

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on the date that is 1 year after the date of enactment of this Act.

MORNING BUSINESS

ARMS SALES NOTIFICATION

Mr. RISCH. Mr. President, section 36(b) of the Arms Export Control Act requires that Congress receive prior notification of certain proposed arms sales as defined by that statute. Upon such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Senate Foreign Relations Committee.

In keeping with the committee's intention to see that relevant information is still available to the full Senate, I ask unanimous consent to have printed in the RECORD the notifications that have been received. If the cover letter references a classified annex, then such an annex is available to all Senators in the office of the Foreign Relations Committee, room SD-423.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. DEPARTMENT OF STATE,
Washington, DC.

CONGRESSIONAL NOTIFICATION TRANSMITTAL LETTER

Please find enclosed the following notification from the Department of State.

Department Notification Number: RSAT 26-0G.

Pursuant to the reporting requirements of Section 36(b)(5)(C) of the Arms Export Control Act (AECA), as amended, we are forwarding Transmittal No. 26-0G. This notification relates to enhancements or upgrades from the level of sensitivity of technology or capability described in Section 36(b)(1) AECA certification 17-80 of January 18, 2018.

Recipients:

Speaker of the House of Representatives
House Committee on Foreign Affairs
Senate Committee on Foreign Relations
Sincerely,

PAUL D. GUAGLIANONE,
Senior Bureau Official,
Bureau of Legislative Affairs.

DEPARTMENT OF STATE TRANSMITTAL NO. RSAT
26-0G

Report of Enhancement or Upgrade of Sensitivity of Technology or Capability Pursuant to Section 36(b)(5)(C) of the Arms Export Control Act

(i) Prospective Purchaser: Government of Belgium.

(ii) Sec. 36(b)(1), AECA Transmittal No.: 17-80; Date: January 18, 2018; Implementing Agency: Air Force.

(iii) Description: On January 18, 2018, Congress was notified by congressional certification transmittal number 17-80 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of thirty-four (34) F-35 joint strike fighter conventional takeoff and landing (CTOL) aircraft; and thirty-eight (38) Pratt & Whitney F-135 engines (34 installed, 4 spares). These services included electronic warfare systems; command, control, communications, computer and intelligence/communications, navigational, and identification;

autonomic logistics global support system; autonomic logistics information system; full mission trainer; weapons employment capability, and other subsystems, features, and capabilities; F-35 unique infrared flares; re-programming center; F-35 performance based logistics; software development/integration; aircraft ferry and tanker support; support equipment; tools and test equipment; communications equipment; spares and repair parts; personnel training and training equipment; publications and technical documents; U.S. Government and contractor engineering and logistics personnel services; and other related elements of logistics and program support. The estimated total value was \$6.53 billion. Major defense equipment (MDE) constituted \$4.53 billion of this total.

This transmittal notifies the inclusion of the following MDE items: eleven (11) F-35 joint strike fighter CTOL aircraft; and twelve (12) Pratt & Whitney F-135 engines (11 installed, 1 spare). The following non-MDE items will also be included: drag chute system integration kits; and other related elements of logistics and program support. The estimated total value of the new items is \$3.3 billion. The estimated MDE value will increase by \$1.7 billion to a revised \$6.23 billion. The estimated non-MDE value will increase by \$1.6 billion to a revised \$3.6 billion. The estimated total case value will increase by \$3.3 billion to a revised \$9.83 billion. MDE constitutes \$6.23 billion of this total.

(iv) Significance: This notification accounts for requested additional MDE and non-MDE items not included in the original notification. The proposed articles and/or services will provide Belgium with a credible defense capability to deter aggression in the region and ensure interoperability with U.S. forces.

(v) Justification: This proposed sale will support the foreign policy and national security objectives of the United States by improving the security of a NATO Ally which is an important force for political stability and economic progress in Europe.

(vi) Sensitivity of Technology: The Sensitivity of Technology Statement contained in the original notification applies to items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) Date Report Delivered to Congress: February 26, 2026.

ARMS SALES NOTIFICATION

Mr. RISCH. Mr. President, section 36(b) of the Arms Export Control Act requires that Congress receive prior notification of certain proposed arms sales as defined by that statute. Upon such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Senate Foreign Relations Committee.

In keeping with the committee's intention to see that relevant information is still available to the full Senate, I ask unanimous consent to have printed in the RECORD the notifications that have been received. If the cover letter references a classified annex, then such an annex is available to all Senators in the office of the Foreign Relations Committee, room SD-423.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. DEPARTMENT OF STATE,

CONGRESSIONAL NOTIFICATION TRANSMITTAL LETTER

Please find enclosed the following notification from the Department of State.

