Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Tree Nuts), Department of Agriculture

PART 948—IRISH POTATOES GROWN IN COLORADO

Expenses and Rate of Assessment; Area No. 2

Notice of rule making regarding proposed expenses and a proposed rate of assessment, to be effective under Marketing Agreement No. 97, as amended, and Order No. 948, as amended (7 CFR Part 948), regulating the handling of Irish potatoes grown in Colorado, was published in the July 27, 1963, FEDERAL REGISTER (28 F.R. 7676). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The notice afforded interested persons an opportunity to submit data, views, or arguments pertaining thereto not later than 10 days following publication in the FEDERAL REGISTER. None was filed.

After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice which were recommended by the area committee for Area No. 2, established pursuant to the said amended marketing agreement and order, it is hereby found and determined that:

§ 948.244 **Expenses and rate of assessment; Area No. 2**

(a) The reasonable expenses that are likely to be incurred during the fiscal period beginning June 1, 1963, and ending May 31, 1964, by the area committee for Area No. 2 for its maintenance and functioning, and for such purposes as the Secretary determines to be appropriate, will amount to $13,499.85.

(b) The rate of assessment to be paid by each handler in Area No. 2 in accordance with the amended Marketing Agreement and this part, shall be $0.002415 per hundredweight of potatoes grown in such area handled by him as the first handler thereof during said fiscal period.

(c) Terms used in this section have the same meaning as when used in Marketing Agreement No. 97, as amended, and this part.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 13, 1963.

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

Expenses of the Prune Administrative Committee for 1963–64 Crop Year and Rate of Assessment

Notice was published in the July 31, 1963 issue of the FEDERAL REGISTER (28 F.R. 7787) regarding proposed expenses of the Prune Administrative Committee for the 1963–64 crop year and rate of assessment for that crop year, pursuant to §§ 993.80 and 993.81 of the marketing agreement, as amended, and Order No. 993, as amended (7 CFR Part 993), regulating the handling of dried prunes produced in California. The amended marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The notice afforded interested persons an opportunity to submit written data, views, or arguments with respect to the proposal. None were received within the time prescribed therefor.

After consideration of all relevant matters presented, including those in the notice, the information and recommendations submitted by the Prune Administrative Committee, and other available information, it is found that the expenses of the Prune Administrative Committee and the rate of assessment for the crop year beginning August 1, 1963, shall be as follows:

§ 993.314 **Expenses of the Prune Administrative Committee and rate of assessment for the 1963–64 crop year.**

(a) *Expenses.* Expenses in the amount of $67,500 are reasonable and likely to be incurred by the Prune Administrative Committee during the crop year beginning August 1, 1963, for its maintenance and functioning and for such other purposes as the Secretary may, pursuant to the applicable provisions of the marketing agreement, as amended, and this part, determine to be appropriate.

(b) *Rate of assessment.* The rate of assessment for such crop year which each handler is required, pursuant to § 993.81, to pay to the Prune Administrative Committee as his pro rata share of the said expenses is fixed at 50 cents per ton of prunes received by him from producers and dehydrators.

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1003(c)) in that: (1) The relevant provisions of said marketing agreement and order require that the rate of assessment fixed for a particular crop year which handlers are required to pay shall be applicable to all prunes received by a handler from producers and dehydrators during that crop year; and (2) the current crop year began on August 1, 1963, and the rate of assessment fixed herein will automatically apply to all such prunes beginning with that date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 12, 1963.

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

AUTHORITY: §§ 5D-1.000 to 5D-1.109 issued under sec. 205(c), 63 Stat. 390, 40 U.S.C. 486 (c); and 41 CFR 5-1.101(c), 28 F.R. 4559.

§ 5D-1.000 Scope of part.

This part describes the method by which the Transportation and Communications Service implements and supplements the Federal Procurement Regulations (Chapter 1 of Title 41, Code of Federal Regulations) and the GSA-wide procurement policies and procedures (Chapter 5 of the General Services Administration Procurement Regulations (GSPR)). In addition, it contains policies and procedures which implement and supplement Chapter 1 and Chapter 5.

Subpart 5D-1.1—Introduction

§ 5D-1.101 Scope of subpart.

This subpart establishes Chapter 5D of the General Services Administration Procurement Regulations (41 CFR Chapter 5D), states its relationship to the Federal Procurement Regulations (FPR) and GSPR Chapter 5, and sets forth other introductory information.

§ 5D-1.102 Establishment of Chapter 5D, General Services Administration Procurement Regulations.

This Chapter 5D of the GSPR is prescribed by the Commissioner, Transportation and Communications Service, and is established to provide all Transportation and Communications Service (TCS) activities with additional uniform policies and procedures applicable to the procurement of personal property and nonpersonal services.

§ 5D-1.103 Relationship of Chapter 5D to the FPR and Chapter 5, GSPR.

(a) GSPR Chapter 5D implements and supplements the FPR and GSPR Chapter 5. Implementing material is that which expands upon related FPR or Chapter 5 material. Supplementing material is that for which there is no counterpart in the FPR or GSPR Chapter 5.

(b) Material published in the FPR and GSPR Chapter 5 becomes effective throughout TCS upon the effective date of the particular FPR or GSPR Chapter 5 material. Such material will not be repeated, paraphrased, or restated in Chapter 5D. Therefore, all three must be reviewed to obtain comprehensive coverage of TCS-wide procurement policies and procedures.

(c) Material in Chapter 5D implements and supplements but does not supersede the FPR or GSPR Chapter 5, unless a deviation from FPR or GSPR Chapter 5 has been authorized and such deviation is explicitly referenced. In cases of conflict or when Chapter 5D contains no related material implementing the FPR or Chapter 5, the FPR or Chapter 5 will govern.

§ 5D-1.104 Applicability.

Chapter 5D applies to all purchases and contracts made by TCS for the procurement of personal property and nonpersonal services (including TCS-related construction).

§ 5D-1.105 Exclusions.

(a) Certain TCS procurement policies and procedures which come within the scope of this chapter nevertheless may be excluded therefrom when there is justification. These exclusions include the following categories:

(1) Subject matter which bears a security classification.

(2) Policies or procedures which are expected to be effective for a period of less than six months.

(3) Policies or procedures which are effective on an experimental basis for a reasonable period.

(4) Policies or procedures pertaining to other functions of TCS, as well as to procurement functions and there is need to make the issuance available simultaneously to all TCS employees concerned.

(5) When speed of issuance is essential, numerous changes are required, and all necessary changes cannot be made promptly.

(b) TCS procurement policies and procedures issued in other than the FPR system format under paragraphs (a) (4) and (5), above, will be codified into Chapter 5D at the earliest practicable date, but in any event not later than six months from date of issuance.

§ 5D-1.106 Method of issuance.

(a) All Chapter 5D material deemed necessary for business concerns, and others interested, to understand TCS procurement policies and procedures will be published in the FEDERAL REGISTER. Other related material also may be published in the FEDERAL REGISTER when its inclusion will provide a logical, comprehensive statement of TCS procurement policies and procedures.

(b) Chapter 5D material published in the FEDERAL REGISTER will be published in cumulative form in Chapter 5D of Title 41 of the Code of Federal Regulations. The FEDERAL REGISTER and Title 41 of the Code of Federal Regulations may be purchased from the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

§ 5D-1.107 Arrangement.

§ 5D-1.107-1 General plan.

Chapter 5D is divided into parts, subparts, sections, subsections, and further subdivisions as necessary.

§ 5D-1.107-2 Numbering.

(a) Generally, the numbering system used in Chapter 5D conforms to that of the FPR (see § 1-1.007-2). Thus, a particular procurement policy or procedure is identified by the same number in the FPR, GSPR Chapter 5, and Chapter 5D, except that the first digit of the number is either 1, 5, or 5D.

(b) When Chapter 5D implements a part, subpart, section, or subsection of the FPR or GSPR Chapter 5, the implementing part, subpart, section, or subsection of Chapter 5D will be numbered (and captioned) to correspond to the FPR or the Chapter 5 part, subpart, section, or subsection.

(c) When Chapter 5D supplements the FPR or Chapter 5 and thus deals with subject matter not contained in the FPR or Chapter 5, the numbers in the group 70 through 89 will be assigned to the respective supplementing parts, subparts, sections, or subsections.

(d) When the subject matter contained in a part, subpart, section, or subsection of the FPR or Chapter 5 requires no implementation, Chapter 5D will contain no corresponding part, subpart, section, or subsection number. Thus, there may be gaps in the Chapter 5D series of part, subpart, section, or subsection numbers. In such cases, reference must be made to the FPR and Chapter 5 for policy and procedure applicable throughout TCS.

§ 5D-1.107-3 Cross-references.

(a) Within Chapter 5D, cross-references to the FPR and GSPR Chapter 5, will be made in the same manner as used within the FPR and Chapter 5. Illustrations of cross-references to Chapter 5 are:

(1) Part 5-2.
(2) Subpart 5-2.2.
(3) § 5-2.203-1.

(b) Within Chapter 5D, cross-references to parts, subparts, and sections will be made in a manner generally similar to that used in making cross-references to the FPR and Chapter 5. For example, this paragraph would be referenced as "§ 5D-1.107-3(b)."

§ 5D-1.108 Citation.

(a) Citation in formal documents, such as contracts, shall give the number of the part, subpart, or section of Chapter 5D following the words "General

Services Administration Procurement Regulations" and shall include an appropriate reference to "41 CFR _____" where the material has been published in the FEDERAL REGISTER.

(b) Any section of Chapter 5D, for purpose of brevity, may be informally identified as "GSPR" followed by the section number. For example, this paragraph would be identified as "GSPR 5D–1.108(b)."

§ 5D–1.109 Deviations.

(a) The term "deviation" as used in this Chapter 5D is defined in the same manner as described in § 1–1.009–1.

(b) In order to maintain uniformity to the greatest extent feasible, deviation by TCS activities from this Chapter 5D will be kept to a minimum and controlled as follows:

(1) Requests for authority to deviate from Chapter 5D shall be submitted to the Commissioner, TCS. Such requests will be supported by statements adequate to disclose fully the nature of the deviation and the reasons for special action.

(2) Authorized deviations will expire 12 months from date of approval, unless extended or sooner rescinded without prejudice to any action taken thereunder.

Effective date. These regulations are effective upon publication in the FEDERAL REGISTER.

Dated: August 9, 1963.

MALCOLM D. MILLER,
Acting Commissioner, Transportation and Communications Service.

Part 147 establishes procedures and criteria for resolving questions involving the moral character or loyalty of an applicant for, or holder of, an NDEA Fellowship including an opportunity for a hearing by a Departmental Fellowship Review Board before denial or termination of the fellowship on such grounds.

Part 147 reads as follows:

Sec.
147.1 Purpose.
147.2 Definitions.
147.3 Separate consideration of professional or academic qualifications and affirmative declaration as to convictions or pending criminal charges and allegations or complaints by third parties.

AUTHORITY: §§ 147.1 to 147.5 issued under sec. 1001, 72 Stat. 1602, 20 U.S.C. 581.

§ 147.1 Purpose.

This part establishes procedures and criteria, including an opportunity for a hearing by a Departmental Fellowship Review Board, for resolving questions arising as to whether the making or continuation of an NDEA Fellowship award would be not in the best interests of the United States on grounds involving the moral charcter or loyalty of the applicant for, or holder of, such fellowship.

§ 147.2 Definitions.

(a) "Special Review Committee" (also referred to as "Committee") means a body composed of the Associate Commissioner and the Deputy Associate Commissioner of the Bureau of Educational Assistance Programs, and of the Director of the Division of College and University Assistance, Office of Education, and such additional persons, if any, from sources within or outside the Department as may be designated from time to time by the Commissioner.

(b) "Act" means the National Defense Education Act of 1958, as amended (20 U.S.C. 401).

(c) "NDEA Fellowship" (also referred to as "fellowship" and as "award") means an award made by the Commissioner to an individual under Title IV or under section 601(b) of the Act.

(d) The terms "Departmental Fellowship Review Panel" and "Departmental Fellowship Review Board" refer to the Panel and Board defined in the departmental regulations (Part 10 of this title).

§ 147.3 Separate consideration of professional or academic qualifications and affirmative declarations as to convictions or pending criminal charges and allegations or complaints by third parties.

In order that objectivity may be maintained in the selection of candidates (and in any decisions as to termination of a fellowship) on the basis of scholarly achievement and potential, no advisory group or panel involved in making any recommendations as to the selection of persons for NDEA Fellowships, or in the making of any recommendations as to their retention as such Fellows, will be made aware of any affirmative or negative criminal declarations made pursuant to section 1001(f)(2) of the Act, nor of any other information (such as third-party allegations) other than that developed in connection with the submission and processing of the application for academic considerations.

§ 147.4 Substantive criteria.

(a) An NDEA Fellowship award will be denied or discontinued where: (1) The oath or affirmation of allegiance was not taken or cannot be taken in good faith; or (2) there is (i) a conviction of a crime involving moral turpitude, or (ii) conduct involving moral turpitude, unless it is established that the applicant or fellowship holder is, nevertheless, now a person of good moral character.

(b) These criteria are subject to continuing review and may be revised from time to time as experience and circumstances may make it desirable.

§ 147.5 Procedure: Special Review Committee.

(a) Affirmative declarations made pursuant to section 1001(f)(2) of the Act or allegations and complaints by third parties pertaining to any individual who is the holder of an NDEA Fellowship or who has been tentatively selected for such a fellowship on the basis of academic consideration shall be referred to a Special Review Committee. This Committee will make recommendations to the Commissioner as to whether there is substantial reason (pertaining to the moral character or loyalty of the individual concerned in accordance with § 147.4) for a belief that the making or continuation of the award would be not in the best interests of the United States. The Committee may supplement the information referred to it by such correspondence, personal interviews or other informal methods as may be necessary in order to make the aforementioned determination.

(b) If, after review of the recommendations of the Special Review Committee, the Commissioner is of the opinion that there is substantial reason (pertaining to the moral character or loyalty of the individual concerned in accordance with § 147.4) for a belief that the making or continuation of the award would be not in the best interests of the United States, such individual shall be advised by written notice that a question or questions have arisen involving moral character or loyalty, and that upon request he will be afforded a hearing thereon in accordance with departmental regulations. A copy of the regulations under this part and a copy of the departmental regulations (Part 10 of this title), shall be enclosed with the notice, which shall, in addition, (1) set forth, in as much detail and as specifically as considerations of security may permit, the information raising the questions pertaining to moral character or loyalty and (2) advise that unless a request for a hearing is made within 20 days of the mailing of such notice, the fellowship will be denied or discontinued. If a hearing is requested, the case will be submitted by the Commissioner to the Chairman of the Departmental Fellowship Review Panel for handling in accordance with the departmental regulations.

OATH OF ALLEGIANCE TO THE UNITED STATES

The purpose of these amendments is to provide for an oath or affirmation of allegiance to the United States and to eliminate the requirement of a disclaimer affidavit from individuals receiving traineeships and research fellowships under section 7 of the Vocational Rehabilitation Act, as amended. It is also provided that opportunity for hearing by a Departmental Fellowship Review Board will be given before a research fellowship is denied or terminated in the best interests of the United States. The requirements under the amended regulations will correspond to those governing similar awards by the Commissioner of Education under the National Defense Education Act of 1958, as amended by Public Law 87–835. Public participation in this rule making and postponement of effective date are omitted since these amendments relate solely to agency management and to grants or benefits.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 1070]

MILK IN CEDAR RAPIDS-IOWA CITY MARKETING AREA

Notice of Proposed Termination of Certain Provisions of the Order

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), the termination of certain provisions of the order regulating the handling of milk in the Cedar Rapids-Iowa City marketing area is being considered.

The provisions proposed to be terminated are:

In § 1070.10(d)(3) the following provisions:

(1) In the text preceding the table the phrase ", in the months indicated,"; and

(2) In the table of months and minimum percentages, all provisions other than the heading "Minimum percentage" and the figure "30".

The termination of these provisions would result in the text reading as follows:

(3) From which the quantity of milk transferred by the association to plants of other handlers specified in paragraph (a) of this section plus that delivered by such association pursuant to paragraph (c) of this section and that delivered directly from the farms of members of such association to such plants is at least the following percentages of the total quantity of Grade A milk delivered by all producers who are members of the association:

In § 1070.14 paragraph (b)(1).

These provisions relate to the qualification of a plant operated by a cooperative association and to the diversion of producer milk.

This action has been requested by the principal cooperative association in the market to maintain the pool status of a market balancing plant operated by it in connection with supplying most handlers in the market with their daily requirements of milk. This plant is historically associated with the market and performs the function of handling the reserve supply for the market. Termination of the diversion limitations is requested for the purpose of preventing uneconomic movements of milk which might be necessary to maintain the producer status of cooperative members shipping to the market balancing plant.

All persons who desire to submit written data, views, or arguments in connection with the proposed termination should file the same with the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington, D.C., 20250, not later than 3 days from the date of publication of this notice in the FEDERAL REGISTER. All documents filed should be in quadruplicate.

Signed at Washington, D.C., on August 12, 1963.

FROZEN RAW BREADED FISH PORTIONS

Proposed U.S. Standards for Grades

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by section 6(a) of the Fish and Wildlife Act of August 8, 1956 (16 U.S.C. 742e), it is proposed to amend Title 50 Code of Federal Regulations by the addition of a new Part 266. The purpose of this amendment is to issue standards for grades of frozen raw breaded fish portions in accordance with the authority contained in Title II of the Agricultural Marketing Act of August 14, 1946, as amended (7 U.S.C. 1621-1627). These regulations, if made effective, will be an amendment to Part 266—U.S. Standards for Grades of Frozen Raw Breaded Fish Portions previously promulgated in the FEDERAL REGISTER, September 1, 1960, pages 8452 to 8454.

It is the policy of the Department of the Interior whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions or amendments with respect to the proposed amendment to the Director, Bureau of Commercial Fisheries, U.S. Fish and Wildlife Service, Washington 25, D.C., within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

FRANK P. BRIGGS,
Assistant Secretary of the Interior.

AUGUST 12, 1963.

Second Issue: These standards will supersede the standards which have been in effect since March 23, 1960.

PART 266—UNITED STATES STANDARDS FOR GRADES OF FROZEN RAW BREADED FISH PORTIONS [1]

Sec.

266.1 Description of the product.
266.2 Styles of frozen raw breaded fish portions.
266.3 Grades of frozen raw breaded fish portions.
266.5 Labeling requirements for styles of frozen raw breaded fish portions.
266.11 Determination of the grade.
266.21 Definitions.
266.25 Tolerances for certification of officially drawn samples.

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug and Cosmetic Act.

§ 266.1 Description of the product.

Frozen raw breaded portions are clean, wholesome, rectangular-shaped unglazed masses of cohering pieces (not ground) of fish flesh coated with breading. The portions are cut from frozen fish blocks; are coated with a suitable, wholesome batter and breading; and are packaged and frozen in accordance with good commercial practice. They are maintained at temperatures necessary for the preservation of the product. Frozen raw breaded fish portions weigh more than 1½ ounces, and are at least ⅜-inch thick. Frozen raw breaded fish portions contain not less than 75 percent, by weight, of fish flesh. All portions in an individual package are prepared from the flesh of one species of fish.

§ 266.2 Styles of frozen raw breaded fish portions.

(a) *Style I—Skinless portions.* Portions prepared from fish blocks which have been made with skinless fillets.

(b) *Style II—Skin-on-portions.* Portions prepared from fish blocks which have been made with demonstrably acceptable skin-on fillets.

§ 266.3 Grades of frozen raw breaded fish portions.

(a) "U.S. Grade A" is the quality of frozen raw breaded fish portions that (1) possess good flavor and odor and (2) rate a total score of not less than 85 points for those factors of quality that are rated in accordance with the scoring system outlined in this part.

(b) "U.S. Grade B" is the quality of frozen raw breaded fish portions that (1) possess at least reasonably good flavor and odor and (2) rate a total score of not less than 70 points for those factors of quality that are rated in accordance with the scoring system outlined in this part.

(c) "Substandard" is the quality of frozen raw breaded portions that meet the requirements of § 266.1, Description of Product, but otherwise fail to meet the requirements of "U.S. Grade B".

§ 266.5 Labeling requirements for styles of frozen raw breaded fish portions.

(a) Section 260.86 (a) (b) and (c) of Part 260 states the requirements for the use of approved grade marks, inspection marks and combined grade and inspection marks on processed fishery products.

(b) When an approved inspection mark is used on either style (§ 266.2)

of frozen raw breaded fish portions, the style shall be conspicuously revealed on the label as follows:

(1) *Style I.* "Made from skinless fillets".

(2) *Style II.* "Made from skin-on fillets".

§ 266.11 Determination of the grade.

The grade is determined by examining the product in the frozen and cooked states and is evaluated in accordance with the following factors:

(a) *Factors rated by score points.* Points are deducted for variations in the quality of each factor in accordance with the schedule in table 1. The total points deducted is subtracted from 100 to obtain the score. The maximum score is 100; the minimum score is 0.

(b) *Factors not rated by score points.* The factor of "flavor and odor" is evaluated organoleptically by smelling and tasting, after the product has been cooked in accordance with § 266.21.

(1) Good flavor and odor (essential requirements for a Grade A Product) means that the cooked product has the typical flavor and odor of the indicated species of fish and of the breading and is free from rancidity, bitterness, staleness, and off-flavors and off-odors of any kind.

(2) Reasonably good flavor and odor (minimum requirements of a Grade B Product) means that the cooked product is lacking in good flavor and odor but is free from objectionable off-flavors and off-odors of any kind.

§ 266.21 Definitions.

(a) Selection of the sample unit: The sample unit shall consists of 10 frozen raw breaded fish portions taken at random from one or more packages as required. The fish portions are spread out on a flat pan or sheet and are examined according to table 1. Definitions of factors for point deductions are as follows:

(b) Examination of sample, frozen state: (1) "Condition of package" refers to the presence in the package of loose breading and/or loose frost.

(2) "Ease of separation" refers to the difficulty of separating the portions from each other or from the packaging material.

(3) "Broken portion" means a portion with a break or cut equal to or greater than one-half the width or length of the portion.

(4) "Damaged portion" means a portion that has been mashed, physically or mechanically injured, misshaped or multilated to the extent that its appearance is materially affected. The amount of damage is measured by using a grid composed of squares ¼-inch x ¼-inch (that is, squares with an area of 1/16 square inch each) to measure the area of the portion affected. No deductions are made for damage of less than 1/16 square inch.

(5) "Uniformity of size" refers to the degree of uniformity in length and width of the frozen portions. Deviations are measured from the combined lengths of the two longest minus the combined lengths of the two shortest and/or the combined widths of the two widest minus the combined widths of the two narrowest portions in the sample. Deductions are not made for overall deviations in length or width up to ¼ inch.

(6) "Uniformity of weight" refers to the degree of uniformity of the weights of the portions. Uniformity is measured by the combined weight of the two heaviest portions divided by the combined weight of the two lightest portions in the sample. No deductions are made for weight ratios less than 1.2.

(c) (1) Cooked state means the state of the product after being cooked in accordance with the instructions accompanying the product. If, however, specific instructions are lacking, the product being inspected is cooked as follows:

(2) Transfer the product, while still frozen, into a wire mesh fry basket large enough to hold the fish portions in a single layer and cook by immersing them 3–5 minutes in liquid or hydrogenated cooking oil heated to 350 to 375° F. After cooking, allow the fish portions to drain 15 seconds and place them on a paper napkin or towel to absorb excess oil.

(d) Examination of sample, cooked state.

(1) "Distortion" refers to the degree of bending of the long axis of the portion. Distortion is measured as the greatest deviation from the long axis. Deductions are not made for deviations of less than ¼ inch.

(2) "Coating defects" refers to breaks, lumps, ridges, depressions, blisters or swells and curds in the coating of the cooked product. Breaks in the coating are objectionable bare spots through which the fish flesh is plainly visible. Lumps are objectionable outcroppings of breading on the portion surface. Ridges are projections of excess breading at the edges of the portions. Depressions are objectionable visible voids or shallow areas that are lightly covered by breading. Blisters are measured by the swelling or exposed area in the coating resulting from the bursting or breaking of the coating. Curd refers to crater-like holes in the breading filled with coagulated white or creamy albumin. Instances of these defects are measured by a plastic grid marked off in ¼-inch squares (1/16 square inch). Each square is counted as 1 whether it is full or fractional.

(3) "Blemishes" refers to skin (except for Style II), blood spots or bruises, objectionable dark fatty flesh, or extraneous material. Instances of blemishes refers to each occurrence measured by placing a plastic grid marked off in ¼-inch squares (1/16 square inch) over the defect area. Each square is counted as 1 whether it is full or fractional.

(4) "Bones" means the presence of potentially harmful bones in a portion. A potentially harmful bone is one that after being cooked is capable of piercing or hurting the palate.

(5) "Texture defects of the coating" refers to the absence of the normal

textural properties of the coating which are crispness and tenderness. Defects in coating texture are dryness, sogginess, mushiness, doughyness, toughness, pastyness, as sensed by starchiness or other sticky properties felt by mouth tissues and/or mealiness.

(6) "Texture defects of the fish flesh and texture of skin in Style II" refers to the absence of the normal textural properties of the cooked fish flesh and to the absence of tenderness of the cooked skin in Style II. Normal textural properties of cooked fish flesh are tenderness, firmness, and moistness without excess water. Texture defects of the cooked flesh are dryness, mushiness, toughness, and rubberyness. Texture defects of the cooked skin in Style II are mushiness, rubberyness, toughness, and stringiness.

(e) General definitions. (1) "Small" (overall assessment) refers to a condition that is noticeable but is not seriously objectionable.

(2) "Large" (overall assessment) refers to a condition that not only is noticeable but is seriously objectionable.

(3) "Minor" (individual assessment) refers to a defect that slightly affects the appearance and/or utility of the product.

(4) "Major" (individual assessment) refers to a defect that seriously affects the appearance and/or utility of the product.

(f) *Minimum fish flesh content* refers to the minimum percent, by weight, of the average fish flesh content of 3 or more portions per sample unit as determined by the following method:

(1) *Equipment needed.* (i) Water bath (for example, a 3 to 4 liter beaker).

(ii) Balance accurate to 0.1 gram.

(iii) Clip tongs of wire, plastic, or glass.

(iv) Stop-watch or regular watch readable to a second.

(v) Paper towels.

(vi) Spatula, 4-inch blade with rounded tip.

(vii) Nut picker.

(viii) Thermometer (immersion type) accurate to ±2°F.

(ix) Copper sulfate crystals ($CuSO_4 \cdot 5H_2O$)—one pound.

(2) *Procedure.* (i) Weigh all portions in the sample while they are still hard frozen.

(ii) Place each portion individually in a water bath that is maintained at 63° F. to 86° F. and allow to remain until the breading becomes soft and can easily be removed from the still frozen fish flesh (between 10 to 80 seconds for portions held in storage at 0° F.). If the portions were prepared using batters that are difficult to remove after one dipping, redip them for up to 5 seconds after the initial debreading and remove residual batter materials.

NOTE: Several preliminary trials may be necessary to determine the exact dip time required for "debreading" the portions in a sample unit. For these trials only, a saturated solution of copper sulfate (1 pound of copper sulfate in 2 liters of tap water) is necessary. The correct dip time is the minimum time of immersion in the copper sulfate solution required before the breading can easily be scraped off: *Provided,* (1) That the "debreaded" portions are still solidly frozen and (2) only a slight trace of blue color is visible on the surface of the "debreaded" fish portions.

(iii) Remove the portion from the bath; blot lightly with double thickness paper toweling; and scrape off or pick out coating from the fish flesh with the spatula or nut picker.

(iv) Weigh all the "debreaded" fish portions.

(v) Calculate the percent of fish flesh in the sample using the following formula:

$$\text{Percent fish flesh} = \frac{\text{Weight of fish flesh (d)}}{\text{Weight of raw breaded portions (a)}} \times (100)$$

§ 266.25 Tolerances for certification of officially drawn samples.

The sample rate and grades of specific lots shall be certified in accordance with Part 260, of this chapter (Regulations Governing Processed Fishery Products, Vol. 25 F.R. 8427 September 1, 1960) except that a sample unit shall consist of 10 portions taken at random from one or more packages as required.

FEDERAL AVIATION AGENCY

[14 CFR Part 71 [New]]

[Airspace Docket No. 63-EA-33]

CONTROL ZONE, TRANSITION AREAS, AND CONTROL AREA EXTENSION

Proposed Alteration, Designation, and Revocation

Notice is hereby given that the Federal Aviation Agency is considering amendments to Part 71 [New] of the Federal Aviation Regulations, the substance of which is stated below.

