federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

EXECUTIVE ORDER 11806

Amending Executive Order No. 11763 of January 17, 1974, To Extend the Life of the National Commission for the Observance of World Population Year

By virtue of the authority vested in me as President of the United States by the Constitution and statutes of the United States, it is hereby ordered as follows:

Section 2(e) of Executive Order No. 11763 of January 17, 1974 (39 F.R. 2349), is revised to read in its entirety as follows:

"(e) The Commission shall conclude its work and make a report to the President not later than June 30, 1975, at which time the Commission shall be deemed to be terminated."

Gerald R. Ford

THE WHITE HOUSE,
September 25, 1974.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Reg. 484]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period Sept. 27–Oct. 3, 1974. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

§ 908.784 Valencia Orange Regulation 484.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges is generally increasing. Prices f.o.b. averaged $3.80 per carton on a reported sales volume of 674 carlots last week, compared with an average f.o.b. price of $3.69 per carton and sales of 731 carlots a week earlier. Track and rolling supplies at 387 cars were up 80 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including the effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on September 24, 1974.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period September 27, 1974, through October 3, 1974, are hereby fixed as follows:

(i) District 1: 371,000 cartons;

(ii) District 2: 329,000 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674))

Dated: September 25, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74-22602 Filed 9-26-74;8:45 am]

[Lemon Reg. 659]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period Sept. 29–Oct. 5, 1974. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.959 Lemon Regulation 659.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of

such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is somewhat improved from last week and order business is considered seasonal because of the cooler September weather. Average f.o.b. price was $6.41 per carton the week ended September 21, 1974, compared to $6.36 per carton the previous week. Track and rolling supplies at 109 cars were down 21 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on September 24, 1974.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period September 29, 1974, through October 5, 1974, is hereby fixed at 170,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674))

Dated: September 26, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

PART 924—HANDLING OF FRESH PRUNES GROWN IN DESIGNATED COUNTIES IN WASHINGTON AND IN UMATILLA COUNTY, OREGON

Order Amending the Order Regulating Handling

Correction

In FR Doc. 74-21491, appearing at page 33305 in the issue for Tuesday, September 17, 1974, the headings should read as set forth above.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Price Support Regs. Amdt. 7]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—General Regulations Governing Price Support for the 1970 and Subsequent Crops

PROGRAM AVAILABILITY, DISBURSEMENT, AND MATURITY OF LOANS

The regulations issued by the Commodity Credit Corporation (CCC) published at 35 FR 7363 and 7781, as amended, containing the General Regulations Governing Price Support for the 1970 and Subsequent Crops of Grain and Similarly Handled Commodities are hereby amended as follows:

Paragraph (a) of § 1421.6 is amended to provide that an approved cooperative marketing association can request price support through a servicing bank approved by CCC. Paragraph (b) is amended to provide that disbursement of loans can be made by approved servicing banks to approved cooperative marketing associations. The amended paragraphs read as follows:

§ 1421.6 Program availability, disbursement, and maturity of loans.

(a) *Where to request price support.* A producer should request price support at the local county ASCS office. An approved cooperative marketing association must request price support at a servicing bank approved by CCC or at the county ASCS office for the county in which the principal office of the cooperative is located unless the State ASC committee designates some other county ASCS office.

(b) *Disbursement of loans.* Disbursement of loans will be made by county ASCS offices by drafts drawn on CCC or by credit to the producer's account, except that loans may be disbursed by approved servicing banks to approved cooperative marketing associations. The loan documents shall not be presented for disbursement unless the commodity covered by the mortgage or pledge is in existence and in good condition. If the commodity was not in existence and in good condition at the time of disbursement, the total amount disbursed under the loan shall be refunded promptly.

* * * * *

Since farm-stored loans are now being made on the 1974 crop and the provisions of the amendment are needed to carry out the loan program more effectively, compliance with the notice of proposed rulemaking procedure would be impracticable and contrary to the public interest. Therefore, this amendment is issued without compliance with such procedure.

(Secs. 4 and 5, 62 Stat. 1070, as amended; secs. 101, 105, 107, 301, 401, 405, 63 Stat. 1051, as amended; 15 U.S.C. 714 b and c; 7 U.S.C. 1441, 1441 note, 1445a, 1447, 1421, 1425)

Effective date: September 27, 1974.

Signed at Washington, D.C. on September 23, 1974.

KENNETH E. FRICK,
Executive Vice President, Commodity Credit Corporation.

[FR Doc.74-22520 Filed 9-26-74;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 72—TEXAS (SPLENETIC) FEVER IN CATTLE

Release of Areas Quarantined

This amendment excludes certain portions of Duval, Webb, Kleberg, McMullen, Nueces, Live Oak, and Jim Wells Counties in Texas from the areas quarantined because of splenetic or tick fever. Therefore, the regulations pertaining to the interstate movement of cattle and certain materials from quarantined areas as contained in 9 CFR Part 72, as amended, will not apply to the excluded areas, but the restrictions in Part 72 pertaining to interstate movement from nonquarantined areas will apply to the excluded areas.

Accordingly, § 72.5 of Part 72, Title 9, Code of Federal Regulations, as amended, which quarantines certain portions of Texas because of splenetic or tick fever in cattle, a contagious, infectious, and communicable disease, is hereby amended in the following respects:

In § 72.5, paragraph (i) is amended and new paragraph (k) is added to read as follows:

§ 72.5 Areas quarantined in Texas.

* * * * *

(i) That portion of Jim Wells and Kleberg Counties bounded by a line beginning at the junction of U.S. Highway 281 and Farm Road 2295 in Jim Wells County, approximately 14 miles south of Alice, Texas; thence, following Farm Road 2295 in a westerly direction to County Road 106, approximately 6.6 miles; thence, following the meanderings of County Road 106 through the Settlement of Palito Blanco in a northerly direction, approximately 7.9 miles, then in an easterly direction to County Road 138, approximately 6 miles; thence, following County Road 138 in a northerly direction to County Road 132, approximately 1 miles; thence, following County Road 132 in an easterly direction to County Road 132–A, approximately 1½ miles; thence, following County Road 132–A in a northerly direction to Farm Road 625, approximately 1.8 miles; thence, following Farm Road 625 in an easterly direction to U.S. Highway 281, approximately 1.8 miles; thence, following U.S. Highway 281 in a northerly direction to Farm Road 1930, approximately 0.8 miles; thence, following Farm Road 1930 in an easterly direction to Farm Road 1352, approximately 2½ miles; thence, following Farm Road 1352 in a northwesterly direction to Boggan Road, approximately 1½ miles; thence, following Boggan Road in an easterly direction for approximately 1 mile, then in a northerly direction for approximately 1.2 miles to Farm Road 665; thence, following the meanderings of Farm Road 665 in an easterly direction to the Jim Wells-Nueces County line, approximately 6.2 miles; thence following the Jim Wells-Nueces County line in a southerly direction to the Jim Wells-Kleberg County line, approximately 6 miles; thence, following the east fence of the King Ranch Gato Pasture in a southerly direction into Kleberg County to the southeast corner of the King Ranch Gato Pasture, approximately 1 mile; thence, following the south fence of the King Ranch Gato Pasture in a northwesterly direction to the east fence of the King Ranch Partidas Trap, approximately 1 mile; thence, following the east fence of the King Ranch Partidas Trap in a southerly direction to the southeast corner of the same, approximately ½ mile; thence, following the south fence of the King Ranch Partidas Trap in a westerly direction to the southwest corner of the same, approximately 3 miles; thence, following the west fence of the King Ranch Partidas Trap in a northerly direction to the Kleberg-Jim Wells County line, approximately 1¼ miles; thence, following the Kleberg-Jim Wells County line in a westerly direction approximately 4 miles, then in a southerly direction to the north fence of the King Ranch North Motas Negras Pasture, approximately 1 mile; thence, following the north fence of the King Ranch North Motas Negras Pasture in a westerly direction to U.S. Highway 281, approximately 2 miles; thence, following U.S. Highway 281 in a southerly direction to its junction with Farm Road 2295, approximately 4½ miles in Jim Wells County.

* * * * *

(k) That portion of Duval County bounded by a line beginning at the junction of the west city limits of the city of San Diego, Texas, and State Highway 44; thence, following the meanderings of the west and south boundaries of the San Diego, Texas city limits to Farm Road 359, approximately 1½ miles; thence, following Farm Road 359 in a southwesterly direction to the Pin Wheel Ranch Road, approximately 8 miles; thence, following the meanderings of the Pin Wheel Ranch Road in a northwesterly direction to the J.B. Huff Ranch east fence, approximately 4½ miles; thence, following the east fence of the J.B. Huff Ranch in a northerly direction to the southeast corner of the Sam Bagnell Pasture, approximately 1.2 miles; thence, following the east fence of the Sam Bagnell Pasture in a northerly direction to the northeast corner of the same, approximately ½ mile; thence, following the north fence of the Sam Bagnell Pasture in a westerly direction to the Rosita Road, approximately 1 mile; thence, following the meanderings of the Rosita Road in a northerly direction to the south fence of the Allen Ranch, approximately 3½ miles; thence, following the south fence of the Allen Ranch in an easterly direction to the southeast corner of the same, approximately ¾ mile; thence, following the east fence of the Allen Ranch in a northerly direction to the northeast corner of the same, approximately ½ mile; thence, following the north fence of the Allen Ranch in a westerly direction to the Rosita Road, approximately ¾ mile; thence, following the Rosita Road in a northerly direction to the southeast corner of the Keith Cook Casi Nada Ranch, approximately 3 miles; thence, following the east fence of the Keith Cook Casi Nada Ranch in a northeasterly direction to State Highway 44, approximately ¾ mile; thence, following State Highway 44 in a southeasterly direction to the west fence of the E.S. Garcia Pasture, approximately 10 miles; thence, following the west fence of the E.S. Garcia Pasture in a northerly direction to the northwest corner of the same, approximately 0.6 mile; thence, following the north fence of the E.S. Garcia Pasture in an easterly direction to the northeast corner of the same, approximately 1 mile; thence, following the west fence of the Jack Butler West Dump Ground Pasture in a northerly direction to the Seven Sisters Road, approximately 0.2 mile; thence, following the Seven Sisters Road in a southeasterly direction to the northwest corner of the city limits of San Diego, Texas approximately 0.8 mile; thence, following the west city limits of the city of San Diego, Texas in a southerly direction to its junction with State Highway 44, approximately ½ mile.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264–1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 115, 117, 120, 123–126, 134b, 134f; 37 FR 28464, 28477; 38 FR 19141)

Effective date. The foregoing amendment shall become effective September 24, 1974.

The amendment relieves certain restrictions no longer deemed necessary to prevent the spread of splenetic or tick fever and should be made effective promptly to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 24th day of September 1974.

J. M. HEJL,
Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.74–22519 Filed 9–26–74;8:45 am]

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Weekly Petroleum Reporting System

On August 29, 1974, the Federal Energy Administration issued a notice of proposed rulemaking (39 FR 31920, September 3, 1974) to amend § 211.224 of the Mandatory Petroleum Allocation Regulations to modify the definitions of "Crude oil pipeline" and "Petroleum products pipeline" for purposes of the weekly petroleum reporting system.

The proposed amendment specified that crude oil and petroleum products contained in intrastate and intracompany pipelines, as well as interstate pipelines, must be reported to FEA under § 211.224. The proposed definitions also specifically referred to pipelines performing a trunk function, as defined in 49 CFR 1204.4–3(b), thus, requiring a report for crude oil and petroleum products contained in pipelines which transport crude oil or petroleum products "* * * from origin or receiving station to point of connection with other carriers, consignee facilities at destination, or to the discharge side of the manifold or connection to working or storage tanks at the destination station" [49 CFR 1204.4–3(b)]. Crude oil and petroleum products contained in pipelines which perform a gathering function, as defined in 49 CFR 1204.4–3(a), would not be reported under § 211.224.

The comments received with respect to the notice of proposed rulemaking were generally in favor of the proposed rulemaking, and raised no valid objections. Therefore, FEA hereby adopts the proposed amendments.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790, (39 FR 23185))

In consideration of the foregoing, Part 211 of Chapter II, Title 10 of the Code of Federal Regulations, is amended as set forth below, effective immediately.

Issued in Washington, D.C., September 23, 1974.

ROBERT E. MONTGOMERY, Jr.,
General Counsel,
Federal Energy Administration.

Section 211.224 is revised in paragraph (b) in the definitions of "Crude oil pipeline" and "Petroleum products pipeline" to read as follows:

§ 211.224 Weekly petroleum reporting system.

* * * * *

(b) *Definitions.* * * *

"Crude oil pipeline" means a pipeline which performs the trunk function as defined in 49 CFR 1204.4-3(b) and which carries crude oil, including interstate, intrastate and intracompany pipelines.

"Petroleum products pipeline" means a pipeline which performs the trunk function as defined in 49 CFR 1204.4-3 (b) and which carries petroleum products, including interstate, intrastate and intracompany pipelines.

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER B—FEDERAL HOME LOAN BANK SYSTEM

[No. 74-938]

PART 526—LIMITATIONS ON RATE OF RETURN

Governmental Unit Ownership of Transaction Accounts

SEPTEMBER 13, 1974.

The following summary of the amendments adopted by this resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to specific provisions of the regulations.

A. *Existing Regulations*—Member institutions in New Hampshire and Massachusetts could issue NOW accounts to governmental units.

B. *Amended Regulations*—Effective October 29, 1974, such member institutions will not be permitted to issue NOW accounts to governmental units.

The Federal Home Loan Bank Board considers it desirable to amend §§ 526.1 and 526.8 of the rules and regulations for the Federal Home Loan Bank System (12 CFR 526.1 and 526.8) for the purpose of prohibiting member institutions from accepting transaction accounts from certain governmental units, such as cities and townships.

Section 2(a) of Public Law No. 93-100 of August 16, 1973, 87 Stat. 342, provides that "No depository institution [as defined in section 2(b)] shall allow the owner of a deposit or account on which interest or dividends are paid to make withdrawals by negotiable or transferable instruments for the purpose of making transfers to third parties, except that such withdrawals may be made in the States of Massachusetts and New Hampshire".

By Resolution No. 73-1808, of December 7, 1973 (38 FR 34458), the Board adopted final amendments to Part 526 of the regulations for the Federal Home Loan Bank System (12 CFR Part 526) relating to the issuance and payment of interest or dividends on transaction accounts (NOW accounts) by member institutions having their home offices in New Hampshire and Massachusetts. Present § 526.8(d) contains a limitation on owners of transaction accounts as follows: "Transaction accounts, or the entire beneficial interest therein, issued by such a member institution may not be owned by a corporation or business trust which is operated for profit".

By Resolution No. 74-179, of March 7, 1974 the Board proposed certain amendments to Part 526 of the Regulations for the Federal Home Loan Bank System (12 CFR Part 526) which would have had a principal effect of prohibiting member institutions from permitting certain governmental units to own transactions accounts. Notice of such proposed rule making was duly published in the FEDERAL REGISTER on March 13, 1974 (39 FR 9677), with invitation for interested persons to submit comments by April 15, 1974.

Upon consideration of all relevant material presented by interested persons and otherwise available, the Board considers it desirable to adopt the amendments as proposed by Resolution No. 74-179. By these amendments § 526.8(d) is revoked and the definition of transaction account as set forth in present § 526.1 (l) is revised to read as set forth below. The language of the amendment corresponds to similar restrictions imposed by the Federal Reserve Board and the Federal Deposit Insurance Corporation on ownership of NOW accounts. (Cf., 12 CFR Parts 217, 329.) The Board views these amendments as involving present public policy considerations rather than any question as to the Board's legal authority to permit the ownership of transaction accounts by governmental units.

Accordingly, the Federal Home Loan Bank Board hereby amended § 526.(1) to read as set forth below, and hereby revokes § 526.8(d), both effective October 29, 1974.

§ 526.1 Definitions.

As used in this Part 526—

* * * * *

(l) *Transaction account.* The term "transaction account" means a "regular account," as that term is defined in paragraph (d) of this section, of a member institution upon which the owner is allowed to make withdrawals by negotiable or transferable instruments for the purpose of making transfers to third parties and which consists of funds deposited to the credit of, or the entire beneficial interest is held by, one or more individuals or of a corporation, association, or other organization operated primarily for religious, philanthropic, charitable, educational, fraternal, or other similar purposes and not operated for profit.

§ 526.8 Transaction accounts.

* * * * *

(d) [Revoked; effective October 29, 1974]

* * * * *

(Sec. 5B, 47 Stat. 727, as added by sec. 4, 80 Stat. 824, as amended by Public Law 91-151, sec. 2(b), 83 Stat. 371; sec. 17, 47 Stat. 736, as amended; 12 U.S.C. 1425b, 1437. Sec. 2, Public Law 93-100. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, Jr.,
Assistant Secretary.

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 74-940]

PART 545—OPERATIONS

Applications by Federal Savings and Loan Associations for Branch Offices, Mobile Facilities or Satellite Offices

SEPTEMBER 13, 1974.

By Resolution No. 74-419, dated May 13, 1974, the Federal Home Loan Bank Board proposed to amend Part 545 of the rules and regulations for the Federal Savings and Loan System (12 CFR Part 545) by liberalizing certain sections thereof which limit the number of applications by the same Federal savings and loan association for permission to establish branch offices, mobile facilities or satellite offices that the Board will consider and process at the same time. Notice of such proposed rulemaking was duly published in the FEDERAL REGISTER on May 20, 1974 (39 FR 17769), with an invitation for interested persons to submit written comments by June 19, 1974. On the basis of its consideration of all relevant material presented by interested persons and otherwise available, the Board hereby amends Part 545 by revising §§ 545.14(b)(1)(i), 545.14-4(b)(4), and 545.14-5(c)(5) thereof to read as set forth below, effective September 27, 1974.

Since the above amendments relieve restrictions, publication of said amendments for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of the amendments is unnecessary; and the Board hereby provides that said amendments shall become effective as hereinbefore set forth.

OUTLINE AND SUMMARY

This outline and summary is provided for the reader's convenience and is subject to the full provisions of this resolution, including the provisions in the pre-

amble thereof and in the amended regulations set forth below.

I. EXISTING REGULATIONS

A. Only one pending application is permitted to be on file at the same time (excluding any application for a branch office or limited facility branch office on file for more than 4 months) for each of the following: a branch office, limited facility branch office or mobile facility. Only two pending applications are permitted for satellite offices.

B. Exception: Multiple applications are permitted to the extent that State authorities permit State-chartered thrift institutions or commercial banks to file multiple applications.

II. PROPOSED REGULATIONS

Add exception to existing regulations permitting multiple applications for office facilities to the extent that bank or savings and loan holding companies respectively in a State are permitted to file multiple applications to acquire banks or savings and loan associations.

III. FINAL REGULATIONS

Same as proposed regulations, except that the triggering of the permission to file multiple applications because certain bank or savings and loan holding companies can file multiple applications has been revised to limit such permission to situations where such holding companies respectively acquire de novo bank or savings and loan charters or bank or savings and loan subsidiaries of such holding companies establish de novo branch offices.

IV. REASONS FOR CHANGING THE REGULATIONS

Remove competitive disadvantage of Federal associations vis-a-vis bank or savings and loan holding companies.

Under the regulations in effect prior to the above amendments, the Board would consider and process at the same time for the same Federal association only one application for permission to establish branch offices, limited facility branch offices or mobile facilities, or only two applications for permission to establish satellite offices, except to the extent that the State authority in the State in which the applicant's home office is located considers and processes at the same time multiple applications of the same savings and loan asociation, savings bank or similar institution, or commercial bank of such State. The proposed amendments included additional provisions to the effect that the Board would consider and process multiple applications for such office facilities to the extent that savings and loan or bank holding companies, respectively, in the State where the applicant's home office is located, are permitted to have on file at the same time multiple applications to acquire existing or de novo thrift institutions or commercial banks, respectively, in such State. The final regulations trigger the permission to file multiple applications only to the extent that such holding companies can file multiple applications to acquire de novo bank or savings and loan charters or bank or savings and loan subsidiaries of such holding companies can file multiple applications to establish de novo branch offices.

The following is the text of the amended sections:

§ 545.14 Branch office.

* * * * *

(b) *Eligibility.* (1) Except as provided in paragraph (b)(2) of this section, a Federal association shall be eligible to have an application for permission to establish a branch office (including an application for a limited facility branch office) considered and processed only if, at the date on which such application is filed with the Board:

(i) The association does not have on file with the Board any other such application, excluding any application as to which more than 4 months have elapsed since the date of publication of notice thereof; except that the limitations of this subdivision (i) shall not prohibit the consideration and processing at the same time of (*a*) both an application in which the applicant proposes, under the provisions of paragraph (j)(1) of this section, that the office applied for be a limited facility branch office and an application in which it does not so propose or (*b*) more than one branch office or more than one limited facility branch office application of the same association to the extent that the appropriate State authority of the State in which the applicant's home office is located considers and processes at the same time (*1*) more than one branch office application or more than one limited facility branch office application of the same savings and loan association, savings bank or similar institution or commercial bank of such State, (*2*) more than one application of the same savings and loan or bank holding company to acquire de novo charters of savings and loan associations or similar institutions or commercial banks, respectively, which will have their home offices in such State, or (*3*) more than one application of savings and loan subsidiaries or bank subsidiaries controlled by the same savings and loan or bank holding company, respectively, to establish de novo branch offices or limited facilities branch offices in such State.

* * * * *

§ 545.14–4 Mobile facility.

* * * * *

(b) *Eligibility.* No application for permission to establish a mobile facility by a Federal association shall be considered or processed, except to determine the association's eligibility under the provisions of this paragraph (b), if, at the date on which such application is filed with the Board:

* * * * *

(4) The association has on file any other application for permission to establish a mobile facility with respect to which action by the Board is pending, except that the association may have on file more than one mobile facility application to the extent that the appropriate State authority of the State in which the applicant's home office is located permits to be on file at the same time (i) more than one mobile facility application of the same savings and loan association, savings bank or similar institution or commercial bank of such State, (ii) more than one application of the same savings and loan or bank holding company to acquire de novo charters of savings and loan associations or similar institutions or commercial banks, respectively, which will have their home offices in such State, or (iii) more than one application of savings and loan subsidiaries or bank subsidiaries controlled by the same savings and loan or bank holding company, respectively, to establish de novo branch offices or limited facilities branch offices in such State.

* * * * *

§ 545.14–5 Satellite office.

* * * * *

(c) *Specific provisions.* Each application for permission to establish a satellite office will be considered or processed pursuant to the provisions of this section. Approval of such an application pursuant to this section will be subject to the following provisions and any other conditions, requirements, and limitations the Board may specify in a particular case:

* * * * *

(5) A Federal association may not operate more than 5 satellite offices at any one time, and may not file applications for more than 2 such offices in any 12-month period, except that a Federal association may file in the same 12-month period more than two satellite office applications to the extent that the appropriate State authority of the State in which the applicant's home office is located permits to be on file at the same time (i) more than 2 satellite office applications of the same savings and loan association, savings bank or similar institution or commercial bank of such State, (ii) more than 2 applications of the same savings and loan or bank holding company to acquire de novo charters of savings and loan associations or similar institutions or commercial banks, respectively, which will have their home offices in such State, or (iii) more than 2 applications of savings and loan subsidiaries or bank subsidiaries controlled by the same savings and loan or bank holding company, respectively, to establish de novo branch offices, limited facilities branch offices, or satellite offices in such State.

* * * * *

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

[No. 74-939]

PART 556—STATEMENTS OF POLICY

Locating Branch Offices and Mobile Facilities More Than 100 Miles From Home Office

SUMMARY

SEPTEMBER 13, 1974.

The following summary of the amendments adopted by this resolution is provided for the reader's convenience and is subject to the full provisions of this resolution, including the provisions in the preamble thereof and in the amended regulations set forth below.

I. REGULATIONS PRIOR TO PRESENT AMENDMENTS

A. The Board's general policy is to consider an application for a branch office or mobile facility only if the office or facility will be located not more than 100 miles from the applicant's home office.

B. Under the regulations in effect prior to the present amendments, the Board excepted applications for branch offices and mobile facilities from the above-mentioned 100-mile limitation if:

(a) the Board has determined that the State in which the Federal association's home office is located permits its State-chartered savings and loan associations, savings banks or commercial banks to establish offices beyond 100 miles from their home offices.

(b) the association's home office is located in Alaska, Hawaii, or Puerto Rico;

(c) the facility was the home or branch office of an institution at the time the institution was acquired by merger or purchase of assets; or

(d) the branch office results from the upgrading of certain faciilties of a Federal association which has converted (or is in the process of converting) from a State-chartered association.

II. AMENDED REGULATIONS

While retaining the above list of exceptions, the present amendments add the following exceptions, thereby permitting statewide branching also in:

(a) States in which the assets of Federal associations constitute at least 90 percent of the combined assets of all Federal Savings and Loan Insurance Corporation and Federal Deposit Insurance Corporation insured thrift institutions in the State;

(b) States which permit a bank or savings and loan holding company, respectively, to acquire a de novo charter of a commercial bank or savings and loan with a home office located more than 100 miles from the holding company's corporate headquarters in the State;

(c) States which permit a subsidiary bank of a bank holding company or a subsidiary savings and loan association of a savings and loan holding company, to establish de novo branch offices or mobile facilities located more than 100 miles from the holding company's corporate headquarters in the State; or

(d) the Virgin Islands.

III. REASONS FOR CHANGING THE REGULATIONS

(a) In States in which Federal associations represent at least 90 percent of the assets of the FSLIC and FDIC insured thrift institutions, the Board's policy favoring State-wide branching should prevail as to Federal associations even though the State policy (which would apply to only a small portion of the thrift institutions) may be more restrictive.

(b) The principal purpose of the amendments relating to holding companies is to recognize that while some States do not allow banks and State-chartered thrift institutions to branch statewide directly, such States permit such branching indirectly through the use of holding companies. Federal associations should not be placed at a competitive disadvantage to bank or savings and loan holding companies (or their subsidiaries) merely for the reason that the mutual form of organization of Federal associations prohibits Federal associations from branching statewide via a holding company. In such States, the amendments provide that the Board will not apply to Federal associations the 100-mile limitation.

By Resolution No. 74-571, dated June 5, 1974, the Federal Home Loan Bank Board proposed to amend Part 556 of the rules and regulations for the Federal Savings and Loan System (12 CFR Part 556) by adding several additional exceptions to the Board's general policy of not accepting applications of Federal savings and loan associations for the establishment or maintenance of branch offices and mobile facilities located more than 100 miles from the applicant association's home office. Notice of such proposed amendments was duly published in the FEDERAL REGISTER on June 21, 1974 (39 FR 22285), with an invitation for interested persons to submit written comments by July 15, 1974.

On the basis of its consideration of all relevant material presented by interested persons and otherwise available, the Board hereby amends said Part 556 by revising § 556.5(b)(3) thereof to read as set forth below, effective September 27, 1974.

Subdivisions (*a*) and (*b*) of § 556.5(b)(3) as hereby amended are the same as said subdivisions in said proposal. Subdivision (c) of § 556.5(b)(3) as hereby amended differs from said subdivision in the proposal as follows:

1. Sudivision (*1*) of said subdivision (c) as proposed provided that the Board would consider permitting statewide branching in a State which as a general policy permits a bank holding company to acquire de novo charters of FDIC-insured banks located more than 100 miles from the corporate headquarters of the holding company. Said subdivision (*1*) as hereby amended deletes the reference to the FDIC insurance and retains the above provision. Also, said subdivision (*1*) as hereby amended adds a provision to the effect that the Board will also consider permitting statewide branching in a State which as a general policy permits a savings and loan holding company to acquire de novo charters of savings and loan associations.

2. Subdivision (2) of said subdivision (c) as proposed provided that said subdivision (2) applied only with respect to FDIC-insured subsidiaries of a bank holding company or to FSLIC-insured subsidiaries of a savings and loan holding company. Said subdivision (2) as hereby amended deletes the references to FDIC and FSLIC insurance.

Since the above amendments affect a statement of policy, publication of said amendments for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of the amendments is unnecessary; and the Board hereby provides that said amendments shall become effective as hereinbefore set forth.

The following is the text of the amended § 556.5(b)(3):

§ 556.5 Establishment of Federal savings and loan associations and branch office and mobile facilities of such associations.

* * * * *

(b) *Policy on approval of branch office and mobile facilities.* * * *

(3) It is the Board's general policy to consider an application by such an association for permission to establish or maintain a branch office or mobile facility only when the proposed branch office or mobile facility is to be located within 100 miles of the association's home office unless (i) the association's home office is located in Alaska, Hawaii, Puerto Rico, or the Virgin Islands, (ii) such application is for permission to maintain, as a branch office, an existing home or branch office of an institution which is to be absorbed by merger or other approved acquisition, or (iii) such application is by a Federal association which has converted (or is in the process of converting) from a State-chartered association for permission to upgrade an office facility, which is located outside the State in which the applicant's home office is located but inside the applicant's regular lending area as prescribed in § 545.6-6 of this subchapter, to the status of a branch office located at or in the same vicinity as such existing office facility is located. However, the Board may permit consideration of applications for permission to establish branch offices or mobile facilities in a State without regard to the 100-mile geographical limitation contained in the preceding sentence if the Board determines that:

(*a*) Such State permits State-chartered savings and loan associations, saving banks, or similar institutions or commercial banks to establish branch offices or mobile facilities beyond 100 miles from their home offices;

(*b*) The total assets of Federal associations with home offices located in such State are 90 percent or more of the combined assets of all offices in such State of institutions insured by the Federal Savings and Loan Insurance Corporation and mutual savings banks in-

sured by the Federal Deposit Insurance Corporation; or

(c) Such State as a general policy permits (*1*) a bank holding company or a savings and loan holding company, respectively, through acquisition of a de novo charter to have an office of a subsidiary bank or savings and loan association located more than 100 miles from the corporate headquarters of the holding company located in such State or (2) a subsidiary bank or savings and loan association of a bank holding company or a savings and loan holding company, respectively, to establish de novo branch offices or mobile facilities more than 100 miles from the corporate headquarters of such holding company located in such State.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 74–WE–5–AD; Amdt. 39–1977]

PART 39—AIRWORTHINESS DIRECTIVES

Various Piper PA–23 Series Airplanes

Amendment 39–1799 (39 FR 9650) AD 74–06–01, requires improved engine compartment drainage and firewall integrity, and additional fire protection of the turbosupercharger oil tanks on Piper Models PA–23–235, PA–23–250 and PA–E23–250 airplanes with AiResearch turbosuperchargers installed in accordance with STC SA852WE, SA909WE or SA978WE, or installed in accordance with Piper Aircraft Corporation Drawing 32016.

By letter dated September 5, 1974, the AiResearch Aviation Company advised the agency that it is unable to provide prompt delivery of modified turbosupercharger oil tanks ordered to comply with the schedule set forth in paragraph (b) of the AD. The modified tanks specified in paragraph (b) of the AD are identical to the originally installed tanks except that the modified tanks are further processed to provide additional fire protection. The manufacturer fabricated fifty new tanks as the basis for a rotatable pool of tanks which was to be maintained by processing tanks removed from other aircraft in compliance with paragraph (b) of the AD. The distribution of modified tanks and return of originally installed tanks has been handled primarily through aircraft distributorships. The manufacturer agreed with operators to forward modified tanks from the rotatable pool prior to the return of the originally installed tanks; however, it has been unable to recover the originally installed tanks from the operators to maintain the pool. The manufacturer requested agency consideration for an extension of compliance time of the AD within which it could supply the operators with the modified tanks. This request does not affect the airscoop drainage provisions compliance time for those airplanes specified in paragraph (a).

The agency has not received any additional reports of adverse service experience since the original report referenced in the preamble to the adoption of Amendment 39–1799, AD 74–06–01. The AD is being amended to provide for additional compliance time for those aircraft specified in paragraph (b). The relief provided is retroactive to September 14, 1974, to authorize aircraft operations pursuant to Parts 39 and 91 of the Federal Aviation regulations after that date.

Since this amendment relieves a restriction and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of the Federal Aviation regulations, Amendment 39–1799 (39 FR 9650), AD 74–06–01, is amended as follows:

(1) Amend the first sentence of paragraph (b) to read: "Within the next 600 hours' time in service or 365 days after March 18, 1974, whichever occurs first:" Subparagraphs (b)(1) and (b)(2) remain unchanged.

(2) Insert a second Note at the end of the AD to read:

NOTE: The extended compliance time authorized by this amendment to AD 74–06–01, as set forth in (b) above, shall be retroactive to September 14, 1974, to permit aircraft operations beyond 180 days after March 18, 1974.

This amendment becomes effective October 2, 1974.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, California on September 18, 1974.

ROBERT O. BLANCHARD,
Acting Director,
FAA Western Region.

[FR Doc.74–22479 Filed 9–26–74;8:45 am]

[Docket No. 74–NE–34; Amdt. 39–1978]

PART 39—AIRWORTHINESS DIRECTIVES

Sikorsky S–61L and S–61N Type Helicopters Certificated in All Categories

Amendment 39–1167 (36 FR 4689), AD 71–6–2, as amended by Amendment 39–1271 (36 FR 16186), and Amendment 39–1948 established a schedule of replacement times for components on S–61L and S–61N type helicopters certified in all categories. After issuing Amendment 39–1948, it was noticed that, with the issuance of the latest amendment, the phrase in paragraph (a) referring to "the effective date of this revision to this AD" is no longer correct. Therefore, the AD is being further amended to substitute the actual effective date for this phrase.

Since this amendment provides a correction only, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of the Federal Aviation regulations, Amendment 39–1167 (36 FR 4689), AD 71–6–2, as amended by Amendment 39–1271 (36 FR 16186), and Amendment 39–1948 (39–31626), is further amended as follows:

(1) By striking out the words "the effective date of this revision to this AD" from paragraph (a) and inserting in its place the date: August 26, 1971.

This amendment becomes effective October 9, 1974.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Burlington, Massachusetts, on September 18, 1974.

FERRIS J. HOWLAND,
Director, New England Region.

[FR Doc.74–22478 Filed 9–26–74;8:45 am]

[Airspace Docket No. 74–EA–41]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area and Revocation of Transition Area

Correction

In FR Doc. 74–21375 appearing on page 33310 in the issue of Tuesday, September 17, 1974, make the following changes:

1. In § 71.181, column 2, the 2nd word in the 13th line from the bottom should read: "extending".

2. Also in § 71.181, column 3, line 18 should read as follows: "* * * point 40°05'06" N., 75°21'24" W., extending * * *"

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 74–248]

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

Yachts of the Federal Republic of Germany

The Department of State advised the Department of the Treasury on May 6, 1974, that yachts of the United States are permitted to cruise in the territorial waters of the Federal Republic of Germany, without entering or clearing and without the payment of any charges

for entering or clearing, dues, duty per ton, tonnage taxes, or charges for cruising licenses.

Pursuant to section 5 of the Act of May 28, 1908, as amended (sec. 5, 35 Stat. 425, as amended; 46 U.S.C. 104), following a finding by the Secretary of the Treasury that a foreign nation has granted the above-described exemptions to yachts of the United States, the Commissioner of Customs may issue cruising licenses to yachts of that nation.

It has been established to the satisfaction of the Secretary of the Treasury that yachts of the United States are granted the above-described privileges by the Federal Republic of Germany.

Accordingly, § 4.94(b) of the Customs regulations is amended by the insertion of "Germany, Federal Republic of" after "Canada" in the list of countries granting the previously-described reciprocal privileges to yachts of the United States. Yachts of the foreign countries listed in § 4.94(b) may, upon application, be issued cruising licenses by the Commissioner of Customs.

(Sec. 3, 23 Stat. 119, as amended, sec. 5, 35 Stat. 425, as amended (5 U.S.C. 301, 46 U.S.C. 3, 104))

There is statutory authority for this exemption after a finding has been made that such reciprocity exists. Therefore, good cause exists for dispensing with notice and public procedure thereon as unnecessary, and good cause is found for the amendment to become effective at the earliest date possible under 5 U.S.C. 553.

Effective date. This amendment shall become effective September 27, 1974.

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

Approved: September 18, 1974.

JAMES B. CLAWSON,
Assistant Secretary of the Treasury.

[FR Doc. 74-22541 Filed 9-26-74;8:45 am]

[T.D. 74-252]

PART 12—SPECIAL CLASSES OF MERCHANDISE

Imports and Exports Under the International Coffee Agreement

On April 14, 1973, the International Coffee Council adopted Resolution Number 264 extending the International Coffee Agreement through September 30, 1975. In addition, the Resolution deleted some of the provisions of the Agreement. As a result of these deletions, the United States Customs Service was, as of October 1, 1973, relieved of its responsibilities for (1) requiring certificates of origin, transit, and reexport; (2) issuing certificates of origin and reexport; (3) limiting imports of coffee from countries or areas not parties to the Agreement; and (4) prohibiting entry of coffee consigned directly from, diverted from or destined for any country included in Annex B of the Agreement. A number of these responsibilities of the Customs Service were set forth in §§ 12.70 and 12.71 of the Customs regulations (19 CFR 12.70, 12.71).

Accordingly, Part 12 of the Customs regulations (19 CFR Part 12) is amended by deleting §§ 12.70 and 12.71 and the centerhead to these sections.

Because this amendment merely conforms the Customs regulations to the terms of the International Coffee Agreement, notice and public procedure thereon is found to be unnecessary, and good cause exists for dispensing with a delayed effective date under the provisions of 5 U.S.C. 553.

Effective date. This amendment shall be effective on September 27, 1974.

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

Approved: September 20, 1974.

JAMES B. CLAWSON,
Acting Assistant Secretary of the Treasury.

[FR Doc.74-22537 Filed 9-26-74;8:45 am]

[T.D. 74-247]

PART 19—CUSTOMS WAREHOUSES, CONTAINER STATIONS, AND CONTROL OF MERCHANDISE THEREIN

Bonded Smelting and Refining Warehouses

On March 20, 1974, there was published in the FEDERAL REGISTER (39 FR 10436) a notice of proposed rulemaking to amend § 19.17(g) of the Customs regulations (19 CFR 19.17(g)), to provide that where two or more bonded smelting and refining warehouses are included under one blanket smelting and refining bond, the principal shall set forth the bonded charges for each plant in an overall monthly statement filed with Customs.

Interested persons were given 30 days from the date of publication of the notice of proposed rulemaking to submit relevant written data, views, or arguments regarding the proposal. One comment was received. It has been determined, after consideration of this comment, that the proposed amendment should be adopted as set forth in the notice of proposed rulemaking.

Accordingly, § 19.17(g) of the Customs regulations (19 CFR 19.17(g)) is amended as set forth below.

Effective date. This amendment shall be effective on October 29, 1974.

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

Approved: September 18, 1974.

JAMES B. CLAWSON,
Acting Assistant Secretary of the Treasury.

Paragraph (g) of § 19.17 is amended to read as follows:

§ 19.17 Application to establish warehouse; bond.

* * * * *

(g) Where two or more smelting and refining warehouses are included under one blanket smelting and refining bond, an overall statement shall be filed by the principal of the warehouses with Headquarters, United States Customs Service, and with each district director involved, by the 28th of each month, showing as of the close of the preceding month the inventory of all metals on hand at each plant covered by the blanket bond, and the bond charges at each of the plants. Each district director in whose district one or more plants are located shall be responsible for verifying the accuracy of the inventory report insofar as the amounts held at plants under his jurisdiction are concerned. All discrepancies which cannot be reconciled by the district director shall be reported immediately to Headquarters, United States Custom Service. If Headquarters finds that the aggregate quantity of dutiable metal at the several plants does not equal the quantity charged against the blanket bond, duties shall be collected for the quantity determined to be deficient.

(R.S. 251, as amended, secs. 312, 624, 46 Stat. 692, as amended, 759; 19 U.S.C. 66, 1312, 1624)

[FR Doc.74-22539 Filed 9-26-74;8:45 am]

Title 20—Employees' Benefits

CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATON, AND WELFARE

[Regs. No. 4, further amended]

PART 404—FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

Subpart K—Employment—Wages—Self-Employment—Self-Employment Income

BENEFITS IN THE CASE OF CERTAIN INDIVIDUALS INTERNED DURING WORLD WAR II

On June 3, 1974, there was published in the FEDERAL REGISTER (39 FR 19501) a notice of proposed rulemaking with a proposed amendment to Subpart K of Regulations No. 4, reflecting the provisions of section 142 of Public Law 92-603 enacted October 30, 1972, which provide for deemed wages for certain individuals who were interned during World War II.

Interested persons were given the opportunity to submit, within 30 days, data, views, or arguments with regard to the proposed amendment.

Only two letters of comment were received. One (from an individual) recommended that the amendment be expanded to provide for interest and other compensation for certain individuals who were interned during World War II. Since the Social Security Act does not provide for such and the regulations must be consistent with that Act, the recommendation cannot be adopted. The other (from an organization) commended the Department for its action in aiding Americans of Japanese ancestry who were interned in government facilities during World War II.

Accordingly, the proposed amendment is hereby adopted without change and is set forth below.

(Sections 205, 231, and 1102 of the Social Security Act, as amended, 53 Stat. 1368, as amended, 86 Stat. 1367, 49 Stat. 647, as amended; 42 U.S.C. 405, 431, and 1302)

Effective date. The amendment shall be effective on September 27, 1974.

(Catalog of Federal Domestic Assistance Program No. 13.803, Social Security—Retirement Insurance)

Dated: September 7, 1974.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: September 23, 1974.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

Subpart K, Regulations No. 4 of the Social Security Administration, as amended (20 CFR Part 404), is further amended as follows:

Section 404.1028 is added to read as follows:

§ 404.1028 Deemed wages for certain individuals interned during World War II.

(a) *In general.* Except as provided in paragraph (d) of this section, an individual who was interned during any period of time from December 7, 1941, through December 31, 1946, at a place within the United States operated by the Government of the United States for the internment of United States citizens of Japanese ancestry, is deemed to have been paid wages (in addition to the wages actually paid) as provided in paragraph (c) of this section during any period after he attained age 18 in which he was an internee. This provision is effective for determining entitlement to and the amount of any monthly benefit for months after December 1972, for determining entitlement to and the amount of any lump-sum death payment in the case of a death after such month, and for purposes of section 216(i)(3) of the Act, as amended.

(b) *Information needed to process deemed wages.* Unless the Secretary has previously made a determination concerning deemed wages for a period of internment of an individual, any person, including such individual, applying for a monthly benefit, a recalculation of such benefits by reason of this section, or a lump-sum death payment, must submit the following information before such benefit or payment may be computed on the basis of deemed wages under paragraph (a) of this section: The place where the individual worked prior to internment, his highest hourly wage prior to internment, the place and date of his internment, his date of birth (if not previously furnished), whether or not he is receiving another Federal benefit based wholly or in part upon his period of internment, and, in the case of a woman, her maiden name.

(c) *Amount of deemed wages.* The amount of wages which may be deemed under paragraph (a) of this section, in addition to wages actually paid, is determined as follows:

(1) *Where employed prior to internment.* If the individual was employed prior to the beginning of the period of internment, his deemed wages are the greater of:

(i) The highest actual hourly rate of pay received by him for any employment prior to internment multiplied by 40 for each full week during such period; or

(ii) The Federal minimum hourly rate in effect for such period multiplied by 40 for each full week during such period.

(2) *Where self-employed or not employed prior to internment.* If the individual was self-employed or was not employed prior to the beginning of the period of internment, his deemed wages are the Federal minimum hourly rate in effect for such period multiplied by 40 for each full week during such period.

(d) *When wages are not deemed.* Wages are not deemed under paragraph (a) of this section:

(1) For any period prior to the quarter in which the individual attained age 18; or

(2) Where a larger benefit or payment is payable without the deemed wage credits; or

(3) Where a benefit (other than a benefit payable in a lump sum unless it is a commutation of, or a substitute for, periodic payments), based in whole or in part upon internment as specified in paragraph (a) of this section is determined by any agency or wholly-owned instrumentality of the United States to be payable by it under any other law of the United States or under a system established by such agency or instrumentality. However, the foregoing exception to paragraph (a) of this section does not apply for purposes of section 216(i)(3) of the Act and in cases where the failure to receive deemed wages due to such exception would reduce by 50 cents or less the primary insurance amount of the individual on whose wages and self-employment income the benefit or payment is based.

(e) *Certification of internment.* The certification concerning any period of time for which an individual is to receive credit under paragraph (a) of this section is made by the Secretary of Defense or his designee. Following verification of the individual's period of internment by means of such certification, wages, as provided by this section, will be deemed to have been paid to such individual.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

ASPARTAME

Correction

In FR Doc. 74-17093 appearing at page 27317 of the issue of Friday, July 26, 1974, in § 121.1258(b)(3) the first line of the paragraph headed *"Vials"* should read "2 dram size with tetra-fluoroethylene".

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER H—RIGHT-OF-WAY AND ENVIRONMENT

PART 713—RIGHT-OF-WAY—THE PROPERTY MANAGEMENT FUNCTION

Part 713, Subchapter H, Chapter I of Title 23, Code of Federal Regulations, is revised by amending Subpart B, adding Subparts A and C and by changing the heading of the Part to read "Right-of-Way—The Property Management Function", as set forth above. Subpart A prescribes policies and procedures concerning property management and codifies material formerly contained in Policy and Procedure Memorandum 80-6.1. Subpart B deals with the management of airspace. Subpart C is concerned with the disposal of right-of-way and codifies provisions which also formerly appeared in Policy and Procedure Memorandum 80-6.1.

These regulations will be effective on the date of issuance set forth below.

Subpart A—Property Management

Sec.
713.101 Purpose.
713.102 Applicability.
713.103 Policies and procedures.

Subpart B—Management of Airspace

713.201 Purpose.
713.202 Applicability.
713.203 Definition.
713.204 Policies.
713.205 Inventory.

Subpart C—Disposal of Rights-of-Way

713.301 Purpose.
713.302 Applicability.
713.303 Definitions.
713.304 General requirements.
713.305 Application for approval.
713.306 Excess right-of-way resulting from plan changes.
713.307 Credit to Federal funds.
713.308 Uneconomic remnants.

