Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

PART 927—MILK IN THE NEW YORK METROPOLITAN MILK MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 1946 ed., 601 et seq.), hereinafter referred to as the "act," and of the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area, hereinafter referred to as the "order," it is hereby found and determined that:

(a) The following provisions of the order do not tend to effectuate the declared policy of the act with respect to all milk subject to the provisions of the order during the month of December 1948:

(1) All of the first proviso appearing in § 927.5 (a) (11) except "plus eight cents";

(2) All of the proviso appearing in § 927.5 (a) (12);

(3) All of the second proviso appearing in § 927.5 (a) (13).

(b) In accordance with the Administrative Procedure Act (Public Law 404, 79th Cong., 60 Stat. 237), notice of proposed rule making, public procedure thereon, and 30 days' prior notice of the effective date hereof are found to be impracticable, unnecessary, and contrary to the public interest in that it is necessary to issue immediately and make effective not later than December 1, 1948, this suspension order to reflect current marketing conditions, and to facilitate, promote, and maintain the orderly marketing of milk produced for the New York metropolitan milk marketing area. The changes caused by this suspension do not require of persons affected substantial or extensive preparation prior to the effective date. It is therefore ordered, That the following provisions of the order be and they hereby are suspended with respect to all milk subject to the provisions of

PART 930—MILK IN THE TOLEDO, OHIO, MARKETING AREA	
ORDER, AMENDING THE ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE TOLEDO, OHIO, MARKETING AREA	
§ 930.0 Findings and determinations—(a) Findings upon the basis of the hearing record. Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure covering the formulation of marketing agreements and orders (7 CFR, Supps., 900.1 et seq., 12 F. R. 1159, 4904), a public hearing was held upon certain proposed amendments to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area; and a decision was made with respect to amendments by the Secretary on November 17, 1948. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:	
(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;	
(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8e of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure	

and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

(b) *Additional findings.* It is necessary to make effective promptly the present amendments to the said order, as amended, to reflect current marketing conditions, and to insure the production of an adequate supply of milk. Any further delay in the effective date of this order, as amended, and as hereby further amended, will seriously threaten the supply of milk for the Toledo, Ohio, marketing area and will disrupt orderly marketing. The changes effected by this order, amending the order, as amended, do not require of persons affected substantial or extensive preparation prior to the effective date. In view of the foregoing, it is impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order for 30 days after its publication (sec. 4c, Administrative Procedure Act, Pub. Law 404, 79th Cong. 60 Stat. 237).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order, as amended) of more than 50 percent of the volume of milk covered by the aforesaid order, as amended, and as hereby further amended, which is marketed within the Toledo, Ohio, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area; and it is hereby determined that:

(1) The refusal or failure of such handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, further amending the said order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order further amending the said order, as amended, is approved or favored by at least two-thirds of the producers, who during September 1948 (said month having been determined to be a representative period) were engaged in the production of milk for sale in the said marketing area.

The foregoing determinations are supplementary and in addition to the determinations made in connection with the issuance of the aforesaid order and the determinations made in connection

with the issuance of each of the previously issued amendments thereto; and all of said previous determinations are hereby ratified and affirmed except insofar as such determinations may be in conflict with the determinations set forth herein.

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Toledo, Ohio, marketing area, shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete from § 930.5 (a) (1) the proviso contained therein and substitute therefor the following: "Provided, That such Class I milk price shall be not less than \$4.70 from the effective date of this amendment through January 31, 1949; and not less than \$4.48 for the delivery period of February 1949."

2. Add to § 930.5 (a) (2) the following proviso: "Provided, That such Class II milk price shall be not less than \$4.10 from the effective date of this amendment through January 31, 1949; and not less than \$3.88 for the delivery period of February 1949."

Issued at Washington, D. C., this 26th day of November 1948, to be effective on and after the 1st day of December 1948.

PART 946—MILK IN THE LOUISVILLE, KENTUCKY, MARKETING AREA

ORDER AMENDING THE ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE LOUISVILLE, KENTUCKY, MARKETING AREA

§ 946.0 *Findings and determinations.* The findings and determinations herein-after set forth are supplementary to and in addition to the previous findings and determinations made in connection with the issuance of this order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure, as amended, governing the formulation of marketing agreements and orders (7 CFR, Supps., 900.1 et seq.), a public hearing was held on November 5, 1948, upon a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the

Louisville, Kentucky, marketing area. The decision was made by the Secretary on November 19, 1948. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8e of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect the market supply of and demand for such milk, and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make the amendment hereafter set forth effective by not later than December 1, 1948, so as to reflect current marketing conditions. Any delay beyond December 1, 1948, in the effective date of this amendment to the order, as amended, will seriously threaten the supply of milk for the Louisville, Kentucky, marketing area. The changes effected by this order amending the order, as amended, do not require substantial or extensive preparation by persons affected prior to the effective date. Accordingly it is concluded that good cause exists for making this amendment effective within less than 30 days after the date of publication. (Sec. 4 (c), Administrative Procedures Act, Pub. Law 404, 79th Cong., 60 Stat. 237)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order, as amended) of more than 50 percent of the volume of milk covered by this order, as amended and as hereby further amended, which is marketed within the Louisville, Kentucky, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order, further amending the aforesaid order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (September 1948), were engaged in the production of milk for sale in the said marketing area.

