#### ADMINISTRATIVE PROVISIONS

The Bureau of Indian Affairs and the Bureau of Indian Education may carry out the operation of Indian programs by direct expenditure, contracts, cooperative agreements, compacts, and grants, either directly or in cooperation with States and other organizations.

Notwithstanding Public Law 87-279 (25 U.S.C. 15), the Bureau of Indian Affairs may contract for services in support of the management, operation, and maintenance of the Power Division of the San Carlos Irrigation Project.

Notwithstanding any other provision of law, no funds available to the Bureau of Indian Affairs or the Bureau of Indian Education for central office oversight and Executive Direction and Administrative Services (except Executive Direction and Administrative Services funding for Tribal Priority Allocations, regional offices, and facilities operations and maintenance) shall be available for contracts, grants, compacts, or cooperative agreements with the Bureau of Indian Affairs or the Bureau of Indian Education under the provisions of the Indian Self-Determination Act or the Tribal Self-Governance Act of 1994 (Public Law 103-413).

In the event any tribe returns appropriations made available by this Act to the Bureau of Indian Affairs or the Bureau of Indian Education, this action shall not diminish the Federal Government's trust responsibility to that tribe, or the government-to-government relationship between the United States and that tribe, or that tribe's ability to access future appropriations.

Notwithstanding any other provision of law, no funds available to the Bureau of Indian Education, other than the amounts provided herein for assistance to public schools under 25 U.S.C. 5342 et seq., shall be available to support the operation of any elementary or secondary school in the State of Alaska.

No funds available to the Bureau of Indian Education shall be used to support expanded grades for any school or dormitory beyond the grade structure in place or approved by the Secretary of the Interior at each school in the Bureau of Indian Education school system as of October 1, 1995, except that the Secretary of the Interior may waive this prohibition to support expansion of up to one additional grade when the Secretary determines such waiver is needed to support accomplishment of the mission of the Bureau of Indian Education, or more than one grade to expand the elementary grade structure for Bureau-funded schools with a K-2 grade structure on October 1, 1996. Funds made available under this Act may not be used to establish a charter school at a Bureau-funded school (as that term is defined in section 1141 of the Education Amendments of 1978 (25 U.S.C. 2021)), except that a charter school that is in existence on the date of the enactment of this Act and that has operated at a Bureau-funded school before September 1, 1999, may continue to operate during that period, but only if the charter school pays to

the Bureau a pro rata share of funds to reimburse the Bureau for the use of the real and personal property (including buses and vans), the funds of the charter school are kept separate and apart from Bureau funds, and the Bureau does not assume any obligation for charter school programs of the State in which the school is located if the charter school loses such funding. Employees of Bureau-funded schools sharing a campus with a charter school and performing functions related to the charter school's operation and employees of a charter school shall not be treated as Federal employees for purposes of chapter 171 of title 28, United States Code.

Funds available under this Act may not be used to establish satellite locations of schools in the Bureau school system as of September 1, 1996, except that the Secretary may waive this prohibition in order for an Indian tribe to provide language and cultural immersion educational programs for non-public schools located within the jurisdictional area of the tribal government which exclusively serve tribal members, do not include grades beyond those currently served at the existing Bureau-funded school, provide an educational environment with educator presence and academic facilities comparable to the Bureau-funded school, comply with all applicable Tribal, Federal, or State health and safety standards, and the Americans with Disabilities Act, and demonstrate the benefits of establishing operations at a satellite location in lieu of incurring extraordinary costs, such as for transportation or other impacts to students such as those caused by busing students extended distances: *Provided*, That no funds available under this Act may be used to fund operations, maintenance, rehabilitation, construction, or other facilities-related costs for such assets that are not owned by the Bureau: *Provided further*, That the term "satellite school" means a school location physically separated from the existing Bureau school by more than 50 miles but that forms part of the existing school in all other respects.

The SPEAKER pro tempore. The bill shall be debatable for 1 hour equally divided and controlled by the chair and ranking minority member of the Committee on Appropriations or their respective designees.

The gentleman from Oklahoma (Mr. COLE) and the gentlewoman from Connecticut (Ms. DELAURO) each will control 30 minutes.

The Chair recognizes the gentleman from Oklahoma.

## GENERAL LEAVE

Mr. COLE. Madam Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and include extraneous material on the measure under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

Mr. COLE. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise today in support of H.R. 6938, a three-bill package covering the Commerce, Justice, Science; Energy and Water Development; and Interior and Environment appropriations measures for fiscal year 2026.

These bills are the product of bipartisan, bicameral consensus and are grounded in a Member-driven process.

As I stand here today, I think of the genius of our Founding Fathers. They designed Congress to be an engine of thoughtful and deliberative policymaking. It wasn't meant to be easy. In fact, difficulty is what separates serious legislating from political performance.

In her 250 years, America has never shied away from hard work, nor does the Appropriations Committee in carrying out our constitutional responsibilities for fiscal year 2026. Even after the longest government shutdown in history, political obstruction, and

tough deadlines, we remained resolute and took responsible steps forward to restore regular order.

I am proud to say we have ended the cycle of pork-filled omnibuses decided at the last minute. Just as importantly, we have been turning America First priorities into action. President Trump set a critical foundation by signing three appropriations bills into law in November, and we are carrying that momentum forward today. The measure before us keeps us on track to complete all 12 appropriations bills for fiscal year 2026.

With passage of these three bills, we will provide full-year funding for many of our most critical programs.

We prioritize public safety by supporting law enforcement and stopping the flow of fentanyl into our communities. We advance American strength by unleashing energy dominance, securing critical minerals, and investing in nuclear power. We uphold stewardship by protecting public lands, supporting wildland firefighters, ensuring responsible resource management, and fulfilling our obligations to our Tribal nations.

All of this is achieved while cutting waste and keeping total fiscal year '26 spending below the current continuing resolution.