The following controlled airspace is presently designated in the Beckley and Bluefield, W. Va., terminal areas:

1. The Bluefield control zone is designated within a 5-mile radius of Mercer County Airport, Bluefield, W. Va., (latitude 37°17'45" N., longitude 81°12'29" W.), and within 2 miles either side of the Bluefield VOR 047° True radial, extending from the 5-mile radius zone to 12 miles northeast of the VOR.

2. The Bluefield control area extension is designated as that airspace bounded on the north by V-478, on the east by V-59, on the south by a line 9 miles south of and parallel to the Bluefield VOR 264° and 084° True radials, on the west by the Blackford, Va., VOR 344° True radial, including the airspace northeast of the Beckley VOR within a 13-mile radius of the VOR, bounded on the west by V-59 and on the southwest by V-258.

3. That portion of the White Sulphur Springs, W. Va., control area extension bounded on the west by longitude 80°40'00" W., and on the north by latitude 38°15'00" N.

4. That portion of the Charleston, W. Va., control area extension within a 35-mile radius of Kanawha County Airport, Charleston, W. Va., (latitude 38°-22'21" N., longitude 81°35'35" W.).

The FAA, having completed a comprehensive review of the terminal airspace structure requirements in the Beckley and Bluefield areas, including studies attendant to the implementation of the provisions of CAR Amendments 60-21/60-29, has under consideration the following airspace actions:

1. Alter the Bluefield control zone by redesignating it to comprise that airspace within a 5-mile radius of Mercer County Airport, Bluefield, W. Va., (latitude 37°17'45" N., longitude 81°12'30" W.), within 2 miles each side of the Bluefield VOR 047° True radial, extending from the 5-mile radius zone to 4.5 miles northeast of the VOR, and within 2 miles each side of the Bluefield VOR 267° True radial, extending from the 5-mile radius zone to 15 miles west of the VOR.

2. Revoke the Bluefield control area extension.

3. Designate the Bluefield transition area to comprise that airspace extending upward from 700 feet above the surface within an 8-mile radius of Mercer County Airport, Bluefield, W. Va., within 2 miles each side of the Bluefield VOR 267° True radial, extending from the 8-mile radius area to 22 miles west of the VOR; and that airspace extending upward from 1,200 feet above the surface bounded by a line beginning at latitude 38°02'00" N., longitude 82°15'-00" W., to latitude 38°14'00" N., longitude 80°35'00" W., to latitude 37°10'00" N., longitude 80°51'30" W., to latitude 37°05'00" N., longitude 82°10'00" W., to the point of beginning.

4. Designate the Beckley transition area to comprise that airspace extending upward from 700 feet above the surface within a 7-mile radius of Raleigh County Memorial Airport, Beckley, W. Va. (latitude 37°47'10" N., longitude 81°07'25" W.), and within 2 miles each side of the Beckley VOR 130° and 154° True radials, extending from the 7-mile radius area to 13 miles southeast of the VOR.

The floors of the airways that traverse the transition areas proposed herein and the floors of the portions of the White Sulphur Springs and Charleston control area extensions, which would lie within the boundaries of the proposed transition areas, would automatically coincide with the floors proposed for the transition areas. Revocation of the White Sulphur Springs and Charleston control area extensions will be processed at a later date upon the completion of adjoining area CAR Amendments 60-21/60-29 implementation studies.

The actions taken herein would, in part, reduce the length of the existing Bluefield control zone northeast extension from 12 miles to 4.5 miles northeast of the VOR. The proposed addition of a west extension based on the Bluefield VOR 267° True radial would provide protection for west-bound departure aircraft climbing en route via the Victor

airway No. 140 as proposed for realignment via the Whitesburg, Ky., VOR (Airspace Docket No. 63–EA–44). The actions proposed herein to designate transition areas at Bluefield and Beckley and revoke the existing Bluefield control area extension would raise the floor of controlled airspace beyond the immediate vicinity of the airports located at the aforementioned locations from 700 to 1,200 feet above the surface. The airspace released would become available for other aeronautical purposes. The controlled airspace proposed for retention would provide the required protection for aircraft executing prescribed instrument holding, arrival, missed approach and departure procedures within the Beckley and Bluefield terminal areas.

Certain minor revisions to prescribed instrument procedures would accompany the actions proposed herein, but operational complexities would not be introduced nor would aircraft performance characteristics or established landing minimums be adversely affected. Specific details of the changes in procedures and minimum flight rules altitudes that would be required may be examined by contacting the Chief, Airspace Utilization Branch, Air Traffic Division, Eastern Region, Federal Aviation Agency, New York International Airport, Federal Building, Jamaica, N.Y., 11430.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica, N.Y., 11430. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington, D.C., 20553. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room A–103, 1711 New York Avenue NW., Washington, D.C., 20553. An informal docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on August 9, 1963.

Acting Chief,
Airspace Utilization Division.

[Airspace Docket No. 63–CE–40]

CONTROL ZONE, CONTROL AREA EXTENSION, AND TRANSITION AREA

Proposed Alteration, Revocation, and Designation

Notice is hereby given that the Federal Aviation Agency is considering amendments to Part 71 [New] of the Federal Aviation Regulations, the substance of which is stated below.

The following controlled airspace is presently designated in the Grand Rapids, Mich., terminal area:

1. The Grand Rapids control zone is designated within a 6-mile radius of Kent County Airport, and within 2 miles either side of the Grand Rapids radio range southeast course, extending from the 6-mile radius zone to 12 miles southeast of the radio range.

2. The Battle Creek, Mich., control area extension is designated within a 35-mile radius of the Battle Creek VORTAC.

3. That portion of the Lansing, Mich., control area extension bounded on the southwest by V–2, and on the west by V–193.

4. That portion of the Muskegon, Mich., control area extension bounded on the northeast by V–2 south alternate, on the southeast by V–193 and on the west by V–55.

The FAA, having completed a comprehensive review of the terminal airspace structure requirements in the Grand Rapids area, including studies attendant to the implementation of the provisions of CAR Amendments 60–21/60–29, has under consideration the following airspace actions:

1. Alter the Grand Rapids control zone by redesignating it to comprise that airspace within a 5-mile radius of Cascade Airport, Grand Rapids, Mich. (latitude 42°52′45″ N., longitude 85°30′30″ W.), and within 2 miles each side of the Grand Rapids ILS localizer east course, extending from the 5-mile radius zone to the OM.

2. Revoke the Muskegon control area extension.

3. Designate the Grand Rapids transition area to comprise that airspace extending upward from 700 feet above the surface within a 7-mile radius of Cascade Airport, and within 5 miles north and 10 miles south of the 259° True bearing from the Grand Rapids radio range, extending from the radio range to 12 miles west of the radio range; and that airspace extending upward from 1,200 feet above the surface bounded on the north by a line 6 miles north of and parallel to the centerline of V–216 east of Muskegon VORTAC, and on the west, south and east by the arc of an 18-mile radius circle centered on Muskegon County Airport (latitude 43°10′16″ N., longitude 86°14′09″ W.), and a line beginning at latitude 42°54′35″ N., longitude 86°13′00″ W., extending to latitude 42°45′25″ N., longitude 86°23′40″ W.; to latitude 42°35′00″ N., longitude 86°17′30″ W.; to latitude 42°35′00″ N., longitude 86°00′00″ W.; to latitude 42°38′00″ N., 86°00′00″ W.; to latitude 42°38′00″ N., longitude 85°15′00″ W.; to latitude 43°16′00″ N., longitude 85°15′00″ W.; to latitude 43°16′00″ N., longitude 85°02′00″ W.; to latitude 43°27′00″ N., longitude 85°02′00″ W.

The floors of the airways which traverse the proposed transition area and the floors of the portions of the Battle Creek and Lansing control area extensions which would coincide with this transition area would automatically assume a floor coincident with the floors of the transition area.

The actions proposed herein would, in part, eliminate the present control zone designation, associated with the Kent County Airport, which will no longer be required with the transfer of operations to the newly constructed Cascade Airport at Grand Rapids. The proposed relocated control zone, including an extension, would provide protection for aircraft executing instrument approach and departure procedures to be prescribed for the new Cascade Airport. The action proposed herein to designate a transition area at Grand Rapids would raise the floor of controlled airspace beyond the immediate vicinity of the Cascade Airport from 700 to 1,200 feet above the surface. The controlled airspace released would become available for other aeronautical activities. The portions of controlled airspace proposed for retention would provide protection for aircraft executing prescribed instrument holding, arrival, missed approach and departure procedures within the Grand Rapids terminal area.

The revocation of the Muskegon control area extension is interdependent upon the actions proposed herein and in Airspace Docket No. 63–CE–12, which was published in the FEDERAL REGISTER as a Notice of Proposed Rule Making on May 15, 1963 (28 F.R. 4855). The revocation of the Battle Creek and Lansing control area extensions will be given consideration at a later date under the CAR Amendments 60–21/60–29 actions proposed for the areas adjoining the Grand Rapids terminal area.

The proposed instrument approach, departure and missed approach procedures to be adopted for use at the new Cascade Airport, and changes to existing enroute instrument flight rules altitudes that would be adopted as a result of the actions proposed herein, may be examined by contacting the Chief, Airspace Utilization Branch, Air Traffic Division, Central Region, 4825 Troost Avenue, Kansas City, Mo., 64110.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal

Aviation Agency, Washington, D.C., 20553. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room A–103, 1711 New York Avenue NW., Washington, D.C., 20553. An informal docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on August 9, 1963.

Acting Chief,
Airspace Utilization Division.

