PART 960—IRISH POTATOES GROWN IN MICHIGAN, WISCONSIN, MINNESOTA, AND NORTH DAKOTA

MODIFICATION OF GENERAL CULL REGULATION

§ 960.302 *Modification of General Cull Regulation*—(a) *Findings*. It is hereby found that: (1) Pursuant to the provisions of § 960.4 of Marketing Order No. 60, regulating the handling of Irish potatoes grown in the States of Michigan, Wisconsin, Minnesota, and North Dakota, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, § 960.301 *General Cull Regulation* was issued September 16, 1947, was published in the Federal Register on September 18, 1947 (12 F. R. 6256), and was effective 12:01 a. m., c. s. t., September 22, 1947, and

(2) Pursuant to the provisions of § 960.301, not more than 5 percent of the potatoes in any container in any shipment subject to such regulation may be seriously damaged by hollow heart, and

(3) Pursuant to the provisions of § 960.4 (b) of Marketing Order No. 60,

the North Central Potato Committee recommends to the Secretary that § 960.301 be modified to allow shipment thereunder of Irish Cobbler variety of potatoes, grown in Kittson, Marshall, Polk, Norman, and Mahanomen Counties in the State of Minnesota and in Pembina, Cavalier, Walsh, Grand Forks, and Trail Counties in the State of North Dakota without regard to defects therein caused by serious damage from hollow heart because (i) serious damage from hollow heart in approximately 25 percent of such variety of potatoes grown in the aforesaid counties is in excess of the tolerance for defects permitted by § 960.301, and (ii) hollow heart is an internal defect and potatoes damaged thereby cannot be eliminated from containers or shipments by any customary sorting process, and

(4) The modification of § 960.301, in accordance with the aforesaid recommendations of the North Central Potato Committee will tend to effectuate the declared policy of Agricultural Marketing Agreement Act of 1937, as amended, and

(5) It is hereby further found that compliance with the notice, public rule making procedure, and 30-day effective date requirements of the Administrative Procedure Act (Public Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when the information, upon which the proposed order is based, became available and the time when this order must become effective, in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) On and after 12:01 a. m., c. s. t., October 5, 1947, and until suspended or further modified pursuant to § 960.4 of Marketing Order No. 60, potatoes of the Irish Cobbler variety grown in that portion of the production area defined in subparagraph (2) hereof, which do not meet the requirements of U. S. No. 2 or better grade, as such grades are defined in said U. S. Standards for potatoes (12 F. R. 3651), only because of serious damage from hollow heart shall not be prohibited from shipment under the terms and provisions of § 960.301 (12 F. R. 6256).

(2) That portion of the production area to which this modification applies is defined as follows: The counties of Kittson, Marshall, Polk, Norman, Mahanomen, in the State of Minnesota, and the counties of Pembina, Cavalier, Walsh, Grand Forks, and Trail in the State of North Dakota.

(3) As used in this section the terms "shipment" and "regulation" shall have the same meaning as when used in Marketing Order No. 60. (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 1st day of October 1947.

Chapter I—Interstate Commerce Commission

PART 20—PIPE LINE COMPANIES: UNIFORM SYSTEM OF ACCOUNTS

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 22d day of August A. D. 1947.

The matter of accounting regulations for pipe line companies being under consideration pursuant to the provisions of section 20 (3) of the Interstate Commerce Act, as amended; and

It appearing, that such regulations, as they were in force June 1, 1938, were published in the First Edition of the Code of Federal Regulations under this chapter and title, but were substantially modified by an order dated November 27, 1942, which order was filed with the Director of the Division of the Federal Register but was not published in the FEDERAL REGISTER or in supplements to the Code; and

It further appearing, that the accounting regulations for pipe lines, so modified, are substantive rules which are required by section 3 (a) (3) of the Administrative Procedure Act to be published currently in the FEDERAL REGISTER, but no general notice of proposed rule making as contemplated by section 4 of that act is required because said amended regulations were prescribed prior to the effective date of such requirement (54 Stat. 917, 49 U. S. C. 20 (3));

AUTHORITY: §§ 20.00 to 20.804, inclusive, issued under sec. 20, 24 Stat. 386, as amended, 54 Stat. 917; 49 U. S. C. 20 (3).

SPECIAL NOTE: In the regulations under Part 20 of this chapter the numbers assigned to sections thereof include as a whole number, following the decimal point, the number of the prescribed account. Where references throughout the regulations are to an account, as such, only the account number portion of the section number is used. For example: Account 1, "Investment in carrier property," may be mentioned in the instructions or in the text of another account, and will be found as § 20.1 under balance sheet. Sections devoted to instructions, as distinguished from the texts of the prescribed accounts, are numbered § 20.0, with the prescribed instruction number following a dash.

§ 20.00 *Order of the Commission.* It is ordered, that: The "Uniform System of Accounts for Pipe Lines," with all modifications currently effective, together with a copy of this order, shall be filed with the Director of the Division of the Federal Register for publication in the FEDERAL REGISTER, and that a copy of this order be deposited in the office of the Secretary of the Commission at Washington, D. C.

INTRODUCTION

§ 20.0-0 *General instructions.* The serially numbered instructions, which are introduced by this section, relate to matters of general accounting terms and procedure. Each major grouping of accounts prescribed hereinafter is preceded by a list of instructions pertaining specifically to those accounts.

§ 20.0-1 *Records.* (a) The carrier's records shall be kept with sufficient particularity to show fully the facts pertaining to all entries in these accounts.

(b) Where the full information is not recorded in the general books the entries therein shall be supported by other records in which the full details shall be shown and the general-book entries shall contain sufficient reference to the detail records to permit ready identification.

(c) The detail records shall be filed in such manner as to be readily accessible for examination by representatives of this Commission.

(d) Attention is directed to the following extract from section 20 of the Interstate Commerce Act:

Any person who shall wilfully make any false entry in the accounts of any book of accounts or in any record or memoranda kept by a carrier, or who shall wilfully destroy, mutilate, alter, or by any other means or device falsify the record of any such account, record, or memoranda, or who shall wilfully neglect or fail to make full, true, and correct entries in such accounts, records, or memoranda of all facts and transactions appertaining to the carrier's business, or shall keep any other accounts, records, or memoranda than those prescribed or approved by the Commission, shall be deemed guilty of a misdemeanor, and shall be subject, upon conviction, in any court of the United States of

competent jurisdiction, to a fine of not less than one thousand dollars nor more than five thousand dollars or imprisonment for a term not less than one year nor more than three years, or both such fine and imprisonment: *Provided*, That the Commission may, in its discretion, issue orders specifying such operating, accounting or financial papers, records, books, blanks, tickets, stubs, or documents of carriers which may, after a reasonable time, be destroyed, and prescribing the length of time such books, papers, or documents shall be preserved.

The Commission's order specifying records which may be destroyed is contained in its "Regulations to Govern the Destruction of Records."

(e) Accounts which are clearly summaries of other accounts prescribed herein (for example, account 55, "Funded debt unmatured," which summarizes the balance in the several funded debt accounts) are not required to be kept in the carrier's books.

(1) Carriers may subdivide any of the accounts, provided such subdivisions do not impair the integrity of the accounts prescribed.

(2) The titles of all such subdivisions or subaccounts shall refer by number or title to the accounts of which they are subdivisions.

(3) When subaccounts are thus kept, it is not required that the main accounts of which they are subdivisions also shall be kept in the carrier's books.

(4) Clearing accounts, in addition to those prescribed herein, may be kept when necessary in making the proper distribution of items to the appropriate primary accounts.

(5) As of the effective date of this system of accounts, the several accounts prescribed herein shall be opened by appropriately transferring thereto the balances carried in the accounts previously maintained by the carrier.

(6) The carrier is permitted for code or other purposes to prefix or suffix to the account numbers prescribed herein, letter or number designations providing that such additions do not impair the integrity of the prescribed account numbers.

(7) The carrier is authorized to make such subdivisions, reclassifications, or consolidations of such balances as are necessary to meet the requirements of this system of accounts.

(8) Temporary or experimental accounts may be kept in addition to the accounts prescribed in this part for the purpose of developing the efficiency of operations, etc.: *Provided*, Such accounts do not impair the integrity of any accounts provided in this part.

(f) The accounts for each month shall be recorded currently.

(g) The general-ledger balance of each suspense or open account as of the close of each month shall be verified by comparison with the total of the detail items covered therein, except that when so authorized by this Commission upon showing that the integrity of any ledger account can be maintained with less frequent verification of the balances, verifications may be made at periods designated in this Commission's specific authority.

(h) Balances shall be struck for each account at the close of each calendar

year and the balances thus determined in each account at the close of each year shall be carried forward to the corresponding account for the succeeding year.

§ 20.0-2 *Definitions.* When used in this system of accounts the term:

(a) "Actually issued," as applied to certificates of capital stock or evidences of funded debt issued or assumed by the carrier means those which have been sold to bona fide purchasers for a valuable consideration (including those issued in exchange for other securities or other property) under the condition that the purchasers secured them free from all control by the issuing carrier.

(b) "Actually outstanding," as applied to certificates of capital stock or evidences of funded debt means those which have been "actually issued" and are not held by or for the carrier.

(c) "Affiliated companies," means:

(1) Controlled companies, i. e., companies solely controlled by the carrier, and also companies jointly controlled by the carrier and others under a joint arrangement.

(2) Controlling companies, i. e., companies solely controlling the carrier and also companies which jointly control the carrier under a joint arrangement.

(3) Companies controlled by controlled companies.

(4) Companies controlled by controlling companies.

(i) By "control," is meant the ability to determine the action of a company. For the purposes of this instruction the following are to be considered forms of control:

(a) Right through title to securities issued or assumed by the controlled company to exercise the major part of the voting power in the controlled company.

(b) Right through agreement or through sources other than title to securities to name the majority of the board of directors, managers, or trustees of the controlled company.

(c) Right to foreclose a priority lien upon all or a major part in value of the tangible property of the controlled company.

(d) Right to secure control in consequence of advances made for construction of the property of the controlled company.

(ii) A leasehold interest in the property of a company is not, for the purpose of these accounts, to be classed as a form of control over the lessor company.

(iii) Sole control is that which rests in one company.

(iv) Joint control is that which rests in two or more companies, and which is held under a joint arrangement.

(d) "Book cost" or "book value" means the amount at which assets are to be recorded in the accounts of the carrier.

(e) "Book liability" means the amount at which securities issued or assumed by the carrier and other liability items are to be recorded in the accounts of the carrier.

(f) "Carrier" means common carrier.

(g) "Carrier property" means physical property used in pipe-line service and physical property held for such service under a definite plan.

(h) "Cost of removal" means the cost of demolishing, tearing down, dismantling, removing, or otherwise disposing of carrier property and recovering the salvage.

(i) "Debt expense," as applied to debt, means all expenses in connection with the issue and sale of evidences of debt, such as fees for drafting mortgages and trust deeds; fees and taxes for issuing or recording evidences of debt; cost of engraving and printing bonds, certificates of indebtedness, and other commercial paper; fees paid trustees; specific costs of obtaining governmental authority; fees for legal services; fees and commissions paid underwriters, brokers, and salesmen for marketing such evidence of debt; fees and expenses of listings on exchanges; and other like costs.

(j) "Delayed items" means items relating to transactions which occurred before the current calendar year, including adjustments of errors.

(k) "Depreciable accounts" are those in which it is required shall be recorded the cost of those classes of property for which depreciation charges in operating expenses and other accounts are prescribed by this system of accounts.

(l) "Depreciation" means the loss in service value not restored by current maintenance and incurred in connection with the consumption or prospective retirement of physical property in the course of service from causes against which the carrier is not protected by insurance, which are known to be in current operation, and the effect of which can be forecast with a reasonable approach to accuracy.

NOTE: Among the causes which may result in the loss of the service value of depreciable property are:

- (a) Physical depreciation.
- (b) Obsolescence.
- (c) Inadequacy.
- (d) Decline and exhaustion of the traffic which the property was designed to transport.

(m) "Discount," as applied to actually outstanding securities issued or assumed by the carrier, means the excess of the par value of the securities plus interest or dividends accrued at the date of the sale over the current money value of the consideration received at their sale.

(n) "Group plan," as applied to depreciation accounting, means the plan under which depreciation charges are accrued upon the basis of the book cost of all property included in each depreciable account, using the average service life thereof properly weighted, and upon the retirement of any depreciable property its full service value is charged to the depreciation reserve whether or not the particular item has attained the average service life.

(o) "Investment advances" means advances, represented by notes or by book accounts which it is mutually agreed or intended between the creditor and the debtor shall be settled by the issuance of capital stock or funded debt and advances not subject to current cash settlement.

(p) "Minor items," as applied to carrier property other than land, means any part or element thereof which is not

designated as a unit of property in Appendix A.

(q) "Nominally issued," as applied to certificates of capital stock or evidences of funded debt, means those which have been signed, certified, or otherwise executed and placed with the proper officer for sale or pledged or otherwise placed in some special fund of the carrier but which have not been sold.

(r) "Nominally outstanding," as applied to certificates of capital stock or evidences of funded debt, means those which, after being actually issued, have been reacquired by or for the carrier under such circumstances as require them to be held alive and not canceled or retired.

(s) "Nonaffiliated companies" means all companies other than those defined as affiliated in paragraph (c) of this section.

(t) "Noncarrier property" means property neither used in nor held under a definite plan for pipe-line service or service incidental thereto.

(u) "Nondepreciable accounts" are those in which shall be recorded the book cost of those classes of property for which no charges to operating expenses for depreciation are permitted.

(v) "Original cost," as applied to carrier property, means actual construction cost if of record and estimated if not of record.

(w) "Pipe-line operations" and "pipe-line service" means the service by common carriers in transporting oil or other commodities, except water and natural or artificial gas, by pipe lines and service incidental thereto.

(x) "Premium," as applied to actually outstanding securities issued or assumed by the carrier, means the excess of the current money value of the consideration received at their sale over the sum of their par value and interest or dividends accrued at the date of the sale.

(y) "Property retired," as applied to carrier property, means property which has been removed, sold, abandoned, destroyed, or otherwise withdrawn from pipe-line service, and not held for such service.

NOTE: The dismantling or tearing down of a structure or a unit of equipment in order to replace parts thereof with improved parts, the purpose of which is to modernize the unit and to extend its life beyond its original expectation of life, shall be accounted a retirement, but the dismantling or stripping of such property only to the extent necessary to recondition or to replace in kind defective parts shall be accounted as repairs. (This does not apply to oil-line pipe and line-pipe fittings.)

(z) "Replacement" means the installation of physical property in substitution of other property which has been retired.

(aa) "Retirement," as applied to physical property, means the permanent withdrawal of the property from the service in which it has been used.

(bb) "Service life" means the period between the time of installation and the time of retirement of carrier property.

(cc) "Service value," as applied to carrier property, is the book cost thereof plus the cost to the carrier of salvaging

the property and less the value of the salvage therefrom.

NOTE: The cost of recovering less than units of line pipe and fittings which are replaced in kind shall be included in operating expenses and not as a factor in the service value of such property. (See also text of accounts 602, 652, 752, "Repairs of pipe lines.")

(dd) "Shop plant" means a shop or group of shops for the repairs and/or construction of carrier property.

(ee) "Straight-line method," as applied to depreciation accounting, means the plan under which the service value or property is charged to operating-expense, carrier-property, and clearing accounts and credited to account 74, "Accrued depreciation—Carrier property," through equal annual charges based on established rates applied to the book cost of the property during its service life.

(ff) "The carrier" means the accounting company.

(gg) "These accounts" means the accounts of the particular group to which the instruction relates; for example, if used in connection with the carrier's property accounts it means accounts 101 to 193, inclusive.

(hh) "Time of installation" means the date at which carrier property is completed and/or placed in pipe-line service.

(ii) "Time of retirement" means the date at which carrier property is withdrawn from pipe-line service.

(jj) "Value of salvage" means the amount received for property retired, or for the material salvaged therefrom, if sold, or if retained the value at which the property or the material salvaged therefrom is chargeable to account 17, "Material and supplies," or other accounts of this system of accounts.

§ 20.0-3 *Unaudited items.* When the amount of any known item affecting the income accounts cannot be accurately determined in time for inclusion in the accounts of the calendar year in which the transaction occurs, the amount of the item shall be estimated and included in the proper account and credited to account 78, "Other deferred credits," or charged to account 28, "Other deferred debits," as may be appropriate, the necessary adjustments to be made (through the account in which was recorded the estimate) when the item is audited. If, during the interval between the date of inclusion of the item in the accounts and the date on which it is audited, a substantial difference is determined between the initial estimate and the actual amount of the item, appropriate adjustment shall be made in the current accounts to cover such difference. The carrier shall preserve in its files a record of the information upon which this supplemental estimate is based. The carrier is not required to anticipate minor items which would not appreciably affect the accounts.

§ 20.0-4 *Delayed items.* Delayed items shall be charged or credited to the same accounts which should have been charged or credited if the items had been taken up or adjusted in the period to which they pertain. When the amount

of a delayed item is relatively so large that its inclusion in the accounts for a single month would seriously distort those accounts, it may be distributed in equal amounts within the current and remaining months of the calendar year.

(b) If the amount of any delayed item is relatively so large that its inclusion in the accounts for a single year would seriously distort those accounts, the carrier, if so authorized, upon application to this Commission, may distribute to the delayed income accounts so much of the amount as may be authorized. In requesting the authority, the carrier shall file with this Commission the full particulars concerning each item and the reasons which, in its judgment, indicate the propriety of such accounting.

§ 20.0-5 *Profits and losses from foreign exchange.* Profits and losses from premiums and discounts on foreign exchange shall be included in account 409, "Miscellaneous income," or account 415, "Miscellaneous income charges," as may be appropriate.

§ 20.0-6 *Interpretation of item lists.* Lists of "items" appearing in the texts of the several accounts are given for the purpose of clearly indicating the application of the accounting rules in specific cases. The lists are not to be considered as comprising all the items includible in the several accounts, but merely as representative of them. On the other hand the appearance of an item in a list warrants the inclusion of such item in the account concerned only when the text of the account also indicates inclusion, inasmuch as the same item frequently appears in more than one list. The proper entry in each instance must be determined by the texts of the accounts.

§ 20.0-7 *Submission of questions.* To the end that uniformity of accounting may be maintained, the carrier shall submit all questions of doubtful interpretation of the accounting rules to this Commission for consideration and decision.