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Louisville, Kentucky, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete the period (.) at the end of § 946.4 (b) (1) and add the following: "Provided, That for the delivery periods from the effective date of this order through January 1949 the price for Class I milk shall not be less than \$5.16; and that for the delivery period of February 1949 the price for Class I milk shall not be less than \$4.94."

2. Delete the period (.) at the end of § 946.4 (b) (2) and add the following: "Provided, That for the delivery periods from the effective date of this order through January 1949 the price for Class II milk shall not be less than \$4.61; and that for the delivery period of February 1949 the price for Class II milk shall not be less than \$4.39."

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C., 601 et seq.; sec. 102 Reorg. Plan I of 1947, 12 F. R. 4534)

Issued in Washington, D. C., this 26th day of November 1948 to be effective on and after the 1st day of December 1948.

Secretary of Agriculture.

ORDER, AMENDING THE ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE CINCINNATI, OHIO, MARKETING AREA

§ 965.1 *Findings and determinations—*
(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure covering the formulation of marketing agreements and orders (7 CFR, Supps., 900.1 et seq.; 12 F. (3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

(b) *Additional findings.* It is necessary to make effective promptly the present amendments to the said order, as amended, to reflect current marketing conditions and to insure the production of an adequate supply of milk. The changes effected by this order, amending the order, as amended, do not require of persons affected substantial or extensive preparation prior to the effective date. In view of the foregoing, it is impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order for 30 days after its publication. (Sec. 4 (c), Administrative Procedure Act, Pub. Law 404, 79th Cong. 60 Stat. 237)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order, as amended) of more than 50 percent of the volume of milk covered by the aforesaid order, as amended, and as hereby further amended, which is marketed within the Cincinnati, Ohio, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

ment tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, further amending the said order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Cincinnati, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended, as follows:

1. PART 972—MILK IN THE TRI-STATE MARKETING AREA

ORDER, AMENDING THE ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE TRI-STATE MARKETING AREA

§ 972.0 *Findings and determinations—*
(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended, and as reenacted and amended

by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure covering the formulation of marketing agreements and orders (7 CFR, Supps., 900.1 et seq.; 12 F. R. 1159, 4904), a public hearing was held upon certain proposed amendments to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Tri-State marketing area; and a decision was made with respect to amendments by the Secretary on November 17, 1948. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8e of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

(b) *Additional findings.* It is necessary to make effective promptly the present amendments to the said order, as amended, to reflect current marketing conditions, and to insure the production of an adequate supply of milk. Any further delay in the effective date of this order, as amended, and as hereby further amended, will seriously threaten the supply of milk for the Tri-State marketing area and will disrupt orderly marketing. The changes effected by this order, amending the order, as amended, do not require of persons affected substantial or extensive preparation prior to the effective date. In view of the foregoing, it is impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order for 30 days after its publication. (Sec. 4 (c), Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237)

(c) *Determinations.* It is hereby determined that handlers (excluding coop-

RULES AND REGULATIONS

erative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order, as amended) of more than 50 percent of the volume of milk covered by the aforesaid order, as amended and as hereby further amended, which is marketed within the Tri-State marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, further amending the said order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order further amending the said order, as amended, is approved or favored by at least two-thirds of the producers who, during September 1948 (said month having been determined to be a representative period) were engaged in the production of milk for sale in the said marketing area.

The foregoing determinations are supplementary and in addition to the determinations made in connection with the issuance of the aforesaid order and the determinations made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous determinations are hereby ratified and affirmed except insofar as such determinations may be in conflict with the determinations set forth herein.

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Tri-State marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete from § 972.5 (b) the proviso contained therein and substitute therefor the following: "Provided, That such price for Class I milk shall not be less than \$5.00 at Huntington district plants and \$4.80 at other plants from the effective date of this amendment through January 31, 1949; and not less than \$4.78 at Huntington district plants and \$4.58 at other plants for the delivery period of February 1949."

2. Delete from § 972.5 (c) the proviso contained therein and substitute therefor the following: "Provided, That such price for Class II milk shall not be less than \$4.70 at Huntington district plants and \$4.50 at other plants from the effective date of this amendment through January 31, 1949; and not less than \$4.48 at Huntington district plants and \$4.28 at other plants for the delivery period of February 1949."

Issued at Washington, D. C., this 26th day of November 1948, to be effective on and after the 1st day of December 1948.

PAR. 2. Section 320.72, as renumbered by Treasury Decision 5353 (26 CFR 320.72), is amended by inserting in the first sentence of the first paragraph, immediately after the word "records" the following: ", including the duplicate copy of each return as prescribed by § 320.70."

(53 Stat. 467, 55 Stat. 720; 26 U. S. C. and Sup., 3791, 2410)

Because this Treasury decision makes only procedural changes in net effect reducing the burden incident to compliance with the regulations, it is found that it is unnecessary to issue such Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of said act.

NOTE: The text of §§ 33.05-1 to 33.05-27 is also contained in the "Regulations Governing Appointments of Licensed Officers of the United States Merchant Marine to Commissioned, Chief Warrant and Warrant Rank in the United States Coast Guard," which may be obtained upon request from the Commandant (PTP), U. S. Coast Guard Headquarters, Washington 25, D. C.

§ 33.05-1 *Purpose.* The regulations in this subpart govern the appointments of licensed officers of the United States Merchant Marine as commissioned officers, chief warrant officers, and warrant officers in the United States Coast Guard.