These results are not accidental. They are by design, and they are the result of the hard work of our subcommittee chairmen, HAL ROGERS, MIKE SIMPSON, and CHUCK FLEISCHMANN. Thanks to their leadership, good will, attention to detail, and strong relationships with their negotiating partners, the power of the purse is, once again, being exercised by lawmakers through the committee process, as Article I intended.

To their accompanying ranking members, GRACE MENG, CHELLIE PINGREE, and MARCY KAPTUR, I thank them for their partnership and collaboration, which was instrumental to this effort.

As I look ahead to today's action, Republicans are strongest when they are focused; Democrats are more effective when they negotiate in good faith; and the country is better off when Republicans and Democrats work together.

In its Statement of Administrative Policy on this package, the White House said, in part: "The administration urges every Member of Congress to support this fiscally responsible bill, which is a win for the American taxpayer." Not surprisingly, I completely agree. I look forward to enacting these full-year appropriations and taking every action to complete our work.

With that, Mr. Speaker, I reserve the balance of my time.

Ms. DELAURO. Mr. Speaker, I yield myself 5 minutes.

Mr. Speaker, I rise today in support of this bill. It is the product of a genuine bipartisan compromise, something that was once common in this body but has since fallen out of fashion.

I am eager to share all the great things that are in this bill, but before

I do, I must take a moment to express my profound gratitude to the devoted public servants who worked tirelessly to make this happen.

They are Ranking Members GRACE MENG, MARCY KAPTUR, and CHELLIE PINGREE on the Appropriations Committee, who led these negotiations and secured crucial funding for key programs. Subcommittee staff, especially Bob Bonner, Rita Culp, Scott McKee, Adam Wilson, Nora Faye, Jamie Wise, Faye Cobb, Jocelyn Hunn, Michael Schmeltz, and Ippo Dellatolas worked through the holidays to craft this legislation. I send a shout-out to Chris Bigelow, the appropriations staff director.

Of course, I thank our Republican counterparts on the committee under the leadership of my dear friend, Chairman COLE.

When we began this process, we set out three goals: protect Democratic priorities, eliminate any poison pills, and reassert Congress' power of the purse. I am pleased to report that this package accomplishes all three.

It protects funding for key Democratic priorities, and it rejects draconian cuts proposed by the Trump administration. It invests in programs at the Department of Energy that will bring down energy costs and utility bills, which are core drivers of the ongoing affordability crisis, programs that President Trump proposed to cut or eliminate, despite the cost-of-living crisis he has led us into.

This package promotes community safety, increasing funding for Violence Against Women Act grants by \$7 million, supporting victims of abuse who otherwise would have nowhere to turn.

It rejects efforts by the Trump administration to eviscerate scientific research funding, providing \$4.8 billion more for the National Science Foundation than the White House proposed.

The agreement also rejects the Office of Management and Budget's illegal efforts to undermine America's dominance in scientific innovation across the entire government by protecting the indirect costs that research institutions depend on to do groundbreaking work with the Department of Energy, NASA, and the National Science Foundation. This is something Chairman COLE and I have worked on in the past with regard to the NIH, and it is critical for us to expand it to other agencies in this package.

The bill provides funding to protect our national parks, natural resources, endangered species, and public lands, rejecting \$9.5 billion in proposed cuts in the Interior bill. It protects our environment while restraining polluters, providing \$8.8 billion in funding for the EPA, nearly double the budget proposed by the White House.

Additionally, there is not a single poison pill policy rider in this bill. I know my friend, the chairman, and I may disagree on what constitutes a poison pill, but it is a testament to the

good faith of these negotiations that both sides agreed to drop provisions the other found truly objectionable.

I know some of my Democratic colleagues may be reticent to support a funding package for an administration that has been rife with abuse since the day they took office. I understand their concerns, and I share them. However, abandoning the appropriations process only empowers the President and the Office of Management and Budget to continue manipulating Federal spending as a partisan weapon. If we give up on appropriations, there are only two alternatives: a permanent shutdown or endless stopgaps with funding on autopilot. Neither is a viable option.

Stopgap measures afford the administration broader discretion over the budget and cede our authority over Federal spending. The more ambiguity we afford them, the more they will exploit it. One of the best ways to rein in this reckless administration is by providing precise spending levels for specific projects that they are bound by law to carry out.

That is exactly what this bill does.

Mr. Speaker, I reserve the balance of my time.

Mr. COLE. Mr. Speaker, I yield 3 minutes to the gentleman from Kentucky (Mr. ROGERS), who is the distinguished chairman of the Commerce, Justice, Science, and Related Agencies Subcommittee of the Appropriations Committee, the chairman emeritus of the full committee, and the dean of the House.

Mr. ROGERS of Kentucky. Mr. Speaker, I thank my chairman for the introduction. Mr. Speaker, as chairman of the CJS Subcommittee, I rise in support of H.R. 6938.

From national security and law enforcement to American innovation and space exploration, the CJS bill before us puts the Nation on a path to greatness while reinforcing President Trump's bold agenda on trade and combating illicit drug trafficking.

□ 1240

To continue the fight against the drug cartels that are ravaging American communities, the Drug Enforcement Administration receives an increase of \$63 million in this bill.

The bill also streamlines and enhances support for the National Weather Service to ensure Americans receive lifesaving information in times of need.

This bill is pro-law enforcement. It includes increased funding for State and local police through the Byrne Formula Grant Program and COPS hiring grants, while also making cuts to wasteful grant programs.

I thank Chairman COLE for his steady leadership. This has been a courageous effort on his part and our committee to restore regular order to the way we apportion taxpayer moneys that are entrusted to us. This legislation is a product of good faith, bipartisan negotiations.

I thank and recognize Ranking Member MENG and Ranking Member

DELAURO for their partnership as well as staff for their hard work on the bill.

Mr. Speaker, I urge a "yes" vote.

Ms. DELAURO. Mr. Speaker, I yield 4 minutes to the gentlewoman from Ohio (Ms. KAPTUR), the distinguished ranking member of the Energy and Water Development Subcommittee.