§ 20.0-8 *Depreciation accounting—(a) Computing and filing of depreciation rates.* (1) The carrier shall file with this Commission composite annual percentage rates estimated to be applicable to the book cost of each class of depreciable carrier property owned or used by it. These percentage rates shall be based on the estimated service values and service lives developed by a study of the carrier's history and experience and such engineering and other information as may be available with respect to prospective future conditions. These percentage rates shall be computed in conformity with the group plan of accounting for depreciation and shall be such that the loss in service value of the property, except for losses excluded under the definition of depreciation may be distributed under the straight-line method during the service life of the property. Such percentage rates shall for each primary account comprised of more than one class of property, produce a charge to operating expenses for that account equal to the sum of the amounts that would otherwise be chargeable for each of the various classes of property in-

cluded in the account. The annual percentage rates so filed shall be accompanied by a sworn statement showing the bases therefor and the methods employed in their computation. A carrier subject to the provisions of this system of accounts on January 1, 1935, shall file such percentage rates not later than September 1, 1935. A carrier which becomes subject to the provisions of this system of accounts after January 1, 1935, shall file such percentage rates within 6 months after the provisions of this system of accounts become applicable to it. The carrier shall be prepared at any time, upon direction of this Commission, to compute and submit for its approval revised percentage rates in cases where existing rates are deemed inapplicable.

(2) In the event any composite percentage rate prescribed by this Commission, in the judgment of the carrier, becomes no longer currently applicable, it shall in like manner file annual percentage rates which in its judgment should be established.

(3) The carrier shall keep such records of property and property retirements as will reflect the service life of property which has been retired, or will permit the determination of service-life indications by mortality, turn-over, or other appropriate methods, and also such records as will reflect the percentage of value of the salvage for property retired from each class of depreciable carrier property.

(b) *Depreciation charges.* Charges for currently accruing depreciation shall be made monthly to accounts 613, 663, 763, "Depreciation," and corresponding credits shall be made to account 74, "Accrued depreciation—carrier property." In computing the current monthly charges, one-twelfth of the composite annual percentage rate applicable to each primary account covering depreciable carrier property shall be applied to the balances as of the first of the current month in each such primary account.

(c) *Depreciation rates.* A separate composite annual percentage rate for each account covering depreciable carrier property shall be used in computing depreciation charges. Such composite rates shall be those which are from time to time prescribed by this Commission, except that where no rates previously have been prescribed for the carrier's use by this Commission, the carrier's estimates of composite annual percentage rates computed in accordance with paragraph (a) of this section shall be used prior to the dates rates prescribed by this Commission becomes effective.

NOTE: Where the composite rate as prescribed by this Commission has been developed by the application of component rates to the various subclasses of property within a primary account and a segregation of the property to which they are applicable is maintained or is available, such component rates may be used in computing the current depreciation charges (as long as the property to which they apply is in service and the estimated service lives, etc., upon which they are based remain the same) without a supplemental order, regardless of the fact that the amount of the various classes of property has so changed as to make possible the computation of a slightly different composite rate.

(d) *Classes of depreciable carrier property.* The classes of depreciable carrier property and the accounts covering such property are as follows:

Account No.			Account title
Gathering lines	Trunk lines	General	
102	152	-----	Rights-of-way.
103	153	-----	Line pipe.
104	154	-----	Line-pipe fittings.
105	155	-----	Pipe-line construction.
106	156	176	Buildings.
107	157	-----	Boilers.
108	158	-----	Pumping equipment.
109	159	179	Machine tools and machinery.
110	160	-----	Other station equipment.
111	161	-----	Oil tanks.
112	162	-----	Delivery facilities.
113	163	183	Communication systems.
114	164	184	Office furniture and equipment.
115	165	185	Vehicles and other work equipment.
116	166	186	Other property.

(e) Except as provided in paragraph (f) of this section upon the retirement of a unit of depreciable property the service value shall be charged in its entirety to account 74, "Accrued depreciation; carrier property." The depreciation reserve shall be credited with the full amount of any insurance recovered.

(f) Upon proof by the carrier that the charge to the depreciation reserve in connection with the retirement of depreciable property will result in undue depletion thereof, with the approval of this Commission, it may charge to account 312, "Debits from retired carrier property," or to account 27, "Extraordinary maintenance suspense" (note text thereof), such part of the service value of the retired property which it is authorized to charge thereto. In case the amount of insurance recovered by the carrier, creditable to account 74, "Accrued depreciation—carrier property," would unduly inflate that account, the carrier may credit to account 302, "Credits from retired carrier property," such part of the insurance recovered as it may be specifically authorized by this Commission to so credit. The application to this Commission for such special accounting shall give full particulars concerning the situation, and shall indicate the carrier's reason for the accounting proposed.

§ 20.0-21 *Purpose of balance-sheet accounts.* The balance-sheet accounts (1 to 82, inclusive) are designed to show the assets, liabilities, capital stock, and surplus or deficit of the carrier.

§ 20.0-22 *Current assets.* (a) In the group of accounts designated as current assets (accounts 9 to 20, inclusive) shall be included cash, those assets which are readily convertible into cash or held for current use in operations or construction, current claims against others, and amounts accruing to the carrier which are subject to current settlement.

(b) There shall not be included under current assets any amount the collection of which is not reasonably assured by the known financial condition of the debtor. The amount of any item of current character but doubtful value shall be written down or written off by charges to account 423, "Bad debts."

§ 20.0-23 *Book value of securities owned.* (a) This system of accounts requires that the securities of others acquired by the carrier shall be recorded at the money value, at the time of acquisition, of the consideration given therefor by the carrier, but excluding amounts paid for accrued interest or accrued dividends.

(b) The carrier shall write down such book costs or create reserves in recognition of a substantial decline in the value of the securities. Fluctuations in market values shall not be recorded but permanent impairment in values shall be recognized in the accounts. Securities shall be written down or reserves created to reflect loss in value, or written off entirely if there is no reasonable prospect of future value. Adjustments in the book values of securities shall not be delayed beyond the year in which a loss is claimed for income tax purposes. The amount of such adjustments shall be debited to account 314, "Miscellaneous debits."

(c) Carriers may create reserves to provide for depreciation in the values of securities owned by charges to account 314, "Miscellaneous debits." (Note account 79, "Reserve for adjustment of investment in securities.")

(d) When securities with a fixed maturity date are purchased at a discount or premium (i. e., when the total cost including brokerage fees, taxes, commissions, etc., is less or more than par) such discount or premium may be amortized over the remaining life of the securities by periodical debits or credits to the account in which the cost of the securities is recorded with corresponding credits to account 409, "Miscellaneous income," or debits to account 415, "Miscellaneous income charges," as appropriate. If the annual amount to be amortized does not exceed \$1,000, the carrier may write off the total discount or premium by inclusion in the appropriate income account. No amortization entries shall be recorded in respect to discount upon securities held as investments unless there is reason to believe the securities will be disposed of at a sum equal to par or par will be collected at maturity.

§ 20.0-24 *Company securities owned.* (a) The book value of nominally issued and nominally outstanding stocks and funded debt securities issued or assumed by the carrier shall be shown in the short columns only of the balance-sheet statement of the carrier to this Commission. Such securities having a par value shall be so shown at their par value and for stocks having no par value there shall be shown the number of shares and any nominal value assigned thereto.

(b) The necessary adjustments of the difference between book liability for securities reacquired and the amount actually paid for them shall be made in accordance with the provisions of § 20.0-26

Discount and premium on capital stock, and § 20.0-27 Discount, premium, and expense on funded debt, as appropriate.

§ 20.0-25 *Income from sinking, insurance, and other reserve funds.* When interest and other income arising from reserve funds (note account 407, "Income from insurance and other reserve funds") are required by the mortgage or other provisions to be held in the funds, such income shall be charged as appropriate to account 4, "Sinking funds," or account 22, "Insurance and other funds." If such funds are represented by a reserve established through reservations of income or surplus, amounts so set aside shall be charged to account 420, "Miscellaneous reservations of income," or account 315, "Miscellaneous reservations of surplus," as may be appropriate, and credited to account 81, "Appropriated earned surplus."

§ 20.0-26 *Discount and premium on capital stock.* (a) All discounts suffered and premiums realized at the sale, resale, or exchange of each particular class of par stock issued or assumed by the carrier shall be included in a separate discount and premium account.

(b) Discount on each subclass of capital stock may be offset or reduced by charges to account 53, "Premium on capital stock," to the extent that premiums have been included therein, or to account 80, "Unearned surplus," to the extent that net gains from reacquisition, resale, or retirement of capital stock applicable to such subclass have been included therein. Any remaining discount may be amortized by charges to account 316, "Stock discount extinguished through surplus," or may be retained in account 25, "Discount on capital stock," until the stock to which the discount applies is reacquired.

(c) Except as provided in paragraph (b) premiums on capital stock shall be carried in account 53, "Premium on capital stock," until the stock to which the premiums apply is reacquired.

(d) When an issue of capital stock, or any part thereof, is reacquired either by purchase or through donations by stockholders, it shall be charged at its par value, or if stock without par value, at the proportionate amount at which the particular class of stock is included in account 51, "Capital stock," to that account if canceled, and to accounts 4, "Sinking funds," 8, "Company securities owner," or 22, "Insurance and other funds," as may be appropriate, if not canceled. The difference between the amount at which such reacquired stock was recorded in account 51, "Capital stock," and the amount paid by the accounting company for such stock, including any premiums or discount applicable to each subclass carried in account 53, "Premium on capital stock," or account 25, "Discount on capital stock," shall be included in account 80, "Unearned surplus": *Provided, however,* That the excess of a debit over the amount of accumulated net gains applicable to each subclass included in unearned surplus shall be charged to account 314, "Miscellaneous debits."

(e) When reacquired capital stock is resold the difference between the amount

at which such stock is included in a particular asset account and the net sale price realized when resold shall be included in account 80, "Unearned surplus," subject to the proviso in paragraph (d) of this section.

(f) In no case shall discount on capital stock be charged to or included in any account as a part of the cost of acquiring property or as a part of the cost of operation.

(g) Assessments against stockholders shall be credited to the premium account of the particular class of capital stock so assessed, except that assessments with respect to nonpar stock shall be credited to account 51, "Capital stock."

§ 20.0-27 *Discount, premium, and expense on funded debt.* (a) All discounts suffered, premiums realized, and expense incurred at the sale, resale, or exchange of each particular class of funded debt issued or assumed by the carrier shall be included in a separate discount, premium, and expense on funded-debt account.

The amounts thus credited shall be concurrently charged to account 418, "Amortization of discount on funded debt." Correspondingly each month or other accounting period there shall be charged to each account in which there is a credit balance the proportion of each of the credit balances therein as is applicable to the period. The journal entries recording such investments shall be presented to the Commission for consideration and approval before being entered on the books. (b) The carrier shall apply to the Commission for permission to use account 193, so far as it is adequate, for the adjustment of differences between amounts originally set up with respect to such investment items and the value of such items as finally determined; and earned surplus shall be affected only by losses and gains clearly attributable to operations subsequent to date of reorganization.

§ 20.64 *Funded debt matured unpaid.* This account shall include the amount of funded debt and receivers' certificates matured and unpaid without any specific agreement for extension as to time of payment, including unrepresented bonds drawn for redemption through the operation of sinking and redemption-fund agreements.

§ 20.65 *Unmatured dividends declared.* This account shall include dividends declared on capital stock, but not payable until after the first business day following the date of the balance sheet.

§ 20.66 *Unmatured interest accrued.* This account shall include the amount of interest on loans and on funded debt and receivers' certificates issued or assumed, accrued to the date for which the balance sheet is made, but not payable until after the first business day following that date.

§ 20.67 *Unmatured rents accrued.* This account shall include rents, under leases or other agreements, accrued to the date for which the balance sheet is made, but not payable until after the first business day following that date. It shall

include also the amount of accrued dividends on stock and accrued interest on the funded debt of other companies when such dividends and interest are payable by the carrier as all or a portion of the rent under leases or other agreements with those companies.

NOTE: Matured rents shall be included in account 69, "Other current liabilities," unless they have been vouchered and are therefore classable in account 61, "Accounts payable."

§ 20.68 *Taxes accrued.* This account shall include the amount of unpaid taxes accrued and chargeable to accounts 412, "Pipe-line taxes"; 413, "Taxes on miscellaneous operating physical property"; 414, "Miscellaneous taxes"; and to the carrier-property accounts, including the amount of the employers' tax assessed under the Social Security Act.

NOTE: Taxes paid in advance of the periods to which they apply shall be carried in account 24, "Taxes paid in advance."

§ 20.69 *Other current liabilities.* This account shall include current liability items which have not yet reached the stage of audited accounts and become classable under accounts payable and yet have advanced beyond the stage of accounts properly classable under Deferred Credits and Reserves.

DEFERRED CREDITS AND RESERVES

§ 20.70 *Liability for provident funds.* (a) This account shall include the amounts contributed by employees or others (whether carried in special trust funds or in general funds of the carrier) for pensions, accident and death benefits, savings, relief, hospital, and other provident purposes, when administered by trustees or managers acting for the carrier.

(b) This account shall include also the amount accrued for pensions through charges to account 635, 685, 785, "Relief and pensions." Amounts so credited shall, when actually paid to retired employees or paid into a trust fund irrevocably devoted to the payment of pensions, be charged hereto.

§ 20.71 *Premium on funded debt.* This account shall include the total of the net credit balances in the discount, expense, and premium accounts for the several subclasses of funded debt.

§ 20.72 *Insurance reserve.* (a) In case the carrier elects to carry its own risks for losses through accident, fire, flood, or other cause and provides a reserve, other than provision made in the depreciation reserve, to equalize anticipated losses, the charges to account 638, 688, 788, "Insurance," and other appropriate accounts to cover such risks shall be credited to this account. Such charges and credits shall be upon the basis of rates which fairly cover the risks insured. These rates should be determined according to the carrier's experience and best estimate as to the hazard covered. A schedule of risks covered by this reserve shall be maintained giving a description of the property or the character of the risks covered.

(b) If the carrier reinsures with insurance companies risks initially covered in this account, the premiums for such reinsurance shall be charged hereto and the amounts recovered under such com-

mercial insurance shall be credited hereto.

(c) To the extent that losses and damages sustained are covered by this account, an amount equal thereto shall be charged to this account and credited to the accounts appropriate for the losses and damages sustained.

NOTE: All losses and damages sustained, including those covered by commercial insurance or by this account, shall be charged in the first instance to the depreciation reserve, carrier-property, repair, injuries to persons, loss and damage, or other appropriate account according to the character of the loss. Insurance recoverable, or chargeable to this account on account of losses and damages sustained, shall be credited to the account to which the losses and damages are chargeable.

§ 20.73 *Operating reserves.* (a) This account shall include ledger balances representing reserves created by charges to operating expenses for the maintenance of carrier property, personal injuries, injuries and damages, and other claims, such charges being made currently for the purpose of equalizing the charges to operating-expense accounts for the current accounting year. (See § 20.0-79 *Equalization expenses.*)

(b) It shall also include amounts charged to account 613, 663, 763, "Depreciation," to cover losses through obsolescence of operating-material stock. (See also account 17, "Material and supplies.")

The carrier shall adjust through the appropriate operating expense accounts the balances in this account at the close of the year, except that the estimated amount of claims to be liquidated in the future shall be carried until payment is made and provisions for losses from obsolescence of material stock which shall be cleared as the losses are realized. A separate record shall be kept of operating-reserve accounts for each year.

NOTE A: The credit balances in reserve accounts representing appropriations of income or surplus for sinking funds, etc., shall not be included in this account.

NOTE B: Accrued depreciation credit balances shall be included in accounts 74 or 76, as may be appropriate.

§ 20.74 *Accrued depreciation; Carrier property.* (a) To this account shall be credited amounts charged to account 613, 663, 763, "Depreciation," investment in carrier-property, clearing, and other accounts to cover the loss in service value of depreciable carrier property. It shall be credited also with any amounts which the carrier may be authorized to charge to account 311, "Delayed income debits," in respect of past accrued depreciation not provided for.

(b) At the time of retirement of depreciable carrier property this account shall be charged with its service value and to it shall be credited the insurance recovered, if any. It shall be credited with amounts chargeable to account 27, "Extraordinary maintenance suspense," or to account 312, "Debits from retired carrier property," and charged with amounts creditable to account 302, "Credits from retired carrier property," as provided in paragraph (g) of § 20.0-8 *Depreciation accounting.*

(c) For corporate ledger and balance-sheet purposes, this account shall be regarded and treated as a single composite

reserve. However, for purposes of analysis, the carrier shall maintain subsidiary records in which the depreciation reserve is broken down into component parts corresponding to the primary pipe-line accounts which include depreciable carrier property; these subsidiary records shall show the current credits and debits in the reserve in complete detail by such primary pipe-line accounts.

(d) Note text of account 75, "Amortization reserve."

§ 20.75 *Amortization reserve.* (a) This account shall be credited with amounts concurrently charged to account 613, 663, 763, "Depreciation," when the carrier is authorized by the Commission to provide a reserve to extinguish amounts carried in account 1, "Investment in carrier property," relating to probable abandonment of carrier property due to exhaustion of particular sources of traffic, the date of which can be predicted with a reasonable approach to accuracy. In the event a change from depreciation accounting to amortization accounting is authorized by the Commission the balance in account 74, "Accrued depreciation—Carrier property," shall be transferred to this account. It is not required that balances in this reserve shall be broken down into component parts corresponding to the primary investment accounts. This account shall be charged at the time of retirement with the service value of property retired for which the carrier has accrued amortization.

(b) This account shall also be credited with amounts concurrently charged to account 314, "Miscellaneous debits," to provide for the retirement of amounts included in account 2, "Cost of organization," or 193, "Acquisition adjustment." When amounts are written out of these latter accounts, this account shall be charged with the balance carried therein with respect to such items.

§ 20.76 *Accrued depreciation; miscellaneous physical property.* (a) To this account shall be credited amounts charged to account 403, "Income from miscellaneous operating physical property," or account 404, "Income from miscellaneous nonoperating physical property," to cover the loss in service value of miscellaneous physical property. It shall also be credited with any amounts which the carrier may under authority of this Commission charge to account 311, "Delayed income debits," in respect of past accrued depreciation not provided for.

(b) At the time of retirement of depreciable miscellaneous physical property this account shall be charged with the service value of the property retired and shall be credited with the insurance recovered, if any.

§ 20.78 *Other deferred credits.* (a) This account shall include the amount of all deferred credits not includible in accounts 70 to 76, inclusive, such as retained percentages due to contractors to be paid upon completion of contract; installments of assessments for public improvements deferred with or without option to the carrier by the taxing authority; working fund advances from other companies; deposits (subject to refund) by employees to assure the return of company property such as keys, lanterns,

etc.; credit balances in clearing accounts; and items charged to operating revenues, operating expenses, income, or surplus on an estimated basis in accordance with § 20.0-3 *Unaudited items*.

(b) This account shall include also the amounts of credit balances in suspense accounts that cannot be entirely cleared and disposed of until additional information is received, such as accident repairs not completed; uncompleted accounts for property retired; fire loss; and other analogous items.

§ 20.79 *Reserve for adjustment of investment in securities.* (a) This account shall include the total of the balances in reserves maintained by the accounting company for the purpose of providing for reductions in the values of securities owned. Corresponding charges shall be made to account 314, "Miscellaneous debits."