§ 33.05-3 *Appointments.* The appointments will be made in ranks or specialties appropriate to the qualifications and experience of the applicants. Any person who accepts such an appointment as a commissioned officer shall serve a probationary period of two years. During this period his commission may be revoked if his services are unsatisfactory. The commissioned officer while serving a probationary period will be subject to the same rules of conduct and performance of duty as are applicable to all officers in the Coast Guard.

§ 33.05-5 *Precedence.* (a) Officers appointed under this subpart who, during any period of World War II, did not serve temporarily as commissioned officers of the Coast Guard, or as commissioned officers who were regular members of the Coast Guard Reserve, shall take precedence with other officers in their respective ranks in accordance with the dates of commission in such ranks. Appointees whose dates of commission are the same shall take precedence with each other in the order recommended by the selecting and examining board as approved by the Secretary of the Treasury.

(b) Officers appointed under this subpart who, during any period of World War II, served temporarily as commissioned officers of the Coast Guard, or as commissioned officers who were regular members of the Coast Guard Reserve on active duty, shall assume a lineal position on the precedence list of regular Coast Guard officers as determined by the following formulae:

(1) The highest grade in which the appointee served on active duty for a period of at least three months, and the

date of rank held while so serving will be determined.

(2) The date of rank determined by subparagraph (1) of this paragraph will be adjusted by adding thereto one-half of the period of time served in inactive Reserve status since release from active duty or one-half of the period of time served on active duty as a chief warrant officer, warrant officer, or enlisted man of the Coast Guard, since termination of temporary commissioned status, plus any period of time since release from active duty, or termination of temporary commissioned status, during which the appointee had no Coast Guard or Coast Guard Reserve status.

(3) If the grade determined by subparagraph (1) of this paragraph is captain, and the adjusted date of rank as such is subsequent to March 25, 1945, the adjustment will be made upon the appointee's former date of rank in the grade of commander, and the appointment will be made in the latter grade.

(4) If the grade determined by subparagraph (1) of this paragraph is commander, and the adjusted date of rank as such is subsequent to March 15, 1944, the adjustment will be made upon the appointee's former date of rank in the grade of lieutenant commander, and the appointment will be made in the latter grade.

(5) If the grade determined by subparagraph (1) of this paragraph is lieutenant commander, and the adjusted date of rank as such is subsequent to April 1, 1944, the adjustment will be made upon the appointee's former date of rank in the grade of lieutenant, and the appointment will be made in the latter grade.

(6) If the grade determined by subparagraph (1) of this paragraph is lieutenant, and the adjusted date of rank as such is subsequent to January 1, 1944, the adjustment will be made upon the appointee's former date of rank in the grade of lieutenant (junior-grade), and the appointment will be made in the latter grade.

(7) If the grade determined by subparagraph (1) of this paragraph is lieutenant (junior-grade) or ensign, the appointment will be made in the grade determined.

(8) Precedence will be established in accordance with the adjusted date of rank in the grade to which appointed. If there is any officer on active duty in the same grade with the same date of rank, the appointee shall take precedence next after him, or next after the most junior of such officers if there is more than one.

(9) If the adjusted date of rank of two or more appointees is identical, the lineal position among them will be determined in accordance with their relative seniority on January 1, 1946, or at the time of release of the first officer released from active duty, whichever is the earlier.

(10) In the event that the Secretary of the Treasury finds that the grade and precedence determined for any person who, during any period of World War II, served temporarily as a commissioned officer of the Coast Guard is such that

the position of the appointee on the lineal list would be manifestly in disagreement with the established precedence of other officers, the Secretary may establish a different precedence which is better suited to the established precedence of other officers and shall assign a date of rank which will correspond to that precedence.

(11) In the event that the permanent regular officer next senior to the appointee, who has not failed to qualify for permanent promotion, is serving in that grade under an appointment for temporary service, the appointee will be permanently commissioned in the next lower grade with such date of rank as will afford him the same relative precedence, and then be advanced for temporary service to the grade as determined by this section.

(12) Notwithstanding the provisions of subparagraphs (1), (2), (3), (4), (5), (6), (7), (8), (9), (10) and (11) of this paragraph, any Reserve officer who is appointed to permanent commissioned grade in the regular Coast Guard, and who has served continuously on active duty since 1 March, 1948, shall have the date of rank and precedence which was established for him as of that date.

(o) Genito-urinary organs: Any acute affection of the genital organs, including gonorrhea, syphilis, and venereal sores; loss of penis; phimosis, if complete; stricture of the urethra; atrophy or loss of both testicles; undescended testicle or permanent retraction of one or both testicles; chronic disease of the testicle or epididymitis; hydrocele of the tunic and cord unless the hydrocele of the cord is small and inconsequential; varicocele causing symptoms; malformations of the genitalia (epispadias or hypospadias not preventing the normal passage of urine may not cause rejection); incontinence or retention of urine; urinary fistulae; enlargement of the prostate; calculus; cystitis; all organic diseases of the kidney.

