SENATE RESOLUTION 147—DESIGNATING APRIL 2023 AS “PRESERVING AND PROTECTING LOCAL NEWS MONTH” AND RECOGNIZING THE IMPORTANCE AND SIGNIFICANCE OF LOCAL NEWS

Mr. SCHATZ (for himself, Mr. BLUMENTHAL, Mr. PADILLA, Mr. MARKEY, Ms. CANTWELL, Mr. CASEY, Mr. WARNER, Mr. LUJÁN, Ms. HIRONO, Mr. KELLY, Mr. WYDEN, and Ms. KLOBUCHAR) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 147

Whereas the United States was founded on the principle of freedom of the press enshrined in the First Amendment to the Constitution of the United States, which declares that “Congress shall make no law . . . abridging the freedom of speech, or of the press . . .”;

Whereas an informed citizenry depends on accurate and unbiased news reporting to inform the judgment of the people;

Whereas a robust, diverse, and sustainable local news presence leads to civic engagement and the buttressing of democratic norms and practices;

Whereas the absence of local news outlets and investigative reporting allows local government corruption and corporate malfeasance to go unchecked;

Whereas local journalists help combat disinformation by using their community knowledge and connections to debunk fraudulent or misleading content;

Whereas local cable franchises routinely provide for public educational and government access channels on their systems, and those channels—

(1) offer vital local civic programming that informs communities;

(2) provide news and information not often available on other local broadcast channels or cable;

(3) supplement local journalism; and

(4) at times, are the only source for local news;

Whereas the people of the United States trust local news sources by a 2-to-1 margin; Whereas, according to recent research—

(1) the United States has lost more than 2,500 local print outlets since 2005, which accounts for ¼ of all local print outlets, and is on track to lose ½ by 2025;

(2) an average of more than 2 local print outlets are being shuttered every week in the United States;

(3) more than 200 of the 3,143 counties and county equivalents in the United States have no local newspaper at all, creating a news shortage for the 4,000,000 residents of those areas;

(4) of the remaining counties in the United States, more than ½ have only 1 newspaper

to cover populations ranging from fewer than 1,000 to more than 1,000,000 residents and ⅔ have no daily newspaper, with fewer than 100 of these counties having a digital substitute;

(5) more than ½ of all newspapers in the United States have changed owners during the past decade, and, in 2020, the 25 largest newspaper ownership companies owned ⅓ of all daily newspapers, including 70 percent of newspapers that still circulate daily;

(6) of the surviving 6,700 newspapers in the United States, not fewer than 1,000 qualify as “ghost newspapers”, or newspapers with reporting and photography staffs that are so significantly reduced that they can no longer provide much of the breaking news or public service journalism that once informed readers about vital issues in their communities; and

(7) rural counties are among the counties most deeply impacted by the loss of local reporting, as more than 500 of the 2,500 newspapers that have closed or merged since 2005 are in rural counties;

Whereas, while overall employment in newspaper, television, radio, and digital newsrooms dropped by roughly 26 percent, or 30,000 jobs, between 2008 and 2020, the plunge in newspaper newsrooms alone was much worse at 57 percent, or 40,000 jobs, during that same time period;

Whereas the number of news employees in the radio broadcasting industry dropped by 26 percent between 2008 and 2020;

Whereas digital native publications have laid off hundreds of journalists, and many of those publications have shuttered during the last year;

Whereas beat reporting, meaning the day-to-day coverage of a particular field that allows a journalist to develop expertise and cultivate sources, has ceased to be a viable career for would-be journalists due to the decimation of newsroom budgets;

Whereas requests submitted under section 552 of title 5, United States Code (commonly referred to as “Freedom of Information Act requests”), by local newspapers to local, State, and Federal agencies fell by nearly 50 percent between 2005 and 2010, demonstrating a significant drop in the extent to which local reporters request government records;

Whereas newspapers alone lost more than \$39,800,000,000 in advertising revenue between 2005 and 2020;

Whereas the sponsorship revenue of all-news radio stations dropped by 25 percent between 2019 and 2021;

Whereas there remains a significant gender disparity in newsroom employment, with women comprising approximately ⅓ of staff who are 30 years of age or older;

Whereas women who are local television news anchors and reporters, especially women of color, are often subject to harassment and stalking;

Whereas, across the United States, there are 195 newspapers published by and for Black readers, and, in recent years, many of those newspapers have seen—

(1) significant losses in advertising revenue as small businesses in their communities were forced to close; and

(2) declines in circulation due to the closures of businesses in their communities;

Whereas the number of Black journalists working at daily newspapers dropped by 40 percent between 1997 and 2014, more than for any other demographic group;

Whereas the number of print media sources published by and for American Indian readers has shrunk dramatically in recent years, from 700 media outlets in 1998 to only 200 in 2018;

Whereas Tribally-owned news outlets are often dependent on Tribal governments for funding, but most of those outlets lack the

policy structure necessary to fully protect journalistic independence;

Whereas a 2018 survey by the Native American Journalists Association found that 83 percent of respondents believed that Native press coverage of Tribal government affairs was sometimes, frequently, or always censored;

Whereas there are more than 550 Latino news media outlets in the United States, and those news media outlets rely primarily on a declining advertising revenue base;

Whereas the lack of local news impacts communities that speak languages other than English, which are often excluded from national media coverage;

Whereas more than 100 local newsrooms have closed during the COVID-19 pandemic;

Whereas the COVID-19 pandemic took a substantial economic toll on the local news industry, contributing to budget cuts, staff layoffs, and scores of newsroom closures, from which the industry has yet to fully recover;

Whereas PEN America proposed “a major reimagining of the local news space” in its 2019 call-to-action report, “Losing the News: The Decimation of Local Journalism and the Search for Solutions”, and called on society and the Federal Government to urgently address the alarming demise of local journalism; and

Whereas, half a century ago, Congress perceived that the commercial television industry would not independently provide the educational and public interest broadcasting that was appropriate and necessary for the country, and, informed by an independent report prepared by the Carnegie Commission on Educational Television, created the Corporation for Public Broadcasting, which has since ensured that radio and television include public interest educational and reporting programs using annually appropriated funds: Now, therefore, be it

Resolved, That the Senate—

(1) designates April 2023 as “Preserving and Protecting Local News Month”;

(2) affirms that local news serves an essential function in the democracy of the United States;

(3) recognizes local news as a public good; and

(4) acknowledges the valuable contributions of local journalism towards the maintenance of healthy and vibrant communities.
