No on rollcall vote No. 197, Confirmation of Executive Calendar No. 779 Jeffrey T. Kuntz, of Florida, to be United States District Judge for the Southern District of Florida.

ADDITIONAL STATEMENTS

TRIBUTE TO MATTHEW IVES

• Ms. HASSAN. Mr. President, I am honored to recognize Matthew Ives of Peterborough as July's Granite Stater of the Month for his extraordinary commitment to helping others through his service as a volunteer trauma nurse in Ukraine.

Matthew has dedicated his career to the care of others. His path into nursing began with years of service in healthcare, working as a lifeguard, EMT, 911 dispatcher, pharmacy technician, and ultimately graduating from nursing school at Nashua Community College. After he witnessed the suffering caused by Russia's full-scale invasion of Ukraine, Matthew asked himself what he could do to help. He recognized a critical need for additional training in lifesaving trauma care, particularly the proper use of tourniquets to prevent otherwise survivable injuries from becoming life-threatening.

In 2024, Matthew traveled to Ukraine for his first volunteer deployment. Working in a bomb-damaged stabilization point near the frontlines, he treated both military personnel and civilians suffering from burns, broken bones, shrapnel wounds, and other traumatic injuries. Matthew has repeatedly returned because he knows that the need for care remains great. Even when he is back in the United States, he continues to support the people he met in Ukraine by helping secure the resources that they need to continue their lifesaving work. In addition to training and treating patients,

he has personally helped provide supplies and equipment, including funding vehicles and medical equipment for those serving on the frontlines.

Matthew says that New Hampshire's "Live Free or Die" spirit has shaped the way that he views the resilience of the Ukrainian people. He sees that same determination in those who continue to defend their communities despite immense hardship, refusing to surrender their freedom in the face of tyranny. His work reminds Granite Staters that courage often takes the form of quietly showing up each day to serve others, even in the most dangerous circumstances.

Matthew has returned to Ukraine, where he trains Ukrainian servicemembers in lifesaving medical skills and continues to provide care on the frontlines. Matthew's compassion, courage, and selflessness are why I am proud to name him July's Granite Stater of the Month.●

LAKE TAHOE SUMMIT

● Ms. ROSEN. Mr. President, I rise today on behalf of Senator CORTEZ MASTO, Senator PADILLA, Senator SCHIFF, Congressman KILEY, and Congressman AMODEI to celebrate an incredible milestone for Lake Tahoe, the crown jewel of Nevada and California. In 1997, Nevada Senator Harry Reid and California Senator Dianne Feinstein spearheaded the inaugural Lake Tahoe Summit. This event brought together Federal, State, regional, and local leaders, the Washoe Tribe of Nevada and California, scientists, environmental advocates, and economic interests to address the deteriorating clarity of Lake Tahoe's waters. It marked a defining moment in bipartisan collaboration to protect one of the Nation's most iconic and treasured landscapes, and this year, we are celebrating 30 years of that partnership.

Lake Tahoe is an amazing natural wonder. It is the oldest freshwater, permanent lake in North America, and the third oldest in the world at 2.3 million years old. It is also the second deepest lake in the United States, plunging to a depth of 1,645 feet, with waters so clear that objects can be seen at depths exceeding 70 feet. The Waki-siw (Washoe Tribe of Nevada and California) are the original stewards of Lake Tahoe, and the Lake continues to hold great significance as their ancestral, current, and future home. Straddling the border of California and Nevada in the Sierra Nevada, Lake Tahoe is a national treasure that we are all so proud to protect.

Following the inaugural Tahoe Summit hosted by Senators Reid and Feinstein, the Lake Tahoe Environmental Improvement Program, or EIP, was created to restore Lake Tahoe's water quality and strengthen the region's environment and economy for future generations. The Tahoe Regional Planning Agency and more than 80 partners collectively known as Team Tahoe have

worked together to guide and implement the EIP; today, the EIP is one of the Nation's most successful conservation and restoration programs with more than 900 projects implemented across the areas of watersheds and water quality, aquatic invasive species, forest health, sustainable recreation and transportation, and science, stewardship, and accountability.

Lake Tahoe is an irreplaceable natural, cultural, and economic treasure—a jewel of the Sierra—whose protection is both a solemn responsibility and a profound privilege. The 30th annual Lake Tahoe Summit will be a celebration of Lake Tahoe and the power of public-private partnerships that benefit the lake, economy, and community. The Tahoe Federal delegation, State and local officials, members of Team Tahoe, and the public will come together at this event to celebrate the progress made over the last 30 years and commit to solving the challenges of the next 30 years. I am so honored to be hosting this year's event that will recognize the incredible legacy of my dear friend Senator Reid, and I look forward to continuing that legacy with my fellow colleagues as we work to protect this special place.●