Ms. KAPTUR. Mr. Speaker, I very much thank Ranking Member DELAURO for yielding time. I also thank Chairman COLE and the chair of our committee, CHARLES FLEISCHMANN, for their cooperation. Please let me thank our diligent staff for all their hard work on this bill, both majority and minority, including from the minority staff Scott McKee, Adam Wilson, Ippo Dellatolas, and on my personal staff Jed Bullock, Kaitlin Ulin, and Margaret McInnis.

Mr. Speaker, I rise today in support of the fiscal year 2026 Energy and Water Development bill, a measure that chooses progress over retreat, American energy independence in perpetuity inside our borders, not dependence on foreign energy supplies.

At \$63.3 billion, this legislation provides a critical \$2.4 billion increase over last year. Our bill aims to help address significantly rising energy and water bills coast to coast for families, as well as climate-caused water shortages in the West and across our Nation, with crop losses from coast to coast and increasing flooding across our beloved country.

Our Nation must help communities reimagine affordable power grids and water conveyance systems. We must also assure technologies like artificial intelligence and data centers don't bankrupt the ability of families to afford to live, nor take our society down dangerous roads without a roadmap.

For those of us from the industrial and agricultural heartland, energy and water drive the lifeblood of our economies. This bill invests \$10.4 billion in the indefatigable Army Corps of Engineers. That is \$3.8 billion more than the Trump administration's shortsighted request.

It includes more dollars for harbor maintenance. It ensures that our Great Lakes stay vibrant, our ports on all coasts stay open, and our water infrastructure is built to last for Mother Nature's complexities in this century and beyond. Our bill maintains our commitment for critical regional commissions and authorities to build America forward in the underinvested corners of America right here at home.

While the White House astoundingly proposed eliminating the Weatherization Assistance Program entirely, this bill restores and increases that funding to \$329 million, a commonsense investment that puts an average of \$372 back into the pockets of thousands of struggling households in every single congressional district. Every dollar counts to make ends meet nowadays in an era marred by ill-considered Trump-inflicted tariffs that make living in America more expensive as prices rise.

To tackle the cost-of-living crisis and affordability head-on, this bill provides an additional \$375 million for electric grid modernization to help reduce prices to target the primary driver of skyrocketing utility bills and ensure every American has access to reliable, affordable power.

This bill provides \$3.1 billion for energy efficiency and renewable energy programs, an increase of \$1.3 billion over the Republican bill. Our goal seeks to secure U.S. energy independence in perpetuity to drive down prices for the long haul.

Further, with \$8.4 billion allocated for the Department of Energy's Office of Science, we invest in the next generation of technological breakthroughs. In the past, we have had some—like fracking, for example, that unleashed the gas deposits of this country, but we want those investments inside our borders. American innovators, universities, and labs—not foreign adversaries overseas—must command the new energy frontiers and not lose the edge on inventing our common future.

Finally, our bill provides an increase to \$25.4 billion for the National Nuclear Security Administration.

The SPEAKER pro tempore (Mr. ROGERS of Alabama). The time of the gentlewoman has expired.

Ms. DELAURO. Mr. Speaker, I yield an additional 30 seconds to the gentlewoman from Ohio.

Ms. KAPTUR. Mr. Speaker, I thank the gentlewoman for allowing me to focus on our National Nuclear Security Administration, where we must maintain safe, secure, and credible nuclear deterrents that power our unparalleled, remarkable nuclear Navy—thank God for them—and counter the threat of nuclear proliferation and terrorism.

Mr. Speaker, I urge my colleagues to support this bill. America can and must meet the new-age frontiers of energy and water. Let us invest in our workers, protect our water, and power our future. Future generations are depending on all of us to pass this bill.

Mr. COLE. Mr. Speaker, I yield 3 minutes to the gentleman from Idaho (Mr. SIMPSON), chairman of the Interior-Environment Subcommittee of the Appropriations Committee and my very good friend.

Mr. SIMPSON. Mr. Speaker, I am pleased to begin consideration of H.R. 6938 today, which includes the fiscal year 2026 Department of the Interior, Environment, and Related Agencies Appropriations Act.

First, I commend Chairman COLE for his leadership over the Appropriations Committee and his continued support of the Interior bill. A lot of people don't realize how hard it is to get all these bills done. We had them all marked up through the committee by the end of September, on time. That is an amazing task by the chairman of this committee, and I thank him for his continued work on this.

I also thank Ranking Member PIN-GRÉE for her partnership, as well as

Ranking Member DELAURO and the subcommittee members for their work on this bill.

The fiscal year 2026 Interior, Environment, and Related Agencies bill provides \$38.6 billion in total non-defense discretionary funding, reducing spending from fiscal year 2025 by \$1.9 billion.

This legislation prioritizes critical needs and addresses specific concerns brought to my attention through more than 8,000 Member requests.

The bill invests \$1.74 billion in 1,277 Community Project Funding and Congressionally Directed Spending projects. These projects will improve clean and drinking water infrastructure throughout this country.

This bill also fully funds all of our, what I call, must-pays, such as PILT payments—payments in lieu of taxes—to States and territories and payments to Tribes through Contract Support Costs and section 105(l) leases.

This bill eliminates waste and restores fiscal responsibility, prioritizes unleashing American energy, and protects public lands and access to those lands. It bolsters national security and public safety by reducing our reliance on foreign countries for energy and mineral resources and by increasing law enforcement funding for our land management agencies and for our Tribes.

It protects our communities, fully funding firefighter pay to support wildland firefighters and prevent catastrophic wildfires.

The bill prioritizes upholding our trust and treaty responsibilities with Tribal nations. I continue to say that I refuse to balance this budget on the backs of our Tribes, and I am proud that this bill does not do that. The bill increases support for public safety and justice through Indian Country and provides over \$8 billion to the Indian Health Service for key healthcare programs, prioritizing Federal investment where it is needed.

We need to pass this bill that efficiently invests in our priorities, supports the programs our communities care about, and reduces the bureaucratic overreach of the prior administration. This bill does just that, and it makes sensible cuts across 28 bureaus and agencies and closing one agency that has completed its mission.

