TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 393, Revised, Amdt. 82]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

CHANGES IN AREAS QUARANTINED

Pursuant to the provisions of sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111-113, 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 76.27, as amended, Subpart B, Part 76, Title 9, Code of Federal Regulations (21 F. R. 3, 417, 786, 1165, 1461, 1743, 2230, 2611, 3005, 3923, 4339, 5043), which quarantines certain areas because of vesicular exanthema, a contagious, infectious, and communicable disease of swine, is hereby

further amended in the following respects:

1. A new subdivision (x) is added to subparagraph (1) of paragraph (b), relating to Hartford County in Connecticut, to read:

(x) That part of the Town of East Hartford lying south of the Silver Lane Road, west of Oak Street, north of Forrest Street, and east of Forbes Street.

2. A new subdivision (v) is added to subparagraph (11) of paragraph (d), relating to Ocean County in New Jersey, to read:

(v) That area in Jackson Township lying north of County Road No. 526, east of Bartley Road, south of Prospect Road, and west of the Brook running south from Prospect Road which Brook crosses County Road No. 526 and empties into the south branch of the Metedeconk River.

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment excludes certain areas in Connecticut and New Jersey from the areas heretofore quarantined because of vesicular exanthema. Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, 1955 Supp., Part 76, Subpart B, as amended, will not apply to such areas. However, the restrictions pertaining to such movement from non-quarantined areas, contained in said Subpart B, as amended, will apply thereto.

The amendment relieves certain restrictions presently imposed, and must be made effective immediately to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

(Secs. 1, 2, 32 Stat. 792, as amended, secs. 1, 3, 33 Stat. 1264, as amended, 1265, as amended; 21 U. S. C. 120, 121, 111, 123, 125. Interprets or applies sec. 7, 23 Stat. 32, as amended; 21 U. S. C. 117)

Subchapter A—Civil Air Regulations

[Supp. 25]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

OXYGEN

This supplement provides a further interpretation of the regulations pertaining to oxygen requirements for crew members in nonpressurized aircraft. A question has arisen as to the meaning of the phrase, "and used by", as it appears in § 40.202 (b) of the Civil Air Regulations; therefore, the following interpretation of this phrase is adopted in order to standardize its application throughout the industry:

Section 40.202-1 is revised by designating the first paragraph as (a) and adding a new paragraph (b) to read as follows:

§ 40.202-1 *Supplemental oxygen for crew members (CAA interpretations which apply to sec. 40.202 (b)).* (a) * * *

(b) The words "and used by" mean continuous use of the oxygen by a crew member during the required periods, except when it is necessary to remove the oxygen mask or other dispenser in connection with his regular duties.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

This supplement shall become effective July 31, 1956.

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

OXYGEN

This supplement provides a further interpretation of the regulations pertaining

to oxygen requirements for crew members in nonpressurized aircraft. A question has arisen as to the meaning of the phrase, "and used by", as it appears in § 41.24 (a) of the Civil Air Regulations; therefore, the following interpretation of this phrase is adopted in order to standardize its application throughout the industry:

Section 41.24-1 is revised by designating the first paragraph as (a) and adding a new paragraph (b) to read as follows:

§ 41.24-1 *Supplemental oxygen for crew members (CAA interpretations which apply to § 41.24 (a)).* (a) * * *

(b) The words "and used by" mean continuous use of the oxygen by a crew member during the required periods, except when it is necessary for the crew member to remove the oxygen mask or other dispenser in connection with his regular duties.

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

OXYGEN

This supplement provides further interpretation of the regulations pertaining to oxygen requirements for crew members in nonpressurized aircraft. A question has arisen as to the meaning of the phrase, "and used by", as it appears in § 42.26 (a) of the Civil Air Regulations; therefore, the following interpretation of this phrase is adopted in order to standardize its application throughout the industry. In addition, the interpretation of the phrase, "during the portion of flight in excess of 30 minutes within this range of altitudes", which was previously incorporated in this part by cross-reference to § 41.24-1 is hereby inserted in full as paragraph (a) of § 42.26-1. This latter revision is editorial in nature and is made for the purpose of assuring that each part within this subchapter is complete and contains all material pertinent to the sections thereof.

Section 42.26-1 is amended to read as follows:

§ 42.26-1 *Supplemental oxygen for crew members (CAA interpretations which apply to § 42.26 (a)).* (a) The phrase, "during the portion of flight in excess of 30 minutes within this range of altitudes", applies to all crew members including the flight crew members on flight-deck duty. Thus, oxygen is required to be provided for, and used by, each member of the flight crew on flight-deck duty only during the portion of the flight in excess of 30 minutes within this range of altitudes.

(b) The words "and used by" mean continuous use of the oxygen by a crew member during the required periods, except when it is necessary for the crew member to remove the oxygen mask or other dispenser in connection with his regular duties.

(Sec. 205, 52 Stat. 984, 49 U. S. C. 425. Interprets or applies secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

This supplement shall become effective July 31, 1956.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 250—GENERAL RULES AND REGULA- TIONS, PUBLIC UTILITY HOLDING COM- PANY ACT OF 1935

COMPANIES DEEMED NOT TO BE WITHIN DEFINITION OF "ELECTRIC UTILITY COM- PANY"

On June 15, 1956, the Securities and Exchange Commission invited all interested persons to submit data, views, and comments on a proposal to amend § 250.7 (Rule U-7) to provide for a class of companies deemed not to be within the definition of electric utility company (Holding Company Act Release No. 13200). The Commission has considered all the data, views, and comments submitted including the record of testimony before the Special Subcommittee to consider S. 2643 (84th Congress) of the Committee on Interstate and Foreign Commerce of the United States Senate and the report of that committee (Senate Report No. 2287, dated June 22, 1956), and has adopted the amendment to Rule U-7, as proposed, with certain modifications. This action has been taken pursuant to the provisions of sections 2 (a) (3) and 20 (a) of the Public Utility Holding Company Act of 1935.

Statement of purposes. Rule U-7 excludes from the categories of "electric utility company" and "gas utility company" certain companies primarily engaged in other businesses. The rule provides, in paragraph (a), that such companies, although having a certain amount of public utility business, shall not be deemed electric or gas utility companies if their gross sales of electric energy or gross retail sales of natural or manufactured gas did not exceed \$100,000 for the previous calendar year, which amount is computed after excluding certain classes of transactions specified in paragraph (b) of the rule.

The amendment to the rule specifies a new class of companies which would be excluded from the category of "electric utility company", namely, certain companies whose only connection with the generation, transmission, or distribution of electric energy is the ownership or operation of facilities used for

the production of heat or steam from special nuclear material which heat or steam is used in the generation of electric energy and which companies are organized not for profit and are engaged primarily in research and development activities. Companies not otherwise subject to the act would not become subject to the act as a result of participating in research and development activities with respect to electric energy generated through the utilization of nuclear material.

The rule would permit the development of nuclear power for peaceful purposes in accordance with the policies expressed by the Congress in the Atomic Energy Act of 1954. The rule would permit the corporate organization and sponsorship of nuclear power projects to be established in a manner which would not subject them to the provisions of the Public Utility Holding Company Act of 1935 during the period when such projects are primarily engaged in research and development.

The rule does not prohibit the filing of an application pursuant to the provisions of section 2 (a) (3) of the act for an order declaring any company which meets the standards set forth therein not to be an electric utility company. Further, in the event that the Commission, pursuant to the procedure set forth in the rule, notifies any company that it may no longer claim the exempt status afforded by the rule, such company may, within thirty (30) days after such notification, file an application for an order granting exemption pursuant to the provisions of section 2 (a) (3) of the act. If the application is filed in good faith the exempt status is continued until the Commission has acted upon such application. Moreover, the application will be granted if the Commission finds that the applicant comes within the standards set forth in the rule or for any other reason is lawfully entitled to an exclusionary order.

Text of the rule. The letter "(b)" and the words "in paragraph (a)" are deleted from the first sentence of paragraph (b) of § 250.7 (Rule U-7) and that sentence is made a part of paragraph (a). A new paragraph (b) is added which reads as follows:

§ 250.7 Companies deemed not to be electric or gas utility companies. * * *

(b) (1) Any company whose only connection with the generation, transmission, or distribution of electric energy is the ownership or operation of facilities used for the production of heat or steam from special nuclear material which heat or steam is used in the generation of electric energy shall not be deemed an electric utility company within the meaning of section 2 (a) (3) of the act, if such company is organized not for profit and is engaged primarily in research and development activities.

(2) As a prerequisite to being entitled to the status afforded by subparagraph (1) of this paragraph, any such company shall file with this Commission a statement that such company falls within the provisions of that subparagraph, including as exhibits (i) copies of its charter, by-laws and any licenses issued by the Atomic Energy Commission to

such company; (ii) a list of its members or stockholders indicating their respective percentages of voting power; and (iii) if such company was in existence at the end of the preceding calendar year, a balance sheet as at the end of the preceding calendar year and an income and surplus statement for such year or a statement of receipts and expenditures for such year and of financial status at its end.

(3) As a prerequisite to retaining the status afforded by subparagraph (1) of this paragraph, any such company shall annually on or before May 1 file a statement with this Commission that such company continues to fall within the provisions of that subparagraph, including as exhibits (i) any changes or additions to its charter or by-laws or list of members or stockholders or any licenses issued by the Atomic Energy Commission to such company since the time of the last filing hereunder, and (ii) a balance sheet as at the end of the preceding calendar year and an income and surplus statement for such year or a statement of receipts and expenditures for such year and of financial status at its end.

(4) If it appears to the Commission (on the basis of the aforesaid statements or otherwise) that a substantial question of law or fact exists as to whether any company is entitled to the status afforded by subparagraph (1) of this paragraph, the Commission may notify such company to that effect by registered mail. Thirty days after such notification the status afforded by subparagraph (1) of this paragraph shall no longer be available to such company, without prejudice to the right of such company to file an application for an order granting an exemption from the application of section 2 (a) (3) of the act, and without prejudice to any temporary exemption provided by that section if such an application is filed in good faith. The Commission will grant such an application if it finds that the standards set forth in subparagraph (1) of this paragraph are satisfied.

(Sec. 20, 49 Stat. 833; 15 U. S. C. 791)

Rule U-7 as amended is effective July 13, 1956.

By the Commission.

PART 776—INTERPRETATIVE BULLETIN ON
THE GENERAL COVERAGE OF THE WAGE
AND HOUR PROVISIONS OF THE FAIR LABOR
STANDARDS ACT OF 1938, AS AMENDED

SUBPART B—CONSTRUCTION INDUSTRY

Pursuant to General Order No. 45-A (15 P. R. 3290), and under its authority, Part 776 of Title 29, Code of Federal Regulations, is hereby amended by the addition of Subpart B, entitled Construction Industry, which reads as follows:

Subpart B—Construction Industry

- Sec.
776.22 Guiding principles.
776.23 Employment in the construction industry.
776.24 Travel in connection with construction projects.
776.25 Regular and recurring activities as basis of coverage.
776.26 Relationship of the construction work to the covered facility.
776.27 Construction which is related to covered production.
776.28 Covered preparatory activities.
776.29 Instrumentalities and channels of interstate commerce.
776.30 Construction performed on temporarily idle facilities.

AUTHORITY: §§ 776.22 to 776.30 Issued under 52 Stat. 1060, as amended; 29 U. S. C. 201-219.

SUBPART B—CONSTRUCTION INDUSTRY

§ 776.22 Guiding principles—(a) Scope of bulletin and general coverage statement. This subpart contains the opinions of the Administrator of the Wage and Hour Division with respect to the applicability of the Fair Labor Standards Act to employees engaged in the building and construction industry. The provisions of the act expressly make its application dependent on the character of an employee's activities, that is, on whether he is engaged "in commerce" or in the "production of goods for commerce including any closely related process or occupation directly essential to such production." Under either of the two prescribed areas of covered work, coverage cannot be determined by a rigid or technical formula. The United States Supreme Court has said of both phases that coverage must be given "a liberal construction" determined "by practical considerations, not by technical

conceptions."¹ The Court has specifically rejected the technical "new construction" concept, as a reliable test for determining coverage under this act.² So far as construction work specifically is concerned, the courts have cast the relevant tests for determining the scope of "in commerce" coverage in substantially similar language as they have used in construing the "production" phase of coverage. Thus the act applies to construction work which is so intimately related to the functioning of interstate commerce as to be, in practical effect, a part of it, as well as to construction work which has a close and immediate tie with the process of production.³

(b) *Engagement in commerce.* The United States Supreme Court has held that the "in commerce" phase of coverage extends "throughout the farthest reaches of the channels of interstate commerce," and covers not only construction work physically in or on a channel or instrumentality of interstate commerce but also construction work "so directly and vitally related to the functioning of an instrumentality or facility of interstate commerce as to be, in practical effect, a part of it, rather than isolated, local activity."⁴

(c) *Production of goods for commerce.* The "production" phase of coverage includes "any closely related process or occupation directly essential" to production of goods for commerce. An employee need not be engaged in activities indispensable to production in order to be covered. Conversely, even indispensable or essential activities, in the sense of being included in the long line of causation which ultimately results in production of finished goods, may not be covered. The work must be both closely related and directly essential to the covered production.⁵

(d) *State and national authority.* Consideration must also be given to the relationship between state and national authority because Congress intended "to leave local business to the protection of the State."⁶ Activities which superficially appear to be local in character, when isolated, may in fact have the required close or intimate relationship with the area of commerce to which the act applies. The courts have stated that a project should be viewed as a whole in a realistic way and not broken down into its various phases so as to defeat the purposes of the act.⁷

(e) *Interpretations.* In his task of distinguishing covered from non-covered employees the Administrator will be guided by authoritative court decisions. To the extent that prior administrative rulings, interpretations, practices and enforcement policies relating to employees in the construction industry are inconsistent or in conflict with the principles stated in this bulletin, they are hereby rescinded and withdrawn.