Subpart A—Property Management

AUTHORITY: 23 U.S.C. 315; 42 U.S.C. 4633 and 4651(6); 23 CFR 1.32; and 49 CFR 1.48(b).

§ 713.101 Purpose.

This Subpart prescribes Federal Highway Administration (FHWA) policies and procedures for the management of real property acquired in connection with Federal-aid highway projects.

§ 713.102 Applicability.

The policies in § 713.103 are applicable to all State and political subdivisions thereof that manage real property acquired for any highway or highway related project in which Federal funds will participate in any part of the right-of-way costs of the project. States are encouraged to adopt these procedures for all projects in which Federal funds will participate in any part of the project. Section 713.103(b) is applicable to the greatest extent practicable under State law, to all projects in which Federal funds will participate in any part of the cost of the project.

§ 713.103 Policies and procedures.

(a) The State highway department (SHD) shall establish property management policies and procedures that will assure control and administration of lands and improvements acquired for right-of-way purposes. These procedures shall establish:

(1) Property records showing:

(i) An inventory of all improvements acquired as a part of the right-of-way;

(ii) An accounting of the property management expenses and the rental payments received; and

(iii) An accounting of the disposition of improvements and the recovery payments received.

(2) Methods for accomplishing the clearing of right-of-way when such clearance is performed separately from the contract for the physical construction of the project.

(3) The methods for managing the rodent control program.

(4) The methods for employing private firms or public agencies for the management of real property.

(5) The methods for accomplishing the disposition of improvements through resale, salvage, owner retention, or other means.

(b) If the acquiring agency permits an owner or tenant to occupy the real property acquired on a rental basis for a short term or for a period subject to termination by the agency on short notice, the amount of rent required shall not exceed the fair rental value of the property to a short term occupier.

(c) Property management activities shall be handled in a manner consistent with the public interest and designed to reflect the maximum long-range public benefit.

(d) The acquiring agency is responsible for the preservation of the improvements and for reasonable safety measures when it has acquired ownership and possession of the property.

(e) Clearing acquired improvements under a clearing contract is considered:

(1) A right-of-way item when the clearing is performed separately from the contract for physical construction. The applicability of the provisions of Volume 6, Chapter 4, of the Federal-Aid Highway Program Manual[1] shall be determined in accordance with the criteria set forth for the requirement of wage determinations in the FHWA Labor Compliance Manual.[2]

(2) A construction item within the provisions of Volume 6, Chapter 4, of the Federal-Aid Highway Program Manual[2] when the clearing is performed as a part of the physical construction contract.

(f) Rodent control procedures shall assure that the acquiring agency:

(1) Determines and documents the need for extermination services through periodic field inspections.

(2) Coordinates with other interested agencies, such as State, county, and city health departments, and

(3) Completes required extermination measures prior to demolition or removal of improvements.

(g) Acquired rights-of-way shall be maintained in a manner which will prevent or correct problems such as illegal dumping or disposal of rubble, debris, and garbage on cleared Federal-aid highway right-of-way until needed for construction.

(h) Where the acquired right-of-way includes areas for future construction, in addition to that required for immediate construction, the SHD may permit or lease the temporary use of this area until it is needed for highway purposes. The SHD may allow this temporary use when:

(1) The FHWA has approved temporary right-of-way limits within the overall right-of-way;

(2) The integrity and safety of the highway facility constructed elsewhere on the right-of-way are assured; and

(3) There is no decrease in the extent of access control to the highway facility constructed elsewhere on the right-of-way.

Subpart B—Management of Airspace

AUTHORITY: 23 U.S.C. 142(g); 23 U.S.C. 315; 23 CFR 1.23; 23 CFR 1.32; 49 CFR 1.48; Part 21.

§ 713.201 Purpose.

To prescribe Federal Highway Administration (FHWA) policies relating to the management of airspace on Federal-aid highway systems for nonhighway purposes.

§ 713.202 Applicability.

(a) The provisions of this Subpart apply to the use of airspace on the Federal-aid highway systems, except as provided in paragraph (b) of this section.

(b) This Subpart does not apply to railroads and public utilities which cross or otherwise occupy Federal-aid highway rights-of-way, nor to relocations of railroads or utilities for which reimbursement is claimed under Subparts H and E of Part 140 of this Chapter; joint development and multiple use of highway rights-of-way as covered in Volume 7, Chapter 7, section 8 of the Federal-Aid Highway Program Manual;[3] and bikeways and pedestrian walkways as covered in part 652 of this chapter.

§ 713.203 Definition.

Air space, as used in this Subpart, is that space located above, at, or below the highway's established gradeline, lying within the approved right-of-way limits.

§ 713.204 Policies.

(a) Where a State highway department (SHD) has acquired sufficient legal right, title, and interest in the right-of-way of a highway on a Federal-aid system to permit the use of certain airspace for nonhighway purposes, and where such airspace is not required presently or in the foreseeable future for the safe and proper operation and maintenance of the highway facility, the right to temporary or permanent occupancy or use of such airspace may be granted by the SHD subject to prior FHWA approval.

(b) The airspace required to accommodate foreseeable future expansion of the highway facility may not be used for nonhighway purposes except under the provisions of Subpart A of this part, relating to property management.

(c) In any case where sufficient land exists within the publicly acquired rights-of-way of any Federal-aid highway system to accommodate needed rail or nonhighway public mass transit facilities and where this can be accomplished without impairing automotive safety or future highway improvements, the FHWA may authorize a SHD to make such lands and rights-of-way available without charge to a publicly owned mass transit authority for such purposes whenever it may deem that the public interest will be served thereby.

(d) If found to be consistent with highway designs, any portion of right-of-way may be used for green strips, small parks, play areas, parking or other highway related public use, or for any other public or quasi-public use which would assist in integrating the highway into the local environment and enhancing other publicly supported programs. Normally, the SHD should retain supervision and jurisdiction over such lands but could enter into agreements with local political subdivisions relative thereto.

(e) An individual, company, organization, or public agency desiring to use airspace as defined herein shall submit an application therefor to the SHD in a manner and form deemed appropriate by the SHD. Applications, including a proposed airspace agreement, shall be forwarded to the FHWA together with SHD recommendations for approval and any necessary supplemental information. The submission shall affirmatively provide for adherence to all policy requirements contained in this Subpart where such are appropriate to the intended use.

(f) All nonhighway use of airspace shall be covered by a properly executed airspace agreement. The agreement shall contain the following:

(1) The party responsible for developing and operating the airspace.

(2) A general statement of the proposed use.

(3) The general design for the use of the space, including any facilities

[1] The Federal-Aid Highway Program Manual may be examined at the Federal Highway Administration; 400 7th Street SW., Washington, D.C. 20590.

[2] The FHWA Labor Compliance Manual may be examined at the Federal Highway Administration; 400 7th Street SW., Washington, D.C. 20590.

[3] The Federal-Aid Highway Program Manual may be examined at the Federal Highway Administration; 400 7th Street SW., Washington, D.C. 20590.

to be constructed, and such maps, plans, or sketches as are necessary to set out pertinent features in relation to the highway facility.

(4) A detailed three-dimensional description of the space to be used, except when the surface area beneath an elevated highway structure or adjacent to a highway roadway is to be used for recreation, public park, beautification, parking of motor vehicles, public mass transit facilities, and other similar uses. In such cases, a metes and bounds description of the surface area, together with appropriate plans or cross sections clearly defining the vertical use limits, may be furnished in lieu of a three-dimensional description.

(5) Provision that any significant revision in the design or construction of a facility described in subsection 5f(3) above shall receive prior approval by the SHD subject to concurrence by the FHWA.

(6) Provision that any change in the authorized use of airspace shall receive prior approval by the SHD subject to concurrence by the FHWA.

(7) Provision that such airspace shall not be transferred, assigned, or conveyed to another party without prior SHD approval subject to concurrence by the FHWA.

(8) Provision that the agreement will be revocable in the event that the airspace facility ceases to be used or is abandoned.

(9) Provision for the agreement to be revoked if the agreement is violated and such violation is not corrected within a reasonable length of time after written notice of noncompliance has been given. Further, that in the event the agreement is revoked and the SHD deems it necessary to request the removal of the facility occupying the airspace, the removal shall be accomplished by the responsible party in a manner prescribed by the SHD at no cost to the FHWA. An exception to this provision is permitted when the improvements revert to the State upon termination of the agreement.

(10) When deemed necessary by the SHD or the FHWA, provision for adequate insurance by the responsible party for the payment of any damages which may occur during or after construction of the airspace facilities to hold the State harmless. Exception to this requirement may be made where the proposal is for the use by a public or quasi-public agency, when such agency is assigned the specific responsibility for payment of any related damages occurring to the highway facility and to the public for personal injury, loss of life, and property damage.

(11) Provision for the SHD and authorized FHWA representatives to enter the airspace facility for the purpose of inspection, maintenance, or reconstruction of the highway facility when necessary.

(12) Provision that the facility to occupy the airspace will be maintained so as to assure that the structures and the area within the highway right-of-way boundaries will be kept in good condition, both as to safety and appearance, and that such maintenance will be accomplished in a manner so as to cause no unreasonable interference with highway use. In the event the responsible party fails in its maintenance obligations, there will be provision for the SHD to enter the premises to perform such work.

(13) Appropriate provisions of Appendix "C" of the State's Civil Rights Assurances[4] with respect to Title VI of the Civil Rights Act of 1964 and 49 CFR Part 21.

(g) Use of air space beneath the established gradeline of the highway shall provide sufficient vertical and horizontal clearances for the construction, operation, maintenance, ventilation, and safety of the highway facility.

(h) The proposed use of airspace above the established gradeline of the highway shall not, at any point between two points established 15 feet beyond the two outer edges of the geometric section (highway prism) of the highway, extend below a horizontal plane which is at least 16 feet 4 inches above the gradeline of the highway, or the minimum vertical clearance plus 4 inches as approved by the State, except as necessary for columns, foundations or other support structures. Where control and directional signs needed for the highway are to be installed beneath an overhead structure, vertical clearance will be at least 20 feet from the gradeline of the highway to the lowest point of the soffit of the overhead structure. Exceptions to the lateral limits set forth above, when justified by the SHD, may be considered on an individual basis by the FHWA.

(i) Piers, columns, or any other portion of the airspace structure shall not be erected in a location which will interfere with visibility or reduce sight distance or in any other way interfere materially with the safety and free flow of traffic on the highway facility.

(j) The structural supports for the airspace facility shall be located to clear all horizontal and vertical dimensions established by the SHD. Supports shall be clear of the shoulder or safety walks of the outer roadway. However, supports may be located in the median or outer separation when the SHD determines and the FHWA concurs that such medians and outer separations are of sufficient width. All supports are to be back of or flush with the face of any wall at the same location. Supports shall be adequately protected by means acceptable to the SHD and the FHWA. No supports shall be located in the ramp gores, or in a position so as to interfere with the signing necessary for the proper use of the ramp.

(k) The use of airspace shall not result in either highway or nonhighway users being unduly exposed to hazardous conditions because of highway location, design, maintenance, and operation features.

(l) Appropriate safety precautions and features necessary to minimize the possibility of injury to users of either the highway facility or airspace due to traffic accidents occurring on the highway or accidents resulting from nonhighway uses shall be provided. Airspace facilities shall not be approved for construction over or under the highways, unless the plans therefor contain adequate provisions, acceptable to the SHD and the FHWA, for evacuation of the structures or facilities in case of a major accident endangering the occupants of such structures or facilities.

(m) Any airspace facility shall be fire resistant in accordance with the provisions of the local applicable building codes found to be acceptable by the SHD and the FHWA. Such airspace facility shall not be used for the manufacture or storage of flammable, explosive, or hazardous material or for any occupation which is deemed by the SHD or the FHWA to be a hazard to highway or nonhighway users. Proposals involving the construction of improvements in airspace should be approved by the State authority responsible for fire protection standards. In cases where the SHD or the FHWA questions the acceptability of the existing code, conformance with a nationally accepted model building code will be required.

(n) No structure or structures built over a highway facility shall occupy more length of the highway than will permit adequate natural ventilation of the enclosed section of the highway for the conditions at the location, assuming a volume of traffic equal to capacity. Each such covered length shall be preceded and followed by uncovered lengths of highway that will safely affect natural ventilation. The SHD shall determine such lengths for each particular case, subject to FHWA concurrence. Exceptions may be considered when complete tunnel ventilation is provided. Unless tunnel ventilation is provided, structures over highways shall be so designed and constructed as to facilitate natural ventilation of the highway. To this end, the underside and any supports for such structures shall have smooth and easily cleanable surfaces. Supports for such structures shall leave as much open space on the sides of the highway as feasible. Such space shall be appropriately graded where deemed necessary or desirable by the SHD.

(o) The design, occupancy, and use of any structure over or under a highway facility shall be such that neither the use, safety, appearance, nor the enjoyment of the highway will be adversely affected by fumes, vapors, odors, drippings, droppings, or discharges of any kind therefrom.

(p) On-premise signs, displays, or devices may be erected on structures occupying highway airspace, but shall be restricted to those indicating ownership and type of on-premise activities and shall be subject to regulation by the SHD and the FHWA with respect to number, size, location, and design.

[4] Appendix "C" of the State's Civil Rights Assurances may be examined at any office of the State Highway Department or at the Federal Highway Administration; 400 7th Street SW., Washington, D.C. 20590.

(q) Construction of any structure above or below a highway facility shall not require any temporary or permanent change in alignment or profile of an existing highway without prior approval by the SHD and the FHWA.

(r) Where either the SHD or the FHWA is of the opinion that the proposed use of airspace requires changes in or additions to existing highway facilities for the proper operation and maintenance of highways, such facilities shall be provided without cost to Federal funds. There may be exception to this policy when the proposed use is for highway related or other public or quasi-public use which would assist in integrating the highway into the local environment and enhance other publicly supported programs. This provision is not intended to expand existing limitations upon expenditures from the highway trust fund, nor is it intended to conflict with the provisions of Volume 7, Chapter 7, section 8, of the Federal-Aid Highway Program Manual,[2] relating to joint development of highway corridors and multiple use of roadway properties.

(s) Proposed airspace facilities shall be designed and constructed in a manner which will permit access to the highway facility for the purpose of inspection, maintenance, and reconstruction when necessary.

(t) Permission shall not be granted for any use of airspace which does not conform with the provisions of current, appropriate Federal Aviation Administration regulations.

(u) Approval for the use and occupancy of highway right-of-way for the parking of motor vehicles shall be granted only if proper consideration has been given to the need for the following:

(1) Parking design or arrangement to assure orderly and functional parking.

(2) Plantings or other screening measures to improve the esthetics and appearance of the area.

(3) Surfacing, lighting, fencing, striping, curbs, wheel stops, pier protection devices, etc.

(4) Access for fire protection and fire fighting equipment.

(v) Disposition of income received from the authorized use of airspace shall be the SHD's responsibility and credit to Federal funds is not required.

§ 713.205 Inventory.

The SHD shall maintain an inventory of all authorized uses of airspace. This inventory which shall be available for review by appropriate Federal and State agencies shall include but not be limited to the following items for each authorized use of airspace:

(a) Location by project, survey station, or other appropriate method.

(b) Identification of the authorized user of the airspace.

(c) A three-dimensional description or a metes and bounds description.

(d) As-built construction plans of the highway facility at the location where the use of airspace was authorized.

(e) Pertinent construction plans of the facility authorized to occupy the airspace.

(f) A copy of the executed airspace agreement.

Subpart C—Disposal of Rights-of-Way

AUTHORITY: 23 U.S.C. 315 and 319; 23 CFR 1.32; 42 U.S.C. 4651(9); 49 U.S.C. 1653(f); 49 CFR 1.48(b); and 49 CFR Part 21.

§ 713.301 Purpose.

This Subpart prescribes Federal Highway Administration (FHWA) policies and procedures for disposal of portions of highway rights-of-way no longer needed for highway purposes.

§ 713.302 Applicability.

(a) The provisions of this Subpart apply to disposals of rights-of-way where Federal-aid highway funds have participated in either the right-of-way or physical construction costs of a project.

(b) The provisions of this Subpart do not apply to the matters covered in Volume 6, Chapter 1, section 1, subsection 8, of the Federal-Aid Highway Program Manual.[3]

(1) Where a section of highway including the right-of-way is abandoned;

(2) Where only changes in access control are involved; and

(3) To relinquishments of highway facilities for continued use for highway purposes.

(c) The provisions of this Subpart do not apply where whole sections of a Federal-aid system are withdrawn under the provisions of 23 U.S.C. 103(e)(2) and (4).

§ 713.303 Definitions.

For purposes of this Subpart the following definitions apply:

(a) Disposal—The conveyance for uses other than for highways of unneeded portions of highway rights-of-way (in contrast to relinquishment, which is the conveyance of a portion of a highway right-of-way or facility by a State highway department (SHD) to another government agency for highway use).

(b) Final Acceptance—(1) On Federal-aid construction projects, the date of acceptance of the physical construction by FHWA; and

(2) On Federal-aid right-of-way projects, where there is no Federal-aid construction, the date the FHWA determines to be the date of completion of the acquisition of the right-of-way authorized by FHWA to be acquired for the project.

§ 713.304 General requirements.

(a) The conveyance may be to any public entity or private party.

(b) When disposal of unneeded portions of highway rights-of-way involve a change in the access control line, provisions of Volume 6, Chapter 1, section 1, subsection 8, of the Federal-Aid Highway Program Manual[1] also apply.

(c) Federal, State and local conservation, recreation, park, or other appropriate agencies shall be afforded the opportunity to acquire by purchase or donation in accordance with the State law, tracts of right-of-way being considered for disposal when there is indication that such tracts have a present or potential use for parks, conservation, recreational or related purposes. The SHD shall notify the appropriate agencies of its intention to dispose of unneeded portions of right-of-way which it considers to have present or potential use for the aforementioned purposes.

(d) Lands or interests therein are not to be disposed of if they are suitable for retention in order to restore, preserve, or improve the scenic beauty and environmental quality adjacent to the highway.

(e) When right-of-way which has been acquired with Federal-aid participation is disposed of without requiring a credit to Federal funds, the instrument of conveyance shall contain appropriate provisions of "Appendix C" of the State's Title VI Civil Rights Assurances[3] with respect to the Civil Rights Act of 1964, and the Department of Transportation Regulations (49 CFR Part 21).

§ 713.305 Application for approval.

(a) A SHD shall submit a request to FHWA for prior approval to dispose of highway rights-of-way when the determination that the property is no longer needed for highway purposes occurs after:

(1) Final acceptance of a Federal-aid physical construction project, where Federal funds have participated in the right-of-way and construction costs, or construction costs only; or

(2) Final acceptance of a right-of-way acquisition project where Federal-aid highway funds do not participate in the cost of the physical construction.

(b) The request shall include:

(1) An explanation of why the right-of-way is not needed; and

(2) A plan which identifies the right-of-way proposed for disposition in relation to construction features and to the remaining right-of-way.

§ 713.306 Excess right-of-way resulting from plan changes.

(a) Prior to final acceptance of a project, a portion of the right-of-way authorized by FHWA and acquired by the SHD may become unnecessary for the highway project. The unneeded portion usually results from plan changes. Right-of-way authorized and acquired to a natural boundary, but not incorporated into the right-of-way at the time of final

[2] The Federal-Aid Highway Program Manual may be examined at the Federal Highway Administration; 400 7th Street SW., Washington, D.C. 20590.

[3] The Federal-Aid Highway Program Manual may be examined at the Federal Highway Administration; 400 7th Street, SW.; Washington, D.C. 20590.

[1] The Federal-Aid Highway Program Manual may be examined at the Federal Highway Administration; 400 7th Street, SW; Washington, D.C. 20590.

[3] Appendix "C" of the State's Civil Rights Assurances may be examined at any office of the State Highway Department or at the Federal Highway Administration; 400 7th Street, SW; Washington, D.C. 20590.

acceptance of the project, is considered to be in the nature of a plan change.

(b) When the plan change results in excess right-of-way, a separate request for prior approval of disposal need not be submitted.

(c) Where credit to Federal funds is required in accordance with § 713.307 and the determination as to the unneeded right-of-way is made prior to final acceptance of the project, the disposal shall be accomplished prior to submission of the final voucher for the project or not later than 2 years from the time the highway facility is opened to traffic, whichever is earlier. However, prior to expiration of the specified time period, the SHD may request and the FHWA may approve an extension of the time. If the property is not sold within the approved time limit, the cost of acquisition of the unneeded portion must be credited to the project if Federal reimbursement has been made therefor.

§ 713.307 Credit to Federal funds.

(a) When right-of-way is disposed of to another governmental agency for public use, FHWA does not require a charge to the agency and no credit to Federal funds is required. If, for any reason, there is a payment to the State for the land transferred and Federal funds participated in the cost of acquisition of the right-of-way, the amount received shall be credited to Federal funds at the same pro rata share as Federal funds participated in the cost of acquisition of the right-of-way.

(b) If the disposal is to a part other than a Federal, State, or local governmental agency for public use, and Federal funds participated in the cost of acquisition of the right-of-way, there shall be a credit to Federal funds at the same pro rata share as Federal funds participated in the cost of acquisition of the right-of-way. The amount credited shall be the result of disposal by one of the following means:

(1) Public sale; or

(2) Negotiations based on current appraised fair market value.

(c) When a credit to Federal funds is required, the cost of disposition may be deducted from the sales price.

§ 713.309 Uneconomic remnants.

(a) An uneconomic remnant incorporated within the right-of-way limits loses its identity and becomes part of the right-of-way. Should it no longer be needed for highway purposes, disposal of the area would be in the same manner as any other portion of highway rights-of-way.

(b) Where the uneconomic remnant is not incorporated within the approved right-of-way limits, no FHWA approval to dispose of it is required, and no credit to Federal funds is necessary.

Issued on September 19, 1974.

NORBERT T. TIEMANN,
Federal Highway Administrator.

Title 24—Housing and Urban Development

CHAPTER II—OFFICE OF ASSISTANT SECRETARY FOR HOUSING PRODUCTION AND MORTGAGE CREDIT—FEDERAL HOUSING COMMISSIONER (FEDERAL HOUSING ADMINISTRATION), DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER A—GENERAL

[Docket No. R-74-293]

PART 200—INTRODUCTION

Delegations to Particular Positions and Organization and Management

Pursuant to section 7(d), Department of Housing and Urban Development Act, 42 U.S.C. 3535(d), the Assistant Secretary-Commissioner is revising the delegations of authority under 24 CFR Part 200. These revisions, which reflect organization and administrative changes in the Department, delete certain sections, add other sections, and change in whole or in part still other sections, all as set forth below.

Because this amendment relates to agency management and personnel, comment and public procedure are unnecessary, and good cause exists for making these changes effective upon publication in the FEDERAL REGISTER.

Accordingly, Part 200, Subparts C and D, are amended as follows:

1. In Part 200, Subpart C, in the Table of Contents, the appropriate section headings are amended to read:

Sec.
200.43 Assistant Regional Administrators for Housing Production and Mortgage Credit.
200.44 Area and/or Insuring Office Directors.

2. In Part 200, Subpart D, in the Table of Contents, the title of Subpart D is amended to read:

Subpart D—Delegations to Particular Positions

3. In Part 200, Subpart D, in the Table of Contents, the headings of §§ 200.51, 200.52, 200.53, 200.54, 200.55, 200.56, 200.56a, 200.58, 200.59, 200.84b, 200.95, 200.103, 200.109, and 200.116 are amended; new §§ 200.54a, 200.54b, 200.55a, 200.55b, 200.55c, 200.55d, 200.55e, 200.56b, 200.56c, 200.56d, 200.57, 200.95a, 200.98a, 200.112a, and 200.113a are added; and §§ 200.52a, 200.52b, 200.58a, 200.58b, 200.58c, 200.58d, 200.59a, 200.59b, 200.59c, 200.61, 200.61d, 200.61f, 200.62, 200.63, 200.64, 200.65, 200.65b, 200.66, 200.67, 200.68, 200.70, 200.71, 200.72, 200.73, 200.84c, 200.84e, 200.86, 200.87, 200.90, 200.91, 200.96, 200.97, 200.99, 200.104, 200.105, 200.106, 200.107, 200.108, 200.117, 200.120, 200.121, and 200.122 are revoked.

The amendments and additions are as follows:

Sec.
200.51 Acting Assistant Secretary—Federal Housing Commissioner.
00.52 Deputy Assistant Secretary—Deputy Federal Housing Commissioner.
200.53 Executive Assistant Commissioner.
200.54 Director, Office of Policy and Program Analysis and Development and Deputy.
200.54a Director, Policy Analysis and Development Division.
200.54b Director, Review and Evaluation Division.
200.55 Director, Office of Management Systems.
200.55a Director, Management and Administrative Services Division.
200.55b Director, Budget Division.
200.55c Director, Management Information Systems Division.
200.55d Director, Participant Control and Supervision Division.
200.55e Director, Actuarial Division.
200.56 Director, Office of Underwriting Standards and Deputy.
200.56a Director, Multifamily Underwriting Division.
200.56b Director, Single Family Underwriting Division.
200.56c Director, Architecture and Engineering Division.
200.56d Director, Economic and Market Analysis Division.
200.57 Director, Property Improvement and Mobile Homes Division.
200.58 Director, Publicly Financed Housing Division.
200.59 Director, Office of Field Support.
200.84b Regional Administrators, Deputies and Assistants.
200.95 Insuring Office Directors, Deputy Directors, and Assistants to the Director.
200.95a Service Office Supervisors and Service Office Underwriters.
200.98a Chief Underwriter and Deputy.
200.103 Deputy Assistant Secretary-Deputy Commissioner, Executive Assistant Commissioner, and Directors of HPMC Offices and Divisions.
200.109 Regional Administrators, Deputy Regional Administrators and Assistant Regional Administrator Housing Production and Mortgage Credit (Region VIII, Denver).
200.112a Chief, Finance and Mortgage Credit Section (Boston Area Office).
200.113a Chief, Real Estate and Valuation Section (Boston Area Office).
200.116 Director, Operations Division; Deputy Director, Operations Division; and Assistants to the Director, Operations Division.

Subpart C—Organization and Management

§ 200.40 [Amended]

4. In § 200.40 the last sentence reading "Each Assistant Secretary of the Department is appointed by the President by and with the advice and consent of the Senate" is deleted.

5. Section 200.41 is revised to read as follows:

§ 200.41 Administrative staff.

The principal administrative staff of the Assistant Secretary for Housing Production and Mortgage Credit (HPMC)-Federal Housing Commissioner includes the Deputy Assistant Secretary for Housing Production and Mortgage Credit-Deputy Federal Housing Commissioner, the Executive Assistant Commissioner, and Directors of various HPMC-FHA offices whose respective duties and areas of authority are indicated by their titles.

6. Section 200.43 is revised to read as follows:

§ 200.43 Assistant Regional Administrators for Housing Production and Mortgage Credit.

The territory served by the Federal Housing Administration is divided into geographical regions composed in each instance of a Regional Office and a group of associated Area and/or Insuring Offices as established by the Department of Housing and Urban Development. Within each Region an Assistant Regional Administrator for Housing Production and Mortgage Credit (HPMC) directs and evaluates, on behalf of the Regional Administrator, all HPMC–FHA functions and responsibilities falling within his jurisdiction.

7. Section 200.44 is revised to read as follows:

§ 200.44 Area and/or Insuring Office Directors.

Each of the Area or Insuring Offices within a region is managed and supervised by a Director who is responsible to the Regional Administrator for the administration, within a defined geographic area, of all HPMC–FHA functions and responsibilities including the administration of various service offices or valuation stations established within his defined geographical area. Each such Director is empowered to exercise any and all authorities delegated to any subordinate.

Subpart D—Delegations to Particular Positions

§ 200.50 [Amended]

8. In § 200.50(d), the words "or the Public Housing Commissioner, or the Public Housing Administration," are deleted wherever they appear in the third sentence.

9. Section 200.51 is revised to read as follows:

§ 200.51 Acting Assistant Secretary-Federal Housing Commissioner.

The Deputy Assistant Secretary-Deputy Federal Housing Commissioner and the Executive Assistant Commissioner are designated by the Assistant Secretary-Federal Housing Commissioner to act in his place and stead in the event of his absence or inability to act, having the title "Acting Assistant Secretary-Federal Housing Commissioner" with all powers, duties and rights delegated to the Assistant Secretary-Federal Housing Commissioner by the Secretary of Housing and Urban Development.

10. Section 200.52 is revised to read as follows:

§ 200.52 Deputy Assistant Secretary—Deputy Federal Housing Commissioner.

To the position of Deputy Assistant Secretary-Deputy Federal Housing Commissioner there is delegated the basic authorities and functions to act with and for the Assistant Secretary-Federal Housing Commissioner in the general administration of the Federal Housing Administration, in the determination of basic policy, and in the general supervision, direction and coordination of all housing production and mortgage credit operations and functions. The Deputy Assistant Secretary has full authority at all times to make any decisions which the Assistant Secretary-Federal Housing Commissioner is authorized to make and to issue any order which the Assistant is authorized to issue.

§§ 200.52a, 200.52b [Revoked]

11. Sections 200.52a and 200.52b are revoked.

12. Section 200.53 is revised to read as follows:

§ 200.53 Executive Assistant Commissioner.

To the position of Executive Assistant Commissioner there is delegated the basic authorities and functions to advise the Assistant Secretary-Federal Housing Commissioner and Deputy Assistant Secretary-Deputy Federal Housing Commissioner in a broad range of matters under their jurisdiction and participate with them in the formulation of policy; to make policy and operating decisions on their behalf; to monitor and control internal program operations and provide policy direction and control to program areas administered by the various Office Directors within HPMC–FHA; to act as agency liaison with officials of the Department of Housing and Urban Development; to head up HPMC–FHA task forces constituted to analyze policy and operational problems; and to consult with industry representatives and members of Congress on matters affecting FHA.

13. Section 200.54 is revised to read as follows:

§ 200.54 Director, Office of Policy and Program Analysis and Development and Deputy.

To the position of Director, Office of Policy and Program Analysis and Development and under his general supervision to the position of Deputy Director for policy and program analysis and development there is delegated the following basic authorities and functions:

(a) To act with the Assistant Secretary-Federal Housing Commissioner and under his direction in the determination of basic policy and be a member of the Executive Board.

(b) To be responsible to the Assistant Secretary-Federal Housing Commissioner for the coordination and general supervision of the Policy Analysis and Development Division and the Review and Evaluation Division.

(c) To review and analyze existing and proposed housing production and mortgage credit policies and programs and develop recommendations for new or improved policies and programs to achieve the objectives of HPMC and the Department.

(d) To develop and implement an over-all evaluation system for HPMC programs.

(e) To act for the Assistant Secretary-Federal Housing Commissioner on initial development of implementing directives for policies and programs for which organizational responsibility has not been previously established.

14. In Subpart D, a new § 200.54a is added to read as follows:

§ 200.54a Director, Policy Analysis and Development Division.

To the position of Director, Policy Analysis and Development Division there is delegated the following basic functions:

(a) To be responsible to the Director, Office of Policy and Program Analysis and Development for the evaluation, initiation and development of basic policies, programs and plans relating to housing production and mortgage credit.

(b) To review, analyze and make recommendations with respect to new or proposed policies and/or legislative proposals; prepare position papers and justification documentation for legislative proposals affecting housing production or mortgage credit.

(c) To develop, initially, instructions required to implement new programs and policies relating to housing production and mortgage credit authorized by Congress and for which organizational responsibility has not previously been established.

15. In Subpart D, a new § 200.54b is added to read as follows:

§ 200.54b Director, Review and Evaluation Division.

To the position of Director, Review and Evaluation Division there is delegated the following basic functions:

(a) To be responsible to the Director, Office of Policy and Program Analysis and Development for reviewing and evaluating programs of HPMC to determine the extent to which these programs are achieving the broad purposes intended by Congress, as expressed in legislation and legislative history.

(b) To develop and implement a continuing system of over-all HPMC program evaluation, coordinate the program-evaluation effort throughout HPMC, and provide system results and recommendations.

(c) To prepare program summaries and reports such as: program summaries for the Office of Management and Budget; the Catalog of Federal Domestic Assistance; the HUD Annual Report; and special reports and information requested by the Congress.

16. Section 200.55 is revised to read as follows:

§ 200.55 Director, Office of Management Systems.

To the position of Director, Office of Management Systems and under his general supervision to the position of Executive Officer, there is delegated the following basic authorities and functions:

(a) To act with the Assistant Secretary-Federal Housing Commissioner and under his direction in the determination

of basic policy and to be a member of the Executive Board.

(b) To be responsible to the Assistant Secretary-Federal Housing Commissioner for the coordination and general supervision of the Management Information Systems Division, the Budget Division, the Actuarial Division, the Management and Administrative Services Division, the Participant Control and Supervision Division, the Housing Finance and Research Staff, and the Advanced Statistical and Computer Applications Staff, and to exercise any of the authorities inherent in any of the functions carried out in those divisions and staffs, including allocation and control of contract authority under the HPMC housing assistance and subsidy programs, and the approval of multifamily mortgage insurance proposals with reference to the previous participation of principals.

(c) To perform planning and liaison with the Assistant Secretary for Administration on administrative-management matters in general; with the HUD Office of Personnel on personnel policies and procedures; and with the HUD Office of General Services on general services required for HPMC operations. Similar liaison, as required, will be performed with the Office of the Inspector General and the Department's Emergency Preparedness Staff.

(d) To approve, disapprove, or withdraw approval of financial institutions as approved mortgagees and of firms or individuals as authorized agents for approved mortgagees.

(e) To act for the Assistant Secretary-Federal Housing Commissioner on any administrative matter not otherwise acted upon or assigned, and exercise any redelegable authority of the Assistant Secretary-Federal Housing Commissioner on budget, organization, personnel and other administrative matters (including training, disciplinary actions, hours of duty, overtime, and awards) except as the Assistant Secretary-Federal Housing Commissioner or his Deputy may personally act or otherwise specifically assign.

17. In Subpart D, a new § 200.55a is added to read as follows:

§ 200.55a Director, Management and Administrative Services Division.

To the position of Director, Management and Administrative Services Division there is delegated the following basic functions:

(a) To be responsible to the Director, Office of Management Systems for coordinating standards and procedures; establishing and maintaining the HPMC–FHA directives and issuances system; conducting comprehensive management engineering surveys of Washington and field activities pertaining to HPMC–FHA functions; executing contracts for credit reports and issuing orders for publication of notices and advertisements in newspapers, magazines and periodicals for securing such contracts.

(b) To analyze organization structures and provide specialized assistance in the review and development of delegations of authority, functional statements and organizational charts, together with recommendations for such changes as will enhance the effectiveness, economy or efficiency of operation.

(c) To conduct liaison with the Office of Assistant Secretary for Administration in regard to reports management, forms design and management, records management, office layout, machine utilization, printing, distribution, supply, and procurement.

18. In Subpart D, a new § 200.55b is added to read as follows:

§ 200.55b Director, Budget Division.

To the position of Director, Budget Division there is delegated the following basic functions:

(a) To be responsible to the Director, Office of Management Systems for developing, directing, and controlling all budget activities relating to HPMC funds.

(b) To develop budget estimates of program levels for the FHA insurance programs, the housing subsidy programs, the low-rent public housing program, and the college housing program, and to allocate and control contract authority under the rent supplement program, the homeownership assistance program, the rental housing assistance program, the section 221(d)(3) below-market-interest-rate program, and maintain control over the special housing assistance funds under the section 106(b) program (Housing and Urban Development Act of 1968) and the section 207 Appalachia program (Appalachian Regional Development Act of 1965, as amended).

(c) To develop and submit the HPMC estimates and the budget estimates for the FHA insurance funds and provide supporting schedules and justifications to the Office of Management and Budget and to the Budget and Appropriations committees.

(d) To develop, direct and coordinate work measurement systems throughout HPMC; perform cost and employee productivity analyses; and provide staff advice on these matters to the line operating officials.

(e) To prepare and support requests for apportionments and reapportionments, as necessary, and allocate HPMC funds.

19. In Subpart D, a new § 200.55c is added to read as follows:

§ 200.55c Director, Management Information Systems Division.

To the position of Director, Management Information Systems Division there is delegated the following basic functions:

(a) To be responsible to the Director, Office of Management Systems for the development, implementation, maintenance, operation and refinement of Management Information Systems to provide operating statistics on HPMC Programs.

(b) To provide data to meet program goals and objectives of HPMC and overall objectives of the department.

(c) To allow flexible, ready retrieval of up-to-date management information placing emphasis or priority on data that are usable and relevant.

(d) To develop and maintain each system in such a manner as to provide a practical framework for monitoring and evaluating program performance.

(e) To provide program information and advisory services to HPMC and as requested to other elements of the Department and to outside, private or public organizations or individuals.

20. Section 200.55d is added to read as follows:

§ 200.55d Director, Participant Control and Supervision Division.

To the position of Director, Participant Control and Supervision Division there is delegated the following basic functions:

(a) To be responsible to the Director, Office of Management Systems for approving, with respect to the previous participation of principals, multifamily housing, nursing homes, group practice medical facilities, and land development mortgage insurance proposals, upon a determination that there is no information concerning past FHA or other HUD program experience involving the previous participation of the principals that is not clearly consistent with the acceptability of new proposals involving their participation; and in all cases in which such a determination is not made, to present such cases and relevant information concerning them to the Multifamily Participation Review Committee for determination.

(b) To act for the Assistant Secretary-Federal Housing Commissioner and the Director, Office of Management Systems, in providing advice and guidance on compliance problems and reference and referral service on compliance records, with respect to all HPMC–FHA programs except those under section 2 of Title I of the National Housing Act, including liaison with the HUD Office of Inspector General concerning requests for investigation and the reporting of the disposition of cases.

(c) To act for the Director, Office of Management Systems in the review, approval, disapproval, suspension and withdrawal of approval of financial institutions as approved mortgagees to originate insured mortgages and of firms or individuals as authorized agents of such approved mortgagees; and to establish performance standards and to maintain surveillance over the activities of such institutions as they relate to the origination of mortgagees.

21. Section 200.55e is added to read as follows:

§ 200.55e Director, Actuarial Division.

To the position of Director, Actuarial Division there is delegated the following basic functions:

(a) To be responsible to the Director, Office of Management Systems for the development, design and implementation of an actuarial system that will provide the information necessary for the evaluation of the actuarial performance of the

mortgage insurance programs for the Assistant Secretary-Commissioner.

(b) To estimate long-run insurance costs, future financial positions and reserve requirements of the various HPMC insurance funds.

(c) To provide consultative and technical advisory services concerning the actuarial basis of the current and proposed mortgage insurance programs.

(d) To provide continuous research into the nature of mortgage credit risk needed for the management of the mortgage insurance programs on a scientific basis.

22. Section 200.56 is revised to read as follows:

§ 200.56 Director, Office of Underwriting Standards.

To the position of Director, Office of Underwriting Standards and under his general supervision to the position of Deputy Director for Underwriting Standards, there is delegated the following basic authorities and functions:

(a) To act with the Assistant Secretary-Federal Housing Commissioner and under his direction in the determination of basic policy and be a member of the Executive Board.

(b) To be responsible to the Assistant Secretary-Federal Housing Commissioner for the coordination and general supervision of the Multifamily Underwriting Division, the Single Family Underwriting Division, the Architecture and Engineering Division, and the Economic and Market Analysis Division.

(c) To develop and maintain operating policies, plans, procedures, methods and techniques for the insurance of mortgages under all pertinent sections of the National Housing Act.

(d) To establish and maintain architectural and engineering standards, methods, procedures, and techniques, including minimum planning, construction and property requirements, and procedures and criteria for rating physical security; establish and maintain standards, procedures, and techniques for mortgage credit, valuation, construction cost, land planning, economic and market analysis, and selection of new materials and methods of construction; determine technical suitability of products and materials; monitor and evaluate implementation procedures, policies, and standards established by the Office of Underwriting Standards; and develop recommendations for the establishment of new or revised procedures in underwriting.

(e) To develop policies, standards, and procedures for land acquisition functions and for appraisal and real estate tax and title functions for land acquisition and disposition programs of the Department, except urban renewal.

(f) To develop proposed housing production and mortgage credit policies; to establish operating plans and guidelines; to provide technical and consultative services to other agencies with respect to housing production programs and policies; and to maintain liaison with architectural, engineering and other professional societies in the field of housing production.

(g) To act for the Commissioner in approving applications for financial assistance under section 106 of the Housing and Urban Development Act of 1968 and section 207 of the Appalachian Regional Development Act of 1965, as amended; in approving the waiver of interest on loans made to nonprofit organizations under the Appalachian Regional Development Act of 1965; and in providing technical assistance to nonprofit sponsors authorized under the 1969 Amendments to the Appalachian Regional Development Act; and to recommend to the Loan Assistance Committee approval or disapproval of the waiver of repayment in whole or in part of loans made under section 106 of the Housing and Urban Development Act of 1968 and section 207 of the Appalachian Regional Development Act of 1965, as amended.

(h) To develop proposed policies, to establish operating plans and guidelines, and to direct and monitor all activities for the Assistant Secretary-Commissioner with respect to the processing by production personnel of claims under section 518 of the National Housing Act having to do with expenditures to correct or compensate for substantial defects in mortgaged homes.

23. In Subpart D, a new § 200.56a is added to read as follows:

§ 200.56a Director, Multifamily Underwriting Division.

To the position of Director, Multifamily Underwriting Division there is delegated the following basic functions:

(a) To be responsible to the Director, Office of Underwriting Standards for planning, directing and implementing the development and maintenance of standards, techniques, criteria, and procedures relating to cost evaluation, mortgage credit, and valuation underwriting with respect to multifamily and low-rent mortgage programs.

(b) To review and evaluate multifamily housing project mortgage insurance programs and provide technical guidance and advice to builders, developers, and mortgagees and to field office personnel.

(c) To develop, maintain and interpret policies, standards, and procedures for land acquisition, appraisal, real estate tax and title functions for land acquisition and disposition programs of HUD, except urban development.

24. In Subpart D, a new § 200.56b is added to read as follows:

§ 200.56b Director, Single Family Underwriting Division.

To the position of Director, Single Family Underwriting Division there is delegated the following basic functions:

(a) To be responsible to the Director, Office of Underwriting Standards for planning, directing, and implementing the development and maintenance of standards, techniques, criteria, and procedures relating to cost evaluation, mortgage credit, land planning, and valuation underwriting with respect to all home mortgage programs.

(b) To review and evaluate home mortgage insurance programs and provide technical advice and guidance to builders, developers, and mortgagees and to field office personnel as related to housing production matters.

(c) To develop, maintain and interpret land use and environmental standards applicable to dwelling sites subject to mortgage insurance, including subdivision, planned unit developments, streets, utilities, and other common areas and facilities serving residential areas.

(d) To develop proposed policies, to establish operating plans and guidelines, and to direct and monitor all activities for the Director, Office of Underwriting Standards with respect to the processing by production personnel of claims under section 518(b) of the National Housing Act having to do with expenditures to correct or compensate for substantial defects in mortgaged homes.

25. In Subpart D, a new § 200.56c is added to read as follows:

§ 200.56c Director, Architecture and Engineering Division.

To the position of Director, Architecture and Engineering Division there is delegated the following basic functions:

(a) To be responsible to the Director, Office of Underwriting Standards for formulating and maintaining architectural and engineering standards, guidelines, methods, techniques, and criteria.

(b) To provide consultative and advisory services and to maintain liaison with architectural and engineering societies and with public and private groups interested in the advancement of housing design.

(c) To formulate policies, standards, and guidelines relative to the technical aspects of the development of low-rent public housing including site selection, project design, and project planning, and to develop policies and guidelines with reference to low-rent public housing costs.

(d) To develop proposed policies, to establish operating plans and guidelines, and to direct and monitor all activities for the Director, Office of Underwriting Standards with respect to the processing by production personnel of claims under section 518(a) of the National Housing Act having to do with the expenditures to correct or compensate for substantial defects in mortgaged homes.

(e) To evaluate and determine the technical suitability of housing products and materials under section 521 of the National Housing Act and to issue engineering and technical bulletins governing the acceptability of housing system components, and materials and methods of construction.

26. In Subpart D, a new § 200.56d is added to read as follows:

§ 200.56d Director, Economic and Market Analysis Division.

To the position of Director, Economic and Market Analysis Division there is delegated the following basic functions:

(a) To be responsible to the Director, Office of Underwriting Standards for

maintaining a program of market analysis services for all elements of HPMC including related economic, income limit, and rent schedule analyses.

(b) To provide technical guidance and direction of the field market analysis function, develop techniques of market analysis, conduct training, and provide central office support for area economic and market analysis review of applications for mortgage insurance and/or subsidy assistance.

27. In Subpart D, a new § 200.57 is added to read as follows:

§ 200.57 Director, Property Improvement and Mobile Homes Division.

To the position of Director, Property Improvement and Mobile Homes Division there is delegated the following basic functions:

(a) To act for the Assistant Secretary—Federal Housing Commissioner on developing and recommending new or revised policies, standards, rules, and regulations regarding title I property improvement and mobile home loans and be a member of the Executive Board.

(b) To approve or cancel the approval of financial institutions to make title I property improvement and mobile home loans and to issue or cancel contracts of insurance with such institutions; and, on matters other than liquidation of notes, to approve or disapprove the transfer of contracts and the rights and benefits accruing thereunder, between approved financial institutions.

(c) To determine noncompliance with statutes, rules, regulations, policies, and procedures governing title I property improvement and mobile home loan operations; to direct remedial action; and to institute precautionary measures with respect to any dealer or contractor.

(d) To coordinate and provide liaison with the Office of Inspector General, HUD, concerning requests for investigations and reports of investigations of alleged noncompliance or criminal activity in connection with title I property improvement and mobile home loans; and to direct and supervise surveys of financial institutions to assure compliance with policies and terms of insurance contracts.