[Airspace Docket No. 63–WE–20]

CONTROL ZONES, CONTROL AREA EXTENSION, TRANSITION AREAS, AND FEDERAL AIRWAYS

Proposed Alteration, Designation and Revocation

Notice is hereby given that the Federal Aviation Agency (FAA) is considering amendments to Part 71 [New] of the Federal Aviation Regulations, the substance of which is stated below.

The following controlled airspace is presently designated in the Spokane, Wash., terminal area:

1. The Spokane control zone is designated within a 5-mile radius of Spokane International Airport, and within a 5-mile radius of Fairchild AFB, Spokane, Wash.

2. The Spokane control area extension is designated within a 45-nmi radius of Fairchild AFB, Spokane, Wash.

3. Victor 444 is designated from Spokane, Wash., via intersection of Spokane 125° and Mullan Pass, Idaho, 234° True radials; to Mullan Pass.

4. Victor 448 is designated from Ephrata, Wash., via intersection of Ephrata 096° and Mullan Pass, Idaho, 260° True radials; to Mullan Pass.

5. VOR Federal airway No. 2 extends, in part, from Ephrata, Wash., to Mullan Pass, Idaho, via Spokane, Wash., with a south alternate from Spokane to Mullan Pass via the intersection of the Spokane 125° and the Mullan Pass 260° True radials.

The FAA, having completed a comprehensive review of the terminal structure requirements in the Spokane area, including studies attendant to the implementation of the provisions of CAR Amendments 60–21/60–29, has under consideration the following airspace actions:

1. Alter the Spokane control zone by redesignating it to comprise that airspace within a 5-mile radius of Spokane International Airport (latitude 47°37′35″ N., longitude 117°32′05″ W.), and within 2 miles each side of the extended centerline of Runway 21, extending from the 5-mile radius zone to 6 miles southwest of the southwest end of the Runway 21, excluding the portion west of a line from latitude 47°32′45″ N., longitude 117°35′-00″ W., to latitude 47°40′57″ N., longitude 117°36′00″ W.

2. Designate the Fairchild AFB, Spokane, Wash., control zone as that airspace within a 5-mile radius of Fairchild AFB (latitude 47°36′55″ N., longitude 117°39′20″ W.); within 2 miles each side of the extended centerline of Runway 23, extending from the 5-mile radius zone to 4 miles southwest of the southwest end of Runway 23; and within 2 miles each side of the extended centerline of the Spokane International Airport Runway 21, extending from the runway to 6 miles southwest of the southwest end of Runway 21, excluding the portion east of a line from latitude 47°32′45″ N., longitude 117°35′00″ W., to latitude 47°40′57″ N., longitude 117°-36′00″ W.

3. Revoke the Spokane control area extension and designate the Spokane transition area as that airspace extending upward from 700 feet above the surface within a 15-mile radius of Spokane International Airport (latitude 47°37′-35″ N., longitude 117°32′05″ W.); and that airspace extending upward from 1,200 feet above the surface within a 52-mile radius of Fairchild AFB, Spokane, Wash. (latitude 47°36′55″ N., longitude 117°39′20″ W.); that airspace south of Spokane extending from the 52-mile radius area bounded on the east by longitude 117°32′00″ N., on the south by Victor 536, and on the west by Victor 281, excluding the portion within a 39-mile radius of Larson AFB, Moses Lake, Wash.

4. Designate a transition area at Coeur d'Alene, Idaho, as that airspace extending upward from 700 feet above the surface within a 5-mile radius of Coeur d'Alene Air Terminal (latitude 47°46′30″ N., longitude 116°49′05″ W.).

5. a. Revoke Victor 444 and its control area from Spokane via the Fernwood Intersection to Mullan Pass.

b. Revoke Victor 448 and its control area from Ephrata, Wash., to Mullan Pass.

c. Alter Victor 2 by designating a south alternate to Victor 2 from Ephrata to Spokane, via the intersection of the Ephrata 096° and the Spokane 221° True radials and by realigning Victor 2 south alternate between Spokane and Mullan Pass via the intersection of the Spokane 109° and the Mullan Pass 260° True radials.

The alteration and revocation of the airways proposed herein would accommodate revised air traffic control procedures proposed for the Spokane terminal area.

The floors of the airways which traverse the transition areas proposed herein would automatically coincide with the floor of the transition area.

As presently designated, the operations for Spokane International and Fairchild AFB are governed by weather observations reported for Fairchild AFB. Since weather, communications and control tower services are available at both airports, it is deemed advisable to propose the designation of separate control zones to obtain maximum operational capabilities at Fairchild AFB and Spokane International. In addition, control zone extensions would be designated west and southeast of Fairchild AFB and southwest of Spokane International to provide protection for aircraft executing prescribed instrument approach and departure procedures at Fairchild AFB and Spokane International. The designation of the portion of the Spokane transition area proposed with a floor of 700 feet above the surface would provide protection for aircraft executing prescribed instrument approach, departure and radar vectoring procedures while operating below 1,500 feet above the surface within the Spokane terminal area. The designation of a 700-foot floor transition area at Coeur d'Alene, Idaho, would provide protection for instrument approach and departure procedures at Coeur d'Alene Air Terminal.

The portion of the proposed Spokane transition area with a floor of 1,200 feet above the surface and the revocation of the Spokane control area extension would raise the floor of controlled airspace beyond the limits of the proposed Spokane and Coeur d'Alene 700-foot floor transition areas from 700 to 1,200 feet. The portions of controlled airspace released by these actions would no longer be required for air traffic control purposes. The portions retained would provide protection for aircraft executing prescribed instrument holding, arrival, departure and radar vectoring procedures within the Spokane terminal area.

Certain minor revisions to the prescribed instrument approach procedures would accompany the actions proposed herein, but operational complexities would not be increased nor would aircraft performance characteristics or established landing minimums be adversely affected. Specific details relating to these changes may be examined by contacting the Chief, Airspace Utilization Branch, Air Traffic Division, Western Region, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles, Calif., 90009.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Western Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box, 90007, Airport Station, Los Angeles, Calif., 90009. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington, D.C., 20553. Any data, views or

arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room A–103, 1711 New York Avenue NW., Washington, D.C., 20553. An informal docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on August 9, 1963.

H. B. HELSTROM,
Acting Chief,
Airspace Utilization Division.

Commodity Credit Corporation

SALES OF CERTAIN COMMODITIES

August Sales List

Notice to buyers. Pursuant to the policy of Commodity Credit Corporation issued October 12, 1954 (19 F.R. 6669), and subject to the conditions stated therein as well as herein, the commodities listed below are available for sale and, where noted, for redemption of payment-in-kind certificates on the price basis set forth.

These prices at which Commodity Credit Corporation commodity holdings are available for sale during August 1963 were announced today by the U.S. Department of Agriculture. The following commodities are available: Butter, cheddar cheese, nonfat dry milk, cotton (upland and extra long staple), wheat, corn, oats, barley, rye, rice, grain sorghums, flax, soybeans, dry edible beans, gum turpentine and peanuts.

Pinto beans are being added to the August list.

Dispositions of CCC-owned wheat in redemption of pooled payment-in-kind certificates under the 1963 program are not contemplated before the end of the wheat harvest at the earliest as indicated in the July CCC Monthly Sales List. The minimum price for storable wheat for unrestricted use in such dispositions will be the same as in sales of storable wheat for unrestricted use; namely the higher of market price or the formula price of 105 percent of the price support loan rate plus carrying charges. This minimum pricing policy will be in effect for the 1963–64 marketing year ending June 30, 1964.

The CCC Monthly Sales List, which varies from month to month as additional commodities become available or commodities formerly available are dropped, is designed to aid in moving CCC's inventories into domestic or export use through regular commercial channels.

If it becomes necessary during the month to amend this list in any material way—such as by the removal or addition of a commodity in which there is general interest or by a significant change in price or method of sale—an announcement of the change will be sent to all persons currently receiving the list by mail from Washington. To be put on this mailing list, address: Director, Procurement and Sales Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C., 20250.

Interest rates per annum under the CCC Export Credit Sales Program for August 1963 are 4 percent for periods up to 12 months, and 4½ percent for periods from over 12 months up to a maximum of 36 months. All commodities currently offered for sale by CCC, plus tobacco from CCC loan stock are available for export sale under the CCC Export Credit Sales Program.

The following CCC-owned commodities are available for programing under Title IV, Public Law 480, private trade agreements: wheat, corn, barley, rye, rice, grain sorghums, upland and extra long staple cotton, tobacco from CCC loan stocks, butter, cheese, nonfat dry milk, and dry beans. In addition, other surplus agricultural commodities are also eligible for Title IV programing. A list of all commodities available under this program, and current information on interest rates and other phases of the program are being separately sent to recipients of the CCC Monthly Sales List.

The following commodities are currently available for barter: Nonfat dry milk, butter, cheddar cheese, cotton, tobacco, wheat, corn, rye, barley, and grain sorghum. This list is subject to change from time to time.

The CCC will entertain offers from responsible buyers for the purchase of any commodity on the current list. Offers accepted by CCC will be subject to the terms and conditions prescribed by the Corporation. These terms include payment by cash or irrevocable letter of credit before delivery of the commodity, and the conditions require removal of the commodity from CCC stocks within a reasonable period of time. Where conditions of sale for export differ from those for domestic sale, proof of exportation is also required, and the buyer is responsible for obtaining any required U.S. Government export permit or license. Purchases from CCC shall not constitute any assurance that any such permit or license will be granted by the issuing authority.

Applicable announcements containing all terms and conditions of sale will be furnished upon request. For easy reference a number of these announcements are identified by code number in the following list. Interested persons are invited to communicate with the Agricultural Stabilization and Conservation Service, USDA, Washington, D.C., 20250, with respect to all commodities or—for specified commodities—with the designated ASCS Commodity Office.