(p) Affections common to both the upper and lower extremities: Chronic rheumatism; chronic diseases of joints or movable cartilage; acquired or congenital deformities such as old or irreducible dislocations or false joints; severe sprains; relaxation of the ligaments or capsules of joints; dislocations; fistulae connected with joints or any parts of bones; effusions into joints; badly united or non-united fractures; defective or excessive curvature of the long bones; rickets; caries; necrosis; exostoses; atrophy or paralysis of a limb; extensive, deep, or adherent cicatrices, especially of burn; contraction or permanent retraction of a limb or portion thereof; loss of a limb or portion thereof.

(q) The upper extremities: Acquired or congenital deformities, such as fracture of the clavicle or fracture of the radius and ulna; webbed fingers; permanent flexion or extension of one or more fingers, as well as irremedial loss of motion of these parts; mutilation or loss of

either thumb or index finger; loss of the second and third phalanges of all fingers of either hand; total loss of any two fingers of the same hand.

(r) The lower extremities: Acquired or congenital deformities, such as, varicose veins, knock-knees, club feet, flat feet (causing symptoms), webbed feet, the affected toes doubled or branching, the great toe crossing the other toes, hammer toe, bunions, large corns; overriding or superposition of any of the toes to an extreme degree; loss of a great toe; loss of any two toes of the same foot; permanent retraction of the last phalanx of any of the toes or flexion at a right angle of the first phalanx of a toe upon the second, with ankylosis of the articulation; ingrowing of the nail of the great toe; bromidrosis; chronic ulcers.

(s) Hearing. An applicant who cannot hear conversational speech 30 feet and whispered speech 15 feet will be rejected. The applicant will be placed at one end of the room with the ear to be tested toward the other end of the room and will insert his moistened index finger into the other ear. The examining surgeon will approach within a few feet of the applicant and pronounce words or phrases and direct the applicant to repeat what he has heard. The surgeon will then gradually recede from the applicant until he ceases to repeat correctly what is spoken to him and the distance entered on the examination record. The applicant will then face about and the other ear will be similarly tested and recorded. The above technique will be carried out in testing whispered speech, the examiner using residual air in whispering. The applicant's eyes will be covered to prevent lip reading. Any chronic disease of the external, middle, or internal ear will be sufficient cause for rejection.

(t) Teeth. An applicant will not be accepted unless he has a minimum of 20 teeth, 14 of which must be serviceable for masticating and incising food, and so arranged as to have 4 masticating teeth in the upper jaw opposed to 4 masticating teeth in the lower jaw, and 3 incisor teeth in the upper jaw opposed to 3 incisor teeth in the lower jaw. By "serviceable teeth" is meant sound teeth or those which have been restored by fillings or well-fitting crowns, which are not involved with pyorrhea or pus pockets around the roots, and which are not placed so irregularly as to prevent opposed teeth entering into serviceable occlusion. Masticating teeth will be considered as molars (including wisdom teeth) and bicuspids. Incisor teeth will include incisor and canine teeth. Bridge teeth or teeth on plates will not be considered as serviceable teeth. Teeth used as abutments for bridges may be considered as serviceable teeth. Artificial teeth used in plates or bridges will not be so considered, but if the prosthetic appliances are well fitting the teeth so supplied may be computed in addition to the 14 necessary serviceable teeth in order to allow the applicant sufficient teeth for entrance. Such bridge or prosthetic appliances, as well as missing or unsound teeth, will be indicated in the record of physical examination.

(u) A careful urinalysis (including microscopical examination) will be made in each case, and a quantitative exami-

nation, when practicable, if albumen or sugar is present.

(v) Blood pressure readings are required on all examinations. In considering the blood pressure, due regard will be given to the age of the applicant and to physiological causes, such as excitement, recent exercises, and digestion. The condition of the arteries, the tenseness of the pulse, and the degree of accentuation of the aortic second sound will be taken into consideration, as will also the relation between the systolic and diastolic pressure. No applicant will be rejected as a result of a single reading. When the blood pressure reading at the first examination is regarded as abnormal, or in case of doubt, the procedure will be repeated twice daily, in the morning and in the afternoon, for a sufficient number of days to enable the examiner to arrive at a definite conclusion. Hypertension evidenced by a persistent systolic blood pressure above 150 or hypotension with less than 110 is a cause for rejection. In a person under 25 years of age a persistent systolic pressure of or above 140 or a persistent diastolic pressure of 95 or over is a cause for rejection.

(w) (1) Attention will be paid to the stature and physical proportions of the candidate, and no one under 5 feet 6 inches nor over 6 feet 4 inches (stripped) will be accepted.

(2) The following tables of physical proportions are for information and guidance. Mere fulfillment of the requirements of the standard tables does not determine eligibility.

Height		Weight		Chest measurement	
In feet—	In inches—	Pounds	Pounds	At expiration	Mobility
5'1/2	66	132	8	32 1/4	2
5'7/2	67	134	8	33	2

6'7/2	76	197	20	36 3/4	3 3/4

(3) If an applicant weighs more than the number of pounds stated in the above table, including allowance for overweight, he may be accepted if the overweight is due to muscle and bone, but will be rejected if it is due to fat.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Part 1]

[Docket No. 9126]

COMMERCIAL RADIO OPERATORS

PROPOSED RULE MAKING

In the matter of amendments §§ 13.61 and 13.62 of the Commission's rules governing commercial radio operators, docket No. 9126.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The Commission proposes to amend §§ 13.61 and 13.62 of its rules governing commercial radio operators for three purposes:

(a) To include in the scope of authority of the various classes of commercial radio operator licenses as set forth in Part 13 of the Commission's rules, appropriate provision for stations using pulsed and frequency modulated types of emission.