Thoughtful cuts were made to the Department of the Interior, resulting in a nearly 2 percent reduction in the top line. EPA is cut by nearly 4 percent.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. COLE. Mr. Speaker, I yield an additional 30 seconds to the gentleman from Idaho.

□ 1250

Mr. SIMPSON. Mr. Speaker, renewable energy is cut by \$34 million, while providing targeted increases that preserve our Nation's natural heritage and ensure a sustainable and fiscally responsible future.

Passage of these bills will send a strong message that Congress is determined to return to regular order and deliver results for our districts.

Mr. Speaker, this bill works to ensure our priority programs receive funding without any poison pills. We had to make some tough decisions, but I am proud that this is a bipartisan, bicameral bill that both parties and Chambers see as a benefit to the American people. I urge its adoption.

Ms. DELAURO. Mr. Speaker, I yield 4 minutes to the gentlewoman from Maine (Ms. PINGREE), the distinguished ranking member of the Interior, Environment, and Related Agencies Subcommittee.

Ms. PINGREE. Mr. Speaker, I rise to support the consolidated appropriations act.

First, I thank Ranking Member DELAURO for yielding me the time, but also for her leadership and perseverance in this challenging time.

I thank Mr. SIMPSON for his collaboration and partnership in this committee, and I also thank Chairman COLE for the work he has done on this committee.

Mr. Speaker, I will give the most applause and great thanks to our committee staff, Rita Culp, Jocelyn Hunn, and Michael Schmeltz, who put in many long hours, as we know, and worked over the holidays. We wouldn't be standing here today if they and so many others on both sides of the aisle hadn't put in this work.

I am pleased we were able to reach a bipartisan agreement to produce a bill that protects Tribal lands and the environment, invests in our Tribal communities, supports the arts, and rejects billions in extreme cuts proposed by the administration.

Rather than handing the Trump administration a blank check through another stopgap measure, this bill imposes precise, legally binding spending requirements that constrain executive overreach.

This will provide much-needed funding and certainty to public land management agencies, like the National Park Service, that have suffered tremendous disruption over the past year.

The bill also protects funding for programs important to combating and adapting to climate change. It rejects House Republicans' effort to gut funding for renewable energy and funds USGS climate science.

Funding for the Environmental Protection Agency's environmental justice, a top target for this administration, is included at \$30 million. The continuation of these grants is a sharp rebuke of this administration's attack on communities of color and low-income communities facing high pollution burdens.

The bill also protects the arts and humanities, maintaining the enacted funding level for the National Endowment for the Arts and the National Endowment for the Humanities, which the administration tried to eliminate

entirely. This funding will support the arts in communities across the country.

Finally, this bill supports Native American families by investing in a strong and resilient Indian Country, including through education, public safety and justice, and healthcare programs.

Importantly, this bill strips out every single partisan poison pill rider that the Republicans tried to jam into the process, including the pesticide liability shield that would have let chemical giants evade accountability.

This bill is significantly better than a continuing resolution. It is not all that we would want or all that we should be delivering, but its investments will improve the lives of Americans.

Mr. Speaker, I urge my colleagues to support the bill.

Mr. COLE. Mr. Speaker, I yield 3 minutes to the gentleman from Tennessee (Mr. FLEISCHMANN), my very good friend and distinguished chairman of the Energy and Water Development and Related Agencies Subcommittee of Appropriations.

Mr. FLEISCHMANN. Mr. Speaker, I thank Chairman COLE for yielding time.

Mr. Speaker, I rise in strong support of H.R. 6938. As chairman of the Energy and Water Development and Related Agencies Subcommittee, I worked hard to ensure this bill includes many House Republican priorities.

The bill provides a total of \$58 billion to advance our national security, strengthen our economy, and unleash American energy dominance.

The bill delivers strong support for our national defense and provides \$25.4 billion for the National Nuclear Security Administration, prioritizing the continued modernization of the nuclear weapons stockpile and the United States Navy nuclear fleet.

The bill strengthens our Nation's energy security by advancing American leadership in deploying new nuclear technologies and supporting the administration's efforts to make full use of our Nation's vast fossil fuel resources. The bill will reduce reliance on foreign materials and secure the full supply chain of critical minerals.

The bill furthers our Nation's scientific and technological leadership, including a strong focus on laying the groundwork for AI and quantum efforts, by providing \$8.4 billion for the Department of Energy's Office of Science.

At the same time, the bill reduces funding by over 29 percent across numerous other Department programs, including the applied energy technology offices, to ensure taxpayer resources are focused on the highest priority research and development projects.

The bill also strengthens our economy and promotes public safety, providing \$10.3 billion for the great Army Corps of Engineers, including full funding of harbor maintenance and over \$2

billion for flood and storm damage reduction, and continued support for the highest priority, ongoing construction projects on the inland waterways system.

Additionally, the bill prioritizes funding for the Bureau of Reclamation for projects that increase water supply and support drought resilience.

Mr. Speaker, there are many other important provisions in the Energy and Water bill, but before I conclude, I will specifically congratulate and thank Chairman COLE for being an outstanding chairman of the full committee. He has let the cardinals do their work. He has worked with Members in the minority and the majority. He has worked with Members of the Senate and the House. Mr. Speaker, I also thank Ranking Member MARCY KAPTUR and our colleagues across the Capitol.

This is a strong bipartisan bill. It addresses America's needs and is a great bill, and it should get bipartisan support. This is a strong bill for America.

Mr. Speaker, I also thank the staff, and I do not say this lightly: My staff, Republican and Democratic staff, worked up and through Christmas and after Christmas to get this done. These men and women are outstanding. They do a great job. Let's pass this great bill for America.

Ms. DELAURO. Mr. Speaker, I yield 4 minutes to the gentlewoman from New York (Ms. MENG), the distinguished ranking member of the Commerce, Justice, Science, and Related Agencies Subcommittee.

Ms. MENG. Mr. Speaker, I rise in support of this appropriations package.

