

military preparedness. However, our Nation faces inadequate energy supply and infrastructure, due not only to the harmful and shortsighted policies of the previous administration, but also to many harmful State and local policies, especially in our Nation's Northeast and West Coast. These policies worsened high energy prices that devastate Americans and undermined grid reliability with insufficient development of our Nation's domestic supply of energy. Without robust development of domestic energy resources, we further risk leaving our Nation vulnerable to hostile foreign actors, jeopardizing our Nation's core national defense and security needs, stalling technological innovation, and deteriorating grid reliability.

The circumstances related to this emergency continue to pose an unusual and extraordinary threat to the national security, foreign policy, and economy of the United States. Therefore, I have determined that it is necessary to continue the national emergency declared in Executive Order 14156 with respect to energy.

DONALD J. TRUMP.
THE WHITE HOUSE, January 12, 2026.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 3 o'clock and 38 minutes p.m.), the House stood in recess.
