

Therein is the operative phrase for the cryptocrats: He said as long as he is in Congress. Well, if we just get him out of Congress, we don't have him to contend with.

Well, you can do that, but there are others who will follow. There are. There are others who are already in the fight. They are. They are there. I can assure you of this: I am going to fight you to the bitter end. Until my last days, I will fight what I see as a demerit of the dollar, a peer-to-peer transference of money such that you can avoid taxes, and the creation of nothing and selling it as something.

This is the epitome of ridiculousness, to allow such things to occur and not challenge them.

I assure all who listen that I am going to protect your wallet. There are people who say they want to put more money in your wallet? Well, I am going to protect your wallet and make sure that you can get money in your wallet and not allow people to cleverly disguise themselves as persons who want to regulate when, in fact, they just want to pass something under the guise of regulation so that the cryptocrats can continue to move in the direction of dominance with the cryptocurrency, the crypto dollars, as it were.

This is not something that we should take lightly, and I do not. I want to assure you that I am censured but not silenced.

I also want to assure you of something else: The countdown to impeachment continues. What the President has done as it relates to wars, as it relates to pumping and dumping, which I have explained earlier, and as it relates to his disrespect for the Constitution of the United States of America, he has done things that are clearly impeachable.

It is just a matter of time, Mr. President. Your day will come. Someone is going to stand in the well of the House of Representatives and read Articles of Impeachment to remove you from office. It would be the thing that this country should do so as to prevent another cryptocrat, such as yourself—yes, the President is a cryptocrat—to prevent another cryptocrat such as yourself from assuming power. We have to protect American democracy from the cryptocrats.

We have already had a former Vice President say that this President is a great threat to the Republic. I think he said the greatest threat to the Republic. President Donald John Trump: a threat to the Republic and a threat to democracy.

Cryptocracy is his main concern, it seems, because it is a family business that he has brought to the White House, and they are using this family business to make billions of dollars at the expense of unsuspecting Americans and people of other stripes, as well.

□ 1140

I am censured, not silenced, and I am engaging in a countdown to impeach-

ment. I know that there are people who want to know when. It will happen when it happens, and I assure you it is going to happen.

Mr. Speaker, I am grateful for the time. I am proud to say that I am AL GREEN, the OG AL GREEN, unbought, unbosomed, unafraid, uncontrolled by the cryptocrats.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Members are reminded to refrain from engaging in personalities towards the President.