§ 776.23 Employment in the construction industry—(a) *In general.* The same principles for determining coverage under the Fair Labor Standards Act generally apply to employees in the building and construction industry. As in other situations, it is the employee's activities rather than the employer's business which is the important consideration, and it is immaterial if the employer is an independent contractor who performs the construction work for or on behalf of a firm which is engaged in interstate commerce or in the production of goods for such commerce.⁸

(b) *On both covered and non-covered work.* If the employee is engaged in both covered and non-covered work during the workweek he is entitled to the benefits of the act for the entire week regardless of the amount of covered activities which are involved. The covered activities must, however, be regular or recurring rather than isolated, sporadic or occasional.⁹

(c) *On covered construction projects.* All employees who are employed in connection with construction work which is closely or intimately related to the functioning of existing instrumentalities and channels of interstate commerce or facilities for the production of goods for such commerce are within the scope of the act. Closely or intimately related construction work includes the maintenance, repair, reconstruction, redesigning, improvement, replacement, enlargement or extension of a covered facility.¹⁰ If the construction project is subject to the act, all employees who participate in the integrated effort are covered, including not only those who are engaged in work at the site of the construction such as mechanics, laborers, handymen, truckdrivers, watchmen, guards, timekeepers, inspectors, checkers, surveyors, payroll workers, and repair men, but also office, clerical, bookkeeping, auditing,

promotional, drafting, engineering, custodial and stock room employees.¹¹

(d) *On non-covered construction projects.* (1) A construction project may be purely local and, therefore, not covered, but some individual employees may nonetheless be covered on independent ground by reason of their interstate activities. Under the principle that coverage depends upon the particular activities of the employee and not on the nature of the business of the employer, individual employees engaged in interstate activities are covered even though their activities may be performed in connection with a non-covered construction project. Thus, the act is applicable to employees who are regularly engaged in ordering or procuring materials and equipment from outside the State or receiving, unloading, checking, watching or guarding such goods while they are still in transit. For example, laborers on a non-covered construction project who regularly unload materials and equipment from vehicles or railroad cars which are transporting such articles from other States are performing covered work.¹²

(2) Similarly, employees who regularly use instrumentalities of commerce, such as the telephone, telegraph and mails for interstate communication are within the scope of the act, as are employees who are regularly engaged in preparing, handling, or otherwise working on goods which will be sent to other States. This includes the preparation of plans, orders, estimates, accounts, reports and letters for interstate transmittal.

§ 776.24 *Travel in connection with construction projects.* The act also applies to employees who regularly travel across State lines in the performance of their duties, even though the construction project itself is not covered.¹³ If an employee regularly transports persons, materials, or equipment between jobs across State lines, or to a covered project, even within the State, as part of his duties for the contractor, he would be covered. As in other situations, the act would not apply if crossing State lines or transporting persons, materials, or equipment by the employee was isolated or sporadic rather than regular and recurring. Also, ordinary home-to-work travel, even across State lines, is not covered.

§ 776.25 *Regular and recurring activities as basis of coverage.* Regular and recurring may mean a very small amount and is not to be determined by volume or percentages. Coverage depends on the character rather than the volume of the employee's activities. For example, if an employee in the course of his duties

regularly engages in covered work even though the covered work constitutes only a small part of his duties, he would be covered in any week when he performs such covered work.¹⁴

§ 776.26 *Relationship of the construction work to the covered facility.* Unless the construction work is physically or functionally integrated or closely identified with an existing covered facility it is not regarded as covered construction because it is not closely enough related to or integrated with the production of goods for commerce or the engagement in commerce. For this reason the erection, maintenance or repair of dwellings, apartments, hotels, churches and schools are not covered projects.¹⁵ Similarly the construction of a separate, wholly new, factory building, not constructed as an integral part or as an improvement of an existing covered production plant, is not covered (Cf. § 776.27 (c)). Coverage of any construction work, whether new or repair work, depends upon how closely integrated it is with, and how essential it is to the functioning of, existing covered facilities. Neither the mere fact that the construction is "new construction" nor the fact that it is physically separated from an existing covered plant, is determinative. Moreover, the court decisions make it clear that the construction project itself need not be actually employed in commerce or in the production of goods for commerce during the time of its construction in order to be covered.¹⁶ Such factors may be considered in determining whether as a practical matter the work is directly and vitally related to the functioning of the covered facility but would not be decisive.

§ 776.27 *Construction which is related to covered production—(a) Existing production establishments.* (1) Covered production facilities within the concept of the act include mines, oil wells, banks, manufacturing, packing and processing plants, filtration, sewage treatment, electric power and water plants, shipyards, warehouses in which goods are broken down, packed or handled preparatory to being sent in interstate commerce, and similar establishments.

(2) The repair or maintenance of a covered production unit is essential for its continued operation and has a close and immediate tie with the production of goods for commerce.¹⁷ The act is also applicable to other construction which is an integral part of a covered production unit, such as the replacement, enlargement, reconstruction, extension or other improvement of the premises, the buildings, the machinery, tools and dies and other equipment. Functionally such work is like maintenance and repair and

is necessary for the continued, efficient and effective operation of the facility as a unit. Thus the construction of new appurtenances of a covered production establishment such as parking aprons, access roads, railroad spurs, drainage ditches, storm, waste and sanitary sewers or adjacent integrated buildings is subject to the act. Similarly, the act applies to the installation of telephone, electric, gas and water lines, machinery and other equipment on the premises of such a facility.

(3) On the other hand, the production and furnishings, within the State, of construction materials, such as sand, gravel, brick and other construction materials produced for general local use, is not covered even if the producer also supplies such materials to construction companies which use them within the State in the repair, maintenance or improvement of facilities for the production of goods for commerce. Employees of the materialman in such a situation would not have such a close and immediate tie to the production of goods for commerce as to be considered "closely related" and "directly essential" to such production.¹⁸

(b) *Utilities which serve production establishments.* The act applies to employees of public utilities which furnish gas, electricity, water or fuel to firms engaged within the same State in manufacturing, processing, producing or mining goods for commerce.¹⁹ Construction work performed upon the plant and facilities of such a utility is covered as in the case of any other covered production establishment.²⁰ The extension of the lines or other facilities of a covered utility for the first time to the premises of an establishment which produces goods for commerce would be subject to the act, because such extension is simply an improvement or enlargement of an existing covered utility.²¹ Furthermore, the maintenance or repair of the wires, pipes, or other conduits of a covered utility which serves business and manufacturing as well as residential areas would also be within the act. On the other hand, extension or repair of lines or other facilities serving only residential areas would not be covered unless the electricity, gas, fuel, or water comes from out of the State.

(c) *New construction which is not integrated with existing production facilities.* (1) Construction of a new factory building, even though its use for interstate production upon completion

may be contemplated, will not ordinarily be considered covered. However, if the new building is designed as a replacement of or an addition or an improvement to, an existing interstate production facility, its construction will be considered subject to the act.

(2) If the new building, though not physically attached to an existing plant which produces goods for commerce, is designed to be an integral part of the improved, expanded or enlarged plant, the construction, like maintenance and repair, would be subject to the act.²¹

(d) *Production of materials for use in construction work on interstate instrumentalities.* (1) The act applies to employees who are engaged, at the job site or away from it, in the production of goods to be used within the State for the maintenance, repair, extension, enlargement, improvement, replacement or reconstruction of an instrumentality of interstate commerce. The goods need not go out of the State since the act applies to the production of goods "for" commerce, including for use in commerce, and is not limited to "production of goods for transportation in commerce," that is, to be sent across State lines.²²

(2) The act would also apply to the production of such items as electricity, fuel or water, for use in the operation of railroads or other instrumentalities of commerce.²³ Therefore, as in the case of other production units, the maintenance, repair or other improvement of the premises or buildings or the appurtenances, including the machinery, tools and dies and equipment, of the facilities which are used to produce such goods, are subject to the act.

(3) Coverage also extends to employees who produce sand, gravel, asphalt, cement, crushed rock, railroad ties, pipes, conduits, wires, concrete pilings and other materials which are to be used in the construction of instrumentalities which serve as the means for the interstate movement of goods or persons.

(4) This does not mean, however, that in every case where employees produce such materials which are used within the State in the maintenance, repair, or reconstruction of an instrumentality of commerce, the production of such materials is necessarily considered as production "for" commerce. A material supply company may be engaged in an independent business which is essentially local in nature, selling its materials to the usual miscellany of local customers without any particular intent or purpose of supplying materials for the maintenance, repair, or reconstruction of instrumentalities of commerce, and without any substantial portion of its business being directed to such specific uses. Employees of such an "essentially local business" are not covered by the act merely because as an incident to its essentially local business, the company, on occasion,

happens to produce or supply some materials which are used within the State to meet the needs of instrumentalities of commerce.²⁴

§ 776.28 *Covered preparatory activities—(a) Before production begins.* (1) The United States Supreme Court has held that the act is applicable to employees of a company which was engaged in preliminary oil well drilling, even though the holes were drilled to a specified depth which was short of where the oil was expected to be found.²⁵ The act would also apply to drilling operations even though no oil was discovered.²⁶ Laborers employed in erecting drilling rigs would also be covered.²⁷ Other preparatory work before drilling begins in an oil field, such as staking oil claims, surveying, clearing the land, assembling materials and equipment, erecting sheds, derricks or dikes would also be within the scope of the act.²⁸ Preliminary work such as the foregoing has the requisite close and immediate tie with the production of goods for commerce to be within the coverage of the act.

(2) Similarly, coverage extends to employees engaged in the installation of machinery to be used in covered production in a new factory building, even though the construction of the building itself may not have been subject to the act. Such installation is considered to be a preliminary production activity rather than simply part of the construction of the building.

(3) If the construction project is subject to the act, preliminary activities, such as surveying, clearing, draining and leveling the land, erecting necessary buildings to house materials and equipment, or the demolition of structures in order to begin building the covered facility, are subject to the act.²⁹

(b) *Facilities used in aid of the covered construction.* The installation of facilities, and the repair and maintenance of trucks, tools, machinery and other equipment to be used by a contractor in the furtherance of his covered construction work, are activities subject to the act.

§ 776.29 *Instrumentalities and channels of interstate commerce—(a) Typical examples.* Instrumentalities and channels which serve as the media for the movement of goods and persons in interstate commerce or for interstate communications include railroads, highways, city streets; telephone, gas, electric and pipe line systems; radio and television broadcasting facilities; rivers, canals and other waterways; airports; railroad, bus, truck or steamship terminals; freight depots, bridges, ferries, bays, harbors, docks, wharves, piers; ships, vehicles and

aircraft which are regularly used in interstate commerce.³⁰

(b) *General character of an instrumentality of interstate commerce.* (1) An instrumentality of interstate commerce need not stretch across State lines but may operate within a particular State as a link in a chain or system of conduits through which interstate commerce moves.³¹ Obvious examples of such facilities are railroad terminals, airports which are components of a system of air transportation, bridges and canals. A facility may be used for both interstate and intrastate commerce but when it is so used it is nonetheless an interstate instrumentality. Such double use does not exclude construction employees from being engaged in commerce.

(2) The term instrumentality of interstate commerce may refer to one unit or the entire chain of facilities. An instrumentality such as a railroad constitutes a system or network of facilities by which the interstate movement of goods and persons is accomplished. Each segment of the network is integrally connected with the whole and must be viewed as part of the system as a whole, not as an isolated local unit.

(3) A construction project which changes the interstate system as a whole, or any of its units, would have a direct bearing on the flow of interstate commerce throughout the network. Thus, the new construction of an alternate route or an additional unit which alters the system or any segment of it, would have such a direct and vital relationship to the functioning of the instrumentality of interstate commerce as to be, in practical effect, a part of such commerce rather than isolated local activity. For example, such construction as the maintenance, repair, replacement, expansion, enlargement, extension, reconstruction, redesigning or other improvement, of a railroad system as a whole, or of any part of it, would have a close and intimate relationship with the movement of goods and persons across State lines. All such construction, therefore, is subject to the act.