(b) When such securities are written down, written off, or disposed of, this account shall be charged with amounts credited hereto with respect to the securities involved. If so authorized by the Commission recoveries in value of such securities not in excess of the reserve balance applicable thereto may be eliminated by credit to account 304, "Miscellaneous credits."

CORPORATE SURPLUS

§ 20.80 *Unearned surplus.* (a) This account shall include all surplus not classified as earned surplus. It shall include credits from reductions of the par or recorded value of the accounting company's capital stock; surplus arising from donations by the accounting company's stockholders; gains from acquisition, retirement, or resale of reacquired shares of the accounting company's capital stock and by forgiveness of debt of the accounting company.

(b) This account shall be maintained in such manner as to permit a ready analysis of the charges and credits thereto.

§ 20.81 *Appropriated earned surplus.* (a) This account shall include the total of the net balances of appropriation of income and earned surplus for the acquisition of capital assets, the retirement of debt, sinking and redemption funds, and all other appropriations (other than those provided for in accounts 70 and 72) specifically set aside in the hands of trustees, as well as appropriations for which no specific investment or segregation of assets has been made. It shall also include accretions to the assets held in the special funds.

(b) A subdivision of this account shall be maintained by classes of appropriations, the titles of which shall indicate the purpose for which the appropriations were made.

§ 20.82 *Earned surplus.* (a) This account shall include the net balance (debit or credit) of the amounts included in accounts 301 to 317, inclusive. It shall not include transfers either to or from account 80, "Unearned surplus," unless so authorized upon application to the Commission.

(b) The balance of accounts (301 to 317, inclusive) shall be closed into this account at the end of each calendar year.

CARRIER PROPERTY INSTRUCTIONS

§ 20.0-31 *Purpose of carrier-property accounts.* (a) The carrier-property accounts (101 to 193, inclusive) are designed to show the book costs of carrier property owned by the carrier.

(b) The balances to be stated in these accounts as of January 1, 1935, shall be as provided in § 20.0-32 *Statement of carrier-property accounts*. Subsequent entries shall be as provided by the remaining instructions for carrier-property.

(c) For the purpose of this system of accounts the classification of property as between carrier and noncarrier shall be consistent with the classification of property for valuation purposes, except that when the dominant use of carrier property is for pipe-line operations it is not contemplated that either the cost of parts not used for carrier purposes or rented to others shall be excluded from account 1, "Investment in carrier property."

§ 20.0-32 *Statement of carrier-property accounts.* (a) For accounting analysis purposes on and after January 1, 1935, the property in service on that date shall be classified in accordance with the texts of the primary carrier-property accounts. The costs of the property as stated in the accounts prior to that date shall be included at the book cost thereof in these accounts.

(b) As of January 1, 1935, there shall be included in primary account 191, "Construction work in progress," the expenditures for construction projects uncompleted as of that date.

(c) The difference, if any, between the total of the amounts included in the primary accounts under paragraphs (a) and (b), and the amount of the carrier's investment as of December 31, 1934, as shown in account 1, "Investment in carrier property," shall be included in account 192, "Unadjusted investments."

NOTE: In the assignment (provided in the foregoing) of the book cost of property to the primary accounts there shall be included an equitable proportion of the cost of engineering and interest during construction relating to each class of property.

§ 20.0-33 *Basis of charges.* Except as provided in the foregoing instructions the costs includible in account 1, "Investment in carrier property," shall be money costs to the carrier. When the consideration for the acquisition of carrier property is other than cash the value of such consideration shall be determined on a current cash basis. The carrier shall be prepared to furnish this Commission the particulars of its determination of the actual cash value of the consideration, if other than money.

§ 20.0-34 *Pipe-line operating property purchased.* (a) When property that will be used in pipe-line operations is purchased, such property shall be charged to account 1, "Investment in carrier property," at the purchase price in accordance with § 20.0-35 *Items to be charged*, except that where the purchase price exceeds \$25,000 but is less than the original cost the carrier may charge the original cost of the property as carried in the accounts of the vendor to account 1, "Investment in carrier property," in which case the excess of original cost

over purchase price shall be credited to the depreciation reserve. Where the purchase price exceeds \$25,000 and is less than the original cost and the accounting carrier elects to classify the property on the basis of purchase price, it shall after completing the studies necessary, distribute such purchase price among the appropriate primary carrier property accounts other than accounts 192 and 193, on the basis of an approximation or reasonable estimate of the values of the related property.

(b) Where the purchase price exceeds \$25,000 and also exceeds the original cost the charges to primary carrier property accounts other than accounts 192 and 193 shall in no case exceed the original cost of the property acquired. In such cases the difference between the sum of the amounts includible in the primary carrier property accounts and the purchase price shall be included in account 193, "Acquisition adjustment."

(c) When the purchase price of pipe-line property does not exceed \$25,000 the property shall be charged to the appropriate primary carrier property accounts other than accounts 192 and 193 at the price paid for the property.

(d) Tentative journal entries recording the purchase of pipe-line property at a cost in excess of \$25,000 shall be presented to the Commission for consideration and approval. The text of such entries shall give a complete description of the property purchased and the basis upon which the amounts of the entries have been determined.

§ 20.0-35 *Items to be charged.* To these accounts shall be charged the cost of all carrier property acquired, including property purchased, other than as provided for in § 20.0-34 *Pipe-line operating property purchased*, property constructed by or for the carrier (including units of property replacing property retired), improvements to the existing property, and all property transferred from noncarrier to carrier use.

NOTE: The cost of hand tools or other individual items of short life and small value (i. e., the cost of each is less than \$25), when not acquired under a general plan, shall be charged to operating expenses, if, in the judgment of the carrier, the acquisition of the property does not affect the condition and value of its property for valuation or depreciation purposes. The carrier is permitted to adopt for the purpose of its accounting a limit of less than aforesaid \$25, provided it first files with this Commission the maximum amount which it proposes to adopt and makes no subsequent change in this amount except by authority of this Commission.

§ 20.0-36 *Cost of construction.* The cost of the construction of property chargeable to the carrier-property primary accounts shall include the cost of labor, material and supplies, special machine service, transportation, contract work, protection, injuries and damages, cost of privileges and permits, taxes, rent, interest during construction, and other analogous elements in connection with such work, including costs for preliminary work such as sinking test holes or making soundings for buildings and other structures.

The several items of cost here referred to are defined as follows:

(a) "Cost of labor" includes the amount paid for labor performed by the carrier's own employees. The salaries and expenses of engineers and other officers specifically assigned to construction work shall be included in the accounts appropriate for the cost of the property in connection with which their services are rendered. No charge shall be made to these accounts for the pay of operating officers and members of their staffs who merely render service incidentally in connection with construction work.

NOTE: The office and traveling and other personal expenses of officers and employees shall be included in the accounts to which their pay is chargeable, except that traveling and incidental expenses incurred by operating officers and members of their staffs while rendering service incidentally in connection with construction work shall be included in the cost of the work upon which they are incidentally engaged.

(b) "Cost of material and supplies," including small tools, includes the purchase price at the point of free delivery, plus the costs of inspection and loading borne by the carrier, also a suitable proportion of store expenses; it includes also freight charges paid other carriers. In calculating the cost of material used, proper allowance shall be made for the value of unused portions and other salvage; for the value of the material recovered from temporary scaffolding, cofferdams, and other temporary structures used in construction; and for the value of small tools recovered and used for other purposes.

(c) "Special machine service" includes:

(1) The cost of labor expended and materials and supplies consumed in operating vehicles, steam shovels, ditching machines, pile drivers, and other machines used in construction work.

(2) The cost of repairs to such machines incident to construction work.

(3) Rent paid for the use of machines of others.

(4) When machines are purchased primarily for a construction project their cost shall be charged to account 191, "Construction work in progress." Upon completion of the construction project account 191, "Construction work in progress," shall be credited with the amount received for the machines if sold or the appraised value thereof if retained for operation in the carrier's service. This appraised value shall be included in the proper carrier-property accounts. The difference between the amount charged to account 191, "Construction work in progress," and the credit thereto as above indicated, shall be charged to the carrier-property accounts appropriate according to the use of the machines in construction service.

NOTE: The cost of repairs of vehicles and other work equipment and of machine tools and machinery which are used both in construction and maintenance work shall be apportioned equitably to the work in connection with which the equipment is used. (See text of clearing accounts 801 and 804.)

(d) "Cost of transportation" includes the amounts paid to other companies or individuals for the transportation of men, material and supplies, special machine outfits, appliances, and tools in

connection with construction and also the cost of teaming work done by the carrier's own forces and facilities. The cost of the transportation of construction material to the point where material is received by the carrier shall be included, so far as practicable, as a part of the cost of such material.

(e) "Cost of contract work" includes amounts paid for construction work performed under contract by other companies, firms, or individuals, and costs incident to the award of the contract.

(f) "Cost of protection" includes expenditures for protection in connection with construction.

(1) From casualties, including the cost of protection against fire, payments for discovery or extinguishment of fires, cost of detecting incendiaries, witness fees in relation thereto, amounts paid to municipal corporations and others for fire protection, and analogous items.

(2) From damages to others, in protecting their property from damage through the processes of construction work, and analogous items.

(g) "Cost of injuries and damages" includes expenditures on account of injuries to persons or damage to property when incident to construction projects, and shall be included in the cost of the work in connection with which the injury or damage occurs. It also includes that portion of premiums paid for insuring property applicable to the period prior to the completion or coming into service of the property insured. Insurance recovered on account of compensation paid for injuries to persons incident to construction shall be credited to the accounts to which such compensation is charged, and insurance recovered on account of damages to property incident to construction shall be credited to the accounts chargeable with the expenditures necessary for restoring the damaged property. The cost of injuries and damages in connection with the removal of old structures which are encumbrances on newly acquired lands shall be included in account 101, 151, 171, "Land."