Commodity Credit Corporation reserves the right to amend, from time to time, any of its announcements. Such amendments shall be applicable to and be made a part of the sale contracts thereafter entered into.

CCC reserves the right to reject any or all offers placed with it for the purchase of commodities pursuant to such announcements.

If CCC does not have adequate information as to the financial responsibility of a prospective buyer to meet all contract obligations that might arise by acceptance of an offer or if CCC deems such buyer's financial responsibility to be inadequate, CCC reserves the right (i) to refuse to consider the offer, (ii) to accept the offer only after submission by the buyer of a certified or cashier's check, bond, letter of credit or other security acceptable to CCC assuring that the buyer will discharge the responsibility under the contract, or (iii) to accept the offer upon condition that the buyer promptly submit to CCC such of the aforementioned security as CCC may direct. If a prospective buyer is in doubt as to whether CCC is acquainted with his financial responsibility he should communicate with the ASCS office at which the offer is to be placed to determine whether a financial statement or advance financial arrangement will be necessary in his case.

Disposals and other handling of inventory items often result in small quantities at given locations or in qualities not up to specifications. These lots are offered by the appropriate ASCS office promptly upon appearance and therefore, generally, they do not appear in the Monthly Sales List.

On sales for which the buyer is required to submit proof to CCC of exportation the buyer shall be regularly engaged in the business of buying or selling commodities and for this purpose shall maintain a bona fide business office in the United States, its territories or possessions, and have a person, principal, or resident agent upon whom service of judicial process may be had.

Prospective buyers for export should note that generally, sales to United States Government agencies, with only minor

exceptions, will constitute domestic unrestricted use of the commodity.

Commodity Credit Corporation reserves the right, before making any sales, to define or limit export areas.

Notice to exporters. The Department of Commerce, Bureau of International Programs (the Bureau of Foreign Commerce until Aug. 9, 1961), pursuant to regulations under the Export Control Act of 1949, prohibits the exportation or re-exportation by anyone of any commodities (except absorbent cotton and sterilized gauze and bandages with respect to Cuba only) under this program to Cuba, the Soviet Bloc, or Communist-controlled area of the Far East including Communist China, North Korea, and the Communist-controlled area of Vietnam, except under validated license issued by the U.S. Department of Commerce, Bureau of International Programs.

These regulations generally require that exporters, in or in connection with their contracts with foreign purchasers, where the contract involves $10,000 or more and exportation is to be made to a Group R country, obtain from the foreign purchaser a written acknowledgment of his understanding of (1) U.S. Commerce Department prohibitions (Comprehensive Export Schedule, 15 CFR §§ 371.4 and 371.8) against sales or resale for re-export of said commodities, or any part thereof, without express Commerce Department authorization, to the Soviet Bloc, Communist China, North Korea or the Communist-controlled area of Vietnam or to Cuba, and (2) the sanction of denial of future U.S. export privileges that may be imposed for violation of the Commerce Department regulations. Exporters who have a continuing and regular relationship with a foreign purchaser may obtain a blanket acknowledgment from such purchaser covering all transactions involving surplus agricultural commodities and manufactures thereof purchased from CCC or subsidized for export by the Secretary of Agriculture or CCC. Where commodities are to be exported by a party other than the original purchaser of the commodities from the CCC the original purchaser should inform the exporter in writing of the requirements for obtaining the signed acknowledgment from the foreign purchaser.

For all exportations, one of the destination control statements specified in Commerce Department Regulations (Comprehensive Export Schedule, 15 CFR § 379.10(c)) is required to be placed on all copies of the shipper's export declaration, all copies of the bill of lading, and all copies of the commercial invoices. For additional information as to which destination control statement to use, the exporter should communicate with the Bureau of International Programs or one of the field offices of the Department of Commerce.

Exporters should consult the applicable Commerce Department regulations for more detailed information if desired and for any changes that may be made therein.

CERTAIN HUMANELY SLAUGHTERED LIVESTOCK

Identification of Carcasses

Pursuant to section 4 of the Act of August 27, 1958 (7 U.S.C. 1904) and the statement of policy thereunder in 9 CFR Part 181.1 the following table lists the establishments operated under Federal inspection under the Meat Inspection Act (21 U.S.C. 71 et seq.) which were officially reported on July 1, 1963, as humanely slaughtering and handling on that date the species of livestock respectively designated for such establishments in the table. Additions to and deletions from this list will be made from time to time, as the facts may warrant, by supplemental notices published in the FEDERAL REGISTER. Previously published lists represented establishments reported in June or July 1963 as humanely slaughtering and handling the designated species of livestock on June 1 or some later date in June 1963 (28 F.R. 7103 and 7570). The establishment number given with the name of the establishment is branded on each carcass of livestock inspected at that establishment. The table should not be understood to indicate that all species of livestock slaughtered at a listed establishment are slaughtered and handled by humane methods unless all species are listed for that establishment in the table. Nor should the table be understood to indicate that the affiliates of any listed establishment use only humane methods:

ROYAL BANK AND TRUST COMPANY AND BANK OF LOUISVILLE

Notice of Report to Board of Directors, Federal Deposit Insurance Corporation on Competitive Factors Involved in Merger Application

On June 5, 1963, the Board of Directors of the Federal Deposit Insurance Corporation, pursuant to 12 U.S.C. 1828(c), requested the Comptroller of the Currency to report on the competitive factors involved in the proposed merger of the $50 million Royal Bank and Trust Company, Louisville, Kentucky, with the $29 million Bank of Louisville, Louisville, Kentucky.

On August 5, 1963, the Comptroller of the Currency reported that approval of this merger would deny to the residents of the Louisville area one effective banking institution without any corresponding gain. Thus, the proposed merger would have an adverse effect on competition and would not be in the public interest.

A general description of the proposed Interest Equalization Tax Act of 1963 follows:

DESCRIPTION OF PROPOSED INTEREST EQUALIZATION TAX

In his balance of payments message of July 18, 1963, the President announced a series of coordinated actions to reinforce the Administration's program to correct the United States balance of payments deficit, including a request for an Interest Equalization Tax. The enactment of H.R. 8000 would effectuate this request.

The Interest Equalization Tax upon which Congressional action has been requested is applicable to certain portfolio transactions that entail longer-term capital movements from the United States. The pressure of the heavy flow of domestic private savings into the United States capital market, combined with our highly developed and efficient market facilities, have been reflected in a level of long-term borrowing costs in this country far below those prevailing in most industrialized countries abroad, where the development of efficient long-term capital markets has lagged. These lower long-term rates, while appropriate to domestic needs, invite a volume of securities sales in the United States by foreigners that places heavy strains on our balance of payments. From a 1959–61 average of about $600 million, new foreign long-term securities sold to United States interests increased sharply in 1962 to $1.1 billion, and to an annual rate of over $1.7 billion in the first half of 1963. Purchases of outstanding foreign bonds and equities by United States interests have also been large and have substantially increased in 1963.

The Administration for some time has pointed out that a portion of these foreign needs for capital now met from United States sources might more appropriately be satisfied in the borrower's own market or in those of countries with balance of payments surpluses. The imposition of the proposed tax will encourage this process by tending to equalize costs of longer-term financing in the United States and in markets abroad, reducing the incentive to raise capital in the United States simply to take advantage of a possible interest cost saving.

The tax will thus have an important effect on the balance of payments, without impeding access to the American market by foreigners unable to procure longer-term funds on reasonable terms elsewhere. Allocation of funds for investment in foreign securities and the determination of securities to be offered in the United States market would continue to be the result of market prices and decisions. Accordingly, the Interest Equalization Tax serves domestic and international needs in a way that supports the essential freedom of our trading and financial markets, and fulfills our special responsibilities at the center of the financial system of the free world. This method of influencing aggregate American purchases of foreign securities assures that selection among issues will be freely made on the basis of market considerations.

General Description of the Bill

H.R. 8000 proposes the enactment of the Interest Equalization Tax Act of 1963. Under the bill, a special temporary excise tax, to remain in effect through 1965, is imposed on the acquisition of stock, debt securities or other obligations of foreign issuers or depositary receipts or other evidence of interest in, or rights to acquire, such interests. The tax is payable by all United States citizens, residents and corporations, including organizations exempt from Federal income taxes. It applies to portfolio purchases of stock or debt securities issued by foreign corporations, governments, or other persons, whether such securities are new or already outstanding issues and whether the acquisition is effected in the United States or abroad. It does not apply, however, to purchases by Americans from other Americans.

The tax is not applicable to direct investments by United States persons in overseas subsidiaries or affiliates, nor does it apply to acquisition of any indebtedness payable upon demand or maturing in less than three years. Producers of United States goods and services will not be subject to tax on credits extended in connection with their exports. Moreover, loans made by commercial banks in the ordinary course of their banking business are exempted, as is Export-Import Bank financing. The tax is not applicable to purchases of securities issued by international organizations of which the United States is a member, governments of countries considered to be less developed, and corporations whose principal activities are centered in less developed countries. The tax will also be inapplicable to new issues of securities from a foreign country if the President determines that application of the tax will imperil or threaten to imperil the stability of the international monetary system. A securities underwriter, or a dealer in foreign bonds, is exempted from the tax on certain acquisitions of securities resold to foreigners.

The tax is generally applied to acquisitions occurring after the date of the President's message. Acquisitions effected on a national securities exchange on or before August 16, 1963, are not taxed, however. Nor does the tax apply to purchase commitments made on the open market on or before the date of the President's message, to other purchases which the buyer on that date was unconditionally obligated to make, or to acquisitions under contracts which were partly performed on that date. Exemption from the tax is also provided for purchases made within 60 days after the date of the President's message if the security purchased was covered by a registration statement filed with the Securities and Exchange Commission within 90 days prior to the date of the President's message. Acquisitions are not taxable if they represent the exercise of options held on the date of the President's message or foreclosure by a creditor on security for a debt outstanding on that date.