(4) The same would be true with respect to other systems of interstate transportation or communication such as roads, waterways, airports, pipe, gas and electric lines, and ship, bus, truck, telephone and broadcasting facilities. Consequently, construction projects for lengthening, widening, deepening, relocating, redesigning, replacing and adding new, substitute or alternate facilities; shortening or straightening routes or lines; providing cutoffs, tunnels, trestles, causeways, overpasses, underpasses and bypasses are subject to the act. Furthermore, the fact that such construction serves another purpose as well as the improvement of the interstate facility, or that the improvement to the interstate facility was incidental to other

non-covered work, would not exclude it from the act's coverage.²⁰

(c) *Examples of construction projects which are subject to the act.* Coverage extends to employees who are engaged on such work as repairing or replacing abutments and superstructures on a washed out railroad bridge;²¹ replacing an old highway bridge with a new one at a different location;²² removing an old railroad bridge and partially rebuilding a new one; repairing a railroad roundhouse, signal tower, and storage building; relocating portions of a county road; erecting new bridges with new approaches in different locations from the old ones; widening a city street; relocating, improving or extending interstate telephone facilities including the addition of new conduits and new trunk lines.²³ Also within the scope of the act are employees who are engaged in the construction, maintenance and repair of ships, barges and other vessels used for interstate commerce, including those belonging to the Government,²⁴ and facilities used in the production and transmission of electric, fuel, water, steam and other powers to instrumentalities of interstate commerce.²⁵

(d) *Construction of new facilities.* (1) In a case before the United States Supreme Court, the question was presented whether the act applied to the construction of a new canal at some distance from the one then in use. The new canal was to be an alternate route for entering the Mississippi River and would relieve traffic congestion in the existing canal. The latter would continue in operation but could not be widened because of its location in a highly developed industrial section of New Orleans. The Court in holding the construction of the new canal to be within the coverage of the act stated that the new construction was as intimately related to the improvement of navigation on the Gulf Intercoastal Waterway as dredging in the existing canal would be and that the project was "part of the redesigning of an existing facility of interstate commerce."²⁶ Thus the construction of a new facility in a network of instrumentalities of interstate commerce, in order to serve the system, or to function as an alternate route, or to relieve traffic congestion in another unit, or to replace an outmoded facility, is subject to the act.

(2) Similarly, the construction of a new unit, such as a new airport which is an addition to the entire interstate system of air transportation although not physically attached to any other

unit, would, as a practical matter, necessarily expand, promote and facilitate the movement of interstate commerce over the airway system, and, consequently, would be subject to the act. In such a situation the interstate system, although composed of physically separate local units, is, as a whole, the instrumentality of commerce which is improved. In most cases such an addition would also directly enhance, improve or replace some particular nearby unit in the interstate network. The new addition would thus relieve traffic congestion and facilitate the interstate movement of commerce over the existing instrumentality as a whole, as well as at the particular nearby units. The same principle would apply to highways, turnpikes and similar systems of interstate facilities.

(3) In like manner, the reconstruction, extension or expansion of a small unit in a system of interstate facilities, such as the enlargement of a small airport which is regularly used for interstate travel or transportation, is covered, regardless of the relative sizes of the original unit and the new one. The construction in such situations facilitates and improves the interstate commerce served by, and is directly related to the continued, efficient and effective operation of, both the particular original unit and the interstate system as a whole. Also, the construction of facilities such as hangars, repair shops and the like at a covered airport, which are "directly and vitally related to the functioning" of the instrumentality of commerce, would be subject to the act.²⁷

(e) *Construction on waterways.* Courts have consistently held that the engagement in interstate commerce includes the maintenance, repair or improvement of navigable waterways even when the construction work is performed on the non-navigable parts of the instrumentality such as at the headwaters and watersheds or in tributary streams.²⁸

Construction which improves rivers and waterways serving as instrumentalities of interstate commerce includes dredging; the building, maintenance, repair, replacement, reconstruction, improvement, or enlargement of dikes, revetments, levees, harbor facilities, retaining walls, channels, berths, piers, wharves, canals, dams, reservoirs and similar projects; also the removal of debris and other impediments in the waterway and flood control work in general.²⁹

The act applies to construction work which increases the navigability of a waterway, protects it from floods or otherwise improves or maintains its use as an instrumentality of interstate commerce. The courts have held that a program for controlling floods is inseparably related to the stabilization and maintenance of the navigable channel of the

river, since levees, dams, dikes and like structures, which hold back the waters in time of flood, at the same time confine a more efficient body of water during other periods by increasing its velocity and scouring and deepening its channels.³⁰

(1) *Flood control work in non-navigable parts of a waterway.* Both Congress and the courts have considered that watersheds and headwaters are keys to the control of floods on navigable streams and that the control over the non-navigable parts of a river is essential for the prevention of overflows on the navigable portions. It is also well settled that in order to control floods on a navigable stream it is necessary to take flood control measures on its tributaries.

(2) *Basis of coverage.* (i) The construction of a levee, dam or other improvement in any part of a river or its tributaries for the purpose of preventing floods or aiding navigation must be considered as an integral part of a single comprehensive project for improvement of the river system. Even though a particular levee or dike, by itself, may not effect an improvement, the courts have made it clear that the combined effect of a chain of such structures serves as the basis for determining coverage. The construction of a particular river structure may, therefore, be subject to the act simply because it is part of a comprehensive system of structures, whose combined effect will achieve the improvement of the navigable channel. Thus, it has been held that site clearance work in the construction of a multiple-purpose dam on a non-navigable stream is covered by the act where the work is an integral part of a comprehensive system for the control of floods and the betterment of navigation on the Arkansas and Mississippi Rivers.³¹ Similarly, the enlargement of a set-back levee, located from two to six miles from the banks of the Mississippi, was held to be covered because it was part of the Mississippi levee system even though the set-back levee, when viewed separately, was not directly related to the functioning of the Mississippi as an instrumentality of commerce.³²

(ii) The principle involved applies also to other instrumentalities of interstate commerce. As in the case of covered waterway projects, individual additions or improvements to other instrumentalities of interstate commerce may for coverage purposes be considered as part of a whole program rather than separately. The act will apply to the construction in such situations if the unit, considered by itself or as part of a larger program, promotes the efficient or effective operation of the instrumentality of interstate commerce.

(3) *Construction of wharves, piers and docks.* The act also applies to the con-

struction of new piers, wharves, docks and other facilities if they are integrated with the interstate commerce functions of an existing harbor. Similarly, the new construction of such facilities in other locations along the waterway is subject to the act if they are regularly used by vessels carrying goods or persons in interstate commerce.

(1) *Highways, county roads and city streets*—(1) *Typical examples.* As a generic term highways includes bridges, overpasses, overpasses, bypasses, county roads, access roads, city streets and alternate roads, draw bridges, toll bridges, toll roads and turnpikes, but does not include roads or parking facilities on privately owned land and which are not for use by the general public for interstate traffic.

(2) *Basis of coverage.* The general rules for determining the coverage of employees engaged in the construction of other instrumentalities of interstate commerce apply to highway construction work. The United States Supreme Court has stated that in applying the act to highway construction as to other coverage problems, practical rather than technical considerations are decisive.⁴⁶ After the Court remanded the Overstreet case to the district court, the latter held that the employees engaged in maintaining and repairing the facilities regularly used and available for interstate commerce were engaged in commerce, regardless of the extent of the interstate traffic.⁴⁷ The court recognized that although the amount of the interstate commerce in the Overstreet case was very small it was regular and recurring and not occasional nor incidental. Thus, under the authoritative decisions a percentage test is not regarded as a practical guide for ascertaining whether a particular facility is an instrumentality of interstate commerce.⁴⁸ Employees who are engaged in the repair, maintenance, extension, enlargement, replacement, reconstruction, redesigning or other improvement of such a road are subject to the act. The fact that the road is owned or controlled by the State or Federal Government or by any subdivision thereof would not affect the applicability of the act. The same would be true if State or Federal funds were used to finance the construction. It should be noted, however, that if the employees are actually employees of a State, or a political subdivision thereof, they are excepted from coverage of the act under section 3 (d).

(3) *City streets.* The construction, reconstruction or repair of a city street, whether residential or not, which is part of an interstate highway or which directly connects with any interstate highway is so closely related to the interstate commerce moving on the existing highway as to be a part of it. Construction of other streets, which are not a part of a public road building program and are constructed on private property as a part

of a new residential development, will not be considered covered until further clarification from the courts.

(4) *New highway construction.* Although a number of appellate court decisions have held that the construction of new highways is not within the coverage of the act, these decisions relied upon the technical "new construction" concept which the United States Supreme Court has subsequently held to be inapplicable as the basis for determining coverage under this act.⁴⁹ Under the principles now established by that Court's decisions, which require determination of coverage on the basis of realistic, practical considerations, the construction of new expressways and highways that will connect with an interstate highway system is so "related to the functioning of an instrumentality or facility of interstate commerce as to be, in practical effect, a part of it, rather than isolated, local activity."⁵⁰ Such highways and expressways not only are so designed as necessarily to become a part of or additions to an existing interstate highway system, but their construction is plainly of a national rather than a local character, as evidenced by the federal financial contribution to their construction. And neither the fact that they are not dedicated to interstate use during their construction, nor the fact that they will constitute alternate routes rather than replacement of existing roads, constitute sufficient basis, under the controlling court decisions, for excluding them from the coverage of the act.⁵¹ Accordingly, unless and until authoritative court decisions in the future hold otherwise, the construction of such new highways and expressways will be regarded as covered.

§ 776.30 *Construction performed on temporarily idle facilities.* The act applies to work on a covered interstate instrumentality or production facility even though performed during periods of temporary non-use or idleness.⁵² The courts have held the act applicable to performance of construction work upon a covered facility even though the use of the facility was temporarily interrupted or discontinued.⁵³ It is equally clear that the repair or maintenance of a covered

facility (including its machinery, tools, dies, and other equipment) though performed during the inactive or dead season, is subject to the act.⁵⁴

This amendment will become effective upon publication in the FEDERAL REGISTER.

Signed at Washington, D. C., this 17th day of July 1956.

Administrator,

PART 582—DISCHARGE OR SEPARATION FROM SERVICE

DISCHARGE BECAUSE OF NATIONAL HEALTH, SAFETY, OR INTEREST

In § 582.3, paragraph (c) (1) is amended to read as follows:

§ 582.3 *Discharge for convenience of the Government.* * * *

(c) *National Health, Safety, or Interest.* Enlisted personnel may apply for release from active military service on the basis of importance to national health, safety, or interest. Reservists ordered to 6 months' active duty for training are not eligible for separation under this paragraph.

(1) *General.* This policy is applicable to situations where a critical need for the services of an individual in a civilian capacity from the viewpoint of health, safety, or general welfare outweighs the need of the Nation for the individual in an active military status. Normally, favorable action on request for release under provisions of this policy will be made only when it is determined clearly that:

(i) The application is motivated by critical national or community interest and not for the personal benefit of the applicant, and

(ii) The applicant's importance to the national health, safety, or interest in a civilian capacity has become significantly greater than it was at the time of his entrance on duty by reason of:

(a) His unique qualifications in a critical civilian occupation; and

(b) An unusual change in his employer's requirements for his services caused by such factors as a substantial increase in defense-supporting activity; or

(c) A significant reduction in effectiveness of his employer's defense-supporting activity due to the loss of personnel capable of performing the functions of the applicant and his employer's inability to replace such personnel, and

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

MISCELLANEOUS AMENDMENTS TO CHAPTER

Title 39, Chapter I, is amended as set forth below:

PART 5—COMPLAINTS

a. Section 5.1 *Postal service* is amended to read as follows:

§ 5.1 *Postal service.* You may make complaints concerning the Postal Service to your postmaster. If you prefer, you may address your complaint to the Postmaster General, Washington 25, D. C.

b. In § 5.2 *Postal law violations* amend the table by adding to the states listed opposite Philadelphia the state of Delaware; and strike Delaware from the listing opposite Washington.

(R. S. 161, 396, as amended; 5 U. S. C. 22, 369)

PART 6—FRACTIONS

In § 6.1 *Fractions* amend paragraph (d) to read as follows:

(d) *Time.* Fractions of the stated unit—hours, days, months, quarters, years, etc.—are treated as a whole unit, except that in the computation of box rent the rent after the beginning of a

quarter is determined in the manner prescribed by § 41.3 (d) of this chapter.

(R. S. 161, 396, as amended; 5 U. S. C. 22, 369)

PART 35—PHILATELY

In Part 35, Philately, add new § 35.6, to read as follows:

§ 35.6 *Requests for postmarks on plain slips of paper.* Postmarks will not be placed on plain slips of paper submitted for philatelic or other purposes.

(R. S. 161, 396, as amended; 5 U. S. C. 22, 369)

PART 36—SPECIAL CANCELLATIONS

In § 36.3 *Application* amend paragraph (c) to read as follows:

(c) Name of post office or post offices where use of cancellation is desired.

(R. S. 161, 396, as amended; secs. 1, 2, 42 Stat. 539, 540; 5 U. S. C. 22, 369, 39 U. S. C. 368)

PART 37—PREPAYMENT AND REFUNDS

a. In § 37.1 *Prepayment of postage required* make the following changes in paragraph (c):

1. Amend subparagraph (3) to read as follows:

(3) Special Delivery mail, see § 56.2 (d) of this chapter.

2. Amend subparagraph (4) to read as follows:

(4) Mail bearing return address showing sender to be located at another post office will be treated as follows:

(i) *For local delivery.* The amount of deficiency will be rated and the mail offered for delivery to addressee upon collection of postage due.

(ii) *For other than local delivery.* (a) First-class mail prepaid less than one full rate and mail of any other class having obvious value, must be held for 2 weeks and notice of the amount due sent to the sender on card Form 3540-A. If no response is received mail is then treated as in subparagraph (5) of this paragraph.

(b) Mail other than first class of no obvious value will be disposed of.

