Congressional Record

PROCEEDINGS AND DEBATES OF THE 119th CONGRESS, SECOND SESSION

Vol. 172

WASHINGTON, THURSDAY, JANUARY 8, 2026

No. 5—Book II

House of Representatives

EXPLANATORY STATEMENT SUBMITTED BY MR. COLE, CHAIR OF THE HOUSE COMMITTEE ON APPROPRIATIONS, REGARDING H.R. 6938, COMMERCE, JUSTICE, SCIENCE; ENERGY AND WATER DEVELOPMENT; AND INTERIOR AND ENVIRONMENT APPROPRIATIONS ACT, 2026

The following is an explanation of the Commerce, Justice, Science; Energy and Water Development; and Interior and Environment Appropriations Act, 2026.

This Act includes 3 regular appropriations bills for fiscal year 2026. The divisions contained in the Act are as follows:

- Division A—Commerce, Justice, Science, and Related Agencies Appropriations Act, 2026
- Division B—Energy and Water Development and Related Agencies Appropriations Act, 2026
- Division C—Department of the Interior, Environment, and Related Agencies Appropriations Act, 2026

Section 1 of the Act is the short title of the bill.

Section 2 of the Act displays a table of contents.

Section 3 of the Act states that, unless expressly provided otherwise, any reference to “this Act” contained in any division shall be treated as referring only to the provisions of that division.

Section 4 of the Act states that this explanatory statement shall have the same effect with respect to the allocation of funds and implementation of this legislation as if it were a joint explanatory statement of a committee of conference.

Section 5 of the Act provides a statement of appropriations.

DIVISION A—COMMERCE, JUSTICE, SCIENCE, AND RELATED AGENCIES APPROPRIATIONS ACT, 2026

The joint explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 119-272 (“the House report”) and the Senate Report 119-44 (“the Senate report”) carries the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement or the act. While some language is repeated for emphasis, it is not intended to negate the language referred to

above unless expressly provided herein. In cases where the House report and the Senate report direct the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations (“the Committees”).

Each department and agency funded in this act shall follow the directions set forth in this act and the accompanying explanatory statement and shall not reallocate resources or reorganize activities except as provided herein. Reprogramming procedures shall apply to: funds provided in this act; unobligated balances from previous appropriations acts that are available for obligation or expenditure in fiscal year 2026; and non-appropriated resources such as fee collections that are used to meet program requirements in fiscal year 2026. These procedures are specified in section 505 of this act.

Any reprogramming request shall include any out-year budgetary impacts and a separate accounting of program or mission impacts on estimated carryover funds. Any program, project, or activity cited in this explanatory statement, the House report, or the Senate report and not changed by this act, shall be construed as the position of the Congress and shall not be subject to reductions or reprogramming without prior approval of the Committees. Further, any department or agency funded in this act that plans a reduction-in-force shall notify the Committees by letter no later than 45 days in advance of the date of any such planned personnel action.

When a department or agency submits a reprogramming or transfer request to the Committees and does not receive identical responses, it shall be the responsibility of the department or agency seeking the reprogramming to reconcile the differences between the two bodies before proceeding. If reconciliation is not possible, the items in disagreement in the reprogramming or transfer request shall be considered unapproved. Departments and agencies shall not submit reprogramming notifications after July 1, 2026, except in extraordinary circumstances. Any such notification shall include a description of the extraordinary circumstances.

In compliance with section 528 of this act, each department and agency funded in this act shall submit spending plans, signed by the respective department or agency head, for the Committees’ review not later than 45 days after the date of enactment of this act.

In lieu of Senate language regarding “Access to High-Quality Affordable Child Care for Federal Employees”, the agreement directs each department or agency funded in this act to report to the Committees, within 180 days of the date of enactment of this act, and include in annual budget justifications thereafter, on their efforts to help provide access to high-quality affordable child care for the children of those Federal employees. The reports shall detail all current programs or efforts that assist department or agency employees with child care, identify programs—including for recruitment and retention—that assist with child care, provide the number of employees utilizing such programs, and detail associated costs.

The agreement acknowledges that there is room for improvement in the system used to identify and recover indirect cost rates under the Uniform Guidance, particularly with respect to the need for greater transparency into these costs. Various models have been suggested to achieve these improvements, including the Financial Accountability in Research (FAIR) model advanced by the Joint Associations Group on Indirect Costs (JAG), which the Committees believe merit further consideration.

TITLE I

DEPARTMENT OF COMMERCE

INTERNATIONAL TRADE ADMINISTRATION

OPERATIONS AND ADMINISTRATION

The agreement includes \$582,000,000 in total resources for the International Trade Administration (ITA). This amount is offset by \$20,000,000 in estimated fee collections, resulting in a direct appropriation of \$562,000,000. The agreement directs ITA to apply reductions amongst the business units proportionally, to the extent practicable to maintain current staffing levels.

Travel and Tourism.—The agreement provides up to \$3,500,000 for ITA to continue implementing the “Visit America Act.”

Promoting U.S. Competitiveness in Infrastructure.—The agreement directs ITA’s Office of Trade Remedy Compliance to enhance ongoing efforts to facilitate the use of U.S. developed construction codes in foreign markets to increase market access for U.S. exporters of construction-related goods and services and to counteract the People’s Republic of China’s (PRC) influence. Through the PRC’s Belt and Road Initiative, the PRC forces the

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Printed on recycled paper.

H255

use of PRC construction standards in recipient countries. PRC standards align with Chinese manufacturing and construction practices that are less rigorous than U.S. developed construction codes and encourage low cost over strong quality construction, creating a “race to the bottom” that disadvantages U.S. industry in affected markets.

Rural Export Assistance.—The agreement provides up to \$1,000,000 for rural export centers and not less than \$1,000,000 for the National Rural Export Center.

**BUREAU OF INDUSTRY AND SECURITY
OPERATIONS AND ADMINISTRATION**

The agreement includes \$235,000,000 for the Bureau of Industry and Security (BIS).

Enforcement of Export Licenses.—The agreement strongly supports the Department’s efforts to keep America at the forefront of cutting-edge technologies, particularly those with significant national security implications like high end semiconductors for artificial intelligence. In recognition of the need to tightly control these technologies, the agreement provides an increase of not less than \$10,000,000 above the fiscal year 2024 enacted level for the enforcement of the restrictions on end uses and end users for products classified under Export Control Classification Number 3A090 and related technologies. Further, BIS shall provide a briefing to the Committees, within 45 days of enactment of this act, on how BIS is complying with 50 U.S.C.4815(c) for applications to export to entities located in the PRC for such products.

Semiconductor Manufacturing International Corporation.—In lieu of House language under this heading, the agreement directs BIS to review all licenses issued to entities to export to Huawei, Semiconductor Manufacturing International Corporation, or any of their subsidiaries and, through the inter-agency license review process, rescind licenses, as appropriate. The agreement directs BIS to report to the Committees no later than 30 days after enactment of this act on the implementation of this directive.

Emerging and Foundational Technologies.—In lieu of House language under this heading, the agreement directs BIS to continue ongoing assessment of all technologies identified by the Office of National Science and Technology Council in February 2024 as “critical and emerging technologies,” for the purpose of preventing foreign adversaries from obtaining U.S. emerging and foundational technologies. BIS is further directed to report to the Committees no later than 180 days after enactment of this act on the implementation of this directive.

Taiwan and Finland Export Control Officers.—The agreement includes not less than \$2,000,000 to support the hiring of export control officers in the increasingly important jurisdictions of Taiwan and Finland.

Revision of Firearms License Requirements.—Due to BIS’s rescission of interim final rule “Revision of Firearms License Requirements” (89 FR 34680), the agreement does not adopt the Senate report language under this heading.

ECONOMIC DEVELOPMENT ADMINISTRATION

The agreement includes \$466,000,000 for the programs and administrative expenses of the Economic Development Administration (EDA).

**ECONOMIC DEVELOPMENT ASSISTANCE
PROGRAMS**

The agreement includes \$400,000,000 for Economic Development Assistance Programs. Funds are to be distributed as follows:

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS	
(In thousands of dollars)	
Program	Amount
Public Works	\$100,000
Partnership Planning	34,500
Technical Assistance	10,000
Research and Evaluation	2,000
Trade Adjustment Assistance	7,500
Economic Adjustment Assistance	39,500
Assistance to Indigenous Communities	5,000
Assistance to Coal Communities	80,000
Regional Innovation Program Grants (Build 2 Scale)	50,000
Workforce Training Grants	10,000
Regional Technology and Innovation Hubs	41,000
STEM Apprenticeship Program	2,500
Recompute	18,000
Total, Economic Development Assistance Programs	\$400,000

SALARIES AND EXPENSES

The agreement includes \$66,000,000 for EDA salaries and expenses.

**MINORITY BUSINESS DEVELOPMENT AGENCY
MINORITY BUSINESS DEVELOPMENT**

The agreement includes \$50,000,000 for the Minority Business Development Agency (MBDA), to perform the statutory functions of MBDA as authorized under the Minority Business Development Act of 2021 (division K of Public Law 117–58), including support for Business Center operations.

Office of the Native American Business Development.—The agreement adopts House language under this heading and provides \$2,500,000.

Native Entities.—The agreement adopts the Senate language under this heading.

MBDA Transfer.—The agreement does not adopt the Senate language under this heading to eliminate the authority to transfer MBDA funds.

ECONOMIC AND STATISTICAL ANALYSIS

SALARIES AND EXPENSES

The agreement includes \$118,000,000 for Economic and Statistical Analysis (ESA), including up to \$7,748,000 for the Office of the Under Secretary for Economic Affairs.

BUREAU OF THE CENSUS

The agreement includes \$1,490,349,000 for the Bureau of the Census (“Census Bureau”).

CURRENT SURVEYS AND PROGRAMS

The bill provides \$318,500,000 for the Current Surveys and Programs account.

PERIODIC CENSUSES AND PROGRAMS

The bill provides \$1,171,849,000 in direct appropriations for the Periodic Censuses and Programs account.

**NATIONAL TELECOMMUNICATIONS AND
INFORMATION ADMINISTRATION**

SALARIES AND EXPENSES

The agreement includes \$50,000,000 for the salaries and expenses of the National Telecommunications and Information Administration (NTIA).

Broadband Equity Access and Deployment (BEAD) Coordination.—In lieu of language in the House report under this heading and the heading “Rate Regulation,” the agreement directs NTIA to ensure BEAD awards comply with section 60102(h)(5)(D) of the Infrastructure Investment and Jobs Act (Public Law 117–58).

Broadband Investments under the Infrastructure Investment and Jobs Act (IIJA).—No later than 30 days after enactment of this act, NTIA shall provide a briefing to the Committees on its plans and timeline for expending all remaining funds provided by IIJA for the BEAD program.

FACILITIES MANAGEMENT AND CONSTRUCTION

The agreement includes \$1,000,000 for necessary expenses for the design, construction, alteration, improvement, maintenance, and repair of buildings and facilities managed by NTIA.

**UNITED STATES PATENT AND TRADEMARK
OFFICE**

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The agreement includes language making available to the United States Patent and Trademark Office (USPTO) \$4,956,000,000, to be derived from offsetting fee collections estimated for fiscal year 2026 by the Congressional Budget Office.

Northern New England Community Outreach Office.—The agreement adopts the Senate language regarding the Northern New England Community Outreach Office. In addition, the agreement directs USPTO to expand the quarterly updates required under such language to include the status of all community outreach office locations nationwide, consistent with the implementation of the Unleashing American Innovators Act of 2022 (division W of Public Law 117–328).

**NATIONAL INSTITUTE OF STANDARDS AND
TECHNOLOGY**

The agreement includes \$1,847,136,000 for the National Institute of Standards and Technology (NIST).

**SCIENTIFIC AND TECHNICAL RESEARCH AND
SERVICES**

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$1,249,239,000 for NIST’s Scientific and Technical Research and Services (STRS) account. The agreement provides up to the fiscal year 2024 enacted level for the Senate directions on “Cybersecurity”, “Circular Economy”, “Pyrrhotite Testing and Mitigation”, “Regenerative Medicine Standards”, and “Dr. David Satcher Cybersecurity Education Grant Program”.

Forensic Sciences.—The agreement provides up to \$22,000,000 for forensic science research, including up to \$3,500,000 to support the Organization of Scientific Area Committees, up to \$1,500,000 for a competitive Standards Development Organization grant, and up to \$1,500,000 to support technical merit evaluations.

Critical and Emerging Technologies.—The agreement includes no less than the fiscal year 2024 enacted level to support NIST’s standards development work across areas of critical and emerging technology.

Artificial Intelligence (AI).—The agreement provides no less than \$55,000,000 for NIST’s ongoing AI research and measurement science efforts. Within the funds provided, up to \$10,000,000 is to expand on NIST’s AI efforts through the U.S. Center for AI Standards and Innovation to advance AI research, standards, and testing. The agreement adopts House direction under the heading “Evaluation of Chinese and U.S. AI Capabilities” and Senate direction under the headings “AI Model Evaluations” and “Foreign AI Model Evaluations”.

NIST Center of Excellence and Full-Scale Testing Center for Building Technologies.—The agreement adopts Senate language regarding the establishment of a NIST Center of Excellence and Full-Scale Testing Center for Building Technologies.

Unmanned Aerial Systems (UAS) Training for First Responders.—The agreement supports NIST working to collaborate and facilitate credentialing with the Federal Aviation Administration (FAA) Center of Excellence for Unmanned Aerial Systems Research (AS-SURE) on course development, delivery, and credentialing based on NIST’s standard test method and directs that a focus be on first responders in underserved communities.

Climate and Energy Measurement, Tools, and Testbeds.—The agreement includes no less than \$52,000,000 for the program.

NIST STRS Community Project Funding/NIST External Projects.—The agreement includes

\$405,331,366 for NIST STRS Community Project Funding/NIST External Projects. The agreement directs NIST to provide the funding for the projects listed in the table titled “Community Project Funding/Congressionally Directed Spending” at the end of this joint explanatory statement in the corresponding amounts. The agreement further directs NIST to perform the same level of oversight and due diligence as with any other external partners.

INDUSTRIAL TECHNOLOGY SERVICES

The agreement includes \$212,000,000 for Industrial Technology Services (ITS), including \$175,000,000 for the Hollings Manufacturing Extension Partnership (MEP). The agreement also provides \$37,000,000 for the Manufacturing USA Program.

Hollings Manufacturing Extension Partnership Program (MEP).—In recognition of strong bicameral and bipartisan congressional support, the agreement continues strong support for the MEP program and provides \$175,000,000. The Secretary is directed to continue the program under the same terms and conditions as were required in fiscal year 2024, and to issue awards at no less than the amounts in fiscal year 2024. Further, the agreement directs that no funds are provided to execute or plan for a program that reduces the number of active MEP Centers and that the Secretary shall minimize, by rapidly executing funding competitions and renewing existing Centers in a timely manner, the periods of time when no MEP Center is active in any State or Puerto Rico. The Committees direct the Secretary that any planned revision of the program shall be submitted as part of the fiscal year 2027 budget request, and shall not be carried out without explicit approval from the Committees in the respective full-year appropriations act, and shall comply with the MEP Program authorizations and requirements contained in 15 U.S.C. 278k. The agreement further directs that no less than 85 percent of appropriated funds be allocated directly to MEP Centers through base awards, competitive, or expansion award pilot programs.

In-Space Manufacturing.—The agreement adopts Senate language on “In-Space Manufacturing.”

Quarterly Briefings.—The agreement adopts House language on “Reporting on CHIPS Awards Upside Sharing and Funding Milestones” and further directs NIST to provide these updates as quarterly briefings to the Committees. These briefings should review NIST’s execution of the funding provided under the CHIPS and Science Act, Public Law 117–167, including a summary of the activities undertaken, hiring and staffing levels, funds obligated and expended, and the plans and timelines for obligation of all remaining funds for each of the authorized activities as specified by section 9902 and each subsection of 9906, respectively, of Public Law 116–283. The agreement further directs NIST to provide quarterly briefings on the CHIPS Research and Development Office (CRDO) which detail a summary of the activities undertaken by the CRDO, hiring and staffing levels, funds obligated and expended, and the plans and timelines for obligation of all remaining funds for each of the authorized activities in Public Law 116–283.

CREATING HELPFUL INCENTIVES TO PRODUCE SEMICONDUCTORS (CHIPS) FOR AMERICA FUND

Division A of Public Law 117–167 established the CHIPS for America Fund. The agreement allocates the funds according to the amounts listed in the following table.

DEPARTMENT OF COMMERCE ALLOCATION OF NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY FUNDS: CHIPS ACT FISCAL YEAR 2026

(In thousands of dollars)	
Account—Project and Activity	Amount
Section 9902	
Creating Helpful Incentives to Produce Semiconductors (CHIPS) for America Fund	\$5,000,000
Secure Enclave (as allocated pursuant to section 546(a)(1)(B) of division C of Public Law 118–42	(500,000)
Administrative Expenses	(1,000,000)
Office of the Inspector General, Salaries and Expenses	(4,000)
Total, Section 9902	\$5,000,000
Section 9906	
Industrial Technology Services	\$1,560,000
National Semiconductor Technology Center	(1,474,000)
Manufacturing USA Institute	(86,000)
Scientific and Technology Research and Services	40,000
NIST Metrology Program	(8,000)
Administrative Expenses	(32,000)
Office of the Inspector General, Salaries and Expenses	(1,000)
Total, Section 9906	\$1,600,000

CONSTRUCTION OF RESEARCH FACILITIES

The agreement provides \$385,897,000 for NIST construction, of which \$128,000,000 is available for Safety, Capacity, Maintenance, and Major Repairs (SCMMR). The agreement directs NIST to provide quarterly updates to the Committees on its efforts to address its maintenance backlog.

NIST Extramural Construction.—The agreement includes \$257,897,000 for NIST Extramural Construction and directs NIST to provide the funding for the projects listed in the table titled, “Community Project Funding/Congressionally Directed Spending” at the end of this joint explanatory statement in the corresponding amounts. The agreement further directs NIST to perform the same level of oversight and due diligence as with any other external partners.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

The agreement directs the National Oceanic and Atmospheric Administration (NOAA) to incorporate the funding levels established in both the table and the narrative direction when executing its budget for fiscal year 2026.

Quarterly Briefings.—The agreement directs the Department of Commerce and NOAA to provide quarterly briefings to the Committees on all NOAA satellite programs, National Weather Service operations, and Office of Marine and Aviation Operations activities and procurements, not later than 30 days after the end of each fiscal quarter, and to provide prompt interim updates in the event of any reprogramming, system failure, or construction delay.

Infrastructure Investment and Jobs Act (IIJA) Funding.—The agreement does not include a requirement for the submission of a fiscal year 2026 spend plan for funds provided under the IIJA.

OPERATIONS, RESEARCH, AND FACILITIES (INCLUDING TRANSFER OF FUNDS)

The agreement includes a total program level of \$4,968,036,000 under this account, for NOAA’s coastal, fisheries, marine, weather, satellite, and other programs. This total funding level includes \$4,540,392,000 in direct appropriations, a transfer of \$399,644,000 from balances in the “Promote and Develop Fishery Products and Research Pertaining to American Fisheries” fund, and \$28,000,000 derived from recoveries of prior year obligations. The following narrative descriptions and tables identify the specific activities and funding levels included in this act.

National Ocean Service (NOS).—\$677,202,000 is for NOS Operations, Research, and Facilities.

NATIONAL OCEAN SERVICE Operations, Research, and Facilities (In thousands of dollars)

Program	Amount
Navigation, Observations and Positioning:	
Navigation, Observations and Positioning	\$183,702
Hydrographic Survey Priorities/Contracts	31,500
IOOS Regional Observations	47,500
Navigation, Observations and Positioning	262,702
Coastal Science and Assessment:	
Coastal Science, Assessment, Response and Restoration ..	95,500
Competitive Research	20,000
Coastal Science and Assessment	115,500
Ocean and Coastal Management and Services:	
Coastal Zone Management and Services	51,000
Coastal Zone Management Grants	81,500
National Oceans and Coastal Security Fund	32,000
Coral Reef Program	33,500
National Estuarine Research Reserve System	34,000
Sanctuaries and Marine Protected Areas	67,000
Ocean and Coastal Management and Services	299,000
Total, National Ocean Service, Operations, Research, and Facilities	\$677,202

National Centers for Coastal Ocean Science (NCCOS).—The agreement provides \$55,000,000 for NCCOS and directs NCCOS to continue efforts related to coastal sustainability and resilience.

Coral Reef Research Coordination Institutes.—The agreement reiterates the language in the House report under the captions “Research Coordination Institutes” and “Coral Reef Research Coordination Institutes” and provides not less than \$1,000,000 for the establishment of these institutes, to be equally divided between the Atlantic Coral Reef Research Coordination Institute and the Pacific Coral Reef Research Coordination Institute.

Coastal Zone Management Grants.—NOAA shall report to the Committees, not less than 120 days of enactment of this act, on ongoing efforts to work with local governments, States, and other partners to achieve the objectives of the Coastal Zone Management Grants while, to the extent practicable, limiting impacts on wildfire prevention, timber and energy production, housing construction, and military-related activities.

National Marine Fisheries Service (NMFS).—\$1,121,703,000 is for NMFS Operations, Research, and Facilities.

NATIONAL MARINE FISHERIES SERVICE Operations, Research, and Facilities (In thousands of dollars)

Program	Amount
Protected Resources Science and Management:	
Marine Mammals, Sea Turtles, and Other Species	\$177,955
Species Recovery Grants	6,250
Atlantic Salmon	8,000
Pacific Salmon	75,750
Protected Resources Science and Management	267,955
Fisheries Science and Management:	
Fisheries and Ecosystem Science Programs and Services ..	161,500
Fisheries Data Collections, Surveys, and Assessments	214,054
Observers and Training	58,383
Fisheries Management Programs and Services	138,000
Aquaculture	25,000
Salmon Management Activities	69,750
Regional Councils and Fisheries Commissions	45,000
Interjurisdictional Fisheries Grants	3,377
Fisheries Science and Management	715,064
Enforcement	81,000
Habitat Conservation and Restoration	57,684
Total, National Marine Fisheries Service, Operations, Research, and Facilities	1,121,703

Fisheries Surveys.—The agreement adopts Senate direction under “Fisheries Surveys” and provides a total increase of \$7,000,000 above the fiscal year 2024 enacted level within Fisheries Data Collections, Surveys, and Assessments.

Fishery Survey Contingency Fund.—The agreement adopts Senate direction “Fishery Survey Contingency Fund” and provides not less than \$2,000,000.

Seafood Import Monitoring Program (SIMP).—The agreement includes \$6,200,000 for SIMP and to move forward with implementation of the Action Plan to Improve the U.S. Seafood Import Monitoring Program.

U.S. Commercial Space-Based Radio Frequency Detection Technologies.—The agreement adopts House and Senate direction and provides not less than \$1,000,000 to operationalize commercial space-based radio frequency data collection capabilities to detect and track foreign vessels engaged in illegal, unreported, and unregulated fishing.

Oyster Resilience in the Northern Gulf of America.—The agreement adopts House and Senate direction and provides not less than \$1,500,000 for collaborative academic research addressing oyster reefs in the Northern Gulf Coast.

Oyster Aquaculture, Research, and Restoration.—The agreement adopts House report language and provides up to \$5,000,000 to enhance development of oyster aquaculture and habitat improvements, map oyster bed conditions, monitor water quality, and increase partnerships.

South Atlantic Reef Fish.—The agreement adopts House direction and provides \$2,500,000 to provide enhanced fisheries independent data collection of South Atlantic reef fish stocks conducted through the Southeast Fishery-Independent Survey.

Mitchell Act Hatcheries.—The agreement provides \$4,000,000 above the fiscal year 2024 enacted level for the operation and maintenance of Mitchell Act hatcheries and directs NOAA to continue genetic stock identification for salmon recovery and management. The agreement also reiterates Senate direction regarding administrative expenses for the program.

Chesapeake Bay Oyster Restoration.—The agreement adopts Senate direction under the heading “Chesapeake Bay Office” and provides \$1,500,000 above the fiscal year 2024 enacted level within Habitat Conservation and Restoration to support oyster restoration in the Chesapeake Bay. In addition, NOAA is directed to brief the Committees, no later than 90 days after the enactment of this act, on the agency’s plans to improve the performance of underperforming oyster restoration, recovery, or enhancement activities in the Chesapeake Bay and its tributaries, as well as strategies to increase the availability of oysters for managed commercial harvest resulting from this federal support without compromising ecosystem restoration outcomes.

Office of Oceanic and Atmospheric Research (OAR).—\$588,881,000 is for OAR Operations, Research, and Facilities. The agreement adopts the President’s budget request proposal to transition the U.S. Weather Research Program, Tornado Severe Storm Research/Phased Array Radar, and Joint Technology Transfer Initiative activities to the National Weather Service.

OFFICE OF OCEANIC AND ATMOSPHERIC RESEARCH	
Operations, Research, and Facilities (In thousands of dollars)	
Program	Amount
Climate Research:	
Climate Laboratories and Cooperative Institutes	\$104,102
Regional Climate Data and Information	48,932
Climate Competitive Research	71,116
Climate Research	224,150
Weather and Air Chemistry Research:	
Weather Laboratories and Cooperative Institutes	94,000
Weather and Air Chemistry Research	94,000
Ocean, Coastal, and Great Lakes Research:	
Ocean Laboratories and Cooperative Institutes	40,000
National Sea Grant College Program	80,000
Sea Grant Aquaculture Research	14,000
Ocean Exploration and Research	47,000
Integrated Ocean Acidification	17,000
Sustained Ocean Observations and Monitoring	52,500
National Oceanographic Partnership Program	2,000
Ocean, Coastal, and Great Lakes Research	252,500
Innovative Research and Technology:	
High Performance Computing Initiatives	18,231
Innovative Research and Technology:	18,231
Total, Office of Oceanic and Atmospheric Research, Operations, Research, and Facilities	588,881

Regional Integrated Sciences and Assessments (RISA) Program.—The agreement provides not less than \$17,000,000 for the RISA program, including up to \$1,000,000 for increased staff capacity at the Southern Climate Impacts Planning Program. In addition, NOAA shall reestablish programs in the Northwest and South Atlantic to ensure maximum coverage around the Nation.

Severe Weather Research.—The agreement recognizes the growing impacts of extreme weather events on public safety, infrastructure, and the economy, and the importance of advancing research, modeling, and prediction capabilities. Within available funds, the agreement directs NOAA to provide to the Committees, no later than 90 days after enactment of this act, a written assessment of the potential role, mission, and benefits of an extreme weather federally funded research and development center (FFRDC), including how it could complement existing NOAA programs and partnerships. The assessment should address possible organizational models, opportunities for collaboration with academic institutions, other federal agencies, and the private sector, and any anticipated resource requirements. In preparing this assessment, NOAA is encouraged to consult with relevant stakeholders and to consider how such an FFRDC could strengthen the nation’s capabilities in extreme weather prediction, data assimilation, and applied research.

National Weather Service (NWS).—\$1,351,016,000 is for NWS Operations, Research, and Facilities.

NATIONAL WEATHER SERVICE	
Operations, Research, and Facilities (In thousands of dollars)	
Program	Amount
Observations	\$262,500
Central Processing	113,000
Analyze, Forecast and Support	603,500
Dissemination	120,000
Science and Technology Integration	180,000
U.S. Weather Research Program	39,100
Tornado Severe Storm Research/Phased Array Radar	20,916
Joint Technology Transfer Initiative	12,000
Total, National Weather Service, Operations, Research, and Facilities	\$1,351,016

Aircraft Based Observation Program.—The agreement adopts the House report language under this heading and Senate report under the heading “Observations” and provides an increase of \$2,500,000 above the fiscal year 2024 enacted level to support the deployment of commercial aviation-based atmospheric data.

National Mesonet Program.—The agreement adopts House language and provides \$30,000,000 for the National Mesonet Program to expand observations, including up to \$1,500,000 for the cost associated with the National Mesonet Program Office.

National Data Buoy Center.—The agreement adopts the House language and provides an increase of up to \$5,000,000 above the fiscal year 2024 enacted level for NDBC.

Cooperative Institute for Research to Operations in Hydrology (CIROH).—The agreement adopts the House direction under this heading and Senate direction under the heading “Hydrology and Water Resource Programs” and includes an increase of \$1,000,000 to establish a Forecast Informed Reservoir Operations (FIRO)-dedicated Research and Operations Partnership program.

National Weather Service Staffing.—The agreement adopts Senate direction and provides not less than \$10,000,000 above the fiscal year 2024 enacted level to support full staffing levels at all Weather Forecast Offices.

National Environmental Satellite, Data and Information Service (NESDIS).—\$397,500,000 is for NESDIS Operations, Research, and Facilities.

NATIONAL ENVIRONMENTAL SATELLITE, DATA AND INFORMATION SERVICE	
Operations, Research, and Facilities (In thousands of dollars)	
Program	Amount
Environmental Satellite Observing Systems:	
Office of Satellite and Product Operations	\$269,000
Product Development, Readiness and Application	59,000
U.S. Group on Earth Observations	500
Environmental Satellite Observing Systems	328,500
National Centers for Environmental Information	69,000
Total, National Environmental Satellite, Data and Information Service, Operations, Research, and Facilities	\$397,500

Mission Support.—\$364,667,000 is for Mission Support Operations, Research, and Facilities.

MISSION SUPPORT	
Operations, Research, and Facilities (In thousands of dollars)	
Program	Amount
Mission Support Services:	
Executive Leadership	\$28,230
Mission Services and Management	156,000
IT Security	15,438
Payment to the DOC Working Capital Fund	71,299
Facilities Maintenance	6,250
Office of Space Commerce	52,500
Mission Support Services	329,717
Office of Education:	
BWET Regional Programs	8,700
Jose E. Serrano Educational Partnership Program with Minority Serving Institutions	20,750
NOAA Education Program Base	5,500
Office of Education	34,950
Total, Mission Support, Operations, Research, and Facilities	\$364,667

Office of Marine and Aviation Operations (OMAO).—\$361,199,000 is for OMAO Operations, Research, and Facilities.

OFFICE OF MARINE AND AVIATION OPERATIONS	
Operations, Research, and Facilities (In thousands of dollars)	
Program	Amount
Marine Operations and Maintenance	\$225,000
Aviation Operations and Aircraft Services	41,199
Autonomous Uncrewed Technology Operations	24,000
NOAA Commissioned Officer Corps	71,000
Total, Office of Marine and Aviation Operations	\$361,199

Monitoring of Atmospheric Rivers.—The agreement adopts House and Senate direction and provides not less than \$3,000,000 for the monitoring of atmospheric rivers.

Aviation Accession Training Program.—The agreement adopts Senate direction and provides not less than \$2,500,000 for NOAA’s aviation accession training program.

NOAA Community Project Funding/NOAA Special Projects.—The agreement directs NOAA to provide funding for the projects listed in the table titled “Community Project Funding/Congressionally Directed Spending” at the end of this joint explanatory statement in the corresponding amounts, consistent with NOAA’s existing authorities, jurisdictions, and procedures, as appropriate. NOAA shall perform the same level of oversight and due diligence regarding these projects as with any other external partners.

PROCUREMENT, ACQUISITION AND CONSTRUCTION

The agreement includes a total program level of \$1,589,899,000 in direct obligations for NOAA Procurement, Acquisition and Construction (PAC). The following narrative and table identify the specific activities and funding levels included in this act.

PROCUREMENT, ACQUISITION AND CONSTRUCTION		
(In thousands of dollars)		
Program		Amount
National Ocean Service:		
National Estuarine Research Reserve Construction	\$8,500	
Marine Sanctuaries Construction	4,000	
Total, NOS—PAC		12,500
Office of Oceanic and Atmospheric Research:		
Research Supercomputing/CCRI	45,000	
Total, OAR—PAC		45,000
National Weather Service:		
Observations	16,200	
Central Processing	68,000	
Dissemination	10,000	
Facilities Construction and Major Repairs	10,000	
Total, NWS—PAC		104,200
National Environmental Satellite, Data and Information Service:		
Geostationary Systems-R (GOES-R)	74,600	
Polar Weather Satellites	290,000	
Low Earth Orbit (LEO)	120,000	
Geostationary Earth Orbit (GEO)	497,897	
Systems/Services Architecture and Engineering (SAE)	43,252	
Space Weather Next	150,000	
Common Ground Services	90,000	
Satellite CDA Facility	2,450	
Total, NESDIS—PAC		1,268,199
Mission Support:		
NOAA Construction	60,000	
Total, MS—PAC		60,000
Office of Marine and Aviation Operations:		
Fleet Capital Improvements and Technology Infusion	28,000	
Vessel Recapitalization and Construction	65,000	
Aircraft Recapitalization and Construction	7,000	
Total, OMAO—PAC		100,000
Total, Procurement, Acquisition and Construction		1,589,899

Geostationary Extended Observations (GeoXO).—The agreement endorses a GeoXO architecture incorporating advanced imaging and atmospheric sounding capabilities on both East and West geostationary satellites. It underscores the value of sustaining these core capabilities across orbital positions to support ongoing coverage, operational resilience, and data redundancy for weather forecasting and hazard monitoring, while encouraging NOAA to address cost, schedule, and technical risks in line with this framework.

Systems/Services Architecture and Engineering (SAE).—The agreement adopts Senate direction under this heading and House direction under the heading “Joint Venture Program” and provides \$43,252,000 for SAE for the continuation of the commercial data purchase and commercial weather data pilot programs, including up to \$5,000,000 for procuring private sector hyperspectral microwave sounder data and other space weather observations.

NOAA Construction.—The agreement adopts the Senate report direction on inclusion of a table regarding the use of funds for NOAA Construction.

MISSION SUPPORT: NOAA CONSTRUCTION		
(In thousands of dollars)		
State	Description	Amount
Various	Deferred Maintenance and Repair	10,500
Various	Leasehold Improvements	4,000
WA	Northwest Fisheries Science Center	28,000
FL	Southeast Fisheries Science Center	10,000
Various	Outfitting and Occupancy	4,000
Various	Disposal	3,500

Vessel Recapitalization.—The agreement provides \$65,000,000, including sufficient funding to complete the Class A vessels. NOAA shall consider integrating autonomous platforms into the fleet to close critical gaps and boost data yields for mapping, charting, ocean exploration, and fisheries surveys.

PACIFIC COASTAL SALMON RECOVERY

The agreement includes \$65,000,000 for the Pacific Coastal Salmon Recovery Fund

(PCSRF) and directs that funds will be available to Tribes without a matching requirement. NOAA is directed to report on how its current priorities meet the intent of the PCSRF to support the recovery and protection of all declining salmon stocks.

FISHERIES DISASTER ASSISTANCE

The agreement provides \$300,000 for Fisheries Disaster Assistance.

FISHERMEN’S CONTINGENCY FUND

The agreement includes \$349,000 for the Fishermen’s Contingency Fund.

FISHERIES FINANCE PROGRAM ACCOUNT

The agreement includes language under this heading limiting obligations of direct loans to \$24,000,000 for Individual Fishing Quota loans and \$150,000,000 for traditional direct loans.

RECREATIONAL QUOTA ENTITY FUND

The agreement allows for the halibut recreational quota entity as authorized under section 106 of the Driftnet Modernization and Bycatch Reduction Act (title I of division S of Public Law 117–328).

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The agreement includes \$92,500,000 for Departmental Management salaries and expenses.

Spending Plans.—The agreement adopts Senate language on spending plans which are critical for the work of the Committees.

Employee Access to High-quality Affordable Child Care.—In lieu of Senate language under this heading, the agreement directs the Department to follow the direction in the front matter of this explanatory statement.

RENOVATION AND MODERNIZATION

The agreement includes a total of \$1,142,000 for the Renovation and Modernization account.

OFFICE OF INSPECTOR GENERAL

The agreement includes a total of \$48,000,000 for the Office of Inspector General (OIG).

GENERAL PROVISIONS—DEPARTMENT OF COMMERCE

(INCLUDING TRANSFER OF FUNDS)

The agreement includes the following general provisions for the Department of Commerce:

Section 101 makes funds available for advanced payments only upon certification of officials, designated by the Secretary, that such payments are considered to be in the public interest.

Section 102 makes appropriations for Department of Commerce salaries and expenses available for hire of passenger motor vehicles, for services, and for uniforms and allowances as authorized by law.

Section 103 provides the authority to transfer funds between Department of Commerce appropriation accounts and requires 15 days advance notification to the Committees on Appropriations for certain actions.

Section 104 provides congressional notification requirements for NOAA satellite programs and includes life cycle cost estimates for certain weather satellite programs.

Section 105 provides for reimbursement for services within Department of Commerce buildings.

Section 106 clarifies that grant recipients under the Department of Commerce may deter child pornography, copyright infringement, or any other unlawful activity over their networks.

Section 107 provides the NOAA Administrator with the authority to avail NOAA of resources, with the consent of those supplying the resources, to carry out responsibilities of any statute administered by NOAA.

Section 108 prohibits the National Technical Information Service from charging for certain services.

Section 109 allows NOAA to be reimbursed by Federal and non-Federal entities for performing certain activities.

Section 110 provides the Economics and Statistics Administration certain authority to enter into cooperative agreements.

Section 111 allows the Secretary of Commerce to waive up to 50 percent of the cost sharing requirements for funds provided in this act under section 315 of the Coastal Zone Management Act of 1972.

Section 112 sets limitations on the Department’s ability to obligate unobligated balances of expired discretionary funds transferred to the Nonrecurring Expenses Fund.

Section 113 allows the NOAA Administrator to establish an alternative or fixed rate for relocation allowance, including permanent change of station allowance.

Section 114 requires NWS to maintain staffing levels to perform statutory functions.

TITLE II

DEPARTMENT OF JUSTICE

JUSTICE OPERATIONS, MANAGEMENT, AND ACCOUNTABILITY

SALARIES AND EXPENSES

The agreement includes \$140,000,000 for Justice Operations, Management, and Accountability.

Timely Responses to Committee Inquiries and Meeting Report Deadlines.—The Committee has both budgetary and oversight responsibilities, and requests for additional information from the Chairs, Vice Chair, Ranking Member, or their Committee staff to any Department component should be treated as a priority for the Department and responded to both courteously and expeditiously. The Committee again reminds the Department that deadlines directed in Committee reports or explanatory statement language are not merely suggestions. The Department is to immediately submit reports that remain outstanding. Efforts should be immediately undertaken not only to submit these delayed reports, but also to ensure that full and complete information is provided.

Voting Rights and Election Administrator Threats.—In lieu of the directives under “Election Threats Task Force” and “Voting Rights” in the Senate report, the agreement encourages the Department to devote appropriate resources to investigate credible threats made against individuals associated with the electoral process, such as election administrators, and encourages the Department to make all policies and procedures related to the rights and protections offered to such individuals publicly available on its website. The agreement further encourages the Attorney General to provide appropriate resources to ensure voting rights are protected, pursuant to the U.S. Constitution, Federal law, and proper adherence to the precedents of the U.S. Supreme Court.

Addressing Cargo Theft.—In lieu of the language contained under the caption “Cargo Theft Prosecution,” within the heading for the Executive Office for U.S. Attorneys in the House report, the agreement adopts the directives under the caption “Combating Cargo Theft” in the Senate report.

Opioid Reduction Task Force.—In lieu of the directives under this caption in the House report, the agreement encourages the Department to take the actions described on this matter.

Settlement Agreement Oversight.—In lieu of the House report language under this caption, the agreement directs the Department to provide a briefing, no later than 60 days after the enactment of this act, on transfers

from Department of Justice appropriations accounts for the payment of settlements as an alternative to payments from the Judgment Fund.

Pregnancy Center Vandalism.—In lieu of the directive under this caption in the House report, the agreement encourages the Department to provide the described report on the matter.

Conflicts of Interest.—In lieu of the language under this caption in the House report, the agreement directs the Department to provide a briefing to the Committees, no later than 180 days after enactment of this act, on the Department's Hatch Act policies.

FACE Act Enforcement.—In lieu of the directive under this caption in the House report, the agreement encourages the Department to brief the Committees on the matter within one year of the enactment of this act.

Community Relations Service (CRS).—In lieu of the language under this caption in the House report, the agreement encourages the Department to operate and manage CRS as efficiently as possible.

Contraband Vape Products.—In lieu of the requirements and directives under this caption in the House report, and those contained under the caption "Illegal E-Cigarette Coordination & Enforcement," the agreement incorporates such requirements and directives to be executed by the Department and its component agencies, as described in the House report.

Burglary Tourism.—In lieu of the language under this caption in the House report and under the caption "Hiring Additional Intelligence Analysts" under the subheading "Federal Bureau of Investigation, Salaries and Expenses" in the House report, the agreement encourages the Department to work with Federal, State, and local law enforcement agencies to address the issue of burglary tourism.

Utah Feasibility Study.—In lieu of the directives under this caption contained in the heading "Federal Prison System, Buildings and Facilities" in the House report, the agreement directs the Department to conduct the feasibility study as described therein.

Departmental Communications with the Appropriations Committees.—The Committees on Appropriations have long-maintained a collaborative working relationship with the Justice Management Division (JMD). In this context, the agreement expresses disappointment in JMD's responsiveness to resource-related inquiries. In many cases, the Committees lack necessary information to determine the appropriate resource requirements for the Department's components and programs. The agreement directs JMD to provide a briefing, within 30 days of the enactment of this act, on the steps necessary to restore the longstanding collaborative relationship.

Federal Drug-Free School Zones.—The agreement directs the Department to appropriately enforce the Federal Drug-Free School Zones Act (21 U.S.C. 860), to ensure that areas with young children, including schools and playgrounds, remain drug-free.

JUSTICE INFORMATION SHARING TECHNOLOGY (INCLUDING TRANSFER OF FUNDS)

The agreement includes \$38,460,000 for Justice Information Sharing Technology.

Mass Spectrometry Technology.—In lieu of the language under this caption in the House report, the agreement directs the Department to provide a briefing within 90 days of enactment of this act, on opportunities for deploying Matrix-Assisted Laser Desorption/Ionization Time of Flight (MALDI-TOF) mass spectrometry technology, potential pilot locations, cost-effectiveness, and implementation timelines.

EXECUTIVE OFFICE FOR IMMIGRATION REVIEW (INCLUDING TRANSFER OF FUNDS)

The agreement includes \$800,000,000 for the Executive Office for Immigration Review (EOIR), of which \$10,000,000 is derived by a transfer from the U.S. Citizenship and Immigration Services Immigration Examinations Fee Account.

Disposition of EOIR Adjudications.—In lieu of the directive pertaining to respondents' attendance at each court hearing contained in the caption "Immigration Case Backlog" in the House report, and the directive contained in the caption "Operational and Adjudicatory Transparency" in the Senate report, the agreement adopts the directives under the heading "Disposition of EOIR Adjudications" for cases in fiscal year 2026 contained in the Joint Explanatory Statement accompanying Public Law 118-42.

Case Adjudication and Immigration Judge Training.—In lieu of Section 554 of the House bill and the directives contained under the caption "Immigration Judge Training," in the Senate report, the agreement directs EOIR to refrain from incentivizing any immigration judge (IJ) to close or dismiss any case without adjudicating the merits of the case; directs EOIR to review its training, to retrain all judges currently on a probationary period or on detail to EOIR, and to increase the frequency and availability of training for IJs outside the probationary period; and further directs EOIR to ensure IJ training emphasizes due process and humanitarian protections.

Staffing Levels for Immigration Judges and Support Teams.—The agreement adopts the longstanding directives in the Senate report under this caption. The agreement further directs EOIR to include a full quarterly accounting of all detailees serving as IJs, including the number; duration; home agency, department, bureau and PPA; and source of funds—reimbursable or not—for each such detailee. These reports shall be accompanied by quarterly briefings to the Committees covering all such topics.

Legal Orientation Program (LOP).—In lieu of the Senate language under this caption, the agreement provides no less than \$27,500,000 for services provided by LOP. The agreement incorporates the directive continued under this caption in the Joint Explanatory Statement accompanying Public Law 118-42.

Translation Services.—The agreement supports EOIR's "commitment to providing professional interpretive services in all appropriate cases," as noted in the Director's Memorandum 25-20 of February 6, 2025, and therefore encourages EOIR to offer translation services so that the respondents can fully comprehend and participate in their immigration hearings.

OFFICE OF INSPECTOR GENERAL

The agreement includes \$139,000,000 for the Office of Inspector General.

Office of the Inspector General Review of Implementation of the Direct Appropriation to BOP.—The agreement adopts the language under this caption in the Senate report and encourages the Office of Inspector General to conduct reviews of funds provided in Public Law 119-21 to other Department bureaus and programs as well.

UNITED STATES PAROLE COMMISSION

SALARIES AND EXPENSES

The agreement includes \$13,000,000 for the salaries and expenses of the United States Parole Commission.

LEGAL ACTIVITIES

SALARIES AND EXPENSES, GENERAL LEGAL ACTIVITIES

(INCLUDING TRANSFER OF FUNDS)

The agreement includes \$900,000,000 for General Legal Activities. The agreement

does not adopt the decision unit funding table included the House report under this heading. In lieu of the language in the House report regarding the International Child Sexual Exploitation Database (ICSE), combating child exploitation, and the Computer Crime and Intellectual Property Section, the agreement encourages the Department to dedicate adequate resources to support these objectives.

Trade Fraud Task Force.—No less than \$2,000,000 shall be used to carry out the activities of the Trade Fraud Task Force.

Deinstitutionalization.—In lieu of the directives under this caption in the House report, the agreement encourages the Department to take the actions described regarding this matter.

Litigation Strike Team.—In lieu of the language under the caption "Litigation Strike Team" in the House report, the agreement adopts the language under the caption "U.S. Forest Service Litigation" contained in the Joint Explanatory Statement accompanying Public Law 118-42.

Tortious Interference with a Federal Property Contract.—In lieu of the language in the House report under this caption, the agreement encourages the Department to allocate adequate resources to represent Federal interests in property contracts.

Animal Welfare.—In lieu of the language in the House report under this caption, the agreement encourages the Department to allocate adequate resources toward vigorously prosecuting violations of animal welfare laws.

VACCINE INJURY COMPENSATION TRUST FUND

The agreement includes a reimbursement of \$22,700,000 for Department expenses associated with litigating cases under the National Childhood Vaccine Injury Act of 1986 (Public Law 99-660).

SALARIES AND EXPENSES, ANTITRUST DIVISION

The agreement includes \$245,000,000 for the Antitrust Division. The Congressional Budget Office estimates a resource level of \$310,000,000.

SALARIES AND EXPENSES, UNITED STATES ATTORNEYS

The agreement includes \$2,621,000,000 for the Executive Office for United States Attorneys and the 94 United States Attorneys' offices.

Prosecutorial Data.—In lieu of the House language regarding "District of Columbia Crime Statistics" and the Senate language regarding "Report on Declinations", the agreement directs the Department to provide a briefing to the Committees thereon.

Report on the D.C. Five.—In lieu of the directives under this caption in the House report, the agreement encourages the Department to provide a briefing to the Committees on all actions previously taken by the Department on this issue within 180 days after the enactment of this act.

UNITED STATES TRUSTEE SYSTEM FUND

The agreement includes \$205,000,000 for the United States Trustee Program.

SALARIES AND EXPENSES, FOREIGN CLAIMS SETTLEMENT COMMISSION

The agreement includes \$2,504,000 for the Foreign Claims Settlement Commission.

FEES AND EXPENSES OF WITNESSES

The agreement includes \$320,000,000 for Fees and Expenses of Witnesses. The agreement expects that no funds will be obligated for expert witness services, including the payment of fees and expenses of expert witnesses, from any other DOJ accounts other than Fees and Expenses of Witnesses.

SALARIES AND EXPENSES, COMMUNITY RELATIONS SERVICE

(INCLUDING TRANSFER OF FUNDS)

The agreement includes \$20,000,000 for the Community Relations Service.

ASSETS FORFEITURE FUND

The agreement includes \$20,514,000 for the Assets Forfeiture Fund.

UNITED STATES MARSHALS SERVICE
SALARIES AND EXPENSES

The agreement includes \$1,702,000,000 for the salaries and expenses of the United States Marshals Service (USMS).

Judicial Security.—The agreement directs USMS to dedicate the highest practicable funding towards the USMS Judicial and Courthouse Security Program.

CONSTRUCTION

The agreement includes \$8,000,000 for construction and related expenses in space controlled, occupied, or utilized by the USMS for prisoner holding and related support.

FEDERAL PRISONER DETENTION

The agreement includes \$2,236,000,000 for Federal Prisoner Detention.

NATIONAL SECURITY DIVISION
SALARIES AND EXPENSES
(INCLUDING TRANSFER OF FUNDS)

The agreement includes \$117,200,000 for the salaries and expenses of the National Security Division (NSD).

Countering espionage by the CCP.—In lieu of the directives under the caption “Countering Espionage by the PRC,” in the House report, the agreement encourages the Department to focus on countering espionage and influence efforts against American businesses, research institutions, and academia emanating from the CCP.

INTERAGENCY LAW ENFORCEMENT

INTERAGENCY CRIME AND DRUG ENFORCEMENT

The agreement provides \$300,000,000 to continue the inter-governmental drug interdiction work of the Organized Crime Drug Enforcement Task Forces (OCDETF).

Reporting.—Working with state and local law enforcement partners, OCDETF historically investigated and prosecuted major drug trafficking, money laundering, and other high priority transnational organized crime networks. Because the Department is instead participating in a new task force co-led by the Department of Homeland Security, the agreement directs DOJ to provide both a written report and in-person briefing quarterly to the Committees detailing how funds under the Interagency Crime and Drug Enforcement sub-heading have been used to investigate and reduce: the availability of illegal drugs; violence, corruption, and other criminal activity associated with the drug trade. The first such briefing shall occur not more than 90 days after the enactment of this act.

FEDERAL BUREAU OF INVESTIGATION

SALARIES AND EXPENSES

The agreement includes \$10,609,456,000 for the salaries and expenses of the Federal Bureau of Investigation (FBI).

FBI Drug Control Funding.—In lieu of the House recommendation under this title, the agreement recommends no less than \$180,000,000 for the purposes described therein.

Total Cost of Ownership Hardware.—In lieu of the directives under this caption, the agreement encourages the FBI to provide a briefing to the Committees, no later than 180 days after the enactment of this act, on the feasibility of conducting the described analysis.

National Bioforensic Analysis Center (NBFAC).—The agreement provides up to \$21,840,000 for the FBI's role at the NBFAC.

Supporting Law Enforcement Through ViCAP Modernization and Training.—In lieu of the directives under this caption, the agreement encourages the FBI to provide a briefing to

the Committees, no later than 180 days after the enactment of this act, on the feasibility of conducting the described analysis.

Criminal Gang Activity in Jail and Prison Systems Software Procurement.—In lieu of the language under this caption, the agreement directs the FBI to provide a briefing on the subject no later than 180 days after enactment of this act.

Aircraft Usage.—The agreement does not adopt the Senate language under this heading.

CONSTRUCTION

The agreement includes \$15,000,000 for FBI construction.

DRUG ENFORCEMENT ADMINISTRATION
SALARIES AND EXPENSES

The agreement includes a direct appropriation of \$2,580,340,000 for the salaries and expenses of the Drug Enforcement Administration (DEA). In addition, DEA expects to derive \$669,660,000 from fees deposited in the Diversion Control Fee Account to carry out the Diversion Control Program, resulting in \$3,250,000,000 in total spending authority.

Fentanyl Wastewater Testing and Epidemiology.—The agreement recommends up to \$2,000,000 to accelerate testing for fentanyl, as described in the House report under this caption.

Breakthrough Therapy.—In lieu of the House language under this caption, the agreement adopts the Senate report language under the caption “Insomnia Pharmaceuticals.”

BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND
EXPLOSIVES

SALARIES AND EXPENSES

The agreement includes \$1,585,000,000 for the salaries and expenses of the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF).

Preventing Firearm Straw Purchases.—The agreement adopts the Senate language under this heading.

National Integrated Ballistic Information Network (NIBIN).—In lieu of the language in the House report under this caption, the agreement expresses strong support for NIBIN and directs ATF to support and expand it to the highest degree practicable.

Zero-Tolerance Policy.—In lieu of the directives under this caption in the House report, the agreement directs the Department to submit a report on activities relating to the Department's Zero-Tolerance Policy, within 180 days after the enactment of this act.

Unauthorized Release of Trace Data.—In lieu of the language under this caption in the House report, the agreement encourages the Department to take appropriate steps on the matter.

National Services Center.—In lieu of the language under this caption in the Senate report, the agreement acknowledges receipt of the requested report.

FEDERAL PRISON SYSTEM

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The agreement includes \$8,100,000,000 for the salaries and expenses of the Federal Prison System. Of the amount made available under this heading, no less than the fiscal year 2024 level shall be used for land mobile radio (LMR) communication and video security upgrades.

BUILDINGS AND FACILITIES

The agreement includes \$279,762,000 for the construction, acquisition, modernization, maintenance, and repair of prison and detention facilities housing Federal inmates.

Modernization and Repair Backlog.—The agreement adopts the language under this caption in the House report and expects BOP

to apply funds provided in fiscal year 2026 to reduce its longstanding Modernization and Repair (M&R) backlog and directs BOP to prioritize funding for repairs that protect life and safety, including but not limited to operator-controlled and sliding mechanical security devices.

LIMITATION ON ADMINISTRATIVE EXPENSES,
FEDERAL PRISON INDUSTRIES, INCORPORATED

The agreement includes a limitation on administrative expenses of \$2,700,000 for Federal Prison Industries, Incorporated.

STATE AND LOCAL LAW ENFORCEMENT
ACTIVITIES

In total, the agreement includes \$4,486,800,000 for state and local law enforcement and crime prevention programs. This amount includes \$4,184,000,000 in discretionary budget authority, \$100,000,000 derived by transfer from the Crime Victims Fund, and \$202,000,000 scored as mandatory for Public Safety Officer Benefits. The Department is directed to submit an annual report, within 90 days of enactment, on grant programs that have not received a sufficient number of qualified applicants.

Additional Resources for Grant Funding.—In addition to the resources provided in this act, the agreement recognizes that additional funds have been made available to certain grant programs by Public Law 117-159 and Public Law 119-21.

Fiscal Year 2026 Spending Plan.—The agreement reiterates the direction provided in Senate Report 113-78 that the Department shall detail, as part of its spending plan for fiscal year 2026 and future years, the actual costs for each grantmaking component with respect to training, technical assistance, research and statistics, and peer review for the prior fiscal year, along with estimates of planned expenditures by each grantmaking component in each of these categories for the current year and the budget year.

Distinct Grantmaking Components.—The agreement directs the Department to maintain the Office on Violence Against Women and Office of Community Oriented Policing Services as distinct organizational grantmaking entities within the Department.

Grants Transfer Authority.—The agreement emphasizes the importance of the grant portfolio and the Committees' intent that funds appropriated for Department grant programs remain dedicated to grantmaking purposes. The agreement directs that no more than 3.5 percent of the funds made available by this act for grants, programs, or activities administered by the Office on Violence Against Women, the Office of Justice Programs, or the Office of Community Oriented Policing Services may be transferred, reprogrammed, or otherwise made available to any non-grantmaking office, component, or activity of the Department of Justice, except as otherwise expressly provided by this act.

Grant Programs Crosswalks.—The Department is directed to provide the Committees, as part of the spend plan submitted pursuant to section 528 of this act, a crosswalk of the Office on Violence Against Women (OVW), Office of Justice Programs (OJP), and Community Oriented Policing Services Office (COPS) grant program solicitations, which includes the same level of information and detail as was provided to the Committees with respect to the solicitations of the Department's grant program offices in fiscal year 2024.

Byrne JAG Precipitous Increase in Crime Funds.—The agreement directs the Department to provide, in the fiscal year 2026 spend plan submitted pursuant to section 528 of this act, a detailed accounting of how each solicitation for funds reserved under section 506(b)(1) of the Omnibus Crime Control and

Safe Streets Act of 1968 (34 U.S.C. 10157) satisfies the requirement that such funds be used “to combat, address, or otherwise respond to precipitous or extraordinary increases in crime, or in a type or types of crime.”

Notice of Funding Opportunities.—The agreement directs the Department that the notices of funding opportunities for the grants, contracts, cooperative agreements, and other assistance provided for by the Office on Violence Against Women, Office of Justice Programs, and the Office of Community Oriented Policing Services shall be publicly posted no later than 90 days after the date of enactment of this act.

STOP School Violence Act.—The agreement directs the Department to report, no later than 90 days after the enactment of this act, on a plan to improve the timing and duration of the grant period to enable the improved quality of applications and increased participation in the application process. The agreement adopts the House report language on “STOP School Violence Act Report” and the Senate report language on the “STOP School Violence Act”.

OFFICE ON VIOLENCE AGAINST WOMEN
VIOLENCE AGAINST WOMEN PREVENTION AND
PROSECUTION PROGRAMS

(INCLUDING TRANSFERS OF FUNDS)

The agreement includes \$720,000,000 for the Office on Violence Against Women. These funds are distributed as follows:

VIOLENCE AGAINST WOMEN PREVENTION AND
PROSECUTION PROGRAMS

(In thousands of dollars)

Program	Amount
STOP Grants	\$257,000
Sexual Assault Survivors' Bill of Rights	(10,000)
Transitional Housing Assistance	51,000
Research and Evaluation on Violence Against Women	2,500
Consolidated Youth Oriented Programs	17,000
Improving Criminal Justice Responses	60,500
Homicide Reduction Initiative	(4,000)
Domestic Violence Lethality Reduction Initiative	(2,000)
Policing and Prosecution Initiative	(5,000)
Sexual Assault Services Program	79,500
National Deaf Services Line	2,000
Rural Domestic Violence and Child Abuse Enforcement	50,500
Violence on College Campuses	25,000
HBCU, HSI, and Tribal Colleges and Universities	(12,500)
Legal Assistance for Victims	55,000
Abuse Later in Life Program	9,000
Justice for Families Program	21,000
Disabilities Program	11,500
National Resource Center on Workplace Responses	1,000
Research on Violence Against Indian Women	2,000
Indian Country Sexual Assault Clearinghouse	500
Tribal Special Domestic Violence Criminal Jurisdiction	14,500
Rape Survivor Child Custody Act	1,500
Sec. 41801 of Pub. L. No. 103-322	14,000
Culturally Specific Services	10,000
Tribal Special Assistant U.S. Attorneys	4,500
Sec. 206 of Pub. L. No. 107-103	1,000
Underserved Populations Program	4,500
Financial Assistance Program	3,000
Abby Honold Act	5,000
Access to Sexual Assault Nurse Exams	12,000
Cybercrime Enforcement	5,000
Total, Violence Against Women Prevention and Prosecution Programs	\$720,000

Crime Victims Fund.—The agreement allows for obligations of \$1,950,000,000 from the Crime Victims Fund. In an effort to appropriately balance support for the breadth of victims and related services, the agreement provides \$100,000,000 of this amount to support Violence Against Women Prevention and Prosecution Programs. This transfer is necessary to provide critical support for victims in the current fiscal environment.

Statutory Set-Asides.—The underlying statutes for several grant programs, including Services, Training, Officers, and Prosecutors (STOP) Grants and Sexual Assault Services Program (SASP) grants, outline set-asides for Tribal governments and coalitions, culturally specific community-based organizations, and organizations providing services to underserved populations. OVW shall en-

sure that the full amounts provided for in the authorizing statutes are awarded expeditiously.

OFFICE OF JUSTICE PROGRAMS
RESEARCH, EVALUATION AND STATISTICS

The agreement provides \$55,000,000 for the Research, Evaluation and Statistics account. These funds are distributed as follows:

RESEARCH, EVALUATION AND STATISTICS

(In thousands of dollars)

Program	Amount (\$000)
Bureau of Justice Statistics	\$33,000
National Institute of Justice	22,000
Total, Research, Evaluation and Statistics	\$55,000

STATE AND LOCAL LAW ENFORCEMENT
ASSISTANCE

(INCLUDING TRANSFER OF FUNDS)

The agreement includes \$2,400,000,000 for State and Local Law Enforcement Assistance programs. These funds are distributed as follows:

STATE AND LOCAL LAW ENFORCEMENT ASSISTANCE

(In thousands of dollars)

Program	Amount (\$000)
Byrne Memorial Justice Assistance Grants	\$964,000
Officer Robert Wilson III VALOR Initiative	(12,500)
NamUs	(3,000)
Officer Training for Responding to People with Mental Illness or Disabilities	(6,000)
John R. Justice Grant Program	(2,500)
Prison Rape Prevention and Prosecution	(15,000)

Justice Reinvestment Initiative	(19,000)
Community Violence Intervention and Prevention	(50,000)
Daniel Aderl Judicial Security and Privacy Act	7,500
Total, State and Local Law Enforcement Assistance	\$2,400,000

Edward Byrne Memorial Justice Assistance Grant Program.—The Department is directed to continue following the directives in House

Report 117-97 adopted by Public Law 117-103 on “Byrne Memorial Justice Assistance Grant (Byrne JAG) Formula program”, and in the joint explanatory statement accompanying Public Law 117-103 on “Uses of Byrne-JAG Funds.” In lieu of the House report language on “Byrne JAG Funds for Automated License Plate Reader Systems (ALPRs)”, the agreement highlights that Byrne JAG funds may be used by state, local, and Tribal law enforcement for ALPRs.

Non-Lethal Drone Technology.—In lieu of the House report language on “Non-Lethal Drone Technology”, the agreement directs the Department to provide a briefing within 60 days of the enactment of this act detailing the Department's plan to implement Section 8603 and Section 8604 of the National Defense Authorization Act for Fiscal Year 2026 (Public Law 119-60).

Capital Litigation Improvement and Wrongful Conviction Review.—The agreement provides \$11,500,000 for Capital Litigation Improvement and Wrongful Conviction Review and adopts the Senate direction.

Improving Gun Crime investigations.—The agreement provides \$13,000,000 for Project Safe Neighborhoods and, within these funds, encourages the Department to award grants at no less than the fiscal year 2025 level for the implementation and development of automated ballistics imaging triage technology to support timely, evidence-based investigations of gun crimes. Such technology would assist law enforcement entities in rapidly scanning ballistics evidence, improving access to crime gun intelligence, and streamlining evidence submission to the National Integrated Ballistic Information Network (NIBIN).

State Criminal Alien Assistance Program (SCAAP).—The agreement includes \$202,500,000 for SCAAP and notes that Public Law 119-21 provided additional grant funds to the Department “for initiatives associated with investigating and prosecuting violent crime; criminal enforcement initiatives; and immigration enforcement and removal efforts” and for the “temporary criminal detention of aliens”. The agreement notes that these purposes are aligned with the purposes of SCAAP which provides federal payments to states and localities that incurred correctional officer salary costs for incarcerating undocumented criminal aliens.

Forensic Genetic Genealogical (FGG) DNA.—Within amounts provided for the Office of Justice Programs, the agreement directs the Department to support efforts to use FGG to investigate unsolved violent crimes, without regard to the status of an applicant agency's sexual assault kit inventory. Further, the Department is encouraged to revisit the FGG DNA Analysis 2019 Policy and to fund additional grants for the use of FGG technology under other appropriate programs including, but not limited to, the National Missing and Unidentified Persons System (NamUs) program.

Comprehensive Opioid, Stimulant, and Substance Use Program (COSSUP).—The agreement provides \$12,000,000 within COSSUP for grants to local nonprofits preventing substance use and misuse. BJA shall provide awards to local non-profits working with law enforcement and community coalitions to educate youth in schools and in extracurricular programming on drug prevention. The agreement further directs the Department to prioritize nonprofit organizations with comprehensive approaches to combating substance use, including investigations, treatment, and education.

Combating Violence and Hate Crimes at Houses of Worship and Faith-Based Organizations.—The agreement directs the Department to allocate no less than \$5,000,000 from the funds available under 34 U.S.C. 10157(b)

to support State and local law enforcement agencies seeking to enhance security measures for at-risk religious institutions and to address the precipitous increases in hate crimes targeting individuals on the basis of religion.

Byrne Discretionary Community Project Grants/Byrne Discretionary Grants (“projects”).—The agreement provides \$537,978,926 for projects to prevent crime, improve the criminal justice system, provide victim services, and for other related activities. The agreement directs the Department to provide the funding for the projects listed in the table titled, “Community Project Funding/Congressionally Directed Spending” at the end of this joint explanatory statement in the corresponding amounts, which are incorporated by reference in this act.

JUVENILE JUSTICE PROGRAMS

The agreement includes \$375,000,000 for Juvenile Justice programs. These funds are distributed as follows:

JUVENILE JUSTICE PROGRAMS (In thousands of dollars)	
Program	Amount (\$000)
Part B—State Formula Grants	\$65,000
Emergency Planning—Juvenile Detention Facilities	(500)
Youth Mentoring Grants	105,000
Title V—Delinquency Prevention Incentive Grants	50,500
Prevention of Trafficking of Girls	(4,000)
Tribal Youth	(16,000)
Girls in the Justice System	(4,500)
Opioid Affected Youth Initiative	(10,500)
Children Exposed to Violence	(9,000)
Arts in Juvenile Justice	(2,000)
Victims of Child Abuse Programs	43,000
Missing and Exploited Children Programs	105,000
Training for Judicial Personnel	4,500
Juvenile Indigent Defense	2,000
Total, Juvenile Justice Programs	\$375,000

Child Sexual Abuse Prevention Policies within the Olympic Movement.—In lieu of the House report language under this heading, the agreement encourages the Department to provide options to evaluate and improve child sexual abuse prevention policies within the Olympic movement.

PUBLIC SAFETY OFFICER BENEFITS
(INCLUDING TRANSFER OF FUNDS)

The agreement includes \$236,800,000 for the Public Safety Officer Benefits program for fiscal year 2026.

COMMUNITY ORIENTED POLICING SERVICES
COMMUNITY ORIENTED POLICING SERVICES
PROGRAMS
(INCLUDING TRANSFER OF FUNDS)

The agreement includes \$800,000,000 for Community Oriented Policing Services (COPS) programs, as follows:

COMMUNITY ORIENTED POLICING SERVICES (In thousands of dollars)	
Program	Amount
COPS Hiring Program	\$253,094
Tribal Resources Grant Program	(32,000)
Regional Information Sharing Activities	(44,000)
Tribal Access Program	(4,000)
Law Enforcement Mental Health and Wellness Act	(10,000)
Collaborative Reform Model	(5,500)
Community Policing Development	18,000
POLICE Act	11,500
Anti-Methamphetamine Task Forces	13,500
Anti-Heroin Task Forces	34,500
STOP School Violence Act	53,000
Law Enforcement Officer De-escalation Training Act	15,000
COPS Technology and Equipment Community Projects	401,406
Total, Community Oriented Policing Services	\$800,000

School Resource Officers.—In lieu of the Senate report language, the agreement directs the COPS Office, within 180 days of the enactment of this act, to provide a report detailing the requirements and procedures regarding written memoranda of under-

standing and training requirements, including clear definitions of officers' roles and responsibilities on campus for any COPS Hiring grant funds used to hire school resource officers.

Community Oriented Policing Services, Technology and Equipment Community Projects/COPS Law Enforcement Technology and Equipment (“projects”).—The agreement provides \$401,406,387 for grants to state, local, Tribal, territorial, and other entities to develop and acquire effective equipment, technologies, and interoperable communications that assist in responding to and preventing crime. The agreement notes that the projects included in this statement should help improve police effectiveness and the flow of information among law enforcement agencies, local government service providers, and the communities they serve. Equipment funded under this program should meet any applicable requirements of the National Institute of Standards and Technology's Office of Law Enforcement Standards. The agreement directs the Department to provide the funding for the projects listed in the table titled, “Community Project Funding/Congressionally Directed Spending” at the end of this joint explanatory statement in the corresponding amounts, which are incorporated by reference in this act.

GENERAL PROVISIONS—DEPARTMENT OF
JUSTICE
(INCLUDING TRANSFERS OF FUNDS)

Section 201 makes available additional reception and representation funding for the Attorney General from the amounts provided in this title.

Section 202 prohibits the use of funds to pay for an abortion, except in the case of rape or incest, or to preserve the life of the mother.

Section 203 prohibits the use of funds to require any person to perform or facilitate the performance of an abortion.

Section 204 establishes that the Director of the Bureau of Prisons is obliged to provide escort services to an inmate receiving an abortion outside of a Federal facility, except where this obligation conflicts with the preceding section.

Section 205 establishes requirements and procedures for transfer proposals.

Section 206 prohibits the use of funds for transporting prisoners classified as maximum or high security, other than to a facility certified by the BOP as appropriately secure.

Section 207 prohibits the use of funds for the purchase or rental by Federal prisons of audiovisual or electronic media or equipment, services and materials used primarily for recreational purposes, except for those items and services needed for inmate training, religious, or educational purposes.

Section 208 requires review by the Deputy Attorney General and the Department Investment Review Board prior to the obligation or expenditure of funds for major information technology projects.

Section 209 requires the Department to follow reprogramming procedures prior to any deviation from the program amounts specified in this title or the reuse of specified deobligated funds provided in previous years.

Section 210 prohibits the use of funds for A-76 competitions for work performed by employees of BOP or Federal Prison Industries, Inc.

Section 211 prohibits U.S. Attorneys from holding additional responsibilities that exempt U.S. Attorneys from statutory residency requirements.

Section 212 permits up to 2 percent of grant funds made available to be used for criminal justice research, evaluation and statistics by the National Institute of Jus-

tice and the Bureau of Justice Statistics and designates up to 2 percent of grant funds for training and technical assistance.

Section 213 provides cost-share waivers for certain grant programs.

Section 214 waives the requirement that the Attorney General reserve certain funds from amounts provided for offender incarceration.

Section 215 prohibits funds, other than funds for the national instant criminal background check system established under the Brady Handgun Violence Prevention Act, from being used to facilitate the transfer of an operable firearm to a known or suspected agent of a drug cartel where law enforcement personnel do not continuously monitor or control such firearm.

Section 216 places limitations on the obligation of funds from certain DOJ accounts and funding sources.

Section 217 allows certain funding to be made available for use in Performance Partnership Pilots.

Section 218 establishes reporting requirements for the Department's Crime Victims Fund, the Working Capital Fund, the Three Percent Fund, and the Assets Forfeiture Fund.

Section 219 places limitations on the Department's performance of live tissue training.

Section 220 prohibits the Department from targeting or investigating parents who peacefully protest at school board meetings and are not suspected of engaging in unlawful activity.

Section 221 prohibits the Department from investigating or prosecuting religious institutions on the basis of their religious beliefs.

Section 222 is a new provision regarding the FBI Headquarters building.

TITLE III
SCIENCE

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

The agreement includes \$7,965,000 for the Office of Science and Technology Policy (OSTP).

Open Access.—The agreement recognizes that OSTP may be in the process of repealing the August 25, 2022, Memorandum to Executive Departments and Agencies entitled, “Ensuring Free, Immediate, and Equitable Access to Federally Funded Research”. No later than 30 days after the enactment of this act, OSTP is directed to provide the Committees with a briefing on the status of this action.

Ensuring American Space Superiority.—No later than 60 days after the enactment of this act, OSTP shall provide the Committees a briefing detailing its plan to execute its responsibilities outlined in the Executive Order of December 18, 2025, entitled “Ensuring American Space Superiority”. OSTP is directed to assume any costs encumbered to date in support of the National Space Council.

NATIONAL AERONAUTICS AND SPACE
ADMINISTRATION

The agreement includes \$24,438,336,000 for the National Aeronautics and Space Administration (NASA). The agreement retains the House and Senate directions to NASA to improve communications with the Committees about mission cost and schedule, including the House language requiring a briefing within 30 days of submission of its annual budget request on reserves, along with the confidence level, if appropriate, assumed in the proposed funding level for each directorate, theme, program, project, or activity, as well as the Senate's direction to NASA to promptly inform the Committees of major reviews in addition to regular oversight in a timely fashion.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION
(In thousands of dollars)

Program	Amount (\$'000)
Science:	
Earth Science	\$2,153,000
Planetary Science	2,541,200
Astrophysics	1,595,000
Heliophysics	874,800
Biological and Physical Science	86,000
Total, Science	7,250,000
Aeronautics	935,000
Space Technology	920,500
Exploration	7,783,000
Space Operations	4,175,000
Science, Technology, Engineering, Mathematics (STEM)	143,000
Safety, Security, and Mission Services	3,000,000
Construction and Environmental Compliance and Restoration	185,336
Office of Inspector General	46,500
Total, NASA	\$24,438,336

SCIENCE

The agreement includes \$7,250,000,000 for Science and directs NASA to provide funding as described in the subsequent table, which is codified in the bill, and detailed in the text below. The agreement expects that NASA will not propose to transfer Science funding out of the Directorate other than to Construction and Environmental Compliance and Restoration for construction needs related to the Directorate. The agreement continues support for the scientific value and exploration provided by NASA Science missions in Earth Science, Planetary Science, Astrophysics, Heliophysics, and Biological and Physical Sciences.

SCIENCE

(In thousands of dollars)

Program	Amount (\$'000)
Earth Science	2,153,000
Earth System Observatory Missions	245,000
Planetary Science	2,541,200
NEO Surveyor	300,000
DAVINCI	99,000
Dragonfly	500,000
New Horizons	10,000
Mars Future Missions	110,000
Astrophysics	1,595,000
Balloon Project	49,300
Hubble Space Telescope	98,300
James Webb Space Telescope	208,000
Laser Interferometer Space Antenna	80,500
Nancy Grace Roman Space Telescope	300,000
Habitable Worlds Observatory	150,000
Heliophysics	874,800
Parker Solar Probe	25,000
Geospace Dynamics Constellation	100,000
HelioSwarm	109,500
Biological and Physical Sciences	86,000
Total, Science	7,250,000

Commercial Satellite Data Acquisition (CSDA).—The agreement includes \$55,300,000 for CSDA.

Landsat Next.—The agreement provides \$110,000,000 for the Landsat Next mission. NASA shall continue development of the

three superspectral instruments, with a launch target for the first satellite by the end of 2031, and the remaining two satellites phased thereafter, to ensure uninterrupted continuity of the Landsat data record and maximum use of the Landsat 9 and Landsat Next satellite series.

Earth System Modeling.—In preparing the plan required under this paragraph in the Senate report, NASA shall ensure that Goddard Institute for Space Studies (GISS) employees are able to continue work with minimal disruption, including by considering a physical location of GISS near its previous location that supports GISS's strong academic partnerships.

Commercial Lunar Payload Services (CLPS).—The agreement approves the proposed transfer of the CLPS program from the Science Mission Directorate (SMD) to the Exploration Systems Development Mission Directorate (ESDMD), and further direction is included within Exploration.

High End Computing Capability.—The agreement adopts Senate funding and direction regarding “High End Computing Capability” and accepts the proposal to consolidate the capability within Planetary Science.

Uranus Orbiter and Probe.—The agreement provides up to \$10,000,000 for formulation of the Uranus Orbiter and Probe mission.

Mars Future Missions.—As proposed in the budget, the agreement does not support the existing Mars Sample Return (MSR) program. However, the technological capabilities being developed in the MSR program are not only critical to the success of future science missions but also to human exploration of the Moon and Mars. Therefore, the agreement provides the request of \$110,000,000 for the Mars Future Missions program, including existing MSR efforts, to support radar, spectroscopy, entry, descent, and landing systems, and translational precursor technologies that will enable science missions for the next decade, including lunar and Mars missions. NASA shall coordinate efforts between SMD and ESDMD on the advancement of these important technologies.

Space Weather.—The agreement includes no less than the fiscal year 2024 enacted level for Space Weather.

Magnetospheric Multiscale (MMS) Mission.—The agreement provides no less than \$23,000,000 from within current and prior year resources to continue the MMS mission.

AERONAUTICS

The agreement includes \$935,000,000 for Aeronautics.

Advanced Air Mobility Systems.—The agreement includes up to \$10,000,000 for the Air Traffic Management eXploration safe autonomous flight enabling infrastructure.

Assured Autonomy Research.—The agreement includes up to \$12,000,000 to continue partnering with industry for the comprehensive research, development, test, and evaluation necessary to enable NASA's flight testing of avionics and related technologies to plan and implement flight demonstration tests with industry partners.

Advanced Materials Research.—The agreement adopts the Senate direction and pro-

vides not less than \$30,000,000 for High-Rate Composite Aircraft Manufacturing (HiCAM) and \$15,000,000 for Hi-Rate Ceramic Matrix Composites (CMCs).

Advancing a New Generation of Domestic Aircraft.—The agreement includes \$40,000,000 for the Electrified Powertrain Flight Demonstration project and adopts the House language.

SPACE TECHNOLOGY

The agreement includes \$920,500,000 for Space Technology.

Nuclear Thermal Propulsion (NTP).—The agreement provides not less than \$110,000,000 and up to \$120,000,000 for NTP and directs that NASA shall ensure that NTP efforts are integrated with NASA's human exploration missions, with a focus on supporting future crewed missions beyond low Earth orbit, including to Mars.

Nuclear Electric Propulsion (NEP).—The agreement includes up to \$50,000,000 for NEP to continue efforts toward the development of a high-power nuclear electric propulsion demonstration, of which up to \$10,000,000 is for the design of test articles to enable a flight demonstration. The agreement encourages NASA to consider the scalability of nuclear power conversion development to enhance reactor and radiator efficiency to support future missions.

Transfer to Exploration.—Not later than 90 days after enactment of this act, NASA is directed to submit a detailed plan outlining a development strategy for NTP and NEP as well as a proposal to transition nuclear propulsion activities from Space Technology to ESDMD's Mars Campaign Office. NASA shall provide the organizational, budgetary, and contractual changes required to implement this transfer, including an updated program plan and schedule for the flight demonstration.

Flight Opportunities Program.—The agreement includes \$27,000,000 for the Flight Opportunities Program, including \$5,000,000 to support payload development and flight of K-12 and collegiate educational payloads.

Center for Robotics and Space Mobility.—The agreement adopts House and Senate language regarding “Center for Robotics and Space Mobility (ROMO)” within Space Technology to establish a center at the Goddard Space Flight Center and provides \$10,000,000.

Small Business Engagement.—The agreement encourages NASA to continue to obligate not less than 3.2 percent of its annual extramural research and development budget through awards to small businesses despite the current lapse in Small Business Innovation Research (SBIR) authorization. If new SBIR or Small Business Technology Transfer authorization legislation is enacted that modifies the mandated level of support for small businesses, NASA shall ensure that it adheres to that new level.

EXPLORATION

The agreement includes \$7,783,000,000 for Exploration and allocates the funds as designated in the table below.

EXPLORATION

(In thousands of dollars)

Programs	Fiscal Year 2026 Conference Agreement	P.L. 119–21 Funds for Fiscal Year 2026	Total Fiscal Year 2026 Funds
Space Launch System (SLS)	1,307,600	1,025,000	2,332,600
Orion	1,420,800	20,000	1,440,800
Exploration Ground Systems (EGS)	923,400		923,400
xEVA and Human Surface Mobility	856,200		856,200
Human Landing System (HLS)	2,005,400		2,005,400
Gateway	50,000	1,100,000	1,150,000
Advanced Communications		700,000	700,000
Total	\$7,783,000		

Artemis Campaign.—The agreement rejects the proposed termination of the Space Launch System (SLS) and Orion programs following Artemis III. In any future competition for Artemis launch services, the agreement directs NASA to include an SLS-based option, unless otherwise directed by Congress. The agreement further prohibits the reallocation of funds from the Artemis Moon to Mars Transportation account, unless and until a commercial alternative is demonstrated to meet or exceed the capabilities of the SLS and Orion systems. Not later than 30 days of the enactment of this act, and quarterly thereafter, NASA shall provide the Committees a briefing detailing any updates on the Human Landing System (HLS) program, the progress made in the HLS program, any anticipated changes to program cost or schedule, and any other relevant issues related to the HLS program.

Fabrication Laboratory (FabLab) Demonstration.—In lieu of the House language the agreement adopts the Senate language on “In-Space Manufacturing” within Space Technology.

Commercial Lunar Payload Services.—The agreement accepts the transfer of CLPS from the SMD to Exploration (ESDMD) and provides a total of not less than \$250,000,000 for CLPS including up to \$65,000,000 provided in Planetary Science to ensure a smooth transition. Within 60 days of the enactment of this act, the agreement directs NASA to provide a briefing on any CLPS program modifications resulting from the move of the program from the SMD to ESDMD.

Fission Surface Power (FSP).—The agreement provides \$250,000,000 for FSP. The agreement directs NASA to brief the Committees semi-annually on NASA’s plans to advance this critical technology, including work with the Department of Energy, American universities, and the private sector to ensure that the ESDMD is leveraging all available sources of knowledge and expertise to meet NASA’s ambitious timeline for FSP maturation and deployment. The first such briefing shall be provided not less than 180 days after enactment of this act.

SPACE OPERATIONS

The agreement provides \$4,175,000,000 for Space Operations.

International Space Station (ISS).—For fiscal year 2026, \$1,490,000,000 is available for the ISS, \$1,240,000,000 in discretionary funding provided by this act, and \$250,000,000 provided in Public Law 119-21. The agreement includes House and Senate direction to maintain the fullest possible utilization of the ISS.

Commercial Low Earth Orbit Destinations (CLD).—The agreement provides \$273,200,000 for the CLD program. NASA is directed to brief the Committees no later than 60 days after the enactment of this act on its plans to ensure that at least one provider is available to provide services upon the decommissioning of the International Space Station (ISS).

Space Cargo Vehicle Emergency Crew Return Capability.—The agreement includes up to \$5,000,000 for modification and certification activities necessary to convert a U.S. commercial cargo reentry vehicle to safely reenter and land crew on a runway within the continental United States.

Small Satellite Cross-Link Systems.—The agreement includes \$10,000,000 to align NASA’s relay networks to transmit large volumes of science and Earth remote sensing data to users via high-speed (V-band), low latency links. This should provide an expanded educational opportunity for individuals studying SmallSat Cross-Link Systems.

Space Communications.—The agreement includes not less than the fiscal year 2024 enacted level for the Near Space Network and

Deep Space Network and includes the House direction and funding level under the heading “NASA Near Space Network (NSN) and Deep Space Network (DSN) Services”.

SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS ENGAGEMENT

The agreement includes \$143,000,000 for Science, Technology, Engineering, and Mathematics (STEM) Engagement, and allocates the funds as designated in the table below.

STEM ENGAGEMENT
(In thousands of dollars)

Programs	Amount (\$000)
NASA Space Grant	58,000
Established Program to Stimulate Competitive Research (EPSCoR)	26,000
Minority University Research and Education Project	45,500
Next Generation STEM Project	13,500
Total	143,000

SAFETY, SECURITY AND MISSION SERVICES

The agreement includes \$3,000,000,000 for Safety, Security and Mission Services (SSMS).

NASA Headquarters.—The agreement directs NASA to provide a briefing on the future of NASA Headquarters, including any plans for NASA to move staff outside of the Washington D.C. region, within 180 days of the enactment of this act.

Goddard Space Flight Center Consolidation.—The Committees have reviewed reports regarding facility and building closures at NASA Goddard Space Flight Center’s Greenbelt campus and are concerned about potential negative impacts to operations and capabilities at the Center. The agreement directs NASA to preserve all the technical and scientific world-class capabilities at Goddard, including those that will be used to complete any mission funded in fiscal year 2026 by Congress during any campus consolidation. In addition, the agreement directs NASA to, no later than 30 days after the enactment of this act, contract a study with the National Academies of Sciences, Engineering, and Medicine regarding the current technical and scientific capabilities housed at Goddard, what capabilities are positioned to ensure long-term success of the NASA mission, including for future cutting-edge scientific discovery and crewed space exploration, and what facilities are needed to house and operate those capabilities.

NASA Community Projects/NASA Special Projects.—Within the appropriation for SSMS, the agreement provides \$58,417,135 for NASA Community Projects/NASA Special Projects. The agreement directs NASA to provide the funding for the projects listed in the table titled, “Community Project Funding/Congressionally Directed Spending” at the end of this joint explanatory statement in the corresponding amounts. The agreement further directs NASA to perform the same level of oversight and due diligence as with any other external partners.

CONSTRUCTION AND ENVIRONMENTAL COMPLIANCE AND RESTORATION

The agreement includes \$185,336,000 for Construction and Environmental Compliance and Restoration.

OFFICE OF INSPECTOR GENERAL

The agreement includes \$46,500,000 for the Office of Inspector General.

ADMINISTRATIVE PROVISIONS
(INCLUDING TRANSFERS OF FUNDS)

The agreement allows for certain transfers of funds.

The agreement includes a provision providing NASA the authority to combine amounts from one or more of its Science,

Aeronautics, Space Technology, Exploration, and Space Operations appropriations with amounts from the STEM Engagement appropriation to jointly fund discrete projects or activities, through contracts, grants, or cooperative agreements, that serve these purposes. NASA is directed to provide notification of the Agency’s intent to award a contract, grant, or cooperative agreement that would be jointly funded under this authority, no less than 15 days prior to award.

The agreement permits a transfer of funds into NASA’s Working Capital Fund.

The agreement includes bill language creating a NASA Nonrecurring Expenses Fund.

NATIONAL SCIENCE FOUNDATION

The agreement includes \$8,750,000,000 for the National Science Foundation (NSF).

RESEARCH AND RELATED ACTIVITIES

The agreement includes \$7,176,500,000 for Research and Related Activities (R&RA). In developing the spending plan and allocating funds, the agreement directs NSF to equitably distribute funding to support all basic research directorates within R&RA, as well as the Technology, Innovation and Partnerships Directorate. No directorate shall receive more than a 5 percent reduction relative to the fiscal year 2024 enacted level.

Established Program to Stimulate Competitive Research (EPSCoR).—The agreement provides \$250,000,000 for the EPSCoR program and adopts the direction in both the House and Senate reports.

Regional Innovation Engines (NSF Engines).—The agreement provides up to \$200,000,000 for the NSF Engines.

National Artificial Intelligence Research Resource (NAIRR) Pilot Program.—The agreement provides \$30,000,000 for the NAIRR.

Astronomy and Astrophysics Decadal Survey Priority Facilities.—The agreement provides not less than \$30,000,000 for NSF to support the development of next generation astronomy facilities recommended in the National Academies of Sciences, Engineering, and Medicine Decadal Survey on Astronomy and Astrophysics 2020 (Astro2020) and adopts House and Senate direction. The agreement also reiterates Senate direction that NSF shall immediately advance both U.S. Extremely Large Telescopes into final design review, at no cost to the Federal Government. Not later than 45 days after enactment of this act, NSF shall brief the Committees about how the Foundation intends to implement this congressional direction, and the agreement adopts House direction requesting regular program updates thereafter.

HBCUs Excellence in Research.—The agreement provides \$25,000,000 for the HBCUs Excellence in Research program.

Laser Interferometer Gravitational-Wave Observatory (LIGO).—The agreement adopts Senate direction on LIGO and provides not less than \$49,000,000.

Research and Development Centers and Scientific Facilities.—The agreement supports the world-class research performed at the National Science Foundation—funded research and development centers and major scientific facilities. The agreement directs NSF to provide a briefing, not later than 30 days after enactment of this act, on its facilities management and oversight plan for NSF-supported research and development centers and major scientific facilities across all disciplines. The agreement further directs NSF to submit a report, not later than 180 days after enactment of this act, on this plan.

MAJOR RESEARCH EQUIPMENT AND FACILITIES CONSTRUCTION

The agreement provides \$251,000,000 for Major Research Equipment and Facilities Construction to support the Antarctic Infrastructure Recapitalization, the Leadership-

Class Computing Facility, and Mid-scale Research Infrastructure.

STEM EDUCATION

The agreement includes \$938,250,000 for STEM Education.

NATIONAL SCIENCE FOUNDATION STEM EDUCATION
(In thousands of dollars)

Program	Amount (\$000)
STEM Education	938,250
Graduate Research Fellowship Program	285,000
Advanced Technological Education	75,000
Improving Undergraduate STEM Education [IUSE]	90,000
Centers for Research Excellence in Science and Technology	24,000
HBCU—Undergraduate Program	36,500
IUSE: HSI	46,500
Tribal Colleges and Universities Program	20,000
ADVANCE	18,000
Alliances for Graduate Education and the Professoriate	8,000
Louis Stokes Alliances for Minority Participation	49,500
Robert Noyce Teacher Scholarship Program	67,000
CyberCorps, Scholarships for Service	60,000
Advancing Informal STEM Learning [AISL]	55,000

Supporting STEM in Rural Communities.—The agreement includes up to \$5,500,000 for the development of STEM talent within counties designated as high-impact coal counties by the Appalachian Regional Commission for alternative learning environments in rural communities.

CREATING HELPFUL INCENTIVES TO PRODUCE SEMICONDUCTORS (CHIPS) FOR AMERICA WORKFORCE AND EDUCATION FUND

Division A of Public Law 117-167 established the CHIPS for America Workforce and Education Fund. The agreement allocates the funds according to the amounts listed in the following table:

NATIONAL SCIENCE FOUNDATION ALLOCATION OF FUNDS:
CHIPS ACT FISCAL YEAR 2026
(In thousands of dollars)

Account—Project and Activity	Amount (\$000)
Creating Helpful Incentives to Produce Semiconductors (CHIPS) for America Workforce and Education Fund	\$50,000
Research and Related Activities	(25,000)
STEM Education Activities	(25,000)
Total	\$50,000

AGENCY OPERATIONS AND AWARD MANAGEMENT

The agreement includes \$355,000,000 for Agency Operations and Award Management (AOAM) and accepts NSF's proposal to shift budget activities with an agency-wide benefit from AOAM to R&RA.

OFFICE OF THE NATIONAL SCIENCE BOARD

The agreement includes \$5,090,000 for the National Science Board.

OFFICE OF INSPECTOR GENERAL

The agreement includes \$24,160,000 for the Office of Inspector General.

ADMINISTRATIVE PROVISIONS

(INCLUDING TRANSFER OF FUNDS)

The agreement includes two administrative provisions. The first establishes thresholds for the transfer of funds. The second provision is regarding notification prior to acquisition or disposal of certain assets.

TITLE IV

RELATED AGENCIES

COMMISSION ON CIVIL RIGHTS

SALARIES AND EXPENSES

The agreement includes \$14,350,000 for the Commission on Civil Rights.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

SALARIES AND EXPENSES

The agreement includes \$435,382,000 for the Equal Employment Opportunity Commission (EEOC).

Client Privacy.—In lieu of the directive under this caption in the Senate report, the agreement directs EEOC to report to the Committees, within 60 days after the enactment of this act, on measures the Commission is undertaking to control access from other governmental entities to personal EEOC inquiry and charge information.

INTERNATIONAL TRADE COMMISSION

SALARIES AND EXPENSES

The agreement includes \$122,000,000 for the International Trade Commission (ITC).

LEGAL SERVICES CORPORATION

PAYMENT TO THE LEGAL SERVICES CORPORATION

The agreement includes \$540,000,000 for the Legal Services Corporation (LSC).

ADMINISTRATIVE PROVISIONS

The bill includes language permitting LSC grantees to operate with boards of directors composed of no less than 33 percent attorneys without requiring appointment by bar associations.

MARINE MAMMAL COMMISSION

SALARIES AND EXPENSES

The agreement includes \$4,300,000 for the Marine Mammal Commission.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

The agreement includes a total of \$88,000,000 for the Office of the U.S. Trade Representative (USTR).

SALARIES AND EXPENSES

The agreement includes \$65,000,000 for the salaries and expenses of USTR.

