**SEC. 1067. SENSE OF CONGRESS ON COMPLIANCE WITH THE LAW OF WAR.**

It is the sense of Congress, whose constitutional responsibility it is to “define and punish . . . Offences against the Law of Nations” and to “make Rules for the Government and Regulation of the land and naval Forces”, that—

(1) the law of war, embodied in both treaties to which the United States is party and customary international law, binds the United States and the United States Armed Forces;

(2) consistent with the longstanding policy of the Department of Defense to comply with the law of war during all armed conflicts, the United States remains steadfastly committed to complying with its obligations under the law of war, including the fundamental principles of necessity, humanity, distinction, and proportionality;

(3) in addition to being legally required, compliance with the law of war reinforces military effectiveness, helps maintain public support and political legitimacy, and can encourage reciprocal adherence by the adversary or adherence by adversaries in future conflicts;

(4) obligations under the law of war include those that address the protection of civilians, including, among other things—

(A) prohibitions on attacks directed at civilians and civilian objects, indiscriminate attacks, and attacks expected to cause excessive harm to civilians relative to the anticipated military advantage;

(B) the requirement to take all feasible precautions to avoid, or in any event minimize, harm to civilians; and

(C) the presumption in cases of doubt as to whether a person is a civilian, that such person shall be considered a civilian;

(5) the protection of civilians is fundamentally consistent with the effective, efficient, and decisive use of force in pursuit of United States national interests;

(6) minimizing civilian casualties can further mission objectives, help maintain the

support of partner governments and vulnerable populations, and enhance the legitimacy and sustainability of United States operations critical to national security; and

(7) the United States therefore routinely imposes certain heightened policy standards that are more protective than the requirements of the law of war that relate to the protection of civilians.

**SA 2991.** Mr. DURBIN submitted an amendment intended to be proposed by him to the bill S. 2296, to authorize appropriations for fiscal year 2026 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

**SA 2992.** Mr. DURBIN submitted an amendment intended to be proposed by him to the bill S. 2296, to authorize appropriations for fiscal year 2026 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle F of title X, insert the following:

**SEC. 1067. DEFIANCE ACT OF 2025.**

(a) **SHORT TITLE.**—This section may be cited as the “Disrupt Explicit Forged Images and Non-Consensual Edits Act of 2025” or the “DEFIANCE Act of 2025”.

(b) **FINDINGS.**—Congress finds the following:

(1) Digital forgeries, often called deepfakes, are synthetic images and videos that look realistic. The technology to create digital forgeries is now ubiquitous and easy to use. Hundreds of apps are available that can quickly generate digital forgeries without the need for any technical expertise.

(2) Digital forgeries can be wholly fictitious but can also manipulate images of real people to depict sexually intimate conduct that did not occur. For example, some digital forgeries will paste the face of an individual onto the body of a real or fictitious individual who is nude or who is engaging in sexual activity. Another example is a photograph of an individual that is manipulated to digitally remove the clothing of the individual so that the person appears to be nude.

(3) The individuals depicted in such digital forgeries are profoundly harmed when the content is produced with intent to disclose, disclosed, or obtained without the consent of those individuals. These harms are not mitigated through labels or other information that indicates that the depiction is fake.

(4) It can be destabilizing to victims whenever those victims are depicted in intimate digital forgeries against their will, as the privacy of those victims is violated and the victims lose control over their likeness and identity.

(5) Victims can feel helpless because the victims—

(A) may not be able to determine who has created the content; and

(B) do not know how to prevent further disclosure of the intimate digital forgery or how to prevent more forgeries from being made.

(6) Victims may be fearful of being in public out of concern that individuals the victims encounter have seen the digital forgeries. This leads to social rupture through the loss of the ability to trust, stigmatization, and isolation.

(7) Victims of non-consensual, sexually intimate digital forgeries may experience depression, anxiety, and suicidal ideation. These victims may also experience the “silencing effect” in which the victims withdraw from online spaces and public discourse to avoid further abuse.

(8) Digital forgeries are often used to—

(A) harass victims, interfering with their employment, education, reputation, or sense of safety; or

(B) commit extortion, sexual assault, domestic violence, and other crimes.

(9) Because of the harms caused by non-consensual, sexually intimate digital forgeries, such digital forgeries are considered to be a form of image-based sexual abuse.

**(c) CIVIL ACTION RELATING TO DISCLOSURE OF INTIMATE IMAGES.**—
