess.

□ 1200

#### AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. ROUZER) at noon.

#### PRAYER

The Chaplain, the Reverend Margaret Grun Kibben, offered the following prayer:

Yours is the spirit, O Holy One, that at creation brought order from chaos, that separated the waters from the dry land, and breathed Your very breath into humanity.

On this new day, inspire us anew. Open our hearts to Your transforming power in our lives and in this place. Where there is disorder, reveal Your direction. Where there is darkness, shed Your light. Where there is indifference, stir us with purpose. Divide all bitterness and allow civility to establish a foothold.

Create a new heart within us, O God, our creator. Renew a steadfast spirit within us. Do not cast us from Your redeeming spirit but restore to us the joy of Your salvation. Grant us a willing spirit to sustain us in our service to You and to this Nation and to Your people.

To You, O Lord, does everything on Earth owe its life. May all that lives and breathes, glorify Your holy name this day.

Amen.

#### THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House the approval thereof.

Pursuant to clause 1 of rule I, the Journal stands approved.

#### PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Illinois (Mr. KRISHNAMOORTHI) come forward and lead the House in the Pledge of Allegiance.

Mr. KRISHNAMOORTHI led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain up to 15 requests for 1-minute speeches on each side of the aisle.

#### BORDER SECURITY IS NATIONAL SECURITY

(Mr. LAMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFA. Mr. Speaker, it should be obvious and common sense, but border security is national security. President Biden's open border policies have incentivized this historic surge in illegal immigration at our southern and northern borders.

Since taking office, over 6.4 million illegal crossings have happened at our southern border; 1.7 million known gotaways have evaded U.S. Border Patrol and are now in our country.

Every State is now a border State. Every town is now a border town. They are living in New York. Democrats are proposing that our national parks be used not for people to enjoy but to house illegal immigrants, which will only further encourage this crisis.

Republicans and Democrats alike have condemned Biden's border crisis, but we must stop incentivizing further waves of illegal immigrants by providing them with free housing.

House Republicans will continue to fight to secure our border and eliminate the financial burden illegal immigrants are putting on American taxpayers and our institutions, our towns, our States. That is why we passed H.R. 2 to secure the border, which is the strongest border security package in American history.

#### SUBMINIMUM WAGE PAID TO AIRPORT WORKERS

(Mr. KRISHNAMOORTHI asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KRISHNAMOORTHI. Mr. Speaker, thousands of janitors, bag handlers, wheelchair attendants, and others at our Nation's airports work for wages as low as \$2.13 plus tips.

That is not a typo. This is called the national subminimum wage, and it is unacceptable. Workers who help more

than 3 million airport travelers every day deserve better.

In Chicago, more than 6,000 such workers represented by SEIU Local 1 now get a living wage and decent benefits, but far too many workers still depend on the luck of a tip jar to augment their measly \$2.13 hourly wage. A \$2.13 hourly wage will not fly.

Let's ground a \$2.13 hourly wage once and for all. Let's pass the Good Jobs for Good Airports Act now.

---

**RECOGNIZING HAYLEY AND STEPHANIE PAINTER OF PAINTERLAND SISTERS YOGURT**

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I rise today to recognize Hayley and Stephanie Painter of Tioga County. The Painter sisters are fourth-generation farmers who started an organic skyr yogurt brand to preserve their family's Pennsylvania farm in 2020.

Painterland Sisters Yogurt now sells across nearly 2,000 locations at grocery stores, including Giant, Whole Foods, Sprouts, and Gristedes.

They also sell the cream left over when making yogurt to make ice cream.

Earlier this year, Painterland Sisters was named on the Forbes 30 Under 30 Food and Drink List. The Painter sisters, like many younger-generation farmers, were looking for a way to carry on their family's agricultural legacy while making it their own.

Their family's farm is home to 400 cows who graze all over the property. The Painter sisters' dedication and passion for the family farm and business have led to tremendous success.

I congratulate the Painter sisters on this magnificent accomplishment. Keep making delicious and nutritious yogurt.

Farmers feed. Nutrition matters. Whole milk heals.

**LIBERIA 100TH ANNIVERSARY**

(Ms. WASSERMAN SCHULTZ asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. WASSERMAN SCHULTZ. Mr. Speaker, I rise today to recognize the 100-year legacy of Liberia, a historically Black neighborhood, rich with culture, art, faith, strong families, and a rich legacy nestled in the city of Hollywood, Florida.