TRADE ENFORCEMENT TRUST FUND

(INCLUDING TRANSFER OF FUNDS)

The agreement includes \$23,000,000, which is to be derived from the Trade Enforcement Trust Fund, for trade enforcement activities and transfers authorized by the Trade Facilitation and Trade Enforcement Act of 2015.

STATE JUSTICE INSTITUTE

SALARIES AND EXPENSES

The agreement includes \$7,640,000 for the State Justice Institute.

TITLE V

GENERAL PROVISIONS

(INCLUDING TRANSFERS AND RESCISSIONS OF FUNDS)

The agreement includes the following general provisions:

Section 501 prohibits the use of funds for publicity or propaganda purposes unless expressly authorized by law.

Section 502 prohibits any appropriation contained in this act from remaining available for obligation beyond the current fiscal year unless expressly provided.

Section 503 provides that the expenditure of any appropriation contained in this act for any consulting service through procurement contracts shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law or existing Executive order issued pursuant to existing law.

Section 504 provides that if any provision of this act or the application of such provision to any person or circumstance shall be held invalid, the remainder of this act and the application of other provisions shall not be affected.

Section 505 prohibits a reprogramming of funds that: (1) creates or initiates a new program, project, or activity; (2) eliminates a program, project, or activity; (3) increases funds or personnel by any means for any project or activity for which funds have been denied or restricted; (4) relocates an office or

employee; (5) reorganizes or renames offices, programs, or activities; (6) contracts out or privatizes any function or activity presently performed by Federal employees; (7) augments funds for existing programs, projects, or activities in excess of \$500,000 or 10 percent, whichever is less, or reduces by 10 percent funding for any existing program, project, or activity, or numbers of personnel by 10 percent; or (8) results from any general savings, including savings from a reduction in personnel, which would result in a change in existing programs, projects, or activities as approved by Congress; unless the House and Senate Committees on Appropriations are notified 15 days in advance of such reprogramming of funds.

Section 506 provides that if it is determined that any person intentionally affixes a “Made in America” label to any product that was not made in America that person shall not be eligible to receive any contract or subcontract with funds made available in this act. The section further provides that to the extent practicable, with respect to purchases of promotional items, funds made available under this act shall be used to purchase items manufactured, produced, or assembled in the United States or its territories or possessions.

Section 507 requires quarterly reporting to Congress on the status of balances of appropriations.

Section 508 provides that any costs incurred by a department or agency funded under this act resulting from, or to prevent, personnel actions taken in response to funding reductions in this act, or, for the Department of Commerce, from actions taken for the care and protection of loan collateral or grant property, shall be absorbed within the budgetary resources available to the department or agency, and provides transfer authority between appropriation accounts to carry out this provision, subject to reprogramming procedures.

Section 509 prohibits funds made available in this act from being used to promote the sale or export of tobacco or tobacco products or to seek the reduction or removal of foreign restrictions on the marketing of tobacco products, except for restrictions which are not applied equally to all tobacco or tobacco products of the same type. This provision is not intended to impact routine international trade services to all U.S. citizens, including the processing of applications to establish foreign trade zones.

Section 510 stipulates the obligations of certain receipts deposited into the Crime Victims Fund.

Section 511 prohibits the use of DOJ funds for programs that discriminate against or denigrate the religious or moral beliefs of students participating in such programs.

Section 512 prohibits the transfer of funds in this agreement to any department, agency, or instrumentality of the United States Government, except for transfers made by, or pursuant to authorities provided in, this agreement or any other appropriations act.

Section 513 requires certain timetables of audits performed by Inspectors General of the Departments of Commerce and Justice, the National Aeronautics and Space Administration, the National Science Foundation and the Legal Services Corporation and sets limits and restrictions on the awarding and use of grants or contracts funded by amounts appropriated by this act.

Section 514 prohibits funds for acquisition of certain information systems unless the acquiring department or agency has reviewed and assessed certain risks. Any acquisition of such an information system is contingent upon the development of a risk mitigation strategy and a determination that the acquisition is in the national interest. Each department or agency covered under section

514 shall submit a quarterly report to the Committees on Appropriations describing reviews and assessments of risk made pursuant to this section and any associated findings or determinations.

Section 515 prohibits the use of funds in this act to support or justify the use of torture by any official or contract employee of the United States Government.

Section 516 prohibits the use of funds to include certain language in trade agreements.

Section 517 prohibits the use of funds in this act to authorize or issue a National Security Letter (NSL) in contravention of certain laws authorizing the FBI to issue NSLs.

Section 518 requires congressional notification for any project within the Departments of Commerce or Justice, the National Science Foundation, or the National Aeronautics and Space Administration totaling more than \$75,000,000 that has cost increases of 10 percent or more.

Section 519 deems funds for intelligence or intelligence-related activities as authorized by the Congress until the enactment of the Intelligence Authorization Act for fiscal year 2026.

Section 520 prohibits contracts or grant awards in excess of \$5,000,000 unless the prospective contractor or grantee certifies that the organization has filed all Federal tax returns, has not been convicted of a criminal offense under the Internal Revenue Code of 1986, and has no unpaid Federal tax assessment.

(RESCISSIONS)

Section 521 provides for rescissions of unobligated balances.

Section 522 prohibits the use of funds in this act for the purchase of first class or premium air travel in contravention of the Code of Federal Regulations.

Section 523 prohibits the use of funds to pay for the attendance of more than 50 department or agency employees, who are stationed in the United States, at any single conference outside the United States, unless the conference is: (1) a law enforcement training or operational event where the majority of Federal attendees are law enforcement personnel stationed outside the United States; (2) a scientific conference for which the department or agency head has notified the House and Senate Committees on Appropriations that such attendance is in the national interest, along with the basis for such determination.

Section 524 requires any department, agency, or instrumentality of the United States

Government receiving funds appropriated under this act to track and report on undisbursed balances in expired grant accounts.

Section 525 requires, when practicable, the use of funds in this act to purchase light bulbs that have the “Energy Star” or “Federal Energy Management Program” designation.

Section 526 prohibits the use of funds by NASA or OSTP to engage in bilateral activities with China or a Chinese-owned company or effectuate the hosting of official Chinese visitors at certain facilities unless the activities are authorized by subsequent legislation or NASA or OSTP have made a certification pursuant to subsections (c) and (d) of this section.

Section 527 prohibits the use of funds to establish or maintain a computer network that does not block pornography, except for law enforcement and victim assistance purposes.

Section 528 requires the departments and agencies funded in this act to submit spending plans.

Section 529 prohibits funds to pay for award or incentive fees for contractors with below satisfactory performance or performance that fails to meet the basic requirements of the contract. The heads of executive branch departments, agencies, boards, and commissions funded by this act are directed to require that all contracts within their purview that provide award fees link such fees to successful acquisition outcomes, specifying the terms of cost, schedule, and performance.

Section 530 prohibits the use of funds by DOJ or DEA in contravention of a certain section of the Agricultural Act of 2014.

Section 531 prohibits DOJ from preventing certain states from implementing state laws regarding the use of medical marijuana.

Section 532 requires quarterly reports from the Department of Commerce, the National Aeronautics and Space Administration, and the National Science Foundation of travel to China.

Section 533 requires 10 percent of the funds for certain programs be allocated for assistance in persistent poverty counties.

Section 534 prohibits the use of funds in this act to require certain export licenses.

Section 535 prohibits the use of funds in this act to deny certain import applications regarding “curios or relics” firearms, parts, or ammunition.

Section 536 prohibits funds from being used to deny the importation of shotgun models if

no application for the importation of such models, in the same configuration, had been denied prior to January 1, 2011, on the basis that the shotgun was not particularly suitable for or readily adaptable to sporting purposes.

Section 537 prohibits the use of funds to implement the Arms Trade Treaty until the Senate approves a resolution of ratification for the Treaty.

Section 538 includes language regarding detainees held at Guantanamo Bay.

Section 539 includes language regarding facilities for housing detainees held at Guantanamo Bay.

Section 540 provides that the Department of Commerce and FBI may utilize funding to provide payments pursuant to section 901(i)(2) of title IX of division J of the Further Consolidated Appropriations Act, 2020.

Section 541 sets certain requirements for the allocations of funds related to the CHIPS Act of 2022 (Public Law 117–167).

Section 542 provides that the Department of Commerce, NASA, and NSF continue to apply the negotiated indirect costs rates.

Section 543 prohibits the use of funds made available by this act to move a Bureau of Alcohol, Tobacco, Firearms and Explosives facility.

Section 544 includes repurposing amounts for Department of Commerce.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the bill or this explanatory statement, along with the name of each House Member, Senator, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. For each item, a Member is required to provide a certification that neither the Member nor the Member’s immediate family has a financial interest, and each Senator is required to provide a certification that neither the Senator nor the Senator’s immediate family has a pecuniary interest in such congressionally directed spending item. Neither the bill nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

DIVISION B—ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2026

The following statement to the House of Representatives and the Senate is submitted in explanation of the agreed upon Act making appropriations for energy and water development for the fiscal year ending September 30, 2026, and for other purposes.

The explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 119-213 carries the same weight as the language included in this explanatory statement and should be complied with unless specifically addressed to the contrary in this explanatory statement. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein. Additionally, where this explanatory statement states that the “agreement only includes” or “the following is the only” direction, any direction included in the House report on that matter shall be considered as replaced with the direction provided within this explanatory statement. In cases where the House or this explanatory statement has directed a briefing or the submission of a report, such briefing or report is to be submitted to the Committees on Appropriations of both Houses of Congress, hereinafter referred to as the Committees. House reporting requirements with deadlines prior to or within 15 days of the date of enactment of this Act shall be submitted not later than 60 days after the date of enactment of this Act. All other reporting deadlines not changed by this explanatory statement are to be met.

Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

In fiscal year 2026, for purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), the following information provides the definition of the term “program, project, or activity” for departments and agencies under the jurisdiction of the Energy and Water Development and Related Agencies Appropriations Act. The term “program, project, or activity” shall include the most specific level of budget items identified in the Energy and Water Development and Related Agencies Appropriations Act, 2026 and the explanatory statement accompanying this Act.

TITLE I—CORPS OF ENGINEERS—CIVIL

Department of the Army

CORPS OF ENGINEERS—CIVIL

The summary tables included in this title set forth the dispositions with respect to the individual appropriations, projects, and activities of the Corps of Engineers (Corps). Additional items of this Act are discussed below.

Advanced Funds Agreements.—Based on the non-Federal sponsor's commitment to provide all funds required to construct a project, or separable element thereof, the Corps may undertake construction of the project prior to a new start determination related to Federal funding for the project. In light of a non-Federal sponsor's commitment to provide all funding required for construction of the project, or separable element thereof, the agreement directs that Federal funds shall not be provided for such construction. Instead, for such projects, any Federal funding may be provided only after completion of construction, as repayment of the Federal share of such construction, from

funding provided in this or subsequent acts for reimbursements or repayments, and would be subject to a new start designation. The agreement does not intend that this direction apply to any project with an advanced funds project partnership agreement that was in place prior to December 20, 2019.

Apportionment under a Continuing Resolution.—The agreement rejects the change in apportionment policy and directs the Office of Management and Budget (OMB) to follow the previous policy during any continuing resolutions that may occur in this or any future fiscal years.

Budget Structure Changes.—The fiscal year 2026 budget request for the Corps proposed numerous structural changes, including the creation of a new Harbor Maintenance Trust Fund (HMTF) account; the shifting of various studies and projects among accounts and business lines; and the consolidation of certain remaining items. The agreement rejects all such proposed changes and instead funds all activities in the accounts in which funding has traditionally been provided. Unless expressly noted, all projects and studies remain at the levels proposed in the budget request but may be funded in different accounts. In particular:

- Projects proposed for funding in the HMTF account in the budget request are funded in the Construction, Mississippi River and Tributaries, and Operation and Maintenance accounts, as appropriate;
- Disposition studies will continue to be funded under the remaining item Disposition of Completed Projects in the Investigations account;
- Project Condition Surveys and Scheduling of Reservoir Operations will continue to be funded under states instead of consolidated into national programs as requested in the Operation and Maintenance account and HMTF account;
- The portion of Surveillance of Northern Boundary Waters requested in the HMTF account will continue to be funded under states instead of consolidated into a national program;
- Inspection of Completed Works will continue to be funded under the individual states instead of consolidated into a national program as requested in the Operation and Maintenance account and the Mississippi River and Tributaries account; and
- Dam Safety Modification Studies, requested in the Investigations account, will be funded under the Dam Safety and Seepage/Stability Correction Program remaining item in the Construction account.

For any fiscal year, if the Corps proposes budget structure changes, the budget request shall be accompanied by a display of the funding request in the traditional budget structure.

Community Project Funding and Congressionally Directed Spending.—The work funded through community project funding and congressionally directed spending has been authorized by Congress and was requested by project sponsors and local communities displaying the importance of the work to the American people. Consequently, the Corps is directed to continue prioritizing these ongoing studies and projects, both in the work plan and future budget requests.

Continuing Contracts.—The Corps is authorized by section 621 of title 33, United States Code to execute Civil Works projects through the use of a Special Continuing Contract for Civil Works Projects Clause and the Limitation of Government's Obligation Clause (DFARS 252.232-7007). This permits the Corps to award the entire contract and fund the contract incrementally until completion, regardless of the perceived applicability of OMB Circular A-11. The Corps is directed to use its existing continuing contract authori-

ties in accordance with the general provisions in this Act for construction projects that cost share with the Inland Waterways Trust Fund (IWTFF) and dam safety projects unless as of the date of enactment of this Act there is ongoing construction utilizing different contracting methods. For projects authorized for multiple facilities, this shall be considered for each facility independently.

Deep Draft Navigation.—The agreement provides an estimated \$3,473,000,000 for HMTF eligible activities in accordance with the changes in Public Law 116-136 and Public Law 116-260. Additionally, the agreement provides \$62,000,000 for the program authorized by section 2106(c) of the Water Resources and Reform Development Act (WRRDA) of 2014 (Public Law 113-121).

The Corps is directed to fund authorized projects in the manner required to maintain authorized dimensions.

The agreement also provides \$40,000,000 to support dredge recapitalization and reiterates such House direction.

The Corps is directed to provide the report required in Section 8205 of WRDA 2022, which was funded in fiscal year 2024, within 90 days of the date of enactment of this Act. The Corps shall provide to the Committees not later than 15 days after the date of enactment of this Act a briefing on the status of this report and the progress towards inventorying all authorized work. The briefing shall include the specific steps necessary to complete this process within six months of the date of the briefing such that the Corps can develop work packages that support maintenance of all eligible ports, harbors, and channels to authorized dimensions.

The Corps is further directed to brief the Committees within 60 days of enactment of this Act on a plan for allowing non-Federal sponsors and ports to submit dredging and other eligible work packages to the Corps for consideration in the budget cycle.

Federal Trust and Treaty Obligations.—The Corps is reminded of their obligation to uphold the Federal trust and treaty responsibilities to Tribes and Federal obligations to the Native Hawaiian Community. This includes upholding treaty and reserved rights, and any other rights and obligations under Federal law; supporting self-determination efforts by Native communities; fulfilling obligations under Presidential Memoranda and Executive Orders; and conducting early and robust government-to-government consultation with Tribes, and meaningful outreach and engagement with Native Hawaiians.

Inland Waterways System.—The Corps is directed to provide a briefing to the Committees within 60 days of date of enactment of this Act on how the agency is managing all ongoing IWTFF projects.

Invasive Carp.—Section 509 of WRDA 2020 authorized demonstration projects to prevent the spread of invasive carp into the Tennessee River and Cumberland River watersheds. The Corps shall coordinate project partnership agreements concurrent with program development to ensure barriers can be deployed as soon as practicable. The Corps is further directed to finalize the program management plan and begin assessing demonstration projects, including appropriate deterrent systems at Kentucky Lock.

The Corps shall continue to collaborate at levels commensurate with previous years with the U.S. Coast Guard, the U.S. Fish and Wildlife Service, the State of Illinois, and members of the Invasive Carp Regional Coordinating Committee, including identifying navigation protocols that would be beneficial or effective in reducing the risk of vessels inadvertently carrying aquatic invasive species, including invasive carp, through the Brandon Road Lock and Dam in Joliet, Illinois. Any findings of such an evaluation

shall be included in the quarterly briefings to the Committees. The Corps is further directed to implement navigation protocols shown to be effective at reducing the risk of entrainment without jeopardizing the safety of vessels and crews. The Corps and other Federal and State agencies are conducting ongoing research on additional potential invasive carp solutions. The Corps is directed to provide to the Committees not later than 30 days after enactment of this Act a briefing on such navigation protocols and potential solutions.

Project Formulation and Delivery.—The agreement reiterates House direction.

Reporting Requirement.—The Corps shall provide a quarterly report to the Committees, which includes the total budget authority and unobligated balances by year for each program, project, or activity, including any prior year appropriations. The Assistant Secretary of the Army (Civil Works) shall provide a quarterly report to the Committees, which includes the total budget amount and unobligated balances by year for salaries, travel, and other expenses funded in the Office of the Assistant Secretary of the Army (Civil Works) account, including any prior year appropriations.

ADDITIONAL FUNDING

The agreement includes funding above the budget request to ensure continued improvements to our national economy, public safety, and environmental health that result from water resources projects. This funding is for additional work that either was not included in the budget request or was inadequately budgeted. The bill contains a provision requiring the Corps to allocate funds in accordance with only the direction in this agreement. In lieu of all House direction—under any heading—regarding additional funding, new starts, and the fiscal year 2026 work plan, the Corps shall follow the direction included in this explanatory statement.

The executive branch retains discretion over project-specific allocation decisions, subject to only the direction here and under the heading “Additional Funding” or “Additional Funding for Ongoing Work” within each of the Investigations, Construction, Mississippi River and Tributaries, and Operation and Maintenance accounts. OMB is reminded that these funds are in addition to the budget request, and OMB budget metrics shall not be a reason to disqualify a study or project from being funded. A study or project may not be excluded from evaluation for funding due to being “inconsistent with Administration policy.” OMB is reminded that voluntary funding in excess of legally required cost shares for studies and projects, though acceptable, shall not be used as a criterion for inclusion in the budget request, for allocating the additional funding provided or for the selection of new starts. The Corps shall not condition these funds, or any funds appropriated in this act, on a non-Federal interest paying more than their required share in any phase of a project.

It is expected that all of the additional funding provided will be allocated to specific programs, projects, or activities, and the allocation process shall favor the obligation,

rather than expenditure, of funds. Additionally, OMB shall consider the extent to which the Corps is able to obligate funds as it allocates the additional funding. The Corps shall evaluate all studies and projects only within accounts and categories consistent with previous congressional funding.

A project or study shall be eligible for additional funding within the Investigations, Construction, and Mississippi River and Tributaries accounts if: (1) it has received funding, other than through a reprogramming, in at least one of the previous three fiscal years; or (2) it was previously funded and could reach a significant milestone, complete a discrete element of work, or produce significant outputs in fiscal year 2026 or (3) as appropriate, it is selected as one of the new starts allowed in accordance with this Act and the additional direction provided below. None of the additional funding in any account may be used for any item where funding was specifically denied or for projects in the Continuing Authorities Program (CAP). Funds shall be allocated consistent with statutory cost share requirements. Also, funding associated with each category of Additional Funding may be allocated as appropriate to any eligible study or project within that category; funding associated with each subcategory may be allocated only to eligible studies or projects, within that subcategory.

Work Plan.—The Corps is directed to provide to the Committees not later than 60 days after the date of enactment of this Act and not less than three days before the date of public release a work plan including the following information: (1) a detailed description of the process and criteria used to evaluate studies and projects; (2) delineation of how these funds are to be allocated; (3) a summary of the work to be accomplished with each allocation, including phase of work and the study or project's remaining cost to complete (excluding Operation and Maintenance); and (4) a list of all studies and projects that were considered eligible for funding but did not receive funding, including an explanation of whether the study or project could have used funds in fiscal year 2026 and the specific reasons each study or project was considered as being less competitive for an allocation of funds.

The Administration shall not delay apportioning the funding for Community Project Funding and Congressionally Directed Spending while developing the work plan for additional funding.

The Corps is urged to strive for a balance between inland and coastal projects within its Flood and Coastal Storm Damage Reduction mission. The Corps is encouraged to assess the unique needs of non-contiguous States and Territories when providing additional funding. The Corps is encouraged to support opportunities to restore critical habitat and enhance the Nation's economic development, job growth, and international competitiveness. The Corps is reminded of the consideration it is to provide to remote and subsistence harbor projects per 33 U.S. Code 2242.

New Starts.—The agreement includes funding for individual new starts in Investiga-

tions, Construction, and Mississippi River and Tributaries, including the three new starts in Investigations included in the budget request. In addition, the agreement includes two additional new starts in Investigations.

The Corps is directed to notify the Committees at least seven days prior to execution of an agreement for construction of any project except environmental infrastructure projects and projects under the CAP. Decisions regarding the processes by which projects may be made eligible for funding or the manner in which projects are funded can be made only by the Committees on Appropriations. As such, the Committees reiterate previous congressional direction as follows.

Neither study nor construction activities related to individual projects authorized under section 1037 of WRRDA of 2014 shall require a new start or new investment decision; these activities shall be considered ongoing work. No new start or new investment decision shall be required when moving from feasibility to PED. The initiation of construction of an individually authorized project funded within a programmatic line item may not require a new start designation provided that some amount of construction funding under such programmatic line item was appropriated and expended during the prior fiscal year. No new start or new investment decision shall be required to initiate work on a separable element of a project when construction of one or more separable elements of that project was initiated previously; it shall be considered ongoing work. A new construction start shall not be required for work undertaken to correct a design deficiency on an existing federal project; it shall be considered ongoing work.

The Corps is directed to propose a single group of new starts as a part of the work plan. The Corps may not change or substitute the new starts selected once the work plan has been provided to the Committees.

During the budget formulation process, the Corps is strongly encouraged to give careful consideration to the out-year budget impacts of any studies selected as new starts and to whether there appears to be an identifiable non-federal sponsor that will be ready and able to provide, in a timely manner, the necessary cost share for the feasibility and PED phases. During the budget formulation process, the Corps also shall consider the out-year budget impacts of any selected Construction new starts and the non-federal sponsor's ability and willingness to promptly provide required cash contributions, if any, as well as required lands, easements, rights-of-way, relocations, and disposal areas. When considering new study starts, the Corps should include only those that can execute a feasibility cost sharing agreement during the upcoming fiscal year.

INVESTIGATIONS

The agreement provides \$150,384,000 for Investigations.

The allocation for studies, projects and activities within the Investigations account is shown in the following table:

~ Funded in remaining items.

^ Funded in another account.

* Includes funds requested in Projects Listed Under States within this account.

Additional Funding.—When allocating the additional funding provided in this account, the Corps shall consider prioritizing: completing or accelerating ongoing studies that will enhance the nation's economic development, job growth, and international competitiveness; projects located in areas that have suffered recent natural disasters; projects that protect life and property; or projects addressing legal requirements. The Corps is urged to consider any national security benefits a project may have when allocating this funding. The Corps shall allocate the additional funding provided in this account primarily to specific feasibility and preconstruction engineering and design (PED) phases, rather than to Remaining Items line items as has been the case in previous work plans.

The agreement notes the Corps' policy outlined in Engineering Regulation (ER) 1110-2-1302 and further clarified in a June 2023 memorandum that requires feasibility studies to include class 3 estimates prior to the signing of a Chief of Engineer's report. The Secretary shall issue a waiver pursuant to section 1001(b) of Public Law 113-121 for each new start study initiated in fiscal years 2022, 2023, 2024, and 2025 for such an amount and time as necessary to achieve a class 3 cost estimate. The Corps is encouraged to prioritize funding for storm risk management along the Gulf Coast and directs the Corps to work with Texas on solutions to protect the Texas Coast from storm surge flooding.

Of the additional funding provided, no less than \$3,000,000 shall be for studies that were new starts in fiscal year 2024.

The Corps shall include appropriate funding in future budget submissions for new feasibility studies initiated in fiscal year 2026.

Arkansas Red River Chloride Area VIII, TX.—No funds from this Act or a prior Act may be used to continue the disposition study for the Arkansas Red River Chloride Control Project. The Corps is reminded that such restriction shall continue during any period covered by a continuing resolution.

Chattahoochee River Program Comprehensive Plan, GA.—Funding is recommended for an implementation plan for the Chattahoochee River Program, which shall identify and recommend for construction specific projects along the Chattahoochee River Basin that align with eligibility requirements laid out in section 8144(a)(2)(B) of WRDA 2022. Projects recommended shall include those that require individual authorization, can be completed under the continuing authorities program and similar authorities that do not require further authorization, and those that could be carried out by non-Federal entities.

Chicago Shoreline, IL.—The agreement reiterates the WRDA 2020 Conference Report, which requires the Chicago Shoreline to be a focus area of the Great Lakes Coastal Resilience Study.

Collection and Study Basic Data.—In lieu of House direction, the agreement funds the program in the line item "Coastal Ocean Data System" in the Operation and Maintenance account, where it has been funded in prior fiscal years.

Design Maturity.—The agreement recognizes the Corps' acknowledgment of the challenges the agency is facing. However, the lack of appropriate design maturity results in increased costs and duration over the course of construction as the Corps completes full design, as has been witnessed repeatedly on IWTF projects, supplemental projects, and dam safety projects. This issue

impacts the ability of the Committees and non-Federal sponsors to effectively plan resources preventing new construction projects from commencing, which creates a greater backlog after feasibility studies are completed. The Corps is encouraged not to express capability for a Construction new start for a project without having achieved and maintained a class 3 cost estimate for that entire project unless the Corps reasonably expects to achieve a class 3 cost estimate within the same fiscal year for which construction capability is expressed. Such cost estimate shall at a minimum address geotechnical surveys, hydrologic and hydraulic modeling, and site characterization, to include utility mappings. The agreement reiterates House direction on discretionary approval authority to provide exemptions to this requirement.

Inventory of Dams—Low-Head Dam Inventory.—The agreement acknowledges the Corps' initial efforts and provides additional funding of \$500,000 to continue low-head dam inventory database development.

Project Cost Updates.—The agreement notes that the Corps has a policy that requires regular updates of the economics and costs of authorized projects that have not yet received construction funds, but such updates are not feasible without funds. Funding is included for updates to authorized projects that have not received Construction funds where those updates are necessary to recertify project costs or verify economic justification. The Corps is strongly encouraged to recommend funding for project cost updates in future budget submissions.

Research and Development—Manage Emerging Threats and Resilience for Flood Control Structures.—The Corps is encouraged to research, test, and refine the use of rapid, repeatable, and remote methods and tools for long-term monitoring of critical water infrastructure and to partner with academia to research and manage emerging threats and attain resilience for flood control structures.

Research and Development—National Academy of Sciences Materials Report.—The agreement notes the report was scheduled to be completed in 2025. The Corps is directed to brief the Committees within 60 days of the date of completion of the report.

Remote Sensing/Geographic Information System Support.—Within available funds, \$2,100,000 shall be for the Corps to continue procurement efforts for advanced integrated GPS and optical surveying and mapping equipment. This funding increase shall be competitively awarded or provided to programs that have received competitive awards in the past.

The agreement provides up to \$2,000,000 to evaluate the transition of small unmanned aircraft system technology onto larger Group 3 and Group 4 aircraft. The Corps is encouraged to collaborate with university partners, particularly those with the requisite experience operating these larger aircraft and that meet any relevant Federal Aviation Administration requirements necessary to conduct this research.

San Juan-Chama Project.—The Corps is directed to provide to the Committees not later than 90 days after the date of enactment of this Act a joint briefing consistent with the direction under this same heading contained within "Water and Related Resources".

South Fork of the South Branch of the Chicago River, IL.—The agreement strongly encourages the Corps and the Environmental Protection Agency to continue interagency

discussions on how this project can move forward. The Corps is directed to brief the Committees on the status of the proposed pilot using beneficial substrate and future plans for the project within 30 days of the date of enactment of this Act.

Tribal Partnership Program (TPP).—The agreement provides additional funding for the TPP and reminds the Corps that amounts may be used to cover necessary administrative expenses prior to agreement execution. The agreement provides \$1,200,000 to execute the pilot program authorized by section 1140 of WRDA 2024. Using the funds provided for the pilot program, at least three studies or projects shall be focused on the Mid-Columbia region for salmon and steelhead populations. Further, the Corps is directed to brief the Committees within 60 days of the date of enactment of this Act on the progress for implementing the pilot program and how to improve outreach to eligible tribes.

Water Resources Portfolio Studies.—The agreement notes there are an increasing number of authorized non-traditional studies that serve to provide portfolio-wide information to both Congress, communities, and the scientific community. These studies often require dedicated resources, so the agreement has created a new remaining item for such studies and evaluations. The Corps is directed to provide to the Committees within 60 days of the date of enactment of this Act and to update the list quarterly thereafter a list of any authorized WRDA reports that are in process using funding from this Act or any prior act. The report shall include the authorization for the report, estimated completion date, funding obligated to date, and estimated cost to complete. Further, the Corps is directed to provide to the Committees any authorized WRDA reports that are completed using funding from this Act or any prior act, not later than 30 days after completion.

The agreement provides \$1,000,000 for the Water Resources Priorities Study authorized in section 2032 of WRDA 2007. When executing this assessment, the Corps is expected to consider future conditions and hydrology such as accounting for pluvial flood hazards, particularly when compounded with other flood hazards such as storm surge and high tides in coastal areas and debris in areas prone to landslides or wildfires. Further, the Corps is directed to compile comprehensive datasets from Federal, State, and local sources and to utilize state-of-the-art tools, with consideration given to regional and state specific hazard mapping tools such as Rhode Island's STORMTOOLS.

Wrightsville Reservoir, VT.—In July 2023, Vermont experienced a devastating flood that nearly breached the Wrightsville Dam, which is situated upriver of Montpelier, Vermont, the state capital and one of the largest population centers. Again in 2024, Vermont experienced severe flooding demonstrating the urgent need to address the safety hazards associated with this dam. The Corps is strongly encouraged to assist the state of Vermont within existing authorities, such as Planning Assistance to States.

CONSTRUCTION

The agreement provides \$3,169,966,000 for Construction.

The allocation for projects and activities within the Construction account is shown in the following table:

* Includes funds requested in other accounts.

Includes funds requested in a Harbor Maintenance Trust Fund account.

Additional Funding.—When allocating the additional funding provided in this account, the Corps is encouraged to evaluate authorized reimbursements in the same manner as if the projects were being evaluated for new or ongoing construction and shall consider giving priority to the following:

- benefits of the funded work to the national economy;
- extent to which the work will enhance national, regional, or local economic development;
- number of jobs created directly and supported in the supply chain by the funded activity;
- significance to national security, including the strategic significance of commodities;
- prevention and mitigation of coastal erosion that impacts coastal rail routes that are critical to national defense;
- ability to obligate the funds allocated within the fiscal year, including consideration of the ability of the non-federal sponsor to provide any required cost share;
- ability to complete the project, separable element, or project phase with the funds allocated;
- legal requirements, including responsibilities to tribes;
- for flood and storm damage reduction projects, including authorized nonstructural measures and periodic beach renourishment:
 - population, safety of life, economic activity, or public infrastructure at risk, as appropriate; and
 - the severity of risk of flooding or the frequency with which an area has experienced flooding; and
 - preservation of historically significant communities, culture, and heritage;
- for shore protection projects, projects in areas that have suffered severe beach erosion requiring additional sand placement outside of the normal beach renourishment cycle or in which the normal beach renourishment cycle has been delayed, and projects in areas where there is risk of environmental contamination;
- for flood and storm damage reduction projects, incorporating opportunities to enhance water supply in drought prone areas;
- for mitigation projects, projects with the purpose to address the safety concerns of coastal communities impacted by federal flood control, navigation, and defense projects;
- for navigation projects, the number of jobs or level of economic activity to be supported by completion of the project, separable element, or project phase;
- for other authorized project purposes and environmental restoration or compliance projects, to include the beneficial use of dredged material;
- for navigation projects, development, reconstruction, and construction of jetties and other similar structures; and
- for environmental infrastructure, projects in rural communities, projects with greater economic impact, projects in counties or parishes with high poverty rates, projects owed past reimbursements, and projects that provide backup raw water supply in the event of an emergency.

The Corps is reminded that environmental infrastructure projects are eligible to compete for the additional funding provided in this account for Other Authorized Project Purposes. The Corps is reminded that shore protection projects are also eligible to compete for additional funding for Flood and Storm Damage Reduction. The Corps is further reminded that nonstructural flood control projects are eligible to compete for the additional funding provided in this account.

Of the additional funding provided in this account for environmental restoration or compliance and other authorized project purposes, the Corps shall allocate not less than \$1,000,000 for multistate ecosystem restoration programs for which a comprehensive restoration plan is in development or has been completed.

The Corps is directed to brief the Committees not later than 90 days after the date of enactment of this Act on the unfunded projects in the Corps' program related to coastal storm risk reduction and beach renourishment, barriers to implementing authorized studies and projects, and high-risk coastal locations in need of such projects.

Aquatic Plant Control Program.—Of the additional funding provided for the Aquatic Plant Control Program, \$15,000,000 shall be for watercraft inspection stations, as authorized in section 104(d)(1)(A) of the River and Harbor Act of 1958; up to \$3,000,000 shall be for related monitoring, as authorized by section 1170 of the America's Water Infrastructure Act of 2018; up to \$3,000,000 shall be for activities related to monitoring, surveying, and control of hydrilla verticillata and flowering rush; up to \$7,500,000 shall be to address infestations of hydrilla in Lake Champlain and the Connecticut River Basins; and up to \$2,500,000 shall be for nationwide research and development to address aquatic invasive plants, within which the Corps is encouraged to support cost-shared aquatic plant management programs. Within available funds, the Corps is encouraged to partner with Reclamation in developing effective removal methods for water stargrass in the Yakima Basin. The Corps is encouraged to enter into a cost-share agreement with the State and local partners to manage and treat infestations of hydrilla broadly in the region. The agreement provides \$1,000,000 for the Corps to establish a pilot program to remove invasive plant species in riparian areas that contribute to drought conditions in the Lower Colorado River Basin, the Rio Grande River Basin, the Texas Gulf Coast Basin, and the Arkansas-White-Red Basin, per section 8305 of WRDA 2022.

The agreement notes that the Corps is engaged in a multipronged effort to combat invasive species in our country's waterways and to protect the Mississippi River Basin. The agreement provides \$10,500,000 to continue activities authorized under section 509 of WRDA 2020 and to continue planning, designing, engineering and project management activities, as well as begin construction of carp barriers in the Mississippi River Basin and the Tennessee-Tombigbee waterways. The Corps is directed to brief the Committees on a plan for prioritization of location of barrier construction prior to obligation of funds.

Beneficial Use of Dredged Material.—The Corps is encouraged to prioritize issuing updated implementation guidance for a renewed solicitation of section 1122 Beneficial Use of Dredged Material project proposals. The Corps is directed to brief the Committees prior to any effort to solicit or select any additional projects for this program. The Corps is reminded that any eligible 1122 projects are eligible to compete for the additional funding provided in the Navigation line item.

Brandon Road Lock and Dam, Aquatic Nuisance Species Barrier, IL.—The Corps is expected to continue working in close partnership with the State of Illinois and other stakeholders to advance design and construction expeditiously. The Corps is directed to ensure the Brandon Road project is in full compliance with Illinois State laws including through completion of all State permitting requirements. The Corps is encouraged to continue working with the State of Illi-

nois to expeditiously address any remaining real estate issues and to adjust the project as much as technically feasible to prevent cost increases related to real estate acquisition and remediation. The agreement notes the lack of timely communication with project sponsors, stakeholders, and Congressional offices. In order to ensure the project remains on schedule, the Corps is directed to provide a quarterly briefing to the Committees on the status of the project, including any significant changes in cost.

Chicago Sanitary and Ship Canal Dispersal Barrier, IL.—No funds recommended in this Act may be used for construction of hydrologic separation measures.

Continuing Authorities Program (CAP).—The agreement includes \$33,100,000 for seven CAP sections to undertake small, localized projects without the lengthy study and authorization process typical of larger Corps projects. The management of CAP shall continue consistent with direction provided in previous fiscal years. The Corps is encouraged to find ways to expedite studies and projects funded in CAP.

Dam Safety Modification Studies.—The Corps is directed to brief the Committees on the full dam safety portfolio to include ongoing and planned work, estimated cost for each study and project, level of design maturity, and project outyear affordability within 30 days of the date of enactment of this act.

Environmental Infrastructure.—Authorized environmental infrastructure programs and projects shall not require a new start designation. This includes projects in regional authorities that have not received funding and projects authorized under section 219 of WRDA 1992 (Public Law 102-580), as amended. The Corps is reminded that environmental infrastructure authorities include caps on Federal participation, but do not provide a guarantee that the project authorization level will be met. Projects shall only receive funding if there is a separable element that can be funded to completion in a fiscal year without the requirement for continued funding in future years.

Non-Federal Implementation Pilot Program.—Due to ongoing concerns initially expressed in the fiscal year 2020 Senate Report, the Corps shall notify the Committees upon receiving any proposal from a non-Federal interest requesting to utilize the authority in section 1043(b) of WRRDA, as amended. The Corps shall not transfer funds or enter into a project partnership agreement to transfer funds to a non-Federal interest, until such project is recommended in a budget as using the 1043(b) authority and the Committees provide such funds for transfer. None of the funds recommended in this Act shall be used under this authority for a project unless notification is provided to the Committees at least 30 days prior.

The Corps shall brief the Committees not later than 45 days after enactment of this Act on activities carried out under the section 1043 program, including the Corps' implementation guidance and any existing or potential agreements.

Real Estate Requirements for Shore Protection Projects.—The agreement reiterates House direction. Additionally, the Corps is directed to expeditiously complete the implementation guidance for section 1145 in order to implement hurricane and storm damage reduction projects in a manner consistent with the previously completed initial construction and periodic nourishments of each project covered in that section, as provided for in that section.

Recreation Management Support Program.—In lieu of House direction provided under the Construction account, the agreement notes that funding for this program is provided under the Operation and Maintenance account.

Tribal Partnership Program.—The agreement provides additional funding for the TPP, with discretion given to the Corps to manage projects appropriately as it balances workload within districts, coordinates cost-share agreements, and executes other programmatic responsibilities in accordance with the program’s intent and authorities. The Corps is reminded that amounts may be

used to cover necessary administrative expenses prior to agreement execution.

Upper Mississippi River Restoration (UMRR), Quincy Bay.—The agreement notes that over the past 70 years, river traffic has led to the environmental degradation of Quincy Bay. The Corps is encouraged to prioritize the environmental restoration project in Quincy Bay near Quincy, Illinois as a Tier 1 project

for immediate commencement through the UMRR Program.

West Shore, Lake Pontchartrain, LA.—The agreement reiterates House direction.

MISSISSIPPI RIVER AND TRIBUTARIES

The agreement provides \$531,588,000 for Mississippi River and Tributaries.

The allocation for projects and activities within the Mississippi River and Tributaries account is shown in the following table:

~ Includes funds requested in remaining items.

Includes funds requested in a Harbor Maintenance Trust Fund account.

^ Funded in a remaining item in another account.

† Funded under projects listed under states.

Additional Funding for Ongoing Work.—When allocating the additional funding provided in this account, the Corps shall consider giving priority to completing or accelerating work that will enhance the Nation's economic development, job growth, and international competitiveness or are for studies or projects located in areas that have suffered recent natural disasters. While this funding is shown under remaining items, the Corps shall use these funds in Investigations,

Construction, and Operation and Maintenance, as applicable.

When allocating the additional funds recommended in this account, the Corps is directed to give adequate consideration to cooperative projects addressing watershed erosion, sedimentation, flooding, and environmental degradation. The Corps is encouraged to allocate funding for levee repairs in all seven States along the lower Mississippi River, as identified by the Mississippi River Commission in 2025.

Lower Mississippi River Main Stem.—The budget request proposes to consolidate several activities across multiple states into one line item. The agreement rejects this change and instead continues to fund these activities as separate line items.

OPERATION AND MAINTENANCE

The agreement provides \$6,013,217,000 for Operation and Maintenance.

The allocation for projects and activities within the Operation and Maintenance account is shown in the following table:

* Includes funds requested in other accounts.

^ Funded under projects listed under states.

~ Requested in remaining items.

Includes funds requested in a Harbor Maintenance Trust Fund account.

† Includes funds to implement Columbia River Treaty

Additional Funding for Ongoing Work.—When allocating the additional funding provided in this account, the Corps shall consider giving priority to the following:

- ability to complete ongoing work maintaining authorized depths and widths of harbors and shipping channels (including small, remote, or subsistence harbors), including where contaminated sediments are present;
- ability to address critical maintenance backlog;
- presence of the U.S. Coast Guard;
- extent to which the work will enhance national, regional, or local economic development, including domestic manufacturing capacity;
- extent to which the work will promote job growth or international competitiveness;
- number of jobs created directly by the funded activity;
- ability to obligate the funds allocated within the fiscal year;
- ability to complete the project, separable element, project phase, or useful increment of work within the funds allocated;
- dredging and maintenance projects that would substantially increase beneficial uses of and provide supplementary benefits to tributaries and waterways in close proximity to ongoing island replenishment projects;
- ability to address hazardous barriers to navigation due to shallow channels;
- extent to which the work will promote recreation-based benefits, including those created by recreational boating;
- risk of imminent failure or closure of the facility;
- improvements to federal breakwaters and jetties where additional work will improve the safety of navigation and stabilize infrastructure to prevent continued deterioration; and
- for harbor maintenance activities,
 - total tonnage handled;
 - total exports;
 - total imports;
 - dollar value of cargo handled;
 - energy infrastructure and national security needs served;
 - designation as strategic seaports;
 - maintenance of dredge disposal facilities;
 - lack of alternative means of freight movement;
 - savings over alternative means of freight movement; and
 - improvements to dredge disposal facilities which will result in long-term savings, including a reduction in regular maintenance costs.

The agreement provides the level of funding necessary to ensure adequate operation and maintenance of our Nation's aging infrastructure efficiently to ensure continued competitiveness in a global marketplace. Federal navigation channels maintained at only a fraction of authorized dimensions and navigation locks and hydropower facilities being used well beyond their design life results in economic inefficiencies and risks infrastructure failure, which can cause substantial economic losses. The Corps is reminded that activities eligible under the Deep-Draft Harbor and Channel; and Small, Remote, or Subsistence lines are also eligible to compete for the funds provided in the Navigation Maintenance line. Of the additional funding provided for other authorized project purposes, \$3,200,000 is recommended for water control manual updates for non-Corps owned high hazard dams where: (1) the Corps has responsibility for flood control operations under section 7 of the Flood Control Act of 1944; (2) the dam requires coordination of water releases with one or more other high-hazard dams for flood control purposes; and (3) the dam owner is actively inves-

tigating the feasibility of applying forecast-informed reservoir operations.

Alhemi Falls, ID.—The agreement reiterates House direction.

Aquatic Nuisance Control Research Program.—Within available funds, the agreement provides \$1,000,000 for the base program; \$2,500,000 to supplement activities related to harmful algal bloom research and control, and the agreement directs the Corps to target freshwater ecosystems; \$2,500,000 to continue work on the Harmful Algal Bloom Demonstration Program including early detection, prevention, and management techniques and procedures to reduce the occurrence and impacts of harmful algal blooms associated with water resources development projects, as authorized by WRDA 2020; and up to \$2,500,000 to continue development of next generation ecological models to maintain inland and intracoastal waterways.

In addition, the agreement provides \$2,000,000 to develop, test, and apply in situ sensor technology to monitor and detect dissolved reactive phosphorus continuously and in real time, and the Corps is reminded that WRDA 2022 provided flexibility to partner with non-traditional contractors.

Asset Management/Facilities and Equipment Maintenance (FEM).—Within available funds, not less than \$5,000,000 shall be to demonstrate multi-material hybrid replacement-part approaches for repair and maintenance practices that will increase civil infrastructure intelligence and to expand academic and industry partnerships related to composite material durability; not less than \$2,000,000 shall be for in situ robotic repair and rehabilitation technology efforts, which shall be developed in coordination with the inland navigation digital twin; \$2,000,000 shall be for the Geo-Erosion Monitoring System research effort; and not less than \$840,000 shall be for the structural health monitoring program.

Beneficial Use Dredged Material.—The Corps is encouraged to use existing authorities to increase the beneficial use of dredged material to include for inland and channel restoration work. The Corps is reminded that beneficial use activities authorized for reasons including inland and channel restoration work are eligible to compete for additional funding in this account and in Construction, as applicable. The Corps is directed to continue incorporating these authorities into the underlying maintenance of harbors.

Bradford Island.—The agreement acknowledges that the Corps signed the Federal Facilities Agreement on the Bradford Island Superfund Site, a critical step forward in the cleanup process. The Corps is encouraged to prioritize the cleanup in accordance with the Site Management Plan and to work cooperatively with the States of Washington and Oregon, Tribes with recognized treaty rights, and other Tribal interests in the area. In particular, the Corps is encouraged to emphasize the early removal of the landfill, which poses an imminent contamination threat to the river. In addition, the Corps is encouraged to make every effort to collaborate with the Yakama Nation in accordance with the 2023 Memorandum of Understanding, which recognizes the Yakama Nation's significant interests in and around Bradford Island, and memorializes the Corps' commitment to including the Yakama Nation in all technical and policy aspects of the cleanup.

Coastal Inlets Research Program.—The agreement reiterates House direction. Additionally, the agreement acknowledges that communities, infrastructure, and resources tied to coastal regions are vulnerable to damage from extreme coastal events and long-term coastal change. It is understood

this work will identify engineering frameworks to address coastal resilience needs to measure the coastal forces that lead to infrastructure damage and erosion during extreme storm events; and to improve coupling of terrestrial and coastal models. The Corps is encouraged to explore innovative ways of executing dredging and seek efficiencies and cost savings with the collaboration. Within the program, the agreement provides \$5,200,000 for coastal forecasting to reduce infrastructure flooding, including \$2,500,000 for the U.S. Coastal Research program, and \$300,000 for the National Water Center Partnership.

