

counter Russia, North Korea, Iran, and other foreign terrorist organizations.

Finally, this bill strengthens our nuclear deterrence, supports the Golden Dome initiative, and grows our Nation's strategic space capabilities. This is a bipartisan, must-pass piece of legislation that all my colleagues should support.

H.R. 3898, the PERMIT Act, contains targeted, balanced reforms to the permitting process under the Clean Water Act that will cut red tape, reduce project delays, and provide regulatory certainty.

H.R. 3628, the State Planning for Reliability and Affordability Act, will require State utility regulators to ensure we have reliable, secure baseload energy that keeps the lights on.

H.R. 3638, the Electric Supply Chain Act, will direct the Department of Energy to ensure we are securing our electric supply chain.

H.R. 3668, the Improving Interagency Coordination for Pipeline Reviews Act, aims to speed up the consideration of pipelines by promoting interagency coordination for reviewing certain authorizations for LNG facilities and natural gas pipelines under the Natural Gas Act.

Lastly, H.R. 3383, the INVEST Act, will strengthen public markets, produce more opportunities for investors, and expand access to capital for small businesses.

The bills before us this week give this body the chance to provide for our defense, to make energy more affordable and reliable, and provide opportunities and access to capital.

They are all worthy of support, and I urge my colleagues to join me in voting "yes" on the previous question and "yes" on the rule.

The material previously referred to by Ms. LEGER FERNANDEZ is as follows:
