

to enhance the security of existing electrical transformers from both physical and cyber threats.

Few parts of our Nation's infrastructure are more critical to everyday life and national security than our electrical grid, and it is under an alarming increase in threats over the past several years, as we all know.

In 2022 alone, a decade-high surge in attacks occurred with 101 incidents being reported in August alone. While some of these instances amounted to petty vandalism, some of the threats were serious. They were real. They were coordinated efforts to cause widespread power outages to all of our American citizens.

One such effort in Moore County, North Carolina, left nearly 50,000 people without power after two Duke Energy substations were shot at.

In 2023, extremists plotted to attack multiple energy substations in Maryland with the goal of literally destroying Baltimore.

In Michigan, this year alone, 14 different incidents of gunshot damage to transformers, regulators, and other electrical equipment have occurred.

These are clearly not isolated incidents, Mr. Chair, but rather a concerning and growing trend across the United States of America.

Perpetrators of these attacks have been part of extremist groups, including neo-Nazi groups, and have admitted to seeking to sow unrest and disrupt our infrastructure system to destroy and create anarchy in our country.

While States have begun to act on this issue, it is far past time our Federal Government got involved, ensuring that these critical pieces of infrastructure are secured from all types of threats.

This amendment seeks to build off existing efforts by increasing funding to go toward advancing security measures, increasing our efforts to better detect, deter, and to respond to these attacks.

□ 1545

This is not just a matter of infrastructure improvement. It is an investment in our Nation's security and the well-being of our citizens.

I don't even have to say this, but I will. Electricity is a modern necessity of life. Mr. Chair, this is what the American people want us to do. This is what our job is supposed to be, to make sure that we are safe and secure.

This amendment is a vital step toward protecting it from threats, both domestic and abroad, and I urge my colleagues to support this amendment.

Mr. Chair, I reserve the balance of my time.

Ms. KAPTUR. Mr. Chair, I claim the time opposition to the amendment.

The Acting CHAIR. The gentlewoman from Ohio is recognized for 5 minutes.

Ms. KAPTUR. Mr. Chair, I claim the time in opposition.

I rise in reluctant opposition to this amendment. It transfers \$10 million to

the grid deployment account from the energy efficiency and renewable energy account for the purposes to enhance the security of existing electrical transformers from cyber threats and from physical attacks from individuals.

While I very much support the intent behind this amendment to enhance the security of existing electrical transformers from cyber threats and physical attacks, I cannot support the source of the funds for the amendment, the energy and efficiency and renewable energy accounts, which have already been cut by 43 percent.

Further cutting these programs, even for noble purposes, is not in our Nation's interest. We can choose to give up American leadership in these technologies by cutting further innovation, or we can embrace the future of the global energy economy on all levels.

I point out that the Department of Energy's work to support and secure the transformer supply chain spans across the Office of Electricity, Grid Deployment, and Cybersecurity, Energy Security, and Emergency Response with other programs also contributing.

I hope the gentleman can continue to work toward his objective, but we will oppose this particular amendment. Mr. Chair, I yield back the balance of my time.

Mr. VAN DREW. Mr. Chair, I appreciate the gentlewoman's remarks. However, I respectfully disagree. We are moving from one account, which is basically forcing people to accept something that they do not want and have clearly said that does not help America.

I also respectfully will disagree with her that we are not showing American leadership. Maybe it is Chinese leadership or foreign countries leadership. We are not energy independent now. We were. We can be unbelievably energy independent. We can export energy and not only fossil fuels.

Americans lead. Americans are great. Americans have the ability to ensure that our country is number one. There is nothing wrong with American exceptionalism and being the best and doing the most.

This is part of it. We have to make sure that we do what really truly helps the American public, which is to make sure that we are safe and secure and not forcing them to accept something that is going to be very expensive and cause us to rely on foreign countries more than we ever have in our American history of entrepreneurship and exceptionalism.

Mr. Chair, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from New Jersey (Mr. VAN DREW).

The question was taken; and the Acting Chair announced that the ayes appeared to have it.

Mr. VAN DREW. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from New Jersey will be postponed.

Mr. FLEISCHMANN. Mr. Chair, I move that the Committee do now rise.

The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. VAN DREW) having assumed the chair, Mr. NORMAN, Acting Chair of the Committee of the Whole House on the state of the Union, reported that that Committee, having had under consideration the bill (H.R. 8997) making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2025, and for other purposes, had come to no resolution thereon.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 3 o'clock and 49 minutes p.m.), the House stood in recess.

□ 1630