Coastal Ocean Data System (CODS).—In lieu of House direction, the agreement provides funding for activities in the CODS line item where it has been funded in prior years. Of the funding recommended, no less than \$8,000,000 shall be for long-term coastal wave and coastal sediment observations, research, and data products that support sustainable coastal and navigation projects. Within the funds provided for this program, the Corps is directed to prioritize the deployment and maintenance of buoys that are essential to vessel and cargo movement and those that directly support ongoing projects. Further, the agreement supports the Corps' efforts to continue developing an integrated modeling system that can be utilized to evaluate subsurface drain systems for consideration of future potential flood risk or coastal storm risk reduction measures in project development.

The agreement provides \$4,000,000 for coastal and inland compound flooding research. The agreement also provides \$1,800,000 to support academic research on hazard mitigation policies and practices in coastal communities to the modernization of the Corps' modeling and decision-support systems and enhance emergency response and adaptive floodplain management capabilities.

Further, the agreement supports the Corps' efforts to continue developing an integrated modeling system that can be utilized to evaluate subsurface drain systems for consideration of future potential flood risk or coastal storm risk reduction measures in project development. The agreement supports efforts that utilize Artificial Intelligence-driven tools to assess risks associated with coastal storms, Great Lakes high-water events, compound flooding, and shoreline erosion.

Coastal Resiliency.—The agreement acknowledges the important role the Corps plays in managing flood risk and threats from coastal hazards and improving coastal resiliency. The agreement also acknowledges the critical importance of periodic shoreline restoration, wetland creation, beach nourishment, and their significance in supporting public safety and protecting public infrastructure, native vegetation and wildlife, and the local economy. These activities are even more apparent in areas that have suffered severe and drastic beach erosion exacerbated by major hurricanes requiring additional sand placement outside of the normal beach renourishment cycle, such as along the Gulf Coast region.

Columbia River Sediment Retention Structures.—WRDA 2024 requires the Assistant Secretary of the Army for Civil Works to undergo a determination of the ability to pay related to the dredge material stabilization and retaining structures for the lower Willamette and Columbia Rivers. The agreement notes that these structures are necessary for dredging operations to maintain the Columbia River waterway and are thus in the National interest. The Corps is directed to brief the Committees within 30 days of the date of enactment of this Act on

the progress of the determination of ability to pay required by WRDA 2024 and at least 60 days prior to a final determination.

Designation.—None of the funds made available by this Act may be used to carry out any action altering the designation of Buford Dam and Lake Sidney Lanier, Georgia, authorized in Public Law 84-457.

Dredging Operations Technical Support (DOTS) Program.—The agreement provides \$1,500,000 to develop a digital twin for the inland waterways system and \$1,500,000 to develop a digital twin for the national dredging program. Additionally, the agreement provides \$1,700,000 for DOTS to support the research and application of artificial intelligence, machine learning, and advanced modeling capabilities to improve streamflow forecasting for channel shoaling and dredging to help reduce interruptions in waterborne inland commerce as a result of flooding and other silting activities.

Engineering With Nature (EWN).—Additional funding under this line item is intended for EWN activities having a national or regional scope or that benefit the Corps' broader execution of its mission areas. It is not intended to replace or preclude the appropriate use of EWN practices at districts using project-specific funding, or work performed across other Corps programs that might involve EWN.

The agreement provides \$7,500,000 for the EWN initiative, of which \$2,000,000 is to support ongoing research with university partners. The agreement provides \$2,000,000 to support research and development of natural infrastructure solutions for the Nation's bays and estuaries, to design innovative nature-based infrastructure with landscape architecture, coastal modeling, and engineering.

Harbor Maintenance Trust Fund Targets.—Donor and energy ports are critical to the National supply chain and stable HMTF funding for expanded uses is fundamental to maintaining international competitiveness. Full HMTF funding can assist with capital improvements at these critical ports which already pay a significant share of the collected tax. Each fiscal year in conjunction with the budget request, the Corps shall provide a list of donor and energy ports and associated amounts for each port using the section 2106 of WRRDA 2014 (33 U.S.C. 2238c) formula as applied to meet the section 102 of WRDA 2020 target of 12 percent using the HMTF target in section 101 of WRDA 2020 for the given fiscal year.

Harlan County Dam Repairs.—The Corps shall meet with non-Federal water contractors, including representatives of Reclamation, to provide a detailed explanation of past operation and maintenance charges incurred at Harlan County Dam. At a minimum, the discussion shall include how joint use charges are assigned, and how darn safety costs are determined for extraordinary maintenance projects, such as the Ogee Spillway repairs, and prospectively provide operation and maintenance cost estimates, including any planned extraordinary maintenance projects. The Committees expect these engagements to occur annually.

Inland Waterway Navigation Charts.—The Corps is strongly urged to address its aging inland waterways system by undertaking a digital modernization effort to improve system operation and maintenance. Further, the agreement notes the importance of well-maintained, safe, navigable inland waterways within the United States, which includes accurate placement of waterway navigation aids, specifically buoys. The agreement provides \$4,800,000 for an inland waterway digital navigation buoys pilot program. Additionally, the agreement provides \$2,000,000 for the eHydro program to mod-

ernize and enhance the distribution of the navigation charts, and \$2,000,000 to support the transition of the National Dredging Quality Management Program's automated dredging monitoring data to a cloud environment.

Inspection of Completed Federal Flood Control Projects.—The Corps is encouraged to continue prioritizing conducting risk assessments of high-risk federally authorized levee systems.

Kennebec River Long-Term Maintenance Dredging.—The agreement continues to support the Memorandum of Agreement signed in January 2019 denoting responsibilities between the Department of the Army and the Department of the Navy for the regular maintenance of the Kennebec River Federal Navigation Channel. The agreement notes concern that the channel is not currently being maintained to the required depth on an annual basis, affecting the movement of Navy surface combatants. The agreement directs the Department of the Army and the Department of the Navy to respond with the appropriate resources and planning to ensure that the channel is passable annually—per the Memorandum of Agreement—to ensure the navigability of the Kennebec River for the test, trial, and delivery of newly constructed Navy surface combatants to the Atlantic Ocean.

Lake Providence Harbor, LA.—The agreement reiterates House direction.

Levee Maintenance Requirements.—The agreement reiterates House direction.

Missouri River Basin.—The Corps is reminded that the various Missouri River Basin projects are to be operated and maintained consistent with the authorized purposes, such as flood control, hydropower, and navigation, while in accordance with applicable Federal laws. The Corps is urged to undertake interagency collaboration to adjust management plans, as appropriate, to ensure life and health safety remains prioritized amongst all authorized purposes.

Mobile Bay Environmental Investigation.—The funding is provided for the Corps to begin the review and comment process of the environmental investigation of the Mobile Ship Channel.

Monitoring of Completed Navigation Projects, Fisheries.—The agreement provides \$4,650,000 to expand research to assist the Corps across all waterways, lock structures, lock operation methods, and fish species that will more fully inform the Corps' operations. Additionally, \$2,000,000 is provided for the National Information Collaboration on Ecohydraulics effort by the Corps to expand, on a national basis, the ongoing research on the impact of reduced lock operations on riverine fish.

National Coastal Mapping Program.—The agreement continues to support the efforts of the National Coastal Mapping Program, but also recognizes the challenges to collect the necessary data to meet current critical, emerging, and post-disaster requirements along the U.S. coastline. Of the funding provided, no less than \$6,000,000 shall be for Arctic coastal mapping activities.

North Atlantic Division Report on Hurricane Barriers and Harbors of Refuge.—The agreement continues to express the importance of the North Atlantic Division report on hurricane barriers and harbors of refuge mandated under section 1218 of America's Water Infrastructure Act of 2018. While the Corps has completed an initial report focused on the New England area, the report is not complete. Of the funding provided for Other Authorized Project Purposes, \$700,000 is provided for this report.

Park Closures.—The agreement notes the abrupt closures of day-use parks and campgrounds, including Toto Creek, Bolding Mill,

Duckett Mill, Old Federal, Van Pugh South Campground, Sawnee, and Bald Ridge Creek campgrounds at Lake Lanier, GA, have disrupted access for both residents and visitors. The Corps is urged to collaborate actively with state and local partners to prevent closure of such day-use parks and campgrounds, as well as to facilitate the transfer of management of park operations where appropriate to ensure continued public access.

Performance-Based Budgeting Support.—The agreement provides \$2,000,000 to support the use of performance-based methods across the hydropower program. This includes the use of data analytics and innovative turbine designs to strengthen operations and maintenance efficiency, increase downstream fish passage, and improve turbine performance.

Recreation Management Support Program.—The recommendation includes \$1,500,000 to support implementation of Public Law 117-114.

Regional Public Engagement.—The agreement notes increased need for transparent communication with water and power users in the Pacific Northwest due to the Columbia River Treaty operations. The Corps is encouraged to coordinate with public utility districts managing hydroelectric projects on the Columbia River regarding real-time flood risk management and coordination of domestic river operations to ensure safe, reliable operations. The Corps is directed to brief the Committees within 30 days of enactment of this Act to provide information on how operational information is being shared.

Regional Sediment Management.—In lieu of House direction, the agreement provides \$2,000,000 for the Regional Sediment Management line item. Within available funding, the Corps is encouraged to continue cooperation and coordination with the Great Lakes States to develop sediment transport models for Great Lakes tributaries that discharge to Federal navigation channels.

Remote Lock Operation.—The agreement reiterates House direction. The agreement recognizes the need for more communication and guidance regarding the Corps' implementation of remote lock and dam operations on the inland and intracoastal waterways. The Corps is encouraged to engage in active and ongoing communication with the stakeholders in the navigation industry, including the Inland Waterways User Board, during the conduct of regional assessments related to the implementation of remote lock and dam operations. Additionally, the Corps is prohibited from using any funds for this effort or related efforts until the Committees are provided with the National assessment completed on lock and dam remote operations and a stakeholder engagement plan.

Small, Remote, or Subsistence Harbors.—The Corps is directed to revise the criteria used for determining which navigation maintenance projects are funded and to develop a reasonable and equitable allocation under the Operation and Maintenance account. The agreement notes support for including criteria to evaluate the economic impact that these projects provide to local and regional economies.

Further, the Committees note concerns with the Corps' adherence to 33 U.S. Code 2242(c) for remote and subsistence harbors in budget requests. The Corps is directed to provide a report to the Committees, within 60 days of the date of enactment of this Act, that details projects authorized under the remote and subsistence harbor authority for the past 8 years, the construction and operation and maintenance funding levels requested by the Corps to advance these projects, and an accounting of appropriations made to the relevant projects.

Special Recreation User Fees.—Section 1154 of WRDA 2024 established a new mechanism

for Corps projects to make use of fees collected on site during the fiscal year, requiring at least 80 percent of fees generated at a project to be retained for use at the same project. The recommendation makes available the full amount of special recreation user fees collected in fiscal year 2026, estimated to total \$67,000,000. The amount specified for this Remaining Item is an estimate of fiscal year 2026 collections and shall not be construed as a limitation on the availability of collections.

While shown in a Remaining Item, all such fees collected in fiscal year 2026 shall be made available for use at specific projects as authorized in law. All amounts derived from fees collected in fiscal year 2026 and necessary to meet the 80 percent minimum shall be available for expenditure at the project where such fees are collected as soon as practicable. Not later than the first day of the second quarter of fiscal year 2027, the Secretary shall submit to the Committees a report delineating the total amount that was estimated to be collected in fees at the start of fiscal year 2026, in total and delineated by project, and the final collection and project-specific allocation totals for fiscal year 2026.

Water Operations Technical Support (WOTS).—The agreement provides \$1,400,000 for the base program; \$19,400,000 to continue progress on the FIRO research program; and up to \$5,280,000 for Corps efforts to implement wildfire mitigation projects at its facilities to protect Federal property and neighboring communities. The Corps is encouraged to consider vegetation control and other resiliency measures to protect against the increasing threat of wildfires.

The Corps shall brief the Committees no later than 120 days following the date of enactment of this Act on details of how to operationalize FIRO, including how FIRO can become integrated into water control manual updates moving forward and on a national basis, the transferability of tools developed or other results of the research, and related future funding requirements. The briefing shall also include the status and available results of the screening level assessment.

Water Operations Technical Support, Managed Aquifer Recharge.—Within available funds, not less than \$700,000 shall be to implement sections 8108(a), 8108(c), and 8108(d) of WRDA 2022, of which not less than \$150,000 shall be for the national assessment authorized in section 8108(a).

Willamette Valley Basin Hatcheries.—The agreement notes that the Corps has an obligation to ensure hatcheries in the Upper Willamette Basin are producing salmon, steelhead, and game fish as restitution for the loss of spawning and rearing area with the construction of the 13 dams above the Willamette Falls.

REGULATORY PROGRAM

The agreement provides \$221,000,000 for the Regulatory Program.

Mitigation Banking.—The agreement notes concerns about delays across the Corps in permitting of mitigation banks and approving mitigation bank credit releases. The agreement also notes that unnecessary impediments in the mitigation bank approval process can lead to significant delays and increased costs for permittees due to the lack of available mitigation credits. The Corps is urged to meet its own regulatory review guidelines by expeditiously reviewing and approving new mitigation bank projects in accordance with 33 CFR 332 and utilizing Corps Regulatory Guidance Letter No. 19-01 to expedite credit releases when applicable.

Regulatory Permit Backlog and Personnel Report.—The Corps is directed to provide a report on staffing levels and permit backlogs

by district for each of the last five fiscal years to the Committees no later than 6 months after enactment of this Act. The report should identify how this additional funding has created opportunities for the Corps to invest in innovative solutions at the division and district level to address challenges, the appropriate funding level to maintain this progress, and bottlenecks in the permitting process. Finally, the report should address future staffing needs, how the Committees can encourage training and retention, opportunities for sharing personnel across district lines and other strategies aimed at reducing permit backlogs. The Corps is directed to provide a briefing to the Committees on the status of the report no later than 90 days after the date of enactment of this Act.

FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM

The agreement provides \$75,000,000 for the Formerly Utilized Sites Remedial Action Program.

When appropriate for large projects, the Corps is encouraged to use continuing contracts for more time and cost effective clean-up. The agreement continues to support a prioritization of sites, especially those that are nearing completion. The agreement acknowledges the Corps is working on the former Sylvania nuclear fuel site at Hicksville, New York. The Corps is encouraged to proceed expeditiously and to work collaboratively with Federal and State partners.

FLOOD CONTROL AND COASTAL EMERGENCIES

The agreement provides \$40,000,000 for Flood Control and Coastal Emergencies.

EXPENSES

The agreement provides \$220,000,000 for Expenses.

The agreement reiterates House direction relating to class 3 cost estimates, with the exception that, in lieu of House direction, no funding is provided in the Expenses account to update Corps guidance as necessary to implement its policy requiring a class 3 cost estimate prior to completion of the feasibility phase.

No funding is provided for the creation of an Office of Congressional Affairs.

OFFICE OF THE ASSISTANT SECRETARY OF THE ARMY FOR CIVIL WORKS

The agreement provides \$7,000,000 for the Office of the Assistant Secretary of the Army for Civil Works.

The requesting and receiving of basic, factual information, such as budget justification materials, statutorily required execution reports, damage repair estimates, and project capabilities, are vital in order to maintain a transparent and open governing process. The agreement recognizes that some discussions internal to the executive branch are pre-decisional in nature and, therefore, not subject to disclosure. However, the access to facts, figures, and statistics that inform these decisions are not subject to this same sensitivity and are critical to the appropriations process. The Administration shall ensure timely and complete responses to these inquiries. It is imperative that required reports are provided on a regular basis. The Corps and the Office of the Assistant Secretary for the Army for Civil Works are directed to ensure the timely delivery of information to Congress, independent of any interference, delays, or prior clearance requirements from the Department of Defense or the Office of Management and Budget.

The agreement notes concern over reports that the Corps is slowing, pausing, or canceling authorized projects. The Corps is directed to execute all projects funded in this and prior Acts in accordance with congressional direction. The Corps shall not pause

or terminate any project, or significantly alter its scope, without providing prior written notice to the Committee. Such notice shall include a specific justification and an accounting of the funding affected by the action.

The agreement notes that implementation guidance for section 8156 of WRDA 2022 has been issued, and in lieu of House direction, no further action is required.

WATER INFRASTRUCTURE FINANCE AND INNOVATION PROGRAM ACCOUNT

The agreement provides \$7,200,000 for the Water Infrastructure Finance and Innovation Program Account, including \$5,000,000 for program development, administration, and oversight and \$2,200,000 for the financial assistance authorized by the Water Infrastructure Finance and Innovation Act (Public Law 113-121) program.

The Water Infrastructure Finance and Innovation program was expanded in fiscal year 2024 to provide assistance to non-Federal levees, but the agreement notes a lack of progress. The Corps is directed to complete a limited rulemaking to incorporate non-Federal levees into the program. The agreement expects the Corps to expediently complete this process, as well as expand Notices of Funding Availability and invitations to prospective borrowers to submit full applications for assistance accordingly. Nothing in this agreement prohibits the Corps from continuing the existing Water Infrastructure Finance and Innovation program for dams while the rulemaking process takes place. The Corps is directed to prioritize coordination with potential non-Federal sponsors for non-Federal levee projects that offer the greatest potential risk reduction to public safety and brief the Committees on the progress to implement this program within 60 days of the date of enactment of this Act. The Corps is also directed to provide to the Committees a briefing prior to any announcements of awards or invitations to apply.

GENERAL PROVISIONS—CORPS OF ENGINEERS—CIVIL

(INCLUDING TRANSFERS OF FUNDS)

The agreement includes a provision related to reprogramming. For projects receiving additional allocations derived from recreation fees collected in fiscal year 2026 pursuant to section 1154 of WRDA 2024, the reprogramming baseline for each such project shall include such fees. For fee generating projects, immediately upon enactment of this Act, an amount equal to 80 percent of the fees estimated to be collected during fiscal year 2026 shall be added to the reprogramming baselines for those projects. All special recreation user fees collected during fiscal year 2026 shall be allocated to specific projects prior to the end of the first quarter of fiscal year 2027, and any such amounts that remain unobligated at that time shall be added to the fiscal year 2027 reprogramming baselines for those projects. All such amounts shall be reflected in the report required pursuant to section 101(d) for the appropriate fiscal year.

The agreement includes a provision regarding the allocation of funds.

The agreement includes a provision related to contract awards and modifications.

The agreement includes a provision regarding funding transfers to the Fish and Wildlife Service.

The agreement includes a provision related to open lake disposal of dredged material.

The agreement includes a provision regarding eligibility for additional funding.

The agreement includes a provision related to the use of advance payment authority.

The agreement includes a provision regarding reallocations at a project.

The agreement includes a provision that modifies eligible uses of certain recreation fees at Corps of Engineers projects.

TITLE II—DEPARTMENT OF THE INTERIOR

CENTRAL UTAH PROJECT

CENTRAL UTAH PROJECT COMPLETION ACCOUNT

The agreement provides a total of \$23,000,000 for the Central Utah Project Completion Account. The Department is reminded that responsibilities for carrying out

the Central Utah Project Completion Account are not delegated to the Bureau of Reclamation.

BUREAU OF RECLAMATION

In lieu of all House direction regarding additional funding and the fiscal year 2026 work plan, the agreement includes direction under the heading “Additional Funding for Ongoing Work” in the Water and Related Resources account. Reclamation shall provide a quarterly report to the Committees, which

includes the total budget authority and unobligated balances by year for each program, project, or activity, including any prior year appropriations.

WATER AND RELATED RESOURCES

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$1,465,630,000 for Water and Related Resources.

The agreement for Water and Related Resources is shown in the following table:

Additional Funding for Ongoing Work.—The agreement includes funds above the budget request for Water and Related Resources studies, projects, and activities. This funding is for additional work that either was not included in the budget request or was inadequately budgeted. Priority in allocating these funds should be given to advance and complete ongoing work, including preconstruction activities and where environmental compliance has been completed; improve water supply reliability; improve water deliveries; enhance national, regional, or local economic development; promote job growth; advance tribal and nontribal water settlement studies and activities; or address critical backlog maintenance and rehabilitation activities.

Funding associated with a category may be allocated to eligible studies or projects within that category. None of the additional funding in any account may be used for any item where funding was specifically denied. A study or project may not be excluded from evaluation for funding due to being inconsistent with Administration policy.

Of the additional funding provided under the heading “Water Conservation and Delivery”, not less than \$62,500,000 shall be for water storage projects as authorized in section 4007 of the Water Infrastructure Improvements for the Nation (WIIN) Act (Public Law 114-322).

Of the additional funding provided under the heading “Water Conservation and Delivery”, up to \$20,000,000 shall be for planning, pre-construction, or construction activities related to projects found to be feasible by the Secretary and that are ready to be initiated for the repair of critical Reclamation canals where operational conveyance capacity has been seriously impaired by factors such as land subsidence, especially those that would imminently jeopardize Reclamation's ability to meet water delivery obligations in drought-prone states.

Of the additional funding provided under the heading “Water Conservation and Delivery”, not less than \$20,000,000 shall be to create or conserve recurring Colorado River water that contributes to supplies in Lake Mead and other Colorado River water reservoirs in the Lower Colorado River Basin or projects to improve the long-term efficiency of operations in the Lower Colorado River Basin. None of these funds shall be used for the operation of the Yuma Desalting Plant. Nothing in this section shall be construed as limiting existing or future opportunities to augment the water supplies of the Colorado River.

Of the additional funding provided under the heading “Water Conservation and Delivery”, not less than \$20,000,000 shall be for Indian Water Rights Settlements authorized and ongoing on the date of enactment of this Act.

Of the additional funding recommended under the heading “Water Conservation and Delivery”, \$20,300,000 shall be for construction of the WEB Water expansion to the Town of Aberdeen, which is a regional water supply project that is part of the Water Investment in Northern South Dakota (WINS) project, which will provide a reliable water source to rural water providers, communities, strategic economic businesses, and the Sisseton Wahpeton Oyate Tribe in northern South Dakota.

Of the additional funding provided under the heading “Environmental Restoration or Compliance”, up to \$5,000,000 shall be planning, preconstruction, construction, and monitoring activities authorized under sections 4001 and 4010 of the WIIN Act or as set forth in Federal-State plans for enhancing threatened and endangered fish species affected by the operation of Reclamation's water projects.

Not later than 45 days after the date of enactment of this Act, Reclamation shall provide to the Committees a report delineating how the additional funds in this account are to be distributed, in which phase the work is to be accomplished, and an explanation of the criteria and rankings used to justify each allocation.

Reclamation is reminded that water storage projects authorized under section 4007 of Public Law 114-322 are eligible to compete for the additional funding under “Water Conservation and Delivery”. Reclamation is reminded that aquifer recharging projects authorized pursuant to section 40910 of Public Law 117-58 are eligible to compete for funding provided under “Water Conservation and Delivery”. Reclamation is reminded that activities authorized under Indian Water Rights Settlements and under section 206 of Public Law 113-235 are eligible to compete for the additional funding provided under “Water Conservation and Delivery”. Reclamation is reminded that activities related to precision irrigation, such as conveyance, pressurized systems, digital modernization for automation and remote sensing, and connectivity and electrification for pumping are eligible activities in WaterSMART.

The agreement expects additional funding allocations to be made to specific programs, projects, or activities. None of these funds may be used for research and development activities.

Anadromous Fish Screen Program.—The agreement notes Reclamation's efforts to devote additional resources to complete work on the last remaining priority unscreened diversions on the Sacramento River, identified as priorities in the Sacramento Valley Salmon Resiliency Strategy. Reclamation is encouraged to maintain its focus on screening high-priority diversions in the San Joaquin River Basin. Reclamation is reminded that projects within the Anadromous Fish Screen Program are eligible to compete for the additional funding provided under “Environmental Restoration or Compliance”.

Bostwick Division.—Reclamation shall meet with non-Federal water contractors in the Bostwick Division, including representatives of the Corps, to provide a detailed explanation of past operation and maintenance charges incurred at Harlan County Dam. At a minimum, the discussion shall include how joint use charges are assigned, how dam safety costs are determined for extraordinary maintenance projects, and prospectively provide operation and maintenance cost estimates, including any planned extraordinary maintenance projects. The agreement expects these engagements to occur annually. Reclamation shall assist in identifying financing repayment options of any reimbursable extraordinary maintenance costs, such as the Ogee Spillway repairs.

Colorado River Basin.—The agreement notes that Federal funding has played a critical role in addressing Colorado River drought, including support for voluntary water conservation efforts, which have protected the operability of the dams on the major mainstream Colorado River reservoirs in the face of variable hydrologic conditions. Reclamation is encouraged to include funding in future budget requests for activities that promote voluntary water conservation, restore watershed health, enhance water supply infrastructure throughout the basin, and assist Colorado River Basin water and power users in navigating ongoing drought and limited water supplies.

Colorado River Dam Fund.—The Secretary of the Interior is directed to expend monies in the Colorado River Dam Fund, including monies in account XXXR5656P1, that were and hereafter are recovered on a non-reimbursable basis, for any authorized activity,

including operations, maintenance, investigation and cleanup actions, and capital improvements, within the Boulder Canyon Project at Hoover Dam or on land used for the construction and operation of the Hoover Dam, in consultation with the Boulder Canyon Project contractors as identified in the Hoover Power Allocation Act of 2011 (Public Law 112-72).

Columbia Basin Project.—The agreement supports Reclamation's partnership in the Odessa Groundwater Replacement Program to provide farmlands in Central and Eastern Washington with surface water supply through operational changes in the storage and delivery system and urges Reclamation to continue to implement the program.

Columbia Basin Project Report.—The agreement provides \$400,000 for Reclamation to develop a report using existing data and science from the Columbia Basin Project authorized in 1945. The report shall examine the costs and benefits of advancing the project giving equal consideration to the following priorities: (1) local Tribal population, (2) salmon habitat including recovery and restoration, (3) agricultural production and employment, and (4) food security. Reclamation is directed to partner with the Department of Agriculture and other agencies as appropriate to scope and quantify the priorities listed. Reclamation shall provide an update on the progress of this report within 90 days of the date of enactment of this Act. The final report shall be provided to the Committees on Appropriations, the Senate Committee on Energy and Natural Resources, and the House Committee on Natural Resources within 18 months of the date of enactment of this Act.

Dam Safety Program.—Reclamation is encouraged to include adequate funding in future budget requests to support continuing dam construction project and activities.

Dry-Redwater, MT.—The agreement strongly encourages Reclamation to expeditiously complete the Dry-Redwater Regional Water Authority feasibility study for the project authorized in Public Law 116-260. Completing the feasibility study is necessary before a recommended project can be federally authorized for construction of the system.

El Vado Dam.—The agreement recognizes the importance of the El Vado Dam in providing water to irrigators in the Middle Rio Grande Valley and in fulfilling New Mexico's obligations to Texas under the Rio Grande Compact. The agreement notes concerns that repair efforts and planning have halted at El Vado Dam and urges the Bureau of Reclamation to complete plans for the future of the dam as soon as possible.

Federal Trust and Treaty Obligations.—Reclamation is reminded of their obligation to uphold the Federal trust and treaty responsibilities to Tribes and Federal obligations to the Native Hawaiian Community. This includes upholding treaty and reserved rights, and any other rights and obligations under Federal law; supporting self-determination efforts by Native communities; fulfilling obligations under Presidential Memoranda and Executive Orders; and conducting early and robust government-to-government consultation with Tribes, and meaningful outreach and engagement with Native Hawaiians.

Forecast Informed Reservoir Operations (FIRO) Engagement.—The agreement directs Reclamation to complete the ongoing regional economic assessment of benefits to implement FIRO at Reclamation reservoirs, including Section 7 reservoirs. Reclamation is directed to provide not later than 180 days after the date of enactment of this Act a report that quantifies the economic value of the water supply benefits of this research and provide a briefing not later than 30 days following the completion of the assessment.

Further, upon completion of the regional assessment, Reclamation is directed to begin preliminary site-specific economic assessments of water supply and conservation benefits of FIRO at Section 7 reservoirs.

Fort Peck Reservation Rural Water System Project.—The agreement notes that construction of the Fort Peck Reservation Rural Water System project is scheduled to be complete in 2026. Reclamation is directed to work with project sponsors to define project costs and scope to accurately incorporate and fund project features for the conclusion of the project.

Invasive Species.—The agreement notes the threat of invasive smallmouth bass in the Colorado River, which needs to be addressed while preserving the integrity of hydropower generation. The agreement also notes that in 2024, Reclamation identified a thermal curtain at Glen Canyon Dam as an option to address these concerns. Reclamation is reminded that the thermal curtain and related activities are eligible to compete for additional funding provided in this account.

Lower Colorado River Basin.—The agreement acknowledges that Reclamation has worked to address excess flows of Colorado River water to Mexico, but there still remains excess flows beyond the Treaty requirements. Persistent drought and projected long-term water demands have heightened this concern. To help address future impacts on the Lower Colorado River Basin, the agreement directs Reclamation to explore methods for further reducing excess flows to Mexico. Reclamation is directed to provide to the Committees not later than 90 days after the date of enactment of this Act a briefing on infrastructure needs, funding requirements, and other tools already available to Reclamation to reduce or eliminate these water deliveries to Mexico and ensure all such deliveries are accounted for within the Mexican entitlement.

Middle Rio Grande.—The agreement notes the community value of the Middle Rio Grande Endangered Species Collaborative Program, which is a partnership between Federal, State, Tribal, and local organizations, providing key environmental protection and recovery efforts along the Rio Grande. The program has been providing essential scientific, conservation, and educational services for nearly 20 years. Reclamation is strongly encouraged to maintain this partnership by supporting existing technical and financial assistance.

Precipitation Enhancement.—When evaluating projects to improve water supplies and mitigate drought conditions, Reclamation is encouraged to consider all viable precipitation enhancing technologies and techniques.

Regional Public Engagement.—The agreement notes increased need for transparent communication with water and power users in the Pacific Northwest due to the Columbia River Treaty operations. Reclamation is encouraged to coordinate with public utility districts managing hydroelectric projects on the Columbia River regarding real-time flood risk management and coordination of domestic river operations to ensure safe, reliable operations. In conjunction with the Corps, Reclamation is directed to brief the Committees within 30 days of enactment of this Act to provide information on how operational information is being shared.

Research and Development, Desalination and Water Purification Program.—The agreement notes the funding provided for this program in lieu of House direction.

Research and Development, Science and Technology Program, Airborne Snow Observatory (ASO) Program.—The recommendation includes up to \$3,000,000 for this program only to support additional ASO flights.

Rio Grande Valley Water Resources.—Reclamation is directed to provide not later

than 180 days after the date of enactment of this Act a briefing providing an overview of drought conditions in the Rio Grande watershed, current uses of water resources, and measures that can be implemented within Reclamation's mission areas to combat the impacts of drought on economic activity, including through financial and technical assistance to water users and local communities. The briefing shall also include an evaluation of relevant authorities provided in the Lower Rio Grande Valley Water Resources Conservation and Improvement Act and opportunities to utilize or modify those authorities toward the same ends.

Rural Water Projects.—Reclamation is reminded that voluntary funding in excess of legally required cost shares for rural water projects is acceptable but should not be used by Reclamation as a criterion for allocating additional funding recommended by the agreement or for budgeting in future years.

Reclamation is reminded that the Eastern North Dakota Alternate Water Supply Project is eligible to compete for any additional funding provided in this account.

San Joaquin River Restoration.—Permanent appropriations available for the program in fiscal year 2026 shall not supplant continued annual appropriations, and Reclamation is encouraged to include adequate funding in future budget submissions.

San Juan-Chama Project.—Reclamation and the Corps are directed to provide not later than 90 days after the date of enactment of this Act a joint briefing on the status of current and planned efforts to address sedimentation, broader wildfire risks, and efforts to manage and mitigate drought impacts to the local economy.

Scoggins Dam.—The agreement directs Reclamation to seismically reinforce the dam and spillway at Scoggins Dam to be prepared for a 2,500-year seismic event and provides additional funding in the Dam Safety account for these purposes. The agreement reiterates that a long-term solution, not a permanent reservoir restriction, is required. The agreement strongly encourages Reclamation to identify an approach by the end of fiscal year 2026 and directs Reclamation to provide a briefing on the progress made within 90 days of the date of enactment of this Act.

South Texas Desalination.—The agreement reiterates House direction on Inner Harbor Desalination and encourages collaboration in opportunities for desalination in South Texas.

WaterSMART Program.—Reclamation is reminded that the statutory authorities for each program are controlling for those awards and modifications to WaterSMART made by section 40907 of Public Law 117-58, and is directed to consider the full range of applicants, as appropriate and as authorized in law.

Reclamation is reminded that nonprofit conservation organizations are eligible applicants without needing to partner with an entity with water or power delivery authority for multi-benefit projects to improve watershed health and Environmental Water Resources Projects to improve the condition of a natural feature or nature-based feature on Federal land, so long as notice is provided and no objection received. Reclamation is directed to provide a briefing, no later than 60 days after the date of enactment of this Act, on the progress of these efforts, including a review of the number of water conservation projects funded with a monitoring plan for an increase in streamflows or aquatic habitat.

WaterSMART Program, Aquatic Ecosystem Restoration.—Reclamation is encouraged, within available funding, to select studies and conservation projects that improve the health of fisheries, wildlife, and habitat.

WaterSMART Program, Cooperative Watershed Management Program.—The agreement notes concerns about the unique water challenges faced by the non-contiguous States and territories and notes that Congress recently made Hawaii, Alaska, and Puerto Rico, as well as American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands eligible applicant locations for WaterSMART grants. Reclamation is encouraged to conduct outreach in all non-contiguous States and territories about available funding opportunities to address and mitigate water challenges in these jurisdictions. Further, Reclamation is strongly encouraged to conduct additional outreach and prioritize program investments in rural, historically underserved, and Tribal communities.

Reclamation shall take additional steps to make the program more accessible, including continuing to offer funding opportunities more than once per year and streamlining the application process. Within available funding, Reclamation is directed to provide within 180 days of the date of enactment of this Act a report on program execution and recommendations to enhance long-term capability and effectiveness. Reclamation is further directed to provide a briefing on the status of the report within 60 days of the date of enactment of this Act.

WaterSMART Program, Title XVI Water Reclamation & Reuse Program.—Of the funding provided for this program, the agreement includes \$10,000,000 for water recycling and reuse projects as authorized in section 4009(c) of the WIIN Act (Public Law 114-322).

The agreement directs Reclamation to prioritize projects under the WaterSMART Title XVI grant program that are likely to provide multiple benefits, including water supply reliability, and groundwater management and enhancement. The agreement notes the ongoing water supply challenges in regions such as central and western Kansas, as well as the important role of water reuse projects in drought afflicted regions.

Reclamation is reminded of its existing authority to assist with planning of non-federal desalination projects.

Yakima River Basin Water Enhancement Project.—The agreement directs Reclamation to accelerate implementation of the Yakima Basin Integrated Plan projects within the funding recommended. Reclamation is also encouraged to, within available funds, partner with the Corps to develop effective removal methods for water stargrass in the Yakima Basin.

Yakima Tieton Canal, Washington.—In accordance with section 9603(c) of Public Law 111-11, Reclamation shall determine whether the current wildfire-damaged and landslide imperiled state of the Yakima Tieton Main Canal, Yakima Project, Washington State, is an emergency within 30 days of enactment. Should Reclamation determine the current imperiled state of the Yakima Tieton Main Canal is an emergency, Reclamation shall provide financing authorized by section 9603(c) of Public Law 111-11 within 30 days of the determination to the transferred work operator of the Yakima Tieton Main Canal.

CENTRAL VALLEY PROJECT RESTORATION FUND

The agreement provides an indefinite appropriation, which allows Reclamation to expend funds collected in fiscal year 2026. The estimate of collections in fiscal year 2026 is \$65,370,000.

CALIFORNIA BAY-DELTA RESTORATION (INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$32,000,000 for the California Bay-Delta Restoration Program.

POLICY AND ADMINISTRATION

The agreement provides \$64,000,000 for Policy and Administration.

ADMINISTRATIVE PROVISION

The agreement includes a provision limiting Reclamation to purchase not more than thirty passenger vehicles for replacement only.

GENERAL PROVISIONS—DEPARTMENT OF THE INTERIOR

The agreement includes a provision outlining the circumstances under which the Bureau of Reclamation may reprogram funds.

The agreement includes a provision regarding the San Luis Unit and Kesterson Reservoir in California.

The agreement includes a provision regarding section 9504(e) of the Omnibus Public Land Management Act of 2009.

The agreement includes a provision regarding the Calfed Bay-Delta Authorization Act.

The agreement includes a provision regarding section 9106(g) of the Omnibus Public Land Management Act of 2009.

The agreement includes a provision regarding the Reclamation States Emergency Drought Relief Act of 1991.

The agreement includes a provision regarding section 9503(f) of the Omnibus Public Land Management Act of 2009.

The agreement includes a provision regarding the Aging Infrastructure account.

The agreement includes a provision regarding the Northwestern New Mexico Rural Water Projects Act.

The agreement includes a provision regarding the Garrison Diversion Unit.

TITLE III—DEPARTMENT OF ENERGY

The agreement provides \$49,124,343,000 for the Department of Energy to fund programs in its primary mission areas of science, energy, environment, and national security.

Award Terminations.—DOE shall carry out federal award terminations in accordance with its published procedures in the Department of Energy Guide to Financial Assistance (effective October 1, 2024). The Department shall not terminate a federal award in part or its entirety or require a renegotiation or rescoping of a federal award on the basis that the federal award no longer effectuates program goals or agency priorities, including pursuant to section 200.340(a)(4) of title 2, Code of Federal Regulations, without following the Department's published procedures.

Future Year Energy Report.—The Department is directed to provide expeditiously and in future budget requests a future-years energy program that covers the fiscal year of the budget request and the four succeeding years, as required by law in the fiscal year 2012 Act.

Indirect Cost Rates.—The Committees acknowledge that there is room for improvement in the system used to identify and recover indirect cost rates under the Uniform Guidance, particularly with respect to the need for greater transparency into these costs. Various models have been suggested to achieve these improvements, including the Financial Accountability in Research (FAIR) model advanced by the Joint Associations Group on Indirect Costs (JAG), which the Committees believe merit further consideration.

Insider Threat Program.—The agreement recognizes the Department's work to enhance its counterintelligence posture and foreign visitor vetting to reduce counterintelligence and insider threats at the DOE national laboratories. The Department is directed to continue these efforts and to brief the Committees biannually on the progress, milestones achieved, and resources needed to support this work.

Mission and Workforce Development.—The Department is expected to maintain mission

focus and execution as it seeks to implement effective management and increase administrative efficiency. The Department is directed to provide not later than 90 days after the date of enactment of this Act a briefing on its strategy to preserve and strengthen scientific and technological leadership in addition to project and program management. The brief shall also address opportunities to cultivate and leverage existing STEM workforce pipelines and strengthen national laboratories and their world-class user facilities.

Office of Clean Energy Demonstrations.—The Department is directed to provide quarterly briefings and reports on the redistribution of project funding from the Office of Clean Energy Demonstrations (OCED), including the status of previously obligated OCED project funding, the number of FTEs supporting the project, and plans for unobligated OCED funds.

Work in Non-Contiguous States.—The Department is directed to identify surveys, assessments, reports, and studies where Alaska and Hawaii are excluded, and perform equivalent work for Alaska and Hawaii to address continuing disparities in data availability and consideration.

CROSSCUTTING INITIATIVES

Artificial Intelligence and Quantum Information Science.—The Department is commended for fostering innovations in Quantum Information Science (QIS) and exploring how leading-edge Artificial Intelligence and Machine Learning (AI/ML) capabilities and applications can support its mission and complement ongoing interagency activities that are a cornerstone of maintaining U.S. dominance in AI/ML. The Department is urged to internally coordinate its offices, capabilities, and resources to ensure that limited Federal AI/ML and Quantum investments are aligned to achieve maximum impact.

The Department is directed to provide individual AI/ML and QIS roadmaps led by the Office of Science, in consultation with applied energy offices, no later than 120 days after the date of enactment of this Act. The roadmaps shall include the Department's research and development vision and priorities, including a plan to acquire and maintain access to frontier AI/ML and QIS capabilities to support the Department's missions. The roadmap shall also describe current and future initiatives to create interconnected infrastructure capabilities around data, computing, and software across the Department including the national laboratory network, as well as the plan to leverage and keep pace with advancing commercial AI/ML and QIS capabilities.

Carbon Dioxide Management.—The agreement supports research, development, demonstration, and deployment of diverse carbon dioxide management technologies and approaches, to be appropriately coordinated between the Office of Fossil Energy, the Office of Science, the Office of Energy Efficiency and Renewable Energy, and other relevant program offices or agencies.

Critical Minerals & Materials.—The agreement supports the Department's coordination of activities through the Critical Materials Collaborative. It also supports the use of transformative technologies to extract critical minerals and rare earth elements in regions where abundant geologic deposits of critical minerals exist. The Department is encouraged to work with other relevant Federal agencies and research institutions to support this critical effort.

Energy Innovation Hubs.—The Department is urged to expand the geographic reach of existing energy innovation hubs by seeking new opportunities to partner with state, local, and private partners. The Department

is encouraged to focus on energy security and critical technologies, with a particular emphasis on industrial power and carbon management & utilization, and to coordinate its activities with the offices of Fossil Energy, Energy Efficiency and Renewable Energy, and Science. The Department is directed to brief the Committees within 90 days of the date of enactment of this Act on the near and long-term strategic objectives of the Department's existing energy innovation hubs, models for successful lab-to-market transitions based on prior-year investments, and opportunities to expand or create new hubs.

Energy Storage.—The Department is directed to prioritize energy storage initiatives to accelerate the development of commercially viable storage technologies. These include, but are not limited to, the basic research capabilities of the Office of Science, the technology expertise of all the applied energy offices as well as the rapid technology development capabilities of the Advanced Research Projects Agency—Energy. The Department is directed to continue to coordinate efforts among existing Departmental programs to maximize efficiency of funds and expand vital research through the Department's Energy Storage Grand Challenge (ESGC) and Long-Duration Storage Shot initiatives, which include cost-shared demonstrations of energy storage technologies.

Grid Modernization.—The Department is directed to continue to strengthen and modernize the grid to provide reliable and secure delivery of electricity. The Department is directed to identify and develop methods and models that use AI to improve real-time operations, such as resource and load forecasting, line switching, and demand response to optimize reliability and efficiency of energy delivery based on near-real-time weather forecasts and available grid and load data.

Hydrogen.—The Department is directed to support research and development of a wide range of technologies to economically produce hydrogen across multiple sectors, to include the transportation, industrial, and power sectors.

ENERGY PROGRAMS

ENERGY EFFICIENCY AND RENEWABLE ENERGY

The agreement provides \$3,100,000,000 for Energy Efficiency and Renewable Energy (EERE).

EERE is directed to provide to the Committees not later than 90 days after the date of enactment of this Act, and quarterly thereafter, briefings on the status and execution of these funds and programs.

The agreement directs the Department to continue maximizing utilization of EERE-stewarded facilities and projects across EERE programs.

The Department is encouraged to identify technical needs, such as biobased lubricants for hydropower equipment, or other mission-critical applications, that could be met through biotechnology. The Department is further encouraged to use existing procurement authorities to pilot the use of advance market commitments and offtake agreements for biotechnology solutions that meet those technical needs. The agreement supports efforts to formalize procurement pathways that align with Department missions and to accelerate the commercialization of domestic biomanufacturing.

Energy Technology Innovation Partnership Project (ETIPP).—The agreement includes not less than \$15,000,000 for ETIPP to support initiatives to address high energy costs, reliability, and inadequate infrastructure challenges faced by island and remote communities. Within the funds provided, the agreement includes up to \$10,000,000 to support

stakeholder engagement and capacity building through the regional project partner organizations as well as support cross-region collaboration and the design, planning, and development of viable energy projects within their respective regions. The Committees recognize that, by participating in ETIPP, these small, resource-limited communities invest significant time and local capacity to develop projects that can take years to fund. Further, EERE is directed to continue providing direct support to participating ETIPP communities.

Lab-Embedded Entrepreneurship Program.—The agreement provides up to \$25,000,000 for the Lab-Embedded Entrepreneurship Program to support entrepreneurial fellows with access to national laboratory research facilities, expertise, and mentorship to assist with the commercialization of energy technologies. EERE is directed to coordinate with other Department program offices to explore opportunities for additional entrepreneurial support for the Department's broad energy portfolio.

Energy and Water Nexus.—The agreement provides up to \$50,000,000 for projects located in regions experiencing increasing pressure on water and energy resources, including areas facing heightened water and energy demands. Furthermore, the agreement includes up to \$15,000,000 for the Energy-Water Desalination Hub.

SUSTAINABLE TRANSPORTATION AND FUELS

The agreement provides up to \$35,000,000 to continue the SuperTruck program in support of the electrification of medium- and heavy-duty vehicles, including Class-7/8 regional and long-haul trucks, and associated charging infrastructure.

Vehicle Technologies.—The agreement provides \$200,000,000 for Battery and Electrification Technologies.

The agreement provides up to \$45,000,000 for the Energy Efficient Mobility Systems Program. Within this amount, no less than \$15,000,000 is recommended to conduct early-stage research at the vehicle, traveler, and system levels, and \$30,000,000 is recommended for pilot and demonstration projects pairing self-driving technology with zero-emission vehicles to ensure mobility does not come at the cost of increased tailpipe pollution.

The agreement provides not less than \$85,000,000 for Vehicle Technology Integration and Deployment.

The agreement includes up to \$10,000,000 for research and development to improve recycling of batteries collected through programs such as the Battery Recycling Retail Initiative.

