

a single cell and 1,000 times faster than current methods is helping advance medicine and environmental management. And PNNL's superconducting Qubit testbed is contributing to advances in quantum computing, which can help solve problems of energy production and sustainability. PNNL researchers were named on 59 patents granted in fiscal year 2024 and on nearly 1,700 U.S. patents since 1965.

During its long history, PNNL has committed to developing the future workforce in science, technology, engineering, and mathematics. Last year alone, the lab reached more than 51,000 students and 900 educators and hosted 1,717 students as interns, a 35 percent increase since 2020. In addition, PNNL created a STEM Ambassador Program, training its scientists on how best to communicate and convey the impact and relevance of their work to various audiences. STEM Ambassadors volunteer at outreach events throughout the Richland, Seattle, and Sequim areas using interactive, hands-on displays to spark interest in STEM learning and careers. STEM Ambassadors have been invited to present at DOE's National Science Bowl, a nationwide academic competition. PNNL's STEM Ambassador Program is now a model for similar efforts at other national laboratories.

As longtime champions of PNNL, we know that we are lucky in Washington State to have such a phenomenal resource in our backyard. We want to congratulate all past and present employees of PNNL on an incredible 60 years. Thank you for everything you do for our State, our country, and our entire world. We look forward to many more years of innovation and discovery that will make our world a better, cleaner, and safer place to live.