As the ranking member of CJS, this may not be the bill I would have drafted if my Democratic colleagues and I were in the majority, but it is a strong, responsible compromise that meets the needs of the American people. I will be voting in favor, and I urge my colleagues to do the same.

I am proud that this bill increases funding for grants to State and local law enforcement, including for Community Oriented Policing Services programs and the Violence Against Women Act. These funds are vital for the public safety of all of our local communities and for victim services.

Earlier proposals, including the President's budget requests in the previous House bill, eliminated funding for the community violence intervention and prevention program. Thanks to Democrats' advocacy, we secured level funding to continue this important program in this bill.

Earlier proposals also zeroed out funding for grant programs to prevent hate crimes. I am proud that we ensured these programs will continue without cuts.

We secured strong funding levels for the Economic Development Administration and the Manufacturing Extension Partnership program, which both work to create and preserve good jobs in the United States.

We continued and funded three agencies that the Trump administration wanted to eliminate entirely: the Minority Business Development Agency, the Legal Services Corporation, and the DOJ's Community Relations Service.

This bill also resoundingly rejects efforts to cut funding for basic scientific research, technology development, and STEM education at NSF and NASA.

Importantly, this bill strengthens congressional oversight and control over funding for Federal agencies, to ensure that they spend this money as Congress intended rather than for their own political purposes.

Last but not least, every single one of the extreme, partisan policy riders contained in the previous House CJS bill has been removed from the bill before us today.

I am proud of the work we have done in this bipartisan package. I thank Chairman TOM COLE and his team, and our subcommittee Chairman HAL ROGERS and his team, for their cooperation. I thank our ranking member of the Appropriations Committee, ROSA DELAURO, and her team, for her leadership. I especially thank our Appropriations subcommittee staff, Bob Bonner, Jamie Wise, Nora Faye, and Faye Cobb, for their tireless work on this, and also Tom Dinegar and Rebecca Lee from my individual office, as well.

Mr. Speaker, I urge all of my colleagues to support this bill.

□ 1300

Mr. COLE. Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. CLOUD), my very good friend and the distinguished vice chairman of the Energy and Water and Related Agencies Subcommittee of the Appropriations Committee.

Mr. CLOUD. Mr. Speaker, I rise today in support of the fiscal year 2026 Energy and Water Appropriations Act.

As vice chair of the Energy and Water Development and Related Agencies Subcommittee, I am encouraged by this bill's historic commitment to unleashing American energy dominance, while also responsibly stewarding taxpayer dollars.

We are at a time when our Nation is at an energy crossroads. Certainly, as we work to win the AI race against China, energy dominance is mandatory. This bill appropriately allocates resources to invest in our nuclear capabilities, mining production, water resources, and more.

Specifically, this bill repurposes wasteful Biden administration spending on things like unproductive carbon capture toward real infrastructure and energy production capabilities. This includes \$1.785 billion in total resources for nuclear energy technology, \$720 million in investments for fossil energy production, and \$190 million to improve cybersecurity and grid resilience.

Unleashing American energy dominance means truly building our production and infrastructure to meet the

modern demands, not just coming up with more and more regulation.

A prime example of real building is found in the \$10.435 billion secured for the Army Corps of Engineers and their projects such as improvements to the Matagorda and Corpus Christi Ship Channels in south Texas. The Port of Corpus Christi, for example, is the leading energy exporter in the country, and its strength is essential to our Nation's energy security.

In addition to these critical energy investments, this bill points investments toward desalination projects, drought response, and rural water supplies so that our communities can receive much-needed relief and long-term stability.

This bill gets us on the right path in accomplishing the Trump administration's goal of energy dominance and leaves behind wasteful and destructive, often counterproductive, Biden administration spending and regulation that created things like the Office of Energy Justice and Equity and crippled our efficient and cost-saving energy production capabilities.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. COLE. Mr. Speaker, I yield an additional 30 seconds to the gentleman from Texas.

Mr. CLOUD. Mr. Speaker, I applaud the Chair for his diligent work on this piece, and I thank him for his guidance on this committee. I look forward to our continued work, and I encourage support of this legislation.

Ms. DELAURO. Mr. Speaker, I yield 2 minutes to the gentlewoman from Minnesota (Ms. MCCOLLUM), the distinguished ranking member of the Defense Subcommittee.

Ms. MCCOLLUM. Mr. Speaker, I thank Ranking Member DELAURO and Chairman COLE for their work in bringing this bipartisan package to the floor. I especially thank Ranking Member PINGREE and Chair SIMPSON. I serve on the subcommittee with them.

Mr. Speaker, I rise in strong support of this legislation that secures funding for public safety, public infrastructure, public lands and, yes, public health. This bill will help reassert Congress' Article I power of the purse and provide clear funding direction to this administration.

I want to highlight how this bill maintains funding to our trust and treaty responsibilities to Indian Country. It continues to support education, healthcare, public safety, and human services for our Native American brothers and sisters.

This bill maintains Indian Health Service advanced appropriations, which is targeted for elimination by President Trump's budget. I thank the leaders for their work on making this part of the bill. The Tribal leaders fought hard to establish this advanced appropriations security, and I am glad it is included. I am so proud of our bipartisan ranking members working hard to get this provision and this bill across the line.

I am pleased this bill includes nearly \$9 billion for the Environmental Protection Agency, a significant increase over the House position and twice that of what the White House had proposed for the EPA.

This bill also fully funds the National Endowment for the Arts and the Humanities at \$207 million each. This bill, as has been pointed out, rejects all the poison pill riders.

Mr. Speaker, I urge my colleagues to support this appropriations bill.

Mr. COLE. Mr. Speaker, I yield 1 minute to the gentleman from Florida (Mr. FRANKLIN).

Mr. SCOTT FRANKLIN of Florida. Mr. Speaker, I rise today in strong support of H.R. 6938, which includes the FY26 Energy and Water Appropriations bill.

This bill makes critical investments in our national defense by increasing Department of Energy defense program funding by \$912 million. This includes \$25.4 billion for the National Nuclear Security Administration, an increase of \$1.3 billion. These funds ensure we can maintain today's nuclear stockpile, prepare for future needs, and modernize aging infrastructure that underpins our nuclear deterrent.