Department Notification Number: RSAT 26-23.

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act (AECA), as amended, we are forwarding Transmittal No. 26-23 concerning the Army's proposed Letter(s) of Offer and Acceptance to the Government of Jordan for defense articles and services estimated to cost \$280 million. We will issue a news release to notify the public of this proposed sale upon delivery of this letter to your office.

Recipients:

Speaker of the House of Representatives
House Committee on Foreign Affairs
Senate Committee on Foreign Relations
Sincerely,

PAUL D. GUAGLIANONE,
Senior Bureau Official,
Bureau of Legislative Affairs.

DEPARTMENT OF STATE TRANSMITTAL NO. RSAT
26-23

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

(i) (U) Prospective Purchaser: Government of Jordan.

(ii) (U) Total Estimated Value:
Major Defense Equipment* \$0.

Other \$280 million.
Total \$280 million.

Funding Source: Foreign Military Financing (FMF).

(iii) (U) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:

Major Defense Equipment (MDE):
None.

Non-MDE:

The following non-MDE items will be included: Ku band multi-function radio frequency system radar and command and control system; generators; global positioning system receivers; spare and repair parts; special tools and test equipment; technical manuals and publications; training devices; new equipment training; U.S. Government and contractor technical, engineering, and logistics personnel services; concurrent spare parts, systems integration, and check-out support; field service representative support; contractor logistics support; program management reviews; and other related elements of logistics and program support.

(iv) (U) Military Department: Army (JO-B-YFX).

(v) (U) Prior Related Cases, if any: None.

(vi) (U) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None known at this time.

(vii) (U) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Attached Annex.

(viii) (U) Date Report Delivered to Congress: February 26, 2026.

*As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

(U) Jordan—Ku band multi-function radio frequency system (KuMRFS) radars

(U) The Government of Jordan has requested to buy KuMRFS radars and command and control system; generators; global positioning system receivers; spare and repair parts; special tools and test equipment; technical manuals and publications; training devices; new equipment training; U.S. Government and contractor technical, engineering, and logistics personnel services; concurrent spare parts, systems integration, and

checkout support; field service representative support; contractor logistics support; program management reviews; and other related elements of logistics and program support. The estimated total cost is \$280 million.

(U) This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the security of a Major Non-NATO Ally that is an important force for political stability and economic progress in the Middle East.

(U) The proposed sale will improve Jordan's capability to meet current and future threats by sustaining a credible force that can deter adversaries and participate in CENTCOM operations. Jordan will have no difficulty absorbing these articles into its armed forces.

(U) The proposed sale of this equipment and support will not alter the basic military balance in the region.

(U) The principal contractor will be RTX Missile Defense Technologies, located in Tucson, AZ. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

(U) Implementation of this proposed sale will require the temporary assignment of thirteen U.S. Government and twenty-four contractor representatives to Jordan for a duration of up to five years to support fielding, training, and sustainment activities.

(U) There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

TRANSMITTAL NO. 26-23

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. (U) The Ku band multi-function radio frequency system (KuMRFS) is a multi-function radar. The radar is capable of providing simultaneous counter-unmanned aircraft systems and counter-rocket, artillery, and mortar air surveillance, and effector support missions. The system leverages M-code global positioning system technology ensuring secure and precise navigation and timing. KuMRFS radar provides three-dimensional target location data enhancing situational awareness for command-and-control systems.

2. (U) The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. (U) If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. (U) A determination has been made that Jordan can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. (U) All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Jordan.

ARMS SALES NOTIFICATION

Mr. RISCH. Mr. President, section 36(b) of the Arms Export Control Act

requires that Congress receive prior notification of certain proposed arms sales as defined by that statute. Upon such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Senate Foreign Relations Committee.

In keeping with the committee's intention to see that relevant information is still available to the full Senate, I ask unanimous consent to have printed in the RECORD the notifications that have been received. If the cover letter references a classified annex, then such an annex is available to all Senators in the office of the Foreign Relations Committee, room SD-423.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. DEPARTMENT OF STATE,
Washington, DC.

CONGRESSIONAL NOTIFICATION TRANSMITTAL LETTER

Please find enclosed the following notification from the Department of State.

Department Notification Number: RSAT 26-0D.

Pursuant to the reporting requirements of Section 36(b)(5)(C) of the Arms Export Control Act (AECA), as amended, we are forwarding Transmittal No. 26-0D. This notification relates to enhancements or upgrades from the level of sensitivity of technology or capability described in the Section 36(b)(1) AECA certification 22-60 of November 9, 2022.