3. Amend subparagraph (5) to read as follows:

(5) Mail without return address, the sender of which is unknown, will be treated as follows:

(i) *For local delivery.* Handle same as subparagraph (4) (i), of this paragraph.

(ii) *For other than local delivery.* (a) First-class mail prepaid less than one full rate and mail of any other class having obvious value will be held for 3 weeks and notice of the amount due sent to the addressee on card Form 3548.

(b) Mail other than first class of no obvious value will be disposed of.

b. In § 37.2 *Refunds* amend paragraph (a) to read as follows:

(a) *Conditions that justify refund.* When postage or special service fees have been paid on mail for which no service is rendered, or collected in excess of the lawful rate, a refund may be made.

When mail is returned at request of sender or for a reason not the fault of the Postal Service, any difference between the amount paid and the appropriate domestic air or surface rate chargeable from mailing office to interception point and return will be refunded.

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts, Department of Labor

PART 202—MINIMUM WAGE DETERMINATIONS

ELECTRIC LAMP INDUSTRY

This matter is before the Secretary of Labor for decision on the exceptions which have been filed to the proposed determination of prevailing minimum wages for the electric lamp industry as published in the *Federal Register* on April 6, 1956 (21 F. R. 2249).

The Interlectric Corporation, Solar Electric Corporation, and Bond Electric Division except to the proposed determination on the ground that it will bear with particular force on the small producers in the industry, who have only recently obtained relief from the monopolistic practices of certain larger producers. The determination proposed will not, of course, require the small producers to observe any higher minimum wage for their employees than it requires of the large producers, nor any higher one than has been found to be prevailing in their industry. It does not appear, therefore, to bear unfairly on them.

It does appear, however, that on the Government contract work to which it applies, the determination proposed will require a wage adjustment of larger proportion among the small producers than the one required for large producers. The lower minimum wages being paid by these small producers are described by one of them as their "one competitive advantage over the major companies." But, as the Supreme Court noted in *Perkins v. Lukens Steel Co.*, 310 U. S. 113, "This act's purpose was to impose obligations upon those favored with Government business and to obviate the possibility that any part of our tremendous national expenditures would go to forces tending to depress wages and purchasing power and offending fair social standards of employment." Certainly it is not inconsistent for the Government, having deprived the larger producers of their unfair competitive advantage by suit under the anti-trust statutes, now to require the smaller producers of the industry to pay not less than the minimum prevailing wage for their industry in Government contract work by an appropriate wage determination under the Walsh-Healey Public Contracts Act. To do otherwise would grant the smaller

units of the industry an unfair competitive advantage over the larger units, and validate depression of wages and purchasing power, and offend fair social standards of employment, which the Walsh-Healey Public Contracts Act specifically condemns. These exceptions are overruled.

The Lamp Industry Panel has filed several objections to the proposal because the determination is based on data restricted to wages paid in the electric lamp industry and does not rest on data in the record as to wages paid in other industries in the communities where lamps are made. No one has suggested that this determination be given effect in any Government contracts other than those for electric lamps. The requirement in section 1 (b) of the act that the Secretary of Labor determine the minimum wage actually "prevailing" in industry, rather than to fix one in his discretion, requires, of course, that the determination, for application only in this particular industry, be based on the wages paid in it rather than those paid in other industries. Accordingly, these objections are overruled.

Exception has also been taken "to the reliance of the Secretary upon wage practices in the number of plants or establishments in the industry rather than upon such practices in the number of companies in the industry." It is contended by the Lamp Industry Panel that a great majority of the lamp companies operate plants where wages substantially below \$1.26 are actually paid to experienced workers and that every lamp company has an established minimum rate in one or more of its plants which is substantially below the proposed rate of \$1.26 an hour. This argument does not take into consideration the fact that over three-fourths (77 percent) of the employees in the industry are employed in 35 plants (56 percent) which pay no experienced worker less than \$1.26 an hour. The record indicates that at least this rate was paid by General Electric in 18 of its 19 plants, by Westinghouse in 5 of its 9 plants and by Sylvania in 5 of its 8 plants. Smaller companies (including Tung-Sol in at least 1 of its 2 plants) comprise the remainder of the 35 plants paying experienced workers not less than \$1.26 an hour. The "number of companies" test would thus ignore all of that substantial part of the industry composed of the multiplant companies except the single lowest wage plant of each of those companies. All of the employment in all of the plants of each of those companies would then be counted as though employed in its lowest wage plant. Plainly, a determination of "the prevailing minimum wages for persons employed" (section 1 (b) of the act), depends entirely on the wages paid those persons, rather than the identity of the employer who operates the plants in which they work. Yet under the "number of companies" test, the rate to be determined could be affected substantially by transfers in the management of the several plants without the slightest change in the wages paid to the persons employed in them. Surely such a capricious method of determining prevailing minimum wages cannot be regarded

as required by the act, and this exception is overruled.

Exceptions to the tolerance on the wage rate of \$1.20 per hour proposed for beginners have been filed on behalf of the Lamp Industry Panel and the International Union of Electrical, Radio and Machine Workers, AFL-CIO, the former urging that on an actual payment basis the proposed rate should be lower, and the latter objecting to any tolerance wage rate for beginners in this industry.

The evidence discloses that 31 (52 percent) of the 60 plants which reported establishing hiring rates, reported such rates at \$1.20 an hour or more, and that more than three-fourths of all covered employees in the industry were employed in these 31 plants. Although 26 of these 60 plants were not at the time of the survey employing any workers in the lowest labor grade with three months of plant experience or less, and, consequently, were not paying any worker the lowest established hiring rates at that time, there is no proof that these rates had been or would be inoperative or that they were other than bona fide. For purposes of this determination lowest established hiring rates are considered to be the same as the lowest rates established for employees in the lowest labor grade who have three months of plant experience or less. For these reasons and for the reasons stated in the proposed determination, each of the exceptions filed in opposition to the proposed tolerance authorizing the subminimum rate of \$1.20 an hour for beginners is overruled.

The Lamp Industry Panel has also excepted to the period of 480 hours provided in the proposal for the employment of beginners. Since the only evidence contained in the record, in relation to this exception, is limited to such employment in intervals of one, two and three months the Lamp Industry Panel's objection is sustained and the proposed tolerance of 480 hours will be changed to one of three months duration.

I conclude, therefore, that the employment of beginners at subminimum rates should be authorized, and that a wage rate of \$1.20 an hour, arrived at either on a time or incentive basis, for a period not to exceed three months, is appropriate and shall be permitted for beginners in the electric lamp industry.

Several other objections were filed by the Lamp Industry Panel. Careful consideration has been given each of them. Most of them are restatements of points fully considered in the proposed determination, and none of them requires further discussion here. Each of them is overruled.

In view of the general provision in 41 CFR 201.1101 for the employment of handicapped workers at lower rates than the one determined to be prevailing, the provisions in the proposal relating to handicapped workers will not appear in this order. The technical terminology of the provision for apprentices will be changed to accord with present practices in this regard.

Accordingly, pursuant to authority vested by the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U. S. C. 35 et seq.) Title 41, Code of Federal Regu-

lations, Part 202, is hereby amended by the addition of the following section:

§ 202.53 *Electric lamp industry*—(a) *Definition.* The electric lamp industry is defined as that industry which manufactures electric bulbs, tubes and related light sources, including but not limited to such products as incandescent filament lamps, sealed beam headlights composed of a filament in a glass shell, vapor and fluorescent lamps, photoflash and photoflood lamps, and the following electric lamp components: Lead-in wires, support wires, filament, welds, hooks, and metal bases: *Provided, however,* That this definition shall not include electro-therapeutic lamp units, electronic tubes, X-ray tubes, sealed beam headlights composed of an electric lamp enclosed in a shell of glass or of glass and metal, carbon arc lamps, custom made luminous tube signs, electric lighting fixtures, plastic lamp bases, chemicals, gases, glass blanks, glass tubing, glass rod, and dumet, molybdenum and tungsten wire. For the purpose of this definition an electric lamp is defined as any device the primary purpose of which is to convert electric energy into radiation within the visible spectrum and/or into ultra-violet radiations of wavelengths of not less than 500 Angstrom units, and/or infra-red radiation not longer than 100,000 Angstrom units.

(b) *Minimum wages.* The minimum wage for persons employed in the manufacture or furnishing of products of the electric lamp industry under contracts subject to the Walsh-Healey Public Contracts Act shall be not less than \$1.26 an hour arrived at either on a time or incentive basis.

(c) *Subminimum wages authorized.*

(1) Beginners may be employed at wages not less than \$1.20 an hour, arrived at either on a time or incentive basis, for a period not to exceed three months. A beginner for the purpose of this determination is a worker who has had no more than three months experience in the plant.

(2) Apprentices may be employed at wages less than \$1.26 an hour upon the same terms and conditions as are prescribed for the employment of apprentices by the regulations of the Administrator of the Wage and Hour Division of the United States Department of Labor (29 CFR Part 521), under section 14 of the Fair Labor Standards Act. The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of apprentices in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(e) *Effective date.* This section shall be effective and the minimum wages herein established shall apply to all contracts subject to the Public Contracts

Act bids for which are solicited or negotiations otherwise commenced on or after August 20, 1956.

(Sec. 4, 49 Stat. 2038; 41 U. S. C. 38)

Signed at Washington, D. C., this 16th day of July 1956.

FISHING

Sec.
31.221 Fishing permitted.
31.222 State fishing laws.
31.223 Use of boats.

Sec.
31.224 Entry.
31.225 Routes of travel.

AUTHORITY: §§ 31.221 to 31.225 issued under sec. 10, 45 Stat. 1224; 16 U. S. C. 7151.

SUBPART—McKAY CREEK NATIONAL WILDLIFE REFUGE, OREGON

FISHING

§ 31.221 *Fishing permitted.* Noncommercial fishing in accordance with the laws and regulations of the State of Oregon is permitted during the daylight hours in the waters of the McKay Creek National Wildlife Refuge: *Provided, however,* That fishing is prohibited on the McKay Creek Refuge during the period extending from September 16 to April 15 following, or to the opening date of the State sport fishing season, whichever date shall occur the latest.

§ 31.222 *State fishing laws.* Any person who fishes within the refuge must comply with the applicable fishing laws and regulations of the State of Oregon, and must have in his possession a valid fishing license issued by the State of Oregon, if such license is required, and when requested to do so, shall exhibit it to any authorized representative of the Oregon State Game Commission or to any representative of the Fish and Wildlife Service.

§ 31.223 *Use of boats.* The use of boats, including motorboats, is permitted for fishing and for pleasure only during the period of fishing season as prescribed for the McKay Creek Refuge.

§ 31.224 *Entry.* Entry on and use of the lands and waters of the refuge for any purpose are governed by Parts 18 and 21 of this chapter, and strict compliance therewith is required.

§ 31.225 *Routes of travel.* Persons entering the refuge for the purposes of boating and fishing shall follow such routes of travel as may be designated by suitable posting by the officer in charge of the refuge.

Subchapter F—Alaska Commercial Fisheries MISCELLANEOUS AMENDMENTS TO SUBCHAPTER

Basis and purpose. After consultation with the United States section of the International North Pacific Fisheries Commission, notice was published in the FEDERAL REGISTER on July 3, 1956 (21 F. R. 4932) of proposed rule making to prohibit salmon fishing, except trolling, by persons or vessels subject to the jurisdiction of the United States in certain waters adjacent to Alaska, and to redefine various fishing areas and districts. Subsequently, such fishing was prohibited in limited waters of Bering Sea by emergency regulation published in the FEDERAL REGISTER on July 7, 1956 (21 F. R. 5059), to avert the early establishment of a high seas fishery that would

jeopardize the Bristol Bay salmon conservation program.

Accordingly, the following amendments and additions to 50 CFR Chapter I (Subchapter F, are effective immediately upon publication in the FEDERAL REGISTER. (60 Stat. 237; 5 U. S. C. 1001 et seq.)

PART 101—DEFINITIONS

A new section § 101.19 is added to read as follows:

§ 101.19 *Waters of Alaska.* As used in this subchapter, the term "waters of Alaska" includes those waters north and west of the International Boundary at Dixon Entrance extending three miles seaward (a) from the coast, (b) from lines extending from headland to headland across all bays, inlets, straits, passes, sounds and entrances, and (c) from any island or groups of islands, including the islands of the Alexander Archipelago, and the waters between such groups of islands and the mainland.

PART 103—KOTZEBUE-YUKON- KUSKOKWIM AREA

Section 103.1 is amended in text to read as follows:

§ 103.1 *Definition.* The Kotzebue-Yukon-Kuskokwim area includes all waters of Alaska between Point Hope and Cape Newenham.

PART 104—BRISTOL BAY AREA

Section 104.1 is amended in text to read as follows:

§ 104.1 *Definition.* The Bristol Bay area includes all waters of Alaska in Bristol Bay east of a line from Cape Newenham to a point 3 statute miles south of Cape Menhikof.

PART 105—ALASKA PENINSULA AREA

Section 105.1 is amended in text to read as follows:

§ 105.1 *Definition.* The Alaska Peninsula area includes all waters of Alaska from a point 3 statute miles south of Cape Menhikof to Unimak Pass, thence easterly to the western point at the entrance to Kulukta Bay.

PART 106—ALEUTIAN ISLANDS AREA

Section 106.1 is amended in text to read as follows:

§ 106.1 *Definition.* The Aleutian Islands area includes all waters of Alaska in the Aleutian Islands west of, and including, Unimak Pass.