Rate of tax. The tax, based on the value of the security acquired, is imposed at the rate of 15 percent in the case of stock. In the case of debt securities, the rate of tax is geared to the period remaining to maturity, ranging from 2.75 percent to 15 percent, in accordance with a rate table set forth in the Bill. Where an issue of securities is subject to early retirement through operation of a mandatory sinking fund, the period remaining to maturity will be determined under regulations, which are expected to base maturity generally on the average life of the securities. Under the bill, the tax is not deductible for federal income tax purposes (unless because of reimbursement or other reasons it is separately includible in taxable income) but is included as an item of cost in the tax basis for the stock or obligation acquired.

Liability for the tax. The United States person making a taxable acquisition is liable for the tax, which will be collected through the filing of returns. The first of such returns will be due at the end of the first full calendar month following the end of the calendar quarter in which the bill is enacted and will cover all prior acquisitions subject to the legislation. Returns will thereafter be due at the end of the calendar month following each calendar quarter in which a United States person makes any acquisition. This is not a stamp tax; no obligation to compute or collect the tax is imposed on the issuer or seller, or any underwriter, dealer, broker, or transfer or deposit agent (except with respect to his own purchases).

Exclusion of securities acquired from Americans. Under the bill, an acquisition from another United States person is not subject to tax. To permit identification of securities covered by this exclusion, a United States transferor executes a certificate attesting that he was a United States citizen, resident or corporation during the period of his ownership of the security. A nominee is permitted to attest that the security had been held for the account of a United States person if such nominee kept adequate records to identify the actual owner of the securities and such owner's United States citizenship, residence or incorporation. The signature on any certificate is required to be guaranteed

by a bank, member of the National Association of Securities Dealers or member firm of a national securities exchange. In determining his liability for the tax, a purchaser is entitled to rely on any such certificate. While the certificate may be delivered along with the security in most cases, it can be delivered within a reasonable time thereafter.

There are attached temporary forms of certificates, together with instructions and sample filled-in forms,[1] which the Treasury Department has announced that it will accept in fulfillment of these requirements pending enactment of the legislation by the Congress and issuance of regulations and forms thereunder. These interim forms are available at offices of the Internal Revenue Service, and facsimile reproductions will be accepted.

Civil and criminal penalties are provided for the execution of false or fraudulent certificates of American ownership.

Explanation of Excluded Acquisitions

Export financing. As indicated above, no acquisition is subject to tax under the bill if the obligation acquired is payable upon demand or within three years of its acquisition. Most trade financing transactions will fall within this exception. In addition, United States producers of goods and services are accorded an exclusion for obligations acquired in connection with their exports. The exclusion of loans made by commercial banks in the ordinary course of their banking business, as well as Export-Import Bank financing, will also permit tax-free trade financing on a longer-term basis.

Direct investment. Direct investments in overseas subsidiaries and affiliates are excluded from the tax. The bill defines a direct investor as one who owns immediately following an acquisition, directly or through a foreign corporation, at least ten percent of the total combined voting power of all classes of stock of a foreign corporation entitled to vote. If a United States person qualifies as a direct investor, his acquisitions of both stock and debt securities of the foreign corporation are exempt. This exclusion will be denied, however, if the foreign corporation is formed or availed of by a United States person for the principal purpose of acquiring securities which would be subject to tax if acquired directly, unless the foreign corporation acquires the securities in the normal course of a commercial banking, securities underwriting, or brokerage business conducted in one or more foreign countries. Companies doing business in foreign countries are exempt from tax on the acquisition of foreign securities, to the extent that the securities acquired are, or would have been, required to be held in connection with such business by application of foreign laws which were in force on the date of the President's message.

Exclusion required for international monetary stability. If the President determines that application of the Interest Equalization Tax will have such consequences for a foreign country as to imperil or threaten to imperil the stability of the international monetary system, the bill authorizes him by Executive order to exclude from the tax acquisitions of new issues of securities originating in such country. New issues may include all issues of previously unissued securities, including public offerings, private placements and individual notes secured by mortgages. The President may exempt all of such new issues, or any classification or limited aggregate amount thereof.

Marketing of foreign securities to foreigners. The exclusion provided for foreign issues resold by an underwriter to foreigners and for foreign dollar bonds purchased by dealers and resold within 30 days to foreigners is consistent with the objective of encouraging and facilitating sales of these issues to foreigners.

International organizations. Purchases of securities issued by any international organization of which the United States is a member will not bear the tax. This exempts purchases by Americans of the obligations of such organizations as the International Bank for Reconstruction and Development and the Inter-American Development Bank.

Less developed countries. The exclusion for acquisition of securities issued by governments of less developed countries includes purchases of securities issued by any corporation with the guarantee of such a government, as well as securities of political subdivisions.

The exclusion for purchases of securities issued by corporations operating in less developed countries applies to any corporation which for its last annual accounting period prior to the acquisition by the United States person had conformed to the definition of a "less developed country corporation" in section 955(c) of the Internal Revenue Code, by reason of conducting an active business in one or more countries designated as less developed for purposes of this tax. The exemption is also made available for the securities of any foreign corporation which establishes to the satisfaction of the Secretary of the Treasury or his delegate that it had met these standards prior to issuance of its securities and might reasonably be expected to continue to meet them for such period as the Secretary or his delegate may deem appropriate to carry out the intent of this exclusion.

The countries to be considered less developed for this purpose will be designated in an Executive order issued by the President. For the interim period prior to the issuance of this Executive order, all countries designated by Executive Order No. 11071, dated December 27, 1962, as less developed countries for purposes of the Revenue Act of 1962, are to be considered less developed countries. This includes all countries, and overseas territories and possessions of countries (other than countries within the Sino-Soviet bloc) except the following:

Australia.	Luxembourg.
Austria.	Monaco.
Belgium.	Netherlands.
Canada.	New Zealand.
Denmark.	Norway.
France.	Republic of South Africa.
Germany (Federal Republic).	San Marino.
Hong Kong.	Spain.
Italy.	Sweden.
Japan.	Switzerland.
Liechtenstein.	United Kingdom.

The designation of a country may be terminated by further Executive order, but such termination will not affect acquisitions of securities occurring prior to issuance of the Executive order.

G. D'Andelot Belin,
General Counsel.

August 9, 1963.

The plat of limited dependent resurvey of lands and survey of islands described below, accepted May 29, 1963, under survey group No. 72, will be officially filed in this office effective 10 a.m., on September 23, 1963.

Sec. 1, lot 17, 3.30 acres;
Sec. 1, lot 18, 2.72 acres;
Sec. 11, lot 6, 3.45 acres;
Sec. 11, lot 7, 3.91 acres;
Sec. 12, lot 6, 0.42 acre;
Sec. 14, lot 10, 0.02 acre.

The area described aggregates 13.82 acres of public domain land.

The survey of these lands was undertaken as an administrative measure pursuant to notices of their existence. Several of the islands are shown, in outline only, on the plats of original surveys approved in 1848 and 1855. The plat represents the survey of islands in St. Croix River that were in existence in 1847, the date of the original survey; in 1848, when Wisconsin was admitted to the Union, and at all subsequent dates and have the status of public domain.

The formation of the islands and the size and species of the timber are similar to that of the bottom land included in the original survey of 1847. They are of sandy loam formation ranging from level to gently rolling, with banks one to four feet in height. The timber ranges in size from four to forty inches in diameter.

The lands above described are open to application, location, selection and petition under the public land laws; subject to valid existing rights, the provisions of existing withdrawals, and requirements of applicable laws, rules and regulations. The lands will not be sub-

ject to occupancy or disposition until they have been classified.

[Docket No. 14625; Order E-19898]

PAN AMERICAN WORLD AIRWAYS, INC., ET AL.

Amended Order of Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 12th day of August 1963.

Cargo rates from Hawaiian points to mainland points by Pan American World Airways, Inc., The Flying Tiger Line Inc., United Air Lines, Inc., and World Airways, Inc.; Docket No. 14625.

The Board, by Order E-19771 of July 3, 1963, instituted an investigation of certain current and proposed rates on fresh fruits and vegetables from Hawaii to the mainland via Pan American World Airways, Inc., The Flying Tiger Line Inc., and World Airways, Inc., because of their relatively low level.

United Air Lines, Inc. (United) has had similar rates in effect since June 19, 1963. The reasons relied upon in Order E-19771 for instituting the investigation in Docket 14625 are equally applicable to United's rates. Therefore, we will add United's rates to the investigation in this Docket.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That, Ordering paragraphs 1, 2, and 3 of Order E-19771 be amended to read as follows:

1. An investigation be instituted to determine whether the rates, charges, and provisions listed below, including subsequent revisions thereto and reissues thereof, are, or will be, unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful rates and charges:

(a) The charter charges from Hilo, Hawaii, or Honolulu, Hawaii, to San Francisco, California, applicable only to Fruits and Vegetables, Fresh, appearing on 10th Revised Page 4-B of The Flying Tiger Line Inc., C.A.B. No. 32;

(b) The charter rates from Hilo, Hawaii, Kahului, Hawaii, or Honolulu, Hawaii, to Oakland, California, applicable only to Fruits and Vegetables, Fresh, appearing on 4th Revised Page 15 of World Airways, Incorporated, C.A.B. No. 12;

(c) The rates on Fruits and/or Vegetables, Fresh (Commodity Item Number 0007Q) from Honolulu, USA, to Los Angeles, USA, Portland, Oregon, USA, San Francisco, USA, and Seattle, USA, appearing on 6th Revised Page 14-A of Agent R. C. Lounsbury's C.A.B. No. 118;

(d) The rates on Fruits and/or Vegetables, Fresh (Commodity Item 0007) from Honolulu, Hawaii, to Los Angeles, Calif., and from Honolulu, Hawaii, to Oakland or San Francisco, Calif., appearing on 9th Revised Page 13 and 7th Revised Page 14, respectively, of United Air Lines, Inc., C.A.B. No. 60.