(h) "Cost of privileges and permits" includes compensation for temporary privileges, such as the use of private or public property or of streets, in connection with the construction of the property of the carrier.

(i) "Taxes" includes taxes on physical property during construction and before the facilities are completed ready for service. This includes taxes on land held under a definite plan for its use in pipeline service for the period prior to the completion of pipe-line facilities thereon and other taxes separately assessed on property during construction, or assessed under conditions which permit separate identification or allocation of the amount chargeable to construction.

(j) "Rent" includes payments for use of facilities, such as motor vehicles, special tools or machines, and quarters used in construction work.

(k) "Interest during construction" includes the amounts of interest incurred in the acquisition of carrier property. Such interest shall be charged to the accounts appropriate for the cost of the property in connection with acquisition of which the interest is incurred. The

interest includible in these accounts under this instruction is:

(1) Interest on bonds, notes, and other evidences of indebtedness sold, and upon any interest-bearing debt incurred for the acquisition of carrier property. It includes the interest accruing on the part of the debt representing the cost of carrier property acquired (less interest, if any, allowed by depositories on unexpended balances) after such funds become available for use and before the receipt or the completion or coming into service of the property so acquired.

There shall be deducted from such interest charges a proportion of premium on securities sold. The amount of premium thus deductible shall be determined by the ratio which the period between the date the proceeds from the securities issued become available and the receipt, completion, or coming into service of the property bears to the entire life of the securities issued. Interest on bonds, notes, or other evidences of indebtedness accruing before the proceeds from the sale of the securities become available for use shall not be included in these accounts nor shall there be included any interest accruing after the property (with respect to which the proceeds are expended) is received or becomes available for use in connection with pipe-line service.

(2) The proportion of discount and expense on funded debt issued for the acquisition or construction of carrier property. The amount of discount and expense thus chargeable shall be determined by the ratio which the period between the date the proceeds from the securities issued become available and the receipt, completion, or coming into service of the property bears to the entire life of the securities issued. In no case, except as provided in this paragraph, shall discounts on securities be included in these accounts.

(3) On expenditures made for a construction project that has been suspended, no interest charges from the date of suspension shall be included in the carrier property accounts unless authorized by the Commission.

(l) The cost of disposing of material excavated, including the privilege of wasting in connection with construction, shall be considered as a part of the cost of the work, except that when such material is used for filling, the cost of loading, hauling, and dumping shall be equitably apportioned between the work in connection with which the material is removed and that for which it is used.

§ 20.0-37 *Units of carrier property.* The "units of property" established at the date of issuance of this system of accounts are listed in appendix A and additions to or revisions of this list will be issued, when necessary, by this Commission, to which any applications for such additions or revisions shall be presented by the carrier.

§ 20.0-38 *Retirements and replacements.* (a) To accounts 101 to 186, inclusive, shall be credited at the time of retirement the book cost of carrier property retired as follows:

(1) Land retired including the proportional cost of public improvements pertaining to the land.

(2) Units of depreciable carrier property retired.

(3) Minor items of depreciable carrier property retired and not replaced or replaced with other parts of a different type or design than those which are retired rendering the property more or less durable or of greater or less capacity.

NOTE: If the book cost of units and minor items of property retired cannot be definitely determined from the carrier's records, the book cost of such units and minor items shall be estimated. Average prices may be used in estimating the book cost when it is impractical, because of the relatively large number and small size of items, to otherwise determine the book cost of such items.

(b) The amounts thus credited to these accounts (101 to 186, inclusive) shall concurrently be charged as follows:

(1) *Value of salvage.* The value of the salvage from the retired property shall be charged to account 17, "Material and supplies," or other accounts appropriate according to the disposition made thereof. In case retired property is held without being torn down the estimated value of the salvage therefrom (see also account 17, "Material and supplies") less the estimated cost of salvaging shall be included in account 28, "Other deferred debits," until the salvage is recovered.

(2) *Service value of depreciable property.* Units of property: The service value shall be charged to account 74, "Accrued depreciation; carrier property."

Minor items: There shall be charged to account 74, "Accrued depreciation; carrier property," the service value of any minor item which is retired and not replaced or if replaced with an item of different type or design or constructed of a different grade of material rendering the part applied more or less durable or of greater or less capacity than the item retired.

NOTE: In case a minor item of property is retired and replaced with an item of different type or design, the cost of the replacement shall be charged to operating expenses if the retirement is not under a general plan, the cost involved is small, and in the judgment of the carrier the retirement and replacement does not affect the condition and value of its property for valuation or depreciation purposes.

(3) *Land.* If the land is sold the difference between the book cost (including the proportionate cost of assessments for public improvements) and the sale price of the land, shall be debited to account 312, "Debits from retired carrier property," or credited to account 302, "Credits from retired carrier property," as may be appropriate. If the land is retained by the carrier, the aforesaid book cost and proportionate cost of assessments shall be charged to account 5, "Miscellaneous physical property."

(c) The cost of removal: The cost of tearing down retired property (including the cost of removing foundations and filling excavations of structures removed) and recovering the salvage shall be charged to account 74, "Accrued depreciation; carrier property," except that the current cost of removing and replacing line pipe and fittings in maintenance shall be included in accounts 602, 652, 752, "Repairs of pipe lines."

NOTE: The book cost of pipe-line construction applicable to a unit of oil-line pipe retired shall be credited to accounts 105, 155, and charged to account 74.

If the retired oil-line pipe is replaced with other pipe in the same location, the cost of opening and back-filling the trench, together with the cost of hauling, laying, and connecting the pipe, and other cost of pipe-line construction, shall be charged to accounts 105, 155. The cost of taking out the retired pipe shall be accounted for as cost of recovering the salvage. The cost of reconditioning of oil-line pipe shall be accounted for as repairs and not as retirements and replacements.

If the retired oil-line pipe is not replaced in the same location, the cost of opening and back-filling the trench from which the pipe is taken, together with the cost of taking out the pipe, shall be accounted for as cost of recovering the salvage.

(d) Property installed: The cost of carrier property installed in lieu of carrier property accounted for as retired, under the foregoing sections of this instruction, shall be charged to the appropriate carrier-property account.

§ 20.0-39 *Relocations.* Where a pipe line is relocated, the same size of oil-line pipe being used, and the relocated line continues to serve the same lease or purpose, the cost of the relocation, regardless of whether or not a unit of line pipe is involved, shall be charged to account 602, 652, and no adjustment shall be made of property accounts except to the extent that the pipe line is shortened or lengthened.

NOTE: Where a pipe line is abandoned it shall be accounted for as retired in accordance with § 20.0-38 *Retirements and replacements.*

CARRIER-PROPERTY ACCOUNTS

§ 20.100 *Text pertaining to carrier-property accounts.* Separate primary accounts are prescribed for carrier property in gathering lines, in trunk lines, and for such property as is used generally for both gathering and trunk lines. To establish at a glance that the accounting requirements are the same for the same kind of property in each of the three groupings, a single text is provided hereinafter for the two (or three) primary account numbers having identical titles, as indicated by the following table:

The several primary accounts included in this group of accounts are designed to show the cost of land, rights-of-way, assessments for the construction of public improvements, fixed improvements, and equipment owned by the carrier and devoted to pipe-line operations.

GATHERING LINES

§ 20.101 *Land.* (a) This account shall include the cost of land of necessary width, held in fee simple, acquired for pipe lines; the cost of land for storage, station, office, shop, and other grounds; the cost of land for ingress to or egress from such grounds; the cost of land for borrow pits, waste banks, and for storage of material adjoining the right-of-way; the cost of land for wharves and docks, and the cost of riparian or water rights necessary therefor; the cost of removing from the right-of-way and locating elsewhere the property of others, and the cost of necessary land for relocation of the property, when such costs are assumed by the accounting carrier.

(b) When land, together with buildings thereon, is acquired the cost shall be fairly apportioned between the land and the buildings and accounted for accordingly. If the plan of acquisition contemplates the removal of the buildings, the total cost of the land and buildings shall be accounted for as the cost of the land and the value of the salvage of the buildings when disposed of shall be deducted from the cost of the land as determined.

(c) Proceeds from the sale of timber or other improvements purchased with land, less any cost of removal, shall be credited to this account.

(d) Proceeds from the sale of minerals known to be in the land when purchased and considered in the purchase price thereof shall be credited to this account.

(e) The cost of filling submerged or low land to establish a general level to render it usable for construction of fixed improvements or other use shall be included in this account.

(f) The amounts assessed on pipe-line property by governmental authority to cover the cost of constructing public improvements when such assessments are made against property within the defined areas of taxing districts and also cost borne by the carrier of public improvements constructed by it under governmental requirements shall be included in this account.

(g) The cost of clearing, filling, and leveling land incurred in advance of the construction of facilities thereon, and directly related to land owned outright, shall be included in this account.

(See § 20.0-4 *Delayed items*.)

NOTE: All entries in this account shall be made in such detail as will indicate the operating-revenue, operating-expense, or income accounts to which they relate.

