ARMS SALES NOTIFICATION

Mr. RISCH. Mr. President, section 36(b) of the Arms Export Control Act requires that Congress receive prior notification of certain proposed arms sales as defined by that statute. Upon such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Senate Foreign Relations Committee.

In keeping with the committee's intention to see that relevant information is still available to the full Senate, I ask unanimous consent to have printed in the RECORD the notifications that have been received. If the cover letter references a classified annex, then such an annex is available to all Senators in the office of the Foreign Relations Committee, room SD-423.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. DEPARTMENT OF STATE,
Washington, DC.
CONGRESSIONAL NOTIFICATION TRANSMITTAL LETTER

Please find enclosed the following notification from the Department of State. Department Notification Number: RSAT 26-0Y.

Pursuant to the reporting requirements of Section 36(b)(5)(C) of the Arms Export Control Act (AECA), as amended, we are forwarding Transmittal No. 26-0Y. This notification relates to enhancements or upgrades from the level of sensitivity of technology or capability described in the Section 36(b)(1) AECA certification 21-24 of March 12, 2021.

Recipients:
Speaker of the House of Representatives
House Committee on Foreign Affairs
Senate Committee on Foreign Relations
Sincerely,

PAUL D. GUAGLIANONE,
Senior Bureau Official,
Bureau of Legislative Affairs.

TRANSMITTAL NO. 26-0Y

Report of Enhancement or Upgrade of Sensitivity of Technology or Capability (Sec. 36(b)(5)(C), AECA)

(i) Prospective Purchaser: Government of Germany.

(ii) Sec. 36(b)(1), AECA Transmittal No.: 21-24; Date: March 12, 2021; Implementing Agency: Navy.

(iii) Description: On March 12, 2021, Congress was notified by congressional certification transmittal number 21-24 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of the Government of Germany's request to buy five (5) P-8A Patrol Aircraft; nine (9) Multifunctional Distribution System Joint Tactical Radio Systems 5 (MIDS JTRS 5); and twelve (12) LN-251 with Embedded Global Positioning Systems (GPS)/Inertial Navigation Systems (EGIs). Also included were commercial engines; Tactical Open Mission Software (TOMS); Electro-Optical (EO) and Infrared MX-20HD; AN/AAQ-2(V) I Acoustic System; AN/APY-10 radar; ALQ-240 Electronic Support Measures; NexGen Missile Warning Sensors; AN/PRC-117G Manpack radios include MPE-S type II with SAASM 3.7; Global Positioning Systems (GPS) 524D Precise Positioning System (PPS) for APY-10 Radar; AN/ALQ-213 Electronic Counter Measures; AN/ALE-47 Counter Measures Dispensing Systems; AN/UPX IFF Interrogators; APX-123 A(C) IFF Digital Transponders; KIV-78 IFF Mode 5 Cryptographic Appliques; CCM-701A Cryptographic Core Modules; KY-100M, KY-58, KYV-5 for HF-121C radios; AN/PYQ-10 V3 Simple Key Loaders (SKL) with KOV-21 Cryptographic Appliques; aircraft spares; spare engine; support equipment; operational support systems; training; training devices; maintenance trainer/classrooms; publications; software; engineering technical assistance (ETA); logistics technical assistance (LTA); Country Liaison Officer (CLO) support; Contractor Engineering Technical Services (CETS); repair and return (RoR); transportation; aircraft ferry; and other associated training and support; and other related elements of logistics and program support. The total estimated program cost was \$1.77 billion. Major Defense Equipment (MDE) constituted \$1.10 billion of this total.

On April 1, 2022, Congress was notified by congressional certification transmittal number 0D-22 of the inclusion of the following MDE items: eight (8) Large Aircraft Infrared Countermeasures (LAIRCM) System Processor Replacements (each included eight (8) Exelis EGR GPS Receivers integrated with Selective Availability Anti-Spoofing Modules (SAASM); and seven (7) Guardian Laser Transmitter Assemblies (GLTA)). The following non-MDE items were also included: AN/ARC 210 RT-2036(C) radios; Control Interface Unit for the AN/AAQ 24(V)N; dual KIV-7Ms; CCM-700A cryptographic modules; KG-175 Encryptor Network Convergence Systems; Advanced Digital Antenna Production (ADAP) Antenna Electronics; and ADAP Controlled Reception Pattern Antenna antennas. The total value of these new items was \$13.5 million but did not cause an increase in the total estimated program cost, as pricing was factored in the initial notification. The total estimated program cost remained \$1.77 billion, with the total MDE cost remaining \$1.10 billion of total program cost.

On July 31, 2023, Congress was notified by congressional certification transmittal number 23-0M of the inclusion of three (3) P-8 A

Patrol Aircraft; six (6) MIDS JTRS 5; seven (7) LN-251 with EGLs; five (5) LAIRCM System Processor Replacements (each includes five (5) Exelis EGR GPS Receivers integrated with SAASM; and four (4) GLTA). The following non-MDE items were also included: aircraft spare parts; spare engines; support equipment; operational support systems; training; training devices; software; ETA; LTA; Roll; transportation; aircraft ferry; and other related elements of engineering, logistics, and program management support. The addition of these items resulted in a net increase in MDE value of \$800 million, resulting in a revised MDE cost of \$1.9 billion. The total estimated case value increased to \$3.2 billion.

This transmittal reports the addition of the following MDE items: four (4) P-8A Patrol Aircraft; six (6) MIDS JTRS 5; eleven (11) LN-251 with EGLs; six (6) LAIRCM System Processor Replacements (each includes five (5) Exelis EGR GPS Receivers integrated with SAASM); and six (6) (ILTA). The following non-MDE items will also be included: aircraft spare parts; spare engines; support equipment; operational support systems; training and training devices; software; ETA; logistics LTA; RoR; transportation; aircraft ferry; and other related elements of logistics and program support. The estimated total cost of the new items is \$3.7 billion. The estimated MDE value will increase by \$2.4 billion to a revised \$4.3 billion. The estimated non-MDE value will increase by \$1.3 billion to a revised \$2.6 billion. The estimated total case value will increase by \$3.7 billion to a revised \$6.9 billion.

(iv) Significance: This notification accounts for requested additional MDE and non-MDE items not included in the original notification. The inclusion of this MDE represents an increase in capability over what was previously notified. The proposed articles and services will support Germany's capability to meet current and future threats by providing critical capabilities to coalition maritime operations and will increase interoperability between the United States and Germany.

(v) Justification: This proposed sale will support the foreign policy and national security of the United States by improving the security of a NATO Ally which is an important force for political and economic stability in Europe.

(vi) Sensitivity of Technology: The Sensitivity of Technology Statement contained in the original notification applies to items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) Date Report Delivered to Congress: June 2, 2026.

POLICY JUSTIFICATION

Vietnam—C-130 Sustainment

The Government of Vietnam has requested to buy engine propellers; aircraft components, parts, and accessories; ground handling equipment; spare parts, consumables and accessories, and repair and return sup-

port; training aids, devices, and spare parts; unclassified software; unclassified publications; studies and surveys; transportation support; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$100 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by modernizing the air and transport capabilities of an Indo-Pacific partner.

The proposed sale will improve Vietnam's capability to meet current and future threats by ensuring the operational readiness of its C-130 aircraft fleet. The aircraft provides strategic airlift capabilities that directly support U.S. and coalition operations around the world. Vietnam will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be RTX Corporation, located in Arlington, VA. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Vietnam.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