2. The proceeding herein be assigned before an examiner of the Board at a time and place hereafter to be designated; and

3. Copies of this order shall be served upon Pan American World Airways, Inc., The Flying Tiger Line Inc., United Air Lines, Inc., and World Airways, Inc., which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-15187]

ARKANSAS LOUISIANA GAS CO.

Notice of Application To Amend

AUGUST 9, 1963.

Take notice that on April 10, 1963, as supplemented on July 1, 1963, Arkansas Louisiana Gas Company (Applicant) with its principal place of business in Shreveport, Louisiana, filed in Docket No. G-15187 an application to amend the Commission's order, issued October 14, 1958, as amended on January 28, 1959, authorizing Applicant to sell and deliver gas by extending the terms of said order for an additional year in accordance with an agreement, as amended by a letter agreement dated March 6, 1963, executed between Applicant and Mississippi River Fuel Corporation (Mississippi), said certificate to terminate with the termination of the amended agreement, all as more fully set forth in the application to amend which is on file with the Commission and open to public inspection.

The order of October 14, 1958, as amended, authorized Applicant, among other things, to sell and deliver 35,700 Mcf of natural gas per day at 14.73 psia in interstate commerce to Mississippi for resale. This gas was sold and delivered through facilities likewise authorized in the order in question from October 15 of each year through April 16 of the succeeding year for a five year period ending April 16, 1963, at a price of 26 cents per Mcf in accordance with an agreement, dated February 5, 1958, between Applicant and Mississippi and concurrently filed as Rate Schedule XFS-16 of Applicant's FPC Gas Tariff, Original Volume No. 2. Applicant, in the subject order, was granted a request for a limited certificate to terminate on May 1, 1963, with the termination of the original contract between the parties.

Applicant seeks in the application, as amended, to extend the sale and delivery of 35,700 Mcf of natural gas per day to Mississippi pursuant to the amended agreement from October 15, 1963, to April 16, 1964, and the sale and delivery of 1,000 Mcf of natural gas per day from April 16, 1964, until May 1, 1964, at the price of 26 cents per Mcf at 14.73 psia. The application states that Mississippi urgently needs this additional gas for the coming heating season. It further states that Mississippi cannot replace this purchase with a like purchase at a similar price of 26 cents per Mcf.

Protests, petitions to intervene or requests for hearing in this proceeding may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 5, 1963.

GORDON M. GRANT,
Acting Secretary.

[Docket No. CP63-297]

EL PASO NATURAL GAS CO.

Notice of Application and Date of Hearing

AUGUST 9, 1963.

Take notice that on May 6, 1963, as supplemented on July 8, 1963, El Paso Natural Gas Company (applicant) filed in Docket No. CP63-297 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the operation of certain existing facilities located in the Aneth Field Area, San Juan County, Utah; the sale and delivery of natural gas to the Navajo Tribe for resale and distribution; and the transportation of natural gas for Texas-New Mexico Pipe Line Company (TNM), Texaco, Inc. (Texaco), and Shell Oil Company (Shell), all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that Applicant has heretofore constructed a combination 2⅜" O.D. and 6⅝" O.D. pipeline, and related facilities, extending from its Aneth Gasoline Plant a distance of 1.51 miles to the Montezuma School for the purpose of making Aneth residue gas available to the school. In the absence of an available distributor, Applicant initiated deliveries of gas to the Montezuma School. Applicant alleges that at the time of initiation of such deliveries this activity and the facilities used therefor were of intrastate character. The application further states that, subsequent to the initiation of said deliveries, Colorado-produced gas was for the first time introduced into Applicant's Aneth gathering system, and as a result thereof the character of the gas stream emanating from the Aneth Plant was changed from intrastate to interstate, and that the foregoing facilities are now used for the transportation of natural gas in interstate commerce. Applicant has now entered into a Service Agreement with the Navajo tribe whereby the Navajo tribe will provide natural gas service to the San Juan County, Utah school board for the Montezuma School.

The application further states that Applicant agreed to return up to 1,000 Mcf of residue gas per day to Texaco for its own use in the development and operation of its Aneth Area production properties, and to return up to 40 Mcf of residue gas per day to Shell for use by Four Corners Pipe Line Company (Four Corners) as fuel in the operation of Four Corners' Aneth Pumping Station. Additionally, Applicant agreed to transport the foregoing quantities of gas from its Aneth Plant to points of delivery for TNM, Texaco and Shell.

In order to enable the transportation of Aneth residue gas for TNM, Texaco and Shell, Applicant constructed a 0.33 mile 2⅜" O.D. pipeline extending from a point of connection to the above-described Aneth-Montezuma School pipeline to the Aneth Pumping Station of TNM, together with three measuring and regulating stations located at or near the terminus thereof. Due to the introduction of Colorado-produced gas into the Aneth gathering system, these facilities are likewise now utilized for the transportation of natural gas in interstate commerce.

The total cost of the above-described facilities, including a package dehydration unit located on the pipeline extending to the Montezuma School, is $42,794.81, of which amount TNM contributed $4,106.20.

Applicant proposes to provide resale natural gas service to the Navajo Tribe in accordance with the rates contained in Applicant's Rate Schedule B-3, FPC Gas Tariff, Original Volume No. 1, as amended to make the availability thereof applicable to San Juan County, Utah, and to provide transportation service for TNM, Texaco, and Shell in accordance with rates contained in proposed special Rate Schedules X-14, X-15, and X-16 respectively.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held on September 16, 1963, at 9:30 a.m., e.d.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Acting Secretary.

The Commission's said order (A) of January 25, 1962, authorized Trunkline to construct and operate approximately 491 feet of 4-inch O.D. pipeline and a metering station to interconnect its facilities with the pipeline facilities of Texas Eastern Transmission Corporation (Texas Eastern) and to sell and deliver a maximum of 30,000 Mcf of natural gas per day to Texas Eastern until July 1, 1962.

The Commission's said order (B) of January 25, 1962, authorized Texas Eastern to construct and operate a main line tap and related facilities on its 30-inch McAllen-Vidor pipeline in Hidalgo County, Texas, in order to receive said short-term supply of gas from Trunkline until July 1, 1962.

On June 19, 1962, Trunkline filed a motion to amend said order so as to permit the continuation of the sales of natural gas and operation of the facilities authorized by said order until July 1, 1963. Notice of said motion to amend was issued on August 3, 1962. On August 20, 1962, the Public Service Commission of the State of New York filed notice of intervention.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70–4159]

THE MANUFACTURERS LIGHT AND HEAT CO.

Notice of Proposed Acquisition of Utility Assets

AUGUST 12, 1963.

Notice is hereby given that The Manufacturers Light and Heat Company ("Manufacturers"), 800 Union Trust Building, Pittsburgh 19, Pennsylvania, a gas utility company and a subsidiary company of The Columbia Gas System, Inc. ("Columbia"), a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 9 and 10 of the Act as applicable to the proposed transaction. All interested persons are referred to the application, on file at the office of the Commission, for a statement of the transaction therein proposed which is summarized below.

Manufacturers proposes to acquire from Taylorstown Natural Gas Company ("Taylorstown") a nonaffiliated company, the following described properties: (a) Two oil and gas leases situated in Donegal and Blaine Townships, Washington County, Pennsylvania, covering approximately 248 acres, and (b) three producing gas wells situated on the leasehold acreage, including the casing, tubing, fittings, and other equipment appurtenant to the three wells.

Manufacturers has agreed to pay Taylorstown a total consideration of $119,000 for the above-described properties, of which approximately $28,000 is applicable to the three producing gas wells and appurtenant equipment. The $28,000 represents the net original cost of the wells and appurtenant equipment on the books of Taylorstown and is subject to adjustments as of the date of closing. The balance of approximately $91,000 is applicable to the two oil and gas leases and the gas reserves underlying the leasehold acreage, estimated by Manufacturers' geologists and engineers to amount to approximately 225,000 Mcf. It is stated that the total consideration of $119,000 to be paid by Manufacturers was agreed upon after extensive arm's-length bargaining.

Manufacturers states it desires to acquire these properties because the acreage covered by the two oil and gas leases is adjacent to Manufacturers' Donegal storage field, situated in Washington County, Pennsylvania, and it is believed the acquisition of the oil and gas leases will enable Manufacturers to eliminate losses due to the migration of gas from said storage field to the wells being acquired.

The sale by Taylorstown of the assets to Manufacturers has been approved by the Pennsylvania Public Utility Commission. Expenses of Columbia and Manufacturers in connection with the proposed transaction total $1,150, including counsel fees of $1,000.

Notice is further given that any interested person may, not later than September 4, 1963, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed contemporaneously with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate.

For the Commission (pursuant to delegated authority).

NELLYE A. THORSEN,
Assistant Secretary.

PUBLIC PAPERS OF THE PRESIDENTS OF THE UNITED STATES

John F. Kennedy, 1962

Contains verbatim transcripts of the President's news conferences and speeches and full texts of messages to Congress and other materials released by the White House during the period January 1–December 31, 1962.

Among the 557 items in the book are: special messages to the Congress on education, national health needs, and foreign aid; reports to the American people concerning the state of the national economy, nuclear testing and disarmament, and the Cuban crisis; joint statements with leaders of foreign governments; and a special interview with representatives of the radio and television networks in which the President reviewed some of the highlights of his first 2 years in office.

A valuable reference source for scholars, reporters of current affairs and the events of history, historians, librarians, and Government officials.