28. Section 200.58 is revised to read as follows:

§ 200.58 Director, Publicly Financed Housing Division.

To the position of Director, Public Financed Housing Division there is delegated the following basic functions:

(a) To act for the Assistant Secretary-Federal Housing Commissioner on developing national policies, procedures and administrative requirements and standards for the production of housing from preapplication through project completion; to acquire title or execute a leasehold interest under the low-rent public housing program and the college housing program and be a member of the Executive Board.

(b) To control the utilization of loan funds and contract authority available for the production of housing under the above programs.

(c) To monitor and evaluate field application of established policies and procedures as they apply to publicly financed housing and college housing.

§ 200.58d [Revoked]

29. Section 200.58d is revoked.

30. Section 200.59 is revised to read as follows:

§ 200.59 Director, Office of Field Support.

To the position of Director, Office of Field Support there is delegated the following basic authorities and functions:

(a) To act with the Assistant Secretary-Federal Housing Commissioner and under his direction in the determination of basic policy and be a member of the Executive Board.

(b) To administer a field performance evaluation system; establish standards for monitoring and evaluating performance; and serve as the central point for coordinating the execution of HPMC operating policies, procedures, and operations within the regions.

(c) To perform liaison with program, underwriting and administrative office directors in establishing expected activity rates, operating objectives and processing capability.

(d) To monitor volume of activity, timeliness of service and quality in relation to established production and service standards and operating objectives.

(e) To establish field performance and field review standards to be applied by regional offices to HPMC-FHA field functions.

(f) To evaluate and review regional office performance and compliance with established policies and procedures; to evaluate results of regional reviews of Area and Insuring Offices; and as necessary to evaluate the local impact and effectiveness of central office directives and regional execution; to participate with regional staffs or check independently, and selectively, Area and Insuring Office performance.

(g) To conduct liaison with the Department of Defense and other Federal agencies to establish eligibility for and utilization of mortgage insurance programs at specific impacted installations.

(h) To approve or disapprove the inadvertent noncollection or refund of fees, to extend the period within which a mortgagee or lender is required to take action in order to prevent the expiration of a multifamily housing commitment or in order to reopen an expired multifamily housing commitment, and to approve or disapprove the retroactive reinstatement or reopening of an expired multifamily housing commitment.

§§ 200.58a–200.58c, 200.59a–200.59c, 200.61, 200.61d, 200.62–200.65, 200.65b, 200.66–200.68, 200.70–200.73 [Revoked]

31. In subpart D, the sections listed above are revoked.

32. Section 200.84b is revised to read as follows:

§ 200.84b Regional Administrators, Deputies and Assistants.

To the position of Regional Administrator, and to each of them; and to the position of Deputy Regional Administrator and to each of them under the general supervision of the Regional Administrator having jurisdiction; and to the position of Assistant Regional Administrator for Housing Production and Mortgage Credit, and to each of them under the general supervision of the Regional Administrator there is delegated the basic authority and function to direct and supervise within the geographical area under his jurisdiction all activities assigned at Headquarters to the Assistant Secretary for HPMC–FHA Commissioner. Provided, however, that the issuance of feasibility letters, site appraisal and market analysis letters (SAMA), conditional commitments, or final commitments to insure projects in accordance with section 236 shall require the concurrence, indicated by signature, on the part of the Regional Administrator as to projects for which feasibility letters or conditional commitments were issued after December 15, 1972.

§§ 200.84c, 200.84e [Revoked]

33. In Subpart D, §§ 200.84c and 200.84e are revoked.

34. Section 200.85 is revised to read as follows:

§ 200.85 Executive Board.

(a) *Members.* The committee called the Executive Board is composed of the following members: Assistant Secretary-Federal Housing Commissioner, Chairman; Deputy Assistant Secretary-Deputy Federal Housing Commissioner, Vice Chairman; Executive Assistant Commissioner; Director, Office of Policy and Program Analysis and Development; Director, Office of Management Systems; Director, Office of Underwriting Standards; Director, Office of Field Support; Director, Publicly Financed Housing Division and Director, Property Improvement and Mobile Homes Division.

(b) *Functions.* The functions of the Executive Board are to consider and advise with respect to basic policy, plans and general program matters of Housing Production and Mortgage Credit and the Federal Housing Administration.

§§ 200.86, 200.87 [Revoked]

35. In Subpart D, §§ 200.86 and 200.87 are revoked.

36. Section 200.89 is revised to read as follows:

§ 200.89 Substantial Compliance Committee.

(a) *Members.* The Substantial Compliance Committee is composed of the following members: Director, Property Improvement and Mobile Homes Division, Chairman; a designee of the Director, Office of Policy and Program Analysis and Development; a designee of the

Director, Office of Management Systems including a representative of the Office of Finance and Accounting (by agreement with the Assistant Secretary for Administration), and a representative of the Assistant Secretary for Housing Management; and such other members as the Assistant Secretary-Federal Housing Commissioner may designate.

(b) *Functions.* The functions of the Substantial Compliance Committee are to waive compliance with regulations heretofore or hereafter prescribed with respect to the interest and maturity of, and the terms, conditions, and restrictions under which loans, advances of credit, and purchases may be insured under section 2 of title I of the National Housing Act if, in the judgment of the committee, the enforcement of such regulations would impose an injustice upon an insured institution which has substantially complied with such regulations in good faith and has refunded or credited any excess charge made, and if such waiver does not involve an increase of the obligation which would have been involved if the regulations had been fully complied with.

§§ 200.90, 200.91 [Revoked]

37. In Subpart D, §§ 200.90 and 200.91 are revoked.

38. Section 200.92 is revised to read as follows:

§ 200.92 Structural Defects Committee.

(a) *Members.* The Structural Defects Committee is composed of the following members or their designees: Director, Office of Underwriting Standards, Chairman; Director, Single Family Underwriting Division; Director, Multifamily Underwriting Division; Director, Office of Field Support; Director, Office of Management Systems; including a representative of the Director, Mortgage Insurance Accounting (by agreement with the Assistant Secretary for Administration) and a representative of the Office of General Counsel and such other members as the Assistant Secretary-Federal Housing Commissioner may designate.

(b) *Functions.* The functions of the Structural Defects Committee are to take appropriate action in exceptionally difficult or questionable cases relating to expenditures to correct or compensate for structural or other defects which seriously affect the use and livability of a house financed with an insured mortgage following established guidelines pursuant to section 518 of the National Housing Act. The Committee also acts in an advisory capacity in the establishment of guidelines for the processing by production personnel of claims under section 518 of the National Housing Act.

39. Section 200.93 is revised to read as follows:

§ 200.93 Multifamily Participation Review Committee.

(a) *Members.* The Multifamily Participation Review Committee is composed of the following members: Director, Participant Control and Supervision Division, Chairman; Director, Office of Management Systems, Vice Chairman; and one designee from each of the following: Director, Office of Underwriting Standards; Director, Publicly Financed Housing Division, Director, Multifamily Underwriting Division; Director, Office of Field Support including a representative of the Assistant Secretary for Housing Management; and such other members as the Assistant Secretary-Federal Housing Commissioner shall designate. The Chairman or Vice Chairman shall preside at each meeting of the Committee.

(b) *Functions.* The functions of the Mutlifamily Participation Review Committee are to act for the Assistant Secretary-Federal Housing Commissioner in determining the acceptability of new multifamily proposals, taking into consideration all past FHA and HUD experience with the principals.

40. Section 200.94 is revised to read as follows:

§ 200.94 Loan Assistance Committee.

(a) *Members.* The Loan Assistance Committee is composed of the following members: Director, Office of Underwriting Standards, Chairman; Director, Office of Policy and Program Analysis and Development; and Director, Office of Management Systems, or their designees, including a representative of the Office of Finance and Accounting (by agreement with the Assistant Secretary for Administration).

(b) *Functions.* The functions of the Loan Assistance Committee are to approve or disapprove the waiver of repayment in whole or in part of loans made under section 106 of the Housing and Urban Development Act of 1968 and section 207 of the Appalachian Regional Development Act of 1965, as amended.

41. Section 200.95 is revised to read as follows:

§ 200.95 Insuring Office Directors, Deputy Directors, and Assistants to the Director.

To the position of Director in each HUD Insuring Office, and under his general supervision to the positions of Deputy Director and Assistant to the Director and to each of them there is delegated the following duties and functions:

(a) To execute regulatory agreements and to issue eligibility statements, letters of feasibility, site appraisal and market analysis letters (SAMA), and commitments for insurance and to execute insurance contracts pursuant to such commitments, including mortgage insurance certificates. Provided, however, that the issuance of feasibility letters, conditional commitments, or final commitments to insure projects in accordance with section 236 shall require the concurrence, indicated by signature, on the part of the Regional Administrator as to projects for which feasibility letters or conditional commitments were issued after December 15, 1972.

(b) To approve a change in amount, a change in term, extension of the date of commencement of construction, extension of the expiration date, or any other modification in the commitment for insurance or insurance contract.

(c) To approve or disapprove "Change Orders" during construction.

(d) To make the high cost determinations for the Federal National Mortgage Association prescribed in section 305(g) of the National Housing Act.

(e) To make contracts for mortgage assistance payments under sections 235 and interest reduction payments under section 236 of the National Housing Act and to approve change in amount, change in term, or any other modification in such contracts before the mortgage is approved.

(f) To approve permissible refunds of processing fees.

(g) To approve or disapprove for mortgage insurance, advances of mortgage money during construction and execute such instruments as may be necessary therewith.

(h) To exercise the authority of the Assistant Secretary-Federal Housing Commissioner, where required, in granting prior credit approval under the provisions of title I of the National Housing Act and regulations thereunder.

(i) To act for the Assistant Secretary-Federal Housing Commissioner in determining applicable mortgage limits for communities in the insuring office jurisdiction for all mortgage insurance programs for which the Assistant Secretary-Federal Housing Commissioner is authorized to increase basic mortgage limits provided by law where cost levels so require.

(j) To make reservations of contract authority for mortgage assistance payments under section 235 of the National Housing Act and to modify or cancel such reservations and obligations of contract authority.

(k) To approve loans under section 106 of the Housing and Urban Development Act of 1968 subject to availability of funds, and under section 207 of the Appalachian Regional Development Act of 1965, as amended, subject to the availability of funds and concurrence of the Appalachian Regional Commission and to approve waiver of interest on loans made to nonprofit organizations under the Appalachian Regional Development Act of 1965.

(l) To approve claims and to take appropriate action to contract for repairs or otherwise correct or compensate the owner in accordance with established guidelines pursuant to section 518 of the National Housing Act.

(m) To execute on behalf of the Federal Housing Administration the reimbursement agreement pursuant to § 235.12 of this chapter.

(n) To have in addition to any other authority delegated to them, the same final authority delegated to their subordinates.

42. In Subpart D, a new § 200.95a is added to read as follows:

§ 200.95a Service Office Supervisors and Service Office Underwriters.

To the position of Service Office Supervisor in each HUD Service Office and

under his general supervision to the position of Service Office Underwriter there is delegated the following basic authority and functions:

(a) To direct or perform home mortgage insurance functions up to and including the issuance of firm commitments within the geographic area under his jurisdiction.

§§ 200.96, 200.97 [Revoked]

43. In Subpart D, §§ 200.96 and 200.97 are revoked.

44. In Subpart D, a new § 200.98a is added to read as follows:

§ 200.98a Chief Underwriter and Deputy.

To the positions of Chief Underwriter and Deputy Chief Underwriter there is delegated the following duties and functions:

(a) To approve and issue feasibility letters, site appraisal and market analysis letters (SAMA), commitments for mortgage insurance and insure mortgages pursuant to mortgage insurance commitments on multifamily housing.

§ 200.99 [Revoked]

45. In subpart D, § 200.99 is revoked.

§ 200.100 [Amended]

46. In § 200.100 the words "Assistant Secretary-Commisioner" are inserted in place of the word "Commissioner."

47. In subpart D, § 200.103 is revised to read as follows:

§ 200.103 Deputy Assistant Secretary-Deputy Commissioner, Executive Assistant Commissioner, and Directors of HPMC Offices and Divisions.

To the positions designated above there is delegated the duty and function to certify that official long distance telephone calls made were necessary in the interest of the Government, pursuant to 31 U.S.C. 680a (section 4 of the Act approved May 10, 1939, 53 stat. 738).

§§ 200.104–200.108 [Revoked]

48. In subpart D, the sections listed above are revoked.

49. In subpart D, § 200.109 is revised to read as follows:

§ 200.109 Regional Administrators, Deputy Regional Administrators and Assistant Regional Administrator for Housing Production and Mortgage Credit (Region VIII, Denver).

To the position of:

(a) Regional Administrators and Deputy Regional Administrators, and to each of them, there is delegated the following duties and functions:

(1) To allocate Below Market Interest Rate funds to eligible section 221(d)(3) projects and to make reservations of contract authority and to obligate contract authority for rent supplements and for interest reduction payments under section 236 of the National Housing Act and to modify or cancel such allocations and reservations.

(2) To approve or disapprove the eligibility of nonprofit sponsors and nonprofit mortgagors.

(3) To recommend to the Director, Office of Underwriting Standards (HPMC) approval of applications for financial assistance and approval of waiver of repayment of loans made under section 207 of the Appalachian Regional Development Act of 1965, as amended.

(4) To approve or disapprove, following initial endorsement, increases in project mortgage amounts recommended or referred by HUD Area or insuring Offices.

(5) To approve or disapprove loans for housing for the elderly or handicapped under section 202 of the Housing Act of 1959 and to make contracts and execute documents in connection therewith and, with respect to project applications for mortgage insurance under section 236 of the National Housing Act, to determine feasibility under section 236, issue commitments for mortgage insurance under section 236, insure such mortgages pursuant to such commitments, including approval of insured advances during construction, and, in connection with section 202 loans to be converted to insured mortgages under section 236, to assign and deliver such mortgages to the permanent lender.

(6) To approve claims in excess of $2,000 under section 518 of the National Housing Act, to advise field offices on exceptionally complex cases referred to them, and to refer difficult or questionable cases to the Structural Defects Committee for action.

(7) To have in addition to any other authority delegated to them, the same final authority delegated to their subordinates.

(8) The duties and functions set forth in § 200.118.

(b) To the Assistant Regional Administrator for Housing Production and Mortgage Credit, Region VIII, Denver, there is delegated the duties and functions as set forth in § 200.118.

50. In Subpart D, a new § 200.112a is added to read as follows:

§ 200.112a Chief, Finance and Mortgage Credit Section (Boston Area Office).

To the position of Chief, Finance and Mortgage Credit Section (Boston Area Office) there is delegated the following basic functions:

(a) To approve financial requirements for closing and execute and approve effective date of interest reduction payment contracts for multifamily housing programs.

(b) To approve requests for approval of advances under a preliminary loan contract or under a contract for planning and land acquisition.

(c) To approve requests for approval of advances of funds and requisition of funds for non-permanently financed low-rent public housing.

(d) To approve determinations of minimum development cost for low-rent public housing.

51. In Subpart D, new paragraph (d) is added to § 200.113 to read as follows:

§ 200.113 Assistant Director for Technical Services.

* * * * *

(d) To approve and issue feasibility letters, site appraisal and market analysis letters (SAMA), commitments for mortgage insurance and insure mortgages pursuant to mortgage insurance commitments on multifamily housing.

52. In Subpart D, a new § 200.113a is added to read as follows:

§ 200.113a Chief, Real Estate and Valuation Section (Boston Area Office).

To the position of Chief, Real Estate and Valuation Section (Boston Area Office) there is delegated the following basic functions:

(a) To make reservations of rent supplement contract authority for section 236 projects.

53. In Subpart D, § 200.114 is amended by adding new paragraphs (d) and (e) to read as follows:

§ 200.114 Assistant Director for Single-Family Mortgage Insurance and Deputy.

* * * * *

(d) To execute on behalf of the Federal Housing Administration the reimbursement agreement pursuant to § 235.12 of this chapter.

(e) To approve and issue feasibility letters, or subdivision reports in lieu thereof; to approve and issue commitments for mortgage insurance upon completion; and to insure mortgages pursuant to such commitments under section 234 of the National Housing Act, in cases involving one- to four-family structures or groups of such structures.

§ 200.115 [Amended]

54. In § 200.115, at the end of paragraph (b), the words "Director, Production Division" are changed to read "Director, Operations Division."

55. In § 200.116, the section heading and the introductory text are amended and paragraph (e) is added to read as follows:

§ 200.116 Director, Operations Division; Deputy Director, Operations Division; and Assistants to the Director, Operations Division.

To the position of Director, Operations Division, in each HUD Area Office, and under his general supervision to the positions of Deputy Director, Operations Division and Assistants to the Director, Operations Division, there is delegated the following duties and functions:

* * * * *

(e) To approve and issue feasibility letters, site appraisal and market analysis letters (SAMA), commitments for mortgage insurance and insure mort-

gages pursuant to mortgage insurance commitments on multi-family housing.

§ 200.117 Director, Housing Services and Property Management Division, and Chief, Property Operations Branch. [Revoked]

56. In Subpart D, § 200.117 is revoked.

57. In Subpart D, § 200.118 is amended by adding new paragraphs (f) and (g) to read as follows:

§ 200.118 Area Director and Deputy Area Director.

* * * * *

(f) To approve claims and to take appropriate action to contract for repairs or otherwise correct or compensate the owner in accordance with established guidelines pursuant to section 518 of the National Housing Act.

(g) To have in addition to any other authority delegated to them, the same final authority delegated to their subordinates.

§§ 200.120–200.122 [Revoked]

58. In Subpart D, §§ 200.120, 200.121, and 200.122 are revoked.

Effective date. This revision shall become effective September 27, 1974.

SHELDON B. LUBAR,
Assistant Secretary for Housing Production and Mortgage Credit, Federal Housing Commissioner.

[FR Doc.74-22509 Filed 9-26-74;8:45 am]

CHAPTER III—GOVERNMENT NATIONAL MORTGAGE ASSOCIATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-74-294]

PART 340—SPECIAL ASSISTANCE FUNCTIONS PURCHASE REQUIREMENTS

Statutory Maximum Mortgage Amounts

The basic mortgage amount limitations applicable to the purchase of mortgages by the Government National Mortgage Association set forth in Clause (3) of the proviso in the first sentence of section 302(b)(1) of the National Housing Act, 12 U.S.C. 1717(b)(1), as most recently amended by Section 807 of the Housing and Community Development Act of 1974, Public Law 93-383, approved August 22, 1974, which maximum amount had theretofore been $22,000 for each family residence or dwelling unit, is now $33,000.

However, the recently enacted legislation authorizes the Secretary of Housing and Urban Development to raise the newly established $33,000 basic maximum to such higher amount not in excess of $38,000 as he may by regulation specify in any geographical area where he finds cost levels so require.

As delegate of the Secretary of Housing and Urban Development, the undersigned has found that cost levels, particularly interest rates and discount points in residential mortgage financing, in generally all geographical areas in which the Association does business require raising the newly established $33,000 basic maximum to $38,000.

The rulemaking procedures set forth in 5 U.S.C. 553, heretofore known as the Administrative Procedures Act, with respect to notice of public participation and defined effective date were not followed in connection with these amendments because prompt action is deemed necessary and because they relieve restrictions. These amendments are being made effective upon signing, September 11, 1974.

Accordingly, § 340.15 is revised to read as follows:

§ 340.15 Statutory maximum mortgage amounts.

(a) In general, the original principal obligation of mortgages purchased under the Special Assistance Functions must not exceed $33,000 for each dwelling unit, plus an additional $2,500 for each dwelling unit having four or more bedrooms. These limitations do not apply to mortgages covering property located in Alaska, Guam, or Hawaii; to mortgages insured under section 220 or title VIII of the National Housing Act; to mortgages insured under section 213 of such Act and covering property located in urban renewal areas; to mortgages insured under title X of such Act with respect to new communities approved under section 1004 thereof, or, in certain circumstances of local tax abatement, to below-market interest rate mortgages insured under section 221(d)(3) or section 236 of such Act.

(b) Pursuant to Clause (3) of the proviso in the first sentence of section 302(b)(1) of the National Housing Act, 12 U.S.C. 1717(b)(1), the $33,000 maximum set forth in Subsection (a) of this Section is hereby raised to $38,000 in all geographical areas generally in which the Association does business.

(c) The amounts set forth in this section are maximums allowed by statute and may be reduced by issuances and particular contracts of the Association.

(Sec. 302(b)(1), National Housing Act, (12 U.S.C. 1717(b)(1)); sec. 309, National Housing Act (12 U.S.C. 1723a); Bylaws of the Association, Appendix to 24 CFR 310.1)

Effective date. This amendment is effective September 11, 1974.

DANIEL P. KEARNEY,
President, Government National Mortgage Association.

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-367]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the fourth column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 **Status of participating communities.**

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area Identified	State map repository	Local map repository
*	*	*	*	*	*	*
Illinois	Cook	McCook, village of	Sept. 24, 1974. Emergency	Apr. 5, 1974

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER E—PESTICIDE PROGRAMS

[FRL 270–1]

PART 180—TOLERANCES AND EXEMPTION FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Fenthion

A petition (PP 4F1472) was filed by Chemagro Division of Baychem Corp., P.O. Box 2037, Shawnee Mission, KS 66201, formerly P.O. Box 4913, Kansas City, MO 64120, in accordance with provisions of the Federal Food, Drug and Cosmetic Act (21 U.S.C. 346a) proposing establishment of a tolerance for combined residues of the insecticide fenthion (*O,O*-dimethyl *O*-[3-methyl-4-(methylthio)phenyl]phosphorothioate) and its cholinesterase-inhibiting metabolites in the raw agricultural commodities meat, fat, and meat byproducts of hogs at 0.1 part per million.

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. The insecticide is useful for the purpose for which the tolerance is being established.

2. The proposed tolerance is adequate to cover residues in the meat, fat, and meat byproducts of hogs from the proposed use.

3. The tolerance established by this order will protect the public health.

4. Section 180.3(e)(5) and § 180.214 should be revised to include the new chemical name for fenthion, *O,O*-dimethyl *O*-[3-methyl-4-(methylthio)phenyl]phosphorothioate.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805), Part 180 is amended as follows:

1. In § 180.3(e)(5), by deleting from the list of cholinesterase-inhibiting pesticides the item "*O,O*-Dimethyl *O*-[4-(methylthio) * * * and by alphabetically inserting a new item as follows:

§ 180.3 Tolerances for related pesticide chemicals.

* * * * *

(e) * * *

(5) * * *

Fenthion (*O,O*-dimethyl *O*-[3-methyl-4-(methylthio)phenyl]phosphorothioate) and its cholinesterase-inhibiting metabolites.

* * * * *

2. In Subpart C, by revising § 180.214 in the introductory paragraph and in the paragraph "0.1 part per million in meat * * *" to read as follows:

§ 180.214 Fenthion; tolerances for residues.

Tolerances are established for combined residues of the insecticide fenthion (*O,O*-dimethyl *O*-[3-methyl-4-(methylthio)phenyl]phosphorothiate) and its cholinesterase-inhibiting metaboblites in or on raw agricultural commodities as follows:

* * * * *

0.1 part per million in meat, fat, and meat byproducts of cattle, hogs, and poultry.

* * * * *

Any person who will be adversely affected by the foregoing order may at any time on or before October 29, 1974, file with the Hearing Clerk, Environmental Protection Agency, Room 1019E, 4th & M Streets, SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective September 27, 1974.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: September 23, 1974.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.74-22429 Filed 9-26-74;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 1—FEDERAL PROCUREMENT REGULATIONS

[FPR Amdt. 132]

PREFERENCE FOR U.S. FLAG AIR CARRIERS

This amendment of the Federal Procurement Regulations adds a new § 1–1.323, Preference for U.S. flag air carriers. The amendment prescribes policies and procedures for the air transportation of personnel and cargo under Government contracts between the United States and a foreign country and between foreign countries. The procedures include the use of a contract clause, as appropriate.

PART 1–1—GENERAL

The table of contents for Part 1–1 is changed by adding a new § 1–1.323, as follows:

Sec.

1–1.323 Preference for U.S. flag air carriers.

1–1.323–1 Policy.

1–1.323–2 Clause.

Subpart 1–1.3—General Policies

Subpart 1–1.3 is amended to add a new § 1–1.323, as follows:

§ 1–1.323 Preference for U.S. flag air carriers.

§ 1–1.323–1 Policy.

It is the policy of the United States that all Federal agencies, Government contractors and subcontractors use U.S. flag air carriers for international air transportation of personnel and cargo.

§ 1–1.323–2 Clause.

The contract clause prescribed by this section shall be included in (1) invitations for bids, (2) requests for proposals, and (3) contracts (including contracts resulting from unsolicited proposals) whenever it is possible that international air transportation of personnel and cargo will be required in the performance of the contract. The requirements of this section do not apply to small purchases made in accordance with Subpart 1–3.6.

PREFERENCE FOR U.S. FLAG AIR CARRIERS

(a) It is the policy of the United States that all Federal agencies and Government contractors and subcontractors utilize U.S. flag air carriers for international air transportation of personnel and cargo.

(b) The Contractor agrees to utilize U.S. flag air carriers to the maximum extent practicable in connection with the performance of this contract in the transportation by air of any personnel and cargo between the United States and a foreign country, or between foreign countries.

(c) The terms used in this clause have the following meanings:

(1) "International air transportation" means transportation by air of personnel and cargo from the United States to a foreign country, between two or more foreign countries, and between a foreign country and the United States.

(2) "U.S. flag air carrier" means one of a class of air carriers holding a certificate of public convenience and necessity issued by the Civil Aeronautics Board, approved by the President, authorizing scheduled operations over specified routes between the United States and/or its territories and one or more foreign countries.

(3) The term "United States" includes the fifty States, Commonwealth of Puerto Rico, possessions of the United States and the District of Columbia.

(4) "Practicable" includes (i) satisfactory servicing of agency programs, and (ii) timely deliveries at fair and reasonable prices.

(d) The Contractor shall include the substance of this clause, including this paragraph (d) in each subcontract or purchase hereunder which may involve air transportation between the United States and a foreign country or between foreign countries.

PART 1–2—PROCUREMENT BY FORMAL ADVERTISING

Subpart 1–2.2—Solicitation of Bids

Section 1–2.201 is amended to add a new paragraph (a)(32), as follows:

§ 1–2.201 Preparation of invitations for bids.

* * * * *

(a) * * *

(32) If international air transportation of personnel and cargo is possible

during the performance of the contract, include the provision set forth in § 1–1.323–2.

* * * * *

PART 1–7—CONTRACT CLAUSES

The table of contents for Part 1–7 is amended by the addition of the following new entries:

Sec.
1–7.103–26 Preference for U.S. flag air carriers.
1–7.203–22 Preference for U.S. flag air carriers.
1–7.602–15 Preference for U.S. flag air carriers.

Subpart 1–7.1—Fixed-Price Supply Contracts

Section 1–7.103 is amended to add a new § 1–7.103–26, as follows:

§ 1–7.103–26 Preference for U.S. flag air carriers.

Insert the clause set forth in §1–1.323–2 under the conditions prescribed therein.

Subpart 1–7.2—Cost-Reimbursement Type Supply Contracts

Section 1–7.203 is amended to add a new § 1–7.203–22, as follows:

§ 1–7.203–22 Preference for U.S. flag air carriers.

Insert the clause set forth in §1–1.323–2 under the conditions prescribed therein.

Subpart 1–7.6—Fixed-Price Construction Contracts

Section 1–7.602 is amended to add a new § 1–7.602–15, as follows:

§ 1–7.602–15 Preference for U.S. flag air carriers.

Insert the clause set forth in §1–1.323–2 under the conditions prescribed therein.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. This amendment is effective October 21, 1974, but may be observed earlier.

Dated: September 16, 1974.

DWIGHT A. INK,
Acting Administrator of General Services.

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 53—GRANTS, LOANS AND LOAN GUARANTEES FOR CONSTRUCTION AND MODERNIZATION OF HOSPITALS AND MEDICAL FACILITIES

PART 57—GRANTS FOR CONSTRUCTION OF HEALTH RESEARCH FACILITIES (INCLUDING MENTAL RETARDATION RESEARCH FACILITIES), TEACHING FACILITIES, STUDENT LOANS, EDUCATIONAL IMPROVEMENT AND SCHOLARSHIPS

Revision of General Standards of Construction and Equipment for Hospital and Medical Facilities

On June 28, 1973, there was published in the FEDERAL REGISTER (38 FR 17030) a "Notice of Proposed Revision of General Standards of Construction and Equipment for Hospital and Medical Facilities." These standards are issued in accordance with section 603(b) of the Public Health Service Act, 42 U.S.C. 291c(b), and are incorporated by reference in 42 CFR 53.101(a). This notice described the changes which were proposed to be made in the "General Standards," stated the availability of copies of the proposed document, and invited public comments thereon. A total of 48 letters of comments was received as a result of the notice. On the basis of a review and consideration of these comments, the proposed document, with applicable changes, was approved by the Federal Hospital Council at its meeting of June 20, 1974, and is hereby adopted as of September 27, 1974.

The comments and the applicable changes are summarized as follows:

1. 10 letters were from various interests in the wood industry and objected to inclusion of the NFPA 101 Life Safety Code, including the requirement for sprinkling of one-story protected wood construction. They contended that NFPA discriminated against wood construction by requiring the extra expense of sprinklers, whereas sprinklers could be omitted from all but areas of special hazard in protected steel and concrete frame buildings. The letters claimed that properly protected wood construction might be as safe as protected steel and concrete structures in a fire situation, especially for one-story structures. However, since a substantial portion of patient care reimbursement is from the Medicare and Medicaid Programs, which require compliance with NFPA 101, the Department has referenced that code in these minimum requirements.

2. Thirteen letters received had comments about flame spread or smoke production requirements. Of these, 7 were complimentary and endorsed the requirements. An inadvertent omission occasioned two letters that pointed out that the explosion preventive qualities of conductive floors used in operating rooms would be compromised if such floors were required to meet smoke production limitations. Their point was accepted. Two objected to any requirement for flame or smoke ratings in view of the imperfections of present test procedures. A representative of the National Bureau of Standards objected to inclusion of optional tests and suggested that only the E 84 test for flame spread and the Smoke Density Chamber test for smoke production be allowed. One State agency objected that the revised requirements were too low.

It has become obvious that the loss of life attributable to fire in health care facilities is primarily due to smoke rather than to the flames themselves. Previous requirements as to flame spread are therefore being supplemented by smoke requirements. The minimum smoke requirements will utilize the NBS Smoke Density Chamber Test. The E 84 test will measure flame spread.

3. Four letters asked for clarification of mechanical requirements. Appropriate clarifications have been made.

4. Two letters suggested a requirement for clearance at the foot of each bed in multibed rooms so that any bed could be moved in or out without the need to move other patients. This suggestion has been incorporated in the final document.

5. Several of the States offered criticism that these requirements are not as stringent or all-inclusive as their individual regulations. The Department believes that the States should have the prerogative to add on to the Federal requirements if needed to meet local conditions and that it would be improper for the Federal Government to require all States to conform to the requirements of the most severe State regulations.

6. A few of the letters suggested a number of additional requirements. After a careful review, it was found that most of these were excellent recommendations but inappropriate for minimum requirements that would affect facilities nation-wide.

7. Other comments were primarily of an editorial nature. Where questions were noted, wording has been changed for clarification.

8. Since the document as a whole reflects minimum requirements rather than standards, it will be published under the title "Minimum Requirements of Construction and Equipment for Hospital and Medical Facilities," DHEW Publication No. (HRA) 74–4000. Requests for copies of this publication should be directed to the Division of Facilities Utilization, Health Resources Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Maryland 20852, or to the nearest Regional Office Information Center as listed in 45 CFR 5.31. It is noted that documents and standards referred to and adopted in the "Minimum Requirements" are the current editions as of the date of this notice.

As a result of the revision of the document previously incorporated by reference in 42 CFR 53.101(a), including the change of the title of the document, a number of necessary editorial amendments to Title 42 of the Code of Federal Regulations are hereby adopted as set forth below, effective on September 27, 1974.

Dated: July 29, 1974.

CHARLES C. EDWARDS,
Assistant Secretary for Health.

Approved: September 20, 1974.

FRANK CARLUCCI,
Acting Secretary of Health, Education and Welfare.

§ 53.1 [Amended]

1. Section 53.1(1)(2) of Part 53 is amended by replacing the words "General Standards" in the second sentence thereof with the words "Minimum Requirements."

2. Section 53.101(a) of Part 53 is revised to read as follows:

§ 53.101 General.

(a) Plans and specifications for each project submitted to the Secretary shall

be prepared in accordance with "Minimum Requirements of Construction and Equipment for Hospital and Medical Facilities" (DHEW Publication No. (HRA) 74-4000), which is hereby incorporated by reference and deemed published herein. Said document will be provided to all applicants for assistance under this part, and is available to any interested person, whether or not affected by the provisions of this part, upon request to the Division of Facilities Utilization,[1] Health Resources Administration, Department of Health, Education, and Welfare, or to the Department's Regional Offices as listed in 45 CFR 5.31. The Secretary may approve plans and specifications which contain deviations from the requirements prescribed if he is satisfied that the purposes of such requirements have been fulfilled.

* * * * *

§ 53.125 [Amended]

3. Section 53.125 of Part 53 is amended by replacing the words "General Standards" in the second sentence thereof with the words "Minimum Requirements."

4. Appendix A to Subpart B of Part 57 is amended by replacing the words "'General Standards of Construction and Equipment for Hospital and Medical Facilities' (PHS No. 930-A-7)" in the fourth sentence of the first paragraph thereof with the words "Minimum Requirements of Construction and Equipment for Hospital and Medical Facilities' (DHEW Publication No. (HRA)74-4000)."

NOTE: The incorporation by reference provision in this document was approved by the Director of the Federal Register on June 27, 1974.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. 1198]

PART 1033—CAR SERVICE

The Baltimore and Ohio Railroad Co. and Louisville and Nashville Railroad Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C. on the 23rd day of September, 1974.

It appearing, that the Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond, and John H. McArthur, Trustees (PC) is unable to operate over its line from Bicknell, Indiana to Vincennes, Indiana because of unsafe bridge conditions; that The Baltimore and Ohio Railroad Company (B&O) and the Louisville and Nashville Railroad Company (L&N) have agreed to serve patrons affected by the inability of the (PC) to provide service; that the (B&O) will operate its crews over that portion of the (PC's) Vincennes secondary tracks between milepost 116.4 and milepost 116.9 and the (L&N) will operate its crews over that portion of the (PC's) Vincennes secondary tracks between mileposts 117.3 and the milepost 118.26; that such use of the aforementioned tracks of the (PC) by the (B&O) and (L&N) is necessary in the interest of the public and the commerce of the people; that notice and public procedure herein are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1198 Service Order No. 1198.

(a) *The Baltimore and Ohio Railroad Company and Louisville and Nashville Railroad Company, authorized to operate over tracks of Penn Central Transportation Company, (Robert W. Blanchette, Richard C. Bond, and John H. McArthur trustees)*. The Baltimore and Ohio Railroad Company (B&O) and the Louisville and Nashville Railroad Company (L&N) be, and are hereby, authorized to operate over tracks of the Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond, and John H. McArthur, Trustees (PC) in Vincennes, Indiana. The (B&O) will operate its crews over that portion of the (PC's) secondary tracks between milepost 116.4 and milepost 116.9, and the (L&N) will operate its crews over that portion of the (PC's) secondary tracks between milepost 117.3 and milepost 118.26.

(b) *Application*. The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(c) *Rates applicable*. Inasmuch as the operations by the B&O and L&N over tracks of the PC is deemed to be due to the PC's disability, the rates applicable to traffic moved by the B&O and L&N over the tracks of the PC shall be the rates which were applicable on the shipments at the time of shipment as originally routed.

(d) *Effective date*. This order shall become effective at 12:01 a.m., September 24, 1974.

(e) *Expiration date*. The provisions of this order shall expire at 11:59 P.M., March 31, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17 (2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17 (2). Interprets or applies Secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2))

It is further ordered, that copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD, *Secretary*.

SUBCHAPTER B—TAKING, POSSESSION, TRANSPORTATION, SALE, PURCHASE, BARTER, EXPORTATION, AND IMPORTATION OF WILDLIFE

PART 20—MIGRATORY BIRD HUNTING

Open Seasons, Bag Limits, and Possession of Certain Migratory Game Birds; Correction

Open seasons and daily bag and possession limits for certain migratory game birds for the 1974-75 hunting season were published in the FEDERAL REGISTER of September 3, 1974 (39 FR 31883; FR Document 74-20064). Based on recent information received from the Tennessee Game and Fish Commission, a typographical error is corrected as follows:

On page 31883, in § 20.104, in the table for the Mississippi Flyway, the season dates for Rails (Sora and Virginia) in Tennessee are amended to read: "Nov. 20 to Dec. 1; Dec. 11 to Jan 17."

Effective date: September 28, 1974.

(40 Stat 755; 16 U.S.C. 703 et seq.)

[SEAL] DOUGLAS P. WHEELER, *Deputy Assistant Secretary for Fish and Wildlife and Parks.*

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

United States Customs Service

[19 CFR Part 111]

CUSTOMHOUSE BROKERS

License Revocation and Suspension Hearings

Notice is hereby given that pursuant to authority contained in R.S. 251, as amended (19 U.S.C. 66) and sections 624, 641, 46 Stat. 759, as amended (19 U.S.C. 1624, 1641), it is proposed to amend Part 111 of the Customs regulations (19 CFR Part 111) to provide for the appointment, as presiding Customs officer at a customhouse broker's license suspension or revocation hearing, of a Customs officer from a Customs district other than the district for which the license was issued.

Presently, § 111.67(a) of the Customs regulations provides that the district director of Customs of the district for which the customhouse broker's license was issued will preside at a hearing to suspend or revoke that license. Pursuant to other provisions of Part 111 of the regulations, the district director also initiates and reviews the investigation of the charges prompting the proposed suspension or revocation of the license and, based on the record of the hearing, forwards to the Assistant Secretary of the Treasury his recommendation with respect to the suspension or revocation. The United States Customs Service has determined that the best interests of the Government and the public would be served if the hearing relative to the suspension or revocation of a customhouse broker's license were held before a Customs officer other than the district director of the district for which the license was issued or a Customs officer under that district director's control.

It is also necessary to amend § 111.54 of the Customs regulations to change the phrase "chief officer of the Customs" as used with reference to section 641(b) of the Tariff Act of 1930, as amended (19 U.S.C. 1641(b)), to "appropriate officer of the Customs" in order to conform the language of the regulations with a similar amendment to the language of 19 U.S.C. 1641(b) made in 1970.

Accordingly, it is proposed to amend §§ 111.54, 111.65 through 111.69, and 111.76 of the Customs regulations (19 CFR 111.54, 111.65–69, 111.76), in the following manner:

1. It is proposed to amend § 111.54 to read as follows:

§ 111.54 Appropriate officer of the Customs.

Unless otherwise indicated in this part, the district director shall be the appropriate officer of the Customs within the scope of section 641(b) of the Tariff Act of 1930, as amended (19 U.S.C. 1641(b)). In the case of sickness or absence of the district director, the assistant district director designated by the district director shall be the appropriate officer of the Customs. If the office of district director is vacant or the district director is unable to designate an assistant district director as appropriate officer of the Customs, the Commissioner shall designate one of the assistant district directors to be the appropriate officer of the Customs.

2. It is proposed to amend §§ 111.65 and 111.66 to read as follows:

§ 111.65 Extension of time for hearing.

If the broker or his attorney requests in writing a delay in the hearing on the ground that additional time is necessary to prepare a defense, the hearing officer designated pursuant to § 111.67 (a) may reschedule the hearing, notifying the broker or his attorney in writing of the extension and the new time for which the hearing has been scheduled.

§ 111.66 Failure to appear.

When an accused broker or his attorney fails to appear for a scheduled hearing, the hearing officer designated pursuant to § 111.67 (a) shall proceed with the hearing as scheduled, and shall hear evidence submitted on behalf of the Government. The regulations of this part shall apply as though the broker were present, and the Secretary of the Treasury may issue an order of suspension or revocation if he finds it to be in order.

3. It is proposed to amend paragraphs (a), (c), and (d) of § 111.67 to read as follows:

§ 111.67 Hearing.

(a) *Government representatives.* The Commissioner shall designate as hearing officer an appropriate officer of the Customs other than a Customs officer of the district for which the license was issued. The hearing officer shall provide a competent reporter to make a record of the hearing. The Commissioner shall designate one or more persons to represent the Government at the hearing. The hearing officer may designate one or more persons to assist in the proceedings.

* * * * *

(c) *Interrogatories.* Upon the written request of either party, the hearing officer may permit deposition upon oral or written interrogatories to be taken before any officer duly authorized to administer oaths for general purposes or in Customs matters. The other party to the hearing shall be given a reasonable time in which to prepare cross-interrogatories and, if the deposition is oral, shall be permitted to cross-examine the witness. The deposition shall become part of the hearing record.

(d) *Transcript of record.* When the record of the hearing has been transcribed by the reporter, the hearing officer shall deliver a copy to the broker and the Government's representative without charge.

4. It is proposed to amend §§ 111.68 and 111.69 to read as follows:

§ 111.68 Proposed findings and conclusions.

The hearing officer shall allow the parties a reasonable period of time after delivery of the transcript of record in which to submit proposed findings and conclusions and supporting reasons therefor as contemplated by 5 U.S.C. 557(c).

§ 111.69 Recommended decision by hearing officer.

After review of the proposed findings and conclusions submitted by the parties pursuant to § 111.68, the hearing officer shall make his recommended decision in the case and certify the entire record to the Secretary of the Treasury. The hearing officer's recommended decision shall conform with the requirements of 5 U.S.C. 557.

5. It is proposed to amend § 111.76 to read as follows:

§ 111.76 Reopening the case.

(a) *Grounds for reopening.* Any person whose license has been suspended or revoked may make written application in duplicate to the hearing officer to have the order of suspension or revocation set aside or modified upon the ground of newly discovered evidence or that important evidence is now available which could not be produced at the original hearing by the exercise of due diligence. The application must set forth specifically the precise character of the evidence to be relied upon and shall state the reasons why the applicant was unable to produce it when the original charges were heard.

(b) *Procedure.* The hearing officer shall forward the application with his recommendation to the Secretary of the Treasury. The Secretary may grant or deny the application for reopening of the case and may order the taking of additional testimony before the hearing officer. The hearing officer shall notify the applicant of the Secretary's decision. If the Secretary grants the application and

orders a hearing, the hearing officer shall set a time and place for such hearing and give due notice thereof to the applicant. The procedure governing the additional hearing and recommended decision of the hearing officer shall be the same as that governing the original proceeding.

Prior to the adoption of the above amendments consideration will be given to all relevant data, views, or arguments pertaining to the proposed amendments which are submitted in writing to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229. To insure consideration of such submissions, they must be received not later than October 29, 1974.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.8 (b) of the Customs regulations (19 CFR 103.8 (b)), at the Regulations Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

Approved: September 18, 1974.

JAMES B. CLAWSON,
Acting Assistant Secretary of the Treasury.

[FR Doc.74-22540 Filed 9-26-74;8:45 am]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Parts 102, 106]

GRAIN AND DRY BEAN WAREHOUSES

Proposed Increase in Bond and Net Asset Requirements

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that the Agricultural Marketing Service, pursuant to the authority conferred by section 28 of the U.S. Warehouse Act (7 U.S.C. 268) is considering amending warehouse regulations appearing in Parts 102 and 106 of Subchapter E of Chapter I in Title 7 of the Code of Federal Regulations to increase the bond and net asset requirements for licensing under the Act.

Losses to depositors in warehouses licensed under the United States Warehouse Act have been negligible and the integrity and acceptance of warehouse receipts issued for grain and dry beans stored in such warehouses has been largely unchallenged. The proposed increases in bond and net asset requirements are based on recent market developments, and are designed to minimize the risk of future losses. The increased bond and net asset requirements, along with continuation of a program of unannounced inspection of warehouses, should insure continued integrity and acceptance of the Federal warehouse receipt and provide protection to depositors.

The regulations would be amended in the following respect:

1. Paragraph (a) of § 102.6 (Net Assets (Grain)) be amended to delete "15 cents per bushel for the maximum number of bushels of grain that his warehouse could accommodate * * *" and to substitute "20 cents per bushel for the maximum number of bushels of grain that his warehouse could accommodate * * *"

2. Paragraph (a) of § 102.14 (Amount of Bond (Grain)) be amended to delete "a rate of 15 cents per bushel for the first 1,000,000 bushels of licensed capacity; 10 cents for the next 1,000,000 bushels of licensed capacity; and 5 cents per bushel for all licensed capacity over 2,000,000 bushels: *Provided*, That in any case the amount of bond shall not be less than $5,000 nor more than $500,000, except as provided in paragraph (c) of this section," and to substitute "a rate of 20 cents per bushel for the first 1,000,000 bushels of licensed capacity; 15 cents per bushel for the next 1,000,000 bushels of licensed capacity; and 10 cents per bushel for all licensed capacity over 2,000,000 bushels: *Provided*, That in any case the amount of bond shall not be less than $20,000 nor more than $500,000, except as provided in paragraph (c) of this section."

3. Section 106.5 (Net Assets Required (Dry Beans) be amended to delete "at least 22 cents per hundredweight for the maximum number of hundredweight that the warehouse will accommodate * * *" and to substitute "at least 40 cents per hundredweight for the maximum number of hundredweight that the warehouse will accommodate * * *"

4. Section 106.12 (Basis of Amount of Bond (Dry Beans) be amended to delete "the rate of 33 cents per hundredweight for the maximum number of hundredweight that the warehouse will accommodate, * * * but not less than $5,000 nor more than $200,000" and to substitute "the rate of 40 cents per hundredweight for the maximum number of hundredweight that the warehouse will accommodate, * * * but not less than $20,000 nor more than $200,000."

The following statement of considerations explains further the need for the proposed changes:

Events in the past 2 years have increased the financial risk involved in the operation of grain and dry bean warehouses. Whenever the financial condition of a warehouseman is threatened, there is increased risk that he may not be able to fulfill his obligation to depositors.

Grain and dry bean prices have more than doubled in this period. Such price increases swell the dollar amounts of any losses sustained by a warehouseman through spoilage, insect infestation, and natural shrinkage.

Other market conditions also increase storage risk. Uncertain transportation can prevent movement of threatened commodities out of a warehouse in time to prevent further deterioration. Uncertain fuel supply can impair a warehouseman's ability to dry high moisture commodities to storable moisture levels. Storage of high moisture commodities requires extra attention and expense, and increases the possibility of extensive spoilage.

Most warehousemen engage in other lines of business that require substantial amounts of capital. The merchandising operations carried on by warehousemen involve an increasing use of purchase and sales contracts. High interest rates and problems in the contracting area can materially affect a warehouseman's financial position.

Rapidly increasing costs of building, equipment and labor, insurance, along with expenditures for environmental and safety compliance, exert further pressure on the financial well-being of warehousemen.

In order to meet these demands a warehouseman must operate from a sound financial base. When this base is weak or jeopardized, depositors must be assured that they still have financial protection. The formula used to compute net asset and bond requirements provides for more bond protection where there are minimal net assets, and less bond where the net assets are deemed adequate. The modest increases in net asset requirements, in the rate for fixing the amount of bond, and in the minimum bond requirements, are justified in order to maintain the acceptability and integrity of the Federal warehouse receipt; to protect depositors' interests in commodities stored in licensed warehouses; and to continue a sound system of warehouses for storage of agricultural commodities.

All persons who desire to submit written data, views, or arguments on this proposal should file them in triplicate with the Hearing Clerk, U.S. Department of Agriculture, 14th and Independence Avenue, S.W., Washington, D.C. 20250, not later than October 29, 1974. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Done at Washington, D.C., September 23, 1974.

JOHN C. BLUM,
Associate Administrator.

CHARTER BUS OPERATIONS

Advance Notice of Proposed Rulemaking

Section 813 of the Housing and Community Development Act of 1974 (P.L. 93-383) provides that no Federal financial assistance for the purchase of buses may be provided under (1) the Urban Mass Transportation Act of 1964 (49 U.S.C. 1601 et seq.); (2) subsection (a) or (c) of section 142, title 23, United States Code; or (3) paragraph (4) of subsection (e) of section 103, title 23, United States Code, unless the recipient of such assistance shall as a condition of such assistance enter into an agreement with the Secretary of Transportation. This agreement must provide that any public body which is the recipient of such assistance, or any operator of mass transportation for such public body, will not engage in charter bus operations outside the urban area within which it provides regularly scheduled mass transportation service except as authorized in the agreement. Such agreements shall provide for fair and equitable arrangements, appropriate in the judgment of the Secretary, to assure that the financial assistance granted under the named statutes will not enable public bodies and operators for public bodies to foreclose private operators from the intercity charter bus industry where such private operators are willing and able to provide such service. The Urban Mass Transportation Administration is considering formulating Regulations to enforce and execute these statutory requirements.

This advance notice of proposed rulemaking is being issued to invite public participation in the identification and selection of a course or alternate courses of action in the development and issuance of guidelines, standards, regulations, and procedures for the implementation of section 813 of the Housing and Community Development Act of 1974. On Thursday, October 3, 1974, at 10 a.m. in Room 10234, Department of Transportation Building, 400 Seventh Street SW., Washington, D.C., a meeting will be held to discuss these subjects. All interested persons are invited to attend this meeting to submit their views and suggestions. If it is determined to be in the public interest to proceed further after consideration of the facts and comments adduced at this meeting, a notice of proposed rulemaking will be issued.

All inquiries may be addressed to: Urban Mass Transportation Administration, Office of the Chief Counsel, Room 9320, 400 Seventh Street SW, Washington, D.C. 20590 (Telephone: (202) 426-1906).

This advance notice of proposed rulemaking is issued under the authority of 49 CFR 1.45, 1.50.

Issued in Washington, D.C. on September 24, 1974.

FRANK C. HERRINGER,
Urban Mass Transportation Administrator.

[FR Doc.74-22535 Filed 9-26-74;8:45 am]

COST ACCOUNTING STANDARDS BOARD

[4 CFR Parts 331, 351]

CONTRACT COVERAGE AND BASIC REQUIREMENTS

Miscellaneous Amendments

Public Law 91-379 requires that Cost Accounting Standards must be used in all negotiated prime contract and subcontract national defense procurements with the United States in excess of $100,000, with certain stated exceptions. The Board refers to such contracts from time to time as "covered contracts". Section 719(h)(2) of that law authorizes the Cost Accounting Standards Board to prescribe rules exempting from its requirements such classes or categories of national defense contractors and subcontractors as it determines, on the basis of the size of the contracts involved or otherwise, are appropriate and consistent with the purposes sought to be achieved by Pub. L. 91-379. The Board has granted several exemptions to classes or categories of contractors and subcontractors and also has established a procedure under which waiver of the Board's requirements may be granted for individual contracts.

From time to time proposals have been made to the Board to grant exemptions, (1) to contractors which have a relatively small dollar volume of covered contracts, (2) to contractors whose sales under such contracts represent a relatively small percentage of their total sales, or (3) by increasing the minimum size of contract awards which require compliance with Standards.

Acting pursuant to section 719(h)(2), the Board recently requested contractors to submit sales data showing the dollar volume of sales under covered contracts and total sales for all contractor organizations which had at least one covered contract. The sales data were to be reported for the contractor's most recent fiscal year. The Board received responses from 645 companies reporting sales for 1538 different profit centers, divisions, subsidiaries, departments and similar organizational units under the control of the parent company. Responses were made by only about 35 percent of those companies which were specifically requested, in two separate mailings, to provide sales data.

The Board has also considered statistics relating to the size of prime contracts awarded by the Department of Defense (DOD) and the number of prime contractors involved at various levels of contract amounts. DOD has reported that in fiscal year 1793, 2,760 contractors received negotiated prime contracts of the type subject to Standards in a total amount of about $22 billion. Comparable statistics relating to subcontract awards are not readily available. Also, while procurement award statistics have not been obtained for other agencies making national defense procurements, it is unlikely that such statistics would materially change the picture presented by the statistics reported by DOD.

The Board has studied the information which was before it relating to sales by contractors under contracts subject to Board requirements and to the number and dollar volume of prime contracts awarded by the DOD. The Board has concluded that it would be appropriate to increase the minimum size of contract awards subject to Standards. This approach has the advantages of simplifying administration by Government agencies, avoiding the possible complications that could arise through any need for Government verification of commercial sales data, and allowing the exclusion of a large number of contractors from Standards, including most particularly smaller contractors, while exempting only a relatively small percentage of total contract dollars.

The Board is proposing therefore that the minimum contract amount requiring compliance with Cost Accounting Standards Board rules, regulations, and Standards be increased from $100,000 to $500,000. The Board's proposal provides that after January 1, 1975, contractors would become subject to Standards upon receipt of a covered prime contract or subcontract in excess of $500,000. Following receipt of such an award, a contractor then would be required to comply with Standards on all subsequently awarded prime contracts and subcontracts of the kind subject to Board requirements and exceeding $100,000, unless otherwise exempt.

It should be noted that the CAS Clause as originally published and this proposed amendment to it, refer to "contractors". The Board's contract requirements have been applied to business units, such as a profit center, division, subsidiary, department, or similar unit of a company, which were to perform the contract, regardless of whether or not the contract in question was entered into on behalf of the overall company rather than that business unit. Thus, under the Board's proposal here, receipt of a contract in excess of $500,000 by one business unit of a multi-unit company would subject that business unit to the Board's requirements, but that fact would not in itself require other units of the same company to follow those requirements.

DOD statistics show that based on the Board's proposal about 750 contractors received contracts that would be covered, totaling an estimated $20 billion. Thus it can be seen that by exempting only 10 percent of the total annual DOD awards, the Board can exempt about 70 percent of the contractors receiving such awards.

Contractors who have not received a covered contract in excess of $500,000 may nevertheless elect to comply with Cost Accounting Standards on prime contracts and subcontracts of the kind subject to Board requirements and exceeding $100,000 and received after the effective date of the threshold. Accordingly, the proposed amendment to the Cost Accounting Standards Board rules provides for such an election by a contractor. Contractors will be required to make their election known at the time of the award of the first such contract after January 1, 1975. An election at that time to comply with Standards by an otherwise exempt contractor would make adherence to Cost Accounting Standards Board rules, regulations and Standards mandatory on all covered contracts.

The Board would intend if it eventually adopts the proposal here published for comment, to continue to study and investigate whether further exemption would be appropriate and consistent with the purposes of Pub. L. 91-379.

The Cost Accounting Standards Board solicits comments on the proposed amendment to its Contract Coverage and Basic Requirements. Interested persons should submit their comments to the Cost Accounting Standards Board, 441 G Street, N.W., Washington, D.C. 20548. To be given consideration by the Board in its deliberations relative to this proposal, written submissions must arrive no later than November 25, 1974.

All written submissions made pursuant to this notice will be made available to the public for inspection at the Board's offices during regular business hours.

(Sec. 103, 84 Stat. 796 (50 U.S.C. App. 2168))

In the material below designed to show the effect of the proposed amendments, language proposed to be added is italicized. Following are the proposed modifications:

§ 331.30 [Amended]

1. Amend paragraph (a) of § 331.30 *Applicability, exemption, and waiver*, by adding after the words, "in excess of $100,000", the following, "except as provided in paragraph (b) of this section,".

This amendment would have the following effect:

(a) The head of each relevant Federal agency shall cause or require the clause set forth in § 331.50, captioned "Cost accounting standards", to be inserted in all negotiated defense contracts in excess of $100,000, *except as provided in paragraph (b) of this section*, other than contracts entered into by the agency where the price is based on: (1) established catalog or market prices of commercial items sold in substantial quantities to the general public, or (2) prices set by law or regulation. Additionally, all solicitations, likely to result in a contract in which the clause set forth in § 331.50 must be inserted, shall include the notice set forth in § 331.40 captioned "Disclosure statement—cost accounting practices and certification."

2. Amend the same § 331.30 by adding to paragraph (b) thereof the following new subparagraph (8):

(8) Any contract or subcontract of $500,000 or less, unless it is awarded to a contractor who, on the date of such award, (i) has already received a contract or subcontract in excess of $500,000 and (ii) has not received final payment on that contract or subcontract and on all other contracts or subcontracts awarded after January 1, 1975, which were subject to the Cost Accounting Standards Clause. For purposes of this paragraph (b)(8), an intra-corporate transfer shall be considered to be a subcontract. Notwithstanding this exemption, any contractor entitled to an exemption under this paragraph (b)(8) may elect to comply with the Cost Accounting Standards Clause. The contractor may elect to comply in connection with the receipt of its first contract or subcontract awarded after January 1, 1975, which but for this subparagraph (8) would be subject to the Clause. A contractor who does not elect to comply with the Clause in connection with the receipt of the first contract or subcontract, may thereafter make such an election only if it receives a contract or subcontract of the type described, at a time when it has no other contract or subcontract of that type on which final payment has not been made.

3. Amend § 331.40 *Solicitation notice*, by adding after the words in the first sentence, "law or regulation", the following, "and except for contracts which may be exempt under the provisions of 4 CFR 331.30(b),"

This amendment would have the following effect:

§ 331.40 Solicitation notice.

DISCLOSURE STATEMENT—COST ACCOUNTING PRACTICES AND CERTIFICATION

(a) Any contract in excess of $100,000 resulting from this solicitation, except contracts where the price negotiated is based on: (a) established catalog or market prices of commercial items sold in substantial quantities to the general public, or (b) prices set by law or regulation, *and except for contracts which may be exempt under the provisions of 4 CFR 331.30(b)*, will be subject to the requirements of the Cost Accounting Standards Board. Any offeror submitting a proposal which, if accepted, will result in a contract subject to the requirements of the Cost Accounting Standards Board must, as a condition of contracting, submit a Disclosure Statement as required by regulations of the Board. The Disclosure Statement must be submitted as a part of the offeror's proposal under this solicitation unless, in compliance with agency procedures, the offeror has already submitted a Disclosure Statement disclosing the practices used in connection with the pricing of this proposal, or unless post-award submission has been authorized by the Contracting Officer in accordance with regulations of the Cost Accounting Standards Board (see 4 CFR 331.60). If an applicable Disclosure Statement has already been submitted, the offeror may satisfy the requirement for submission by providing the following information: [1]

[1] (The agency issuing the solicitation should specify the data which it will accept if any in lieu of resubmission of a Disclosure Statement already submitted.)

CERTIFICATION (APPLICABLE ONLY TO PROPOSALS RESULTING IN CONTRACTS SUBJECT TO COST ACCOUNTING STANDARDS BOARD REQUIREMENTS)

By submission of this offer, the offeror certifies that his practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the applicable Disclosure Statement.

4. Amend § 331.50 *Contract clause*, by adding after "law or regulation" in subsection (d)(ii), the following: ", and except that the requirement shall not apply to negotiated subcontracts otherwise exempt from the requirement to accept the Cost Accounting Standards Clause by reason of § 331.30(b) of Title 4, Code of Federal Regulations (4 CFR 331.30 (b))."

This amendment would have the following effect:

§ 331.50 Contract clause.

* * * * *

(d) The contractor shall include in all negotiated subcontracts which he enters into the substance of this clause except paragraph (b) of this section, and shall require such inclusion in all other subcontracts of any tier, except that this requirement shall apply only to negotiated subcontracts in excess of $100,000 where the price negotiated is not based on:

(i) Established catalog or market prices of commercial items sold in substantial quantities to the general public, or

(ii) Prices set by law or regulation, *and except that the requirement shall not apply to negotiated subcontracts otherwise exempt from the requirement to accept the Cost Accounting Standards Clause by reason of § 331.30(b) of Title 4, Code of Federal Regulations (4 CFR 331.30(b))*.

* * * * *

5. Amend § 351.40 *Filing requirement*, by inserting in the first sentence of paragraph (a) after the figures "$100,000", the following, "except as provided in § 331.30(b) of this chapter," and by inserting in the second sentence of paragraph (a) after the figures, "$100,000", the following, "except as provided in §331.30(b) of this Chapter,".

This amendment would have the following effect:

§ 351.40 Filing requirement.

(a) The requirements of this part are applicable to all defense contractors who enter into negotiated national defense contracts with the United States in excess of $100,000, *except as provided in § 331.30(b) of this chapter*, other than contracts where the price negotiated is based on (1) established catalog or market prices of commercial items sold in substantial quantities to the general public, or (2) prices set by law or regulation. A separate Disclosure Statement must be submitted covering the practices of each of the contractor's profit centers, divisions, or similar organizational units whose costs included in the total price of any contract exceed $100,000, *except as provided in § 331.30(b) of this Chapter*, except where such costs are based on (i) established catalog or market prices of commercial items sold in substantial quantities to the general public or (ii) prices set by law or regulation. If the

cost accounting practices under contracts are identical for more than one organizational unit, then only one Statement need be submitted for those units, but each such organizational unit must be identified. A Disclosure Statement will also be required for each Corporate or Group Office whose costs are allocated to one or more corporate segments performing contracts covered by Pub. L. 91–379.

* * * * *

6. Amend § 351.130 *Instructions and information*, by adding to paragraph (a) of the Instructions set forth in this section at the end of the third sentence thereof, the following, "or contracts exempt under the provisions of 4 CFR 331.30(b)", and by adding to the fourth sentence of paragraph (a) of the Instructions set forth in this section the words, "or contracts exempt under the provisions of 4 CFR 331.30(b)," at the end thereof.

This amendment would have the following effect:

§ 351.130 Instructions and information.

The following instructions and information shall be used by persons completing Disclosure Statements.

INSTRUCTIONS AND INFORMATION

(a) This Disclosure Statement has been designed to meet the requirements of Public Law 91–379, and persons completing it are to describe their contract cost accounting practices. For timing of requirement to file a Disclosure Statement, see § 351.40. A statement must be submitted by all defense contractors who enter into negotiated national defense contracts with the United States in excess of $100,000 other than contracts where the price negotiated is based on (1) established catalog or market prices of commercial items sold in substantial quantities to the general public, or (2) prices set by law or regulation, *or contracts exempt under the provisions of 4 CFR 331.30(b)*. A separate Disclosure Statement must be submitted covering the practices of each of the contractor's profit centers, divisions, or similar organizational units, whose costs included in the total price of any contract exceed $100,000, except where such costs are based on (1) established catalog or market prices of commercial items sold in substantial quantities to the general public, or (2) prices set by law or regulation, *or contracts exempt under the provisions of 4 CFR 331.30(b)*. If the cost accounting practices under contracts are identical for more than one organizational unit, then only one statement need be submitted for those units, but each such organizational unit must be identified. A Disclosure Statement will also be required for each corporate or group office when costs are allocated to one or more corporate segments performing contracts covered by Public Law 91–379, but only Part VIII of the statement need be completed.

NOTE: Forms CASB–DS–1 and CASB–DS–2, referred to in 4 CFR, sections 351.140 and 351.145, respectively, when revised, will be modified in accordance with the modifications to 4 CFR 351.130.

ARTHUR SCHOENHAUT,
Executive Secretary.

ARIZONA

Proposed Approval of Air Quality Compliance Schedule

On May 31, 1972 (37 FR 10842) and July 27, 1972 (37 FR 15080), pursuant to Section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved portions of the Arizona Plan for the implementation of ambient air quality standards. On July 30, 1974, after notice and public hearing, the Director of the Arizona Department of Health Services submitted to the EPA pursuant to 40 CFR 51.6 a compliance schedule for the Flintkote Company, Nelson, Arizona.

It has been determined that the compliance schedule satisfies the requirements of 40 CFR Part 51 and is consistent with the approved control strategy, and it is proposed to be approved. The schedule sets a new date by which the source must comply with the emission limitation specified in the applicable regulations. This date is indicated in the table below, under the heading "Final Compliance Date."

A copy of the complete implementation plan, including this proposed schedule is available for public inspection at the addresses listed below:

Environmental Protection Agency, Region IX
100 California Street
San Francisco CA 94111

Arizona Department of Health Services
State Health Building
1740 West Adams Street
Phoenix AZ 85007

The public is encouraged to submit written comments upon the proposed compliance schedule revision. Comments will be accepted on or before October 29, 1974. Comments should be addressed to:

Director, Enforcement Division
Environmental Protection Agency, Region IX
100 California Street
San Francisco CA 94111

Dated: September 18, 1974.

R. L. O'CONNELL,
Acting Regional Administrator.

It is proposed to amend Part 52 of Chapter I, Title 40 of the Code of Federal Regulations as follows:

Subpart D—Arizona

1. Section 52.134(c) is amended by adding the following schedule to the table:

§ 52.134 Compliance schedules.

* * * * *

(c) * * *

Source	Location	Regulation involved	Date of adoption	Effective date	Final compliance date
Flintkote Co.	Nelson	7–1–3.1, 7–1–3.2, and 7–1–3.6.	Apr. 26, 1974	Immediately	Feb. 28, 1975

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Proposed Amendments to Parking Management Regulations; New Public Hearing Date for Fairbanks, Alaska

Notice is hereby issued that the date of the public hearing to be held in Fairbanks, Alaska, published in the September 23, 1974 FEDERAL REGISTER (39 FR 34070), has been changed from October 31, 1974 to October 25, 1974.

As previously announced, the purpose of the hearing is to solicit public comment on the proposed revisions to the parking management regulations (40 CFR 52.86) of the Fairbanks Transportation Control Plan (39 FR 30440).

The location for the hearing, Hunter Elementary School Gymnasium at 16th and Gilliam Way in Fairbanks, Alaska, remains unchanged.

Dated: September 25, 1974.

EDWARD F. TUERK,
Acting Assistant Administrator for Air and Waste Management Environmental Protection Agency.

COMPLIANCE SCHEDULE REQUIREMENTS FOR FUEL-BURNING SOURCES ELIGIBLE FOR A COMPLIANCE DATE EXTENSION

Cancellation of Public Hearing

On August 29, 1974, at 39 FR 31548, the Assistant Administrator for Enforcement and General Counsel gave notice of a public hearing, pursuant to section 119(c)(2)(D)(4) of the Clean Air Act, as amended (June 22, 1974), to be held at 9 a.m., September 30, 1974, concerning proposed regulations designed to implement the new compliance date extension provisions of the Clean Air Act (42 U.S.C. 1857, et seq.). Those persons wishing to

make an oral presentation of data, views, and arguments were asked to notify the Chairman of the Hearing Panel of their intent to do so no later than September 23, 1974. No person expressed an intent to make such a presentation by that date. Therefore, the Agency has determined that a hearing would be unwarranted and the hearing is hereby cancelled.

If there are individuals who wish to have an opportunity to make an oral presentation of data, views, and arguments before October 10, 1974, they are encouraged to communicate this interest immediately to Richard D. Wilson, Division of Stationary Source Enforcement (EG–341), Environmental Protection Agency, Room 3202, 401 M Street S.W., Washington, D.C. 20460. Interested persons are also encouraged to submit written comments on the proposed regulations. These regulations and specific information regarding the submittal of writen comments, appear at 39 FR 32624 (September 10, 1974), as 40 CFR Part 55.

Dated: September 24, 1974.

ALAN G. KIRK,
Assistant Administrator for Enforcement and General Counsel

[40 CFR Part 180]

[FRL 269–3]

ETHEPHON

Proposed Tolerance

Amchem Products, Inc., Ambler, PA 19002, submitted a petition (PP 4E1440) proposing estabilshment of a tolerance for negligible residues of the plant regulator ethephon ((2-chloroethyl) phosphonic acid) in or on the imported raw agricultural commodity coffee beans at 0.1 part per million resulting from application of the plant regulator to the growing crop.

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. There is no reasonable expectation of residues in eggs, meat, milk, or poultry and § 180.6(a)(3) applies.

2. The proposed tolerance will protect the public health.

As expressed in the Code of Federal Regulations, the tolerance of "One-half part per million * * *" for residues of ethephon (§ 180.300) does not conform to the use of numerals as set forth in the U.S. Government Printing Office Style Manual. Accordingly, said tolerance should be editorially revised.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), it is proposed that § 180.300 be amended by revising the paragraph "One-half part per million * * *" and by adding the new paragraph "0.1 part per million * * *", as follows:

§ 180.300 Ethephon; tolerances for residues.

* * * * *

0.5 part per million in or on filberts and walnuts.

* * * * *

0.1 part per million (negligible residue) in or on coffee beans.

Any person who has registered or submitted an application for the registration of a pesticide under the Federal Insecticide, Fungicide, and Rodenticide Act containing any of the ingredients listed herein may request, until October 29, 1974, that this proposal be referred to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments with reference to this notice to the Federal Register Section, Technical Services Division (WH–569), Office of Pesticide Programs, Environmental Protection Agency, Room B–1, East Tower, 401 M Street, SW., Washington, D.C. 20460. Three copies of the comments should be submitted to facilitate the work of the Environmental Protection Agency and others interested in inspecting the documents. The comments must be received by October 29, 1974, and should bear a notation indicating the subject. All written comments filed pursuant to this notice will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: September 19, 1974.

JOHN B. RITCH, Jr.,
Director, Registration Division.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 31]

[Docket No. 20188; FCC 74–964]

UNIFORM SYSTEM OF ACCOUNTS FOR CLASS A AND CLASS B TELEPHONE COMPANIES

Proposal Regarding Depreciable Property

Notice of proposed rulemaking. In the matter of amendment of Part 31 (Uniform System of Accounts for Class A and Class B Telephone Companies) so as to permit depreciable property to be placed in groups comprised of units with expected equal life for depreciation under the straight-line method, Docket No. 20188 (RM–2259).

1. Notice of proposed rulemaking is hereby given in the above entitled matter.

2. In a petition filed by the American Telephone and Telegraph Company and the associated Bell System operating telephone companies, dated September 28, 1973, it was requested that the Commission amend Part 31 (Uniform System of Accounts for Class A and Class B Telephone Companies) of its Rules and Regulations so as to permit property, for depreciation accrual rate development purposes, to be placed in subgroups comprised of units expected to have the same life. In summary, Bell requests that we amend Part 31 so as to permit the use of the straight-line equal life group procedure (SLELG) of depreciation rate development for property (except station connections) placed in service after December 31, 1974. Currently, telephone companies are allowed to use only the straight-line group procedure of depreciation rate development as defined in Part 31 with depreciation rates being developed by using the straight-line vintage group procedure (SLVG). In this connection, the following amendments are proposed by Bell:

A. Under "Definitions," amend the text of § 31.01–3(p) to read as follows:

(p) "Group plan," as applied to depreciation accounting, means (i) the plan under which depreciation charges are accrued upon the basis of the original cost of all property included in each depreciable plant account, using the average service life thereof properly weighted, or (ii) the plan (see § 31.02–80(a)) under which depreciation charges are accrued upon the basis of the original cost of all property included in groups comprised of units expected to have the same life in each depreciable plant account, using the average service lives thereof properly weighted. Upon the retirement of any depreciable property its full service value is charged to the depreciation reserve whether or not the particular item has attained the average service life.

and

B. Under "Instructions for Depreciation Accounting," insert after the words "group plan of accounting for depreciation," in the third sentence of § 31.02–80(a), the following:

(Except that subparagraph (ii) of § 31.01–3(p) shall apply only to property placed in service after December 31, 1974.)

3. On October 10, 1973, pursuant to the provisions of § 1.403 of Part 1 of the Commission's rules, Public Notice was given in Report No. 883 of the fact that a Bell petition for rule making had been filed with the Commission on September 28, 1973. In the Public Notice it was pointed out that interested persons had thirty days from the date of the Notice within which to file comments either supporting or opposing the petition. Statements were filed by nineteen parties. Some of the comments were not timely. Others were not served upon the petitioner. The principal matters commented upon by the parties filing comments, in addition to brief comments addressed to the merits of the proposal, were those comments addressed to procedural matters. Three parties expressed support of the Bell proposal and three parties expressed opposition to it. Some of the parties commenting upon the Bell petition recommend that a hearing be held upon Bell's request for a change in our depreciation Rules. At this time we believe that it is appropriate to go forward with a normal rule making proceeding without scheduling a hearing. If we are convinced, after review and evaluation of the comments and reply comments received pursuant to this Notice, that a hearing is warranted we will issue a further notice in this proceeding.

4. Reply comments were filed by AT&T and served upon the parties which had filed timely comments and served them upon AT&T. In its reply comments AT&T

urges the Commission to proceed with the issuance of a Notice of Proposed Rule Making at the earliest opportunity.

5. The basic reason given by AT&T for proposing the SLELG procedure is that such procedure will provide for the recovery of capital more nearly in line with its consumption as measured by the physical retirement of property. Under the SLVG procedure depreciation is accrued on a class or subclass of depreciable plant on the basis of the average service life of each vintage group. A reserve deficiency results at the time of retirement in the case of plant retired before an age equal to the average service life of the vintage group. This reserve deficiency is later made up by accruals on units that live beyond the average service life of the group. Under the SLELG procedure depreciation is accrued upon those units of property in a vintage group that are expected to have the same service life so that, if projections are accurate, no reserve deficiency results since each unit is fully depreciated in the accounts at the time of retirement. The use of the SLELG procedure results in a higher accrual rate during the earlier life of the total property and a lower rate in later years. In theory, total accruals during the service life of any property are equal under each of these procedures.

6. In its petition AT&T stresses the importance of the proposed change on the maintenance of the financial integrity of the Bell System companies. The petition alleges that because the SLVG depreciation procedure now being used fails to match the capital recovery with the rate of capital consumption the companies are failing to generate funds as rapidly as they should. Thus, they are faced with going to the outside capital markets for replacement of plant retired at a date earlier than the average service life when such funds should be internally generated through appropriate depreciation procedures. Bell alleges that the proposed SLELG procedures will match capital recovery with capital consumption and will thus provide an amount of internal cash flow which will more nearly match replacement construction requirements. Bell urges that these considerations are of particular importance during periods of rapid inflation because of inflation's erosive effect on the purchasing power of the capital recovery dollar. Therefore, we particularly solicit comments with respect to the appropriateness of Bell's proposal as it concerns sources of cash flow, fiscal soundness of the busines and the ability to attract capital on sound terms.

7. Bell proposes that the change-over be phased in over a period of five years in order to minimize the impact on depreciation rates, accruals and revenue requirements. The following is a summary of the phase-in schedule used by Bell to illustrate the effects of the proposed change.

Plant placed in service after Dec. 31	Year of phase in of ELG	Accounts
1974	1	231, Station apparatus, and 234; Large private branch exchanges.
1975	2	221, Central office equipment.
1976	3	241, Pole lines; 242.1, Aerial cable; 242.2, Underground cable; 242.3, Buried cable; 242.4, Submarine cable; 243, Aerial wire; 244, Underground conduit.
1977	4	212, Buildings.
1978	5	201, Furniture and office equipment.
		264, Vehicles and other work equipment.

8. AT&T has submitted in its petition estimates of some of the effects on operating results which would result from the substitution of SLELG for SLVG. These estimates are based on certain assumptions, which are outlined in the attachments to the petition, such as, the five year phase-in period, a 10.5% rate of return and an annual increase of 6% in plant additions. For example, AT&T estimates that during the phase-in period SLELG accruals for the Bell System would reflect an increase over SLVG accruals ranging from $42 million in the first year up to $456 million in the fifth year. Bell also estimates that the use of SLELG procedures would increase revenue requirements during the first twenty years the procedures are in effect. However, the tenth year and thereafter the incremental revenue requirements would be lower because of the increased depreciation reserve and the resultant lowered rate base and after the twentieth year the cumulative revenue requirement would be lower under SLELG than under SLVG. The continuing decline in relative revenue requirements would eventually more than offset the added revenue requirements of the first twenty years. Thus, AT&T estimates that in the year 1995 annual depreciation accruals under SLELG will be approximately $1.3 billion more than they would have been under SLVG, but annual revenue requirements would be $57 million lower under SLELG.

9. Because of the magnitude of the amounts involved, and, if adopted, the possible extension of the use of the SLELG procedure to other regulated industries, it is important that any departure from long established procedures be given the fullest consideration in order to assure that equitable treatment be accorded to present and future ratepayers and shareholders. We, therefore, solicit comments of State and Federal regulatory bodies, communications carriers, other public utilities, public accounting firms and consumer interest groups as well as other interested parties concerning the propriety of the proposed change in the Commission's depreciation accounting procedures. We also solicit suggestions as to any alternative proposals to revise the currently prescribed depreciation accounting procedures which may appear appropriate in light of current and anticipated developments in the communications industry. In order to facilitate consideration of the proposed SLELG procedure there is attached hereto as Appendix A a copy of Bell's petition for rule making.

10. We shall expect AT&T and any other party proposing any alternative change in the depreciation procedures currently in use to submit for the record herein a complete justification for such proposed change, including all information and data necessary for a proper evaluation of such change. We also request comments with regard to the specific wording of the changes in Part 31 proposed by Bell assuming the SLELG procedure is approved. For example, we desire comments on whether, if SLELG is adopted, the procedure should be elective or mandatory and if mandatory whether to limit mandatory application of SLELG to the larger telephone carriers such as those telephone carriers having a gross investment in telephone plant of $40,000,000 or over. In addition, comments are requested with respect to Bell's proposal that the SLELG procedures be phased in over a period of years and whether the schedule used by Bell as set forth in paragraph 7 above is appropriate.

11. The Commission in issuing this Notice of Proposed Rule Making takes no position at this time regarding the merits of the SLELG procedures as proposed by Bell or as to the adequacy and propriety of the data and factors used in determining the effects of the proposal upon the Bell System.

12. Comments are requested on whether, if we amend our telephone system of accounts (Part 31), like amendments, in principle, should be made in the systems of accounts for radiotelegraph companies (Part 34) and wire-telegraph and ocean-cable companies (Part 35).

13. The Commission proposes to make any rule amendments adopted as a result of this proceeding effective not less than six months after the issuance of a final order with respect to this docket, as required by section 220(g) of the Communications Act of 1934, as amended, 47 U.S.C. 220(g). As a practical matter and in order to avoid making substantive changes in accounting during the year, it is planned that any rule amendments adopted would be made effective as of January 1 of the first full calendar year beginning not less than six months after the issuance of a final order in this docket with the option that those telephone companies which desire to do so may place any amendments which may be adopted in this proceeding into effect retroactively to January 1 of the year in which the final order is issued.

14. This notice of proposed rulemaking is issued under authority of sections 4(i) and 220 of the Communications Act of

1934, as amended, 47 U.S.C. 154(i) and 220.

15. Pursuant to applicable procedures set forth in 47 CFR 1.415 of the Commission's Rules, interested persons may file comments on or before January 20, 1975, and reply comments on or before March 20, 1975. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this Notice. Comments filed in response to this Notice will be available for public inspection in the Commission's Broadcast and Dockets Reference Room. At this time no procedures are provided for participation in this proceeding other than by the filing of comments and reply comments.

16. In accordance with the provisions of 47 CFR 1.419 of the Commission's rules and regulations, an original and fourteen copies of all statements or briefs shall be furnished to the Commission.

Adopted: September 11, 1974.

Released: September 19, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

APPENDIX A

SEPTEMBER 28, 1973.

Mr. Vincent J. Mullins
Acting Secretary
Federal Communications Commission
1919 M Street, N.W.
Washington, D.C. 20554

Re: Proposed amendment of the Uniform System of Accounts, Part 31, to permit depreciable property to be placed in groups comprised of units with expected equal life for depreciation under the straight-line method.

DEAR MR. MULLINS: There are enclosed herewith for filing with the Commission the original and fourteen copies of the Petition for Rule Making of the American Telephone and Telegraph Company and Bell System companies in the above proceeding.

To acknowledge the Commission's receipt of these documents, please put the Commission's stamp on the enclosed copy of this letter and remit the same to the bearer.

Very truly yours,

JOHN F. PRESTON, Jr.,
General Attorney,
American Telephone & Telegraph Co.

Petition for rulemaking. In the matter of proposed amendment of the Uniform System of Accounts, Part 31, to permit depreciable property to be placed in groups comprised of units with expected equal life for depreciation under the straight-line method, RM-2259.

Pursuant to § 1.401(a) of the Commission's Rules and Regulations, American Telephone and Telegraph Company (AT&T) and the associated Bell System operating companies named below[1] (collectively, the Bell System companies) petition the Commission to amend Part 31 of its Rules and Regulations (Uniform System of Accounts for Class A and Class B telephone companies) so as to provide that for depreciation purposes property can be placed in groups comprised of units expected to have the same life. Under the proposed grouping procedure[2] capital invested in plant would be recovered at a straight-line rate closely matched to the life characteristics of that plant. The amendments sought are:

A. Under "Definitions," amend the text of § 31.01-3(p) to read as follows:

(p) "Group plan," as applied to depreciation accounting, means (i) the plan under which depreciation charges are accrued upon the basis of the original cost of all property included in each depreciable plant account, using the average service life thereof properly weighted, or (ii) the plan (see § 31.02-80(a)) under which depreciation charges are accrued upon the basis of the original cost of all property included in groups comprised of units expected to have the same life in each depreciable plant account, using the average service lives thereof properly weighted. Upon the retirement of any depreciable property its full service value is charged to the depreciation reserve whether or not the particular item has attained the average service life.

and

B. Under "Instructions for Depreciation Accounting," insert after the words "group plan of accounting for depreciation," in the third sentence of § 31.02-80(a), the following:

(Except that subparagraph (ii) of § 31.01-3(p) shall apply only to property placed in service after December 31, 1974.)

By expanding the definition of "group plan" in the manner proposed, subject companies would be provided an alternative straight-line depreciation procedure to use with respect to property placed in service after December 31, 1974. In this connection, the Bell System companies propose to use such alternative procedure with respect to property in all accounts, except that in account 232, "Station connections."[3] In order to introduce gradually its effects on depreciation rates and accurals and on revenue requirements, it is proposed that such use would be adopted in stages (as to accounts) over a period of years. For example, the following phase-in schedule was used in the Attachments I and J to this Petition to illustrate such effects:

Year 1 (as of January 1, 1975): applied only to property in accounts 231, "Station apparatus" and 234, "Large Private Branch exchanges;"

Year 2 (as of January 1, 1976): in addition to the foregoing accounts, applied to property placed in service after December 31, 1975 in account 221, "Central office equipment;"

Year 3 (as of January 1, 1977): in addition to the foregoing accounts, applied to property placed in service after December 31, 1976 in the outside plant accounts;[4]

Year 4 (as of January 1, 1978): in addition to the foregoing accounts, applied to property placed in service after December 31, 1977 in account 212, "Buildings" and

Year 5 (as of January 1, 1979): in addition to the foregoing accounts, applied to property placed in service after December 31, 1978 in accounts 261, "Furniture and office equipment" and 264, "Vehicles and other work equipment."

Statements in support of the above proposals, together with a description of the anticipated effects which their adoption would occasion, are set forth below.

1. Under the cost allocation concept of depreciation, the consumption of capital invested in depreciable plant is recognized as an element of the cost of operations that must be allocated in a reasonable and systematic manner through depreciation accounting to the periods during which the plant is being used.[5] The Bell System adopted depreciation accounting in 1884 and since that time the Bell System companies have adhered to the principle that book depreciation should be accrued and charged to operations during the period property remains in service. In 1912 the ICC (which then had jurisdiction over interstate telecommunications) adopted the Bell System's straight-line practice in its new System of Accounts for telephone companies. Some years later, the Commission, pursuant to its own investigation and the report of a NARUC study on depreciation, adopted its present

[1] The Bell Telephone Company of Pennsylvania; The Chesapeake and Potomac Telephone Company; The Chesapeake and Potomac Telephone Company of Maryland; The Chesapeake and Potomac Telephone Company of Virginia; The Chesapeake and Potomac Telephone Company of West Virginia; Cincinnati Bell Inc.; The Diamond State Telephone Company; Illinois Bell Telephone Company; Indiana Bell Telephone Company, Incorporated; Michigan Bell Telephone Company; The Mountain States Telephone and Telegraph Company; Malheur Home Telephone Company; New England Telephone and Telegraph Company; New Jersey Bell Telephone Company; New York Telephone Company; Northwestern Bell Telephone Company; The Ohio Bell Telephone Company; Pacific Northwest Bell Telephone Company; The Pacific Telephone and Telegraph Company; Bell Telephone Company of Nevada; South Central Bell Telephone Company; Southern Bell Telephone and Telegraph Company; The Southern New England Telephone Company; Southwestern Bell Telephone Company; Wisconsin Telephone Company.

[2] The proposed grouping procedure, which is described in this petition under paragraphs 4 et seq., is known by accountants and engineers as "unit summation" or "equal life group." Such terms are considered as synonymous in this Petition. See Public Utility Depreciation Practices, p. 172 (NARUC, 1968).

[3] Use of the alternative procedure in connection with account 232, "Station connections," is not planned inasmuch as separate consideration currently is being given to other appropriate methods for recovering costs associated with this property.

[4] Included under "outside plant" would be accounts 241, "Pole lines;" 242: 1, "Aerial cable;" 242: 2, "Underground cable;" 242: 3, "Buried cable;" 242: 4, "Submarine cable;" 243, "Aerial wire;" and 244, "Underground conduit."

[5] Uniform System of Accounts for Class A and Class B Telephone Companies, § 31.01-3 (ff); Public Utility Depreciation Practices, p. 16 (NARUC, 1968).

Uniform System of Accounts, effective January 1, 1937, which recognizes the principles of accrual accounting and requires that depreciation charges "* * * be distributed under the straight-line method during the service life of the property." § 31.02–80(a).[6] The proposed amendment is consistent with the principles set forth above. Its adoption would permit the use of refinements in presently used depreciation grouping procedures, thereby making it possible to achieve a greater measure of accuracy in determining year-by-year depreciation accruals and to carry out more fully the objectives of the Commission's Rules with respect to depreciation charges.

2. In order to appreciate why the proposed amendments should be adopted, it is necessary to summarize briefly the development, application and deficiencies of presently used depreciation grouping procedures. Under present depreciation study procedures, all depreciable property is grouped in accounts (usually by category) by vintage (year of placement)[7] and each vintage is depreciated as a group. The property in the groups is depreciated under the straight-line method and the loss in service value of that property is spread over the service life based on the average life of the group (hereinafter referred to as the straight-line vintage group procedure (SLVG)). Attachments illustrate the manner in which the depreciation rate and accruals for a single vintage are calculated under the SLVG procedure. Attachment A illustrates a survivor curve[8] for a single vintage of plant. From this, the average life (five years in the illustration) for this vintage is calculated as illustrated on Attachment B. This information then is used to calculate the depreciation rate and accruals as illustrated on Attachment C. Under this procedure, as can be seen from the survivor curve, the average life of plant at each age does not match the average life for all ages applicable to that vintage group, *i.e.*, all property in the vintage group is not retired at the end of five years. Some items in the group are retired after one year—other items remain in service beyond five years.

3. As described above, the following deficiencies are inherent in the SLVG procedure. First, because SLVG uses the average life of a vintage in determining the depreciation rate, its pattern (timing) of annual accruals with respect to a vintage does not match the pattern (timing) of the actual loss in service value which occurs each year to the plant of that vintage. To the extent this mismatching occurs, proper costs are not recovered concurrent with the rate at which the property is consumed. Second, for most categories of plant, accrual deficiencies are experienced in the early years of a vintage and are recovered through additional accruals on plant items which remain in service beyond the average life of the vintage group. This means that for any given vintage there is likewise a reserve deficiency which is not made up completely until the last surviving unit of that vintage is retired. Attachment D illustrates under the SLVG procedure the accrual deficiency in the early years of a vintage and also the reserve deficiency which is eventually made up only when the last item of plant in the vintage group is retired (which time is considerably later than the average life of the vintage group).

4. The SLVG procedure was adopted generally by the Bell System companies around 1946 and represented a significant improvement over straight-line group procedures which had been used previously. The process of developing mortality data on which to base improved procedures for reflecting life patterns of plant has been an evolutionary one. The accumulation of many years of additional mortality data, coupled with advances in computer technology, make possible now the use of a refined procedure under which the timing of annual accruals can be matched more accurately to actual losses in service value for each vintage. This refinement, known as equal life group or unit summation (hereinafter referred to as the straight-line equal life group procedure (SLELG)), provides the most accurate and practical procedure presently available for grouping plant items so as to permit depreciation accruals to be made concurrent with the loss in service value expected to be experienced in the property accounts.

5. From an accounting standpoint, the adoption of SLELG does not involve a change of depreciation accounting method.[9] Procedures followed in applying depreciation rates are identical under SLELG and SLVG. Under both procedures, one depreciation rate is applicable to all vintages in an account or subaccount. In the development of applicable depreciation rates, SLELG goes a step further than SLVG, however, by breaking down each vintage group into independent units or subgroups, each of which is composed of items of expected equal life. This additional subgrouping step under SLELG makes it possible for losses in service value experienced in each subgroup to be distributed to the appropriate accounting period. Under SLELG, each item of plant in a subgroup essentially will be fully accrued by the time it reaches its expected life.[10] Attachments E and F illustrate, respectively, the division of a survivor curve into equal life groups and the development of SLELG capital recovery and depreciation rates. These attachments illustrate that when plant is placed in subgroups, each of which is composed of items of expected equal life, invested capital is recovered during the period such property remains in service (not at a later time as under SLVG). Attachment G compares SLELG and SLVG depreciation accruals and reserve by years and indicates the amounts of SLVG reserve deficiencies experienced until the last amount of plant is retired. No depreciation reserve deficiency is experienced during the early years (in contrast to the deficiency experienced in a vintage group under SLVG as a result of retirements prior to the vintage average life).

6. The financial welfare of the Bell System companies is closely tied to an adequate program of capital recovery—not only because it is a source of cash flow for construction but also because it is essential to the fiscal soundness of the business and its ability to attract capital on sound terms. All businesses, particularly capital intensive utilities, are concerned with the adequacy of their capital recovery methods. This concern becomes critical during periods of rapid inflation because of inflation's erosive effect upon the purchasing power of the capital recovery dollar. Inflation has been experienced generally in the U.S. economy and is likely to continue to occur to some degree during the foreseeable future. By failing to match the rate of capital recovery with the rate of capital consumption, SLVG constitutes an inadequate depreciation procedure for continued use by the Bell System companies. This mismatch in the capital recovery process by continued use of SLVG can only lead to further erosion of the purchasing power value of the capital recovery dollar. In contrast, the use of SLELG would provide a realistic and equitable means of capital recovery and would reduce the impact of inflation. In the same way, as the rate of technological change quickens and the risks of technological obsolescence increase, continued use of SLVG precludes timely recovery of capital invested in plant subject to such risks. At the same time SLELG would provide earlier recovery of the funds internally generated from depreciation, which funds are required for growth and improvements to communications systems.

7. The adoption of SLELG and its use in the depreciation rate prescription process would affect the interests of the Bell System companies and its customers in several ways. Initially, depreciation rates would be higher under SLELG than under SLVG with respect to a single vintage of property. Such higher rates are required to avoid the accrual deficiency during the early life of a vintage. Attachment G[10] illustrates the pattern of such deficiencies and sets forth annual depreciation accruals under SLVG and SLELG. By comparing columns c and e, it can be seen that SLELG depreciation accruals fall below those for SLVG in the fourth year. Attachment H[10] illustrates a similar (crossover pattern, showing that, in the later years of the life of a vintage, depreciation rates under SLELG fall below those for SLVG (after about 3 years).[10] While the depreciation reserve builds up more rapidly under SLELG than under SLVG, more consistent with actual losses in service value, total depreciation accrued under both procedures with respect to a single vintage will of course be equal, as shown on the tenth year line of Attachment G (SLVG finally catches up when the late item in the vintage group is retired).