Our bill also delivers a nearly 10 percent increase for naval reactors, advancing Columbia-class submarine reactor development, and supporting the safe handling of naval spent fuel.

This package is not just about national defense. It reins in the Biden administration's climate agenda that dismantled our energy independence and hurt American consumers. Instead, it refocuses the Federal Government on affordable and reliable energy that will drive down costs.

For Florida, this bill continues funding for critical infrastructure projects that protect our waterways, help our rural communities, and grow our economy.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. COLE. Mr. Speaker, I yield an additional 30 seconds to the gentleman.

Mr. SCOTT FRANKLIN of Florida. Mr. Speaker, this is a huge win for our national security and for all Americans, and I urge my colleagues to support it.

Ms. DELAURO. Mr. Speaker, I yield 2 minutes to the gentlewoman from Pennsylvania (Ms. DEAN), a member of the Appropriations Committee.

Ms. DEAN of Pennsylvania. Mr. Speaker, I rise today in support of the negotiated FY26 Commerce, Justice, Science; Energy and Water Development; and Interior and Environment Appropriations Act.

As a new member of the CJS Committee, I am pleased to have been part of crafting this legislation. I thank my fellow Appropriations Committee members and staff for their extraordinary hard work making this bill happen.

Despite being in the minority, Democrats on the Appropriations Committee

have fought for months to reject the Trump administration's proposed cuts to crucial programs, programs that make our communities safer and support our law enforcement. Our fight was fruitful.

For example, we secured \$50 million for community violence intervention and prevention initiative grants, despite the President and the House Republicans' attempts to eliminate this funding that so many of our local law enforcement rely upon. These programs have immeasurably reduced crime and gun violence.

We successfully removed 76 partisan policy riders that would have eliminated firearms trafficking regulations, climate change, and so much more.

Further, this bill provides \$938 million for STEM education so that we can invest in the next generation of innovators, despite the House Republicans' attempt to eliminate this funding.

Overall, this is a strong repudiation of the Trump administration's antiscience agenda. The Interior and Environment bill appropriates \$8.8 billion for the EPA and includes provisions to protect staffing levels at EPA so that the agency can perform its mission to protect human health and the environment.

The Energy and Water bill includes strong funding for energy research and innovation programs including energy efficiency and renewable energy programs.

This isn't just good for the environment. It is good for business. Amid rising energy demands and higher prices, an increase of \$3 million to the Weatherization Assistance Program will help low-income households reduce their home energy use.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Ms. DELAURO. Mr. Speaker, I yield an additional 30 seconds to the gentlewoman.

Ms. DEAN of Pennsylvania. Mr. Speaker, these bills, while not perfect, reflect months of hard work by the Democrats to fight against the administration's cuts to vital programs and services so many Americans rely upon.

They reassert Congress' power of the purse, impose checks on the administration, and provide stability to our country and economy by avoiding another stopgap measure.

Mr. Speaker, I thank Chairman COLE. I thank the ranking member. It has been a privilege to serve on this committee, and I urge my colleagues to join me in supporting the package.

□ 1310

Mr. COLE. Mr. Speaker, I yield 2 minutes to the gentleman from Missouri (Mr. ALFORD), my very good friend.

Mr. ALFORD. Mr. Speaker, I thank the chair and my good friend, Ranking Member ROSA DELAURO, for their leadership.

Mr. Speaker, for too long, Washington has governed by crisis: shut-

down threats, continuing resolutions, these omnibus bills, and backroom deals that the American people never asked for.

Mr. Speaker, this bill proves that those days are coming to an end. The Commerce, Justice, Science; Energy and Water Development; and Interior and Environment Appropriations Act, 2026 is bipartisan, bicameral, and built the right way—from the ground up, from subcommittees up.

It strengthens our national security, restores American energy dominance, backs law enforcement, combats illicit drugs, and supports responsible land management, all while spending less than the current continuing resolution.

Mr. Speaker, that is not chaos. That is responsible governing. There are no poison pills, no partisan games, and full-year funding that takes shutdown leverage off the table and allows America to plan, build, and lead.

As an appropriator, I am proud of what this bill delivers for Missouri's Fourth Congressional District. There are several investments that I won't go into here, but I am proud of this process. I am proud to be under the leadership of TOM COLE. I have never seen a committee—and I know I have been on your committee, as well. I have never worked this hard in my life, but I have never been more proud of what I am able to do in this body and on this committee.

Mr. Speaker, I urge passage of this bill.

Ms. DELAURO. Mr. Speaker, I yield 2 minutes to the gentleman from Indiana (Mr. MRVAN), a member of the Appropriations Committee.

Mr. MRVAN. Mr. Speaker, I thank the ranking member for this time.

Mr. Speaker, since my first day as an elected Federal official, I sought to serve on the House Appropriations Committee because the work of this committee is so critical to the economic success of our Nation and the safety of our communities.

This focus and interest are also what led me to choose to be a member of the Energy and Water Development and Related Agencies Subcommittee and the Commerce, Justice, Science, and Related Agencies Subcommittee. I am so pleased today that a reasonable and bipartisan version of these two measures is included in this legislation.

I thank the ranking member and the chairman of both the full committee and these subcommittees, as well as all the dedicated staff, for their similar commitment to put in the hours, find common ground, and move these essential bills forward.

Notably, I express my profound appreciation for the inclusion of the community project funding requests in these measures, including the funds specific to the members of northwest Indiana law enforcement agencies. I am grateful every day for the selfless service and sacrifice that first responders, including our local police, fire departments, and emergency personnel, provide to our communities every day.

These requested funds will ensure that our officers and public safety personnel have the resources that they need to carry out their responsibilities safely and effectively, while ensuring that families in northwest Indiana can live, work, play, and raise their children without fear.

I thank the leaders of this committee for advocating for a transparent process that allows Members to advocate safely for the well-being of the communities that we represent and for prioritizing the protection of northwest Indiana and our neighborhoods.