The agreement includes \$25,000,000 to continue improving the energy efficiency of commercial off-road vehicles, to include up to \$10,000,000 for fluid power systems. These funds shall be awarded through a competitive solicitation in which university/industry teams are eligible to apply.

The agreement provides up to \$35,000,000 to advance zero- and low-emission technologies for off-road applications, including applications in ports, warehouses, and railyards.

The agreement provides up to \$10,000,000 for the development of performance-enhanced off-road material handler prototypes, including the design, construction, and validation of additional performance-enhanced machines to prove market readiness.

The agreement provides up to \$5,000,000 to address technical barriers to the increased use of natural gas vehicles, with a focus on those utilizing renewable natural gas.

The Department is encouraged to expand domestic manufacturing opportunities for electric vehicle batteries and to further address consumer barriers to adoption, including work with academic institutions that

demonstrate strong connections and support for regional energy storage industries.

Within available funds, the agreement supports projects that enhance the integration of internal combustion engine, hybrid, and electric battery vehicle technologies. The agreement also supports prioritizing commercial vehicle platforms that reduce total cost of ownership, enhance interoperability, and improve operational efficiency across a range of powertrain configurations.

Bioenergy Technologies.—The agreement provides up to \$5,000,000 to continue supporting the development and testing of new domestic manufactured, low-emission, high-efficiency, residential wood heaters that supply easily accessed and affordable renewable energy and can reduce costs associated with thermal energy.

The agreement includes \$5,000,000 to support research and development or the development of conversion and purification processes to advance the supply of renewable natural gas, clean hydrogen, and other impactful products from syngas. This includes the development of gasification and clean up technologies that can economically convert wood, agricultural, and municipal solid waste into products that can be blended into existing gas infrastructure.

The agreement provides \$25,000,000 for algae-related activities.

The agreement includes \$10,000,000 for research and development of the anaerobic bioproduction of 3-hydroxypropionic acid utilizing existing Midwest ethanol fermentation infrastructure and renewable whole-kernel corn feedstock in support of Midwest agriculture, human, and industrial resources.

The Department is encouraged to conduct research related to the development, pre-piloting, piloting, and demonstration scale-up of renewable liquefied petroleum gas or alternative fuels production, in parallel with the Department's focus on the scale-up of sustainable aviation fuel technologies. In addition, the Department is encouraged to pursue the advancement and development of pre-commercial, advanced sustainable aviation fuel feedstocks and technologies to include non-biogenic feedstocks and technologies, such as hydrogen-based e-fuels.

Hydrogen and Fuel Cell Technologies.—The agreement provides not less than \$10,000,000 for Hydrogen Research and Development. The Department is directed to continue efforts aimed at reducing the cost of hydrogen production, storage, and distribution, including novel onboard hydrogen tank systems, trailer delivery systems, and the development of systems and equipment for hydrogen pipelines.

The agreement includes up to \$20,000,000 to establish pilot sites for blended hydrogen-natural gas at a facility or facilities that closely simulate actual gas distribution networks. The projects are encouraged to evaluate the emissions reductions potential for various blends of hydrogen as well as the reliability and scalability issues associated with blending, to include the suitability, performance, and durability of pipeline components. The site shall apply lessons learned from HyBlend analyses and models to a near-commercial, controlled, instrumented site that represents an intermediate step prior to broader commercial blending in "real-world" applications.

The agreement provides up to \$15,000,000 for technology validation efforts in target areas otherwise neglected, such as rural areas, small ports, or challenging cold weather climates, while reducing or eliminating emissions.

The agreement provides up to \$8,000,000 for System Development and Integration to develop aviation grade-technology for aircraft and derivative applications.

Within available funds, the Department is encouraged to focus on pipeline system advancements and direct use applications and to address cost and performance of materials, components, and systems related to hydrogen production and storage as well as hydrogen's role in medium-and-heavy-duty transportation applications.

RENEWABLE ENERGY

Solar Energy Technologies.—The agreement provides not less than \$45,000,000 for Balance of System Soft Costs focused on reducing the time and costs for siting, permitting, installing, inspecting, and interconnecting large-scale and distributed solar and storage projects, including through standardized requirements and online application systems.

The agreement includes \$2,000,000 for updating and disseminating best practices of the Department's agricultural dual-use economic research efforts.

Wind Energy Technologies.—The agreement provides not less than \$25,000,000 for distributed wind technologies to support research activities, including the Competitiveness Improvement Program, that lead to lower costs and increased deployments of distributed wind systems for home, farm, commercial, and industrial applications. The Department is encouraged to prioritize collaboration with industry to invest in the development, demonstration, and deployment of technologies and practices that advance affordable, reliable, and secure distributed wind energy systems.

The agreement provides not less than \$5,000,000 for research and operations of the Integrated Energy System at Scale.

The agreement provides up to \$4,000,000 to expand collaboration with the National Sea Grant College Program for regional capacity to provide science-based community engagement associated with all energy technologies in oceanic regions.

Water Power Technologies.—The agreement provides \$79,000,000 for hydropower and pumped storage activities.

Within available funds for hydropower, the agreement includes up to \$10,000,000 to continue industry-led research, development, demonstration, and deployment efforts of innovative technologies. The agreement also includes up to \$10,000,000 for innovative analytics to optimize hydropower applications, such as machine learning-based hydrologic forecasts and operations optimization. Further, the agreement includes \$15,000,000 to continue efforts to establish a network of existing and new hydropower testing facilities.

The agreement provides no less than \$141,000,000 for Marine Energy.

The agreement includes \$20,000,000 for foundational research activities led by the National Marine Energy Centers and their affiliated universities and research institutions and \$10,000,000 for operations at the National Marine Energy Centers to support market adoption and build a skilled workforce.

The agreement provides up to \$60,000,000 for core marine energy research and development at national laboratories to support research, demonstration, and validation across power at sea, community, and utility scales.

The agreement includes \$15,000,000 to address infrastructure needs at marine energy technology testing sites, including upgrades to facilities that provide cost effective open water access for prototype testing.

The agreement includes up to \$10,000,000 to initiate operations at the grid-connected wave energy test facility to support research and testing.

The agreement provides \$24,000,000 for the Powering the Blue Economy initiative. The Department is directed to continue leveraging existing core capabilities at national laboratories to execute this work, in partnership with universities and industry.

The agreement provides up to \$30,000,000 for competitive solicitations for private sector or university-led awards to rapidly design, fabricate, and test marine energy systems, subsystems, and components at a variety of advanced technology readiness levels. The Department may utilize stage-gated awards and prioritize new awards for more mature systems nearing market adoption or to advance, improve, or complete ongoing testing and validation awards. Further, the Department shall fund tidal energy pilot projects that have already been vetted and approved by the Department.

The agreement includes \$9,000,000 for the Testing Expertise and Access for Marine Energy Research Initiative and \$1,000,000 for the University Marine Energy Research Community Initiative.

The Department is encouraged to utilize more frequent and more consistent funding opportunities to optimize the impacts of university-led foundational research and private sector-led technology development activities to accelerate deployment of marine energy systems.

The Department is encouraged to coordinate with regulatory agencies and subject matter experts to prioritize and address key data and information gaps. The Department is further encouraged to support baseline environmental studies that enable regulatory agencies to rigorously and expeditiously evaluate near-future tidal energy development proposals.

Geothermal Technologies.—The agreement provides up to \$25,000,000 to support research and development across geothermal technologies, including pilots in diverse regions, and up to \$25,000,000 to support demonstrations.

The Department is encouraged to implement the recommendations outlined in the GeoVision study and authorized in the Energy Act of 2020.

The Department is encouraged to support next-generation geothermal power production technologies that can be used for industrial-sector and large-scale heating and cooling applications.

The Department is encouraged to provide technical support for the deployment of both newly developed and established geothermal energy production technologies wherever they may be viable.

The agreement supports identifying new geothermal resources, including in non-contiguous States, that reduce the costs of geothermal development. The agreement supports further research and development of geothermal energy systems, including exploration and resource characterization, development, and demonstration in petroliferous basins. This includes co-location and integration of geothermal energy and thermal energy storage applications with existing refining, fuel processing, hydrocarbon production, and power systems to support energy production and reliability.

BUILDINGS AND INDUSTRY

Industrial Technologies.—Within available funds, the Department is directed to support diesel-alternative power generation technologies, such as propane and renewable propane used for primary, backup, and emergency response power generation in generators, micro-combined heat and power systems, and microgrids.

The agreement includes \$10,000,000 to continue to support research and development of innovative technologies aimed at both increasing U.S. technological and economic competitiveness and reducing emissions in the production of iron, steel, and steel mill products, including activities in support of the Low-Emissions Steel Manufacturing Research Program.

The agreement provides up to \$20,000,000 to reduce nitrous oxide emissions from industrial chemical processing and fertilizer production.

Advanced Materials and Manufacturing Technologies.—The agreement provides \$7,500,000 for the development of advanced tooling for lightweight automotive components. The Department is directed to further foster the partnership between the Manufacturing Demonstration Facility, universities, and industry in the Great Lakes and Gulf Coast regions for economic growth and technology innovation, thereby accelerating technology deployment and increasing the competitiveness of U.S. manufacturing industries.

The agreement supports the final year of construction funding for the Energy Materials and Processing at Scale (EMAPS) facility in fiscal year 2026 and directs the Department to provide a report detailing an integrated research strategy for the EMAPS facility within 150 days of enactment.

Building Technologies.—The agreement provides \$70,000,000 for Commercial Buildings Integration; \$65,000,000 for Residential Buildings Integration, including \$5,000,000 for grid-interactive efficient buildings; \$75,000,000 for Equipment and Building Standards; and not less than \$15,000,000 for Building Energy Codes.

Within available funds, the agreement recommends funding for heating, ventilation, and air conditioning and refrigeration research, development, and deployment, including heat pumps, heat pump water heaters, and boilers. The Department shall focus efforts to address whole building energy performance and cost issues to inform efforts to advance beneficial electrification and greenhouse gas mitigation without compromising building energy performance.

The agreement provides up to \$30,000,000 to support efforts to develop and demonstrate gas heat pump systems for space heating in heating-dominant climates and water heating in all climates for existing buildings. Additionally, the Building Technologies Office is encouraged to explore technology validation opportunities for Thermal Energy Networks to connect sources of available heat, such as data centers, with collections of buildings in conjunction with the Geothermal Technologies Office.

The agreement provides up to \$5,000,000 for real-time comparative studies of grid-integrated building systems under live weather conditions.

The Department is encouraged to collaborate with the Office of Electricity and the Office of Cybersecurity, Energy Security, and Emergency Response to improve building-to-grid interactions and the integration of energy storage and renewable energy.

The agreement encourages the development and demonstration of gas heat pump systems for space heating in heating-dominant climates and water heating in all climates for existing buildings.

The Department is encouraged to complete the current reviews of appliance and equipment efficiency standards and prepare for the next cycle to meet required statutory deadlines.

The Department is encouraged to fund research, demonstration, and field testing of new technology to facilitate widespread deployment and dissemination of information and best practices through direct engagement with builders, the construction trades, equipment manufacturers, smart grid technology and systems suppliers, integrators, State and local governments, and other market transformation activities.

The Department is encouraged to increase engagement with private sector stakeholders to develop market-transforming policies and

investments in commercial building retrofits.

The agreement supports the study of thermal and electric storage, secure communications, behind-the-meter and grid-edge distributed energy resource integration and control, whole-building and system-level efficiency, and envelope and heat pump solutions.

STATE AND COMMUNITY ENERGY PROGRAMS

The Department is directed to obligate funds recommended for the Weatherization Assistance Program to States, Tribes, and other direct grantees at the start of each grantee's approved Program Year, contingent upon the grantee's approved annual application.

FEDERAL ENERGY MANAGEMENT PROGRAM

The agreement notes that the Assisting Federal Facilities with Energy Conservation Technologies (AFFECT) program is an eligible use of federal energy management funds.

The agreement includes up to \$2,000,000 for workforce development and the Performance Based Contract National Resource Initiative.

The Department is directed to continue requiring all AFFECT grant funding be leveraged through private sector investment in Federal infrastructure to ensure maximum overall investment in resiliency, efficiency, emissions reductions, and security. The Department shall direct funding to projects that attract at least 10 dollars for each Federal dollar invested and that utilize public-private partnerships like Energy Savings Performance Contracts and Utility Energy Service Contracts.

MANUFACTURING AND ENERGY SUPPLY CHAINS

The agreement includes funding for the Industrial Assessment Center (IAC) program. The Department is directed to support regions, including northern New England, that are underserved through the IAC program.

The Department is encouraged to seek a broad spectrum of battery chemistries beyond lithium-ion based battery technology.

The Department is encouraged to support the advancement of technologies and specialized advanced battery manufacturing supply chains that will reduce emissions in aviation, including advanced air mobility technology and electrical vertical take-off and landing aircraft.

CORPORATE SUPPORT

Facilities and Infrastructure.—The Department is directed to study the feasibility of creating and operating a quantum-enabled energy validation platform to integrate and apply advanced quantum computing resources and test and validate quantum-generated algorithms for applied energy R&D.

CYBERSECURITY, ENERGY SECURITY, AND EMERGENCY RESPONSE

The agreement provides \$190,000,000 for Cybersecurity, Energy Security, and Emergency Response (CESER).

Risk Management Technology and Tools.—The agreement provides \$5,000,000 to enhance quantum entanglement networking research and development, including quantum entanglement timing, at a quantum-ready municipal utility.

The agreement provides \$12,500,000 to continue to support efforts to foster partnerships between national laboratories, universities, electricity sector utilities, and state and local government entities to identify and mitigate evolving national security threats to critical infrastructure.

The agreement provides not less than \$4,000,000 to conduct a demonstration program of innovative technologies, such as vegetation management monitoring, to improve grid resiliency from wildfires.

Response and Restoration.—The agreement provides not less \$5,000,000 for the Energy

Threat Analysis Center (ETAC) to address cyber threat awareness, mitigation, and response to the U.S. energy sector. In addition, the agreement includes \$1,000,000 to enhance the ETAC to support the cybersecurity of rural energy infrastructure and directs the Department to collaborate with universities and relevant industry and associations to expand outreach to small rural utilities and communities.

CESER is encouraged to continue to orchestrate ETAC activities in close coordination with DOE's Office of Intelligence and Counterintelligence, as well as the Cybersecurity and Infrastructure Security Agency's Joint Cyber Defense Collaborative within the Department of Homeland Security.

Preparedness, Policy, and Risk Analysis.—The agreement provides up to \$1,300,000, including \$300,000 for the National Academies of Science, Engineering, and Medicine to develop approaches and define actionable next steps to improve the accessibility and utilization of research in energy infrastructure and up to \$1,000,000 for the design and development of a central repository of publicly available research generated from national laboratories, post-secondary institutions, and entities across the energy infrastructure sector. This repository shall be maintained by a neutral post-secondary research institute that allows stakeholders to come together to examine, understand, and debate public utility policy.

ELECTRICITY

The agreement provides \$235,000,000 for Electricity.

The Department is encouraged to help electric cooperatives and municipal power utilities deploy energy storage and microgrid technologies.

GRID CONTROLS AND COMMUNICATIONS

Resilient Distribution Systems.—The agreement provides up to \$5,000,000 for coordinated research, development, deployment, and training related to advanced microgrid-enabling technologies, with a focus on communities in remote and islanded areas. The Department is directed to partner with organizations with specialized experience addressing local energy challenges, including community-based organizations and institutions of higher education.

Energy Delivery Grid Operations Technology.—The agreement provides not less than \$3,500,000 to continue developing national platforms to host the data, analytics, and models necessary to determine how adding variable generation impacts grid reliability, using input from regional stakeholders.

GRID HARDWARE, COMPONENTS, AND SYSTEMS

Energy Storage.—The Department is directed to continue furthering coordination between the Office of Electricity, the Office of Science, the Office of Energy Efficiency and Renewable Energy, and other Department offices to achieve commercially viable grid-scale battery storage.

Within 180 days of the date of enactment of this Act, the Department is directed to coordinate with the International Trade Administration to provide a report to the Committees on anticipated silane demand growth over the next decade, existing efforts to diversify and increase domestic production of silane, and the risks to semiconductor, battery, and solar panel supply chains posed by our reliance on imported silane.

Transformer Resilience and Advanced Components.—The Department is directed to research safe and effective capture and reuse technologies, or safe and effective alternatives, for the use of sulfur hexafluoride in power generation and transmission equipment, including circuit breakers, switchgear, and gas insulated lines.

GRID DEPLOYMENT

The agreement provides \$25,000,000 for Grid Deployment (GDO).

The agreement includes further funding to develop a domestic supply chain for electric grid components, such as transformers and sensors, from unobligated emergency appropriations.

GDO is directed to assess and report on the current status, weaknesses, and proposed phases for upgrading aging grid infrastructure, especially in small, rural communities.

Distribution and Markets.—The agreement includes up to \$5,000,000 to provide technical assistance, support, and guidance for Public Utility Commissions and Regional Transmission Organizations to develop models, rates, and market designs that incorporate expanded integration of long duration energy storage resources on the grid.

The agreement supports the continued disbursement of funds through the Grid Resilience and Innovation Partnerships program and highlights the growing demand for the program because of disaster recovery and preparedness needs.

NUCLEAR ENERGY

The agreement provides \$1,785,000,000 for Nuclear Energy.

The Office of Nuclear Energy is directed to work with the Arctic Energy Office to facilitate Department of Defense deadlines for deployment of a microreactor. Further direction is provided under Departmental Administration.

Demonstration Projects.—The agreement includes further funding to accelerate ongoing nuclear demonstration activities, including the two small modular reactor deployments, the two demonstration projects under the Advanced Reactor Demonstration Program, and Risk Reduction projects for future demonstrations, from unobligated emergency appropriations.

NEUP, SBJR/STTR, and TCF.—The Department is directed to provide a report that details plans for current university-led reactor research and university infrastructure support relevant to the Office of Nuclear Energy's mission.

NUCLEAR ENERGY ENABLING TECHNOLOGIES

Advanced Materials and Manufacturing Technologies.—The agreement provides not less than \$10,000,000 to continue development of additive manufacturing from forest product feedstock and secondary supporting materials, including metals, ceramics, polymers, and others, aiding in developing a U.S. supply chain for energy system technologies and small modular nuclear reactors. This work shall be conducted by the Office of Nuclear Energy in coordination with the Office of Energy Efficiency and Renewable Energy in partnership with the Manufacturing Demonstration Facility to leverage expertise and capabilities for large scale additive manufacturing.

Nuclear Science User Facilities.—The agreement provides up to \$18,000,000 for computational support and up to \$5,000,000 for artificial intelligence tools to expedite the development and deployment of advanced nuclear energy systems.

FUEL CYCLE RESEARCH AND DEVELOPMENT

Advanced Nuclear Fuel Availability.—The agreement includes \$28,500,000 for EBR-II processing of high-assay low-enriched uranium (HALEU).

The agreement continues to emphasize the critical importance of maintaining a stable and domestic supply of HALEU to advance the development of nuclear reactors and strengthen national security through energy independence, and support commercialization activities associated with laser enrichment technology and novel separation and

enrichment methods in furtherance of expanding U.S. supply. The Department is directed to provide a report not later than 90 days after the date of enactment of this Act to the Committees and the appropriate authorizing committees outlining Departmental plans to implement the Nuclear Fuel Security Act to boost domestic nuclear fuel availability.

When prioritizing the use of the Department's inventories and funding for nuclear fuel, the Department shall consider the benefits of advanced university research reactors and the financial impact of significant private investment.

Material Recovery and Waste Form Development.—The agreement reiterates House direction regarding the competitive, cost-shared programs for reprocessing spent nuclear fuel from commercial reactors and for reprocessing naval spent nuclear fuel or other available highly enriched uranium from within the Department's inventory.

The agreement provides up to \$8,000,000 to develop a process of converting Advanced Test Reactor spent fuel into HALEU metal and possibly oxide beginning in 2029 and producing a minimum of one metric ton of HALEU per year.

The agreement recommends funding for public-private partnerships piloting ways to repurpose spent nuclear fuel for use in new energy applications and radioisotope harvesting.

Within available funds, the agreement recommends commercial-scale research projects related to the following priority topics: technology demonstration of aqueous recycling, as defined as processing of greater than 100 metric tons annually of UNF; production of MOX or HALEU feedstock; and recovery of critical isotopes from SNF for use in medicine, industry or defense.

Next Generation Fuels.—The agreement reiterates House direction regarding development of silicon carbide ceramic matrix composite fuel cladding for light water reactors and TRISO fuel qualification activities. The agreement provides not less than \$18,000,000 for an advanced metallic fuels program including for metallic uranium transuranic bearing fuels.

Used Nuclear Fuel Disposition.—The agreement provides \$10,000,000 for the development of a Spent Nuclear Fuel Center for Applied Research in Storage and Transportation.

REACTOR CONCEPTS RESEARCH, DEVELOPMENT, AND DEMONSTRATION

Advanced Small Modular Reactor RD&D.—The Department is directed to provide to the Committees not later than 90 days after the date of enactment of this Act a detailed budget breakdown of the two small modular reactor demonstration projects awarded with funds provided in the fiscal year 2024 Act, including the Department's investment to date and further Federal support needed to deploy these demonstrations.

Advanced Reactor Technologies.—The agreement provides \$5,000,000 to continue work on Supercritical Transformational Electric Power research and development. The agreement supports the collaboration between the national laboratories and industry partners to support research and testing of a new turbine.

The agreement provides not less than \$12,000,000 for the fast reactor program; up to \$5,000,000 to support the development of technical capabilities, infrastructure, and technology for space-based nuclear reactor systems; and up to \$10,000,000 to advance research associated with molten salt reactors for the purpose of increasing reliable energy and enhancing medical isotope applications, in collaboration with university partners and national laboratories that perform fundamental research and test enabling technologies and grid deployment solutions.

The agreement also provides up to \$30,000,000 for MARVEL. The Department is directed to treat MARVEL as a capital acquisition project.

ADVANCED REACTORS DEMONSTRATION PROGRAM

The Department is directed to provide regular briefings and updates on internal evaluations of the Advanced Reactor Demonstration Program and notify the Committees in advance of any changes to contracts or conditions.

National Reactor Innovation Center (NRIC).—The Department is directed to provide a briefing not later than 90 days after the date of enactment of this Act on the support and proposed activities, timelines, and expected outyear costs of NRIC.

Risk Reduction for Future Demonstration.—The agreement continues support for the Risk Reduction projects selected in fiscal year 2021. The agreement reiterates House direction to provide an update and make recommendations as appropriate on these projects.

Regulatory Development.—The agreement provides up to \$15,000,000 for the Advanced Nuclear Licensing Energy Cost-Share Grant Program as authorized under 42 U.S.C. 16280 for technology diversity, including spent nuclear fuel reprocessing. The Department shall coordinate this work with financial and technical assistance for reactor siting feasibility studies activities.

The agreement supports the Department's goal to deploy innovative advanced reactor technologies and encourages the Department to work in coordination with, not in circumvention of the Nuclear Regulatory Commission's existing licensing authorities. The Department shall notify the Committees at least 30 days prior to entering an agreement to authorize a nuclear reactor under the auspices of the Department pursuant to 42 U.S.C. Code 2140(a)(2), and provide a plan that addresses financial indemnification requirements, inspection and oversight costs to be incurred during the reactor's operations, and decommissioning costs, specifically addressing the outyear costs and the need for any future appropriations.

The agreement recommends up to \$5,000,000 to be awarded to the first utility or joint operating agency to be issued an operating license for an advanced nuclear reactor under Part 50 or a finding described in 52.103(g) of title 10, Code of Federal Regulations, by the Nuclear Regulatory Commission, to incentivize the acceleration of operating licenses applications.

INFRASTRUCTURE

The agreement provides up to \$5,000,000 for initial scoping and development of an advanced nuclear fuels fabrication laboratory.

FOSSIL ENERGY

The agreement provides \$720,000,000 for Fossil Energy.

The Department is directed to resume the Coal First Initiative to foster innovation and improvements to thermal generation efficiency and deployment.

The Department is directed to review the Propane Education and Research Act program's compliance with its underlying statutory authorities and provide this information to the Committees expeditiously.

The Department is directed to continue its efforts on Fossil Energy Based Production, Storage, Transport and Utilization of Hydrogen. This program includes activities related to: Net-Zero or Negative Carbon Hydrogen Production from Modular Gasification and Co-Gasification of Mixed Wastes, Biomass, and Traditional Feedstocks; Solid Oxide Electrolysis Cell Technology Development; Carbon Capture; Advanced Turbines; Natural

Gas-Based Hydrogen Production; Hydrogen Pipeline Infrastructure; and Subsurface Hydrogen Storage. The Department is encouraged to fund technologies such as steam methane reforming with carbon capture, autothermal reforming with carbon capture, sorption enhanced steam methane reforming, natural gas pyrolysis, thermal pyrolysis, catalytic pyrolysis, and direct hydrogen production with chemical looping.

The agreement directs the Interagency Working Group on Coal and Power Plant Communities to facilitate public and private sector investment focused on the needs of stakeholders in economically distressed energy communities through stakeholder engagement, interagency coordination, partnerships, and economic development expertise.

Within available funds, the agreement provides up to \$25,000,000 for the Carbon Sequestration Research and Geological Computational Science Initiative, as authorized in section 10102(f) of the CHIPS and Science Act of 2022. In carrying out this Initiative, the Department is directed to coordinate and leverage existing activities across the Department, to include the Office of Science, the Office of Fossil Energy, and the United States Geological Survey.

The Department is encouraged to create a national test loop center to bolster American competitiveness in manufacturing low-carbon products as well as on carbon dioxide transportation and conversion. The Department is further encouraged to work with institutions that have existing infrastructure and carbon storage capacity.

Within Advanced Energy Systems, the Department is encouraged to continue work on coal and coal biomass to both liquids and solids activities and is further encouraged to focus on research and development to improve cost and efficiency of coal-to-fuels technology implementation and polygeneration.

COAL AND CARBON UTILIZATION

Point-Source Capture.—The agreement includes no direction on reactive carbon capture within the Point-Source Capture program.

The agreement provides up to \$25,000,000 to support front-end engineering and design studies, pilot projects, and demonstration projects, including university-based research involving pilot demonstration activities utilizing coal, for all applications of carbon capture technologies.

The agreement provides up to \$25,000,000 for carbon capture test centers, as authorized in section 4002(e) of the Energy Act of 2020.

The agreement provides up to \$10,000,000 for gas post-combustion capture and up to \$10,000,000 for coal and gas pre-combustion capture.

The Department is encouraged to focus on point source capture from industrial sources.

Carbon Dioxide Removal.—The Department is directed to continue carbon removal projects consistent with the objectives established in section 969D(j)(2)(B) of the Energy Policy Act of 2005, including those that demonstrate the capture, processing, delivery, and sequestration or end-use of captured carbon by absorbing carbon directly from the atmosphere or upper hydrosphere. Further, the Department shall include in scope projects that remove carbon from the atmosphere or upper hydrosphere for the competitive purchasing pilot program.

The agreement provides not less than \$45,000,000 for purchasing efforts initiated by the CDR Purchase Pilot Prize, as directed in the fiscal year 2023 Act. In carrying out the pilot prize, the agreement recommends the Department prioritize no fewer than four dif-

ferent carbon removal technology pathways and emphasize methods that minimize removal reversibility and maximize storage duration. Within available funds for the CDR Purchase Pilot Prize, the agreement includes not less than \$4,000,000 to develop measurement, monitoring, reporting, and verification, including to inform the pilot prize, offtake agreements, and other federal incentives.

The Department is directed to continue to coordinate with the National Oceanic and Atmospheric Administration on marine carbon dioxide removal research and development.

Carbon Utilization.—Within available funds, the Department is directed to fund two coal-derived carbon products technologies demonstration programs, which were authorized under section 4004 of the Energy Act of 2020. Within available funds, the agreement provides not less than \$10,000,000 for the research, development, and demonstration of reactive carbon capture (RCC) technologies. The Department is directed to provide competitive grants and cooperative agreements with a particular focus on supporting RCC projects that mineralize carbon emissions into solid waste streams or by-products from industrial sites, including coal ash, iron/steel slag, and mine tailings. The Department is encouraged to work cooperatively with industry, universities, and other appropriate parties.

The Department is encouraged to conduct research and demonstration activities of carbon conversion in durable building materials as well as the evaluation of carbon oxide utilization pathways for consideration under section 45Q of title 26 CFR.

The agreement supports expanded recipient eligibility to include Tribal governments and organizations, institutions of higher education, and non-profits when implementing section 40302 of Public Law 117-58.

Carbon Transport and Storage.—The Department is directed to issue funding opportunities with remaining Public Law 117-58 funding for CarbonSAFE projects and to continue advancing projects through all four phases of CarbonSAFE. Within 90 days of enactment, the Department is directed to brief the Committees on its implementation of CCUS programs funded by Public Law 117-58 and how the Department will operate the programs in accordance with congressional intent.

The Department is directed to fulfill prior commitments to the Regional Carbon Sequestration Partnerships. The agreement provides not less than \$25,000,000 in support of a multiyear solicitation to competitively select multiple regional geologic basin partnerships.

Within available funds, the agreement provides up to \$26,000,000 for advanced storage research and development activities, including artificial intelligence/machine learning tools and storage integrity and assurance. The Department is directed to study the use of carbon dioxide in enhancing oil and natural gas production in shale formations.

The agreement supports an expanded focus on infrastructure development strategies through continued regional geological basin characterization to reduce uncertainties, collect data, and facilitate and inform regional permitting and policy challenges.

OIL, GAS, AND CRITICAL MINERALS

The agreement notes the collaborative efforts with industry under the Geothermal Energy Oil and Gas Demonstrated Engineering (GEODE) Program and directs the Department to launch a similar industry-led effort for underground hydrogen storage. In addition, the Department is directed to launch a demonstration project focused on producing hydrogen and critical minerals from the processing of produced water.

The agreement directs the Department to support university-led collaborative research efforts focused on the development and demonstration of rotating detonation combustion technologies, including integration into advanced gas turbine systems. Within available funds, the agreement provides up to \$10,000,000 for transition-to-demonstration activities under the University Turbine Systems Research program.

Within the Natural Gas Infrastructure and Hydrogen Technologies program, the Department is encouraged to continue expanding its research and demonstration capabilities in the production, storage, transport, and utilization of hydrogen. This work shall focus on hydrogen production from gasification and cogasification of mixed wastes, biomass, plastics and traditional feedstocks, solid oxide electrolysis cell technology development, carbon capture, advanced turbines, natural gas-based hydrogen production, hydrogen pipeline infrastructure, and subsurface hydrogen storage. The Department also shall conduct research on emerging technologies with low-cost carbon capture, such as dry reforming and sorbent enhanced reforming.

Advanced Production Technologies.—The agreement provides up to \$16,700,000 for the continuation and potential expansion of long-term methane hydrate research and development production testing in the Arctic.

The Department is directed to plan for a follow-on test, using the technical insights gained from the joint production test with the Japan Organization for Metals and Energy Security. The follow-on test shall include identification of technical adjustments to improve the likelihood of achieving commercial production rates and to extend reservoir evaluation over a longer period. The Department is directed to preserve the capability to re-start testing at the current site for no less than six months after the date of enactment of this Act, and longer if practicable, to maintain optionality for a follow-on test.

The agreement includes \$19,000,000 for Unconventional Oil Field Test Sites. The Department is directed to maintain robust efforts in enhanced recovery technologies.

Mineral Production and Processing Technologies.—The agreement provides not less than \$15,000,000 to establish a competitive research and grant program to accelerate and advance mineral exploration, targeted drilling and characterization, digital subsurface technology applications, rock comminution, enhanced tailings management, in-situ mineral extraction, and mineral extraction from less conventional sources, including produced waters and lower grade ores.

The agreement recommends funding for the Mineral Security program to support the research, development, and commercialization of projects that increase domestic production of critical minerals and materials (CMM). Within available funds, the agreement includes not less than \$10,000,000 for the purpose of identifying and commercializing technologies that extract CMMs from unconventional or secondary feedstocks.

The Department is directed to continue the Carbon Ore, Rare Earths, and Critical Minerals Program.

The agreement provides up to \$10,000,000 for competitive university-led projects for a critical materials and minerals multi-functional processing and refining laboratory.

The Department is directed to establish two university-led research centers as authorized by the CHIPS and Science Act of 2022. The Department shall provide a detailed implementation plan to the Committees within 90 days of the date of enactment of this Act. The agreement provides up to \$10,000,000 for a competitive solicitation to

develop and test advanced critical and rare earth element separation technologies and to accelerate the advancement of commercially viable technologies for the recovery of rare earth elements and minerals from unconventional resources, including bauxite residue.

The agreement provides \$10,000,000 for utilizing coal as a precursor for high-value added products at the Carbon Fiber Technology Facility.

The Department is encouraged to accelerate the advancement of commercially viable technologies for the recovery of rare earth elements and critical minerals, including from lignite. Further, the Department is encouraged to fund a more detailed assessment of lignite resources and to devise cost-effective methods of removing rare earths from lignite.

The Department is encouraged to work with universities with large outdoor areas at or near the scale of a mine site for hands-on learning and pilot-level testing of leaching techniques.

The Department is encouraged to pursue research agreements with land grant universities leading cutting-edge efforts in water management, produced water research, and mineral recovery for the benefit of multiple uses, including agricultural purposes.

ENERGY PROJECTS

The agreement provides \$97,557,000 for the Energy Projects account for projects, and in the amounts, specified for this account in the table entitled "Community Project Funding/Congressionally Directed Spending" in this explanatory statement.

Recipients are reminded that statutory cost sharing requirements may apply to these projects. The Department may use program direction funds, as necessary, from the appropriate offices to implement these projects.

NAVAL PETROLEUM AND OIL SHALE RESERVES

The agreement provides \$13,000,000 for the operation of the Naval Petroleum and Oil Shale Reserves.

STRATEGIC PETROLEUM RESERVE

The agreement includes \$206,325,000 for the Strategic Petroleum Reserve.

The Department is directed to work with American producers and international partners to design a plan to restock the Reserve. The agreement further directs the Department to provide a report to the Committees outlining this plan with specific refill timelines within 90 days of the date of enactment of this Act.

The Department may not establish any new regional petroleum product reserves unless funding for such a proposed regional petroleum product reserve is explicitly requested in advance in an annual budget request and approved by Congress in an appropriations act. Further, the agreement does not include any funding for the establishment of a new regional petroleum product reserve.

The Department is directed to provide the Strategic Petroleum Reserve Modernization report expeditiously.

The Department is directed to provide, within 30 days of the date of enactment of this Act, monthly updates to the Committees on the operations of the Strategic Petroleum Reserve and account levels within the Strategic Petroleum Account.

SPR PETROLEUM ACCOUNT

The agreement provides \$100,000 for the SPR Petroleum Account.

NORTHEAST HOME HEATING OIL RESERVE

The agreement provides \$7,150,000 for the Northeast Home Heating Oil Reserve.

ENERGY INFORMATION ADMINISTRATION

The agreement provides \$135,000,000 for the Energy Information Administration (EIA).

EIA is directed to continue to conduct a monthly survey of electric and heating service providers of final termination notices and service disconnections sent due to bill nonpayment as well as service reconnections of customers disconnected for bill non-payment, in a form and manner determined by the EIA.

EIA is encouraged to collect additional information from data centers and computing infrastructure facilities, including energy consumption, and evaluating potential impacts on energy costs, grid reliability, water use, and air pollution.

NON-DEFENSE ENVIRONMENTAL CLEANUP

The agreement provides \$322,371,000 for Non-Defense Environmental Cleanup.

Brookhaven National Laboratory Cleanup.—The agreement encourages the Department to include funding in future budget requests to address Perfluoroalkyl and Polyfluoroalkyl Substances (PFAS), 1,4-Dioxane, and other contaminants as the scope of remediation activities is more clearly defined.

Gaseous Diffusion Plants.—The agreement provides \$142,526,000 for continued conversion of Depleted Uranium Hexafluoride (DUF6) into depleted uranium oxide to enable reuse, storage, and disposal.

The agreement provides up to \$30,700,000 for the transport and disposition of surplus depleted uranium oxide cylinders from the Paducah, Kentucky and Piketon, Ohio facilities.

Moab Uranium Mill Tailings Remedial Action.—The agreement encourages the Department to prioritize full removal of the remaining tailings and initiate collaborative planning for the future reuse and stewardship of the Moab site.

Small Sites.—The agreement provides \$86,765,000 for Small Sites cleanup. Within this amount, \$10,000,000 is for the Energy Technology Engineering Center, \$12,500,000 is for Idaho National Laboratory, and \$64,265,000 is for Moab.

URANIUM ENRICHMENT DECONTAMINATION AND DECOMMISSIONING FUND

The agreement provides \$865,000,000 for activities funded from the Uranium Enrichment Decontamination and Decommissioning Fund.

Joppla Power Plant Decommissioning Reimbursement.—The agreement encourages the Department to brief the Committees on funding needed to meet the Department's legal obligations for decommissioning the Joppla Power Plant.

Paducah Administrative Support Facility.—The agreement provides \$41,000,000 to support the planning, design, and construction of a new program support facility at the Paducah site as a single, integrated project.

Uranium Bartering.—The Department shall not barter, transfer, or sell uranium to generate additional funding for environmental management activities in fiscal year 2026.

SCIENCE

The agreement provides \$8,400,000,000 for Science.

The Department is directed to elevate program management of EPSCoR within the Office of Science to promote a variety of research funding across all science programs. The Department is directed to continue annual (or at minimum biennial) implementation of grant solicitations. Further, the Department is directed to continue to implement and fund EPSCoR across all the Office of Science Programs. The Department is also directed to take the appropriate steps to maintain the percentage of research and development funds for EPSCoR jurisdictions to adhere to the congressional intent in the CHIPS and Science Act.

Quantum Information Sciences.—The agreement provides not less than \$255,000,000 for quantum information science. The agreement expects a roadmap with clear outyear funding estimates will be provided.

Quantum Computing and Energy Efficiency Roadmap.—The Office of Science is directed to estimate the energy usage of various scalable quantum computing modalities, including modalities researched and developed by small- and medium-size businesses, and others. The Department is directed to provide a report to the Committees with these estimates not later than 3 years after the date of enactment of this Act.

Emission Mitigation Technologies.—The agreement provides up to \$71,500,000 to the Office of Science for research, development, and demonstration of diverse carbon dioxide removal technologies and approaches. The Office of Science is directed to coordinate with the Office of Energy Efficiency and Renewable Energy, the Office of Fossil Energy and any other relevant program offices or agencies. In addition, the agreement provides up to \$10,000,000 for research into potential atmospheric methane removal methods consistent with the recommendations of the October 2024 National Academies study, “A Research Agenda Toward Atmospheric Methane Removal.” This shall include science and technology approaches capable of breaking down methane at background concentrations in the atmosphere through new biological and other methods, with or without the potential simultaneous removal of other non-CO₂ greenhouse gases.

ADVANCED SCIENTIFIC COMPUTING RESEARCH

The agreement provides not less than \$238,000,000 for the Argonne Leadership Computing Facility, not less than \$275,000,000 for the Oak Ridge Leadership Computing Facility, not less than \$154,328,000 for the National Energy Research Scientific Computing Center at Lawrence Berkeley National Laboratory, and not less than \$97,261,000 for ESnet.

The agreement includes not less than \$16,000,000 for other project costs for the High Performance Data Facility.

The agreement provides not less than \$310,000,000 for Mathematical, Computational, and Computer Sciences Research. Within available funds, the agreement includes up to \$35,000,000 to support research to develop a new path to energy efficient computing with large, shared memory pools and the development of advanced memory technologies to advance artificial intelligence and analytics for science applications.

The agreement includes not less than \$15,000,000 for the Computational Sciences Graduate Fellowship.

The Department is directed to provide to the Committees not later than 90 days after the date of enactment of this Act a briefing on its strategic plan to ensure the United States maintains continued global leadership in advanced computing, especially as it relates to post-exascale technologies. This briefing shall include updates on the Department's work related to artificial intelligence, post-exascale computing, and quantum computing. Further, this briefing shall detail the Department's near- and long-term objectives and direction to maintain the Nation's leadership, including a clear plan on what the next computing facility upgrades will include and accomplish and the associated costs.

The Office of Science is directed to implement a hybrid High-Performance Computing (HPC)/Quantum Computing Pathfinder program at one or more national laboratories. The testbed shall be used to study how to effectively interface and integrate quantum processing units with traditional HPC resources. The Department is directed to brief

the Committees on the implementation of the Pathfinder program no later than 90 days after the date of enactment of this Act.

As the stewards of the leadership computing facilities, the agreement expects the Advanced Scientific Computing Research program, in coordination with other Departmental offices, to take a lead role in the Department's artificial intelligence and machine learning activities. The Office of Science is encouraged to apply foundational artificial intelligence and machine learning capabilities to its mission with a focus on accelerating scientific discovery in its Scientific User Facilities and large experiments.

The Department is encouraged to build on the Exascale Computing Initiative's model of success with a new multi-year program, leveraging public-private partnerships, to co-design and co-develop leading edge post-exascale advanced computing technologies vital for continued U.S. world leadership in scientific discovery, national security, and economic wellbeing.

BASIC ENERGY SCIENCES

The agreement provides not less than \$867,675,000 for facilities operations of the Nation's light sources, not less than \$447,993,000 for facilities operations of the high-flux neutron sources, and not less than \$177,304,000 for facilities operations of the Nanoscale Science Research Centers.

The Department is directed to update the Committees, on no less than a quarterly basis, concerning the costs of ALS-U and lessons learned from cost overruns from project execution.

BIOLOGICAL AND ENVIRONMENTAL RESEARCH

The agreement includes not less than \$400,000,000 for Biological Systems Science and not less than \$430,000,000 for Earth and Environmental Systems Sciences.

The agreement provides up to \$20,000,000 to continue low-dose radiation research in coordination with the Office of Environment, Health, Safety, and Security and Nuclear Energy.

The agreement provides not less than \$118,000,000 for the Bioenergy Research Centers (BRCs) and directs the Department to develop concepts and plans for the evolution of the BRCs, supported by input from the scientific community.

The Department is directed to maintain Genomic Science as a top priority and recommends not less than \$83,000,000 for Foundational Genomics Research, not less than \$47,000,000 for Biomolecular Characterization and Imaging Science, and not less than \$93,000,000 for the Joint Genome Institute.

The Department is directed to give priority to optimizing the operation of Biological and Environmental Research User Facilities. The agreement provides not less than \$65,000,000 for the Environmental and Molecular Sciences Laboratory and not less than \$96,000,000 for the Atmospheric Radiation Measurement user facility.

The agreement provides not less than \$86,000,000 for Environmental System Science, not less than \$28,650,000 for Atmospheric System Research, and not less than \$109,000,000 for Earth and Environmental Systems Modeling.

FUSION AND ENERGY SCIENCES

The Department is directed to provide a brief to the Committees on a resource informed Fusion Energy Sciences strategy, with clear milestones and deliverables, not later than 30 days after the date of enactment of this Act.

The Department is encouraged to pursue modalities, including public-private partnerships, to deliver small and medium-scale ex-

perimental capabilities, and address specific science and technology gaps through the development of an inertial fusion energy driver experiment, a blanket testing experiment, a nuclear high-heat flux experiment, and an experiment that develops prototypes for low-cost neutron sources. The Department is also encouraged to utilize research funding to start design and develop cost estimates for a large-scale Fusion Prototypical Neutron Source facility and an integrated blanket-fuel cycle test facility consistent with recent FESAC reports.

The agreement includes not less than \$70,000,000 for the Milestone-Based Development Program. The agreement reiterates House direction regarding the management of the Milestone-Based Development Program.

The agreement provides \$25,473,000 for the Materials Plasma Exposure Experiment.

The agreement provides up to \$12,500,000 to fund the Emergent Confinement Concepts program to explore the next generation of fusion concepts that could lead to a volumetric neutron source identified in the FESAC Long Range Plan.

HIGH ENERGY PHYSICS

The agreement provides not less than \$44,000,000 for the Sanford Underground Research Facility.

NUCLEAR PHYSICS

The agreement includes not less than \$110,000,000 for operations at the Facility for Rare Isotope Beams, not less than \$155,000,000 for operations at the Continuous Electron Beam Accelerator Facility, and not less than \$182,000,000 for the operation of the Relativistic Heavy Ion Collider.

The agreement includes \$15,000,000 for the High Rigidity Spectrometer and not less than \$2,850,000 for other project costs for the Electron Ion Collider.

The Department is directed to give priority to optimizing operations for all Nuclear Physics user facilities, including Realistic Heavy Ion Collider, Continuous Electron Beam Accelerator, Facility for Rare Isotope Beams, and Argonne Tandem Linac Accelerator System.

The agreement notes the importance of the Energy Frontier Research Centers in advancing nuclear physics theory, basic science, and emerging energy technologies.

ISOTOPE R&D AND PRODUCTION

The Department is directed to evaluate the production capabilities of fusion machines as a source of Helium-3. The Department is directed to study the projected long-term growth of helium-3 and tritium demand and impediments to their availability for commercial applications. The Department is further directed to provide to the Committees, not later than 180 days after the date of enactment of this Act, a report outlining the Isotope R&D and Production Program's work to ensure helium-3 and tritium availability.

The agreement appreciates the Department's efforts to decrease the Nation's foreign dependence and strongly supports continued domestic isotope R&D and production efforts within the Office of Science.

NUCLEAR WASTE DISPOSAL

The agreement provides \$12,040,000 for Nuclear Waste Disposal for Nuclear Waste Fund (NWF) oversight activities, which is derived from the NWF.

ADVANCED RESEARCH PROJECTS AGENCY—ENERGY

The agreement provides \$350,000,000 for the Advanced Research Projects Agency—Energy.

Within available funds, the agreement recommends robust funding for the Seeding Critical Advances for Leading Energy Technologies with Untapped Potential (SCALEUP) program.

