

will say 24. I will give them 22. I think my 24 percent number is more correct.

Monthly cuts exceed \$500, so in 29 States, basically they are adding up how much of the population's average income they paid into Social Security. Remember, a number of people don't understand, Mr. Speaker, Social Security is means-adjusted. High-income earners get less back of the taxes they paid in. Low-income earners actually often get much more than the FICA taxes they paid in.

Mr. Speaker, if you are a poor senior, are you ready for a \$500-a-month cut?

Let's take a look at my State, Arizona. Insolvency of Social Security, what does it mean to my recipients, my folks who receive a Social Security check in Arizona?

There will be estimated monthly cuts of \$511, and this starts in 6 years. That will affect \$8.2 billion in benefits lost a year, and 18.3 percent of the residents are affected in my State.

Mr. Speaker, this is an avalanche coming at us. It is really hard to fix. It is really expensive to fix. Every day that we wait, we make it worse.

The ugliest part of this punch line: The Medicare trust fund is empty almost at the same time, so hospitals are going to take about a 12-percent cut, the Medicare part A trust fund.

Yet, the political class, because they either are good at math or they are terrified to tell the voters the truth, on Social Security, you functionally get, for the average couple, the money you put in plus a tiny bit. It is a horrible rate of return.

If 25 years ago we had done what President Bush and others had talked about saying—just a little bit of your Social Security money going into side accounts—the retiring population today would be so much more prosperous.

Democrats and unions crushed that. It is on them. They should be the ones standing up and saying: We apologize. We are going to create a wave of poverty, but, hey, we are just going to tax the hell out of people who are still working. At least they could admit what they did.

The hardest part is also showing chart after chart after chart—it is Medicare that is actually the biggest contributor to U.S. sovereign debt. The average couple, the dollars they put in, they are going to get about \$6 back. That is a pretty good rate of return. That is because we, as a body, have been terrified to fix the cost of delivering healthcare. We know there is waste and fraud.

Mr. Speaker, do you remember the couple of charts we started with? When the MedPAC report comes to us and says that it is like \$1.5 trillion to \$2 trillion of not fraud, because it is—well, partially it is fraud. What would that be worth if we just fixed the misalignment in Medicare Advantage, let alone all the durable medical equipment and all the things that are now happening with Medicaid, whether it be

the scams we found in New York, where you hire family members to be the visitor. In New York City over the last 5 years, it is the number one job creator. For every 1,000 people 65 and up in New York City, they have—what was the number? It was like 141 signed up for this program. Even the Democrat Governor of New York says this is pretty much a scam.

□ 2050

Why is it so hard for us to step up and fix these things? The first time I gave a presentation on this a couple months ago, it was fascinating. All of a sudden there were articles popping up on the internet, I think written by AI, beating the crap out of me. It turns out they have their own lobbyists for the fraud. That is how perverse this society has become. The fraudsters now have lobbyists.

Mr. Speaker, I am fixated on debt, deficits, and demographics because I am going to argue that we have a country that about every 13½ seconds we are borrowing a million dollars. Yet today even, we have debates around here and we are arguing about saving a couple million dollars. That is great, but we borrowed more money during the debate than the debate actually would save if it became law. That is how screwed up we are.

Mr. Speaker, I beg of you and anyone out there that is listening, can we do something real?

I have a 3-year-old and a 10-year-old that we have adopted. The data says that we will need a 104 percent of little Matthew's lifetime earnings just to pay the pensions of this Federal Government. That means every dime he will make plus 4 percent.

We as a society have decided the next generation will be poorer than we are. Welcome to the morality of the modern Congress.

Mr. Speaker, I yield back the balance of my time.

PUBLICATION OF BUDGETARY MATERIAL

REVISION TO THE AGGREGATES OF THE FISCAL YEAR 2026 CONCURRENT RESOLUTION ON THE BUDGET

HOUSE OF REPRESENTATIVES,
COMMITTEE ON THE BUDGET,
Washington, DC, June 9, 2026.

Mr. Speaker, I hereby submit for printing in the CONGRESSIONAL RECORD a revision to the aggregates established by S. Con. Res. 33, the Fiscal Year 2026 Concurrent Resolution on the Budget. Section 3001 of S. Con. Res. 33 permits the Chairman of the Committee on the Budget to adjust the aggregates and other appropriate levels established by that resolution for legislation considered under the resolution's reconciliation instructions.

This adjustment is designated for S. 2, the Secure America Act, as passed the Senate on June 5, 2026. The Congressional Budget Office's estimate for S. 2 does not account for commensurate discretionary savings that will occur in future appropriations bills. The intent of S. 2 is to fully fund Immigration and Customs Enforcement and Customs and Border Protection through September 30, 2029.

The bill complies with section 2001 of S. Con. Res. 33. The adjustment is reflected in the attached table.

This revision represents an adjustment for purposes of budgetary enforcement. These revised aggregates are to be considered as the aggregates included in the concurrent resolution on the budget, pursuant to S. Con. Res. 33. Pursuant to section 4103 of S. Con. Res. 33, these adjustments shall apply only while S. 2 is under consideration or upon its enactment.

Sincerely,

JODEY ARRINGTON,
Chairman, Committee on the Budget.
