#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. DURBIN (for himself and Mr. WICKER):

S. 4541. A bill to ensure that significantly more students graduate college with the international knowledge and experience essential for success in today's global economy through the establishment of the Senator Paul Simon Study Abroad Program in the Department of State; to the Committee on Foreign Relations.

Mr. DURBIN. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 4541

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Senator Paul Simon Study Abroad Program Act of 2026".

#### SEC. 2. FINDINGS.

Congress makes the following findings:

(1) To prepare students for success in the modern global economy, opportunities for study abroad should be included as part of a well-rounded education.

(2) Study abroad programs provide students with unparalleled access to international knowledge, an unmatched opportunity to learn world languages, and a unique environment for developing cultural understanding, all of which are knowledge and skills needed in today's global economy.

(3) Only 10 percent of United States college students study abroad before they graduate, leaving 90 percent of graduates entering the workforce without the global skills, knowledge, and experiences afforded by study abroad programs that will position them for success in the global economy. Minority students, first-generation college students, community college students, and students with disabilities are also significantly underrepresented in study abroad participation.

(4) Congress authorized the establishment of the Commission on the Abraham Lincoln Study Abroad Fellowship Program (referred to in this section as the "Lincoln Commission") under section 104 of the Miscellaneous Appropriations and Offsets Act, 2004 (division H of Public Law 108-199). Pursuant to its mandate, the Lincoln Commission submitted a report to Congress and to the President containing its recommendations for greatly expanding the opportunity for students at institutions of higher education in the United States to study abroad, with special emphasis on studying in developing nations.

(5) According to the Lincoln Commission, "[e]xperience shows that leadership from administrators and faculty will drive the number of study abroad participants higher and improve the quality of programs. Such leadership is the only way that study abroad will become an integral part of the undergraduate experience." A competitive grant program is necessary to encourage and support such leadership.

(6) Student health, safety, and security while studying abroad is, and must continue to be, a priority for institutions of higher education and study abroad programs.

(7) According to *Open Doors 2022*, published by the Institute of International Education in partnership with the Department of State, study abroad participation at colleges and universities in the United States plummeted by 91 percent during the 2020-2021 academic year. While study abroad numbers have rebounded, according to *Open Doors 2025*, participation remains 14 percent below pre-pandemic levels. In today's global society, increasing access to study abroad for students at institutions of higher education across the United States is critical to ensuring that those students gain the skills, knowledge, and experiences necessary to maintain the leadership and security of the United States in tackling global challenges that affect the people of the United States and succeeding in a global economy.

#### SEC. 3. PURPOSES.

The purposes of this Act are—

(1) to ensure that significantly more students have access to quality study abroad opportunities, especially among low-income students and students of color;

(2) to ensure that the diversity of students studying abroad reflects the diversity of students and institutions of higher education in the United States;

(3) to encourage greater diversity in study abroad destinations by increasing the portion of study abroad that takes place in non-traditional study abroad destinations, especially in developing countries; and

(4) to encourage a greater commitment by United States institutions of higher education to expand study abroad opportunities.