(b) To define more clearly the basic scope of authority of the various classes of commercial radio operator licenses by reference to types of transmission employed (radiotelephone, radiotelegraph, facsimile, television, etc.) in lieu of the present references to types of emission. This change is made desirable by the fact that provision in Part 13 for stations employing pulsed and frequency modulated techniques would, under the present system of reference to types of emission, lead to the use of approximately 22 different standard symbols in defining the scope of authority of commercial operator licenses. It is believed that such a system is unnecessarily complicated and cumbersome.

(c) To expand the scope of operating authority under the radiotelephone classes of license so as to include therein certain transmissions technically classified as telegraphy but which the holder of a radiotelephone class of license is considered to be qualified to handle. These types of transmission consist generally of telegraphy of any form except by any type of the Morse code; telegraphy transmitted automatically for distress, identification or testing purposes by a station normally using some other type of transmission; telegraphy transmitted automatically by a relay station on frequencies above 30 Mc; and telegraphy transmitted as an incidental part of a program intended to be received by the general public.

APPENDIX

1. Section 13.61 of the rules governing commercial radio operators is amended in the following particulars:

(a) Paragraph (a) is amended to read as follows:

(a) *Radiotelephone second-class operator license.* Any station, except stations transmitting telegraphy by any type of the Morse Code and except standard broadcast stations, international broadcast stations, FM broadcast stations, noncommercial educational FM broadcast stations with transmitter power rating in excess of 1 kw, televi-

sion broadcast stations licensed for commercial operation, or ship stations licensed to use power in excess of 100 watts for communication with coastal telephone stations.

(b) Paragraph (b) is amended to read as follows:

(b) *Radiotelephone first-class operator license.* Any station, except stations transmitting telegraphy by any type of the Morse Code and except ship stations licensed to use power in excess of 100 watts for communication with coastal telephone stations.

(c) Paragraphs (c) and (d) are amended by deleting the words "any station while using type B, A-O, A-1, A-2, A-3 or A-4 emission except—" and substituting the following: "Any station except stations transmitting television and except—".

(d) Paragraph (e) is amended by deleting the words "any station while using type A-O, A-3, or A-4 emission" and substituting the following: "Any station except stations transmitting television or transmitting telegraphy by any type of the Morse Code."

(e) Paragraph (f) is amended by deleting the words "any station while using type B, A-O, A-1, A-2, A-3, or A-4 emission; *Provided*, That, in the case of equipment designed for and using type A-3 or A-4 emission—" and substituting the following: "Any station except stations transmitting television: *Provided*, That, in the case of equipment designed for and using telephone or facsimile transmissions—".

3. The proposed amendments, authority for which is contained in sections 4 (i) and 303 (1) and (r) of the Communications Act of 1934, as amended, are set forth in an appendix attached to this notice.

4. Any interested party who is of the opinion that the proposed amendments should not be adopted, or should not be adopted in the form set forth in the appendix hereto, may file with the Commission on or before December 31, 1948, a statement or brief setting forth his comments. At the same time, persons favoring the amendments as proposed may file statements in support thereof. The Commission will consider all such comments that are presented before taking action in the matter, and if any comments are submitted which appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

5. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and fourteen copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: November 22, 1948.

Released: November 23, 1948.

DEPARTMENT OF COMMERCE

Office of Industry Cooperation

VOLUNTARY PLAN UNDER PUBLIC LAW 395,
80TH CONGRESS FOR ALLOCATION OF STEEL
PRODUCTS FOR TANK AND OIL FIELD PRO-
DUCTION EQUIPMENT

NOTICE OF PUBLIC HEARING ON PROPOSED
CONTINUATION AND OTHER MATTERS

Notice is hereby given that a public hearing will be held on Wednesday, December 8, 1948, at 10:00 a. m., e. s. t., in the Auditorium on the fifth floor of the National Archives Building, Pennsylvania Avenue between Seventh and Ninth Streets NW., Washington, D. C., for the purpose of affording to industry, labor and the public generally an opportunity to present their views with respect to (1) the proposed continuation beyond February 28, 1949, of the voluntary plan, under Public Law 395, 80th Congress, for the allocation of steel products for tank and oil field production equipment, approved by the Attorney General on August 24, 1948 and by the Secretary of Commerce on August 25, 1948 and subsequently published in the FEDERAL REGISTER (13 F. R. 5666) and (2) several proposed changes in the operational details of the plan.

The proposed continuation involves two procedures. One would remain effective if the present authority contained in Public Law 395 is not extended. The other would become effective if the present authority contained in Public Law 395 is appropriately extended. The two procedures are represented by documents attached hereto as Exhibits A and B. They are in draft form and are subject to revision at or after the public hearing.

Under one procedure (Exhibit B), it is proposed that the Secretary of Commerce will make a request, with the approval of the Attorney General, for unilateral action by steel producers in continuing deliveries for the program during the six-month period March 1, 1949 through August 31, 1949, in accordance with section 2 (f) of Public Law 395.

Under the other procedure (Exhibit A), it is proposed to amend the existing plan to provide that, in the event of statutory extension, the plan itself will automatically continue in effect during the seven-month period March 1, 1949 through September 30, 1949, which would round out the full third calendar quarter.