OPERATING REVENUES—INSTRUCTIONS

§ 20.0-62 Statement of operating-revenue accounts. (a) The accounting for operating revenues shall as nearly as practicable be coincident with the transactions which create them. If, for the purpose of meeting this requirement, the carrier accounts for unaudited revenues upon an accrual basis, it shall file with this Commission a comprehensive statement indicating the particulars of its plan of accruals, including in these particulars a description of the variations in the general plan made to meet seasonal changes occurring in traffic. It shall also furnish an explanation of its plan of adjusting accrual estimates to the actual revenue earned. It shall also file with this Commission any revision made in its plan of accounting for accruals. If, during any calendar year, due to exceptional traffic conditions, the carrier finds a modification of its general plan becomes temporarily necessary in accruing certain unaudited revenue, it shall furnish a statement to this Commission of such temporary modification. Revenues thus accrued shall be included in account 78, "Other deferred credits," or account 28, "Other deferred debits," as may be appropriate.

(b) The revenue accounts shall not be used as clearing accounts for other carriers' proportions of revenue, except that overcharges discovered after the revenue has been audited may be carried in these accounts until adjusted.

§ 20.0-63 *Miscellaneous operations.* The revenue from miscellaneous operations shall be included in account 403, "Income from miscellaneous operating physical property," when the facilities used are distinct from those used by the carrier in pipe-line service or in the maintenance of facilities used in such service and the operations are not incidental thereto. (See also account 403.)

OPERATING EXPENSES, INSTRUCTIONS

§ 20.0-71 *Purpose of operating-expense accounts.* The operating-expense accounts (601 to 691, inclusive) are designed to show expenses of the carrier in furnishing pipe-line service, including the expenses of maintenance (repairs and depreciation) of the property used in such service. General clearing accounts 751 to 791 are designed to facilitate the distribution to the appropriate gathering-line and trunk-line primary accounts of expenses of a general character. These distributions shall be upon the basis of factors deemed by the carrier to be equitable. The carrier shall maintain in its records the details of these general clearing accounts and the bases upon which the charges to them have been cleared therefrom.

§ 20.0-72 *Statement of operating-expense accounts.* The accounting for operating expenses shall, as nearly as practicable, be coincident with the transactions which create them. If, for the purpose of meeting this requirement, the carrier accounts for other than specific items under the provisions of § 20.0-3 *Unaudited items*, such as charges for loss and damage, injuries to persons, and other expenses upon an accrual basis, it shall file with this Commission a comprehensive statement indicating the particulars of its plan of accruals. It shall also file with this Commission any revision made in its plan of accounting for such accruals. It shall furnish an explanation of its plan of adjusting accrual estimates to actual expenses incurred.

§ 20.0-73 *Miscellaneous operations.* The expenses of miscellaneous operations involving the use of such facilities as hotels and restaurants, ice-supply plants, etc., shall be included in account 403, "Income from miscellaneous operating physical property," when the facilities used are distinct from those used by the carrier in pipe-line service or in the maintenance of facilities used in such service, if the operations are not incidental thereto. (See also account 403.)

§ 20.0-74 *Maintenance expenses.* The accounts provided for maintenance are designed to show the cost of repairs and also the loss resulting from ordinary wear and tear of service, exposure to the ele-

ments, inadequacy, obsolescence, or other depreciation. They shall include the cost of clearing, mowing, and beautifying grounds pertaining to buildings; of maintaining sidewalks and driveways within the ground or structures; of the periodical restoration of seasonal features such as gardens, shrubbery, and lawns; of restoring sidewalks, driveways, lawns, etc., in grounds after property changes; and of clearing and removing casual encumbrances such as ice and snow.

NOTE: Cleaning station buildings and maintaining grounds, when incidentally done by station employees, is provided for in account 623, 673, "Operation of pumping stations."

§ 20.0-75 *Cost of repairs.* (a) The cost of all repairs of carrier property shall be included in the appropriate repair accounts.

(d) The cost of repairs shall include the following:

(1) Inspection, including service tests to ascertain the condition of property and to determine any repairs necessary; of adjusting, reconditioning, including the replacement in kind of minor items of carrier property such as repairing buildings and other structures; of inspecting and testing after repairs have been made to determine whether the repairs have been properly made; of incidental work, such as the construction or removal of false work; and the cost of relocating pipe-line plant when retirement accounting for units of property is not involved.

NOTE: Reconditioning of oil-line pipe shall be accounted for as repairs regardless of whether the pipe is reconditioned at the trenches or is removed to a central location for that purpose; also, changes in the method of joining the pipe, such as conversion from screw end to plain end welded pipe, shall be treated as part of the reconditioning cost.

(2) The cost of labor, material and supplies, teaming, special machine service, contract work, privileges, protection from casualties, and other analogous items of expense connected with the maintenance of carrier property.

(c) The several items of cost here referred to are defined as follows:

(1) Cost of labor includes the amount paid for labor performed by the carrier's own employees. When officers or members of their staffs are especially assigned to construction work, their pay while thus engaged shall be included in the cost of the construction work. No charge shall be made against the carrier-property accounts for the pay of operating officers and members of their staffs who merely render service incidentally in connection with property changes.

(2) Cost of materials and supplies, including small tools, is the purchase price at the point of free delivery plus the cost of inspection and loading borne by the carrier; it also includes transportation charges up to the point the material is received by the carrier which are paid to others. In calculating the cost of materials used, proper allowance shall be made for the value of unused portions and other salvage.

NOTE A: The office and traveling and other expenses of officers and employees shall be included in the accounts to which their pay

is chargeable, except that traveling and incidental expenses incurred by operating officers and members of their staffs while rendering service incidentally in connection with property changes shall be included in the cost of the work upon which they are incidentally engaged.

NOTE B: There shall be credited to these accounts the value, at current prices, of material recovered (less a suitable allowance for its second-hand condition) from property repaired and from scaffolding, coffee-dams, and other temporary structures used in repair work.

(3) Cost of special machine service includes the cost of labor expended and material and supplies consumed in operating steam shovels, ditching machines, pile drivers, dredges, scrapers, and other labor-saving machines.

(4) Contract work includes amount paid for work performed under contract by other companies, firms, or individuals and costs incident to the awarding of the contract.

(5) Cost of privileges includes amount paid for special temporary privileges such as for the use of private or public property or of streets in connection with repairs of the property of the carrier.

(6) Cost of protection from casualties includes expenditures for protection against fire, flood, etc., such as payments for discovery or extinguishment of fires, payments to others for reporting leaks in pipe lines, cost of detecting and prosecuting incendiaries, witness fees in relation to such protection, amounts paid to municipal corporations and others for fire protection, protecting property against damages by floods, and analogous items. It does not include insurance premiums paid to assure reimbursement for prospective losses of carrier property. Such premiums are chargeable to account 638, 688, 788, "Insurance."

§ 20.0-76 *Royalties on appliances.* The royalties or other expenses for patent rights on appliances used in operation shall be included in the appropriate operating-expense accounts.

§ 20.0-77 *Distribution of pay and expenses of employees.* (a) Charges to the carrier-property and operating-expense accounts for services and expenses of employees engaged both in construction and operation shall be based upon the actual time engaged in the respective classes of work.

(b) The pay and expenses of an employee who performs the same class of work from day to day may be distributed upon the basis of a study of the time actually engaged in a representative period.

NOTE: The pay and expenses of an employee of one department who performs incidental services involving but small expense for another department shall be included in the expenses of the department in which the employee is regularly employed.

§ 20.0-78 *Deferring charges to operating expenses.* When an item of operating expenses incurred is so large that if included in the accounts for a single month it would distort the accounts for that month, the carrier has the option of charging the item to account 28, "Other deferred debits," and spreading

it in equal amounts in the current and remaining months of the calendar year. No such item shall be spread beyond the accounts of the current year without specific authority of this Commission.

§ 20.0-79 *Equalization of expenses.* For the purpose of equalizing the monthly charges for the repairs of carrier property the carrier may include each month in the appropriate primary repair accounts a uniform proportion of the amount of authorized estimates of such expenses for the calendar year. In a like manner the authorized estimates of expenses on account of personal injury, damages to property, and other claims may be equalized in the monthly accounts of the calendar year.

NOTE: When the cost of maintaining and operating vehicles and other work equipment is directly chargeable to the accounts for gathering lines or for trunk lines, the expenses of maintaining and operating them may be charged direct to the accounts for gathering lines or trunk lines, instead of being cleared through this account.

§ 20.802 *Shop expenses.* (a) To this account shall be charged items of expense at shops and other places at which mechanical work is done, not assignable direct to specific accounts.

(b) For the purpose of securing an equitable assignment of shop expenses to the cost of the output of the shops, a separate clearing account shall be maintained for each shop plant.

(c) The shop expenses for each shop plant shall be apportioned each month among the various accounts to which are chargeable the directly assignable expenses of the plant. The apportionment of shop expenses to each account shall be based upon the ratio of the shop expenses to the total assigned labor of the shop plant. The carrier is permitted to make the monthly apportionments of shop expenses on the basis of percentage rates, provided these rates are currently adjusted, and provided further that the balance in this account for each shop plant shall be fully apportioned and distributed at the close of each calendar year.

(d) The expenses assignable to this account are as follows:

(4) *Lighting.* The cost of electric current, gas, oil, torches, lamp burners, lamp chimneys, lamps not permanently attached to buildings, incandescent lamps and flood lights, and other material used in lighting shops and shop offices and other places at which mechanical work is done, and cost of material used and labor expended in operating electric-light plants and repairing electric light and other lamps at shops.

The pay and expenses of men employed in inspecting a single class of material shall be added as store expenses to the cost of that particular material.

(b) The total amount of warehouse expenses charged to this account shall be so distributed among the accounts to which material has been charged that the amounts thus distributed will be, for each account, in proportion to the value of the material consumed chargeable thereto. To avoid monthly fluctuations in the ratio of store expenses to the value of material purchased or issued, carriers may make a monthly apportionment on the basis of fair percentage rates, provided the store-expense account be adjusted and closed out at the end of each calendar year.

justed and closed out at the end of each calendar year.

