

hall, gift shop, meeting hall, kitchen, library, and archives space.

Today, the museum displays many eras of Owyhee County's history, from the frontier days and early mining projects to modern-day ranching and farming practices. Home to the only operating print shop with 100-year-old equipment, the museum also offers rides in a 1915 Model T and provides visitors with a unique opportunity to learn more at the moments that shaped the American West. Each year during the first weekend of June, that history comes to life during the annual Outpost Days celebration, a beloved community tradition featuring art vendors, entertainment, and the world-famous Horney Toad Races.

Now, the museum is expanding again to include the Mike Hanley Wagon Barn. The Wagon Barn will be filled with more than 35 wagons, buggies, and stagecoaches, many of which are more than 150 years old. With the new facility, the Owyhee County Historical Museum will have the largest collection of wagons in Idaho, strengthening its ability to tell the story of how pioneers settled the West.

As we celebrate the opening of the Wagon Barn and another successful Outpost Days, we also recognize the Owyhee County Historical Museum for its many years of dedication to the community and preserving the legacy of Idaho's early founders. Thanks to their efforts, generations of Idahoans will continue to learn and be inspired by our State's history.●

RECOGNIZING THE SUBMARINE 1ST GENERATION WESTING- HOUSE PROTOTYPE

● Mr. RISCHE. Mr. President, I rise with my colleagues Senator MIKE CRAPO and Representative MIKE SIMPSON to recognize the significance of the Submarine 1st Generation Westinghouse, also known as the S1W prototype plant, and commend the crews who safely demolished it.

Created under the leadership of Admiral Hyman G. Rickover, the Father of the Nuclear Navy, the S1W has stood as a symbol of American innovation, scientific achievement, and national determination for decades. Constructed at what is now the Idaho National Laboratory in 1951, S1W became the Nation's first land-based nuclear submarine prototype and inspired a new era of naval power.

The scientists, engineers, and operators who worked on the S1W later went on to develop the USS *Nautilus*, the world's first nuclear-powered submarine, and contributed to technologies that have fueled American naval dominance for generations.

Over S1W's 35 years of operation, more than 12,500 U.S. Navy and civilian personnel were trained at the site, laying the foundation for a highly skilled nuclear workforce that remains critical to our national security today.

Over the past 3 years, the Idaho Environmental Coalition has diligently and

successfully dismantled this historic facility. Throughout the demolition, IEC crews demonstrated the same spirit of innovation by those who built the S1W, implementing creative solutions to complete the project ahead of schedule and millions of dollars under budget.

Today, we honor the legacy of the S1W, the crews who safely demolished it, and the undeniable future of nuclear innovation in America.●

TRIBUTE TO DENNIS GANNON

● Mr. SCHMITT. Mr. President, today, I wish to honor Dennis Gannon, a truly remarkable public servant. Over the years, Dennis has led an incredible life marked by an unshakeable commitment to serving others. After retiring from years in the U.S. Army with the rank of major, he set out to establish his own business and has served two terms as county executive for Jefferson County, MO. During his years in this role, the county has experienced significant growth and completed several major projects, including efforts to bring overseas jobs back to Missouri and the county's landmark work to improve infrastructure at the Jefferson County Port Authority, transforming the county's place as a regional trade hub, an effort I was very proud to support. He has also volunteered his time to various organizations serving the greater St. Louis area and has served on the East-West Gateway Council of Governments and REJIS Commission leadership boards.

The Gannon family's story is also uniquely American and defined by the same spirit of service. When he was a child, his father Jack worked as a butcher before later being elected to the Missouri State Senate, and his wife Elaine served 12 years in the Missouri General Assembly. Currently, his son also serves as the board president for Chelsea Football Club in the United Kingdom and played a key role in the development and opening of SoFi Stadium in Los Angeles.

This fall, Mr. Gannon will begin his well-deserved retirement from public service to spend more time with his family. I wish him all the best as he begins this new chapter and am proud to call him a fellow Missourian.●