Exhibit A also contains the proposed changes in the operational details of the plan.

The proposed actions have been formulated after consulting with representatives of the steel producing and tank and oil field production equipment industries and with interested government agencies, including the Department of the Interior, the National Military Establishment, and the Department of Justice.

Any person desiring to participate in the public hearing should file a written notice of appearance with the Director of the Office of Industry Cooperation, Room 5847, Department of Commerce Building, Washington 25, D. C., not later than 5 p. m., e. s. t., on Friday, December 3, 1948. Persons desiring to present writ-

ten statements or memoranda should submit them, in triplicate, at the hearing.

JOHN R. ALISON,
Acting Secretary of Commerce.

EXHIBIT A—AMENDMENT

PROPOSED AMENDMENT TO VOLUNTARY PLAN
UNDER PUBLIC LAW 395, 80TH CONGRESS FOR
ALLOCATION OF STEEL PRODUCTS FOR TANK
AND OIL FIELD PRODUCTION EQUIPMENT

The Secretary of Commerce, pursuant to the authority vested in him by Public Law 395, 80th Congress, and Executive Order 9919, after consultation with representatives of the steel producing industry and manufacturers of tank and oil field production equipment and after expression of the views of industry, labor and the public generally at an open public hearing held on December 8, 1948, has determined that, in order to carry out the program begun under the voluntary plan (13 F. R. 5666) entered into by steel producers to furnish certain steel products to manufacturers of tank and oil field production equipment, it will be necessary, and is practicable and appropriate to the successful carrying out of the policies set forth in the said Public Law 395, that (1) steel producers make further deliveries of steel products to such manufacturers beyond February 28, 1949 and (2) that certain changes be made in the existing plan to cover this and other matters.

Therefore, the abovementioned voluntary plan is amended as follows:

1. By adding the following after the certification at the end of subparagraph 3 (b):

In addition, certifications on orders placed after December 31, 1948 shall carry the following additional sentence:

The undersigned further certifies that the quantities ordered herewith, when added to all other quantities certified by the undersigned under the plan for the same delivery month, do not exceed the undersigned's allocations under the plan for that month.

Purchase orders shall be placed not less than 60 days before the first of the month in which delivery is required.

2. By adding the following as a new subparagraph (c) at the end of paragraph 3:

(c) Participation in the benefits of this plan shall at all times be contingent upon each participating Manufacturer's continued strict compliance with the provisions hereof. In the event of any actual or prospective non-compliance by any participating Manufacturer, the Secretary of Commerce may, after written notice to the participating Manufacturer, take such action as he deems warranted with respect to the Manufacturer's participation in the Plan, including partial or total suspension or termination of participation privileges and notification to the participating steel producers not to make any or certain further shipments under the Plan to such Manufacturer.

3. By adding the following at the end of paragraph 5: "However, if the time limitation of March 1, 1949 now specified in subsection 2 (b) of Public Law 395 is extended or otherwise changed by legislative action in a form which permits the continuation of this plan, the plan shall thereupon automatically continue in effect through September 30, 1949 (or through the date specified in such legislative action if a date earlier than September 30, 1949 is so specified) subject to other applicable provisions in this plan regarding earlier termination by the Secretary of Commerce and withdrawal by any individual participant. During the continuation period, steel products shall be made available at the rate of approximately 16,530 net tons per month, distributed by types as specified in subparagraph 2 (a) of this plan."

4. By inserting the following new paragraph at the end of the plan:

7. Any interpretation issued by the Secretary of Commerce (after consultation with the Attorney General), in writing, to clarify the meaning of any terms or provisions in this plan shall be binding upon all participants notified of such interpretation.

After approval of this amendment by the Attorney General and by the Secretary of Commerce, and after any steel producer or any manufacturer of tank and oil field production equipment has made a written acceptance of a request by the Secretary of Commerce for compliance herewith, this amendment shall become effective as to such steel producer or such manufacturer and shall be subject to the terms and conditions set forth in the original voluntary plan.

[To be signed by the Attorney General and the Secretary of Commerce upon approval.]

EXHIBIT B—REQUEST

PROPOSED REQUEST UNDER PUBLIC LAW 395, 80TH CONGRESS, FOR ALLOCATION OF STEEL PRODUCTS FOR TANK AND OIL FIELD PRODUCTION EQUIPMENT

The Secretary of Commerce, pursuant to the authority vested in him by Public Law 395, 80th Congress, and Executive Order 9919, after consultation with representatives of the steel producing industry and manufacturers of tank and oil field production equipment, and after expression of the views of industry, labor and the public generally at an open public hearing held on December 8, 1949, has determined that, in order to carry out the program begun under the voluntary plan (13 F. R. 5666) entered into by steel producers to furnish certain steel products for manufacturers of tank and oil field production equipment it will be necessary, and is practicable and appropriate to the successful carrying out of the policies set forth in said Public Law 395, that steel producers make further deliveries of steel products to such manufacturers after the expiration of the plan on February 28, 1949.

Therefore, the Secretary of Commerce, in accordance with subsections 2 (c) and 2 (f) of Public Law 395, 80th Congress, and with the approval of the Attorney General, hereby requests:

1. That steel producers participating in the above-mentioned voluntary plan continue to make approximately 16,530 net tons of steel products available monthly, during the period March 1, 1949, through August 31, 1949, on certified orders from manufacturers of tank and oil field production equipment; and that such products be made available in accordance with delivery procedures established under the said plan.