(c) The monthly balance in this account shall be included in account 28, "Other deferred debits."

§ 20.804 *Machine tools and machinery; maintenance.* (a) This account shall include the cost of repairs of machine tools and machinery.

Chapter III—Social Security Adminis- tration (Old-Age and Survivors Insurance), Federal Security Agency

[Reg. No. 3, amended]

PART 403—FEDERAL OLD-AGE AND SURVIVORS INSURANCE

BENEFITS IN CASE OF DECEASED WORLD WAR II VETERANS

Regulations No. 3, as amended (20 CFR, Cum. Sup., 403.1 et seq.), are further amended as follows:

1. The statutory provision from section 210 (e) of the act preceding § 403.1002 is amended to read as follows:

SECTION 210 (E) OF THE ACT (60 STAT. 981)

For the purposes of this section the term "date of the termination of World War II" means the date proclaimed by the President as the date of such termination, or the date specified in a concurrent resolution of the two Houses of Congress as the date of such termination, whichever is the earlier. [By section 3 of the act of July 25, 1947 (Public Law 239, 80th Congress), the date of the termination of World War II for the purposes of this section is July 25, 1947.]

2. Section 403.1002 is amended by amending example 2 thereof to read as follows:

§ 403.1002 *Requirements under section 210 (a).* * * *

Example 2: V enlists in the Army in July 1945, is honorably discharged on July 27, 1951, and dies in 1953.

World War II was officially terminated on July 25, 1947, for the purpose of paying benefits pursuant to section 210. V does not meet the requirements of this section since he was separated from active service more than 4 years and 1 day after the end of the war.

If V had been discharged on or before July 26, 1951, he would meet the requirements of this section.

3. Section 403.1004, paragraphs (b) and (d), are amended to read:

§ 403.1004 *Meaning of terms.* * * *

(b) Active service of 90 days means one or more periods totaling at least 90 days (whether or not consecutive) which are served after September 15, 1940, and before July 25, 1947. Where 90 days were not served wholly after September 15, 1940, and before July 25, 1947, but such service began prior to September 16, 1940, and concluded on or after that date, or began prior to July 25, 1947, and concluded on or after that date, the requirement of active service of 90 days is met only if such service of 90 days was continuous. Active service of 90 days is not necessary in the case of a veteran who was in active service on or after September 16, 1940, and before July 25, 1947, and who is separated therefrom by reason of a disability or injury incurred or aggravated in service in line of duty.

Example. V enters the Army on July 25, 1940, and continues in active service until his honorable discharge on October 31, 1940. 46 days of this service was performed beginning with September 16, 1940.

V has the requisite number of days of active service since he had more than 90 days of continuous service extending into the period beginning with September 16, 1940.

If V had been discharged on or after September 16, 1940, for a disability incurred in service in line of duty he would meet the service requirement even though his period of service was less than 90 days.

(d) Date of the termination of World War II means, for the purposes of this subpart, July 25, 1947.

(Sec. 1102, 49 Stat. 647, sec. 205 (a), 53 Stat. 1368; 42 U. S. C. 1302, 405 (a); sec. 4 of Reorganization Plan No. 2 of 1946, 60 Stat. 1095; 45 CFR, 1946 Supp., 1.21)

The area comprising the Malayan Union, British North Borneo, Brunei, and Sarawak is known as British Malaysia.

C. 372 (c)) directs the Federal Reserve Bank of New York to certify to the Secretary of the Treasury. The Federal Reserve Bank of New York has certified for dates beginning on June 13, 1946, two rates for the Italian lira, designated "official" and "free."

In any case where it is necessary to determine the proper rate or rates for Italian lire for the purpose of the assessment and collection of duties on merchandise which has been exported to the United States on or after June 13, 1946, or is so exported hereafter, the appraiser and collector shall, respectively, continue the practice of withholding appraisement and suspending liquidation pending receipt of further instructions. In such cases collectors of customs shall require the deposit of estimated duties in an amount determined by the use of the official rate.

The Customs Information Exchange will keep the field informed, solely for purposes of calculating estimated duties, regarding the official rates which are certified for the Italian lira.

SECURITIES AND EXCHANGE COMMISSION

[File No. 54-130]

INTERSTATE POWER CO. AND OGDEN CORP.

SUPPLEMENTAL ORDER DENYING PERMISSION FOR DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 25th day of September A. D. 1947.

The Commission having entered an order on January 24, 1947 (Holding Company Act Release No. 7159), approving a plan for the reorganization of Interstate Power Company ("Interstate"), a registered holding company, subject to a condition reserving jurisdiction, among other things, with respect to prices and spreads of new securities to be issued and sold at competitive bidding pursuant to the plan; and the District Court of the United States for the District of Delaware having entered an order on April 24, 1947, approving said plan subject to the terms and conditions of the Commission's order of January 24, 1947; and

The Commission having entered an order on September 11, 1947 (Holding Company Act Release No. 7707), permitting to become effective declarations filed by Interstate in respect of certain transactions relating to said plan, including the following:

(a) The issue and sale by Interstate, pursuant to competitive bidding, of \$19,400,000 principal amount of first mortgage bonds, --% Series, due 1977;

(b) In case Alternative One of the plan is made effective, the issue and sale by Interstate, pursuant to competitive bidding, of so many shares of its new common stock, not exceeding 2,700,000 shares of the 3,000,000 shares to be initially outstanding, as may be required to provide Interstate with \$18,610,500 (or if said amount of \$18,610,500 shall not be exactly divisible by the net price per share, then the least greater amount that shall be so exactly divisible); and, in addition to the foregoing issue and sale of common stock, the issue and sale to the successful bidder or bidders for the common stock as above described, and at the same price per share, of 10.084% of the balance of said 3,000,000 shares of common stock;

(c) In case Alternative Two of the plan is made effective, the issue and sale by Interstate, pursuant to competitive bidding, of so many shares, not exceeding 3,000,000 shares, of its new com-

mon stock as may be required to provide Interstate with \$8,635,500 (or if said amount of \$8,635,500 shall not be exactly divisible by the net price per share, then the least greater amount that shall be so exactly divisible);

The Commission's aforesaid order of September 11, 1947, containing, among other things, the following terms and conditions in respect of the issue and sale of new first mortgage bonds and of new common stock by Interstate:

1. That the proposed issue and sale by Interstate of new first mortgage bonds and of common stock shall not be consummated until the results of competitive bidding pursuant to Rule U-50 shall have been made a matter of record in this proceeding, and a further order shall have been entered by the Commission in light of the record as so completed, which order may contain such further terms and conditions as may then be deemed appropriate;

The Commission having issued a notice of and order for hearing on September 11, 1947 (Holding Company Act Release No. 7708), setting a date for a public hearing on the results of competitive bidding in respect of Interstate's new securities, and said notice and order stating, among others, the following issue:

2. Whether, in light of the Commission's findings and opinion of January 20, 1947, and supplemental findings and order of January 24, 1947, approving the plan, the issuance and sale of shares of Interstate's new common stock at the price proposed to be paid to Interstate by the successful bidder or bidders would effectuate a plan which would be fair and equitable to the persons affected thereby, and whether such issuance and sale should be approved;

Interstate having filed an amendment to its declaration stating that its new first mortgage bonds and new common stock have been offered for sale pursuant to the competitive bidding requirements of Rule U-50, and that the following bids were received:

FOR THE BONDS

Bidder	Coupon	Price to company	Cost to company
	Percent		Percent
Halsey, Stuart & Co., Inc.	3½	101.90	3.40
Harriman Ripley & Co., Inc.	3½	101.52	3.42
Lehman Bros., Goldman Sachs & Co. and The First Boston Corp.	3½	100.399	3.48

FOR THE COMMON STOCK

Under Alternative One: No bids.
Under Alternative Two:

Bidder	Price per share to company	Number shares bid for
Lehman Bros., Goldman Sachs & Co. and Wertheim & Co.	\$4.05	2,132,223
Harriman Ripley & Co., Inc.	3.872422	2,230,000

It appearing that Interstate has declared Alternative Two of the plan effective; that subject to the Commission's approval, Interstate has accepted the bid of Halsey, Stuart & Co., Inc., for the bonds, as set forth above, pursuant to which they would be offered for sale to the public at a price of 102.80% of the principal amount plus accrued interest from June 1, 1947 to the date of delivery,

resulting in an underwriting spread of 0.90%; and that, subject to the Commission's approval, Interstate has accepted the bid of Lehman Bros., Goldman Sachs & Co., and Wertheim & Company, as set forth above, for the common stock, pursuant to which the shares bid for would be offered for sale to the public at \$4.75 per share, resulting in an underwriting spread of \$0.70 per share, or 14.74% of the public offering price;

A hearing having been held in respect of the aforesaid matters pursuant to said notice and order of September 11, 1947, and the Commission having considered the record herein, having heard oral argument, and finding that the issuance and sale of Interstate's new common stock at the price proposed to be paid to Interstate by the successful bidders would not effectuate a plan which would be fair and equitable to the persons affected thereby; and

It further appearing that the bid for said new First Mortgage Bonds is conditioned upon the company's receiving payment of \$8,635,500 for shares of the new common stock, and cannot be accepted unless a bid for shares of the new common stock is contemporaneously accepted;

It is therefore ordered, That the declaration of Interstate in respect of the proposed issuance and sale of new First Mortgage Bonds and new common stock, as amended September 25, 1947, be and it hereby is denied permission to become effective.

An opinion will issue in due course.

By the Commission.