The Department is directed to brief the Committees not later than 30 days after the date of enactment of this Act on the findings of the report reviewing all prior ARPA-E awards and analysis on market value and technology transfer successes and failures, as directed in the fiscal year 2024 Act.

The agreement recommends continued support for a diverse range of research and development topics, including cold climate and remote community energy technologies, microgrids in Arctic and sub-Arctic climates, modular mineral processing, hydropower, and small-scale geothermal technologies.

The Department is encouraged to obligate funds for eligible projects within a reasonable time period, consistent with past practices.

TITLE 17 INNOVATIVE TECHNOLOGY LOAN GUARANTEE PROGRAM

The agreement supports the budget request proposal to provide additional credit subsidy for nuclear projects and includes \$150,000,000 in support of such efforts.

The Department is required to provide to the Committees, not later than 90 days after the date of enactment of this Act, recommendations on how it could provide a loan guarantee for an eligible project under 15 U.S.C. 720(n)f with existing appropriated dollars, any authorities the Secretary or LPO may utilize to carry out this statute, and the anticipated cost of a loan guarantee in accordance to 15 U.S.C. 720(n)f.

In carrying out its Title 17 loan guarantee program, the Department is directed to prioritize projects that expand the domestic supply of critical minerals as defined by 30 U.S.C. 1606(a)(3). The agreement directs the Department to provide not later than 90 days after enactment of this Act a report of how many minerals related projects are funded every year and to what part of the supply chain those projects contribute.

ADVANCED TECHNOLOGY VEHICLES MANUFACTURING LOAN PROGRAM

The agreement provides \$9,500,000 for the Advanced Technology Vehicles Manufacturing Loan Program.

The Department is encouraged to employ the commercial aircraft industry's established methodology for assessing the commercial viability of any applicant's aircraft project.

TRIBAL, ENERGY LOAN GUARANTEE PROGRAM

The agreement provides \$6,300,000 for the Tribal Energy Loan Guarantee Program.

The agreement recommends up to \$500,000 per loan application to carry out financial and technical assessments, legal expenses, and related activities in connection with applications for loans to support eligible projects, including renewable energy and transmission on or near Tribal lands, or for eligible projects outside of Tribal lands, provided that such expenditures by the Department do not constitute prohibited Federal support under section 50141(d)(2) of Public Law 117-169.

INDIAN ENERGY POLICY AND PROGRAMS

The agreement provides \$75,000,000 for Indian Energy Policy and Programs.

Within available funding, the Department is encouraged to reserve non-competitive formula funding, as authorized in 25 U.S.C. 3502(b)(5)(A), for capacity building to advance tribal-led energy initiatives. The Office of Indian Energy is directed to prioritize Tribes while leveraging Regional InterTribal organizations, Tribal colleges and universities, and other entities as appropriate, to support capacity development, and as necessary, develop multiple formulae to help develop a robust energy ecosystem within Indian Country.

The agreement supports the Office of Indian Energy's efforts to continue to utilize local subject matter experts to assist Indian Tribes and Alaska Native Villages in developing energy projects and providing support for energy planning.

DEPARTMENTAL ADMINISTRATION

The agreement provides \$200,000,000 for Departmental Administration.

The agreement provides seven reprogramming control points in this account to provide flexibility in the management of support functions. The Department is directed to continue to submit a budget request that proposes a separate funding level for each of these activities.

On a quarterly basis, the Department shall provide a report on any deobligations associated with section 301(b)(1)(G) of this Act.

Arctic Energy.—The Department is directed to provide the Arctic Energy Office up to \$3,000,000 to support external engagements, including data sharing and the closing of data gaps, as they relate to the Arctic. These funds can support innovative energy technologies, technical assistance, research, development, and deployment of electric power technology that is cost-effective and well-suited to meet the needs of rural and remote regions of the United States, especially in high latitude regions of the northern hemisphere. Within available funds, the agreement recommends no less than \$1,000,000 be utilized to provide expertise from the Arctic Energy Office and the Office of Nuclear Energy to help the Department of Defense deploy a microreactor at Eielson Air Force Base by the existing deadline.

Crosscutting Technology Coordination.—The Secretary and Deputy Secretary are directed to align and consolidate existing functions into a new coordination structure that provides clear leadership, articulates the unique roles and responsibilities of each participating program office, and directly informs budget formulation and execution. Coordination activities shall include staff support; strategy development, including Department-wide Multi-Year Program Plans and national blueprints; and stakeholder and interagency engagement. The Department is directed to provide quarterly updates on the new structure, including how it functions among programs and an explanation of the unique function of each office. The Department is directed to include in future budget requests funding breakdowns by account and subprogram for each of the crosscutting initiatives.

International Affairs.—The agreement reiterates House and Senate language on the Israel Binational Industrial Research and Development (BIRD) Foundation and the U.S. Israel Center of Excellence in Energy Engineering and Water Technology.

Office of Strategy and Technology Roadmaps.—The agreement supports the Department's efforts to coordinate and to formulate a coherent vision and strategy on research, development, and other activities related to critical and emerging technologies through the Office of Strategy and Technology Roadmaps and expects the Department to fund these efforts from within the Office of the Undersecretary for Science.

Office Space Utilization.—The Department is directed to report on its average office space utilization rate, the cost of total office space, and the estimated cost of underutilized office space.

U.S. Energy and Employment Report.—The Department is directed to continue the annual U.S. Energy and Employment Report, which includes a comprehensive statistical survey to collect data, perform analysis, and publish the data in a summary report. The information collected shall include data re-

lating to employment figures and demographics in the U.S. energy sector using methodology approved by the Office of Management and Budget in 2016.

OFFICE OF THE INSPECTOR GENERAL

The agreement provides \$90,000,000 for the Office of the Inspector General (OIG).

The OIG is directed to continue to provide quarterly briefings to the Committees on implementation of the independent audit strategy.

ATOMIC ENERGY DEFENSE ACTIVITIES

NATIONAL NUCLEAR SECURITY ADMINISTRATION

The agreement provides \$25,404,000,000 for the National Nuclear Security Administration (NNSA).

Feral Cattle Study.—NNSA is directed to brief the Committees on plans to remove unbranded cattle from the Los Alamos National Laboratory.

Los Alamos National Laboratory Road Safety Analysis.—NNSA is directed to finalize the road safety analysis report and brief the Committees on future steps.

NNSA Project, Program Management and Executability.—The agreement directs GAO to review NNSA Federal project and program staff focusing on: (1) core competencies needed to execute NNSA projects and programs and recommendations for how those competencies need to scale as project or program scope is realized, (2) Federal human capital gaps that exist in ongoing projects and programs and recommendations for how NNSA should prioritize Federal hiring to address these gaps, and (3) a review of functions that have been delegated to the NNSA laboratories, plants, and sites. GAO shall provide this assessment to the Committees no later than 18 months after the date of enactment of this Act.

In addition, the agreement directs GAO to review the execution of funds provided by Public Law No. 119-21, and any remaining available prior year appropriations, to include: (1) any NNSA plans for expending available funding during fiscal year 2026; (2) NNSA's obligation rates and amounts of any actual or projected unobligated carryover; and (3) NNSA's expenditure rates and amounts of any actual or projected unexpended carryover. The agreement directs GAO to provide a brief to the Committees no later than five months after the date of enactment of this Act that summarizes observations of NNSA's budget execution through the first quarter of fiscal year 2026 with a final report completed no later than 12 months after the date of enactment of this Act. The agreement also directs NNSA to provide the Committees with a brief and finalized spend plan by congressional control point for resources received under Public Law No. 119-21 immediately upon enactment of this Act.

Project Performance.—NNSA is encouraged to assess current performance on projects costing more than \$750,000,000 and make appropriate project management changes. The agreement directs NNSA to disclose problems in cost and schedule estimates within 30 days of discovery, and to provide quarterly or more frequent briefings to the Committees leading up to any project baseline change proposal.

Quarterly Briefings.—NNSA is directed to continue quarterly briefings on the status and progress of GAO's open recommendations, which shall detail actions NNSA has taken or plans to take to address each open recommendation, timeframes for completion, and any barriers to implementing the recommendation.

WEAPONS ACTIVITIES

The agreement provides \$20,378,000,000 for Weapons Activities.

Academic Programs.—Within available funds, the agreement provides not less than \$25,000,000 for the Minority Serving Institution Partnership Program and not less than \$5,000,000 for Tribal Colleges and Universities.

High Explosives and Material Staging Capabilities.—The agreement urges the Department to prioritize both material staging and high explosives capabilities and directs NNSA to provide a briefing to the Committees on authorization and appropriations no later than 60 days after the date of enactment of this Act. The briefing shall include NNSA's capital asset acquisition strategy to meet its mission requirement for both high explosives and material staging capabilities, an overview of alternatives under consideration to meet the mission need, cost, and schedule implications of each proposed alternative, and a plan to accelerate near-term Critical Decisions milestones in fiscal year 2026.

Inertial Confinement Fusion Ignition and High-Yield.—Within available funds, the agreement provides not less than \$493,000,000 for the National Ignition Facility (NIF), not less than \$107,000,000 for the Sandia National Laboratories, not less than \$111,000,000 for OMEGA, and not less than \$35,000,000 for Los Alamos National Laboratory. The agreement provides not less than \$47,000,000 for target research, development, and fabrication.

Leadership and Management of the Plutonium Pit Production Mission.—The agreement directs NNSA to provide the Special Study of the NNSA's "Leadership and Management of the Plutonium Pit Production Mission" conducted by the Office of Enterprise Assessments immediately upon completion. The Department shall provide a briefing no later than 30 days after the date of enactment of this Act.

Lithium Processing.—The agreement provides \$270,000,000 for the Lithium Processing Facility (LPF). NNSA is directed to brief the Committees not later than 90 days after the date of enactment of this Act on the status of the LPF project to include opportunities to expedite construction as well as the required investment to extend operations in Building 9204-2 until project completion.

Next-Generation Pulsed Power Capabilities.—Within available funds, the agreement provides up to \$10,000,000 for early-stage research and development, including with commercial entities, to advance technologies for the next-generation pulsed power capabilities enabling high-yield fusion studies to address emerging NNSA stockpile stewardship needs.

Operations.—The agreement provides up to \$500,000 to conduct a study of portions of Tract A-14 (Rendija Canyon) that may be suitable for conveyance. NNSA shall provide a copy of the final study including cost and schedule estimates for remediation.

Plutonium Pit Production.—The agreement urges the Department to work expeditiously to meet the goal of 80 war reserve pits per year but notes NNSA has yet to complete a resource loaded Integrated Master Schedule (IMS). NNSA is directed to deliver a briefing on the IMS immediately upon the date of enactment of this Act.

Quantum Computing.—The agreement urges the Department to work expeditiously to meet the goal of 80 war reserve pits per year but notes NNSA has yet to complete a resource loaded Integrated Master Schedule (IMS). NNSA is directed to deliver a briefing on the IMS immediately upon the date of enactment of this Act.

The agreement directs NNSA to provide the 2025 JASON Pit Aging study and unclassified summary within 60 days of report completion.

Quantum Computing.—The agreement encourages the Department to bolster the

trapped ion quantum computing work done at Los Alamos and Sandia National Laboratories, including physics modeling essential to nuclear stockpile verification and assurance work utilizing the most advanced trapped ion quantum computing hardware. Additionally, the agreement encourages NNSA to explore the unique value proposition of on-premises facilities for NNSA to house a potential quantum computing system, use case development, and other critical work to scale the NNSA's mission. The agreement directs the NNSA to provide a briefing to the Committees on the quantum information science strategy and initiatives no later than 60 days after the date of enactment of this Act.

Sea Launched Cruise Missile-Nuclear (SLCM-N) Warhead.—The agreement directs NNSA to provide a detailed and site-specific acquisition plan for the SLCM-N program through First Production Unit no later than 30 days after the date of enactment of this Act. The acquisition plan shall also include the Navy's program milestones and NNSA's plans for schedule integration with the Navy.

Satellite Campus Feasibility Study.—The agreement provides up to \$2,000,000 to conduct a land development study for a Los Alamos National Laboratory satellite facility. NNSA shall submit a final report and brief the Committees with the results of the study immediately upon completion.

Uranium Processing.—The agreement provides \$730,000,000 for the Uranium Processing Facility at Y-12.

DEFENSE NUCLEAR NONPROLIFERATION

The agreement provides \$2,367,000,000 for Defense Nuclear Nonproliferation.

Forensics Research and Development.—NNSA is directed to continue to develop and maintain advanced technical nuclear forensics pre- and post-detonation capabilities within Defense Nuclear Nonproliferation Research and Development.

Global Material Security.—NNSA is directed to continue to protect radiological material vulnerable to theft or sabotage within the Radiological Security subprogram. NNSA shall continue to build and sustain partner capacity across the Global Material Security portfolio to ensure effective operation of physical security infrastructure and combat the risk of materials smuggling. NNSA shall also continue bilateral cooperation with partners with existing or planned use of nuclear technology; sustain security gains through capacity building, training, and maintenance; and fund and participate in international nuclear security organizations.

Nonproliferation Stewardship Program.—The agreement provides \$162,000,000 for the Nonproliferation Stewardship Program, of which not less than \$22,500,000 is for the Athena program and not less than \$18,700,000 is for the Advanced Testbed and Operations Learning Laboratory.

Nuclear Detonation Detection.—NNSA is directed to continue nuclear test detection activities, including field experiments designed to improve U.S. capabilities to detect evasively conducted underground nuclear explosions.

Reactor Conversion and Uranium Supply.—The agreement provides not less than \$79,800,000 within Material Management and Minimization to continue the U.S. High Performance Research Reactor program.

NAVAL REACTORS

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$2,134,000,000 for Naval Reactors.

Naval Reactors is directed to continue providing quarterly briefings outlining the research and development program's direction and plan.

FEDERAL SALARIES AND EXPENSES

The agreement provides \$525,000,000 for Federal Salaries and Expenses.

NNSA is directed to continue to provide monthly updates on the status of hiring and retention.

ENVIRONMENTAL AND OTHER DEFENSE ACTIVITIES

DEFENSE ENVIRONMENTAL CLEANUP

The agreement provides \$7,375,000,000 for Defense Environmental Cleanup.

Within available funds, the Department is directed to provide \$10,000,000 for the National Institute of Environmental Health Science/Department of Energy Nuclear Worker Training Program.

Consortium for Risk Evaluation with Stakeholder Participation (CRESP).—The agreement provides up to \$5,000,000 for the existing cooperative agreement with CRESP for independent review, analysis, applied research, and educational initiatives to support cost-effective, risk-informed cleanup decision-making.

The agreement provides up to \$2,000,000 to CRESP for independent academic expertise for waste management and remediation for the Oak Ridge Reservation.

Containment Ventilation Systems.—The agreement directs the Department to brief the Committees on its progress and any future budget requirements necessary to address the Department's other research and technology development challenges within 120 days of the date of enactment of this Act.

Future Year Budgets.—The agreement directs the Department to include out-year funding projections in the annual budget request by control point for the Office of Environmental Management (EM), and an estimate of the total cost and time to complete each site.

Hexavalent Chromium Plume.—The agreement encourages EM to engage with the Mortandad and Sandia communities affected by the Hexavalent Chromium Plume and to brief the Committees on the efforts to incorporate community engagement into the Chromium Interim Measures process.

Oak Ridge Reservation.—The agreement directs the Department to brief the Committees within 120 days of the date of enactment of this Act on EM's ongoing operations at the Oak Ridge site, to include the costs of EM's activities, use of EM facilities in Oak Ridge by other programs or sites, and current cost sharing arrangements.

Office of River Protection.—The agreement directs the Department to request adequate funding to meet the obligations laid out in the holistic agreement in future budget requests.

Strontium-90 Beneficial Reuse.—The agreement directs the Department to work with the Department of Defense (DoD) to produce a report that identifies funding opportunities to advance the beneficial reuse of Strontium-90, on behalf of the DoD, any existing authorities that enable the Department of Energy to accept funding from commercial entities or other Federal agencies, and any necessary new authorities needed to accept funding from commercial entities or other Federal agencies. The Department is directed to brief the Committees on the plan for the report with in 60 days of the date of enactment of this Act, and within 30 days of completion of the report.

Technology Development.—The agreement directs EM to provide a brief that outlines technology development R&D projects as part of the fiscal year 2027 budget briefing and annually thereafter. The briefing shall include funding necessary to carry out the program and a rationale for the R&D work including how it is related to reducing the future costs of EM's cleanup efforts. The report shall include an overview of the work

completed under both the state-of-the-art containment ventilation and CRESF programs and provide an overview of future funding needed to support these initiatives.

Richland.—The agreement provides additional funding above the budget request to continue addressing risks stemming from contamination beneath Building 324 at the Hanford site.

The agreement provides \$5,000,000 for the preservation of historic structures at the Hanford site associated with the Manhattan Project National Historical park. Within 90 days of the date of enactment of this Act, the Department in coordination with the National Park Service, shall provide the Committees with an updated list of preservation projects at the site, in priority order.

Volpentest Hazardous Materials Management and Emergency Response (HAMMER) Federal Training Center.—The agreement encourages the Department to prioritize the HAMMER Federal Training Center to the greatest extent possible, including for training needs associated with the Waste Treatment Plant.

Waste Isolation Pilot Plant.—The agreement recommends the Department make a voluntary payment of \$10,000,000 in fiscal year 2026 to the State of New Mexico for WIPP route related road infrastructure projects. These funds shall only be used for projects mutually agreed to by the Department and the State of New Mexico.

OTHER DEFENSE ACTIVITIES

The agreement provides \$1,170,000,000 for Other Defense Activities.

POWER MARKETING ADMINISTRATIONS

BONNEVILLE POWER ADMINISTRATION FUND

The agreement provides no appropriation for the Bonneville Power Administration, which derives its funding from revenues deposited into the Bonneville Power Administration Fund.

OPERATION AND MAINTENANCE, SOUTHEASTERN POWER ADMINISTRATION

The agreement provides a net appropriation of \$0 for the Southeastern Power Administration.

OPERATION AND MAINTENANCE, SOUTHWESTERN POWER ADMINISTRATION

The agreement provides a net appropriation of \$10,400,000 for the Southwestern Power Administration.

CONSTRUCTION, REHABILITATION, OPERATION AND MAINTENANCE, WESTERN AREA POWER ADMINISTRATION

The agreement provides a net appropriation of \$63,372,000 for the Western Area Power Administration.

Colorado River Dam Fund.—The Secretary of the Interior is directed to expend moneys in the Colorado River Dam Fund, including moneys in account XXXR5656P1, that were and hereafter are recovered on a non-reimbursable basis, for any authorized activity, including operations, maintenance, investigation and cleanup actions, and capital improvements, within the Boulder Canyon Project at Hoover Dam or on land used for the construction and operation of the Hoover Dam, in consultation with the Boulder Canyon Project contractors as identified in the Hoover Power Allocation Act of 2011 (Public Law 112-72).

FALCON AND AMISTAD OPERATING AND MAINTENANCE FUND

The agreement provides a net appropriation of \$228,000 for the Falcon and Amistad Operating and Maintenance Fund.

FEDERAL ENERGY REGULATORY COMMISSION SALARIES AND EXPENSES

The agreement provides \$520,000,000 for the Federal Energy Regulatory Commission (FERC). Revenues for FERC are set to an amount equal to the budget authority, resulting in a net appropriation of \$0.

FERC is directed to identify, validate, and implement a national real-time grid monitoring service to monitor grid malfunctions resulting in poor power quality, safety and reliability.

The agreement encourages FERC to evaluate interconnection queue prioritization proposals from transmission providers that seek to expedite the interconnection of dispatchable power resources that support grid reliability and resource adequacy to address persistent delays in the interconnection queue process. FERC is urged to ensure that such efforts include clear criteria for prioritization, and safeguards to avoid disruption of existing queue reform efforts.

GENERAL PROVISIONS—DEPARTMENT OF ENERGY

(INCLUDING TRANSFERS OF FUNDS)

The agreement includes a provision prohibiting the use of funds provided in this title to

initiate requests for proposals, other solicitations, or arrangements for new programs or activities that have not yet been approved and funded by Congress; requires notification or a report for certain funding actions; prohibits funds to be used for certain multi-year “Energy Programs” activities without notification; and prohibits the obligation or expenditure of funds provided in this title through a reprogramming of funds except in certain circumstances. The notification requirements in the provision also apply to the modification of any grant, contract, or Other Transaction Agreement where funds are allocated for new programs, projects, or activities not covered by a previous notification.

The agreement includes a provision prohibiting the use of funds in this title for capital construction of high hazard nuclear facilities, unless certain independent oversight is conducted.

The agreement includes a provision prohibiting the use of funds in this title to approve critical decision-2 or critical decision-3 for certain construction projects, unless a separate independent cost estimate has been developed for that critical decision.

The agreement includes a provision for oversight of large construction projects.

The agreement includes a provision to prohibit certain payments.

The agreement includes a provision to establish criteria for the sale of petroleum products from the Strategic Petroleum Reserve.

The agreement includes a provision addressing research security.

The agreement includes a provision regarding access to nuclear weapons production facilities.

The agreement includes a provision regarding Small Business programs.

The agreement includes a provision related to the Small Business Act.

The agreement includes a provision to make certain funds available for nuclear demonstration projects, grid, and other purposes.

The agreement includes a provision amending the Pacific Northwest Electric Power Planning and Conservation Act.

The agreement includes a provision regarding Federal financial assistance indirect cost rates.

TITLE IV—INDEPENDENT AGENCIES

APPALACHIAN REGIONAL COMMISSION
The agreement provides \$200,000,000 for the Appalachian Regional Commission (ARC).

The agreement includes \$65,000,000 for the POWER Plan; \$10,000,000 for high-speed broadband deployment in distressed counties within the Central Appalachian region that have been most negatively impacted by the downturn in the coal industry; and up to \$13,000,000 to address the substance abuse crisis that disproportionately affects Appalachia. The agreement also includes \$16,000,000 for a program of basic infrastructure improvements in distressed counties in Central Appalachia. Funds shall be distributed according to ARC's distressed counties formula and shall be in addition to the regular allocation to distressed counties.

ARC is encouraged to continue investing in the capacity of local development districts.

DEFENSE NUCLEAR FACILITIES SAFETY BOARD
SALARIES AND EXPENSES

The agreement provides \$42,000,000 for the Defense Nuclear Facilities Safety Board (DNFSB).

The agreement provides \$1,572,000 within the Office of Inspector General of the Nuclear Regulatory Commission (NRC IG) to provide the DNFSB inspector general services, as authorized by Congress.

DELTA REGIONAL AUTHORITY
SALARIES AND EXPENSES

The agreement provides \$32,000,000 for the Delta Regional Authority.

The agreement includes not less than \$1,250,000 to support the Local Development District Community Support Pilot Program and not less than \$15,000,000 for flood control, basic public infrastructure development, and transportation improvements, which shall be allocated separate from the State formula funding method.

DENALI COMMISSION

The agreement provides \$18,000,000 for the Denali Commission.

The Denali Commission is directed to spend \$2,500,000 to support Bulk Fuel projects. The Denali Commission is reminded of the critical need to support rural Alaska Native Villages in addressing Bulk Fuel storage needs to support community energy security and safety.

NORTHERN BORDER REGIONAL COMMISSION

The agreement provides \$42,000,000 for the Northern Border Regional Commission (NBRC).

The agreement includes not less than \$4,000,000 for initiatives that seek to address the decline in forest-based economies throughout the region. The agreement also includes \$1,500,000 for the State Capacity Building Grant Program authorized in Public Law 115-334, provided that the funds support dedicated in-state resources focused on NBRC programs.

NORTHWEST REGIONAL COMMISSION

The agreement provides \$1,000,000 for the Northwest Regional Commission. This funding shall be used to establish the Northwest Regional Commission as a Federal-State partnership and to perform activities in subtitle V of title 40, United States Code to address the economic development needs of distressed portions of Washington, Oregon, Idaho, and Montana.

SOUTHEAST CRESCENT REGIONAL COMMISSIONS

The agreement provides \$20,000,000 for the Southeast Crescent Regional Commission.

SOUTHWEST BORDER REGIONAL COMMISSION

The agreement provides \$5,500,000 for the Southwest Border Regional Commission.

GREAT LAKES AUTHORITY

The agreement provides \$5,000,000 for the Great Lakes Authority.

NUCLEAR REGULATORY COMMISSION
SALARIES AND EXPENSES

The agreement provides \$952,700,000 for the Nuclear Regulatory Commission (NRC). This amount is offset by estimated revenues of \$804,510,000, resulting in a net appropriation of \$148,190,000.

(Dollars)

Account	Final Bill
Nuclear Reactor Safety	\$502,269,000
Integrated University Program	12,400,000
Nuclear Materials and Waste Safety	113,473,000
Decommissioning and Low-Level Waste	27,933,000
Corporate Support	309,025,000
Use of Prior-Year Balances	- 12,400,000
Total, Nuclear Regulatory Commission	952,700,000

Advanced Nuclear Reactor Regulatory Infrastructure.—The agreement provides \$19,246,000 for the development of regulatory infrastructure for advanced nuclear technologies, which is not subject to the Commission's general fee recovery collection requirements.

Integrated University Program.—The agreement notes that the Commission carries unobligated balances of funds previously designated by Congress for the Integrated University Program or the University Nuclear Leadership Program from appropriations received prior to fiscal year 2026. The agreement requires the use of \$12,400,000 of these existing balances for the University Nuclear Leadership Program.

The agreement does not include these funds within the fee base calculation for determining authorized revenues, and does not provide authority to collect additional offsetting receipts for their use.

Reactor Oversight and Safety.—The agreement directs the Commission to continue to provide quarterly briefing to the Committees on the Commission's current reactor oversight and safety program and on any proposed changes before they are implemented.

Fusion Regulatory Infrastructure.—The agreement recommends the Commission consider factors that may enable and accelerate commercialized deployment, including ways to streamline the safety review of fusion facility designs across the Commission and Agreement States, ways to simplify the review process for fusion machine operators to deploy multiple systems across jurisdictions and minimize redundancies in the approval process, and the standardized assessment of environmental impacts from a fusion machine within a defined siting envelope.

The agreement directs the Commission to provide notification not later than 60 days after the date of enactment of this Act, outlining all planned rule-making activities related to fusion machines.

NRC Licensing Procedures.—The agreement directs the Commission to take tangible steps to reduce delays and streamline the licensing process. The agreement encourages the Commission to continue implementation of the Accelerating Deployment of Versatile, Advanced Nuclear for Clean Energy (ADVANCE) Act, and the Nuclear Energy Innovation and Modernization Act (NEIMA) laws as timely and ambitiously as needed to rap-

idly deploy nuclear power. The agreement notes the Commission's expertise and legally mandated role in licensing, oversight, and regulation of the civilian use of nuclear reactors and radioactive materials. The agreement supports continued collaboration between the Commission and the Department of Energy in supporting efficiencies in licensing to commercialize new technologies.

OFFICE OF INSPECTOR GENERAL

The agreement provides \$18,795,000 for the Office of Inspector General in the Nuclear Regulatory Commission. This amount is offset by revenues of \$14,885,000, resulting in a net appropriation of \$3,910,000.

The agreement provides \$1,572,000 to provide inspector general services for the Defense Nuclear Facilities Safety Board.

NUCLEAR WASTE TECHNICAL REVIEW BOARD

SALARIES AND EXPENSES

The agreement provides \$4,000,000 for the Nuclear Waste Technical Review Board to be derived from the Nuclear Waste Fund.

GENERAL PROVISIONS—INDEPENDENT AGENCIES

The agreement includes a provision instructing the Nuclear Regulatory Commission on responding to congressional requests for information.

The agreement includes a provision related to reprogrammings.

TITLE V—GENERAL PROVISIONS

(INCLUDING TRANSFER OF FUNDS)

The agreement includes a provision relating to lobbying restrictions.

The agreement includes a provision relating to transfer authority. No additional transfer authority is implied or conveyed by this provision. For the purposes of this provision, the term “transfer” shall mean the shifting of all or part of the budget authority in one account to another.

The agreement includes a provision prohibiting the use of funds to establish or maintain a computer network unless such network blocks the viewing, downloading, and exchanging of pornography, except for law enforcement investigation, prosecution, or adjudication activities.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the bill or this explanatory statement, along with the name of each House Member, Senator, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. For each item, a Member is required to provide a certification that neither the Member nor the Member's immediate family has a financial interest, and each Senator is required to provide a certification that neither the Senator nor the Senator's immediate family has a pecuniary interest in such congressionally directed spending item. Neither the bill nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

DIVISION C—DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2026

The following statement is an explanation of the effects of Division C, which provides appropriations for the Department of the Interior, the Environmental Protection Agency (EPA), the Forest Service, the Indian Health Service, and related agencies for fiscal year 2026.

The joint explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 119-215 and Senate Report 119-46 carries the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement.

While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein. In cases where the House Report, Senate Report, or this joint explanatory statement direct the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. Where this joint explanatory statement refers to the Committees or the Committees on Appropriations, unless otherwise noted, this reference is to the House Subcommittee on Interior, Environment, and Related Agencies and the Senate Subcommittee on Interior, Environment, and Related Agencies.

Each department and agency funded in this Act is directed to follow the directions set forth in this Act and the accompanying statement and to not reallocate resources or reorganize activities except as provided herein or otherwise approved by the House and Senate Appropriations Committees through the reprogramming process as referenced in this Act. This joint explanatory statement addresses only those agencies and accounts for which there is a need for greater explanation than provided in the Act itself. Funding levels for appropriations by account, program, and activity, with comparisons to the fiscal year 2025 enacted level and the fiscal year 2026 budget request, can be found in the table at the end of this division.

Unless expressly stated otherwise, any reference to “this Act” or “at the end of this statement” shall be treated as referring only to the provisions of this division.

Aerially Applied Fire Retardant.—The Committees understand the importance of utilizing a variety of wildfire suppression techniques and direct that prior to any action related to hindering the use of such techniques, particularly aerially applied fire retardant, the relevant Agencies confirm that there is an alternative that is effective and available.

Bighorn Sheep.—The Committees are aware that the Forest Service and the Bureau of Land Management (BLM) use the Western Association of Fish and Wildlife Agencies’ occupied bighorn habitat maps, telemetry data, and recent bighorn observations in conducting Risk of Contact analyses and that risk of contact models are currently being run on a State-wide basis where sufficient data exists. The Committees emphasize the directives included in House Report 119-215 related to bighorn sheep and conducting complete Risk of Contact analyses.

Grizzly Bears.—Not later than 90 days following the enactment of this Act, the Fish and Wildlife Service and the National Park Service are directed to provide an in-depth briefing regarding the implementation of the final rule on the Establishment of a Non-essential Experimental Population of Grizzly Bear in the North Cascades Ecosystem.

The Fish and Wildlife Service is directed to provide an in-depth briefing regarding the development of the draft environmental impact statement under the Endangered Species Act in consideration of the establishment of an experimental population of grizzly bear within the Bitterroot Ecosystem of Montana and Idaho not later than 90 days following the enactment of this Act.

The aforementioned briefings must include the Department’s plans to work collaboratively with Tribes, other Federal agencies, States, local communities, and landowners on recovery actions for this species.

The Fish and Wildlife Service is also directed to provide an in-depth briefing regarding barriers and challenges associated with the reissuance of the final rule titled “Endangered and Threatened Wildlife and Plants: Removing the Greater Yellowstone Ecosystem Population of Grizzly Bears From the Federal List of Endangered and Threatened Wildlife” (82 Fed. Reg. 30502 (June 30, 2017)) not later than 90 days following the enactment of this Act.

Indian Country—Narcotics Reduction Task Force.—The Committees emphasize the directive in House Report 119-215 related to instituting a Narcotics Reduction Task Force aimed to dismantle and disrupt opioid, heroin, and other dangerous drug distribution networks in Indian Country.

Leases.—The Committees direct the agencies to provide notice within 180 days of any official action to terminate a lease or dispose of a federal building. The notice should include proposed closure plans, ongoing consultations with affected stakeholders, and actions to address potential service gaps.

Litigation.—The agreement does not include the language in House Report 119-215 in the third paragraph under the heading “Cost of Litigation and Lack of Transparency.”

Missing and Murdered Indigenous Women.—The Committees remain concerned about the crisis of missing, trafficked, and murdered indigenous women that has plagued Native communities. The Committees highlight the support provided within the Bureau of Indian Affairs and the Indian Health Service to combat this issue.

Other Items.—The agreement does not include the language in House Report 119-215 under the headings “Public Availability of Data—Permits to Drill” and “Review of Rulemakings.”

Public Access.—To support continued access for hunting, fishing, and recreational shooting on federal land, the Committees direct the Department of the Interior and the Forest Service to notify the House and Senate Committees on Appropriations in advance of any proposed project specifically intending to close an area to recreational shooting, hunting, or fishing on a nonemergency basis of more than 30 days.

Training, Hiring, and Public Lands Education in Alaska.—The Committees reiterate that the directive in the explanatory statement accompanying Public Law 116-94 regarding hiring and conducting annual Alaska National Interest Lands Conservation Act training by the Department of the Interior and the Forest Service is continued.

Vacant Grazing Allotments.—The Committees direct the Bureau of Land Management and the Forest Service, to the greatest extent practicable, to make vacant grazing allotments available to a holder of a grazing permit or lease when lands covered by the holder of the permit or lease are unusable because of drought or wildfire.

Wildland Fire Consolidation.—The Committees emphasize the narrative included under the heading “Reorganization Proposals—Wildland Fire Management” in House Report 119-215. In lieu of the directive, the Commit-

tees include the following direction. The Committees direct the Secretary of Agriculture, in consultation with the Secretary of the Interior, to contract with an independent, non-partisan research organization with expertise in federal land management to conduct a comprehensive study on the feasibility of consolidating wild land fire management operations as proposed in the President’s budget. The Committees expect the study to assess the impacts a consolidation would have on reaching proposed timber targets, continued cohesion between wildland fire management and the hazardous fuels reduction program, continued use of the available red card-certified workforce, and how a new consolidated service would differ from the role the National Interagency Fire Center (NIFC) already plays in coordinating fire response. The study should analyze the impact a consolidation would have on states, localities, and Tribes.

The Committees further direct the Secretaries to consult with the Committees on Appropriations of the House of Representatives and the Senate prior to the study’s beginning to consider additional aspects of a consolidation the study should address, and the Secretary is directed to submit the study and a comprehensive response to the findings of the study, including funding estimates, staffing plans, and the legislative proposal required to complete the transfer to such Committees upon its completion.

National Parks and Public Land Legacy Restoration Fund.—The Committees direct the Department of the Interior and the Department of Agriculture to implement the project allocations included in the table titled “Allocation of Funds from the National Parks and Public Land Legacy Restoration Fund—Fiscal Year 2025” included in House Report 118-581 for the Bureau of Land Management, the U.S. Fish and Wildlife Service, the National Park Service, the Bureau of Indian Affairs, and the U.S. Forest Service, provided that for the U.S. Forest Service, revisions transmitted to the Committees on December 31, 2025 shall apply. The Department of the Interior and the Department of Agriculture are directed to report to the Committees 60 days prior to making any changes to such project allocations and revisions, including the use of contingency funds.

LAND AND WATER CONSERVATION FUND

With enactment of the Great American Outdoors Act (GAOA) (Public Law 116-152), Congress provided a permanent appropriation of \$900,000,000 per year from the Land and Water Conservation Fund (LWCF). Along with other mandatory appropriations, LWCF programs are subject to a 5.7 percent sequestration, with those sequestered amounts becoming available in the subsequent fiscal year. GAOA also mandated that account allocations and detailed project information be proposed by the administration each year through the President’s annual budget submission, and that such allocations, following review by the Committees on Appropriations, may be modified through an alternate allocation. The Committees expect compliance with the law and acknowledge the information provided by the U.S. Forest Service as part of its annual budget submission.

A detailed table accompanying this explanatory statement shows the LWCF allocation for fiscal year 2026 by agency, account, activity, and project, including lists of specific U.S. Forest Service Federal land acquisition projects and Forest Legacy Program projects. Additional tables provide details for the reallocation of unobligated balances appropriated in previous years to projects that have been completed, deferred, or terminated and are being transferred to currently viable projects.

Because the fiscal year 2026 budget request did not contain allocations for additional federal land acquisition projects, or detailed information about specific projects for the Department of the Interior, the bill contains language requiring the Department of the Interior to provide a list of individual projects, in the same format and level of detail as prior years, totaling the alternate allocation provided in the table at the end of this explanatory statement for “Federal Land Acquisition Projects” for each federal land management agency, and requires this list to be subject to reprogramming guidelines.

The bill does not include the proposal in the budget request to amend Section 200306 of title 54 to authorize funding for deferred maintenance projects.

The bill includes language requiring the Department of the Interior and U.S. Forest Service to notify the Committee prior to expending LWCF funding on a project within the federal land unit or boundary funded in this, or any prior, allocation table that is different than what is described in the associated project data sheet for the project listed in this, or any prior, allocation table.

The agencies are expected to continue to follow the directions included in the explanatory statement accompanying the Consolidated Appropriations Act, 2021 (Public Law 116-260) under General Implementation. The Committees continue to monitor the Department of the Interior and the Forest Service’s progress to ameliorate concerns with the appraisal process and expect regular updates on these efforts.

The Committees note that the U.S. Forest Service and the Department of the Interior have finalized and provided project lists for the expenditure of fiscal year 2025 LWCF federal land acquisition funding. The Committees expect the agencies to execute these projects and direct the agencies to provide quarterly updates on the status of completing these projects. The table titled “Allocation of Funds: Land and Water Conservation Fund Fiscal Year 2025 Revisions” provides an allocation of fiscal year 2025 LWCF federal land acquisition funding that the Department of the Interior project list identified as unallocated.

The Committees support the Forest Service’s request to use a portion of unobligated balances to complete the project listed in the table titled “Allocation of Funds: Land and Water Conservation Fund Fiscal Year 2021 Revisions” accompanying this explanatory statement.

REPROGRAMMING GUIDELINES

The following are the procedures governing reprogramming actions for programs and activities funded in the Department of the Interior, Environment, and Related Agencies Appropriations Act. The agencies funded in this Act are reminded that these reprogramming guidelines are in effect, and must be complied with, until such time as the Committees modify them through bill or report language.

Definitions.—“Reprogramming,” as defined in these procedures, includes the reallocation of funds from one budget activity, budget line-item, or program area to another within any appropriation funded in this Act. In cases where either the House or Senate Committee on Appropriations report displays an allocation of an appropriation below that level, the more detailed level shall be the basis for reprogramming.

For construction, land acquisition and forest legacy accounts, a reprogramming constitutes the reallocation of funds, including unobligated balances, from one construction, land acquisition, or forest legacy project to another such project. For this fiscal year, a reprogramming also includes the list of Fed-

eral land acquisition projects required to be submitted to the House and Senate Committees on Appropriations pursuant to Section 428(a)(2) of this Act.

A reprogramming shall also consist of any significant departure from the program described in the agency’s budget justifications. This includes all proposed reorganizations or other workforce actions detailed below which affect a total of 10 staff members or 10 percent of the staffing of an affected program or office, whichever is less, even without a change in funding. Any change to the organization table presented in the budget justification shall also be subject to this requirement.

Agencies are reminded that this agreement continues longstanding General Guidelines for Reprogramming that require agencies funded by this Act to submit reorganization proposals for the Committees’ review prior to their implementation. It is noted that such reprogramming guidelines apply to proposed reorganizations, workforce restructuring, reshaping, transfer of functions, or bureau-wide downsizing and include closures, consolidations, and relocations of offices, facilities, and laboratories. In addition, no agency shall implement any part of a reorganization that modifies regional or State boundaries for agencies or bureaus that were in effect as of the date of enactment of this Act unless approved consistent with the General Guidelines for Reprogramming procedures specified herein. Any such reprogramming request submitted to the Committees on Appropriations shall include a description of anticipated benefits, including anticipated efficiencies and cost-savings, as well as a description of anticipated personnel impacts and funding changes anticipated to implement the proposal.

General Guidelines for Reprogramming.—

(a) A reprogramming should be made only when an unforeseen situation arises, and then only if postponement of the project or the activity until the next appropriation year would result in actual loss or damage.

(b) Any project or activity, which may be deferred through reprogramming, shall not later be accomplished by means of further reprogramming, but instead, funds should again be sought for the deferred project or activity through the regular appropriations process.

(c) Except under the most urgent situations, reprogramming should not be employed to initiate new programs or increase allocations specifically denied or limited by Congress, or to decrease allocations specifically increased by the Congress.

(d) Reprogramming proposals submitted to the House and Senate Committees on Appropriations for approval will be considered as expeditiously as possible, and the Committees remind the agencies that in order to process reprogramming requests, adequate and timely information must be provided.

Criteria and Exceptions.—A reprogramming must be submitted to the Committees in writing prior to implementation if it exceeds \$1,000,000 annually or results in an increase or decrease of more than 10 percent annually in affected programs or projects, whichever amount is less, with the following exceptions:

(a) With regard to the Tribal priority allocations of the Bureau of Indian Affairs (BIA) and Bureau of Indian Education (BIE), there is no restriction on reprogrammings among these programs. However, the Bureaus shall report on all reprogrammings made during a given fiscal year no later than 60 days after the end of the fiscal year.

(b) With regard to the EPA, the Committees do not require reprogramming requests associated with the States and Tribes Partnership Grants or up to a cumulative total of

\$5,000,000 from carryover balances among the individual program areas delineated in the Environmental Programs and Management account, with no more than \$1,000,000 coming from any individual program area. No funds, however, shall be reallocated from individual Geographic Programs.

(c) With regard to the National Park Service, the Committees do not require reprogramming requests associated with the park base within the Park Management activity in the Operation of the National Park System Account. The Service is required to brief the House and Senate Committees on Appropriations on spending trends for the park base within 60 days of enactment of this Act.

Assessments.—“Assessment” as defined in these procedures shall refer to any charges, reserves, or holdbacks applied to a budget activity or budget line item for costs associated with general agency administrative costs, overhead costs, working capital expenses, or contingencies.

(a) No assessment shall be levied against any program, budget activity, subactivity, budget line item, or project funded by the Interior, Environment, and Related Agencies Appropriations Act unless such assessment and the basis therefor are presented to the Committees in the budget justifications and are subsequently approved by the Committees. The explanation for any assessment in the budget justification shall show the amount of the assessment, the activities assessed, and the purpose of the funds.

(b) Proposed changes to estimated assessments, as such estimates were presented in annual budget justifications, shall be submitted through the reprogramming process and shall be subject to the same dollar and reporting criteria as any other reprogramming.

(c) Each agency or bureau which utilizes assessments shall submit an annual report to the Committees, which provides details on the use of all funds assessed from any other budget activity, line item, subactivity, or project.

(d) In no case shall contingency funds or assessments be used to finance projects and activities disapproved or limited by Congress or to finance programs or activities that could be foreseen and included in the normal budget review process.

(e) New programs requested in the budget should not be initiated before enactment of the bill without notification to, and the approval of, the Committees. This restriction applies to all such actions regardless of whether a formal reprogramming of funds is required to begin the program.

Quarterly Reports.—All reprogrammings between budget activities, budget line-items, program areas, or the more detailed activity levels shown in this agreement, including those below the monetary thresholds established above, shall be reported to the Committees within 60 days of the end of each quarter and shall include cumulative totals for each budget activity or budget line item, or construction, land acquisition, or forest legacy project.

Land Acquisitions, Easements, and Forest Legacy.—Lands shall not be acquired for more than the approved appraised value, as addressed in section 301(3) of Public Law 91-646, unless such acquisitions are submitted to the Committees on Appropriations for approval in compliance with these procedures.

Land Exchanges.—Land exchanges, wherein the estimated value of the Federal lands to be exchanged is greater than \$1,000,000, shall not be consummated until the Committees have had 30 days in which to examine the proposed exchange. In addition, the Committees shall be provided advance notification of exchanges valued between \$500,000 and \$1,000,000.

Budget Structure.—The budget activity or line item structure for any agency appropriation account shall not be altered without advance approval of the Committees.

TITLE I—DEPARTMENT OF THE
INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

The bill provides \$1,260,166,000 for the Management of Lands and Resources appropriation. The Bureau is expected to comply with the instructions and requirements at the beginning of this division and in House Report 119-215 and Senate Report 119-46 unless otherwise specified below.

Land Resources.—The Bureau must prioritize the analysis, review, processing, and approval of grazing permits, as well as the administration of grazing permit renewals.

Wild Horse and Burro Management.—The agreement provides \$144,000,000 for wild horse and burro activities, including up to \$11,000,000 for immunocontraceptive vaccine strategies. The bill provides an overall increase of more than \$2,000,000 for wild horse and burro activities and the Committees expect a commensurate increase in immunocontraceptive vaccine investments. The Bureau is directed to follow the directives included in House Report 119-215 and Senate Report 119-46.

Land Management Priorities.—The bill provides \$3,246,000 for congressionally directed spending in this program. A detailed list of projects is included in the table titled “Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items” accompanying this explanatory statement.

Wildlife and Aquatic Habitat Management.—Within the funding provided for Aquatic Habitat Management, the agreement includes \$2,500,000 for the Colorado River Basin Salinity Control program. Additionally, within the amount provided for Wildlife Habitat Management, the agreement includes \$34,000,000 for Threatened and Endangered Species.

Energy and Minerals.—The Committees direct the Bureau to hire and train dedicated personnel for all activities included under the Energy and Minerals Program to ensure the timely review of all energy projects on Federal lands. The Bureau is directed to provide status reports every 60 days on the execution of funds to fulfill the timely review of all energy projects.

Legacy Wells.—The bill provides no less than \$14,000,000 for legacy well remediation to continue progress toward cleanup of the next cluster of legacy wells in need of remediation.

Realty and Ownership Management.—The agreement includes an increase of \$1,008,000 for the Alaska Native Vietnam-era Veterans Allotment Program within the amount for Alaska Conveyance and an increase of \$1,500,000 within the amount for Cadastral, Lands, and Realty Management for the 17(b) program. Within the amounts provided, up to \$500,000 is for the Appraisal and Valuation Services Office for the North Anchorage Land Agreement.