Mr. Speaker, I look forward to supporting this measure and continuing to work with the Appropriations Committee to deliver real, meaningful public safety investments for the people whom I serve.

Mr. Speaker, I also thank ROSA DELAURO, our ranking member, and Chairman COLE for the countless hours truly working in a bipartisan way and being an example to me of how people should work together for the interests of our Nation. I thank them both very much for their work on this bill, and it is a pleasure to serve on their committee.

Mr. COLE. Mr. Speaker, I yield 2 minutes to the gentleman from Alabama (Mr. STRONG), my very good friend and distinguished vice chairman of the Commerce, Justice, Science, and Related Agencies Subcommittee of the Appropriations Committee.

Mr. STRONG. Mr. Speaker, as vice chair of the Commerce, Justice, Science, and Related Agencies Subcommittee, I rise in strong support of this legislation.

Mr. Speaker, our Republic is alive and well. This bill refocuses Washington's spending. It cuts waste, restores accountability, and delivers on President Trump's agenda. It cracks down on fentanyl and foreign adversaries, defends American values and principles, and ensures that taxpayer dollars are spent on public safety and national security, not bloated bureaucracy.

It provides strong support for State and local law enforcement partnerships, and it defends the Second Amendment and America's right to bear arms.

Republicans are working to advance regular order and deliver results for the American people—reliable and affordable energy, strong national security, safe communities, and long-term fiscal responsibility. The appropriations process works for America.

I also highlight the provisions important to my community and, as a result, the security of our Nation. This bill ensures continued American dominance in space, making crucial investments that secure the future of the space launch system, human landing system, and nuclear thermal propulsion, for all of which Marshall Space Flight Center in north Alabama plays a central role.

These investments reinforce America's leadership in space through competition and innovation, while

strengthening our national security, protecting taxpayers' dollars, and ensuring NASA remains focused on results.

This legislation returns the FBI to its core mission and ensures that our dedicated FBI agents are back in the field and out of the beltway. There is no better place to achieve this than the FBI Redstone in Huntsville, Alabama. We are making America safe and secure again.

This is a responsible bill that supports law enforcement, strengthens national security, and puts America first.

Mr. Speaker, I thank Chairman COLE, Ranking Member DELAURO, and Chairman ROGERS for their steady leadership throughout this process, and I thank the subcommittee staff for their hard work on this legislation.

Mr. Speaker, I urge all Members to support this bill. Our time is now.

Ms. DELAURO. Mr. Speaker, I yield 1 minute to the gentleman from Puerto Rico (Mr. HERNÁNDEZ).

Mr. HERNÁNDEZ. Mr. Speaker, I rise in support of this bill because investing in energy infrastructure, education, and public safety is not optional. It is essential.

Mr. Speaker, I will focus on what this bill does for the people of Puerto Rico. I have the honor to represent them in the United States Congress.

This bill incorporates one of my amendments and assigns \$235 million for the Department of Energy to support grid modernization in the 50 States and Puerto Rico, which so direly needs it.

This bill also incorporates another of my amendments to provide \$14 million to the Corps of Engineers that could support water infrastructure projects in Puerto Rico, which so direly needs it.

In this bill, we also secured \$1.7 million in community project funding that updates crime prevention technology in Juana Diaz, provides new patrol vehicles in Cabo Rojo, and supports STEM education in San Juan.

This bill is an important step in delivering Federal funding for Puerto Rico and communities across the United States. I praise the bipartisan work led by the chairman and ranking member. Let's continue marching forward and finish the six remaining bills. The American people deserve a Congress that works for them.

Mr. COLE. Mr. Speaker, I am prepared to close, and I reserve the balance of my time.

Ms. DELAURO. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, I extend my thanks to Chairman COLE, an incredible partner in working on all 12 appropriations bills.

The Appropriations Committee is the lifeblood of the government. It is a place where you can only achieve work on behalf of the American people through bipartisan, bicameral legislation. Without it, we know what happens: the catastrophe with the con-

tinuing resolutions that go on forever, or the government shuts down. That is not a path to success on behalf of the people of this country.

Mr. Speaker, I continue to say that it is the lifeblood of our government. Those of us who serve on the Appropriations Committee know that. I will be bold in saying that, quite frankly, if they left these things to us, we would get them done. In this regard, we have. We are through six bills. We have six more to go. We are going to get this done, and we are going to meet the January 30 deadline.

Mr. Speaker, I am proud of this bill. I am proud of the process that produced it.

□ 1320

We have shown good faith, bipartisan negotiation is still possible in an era of increasing polarization, and the kind of constructive conversations that produced this package continue with regard to the remaining six funding bills. The negotiations are ongoing. We haven't stopped the conversations in order for us to meet that January 30 deadline, and I remain confident that we can meet the deadline and avoid another continuing resolution.

Mr. Speaker, I yield back the balance of my time.

Mr. COLE. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, I will begin by recognizing the hard work of my distinguished ranking member and my very good friend, Ms. DELAURO from Connecticut. We have had the opportunity to work together for a long time in a variety of capacities, and I particularly appreciate the cooperation, the bipartisanship, and the professionalism that she and her whole staff always show when we sit down. To paraphrase my friend, if they would just leave us alone, we will get this job done. I could not have a better working partner than my good friend from Connecticut.

I am very proud that this bill is, as my friend said, bipartisan. This has been in negotiation at every level, and the ranking member and I have worked hard to push the decisionmaking down to the subcommittee levels as much as we possibly can. I know we have both told our respective chairmen and ranking members: "Hey, if you don't send us anything up, you are making us happy. We want you to make the decisions." The members of the subcommittees know the subject matter better than anybody else. They have done the hearings. They have done the work. They work well. The higher up the food chain it goes, frankly, the more political the decisions become and the less informed. Let the people who have actually done the work write the bills. In this case, in these three and the three preceding bills, that is exactly what happened, and I couldn't be more pleased with that result.