2. That manufacturers of tank and oil field production equipment place purchase orders hereunder only for the quantities and types of steel products established for them individually by the Secretary of Commerce; that they put identifying certifications on such purchase orders; and that they use all steel products obtained hereunder solely for the manufacture of tank and oil field production equipment.

In the event that an amendment to the above-mentioned voluntary plan extending its effectiveness beyond February 28, 1949 takes effect pursuant to appropriate legislation, this request will be superseded by said extended plan.

[To be signed by the Attorney General and the Secretary of Commerce upon approval.]

VOLUNTARY PLAN UNDER PUBLIC LAW 395, 80TH CONGRESS FOR ALLOCATION OF STEEL PRODUCTS FOR CONSTRUCTION, RECONVERSION AND REPAIR OF MERCHANT VESSELS

NOTICE OF PUBLIC HEARING ON PROPOSED INCREASE AND OTHER CHANGES AND ON CONTINUATION

Notice is hereby given that a public hearing will be held on Wednesday, December 8, 1948, at 4:00 p. m., e. s. t., in the Auditorium on the fifth floor of the National Archives Building, Pennsylvania Avenue between Seventh and Ninth Streets NW., Washington, D. C., for the purpose of affording to industry, labor and the public generally an opportunity to present their views with respect to (1) the proposed increase in the quantity of steel products to be made available under the voluntary plan, under Public Law 395, 80th Congress, for the allocation of steel products for the construction, reconversion and repair of merchant vessels, approved by the Attorney General on November 3, 1948 and by the Secretary of Commerce on November 5, 1948, (2) several proposed changes in the operational details of the plan, and (3) proposed completion of the procedures for continuation beyond February 28, 1949.

The increase in the monthly allocation quantity from 10,190 net tons of steel products to 15,415 net tons, beginning with the month of February 1949, and other changes in the operational details are set out in Exhibit A hereto.

Exhibit B hereto is a proposed request, to be made by the Secretary of Commerce, with the approval of the Attorney General, for unilateral action by participants in continuing the program for six months beyond February 28, 1949, in accordance with section 2 (f) of Public Law 395. This would remain effective in the event the authority now contained in the Law is not extended. The plan already provides for automatic continuation in the event of appropriate statutory extension.

Both Exhibits are in draft form and are subject to revision at or after the public hearing.

The proposed actions have been formulated after consulting with representatives of the industries involved and with interested government agencies, including the U. S. Maritime Commission, the National Military Establishment, and the Department of Justice.

Any person desiring to participate in the public hearing should file a written notice of appearance with the Director of the Office of Industry Cooperation, Room 5847, Department of Commerce Building, Washington 25, D. C., not later than 5 p. m., e. s. t., on Friday, December 3, 1948. Persons desiring to present written statements or memoranda should submit them, in triplicate, at the hearing.

JOHN R. ALISON,

Acting Secretary of Commerce.

The Secretary of Commerce, pursuant to the authority vested in him by Public Law

395, 80th Congress, and Executive Order 9919, after consultation with representatives of the steel producing and shipbuilding industries, and after expression of the views of industry, labor and the public generally at an open public hearing held on December 8, 1948, has determined that, in order to carry out the program begun under the voluntary plan (13 F. R. —) entered into by steel producers to furnish certain steel products for builders, reconverters, and repairers of merchant vessels, it will be necessary, and is practicable and appropriate to the successful carrying out of the policies set forth in the said Public Law 395, that (1) steel producers make larger quantities of steel products available to such builders, reconverters, and repairers and (2) that certain changes be made in the existing plan to cover this and other matters.

Producers will, from time to time, however, upon request of the Secretary of Commerce, give consideration to making additional quantities available.

2. By redesignating subparagraph 7 (c) *Other Reports* as 7 (d) and inserting the following as a new subparagraph 7 (c):

(c) *Report on orders placed.* In addition to the other reports provided for in this paragraph, each participating builder will, no later than the first day of each month, submit to the Secretary of Commerce, by letter or telegram, a report on the quantities and kinds of steel products covered by certified orders placed by it under this plan and accepted by participating steel producers for delivery in the second succeeding month.

3. By inserting the following, as an unnumbered subparagraph, at the end of paragraph 8 (*Obligations of participating builders*):

Participation in the benefits of this plan shall at all times be contingent upon each participating builder's continued strict compliance with the provisions hereof. In the event of any actual or prospective non-compliance by any participating builder, the Secretary of Commerce may, after written notice to the participating builder, take such action as he deems warranted with respect to the builder's participation in the plan, including partial or total suspension or termination of participation privileges and notification to the participating steel

producers not to make any or certain further shipments under the plan to such builder.

4. By inserting the following after the certification in paragraph 9 (*Procedure for placing orders*):

In addition, certifications on orders placed after December 31, 1948 shall carry the following additional sentence:

The undersigned further certifies that the quantities ordered herewith, when added to all other quantities certified by the undersigned under the plan for the same delivery month, do not exceed the undersigned's allocations under the plan for that month.

Purchase orders shall be placed not less than 60 days before the first of the month in which delivery is required.

After approval of this amendment by the Attorney General and by the Secretary of Commerce, and after any steel producer or any builder, reconverter, or repairer of merchant vessels has made written acceptance of a request by the Secretary of Commerce for compliance herewith, this amendment shall become effective as to such producer, builder, reconverter, or repairer and shall be subject to the terms and conditions set forth in the original voluntary plan.