PART 109—COOK INLET AREA

Section 109.1 is amended in text to read as follows:

§ 109.1 *Definition.* The Cook Inlet area includes all waters of Alaska in Cook Inlet north of Cape Douglas and west of Point Gore, including the Barren Islands.

PART 110—RESURRECTION BAY AREA

Section 110.1 is amended in text to read as follows:

§ 110.1 *Definition.* The Resurrection Bay area includes all waters of Alaska in the Gulf of Alaska between Point Gore and Cape Fairfield.

PART 115—SOUTHEASTERN ALASKA AREA
SALMON FISHERIES, GENERAL REGULATIONS

PART 116—SOUTHEASTERN ALASKA AREA
FISHERIES OTHER THAN SALMON

PART 117—SOUTHEASTERN ALASKA AREA,

1. Sections 115.1, 116.1, 117.1, 118.1, 119.1, 120.1, 121.1, 122.1, 123.1, and 124.1 are amended in text to read as follows:

The Southeastern Alaska area includes all waters of Alaska in Southeastern Alaska between Cape Fairweather and Dixon Entrance.

2. Sections 117.2, 118.2, 119.2, 121.2, 122.2, 123.2 and 124.2 are amended in text by deleting the words "territorial waters" and substituting in lieu thereof the words "waters of the area."

(Sec. 1, 43 Stat. 464, as amended, sec. 12, 68 Stat. 700; 48 U. S. C. 221, 16 U. S. C. 1031)

PART 130—NORTH PACIFIC AREA

The title to Part 130 is redesignated to read as set forth above and the revised part reads as follows:

Sec.
130.1 *Definition, North Pacific area.*
130.2 *Salmon fishing prohibited, exception.*

AUTHORITY: §§ 130.1 and 130.2 issued under sec. 1, 43 Stat. 464, as amended, sec. 12, 68 Stat. 700; 48 U. S. C. 221, 16 U. S. C. 1031.

§ 130.1 *Definition, North Pacific area.* The North Pacific area is defined to include all waters of the North Pacific Ocean and Bering Sea north of Dixon Entrance and east of 175 degrees west longitude, exclusive of the waters of Alaska as defined in Part 101 of this subchapter.

§ 130.2 *Salmon fishing prohibited, exception.* No person or fishing vessel subject to the jurisdiction of the United States shall fish for or take salmon, except by trolling, in the North Pacific area as defined in this part.

FRED A. SEATON,
Secretary of the Interior.

PART 116—SOUTHEASTERN ALASKA AREA FISHERIES OTHER THAN SALMON

HERRING QUOTA, RESTRICTIONS

Basis and purpose. On the basis of herring abundance in certain areas of Southeastern Alaska, it has been determined that the quota can be increased.

Therefore, effective immediately upon publication in the FEDERAL REGISTER, § 116.8b is amended in text by deleting

"17,500 short tons" and substituting in lieu thereof "22,500 short tons."

Since immediate action is necessary, notice and public procedure on this amendment are impracticable (60 Stat. 237; 5 U. S. C. 1001 et seq.).

Agricultural Marketing Service

[7 CFR Part 903]

[Docket No. AO-10-A21]

HANDLING OF MILK IN ST. LOUIS, MISSOURI, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Melbourne Hotel, Grand and Lindell Streets, St. Louis, Missouri, beginning at 10 a. m., local time, July 26, 1956. The public hearing is for the purpose of receiving evidence with respect to emergency and other economic conditions which relate to the proposed amendments hereinafter set forth, or appropriate modification thereof, to the tentative marketing agreement as heretofore approved by the Secretary of Agriculture and to the order regulating the handling of milk in the St. Louis, Missouri, marketing area (7 CFR 903.0 et seq.). The amendments proposed have not received the approval of the Secretary of Agriculture.

Amendments to the order, as amended, for the St. Louis, Missouri, marketing area have been proposed as follows:

By Sanitary Milk Producers:

1. Amend § 903.51 (a) (2) to provide that for the months of April through June the rate shall be 4 cents per point, all other months 5 cents.

By the Dairy Division:

2. Make such other changes as are necessary to make the order conform with any amendments thereto that may result from the hearing.

Copies of this notice of hearing and of the order as now in effect may be obtained from the Market Administrator, 4030 Chouteau Avenue, St. Louis 10, Missouri, or from the Hearing Clerk, Room 112 Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Issued at Washington, D. C., this 17th day of July 1956.

[SEAL] F. R. BURKE,
Acting Deputy Administrator.

[7 CFR Part 1001]

HANDLING OF LIMES GROWN IN FLORIDA

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Department is considering the proposed amendment, as hereinafter set forth, of the rules and regulations (7 CFR 1001.110 et seq.; Subpart-Rules and Regulations; 20 F. R. 6017; 21 F. R. 3413) currently in effect pursuant to the marketing agreement and Order No. 101 (7 CFR Part 1001; 20 F. R. 4179), regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

All persons who desire to submit written data, views, or arguments for consideration in connection with such proposed amendment should do so by forwarding the same to the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Room 2077, South Building, Washington 25, D. C., not later than the fifth day after the publication of this notice in the FEDERAL REGISTER.

The proposed amendment of the rules and regulations, which has been recommended by the Florida Lime Administrative Committee, the agency established under the marketing agreement and order to administer the provisions thereof, is to add thereto two new sections as follows:

§ 1001.131 *Limes for processing.* (a) No person shall handle any limes for commercial processing into products unless (1) such limes meet the applicable grade, size, and quality requirements in effect pursuant to § 1001.52; or (2) prior to such handling such person notifies the Florida Lime Administrative Committee of the proposed handling and furnishes such committee with a statement executed by the intended processor that the limes will be used for the stated purpose

only; or (3) the processor is an approved manufacturer of lime products, as prescribed in paragraph (b) of this section.

(b) Any person who desires to buy, as an approved manufacturer of lime products, limes for commercial processing shall, prior thereto, submit to the Florida Lime Administrative Committee an application containing the following information: (1) Name and address of applicant; (2) location of processing facilities; (3) proposed type of product or products to be made or derived from limes; (4) description of facilities for processing limes; (5) quantity of limes processed during the previous year and estimate of quantity to be processed during current year; (6) expected source of limes for processing; (7) method of transporting and unloading point; (8) Lime Administrative Committee handler certificate of registration number, if any; (9) a statement that the limes obtained for processing into products will be used for that purpose only and will not be resold or disposed of in fresh fruit channels; and (10) an agreement to submit such reports as are required by the Florida Lime Administrative Committee. Each application shall be investigated by the Florida Lime Administrative Committee. Based upon the results of such investigation and other available information, the committee shall approve or disapprove the application and notify the applicant accordingly. If the application is approved the applicant's name shall be placed upon the list of approved manufacturers of lime products.

(c) Each handler registered with the Florida Lime Administrative Committee shall render a report to the committee of the disposition of each lot of noncertified limes removed from the premises of his handling facilities during each week in which any limes are handled subject to the provisions of §§ 1001.41, 1001.52, and 1001.55, or exemptions therefrom pursuant to § 1001.56. Such report shall be on forms prescribed by the committee and shall include (1) the quantity; (2) purpose for which removed; (3) date of removal; and (4) the name of the person or firm to which the limes were delivered or consigned. Each such report shall be signed by the handler or his authorized representative, shall cover the period Sunday through Saturday, and shall be placed in the mail not later than the close of business of the Saturday ending the period covered by the report.

§ 1001.140 *Report of interdistrict transfer of noncertified limes.* Each handler shall render a report to the Florida Lime Administrative Committee of each lot of noncertified limes received from a district other than that in which his handling facilities are located. Such report shall be on forms prescribed by the committee and shall include: (a) The name of the handler; (b) the quantity of limes received; (c) date received; (d) name and address of the person from whom the limes were purchased; (e) the district from which the limes were transferred; and (f) the district to which the limes were transferred. Each such report shall cover the period Sunday through Saturday and shall be placed in

the mail not later than the close of business of the Saturday ending the period covered by the report.

Dated: July 17, 1956.

[Administrative Order 464]

CHEMICAL, PETROLEUM, RUBBER, AND RE-
LATED PRODUCTS INDUSTRY, PAPER, PAPER
PRODUCTS, PRINTING, AND PUBLISHING
INDUSTRY, AND LUMBER AND WOOD PROD-
UCTS INDUSTRY

APPOINTMENTS TO INVESTIGATE CONDITIONS
AND RECOMMEND MINIMUM WAGES AND
NOTICE OF HEARING

Pursuant to authority under the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), and Reorganization Plan No. 6 of 1950 (5 U. S. C. 611), I hereby appoint, convene, and give notice of the hearings of Industry Committee No. 23-A for the Chemical, Petroleum, Rubber, and Related Products Industry in Puerto Rico, Industry Committee No. 23-B for the Paper, Paper Products, Printing, and Publishing Industry in Puerto Rico, and Industry Committee No. 23-C for the Lumber and Wood Products Industry in Puerto Rico.

Industry Committee No. 23-A is composed of the following representatives:
For the public:

Robben W. Fleming, Champaign, Illinois, Chairman; Paul N. Guthrie, Chapel Hill, North Carolina; Jose R. Noguera, Rio Piedras, Puerto Rico.

For the employers:

Reuben S. Haslam, Oakton, Virginia; Maurice Nagle, Canovanas, Puerto Rico; Raul G. Mendez, Santurce, Puerto Rico.

For the employees:

Homer L. Humble, Mobile, Alabama; Philip Frieder, Denver, Colorado; Hipolito Marciano, San Juan, Puerto Rico.

For the purpose of this order the chemical, petroleum, rubber, and related products industry in Puerto Rico is defined as follows:

The manufacture or packaging of chemicals, drugs, medicines (other than food), toilet preparations, cosmetics, and related products; the mining or other extraction or processing of any mineral used in the production of the foregoing; the mining or other extraction of petroleum, coal, or natural gases and the manufacture of products therefrom; the manufacture of all products made wholly or chiefly of natural, synthetic, or reclaimed rubber or latex; and the manufacture of footwear by vulcanizing the entire article or by vulcanizing the sole to the upper.

This definition includes, but without limitation, heavy, industrial, and fine

chemicals; basic plastic materials; salt; paints, varnishes, colors, dyes, and ink; vegetable and animal oil (except the process of refining into edible oil); drugs, medicines, and toilet preparations; insecticides and fungicides; soap and glycerin; rayon, acetate, and other synthetic filaments; wood distillation and naval stores; fertilizers; cleaning and polishing preparations; glue and gelatin; grease and tallow; fireworks and pyrotechnics; candles; gasoline, fuel and lubricating oils, and other petroleum products; coke-oven products; fuel briquettes of any materials; asphalt, rubber, linoleum, and other resilient hard surface floor coverings (except plastic tile); synthetic or reclaimed rubber; tires and inner tubes; rubber footwear; industrial and mechanical rubber goods; rubber toys and dolls; and miscellaneous rubber specialties and sundries. *Provided, however,* That the definition shall not include any product or activity in the alcoholic beverage and industrial alcohol industry; the corsets, brassieres, and allied garments industry; the men's and boys' clothing and related products industry; and the needlework and fabricated textile products industry, as defined in the wage orders for these industries in Puerto Rico, or any activity performed by a company in its capacity as a public utility distributing gas or water.

Industry Committee No. 23-B is composed of the following representatives:
For the public:

Robben W. Fleming, Champaign, Illinois, Chairman; Paul N. Guthrie, Chapel Hill, North Carolina; Jose R. Noguera, Rio Piedras, Puerto Rico.

For the employers:

Reuben S. Haslam, Oakton, Virginia; James E. Bain, Ponce, Puerto Rico; James C. Davidson, San Juan, Puerto Rico.

For the employees:

Homer L. Humble, Mobile, Alabama; Philip Frieder, Denver, Colorado; Hipolito Marciano, San Juan, Puerto Rico.

For the purpose of this order the paper, paper products, printing, and publishing industry in Puerto Rico is defined as follows:

The manufacture of pulp from wood, rags and other fibers; the conversion of such pulp into paper or paperboard; the manufacture of building board from bagasse and similar materials; the manufacture of paper, paperboard and pulp into bags, boxes, containers, tags, cards, envelopes, pressed and molded pulp goods, and all other converted paper products; the printing performed on any of the foregoing products; and the printing or publishing of newspapers, books, periodicals, maps, music and all other products or services of typesetters, advertising typographers, electrotypers, stereotypes, photoengravers, steel and copper plate engravers, commercial printers, lithographers, gravure printers, private printing plants of concerns engaged in other business, binderies, and news syndicates.

Industry Committee No. 23-C is composed of the following representatives:
For the public:

Bobben W. Fleming, Champaign, Illinois, Chairman; Paul N. Guthrie, Chapel Hill, North Carolina; Jose R. Noguera, Rio Piedras, Puerto Rico.

For the employers:

Reuben S. Haslam, Oakton, Virginia; Emrique A. Castillo, San Juan, Puerto Rico; Rene Lopez Duprey, San Juan, Puerto Rico.

For the employees:

Homer L. Humble, Mobile, Alabama; Phillip Frieder, Denver, Colorado; Hipolito Marciano, San Juan, Puerto Rico.