Resource Protection and Maintenance.—The agreement provides \$60,000,000 for Resource Management Planning which includes \$11,000,000 for sage-grouse. It also provides an increase of \$500,000 for Resource Protection and Law Enforcement.

National Conservation Lands.—The agreement provides \$59,135,000, which includes \$11,248,000 for the National Scenic and Historic Trails program.

Aquifer Recharge.—The Committees continue to direct the Bureau to work with the State of Idaho to provide appropriate access

to Federal lands for the purposes of recharge projects and look forward to the required briefing.

Grand Staircase-Escalante National Monument.—The Committees direct the Bureau to provide notification of any review of rule-making made under the prior Administration related to the Resource Management Plan for the Grand Staircase-Escalante National Monument in Utah, and of any alternative resource management plans being considered.

Red River Land Survey.—The Bureau is reminded to follow the directives in House Report 119-215.

PROGRAM FUNDING FOR MANAGEMENT OF LANDS AND
RESOURCES

(In thousands of dollars)

Program	Funding Amount
Wildlife Habitat Management, Sage Grouse Habitat	\$73,000
Wildlife Habitat Management, Plant Conservation and Restoration	20,600
Wildlife Habitat Management, Conservation Status Ranking in the Pacific Northwest	500

OREGON AND CALIFORNIA GRANT LANDS

The bill provides \$115,521,000 for the Oregon and California Grant Lands appropriation. Specific allocations at the activity level are contained in the table accompanying this explanatory statement.

RANGE IMPROVEMENTS

The bill provides \$10,000,000 to be derived from public lands receipts and Bankhead-Jones Farm Tenant Act lands grazing receipts.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

The bill provides an indefinite appropriation estimated to be \$30,000,000 for Service Charges, Deposits, and Forfeitures.

MISCELLANEOUS TRUST FUNDS

The bill provides an indefinite appropriation estimated to be \$26,000,000 for Miscellaneous Trust Funds.

UNITED STATES FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$1,451,515,000 for Resource Management. The Service is expected to comply with the instructions and requirements at the beginning of this division and in House Report 119-215 and Senate Report 119-46 unless otherwise specified below. All programs and activities are funded at the amounts enacted in fiscal year 2024 unless otherwise specified below or in the table accompanying this explanatory statement, and account levels are achieved through adjustments in General Program Activities.

Conservation and Restoration.—The agreement provides \$36,822,000 for conservation and restoration activities, which includes \$5,462,000 for Environmental Response and Restoration.

Recovery.—The agreement provides \$110,223,000 for activities in support of the recovery and delisting of threatened and endangered species and includes an increase of \$1,000,000 above the fiscal year 2024 enacted level for Recovery Challenge grants.

National Wildlife Refuge System.—The agreement provides \$522,035,000 for the National Wildlife Refuge System. The Service is reminded to follow the direction in Senate Report 119-46 on refuge operations.

Wildlife and Habitat Management.—The agreement provides funding for Marine National Monuments, including \$1,500,000 to be used consistent with the direction in House Report 119-215 for the Northeast Canyons and Seamounts Marine National Monument.

Visitor Services.—The agreement includes \$74,500,000, which includes funding for the

Urban Wildlife Conservation Program and \$2,500,000 for Youth and Careers in Nature.

Refuge Law Enforcement.—The agreement includes \$46,500,000, an increase of \$1,000,000 above the fiscal year 2024 enacted level so the Service can begin to address needs of States with no officers stationed within their boundaries and hire additional officers.

Refuge Maintenance.—The agreement provides \$144,000,000 for refuge maintenance to be allocated by the Service in accordance with need.

Conservation and Enforcement.—The agreement provides \$171,808,000 for other conservation and enforcement programs as described below.

Migratory Bird Arrangement.—The agreement provides \$51,356,000 which includes \$28,694,000 for Conservation and Monitoring; \$5,000,000 for Permits; and \$591,000 for the Federal Duck Stamp program.

Law Enforcement.—The agreement maintains \$91,859,000 for law enforcement activities, including \$8,500,000 for Wildlife Trafficking; and \$910,000 for equipment replacement.

International Affairs.—The agreement maintains \$28,593,000 for International Affairs, which includes \$9,900,000 for International Conservation; \$2,500,000 for Wildlife Trafficking; and \$18,693,000 for International Wildlife Trade, which includes \$8,700,000 for permit modernization and \$793,000 for Wildlife Trafficking.

Fish and Aquatic Conservation.—The agreement provides \$225,775,000 for fish and aquatic conservation programs.

National Fish Hatchery System Operations.—The agreement provides \$79,005,000, which includes funding for Lower Snake River and Columbia River Basin ecosystem restoration infrastructure improvement activities as directed in Senate Report 119-46.

Maintenance and Equipment.—The agreement provides \$24,550,000 for maintenance and equipment to be allocated by the Service in accordance with need.

Habitat Assessment and Restoration.—The agreement provides \$46,114,000, which includes \$11,750,000 to implement the Delaware River Basin Conservation Act.

Population Assessment and Cooperative Management.—The agreement provides \$24,963,000 and maintains all activities except direction on invasive species eradication at the fiscal year 2024 enacted level, with corresponding reductions to General Program Activities.

Aquatic Invasive Species.—The agreement includes \$51,143,000 for aquatic invasive species programs, which includes funding for the implementation of the Invasive Species in Alpine Lakes Pilot program consistent with the direction in House Report 119-215.

Science Support.—The agreement provides \$30,781,000 for Science Support which includes \$21,931,000 for Science Partnerships and \$8,850,000 for Service Science. It provides \$1,931,000 for Gulf Coast ecosystem restoration; and \$3,500,000 for white-nose syndrome.

Stewardship Priorities.—The bill provides \$19,115,000 in congressionally directed spending for stewardship projects to further conservation goals. A detailed list of projects is included in the table titled “Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items” accompanying this explanatory statement.

American Bison.—In lieu of the direction in House Report 119-215, the Committees remind the Service to consult with the impacted States and Tribal governments on any actions regarding the introduction or listing of bison.

The Committees understand that the U.S. Fish and Wildlife Service does not intend to reintroduce the American Bison on the Chales M. Russell National Wildlife Refuge

and request that it evaluate the potential challenges associated with the reintroduction prior to any decision.

Big Cats Public Safety Act Enforcement.—The Committees expect the Big Cats Public Safety Act report within 120 days of enactment of this Act.

Endangered and Threatened Wildlife.—The Committees encourage the U.S. Fish and Wildlife Service to review prior actions, rulings, and regulations related to endangered and threatened wildlife and plants, including the Northern Distinct Population Segment and Southern Distinct Population Segment of the Lesser Prairie-Chicken, Northern Long-Eared Bat, Texas Freshwater Mussels, and the North American Wolverine.

Fish Legally Held in Captivity.—The Committees direct the U.S. Fish and Wildlife Service to provide a report within 180 days of enactment of this Act on any proposed or final rules, guidance, or enforcement under the Endangered Species Act that apply to fish legally held in captivity or controlled environments, including the impacts of such actions on domestic aquaculture operations and wild populations of the same species.

PROGRAM FUNDING FOR RESOURCE MANAGEMENT

(In thousands of dollars)

Program	Funding Amount
Planning and Consultation, Pesticide Consultations	\$2,500
Conservation and Restoration, Sagebrush Steppe Ecosystem	3,250

(In thousands of dollars)

Program	Funding Amount
Aquatic Invasive Species, State Aquatic Nuisance Species Management Plans	2,834
Law Enforcement Operations, Indian Arts and Crafts Act Law Enforcement	3,500

CONSTRUCTION

The bill provides \$14,709,000 for Construction. The agreement continues to support the Service's objective priority-setting process and expects the Service to follow the priority list. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement.

Line-Item Construction Projects.—The bill provides \$1,000,000 in congressionally directed spending for Line-Item Construction Projects. Further detail on this project is provided in the table titled "Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items" accompanying this explanatory statement.

COOPERATIVE ENDANGERED SPECIES CONSERVATION FUND

The bill provides \$22,202,000 in discretionary funding from the Cooperative Endangered Species Conservation Fund for conservation grants, habitat conservation planning grants, and program administration. In addition, the bill allocates \$40,162,000 in mandatory funding from the Land and Water Conservation Fund for species recovery and habitat conservation plan land acquisitions. Detailed tables of funding allocations below the account level are provided in the table accompanying this explanatory statement.

NATIONAL WILDLIFE REFUGE FUND

The bill provides \$13,228,000 for payments to counties from the National Wildlife Refuge Fund.

NORTH AMERICAN WETLANDS CONSERVATION FUND

The bill provides \$49,000,000 for the North American Wetlands Conservation Fund.

NEOTROPICAL MIGRATORY BIRD CONSERVATION FUND

The bill provides \$5,000,000 for the Neotropical Migratory Bird Conservation Fund.

MULTINATIONAL SPECIES CONSERVATION FUND

The bill provides \$21,000,000 for the Multinational Species Conservation Fund. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement.

STATE AND TRIBAL WILDLIFE GRANTS

The bill provides \$73,812,000 for State and Tribal Wildlife Grants. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

The bill provides \$2,877,195,000 for Operation of the National Park System (ONPS). For this and all other Service accounts funded in this bill, the Service is expected to comply with the instructions and requirements at the beginning of this division, in House Report 119-215, and in Senate Report 119-46, unless otherwise specified below. Additional details, instructions, and requirements follow below and in the table at the end of this division.

The Service is expected to execute its spending at the levels provided. The Service may not redistribute the allocations in a fiscal year 2026 operating plan. The Service is directed to continue to collaborate with the

Committees with the goal of developing an updated methodology to improve the budgeting process.

Additional funding guidance is provided below.

Resource Stewardship.—The bill provides \$398,820,000 for Resource Stewardship, including increased funding for the Partnership Wild & Scenic Rivers program and \$18,856,000 for the National Trails System. The Committees continue the directive provided in the Joint Explanatory Statement accompanying Public Law 117-328 regarding the distribution of funds for the National Networks.

Visitor Services.—The bill provides \$277,635,000 for Visitor Services, including not less than the fiscal year 2024 enacted level for the Indian Youth Service Corps.

Facility Operations and Maintenance.—The agreement recommends \$157,950,000 for cyclic maintenance, and \$148,285,000 for repair and rehabilitation projects.

The agreement shifts the funding requested for Line-Item Construction into repair and rehabilitation projects for fiscal year 2026.

Park Support.—The agreement provides \$652,217,000, with the increase above the fiscal year 2024 level to support limited operations at park units that otherwise do not have base funding.

Additionally, the agreement provides \$12,500,000 for the National Park Foundation.

External Administrative Costs.—The agreement reflects the Service's plan to decentralize costs except for those programs and operations funded by discretionary amounts in this agreement.

Additional Guidance.—The following additional guidance is included:

Big Cypress National Preserve.—The Committees direct the National Park Service to prioritize upholding trust and treaty responsibilities with Tribal nations, particularly with regards to ensuring access to Tribal lands and ceremonial and burial grounds within the Big Cypress National Preserve.

Caneel Bay.—In lieu of the heading "Caneel Bay Property" in House Report 119-215, the agreement provides the following direction: The Committees understand the interest in ensuring the long-term viability and economic growth of the Service's redevelopment plans for Caneel Bay. The Committees are aware of concerns about the Service's RFP and encourage the Service to consider these concerns when making decisions regarding the future of the site. The Committees further direct the Service to provide updates to the Committees regarding how the Service is addressing these concerns and any decisions on this project.

Maintaining National Parks as Federal Lands.—The funding levels for the National Park Service in this agreement continue federal operations and management of park units consistent with prior years and laws applicable to units of the National Park Service. As a result, the agreement does not support the funding levels in the budget request related to proposals for units other than those designated as National Parks. Therefore, the Department shall maintain ownership of Federal lands designated as, or as a part of, a national park unit, a national scenic or national historic trail, or a wild and scenic river and continue to operate such unit, trail, or river as an entity of the National Park Service.

NPS Staffing.—In lieu of the directive under the heading "NPS Staffing" in Senate Report 119-46, the Committees provide only the following direction: Within 60 days of enactment of this Act, and every 60 days thereafter, the Department and the Service are directed to brief the Committees on park operations, to include staffing levels by park and visitor data by park.

Request for Updates.—In lieu of the paragraph titled “National Mall and Memorial Parks” in House Report 119-215 and the last paragraph under National Recreation and Preservation in Senate Report 119-46, the Committees include only the following. The Committees are aware of plans to construct new exhibits at the Thomas Jefferson Memorial and actions related to Executive Orders 13934, 13978, and 14189, and direct the Service to keep the Committees apprised of actions on these items.

Roosevelt-Campobello International Park Commission.—Funding for the Roosevelt Campobello International Park is provided at \$1,956,355. The Service is directed to continue to follow the direction contained in the statement of managers accompanying the Consolidated Appropriation Act, 2016 (Public Law 114-113) concerning the submission of future budget requests for the Roosevelt-Campobello International Park.

PROGRAM FUNDING FOR OPERATION OF THE NATIONAL PARK SYSTEM

(In thousands of dollars)	
Program	Funding Amount
Resource Stewardship, Natural Resource Stewardship, Active Forest Management	\$2,000
Resource Stewardship, Natural Resource Stewardship, Quagga and Zebra Mussels	6,500
Resource Stewardship, Natural Resource Stewardship, Cave and Karst Ecosystem Research	800
Resource Stewardship, Natural Resource Stewardship, Alaska Subsistence	400
Resource Stewardship, Natural Resource Stewardship, Partnership Wild & Scenic Rivers	5,648
Visitor Services, Interpretation and Education, National Capital Performing Arts	2,227
Visitor Services, Interpretation and Education, Recreational Access Program—Fishing and Camping	2,400

Visitor Services, Interpretation and Education, Interpretation and Education Programs	3,848
Visitor Services, Interpretation and Education, Youth Partnership Programs	14,655
Park Protection, Law Enforcement and Protection, Veterans’ Fire Corps	950

NATIONAL RECREATION AND PRESERVATION

The bill provides \$91,596,000 for national recreation and preservation. The amounts recommended by the Committees compared with the budget estimates by activity are shown in the table at the end of this explanatory statement.

The bill provides \$3,597,000 for grants administration and other cultural programs are funded at the fiscal year 2024 enacted level.

Cultural Programs.—The Committees recognize the importance of supporting Native culture and arts development, which contributes to maintaining the cultural diversity of the Nation and the cultural survival of the regional indigenous populations. Funding is provided for grants to nonprofit organizations or institutions for the purpose of supporting programs for Native Hawaiian or Alaska Native culture and arts development at a total program level of \$2,750,000.

Heritage Partnership Programs.—The bill provides \$30,985,000 for Heritage Partnership Programs. The Committees provide sufficient funding for each heritage area to receive no less than the amount provided in fiscal year 2024. The directive contained in the explanatory statement that accompanied Public Law 116-6 with regards to funding distribution is continued, and the agreement provides an increase for Tier 1 areas to receive the minimum funding level associated with the abovementioned funding distribution direction. Additionally, the Committees provide sufficient funding for the Blackstone River Valley National Heritage Corridor to receive funding within the program at its most recent funding level under the program.

PROGRAM FUNDING FOR NATIONAL RECREATION AND PRESERVATION

(In thousands of dollars)

Ohio and Erie Canal National Heritage Area	640,000
Rivers of Steel National Heritage Area	664,000
Silos & Smokestacks National Heritage Area (America’s Agricultural Heritage Partnership)	710,000
South Carolina National Heritage Corridor	663,000
The Last Green Valley National Heritage Corridor (Quinebaug & Shetucket Rivers Valley)	666,000
Wheeling National Heritage Area	596,000

HISTORIC PRESERVATION FUND

The bill provides \$205,059,000 for historic preservation.

Competitive Grants.—The bill provides \$24,000,000 for the African American Civil

Rights Grants, equal to the enacted level. Additionally, \$5,000,000 is provided for the History of Equal Rights grants and \$1,250,000 for grants to underrepresented communities.

Paul Bruhn Historic Revitalization Grants.—The bill provides \$7,906,000 for historic revitalization grants and retains the directives regarding the distribution of funding included in Senate Report 116-123.

Save America’s Treasures.—The bill provides \$25,500,000 for the Save America’s Treasures program. The Committees support this program because of its important role in providing preservation and conservation assistance to nationally significant historical properties and collections, including historic courthouses.

Semiquincentennial Preservation Grants.—The bill provides \$4,907,000 for the Service to assist states in preparing for the upcoming Semiquincentennial celebration and to celebrate the Nation’s history. The Committees retain the directives regarding the distribution of funding included in Senate Report 118-83.

CONSTRUCTION

The bill provides \$88,461,000 for construction.

Line-Item Construction.—As has occurred for several decades, the Committees have consistently provided Line-Item Construction funding in conjunction with further direction on the specific projects funded, which are based on requests and information provided by the Service. At the time of this writing, the Committees have not received a list of requested line-item construction projects for fiscal year 2026. Therefore, the requested funding for Line-Item Construction in fiscal year 2026 has been shifted in the bill to repair and rehabilitation projects within the Operation of the National Park System. The Committees look forward to continuing to support providing funding to the Service for Line-Item Construction projects.

Emergency and Unscheduled Projects.—The bill provides a total of \$3,848,000 in funding for emergency and unscheduled projects within base funding, equal to the enacted level. These funds support the Service in responding after facilities and resources are damaged or destroyed in emergencies.

Hurricane Ridge Day Lodge.—The Committees recognize the immense historical and recreational loss of the Hurricane Ridge Day Lodge due to a fire in 2023. The lodge welcomed 300,000 visitors every year and provided important facilities for Olympic National Park staff. The Committees note that emergency funding has been provided to rebuild the lodge, including temporary facilities to maintain visitor and staff safety during construction due to harsh conditions at the site and high volume of visitors. The Service’s prior estimate for the project was approximately \$80,000,000. The Committees urge the Service to prioritize reconstruction of this center and directs the Service to engage with impacted communities on the Olympic Peninsula, provide robust outreach to those communities, and continue keeping the Committees informed of construction timelines.

CENTENNIAL CHALLENGE

The bill provides \$5,000,000 for the Centennial Challenge matching grant program.

UNITED STATES GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$1,420,433,000 for Surveys, Investigations, and Research of the U.S. Geological Survey (USGS, or the Survey). The Survey is expected to comply with the instructions and requirements at the beginning of this division and in House Report 119-

215 and Senate Report 119-46 unless otherwise specified below. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein. A detailed allocation of funding is included in the table accompanying this explanatory statement.

Species Management Research Program.—The agreement provides \$60,348,000 and maintains funding at the fiscal year 2024 enacted level for the U.S. National Phenology Network. The agreement restates the direction for interstate and/or international fishery commissions and directs a briefing within 90 days of enactment of this Act.

Land Management Research Program.—The agreement provides \$50,000,000 and continues activities in the Chesapeake Bay and all priority geographic landscapes and ecosystems, including the Everglades and the Arctic, at the fiscal year 2024 enacted level.

Biological Threats and Invasive Species Research Program.—The agreement provides \$45,500,000, including funding for research on Coral Disease and phytoplankton changes in the Great Lakes at the fiscal year 2024 enacted level. The Committees maintain \$11,000,000 for invasive carp research.

Climate Adaptation Science Centers and Land Change Science Program.—The agreement provides \$81,780,000, of which \$17,665,000 is for Land Change Science. The Committees direct the Survey to prioritize funding to the Regional Centers and expedite processing of funds to university-led consortia.

Cooperative Research Units Program.—The agreement includes \$28,206,000 for Cooperative Research Units (CRUs) and does not include the direction in House Report 119-215 and Senate Report 119-46.

Energy and Mineral Resources.—The agreement provides \$104,664,000 for Energy and Mineral Resources, of which \$68,729,000 is for Mineral Resources which includes \$1,500,000 to support programs through state university partnerships. The agreement maintains funding at the fiscal year 2024 enacted level for the critical minerals Earth Mapping Resources Initiative (Earth MRI) and critical mineral mapping efforts in Alaska. Energy Resources is funded at \$35,935,000.

Natural Hazards.—The agreement provides \$200,131,000 for the Natural Hazards Program, including \$94,901,000 for earthquake hazards. Within this funding, \$34,850,000 is provided for continued development and expansion of the ShakeAlert West Coast earthquake early warning (EEW) system, including to develop a Technical Implementation Plan to determine the buildout required for ShakeAlert capabilities in other key western states, including Nevada. The agreement also includes no less than \$2,000,000 to be used to begin expansion of the ShakeAlert EEW system to Alaska, in accordance with the direction in Senate Report 119-46.

The agreement continues funding at the fiscal year 2024 enacted level for the national seismic hazard map and for regional seismic networks, including operating and maintaining USArray stations.

The agreement provides \$37,500,000 for volcano hazards, including funding for the National Volcano Early Warning and Monitoring System (NVEWS) and Volcanic Hazard Assessments at the fiscal year 2024 enacted level.

The agreement includes \$14,532,000 for Landslide Hazards, which includes funding at the fiscal year 2024 enacted level for the Cooperative Landslide Hazards and Assessment Competitive Grant Program. The agreement increases Actionable Landslide Hazard Data and Science funding by \$250,000 above the fiscal year 2024 enacted level, and provides funding for Landslide Hazard Assessments in Alaska, as outlined in the Senate Report 119-46.

The agreement provides \$5,198,000 for Geomagnetism, including no less than the fiscal year 2024 enacted level for the magnetotelluric survey to advance the collection of magnetotelluric observations of the Earth's naturally occurring electric and magnetic fields in the U.S. regions.

Water Resources.—The agreement provides \$288,772,000 for Water Resources and maintains \$66,529,000 for activities associated with the Cooperative Matching Funds. Water Availability and Use Science is funded at \$67,296,000 and includes Open ET at the fiscal year 2024 enacted level. The Committees encourage the Survey to dedicate resources to enhance cooperation with western state water resource agencies, consistent with the direction in Senate Report 119-46.

USGS is directed to continue its efforts to establish the Hydrologic Science Talent Pipeline and maintain the fiscal year 2024 enacted funding level within the Water Availability and Use Science Program and the National Groundwater and Streamflow Information Program.

The agreement provides funding within the Water Availability and Use Science Program for the training and development program outlined in House Report 119-215.

Groundwater and Streamflow Information is funded at \$110,976,000, which includes \$31,000,000 for Federal Priority Streamgages and \$30,000,000 for Next Generation Water Observing Systems. The agreement maintains funding for Ohio River Supergages and Streamgages for Transboundary Rivers, including the Unuk River gage and Kootenai watershed and the Committees encourage the Survey to continue to expand its streamgage monitoring of transboundary watersheds, consistent with the direction in Senate Report 119-46.

Special Initiatives.—The agreement provides an additional amount of \$2,250,000 in congressionally directed spending for Special Initiatives projects. Further detail on these projects is located in the table titled "Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items" accompanying this explanatory statement.

Core Science Systems.—The agreement provides \$276,127,000.

The National Land Imaging program is funded at \$116,206,000 which includes \$95,334,000 for Satellite Operations and \$2,600,000 for the Remote Sensing State Grants program. The Committees reiterate the direction in Senate Report 119-46.

The National Geospatial program is funded at \$91,421,000, including \$43,905,000 for the 3D Elevation Program (3DEP), which maintains funding for the National Digital Trails project at the fiscal year 2024 enacted level. The agreement includes \$1,000,000 for the 3D Hydrography Program (3DHP).

Science Support.—The agreement provides \$73,683,000, which includes \$56,708,000 for Administration and Management and \$16,975,000 is for Information Services.

PROGRAM FUNDING FOR SURVEYS, INVESTIGATIONS, AND RESEARCH

(In thousands of dollars)

Program	Funding Amount
Ecosystems, Contaminant Biology, PFAS Research in the Ceded Territories of the Great Lakes	\$500
Ecosystems, Toxic Substances Hydrology, Harmful Algal Blooms	4,750
Ecosystems, Species Management Research Program, Hawaiian Forest Birds	1,250
Ecosystems, Land Management Research Program, Chesapeake Bay Ecosystems Science	8,000
Ecosystems, Biological Threats and Invasive Species, Grass Carp	3,000
Ecosystems, Biological Threats and Invasive Species, European Green Crab	800
Ecosystems, Biological Threats and Invasive Species, Chronic Wasting Disease	5,970

PROGRAM FUNDING FOR SURVEYS, INVESTIGATIONS, AND RESEARCH—Continued

(In thousands of dollars)

Program	Funding Amount
Ecosystems, Biological Threats and Invasive Species, Hawaiian Birds	650
Ecosystems, Climate Adaption Science Centers	64,115
Ecosystems, Great Lakes Science Center	15,000
Energy and Mineral Resources, Energy Resources Program, State Geothermal Resource Assessments	7,500
Energy and Mineral Resources, Energy Resources Program, AK and HI Geothermal Resource Data Collection and Modelling	2,500
Natural Hazards, Earthquake Hazards, Subduction Zone Science	3,450
Natural Hazards, Earthquake Hazards, ShakeAlert Earthquake Early Warning	34,850
Natural Hazards, Landslide Hazards, Deployment, Operation, and Maintenance of Detection and Monitoring Systems in High-Risk Areas	1,250
Natural Hazards, Landslide Hazards, Collaborating with AK Local and Regional Entities	1,500
Natural Hazards, Coastal/Marine Hazards Deep Sea Critical Mineral Mapping and Characterization in Pacific OCS Areas	1,175
Water Resources, Water Availability and Use Science Program, Mississippi Alluvial Plain Integrated Water Availability Assessment	2,000
Water Resources, Water Availability and Use Science Program, Saline Lakes	1,750

Water Resources, Groundwater and Streamflow Information Program, Streamgage on the Unuk River	120
Water Resources, Groundwater and Streamflow Information Program, Ohio River Supergages	500
Water Resources, Groundwater and Streamflow Information Program, Klamath Basin Water Availability Activities	2,750
Water Resources, National Water Quality Program, Harmful Algal Blooms	7,490
Water Resources, Water Resources Research Act Program, 104(b) Grants	12,500
Water Resources, Water Resources Research Act Program, PFAS Research	3,000
Core Science Systems, National Geospatial Program, 3 DEP Western States	6,000
Core Science Systems, Alaska Mapping and Map Modernization	10,000

BUREAU OF OCEAN ENERGY MANAGEMENT

OCEAN ENERGY MANAGEMENT

The bill provides \$191,128,000 for the Ocean Energy Management appropriation, which is partially offset through the collection of rental receipts and cost recovery fees totaling \$58,000,000, resulting in a net appropriation of \$133,128,000. Specific allocations at the activity level are contained in the table accompanying this explanatory statement.

In lieu of the direction in House Report 119-215 and Senate Report 119-46 under the first and second paragraphs, respectively, the Committees provide only the following direction: The Committees direct the Bureau to provide status reports every 60 days on the execution of funds to fulfill its legally required responsibilities for all offshore energy activities.

Additionally, the Committees note that any briefing requirements should include the House and Senate Committees on Appropriations, in addition to others listed.

Marine Minerals.—When carrying out the directive in Senate Report 119-46 under the heading "Marine Minerals", the Committees direct that before lease sales take place, the Bureau will complete all statutorily required work and will consult with local communities.

BUREAU OF SAFETY AND ENVIRONMENTAL ENFORCEMENT

OFFSHORE SAFETY AND ENVIRONMENTAL ENFORCEMENT

The bill provides \$196,751,000 for the Offshore Safety and Environmental Enforcement appropriation. This amount is partially offset through the collection of rental receipts, cost recovery fees and inspection fees

totaling \$65,000,000, resulting in a net appropriation of \$131,751,000. Specific allocations at the activity level are contained in the table accompanying this explanatory statement.

OIL SPILL RESEARCH

The bill provides \$15,099,000 for Oil Spill Research.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

REGULATION AND TECHNOLOGY

The bill provides \$117,575,000 for the Regulation and Technology appropriation.

ABANDONED MINE RECLAMATION FUND

The bill provides \$166,975,000 for the Abandoned Mine Reclamation Fund appropriation. Of the funds provided, \$32,975,000 shall be derived from the Abandoned Mine Reclamation Fund and \$134,000,000 shall be derived from the General Fund.

Abandoned Mine Land Economic Revitalization (AMLER).—The bill provides a total of \$134,000,000 for direct payments to States and federally recognized Indian Tribes for the reclamation of abandoned mine lands in conjunction with economic and community development and reuse goals. For fiscal year 2026, \$88,500,000 shall be divided equally between the three Appalachian States with the largest unfunded needs for the reclamation of Priority 1 and Priority 2 sites as delineated in the AML Inventory System; \$33,750,000 shall be divided equally between the next three Appalachian States with the largest unfunded needs for the reclamation of Priority 1 and Priority 2 sites as delineated in the AML Inventory System; and \$11,750,000 shall be for direct payments to federally recognized Indian Tribes. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement.

Appalachian Regional Reforestation Initiative (ARRI).—The agreement provides no less than \$500,000 for ARRI to promote effective reforestation of mined lands.

INDIAN AFFAIRS

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$1,933,200,000 for Operation of Indian Programs. All programs and subactivities included are continued at the fiscal year 2024 enacted level unless otherwise specified below or reflected in the table accompanying this report.

The Committees reiterate the report directive in Senate Report 119-46 related to staffing and a service transition plan.

Tribal Government.—The agreement includes \$398,987,000 for Tribal Government, to include \$39,190,000 for Road Maintenance, of which \$1,100,000 is provided for school bus roads.

Human Services.—The agreement includes \$168,747,000 for Human Services, including \$56,454,000 for Social Services, of which \$3,500,000 is for Tribes that have not been able to receive BIA social services activities. Within the amount provided for Human Services, \$13,439,000 is provided for the Housing Improvement Program and \$16,903,000 for the Indian Child Welfare Act (ICWA), including to support ICWA's mandate and attorney assistance in Child in Need of Assistance (CINA) cases.

Trust-Natural Resources Management.—The agreement includes \$327,649,000 for Trust-Natural Resources Management, which includes \$13,985,000 for Natural Resources, including to support pilot projects and programs for Alaska subsistence and Indian Youth Service Corps. The agreement includes \$51,000,000 for Rights Protection Implementation, including to support off-res-

ervation hunting, fishing, and gathering rights supported by this program. Within the amount provided for Rights Protection Implementation, \$7,292,000 is included for the Pacific Salmon Treaty. The recommendation also includes funding to support the Columbia River Inter-Tribal Fish Commission Columbia River in-lieu sites law enforcement, in lieu sites operations and maintenance, fisheries management, and construction to support implementation of the Columbia River Basin Settlement Agreement, and Salmon and Steelhead Inventory. The agreement includes \$19,044,000 for the Tribal Management/Development Program, including \$2,023,000 for the Inter-Tribal Buffalo Council, \$427,000 for the Native American Fish and Wildlife Society, and \$1,000,000 for law enforcement.

The recommendation includes \$41,438,000 for Agriculture and Range, including \$14,291,000 for Invasive Species, of which \$2,000,000 is for European Green Crab and the Committees await the related briefing outlined in Senate Report 119-46.

The agreement includes \$62,887,000 for Forestry and restates the directive related to wildfire suppression and rehabilitation resources outlined in Senate Report 119-46.

The recommendation includes \$23,751,000 for Fish, Wildlife, and Parks, including the enacted level of funding to support fish hatcheries.

Trust-Real Estate Services.—The recommendation includes \$169,887,000 for Trust-Real Estate Services, including \$17,140,000 for Probate. The Committees remain concerned with the administrative burden and length of time it takes to probate Tribal citizens' assets. The Committees remind the Bureau of the reporting directive included in Senate Report 119-46.

Public Safety and Justice.—The recommendation includes \$570,059,000, an increase of \$14,500,000 above the fiscal year 2024 enacted level, including \$284,152,000 for Criminal Investigations and Police Services. Within the total provided to Criminal Investigations and Police Services, \$66,000,000 is provided to support activities as a result of the *McGirt v. Oklahoma* decision and \$1,296,000 is for the National School Resource Officer Program. Within available funds, the agreement provides support for an expanded Opioid Reduction Task Force, a Narcotics Reduction Task Force, as outlined in House Report 119-215.

The Committees reiterate their concern with reports of international criminal organizations targeting Tribal communities and emphasize the directives included in House Report 119-215 and Senate Report 119-46 related to combatting these illegal criminal organizations and how these organizations contribute to violent crime, drug trafficking, and the crisis of missing and murdered indigenous women. The Committees emphasize the directives included in House Report 119-215 and Senate Report 119-46 on Public Safety and Justice and International Drug Trafficking.

The recommendation includes \$27,094,000 for Law Enforcement Special Initiatives, including \$18,500,000 for the Missing and Murdered Indigenous Women Initiative, \$2,000,000 over the fiscal year 2024 enacted level. The Committees emphasize the work that has been done to address this crisis and direct the Bureau to work with Tribal and Federal law enforcement agencies to support this initiative, as directed in House Report 119-215 and Senate Report 119-46. The Bureau should also provide an update on law enforcement vacancies, the number of law enforcement background checks pending, and how it is expediting investigations as directed in Senate Report 119-46. The Committees applaud the work of the Missing and Murdered Unit's

commitment to addressing violence in Indian country through Operation Not Forgotten.

The recommendation includes \$5,663,000 for the Indian Police Academy, including a \$500,000 increase over the fiscal year 2024 enacted level for advanced training activities in the Great Plains.

The Committees reiterate concern for addressing the needs of Tribal governments for law enforcement and courts in Public Law 83-280 (P.L. 280) States, and that there are Tribes subject to P.L. 280 that are currently providing law enforcement services without any funding from BIA. The Committees remain supportive of comprehensive Tribal consultation with Tribes in P.L. 280 States to explore the available flexibilities that would enable these Tribes to utilize their existing and future resources more effectively for law enforcement purposes given the need to improve public safety within their communities.

The Committees emphasize the reporting directives for P.L. 280 and Criminal Investigation and Police Services in House Report 119-215 and Senate Report 119-46.

Community and Economic Development.—The recommendation includes \$32,746,000 for Community and Economic Development and maintains the fiscal year 2024 enacted level of funding to carry out activities related to the NATIVE Act and for Native businesses and entrepreneurs to develop and grow their businesses through the Indian Business Incubator Program. Within the funding provided, \$13,686,000 is provided for the Job Placement and Training Program, \$6,500,000 for Language Immersion Grants, as well as \$2,200,000 for a Native American Technology and Manufacturing Grant Pilot Program as outlined in House Report 119-215.

Executive Direction and Administrative Services.—The recommendation includes \$256,634,000. The Committees reiterate the directive related to the consideration of establishing an Indian Boarding School Commission.

Tiwahe.—The recommendation provides \$44,583,000 to continue funding existing Tiwahe program sites.

PROGRAM FUNDING FOR OPERATION OF INDIAN PROGRAMS

(In thousands of dollars)

Program	Funding Amount
Social Services, Tribes that have not received BIA Social Services	\$3,500
Agriculture and Range, Invasive Species—European Green Crab	2,000
Trust Services, Gila River Trust Accounting	500
Criminal Investigations, Native American Graves Protection and Repatriation Act (NAGPRA)	1,500

INDIAN LAND CONSOLIDATION

The bill provides \$4,000,000 for Indian Land Consolidation.

CONTRACT SUPPORT COSTS

The bill provides an indefinite appropriation for contract support costs, estimated to be \$350,000,000 in fiscal year 2026.

PAYMENTS FOR TRIBAL LEASES

The bill provides an indefinite appropriation for payments under section 105(1) of the Indian Self-Determination and Education Assistance Act, estimated to be \$53,000,000 in fiscal year 2026.

CONSTRUCTION

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$135,780,000 for Construction. The detailed allocation of funding is included in the table at the end of this explanatory statement. All programs and subactivities included are continued at the fiscal year 2024 enacted level unless otherwise specified below or reflected in the table accompanying this report.

Public Safety and Justice Construction.—The bill provides \$47,791,000 for all Public Safety and Justice Construction, an increase of \$2,000,000 over the fiscal year 2024 enacted level. The Committees emphasize the directives and guidance included in House Report 119-215 and Senate Report 119-46 regarding advanced training and look forward to receiving the requested report and justification.

The funding provided for Public Safety and Justice Construction includes at least the fiscal year 2024 enacted level for Facilities Replacement/Construction Projects, Employee Housing, Facilities Improvement and Repair, Fire Safety Coordination, and Fire Protection.

The Committees emphasize the directives included and plan requested in Senate Report 119-46 on the construction of adult detention centers that were previously awarded and direction on the distribution of unobligated funds.

Resources Management.—The recommendation includes \$65,694,000 for Resources Management, including to support Dam Safety, \$2,758,000 for Engineering and Supervision and \$671,000 for federal power compliance.

INDIAN LAND AND WATER CLAIM SETTLEMENTS AND MISCELLANEOUS PAYMENTS TO INDIANS

The bill provides \$976,000 for Indian Land and Water Claim Settlements and Miscellaneous Payments to Indians. The Committees direct the Bureau to provide a briefing within 90 days of enactment of this Act on all settlement obligations and proposals for such obligations.

INDIAN GUARANTEED LOAN PROGRAM ACCOUNT

The bill provides \$13,329,000 for the Indian Guaranteed Loan Program Account to facilitate business investments in Indian Country.

BUREAU OF INDIAN EDUCATION

OPERATION OF INDIAN EDUCATION PROGRAMS

The bill includes \$1,131,617,000 for Bureau of Indian Education (BIE) Operation of Indian Education Programs. All programs and subactivities included are continued at the fiscal year 2024 enacted level unless otherwise specified below or reflected in the table accompanying this report.

The agreement outlines certain funding levels in the detailed table accompanying this joint explanatory statement.

Elementary/Secondary Programs (forward funded).—The bill includes \$706,185,000 for Elementary/Secondary Programs, including \$481,636,000 for ISEP Formula Funds to support Education Program Enhancements, including Native Language Immersion, Student Transportation, and Grant Support Costs.

Post Secondary Programs (forward funded).—The agreement provides \$127,407,000 for Post Secondary Programs, including \$30,325,000 for Haskell & SIPI.

Within 120 days of enactment of this Act, BIE in cooperation with the Office of the Assistant Secretary for Indian Affairs, is directed to provide the report and information specified in House Report 119-215 and Senate Report 119-46 on the potential benefits and implications of transferring governance authority of Haskell to its Tribally elected Board of Regents.

Salaries.—The Committees reiterate the directive in Senate Report 119-46 regarding Salaries and FERS Eligibility at BIE Tribally Controlled Schools as it pertains to teacher recruitment and retention.

EDUCATION CONSTRUCTION

Educational Construction.—The bill provides \$234,725,000 for schools and related facilities within the BIE system.

BUREAU OF TRUST FUNDS ADMINISTRATION

FEDERAL TRUST PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$100,009,000 for the Bureau of Trust Funds Administration. Bill language specifies the funding for settlement support.

DEPARTMENTAL OFFICES

OFFICE OF THE SECRETARY

DEPARTMENTAL OPERATIONS

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$131,012,000 for the Office of the Secretary, Departmental Operations appropriation. Specific allocations at the activity level are contained in the table accompanying this explanatory statement.

Office of Navajo and Hopi Indian Relocation Closeout.—The Committees remain committed to the orderly and timely closure of the Office of Navajo and Hopi Indian Relocation (ONHIR). To facilitate this transition, the Committees direct the Department of the Interior, including the Interior Business Center (IBC), to work with stakeholders and the Department of Justice on addressing all outstanding administrative duties, fiduciary responsibilities, land management and livestock obligations of ONHIR that are necessary to support its final closure. The Department is directed to brief the Committees on Appropriations within 90 days of enactment of this Act on progress toward this goal. The agreement includes \$7,000,000 to support these transition efforts.

Vehicle Fleet.—In lieu of the directives in House Report 119-215 related to a standard-compliant telematics pilot program, the Committees direct the Secretary to provide a briefing assessing the potential operational, cost, and efficiency benefits associated with implementing such a program.

INSULAR AFFAIRS

ASSISTANCE TO TERRITORIES

The bill provides \$117,217,000 for Assistance to Territories. The detailed allocation of funding is included in the table at the end of this explanatory statement.

COMPACT OF FREE ASSOCIATION

The bill provides \$813,000 for Compact of Free Association. A detailed table of funding allocations below the account level is provided at the end of this explanatory statement.

OFFICE OF THE SOLICITOR

SALARIES AND EXPENSES

The bill provides \$84,181,000 for the Salaries and Expenses appropriation within the Office of the Solicitor. Specific allocations at the activity level are contained in the table accompanying this explanatory statement.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

The bill provides \$65,000,000 for the Office of Inspector General to be derived by transfer from unobligated balances of amounts previously appropriated for the Office.

DEPARTMENT-WIDE PROGRAMS

WILDLAND FIRE MANAGEMENT

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$1,147,171,000 for the Department of the Interior Wildland Fire Management, including \$526,064,000 for Preparedness to support continued execution of the new pay table authorized by Public Law 119-4 as a permanent fix to ensure the Federal agencies' ability to recruit and retain wildland firefighters and maintain current firefighter capacity, and including \$10,000,000 for Fire Facilities, of which not less than \$4,000,000 is to support the Fire Fighter Housing Improvement Initiative. The detailed al-

location of funding by activity is included in the table accompanying this explanatory statement.

WILDFIRE SUPPRESSION OPERATIONS RESERVE FUND

(INCLUDING TRANSFERS OF FUNDS)

The bill includes \$370,000,000 for the Wildfire Suppression Operations Reserve Fund.

CENTRAL HAZARDOUS MATERIALS FUND

The bill provides \$9,031,000 for the Central Hazardous Materials Fund appropriation.

ENERGY COMMUNITY REVITALIZATION PROGRAM

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$4,700,000 for the Energy Community Revitalization Program, including \$2,250,000 for State grants for western States in accordance with the specifications outlined in House Report 119-215. The detailed allocation of funding is included in the table accompanying this explanatory statement.

NATURAL RESOURCE DAMAGE ASSESSMENT AND RESTORATION

NATURAL RESOURCE DAMAGE ASSESSMENT FUND

The bill provides \$6,500,000 for the Natural Resource Damage Assessment Fund appropriation. The Committees have consolidated the activity lines in the detail table accompanying this explanatory statement. However, the congressional budget justification should continue to provide a detailed spend plan and report the previous year's spending by the four historic activity lines.

WORKING CAPITAL FUND

The bill provides \$90,775,000 for the Working Capital Fund appropriation.

OFFICE OF NATURAL RESOURCES REVENUE

The bill provides \$159,850,000 for the Natural Resources Revenue appropriation. The Committees direct the Department to distribute revenues from operations in the Gulf of America Region in a manner consistent with Public Law 109-432.

GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

(INCLUDING TRANSFERS OF FUNDS)

The bill includes various legislative provisions affecting the Department in Title I of the bill, "General Provisions, Department of the Interior". The provisions are:

Section 101 provides Secretarial authority for the intra-bureau transfer of program funds for expenditures in cases of emergencies when all other emergency funds are exhausted.

Section 102 provides for the Department-wide expenditure or transfer of funds by the Secretary in the event of actual or potential emergencies including forest fires, range fires, earthquakes, floods, volcanic eruptions, storms, oil spills, grasshopper and Mormon cricket outbreaks, and surface mine reclamation emergencies.

Section 103 provides for the use of appropriated funds by the Secretary for contracts, rental cars and aircraft, telephone expenses, and other certain services.

Section 104 provides for the expenditure or transfer of funds from the Bureau of Indian Affairs and Bureau of Indian Education, and the Bureau of Trust Funds Administration, for Indian trust management and reform activities.

Section 105 permits the redistribution of Tribal priority allocation and Tribal base funds to alleviate funding inequities.

Section 106 authorizes the acquisition of lands for the purpose of operating and maintaining facilities that support visitors to Ellis, Governors, and Liberty Islands.

Section 107 continues Outer Continental Shelf inspection fees to be collected by the Secretary of the Interior.

Section 108 provides the Secretary of the Interior with authority to enter into multiyear cooperative agreements with non-profit organizations for long-term care of wild horses and burros.

Section 109 addresses the U.S. Fish and Wildlife Service's responsibilities for mass marking of salmonid stocks.

Section 110 allows the Bureau of Indian Affairs and Bureau of Indian Education to more efficiently and effectively perform reimbursable work.

Section 111 provides for the establishment of a Department of the Interior Experienced Services Program.

Section 112 requires funds to be available for obligation and expenditure not later than 60 days after the date of enactment.

Section 113 provides the Secretary of the Interior the ability to transfer funds among and between the Bureau of Indian Affairs and the Bureau of Indian Education.

Section 114 provides funding for the Payments in Lieu of Taxes (PILT) program.

Section 115 directs notification of any deviation in procedure or equipment.

Section 116 allows the National Park Service to convey lands for purposes of transportation and recreation for a specific project.

Section 117 authorizes Tribally controlled schools access to interagency motor vehicles in the same manner as if performing activities under the Indian Self Determination and Education Assistance Act.

Section 118 provides the Secretary of the Interior with certain pay authority for the Appraisal and Valuation Services Office.

Section 119 addresses the issuance of rules for sage-grouse.

Section 120 authorizes the National Park Service to retain up to 7 percent of State Conservation Grants to provide matching grants to support state program administrative costs.

Section 121 extends the authorization of deposits into the Historic Preservation Fund.

Section 122 provides the Secretary of the Interior the ability to authorize and execute agreements to achieve operating efficiencies.

Section 123 amends the emergency law enforcement ceiling.

Section 124 extends the contribution authority provided in previous years.

Section 125 requires the Bureau of Land Management to prioritize completion of a validity determination for any mining claims located within the area covered by Public Land Order 7921.

Section 126 extends the operation of an existing hydroelectric project in California.

Section 127 authorizes field unit local hiring.

Section 128 makes technical changes to grant application requirement under the American Indian, Alaska Native, and Native Hawaiian Culture and Art Development Act.