[To be signed by the Attorney General and the Secretary of Commerce upon approval.]

EXHIBIT B—REQUEST

PROPOSED REQUEST UNDER PUBLIC LAW 395, 80TH CONGRESS FOR ALLOCATION OF STEEL PRODUCTS FOR CONSTRUCTION, RECONVERSION AND REPAIR OF MERCHANT VESSELS

The Secretary of Commerce, pursuant to the authority vested in him by Public Law 395, 80th Congress, and Executive Order 9919, after consultation with representatives of the steel producing and shipbuilding industries and with the interested government agencies and after expression of the views of industry, labor and the public generally at an open public hearing held on December 8, 1948, has determined that, in order to carry out the program begun under the voluntary plan (13 F. R. —) entered into by steel producers to furnish certain steel products for builders, reconverters and repairers of merchant vessels, it will be necessary, and is practicable and appropriate to the successful carrying out of the policies set forth in said Public Law 395, that steel producers make further deliveries of steel products to such builders, reconverters and repairers after the expiration of the plan (as amended) on February 28, 1949.

Therefore, the Secretary of Commerce, in accordance with subsections 2 (c) and 2 (f) of Public Law 395, 80th Congress, and with the approval of the Attorney General, hereby requests:

1. That steel producers participating in the abovementioned voluntary plan continue to make approximately 15,415 net tons of steel products available monthly, during the period March 1, 1949 through August 31, 1949, on certified orders from builders, reconverters and repairers of merchant vessels; and that such products be made available in accordance with delivery procedures established under the said plan.

2. In the event that an extension of the effectiveness of the above-mentioned voluntary plan beyond February 28, 1949 takes effect pursuant to appropriate legislation, this request will be superseded by said extended plan.

[File Nos. 59-11, 59-17, 54-25]

UNITED LIGHT & RAILWAYS CO. ET AL.

NOTICE OF FILING WITH RESPECT TO A
PROPOSED ACCOUNTING REORGANIZATION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C. on the 22d day of November A. D. 1948.

In the matter of the United Light and Railways Company, American Light & Traction Company, et al. File Nos. 59-11, 59-17, 54-25.

Notice is hereby given that American Light & Traction Company ("American Light"), a registered holding company, has filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("act"), an application-declaration, designated Application No. 5 in response to Commission's order of December 30, 1947, with respect to a proposed accounting reorganization. The application-declaration designates sections 11 (e) and 6 (a) (2) of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than December 6, 1948, at 5:30 p. m., e. s. t., request in writing that a hearing be held with respect to said application-declaration stating the nature of his interest, the reasons for such request and the issues of fact or law raised by said application-declaration which he desires to controvert or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C.

At any time after December 6, 1948 said application-declaration may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application-declaration which is on file in the office of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

By Order dated December 30, 1947, the Commission approved a plan filed by American Light and its parent, the United Light and Railways Company, pursuant to section 11 (e) of the act, which plan, among other things, provided for American Light's disposition during the year 1948, by sales or through dividend distributions, of all of its holdings of common stock of Detroit Edison, the offer by American Light to purchase at \$33 per share plus accrued dividends its outstanding preferred stock, and the distribution in kind by American Light among its stockholders of the common stock of Madison Gas and Electric Company, and the Commission in the order of December 30, 1947, reserved jurisdiction, among other things, with respect to accounting entries in connection with the plan.

American Light proposes to establish reserves, as of January 2, 1948, adequate in amount to cover all charges to earned surplus required to be made in connection with the dividend payments, distributions, sales, and other transactions contemplated by the plan, together with a provision for contingencies arising in connection with the plan. These charges will result in an earned surplus deficit and it is proposed to eliminate such deficit by a charge to paid-in surplus.

It is stated that the proposed reserves will aggregate \$35,053,940 and will be for

the following purposes and in the following amounts:

Dividends declared on common stock during 1948.....	\$3,362,664
Dividends declared on preferred stock during 1948.....	603,365
Losses on sales of the common stock of The Detroit Edison Co.	22,824,572
Excess of purchase price of preferred stock to be retired over par value thereof plus accrued dividends	4,368,806
Distribution of the common stock of Madison Gas and Electric Co.	3,144,533
Contingencies, including fees and expenses in connection with the consummation of the plan.....	750,000
	35,053,940

The establishment of such reserves will exhaust the entire earned surplus existing as at December 31, 1947, in the amount of \$21,630,812 and will result in an earned surplus deficit of \$13,423,128, which deficit will be eliminated by transfer to the paid-in surplus account. Paid-in surplus in the amount of \$18,621,001 as at December 31, 1947, will be reduced to \$5,197,873 as at January 2, 1948. Upon completion of all transactions contemplated by the plan any balance in such reserves will be transferred to the paid-in surplus account. It is also proposed that the earned surplus of the subsidiaries of American Light at January 2, 1948 be transferred to the paid-in surplus account in consolidated statements.

The application-declaration requests the Commission to enter an order authorizing American Light to record on its books the accounting entries proposed or releasing jurisdiction heretofore reserved over accounting entries to be made by American Light in connection with the plan with the understanding that the accounting entries proposed will be recorded on the books of the company.

By the Commission.