For the purpose of this order the lumber and wood products industry in Puerto Rico is defined as follows:

Logging and the manufacture of all products made from lumber, wood and related materials, including but without limitation, sawmill products; planing and plywood mill products; furniture; office and store fixtures; boxes and containers; cooperage; window and door screens and blinds; caskets and coffins; matches; wood preserving; trays, bowls and other woodenware; excelsior, cork, bamboo, rattan, and willowware articles such as hampers, baskets, coasters, and table pads; and charcoal: *Provided, however*, That the definition shall not include any product or activity in the button, buckle, and jewelry industry; the construction, business service, motion picture, and miscellaneous industries; the handicraft products industry; the metal, machinery, transportation equipment, and allied industries; or the rubber, straw, hair and related products industry; as defined in the wage orders for these industries in Puerto Rico; or in the paper, paper products, printing, and publishing industry, as defined herein.

I hereby refer to the above mentioned industry committees the question of the minimum wage rates to be fixed under section 6 (c) of the act for its industry. Each such industry committee shall investigate conditions in its industry, and the committee, or any authorized subcommittee thereof, shall hear such witnesses and receive such evidence as may be necessary or appropriate to enable the committee to perform its duties and functions under the act.

Industry Committee No. 23-A shall commence its hearing on August 20, 1956, at 2:00 p. m., in the offices of the Wage and Hour Division, United States Department of Labor, New York Department Store Building, Fortaleza and San Jose Streets, San Juan, Puerto Rico. Consecutively, at the same place, after the hearing of Industry Committee No. 23-A, Industry Committees Nos. 23-B and 23-C shall hold their hearings in that order.

Each committee will meet at the same place before its hearing to make its investigation and appropriate decisions concerning its hearing. Industry Committee No. 23-A will meet at 10:00 a. m., on August 20, 1956, and Industry Committees Nos. 23-B and 23-C will meet at an hour to be designated by the committee chairman.

In order to reach as rapidly as is economically feasible the objective of the minimum wage prescribed in paragraph (1) of section 6 (a) of the act, each industry committee shall recommend to

the Administrator the highest minimum wage rate or rates for the industry which it determines, having due regard to economic and competitive conditions, will not substantially curtail employment in the industry and will not give any industry in Puerto Rico a competitive advantage over any industry in the United States outside of Puerto Rico. Where an industry committee finds that a higher minimum wage may be determined for employees engaged in certain activities or in the manufacture of certain products in the industry, the industry committee shall recommend such reasonable classifications within the industry as it determines to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it under the principles set out here which will not substantially curtail employment in such classification and will not give a competitive advantage to any group in the industry. No classification shall be made, however, and no minimum wage shall be fixed solely on a regional basis or on the basis of age or sex. In determining whether there should be classifications within the industry, in making such classifications, and in determining the minimum wage rates for such classifications, the committee shall consider, among other relevant factors, the following: (1) Competitive conditions as affected by transportation, living, and production costs; (2) the wages established for work of like or comparable character by collective labor agreements negotiated between employers and employees by representatives of their own choosing; and (3) the wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards in the industry.

The Administrator shall prepare an economic report containing such data as he is able to assemble pertinent to the matters herein referred to each committee. Copies of these reports may be obtained at the National and Puerto Rican Offices of the United States Department of Labor as soon as they are completed and prior to the hearings. Each committee will take official notice of the facts stated in the economic report to the extent they are not refuted at the hearing.

The procedure of these industry committees will be governed by Title 29 of the Code of Federal Regulations, Part 511, as revised and amended on November 4, 1955 (20 F. R. 8285) and May 30, 1956 (21 F. R. 3678). Among other requirements, these regulations provide that a prehearing statement containing certain specified data, shall be filed, together with eleven copies, at the office of the Territorial Director of the Wage and Hour Division, United States Department of Labor, New York Department Store Building, Fortaleza and San Jose Streets, San Juan, Puerto Rico, and that one copy of such prehearing statement shall be filed at the office of the Administrator of the Wage and Hour Division, United States Department of Labor, Washington, D. C., not later than August 10, 1956, in the present matters, by all persons who would participate either as witnesses or parties.

Signed at Washington, D. C., this 16th day of July 1956.

JAMES P. MITCHELL,
Secretary of Labor.

TELEVISION BROADCAST STATIONS
(BAKERSFIELD, CALIFORNIA)

TABLE OF ASSIGNMENTS

1. Notice is hereby given that the Commission has received a proposal for rule making in the above-entitled matter.
2. The Commission has before it a petition filed on April 30, 1956 by the California Inland Broadcasting Co., requesting the institution of rule making to amend § 3.606, *Table of assignments*, Television Broadcast Stations, so as to add Channel 17 or Channels 17 and 39 to Bakersfield, California as follows:

City	Channel No.	
	Present	Proposed
Bakersfield, Calif.	10-, 29	10-, 17, 29 or 10-, 17, 29, 39+

3. In support of its request petitioner submits that it is the licensee of television station KFRE-TV on Channel 12 at Fresno, Calif.; that it will file an application for a station at Bakersfield in the event the additional channels are made available; and that the proposal conforms to the rules and would provide a full time outlet for national network programs. Oppositions to the request for amendment of the table were filed by Bakersfield Broadcasting Co. and Kern County Broadcasters, Inc.

4. The Commission is of the view that rule making proceedings should be instituted in this matter in order that interested parties may submit their views and the Commission may be apprised of such views prior to taking further action. The petition of California Inland Broadcasting Co., and the oppositions of Bakersfield Broadcasting Company and Kern County Broadcasters, Inc. are made part of this docket.¹

5. Authority for the adoption of the proposed amendment is contained in sections 4 (1), 301, 303 (c), (d), (f) and (r) and 307 (b) of the Communications Act of 1934, as amended.

6. Any interested party who is of the opinion that the amendments proposed by petitioner should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before August 15, 1956, a writ-

ten statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

7. In accordance with provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

1. Notice is hereby given that the Commission has received a proposal for rule making in the above-entitled matter.

2. Texas Technological College, Lubbock, Texas, has requested that the Commission amend the Table of Assignments in § 3.606 of its rules and regulations to reserve Channel 5 instead of Channel 20 for educational use in Lubbock, Texas. This request is supported by the Joint Committee on Educational Television.

3. Petitioner states that if Channel 5 is designated "educational" they will promptly prepare and submit an application for its use. Financial arrangements have been made for the contemplated construction and operation to the end that the College may further extend its usefulness to West Texas.

4. The Commission is of the view that rule making proceedings should be instituted in this matter in order that interested parties may submit their views to the Commission and the Commission may be apprised of such views prior to taking further action.

5. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (e) and (r) and 307 (b) of the Communications Act of 1934, as amended.

TELEVISION BROADCAST STATIONS (LINCOLN, NEBRASKA)

TABLE OF ASSIGNMENTS

1. Notice is hereby given that the Commission has received a proposal for rule making in the above-entitled matter.

2. Byron J. Dunn, Trustee, and the University of Nebraska have requested that the Commission amend the Table of Assignments in Section 3.606 of its rules and regulations to reserve Channel 12 for educational use instead of Channel 18 in Lincoln, Nebraska.

3. Byron J. Dunn, Trustee, is permittee of television station KUON-TV operating on Channel 12 at Lincoln, Nebraska (which at the present time carries a minimum of three hours daily, 5 days per week, of noncommercial programming). Petitioner states that there have been no applications requesting a construction permit for a UHF frequency in the State of Nebraska, and that the distribution of UHF receivers is virtually negligible.

4. Petitioner urges that the proposed channel reassignment should be made in order that KUON-TV may operate as a noncommercial station for the following reasons:

(a) There would be no minimum hours of operation requirements.

(b) The Board of Regents is reluctant to become the assignee of a commercial station whereas it has expressed unqualified interest in KUON-TV as an educational station.

(c) The station would be eligible for various subsidiary funds and charitable contributions.

5. The Commission is of the view that rule making proceedings should be instituted in this matter in order that interested parties may submit their views to the Commission and the Commission may be apprised of such views prior to taking further action.

6. Petitioner requests that an order be issued requiring the permittee of Chan-

nel 12 at Lincoln, Nebraska, to show cause as to why Channel 12 should not be classified as a noncommercial educational assignment and the construction permit for Station KUON-TV correspondingly modified. However, the Commission believes that such additional show cause proceedings as may be necessary can be instituted after the termination of this rule making proceeding.

7. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f) and (r) and 307 (b) of the Communications Act of 1934 as amended.

8. Any interested person who is of the opinion that the amendment proposed by petitioners should not be adopted, or should not be adopted in the form set forth herein may file with the Commission on or before August 15, 1956, written data, views or arguments setting forth his comments. TELEVISION BROADCAST STATIONS (ST. JOSEPH, TENNESSEE)

TABLE OF ASSIGNMENTS

1. Notice is hereby given that the Commission has received proposals for rule making in the above-entitled matter.

2. Aaron B. Robinson, Jackson, Tennessee and Gregory Broadcasting Company, Muscle Shoals, Alabama, have requested that the Commission amend the Table of assignments in § 3.606 of its rules and regulations to add Channel 11 to St. Joseph, Tennessee. Petitioners propose to accomplish this assignment by shifting Channel *11 from Lexington, Tennessee to St. Joseph, and by replacing Channel *11 in Lexington with Channel *49, as follows:

City	Channel No.	
	Present	Proposed
Lexington, Tenn.	*11	*49
St. Joseph, Tenn.	None	11

3. Petitioners urge that their proposal would provide television service to 288,612 people who are now without service. The proposed changes can be made in accordance with present mileage separations rules. Petitioners allege that this area is one of the largest and most populous areas to which a VHF channel has not been assigned.

4. The Tennessee Educational Television Commission filed an opposition to the petitions of Aaron B. Robinson and Gregory Broadcasting Corporation. They note that they petitioned for and were successful in having Channel 11 assigned in Lexington, Tennessee and reserved for educational purposes as a part of a future statewide network of educational stations in Tennessee. The assignment of the VHF channel in exclusively VHF West Tennessee would make educational programs in that area as readily receivable as commercial programs.

5. The Commission is of the view that rule making proceedings should be instituted in this matter in order that interested parties may submit their views to the Commission and the Commission may be apprised of such views prior to taking further action.

6. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f) and (r) and 307 (b) of the Communications Act of 1934, as amended.

7. Any interested person who is of the opinion that the amendment proposed by petitioners should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before August 15, 1956, written data, views or arguments setting forth his comments. TABLE OF ASSIGNMENTS

1. Notice is hereby given that the Commission has received a proposal for
No. 140—3

rule making in the above-entitled matter.

2. The Commission has before it for consideration a petition filed on March 1, 1956, requesting it to amend the table of assignments in § 3.606 of its rules and regulations, by assigning Channel 5 as follows:

City	Channel No.	
	Present	Proposed
Glendive, Mont.....	18—	5+, 18—

3. In support of the proposed amendment, petitioner urges that Channel 5 may be assigned to Glendive in conformance with the rules and without affecting any other assignment in the Table, and will make possible a first service to an area presently without such service.

4. The Commission is of the view that rule making proceedings should be instituted in this matter in order that interested parties may submit their views to the Commission and the Commission may be apprised of such views prior to taking further action.

5. Authority for the adoption of the proposed amendments is contained in sections 4 (i), 303, 303 (c), (d), (f) and (r), and 307 (b) of the Communications Act of 1934, as amended.

6. Any interested party who is of the opinion that the amendment proposed by petitioner should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before August 15, 1956, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established.

7. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: July 11, 1956.

Released: July 16, 1956.

TABLE OF ASSIGNMENTS

1. Notice is hereby given that the Commission has received a proposal for rule making in the above-entitled matter.

2. The Commission has before it for consideration a petition filed on April 20, 1956, by the Midcontinent Broadcasting Co., Sioux Falls, South Dakota requesting it to amend the television Table of Assignments contained in § 3.606 of the rules and regulations as follows:

City	Channel No.	
	Present	Proposed
Pierre, S. Dak.....	6—, 10+, *22+	10+, *22+
Reliance, S. Dak.....		6—

3. In support of its request petitioner submits that there are no applications for any of the assignments in Pierre; that the proposal would permit coverage of a large area presently without service; and that the assignment of Channel 6 to Reliance may be made in full conformance with the rules.

4. The Commission is of the view that rule making proceedings should be instituted in this matter in order that interested parties may submit their views to the Commission and the Commission may be apprised of such views prior to taking further action.

5. Authority for the issuance of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f) and (r) and 307 (b) of the Communications Act of 1934, as amended.

6. Any interested party who is of the view that the proposed amendment should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before August 15, 1956, a written statement setting forth his comments. Comments supporting the proposed amendments may also be filed on or before the same date. Comments in reply to original comments may be filed within 10 days from the last day for filing said original comments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established.

7. In accordance with the provisions of § 1.764 of the rules, an original and 14 copies of all written comments shall be furnished the Commission.

TELEVISION BROADCAST STATIONS (BISHOP,
CALIFORNIA)

TABLE OF ASSIGNMENTS

1. Notice is hereby given of rule making in the above-entitled matter.

2. The Commission has before it for consideration a petition filed by the Inyo Broadcasting Company, Bishop, Califor-

nia, requesting it to amend the Table of assignments in § 3.606 of its rules and regulations to assign either Channel 3, 8, 17, 19 or 23 to Bishop, California.