8. Use of SLELG by the Bell System companies, in accordance with the phase-in schedule set forth on pages 3 and 4 of this Petition is estimated to have the following effects. Book depreciation would increase relative to that which would result from continued use of SLVG depreciation for all accounts by about $42.3 million and $132.9 million for the years 1975 and 1976, respectively. Assuming full rate recovery of this increase, internally generated funds[11] would increase by about $22.2 million in 1975 and $70.0 million in 1976, reflecting the fact that income tax deferrals are reduced by approximately one-half the increase in book depreciation. Revenue requirements for the Bell System companies under SLELG relative to continued use of SLVG for all accounts would increase by about $42.4 million in 1975 and an additional $87.7 million in 1976, resulting in a cumulative increase of $130.1 million in these two years.

---

[6] Section 31.01–3(cc) of the Commission's Rules define "service life" to mean the period between the time of installation of telephone plant and the time of its retirement.

[7] Except Account 232, Station connections.

[8] A "survivor curve" is used by depreciation engineers to portray the life/retirement pattern of a category of plant over its service life.

[9] Under generally accepted accounting principles, the use of the SLELG procedure would represent a change in accounting estimate only (timing of capital recovery), as defined in Accounting Principles Board Opinion No. 20, Accounting Changes (July 1971).

[10] The fact that each subgroup is composed *only* of items expected to have the same life makes it possible to recover with a high degree of accuracy invested capital during the proper accounting period.

[10] Attachments G and H, which compare SLELG and SLVG depreciation accruals and rates, utilize a life table with a 5 year average life.

9. Attachments I and J illustrate the effects of SLELG over a longer period, based on certain assumptions [12] as set forth on those attachments. As shown, book depreciation relative to SLVG would increase annually to around $1.3 billion by the year 1995 and internally generated funds [11] would have increased by that time by about $715 million Figure 1 of Attachment J illustrates that revenue requirements under SLELG relative to SLVG would increase annually through the ninth year (although the rate of increase would decline after the third year), after which time SLELG revenue requirements would decrease incrementally. The cumulative increase in revenue requirements of SLELG relative to SLVG would be approximately $481 million by the end of the ninth year (Attachments J, Figure 2). All such relative increases, of course, would have the effect of continually reducing net investment (because of the larger reserve due to the higher depreciation accruals), thereby gradually reducing revenue requirements under SLELG vis-a-vis those under SLVG. After the crossover is reached at the year 1995, revenue requirements under SLELG would be less than those under SLVG.

CONCLUSION

The Bell System companies urge the Commission to amend its Uniform System of Accounts in the manner proposed for the reasons that (a) SLELG represents the most accurate and practical procedure presently available for matching the rate of capital recovery to the rate of capital consumption; (b) SLELG can be adopted practicably and is needed to carry out better the existing requirements of § 31.02-80(a) of the Commission's Rules which provide that "* * * the loss in service value * * * may be distributed under the straight-line method during the service life of the property * * *"; (c) improved methods of capital recovery are essential to reduce the impact of inflation and the risks of obsolescence; and (d) customers would benefit under SLELG in that long-run revenue requirements would be reduced below levels which would prevail if the companies were to continue to use the SLVG procedure.

Wherefore, the undersigned respectfully requests that the Commission institute appropriate rulemaking to amend Part 31 of its Uniform System of Accounts so as to permit depreciable property to be placed in groups comprised of units with expected equal life for depreciation under the straight-line method.

Respectfully submitted,

R. N. FLINT, *Vice President and Comptroller, American Telephone & Telegraph Co., 195 Broadway, New York, N.Y. 10007.*

JOHN F. PRESTON, Jr., N. MICHAEL GROVE, *195 Broadway, New York, N.Y. 10007, Attorneys for Bell System Companies.*

SEPTEMBER 28, 1973.

---

[11] For these purposes, internally generated funds do not include retained earnings.

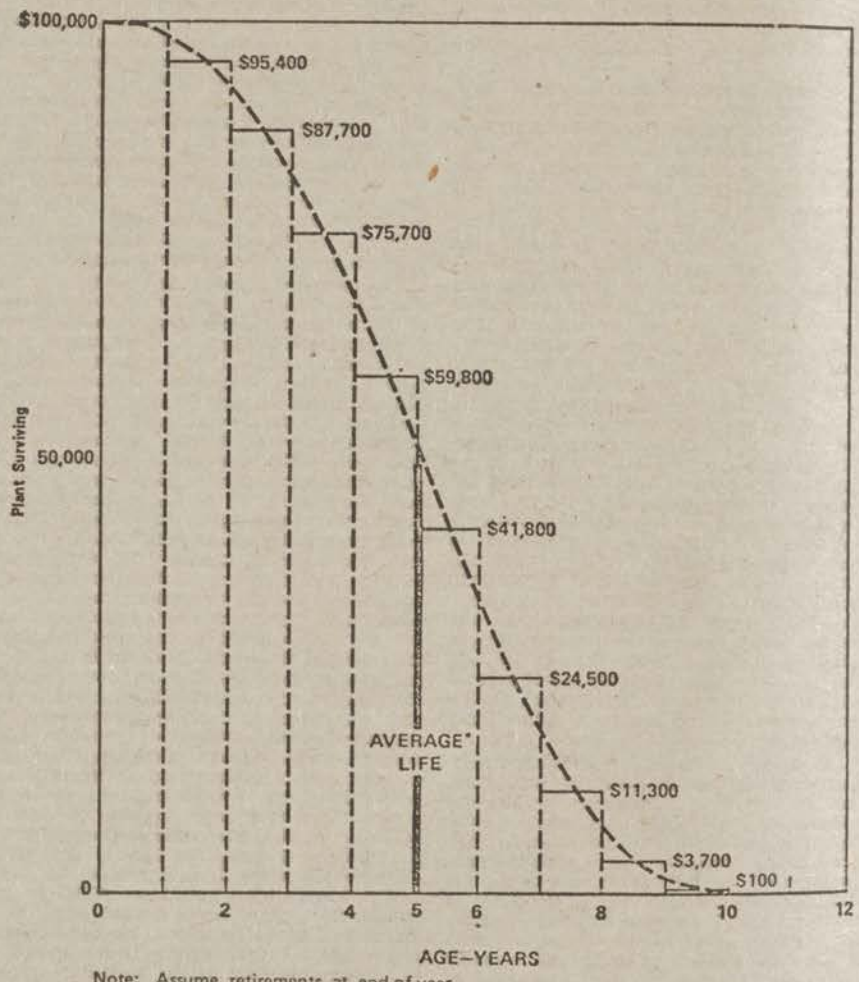

[12] The assumptions made in illustrating the effects of SLELG are set forth on Attachments I and J and embrace growth, income tax rates and treatment, capital costs and structure, and the phase-in schedule previously described in this Petition. These assumptions are considered reasonable for long-term projections, and are made for illustrative purposes. It should not be concluded that book depreciation, internally generated funds or revenue requirements will in fact be at the levels indicated by these attachments.

FEDERAL HOME LOAN BANK BOARD

[12 CFR Part 545]

[74-957]

FEDERAL SAVINGS AND LOAN SYSTEM

Travelers' Convenience Withdrawal

SEPTEMBER 19, 1974.

Summary. The following summary of the amendments adopted by this resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to specific provisions of the regulations.

I. Existing regulations—None.

II. Proposed regulation—Permits Federal associations to offer withdrawal services to their customers traveling more than 100 miles from home through payments at FSLIC-insured disbursing institutions.

III. Reason for proposal—To enable Federal associations to offer an additional service to savings customers.

The Federal Home Loan Bank Board considers it desirable to propose an amendment to Part 545 of the rules and regulations for the Federal Savings and Loan System (12 CFR Part 545), for the purposes described below. Accordingly, the Board hereby proposes to amend said Part 545 by adding a new paragraph (e) to § 545.1 thereof to read as set forth below.

The proposed amendment would have the effect of permitting Federal associations to offer withdrawal services to customers who are traveling away from home. The proposed amendment has five central features: (1) It permits Federal associations to act as the institution which offers the withdrawal services to its customers (the offering institution). (2) It permits only institutions insured by the Federal Savings and Loan Insurance Corporation to disburse funds to customers of Federal associations making withdrawals. (3) It limits use of these services to situations where the institution disbursing funds to Federal associations customers is located more than 100 miles from the customer's home. (4) It permits Federal associations to act as disbursing institutions in similar transactions in which the offering institution is FSLIC insured. (5) The proposed regulation has several optional features: It permits but does not require the imposition of fees on customers, payment by Federal associations of fees to disbursing institutions (and the charging of fee by a Federal where it is the disbursing institution) and the setting of withdrawal amount limitations. The proposed regulation requires telephone authorization from the disbursing institution to the offering institution and requires immediate debiting of the customer's account. The purpose of these requirements is to ensure that the transaction will be the equivalent of a withdrawal at the office of the offering institution.

Interested persons are invited to submit written data, views, and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 320 First Street NW., Washington, D.C. 20552, by October 31, 1974, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address unless confidential treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.6 of the general regulations of the Federal Home Loan Bank Board (12 CFR 505.6).

§ 545.1 Savings accounts.

* * * * *

(e) *Travelers' convenience withdrawal.* A Federal association may permit an account holder to make a withdrawal from a "regular account" (as defined in § 526.1(d) of this chapter) through a disbursing institution whose accounts are insured by the Federal Savings and Loan Insurance Corporation if the office of the disbursing institution through which payment of such withdrawal is made is located more than 100 miles from the principal dwelling place of such account holder. Such Federal association may authorize payment by the disbursing institution only upon receiving a specific telephonic withdrawal request (which may be oral or electronic) from such account holder, and the amount so paid shall be immediately withdrawn from the savings account at such Federal association. A Federal association providing withdrawal services pursuant to this paragraph (e) may, but is not required to: (1) Charge a fee to account holders making such withdrawals, (2) place a limitation upon the amount of such withdrawal requests, and (3) pay a fee to the disbursing institution. A Federal association may also as the disbursing institution in a similar withdrawal transaction from a regular account in another institution whose accounts are insured by the Federal Savings and Loan Insurance Corporations, and may collect a fee for its services.

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, Jr.,
Assistant Secretary.

[Reg. Y]

BANK HOLDING COMPANIES

Nonbanking Activties; Convenience Insurance

The Board of Governors published in the

The Board of Governors published in the FEDERAL REGISTER on August 8, 1974 (39 FR 28536), notice of the Board's proposal to amend § 225.4(a) of its Regulation Y to clarify the boundaries for the conduct of insurance activities, with respect to "convenience" insurance, which the Board has determined to be so closely related to banking or managing or controlling banks as to be a proper incident thereto.

To aid in its consideration of this matter, the Board invited interested persons to submit relevant data, views, comments, or argument. In accordance with the provisions of section 4(c)(8) of the Bank Holding Company Act, as amended, this solicitation was intended to include requests for hearing on the proposal. In order to make clear that interested parties may request an opportunity for a hearing with respect to this proposal, the August 8, 1974, notice (39 FR 28536) is hereby revised to offer interested parties who so desire, an opportuntiy to submit requests for a hearing. Any such requests should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing. Such requests and statements should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than October 18, 1974.

Board of Governors of the Federal Reserve System, September 23, 1974.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Parts 121, 135, 135e, 135g, 144]

ANTIBIOTIC, NITROFURAN, AND SULFONAMIDE DRUGS IN THE FEED OF ANIMALS

Proposed Deletion of Regulations Regarding Use; Extension of Time for Filing Comments

In the FEDERAL REGISTER of August 6, 1974 (39 FR 28382, 28393), the Commissioner of Food and Drugs proposed (1) to amend 21 CFR Parts 121, 135, 135e, 135g, and 144 to revoke certain antibacterial drugs intended for use in animal feed which are not in compliance with the requirements of § 135.109 (21 CFR 135.109) and (2) to list those firms and their products in compliance with § 135.109. The proposals allowed for the filing of comments on or before October 7, 1974.

The Commissioner has received a letter stating that because of confusion created by the manner in which the tables are set forth regarding certain drug combinations it is not possible to make adequate determinations which are necessary for the preparation and submission of meaningful comments.

The Commissioner finds that the tables referred to include substantial printing errors. Accordingly, in addition to extending the time for filing comments, corrections to the tables are being published elsewhere in this issue of the FEDERAL REGISTER.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 512, 701(a), 52 Stat. 1055, 82 Stat. 343–351; 21 U.S.C. 360b, 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), the time for filing comments on the subject proposals is extended to November 26, 1974.

Dated: September 24, 1974.

SAM D. FINE,
Associate Commissioner for Compliance.

ANTIBIOTIC NITROFURAN AND SULFONAMIDE DRUGS IN THE FEED OF ANIMALS

Corrections and Republications

The purpose of this document is the clarification of FR Docs. 74–17221 and 74–17222, two proposed rules which were published in the FEDERAL REGISTER for August 6, 1974 (39 FR 28382 and 28393).

Portions of these documents were found to be in error and have been corrected or republished in this issue.

PART 121—FOOD ADDITIVES

1. The table in § 121.210(c) is republished to read as follows:

§ 121.210 Amprolium.

(c) * * *

Amprolium in complete chicken and turkey feed

Principal ingredient	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use
1.1 Amprolium	113.5–227 (0.0125%–0.025%)			For turkeys	Prevention of coccidiosis.
a. 1.1	113.5–227	Penicillin	2.4–50	For turkeys; as procaine penicillin	Growth promotion and feed efficiency.
b. 1.1	113.5–227	Bacitracin	4–50	For turkeys; as bacitracin methylene disalicylate.	Do.
c. 1.1	113.5–227	Arsanilic acid	90 (0.01%)	For turkeys; withdraw 5 days before slaughter; as sole source of organic arsenic.	Growth promotion and feed efficiency; improving pigmentation.
d. 1.1	113.5–227	Sodium arsanilate	90 (0.01%)	For turkeys; withdraw 5 days before slaughter	Do.
e. 1.1	113.5–227	3-Nitro-4-hydroxyphenylarsonic acid.	22.7–45.4	§ 121.262, table 1, item 2.1	§ 121.262, table 1, item 2.1.
2.1 Amprolium	113.5–227 (0.0125%–0.025%)			For broiler chickens; for replacement chickens where immunity to coccidiosis is not desired.	Prevention of coccidiosis.
2.2 Amprolium	113.5–227 (0.0125%–0.025%)	Ethopabate	3.6 (0.0004%)	For broiler chickens; for replacement chickens where immunity to coccidiosis is not desired; not for laying hens.	Do.
2.3 Amprolium	113.5–227 (0.0125%–0.025%)	Arsanilic acid	90 (0.01%)	For broiler chickens; for replacement chickens where immunity to coccidiosis is not desired; as sole source of organic arsenic; withdraw 5 days before slaughter.	Prevention of coccidiosis; growth promotion and feed efficiency; improving pigmentation.
2.4 Amprolium	113.5–227 (0.0125%–0.025%)	Ethopabate + Arsanilic acid	3.6 (0.0004%) 90 (0.01%)	For broiler chickens; for replacement chickens where immunity to coccidiosis is not desired; as sole source of organic arsenic; withdraw 5 days before slaughter; not for laying hens.	Do.

Principal ingredient	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use
2.8 Amprolium	113.5–227 (0.0125%–0.025%)	3-Nitro-4-hydroxy-phenylarsonic acid.	22.7–45.4 (0.0025%–0.005%)	For broiler chickens; for replacement chickens where immunity to coccidiosis is not desired; as sole source of organic arsenic; withdraw 5 days before slaughter.	Do.
2.9 Amprolium	113.5–227 (0.0125%–0.025%)	Ethopabate + 3-Nitro-4-hydroxy-phenylarsonic acid.	3.6 (0.0004%) 22.7–45.4 (0.0025%–0.005%)	For broiler chickens; for replacement chickens where immunity to coccidiosis is not desired; as sole source of organic arsenic; withdraw 5 days before slaughter; not for laying hens.	Do.
2.10 Amprolium	113.5 (0.0125%)	Ethopabate + 3-Nitro-4-hydroxy-phenylarsonic acid. + Lincomycin	3.6 (0.0004%) 45.4 (0.005%) 2–4	For floor-raised broiler chickens; not for laying chickens; as lincomycin hydrochloride monohydrate; withdraw 5 days before slaughter; as sole source of amprolium and organic arsenic.	For increase in rate of weight gain; improved feed efficiency and pigmentation; as an aid in the prevention of coccidiosis in floor-raised broiler chickens.
2.11 Amprolium	113.5 (0.0125%)	Ethopabate + Lincomycin	3.6 (0.0004%) 2–4	For floor-raised broiler chickens; not for laying chickens; as lincomycin hydrochloride monohydrate; as sole source of amprolium.	For increase in rate of weight gain; improved feed efficiency; as an aid in the prevention of coccidiosis in floor-raised broiler chickens.
a. 2.1 or 2.2	113.5–227	Penicillin	2.4–50	As procaine penicillin	Growth promotion and feed efficiency.
b. 2.1, 2.2, or 2.9	113.5–227	Bacitracin	4–50	As bacitracin methylene disalicylate	Do.
c. 2.1	113.5–227	Sodium arsanilate	90 (0.01%)	§ 121.254(c), item 1	Growth promotion and feed efficiency; improving pigmentation.
3.1 Amprolium	26.3–113.5 (0.004%–0.0125%)			For replacement chickens; as follows:	Development of active immunity to coccidiosis.

Growing conditions	Amount of amprolium in feed for birds, by age groups: Up to 5 weeks of age	From 5 to 8 weeks of age	Over 8 weeks of age
	Grams per ton	*Grams per ton*	*Grams per ton*
Severe exposure to coccidiosis	113.5 (0.0125%)	72.6–112.5 (0.008%–0.0125%)	36.3–113.5 (0.004%–0.0125%)
Moderate exposure to coccidiosis	72.6–113.5 (0.008%–0.0125%)	54.5–112.5 (0.006%–0.0125%)	36.3–113.5 (0.004%–0.0125%)
Slight exposure to coccidiosis	36.3–112.5 (0.004%–0.0125%)	36.3–112.5 (0.004%–0.0125%)	36.3–113.5 (0.004%–0.0125%)

3.2 Amprolium	36.3–113.5 (0.004%–0.0125%)	Arsanilic acid	90 (0.01%)	For replacement chickens; as specified in item 3.1 of this table; withdraw 5 days before slaughter; as sole source of organic arsenic.	Development of active immunity to coccidiosis; growth promotion and feed efficiency; improving pigmentation.
3.3 Amprolium	36.3–113.5 (0.004%–0.0125%)	Sodium arsanilate	90 (0.01%)	For replacement chickens; as specified in item 3.1 of this table; withdraw 5 days before slaughter; as sole source of organic arsenic.	Do.
a. 3.1 or 3.2	36.3–113.5	Penicillin	2.4–50	As procaine penicillin	Growth promotion and feed efficiency.
b. 3.1	36.3–113.5	3-Nitro-4-hydroxy-phenylarsonic acid.	22.7–45.4	§ 121.262, table 1, item 1.1	§ 121.262, table 1, item 1.1.
4.1 Amprolium	72.6–113.5 (0.008%–0.0125%)			For broiler chickens	Prevention of coccidiosis caused by *E. tenella* only.
4.2 Amprolium	72.6–113.5 (0.008%–0.0125%)	Arsanilic acid	90 (0.01%)	For broiler chickens; withdraw 5 days before slaughter; as sole source of organic arsenic.	Prevention of coccidiosis caused by *E. tenella* only; growth promotion and feed efficiency; improving pigmentation.
4.3 Amprolium	72.6–112.5 (0.008%–0.0125%)	3-Nitro-4-hydroxy-phenylarsonic acid.	22.7–45.4 (0.0025%–0.005%)	do	Do.
a. 4.1	72.6–113.5	Penicillin	2.4–50	As procaine penicillin	Growth promotion and feed efficiency.
b. 4.1ggg	72.6–113.5	Sodium arsanilate	90	Withdraw 5 days before slaughter; as sole source of organic arsenic.	Growth promotion and feed efficiency; improving pigmentation.
5.1 Amprolium	113.5 (0.0125%)			For moderate outbreaks of coccidiosis in laying chickens; administer for 2 weeks.	Treatment of coccidiosis.
6.1 Amprolium	227 (0.025%)			For severe outbreaks of coccidiosis in laying chickens; administer for 2 weeks.	Do.
7.1 Amprolium	113.5 (0.0125%)	Ethopabate	36.3 (0.004%)	For broiler chickens; for replacement chickens where immunity to coccidiosis is not desired; not for chickens over 16 weeks of age.	As an aid in the prevention of coccidiosis where severe exposure to coccidiosis from *E. acervulina*, *E. maxima*, and *E. brunetti* is likely to occur.
a. 7.1		Bacitracin	4	For broiler chickens; do not feed to laying chickens; as sole source of amprolium; not for use as a treatment for outbreaks of coccidiosis; as bacitracin methylene disalicylate as provided by Code No. 028 in § 135.501(c) of this chapter; feed as the sole ration from the time chickens are placed on litter until past the time when coccidiosis is ordinarily a hazard; approval for this combination granted to firm No. 023 as identified in § 135.501(c) of this chapter.	To aid in prevention of coccidiosis where severe exposure to coccidiosis from *E. acervulina*, *E. maxima*, *E. brunetti* is likely to occur; for increased rate of weight gain in broiler chickens raised in floor pens.
b. 7.1		3-Nitro-4-hydroxy-phenylarsonic acid.	45.4 (0.005%)	For broiler chickens; do not feed to laying chickens; withdraw 5 days before slaughter; as sole source of amprolium; do not use as a treatment for outbreaks of coccidiosis; feed as the sole ration from time chickens are placed on litter until past the time when coccidiosis is ordinarily a hazard; 3-nitro-4-hydroxy-phenylarsonic acid as provided by code No. 031 in § 135.501(c) of this chapter; approval for this combination granted to firm No. 023 as identified in § 135.501(c) of this chapter.	Do.
8.1 Amprolium	113.5 (0.0125%)			For laying chickens	Prevention of coccidiosis.

Principal ingredient	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use
9.1 Amprolium	113.5 (0.0125%)	3-Nitro-4-hydroxyphenylarsonic acid.	34 (0.00375%)	For floor-raised broiler chickens; do not feed to laying chickens; withdraw 5 days before slaughter; as sole source of amprolium and organic arsenic; do not use as a treatment for outbreaks of coccidiosis; feed as the sole ration from time chickens are placed on litter until past the time when coccidiosis is ordinarily a hazard; amprolium and ethopabate as provided by code No. 023 in § 135.501(c) of this chapter; bacitracin methylene disalicylate as provided by code No. 028 in § 135.501(c) of this chapter; 3-nitro-4-hydroxyphenylarsonic acid as provided by code No. 031 in § 135.501(c) of this chapter; approval for this combination granted to firm No. 023 as identified in § 135.501(c) of this chapter.	For increased rate of weight gain and as an aid in the prevention of coccidiosis where severe exposure to coccidiosis from *E. acervulina*, *E. maxima*, and *E. brunetti* is likely to occur in broiler chickens raised in floor pens.
		+ Ethopabate	36.3 (0.004%)		
		+ Bacitracin methylene disalicylate.	5-35		
10.1 Amprolium	113.5 (0.0125%)	3-Nitro-4-hydroxyphenylarsonic acid.	34 (0.00375%)	do	For increased rate of weight gain, improved feed efficiency, and as an aid in the prevention of coccidiosis where severe exposure to coccidiosis from *E. acervulina*, *E. maxima*, and *E. brunetti* is likely to occur in broiler chickens raised in floor pens.
		+ Ethopabate	36.3 (0.004%)		
		+ Bacitracin methylene disalicylate.	20-35		

2. Section 121.225(b)(1) should read as follows:

§ 121.225 Antibiotics for growth promotion and feed efficiency.

* * * * *

(b) * * *

(1) Zinc bacitracin is the zinc salt of the antibiotic substance produced by the growth of *Bacillus subtilus var.* Tracy or the same antibiotic substance produced by any other means, and for the purposes of this paragraph refers to zinc bacitracin or feed grade zinc bacitracin.

PART 135—NEW ANIMAL DRUGS

4. The tables in § 135.109(g)(1) and (2) are republished to read as follows:

§ 135.109 Antibiotic, Nitrofuran, and sulfonamide drugs in the feed of animals.

Diamond Shamrock Chemical Co.	Chlortetracycline, Sulfathiazole, and Penicillin.	do.	do.	Do.
Hess & Clark and Norwich Pharmacal Co.	Furazolidone.	Chickens and turkeys.	0.00083–0.0011 percent (7½–10 g/ton).	To stimulate growth and improve feed efficiency of chickens and turkeys when fed continuously.
			0.0055 percent (50 g/ton).	For prevention of fowl typhoid, paratyphoid, and pullorum in chickens and turkeys when fed continuously in birds older than 2 weeks of age. For aid in prevention of coccidiosis in chickens caused by *E. tenella*, *E. necatrix*, or *E. acervulina* when fed continuously.
	do.	do.	0.0055–0.011 percent (50–100 g/ton).	Aid in maintenance of feed consumption and growth and reduction of morbidity and mortality due to stress and the following nonspecific conditions: Chronic respiratory disease (air-sac), infectious sinusitis, synovitis (arthritis due to filterable agent), nonspecific enteritis (bluecomb, mud fever) and quail disease (ulcerative enteritis) when fed continuously prior to or throughout the danger period and during times of stress.
	do.	do.	0.011 percent (100 g/ton).	For prevention of fowl typhoid, paratyphoid and pullorum in chickens and turkeys when fed for the first 2 weeks of the birds' life and followed continuously thereafter by one-half this level (i.e., 0.0055 percent). For treatment of fowl typhoid, paratyphoid and pullorum in chickens and turkeys when fed for at least 2 weeks except when paratyphoid is due to *S. typhimurim*.
Hess & Clark and Norwich Pharmacal.	Furazolidone.	Chickens and turkeys.	0.011 percent (100 g/ton).	For reduction of condemnations due to chronic respiratory disease air-sac complex associated with vaccination stress, feed continuously beginning at least 1 week before vaccination. For prevention of infectious hepatitis when fed continuously during the danger period. For control of coccidosis in chickens caused by *E. tenella*, *E. necatrix*, or *E. acervulina* when fed for 5–7 days or longer and followed by one-half this level (i.e., 0.0055 percent) for 2 weeks to aid in preventing recurrence.
	do.	do.	do.	For prevention of blackhead (histomoniasis, enterohepatitis) in chickens and turkeys when fed continuously. For prevention of paracolon in chickens and turkeys and hexamitiasis in turkeys when fed throughout the danger period. For control of chronic respiratory disease (air-sac), infectious sinusitis, synovitis (arthritis due to filterable agent), nonspecific enteritis (bluecomb, mud fever) and quail disease (ulcerative enteritis) when fed for 5–10 days and followed with one-half this level (i.e., 0.0055 percent) to aid in preventing recurrence. NOTE.—Severe outbreaks may require twice the level specified (i.e., 0.022 percent).
	do.	do.	0.011–0.022 percent (100–200 g/ton).	Aid in maintenance of feed consumption and growth, and reduction of mortality and morbidity due to stress; for the control of the following nonspecific conditions: Chronic respiratory disease (air-sac), infectious sinusitis, synovitis (arthritis due to a filterable agent), (bluecomb, mud fever) and quail disease (ulcerative enteritis) when fed 5–10 days. Follow with preventive level to prevent recurrence.
	do.	Chickens.	0.022 percent (200 g/ton).	For treatment of paratyphoid due to *S. typhimurium* when fed for 2 weeks. For treatment of blackhead (histomoniasis, enterohepatitis) in chickens and turkeys when fed for 2–3 weeks (following diagnosis). For treatment of paracolon in chickens and turkeys and hexamitiasis in turkeys when fed for 2 weeks or longer (following diagnosis). For control of chronic respiratory disease (air-sac), infectious sinusitis, synovitis (arthritis due to filterable agent), non-specific enteritis (bluecomb, mud fever) and quail disease (ulcerative enteritis) when fed for 5–10 days and followed with one-fourth this level (i.e., 0.0055 percent) to aid in preventing recurrences. For treatment of infectious hepatitis in chickens when fed for 14 days and repeated as necessary.
		Swine.	§ 121.255 of this chapter.	§ 121.255 of this chapter.
	Nitrofurazone.	Chickens.	0.0055 percent (50 g/ton).	Aid in prevention of coccidiosis when fed continuously.
		Turkeys.		As an aid in controlling losses due to secondary bacterial invasions concurrent with coccidosis outbreaks when fed continuously throughout the danger period.
	Nihydrazone.	Chickens.	§ 121.237 of this chapter.	§ 121.237 of this chapter.

Pfizer, Inc., and Vitamin Premixers of Omaha.	Oxytetracycline. Neomycin base.	Chickens.	50 g/ton. 35–140 g/ton.	Prevention of diseases from oxytetracycline-susceptible organisms during periods of stress. As an aid in the prevention of bacterial enteritis and in the control of neomycin-sensitive organisms associated with bluecomb (mud fever or nonspecific enteritis).
Do.	Oxytetracycline. Neomycin base	Chickens (first 2 weeks).	50–100 g/ton. 35–140 g/ton.	Prevention of early chick mortality due to oxytetracycline-susceptible organisms. As an aid in the prevention of bacterial enteritis and in the control of neomycin-sensitive organisms associated with bluecomb (mud fever or nonspecific enteritis).
Do.	Oxytetracycline. Neomycin base.	Chickens (first 2 weeks).	50–100 g/ton. 35–140 g/ton.	To extend period of high egg production, to improve feed efficiency, to improve egg production and feed efficiency in presence of disease and at times of stress: As an aid in maintaining and improving hatchability where birds are suffering stress from moving, vaccinations, culling, extreme temperature changes, and worming; to improve livability of progeny when losses are due to oxytetracycline-susceptible organisms, to improve egg shell quality, prevention of blue comb (mud fever or nonspecific enteritis). As an aid in the prevention of bacterial enteritis and in the control of neomycin-sensitive organisms associated with bluecomb (mud fever or nonspecific enteritis).
Do.	Oxytetracycline. Neomycin base.	do.	100–200 g/ton. 35–140 g/ton.	Prevention of complicated chronic respiratory disease (air-sac infection) and control of complicated chronic respiratory disease by lowering mortality and severity during outbreaks. As an aid in the prevention of bacterial enteritis and in the control of neomycin-sensitive organisms associated with bluecomb (mud fever or nonspecific enteritis).
Pfizer, Inc.	Oxytetracycline. Neomycin base.	Turkeys.	50 g/ton. 35–140 g/ton.	As an aid in the prevention of disease from oxytetracycline-susceptible organisms during periods of stress. As an aid in the prevention of bacterial enteritis and in the control of neomycin-sensitive organisms associated with bluecomb (mud fever or nonspecific enteritis).
Do.	Oxytetracycline. Neomycin base.	do.	50–100 g/ton. 35–140 g/ton.	To extend period of high egg production, to improve egg production, to improve feed efficiency, to improve fertility, to improve egg production and feed efficiency in presence of disease and time of stress; as an aid in maintaining and improving hatchability where birds are suffering from stress, exposure, moving, vaccination, culling, extreme losses due to oxytetracycline-susceptible organisms, and to improve egg shell quality; prevention of hexamitiasis. As an aid in the prevention of bacterial enteritis and in the control of neomycin-sensitive organisms associated with bluecomb (mud fever or nonspecific enteritis).
Do.	Oxytetracycline Neomycin base.	Turkeys (first 4 weeks).	50 -100 g/ton. 35–140 g/ton.	As an aid in the prevention of early poult mortality due to oxytetracycline-susceptible organisms. As an aid in the prevention of bacterial enteritis and in the control of neomycin-sensitive organisms associated with bluecomb (mud fever or nonspecific enteritis).
Pfizer, Inc.	Oxytetracycline. Neomycin base.	Turkeys (first 4 weeks).	100–150 g/ton. 35–100 g/ton	As an aid in reducing mortality in birds which have suffered an attack of air-sacculitis (it is recommended, wherever possible, to feed from time of attack to marketing).
Do.	Oxytetracycline. Neomycin base	Turkeys.	100–150 g/ton. 35–100 g/ton.	As an aid in the prevention of bacterial enteritis and in the control of neomycin-sensitive organisms associated with bluecomb (mud fever or nonspecific enteritis).
Do.	Oxytetracycline. Neomycin base.	do.	100–200 g/ton. 35–140 g/ton.	Control of bluecomb (mud fever or nonspecific enteritis), infectious sinusitis and hexamitiasis, prevention of infectious synovitis. As an aid in the prevention of bacterial enteritis and in the control of neomycin-sensitive organisms associated with bluecomb (mud fever or nonspecific enteritis).
Do.	Oxytetracycline. Neomycin base.	do.	200 g/ton. 70–140 g/ton.	Control of infectious synovitis. For the treatment of bacterial enteritis and bluecomb (mud fever or nonspecific enteritis).

PART 144—EXEMPTIONS FROM CERTIFICATION REQUIREMENTS FOR ANTIBIOTIC DRUGS FOR VETERINARY USE

3. The table in § 144.26(a) is republished to read as follows:

§ 144.26 Animal feeds bearing or containing new animal drugs subject to the provisions of section 512(n) of the act.

* * * * *

(a) The drugs are used as follows:

Product	Species	Use levels	Indications for use
1. Nicarbazin.. Procaine penicillin.	Chickens	0.01–0.02 percent. 2.4–50 g/ton	For use solely in the prevention of outbreaks of coccidiosis in poultry flocks.
2. Nicarbazin. Bacitracin methylene disalicylate.	do	0.01–0.02 percent. 4–50 g/ton.	Do.
3. Nicarbazin. Bacitracin methylene disalicylate. 3-Nitro-4-hydroxyphenylarsonic acid.	do	0.01–0.02 percent. 4–50 g/ton. 0.0025–0.005 percent.	For use as an aid in the prevention of coccidiosis in poultry flocks.
4. Nicarbazin. Procaine penicillin. 3-Nitro-4-hydroxyphenylarsonic acid.	do	0.01–0.02 percent. 2.4–50 g/ton. 0.0025–0.005 percent.	Do.
5. Procaine penicillin. Streptomycin. Arsanilic acid.	Swine	1.5–7.5 g/ton. 7.5–37.5 g/ton. 45–90 g/ton.	Increase rate of gain and improve feed efficiency in growing swine; aid in the prevention of bacterial swine enteritis.
6. Penicillin. Streptomycin.	Chickens and turkeys.	2.4–25 g/ton. 15–75 g/ton.	For use solely as a treatment for complicated chronic respiratory disease (air-sac infection), infectious sinusitis, blue comb (nonspecific infectious enteritis, mud fever), and hexamitiasis in poultry; as an aid in maintaining or increasing egg production of chickens, hatchability of eggs, prevention of early mortality of chicks when due to organisms that are sensitive to streptomycin and penicillin; and for improving feed efficiency of chickens or turkeys.
7. Penicillin. Streptomycin.	Swine.	5–25 g/ton. 15–75 g/ton.	For use in the prevention or treatment of bacterial swine enteritis.
8. Furazolidone and Bacitracin methylene disalicylate or Procaine penicillin.	Chickens and turkeys.	0.011 percent. 4–50 g/ton. 2.4–50 g/ton.	Growth promotion and feed efficiency. For prevention of fowl typhoid, paratyphoid, and pullorum in chickens and turkeys when fed for the first 2 weeks of the birds' life. For treatment of fowl typhoid, paratyphoid and pullorum in chickens and turkeys when fed for at least 2 weeks, except when paratyphoid is due to *S. typhimurium*. For reduction of condemnations due to chronic respiratory disease air-sac complex associated with vaccination stress, feed continuously beginning at least 1 week before vaccination. For prevention of infectious hepatitis when fed continuously during the danger period. For control of coccidiosis in chickens, caused by *E. tenella*, *E. necatrix*, or *E. acervulina* when fed for 5 to 7 days or longer. For prevention of blackhead (histomoniasis, enterohepatitis) in chickens and turkeys when fed continuously. For prevention of paracolon in chickens and turkeys and hexamitiasis in turkeys when fed throughout the danger period. For control of chronic respiratory disease (air-sac), infectious sinusitis, synovitis (arthritis due to filterable agent), nonspecific enteritis (bluecomb, mud fever) and quail disease (ulcerative enteritis) when fed for 5 to 10 days. NOTE.—Severe outbreaks may require twice the level specified (i.e., 0.022 percent).
9. Furazolidone and Bacitracin methylene disalicylate or Procaine penicillin.	Chickens and turkeys	0.011–0.022 percent. 4–50 g/ton. 2.4–50 g/ton.	Growth promotion and feed efficiency. Aid in maintenance of feed consumption and growth and reduction of mortality and morbidity due to stress; for the control of the following nonspecific conditions: chronic respiratory disease (air-sac), infectious sinusitis, synovitis (arthritis due to a filterable agent), nonspecific enteritis (bluecomb, mud fever) and quail disease (ulcerative enteritis) when fed 5 to 10 days. Follow with preventive level to prevent recurrence.

Product	Species	Use levels	Indications for use
10. Furazolidone and Bacitracin methylene disalicylate or Procaine penicillin.	Chickens and turkeys.	0.22 percent. 4-50 g/ton. 2.4-50 g/ton.	For treatment of paratyphoid due to *S. typhimurium* when fed for 2 weeks. For treatment of blackhead (histomoniasis, enterohepatitis) in chickens and turkeys when fed for 2 to 3 weeks (following diagnosis). For treatment of paracolon in chickens and turkeys and hexamitiasis in turkeys when fed for 2 weeks or longer (following diagnosis). For control of chronic respiratory disease (air-sac), infectious sinusitis, synovitis (arthritis due to filterable agent), mud fever and quail disease (ulcerative enteritis) when fed for 5 to 10 days. For treatment of infectious hepatitis in chickens when fed for 14 days and repeated as necessary.

Social Security Administration

[20 CFR Part 404]

[Reg. No. 4]

FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

Proposed Change in Yearly Earnings Base for Granting of Quarters of Coverage—Reduced Quarters of Coverage Required for Fully Insured Status for Men

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U.S.C. 553) that the amendments to the regulations set forth in the tentative form below is proposed by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments to the regulations relate to the granting of four quarters of coverage if the individual has creditable earnings of a specified amount in designated years. The amendments also reflect the reduced quarters of coverage required for men in order to acquire a fully insured status.

At present the regulations do not reflect the yearly amount of creditable earnings required for the granting of four quarters of coverage in any year after 1971. In addition, the reduced quarters of coverage required for men to acquire a fully insured status are not covered.

The pertinent amendment revising the maximum yearly earnings creditable and providing for a contribution and earnings base for the granting of four quarters of coverage for a year is section 203(a)(3)(A) and (B) of Public Law 92-336, enacted July 1, 1972.

Prior to the October 1972 Amendments, a larger number of quarters of coverage was required for a fully insured status for men than for women. Section 104 of Public Law 92-603 reduced the quarters of coverage required for men in three steps. Under this provision, men who attain age 62 in 1975 or later will require the same number of quarters of coverage as women.

Prior to the final adoption of the proposed amendment to the regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue SW., Washington, D.C., 20201, on or before October 29, 1974.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue, SW., Washington, D.C. 20201.

The proposed amendments are to be issued under the authority contained in sections 205, 213(a), 214(a), and 1102 of the Social Security Act, and section 104(j) of Public Law 92-603, 53 Stat. 1368, as amended, 64 Stat. 504, 505, as amended, 49 Stat. 647, as amended; 42 U.S.C. 405, 413(a), 414, and 1302.

(Catalog of Federal Domestic Assistance Program No. 13.803, Social Security—Retirement Insurance)

Dated: September 7, 1974.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: September 23, 1974.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

Regulations No. 4 of the Social Security Administration, as amended (20 CFR Part 404) are further amended as follows:

1. Section 404.103(d) is amended to read as follows:

§ 404.103 Quarters of coverage.

* * * * *

(d) *Quarters of coverage based on wages paid or self-employment income derived in a year.* An individual is credited with quarters of coverage based on the amount of wages paid or self-employment income derived or a combination of both, in a year, as follows:

(1) *Based on wages.* An individual is credited with a quarter of coverage for each quarter in a calendar year (subject to the limitations in § 404.104) if such quarter occurred in a calendar year:

(i) After 1974, and he has been paid wages equal to the amount of the contribution and benefit base in effect for that year;

(ii) For the year 1974, and he has been paid wages equal to $13,200 in that year;

(iii) For the year 1973, and he has been paid wages equal to $10,800 in that year;

(iv) For the year 1972, if he has been paid wages equal to $9,000 in that year;

(v) After 1967 and prior to 1972, and he has been paid wages equal to $7,800 in such year;

(vi) After 1965 and prior to 1968, and he has been paid wages equal to $6,600 in such year;

(vii) After 1958 and prior to 1966, and he has been paid wages equal to $4,800 in such year;

(viii) After 1954 and prior to 1959, and he has been paid wages equal to $4,200 in such year;

(ix) After 1950 and prior to 1955, and he has been paid wages equal to $3,600 in such year;

(x) Prior to 1951, and he has been paid wages equal to $3,000 in such year and the conditions described in § 404.105 are met. If the conditions of § 404.105 are not met, then only those quarters in such year which occur after a quarter of coverage established in accordance with paragraph (b)(1) of this section, and prior to the quarter in which the individual becomes entitled to a primary insurance benefit, or died, are credited as quarters of coverage.

(2) *Based on self-employment income, or combination of self-employment income and wages.* In a case in which an individual has self-employment income, or a combination of self-employment income and wages, during a taxable year, he is credited with a quarter of coverage for each calendar quarter wholly or partly in such taxable year (subject to the limitations in § 404.104) if such taxable year:

(i) Ends after 1974, and the total of his self-employment income derived and wages paid, in such year equals the amount of the contribution and benefit base in effect for such year.

(ii) Ends after 1973, and prior to 1975, and the total of his self-employment income derived and wages paid, in such year equals $13,200;

(iii) Ended after 1972, and prior to 1974, and the total of his self-employment income derived and wages paid in such year equals $10,800;

(iv) Ended after 1971 and prior to 1973, and the total of his self-employment income derived and wages paid in such year equals $9,000;

(v) Ended after 1967 and prior to 1972 and the total of his self-employment income derived and wages paid in such year equals $7,800;

(vi) Ended after 1965 and prior to 1968 and the total of his self-employment income derived and wages paid, in such year equals $6,600;

(vii) Ended after 1958 and prior to 1966 and the total of his self-employment income derived and wages paid, in such year equals $4,800;

(viii) Ended after 1954 and prior to 1959 and the total of his self-employment income derived and wages paid, in such year equals $4,200;

(ix) Began after 1950 and ended prior to 1955 and the total of his self-employment income derived and wages paid, in such year equals $3,600.

* * * * *

2. Section 404.108 is revised to read as follows:

§ 404.103 **Fully insured status; general.**

(a) *Factors involved.* An individual is fully insured if he is credited with a required number of quarters of coverage. The number of quarters of coverage required is determined generally by the year the individual attains a certain age (referred to hereinafter as the determining age). The determining age is age 62 ((1) for months before November 1956, the determining age for a woman was age 65; (2) for men, the determining age was (i) age 65 if attainment of age 62 was prior to 1973; (ii) age 64 if attainment of age 62 was in 1973; (iii) age 63 if attainment of age 62 was in 1974) or if death occurs before attainment of the determining age, the date of death; whether or not a period of disability has been established for the individual; and the insured status requirement in effect at the time the individual first filed application for benefits, is first eligible for benefits, or dies.

(b) *When fully insured status begins.* An individual is fully insured beginning with the first day of the calendar quarter in which he acquires the last required quarter of coverage (see §§ 404.103(f) and 404.109–404.112). Though fully insured under the statutory provisions in effect during a particular period, an individual may not be fully insured under the statutory provision in effect for a prior period, and in such case, no benefits would be payable for such prior period though benefits may be payable currently based on the later requirements. Sections 404.109–404.113 set forth the various fully insured status requirements and their period of applicability.

3. Paragraphs (a) and (f) of § 404.109 are revised to read as follows:

§ 404.109 **Fully insured status—beginning August 1961.**

(a) *Quarters of coverage requirement.* An individual is fully insured after July 1961, if credited with not less than:

(1) One quarter of coverage, whenever acquired, for each calendar year elapsing after 1950, or, if later, the year in which the individual attained age 21 and:

(i) In the case of a woman, before the year in which she attains age 62, or if she is deceased and death occurred prior to attainment of age 62, before the year in which she died;

(ii) In the case of a man, before the year in which he attains age 62, if such attainment is in 1975 or later; if the attainment of age 62 is in 1974, up to the year he attains age 63; if attainment of age 62 is in 1973, up to the year of attainment of age 64; if attainment of age 62 is before 1973, up to the year of attainment of age 65; or if he is deceased, before the year in which he died if death occurred prior to such attainment; or

(2) Forty quarters of coverage; or

(3) In the case of an individual who died before 1951, six quarters of coverage (see § 404.113a(c) for an exception).

* * * * *

(f) *Table for determining quarters of coverage for fully insured status.* The following tables may be used to ascertain the number of quarters of coverage required for a fully insured status for benefits for months after July 1961. Instructions for use of the table are set forth in paragraph (f) (1) and (2) of this section. The numbers of quarters of coverage which appear in columns II and III (b) may be reduced by the application of the provisions of paragraph (f) (2) of this section. (See § 404.113a for circumstances under which the minimum six quarters of coverage may be reduced.)

Column I	Column II		Column III(a)	Column III(b)	Column III(c)
Date of birth	Number of quarters of coverage required for insured status; living wage earner, or one who dies after year attains determining age.		Individual born before Jan. 2, 1930 and dies before reaching determining age. Year of death	Number of quarters required for fully insured status	Individual born Jan. 2, 1930 or later, dies before reaching determing age. Age in year of death
	Men	Women			
Jan. 1, 1893 or earlier	6	6	[1] 1957	6	[2] 28

Jan. 2, 1925 to Jan. 1, 1926	36	36	1990	39	61
Jan. 2, 1926 to Jan. 1, 1927	37	37	[3] 1991	40	62
Jan. 2, 1927 to Jan. 1, 1928	38	38			
Jan. 2, 1928 to Jan. 1, 1929	39	39			
Jan. 2, 1929 or later	40	40			

[1] Or earlier.
[2] Or younger.
[3] Or later.