TITLE II—ENVIRONMENTAL PROTECTION AGENCY

The bill provides \$8,816,888,000 for the Environmental Protection Agency (EPA). The Agency is expected to comply with the instructions and requirements at the beginning of this division, in House Report 119-215, and Senate Report 119-46, unless otherwise specified below. Additional details, instructions, and requirements follow below and in the table at the end of this division.

In lieu of the paragraph titled "Reprogramming" in Senate Report 119-46, the Committees note that the Agency must follow the reprogramming directives in Section 421 of this Act and in the front matter of this explanatory statement.

SCIENCE AND TECHNOLOGY

For Science and Technology programs, the bill provides \$744,195,000. The bill transfers

\$17,607,000 from the Hazardous Substance Superfund account to this account. The agreement provides the following specific funding levels and direction:

Clean Air.—All activities are funded at the amounts enacted in fiscal year 2024, with reductions taken consistent with current Agency structure, except as specified below.

The Committees recognize the important role that Clean Air Allowance Trading Programs play in improving air quality and reducing pollution and note the Science Advisory Board panel's review of the Clean Air Allowance Trading Program. The Committees direct the Agency to continue this effort, and provide \$5,260,000 to modernize the Clean Air Status and Trends Network [CASTNet].

Research: Air and Energy.—Within available funds, the Committees continue funding for the study under the heading "Partnership Research" contained in the explanatory statement of Public Law 115-141.

Research: Chemical Safety for Sustainability.—The agreement provides \$119,744,000.

Research: National Priorities.—The bill provides \$27,253,000 for Research: National Priorities, including \$9,500,000 for extramural research grants, independent of the Science to Achieve Results (STAR) grant program, as specified under this heading in Senate Report 119-46 and House Report 119-215.

The Committees support the Agency's effort to prioritize new federal research that will help farmers, ranchers, and rural communities manage PFAS impacts in agricultural settings and communities and provide \$9,000,000 to continue that work. The Agency is directed to follow the directives as specified under this heading in House Report 119-215.

Consistent with House Report 119-215, the agreement provides \$2,475,000 for advancing full scale applied research and testing capabilities to address threats to drinking water and associated infrastructure at Water Security Test Bed facilities.

The bill provides \$6,278,000 for Congressionally Directed Spending grants. Further detail on the projects is located in the table titled "Interior and Environment Incorporation of Community Project Funding Items/ Congressionally Directed Spending Items" accompanying this explanatory statement.

Research: Safe and Sustainable Water Resources.—Of the funds provided, up to \$5,000,000 shall be used for grants under section 2007 of America's Water Infrastructure Act (P.L. 115-270).

Ensure Safe Water.—This joint agreement includes only the following: the Agency is encouraged to continue to implement Unregulated Contaminant Monitoring Rule 6 and consider additional contaminants, including metabolites, for inclusion.

Additional Guidance.—The following additional guidance is included:

Harmful Algal Blooms.—The agreement provides \$6,000,000 for research on harmful algal blooms in accordance with House Report 119-215 and Senate Report 119-46.

Integrated Risk Information System (IRIS) Program.—In lieu of the directives under the heading "IRIS Program Integrity" in House Report 119-215, the Committees provide the following direction. The Committees are aware that the IRIS program has been listed on GAO's High-Risk List since 2009. Therefore, the Committees direct the Agency to address the concerns outlined in the GAO High-Risk List report and to ensure the Agency is utilizing best available science in its approach to chemical risk assessment and management.

Ethylene Oxide.—The Committees are aware that NASEM is currently reviewing the Texas Commission on Environmental Quality's Ethylene Oxide Development Sup-

port Document and expect that the Agency will evaluate the results of that review prior to making any regulatory decisions.

Landfill Emissions Research.—Consistent with direction in the explanatory statement accompanying Public Law 117-328, the bill provides the enacted level for landfill emissions research.

eRINs.—In lieu of the paragraph titled "Electric Pathways" in Senate report 119-46, the Committees direct the Agency to provide a briefing within 90 days of enactment of this Act on the Agency's proposed actions related to eRINs within the Renewable Fuel Standards program.

Cellulosic Biofuels.—Not later than 30 days after the date of enactment of this Act, the Committees direct the Agency to submit to the Committees a report related to fuel derived from waste plastic or waste tires, including any plan the Agency may have to qualify such waste as cellulosic biofuel under section 211(o) of the Clean Air Act (42 U.S.C. 7545(o)). In preparing the report, the Agency shall consult with relevant stakeholders and consider incorporating any input from such stakeholders.

Science to Achieve Results (STAR) Grants.—The agreement provides funds to continue the STAR program and directs the Agency to distribute grants consistent with fiscal year 2024.

Statutory Requirements.—In lieu of the direction provided under the paragraph titled "Office of Research and Development" in Senate Report 119-46, the Committees acknowledge that the Agency published an Addendum to its fiscal year 2026 budget request related to consolidations, reorganizations, realignments, and other transfers of resources. The Committees expect that the Agency's mission and all statutory obligations will continue, and that any current or future budgetary requests related to such actions are subject to and contingent upon compliance with applicable reprogramming and notification requirements.

Wildfire Smoke Research.—The Agency is directed to follow the guidance in the joint explanatory statement accompanying Public Law 117-103.

PROGRAM FUNDING FOR SCIENCE AND TECHNOLOGY PROGRAMS
(In thousands of dollars)

Program	Funding Amount
Clean Air and Climate, Clean Air Status and Trends Network Modernization	\$5,260

ENVIRONMENTAL PROGRAMS AND MANAGEMENT

For Environmental Programs and Management, the bill provides \$3,114,671,000. The agreement provides the following specific funding levels and direction:

Clean Air.—The agreement maintains the enacted level for the Agency's wood stove certification and testing standards work. The Agency is directed to use the base funding to increase its staffing and other required efforts to support the wood stove certification and testing program. The Agency is further directed to brief the Committees within 60 days of enactment of this Act on improvements the Agency plans to make to the program and how it will better communicate with State and local stakeholders.

Wildfire Smoke Grant Funding.—The Committees commend EPA for its efforts through the AirNow Fire and Smoke Map to better forecast and communicate the impact of wildfire smoke on communities. The Committees are concerned that air quality monitors are not currently distributed equitably across impacted communities. The Committees encourage EPA to expand its support for

wildfire smoke monitoring, including improving instrumentation, technical assistance, and outreach, using the resources provided in this bill with a focus on traditionally underserved or under-monitored communities. The bill continues funding in State and Tribal Assistance Grants for wildfire smoke-related activities.

Enforcement.—The bill provides \$30,000,000 to continue providing grants within this program area and includes certain distribution requirements.

Environmental Protection: National Priorities.—The bill provides \$30,700,000, for a competitive grant program for qualified non-profit organizations to provide technical assistance for improved water quality or safe drinking water, adequate waste-water to small systems, or individual private well owners. The Agency shall provide \$26,000,000 for Grassroots Rural and Small Community Water Systems Assistance Act (Public Law 114-98), for activities specified under section 1442(e) of the Safe Drinking Water Act (42 U.S.C. 300j-1(e)(8)). The Agency is also directed to provide \$3,450,000 for grants to qualified not-for-profit organizations for technical assistance for individual private well owners, with priority given to organizations that currently provide technical and educational assistance to individual private well owners. The Agency is directed to provide on a national and multi-State regional basis, \$1,250,000 for grants to qualified organizations for the sole purpose of providing on-site training and technical assistance for wastewater systems. The Agency shall require each grantee to provide a minimum 10 percent match, including in-kind contributions. The Agency is directed to allocate funds to grantees within 180 days of enactment of this Act.

Geographic Programs.—The bill provides \$690,202,000 as described in the table at the end of this division, and includes the following direction:

Great Lakes Restoration Initiative (GLRI).—The agreement provides funding to the GLRI Distinct Tribal Program at no less than \$16,500,000.

Chesapeake Bay.—From within the amount provided, at least \$11,000,000 is for nutrient and sediment removal grants, at least \$11,000,000 is for small watershed grants to control polluted runoff from urban, suburban, and agricultural lands, and at least \$9,000,000 is for State-based implementation in the most effective basins.

Puget Sound.—The agreement provides \$56,000,000 for the Puget Sound program and continues the direction contained in the explanatory statement accompanying Public Law 118-42.

Long Island Sound.—The agreement provides \$40,502,000 for the Long Island Sound program.

South Florida.—Within the funds provided, the agreement provides at least \$2,000,000 to monitor coral health in South Florida; \$1,150,000 to enhance water quality and seagrass monitoring in the Caloosahatchee Estuary and Indian River Lagoon, especially with respect to assessing the impact of Lake Okeechobee discharges and harmful algal blooms; \$1,150,000 to enhance water quality and seagrass monitoring in Florida Bay and Biscayne Bay, especially with respect to assessing the impact of Everglades Restoration projects and harmful algal blooms; and \$1,000,000 for the expansion of the water quality and ecosystem health monitoring and prediction network which will use vetted, modern procedures for long-term monitoring of Florida waters, including molecular, algal, ocean floor, and seagrasses.

Gulf of America.—The Committees note that hypoxia continues to be a growing cause for concern. The Committees direct the

Agency to coordinate with the Department of Agriculture, the Gulf States, and other State, local, and private partners to leverage greater resources toward conservation projects on working-lands within the Gulf Region and Mississippi River Basin. The Agency is directed to distribute funds in the same manner as fiscal year 2024.

Lake Champlain.—The agreement provides \$25,500,000 for the Lake Champlain program. These funds shall be allocated through the Lake Champlain Basin Program, other than continuing the enacted levels to support significant, impact projects identified in the State implementation plan that will make measurable progress towards meeting the phosphorus reduction targets of the EPA's 2016 Phosphorus Total Maximum Daily Load Plan for Lake Champlain.

Additionally, in carrying out the evaluation required by House Report 119-215, the Committees direct the Agency to consult with, and incorporate, feedback from impacted stakeholders.

Northwest Forest Program.—The Committees continue to support the Northwest Forest Program at not less than fiscal year 2021 funding level.

Information Exchange/Outreach.—Tribal capacity building is funded at not less than \$14,414,000.

Pesticide Licensing.—In lieu of the directives in House Report 119-215 under the heading “Pesticide Licensing”, the agreement provides the following direction: The Committees recommend that as the Agency conducts Endangered Species Act (ESA) analyses, consistent with statutory and litigation requirements, it will consider best available data on pesticide usage, existing conservation practices, real-world studies on spray drift, ground water and surface water concentrations, and sub-county level species range maps.

Additionally, in lieu of the report required under the heading “Pesticide Licensing” in Senate Report 119-46, the agreement provides the following direction. The Committees acknowledge the Agency's completion of the third-party audit as required by the Pesticide Registration and Review Act (PRIA 5), but note outstanding items. The Committees direct the Agency to provide quarterly briefings to the Committees regarding its resource evaluation and efforts to improve application reviews.

Resource Conservation and Recovery Act (RCRA).—Of the funds provided under this program area, \$9,000,000 is for implementation of a Federal permit program for coal combustion residuals in non-participating states, as authorized under section 4005(d)(2)(B) of the Solid Waste Disposal Act (42 U.S.C. 6945(d)(2)(B)), or to provide technical assistance to states establishing their own permitting program under section 4005(d) of the Solid Waste Disposal Act (42 U.S.C. 6945(d)).

The Committees recognize cooperative federalism in implementing the Solid Waste Disposal Act (42 U.S.C. 6091 et seq.) and note federal statutory requirements for nonhazardous waste when regulating scrap metal shredding operations.

Ensure Clean Water.—The Committees support the work of the WaterSense and Trash Free Waters programs and encourage the continuance of these programs.

The agreement provides up to \$2,000,000 for integrated planning activities consistent with section 402(s) of the Federal Water Pollution Control Act (33 U.S.C. 1342(s)).

Ensure Clean Water: National Estuary Program/Coastal Waterways.—The agreement provides \$850,000 per estuary for each of the 28 national estuaries in the National Estuary Program (NEP) authorized by section 320 of

the Clean Water Act (Public Law 92-500). Additionally, not less than \$2,500,000 is provided for competitive grants.

Ensure Safe Water.—Within available funds, the agreement provides no less than \$5,000,000 for the Agency's continued work within the Underground Injection Control (UIC) program related to Class VI wells for geologic sequestration to help develop expertise and capacity at the Agency. These funds should be used by the Agency to expeditiously review and process Class VI permits and primacy applications from States and Tribes.

In addition, the agreement provides \$1,800,000 to support Class VI regulator education and training programs in conjunction with States or other eligible entities such as an association of States.

Additional Guidance.—The following additional guidance is included:

Agency Actions.—The Committees note the Agency's review of prior federal rulemakings related to stationary and transportation source emissions, methane and other pollutants, guidelines for oil and natural gas, and greenhouse gas reporting requirements for petroleum and natural gas systems.

Attainment.—The Committees direct the Agency to provide a briefing not later than 90 days following the enactment of this Act on the statutory requirements related to considering the impact on ozone transport when making nonattainment classification determinations.

Chemical Reviews.—In lieu of the directives in House Report 119-215 under the heading “Toxics Risk Review and Prevention” and in Senate Report 119-46 under the heading “New Chemical Submissions”, the agreement provides the following direction:

The Committees direct the Agency to meet all statutory requirements under the Toxic Substances Control Act (TSCA) when reviewing new chemicals. Additionally, the Agency is directed to enhance communication, improve the transparency of the process, and communicate the status of submissions with new chemicals submitters. The Agency is directed to brief the Committees within 120 days of enactment of this Act on these efforts.

Regarding Section 9 of TSCA, the Committees direct the Agency to revise the Memorandum of Understanding (MOU) with the Occupational Safety and Health Administration (OSHA) to meaningfully delineate between each Agency's role and clearly articulate the areas of collaboration between the agencies. Further, the Committees remind the Agency of the requirements in Section 9 of TSCA (15 U.S.C. 2608) related to responses from other Federal agencies.

Clean Water.—The Committees encourage the Environmental Protection Agency to review previous rules related to Clean Water Act Section 401 water quality certification and effluent limitations for meat and poultry products.

Coal Combustion Residuals.—The Committees note that the Agency is re-evaluating the final rule titled “Hazardous and Solid Waste Management System: Disposal of Coal Combustion Residuals From Electric Utilities: Legacy CCR Surface Impoundments”.

Northwest Area Contingency Plan Critical Energy Infrastructure Hub Resiliency Study.—The Committees are concerned by the potential environmental impacts from oil spills in the Columbia River Basin as a result of a potential seismic event. The Committees encourage the Agency to update the Area Contingency Plan and to collaborate with institutions of higher education and State, local, and Tribal governments to work with the community to develop earthquake resilient plans in urban areas and recommends \$1,000,000 within Ensure Clean Water program project area for this purpose.

Transboundary Watersheds.—The Committees direct the Agency to continue and expand its work coordinating with Federal State, local, and Tribal agencies to monitor and reduce transboundary mining pollution in the Kootenai watershed and other U.S.-British Columbia transboundary watersheds. The Committees provide \$2,000,000 for such monitoring, management, and interagency activities in U.S.-British Columbia transboundary watersheds. The Committees remind the Agency of the direction in the explanatory statement accompanying Public Law 117-103 to brief the Committees on the Agency’s progress to document baseline conditions and mining-related impacts, and any additional staff or resources needed for this project. The Committees direct the Agency to allocate these funds in its fiscal year 2026 operating plan to the appropriate program project area for carrying out these activities.

Small Refinery Relief.—The Committees recognize that the Renewable Fuels Standard (RFS) under Clean Air Act Section 211(o)(9) provides that the Agency may exempt small refineries from compliance with the RFS in certain circumstances and that a small refinery “may at any time petition the Administrator for an extension of the exemption for the reason of disproportionate economic hardship.” The Committees direct that the Agency develop policies and procedures for making small refinery exemption decisions consistent with the findings of the impact of compliance costs on small refiners in the November 3, 2022, GAO report titled “Renewable Fuel Standard: Actions Needed to Improve Decision-Making in the Small Refinery Exemption Program”.

Hydrofluorocarbons.—The resources provided include funding for the phase down of the use of hydrofluorocarbons.

Office of the Administrator.—In lieu of the direction provided under “Office of the Administrator” in Senate Report 119-46, the Committees acknowledge that the Agency published an Addendum to its fiscal year 2026 budget request related to consolidations, reorganizations, realignments, and other transfers of resources.

PROGRAM FUNDING FOR ENVIRONMENTAL PROGRAMS AND MANAGEMENT

[In thousands of dollars]	
Program	Funding Amount
Information Exchange/Outreach, Environmental Education	\$9,500

OFFICE OF INSPECTOR GENERAL

The bill provides \$43,250,000 for the Office of Inspector General. The bill transfers \$11,328,000 from the Hazardous Substance Superfund account to this account.

BUILDINGS AND FACILITIES

The bill provides \$40,676,000 for Buildings and Facilities.

HAZARDOUS SUBSTANCE SUPERFUND (INCLUDING TRANSFERS OF FUNDS)

The bill provides \$282,749,000 for the Hazardous Substance Superfund account and includes bill language to transfer \$11,328,000 to the Office of Inspector General account and \$17,607,000 to the Science and Technology account. The agreement provides the following additional direction:

Research: Chemical Safety and Sustainability.—The agreement provides \$5,714,000 for Research: Chemical Safety and Sustainability. The Agency is directed to include these funds as part of the transfer to the Science and Technology account.

Research: Sustainable and Healthy Communities.—The agreement provides \$11,448,000 for Research: Sustainable and Healthy Communities. The Agency is directed to include these funds as part of the transfer to the Science and Technology account.

The Committees direct the Agency to submit to the Committees on Appropriations of the Senate and the House of Representatives a report detailing the current and projected remediation needs, staffing requirements, and estimate of the latest timeline for remediating hazardous waste residing at the West Lake Landfill Superfund Site in Bridgeton, Missouri no later than 120 days after enactment of this Act.

LEAKING UNDERGROUND STORAGE TANK TRUST FUND PROGRAM

The bill provides \$88,903,000 for the Leaking Underground Storage Tank Trust Fund Program.

INLAND OIL SPILL PROGRAMS

The bill provides \$20,561,000 for Inland Oil Spill Programs.

STATE AND TRIBAL ASSISTANCE GRANTS

The bill provides \$4,409,609,000 for the State and Tribal Assistance Grants program and includes the following specific funding levels and direction:

Community Project Funding Items/Congressionally Directed Spending Items.—From within funds provided for capitalization grants for the Clean Water State Revolving Fund and the Drinking Water State Revolving Fund, the bill provides \$892,762,272 from the Clean Water SRF and \$715,364,627 from the Drinking Water SRF for Community Project Funding/Congressionally Directed Spending grants for the construction of drinking water, wastewater, and stormwater infrastructure and for water quality protection.

Infrastructure Projects.—Each project shall provide not less than 20 percent matching funds from non-Federal sources, unless approved for a waiver. Applicable Federal requirements that would apply to a Clean Water State Revolving Fund or Drinking Water State Revolving Fund project grant recipient shall apply to a grantee receiving a Congressionally directed spending grant under this section. The Committees note

that the following funds are to be treated as non-Federal funds and can be used to meet the non-Federal matching fund requirement: U.S. Department of Housing and Urban Development, Community Development Block Grant Program; U.S. Department of Agriculture, Rural Development Program; Appalachian Regional Commission grants; and Delta Regional Authority grants. Funding made available to jurisdictions through the American Rescue Plan Act of 2021 (Public Law 117-2) is considered Federal funding and may not be applied towards the non-Federal cost share requirement.

The Committees remain concerned that EPA does not have sufficient resources necessary to expeditiously implement this program and fully support recipients as they address applicable Federal grant requirements. Accordingly, the bill provides \$13,300,000 in funding for salaries, expenses, and administration for Congressionally Directed Spending and Community Project Funding grants provided in previous fiscal years and this Act. While the Committees appreciate the technical assistance the Agency has provided in recent months, the Committees remain concerned that more work is needed to resolve the Agency’s significant backlog of projects, as discussed in the fiscal year 2024 Senate appropriations hearing.

Further, the Committees appreciate the Agency’s engagement with the Committees regarding additional, potential solutions to help resolve the Agency’s significant backlog of Congressionally Directed Spending and Community Project Funding grants. The Committees direct the Agency to identify other actions that will help obligate funding more quickly, including by adopting state environmental reviews, and to brief the Committees within 90 days of enactment of this Act on actions the Agency can take immediately and any barriers to taking additional actions. Further, the Committees direct the Agency to provide a report within 90 days of enactment of this Act on the Congressionally Directed Spending and Community Project Funding grant funding that has not been obligated or awarded in fiscal years 2022, 2023, and 2024. The Committees remind the Agency of the Biweekly Metrics Report.

Diesel Emission Reduction Grants (DERA).—The Committees continue funding for the DERA program at the enacted level.

Targeted Airshed Grants.—The Committees direct the Agency to follow the directive in Senate Report 118-83.

Technical Assistance for Wastewater Treatment Works.—The Agency is directed to issue awards on an annual basis to the most qualified and experienced applicants necessary to provide quality uninterrupted training and technical assistance. The Agency is directed to allocate funds to grantees within 180 days of enactment of this Act.

Wildfire Smoke Preparedness.—The bill provides \$8,500,000 for wildfire smoke preparedness grants. These grants shall be distributed on a competitive basis to States, federally recognized Tribes, public pre-schools, local educational agencies as defined in 20 U.S.C. 7801(30), and non-profit organizations, for assessment, prevention, control, or abatement of wildfire smoke hazards in community buildings, including schools as defined in 20 U.S.C. 3610(6), and related activities. The Federal share of the costs of such activities shall not exceed 90 percent except that the Administrator may waive such cost share requirement in the case of facilities located in economically distressed communities. A maximum of 25 percent of grant funding under this paragraph during this fiscal year may go to recipients in any one State. Further, the Committees direct the Agency to allow for grants to be made for research purposes, in addition to current eligibility categories.

Categorical Grants.—The bill provides \$1,109,833,000 for Categorical Grants. Funding levels are specified in the table at the end of this division.

Categorical Grant: Resource Recovery and Hazardous Waste Grants.—The bill includes a provision supporting categorical grant funds for the purpose of providing grants to assist States in the development and implementation of State programs for the control of coal combustion residuals under section 2301 of the Water and Waste Act of 2016 (Public Law 114–322), and the Agency is directed to continue funding of not less than \$4,000,000 from the Hazardous Waste Financial Assistance categorical grants program project for this purpose. The Committees note that funds awarded under the authority provided by this act are not subject to section 3011 of the Solid Waste Disposal Act (Public Law 89–272).

Categorical Grant: Public Water System Supervision.—Of the funds provided, \$12,000,000 is to further support States, Territories, and Tribes in addressing PFAS and other contaminants of emerging concern as they carry out their Public Water System Supervision programs.

PFAS.—The bill clarifies Congressional intent that funding provided in fiscal year 2026, including from Public Law 117–58, for grants for addressing contaminants under subsections (a) through (j) of section 1459A of the Safe Drinking Water Act (42 U.S.C. 300j–19a) may be used by a State to provide assistance to benefit one or more owners of drinking water wells that are not public water systems or connected to a public water system for necessary and appropriate activities related to a contaminant pursuant to subsection (j) of section 1459A of the Safe Drinking Water Act. In implementing this funding, the Committees direct the Agency to encourage States to prioritize beneficiaries that make less than the average household income for the State.

Use of Iron and Steel.—The bill includes language in title IV general provisions that stipulates requirements for the use of iron and steel in State Revolving Fund projects, and the agreement includes only the following guidance: the Committees acknowledge that the Agency may issue a waiver of said requirements for de minimis amounts of iron and steel building materials. The Committees emphasize that any coating processes that are applied to the external surface of iron and steel components that otherwise qualify under the procurement preference shall not render such products ineligible for the procurement preference regardless of where the coating processes occur, provided that final assembly of the products occurs in the United States.

WATER INFRASTRUCTURE FINANCE AND INNOVATION PROGRAM ACCOUNT

The agreement provides a total of \$72,274,000 for the Water Infrastructure Finance and Innovation Act (WIFIA) program.

ADMINISTRATIVE PROVISIONS— ENVIRONMENTAL PROTECTION AGENCY

(INCLUDING TRANSFERS OF FUNDS)

The bill continues several administrative provisions from previous years.

The bill includes a provision providing for further Congressional oversight.

The bill includes a provision related to hiring authority for employees with special scientific capabilities.

The bill includes a provision related to fulfilling the mission and statutory obligations of the agency.

TITLE III

RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

OFFICE OF THE UNDER SECRETARY FOR NATURAL RESOURCES AND ENVIRONMENT

The bill provides \$780,000 for the Office of the Under Secretary for Natural Resources and Environment.

FOREST SERVICE

FOREST SERVICE OPERATIONS

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$1,090,600,000 for Forest Service Operations. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement.

FOREST AND RANGELAND RESEARCH

The bill provides \$308,697,000 for Forest and Rangeland Research. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement.

Research and Development.—The agreement includes \$61,500,000 for Research and Development, including the following research priorities, for which funding of geographically-based items is in addition to funds otherwise provided to individual research units and therefore is not to be factored into base allocations:

—\$1,000,000 to support Remote Automated Weather Stations (RAWS) for the Forest Service and its interagency partners to conduct a coverage analysis including factors such as recent National Fire Danger Rating System upgrades and proposals to determine a more appropriate network coverage.

—\$1,000,000 for the Forest Service to utilize an existing partnership with a public research university in a fire prone, western state with proximity to the National Interagency Fire Center to develop AI-based wildfire activity forecasting and modeling tools.

—\$2,000,000 for the National Agroforestry Center.

—\$3,000,000 to the Joint Fire Science program, which combined with funding in the Department of the Interior provides \$6,000,000 in total.

University Research.—The Committees reiterate support for the language included in House Report 119–215 related to partnering with a university in the South on new and existing research focusing on advancing sustainable forestry practices, innovating wood-based materials, wood testing, synthetics, and enhancing the economic impact of forest-related industries.

PROGRAM FUNDING FOR FOREST AND RANGELAND RESEARCH

(In thousands of dollars)

Program	Funding Amount
Research and Development Programs	\$61,500
Research and Development Programs, Northeastern States Research Cooperative	6,000

Research and Development Programs, Needle Blight Mitigation	1,000
Salaries and Expenses	212,000

STATE, PRIVATE, AND TRIBAL FORESTRY

The bill provides \$310,594,000 for State, Private, and Tribal Forestry. The detailed allo-

cation of funding by activity is included in the table accompanying this explanatory statement. All funding for specific programs, directives, or congressionally directed spending identified herein is in addition to funds otherwise provided to States and regions through the formula and competitive grant process and therefore is not to be factored into those allocations.

International Programs and Trade.—The Committees expect the Service to continue an intact program office reporting directly to the Chief of the Forest Service, for serving as the lead entity and coordinating all activities related to the Lacey Act and the protection of the American wood trade.

PROGRAM FUNDING FOR STATE, PRIVATE, AND TRIBAL FORESTRY

(In thousands of dollars)

Program	Funding Amount
Forest Health Management	\$58,000
Forest Health Management, Forest Ecosystem Monitoring Cooperative	1,000
Forest Health Management, Sudden Oak Death	2,000
Forest Health Management, Spruce Budworm	10,000
Forest Health Management, Lake Tahoe Forest Health Management	250
Cooperative Fire Assistance	97,000
State Fire Capacity Grants, Lake Tahoe State Fire Capacity	2,125
Cooperative Forestry, Community Forest and Open Space Conservation	5,500
Cooperative Forestry, Urban and Community Forestry	37,000
International Programs and Trade	19,000
Salaries and Expenses	50,000

NATIONAL FOREST SYSTEM

The bill provides \$1,857,843,000 for the National Forest System. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement.

Recreation, Heritage and Wilderness.—The agreement includes \$45,000,000 for Recreation, Heritage, and Wilderness, including \$750,000 for the maintenance of rural air strips and \$500,000 to support infrastructure and trails development.

Hazardous Fuels.—The bill provides \$176,850,000 for hazardous fuels activities. Funding for the Southwest Ecological Restoration Institutes includes \$1,400,000 to create a new institute in the State of Nevada consistent with the direction in House Report 119–215.

Wildlife and Fish Habitat Management.—The agreement includes \$21,000,000 for Wildlife and Fish Habitat Management, including no less than \$2,000,000 for threatened and endangered species activities.

PROGRAM FUNDING FOR NATIONAL FOREST SYSTEM

(In thousands of dollars)

Program	Funding Amount
Recreation, Heritage and Wilderness, NATIVE Act Implementation	\$1,000
Recreation, Heritage and Wilderness, National Recreation Areas (PL 105–277, PL 109–382, PL 111–11)	3,000
Vegetation and Watershed Management, Lake Tahoe Vegetation and Watershed	6,175
Hazardous Fuels, Lake Tahoe Hazardous Fuels	5,529
Hazardous Fuels, Community Wood Energy	15,000
Hazardous Fuels, Wood Innovation Grants	30,000
Hazardous Fuels, Southwest Ecological Restoration Institutes	8,000

CAPITAL IMPROVEMENT AND MAINTENANCE (INCLUDING TRANSFER OF FUNDS)

The bill provides \$153,250,000 for Capital Improvement and Maintenance programs.

Trails.—The agreement provides \$22,000,000 for Trails, including \$2,000,000 for trail maintenance needs within National Forests in States and territories outside the continental United States.

Construction Projects.—The bill provides \$20,850,000 for congressionally directed spending in this program. A detailed list of

projects is included in the “Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items” table accompanying this explanatory statement.

ACQUISITION OF LANDS FOR NATIONAL FORESTS SPECIAL ACTS

The bill provides \$664,000 for the Acquisition of Lands for National Forests Special Acts.

ACQUISITION OF LANDS TO COMPLETE LAND EXCHANGES

The bill provides \$150,000 for the Acquisition of Lands to Complete Land Exchanges.

RANGE BETTERMENT FUND

The bill provides \$1,719,000 for the Range Betterment Fund.

GIFTS, DONATIONS AND BEQUESTS FOR FOREST AND RANGELAND RESEARCH

The bill provides \$45,000 for Gifts, Donations and Bequests for Forest and Rangeland Research.

MANAGEMENT OF NATIONAL FOREST LANDS FOR SUBSISTENCE USES

The bill provides \$1,099,000 for the Management of National Forest Lands for Subsistence Uses.

WILDLAND FIRE MANAGEMENT (INCLUDING TRANSFERS OF FUNDS)

The bill provides \$2,426,111,000 for Forest Service Wildland Fire Management, including amounts to support continued execution of the new pay table authorized by Public Law 119-4 as a permanent fix to ensure the Federal agencies’ ability to recruit and retain wildland firefighters and maintain current firefighting capacity. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement.

WILDFIRE SUPPRESSION OPERATIONS RESERVE FUND

(INCLUDING TRANSFERS OF FUNDS)

The bill includes \$2,480,000,000 for the Wildfire Suppression Operations Reserve Fund.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

INDIAN HEALTH SERVICE INDIAN HEALTH SERVICES

The bill provides a total of \$5,054,433,000 for the Indian Health Service (IHS) Services account for fiscal year 2026, \$66,993,000 above the fiscal year 2025 enacted level, which includes \$38,493,000 to remain available until September 30, 2027 to provide for staffing of new facilities, \$74,138,000 to remain available until September 30, 2027, for the Indian Health Care Improvement Fund, and \$190,564,000, to remain available until expended, for the Electronic Health Record System.

The agreement also provides \$4,789,731,000 in advance appropriations for the Services account for fiscal year 2027 except for funding for Electronic Health Records and the Indian Health Care Improvement Fund, which continue to receive an annual appropriation. All programs, projects, and activities are maintained at fiscal year 2024 enacted levels unless otherwise specified below.

Staffing for New Facilities.—The agreement includes \$38,493,000 in Indian Health Services for staffing newly opened health facilities, which is the full amount required in fiscal year 2026 based upon updated estimates provided to the Committees. Funds for staffing of new facilities are limited to facilities funded through the Health Care Facilities Construction Priority System or the Joint Venture Construction Program that have opened in fiscal year 2025 or will open in fiscal year 2026. None of these funds may be allocated to a facility until such facility has achieved beneficial occupancy status.

The Committees understand that amounts required for staffing new facilities continue to evolve, due in part to when facilities achieve beneficial occupancy. IHS is expected to update the Committees as beneficial occupancy dates or cost estimates change.

Clinical Services.—The agreement includes a total of \$4,555,362,000 for Clinical Services. Within the total for Clinical Services, \$2,632,772,000 is provided for Hospitals and Health Clinics, including \$39,433,000 is for Tribal Epidemiology Centers, \$7,000,000 for the Produce Prescription Pilot, \$6,000,000 to continue Alzheimer’s and related dementia activities, and \$8,000,000 for Improving Maternal Health.

The recommendation includes \$260,360,000 for Dental Health, including \$6,500,000 for Dental Support Centers and continues funding for Electronic Dental Health Records. Within the funds for Clinical Services, the recommendation also provides \$133,693,000 for Mental Health, which includes \$2,000,000 for a new behavioral health pilot as outlined in House Report 119-215.

The Committees emphasize the directives in Senate Report 119-46 related to Village Built Clinics, Improving Maternal Health, and Urban Indian Health.

Preventative Health.—The agreement includes \$206,119,000 for Preventative Health.

Other Services.—The agreement includes \$292,952,000 for Other Services, including \$84,568,000 for Indian Health Profession which supports \$53,000,000 for the Loan Repayment Program. The Committees reiterate concern about the tax assessments associated with the Loan Repayment Program and remind the Service of the reporting directive included in House Report 119-215.

The Committees also emphasize the directive in House Report 119-215 related to the allocation of funds across Indian Health Professions as well as regarding IHS collaboration with Veterans Affairs and the Health Resources and Service Administration on graduate medical education and bringing opportunities to Tribal communities.

CONTRACT SUPPORT COSTS

The bill provides an indefinite appropriation to fully fund contract support costs, which are estimated to be \$1,819,000,000 in fiscal year 2026.

PAYMENTS FOR TRIBAL LEASES

The bill provides an indefinite appropriation to fully fund payments for Tribal leases, which are estimated to be \$366,000,000 in fiscal year 2026.

INDIAN HEALTH FACILITIES

The bill provides \$809,222,000 for Indian Health Facilities. The agreement provides \$516,600,000 in advance appropriations for this account for fiscal year 2027 except for funding for Sanitation Facilities Construction and Health Care Facilities Construction for which \$292,622,000 is provided as an annual appropriation in recognition of the project-based nature of those accounts.

Staffing for New Facilities.—The agreement provides \$3,826,000 for staffing newly opened health facilities, which is the full amount based upon updated estimates provided to the Committees. Funds for staffing of new facilities are limited to facilities funded through the Health Care Facilities Construction Priority System or Joint Venture Construction Program that have opened in fiscal year 2025 or will open in fiscal year 2026. Further, the stipulations included in the “Indian Health Services” account regarding the allocation of funds pertain to this account as well.

The Committees understand that amounts required for staffing new facilities continue to evolve, due in part to when facilities

achieve beneficial occupancy. IHS is expected to update the Committees as beneficial occupancy dates or cost estimates change.

Sanitation Facilities Construction.—The agreement provides \$107,943,000 for Sanitation Facilities Construction. The agreement also includes \$17,039,000 for congressionally directed spending [CDS] projects from within funds as shown on the table titled “Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items” accompanying this explanatory statement.

Health Care Facilities Construction.—The agreement includes \$184,679,000, including \$13,000,000 for staff quarters for staff housing across the IHS health care delivery system to support the recruitment and retention of quality healthcare professionals across Indian country. The Committees reiterate the reporting directive related to housing quarters in Senate Report 119-46.

Equipment.—The agreement provides \$34,598,000 for Equipment, including \$5,000,000 to purchase generators, and reminds the Service of the directive in House Report 119-215 related to determining the most cost-effective method for procuring backup generators.

NATIONAL INSTITUTES OF HEALTH

NATIONAL INSTITUTE OF ENVIRONMENTAL HEALTH SCIENCES

The agreement provides \$77,100,000 for the National Institute of Environmental Health Sciences. The Committees continue the \$2,000,000 provided in fiscal year 2024 to further the Institute’s work on PFAS and other contaminants of emerging concern. Further, of the funds provided, not less than \$1,750,000 shall be to support risk reduction for Native Americans to hazardous metals mixtures from abandoned uranium mine waste.

AGENCY FOR TOXIC SUBSTANCES AND DISEASE REGISTRY

TOXIC SUBSTANCES AND ENVIRONMENTAL PUBLIC HEALTH

The agreement provides \$79,800,000. The Committees continue the \$2,000,000 provided in fiscal year 2024 to further the Agency’s work on PFAS and other contaminants of emerging concern.

The agreement continues funding as specified in Senate Report 119-46.

OTHER RELATED AGENCIES

EXECUTIVE OFFICE OF THE PRESIDENT

COUNCIL ON ENVIRONMENTAL QUALITY AND OFFICE OF ENVIRONMENTAL QUALITY

The agreement provides \$4,629,000 for the Council on Environmental Quality and Office of Environmental Quality.

CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD

SALARIES AND EXPENSES

The bill provides \$14,000,000 for the Chemical Safety and Hazard Investigation Board.

INSTITUTE OF AMERICAN INDIAN AND ALASKA

NATIVE CULTURE AND ARTS DEVELOPMENT

PAYMENT TO THE INSTITUTE

The bill provides \$13,482,000 for academic programs of the Institute of American Indian Arts.

SMITHSONIAN INSTITUTION

SALARIES AND EXPENSES

The agreement provides a total of \$1,080,500,000 for all Smithsonian Institution accounts, of which \$928,500,000 is provided for salaries and expenses. A detailed allocation of funding is included in the table accompanying this explanatory statement.

FACILITIES CAPITAL

The bill provides \$152,000,000 for Facilities Capital.

NATIONAL GALLERY OF ART
SALARIES AND EXPENSES

The bill provides \$185,000,000 for the Salaries and Expenses account of the National Gallery of Art, of which not to exceed \$3,893,000 is for the special exhibition program. The distribution of funds among the Gallery's various activities is included in the table accompanying this explanatory statement.

REPAIR, RESTORATION AND RENOVATION OF
BUILDINGS

The bill provides \$19,000,000 for the Repair, Restoration and Renovation of Buildings account and includes authority to repurpose certain prior-year amounts.

JOHN F. KENNEDY CENTER FOR THE
PERFORMING ARTS

OPERATIONS AND MAINTENANCE

The bill provides \$32,340,000 for the Operations and Maintenance account.

CAPITAL REPAIR AND RESTORATION

The bill provides \$4,860,000 for the Capital Repair and Restoration account.

WOODROW WILSON INTERNATIONAL CENTER FOR
SCHOLARS

SALARIES AND EXPENSES

The bill provides \$5,000,000 for the Woodrow Wilson International Center for Scholars. The Committees direct the Center to maintain a proper capacity of fellows to ensure this Federal investment results in the research, counsel, insight, and publications outlined in its mission.

NATIONAL FOUNDATION ON THE ARTS AND THE
HUMANITIES

NATIONAL ENDOWMENT FOR THE ARTS
GRANTS AND ADMINISTRATION

The bill provides \$207,000,000 for the National Endowment for the Arts (NEA) to continue the important work of the Endowment. A detailed breakdown of the funding allocation is included in the table accompanying this explanatory statement.

NATIONAL ENDOWMENT FOR THE HUMANITIES
GRANTS AND ADMINISTRATION

The bill provides \$207,000,000 for the National Endowment for the Humanities (NEH) to continue the important work of the Endowment. A detailed breakdown of the funding allocation is included in the table accompanying this explanatory statement.

COMMISSION OF FINE ARTS
SALARIES AND EXPENSES

The bill provides \$3,641,000 for the Commission of Fine Arts.

NATIONAL CAPITAL ARTS AND CULTURAL
AFFAIRS

The bill provides \$5,000,000 for the National Capital Arts and Cultural Affairs program.

ADVISORY COUNCIL ON HISTORIC
PRESERVATION

SALARIES AND EXPENSES

The bill provides \$8,285,000 for the Advisory Council on Historic Preservation.

NATIONAL CAPITAL PLANNING COMMISSION
SALARIES AND EXPENSES

The bill provides \$8,750,000 for the National Capital Planning Commission, including funding for lease costs.

UNITED STATES HOLOCAUST MEMORIAL
MUSEUM

HOLOCAUST MEMORIAL MUSEUM

The bill provides \$65,231,000 for the United States Holocaust Memorial Museum. The Committees continue not less than \$2,000,000 for implementation of the Never Again Education Act (Public Law 116-141).

UNITED STATES SEMIQUINCENTENNIAL
COMMISSION

SALARIES AND EXPENSES

The bill provides \$15,000,000 for the United States Semiquincentennial Commission.

TITLE V—GENERAL PROVISIONS
(INCLUDING TRANSFERS OF FUNDS)

The bill includes various legislative provisions in Title IV of the bill. The provisions are:

Section 401 continues a provision providing that appropriations available in the bill shall not be used to produce literature or otherwise promote public support of a legislative proposal on which legislative action is not complete.

Section 402 continues a provision providing for annual appropriations unless expressly provided otherwise in this Act.

Section 403 continues a provision providing restrictions on departmental assessments unless approved by the Committees on Appropriations.

Section 404 continues a limitation on accepting and processing applications for patents and on the patenting of Federal lands.

Section 405 continues a provision regarding the payment of contract support costs.

Section 406 addresses the payment of contract support costs for fiscal year 2026.

Section 407 continues a provision providing that the Secretary of Agriculture shall not be considered in violation of certain provisions of the Forest and Rangeland Renewable Resources Planning Act solely because more than 15 years have passed without revision of a forest plan, provided that the Secretary is working in good faith to complete the plan revision.

Section 408 continues a provision limiting preleasing, leasing, and related activities within the boundaries of National Monuments.

Section 409 restricts funding appropriated for acquisition of land or interests in land from being used for declarations of taking or complaints in condemnation.

Section 410 continues a provision which prohibits no-bid contracts.

Section 411 continues a provision which requires public disclosure of certain reports.

Section 412 continues a provision which delineates the grant guidelines for the National Endowment for the Arts.

Section 413 continues a provision which delineates the program priorities for the programs managed by the National Endowment for the Arts.

Section 414 requires the Department of the Interior, Environmental Protection Agency, Forest Service and Indian Health Service to provide the Committees on Appropriations quarterly reports on the status of balances of appropriations.

Section 415 extends certain authorities allowing the Forest Service to renew grazing permits.

Section 416 prohibits the use of funds to maintain or establish a computer network unless such network is designed to block access to pornography websites.

Section 417 addresses the humane transfer and treatment of excess wild horses and burros.

Section 418 extends the authority of the Forest Service Facility Realignment and Enhancement Act.

Section 419 sets requirements for the use of American iron and steel for certain loans and grants.

Section 420 provides authority for the Secretary of the Interior to enter into training agreements and to transfer excess equipment and supplies for wildfires.

Section 421 incorporates Reprogramming Guidelines into the Act.

Section 422 continues a provision authorizing the Secretary of the Interior and the Secretary of Agriculture to consider local contractors when awarding contracts for certain activities on public lands.

Section 423 extends the authority for the Interpretive Association for one year.

Section 424 extends the authority for Forest Botanical Products fee collection for one year.

Section 425 includes certain limitations on oil and gas development near Chaco Culture National Historical Park.

Section 426 requires 105(1) Tribal lease payments to begin no earlier than the date the lease proposal is submitted and for the Federal agencies to consult with Tribes on lease requirements.

Section 427 extends the authority for the Forest Ecosystem Health and Recovery Fund by one year.

Section 428 requires the allocation of funds from the National Parks and Public Land Legacy Restoration Fund and Land and Water Conservation Fund.

Section 429 addresses carbon emissions from forest biomass.

Section 430 addresses the use of small remote incinerators in the State of Alaska.

Section 431 addresses timber sales involving Alaska western red and yellow cedar.

Section 432 provides transfer authority to the Federal Highway Administration for the National Parks and Public Land Legacy Restoration Fund.

Section 433 continues a provision prohibiting the use of funds to promulgate or implement any regulation requiring the issuance of permits under Title V of the Clean Air Act for carbon dioxide, nitrous oxide, water vapor, or methane emissions.

Section 434 continues a provision prohibiting the use of funds to implement any provision in a rule if that provision requires mandatory reporting of greenhouse gas emissions from manure management systems.

Section 435 continues a provision prohibiting the use of funds to regulate the lead content of ammunition or fishing tackle.

Section 436 provides for wildland firefighter pay cap waiver.

Section 437 extends authorization for Alaska Native regional health entities.

Section 438 requires the Secretary of the Interior, acting through the Bureau of Land Management, to have analyzed, in consultation with local elected officials and stakeholders, action alternatives designed to reduce impacts prior to expending any funds to grant, issue, or renew a right-of-way for the Lava Ridge Wind Project.

Section 439 modifies the Wildfire Funding and Forest Management Act to extend the reporting requirement timeline from 90 days to 180 days and to require an accounting of all spending in the first two quarters of the succeeding fiscal year attributable to suppression operations in the report year.

Section 440 requires updated 5-year deferred maintenance plans from DOI and the Forest Service.

Section 441 requires quarterly disaster estimates.

Section 442 requires continued operation of the Smithsonian American Women's History Museum and the National Museum of the American Latino.

Section 443 incorporates program funding by reference.

Section 444 repurposes certain funds provided in Public Law 117-58.

Section 445 extends a provision mandating the exhaustion of administrative review through 2027.

Section 446 provides technical corrections to fiscal year 2026 projects.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the bill or

this explanatory statement, along with the name of each House Member, Senator, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. For each item, a Member is required to provide a certification that neither the Member nor the Member's immediate family has a financial interest, and each Senator is required to pro-

vide a certification that neither the Senator nor the Senator's immediate family has a pecuniary interest in such congressionally directed spending item. Neither the bill nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.
