

a visionary leader and a scientist's scientist, serving as the connective tissue to unite and inspire the Department during this paradigm shift in technology, exactly as he had done so many times in the past.

Charlie's sudden passing came as a devastating shock to the multitude of people he touched throughout his life; the Department of Energy and the national labs are still reeling from this loss. Charlie dedicated his life to his Nation, and always did so with tremendous humility and an infectious curiosity.

But he was so much more than a public servant and scientist; he was a dedicated husband, father, and grandfather. He had a passion for the outdoors, the night sky, and regularly went backpacking with his family to share both. He was also an accomplished musician and shared his talents by performing in several local Los Alamos theater productions.

He is survived by his wife of 47 years Janet Robb McMillan, son Paul McMillan and spouse Suzanne Long, daughters Caroline McMillan and Katherine McCurry, her spouse Paul McCurry, and their son Oliver McCurry.

Charlie leaves behind an incredible legacy of national service, scientific achievement, and deep personal connections. We are proud that he chose to make New Mexico his home and grateful for the time he spent with us in our community. His significant contributions to the world and his generous spirit will be deeply missed by all who knew and loved him.

TRIBUTE TO KATE M. KÄUFER

Mr. TESTER. Mr. President, I rise to congratulate Kate M. Käufer, the fearless leader of my defense staff, on more than 20 years of distinguished Federal service and on her well-earned retirement.

For the last 4 years, it has been a privilege of a lifetime to serve as chairman of the Defense Appropriations Subcommittee supporting our military and our intelligence community. The subcommittee's unique jurisdiction appropriates more than half of the Nation's discretionary funding: \$852 billion in this year's Senate bill. It is almost impossible for any one human being to wrap their arms around such an enormous national security enterprise. But I can think of at least one exception: Kate M. Käufer.

Born in Germany, Kate began her Federal service as a Presidential Management Intern for the U.S. Marine Corps in June 2003; she joined the Defense Appropriations Subcommittee in December 2004. In her 20 years on the subcommittee, she has managed just about every appropriations account and issue in our jurisdiction with an incisive hungry analytical mind. Shipbuilding, satellites, intelligence activities, research, and innovation—you name it, Kate has left her mark. I want to extend my particular thanks to her

and her loved ones these last 2 years as my clerk, for the late nights and weekends, the interrupted family vacations, and the weight of leading an indispensable subcommittee.

Kate exemplifies the unique spirit and culture of our subcommittee. Her mantra was always, "We solve problems." In every interaction—whether with me, my colleagues, or fellow staff—she focused on getting real things done, in the most bipartisan way possible. That is quite an achievement in Washington these days. In short, she was always an upbeat professional of the first order. The Senate will miss her, as will this subcommittee.

In addition, Kate is a tremendous mentor to those around her, teaching defense appropriations courses at Georgetown University, University of North Carolina, and Defense Acquisition University. She somehow also finds the time to be an accomplished triathlete, an avid traveler and hiker, and a passionate soccer fan.

In closing, I wish continued success and happiness to Kate, her partner, and her family as she embarks on her next great adventure.