(1) *Required quarters of coverage.* The number of quarters of coverage required for a fully insured status appears in column II on the same line as that in column I on which appears the date of birth. If the individual dies before attaining the determining age (see § 404.108(a)), the number of quarters required appears in column III(b) opposite the year in which he died, if he was born January 1, 1930, or earlier (column III(a)), or if born January 2, 1930, or later, his age in year of death (column III(c)).

(2) *Period of disability to be excluded.* In any case in which an individual had a period of disability established which is to be excluded in determining the number of quarters of coverage required for a fully insured status (see § 404.109(c)), the number of quarters of coverage determined in accordance with paragraph (f)(1) of this section is reduced by one whenever a year or any part of a year falls within the established period of disability.

CHIEF, REGIONAL OPERATIONS DIVISION, ET AL.

Delegation of Authority

Pursuant to the authority delegated to me by Redelegation of Authority No. 99.1, dated May 1, 1973 (38 FR 12836), from the Assistant Administrator for Program and Management Services, I hereby further amend Delegation of Authority No. 99.1.1, dated May 2, 1973 (38 FR 12836), as amended, to add a new section D as follows:

D. To the Representative of the Office of Contract Management who is designated by the Chief, Central Operations Division to act as Contracting Officer in the Office of Foreign Disaster Relief Coordinator authority to sign for disaster relief purposes:

(1) Contracts, regardless of amount;

(2) Purchase orders; and

(3) Grants, other than grants to foreign governments and international organizations whose membership is composed primarily of foreign governments, regardless of amount.

This amendment is effective immediately.

Dated: September 13, 1974.

CERTAIN STAINLESS STEEL FLATWARE

Increase in Tariff-Rate Quota; Correction

In FR Doc. 74-22215 appearing at page 34310 in the issue for Tuesday, September 24, 1974, the text of the President's letter referred to in the document was omitted and is set forth below.

[SEAL] PETER O. SUCHMAN,
Acting Assistant Secretary (Enforcement, Operations and Tariff Affairs).

SEPTEMBER 24, 1974.

SEPTEMBER 3, 1974.

Dear Mr. Secretary: I have determined that the United States consumption of knives, forks and spoons with stainless steel handles increased during calendar year 1973 by approximately 12 percent over the United States consumption of such articles during calendar year 1972. Accordingly, pursuant to the provisions of Proclamation No. 4076 of August 21, 1971, establishing a tariff-rate quota on the imports of certain stainless steel flatware, I hereby notify you of my determination to increase such tariff-rate quota by 6 percent. Such increase, to be allocated on a quarterly basis, is to take effect on October 1, 1974.

Sincerely,

GERALD R. FORD.

The Honorable William Simon,
Secretary of the Treasury,
Washington, D.C.

Establishment, Organization and Functions

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Defense Panel on Intelligence has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The Office of Management and Budget has also reviewed the justification for this advisory committee and concurs with its establishment.

The charter for the Defense Panel on Intelligence is as follows: Official Designation: Defense Panel on Intelligence.

Objectives and Scope of its Activity: The scope of this Panel will be to review Department of Defense intelligence activities and recommend actions which should be undertaken to achieve improvement in management and general effectiveness. The Panel will:

a. Review the actions which have been taken in the last three years to improve and strengthen DoD intelligence operations.

b. Examine the size and scope of present DoD intelligence operations.

c. Examine the interrelationships which exist among the various DoD intelligence activities and the management considerations which result from them.

d. Report to the Secretary of Defense its assessment of the effectiveness of DoD intelligence operations and the efficiency with which result from them.

e. Recommend actions which the Secretary of Defense should consider to improve intelligence responsiveness to Defense needs to improve the general effectiveness and cost efficiency of DoD intelligence operations, and to correct any problems which are observed.

The Panel will not be responsible for the implementation of their recommendations.

The Panel will require an estimated .13 man years and an estimated total operating budget of $5,000.00 to complete its purpose.

The Panel will report to the Secretary of Defense. The Office of the Secretary of Defense will be responsible for providing necessary support for the Panel.

The total estimated time for the Defense Panel on Intelligence to complete its purpose is 105 calendar days. The Panel will officially meet at approximately one-month intervals and will hold a total of approximately four meetings. The Panel will terminate approximately 105 calendar days from the date of filing this charter. The terminal date will be on or about 15 January 1975.

Date charter filed: September 25, 1974.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

DEPARTMENT OF THE INTERIOR

Office of the Assistant Secretary, Land and Water Resources

OIL SHALE ENVIRONMENTAL ADVISORY PANEL

Notice of Meeting

Notice is hereby given in accordance with Pub. L. 92-463 that a meeting of the Oil Shale Environmental Advisory Panel will be held on October 10 and 11, 1974, at the C'est Bon Hotel and Convention Center, 1255 Empire Avenue, Park City, Utah. The meeting will begin at 11 a.m. on Thursday, October 10 in the Convention Hall and conclude at 4 p.m. on Friday, October 11.

The Panel was established to assist the Department of the Interior in the performance of functions in connection with the supervision of oil shale leases issued under the Prototype Oil Shale Leasing Program. The purpose of the meeting is to consider alternative water sources for development of Federal oil shale leases; the coordination of already adopted guidelines; and to receive reports from Departmental officials. The meeting is open to the public. It is expected that space will permit at least 100 persons to attend the session in addition to the panel members. Interested persons may make brief presentations to the Panel or file written statements. Requests should be made to Mr. William L. Rogers, Chairman, Office of the Secretary, Department of the Interior, Room 688, Building 67, Denver Federal Center, Denver, Colorado 80225.

Further information concerning this meeting may be obtained from Mr. Henry O. Ash, Office of the Oil Shale Environmental Advisory Panel, Room 820-A, Building 67, Denver Federal Center, Denver, Colorado 80225, Telephone No. (303) 234-3275. Minutes of the meeting will be available for public inspection 30 days after the meeting at the Panel Office.

Dated: September 24, 1974.

JACK O. HORTON,
Assistant Secretary of the Interior for Land and Water Resources.

Office of the Secretary

KING RANGE NATIONAL CONSERVATION AREA

Notice of Establishment

The Act of October 21, 1970 (84 Stat. 1067, 16 U.S.C. 460y), hereinafter referred to as the Act, authorizes and directs the Secretary of the Interior to establish the King Range National Conservation Area in the State of California within the survey and investigation area described in Section 9 of the Act.

The prerequisites for establishment of the 54,199-acre National Conservation Area on the Pacific Ocean coastline of Humboldt and Mendocino Counties have been fulfilled in accordance with the Act. The required program of multiple usage and sustained yield of renewable resources has been prepared under the specifications of Section 4 of the Act and submitted to the President of the Senate, the Speaker of the House of Representatives, the Governor of the State of California, and officials of counties in which the Area is located.

All requirements under the Act for public notice and periods of review have been met. An environmental impact statement has been prepared, reviewed, and filed in accordance with the National Environmental Policy Act.

Therefore, pursuant to the provisions of the Act, the King Range National Conservation Area is hereby established. The boundaries of the Area shall be as depicted on the Boundary Map dated July 1, 1974, on file in the District Office, Bureau of Land Management, Ukiah, California.

By virtue of section 8 of the Act of October 21, 1970, Executive Order 5237 is now revoked.

Dated: September 21, 1974.

JACK O. HORTON,
Assistant Secretary of the Interior.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

BAYLOR COLLEGE OF MEDICINE

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74-00483-33-10500. Applicant: Baylor College of Medicine, 1200 Moursund Avenue, Houston, TX 77025. Article: Radiochromatogram Spark Chamber Imaging System. Manufacturer: Birchover Instruments, Ltd., United Kingdom. Intended use of article: The article is intended to be used in biochemical research related to cancer to detect on chromatograms minute amounts of radioactively labeled derivatives of nucleic acids (i.e., gene materials). The main objective of this research is to detect and characterize chemical difference between nucleic acids

in normal and cancer cells which is necessary for rational treatment of human cancer.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article is capable of detecting minute amounts of radioactively labeled substances separated on thin layer chromatographic plates with several orders of magnitude greater sensitivity over the detection provided by conventionally used apparatus. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated August 7, 1974 that the best sensitivity available is pertinent to the applicant's research studies. HEW further advises that it knows of no domestically manufactured instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended purposes.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

A. H. STUART,
Director, Special Import Programs Division.

[FR Doc.74-22499 Filed 9-26-74;8:45 am]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 74-00522-33-46040. Applicant: Department of Health, Education, and Welfare, Public Health Service, Center for Disease Control, Room 527, Post Office Building, Fifth & Walnut Streets, Cincinnati, Ohio 45202. Article: Electron Microscope, Model JEM 100B and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used in a multiphase study of industrial talc exposure and related asbestos exposure potential. Other projects will include further evaluation of the present asbestos sampling procedure and studies of exposure to other respirable mineral fibers such as fibrous glass, mineral wool, carbon and graphite fibers, etc.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article is equipped with an eucentric side entry goniometer stage with ±60° tilt, 360° rotation holder and a guaranteed resolution of 7 Angstroms (point-to-point) as well as high resolution scanning attachment that provides images in the secondary and transmitted electron modes plus scanning microdiffraction from microareas as small as 200 Angstroms in diameter. The most closely comparable domestic instrument is the Model EMU-4C electron microscope supplied by the Adam David Company. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated August 30, 1974 that the characteristics of the article described above are pertinent to the applicant's intended purposes involving an investigation of various talc deposits for their silica and asbestos content as well as evaluation of asbestos sampling procedures and studies of exposure to other respirable mineral fibers. HEW further advised that domestic instruments do not provide an equivalent eucentric goniometer or scanning capability. We therefore, find that the EMU-4C is not of equivalent Scientific value to the foreign article for such purposes as this article is intended to be used. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

A. H. STUART,
Director, Special Import Programs Division.

DUKE UNIVERSITY MEDICAL CENTER

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74-00482-33-40700. Applicant: Duke University Medical Center, Division of Immunology, Department of Microbiology, Box 3010, Durham, North Carolina 27710. Article: Gammacell 40 Irradiation Chamber. Manufacturer: Atomic Energy of Canada, Canada. Intended use of article: The article is intended to be used for studies of the immune responses of irradiated rats, mice etc. Tissue culture of irradiated tumor and other cell lines will be investigated. In the experiments, animals will be irradiated, reconstituted with lymphoid cells and immunization or tolerance induced. In other experiments, lymphocytes will be cultured with irradiated tumor cells. The article will also be used in the course MIC 291—Fundamentals of Immunology.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article is equipped with a Cesium-137 source and a large radiation chamber (13" in diameter and 4.9" deep). The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated August 7, 1974 that the characteristics of the article described above are pertinent to the applicant's intended use. HEW further advises that it knows of no domestically manufactured instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended purposes. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

A. H. STUART,
Director, Special Import Programs Division.

[FR Doc.74-22502 Filed 9-26-74;8:45 am]

UNIVERSITY OF SOUTH ALABAMA

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Education, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74-00186-33-46040. Applicant: University of South Alabama, Department of Anatomy, U.S.A. College of Medicine, 307 Gaillard Drive, Mobile,

Alabama 36688. Article: Electron Microscope, Model EM 301. Manufacturer: Philips Electronics Instruments NVD, the Netherlands. Intended use of article: The article is intended to be used for teaching and research activities by the entire Medical College faculty. Experiments involving the high resolution capabilities of the article will include studies on the secretory mechanisms of glands and the influence of hormones, drugs, and other substances on this mechanism. Virus cancer cells and special studies of the nervous system will also be undertaken. The courses to be taught with the use of high resolution, transmission electron microscopy will be entitled "Biological Ultrastructure" or something similar and will include technical experience in specimen preparation for electron microscopy, instructions in the actual use of the instrument and lectures on interpretation of ultrastructure.

Comments: No comments have been received with respect to this application. A letter from Adam David Company (Adam David) postmarked December 21, 1973, after the period for comment had expired, has been treated as an offer to provide additional factual information in accordance with § 701.10(a) of the regulations.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (October 5, 1973).

Reasons: The foreign article has a specified resolving capability of 3 Angstroms (Å). The most closely comparable domestic instrument available at the time the article was ordered was the Model EMU–4C electron microscope supplied by Adam David. The Model EMU–4C had a specified resolving capability of 5Å. Resolving capability bears an inverse relationship to its numerical rating in Å i.e., the lower the rating, the better the resolving capability. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated August 7, 1974 that the best resolution available is pertinent to the applicant's intended uses of the article, which includes the identification of virus, hormones or other macromolecules. HEW further advised that domestic instruments had not demonstrated nor guaranteed resolution equivalent to that of the foreign article at the time the article was ordered. We, therefore, find that the EMU–4C was not of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the foreign article was ordered.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

A. H. STUART,
Director, Special Import Programs Division.

UNIVERSITY OF TEXAS HEALTH SCIENCE CENTER

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74–00520–33–46040. Applicant: University of Texas Health Science Center at Dallas, 5323 Harry Hines Blvd., Dallas, Texas 75235. Article: Electron Microscope, Model JEM 100C. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for studies of materials which will include a wide variety of tissues from humans and experimental animals. These tissues will be obtained at necropsy or biopsy and will be prepared in various ways. The experiments to be conducted include the following:

(1) Investigations of channels formed by groups of microtubules within the axon,

(2) Investigation of the detailed ultrastructure of the microtubule using antibody reagents to identify specific microtubule components,

(3) Examination of lung ultrastructure in response to various experimental manipulations of the inhaled atmosphere, and

(4) Examination of the intercalated disks which joins myocardial cells to each other.

The objectives of these investigations are to understand at a structural level the phenomena which occur in these tissues. The article will also be used in several educational courses including: General pathology for sophomore medical students to provide a background of the existing knowledge of disease processes in the human body and to provide a basis for understanding future progress which will be made in the diagnosis and treatment of these diseases. Residency training in pathology to produce trained specialists of the highest quality for clinical practice and academic medicine. Graduate study in comparative pathology and microbiology to provide an introduction to the use of sophisticated scientific instruments in the study of experimental diseases.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article has a specified resolving power of 3 Angstroms (Å) point-to-point and is equipped with a eucentric side entry goniometer stage with ±60° tilt, quick change holder which has a guaranteed point-to-point resolution of 7Å. The most closely comparable domestic instrument is the Model EMU–4C electron microscope supplied by the Adam David Company. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated August 23, 1974 that the characteristics of the foreign article described above are pertinent to the applicant's research studies. HEW further advises that the EMU–4C does not have a scientifically equivalent goniometer stage nor resolution. We therefore, find that the EMU–4C is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

WASHINGTON UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74–00546–90000. Applicant: Washington University, Department of Radiology, 510 South Kingshighway Blvd., St. Louis, Missouri 63110. Article: Basic EMI Scanner system with One High Resolution Display Option and one Magnetic Tape System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used in the study of diseases and tumors of the brain in patients. In particular, the subtle absorption differ-

ences between normal and abnormal brain tissue will be determined and charted by this instrument. Patients with a wide variety of suspected central nervous system disease will be evaluated on this scanner. The diagnosis will be correlated with current available diagnostic techniques to understand the best diagnostic approach to patients. In addition, the article will be used in training residents in Radiology, Neurosurgery and Neuroradiology as well as fellows in Nuclear Medicine, Neuroradiology and Radiation Physics.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article is a newly developed system which is designed to provide precise transverse axial X-ray tomography. We are advised by the Department of Health, Education, and Welfare (HEW), in its memorandum dated August 30, 1974 that the speed and accuracy of the article are pertinent to the applicant's research studies. HEW further advised that it knows of no domestically manufactured instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended purposes. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

MICHIGAN TECHNOLOGICAL UNIVERSITY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 74-00527-80-60060. Applicant: Michigan Technological University, Houghton, Michigan 49931. Article: Electric Reflectance Photometer. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article will be used for educational purposes in the following courses:

Pulping Processes. Chemistry, mechanisms and variables in pulping and bleaching processes. Influence of raw material and processing variables on pulp properties. Laboratory analysis of the various pulping and bleaching processes, with special emphasis on the effect of processing variables on pulp properties.

Fiber Properties. Anatomical, chemical, physical and mechanical properties of pulpmaking fibers. Their response to pulping and papermaking processes.

Paper Properties I. Application to pulps of rosin and wax sizes, starches, fillers, wet strength resin and other additives. Evaluation of their effect on paper properties. Surface coating of paper and its effect on paper properties. Evaluation of chemical, physical and optical properties of paper and their significance to marketing the product.

Paper Properties II. Continuation of Paper Properties I. Research Problems. Problem-solving assignments in pulping, bleaching, heating, sizing, coloring, Mathematical prediction of paper properties from a set pulp bleaching problem.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article is designed for hemispherical (diffuse) illumination and perpendicular viewing of test specimens for measurement of (diffuse) reflectance factor of paper in accordance with a number of accepted standards. Since the educational purposes of the application require that important standard methods be taught, the characteristics of the article described above are pertinent. We are advised by the National Bureau of Standards (NBS) in its memorandum dated August 22, 1974 that it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended purposes.

SANTA MONICA COLLEGE ET AL.

Decision on Applications for Duty-Free Entry of Scientific Articles

The following is a consolidated decision on applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Decision: Applications denied. Applicants have failed to establish that instruments or apparatus of equivalent scientific value to the foreign articles, for such purposes as the foreign articles are intended to be used, are not being manufactured in the United States.

Reasons: Subsection 701.8 of the Regulations provides in pertinent part:

> The applicant shall on or before the 20th day following the date of such notice, inform the Deputy Assistant Secretary whether it intends to resubmit another application for the same article for the same intended purposes to which the denied application relates. The applicant shall then resubmit the new application on or before the 90th day following the date of the notice of denial without prejudice to resubmission, unless an extension of time is granted by the Deputy Assistant Secretary in writing prior to the expiration of the 90 day period. * * * If the applicant fails, within the applicable time periods specified above, to either (a) inform the Deputy Assistant Secretary whether it intends to resubmit another application for the same article to which the denial without prejudice to resubmission relates, or (b) resubmit the new application, the prior denial without prejudice to resubmission shall have the effect of a final decision by the Deputy Assistant Secretary on the application within the context of Subsection 701.11.

The meaning of the subsection is that should an applicant either fail to notify the Deputy Assistant Secretary of its intent to resubmit another application for the same article to which the denial without prejudice relates within the 20 day period, or fails to resubmit a new application within the 90 day period, the prior denial without prejudice to resubmission will have the effect of a final denial of the application.

None of the applicants to which this consolidated decision relates has satisfied the requirements set forth above, therefore, the prior denials without prejudice have the effect of a final decision denying their respective applications.

Subsection 701.8 further provides:

> * * * the Deputy Assistant Secretary shall transmit a summary of the prior denial without prejudice to resubmission to the FEDERAL REGISTER for publication, to the Commissioner of Customs, and to the applicant.

Each of the prior denials without prejudice to resubmission to which this consolidated decision relates was based on the failure of the respective applicants to submit the required documentation, including a completely executed application form, in sufficient detail to allow the issue of "scientific equivalency" to be determined by the Deputy Assistant Secretary.

UNIVERSITY OF CHICAGO

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74–00513–33–46040. Applicant: University of Chicago, Pritzker School of Medicine, 5801 Ellis Avenue, Chicago, Illinois 60637. Article: Electron Microscope, Model Corinth 275. Manufacturer: A.E.I. Scientific Apparatus, United Kingdom. Intended Use of Article: The article is intended to be used by several investigators on a variety of specimens, including (a) skeletal muscle tissue from patients with psychiatric illness and from normal volunteer control; (b) skeletal muscle from animals treated with psychotomimetic drugs, pharmacologic regimens which manipulate central and peripheral levels of various biogenic amines and neurotransmitters, and other procedures which in one way or another simulate the neuromuscular pathology accompanying phychotic behavior; (c) nerve tissue from sources as in (a) and (b) above and (d) subcellular fractions isolated from skeletal muscle of human and animal sources, including mitochondrial, sarcolemmal, and membrane fragment fractions.

The article will also be used to teach students the techniques of tissue preparations for electron microscopy, use and maintenance of the electron microscope, the production and integration of electron micrographs, and finally, a course entitled, "Histochemistry and Electron Microscopic Effects of Drugs on Muscle and Nerve."

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article has an inverted column allowing for a large viewing area (6½'' x 6½'') on a fluorescent screen which is not encased in a cylindrical column. This arrangement permits a relatively larger area of the specimen to be observed, more rapid location of the area of interest (thereby exposing the specimen to less radiation damage and contamination) and greater ease of viewing by a large number of students than is permitted by smaller, less accessible screens. The most closely comparable domestic instrument is the Model EMU–4C electron microscope supplied by the Adam David Company. The EMU–4C has a smaller screen that is enclosed within the instrument and is viewed through windows. We are advised by the Department of Health, Education and Welfare (HEW) in its memorandum dated August 23, 1974 that the large and open viewing screen of the foreign article is pertinent to the applicant's intended use including extensive scanning at low and moderate magnifications to locate areas of interest in muscle tissue as well as teaching histochemistry and effects of drugs on muscle and nerve. We, therefore, find that the EMU–4C is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

UNIVERSITY OF VIRGINIA

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74–00526–33–46040. Applicant: University of Virginia, Department of Biology, Gilmer Hall, Charlottesville, Virginia 22901. Article: Electron Microscope, Model JEM 100C and accessories. Manufacturer: JEOL Ltd., Japan. Intended Use Of Article: The article is intended to be used in research concerned with the structure of the intimate molecular interactions between proteins and nucleic acids during the processes of gene action and the replication of hereditary material in cells. A variety of cell types and organisms will be used to investigate the following interactions in normal cells: (1) the relation of nascent ribonucleic acid (RNA) molecules to the deoxyribonucleic acid (DNA) duplex within RNA polymerase molecules during gene activations and steady-state transcription (amphibian oocyte ribosomal RNA genes); (2) the association of protein with elongating nascent RNA molecules at transcription junctions (amphibian rRNA genes and HeLa cell heterogenous nuclear RNA); and (3) the relation of DNA to the enzymes and other proteins associated with replication forks and the association of histones with newly replicate DNA duplexes (*Drosophila* embryos).

In addition, research is to be done at protein-nucleic acid interactions during adeno-2 virus infection of HeLa cells (viral replication and transcription) and during polio virus infection of HeLa cells (viral replication and translation).

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article has a specified resolving capability of 3 Angstroms (Å). The most closely comparable domestic instrument is the Model EMU–4C supplied by the Adam David Company. The Model EMU–4C has a specified resolving capability of 5Å. Resolving capability bears an inverse relationship to its numerical rating in Å, i.e., the lower the rating, the better the resolving capability. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated August 30, 1974 that the best resolution available is pertinent to the purposes for which the foreign article is intended to be used. HEW further advises that domestic instruments do not provide resolution equivalent to that of the foreign article. We therefore, find that the EMU–4C is not of equivalent scientific

value to the foreign article for such purposes as this article is intended to be used. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6 (c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before October 21, 1974.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00084-33-46040. Applicant: Veterans Administration Hospital, 4150 Clement Street, San Francisco, CA 94121. Article: Electron Microscope, Model EM 201S. Manufacturer: Phillips Electronic Instruments NVD, The Netherlands. Intended Use Of Article: The article is intended to be used for studies of cells from biopsies of normal and cancer tissues obtained from human patients and from experimental animals. In the experiments to be conducted, cells will be studied by high resolution microscopy and by tissue culture techniques in order to compare the ultrastructure and growth characteristics of normal cells, benign tumor cells, and malignant tumor cells. The article will also be used in the course Cellular Pathology to instruct residents and students in the applications of electron microscopy and basic electron microscopy techniques. Application Received By Commissioner Of Customs: September 3, 1974.

Docket Number: 75-00085-75-27000. Applicant: University of California, Los Alamos Scientific Laboratory, P.O. Box 990, Los Alamos, New Mexico 87544. Article: Imacon Camera System. Manufacturer: John Hadlund Ltd., United Kingdom. Intended Use Of Article: The article is intended to be used to photograph the motion of the high-temperature plasma column in the Scyllac thetapinch device, a large controlled fusion research device which is part of the U.S. program to produce energy for peaceful purposes through controlled nuclear fusion. Specific experiments to be conducted include: a. Studies of the phenomena involved in the plasma heating processes (shock heating and adiabatic compression heating). b. Studies of the plasma equilibrium and stability in the magnetic confining fields.

c. Determination of the detailed plasma properties such as temperature, density, and confinement time.

d. Study of the nuclear fusion reactions which occur in the hot plasma.

The basic objective pursued in these experiments is the production of a stable high-temperature plasma which can be confined by magnetic fields for times sufficiently long so that enough nuclear fusion reactions can occur to produce a net energy gain. Application received by Commissioner of Customs: September 3, 1974.

Docket Number: 75-00086-33-44795. Applicant: University of Cincinnati, Department of Environmental Health, Kettering Laboratory, 3223 Eden Avenue, Cincinnati, Ohio 45219. Article: Electronic Motility Meter IR Type, 40 Sensors 110V/60Hz. Manufacturer: Motron Products, Sweden. Intended Use of Article: The article is intended to be used for the study of spontaneous motor activity (hyperactivity hyperkinesis) and behavior. An experimental model of the human disease, "lead encephalopathy" will be employed in investigations to:

(a) To see whether lead has an adverse biological effect at exposure levels in where the experimental subject is asymptomatic of the usually easily recognized signs of lead poisoning,

(b) further, to learn whether low levels of environmental pollutants (lead) influences normal development of the young as measured by behavior and learning,

(c) and to demonstrate the biochemical lesion in the brain chemistry which could account for altered behavior following lead exposure. Application Received by Commissioner of Customs: September 3, 1974.

Docket Number: 75-00087-00-34040. Applicant: Health Research, Inc., Roswell Park Division, 666 Elm Street, Buffalo, New York 14203. Article: VRE 2102A Reflex Klystrons. Manufacturer: Varian Associates of Canada, Canada. Intended Use Of Article: The articles are replacements for klystron tubes that are used in microwave generators that are part of an Electron Spin Resonance Spectrometer used in the studies of Radiation Damage Mechanism in connection with cancer research. Application Received By Commissioner Of Customs: September 3, 1974.

Docket Number: 75-00093-33-90000. Applicant: Mayo Foundation, 200 First Street, S.W., Rochester, MN 55901. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended Use Of Article: The article is intended to be used for the radiologic examination of the head. The article will be employed for screening groups of patients and for more accurately delineating the disease processes found. Furthermore, the article will be an integrated part of the didactic and preceptorship training of diagnostic radiology residents and to a lesser degree for medical clerks and undergraduate medical students. Application Received By Commissioner Of Customs: September 5, 1974.

Office of the Secretary

COMMERCE TECHNICAL ADVISORY BOARD

Notice of Meeting

A meeting of the Department of Commerce Technical Advisory Board will be held on Wednesday, October 16, 1974, from 9 a.m. to 5 p.m., and Thursday, October 17, 1974, from 8:30 a.m. to 12 noon in Room 6802, Main Commerce Building, 14th Street and Constitution Avenue NW., Washington, D.C.

The Board was established to study and evaluate the technical activities of the Department of Commerce and recommend measures to increase their value to the business community. Agenda items are as follows:

1. Progress Reports from Subpanels of Project Independence Blueprint Panel—Coal, Nuclear, Oil and Gas, Solar—and a Report on Resource Constraints.
2. Report and Discussion of Technology Exchange in East-West Trade.
3. Progress Reports on:
   a. Candidate Studies on Technology Transfer.
   b. Institutional and Legal Barriers to Cooperative Energy R&D.
   c. Industrial Utilization of Federally Sponsored Energy R&D.
   d. Environmental Control Policies.
4. Planning for Future Materials Shortages.

A limited number of seats will be available to the press and to the public. The public will be permitted to file written statements or inquiries with the Chairman before or after the meeting. Minutes of the meeting will be available 30 days from the date of the meeting upon written request addressed to: Central Reference and Records Inspection Facility, U.S. Department of Commerce, Washington, D.C. 20230.

Persons desiring to obtain further information concerning the Board should contact Mrs. Florence S. Feinberg, Room 3877, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, D.C. 20230, telephone (202) 967-5065.

BETSY ANCKER-JOHNSON,
Assistant Secretary for Science and Technology.

Social and Economic Statistics Administration

DISTRIBUTORS' STOCKS OF CANNED FOODS

Notice of Survey and Request for Comments

Notice is hereby given that the Bureau of the Census is planning to conduct its annual survey of inventories covering 30 canned and bottled products, including vegetables, fruits, juices, and fish as of December 31, 1974, under the provisions of Title 13, United States Code, sections 181, 224, and 225. This survey, together with the previous surveys, provides the only continuing source of information on stocks of the specified canned foods held by wholesalers and in warehouses of retail multiunit organizations.

On the basis of information received by the Bureau of the Census, these data will have significant application to the needs of the public, industry and the distributive trades, as well as governmental agencies. The data are not publicly available from non-governmental or other governmental sources.

Such survey, if conducted, shall begin not earlier than October 29, 1974.

Reports will not be required from all firms but will be limited to a scientifically selected sample of wholesalers and retail multiunit organizations handling canned foods in order to provide year-end inventories of the specified canned food items with measurable reliability. These stocks will be measured in terms of actual cases with separate data requested for "all sizes smaller than No. 10" and for "sizes No. 10 or larger." (In addition, multiunit firms reporting separately by establishment will be requested to update the list of their establishments maintaining canned food stocks.)

Copies of the proposed forms and a description of the collection methods are available upon request to the Director, Bureau of the Census, Washington, D.C. 20233.

Any suggestions or recommendations concerning the subject matter of this proposed survey should be submitted in writing to the Director of the Census on or before October 29, 1974.

Dated: September 24, 1974.

VINCENT P. BARABBA,
Director, Bureau of the Census.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

ADVISORY COUNCIL ON DEVELOPING INSTITUTIONS

Notice of Public Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (P.L. 92-463), that the next meeting of the Advisory Council on Developing Institutions will be held October 31 and November 1, 1974, from 9 a.m. to 4 p.m. in Room 3008, U.S. Office of Education, 400 Maryland Avenue SW., Washington, D.C.

The Advisory Council on Developing Institutions was established by Title III of the Higher Education Act of 1965, as amended. The Council is governed by the provisions of Part D of the General Education Provisions Act and of the Federal Advisory Committee Act (P.L. 92-463). The Council shall assist the Commissioner in identifying the characteristics of developing institutions through which the purpose of Title III may be achieved, and in establishing the priorities and criteria to be used in making grants under section 304(a) of that Title.

The meeting of the Council shall be open to the public. The proposed agenda includes (1) overview of the program to date (2) report on plans for evaluation/monitoring (3) discussion of junior college funding and (4) funding decisions of the Advanced Institutional Development Program. Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the Director of the College and University Unit BPE, located in Room 4682, ROB, 7th and D Streets SW.

Signed at Washington, D.C. on September 24, 1974.

PRESTON VALIEN,
Director, College and University Unit, BPE.

[FR Doc.74-22490 Filed 9-26-74;8:45 am]

NATIONAL ADVISORY COMMITTEE ON THE HANDICAPPED

Notice of Public Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), that the next meeting of the National Advisory Committee on the Handicapped will be held on October 21-23, 1974, at 8:30 a.m., in the Pierre Suite, L'Enfant Plaza Hotel, 480 L'Enfant Plaza East, SW., Washington, D.C.

The National Advisory Committee on the Handicapped is established under (20 U.S.C. 123g) section 448(b) of the General Education Provisions Act. The Committee is established to review the administration and operation of programs for the handicapped in the Office of Education, and make recommendations for their improvement.

The meeting of the Committee shall be open to the public. The proposed agenda includes the orientation of new members; open discussion by Members on organizational structure, future directions, and planning; and format for the 1975 Annual Report. Records shall be kept of all Committee proceedings and shall be available for public inspection at the Office of the Deputy Commissioner, Bureau of Education for the Handicapped, located in Room 2100 Regional Office Building 3, 7th and D Streets SW., Washington, D.C. 20202.

Signed at Washington, D.C. on September 23, 1974.

EDWIN W. MARTIN,
Acting Deputy Commissioner for the Handicapped, Bureau of Education for the Handicapped.

[FR Doc.74-22522 Filed 9-26-74;8:45 am]

Office of the Secretary

CONSUMER ADVISORY COUNCIL

Notice of Meeting

Pursuant to Pub. L. 92-463 of October 8, 1972, notice is hereby given that there will be a public meeting of the Consumer Advisory Council to the Office of Consumer Affairs, U.S. Department of Health, Education, and Welfare, which will commence at 10 a.m. on October 10 in Room 5104, New Executive Office Building, 17th and H Streets NW., Washington, D.C. 20506 and continue on the morning of October 11 in the same location.

The Consumer Advisory Council was established under section 5 of Executive Order 11583 issued February 24, 1971, to advise the Director of the Office of Consumer Affairs with respect to policy matters relating to consumer interests, the effectiveness of Federal programs and operation which affect the interests of consumers, problems of primary important to consumers and ways in which unmet consumer needs can appropriately be met through Federal Government action.

The agenda will include discussions of the consumers interests in inflation control, energy conservation, productivity improvement, and related current activities of the Office of Consumer Affairs. The meeting is open to the public with the number of persons admitted subject to reasonable limitation according to space available.

Signed in Washington, D.C., this 23rd day of September 1974.

VIRGINIA H. KNAUER,
Director, Office of Consumer Affairs and Executive Secretary, Consumer Advisory Council.

[FR Doc.74-22518 Filed 9-26-74;8:45 am]

POLICY RESEARCH STUDIES

Proposed Objectives and Priorities

Pursuant to the authority contained in section 232 of the Economic Opportunity Act (42 U.S.C. 2825) and Section 1110 of the Social Security Act (42 U.S.C. 1310), the Secretary of Health, Education, and Welfare hereby proposes to establish overall objectives and priorities to govern the Policy Research activity, which is conducted by the Office of the Secretary.

Section 232 of the Economic Opportunity Act authorizes the Director of the Office of Economic Opportunity to contract or provide financial assistance for pilot or demonstration projects designed to test or develop new approaches to reduce poverty and for the conduct of research on means to help low-income persons become self-sufficient. Pursuant to Section 602(d) of the Economic Opportunity Act, this authority has been delegated to the Secretary of Health, Education, and Welfare (38 FR 19291, July 19, 1973). Under section 232(b) of the Economic Opportunity Act, an overall plan to govern the approval of projects under the Section 232 research authority is required. This notice is prepared to carry out this specific statutory requirement.

Section 1110 of the Social Security Act authorizes the Secretary to make grants, contracts, or jointly financed cooperative arrangements with States and other public and private agencies and institutions for research or demonstration projects, "such as those relating to the prevention and reduction of dependency, or which will aid in effecting coordination of planning between private and public welfare agencies or which will help improve the administration and effectiveness of programs assisted under (the Social Security Act) and programs related thereto."

Policy Research activities are carried out within the Office of the Secretary pursuant to both section 232 of the Economic Opportunity Act and section 1110 of the Social Security Act.

The following objectives and priorities would be incorporated into planning documents of the Department. In the course of formal and informal HEW planning activities, they would be used as a framework for selection of research projects within the Policy Research activity pursuant to the above-described statutory authorizations.

It is not the purpose of this notice to solicit proposals for grants or for any other type of financial arrangement for the conduct of research projects; nor is the purpose of this notice to propose rules governing the manner in which grants or contracts are awarded or the specific requirements applicable to projects awarded pursuant to such instruments. Any additional notices on these matters will, as appropriate, be separately published in the FEDERAL REGISTER.

Nothing in this proposed notice or in the successive final notice should be construed as requiring the withholding of funds from, or any alteration in, previously awarded Policy Research projects.

Implementation of objectives and priorities for the Policy Research activity is contingent upon appropriation of funds by Congress.

I. BACKGROUND

By delegation of authority from the Director of the Office of Economic Opportunity and with approval of the President, poverty related research conducted by the Office of Economic Opportunity under Section 232 of the Economic Opportunity Act was transferred to the Department of Health, Education, and Welfare, effective in July 1973. The transferred research projects deal with income maintenance, employment, health insurance, statistical data, and a variety of economic, manpower, welfare, and social service subjects. These research projects are assigned for management to the Assistant Secretary for Planning and Evaluation, who has been responsible for managing major income maintenance experiments conducted within HEW under the authority of Section 1110 of the Social Security Act. The HEW Policy Research activity stems from the combination of the transferred OEO research activity and the HEW income maintenance experiments.

II. OVERALL OBJECTIVE OF THE POLICY RESEARCH ACTIVITY

The overall objective of the Policy Research activity is to obtain information, as it relates to the mission of the Department of Health, Education, and Welfare, about the basic causes of and methods for preventing and eliminating poverty and dependency, and about improved methods for delivering human resource services. Such information is obtained through the conduct of basic and applied research, statistical analyses, demonstrations, and evaluations.

The Policy Research activity is distinguished from the other research programs of the Department by its concentration on activities which cut across programmatic lines of the Department, which form linkages among other more specifically focused Departmental research programs, and which relate to major policy initiatives of the Department.

A key consideration in the choice of specific research projects is the potential impact which the acquisition of new knowledge can have on the formulation or modification of major Departmental policies and programs. A high priority is therefore given to projects which have a direct bearing on such policy initiatives as welfare reform, national health insurance, grant consolidation, special education for the disadvantaged, management and delivery of human service programs, and care of the disabled and institutionalized.

It is not consistent with the objective of the Policy Research activity to undertake projects which duplicate work performed in other HEW research or evaluation activities. In fact, administrative practices have been established to ensure that proposed Policy Research projects are rejected if they are duplicative of projects conducted by other Departmental programs and to ensure that when appropriate, effective coordination with related projects is achieved. The emphasis is rather on identifying significant linkages among the Department's programs as they affect the poor. Special attention is also paid to ensure that the needs of racial and ethnic minorities and women are accounted for in the conduct of Policy Research projects.

Consistent with this overall objective, the priority areas identified below serve as a framework for approval of Policy Research projects. For each priority area, an overall research objective is given, along with specific research objectives and priorities.

III. MAJOR PRIORITY AREAS

A. PRIORITY AREA: INCOME MAINTENANCE AND EMPLOYMENT

1. *Overall research objective.* Research in this area is designed to provide a better understanding of the causes of low incomes from private employment; to ascertain the effects, or likely effects, of existing or proposed income maintenance and employment-related assistance programs; and to suggest program modifications or new initiatives which will contribute to the policy objective of increased self-sufficiency and reduced dependency among low-income families and individuals.

2. *Specific research objectives and priorities include but are not limited to analysis of the following.* a. The determinants of family income and changes in income over time. Topics to be investigated include labor force participation, unemployment, number of family earners, wage rates, hours worked, job turnover, and sources and amounts of unearned income. The research will focus on the relationships of these variables to such factors as age, race, sex, health, education, residential location, family composition, general economic conditions, and participation in public programs.

b. The effectiveness of public income maintenance and employment-related programs in achieving their objectives, including analysis of costs, benefits, and any adverse effects. The analysis will also include estimation of target groups, eligible populations, and budgetary costs for existing and proposed programs, and development of recommendations for program modifications to improve effectiveness.

c. Participation in income maintenance and employment-related programs, including participation in multiple programs and the effects of receipt of multiple benefits on the combined distribution of benefits and economic incentives.

d. The relationship of family income and economic status to broader concepts of well-being, including social status, family functioning, job satisfaction, and emotional well-being.

B. PRIORITY AREA: HEALTH

1. *Overall research objective.* Research in this area is directed to significant policy questions concerning the availability and utilization of health services among low income populations. Major unresolved issues involve organizational arrangement of service systems for financing care, arrangements for reimbursement for services rendered, funding of facility construction and modernization, psychological factors influencing utilization, levels of governmental responsibility, and other issues. Research contributes to policy formulation on these questions through experimentation with a variety of arrangements, analysis of current experience, investigation of attitudes and behavior of consumers and providers, and estimates of future trends.

2. *Specific research objectives and priorities include (but are not limited to) analysis of the following.* a. The relationship between income levels and receipt of medical care. The analysis includes consideration of the effect of income level on an individual's choices of source of medical care and payment method; the effect which various health financing provisions have on the amount and type of medical care consumed by families at different income levels; the relationship between increased consumption of medical care and improvements in health status.

b. Delivery of health services to the poor, including considerations of: responsiveness of various levels of government to the health care needs of the poor; programs of outreach and consumer participation for improving utilization of health services.

c. Relationship of various economic and social conditions on availability of health care, including analysis of the impact of segregation by income on delivery of health services, relationship between health scarcity areas and the poverty level of the population, and patterns in the selection of areas for medical practice by medical personnel.

C. PRIORITY AREA: OTHER HUMAN SERVICES

1. *Overall research objective.* Research in this area is intended to provide linkages among a variety of programs which affect the disadvantaged.

2. *Specific research objectives and priorities include (but are not limited to) analysis of the following.* a. Education: Including identification, development, and utilization of more effective curriculum, programs, teacher and education-profession personnel preparation and training, organization, and administration of educational programs devoted to the special needs of the economically and educationally disadvantaged preschool, elementary, secondary, post-secondary, and adult students; as well as identification and analysis of major educational problems and issues.

b. Social Services: Including development of information bases about populations needing a variety of social services and about the impact of these services. Near term research will give special emphasis to the disabled, long term care patients, runaway youth, and the family.

c. State and local government capacity building: Including projects demonstrating improved methods for delivering human resource services by units of government at all levels and taking into consideration innovative management and delivery systems technology, planning systems, evaluation methodology, and service integration techniques.

D. PRIORITY AREA: BASIC RESEARCH AND STATISTICAL DATA

1. *Overall research objective.* Research in this area is directed to increase fundamental understanding of the nature and causes of poverty and inequality and to provide for improved collection, analysis, and utilization of statistical data on policy-relevant economic, social, health, and demographic phenomena.

2. *Specific research objectives and priorities include (but are not limited to).* a. Statistical computation supporting specific basic research and statistical data objectives and for the creation, use, and maintenance of large-scale data bases for policy analysis purposes in health, education, social services, and income maintenance: also limited development of special-purpose simulation and modeling tools required for near-term policy development.

b. Analysis of complex behavioral responses of persons and households to changing economic conditions and governmental programs, to be pursued through substantive analysis and reanalysis of existing large-scale data bases and long-term development of dynamic microanalytic models to simulate and explain the observed phenomena.

c. Operational definition of poverty and low-income status, including problems of the valuation of noncash income and benefits received throughout the income distribution. A specific objective is the construction of a meaningful theoretical framework within which more useful public policy definitions may be developed.

d. Limited support of basic and applied research to the development of better methods for assessing the technical quality of economic and social research and for utilizing the results of policy studies, and for the development of improved methods for quantitative economic analysis.

e. Data collection through longitudinal and cross section surveys, supplementation of periodic governmental surveys of population and housing, and statistical compilations of administrative data from operating programs. As a further objective, to gain from such statistical efforts not only the data required for current policy analysis, but also to provide the empirical basis for a substantially improved national survey program, especially for income-related data.

f. Continuing analysis and publication of census survey tabulations on the low-income population and other subpopulations of policy interest. Through exact and statistical matching and other analytic techniques, subject to confidentiality safeguards, to provide more powerful tools for policy analysis based on census, social security, and revenue data.

g. Methodological research for improved survey techniques and scientific computation methods.

h. Continuing assessment of data needs and statistical and research priorities.

IV. OTHER PRIORITY-SETTING CONSIDERATIONS

Policy Research activities are to be carried out within the framework of the priority areas and the specific research objectives and priorities outlined above. In selecting specific research projects, however, consideration is also given to the technical quality of proposals, feasibility, likelihood of timely completion, suitability of research methodology, relationship to past and current research project, and cost.

None of the priority-setting considerations above, including identification of priority areas, is intended to prevent support within the Policy Research Activity of small studies and analyses which could potentially lead to identification of new priority areas or which are needed to form significant connecting links between other major Departmental research programs.

V. PUBLIC COMMENTS

Interested parties are invited to submit written comments, suggestions, or objections regarding the proposed objectives and priorities to the:

Director, Office of Research, Evaluation, and Data Systems, Office of the Assistant Secretary for Planning and Evaluation, Department of Health, Education, and Welfare, 330 Independence Avenue SW., Washington, D.C. 20201.

Comments received in response to this notice will be available for public inspection in the Planning and Evaluation Documentation Center, HEW Library, at the above address Monday through Friday of each week from 9 a.m. to 5:30 p.m. All relevant material received on or before October 29, 1974 will be considered.

(42 U.S.C. 2825(b), 1310)

Dated: September 20, 1974.

FRANK CARLUCCI,
Acting Secretary of Health, Education, and Welfare.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

COMMITTEE ON RULEMAKING AND PUBLIC INFORMATION

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Committee on Rulemaking and Public Information of the Administrative Conference of the United States, to be held at 10 a.m., October 11, 1974 in the offices of the Conference, Suite 500, 2120 L Street NW., Washington, D.C.

The Committee will meet to continue its consideration of transfers of confidential information among Federal agencies.

Attendance is open to the interested public, but limited to the space available. Persons wishing to attend should notify this office at least one day in advance. The Committee Chairman may, if he deems it appropriate, permit members of the public to present oral statements at the meeting; any member of the public may file a written statement with the Committee before, during or after the meeting.

For further information concerning this Committee meeting contact John F. Cushman, Executive Director (phone 202-254-7020). Minutes of the meeting will be available on request.

RICHARD K. BERG,
Executive Secretary.

ATOMIC ENERGY COMMISSION

[Docket Nos. STN 50-516 and STN 50-517]

LONG ISLAND LIGHTING CO.