3. In support of the proposed amendment, petitioner states that there is no channel assigned to this community and therefore it would be in the public interest to assign a channel to enable a station to serve some 6,000 persons now without any television service.

4. Channels 3 and 8 cannot be assigned because to do so would violate the minimum co-channel spacing requirements. Channel 17 cannot be assigned since it would violate the 60 mile spacing required because of oscillator radiation. Channel 19 or 23 can be assigned in accordance with the Commission's rules and regulations.

5. The Commission is of the view that rule making proceedings should be insti-

tuted in this matter in order that interested parties may submit their views to the Commission and the Commission may be apprised of such views prior to taking further action.

6. Authority for the adoption of the proposed amendment is contained in sections 4 (l), 301, 303 (c), (d), (f) and (r) and 307 (b) of the Communications Act of 1934, as amended.

7. Any interested person who is of the opinion that the amendment proposed by petitioners should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before August 15, 1956, written data, views or arguments setting forth his comments. Comments in support of these proposals may also be filed on or before the same date. Comments or briefs in reply to the original com-

ments may be filed within 10 days from the last day for filing said original comments or briefs. No additional comments may be filed unless (1) specifically requested by the Commission, or (2) good cause for the filing of such additional comments is established.

DEPARTMENT OF DEFENSE

Office of the Secretary

ASSISTANT SECRETARY OF DEFENSE (PROPERTIES AND INSTALLATIONS) AND THE MILITARY DEPARTMENTS

DELEGATION OF AUTHORITY WITH RESPECT TO FAMILY HOUSING FOR CIVILIAN EMPLOYEES AT MILITARY RESEARCH OR DEVELOPMENT INSTALLATIONS

Pursuant to the authority vested in the Secretary of Defense by section 202 (f) of the National Security Act of 1947, as amended, and section 5 of Reorganization Plan No. 6 of 1953, the authority conferred on the Secretary of Defense by Public Law 574, 84th Congress (70 Stat. 273) is hereby delegated as set forth below:

I. The Assistant Secretary of Defense (Properties and Installations) is delegated the authority to:

1. Review and approve determinations made by the Secretaries of the military departments as to the availability of adequate housing facilities at or near military research or development installations.

2. Review, and after consultation with the Assistant Secretary of Defense (Comptroller), approve the number of family housing units recommended by the military departments for development at such installations under Public Law 574, 84th Congress.

3. Approve the making of guarantees of the Armed Services Housing Mortgage Insurance Fund from loss, as authorized by Public Law 574, 84th Congress.

4. Issue instructions for the guidance of the military departments in taking action necessary to the development of family housing under Public Law 574, 84th Congress.

5. Perform such functions under Public Law 574, 84th Congress as are not otherwise specifically delegated to the Secretaries of the military departments.

II. The Secretary of each military department, or his designee, is hereby delegated the authority to:

1. Determine the availability of adequate housing facilities at or near military research or development installations for essential nontemporary civilians employed by the department or a contractor thereof.

2. On the basis of such determinations, submit recommendations, with appropriate supporting information as required, to the Assistant Secretary of Defense (Properties and Installations) for approval of specific housing programs at military installations, which are therein certified to be research or development installations.

3. Certify to the Commissioner, Federal Housing Administration:

a. That new housing up to the amount approved by the Assistant Secretary of Defense (Properties and Installations) is necessary to provide adequate family housing for such civilian employees and that there is no intention to substantially curtail the number of such civilian employees, and

b. That to the extent required by the Commissioner, Federal Housing Administration, and approved by the Assistant Secretary of Defense (Properties and Installations), the military department will guarantee the Armed Services Housing Mortgage Insurance Fund from loss.

4. Issue to such civilian employees individual certificates of eligibility to occupy such housing.

C. E. WILSON,
Secretary of Defense.

EMBROIDERY MACHINES

NOTICE OF PROSPECTIVE CLASSIFICATION

JULY 16, 1956.

It appears probable that a correct interpretation of paragraph 372, Tariff Act of 1930, requires that the Lintz & Eckhardt Model 101 and the Cornely & Cie Model B-5 machines be classified thereunder as embroidery machines at the rate of 15 percent ad valorem which is higher than that heretofore assessed on such articles under an established and uniform practice.

Pursuant to § 16.10a (d) of the Customs Regulations (19 CFR 16.10a (d)), notice is hereby given that the existing uniform practice of classifying these machines as sewing machines, not specially provided for, under paragraph 372, Tariff Act of 1930, as modified, with duty at the rate of 10 percent ad valorem is under review in the Bureau of Customs.

Consideration will be given to any relevant data, views, or arguments pertaining to the correct tariff classification of these machines which are submitted in writing to the Bureau of Customs, Washington 25, D. C. To assure consideration of such communications, they must be received in the Bureau not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER. No hearings will be held.

SURETY COMPANIES ACCEPTABLE ON
FEDERAL BONDS

JULY 16, 1956.

The Certificates of Authority issued as of May 1, 1956, to Milwaukee Insurance Company of Milwaukee, Wis., incorporated under the laws of the State of Wisconsin, and Firemen's Insurance Company of Newark, New Jersey, incorporated under the laws of the State of New Jersey, as reinsuring companies only on Federal bonds under Department Circular No. 297, July 15, 1922, as amended, 31 CFR Part 223, have been revoked effective July 6, 1956, because these companies have now qualified as direct writing companies.

New Certificates of Authority bearing date of July 6, 1956, have been issued these companies under the act of Congress approved July 30, 1947, 6 U. S. C. secs. 6-13, authorizing them to act as sole sureties on recognizances, stipulations, bonds and other undertakings permitted or required by the laws of the United States. The underwriting limitation of \$2,137,000.00 established for Milwaukee Insurance Company of Milwaukee, Wis., as of May 1, 1956, and the underwriting limitation of \$10,331,000.00 established for Firemen's Insurance Company of Newark, New Jersey as of May 1, 1956, will be continued.

Sec. 10, NW $\frac{1}{4}$ SE $\frac{1}{4}$.

The lands are in the northern portion of the Imperial Valley. The soil is poor and crops cannot be grown without the aid of irrigation.

No application for the restored lands may be allowed under the homestead, desert-land, small tract, or any other non-mineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law, the restored lands are hereby opened to fil-

ing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the non-mineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284 as amended), presented prior to 10:00 a. m. on August 18, 1956, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on November 17, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the non-mineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on November 17, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

The lands have been open to location under the United States mining laws, and to applications and offers under the mineral-leasing laws.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Los Angeles, California.

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 8340, between Airline Vans, Delcher Brother's Storage Company, King Van Lines, Inc., and Republic Van & Storage Co., Inc., (common carriers by motor which also operate as common carriers by water as defined in section 1 of the Shipping Act, 1916), provides for the creation of the Pacific Coast-Alaska Rate Agreement covering the establishment and maintenance of agreed rates, charges and practices, for or in connection with the transportation of household goods and personal effects of military and civilian personnel in the trade between United States Pacific Coast ports and ports in the Territory of Alaska.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: July 17, 1956.

[Docket No. M-70]

AMERICAN COAL SHIPPING, INC.

NOTICE OF HEARING ON APPLICATION TO BAREBOAT CHARTER THIRTY DRY-CARGO VESSELS

Notice is hereby given that a public hearing will be held before an Examiner pursuant to section 5 (e) of the Merchant Ship Sales Act of 1946, as amended (Pub. Law 591, 81st Cong.) (50 U. S. C. App. 1738), on July 30, 1956, at 9:30 a. m., e. d. t., in Room 4519, New General Accounting Office Building, Fifth and G Streets NW., Washington, D. C., upon the application of American Coal Shipping, Inc., to bareboat charter thirty (30) Liberty type dry-cargo vessels for

an indefinite period, subject to annual review by the Federal Maritime Board, for use in world-wide bulk commodity trade, principally for the carriage of coal to foreign ports, and also for the carriage of such other cargoes as shall from time to time be available.

The purpose of the hearing is to receive evidence with respect to whether the service for which such vessels are proposed to be chartered is required in the public interest and is not adequately served, and with respect to the availability of privately owned American-flag vessels for charter on reasonable conditions and at reasonable rates for use in such service. Evidence will be received with respect to any restrictions or conditions that may be necessary or appropriate to protect the public interest in respect of such charter as may be granted and to protect privately owned vessels against competition from vessels chartered as a result of this proceeding.

All persons having an interest in the application will be given an opportunity to be heard if present, and oral argument may be had before the Examiner at the conclusion of the receipt of evidence. An initial decision will be issued. The time for filing exceptions thereto is hereby restricted to seven (7) days, and no replies to exceptions will be received.

Dated: July 17, 1956.

By order of the Federal Maritime Board.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 11588, 11777; FCC 56-670]

JOSEPH M. RIPLEY, INC., AND
ROBERT HECKSHER

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Joseph M. Ripley, Inc., Jacksonville, Florida, Docket No. 11588, File No. BP-9788; Robert Hecksher, Jacksonville, Florida, Docket No. 11777, File No. BP-10255; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 11th day of July 1956:

The Commission having under consideration the above-captioned applications of Joseph M. Ripley, Inc., and Robert Hecksher, each for a construction permit for a new standard broadcast station to operate on 550 kilocycles with a power of one kilowatt, daytime only, at Jacksonville, Florida:

It appearing that each of the applicants is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate its proposed station, but that the operation of both stations as proposed would result in mutually destructive interference and that neither of the proposed antenna systems would meet the minimum efficiency of 175 mv/m for the type and class of station as required by the Commission's Technical Standards; and

It further appearing that, pursuant to section 309 (b) of the Communications

Act of 1934, as amended, the subject applicants were advised by letter dated March 23, 1956, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of either application would be in the public interest; and

It further appearing that responses have been filed by Robert Hecksher and Joseph M. Ripley, Inc.; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the proposed operations, and the availability of other primary service to such areas and populations.

2. To determine whether either installation and operation as proposed would be in compliance with the Commission's Technical Standards with particular reference to the efficiency of the antenna systems.

3. To determine which of the operations proposed in the above-captioned applications would better serve the public interest in the light of the evidence adduced under the foregoing issues and the record made with respect to the significant differences between the applicants as to:

a. The background and experience of each of the above-named applicants to own and operate the proposed stations.

b. The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

c. The programming service proposed in each of the above-mentioned applications.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

It is further ordered, That, in the event of a grant of either application, the permittee shall be responsible for the installation and adjustment of suitable filter circuits or other equipment to suppress second harmonic radiations to prevent interference to Station WJVB, Jacksonville, Florida.

Released: July 16, 1956.

ORDER CONTINUING HEARING

In re application of Day-Nite Radio Message Service Corporation, Philadelphia, Pennsylvania, Docket No. 11706, File No. 731-C2-R-56; for renewal of the license for station KGA593, a two-way communications facility in the domestic public land mobile radio service.

The Hearing Examiner having under consideration a petition filed July 5, 1956, by the applicant herein requesting that the hearing in the above-entitled proceeding now scheduled to begin on July 18, 1956, be continued for at least 60 days; and

It appearing that the reason for the requested continuance is the fact that the owner and principal officer of the applicant has undergone surgery and that an extended confinement in the hospital is necessary and as a result he cannot be available on the date specified for the hearing; and

It further appearing that there are no objections to the requested continuance and that good cause therefor has been shown;

It is ordered, This the 12th day of July 1956, that the petition for continuance is granted and the date of the hearing is continued from July 18, 1956 to October 2, 1956.

AMERICAN CABLE AND RADIO CORP.

ORDER CONTINUING HEARING

In the matter of American Cable and Radio Corporation, Docket No. 11761; re-

vision of joint tariff F. C. C. No. 7, to provide tie-line indications without charge.

The Hearing Examiner having under consideration the Commission's order of June 27, 1956, suspending American Cable and Radio Corporation Joint Tariff F. C. C. No. 7, 1st Revised Page 70; the hearing now scheduled for July 17, 1956; and an application contained in a letter dated July 6, 1956, signed by Alfred A. Hennings, Superintendent of Tariffs of the operating companies of the American Cable and Radio Corporation system, for special permission to cancel the filing under suspension, which application was granted by the Commission on July 11, 1956;

It appearing that cancellation of the tariff filing under suspension would render the proceeding moot;

It is ordered, This 13th day of July 1956, that the hearing now scheduled for July 17, 1956, is indefinitely continued, pending appropriate action on the instant proceeding.

RADIO STATION KODY (KODY)

ORDER DESIGNATING APPLICATION FOR
HEARING ON STATED ISSUES

In re application of John Alexander, George B. Dent, Jr., and Townsend E. Dent d/b as Radio Station KODY (KODY), North Platte, Nebraska, Docket No. 11775, File No. BP-10333; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 11th day of July 1956;

The Commission having under consideration the above-captioned application of John Alexander, George B. Dent, Jr., and Townsend E. Dent d/b as Radio Station KODY for a construction permit to change the facilities of Station KODY, North Platte, Nebraska, from operation on 1240 kilocycles with a power of 250 watts, unlimited time, to operation on 600 kilocycles with a power of 500 watts, night, one kilowatt, day, with directional antenna both day and night, unlimited time; and

It appearing that the applicant is legally, technically, financially, and otherwise qualified, except as may appear from the issues specified below, to operate Station KODY as proposed, but that the proposed operation would cause interference to Station KSJB, Jamestown, North Dakota (600 kc, 5 kw, DA-1, U); and

It further appearing that, pursuant to the provisions of section 309 (b) of the Communications Act of 1934, as amended, the Commission, in a letter dated May 24, 1956, advised the applicant of the above deficiency; and

It further appearing that Station KSJB requested by letter dated June 12, 1956, that the subject application be designated for hearing; and

It further appearing that in a letter dated June 22, 1956, the applicant contended that its proposed operation would not cause interference to KSJB; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or

lose primary service from the operation of Station KODY as proposed and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation would cause interference to Station KSJB, Jamestown, North Dakota, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether, in the light of the evidence adduced pursuant to the foregoing issues, a grant of the above-captioned application would be in the public interest.