This diverse community is filled with people of all backgrounds today, but there was a time when Black residents were only afforded one option: the Liberian neighborhood.

The Liberia name is fitting, as it represents freedom.

With this spirit of freedom imbued within the people, the community was inhabited mostly by Black people from

The Bahamas and the Southern United States.

Through determination, faith, and resilience, the residents of Liberia built a community with a strong foundation where they not only could live but thrive.

Some of the early residents, such as Robert Mitchell and Henry Graham and fourth-generation Liberia resident Commissioner Linda Hill Anderson, were and are pioneers for progress for countless individuals who emerged from Liberia to become successful professionals, elected officials, athletes, artists, and role models.

I celebrate the perseverance and brilliance of this community today and for generations to come.

I congratulate Liberia on 100 years. Here is to 100 more.

---

**CONGRATULATING HOT SPRINGS VOLUNTEER RESCUE SQUAD ON THEIR 60TH ANNIVERSARY**

(Mr. CLINE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CLINE. Mr. Speaker, I rise to recognize the Hot Springs Volunteer Rescue Squad for 60 years of serving the people of Bath County.

Since 1963, the Hot Springs Rescue Squad has provided emergency medical services to its citizens including cardiac care, cave rescue, vehicle rescue, search and rescue, and water rescue, along with treatment and transport for medical and trauma patients.

With 1 paramedic, 3 intermediate, 6 advanced, 5 drivers, and 20 basic providers, the squad responds to multiple calls for service weekly, and each one of the team members conducts their job professionally and swiftly.

Throughout its history, the Hot Springs Rescue Squad and its members have been nominated and received multiple awards, including the first-place trophy at the State EMT competition in Roanoke.

The Squad's longevity stands as a testament to the civic spirit of the town and an example we should all follow: to always lend a helping hand.

I congratulate again the Hot Springs Volunteer Rescue Squad on their 60th anniversary, and I wish them many more years of success.

---

**EXPANDING MILK OPTIONS FOR SCHOOL LUNCH PROGRAMS**

(Ms. SCHRIER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. SCHRIER. Mr. Speaker, as a pediatrician, I understand that sometimes competing concerns about making sure that children who are food insecure get enough good-quality food to eat at school, and at the same time making sure those meals do not contribute to our epidemic of childhood obesity and its accompanying diseases.

It was trying to balance those priorities that led to 2012 guidelines that prohibited schools from offering 2 percent and whole milk.

Interestingly, data compiled and analyzed from multiple studies since then does not show a correlation between whole milk and increased obesity, type 2 diabetes, hypertension, or heart disease when compared with other milks. In fact, some studies show the opposite.

In addition, milk is packed with nutrients like calcium and vitamin D. As a consequence of the drop in milk consumption since these restrictions, many children lack sufficient vitamin D and calcium intake.

Vitamin D deficiency is known to adversely affect bone growth and bone density. It may also play a role in increasing the risk for autoimmune diseases. Many of my patients had very low vitamin D levels.

While some children will choose water instead of the lowest fat milks, many others will choose juice or other sugary drinks which carry zero nutritional value and pose known health risks.

I am proud to have introduced the Whole Milk For Healthy Kids Act, and I encourage my colleagues to vote with me in passing this bill.

---

**SECURING THE BORDER**

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, I have warned over 110 times that the global war on terrorism is not over with appeasement in Afghanistan leading to terrorist attacks on American families with Biden open borders.

The threat is clear. We see the shocking number of trained, well-financed mass murderers invading America, this year reaching 169. Ukraine was invaded, then Israel was invaded. Now America invaded.

House Republicans addressed the border issue earlier this year with the Secure Borders Act, blocked by Senate Democrats. It promotes restarting wall construction, advancing technology, adding border patrol, ending catch and release, and reversing executive authorities.

Each Congressional office has a rally point in the event of an attack.

I urge all families to plan a rally point. Communications may be disrupted, and every family member should know where to gather for safety before the roads are closed.

In conclusion, God bless our troops who successfully protected America for 20 years. It is sadly clear, there will be more 9/11 attacks across America, imminent as the FBI has finally revealed last week.

---

**BRIDES MARCH**

(Mr. ESPAILLAT asked and was given permission to address the House