Jamesport Nuclear Power Station, Units 1 and 2; Receipt of Application for Construction Permits and Facility Licenses and Availability of Applicant's Environmental Report; Time for Submission of Views on Antitrust Matters

The Long Island Lighting Company (the applicant), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed an application, which was docketed September 6, 1974, for authorization to construct and operate two generating units utilizing two pressurized water reactors. The application was tendered on June 14, 1974. Following a preliminary review of completeness, the application was accepted on August 13, 1974 for docketing. Docket Nos. STN 50-516 and STN 50-517 have been assigned to the application and they should be referenced in any correspondence relating to the application.

The proposed nuclear facilities, designated by the applicant as the Jamesport Nuclear Power Station, Units 1 and 2 are to be located in Suffolk County, New York, 6 miles northeast of the town of Riverhead. Each unit is designed for initial operation at approximately 3425 megawatts (thermal), with a net electrical output of approximately 1150 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before November 12, 1974. The request should be filed in connection with Docket Nos. STN 50-516-A and STN 50-517-A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545, and at the Riverhead Free Library, 330 Court Street, Riverhead, New York 11901.

The applicant has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in 10 CFR Part 51, an Environmental Report dated August 28, 1974. The report, which discusses environmental considerations related to the construction and operation of the proposed facility is being made available for public inspection at the aforementioned locations and at the New York State Office of Planning Services, 488 Broadway, Albany, New York 12207; and the Tri-State Regional Planning Commission, 100 Church Street, New York, New York 10007.

After the Environmental Report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission's regulatory staff. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, with a request for comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials will be made available when received. Upon consideration of comments submitted with respect to the draft environmental statement, the regulatory staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Dated at Bethesda, Maryland, this 6th day of September, 1974.

For the Atomic Energy Commission.

FRANCIS J. WILLIAMS,
Acting Chief, Light Water Reactors Projects Branch 2-1, Directorate of Licensing.

CIVIL AERONAUTICS BOARD

[Docket No. 25513; Order 74-9-81]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Increased Fuel Costs

Issued under delegated authority, September 23, 1974.

An agreement has been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, embodied in the resolutions of riers. embodied in the resolutions of Traffic Conference 1 of the International Air Transport Association (IATA). The agreement, adopted by mail vote, has been assigned C.A.B. Agreement Number 24663, R-1 through R-3.

The agreement proposes a general increase to U.S./Canada-Mexico fares as a consequence of increased fuel prices for October 1, 1974 effectiveness. Increases to one way fares would be six percent of the applicable one way economy fare, and to all round trip fares, twice the amount applicable to one way fares.[1]

[1] The agreement also proposes to amend the travel together provision on U.S./Canada-Mexico GIT fares to permit individual travel by tour group members from destination to point of origin during the period October 1, 1974 to March 31, 1975 and ties effectiveness of this amendment and the proposed fare increase with government approval of both.

The purpose of this order is to establish procedural dates for the receipt of justification, comments and replies in support of, or in opposition to, the agreement. All U.S. carrier members of IATA operating passenger service in the U.S.-Mexico market are required to submit complete and detailed justification in support of the agreement. The data presented in their justifications should include, but not be limited to, actual or contractual prices per gallon for fuel since September 1973; and financial forecasts, including traffic and capacity projections and estimated fuel consumption, for the year ending September 30, 1975, with and without the proposed increases, and the revenue gain anticipated from implementing the instant agreement as well as the revenue gain from previous fuel-related agreements.

We will also require similar data from Western Air Lines, Inc. Although Western is not party to the IATA agreement, it is a major participant in this market from U.S. west coast points, and the Board's consideration of the proposed increase must include an evaluation of the impact on Western.

Accordingly, it is ordered, That:

1. All United States air carrier members of the International Air Transport Association shall file within ten calendar days after the date of service of this order, full documentation and economic justification (as described above) in support of the subject agreement;

2. Western Air Lines, Inc. shall file within ten calendar days after the date of service of this order, data similar to that required of the IATA carriers (as described above), with respect to the proposed increases to/from U.S. west coast points;

3. Comments and/or objections from interested persons shall be submitted within twenty calendar days after the date of service of this order; and

4. Tariffs implementing the subject agreement shall not be filed in advance of Board action on the subject agreement.

This order will be published in the FEDERAL REGISTER.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC-74-3]

FIREWORKS DEVICES

Notice of Hearing

In the FEDERAL REGISTER of August 1, 1974 (39 FR 27828), the Consumer Product Safety Commission scheduled an evidentiary rulemaking hearing on regulations relating to banning and labeling fireworks devices.

Notice is given that the hearing tentatively scheduled to commence at 10 a.m. Eastern Daylight Savings Time, Tuesday, September 24, 1974, in the Sixth Floor Hearing Room, 1750 K Street NW., Washington, D.C. will instead commence at 10 a.m. Eastern Daylight Savings Time, Tuesday, October 1, 1974 in Room 2008, 726 Jackson Place NW. (17th and Pennsylvania Avenue NW.) Washington, D.C.

The hearing will continue at 10 a.m., local time, Monday, October 21, 1974, in Kansas City, Missouri, at the Consumer Product Safety Commission, Suite 1500, Traders National Bank Building, 1125 Grand Avenue and on Tuesday, October 29, 1974, at 10 a.m. local time, in Honolulu, Hawaii at the Public Utilities Commission Hearing Room, Second Floor, Kamamalu Building, 1010 Richards Street. The hearing will continue beyond the above indicated commencing date for each of the three geographical locations at such times and places as directed by the Presiding Officer.

Dated: September 24, 1974.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

[FR Doc.74-22489 Filed 9-26-74;8:45 am]

LEAD BASED PAINT

Notice of Meeting

The Consumer Product Safety Commission gives notice that on October 18, 1974, a public meeting will be held concerning the Commission's responsibilities under Section 301(b) of the Lead Based Paint Poisoning Prevention Act, as amended (Public Law 93-151). The meeting will be held at 10 a.m., room 600, 1750 K Street NW., Washington, D.C.

The purpose of the meeting is to give all interested parties an opportunity to convey their views and submit relevant information which will assist the Chairman, Consumer Product Safety Commission, in carrying out his responsibilities under section 301(b) of the Lead Based Paint Poisoning Prevention Act. Under this Act, the Chairman has been directed to conduct research on dried paint containing lead in order to ascertain a safe level of lead in residential paint products and to submit his findings and recommendations to Congress no later than December 31, 1974. The Act defines the term "lead based paint," before December 31, 1974, to mean any paint containing more than 0.5 percent lead (as metal). After December 31, 1974, the term means any paint containing more than 0.06 percent lead (as metal) unless "the Chairman of the Consumer Product Safety Commission, based on studies conducted in accordance with section 301(b) of this Act, determines that another level of lead, not to exceed five tenths of one percentum, is safe, then such other level shall be effective after December 31, 1974."

Pursuant to these responsibilities, the Commission has sponsored studies at the New York University Institute of Environmental Medicine and the Southwest Foundation for Research and Education to determine the effect in baboons of dried paint containing the two most commonly used lead driers. These studies have not been completed at this time. A report of the National Academy of Sciences/National Research Council ad hoc Committee to Evaluate the Hazards of Lead Paint in Dwellings was received by the Commission, November 7, 1973.

Any person wishing to present comments, submit information, or attend the meeting may do so by notifying the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, telephone (202) 634-7700.

Dated: September 23, 1974.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

[FR Doc.74-22443 Filed 9-26-74;8:45 am]

PUBLIC PLAYGROUND EQUIPMENT

Notice of Meeting

The Consumer Product Safety Commission gives notice that Mr. Bernard Scharf of the Commission's Office of Standards Coordination and Appraisal, will meet with Mr. Mack Dunaway, Game Time Co., Inc. to discuss safety standards for public playground equipment. The meeting will be held Monday, September 30, 1974, at 9 a.m. in room 235, Westwood Towers Building, 5401 Westbard Ave., Bethesda, Maryland.

The Commission voted July 20, 1974 to grant a petition from Ms. Elayne Butwinick asking the Commission to initiate development of regulations, under section 2(q)(1)(A) of the Federal Hazardous Substances Act, for both home and public playground equipment.

Interested persons desiring more information about the meeting may contact Mr. Don Early, Office of Standards Coordination and Appraisal, (301) 496-7197.

Dated: September 23, 1974.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

[FR Doc.74-22444 Filed 9-26-74;8:45 am]

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

List of Statements Received

Environmental impact statements received by the Council on Environmental Quality from September 16 through September 20, 1974. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the minimum period for public review and comment on draft environmental impact statements is forty-five (45) days from this *Federal Register* notice of availability. (November 11, 1974) The thirty (30) day period for each final statement begins on the day the statement is made available to the Council and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies will also be available at cost, from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

DEPARTMENT OF AGRICULTURE

Contact: Dr. Fred H. Tschirley, Acting Coordinator, Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 331-E, Administration Building, Washington, D.C. 20250, (202) 447-3965.

FOREST SERVICE

Draft

Timber Management Plan, Lassen N.F., September 16: The statement refers to the proposed ten year timber plan for the Lassen National Forest. There will be impacts to soils, nearby wilderness areas, aesthetics, and water quality. (ELR Order No. 41438.)

Final

Timber Management Plan, Santa Fe National Forest, several counties, New Mexico, September 16: The proposal is a Timber Management Plan for the Santa Fe National Forest. The Plan is developed around an annual programmed harvest of 41.0 million board feet; the calculated potential yield is 49.4 million board feet yearly. Included is the construction of roads, with 300 miles of new roadway needed to complete the planned system, and 1200 miles of existing roadway requiring improvement. There will be adverse impact to air, water, soils, natural beauty, and fire control. Wildlife habitat and outdoor recreation will be adversely affected (178 pages). Comments made by: EPA, DOI, USDA, HUD, State and local agencies, and concerned citizens. (ELR Order No. 41437.)

Bridger-Teton and Shoshone N.F.'s, Wyoming, September 17: Proposed is the construction of 12 miles of access road and the cutting of 15,740,000 board feet of timber. The timber is to be harvested from 47 irregularly shaped clear-cut units totalling 670 acres on the Bridger-Teton and Shoshone National Forests. There will be adverse impact to soil and water qualities. The impact of the proposal on elk is considered controversial, due to the increased area access which the new roads will allow (57 pages). Comments made by: USDA, EPA, DOI, AHP, State agencies, and concerned citizens. (ELR Order No. 41448.)

SOIL CONSERVATION SERVICE

Draft

Lye Creek Drain Watershed Project, Montgomery County, Indiana, September 20: Proposed is a watershed protection, flood prevention, and drainage project on the Lye Creek Drain Watershed. Project measures will include land treatment, and 11.3 miles of channel work. Impact of the project will include the loss of 154 acres of grassland, the changing of 137 acres of wildlife habitat to cropland and forest, the commitment of 15 acres of woody habitat to channel work, and increased pages). (ERL Order No. 41483.)

CIVIL AERONAUTICS BOARD

Contact: Steve Gross, Chief, Routes and Relationships Division, Civil Aeronautics Board, Washington, D.C. 20428, (202) 382-7261.

Final

Capacity Reductions Agreement Case, September 17: The statement refers to an administrative agreement under which nonstop capacity (number of aircraft seats) to be offered in four transcontinental markets would be limited, and a share of that capacity would be allocated to each of three competing carriers. The markets are: New York/Newark-Los Angeles; New York/Newark-San Francisco; Baltimore/Washington-Los Angeles; and Chicago-San Francisco. The carriers are: American, TWA, and United. Environmental impacts related to the action would include changes in air pollution, noise exposure, fuel consumption, and aircraft ground congestion (60 pages). Comments made by: CEQ, EPA, DOT, DOI. (ELR Order No. 41446.)

DEPARTMENT OF DEFENSE

ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn: DAEN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, (202) 693-7168.

Draft

Nonconnah Creek Flood Protection (2), several counties, Tennessee and Mississippi, September 16: The statement discusses a flood prevention, watershed protection and recreation project on Nonconnah Creek to be carried out jointly by USDA and the Army Corps. The project includes: installation of 3 floodwater-retarding structures; treatment of erosion and sediment control on 35,010 acres; construction of a reservoir; channel cleanout and enlargement; and, establishment of a greenway-floodway. Adverse impacts are loss of 6 miles of channel, loss of 2,300 acres, inundation 18 archeological sites, displacement of 33 families, loss of stream benthos and increased bank erosion following channel disturbance (Memphis District). (ELR Order No. 41445.)

Lake Brownwood Modification, Texas, September 16: The statement refers to the construction of a new embankment for Lake Brownwood and stabilization of the existing spillway to preserve present values of the lake for flood control, water supply, recreation, and other related purposes. Adverse impacts include the elimination of 1,000 feet of stream and natural cover, loss of 83 acres of land, and approximately 1 mile of county road and 3,500 feet of power and telephone lines will be required to replace the 2,000 feet of existing lines (Fort Worth District). (ELR Order No. 41440.)

FEDERAL POWER COMMISSION

Contact: Dr. Richard F. Hill, Acting Advisor on Environmental Quality, 441 G Street NW., Washington, D.C. 20426 (202) 386-6084.

Draft

Escondido Project No. 176, California, September 10: (ELR Order No. 41458.).

GENERAL SERVICES ADMINISTRATION

Contact: Mr. Andrew E. Kauders, Executive Director of Environmental Affairs, General Services Administration, 18th and F Streets NW., Washington, D.C. 20405, (202) 343-4161.

Final

Disposal of Travis Air Base Defense Area, Solano County, California, September 19: Proposed is the disposal of the Nike 86 site of Travis Air Base. The site consists of 46.90 acres in fee and 59.91 acres in easements, 12 buildings, and appurtenant structures. Sections of the area would be conveyed to the Fairfield-Suisan Unified School District, and to the Travis School District for educational purposes; and to the County of Solano, for development of a prison facility and for sale as a communications site. There will be impact from construction of the prison facility, and from the increased traffic (106 pages). Comments made by: AHP, EPA, DOI, State and local agencies, and concerned citizens. (ELR Order No. 41456.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Acting Director, office of Community and Environmental Standards, Room 7206, 451 7th Street SW., Washington, D.C. 20410, (202) 755-5980.

Draft

Industrial Park Urban Renewal Area, Malden, Massachusetts, September 20: Proposed is the urban renewal of sections of downtown Malden, Massachusetts. Included is the acquisition of property relocation of families and businesses, and reconstruction or new construction of roads, parking facilities, commercial structures, low and moderate income housing, the industrial park area, and related facilities. The greatest impact will result from commercial and residential relocations. (ELR Order No. 41465.)

Draft

Camp Fornace Urban Renewal Area, South Carolina, September 5: Proposed is the construction of 78 units of low-rent family housing and day care facilities on sixty acres of the "Black Bottom" area of Columbia. Because of the construction on adjacent property of a liquid propane gas bulk storage facility, the project area is considered to be a hazardous area, and a reassessment of area land uses is being made (105 pages). (ELR Order No. 41402.)

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, (202) 343-3891.

Final

Unimak Island Wilderness, Alaska, September 18: The statement refers to the proposed legislative designation of 973,000 acres of the 998,260 acre Unimak Island (which is part of the Aleutian Island National Wildlife Refuge) as wilderness within the National Wilderness Preservation System (98 pages). Comments made by: USCG, DOD, EPA, DOI, State and local agencies. (ELR Order No. 41455.)

BUREAU OF OUTDOOR RECREATION

Final

Mercer Slough, Bellevue, Washington, September 16: Proposed is the granting of $1,495,711 to the City of Bellevue, through the State of Washington, for the acquisition of 181 acres of land in the Mercer Slough. The land, to be acquired in two stages, would be used for extensive recreation and outdoor education purposes. Adverse impact will include the displacement of 19 families. (95 pages). Comments made by: DOI, USDA, HUD, USCG, EPA, State and local agencies, and concerned citizens. (ELR Order No. 41442.)

BUREAU OF RECLAMATION

Final

Palmetto Bend Project, Jackson County, Texas, September 12, The statement refers to the Palmetto Bend Project, which is intended to provide municipal and industrial water supply and associated recreational, fish, and wildlife facilities. Project measures will include an earthfill dam, concrete spillway, multiple level river outlet works, and a dual-level outlet for municipal water releases. A total of 16,300 acres of land, including 500 acres of cropland and 8,600 acres of pasture, will be committed to project measures; 11,000 acres of wildlife habitat and 47 miles of fish stream habitat will be inundated. Downstream freshwater and nutrient inflow to the Lavaca-Matagorda estuarine system will be reduced by as much as 15 percent. Comments made by: DOI, AHP, COE, DOC, HEW, HUD,

DOT, EPA, FPC, State and local agencies. (ELR Order No. 41454.)

BUREAU OF SPORTS FISHERIES AND WILDLIFE

Draft

Big Lake Wilderness Area, Arkansas, September 19: The proposal recommends that 1,818 acres of the Big Lake National Wildlife Refuge, located in Mississippi County, Arkansas be included in the National Wilderness Preservation System. Management to increase food production for wildlife, particularly white-tailed deer, turkey, squirrels and waterfowl would not be possible within the proposal where physical alteration of the habitat by mechanical means would be necessary (68 pages). (ELR Order No. 41457.)

NATIONAL PARK SERVICE

Draft

Grizzly Bear Management, Yellowstone N.P., several counties, Wyoming, September 20: The statement refers to a grizzly bear management program which is intended to perpetuate a wild, free-roaming bear population in Yellowstone National Park and minimize conflicts between humans and bears by reducing man-generated food sources and by regulating visitor distribution in the park. (ELR Order No. 41462.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Quality, 400 7th Street SW., Washington, D.C. 20590, (202) 426-4357.

FEDERAL HIGHWAY ADMINISTRATION

Draft

I-70, Wheeler Junction to Frisco, Summit County, Colorado, September 16: The statement refers to the construction of I-70 from Wheeler Junction to Frisco in Summit County. Project length is 6 miles. Adverse impacts include stream relocation, disruption of natural vegetation, use of approximately 187 acres of additional land for right-of-way, and slight increases in air and noise pollution. (ELR Order No. 41441.)

S.H. 160-550, LaPlata County, Colorado, September 19: The project involves the construction of approximately 4.6 miles of four-lane highway on S.H. 160-550 beginning at their north intersection in Durango and extending to their south intersection 3.8 miles south of Durango. Adverse impacts are loss of vegetation, disturbance to the Ammas River due to bridge crossing and/or channel changes and the displacement of 13 families and from 3 to 5 businesses (184 pages). (ELR Order No. 41459.)

Rte. 38, DeKalb County, Illinois, September 16: The project in the city of DeKalb consists of widening and resurfacing Illinois Rte. 38 and expanding the capacity of 3 interchanges together with the installation or updating of 4 sets of traffic signals and widening the approaches of two intersecting side streets. The proposed improvement begins near Annie Glidden Rd. and would extend easterly an overall distance of 4000 feet to include the intersection of Pearl Street. (ELR Order No. 41443.)

U.S. 63, Wapello County, Iowa, September 17: The proposed project involves the construction of two additional lanes to U.S. 63 just north of Ottumwa in Wapello County. The 1.69 miles project will require the acquisition of approximately 26 acres of additional right-of-way. Adverse impacts are the displacement of 3 homes and 1 apartment building, and increased noise levels (41 pages). (ELR Order No. 41447.)

Rte. 25, Wareham-Plymouth-Bourne, Massachusetts, September 18: The project involves the extension of Mass. Rte. 25 from its present terminus in Wareham to the Bourne Bridge crossing of the Cape Cod Canal in Bourne. The length of the project is 7 miles. Adverse impacts are the negative effects associated with crossing wetlands and water bodies, and increased air and noise pollution. A 4(f) determination is necessary concerning the Bourne Scenic Park. (ELR Order No. 41453.)

I-84, Hudson River Crossing, Orange and Dutchess Counties, New York, September 16: The project involves the expansion of an existing crossing of the Hudson River in Orange and Dutchess Counties. The total length of the project is 2.0 miles. Adverse impacts are increased air and noise pollution, loss of some river bottom displacement of 1 family, and short-termed degradation of water quality. (ELR Order No. 41439.)

I-390, Genesee Expressway, Monroe County, New York, September 17: The statement refers to the construction of 4.2 miles of I-390 (Genesee Expressway) between the NY State Thruway and the Rochester Outer Loop in the towns of Henrietta and Brighton. Also included in the project is the construction of 1.9 miles of surface arterial from the Rochester Outer Loop to Clinton Ave. South in Rochester. Adverse impacts are increased levels of air and noise pollution. (ELR Order No. 41451.)

F.M. 1382, Grand Prairie, Dallas County, Texas, September 10: The statement refers to the construction of F.M. 1382 and Northeast Eighth Street from Spur 303 north to the Dallas-Fort Worth Turnpike in the city of Grand Prairie. The proposed six-lane urban facility will be 3.4 miles in length. The project will require the displacement of 16 families, 56 individuals, 6 businesses, and 1 non-profit organization (165 pages). (ELR Order No. 41444.)

Guaynobo Freeway (PR-20), San Juan, Puerto Rico, September 30: The proposed project involves reconstruction and relocation of State Road 20 (Guaynobo Freeway) in San Juan. The six-lane facility will be 7.5 kilometers. Adverse impacts are the displacement of 190 families and 36 businesses, and increased air and noise pollution (75 pages). (ELR Order No. 41464.)

Final

Air Quality Guidelines, Section 109(j), September 17: Proposed is the promulgation of guidelines to assure that highways constructed pursuant to Title 23 U.S.C. are consistent with the appropriate, approved plan for the implementation of any ambient air quality standards pursuant to the Clear Air Act. The guidelines, to be issued as a new FHWA Policy and Procedure Memorandum (PPM) 90-70, outlines a procedure that is to be followed during the transportation system planning process, the highway location phase and during construction of the highway project. Favorable impact on the environment is anticipated (246 pages). Comments made by: EPA, USDA, DOC, HUD, HEW, DOI, State and local agencies. (ELR Order No. 41450.)

FAS Route 236—Bridge, Fergus, Chowteau, Blaine Counties, Montana, September 17: The proposed project is the construction of a bridge site and spur road connecting FAS 236 and the Blaine County Road System. Length of the project is unspecified. The bridge will span the Missouri River. The draft included a 4(f) statement. It has since been determined the park land can be avoided therefore the 4(f) determination is no longer applicable (331 pages). Comments made by: EPA, HEW, USDA, COE, DOI, USCG, State and local agencies, and concerned citizens. (ELR Order No. 41452.)

U.S.H. 151 and S.T.H. 73, Dane, Columbia, Dodge Counties, Wisconsin, September 20: The project proposes the improvement of a 16 mile section of U.S.H. 151 and a 1.5 mile relocation of S.T.H. 73. The facilities will be four-lane divided highways. Land acquisition totals 521 acres of farmland, 74 acres of wetland, and 25 acres of woodland. Four families have been displaced. The facility will traverse a number of streams and rivers increasing erosion, siltation, and salt pollution by roadway runoff. Other adverse impacts are: loss of wildlife habitat and increases in noise, air, and water pollution (190 pages). Comments made by: DOT, DOI, HEW, HUD, EPA, USDA, COE, State and local agencies. (ELR Order No. 41460.)

U.S. 18 and U.S. 151, Dodgeville to Mt. Horeb, Iowa and Dane Counties, Wisconsin, September 20: The statement refers to the proposed construction of a 21 mile segment of highway which will be the concurrent route for U.S. 18 and U.S. 151. The improvement will be between Dodgeville and Mt. Horeb. Adverse impacts include increased noise levels, the use of 1090 acres of land (67% of which is cropland), and the displacement of 2 families and 3 businesses. Comments made by: USDA, DOI, EPA, State and local agencies, and concerned citizens. (ELR Order No. 41461.)

The following amendment adds the Federal Energy Administration to Appendixes II and II of the Council on Environmental Quality's Guidelines of August 1, 1974 (38 FR 20550)

ENVIRONMENTAL PROTECTION AGENCY

[FRL 269-5]

BUCKMAN LABORATORIES, INC.

Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 5F1540) has been filed by Buckman Laboratories, Inc., 1256 North McLean Boulevard, Memphis, TN 38108, proposing establishment of tolerances (40 CFR Part 180) for negligible residues of the fungicide 2 - (thiocyanomethylthio) benzothiazole in or on the raw agricultural commodities cotton forage, and the forage and fodder of barley, corn, oats, rice, and wheat at 0.1 part per million.

The analytical method proposed in the petition for determining residues of the fungicide is a procedure in which residues are extracted, cleaned up, and hydrolized to liberate the thiocyanate ion, which is determined spectrophotometrically at 532 nanometers.

Dated: September 17, 1974.

JOHN B. RITCH, Jr.,
Director, Registration Division.

E. I. DU PONT DE NEMOURS & CO.

Filing of Petition for Food Additive

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (b)(5), 72 Stat. 1786; 21 U.S.C. 348(b)(5)), notice is given that a petition (FAP 5H5062) has been filed by E. I. du Pont de Nemours & Co., Wilmington, DE 19898, proposing establishment of a food additive tolerance (21 CFR Part 121) for combined residues of the fungicide benomyl (methyl-1-(butyl - carbamoyl-2-benzimidazolecarbamate) and its metabolites containing the benzimidazole moiety (calculated as benomyl) in concentrated tomato products at 50 parts per million, resulting from application of the fungicide to the raw agricultural commodity tomatoes.

Dated: September 19, 1974.

JOHN B. RITCH, Jr.,
Director, Registration Division.

INTRASTATE PESTICIDES

Notice Concerning Federal Requirements for Registration; Correction

In FR Doc. 74-21504 appearing on page 33394 in the issue for Tuesday, September 17, 1974, make the following changes:

1. In the second column, second paragraph, under A. *Pesticides Currently Registered under State Laws*, last sentence should read: "If no notice of application is submitted within 60 days as provided above, shipment to an affected product (rather than 'attached' product as printed) after the 60 day period following promulgation of regulations under Section 3 would constitute a violation of the registration requirements of the FIFRA."

Dated: September 19, 1974.

JAMES L. AGEE,
Assistant Administrator for Water and Hazardous Materials.

[FR Doc.74-22426 Filed 9-26-74;8:45 am]

[FRL 269-4]

MERCK, SHARP & DOHME

Filing of Pesticide and Food Additive Petitions

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 408 (d)(1), 409(b)(5), 68 Stat. 512; 72 Stat. 1786, 21 U.S.C. 346a(d)(1), 348(b)(5)), notice is given that a pesticide petition PP 5F1537) has been filed by Merck, Sharp & Dohme, Rahway, NJ 07065, proposing establishment of a tolerance (40 CFR Part 180) for residues of the fungicide thiabendazole (2-(4-thiazolyl) benzimidazole) from postharvest application in or on the raw agricultural commodity potatoes at 3 parts per million.

Notice is also given that the same firm has filed a related food additive petition (FAP 5H5061) proposing establishment of a food additive tolerance (21 CFR Part 121) for residues of the fungicide in potato waste at 30 parts per million resulting from concentration and carryover following postharvest application of the fungicide to potatoes.

The analytical method proposed in the pesticide petition for determining residues of thiabendazole is a spectrophotofluorometric procedure in which the excitation wavelength is 300 nanometers and the emission wavelength 360 nanometers.

Dated: September 19, 1974.

JOHN B. RITCH, Jr.,
Director, Registration Division.

UNIVERSITY OF ARKANSAS

Establishment of Temporary Exemption From Requirement of Tolerance for Microbial Pesticide

The University of Arkansas, Fayetteville, AR 72701, submitted a petition (PP 4G1511) requesting establishment of a temporary exemption from requirement of a tolerance for residues of the mycoherbicide *Colletotrichum gloeosporioides* f. sp. *aeschynomene* (American Type Culture Collection # 20358) in or on rice when used as a herbicide to control northern jointvetch (*Aeschynomene virginica*).

It has been determined that a temporary exemption for residues of the mycoherbicide in or on rice will protect the public health. It is therefore established as requested on the following conditions:

1. The mycoherbicide will be used in accordance with the temporary permit being issued concurrently and which provides for distribution under the University of Arkansas name.

2. Each production batch will be tested for safety on laboratory animals as demonstrated by standardized intraperitoneal injections and a standardized 21-day feeding study.

This temporary exemption expires September 23, 1975. Residues remaining in or on the above raw agricultural commodity after expiration of this temporary exemption will not be considered actionable if the pesticide is legally applied during the term, and in accordance with provisions of the temporary permit/temporary exemption.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805).

Dated: September 23, 1974.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

UPJOHN CO.

Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 5F1541) has been filed by The Upjohn Co., Kalamazoo, MI 49001, proposing extension of the existing tolerance (40 CFR 180.336) for residues of the plant regulator cycloheximide (3-[2-(3,5-dimethyl-2-oxocyclohexyl)-2-hydroxythyl] glutarimide) in or on oranges at 0.1 part per million to include all citrus fruits.

The analytical method proposed in the petition for determining residues of the plant regulator is a cylinder plate bioassay using *Streptomyces cerevisiae* as the test organism on a yeast-dextrose agar medium.

Dated: September 16, 1974.

JOHN B. RITCH, Jr.,
Director, Registration Division.

[OPP-32000/116; FRL 268-4]

NOTICE OF RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-37, East Tower, 401 M Street SW., Washington, DC 20460.

On or before November 26, 1974, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street SW., Washington, DC 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until November 26, 1974. If no claims are received on or before November 26, 1974, the 2(c) application will be processed according to normal procedure. However, if claims are received on or before November 26, 1974, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after November 26, 1974.

APPLICATIONS RECEIVED

EPA File Symbol 12014-RN. A & V Inc., PO Box 211, Butler WI 53007. A & V—70 PLUS ALGAECIDE. Active Ingredients: Copper as elemental 8%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 7668-T. Aurora Manufacturing Corp., 74-76 Wythe Ave., Brooklyn NY 11211. ALGO INDUSTRIAL WATER COOLING TOWER ALGAECIDE. Delegation of Authority

SEPTEMBER 19, 1974.

Whereas, the Federal Home Loan Bank Board (Board) by Resolution No. 22,436 dated December 19, 1968 delegated to the Director or Deputy Director of the Office of Examinations and Supervision (OES) authority to approve certain indebtedness of savings and loan holding companies; and

Whereas, the Board upon due consideration has determined that the standard contained in Board Resolution No. 22,436 for approval of that indebtedness by the Director or Deputy Director of OES is no longer appropriate; and

Whereas, The Board upon due consideration has deemed it advisable to publish a revised delegation with respect to section 408(g) of the National Housing Act, as amended, (Act) and § 584.6 of the regulations for Savings and Loan Holding Companies (regulations);

Resolved, that Board Resolution No. 22,436 should be and hereby is rescinded; and

Resolved, that in substitution therefor the Board hereby delegates to the Director or Deputy Director of OES the authority to approve, pursuant to section 408(g) of the Act, and § 584.6 of the regulations, applications for the incurrence of debt by any savings and loan holding company or any subsidiary thereof which is not an insured institution, *provided*, That the debt for which approval is sought is in substitution for a debt whose incurrence was previously approved by the Federal Savings and Loan Insurance Corporation, and *provided further*, That the incurrence of such debt would not impose an unreasonable or imprudent financial burden on the applicant.

Resolved further, that the Secretary to the Board is directed to transmit the foregoing to the Office of the Federal Register for publication.

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, Jr.,
Assistant Secretary.

[FR Doc.74–22533 Filed 9–26–74;8:45 am]

FEDERAL POWER COMMISSION

[Docket No. CP74–329]

ATLANTA GAS LIGHT CO. AND SOUTHERN NATURAL GAS CO.

Order Setting Hearing Date, Prescribing Procedure, etc.

SEPTEMBER 23, 1974.

On June 25, 1974, Atlanta Gas Light Company (Atlanta) filed in Docket No. CP74–329 an application pursuant to section 7(a) of the Natural Gas Act for an order of the Commission directing Southern Natural Gas Company (Southern) to shift certain contract demand quantities from the Atlanta area to the Augusta, Georgia, area delivery point to enable Atlanta to provide additional firm service to Columbia Nitrogen Corporation and Nipro, Inc. (CNC and Nipro), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Atlanta requests that 3,000 Mcf of contract demand be transferred from the Atlanta area to the Augusta area delivery point on or about October 1, 1976, and that an additional quantity of 16,000 Mcf be transferred on or about January 1, 1978, representing the following alterations in contract quantity:

[Figures in Mcf]

Effective date	Atlanta area delivery point	Augusta area delivery point
Current	367,390	66,700
Oct. 1, 1976	364,390	69,700
Jan. 1, 1978	348,390	85,700

Atlanta states that the additional service to CNC is for feedstock use primarily in the production of fertilizer in two new plants to be constructed by the fall of 1976 and by early 1978.

Atlanta asserts that because this change in service is necessary to meet the feedstock requirements [1] of CNC, a request by Atlanta for additional gas volumes would be justified. Accordingly,

[1] Applicant asserts these requirements would fall within category 2 of the Commission's Order No. 467–B priorities (18 CFR 2.78).

Atlanta cautions that its request for mere transfer of contract demand volumes is based upon the urgency of this proposal, and it reserves the future right to request additional contract demand volumes as needed.

Atlanta states in support of the instant proposal that:

(1) The proposed change will permit an increase in the production of fertilizer which is in critically short supply;

(2) Increased service to CNC will allow that company to construct replacement facilities which will achieve substantial efficiencies in the use of natural gas as well as other fuels;

(3) The requested relief will permit Atlanta to upgrade service on its system consistent with the Commission's Order No. 467–B priorities without adversely affecting Southern's other customers.

Atlanta claims that the requested change in service will not increase the overall contract demand quantity previously authorized by the Commission, but will merely effectuate a relocation of a portion of such quantity between two existing delivery points at which Southern provides service to Atlanta. Atlanta further states that the requested relief will not require the construction of any additional facilities by Atlanta or Southern.

This application was noticed on July 9, 1974 and was published in the FEDERAL REGISTER on July 16, 1974 (39 FR 26064).

On August 2, 1974, CNC and Nipro petitioned for leave to intervene and for leave to join in the application of Atlanta. Thomas T. Irvin, Commissioner of Agriculture for the State of Georgia petitioned to intervene on July 24, 1974, as did Alabama Gas Corporation on July 25, 1974, Carolina Pipeline Company (Carolina) on August 1, 1974, and Georgia Industrial Group and Brick Institute of America on August 2, 1974. A notice of intervention from the Georgia Public Service Commission was untimely filed on August 9, 1974.

As part of its application, Atlanta requested that this application be disposed of by shortened procedures specified in § 1.32 of the rules of practice and procedure. Carolina opposed this request. Expediency is not of such urgent public importance in this matter as to justify procedures other than those normally adopted in similar applications.

Carolina further petitioned that this application be summarily denied, but no compelling reason was offered that would support the elimination of a full public hearing on this application.

Southern filed an answer to Atlanta's application on August 5, 1974 which asserted that it would incur certain expenses if the proposed transfer is approved due to equipment expansion and modification at Atlanta's Augusta area delivery point No. 2 and that it would expect reimbursement by Atlanta for all such expenses.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the issues in this proceeding be scheduled for hearing in accordance with the procedures set forth below.

(2) Since participation by the Georgia Public Service Commission will not delay the instant proceeding, good cause exists for accepting its late petition to intervene.

(3) Participation by the interveners listed above may be in the public interest.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 5 thereof, the Commission's rules of practice and procedure under the Natural Gas Act (18 CFR, Chapter I), a public hearing shall be held commencing November 5, 1974, at 10 a.m., in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning the matters involved in and the issues presented by this application.

(B) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR (3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure. Following cross-examination, the Administrative Law Judge shall establish dates for the filing and presentation of rebuttal testimony, if necessary.

(C) On or before October 22, 1974, Atlanta and CNC shall file with the Commission and serve upon all parties, including Commission Staff, their testimony and exhibits in support of their position, to include evidence with regards to alternative feedstocks and plant siting. Respondent pipeline Southern shall similarly file testimony in support of its positions on the same date.

(D) The parties designated above are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the respective petitions to intervene, and *Provided, further,* That the admission of such intervenors shall not be construed as recognition that they or any of them might be aggrieved because of any order or orders issued by the Commission in this proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.74–22450 Filed 9–26–74;8:45 am]

NATIONAL POWER SURVEY COORDINATING COMMITTEE

Notice and Agenda of Meeting

Agenda for a meeting of the Coordinating Committee to be held at the Federal Power Commission Offices, 825 North Capitol Street NE., Washington, D.C., on October 9, 1974, at 1:30 p.m. in Room 5200.

1. Call to order by FPC Coordinating Representative.
2. Objectives and purposes of meeting.
A. Introductory Remarks—Mr. Shearon Harris.
B. Review of Report status by Technical Advisory Committee Chairmen.
TAC on Power Supply—Mr. M. F. Hebb, Jr.
TAC on Fuels—Mr. Paul Martinka.
TAC on Finance—Mr. Gordon R. Corey.
TAC on Research and Development—Dr. H. Guyford Stever.
TAC on Conservation of Energy—Dr. Bruce Netschert.
TAC on the Impact of Inadequate Electric Power Supply—Dr. Irwin M. Stelzer.
C. Other Business.
3. Adjournment.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee—which statements, if in written form, may be filed before or after the meeting, or, if oral, at the time and in the manner permitted by the committee.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.74–22453 Filed 9–26–74;8:45 am]

[Docket No. CP74–236]

NORTHERN NATURAL GAS CO.

Order Granting Interventions, Setting Date for the Filing of Evidence and Hearing Date

SEPTEMBER 23, 1974.

On March 19, 1974, Northern Natural Gas Company (Northern) filed in Docket No. CP74–236 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities necessary to develop, operate, and maintain an underground gas storage reservoir in the Arbuckle Formation of the Lyons Gas Field in Rice County, Kansas. During 1973, Northern secured leases on 6,230 acres overlying the field and drilled two test wells to gather information of the physical characteristics of the Arbuckle Formation. After a review of this information, Northern has proposed a nine-year development plan for the Lyons Field. In view of the length of this development plan and the total estimated cost of $27,253,000, the Commission is of the opinion that formal hearings should be held to develop a record concerning the application, as ordered below.

Northern indicates that the Lyons Gas Field is structurally a north-south trending anticline that is faulted at its northern end. This structure covers 8,490 acres within the lowest closing contour: an area 4½ miles long and 3 miles wide. Northern plans to store a larger volume of gas than was in the original sour gas bubble by expanding the volume occupied by the original gas bubble from 20 billion cubic feet to 36 billion cubic feet. In order to minimize the possibility of gas lost from spill over, a maximum inventory at

full development should be developed from the evidence adduced during the course of the hearing.

Northern's development plan indicates that all wells, field and gathering lines, well site facilities, the pipeline to the compressor station and modifications to the extant Bushton Compressor Station are slated to be completed within six years. Injection of gas for storage will begin the third year and small scale withdrawals the fifth year; injection will exceed withdrawals for the next four years so that the maximum inventory of 36 billion cubic feet will be reached in the autumn of the ninth year. The facilities will include 26 gas injection-withdrawal wells, 11 observation wells, and 2 salt water disposal wells. Other field facilities to be constructed are approximately 7.6 miles of 4, 6, 8, 10, and 12-inch gathering lines, 7.2 miles of 3 and 4-inch water disposal lines, 6.3 miles of access roads, 7 field dehydration units, wellhead metering and separatory facilities, a combination warehouse and office control building, and 15.7 miles of 16-inch pipeline to connect the Lyons Storage Field to Northern's mainline at the Bushton Compressor Station. Two existing compressor units of 2000 horsepower each will be repiped and revamped for storage service.

Although the Commission cannot decide at this time what conditions, if any, should be imposed upon the granting of any certificate in these proceedings, the Commission is inclined to believe that the public interest may require monitoring of the development of a project of this length and magnitude through periodic reports submitted by Northern. Therefore, in addition to the usual showings made in applications of this nature, Northern should address itself to the issue of developing, in conjunction with all parties and the Staff, a format of relevant information which might be included in a report to the Commission of progress during the nine-year plan.

Northern indicates that no new markets will be served by this proposal, but that the proposal will enable Northern to manage available supplies better by allowing Northern to store gas produced during off-peak periods to augment the average-day production capacity of such sources during the heating season and to provide peaking ability to respond to system supply requirements during periods of peak demand.

After due notice by publication in the FEDERAL REGISTER on April 9, 1974 (39 FR 12927), a notice of intervention was filed by Metropolitan Utilities District of Omaha. Petitions to intervene in support of the instant application were filed by the following companies which buy gas either directly from Northern or from one of Northern's customers:

Central Telephone and Utilities Corporation
Farmland Industries, Inc.
Iowa Electric Gas and Electric Company
Iowa Power and Light Company
Iowa Public Service Company
Minneapolis Gas Company
Nebraska Natural Gas Company
North Central Public Service Co. Division of Donovan Companies, Inc.
Northern States Power Company (Minnesota)
Northern States Power Company (Wisconsin)
Northwestern Public Service Company
Terra Chemicals International, Inc.
Wisconsin Gas Company
Wisconsin Power and Light Company

The Commission Finds:

(1) It is desirable and in the public interest to allow all of the above-named petitioners to intervene in order that they may establish the facts and the law from which the nature and validity of their alleged rights may be determined and show what further action may be appropriate under the circumstances in the administration of the Natural Gas Act.

(2) It is necessary and appropriate that the proceeding in Docket No. CP74-236 be set for hearing as hereinafter ordered.

The Commission Orders:

(A) The above-named petitioners are permitted to intervene in these proceedings subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such interveners shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene: *And provided, further,* That the admission of such interveners shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) Northern Natural Gas Company and any supporting interveners shall file and serve testimony and exhibits in support of their position on or before October 22, 1974.

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, on October 31, 1974, at 10 a.m., concerning the matters involved in and the issues presented by the application.

(D) Pursuant to § 2.64(c) of the Commission's rules of practice and procedure, Northern shall serve copies of its filings upon all interveners promptly, unless such service has already been effected pursuant to Part 157 of the regulations of the Natural Gas Act.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.74-22451 Filed 9-26-74;8:45 am]

[Docket No. RP75-12-1]

NORTHERN NATURAL GAS CO.

Findings and Order

SEPTEMBER 20, 1974.

On August 14, 1974, Northern Natural Gas Company (Northern) filed a petition for extraordinary relief pursuant to § 1.7(a) of the Commission's rules of practice and procedure. Northern requests authorization to provide up to 750,000 Mcf of natural gas to existing utility customers under its presently effective Agricultural Crop Drying Service, Rate Schedule ACDS-1, in order to make available, on a best efforts basis, volumes of gas for the drying of seed grain and other agricultural crops for the period September 15, 1974, through March 15, 1975.

The Commission noticed the petition on August 27, 1974.[1] The American Dehydrators Association and Northwestern Public Service Company have filed petitions to intervene in Docket No. RP75-12-1, pursuant to § 1.8 of the Commission's rules of practice and procedure. The petitions to intervene support Northern's petition for extraordinary relief and do not request a formal hearing.

By Commission order issued September 28, 1973, at Docket No. CP74-63, Northern was authorized to provide natural gas service to its existing utility customers up to a maximum of 750,000 Mcf for a six month period pursuant to a new Agricultural Crop Dryer Service, Rate Schedule ACDS-1 of Northern's FPC Gas Tariff, Third Revised Volume No. 1. Due to favorable weather during the drying season and less than projected curtailment below contract demand, volumes sold under Northern's ACDS-1 Rate for the period September 15, 1973, through March 15, 1974, totaled only 140,078 Mcf.

Northern will have available a total of 750,000 Mcf under Rate Schedule ACDS-1 for the period September 15, 1974, through March 15, 1975. Volumes sold purusant to Rate Schedule ACDS-1 will be made available daily, on a best efforts basis, under advance operating arrangements. If the volumes nominated exceed the volumes available, seed grain during the drying period will be given top priority. No new facilities or change in rates are proposed.

The ACDS-1 Rate Schedule is designed to provide special relief for Northern's utility customers during the projected crop drying season when curtailment of volumes below their firm entitlements would result in irrecoverable losses from inadequate supplies of crop drying fuel. Preservation of feed grain and especially seed grain is recognized as an important link in the food chain. In order to be properly preserved, the moisture content of grains must be reduced below 12 percent, otherwise the grain germ will be destroyed. Crop drying normally begins in Mid-September and extends into the late fall and winter season. The service proposed herein will insure adequate service to grain dryers on Northern's system during the season when such operations are at their peak.

At a hearing held on September 19, 1974, the Commission on its own motion

[1] This petition was noticed in the FEDERAL REGISTER on September 5, 1974. (39 FR 32188.)

received and made a part of the record in this proceeding all the evidence including the application and exhibits thereto, submitted in support of the authorization sought herein and upon consideration of the record.

The Commission finds:

(1) Applicant, Northern Natural Gas Company, is a "natural—gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission.

(2) Irreparable injury to the preservation of feed and seed grains would result if Northern is not permitted to provide natural gas service to its existing utility customers under its presently effective Agricultural Crop Drying Service, Rate Schedule ACDS–1.

(3) Participation by the American Dehydrators Association and by Northwestern Public Service Company may be in the public interest.

The Commission orders:

(A) The above-mentioned interveners are permitted to intervene subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such interveners shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and *Provided, further,* That the admission of such interveners shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) Permission is granted to Northern Natural Gas Company to provide natural gas service to its existing utility customers up to a maximum of 750,000 Mcf for the period September 15, 1974, through March 15, 1975, under its presently effective Agricultural Crop Dryer Service, Rate Schedule ACDS–1 of Northern's FPC Gas Tariff, Third Revised Volume No. 1.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.74–22454 Filed 9–26–74;8:45 am]

[Docket Nos. G–17350, G–17351, CP69–346, CP69–347]

PACIFIC GAS TRANSMISSION CO.

Petition To Amend

SEPTEMBER 20, 1974.