Recipients:

Speaker of the House of Representatives
House Committee on Foreign Affairs
Senate Committee on Foreign Relations
Sincerely,

PAUL D. GUAGLIANONE,
Senior Bureau Official,
Bureau of Legislative Affairs.

DEPARTMENT OF STATE TRANSMITTAL NO. RSAT 26-0D

Report of Enhancement or Upgrade of Sensitivity of Technology or Capability Pursuant to Section 36(b)(5)(C) of the Arms Export Control Act

(i) (U) Prospective Purchaser: Government of Lithuania.

(ii) (U) Sec. 36(b)(1), AECA Transmittal No.: 22-60; Date: November 9, 2022; Implementing Agency: Army.

Funding Source: National Funds and Foreign Military Financing.

(iii) (U) Description: On November 9, 2022, Congress was notified by Congressional certification transmittal number 22-60 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of eight (8) M142 High Mobility Artillery Rocket System (HIMARS) Launchers; thirty-six (36) M30A2 Guided Multiple Launch Rocket System (GMLRS) Alternative Warhead (AW) Missile Pods with Insensitive Munitions Propulsion System (IMPS); thirty-six (36) M31A2 GMLRS Unitary High Explosive (HE) Missile Pods; thirty-six (36) XM403 Extended Range GMLRS (ER GMLRS) Alternative Warhead (AW) Missile Pods with IMPS; thirty-six (36) XM404 Extended Range GMLRS (ER GMLRS) Unitary Pods with IMPS; and eighteen (18) M57 Army Tactical Missile System (ATACMS) Missile Pods. Also included were M28A2 Low Cost Reduced Range Practice Rocket (LCRRPR) pods; International Field Artillery Tactical Data System (IFATDS); battle management system Vehicle Integra-

tion Kits; ruggedized laptops; training equipment publications for HIMARS and munitions; and other related elements of program and logistics support. The estimated total case value was \$495 million. Major Defense Equipment (MDE) constituted \$440 million of this total.

On April 24, 2025, Congress was notified by Congressional certification transmittal number 0B-25 of a correction to the previous designation of the IFATDS from non-MDE to MDE. Because reporting the quantity of MDE items is required, this transmittal also reported the quantity of eighteen (18) for the IFATDS. The following non-MDE items were also included: communications equipment, including AN/PRC-160 and AN/PRC-167 radios and associated accessories and training; Defense Advanced Global Positioning System (GPS) Receivers (DAGRs); AN/PYQ-10 Simple Key Loaders; and other related elements of program and logistics support. The estimated total cost of the new items was \$21.5 million. The estimated total cost of the new MDE items was \$11.5 million, but did not result in a net increase in total cost of MDE, which remained at \$440 million. The estimated total cost of new non-MDE items was \$10 million, but did not result in a net increase in total cost of non-MDE, which remained at \$55 million. The estimated total case value remained at \$495 million.

This transmittal notifies the addition of the following MDE items: eight (8) M142 HIMARS launchers; thirty-six (36) M30A2 GMLRS AW missile pods with IMPS; thirty-six (36) M31A2 GMLRS Unitary HE missile pods; and eight (8) IFATDS. The following non-MDE items will also be included: battle management system Vehicle Integration Kits; M28A2 LCRRPR pods; ruggedized laptops; training equipment publications for HIMARS and munitions; communications equipment, including the AN/PRC-160, AN/PRC-163, AN/PRC-167 radios, and associated accessories and training; KIK-11 and AN/PYQ-10 Simple Key Loaders; and other related elements of program and logistics support. The estimated total value of new items is \$360.3 million. The estimated MDE value will increase by \$247.8 million to a revised \$687.8 million. The estimated non-MDE value will increase by \$112.5 million to a revised \$167.5 million. The estimated total case value will increase by \$360.3 million to a revised \$855.3 million. MDE constitutes \$687.8 million of this total.

(iv) (U) Significance: The inclusion of this MDE represents an increase in capability over what was previously notified. The proposed sale will contribute to Lithuania's military goals of updating its capability while further enhancing interoperability with the United States and other allies. Lithuania intends to use these defense articles and services to modernize its armed forces and expand its capability to strengthen its homeland defense and deter regional threats.

(v) (U) Justification: This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a NATO Ally that is an important force for ensuring peace and stability in Europe.

(vi) (U) Sensitivity of Technology: The AN/PRC-163 multi-channel handheld radio is a versatile, secure solution that leverages crossbanding to provide simultaneous data and voice across satellite communications (SATCOM), Line-of-Sight, and Mobile Adhoc Networking modes. As mission needs evolve, this software-defined handheld supports fast, in-field updates to new capabilities. An external mission module hardware interface allows warfighters to quickly add options including intelligence, surveillance, and reconnaissance video and SATCOM.