It is further ordered, That the North Dakota Broadcasting Company, Inc., licensee of Station KSJB, is made a party to the proceeding.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 11th day of July 1956;

The Commission having under consideration the above-captioned application of Leo Joseph Theriot for a construction permit to increase the power of Station KLFT, Golden Meadow, Louisiana, from 500 watts to one kilowatt and to operate on 1600 kilocycles, daytime only;

It appearing that the applicant is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate Station KLFT as proposed, but that the proposed operation may cause interference to Station KEVL, White Castle, Louisiana (1590 kc, 1 kw, Day); and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated June 7, 1956, of the aforementioned deficiency and that the Commission was unable to conclude that a grant of the application would be in the public interest; and

It further appearing that Station KEVL requested a hearing on the subject application by letter dated June 12, 1956; and

It further appearing that the applicant replied by letter dated June 18, 1956, and urged a grant of its application notwithstanding the interference that would be caused to KEVL; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary:

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station KLFT as proposed, and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation would cause interference to Station KEVL, White Castle, Louisiana, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether, in the light of the evidence adduced pursuant to the foregoing issues, a grant of the above-captioned application would be in the public interest.

It is further ordered, That the Big League Broadcasting Company, Inc., licensee of Station KEVL, is made a party to the proceeding.

Released: July 16, 1956.

REVISED TENTATIVE ALLOCATION PLAN FOR CLASS B FM BROADCAST STATIONS

NOTICE OF PROPOSED ALLOCATION

In the matter of amendment of the Revised Tentative Allocation Plan for Class B FM Broadcast Stations, Docket No. 11778.

1. Notice is hereby given of further proposed rule making in the above-entitled matter.

2. It is proposed to amend the Revised Tentative Allocation Plan for Class B FM Broadcast Stations in the following manner:

General area	Channels	
	Delete	Add
Patchogue, N. Y. New York City, N. Y.	282	282

3. The purpose of the proposed amendment is to provide a Class B channel in Patchogue, New York, in response to a petition submitted in behalf of the Patchogue Broadcasting Co., licensee of AM broadcast station WPAC, Patchogue, for a proposed new FM broadcast station in that city.

4. Authority for the adoption of the proposed amendment is contained in sections 4 (1), 301, 303 (c), (d), (f), and

(r), and 307 (b) of the Communications Act of 1934, as amended.

5. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein, may file with the Commission on or before August 10, 1956 a written statement or brief setting forth his comments. Comments in support of the proposed amendment also may be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

6. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs or comments shall be furnished the Commission.

Adopted: July 11, 1956.

Released: July 16, 1956.

GENERAL SERVICES ADMINISTRATION

SECRETARY OF COMMERCE

DELEGATION OF AUTHORITY TO ESTABLISH SPECIAL POLICE FORCE FOR PROTECTION OF NATIONAL BUREAU OF STANDARDS INSTAL- LATIONS

1. Pursuant to authority vested in me by provisions of the Federal Property and Administrative Services Act of 1949, as amended (63 Stat. 377), authority is hereby delegated to the Secretary of Commerce to appoint uniformed guards as special policemen with such powers as are conferred in the Act of June 1, 1948, 62 Stat. 281, for duty in connection with the protection of the National Bureau of Standards installations referred to in the letter from the Secretary of Commerce, dated April 20, 1956.

2. This authority shall be exercised strictly in accordance with material set forth below entitled "Authority of Special Police" and any other standards, procedures or regulations hereafter prescribed by the General Services Administration.

3. There shall be submitted to this administration an annual report at the close of each fiscal year summarizing operations under this delegation of authority. The report shall be in the form prescribed by the General Services Administration for the purpose.

4. This authority may be redelegated to such officials of the National Bureau of Standards as the Secretary of Commerce and the Director of the National Bureau of Standards may deem necessary in order to more effectively protect the Na-

tional Bureau of Standards installations concerned.

5. This delegation shall be effective as of the date hereof.

Dated: July 13, 1956.

FRANKLIN G. FLOETE,
Administrator.

AUTHORITY OF SPECIAL POLICE

Special police. Guards may be appointed as Special Police where the Government has adequate jurisdiction, either exclusive or concurrent and where the protection job requires arrest powers beyond that of a private citizen. The law requires that guards appointed as Special Police be uniformed. Authority to appoint uniformed guards as Special Police is contained in the Act of June 1, 1948, P. L. 566, 80th Congress.

Jurisdiction. The jurisdiction exercised by the Federal Government over a property has a bearing on the method used in protecting it.

a. Exclusive Federal jurisdiction gives the Federal Government the exclusive right to enforce the criminal laws applicable to that property. Request for such authority is made by the Federal Government, and is obtained by the passing of legislation by the State in which the property is located. This relieves the local authorities of all responsibility for criminal law enforcement within the premises, and places the entire responsibility upon the Federal Government.

b. Concurrent Federal jurisdiction grants to the Federal Government some of the powers of law enforcement applicable to the property, the State concurrently exercising the same powers. Such jurisdiction is acquired from the State government by State legislation.

c. Partial Federal jurisdiction exists where the Federal Government has been granted by the State government certain of the State's authority applicable to a property, but where the State concerned has retained other authority either exclusively or concurrently with the Federal Government.

d. Proprietary interest only exists unless the State specifically cedes jurisdiction to the Federal Government. In rented property the local government retains jurisdiction and is responsible for the enforcement of applicable laws. Also in certain Government-owned property, it may be advantageous to the Federal Government for the State to retain entire jurisdiction because of local operating situations.

Duties. The following are regarded as basic duties to be carried out by special police.

a. Preventing by every reasonable effort breaches of the peace and civil disturbances, thefts of Government property and the personal property of Government employees, acts of vandalism, etc.

b. Apprehending and arresting persons guilty of crime or misdemeanor when vested with proper police authority, or promptly notifying local authorities when their assistance is required.

c. Carrying out prescribed local procedures in dealing with persons of unsound mind.

Local procedures. Regardless of the degree of jurisdiction exercised by the Federal Government and of the method of guarding, it is necessary that definite local procedures be worked out. They shall include arrangements with the local and any other Federal law enforcement agencies in the vicinity. These arrangements may range from mutual assistance agreements (where the Federal Government exercises exclusive or concurrent jurisdiction) for aid in the event of large-scale disorders, handling of Federal prisoners, and fire fighting, etc. to procedures to be followed in calling local police and fire departments where local governments have retained entire jurisdiction over the

property involved. Personnel must be thoroughly instructed in procedures applicable to their particular building.

FEDERAL OFFICE BUILDINGS

PROSPECTUS FOR PROPOSED BUILDINGS IN SOUTHWEST REDEVELOPMENT AREA OF DISTRICT OF COLUMBIA

EDITORIAL NOTE: This prospectus of proposed Project Number 3-DC-03 is published pursuant to section 412 (f) of the Public Buildings Purchase Contract Act of 1954 as amended by Public Law 150, 84th Congress, which requires publication in the *FEDERAL REGISTER*, for a period of ten consecutive days from date of submission to the Committees on Public Works of the Senate and House of Representatives.

[Project Number 3-DC-03 (Revised)]

JUNE 29, 1956.

FORMAL PROSPECTUS FOR PROPOSED BUILDING UNDER TITLE I, PUBLIC LAW 519, 83D CONGRESS, 2D SESSION

FEDERAL OFFICE BUILDING NO. 8, WASHINGTON, D. C.

1. *Brief description of proposed building.* The project contemplates the erection of a Federal Office Building on a site to be acquired. The building will be multi-storied and will provide approximately 263,000 square feet of net assignable space.

2. *Estimated maximum cost and financing.* a. Maximum cost of site and building, \$12,190,000.

b. Proposed contract term, 25 years.

c. Maximum rate of interest on purchase contract, 4 percent.

3. *Certificates of need.* There is attached certificate of need signed by the head of the agency which will use the facility. Certification is hereby made as to the need for service space. Upon completion of the facility, assignment and reassignment of space will be made in accordance with existing law.

4. *Non-availability of existing space.* Suitable space owned by the Government is not available and suitable rental space is not available at a price commensurate with that to be afforded through the contract proposed.

5. *Estimated annual managerial, custodial, heat, and utility costs.* (Services to be supplied by Government), \$276,100.

6. *Estimated annual tax liability, upkeep and maintenance.* a. Taxes, post construction (contract period), \$141,000.

b. Upkeep and maintenance (to be provided by Government), \$39,400.

7. *Current housing costs.* Housing costs currently paid by the Government for agencies to be housed in the building to be erected, \$208,077.

Determination of need. It has been determined that (1) the needs for space for the permanent activities of the Federal Government in this particular area cannot be satisfied by utilization of any existing suitable property now owned by the Government, and (2) the best interests of the United States will be served by taking action hereunder.

Submitted at Washington, D. C., on July 6, 1956.

Project #3-DC-03 (Revised June 29, 1956)

Federal Office Building No. 8, Southwest Washington Area, Washington, D. C.

MY DEAR MR. FLOETE: Pursuant to section 411 (a) (8) of the Public Buildings Purchase Contract Act of 1954 (Public Law 519), the proposal for a Federal Office Building, received July 9, 1956, has been examined and in my opinion "is necessary and in conformity with the policy of the President." This approval is given with the following understanding:

1. That the stated project cost of \$12,190,000 (including cost of a site to be acquired at an estimated cost of \$75,000) is a maximum figure.

2. That the site located in the Southwest Washington Area will be developed to its maximum space utilization and that any space in excess of the needs of the Food and Drug Administration at the time the building is completed will be allocated to agencies then housed in temporary buildings. When the allocation of agencies is determined, temporary space of equivalent occupancy will be demolished.

3. That every effort will be made to design and construct space conducive to maximum efficient utilization and to take advantage of any revision of cost downward which may be found possible as the plans develop and negotiations are advanced.

You appreciate, of course, that this project will receive a more detailed review as to cost and space utilization.

Sincerely yours,

PERCIVAL F. BRUNDAGE,

FORMAL PROSPECTUS FOR PROPOSED BUILDING UNDER TITLE I PUBLIC LAW 519, 83D CONGRESS, 2D SESSION

FEDERAL OFFICE BUILDING NO. 10,
WASHINGTON, D. C.

1. *Brief description of proposed building.* The project contemplates the erection of a Federal Office Building on a site to be acquired in Southwest Washington. The building will be multi-storied and will provide approximately 1,095,000 square feet of net assignable space.

2. *Estimated maximum cost and financing.* a. Maximum cost of the site and building, \$40,900,000.

b. Proposed contract term, 25 years.

c. Maximum rate of interest on purchase contract, 4 percent.

3. *Certificates of need.* As the project is intended to provide relocation of numerous Federal agencies now in temporary buildings, no specific allocation of space can be made at this time. Upon completion of the facility, assignment and re-assignment will be made in accordance with existing law. Therefore, requirement for Certificate of Need otherwise required by section 411 (e) of the Public Buildings Purchase Contract Act of 1954 was waived in Public Law 150, 84th Congress. Certification is hereby made as to the need for service space.

4. *Nonavailability of existing space.* Suitable space owned by the Government is not available and suitable rental space is not available at a price commensurate with that to be afforded through the contract proposed.

5. *Estimated annual managerial, custodial, heat, and utility costs.* (Services to be supplied by Government), \$1,095,000.

6. *Estimated annual tax liability, upkeep and maintenance.* a. Taxes, post construction (contract period), \$546,000.

b. Upkeep and maintenance (to be provided by Government), \$164,000.

7. *Current housing costs.* Housing costs currently paid by the Government for agencies to be housed in the building to be erected, \$841,261 p. a.

Determination of need. It has been determined that (1) the needs for space for the permanent activities of the Federal Government in this particular area cannot be satisfied by utilization of any existing suitable property now owned by the Government, and (2) the best interests of the United States will be served by taking action hereunder.

in my opinion is necessary and in conformity with the policy of the President." This approval is given with the following understanding:

1. That the stated project cost of \$40,900,000 (including cost of a site to be acquired at an estimated cost of \$1,700,000 is a maximum figure.

2. That the reported annual operating cost of existing temporary buildings to be supplanted, i. e., \$1.00 per square foot, represents minimum maintenance in anticipation of demolition and that temporary Government buildings actually cost more to maintain than the proposed new building.

3. That the site to be acquired in the southwest Washington area will be developed to its maximum space utilization; that the proposed building will provide relocation of numerous Federal agencies now in temporary buildings; that no specific allocation of space can be made at this time; when specific allocation of agencies in the proposed building is determined by the General Services Administration, temporary space of equivalent occupancy will be demolished.