I would be remiss not to build on a remark my friend, Ms. MCCOLLUM, made in her speech. I am very proud of

this bill on Native-American issues, which have been a bipartisan priority over the years. I am proud of all of my cardinals and all of my ranking members, but particularly the relationship between Mr. SIMPSON and Ms. PINGREE, which we have seen on this committee before, and my friend, Ms. MCCOLLUM, who also has chaired this subcommittee earlier in her career. As a matter of fact, we worked together on the matter that she mentioned in terms of forward-funding for Indian healthcare. It has just been a pleasure in these areas where we have so much in common and a common commitment to fulfill our trust obligations.

I, for one, am very proud of the community projects in this bill. It allows the Members, not just on our committee, but across the entire Congress, to do things that they think are important for their constituents. They are the best people to make that judgment because they represent them in the House.

My friend, again, Ms. DELAURO, has worked over the years to build a system that will make sure that these things are used appropriately, honestly, and openly. We continue to work together on that matter. Again, I am very proud of her.

Mr. Speaker, I want to join every other speaker today, which is unusual in a very partisan-polarized era, to urge the passage of this bill. We have worked together. We have worked in good faith. We have worked effectively. We have actually cut spending in these bills collectively. I think we have a common commitment to get the most out of our tax dollars.

I think this is a three-bill package, as the previous three-bill package was, that Members of this body can be proud of, should point to, and should celebrate. When we have bipartisan, bicameral cooperation and work together, we can get the job done and do a great job for the American people. I share my good friend Ms. DELAURO's opinion in this case, that is exactly what we did.

Mr. Speaker, I urge support for the bill and urge its passage. I urge my colleagues to support this, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. GOLDMAN of Texas). All time for debate has expired.

Pursuant to House Resolution 977, the previous question is ordered.

Pursuant to section 4(a) of House Resolution 977, the Chair will put the question on retaining Division A of the bill, and then retaining Divisions B and C.

The question is: Shall Division A of the bill be retained?

Pursuant to section 4(b) of House Resolution 977, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX and the order of the House of today, further proceedings on this question will be postponed.

## FINISH THE ARKANSAS VALLEY CONDUIT ACT—VETO MESSAGE FROM THE PRESIDENT OF THE UNITED STATES

The SPEAKER pro tempore. Pursuant to the order of the House of January 2, 2026, the unfinished business is the further consideration of the veto message of the President on the bill (H.R. 131) to make certain modifications to the repayment for the Arkansas Valley Conduit in the State of Colorado.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is, Will the House, on reconsideration, pass the bill, the objections of the President to the contrary notwithstanding?

(For veto message, see proceedings of the House of January 2, 2026, at page H6135.)

The SPEAKER pro tempore. The gentleman from Arkansas (Mr. WESTERMAN) is recognized for 1 hour.

Mr. WESTERMAN. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from California (Mr. HUFFMAN), the ranking member of the House Committee on Natural Resources, pending which I yield myself such time as I may consume.

### GENERAL LEAVE

Mr. WESTERMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the veto message of the President of the United States to H.R. 131.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Arkansas?

There was no objection.

Mr. WESTERMAN. Mr. Speaker, H.R. 131, the Finish the Arkansas Valley Conduit Act, facilitates the construction of the Arkansas Valley Conduit, or AVC, by easing the repayment requirements for project beneficiaries.

The AVC is designed to provide potable water from Pueblo Reservoir to 39 communities in southeastern Colorado, many of which are dependent on groundwater supplies that contain unacceptable levels of naturally-occurring heavy metals and radionuclides. According to the Southeastern Colorado Water Conservancy District, 18 of those communities are currently failing to meet Federal drinking water standards due to these contaminants.

H.R. 131 passed the House Committee on Natural Resources and then the House of Representatives in July 2025. However, President Trump has returned H.R. 131 to the House without his approval. I respect the administration's views on this legislation and its commitment to fiscal responsibility. President Trump's record demonstrates a commitment to prioritizing unleashing abundant water supplies across the West.

Mr. Speaker, I reserve the balance of my time.

Mr. HUFFMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, in 1962, Congress authorized a 130-mile pipeline, known as the Arkansas Valley Conduit, to deliver clean, reliable water to communities in southeastern Colorado. More than 60 years later, the project remains uncompleted, while communities in the region continue to face unreliable water supplies and serious water quality challenges.

The drinking water sources they rely on are often contaminated with unsafe levels of radium, uranium, and other pollutants. Treating these contaminants places a significant burden on rural communities and forces many families to rely on bottled water or expensive filtration systems to meet basic needs that we all take for granted.

The Arkansas Valley Conduit was designed to address these challenges, but the project is still not completed largely because the communities that it will serve do not have the financial capacity to meet the traditional repayment obligations. They need our help.

For over a decade, the Colorado delegation has worked to advance this project so that families in southeastern Colorado can finally have access to clean, safe drinking water. Senators BENNET and HICKENLOOPER helped secure \$500 million through the Infrastructure Investment and Jobs Act for this project that was a major step toward completion.

Last year, this body worked in a bipartisan manner to pass H.R. 131. Now, as introduced, Representative BOEBERT's bill did raise some concerns about removing interest payments and extending the repayment period, but our colleagues in the Senate worked to address these shared concerns, and we in the Natural Resources Committee came together to build on that work to ensure that this legislation addresses the real water reliability challenges facing the people of southeastern Colorado while remaining consistent with core reclamation law principles.

Together, Congress sent the President a carefully negotiated and narrowly tailored bipartisan bill to support the completion of this project.

The administration has no problem subsidizing water for certain stakeholders, including large-scale agricultural projects, yet when it comes to a tailored bill to ensure access to safe drinking water for rural communities, unfortunately, the President has taken a different path.

Now, we are going to talk about the merits of this bill today, I am sure, but we all know that this veto has nothing to do with fiscal policy, nothing to do with the merits. There has been extensive reporting that raises broader concerns about the administration's posture toward the State of Colorado and even toward the sponsor of this bill.

We know what this veto was about, and the message that that sends to Colorado and communities awaiting the