Take notice that on September 9, 1974, Pacific Gas Transmission Company (PGT), 245 Market Street, San Francisco, California 94105, filed in Docket Nos. G–17350 et al., a petition to amend the orders of the Commission issued in Docket Nos. G–17350 and G–17351 on August 5, 1960 (24 FPC 134), in Docket Nos. CP69–346 and CP69–347 on March 13, 1970 (43 FPC 418), and in all four of the above dockets on April 4, 1974 (51 FPC ____), pursuant to section 7(c) of the Natural Gas Act by continuing the authorization granted in the April 4, 1974 amending order, which permitted PGT to transport on a best efforts basis additional volumes of natural gas imported from Canada to alleviate the shortage on the system of Northwest Pipeline Corporation (Northwest), all as more fully set forth in the petition to amend, which is on file with the Commission and open to public inspection.

The order of April 4, 1974, authorized PGT to transport, in excess of previously authorized peak-day volumes of 151,731 Mcf, volumes of natural gas for Northwest from Northwest's Kingsgate, British Columbia, import point to the interconnection of PGT's and Northwest's systems at Spokane, Washington, and Stanfield, Oregon, on a best-efforts basis. PGT was authorized to transport increased volumes of 30,000 Mcf on average days and 125,000 Mcf on peak days. The April 4, 1974, order further authorized PGT to deliver such additional volumes of gas at Spokane and Stanfield in excess of the previously authorized maximum daily demand quantities of 232,800 Mcf and 140,000 Mcf, respectively. Payment for said additional volumes under the terms of the April 4, 1974, order is determined in accordance with the cost of service and cost allocation procedure contained in Rate Schedule T–1, of PGT's FPC Gas Tariff, Original Volume No. 1, incorporated by PGT into its Rate Schedule X–6. The authorization under said order is to expire on October 31, 1974.

Said transportation arrangement has been devised for the purpose of permitting Northwest to receive supplies of gas from Alberta and Southern Gas Co. Ltd. (A&S) to replace volumes being curtailed by Northwest's Canadian supplier, Westcoast Transmission Company Limited (Westcoast). Details of the importation arrangement and the situation on Northwest's system are set forth further in Northwest's application in Docket No. CP73–332, filed with the Commission on August 15, 1974.

PGT, by the instant petition to amend, requests authorization to continue the subject transportation arrangement from November 1, 1974 to October 31, 1975. According to the terms of the emergency transportation agreement between PGT and Northwest, PGT is not obligated to accept for transportation and delivery quantities on natural gas in excess of 151,731 Mcf per day unless, in PGT's sole judgment and discretion, there are sufficient pipeline capacity and operating flexibility to transport and deliver said additional quantities. Such capacity will be available, PGT asserts, only when there are mechanical difficulties in that portion of PGT's pipeline system and intrastate extensions south of the Stanfield tap, such that delivery capability in that portion of the pipesystem must be reduced. PGT explains that an outage of one or more compressor units south of Stanfield due to mechanical problems will cause the delivery capability to be restricted, but that the pipeline upstream of the defective unit will still have the capability of delivering maximum daily volumes.

An off-line delivery upstream of the restricted section of the piepline made possible by equipment outages has been termed by PGT a "best efforts" delivery. PGT states that from operating records of its system it has calculated the amount of time various outages can be expected to occur and has estimated best efforts deliveries from November 1, 1974, through October 31, 1975:

Delivery volume (MMcf/Day):	*Number of days at this volume*
0	193
1 to 30	41
31 to 60	51
61 to 90	27
91 to 120	53

The application states that deliveries under the transportation arrangement proposed in the instant petition will not decrease, beyond those decreased volumes caused by equipment outages, the quantities of natural gas delivered by PGT at other delivery points to Northwest or the quantities of natural gas delivered by PGT to Pacific Gas and Electric Company, PGT's customer.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 15, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in acordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74–22455 Filed 9–26–74;8:45 am]

[Docket No. E–8927]

PENNSYLVANIA POWER AND LIGHT CO.

Order Accepting for Filing and Suspending Proposed Rate Increase, Etc.

SEPTEMBER 20, 1974.

On July 24, 1974, Pennsylvania Power and Light Company (PP&L) submitted for filing proposed increases in its rates for firm power service to its fifteen wholesale customers. (See Appendix A) The proposed increase would result in an increase in jurisdictional revenues of $976,075 for the twelve month period following the proposed effective date of September 23, 1974.

Notice of the filing was issued on July 30, 1974, with protests or petitions to intervene due on or before August 12, 1974. On August 12, 1974, the Boroughs of St. Clair, Blakely, and Olyphant, Pennsylvania filed general protests wherein the Boroughs expressed their

opposition to the proposed rate increase. A timely petition to intervene was filed by the Borough of Ephrata, Pennsylvania on August 12, 1974, and by an amendment to this petition filed on August 26, 1974, Ephrata requested that the following petitioners be added to the petition to intervene: Quakertown, Duncannon, Watsontown, Schuylkill Haven, Weatherly, St. Clair, Lehighton, Catawissa, and Perkasie, Pennsylvania.

Ephrata stated in its petition that PP&L's proposed seventeen percent rate increase would result in an excessive rate of return and that the proposed increase should be suspended for five months. On August 28, 1974, PP&L filed a response to the above petition.

Our review of the instant filing and the issues raised therein shows that the proposed changes have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful. Accordingly, we shall suspend the proposed rate increase for one day and establish hearing procedures to determine the justness and reasonableness of PP&L's proposed rates.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the proposed rates and charges contained in PP&L's revised tariff sheets and that said tariff sheets be suspended as hereinafter ordered.

(2) Good cause exists to suspend PP&L's proposed rate change for one day to become effective on September 24, 1974.

(3) The participation in this proceeding of the above-named intervenors may be in the public interest.

(4) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

The Commission orders:

(A) Pursuant to the authority of the Federal Power Act, particularly Sections 205 and 206 thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR, Chapter I), a public hearing shall be held on March 11, 1975, at 10 a.m., in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning the lawfulness of the revised tariff sheets proposed herein.

(B) Pending hearing and a final decision thereon, PP&L's proposed tariff sheets are hereby suspended for one day and the use thereof deferred until September 24, 1974.

(C) On or before January 31, 1975, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any or all the intervenors shall be served on or before February 14, 1975. Any rebuttal evidence by the Company shall be served on or before February 28, 1975.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(E) Nothing contained herein should be construed as limiting the rights of the parties to this proceeding regarding the convening of conferences or offers of settlement pursuant to § 1.8 of the Commission's rules of practice and procedure.

(F) The above-named petitioners to intervene are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in their petitions to intervene.

(G) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. CP75-72]

CONSOLIDATED GAS SUPPLY CORP.

Notice of Application

SEPTEMBER 20, 1974.

Take notice that on September 3, 1974, Consolidated Gas Supply Corporation (Applicant), 445 West Main Street, Clarksburg, West Virginia 26301, filed in Docket No. CP75-72 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon, due to depletion of reserves, the sale of natural gas in interstate commerce to Columbia Gas Transmission Corporation from the Miami Corporation No. 1 well, Twin Island Field, Cameron Parish, Louisiana, authorized in Docket No. CP60-90 to be made pursuant to Applicant's Rate Schedule F-9 of its FPC Gas Tariff, Original Volume No. 3, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 15, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8916]

EL PASO ELECTRIC CO.

Supplemental Application

SEPTEMBER 20, 1974.

Take notice that on September 12, 1974, El Paso Electric Company (Applicant), filed an application with the Federal Power Commission (the "Commission") seeking authority pursuant to section 204 of the Federal Power Act to issue $20,000,000 principal amount of First Mortgage Bonds.

The Applicant is incorporated under the laws of the State of Texas with its principal business office at El Paso, Texas, and is engaged in the electric utility business in the States of Texas and New Mexico in an area in the Rio Grande Valley extending approximately 110 miles northwesterly from El Paso to the Caballo Dam in New Mexico and approximately 120 miles south-easterly from El Paso to Van Horn, Texas, with a population of approximately 475,000 of whom 360,000 reside in the metropolitan area of El Paso.

The Applicant proposes to issue $20,000,000 principal amount of First Mortgage Bonds, ____% Series due _____, which will be secured by the Applicant's Indenture of Mortgage dated as of October 1, 1946, with State Street Trust

Company (now known as State Street Bank and Trust Company) of Boston, Massachusetts, as Trustee, as supplemented and modified and to be further supplemented by an Eleventh Supplemental Indenture.

The proceeds from the financing will be used to reduce outstanding short-term debt incurred for construction purposes. The short-term debt is expected to aggregate $36 million at the time of such sale. The Applicant's construction program during the period from 1974 through 1978 will require approximately $250,965,000.

In view of market conditions now prevailing with respect to utility securities, it is believed that the sale of the New Bonds could best be accomplished by a negotiated underwriting. Therefore, the Applicant is applying to the Commission for exemption from the competitive bidding requirements of § 34.1a(b) and (c) of the Commission rules.

The Applicant plans to set the price and terms of the New Bonds on or about November 13, 1974. The Bonds will be dated November 1, 1974 and will bear interest at the rate determined through negotiations.

Any person desiring to be heard or to make any protest with reference to said application should, on or before October 15, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9009]

NORTHEAST UTILITIES SERVICE CO.

Application for Treatment as Single Filing Entity

SEPTEMBER 20, 1974.

Take notice that on August 22, 1974, that Northeast Utilities Service Company (Northeast) and the electric operating companies of the Northeast Utilities system, the Connecticut Light and Power Company (CL&P), the Hartford Electric Light Company (HELCO), Western Massachusetts Electric Company (WMECO), Holyoke Water Power Company (HWP) and Holyoke Power and Electric Company (HP&E) applied for an order which would provide that said system operating companies be treated as a single filing entity for the purpose of computing filing fees under § 36.2(e) of the Commission's regulations.

The application states that Northeast is the parent company which furnishes electric service through its five wholly owned subsidiaries. The application further states that two or more subsidiaries enter into an agreement on one hand and one or more other utilities on the other covering a certain electric service. The application states that when such an agreement is filed with the Commission, the Secretary of the Commission has assessed Northeast a filing fee for each FPC rate schedule affected by the filing.

Finally, the application states that the fees charged under § 36.2 are intended to bear a reasonable realtionship to the costs incurred by the Commission in performing the administrative services necessitated by the particular filing for which the fee is charged.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 3, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8915]

PUBLIC SERVICE COMPANY OF OKLAHOMA

Supplemental Filing

SEPTEMBER 19, 1974.

Take notice that on September 9, 1974, Public Service Company of Oklahoma (PSCO) tendered for filing supplemental information in response to a deficiency assessment of its initial filing of July 22, 1974. The proposed amended Service Schedule ES between PSCO and Empire District Electric Company (EDEC) replaces the existing Service Schedule ES dated November 16, 1970. The proposed effective date is July 1, 1974.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 30, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8905]

SOUTHWESTERN ELECTRIC POWER CO.

Supplemental Filing

SEPTEMBER 19, 1974.

Take notice that on September 9, 1974, Southwestern Electric Power Company (SWEPCO) tendered for filing supplemental cost support and revenue data in response to a deficiency assessment of its initial filing of July 15, 1974. The proposed revised tariff agreement between SWEPCO and Central Louisiana Electric Company (CLECO) would increase the cost of service as reflected in SWEPCO Supplement No. 6 to FPC Rate Schedule No. 59 and CLECO Supplement No. 4 to FPC Rate Schedule No. 4. SWEPCO proposes an effective date of July 1, 1974.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 30, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-22462 Filed 9-26-74;8:45 am]

[Docket Nos. CP68-146 (RP67-22), CI68-621]

TENNESSEE GAS PIPELINE CO. AND TENNECO OIL CO.

Petition to Amend

SEPTEMBER 20, 1974.

Take notice that on September 11, 1974, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), and its affiliate, Tenneco Oil Company (Tenneco Oil), P.O. Box 2511, Houston, Texas 77001, filed in Docket Nos. CP68-

146 and CI68–621, respectively, a petition for relief from the annual reporting requirements imposed by the Commission in the order issued in said dockets on July 30, 1969 (42 FPC 292), as amended May 1, 1970 (43 FPC 681), all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

As a condition for permitting the abandonment by Tennessee of its developed gas producing leases, undeveloped leases, and related lease facilities by transfer of such properties to Tenneco Oil, the Commission imposed, in the order of July 30, 1969, the requirement that both Tennessee and Tenneco Oil shall be responsible for the filing of annual production cost reports by Tenneco Oil, as determined by agreement between each of the said parties and the Commission staff.

By the instant petition, Petitioners submit that the relative uselessness accorded said reports in the past constitutes good cause for the elimination of the filing requirement in its entirety.

In the alternative the Petitioners state that recent discussions with the Commission staff have given rise to a general agreement that a modification of the filing requirement is in order and that certain changes have been agreed upon. With respect to the four categories for which data is required the applicants suggest the following modifications:

(1) Category A, which relates to total production properties owned and/or operated by Tenneco Oil, shall be reported only in total, without separation by lease classifications; but volumes and average Btu will continue to be separated and shown by lease classification.

(2) Category B, which relates to total production from properties owned and/or operated by Tenneco Oil which are attached to Tennessee's system, shall be redefined to eliminate the Bastian Bay and Ship Shoal production properties, presently reported separately as Categories C and D.

(3) Category C, which relates to the Bastian Bay Production properties involved in Docket Nos. CI66–910 et al., shall be redefined as "Five Federal Leases," properties which have been connected pursuant to the Commission's order accompanying Opinion No. 528, issued in Docket Nos. CP65–356 et al., on September 26, 1967 (38 FPC 691).

Petitioners state that other changes upon which they and the Commission staff agree are as follows:

(A) The above data shall not be required to be reported on All Area Questionnaire (AAQ) forms, but rather shall be provided in a format to be agreed upon by staff and petitioners.

(B) The cost of service report, indicating the overall unit cost of all gas produced, shall no longer be required.

A summary of the remaining schedules comprising the amended production cost report, according to the petition, follows:

AAQ Schedule:	*Type of Data*
B Sheet 1	Area, District, Division and Field Investment.
D Sheet 1	Production Investment.
E Sheet 1	Exploration and Development Investment.
F Sheet 1	Exploration and Development Cost and Expense.
G Sheet 1	Production Costs and Expenses.
H Sheet 1	Lease Revenues and Production Volumes by Product.
H Sheet 2	Heating Value.
I Sheet 1	Gas Use, Disposition, Balance.
I Sheet 3	Analysis of Lease Oil and Gas Production Operations.
J Sheet 1	Supplemental Data by Function.
J Sheet 3	Royalty Operations and FPC Regulatory Expense.
J Sheet 4	Production Payment Obligations.
K Sheet 2	Field Gasoline & Cycling Plant Investment.
L Sheet 3, 4	Field Gasoline & Cycling Plant Costs & Expenses.
M Sheet 4, 5, 6, 8	Field Gasoline & Cycling Plant Operating Data.

NOTE: 1. All categories will be reported per books and pro forma. Effect will be given to accounting adjustments raised as issues in the order to show cause in Docket RP67–22.

2. K, L, and M Schedules will report data only for plants through which gas produced from properties owned and/or operated by Tenneco Oil is processed and delivered to Tennessee. These schedules will report data for only category B.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 15, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74–22460 Filed 9–26–74;8:45 am]

[Docket No. CI75–138]

TRANSOCEAN OIL, INC.

Notice of Application

SEPTEMBER 20, 1974.

Take notice that on September 3, 1974, TransOcean Oil, Inc. (Applicant), 1700 First City East Building, Houston, Texas 77002, filed in Docket No. CI75–138 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Southern Natural Gas Company (Southern) from lands and leases covering Blocks 268, 269, and 281, South Marsh Island Area (North Addition), offshore Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell and deliver up to 120,000,000 Mcf of gas to Southern at an initial price of 70.0 cents per Mcf at 15.025 psia subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot and subject to Applicant's right to reserve a portion of such gas for 10 calendar years beginning January 1, 1976, for use in a nitrogen and fertilizer complex. Applicant estimates that initial sales volumes, under its contract with Southern dated July 9, 1974, should approximate 120,000 Mcf per month, but should rapidly increase to approximately 1,000,000 Mcf per month. As set forth in the subject contract, Applicant has the right to reserve, for use in a nitrogen and fertilizer complex, daily quantities of gas up to 35,393 Mcf, plus reserved PVR gas [1] and Btu adjustment gas, for ten calendar years beginning January 1, 1976, but not to exceed in any one calendar year 11,743,875 Mcf, plus reserved PVR gas and Btu adjustment gas, nor in the aggregate during such ten-year period in excess of one-half of the original reserves plus the reserved PVR gas attributable thereto. Applicant states that pursuant to said contract Southern will deliver or cause to be delivered the gas reserved by Applicant at a mutually agreeable delivery point.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 15, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

[1] According to the contract, reserved PVR gas is that portion of the gross daily quantity of gas reserved by Applicant (exclusive of Btu adjustment gas) which is in excess of the net quantity of gas delivered to the fertilizer complex and which will be used in an onshore processing plant or plants for fuel and shrinkage, including losses.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-22456 Filed 9-26-74;8:45 am]

[Docket No. CP75-66]

UNITED GAS PIPE LINE CO.

Notice of Application

SEPTEMBER 20, 1974.

Take notice that on August 30, 1974, United Gas Pipe Line Company (Applicant), 1500 Southwest Tower, Houston, Texas 77002, filed in Docket No. CP75-66 an application pursuant to section 7 (b) and (c) of the Natural Gas Act for permission and approval to abandon approximately 2.1 miles of 30-inch pipeline in Jackson County, Texas, and for a certificate of public convenience and necessity authorizing the construction of approximately 2.1 miles of replacement pipeline, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the planned construction by the United States Department of Interior (Interior) of the Palmetto Bend Reservoir Project will inundate a section of Applicant's 30-inch Agua Dulce-Perryville pipeline, necessitating the replacement of the existing line with pipe of greater wall thickness. Additionally, Applicant states that an 18-inch line and a 30-inch line of its subsidiary United Texas Transmission Company (UTTCO), have been similarly affected. Applicant has determined that the best and least costly way to replace its pipeline would be to construct approximately 2.1 miles of 30-inch x 0.5-inch X-60 line which will permit Applicant to maintain the present capacity of this line), abandon, by sale to UTTCO, 10,377 feet of its existing 30-inch line (allowing UTTCO to maintain its present capacity), and abandon in place 305 feet of its existing 30-inch pipeline.

Applicant states that Interior has agreed to reimburse Applicant for costs incurred in replacing said pipeline, estimated to be $802,052.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 15, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-22459 Filed 9-26-74;8:45 am]

FEDERAL RESERVE SYSTEM

CAROLINA BANCORP, INC.

Order Approving Acquisition of National Finance Co., Inc.

Carolina BanCorp, Inc., Sanford, North Carolina, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of National Finance Company, Inc., Rockingham, North Carolina ("National"), a company that engages in the activities of consumer finance, dealer financing, and acting as sales agent for credit life and credit accident and health insurance directly related to extensions of credit by National. Such activities have been determined by the Board to be closely related to banking (12 CFR 225.4(a) (1) and (9)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (39 FR 22649). The time for filing comments and views has expired, and the Board has considered the application and all comments received in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).

Applicant is a recently formed bank holding company and controls one bank, The Carolina Bank, Sanford, North Carolina ("Bank"), which holds deposits of $82 million, representing less than one percent of total deposits in commercial banks in the State.[1] Bank operates 12 branches in five counties (Wake, Harnett, Lee, Moore, and Chatham Counties) throughout North Carolina.

National is a licensed small loan company regulated by the North Carolina Consumer Finance Act;[2] it operates 12 loan offices in 10 counties in the central and eastern portions of the State and has total gross receivables of $3.4 million. It has one subsidiary which holds a small amount of dealer originated paper. National also sells credit life and credit accident and health insurance to its borrowers in connection with its extensions of credit.

By Order of April 11, 1974 (60 *Federal Reserve Bulletin* 385), the Board denied an application by Applicant to acquire shares of National. In that Order, the Board found that there was significant existing competition between Bank and National[3] in making personal installment loans in two of the four counties (Lee and Moore) in which both institutions operated and concluded that the proposed acquisition of National would have significant adverse effects on existing competition in those areas. In order to eliminate these adverse competitive effects, Applicant has modified its proposal by applying to acquire all of National's offices except those three offices located in Lee and Moore Counties. The three offices located therein will be divested[4] by National prior to its acquisi-

[1] All banking and other financial data are as of December 31, 1973, and reflect bank holding company formations and acquisitions approved by the Board through August 31, 1974.

[2] The loan limit for a small loan company in North Carolina has recently been increased from $900 to $1,500.

[3] The Board has previously determined that consumer finance companies generally compete with commercial banks in the area of small loans to individuals (see Board Order of August 3, 1973, denying acquisition of Public Loan Company by Bankers Trust New York, 59 *Federal Reserve Bulletin* 694). Accordingly, in a given situation, the acquisition of a consumer finance company by a commercial banking organization may result in the elimination of existing competition in those geographic markets in which both compete.

[4] National proposes to transfer the three offices in question to a new corporation to be formed by the existing shareholders of National. The Board has received various commitments from Applicant, National, and the individual shareholders of National to the effect that the new corporation will be sold to an unrelated third-party as soon as practicable but in no event later than two years after Applicant's acquisition of National, and further, that neither Applicant nor any of its officers, directors or policy-making employees will control or exert a controlling influence over the management or policies of these three offices.

tion by Applicant. (The nine loan offices of National to be acquired have total gross receivables of approximately $2.4 million.) In view of the foregoing, it appears that consummation of the proposed transaction would not have an adverse effect on existing competition in any area of the State. Moreover, Applicant and National are not considered to be likely de novo entrants into areas served by the other in view of their small size in relation to present competitors or other possible entrants, and thus consummation herein would not have an adverse effect on future competition. National also acts as agent for the sale of credit life and credit accident and health insurance in connection with its extensions of credit. Considering the size and scope of this insurance business, it does not appear that Applicant's acquisition of National would have a significantly adverse effect on competition in this product line.

Affiliation with Applicant would give National greater flexibility in acquiring funds to lend to its customers and would permit National to expand its current services. There is no evidence in the record indicating that consummation of the proposed transaction would result in any undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices or other adverse effects on the public interest.

Based upon the foregoing and other considerations reflected in the record, the Board has determined, in accordance with the provisions of section 4(c)(8), that consummation of this proposal can reasonably be expected to produce benefits to the public that outweigh possible adverse effects. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

The transaction shall be made not later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Richmond.

By order of the Board of Governors,[5] effective September 18, 1974.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.74-22494 Filed 9-26-74;8:45 am]

FIRST INTERNATIONAL BANCSHARES, INC.

Order Approving Acquisition of First International Bancshares Insurance Co.

First International Bancshares, Inc., Dallas, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of First International Bancshares Insurance Company ("FIBI"), Dallas, Texas, a company that will engage de novo in the activity of underwriting credit life and credit accident and health insurance directly related to extensions of credit by Applicant's credit-granting subsidiaries. Such activity has been determined by the Board to be closely related to banking (12 CFR 225.4(a)(10)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (39 FR 5373). The time for filing comments and views has expired, and the Board has considered the application and all comments received, including those submitted by members of the Dallas Association of Life Underwriters, in the light of the factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)).

Applicant, the largest banking organization in Texas, controls 15 subsidiary banks with aggregate deposits of about $2.6 billion, representing approximately 7.5 percent of the total deposits in commercial banks in the State.[1]

FIBI will engage de novo in the activity of acting as underwriter for credit life and credit accident and health insurance directly related to extensions of consumer credit by Applicant's credit-granting subsidiaries, including its banking subsidiaries located in nine SMSA's in Texas. Credit life and credit accident and health insurance is generally made available by banks and other lenders and such insurance is designed to assure repayment of a loan in the event of death or disability of the borrower. Since this proposal involves a de novo acquisition, consummation of the transaction would not have any adverse effects on existing or potential competition in any relevant market.

Applicant has stated that following consummation of the acquisition, FIBI will offer reduced premiums and increased policy coverage to its credit insurance customers. One type of additional policy coverage would be a "grace period" of up to 15 days beyond the maturity date of the loan, during which time the insurance coverage would remain in effect if repayment of the loan were delayed beyond the maturity date. In addition, Applicant would reduce premiums on the various types of credit insurance. Applicant would offer level term credit life insurance on single payment loans at a premium rate 3.7 percent below the statutory maximum, decreasing term credit life insurance at a rate of 3.4 percent below the statutory maximum, and credit accident and health insurance at a rate 3.4 percent below the statutory maximum.

Texas has recently adopted a new insurance regulation for credit life and credit accident and health insurance.[2] In essence, the new State regulation requires a significant reduction in the prima facie premium rates that may be charged for credit insurance. In view of the premium rate reductions required by State law, the Board regards Applicant's additional premium reductions and proposed increase in policy coverage as procompetitive and in the public interest. There is no evidence in the record indicating that consummation of the proposed acquisition would result in any undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices, or other adverse effects on the public interest.

Based upon the foregoing and other considerations reflected in the record, the Board has determined, in accordance with the provisions of section 4(c)(8), that consummation of this proposal can reasonably be expected to result in benefits to the public that outweigh possible adverse effects. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder or to prevent evasion thereof.

By order of the Board of Governors,[3] effective September 18, 1974.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

LONG BANCORPORATION

Order Approving Formation of Bank Holding Company

Long Bancorporation, Des Moines, Iowa, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 73.89 percent of the voting shares of Union-Whitten State Savings Bank, Union, Iowa ("Bank").

Notice of the receipt of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is a nonoperating company which presently owns minority shares of Bank. The transaction is basically a cor-

[1] All banking data are as of June 30, 1973, and reflect holding company formations and acquisitions approved through July 31, 1974.

[2] Under the authority of Article 3.53 of the Texas Insurance Code, the State Board of Insurance adopted, on December 5, 1973, the rules and regulations contained in Order No. 26263, effective March 1, 1974.

[3] Voting for this action: Vice Chairman Mitchell and Governors Sheehan, Holland, and Wallich. Absent and not voting: Chairman Burns and Governor Bucher.

porate reorganization whereby Applicant will acquire shares now owned by Applicant's principals. A principal of Applicant is also a principal of another one-bank holding company in Iowa but that holding company's banking subsidiary is not in Bank's market area.

Bank, with deposits of $8.4 million[1] is the 332nd largest bank in Iowa and holds less than 0.1 percent of commercial bank deposits in the State. In its market, Bank ranks fourth with 5.9 percent of total market area deposits. The acquisition is not expected to have an adverse effect on Bank's competitive position in the relevant area; therefore, competitive considerations are consistent with approval.

The financial and managerial resources and future prospects of Applicant will depend initially on those same factors in Bank which are considered satisfactory and consistent with approval.

Although consummation of the proposal would produce no major change in the services offered by Bank, considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. It is the Board's judgment that the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By Order of the Board of Governors,[2] effective September 18, 1974.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

VALLEY BANCORPORATION

Order Approving Formation of Bank Holding Company

Valley Bancorporation, Rexburg, Idaho, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of all of the voting shares (less directors' qualifying shares) of the successor by merger to the Valley Bank, Rexburg, Idaho ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is a recently-organized corporation formed for the purpose of becoming a bank holding company through the acquisition of Bank. The proposed transaction involves the transfer of control of Bank from individuals to a corporation owned by the same individuals. Bank (deposits of $59.5 million) is the fifth largest bank in the State and operates a total of five banking offices located in four banking markets in southeastern Idaho.[1] Upon acquisition of Bank, Applicant would control less than three percent of total deposits in commercial banks in Idaho. Since the transaction is essentially a reorganization of Bank's ownership and Applicant presently has no subsidiaries, consummation of the proposal would not have an adverse effect on existing or potential competition, nor would it increase the concentration of banking resources or have an adverse effect on other banks in any of the relevant areas. Therefore, the Board concludes that the competitive considerations are consistent with approval of the application.

The future prospects of Applicant are primarily dependent upon the financial resources of Bank. Applicant proposes to service the debt it will assume incident to this proposal over a 12 year period through dividends from Bank averaging 12 percent of Bank's earnings. In light of Bank's past earnings and its anticipated growth, the projected earnings of Bank provide Applicant with the necessary financial flexibility to meet its annual debt servicing requirements while strengthening the capital position of Bank. Moreover, the principals of Applicant have expressed the willingness to maintain Bank's capital at acceptable levels throughout the debt retirement period. The managerial resources of Applicant and Bank are considered satisfactory and the future prospects for each appear favorable. Thus, the considerations relating to the banking factors are consistent with approval of the application.

Although consummation of the proposal would effect no changes in the services offered by Bank, the considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. It is the Board's judgment that the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of San Francisco pursuant to delegated authority.

By order of the Board of Governors,[2] effective September 18, 1974.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on September 24, 1974 (44 USC 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this Daily List may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202-395-4529), or the reviewer listed.

NEW FORMS

None.

LESSING FOOTWEAR, INC.

Workers' Petition for Determination; Amendment of Scope of Investigation

On August 19, 1974, the U.S. Tariff Commission published notice in the FEDERAL REGISTER (39 FR 29975) of the institution of an investigation under section 301 of the Trade Expansion Act of 1962 on behalf of the workers and former workers of Lessing Footwear, Inc., Norwalk, Connecticut, to determine whether, as a result in major part of the concessions granted under trade agreements, articles like or directly competitive with footwear for women (of the types provided for in items 700.45, 700.55, 700.70, 700.83, and 700.85 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

On September 20, 1974, the Commission amended the scope of this investigation, pursuant to its authority under section 403(a) of the said act, to include, in addition, articles like or directly competitive with footwear for women (of the types provided for in item 700.60 of the Tariff Schedules of the United States) produced by said firm.

Issued: September 24, 1974.

By order of the Commission.

KENNETH R. MASON,
Secretary.

[AA1921-105]

NORTHERN BLEACHED HARDWOOD KRAFT PULP FROM CANADA

Determination of No Injury or Likelihood Thereof

SEPTEMBER 23, 1974.

The Tariff Commission on September 28, 1972, received advice from the Treasury Department that northern bleached hardwood kraft pulp from Canada is being, or is likely to be, sold in the United States at less than fair value within the meaning of the Antidumping Act, 1921, as amended. In accordance with the requirements of section 201(a) of the Antidumping Act (19 U.S.C. 160 (a)), the Tariff Commission instituted investigation No. AA1921-105 to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States. The

Commission by a 3 to 3 vote determined on December 27, 1972, that an industry in the United States is being injured by reason of the importation of northern bleached hardwood kraft pulp from Canada, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. A finding of dumping with respect to prime-grade and off-grade northern bleached hardwood kraft pulp from Canada was made by the Department of the Treasury on January 17, 1973 (T.D. 73-28; 38 FR 2210 (1973)).

On June 26, 1974, the Treasury Department advised that, after considering a formal petition for revocation submitted by the American Paper Institute with respect to the finding of dumping on prime-grade and off-grade northern bleached hardwood kraft pulp from Canada, and after examining the most current sales information supplied by the Canadian pulp producers and exporters, the Department affirms its determination that such pulp is being and is likely to be sold in the United States at less than fair value.

The Tariff Commission on July 9, 1974, instituted investigation No. AA1921-105A to determine whether, if the finding of dumping were revoked, an industry in the United States would be or would likely be injured by reason of the importation of such merchandise into the United States. Notice of the institution of the investigation and of a public hearing to be held on August 6, 1974, in connection therewith was published in the FEDERAL REGISTER of July 12, 1974 (39 FR 25710).

In arriving at a determination in this case, the Commission gave due consideration to all written submissions from interested parties, evidence adduced at the hearing, and all factual information obtained by the Commission's staff from questionnaries, personal interviews, and other sources.

On the basis of the investigation, the Commission has determined that, if the finding of dumping were revoked, an industry in the United States would not be or would not likely be injured by reason of the importation of prime-grade and off-grade northern bleached hardwood kraft pulp from Canada sold, or likely to be sold, at less than fair value within the meaning of the Antidumping Act, 1921, as amended.[1]

STATEMENT OF REASONS FOR NEGATIVE DETERMINATION OF CHAIRMAN BEDELL AND COMMISSIONER LEONARD [2]

In the instant investigation we determine that, if the finding of dumping that was issued on January 17, 1973, on prime-grade and off-grade northern bleached hardwood kraft pulp from Canada were revoked and imports of such merchandise were no longer subject to dumping duties, an industry in the United States would not be injured or an industry in the United States would not be likely to be injured by reason of the importation of such pulp.

DESCRIPTION OF THE PRODUCT

Bleached hardwood kraft pulp made from hardwood (deciduous) by the chemical sulphate (kraft) process is a relatively short-fibered pulp used chiefly in the production of fine printing and writing papers in which cleanliness, brightness, softness, and good formation are more important requirements than strength; it is also used in the manufacture of absorbent tissue paper. Northern bleached hardwood kraft pulp from Canada is very similar to the type of pulp produced in the northern part of the United States. The northern variety differs from that produced in the southern part of the United States—which is known as "southern grade"—in that the former possesses greater smoothness and opacity, both of which are desirable qualities of hardwood pulp. For certain uses, such as tissue paper and papers where a smooth surface is not required, the southern grade is readily interchangeable with the northern grade.

Pulp is sold as either prime grade or off grade; the great bulk of all market pulp is prime grade. The specifications of off-grade pulp are determined by each individual producer. Such pulp is inferior to prime-grade pulp in that it is usually characterized by such elements as excessive dirt spots, discoloration, lack of brightness, and lack of strength. Since there are varying standards for off-grade pulp, comparisons of prices of such pulp are exceedingly difficult.

U.S. INDUSTRY

The industry producing bleached hardwood kraft pulp in the United States consists of approximately 33 firms operating some 50 establishments. Domestic production of the subject product involves two elements—captive production and production for the market. Most U.S. production is captive—that is, production which is further processed by the producers into more advanced products, such as paper and paperboard. However, the portion sold on the open market is in direct competition with imports from Canada and represents an important source of revenue to U.S. producers, especially during periods of soft demand.

Canadian imports have traditionally accounted for about one-fourth to one-third of domestic market sales and have usually carried a slightly higher price than comparable domestic pulp.

The northeast region of the United States is the competitive marketing area where the bulk of the imports from Canada are sold. It has a concentration of nonintegrated paper manufacturers, and it is largely supplied by six U.S. firms which have producing facilities in that region and by Canadian imports. Since most shipments of pulp tend to be confined to distances of less than 1,000 miles from the producing mill, certain Canadian producers are located near the northeastern marketing area; therefore, these Canadian producers consider this area as one of their major markets. Since this region is where the impact of Canadian imports is felt most, the U.S. firms which have producing facilities in this region and which market their pulp in the region are the ones we can best examine to evaluate the effect of less than fair value (LTFV) imports.

CONDITIONS THAT LED TO AN AFFIRMATIVE COMMISSION DETERMINATION IN 1972 [3]

The Department of the Treasury in its original investigation, which covered the period May-October 1971, found that six Canadian suppliers of the subject product were making approximately 70 percent of their sales at LTFV. The weighted average margin on these sales was determined to have been roughly 13 percent, with individual margins ranging from less than 1 percent to 50 percent.

In 1971, the U.S. paper industry, reflecting conditions in the general economy, was faced with a considerable slowdown. Selling prices for pulp were depressed by as much as 20 percent from their 1970 levels, profits were declining, and inventories were building. Excess capacity in the domestic industry was also growing. Added to those conditions was the threat posed by Canadian suppliers, which are highly dependent upon market sales. In marked contrast to the small share of its product that is marketed by the U.S. industry, approximately three-fourths of Canadian pulp production is for the market. Faced with the same economic conditions as those existing in the U.S. industry, some Canadian firms began price discounting on their export sales to the United States, determined by the Treasury to have been at LTFV, which enabled the Canadian suppliers to increase their share of the U.S. market. That unfair pricing impinged most acutely on the northeast market and, thus, on the small domestic producers serving that market.

The discounting by one Canadian supplier was so great that it forced prices to an extremely low level—$110 per short ton—in the northeast market in the spring of 1971. In fact, its pricing was so low that its net return (ex-factory price) was often less than $100 a ton during that period. Sales at such prices were found by the Department of the Treasury to have been at LTFV. Several do-

[1] On the basis of the investigation conducted by the Tariff Commission pursuant to the letter from the Department of the Treasury, dated June 26, 1974, Vice Chairman Parker and Commissioner Moore have determined that an industry in the United States is not being or is not likely to be injured by reason of the importation of northern bleached hardwood kraft pulp from Canada, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

[2] Commissioner Ablondi concurs in the result.

[3] Chairman Bedell and Commissioners Leonard and Moore determined in the affirmative; Vice Chairman Parker and Commissioners Young and Ablondi determined in the negative. Pursuant to section 201(a) of the Antidumping Act, 1921, as amended, the Commission is deemed to have made an affirmative determination when the Commissioners voting are equally divided.

mestic suppliers had little choice except to attempt to meet those LTFV prices. In the process they lost substantial revenue, which resulted in greatly reduced profits. Profits on the subject product declined by more than 80 percent for most domestic suppliers of market pulp in that year (1971) and declined even more precipitously for the northeastern producers. The firms situated in the northeast, which market their pulp primarily in that region, incurred a loss on their hardwood kraft pulp operations in 1971.

Imports of the subject Canadian pulp rose from 34 percent of total U.S. market shipments in 1970 to 37 percent in 1971. It was evident that LTFV prices enabled Canadian suppliers to increase their share of U.S. market sales at the expense of lost sales and reduced profits to U.S. producers of market pulp. With the domestic industry producing bleached hardwood kraft pulp facing a declining demand, depressed prices, and increasing imports, the Commission in 1972 found that Canadian sales at LTFV prices were causing injury to that industry.

In 1972 it was also concluded that domestic producers were likely to be injured by shipments of Canadian imports sold at LTFV. Cited at that time was the large and growing inventory of one Canadian producer which had been selling at LTFV in the northeast market. That inventory and the convenience of selling to the United States, particularly in periods of slack demand, were conducive to continued injurious LTFV sales.

PRESENT DAY CONDITIONS

The economic conditions which prevailed in 1971 have changed greatly, so much in fact that in the absence of dumping duties the domestic industry would not be adversely affected by LTFV sales of bleached hardwood kraft pulp from Canada. Demand for bleached hardwood kraft pulp in the United States increased by 10 percent and 7 percent in 1972 and 1973, respectively, over that of the preceding years and continued to increase during the first 6 months of 1974 over the level of the corresponding period in 1973. Prices for this product have increased by as much as 100 percent or more since 1972 and now stand at $300 or more per ton. The premium paid for Canadian pulp has increased in the intervening period to the point where Canadian prices are now often 10 to 20 percent greater than prices of domestic pulp.

Furthermore, imports of Canadian bleached hardwood kraft pulp have declined as a share both of domestic consumption and of that sold on the open U.S. market. In part, that decline reflects an increasing demand for pulp in Europe.

According to Treasury data, both LTFV margins and the quantity of sales at LTFV have declined substantially, possibly to the extent that the current margins result entirely from fluctuations in exchange rates and freight differentials. In any event, the small margins reported by Treasury for the July 1973–June 1974 period were not sufficient to afford the Canadian suppliers any price advantage in the U.S. market. On the contrary, prices of Canadian pulp in the United States were significantly higher than prices of domestic pulp during this period.

Inasmuch as the dumping margins are now insignificant and Canadian pulp is currently selling at an ever greater premium, it is clear that, should the finding of dumping be revoked, there would be no injury to the domestic industry by reason of sales of Canadian bleached hardwood kraft pulp at LTFV.

The domestic pulp industry is enjoying such well-being that it is currently operating at full capacity, compared with approximately 90 percent of capacity in 1971. The industry cannot now meet all the demand facing it at home and abroad. The nonintegrated paper manufacturers in the northeast are finding it particularly difficult to obtain a steady supply of pulp. Sales and profits are up sharply from their 1971 levels. The ratio of profits to sales increased by more than 100 percent for the producers of market pulp between 1971 and 1973, and there is reason to believe that profits are continuing to climb in 1974. The profit-to-net-sales ratio of the northeastern producers, which was severely depressed in 1971, recovered in 1972 and 1973 to the point that it was more than 50 percent higher in 1973 than that for the rest of the domestic industry.

The strong demand for pulp that prevails in the world market, particularly in the United States, Canada, the European Economic Community, and Japan, is expected to continue. The high cost of adding new production capacity has caused U.S. producers to take a conservative approach toward building new facilities, despite the recent large increases in the price of pulp. Additions to domestic capacity which have been announced to date are not sufficient to supply the anticipated increase in U.S. demand. Thus, it is unlikely that in the foreseeable future the U.S. producers will find themselves in an excess-capacity position such as existed in 1972.

North American inventories of bleached hardwood kraft pulp have declined to an extremely low level in recent months. This decline in inventories, despite the fact that both U.S. and Canadian producers are operating at almost full capacity, coupled with the less than adequate rate at which new production capacity is being added, indicates that market pulp will continue to be in short supply. Given the above conditions and the declining LTFV margins, it is clear that in the absence of a finding of dumping the U.S. industry producing hardwood kraft pulp would not likely be injured by reason of LTFV sales of Canadian pulp.

CONCLUSION

Accordingly, for the reasons indicated we conclude that, if the finding of dumping were revoked, an industry in the United States would not be injured or would not be likely to be injured, by reason of the importation of prime-grade or off-grade northern bleached hardwood kraft pulp from Canada that is being, or is likely to be, sold at LTFV within the meaning of the Antidumping Act, 1921, as amended.

STATEMENT OF REASONS FOR NEGATIVE DETERMINATION BY VICE CHAIRMAN PARKER AND COMMISSIONER MOORE

The facts in this case are clear. On June 3, 1974, the Secretary of the Treasury, after citing the dumping finding in the case involving less than fair value imports of northern bleached hardwood kraft pulp from Canada,[1] requested "the views of the Tariff Commission regarding its authority to review injury determinations based on facts which have developed subsequent to the issuance of a dumping finding."

On June 20, 1974, the Commission authorized its General Counsel to advise the Treasury Department that "should the Treasury Department send notice of a formal action making a current determination with respect to less than fair value sales of northern hardwood kraft pulp from Canada, the Commission would consider this to be sufficient to institute an investigation under the Antidumping Act, 1921, as amended."

Accordingly, the Treasury Department notified the Tariff Commission on June 26, 1974, that "after examining the most current sales information supplied by the Canadian pulp producers and exporters," it affirms that "such pulp is being and is likely to be sold in the United States at less than fair value." The Commission instituted the present investigation on July 9, 1974.

As a result of the current investigation, for reasons set forth below, we have determined that an industry in the United States is not being or is not likely to be injured by reason of the importation of northern bleached hardwood kraft pulp from Canada, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

A description of the product (northern bleached hardwood kraft pulp) and the definition of the affected industry in the United States is contained in the Commission's report in the earlier case (investigation No. AA1921–105).

IMPACT OF LTFV SALES ON THE U.S. INDUSTRY

Imports of Canadian bleached hardwood kraft pulp are sold predominantly in the north central and northeast regions of the United States. During the 7-year period 1967 through 1973, imports of such pulp, virtually all of which were from Canada, represented between 4 and 6 percent of domestic consumption and declined to 3 percent during the first 6 months of 1974.

In its earlier investigation, which covered the period May–October 1971, the

[1] Northern Bleached Hardwood Kraft Pulp From Canada, * * * Investigation No. AA1921–105 * * *, TC Publication 530, 1972.

Department of the Treasury found a weighted average margin of 13 percent on sales made at LTFV by six Canadian suppliers, with the margins ranging from less than 1 percent to 50 percent. However, between July 1973 and June 1974, Treasury found a weighted average margin of about 2 percent, with the individual margins ranging from a fraction of 1 percent to less than 5 percent which were largely the result of differences in transportation costs and variations in exchange rates.

The considerable decline in the margins reported by Treasury between 1971 and 1973 coincided with a strong upsurge in the demand for pulp and paper products which has improved the economic well-being of the U.S. industry. The economic conditions prevailing in the pulp and paper industries have greatly improved in all respects since the earlier investigation.

Consumption of the subject pulp grew substantially during 1972 and 1973 and has continued to increase during 1974. With the strong demand for pulp, prices have increased at a phenomenal rate from a level of $125–$150 per ton in 1971 to the point where prices are now approximately $300 per ton or greater. What is even more significant is the fact that Canadian bleached hardwood kraft pulp is now being sold at prices increasingly higher than domestically produced pulp. In many cases such Canadian pulp is now selling at 10 to 20 percent above domestic pulp. Furthermore, imports of Canadian pulp during the first 6 months of 1974 declined.

The domestic producers are experiencing rapidly increasing sales and profits, and they are producing at almost 100 percent of capacity. All of the foregoing factors have enabled the U.S. industry to increase its profitability more than twofold since 1971, the year during which Treasury originally found sales at LTFV.

This strong and profitable position of U.S. producers is industrywide, including the northeastern producers, which because of their location, are the most vulnerable to competition from Canadian LTFV imports. As a percentage of sales, profits for the six producers in that region were as good as or better than profits for all producers of market pulp. In fact, none of the northeastern producers have complained of lost sales or injury by reason of sales at LTFV since 1971, and each of those producers has asserted that it is not now being injured.

Incontrovertible evidence that no segment of the domestic industry is now being injured is demonstrated by the fact that the American Paper Institute, representing the U.S. industry, testified at the hearing that no member of the domestic industry is being, or is likely to be, injured by reason of LTFV imports of Canadian bleached hardwood kraft pulp.

NO LIKELIHOOD OF INJURY

Worldwide demand for pulp is so strong now that inventories of the product on this continent have all but disappeared. The U.S. industry is now operating virtually at full capacity, and the Canadian industry is currently operating at greater than 90 percent of capacity. Because of the considerable cost of building new production facilities in the paper industry and the rather lengthy lead time required to build such facilities, capacity in the U.S. industry is not likely to grow significantly in the near future. With the projected demand for paper products expected to continue upward and in the face of a tight pulp supply, the availability of pulp for market sale will diminish.

CONCLUSION

In view of the foregoing, we are of the opinion that the U.S. industry producing bleached hardwood kraft pulp is not being or is not likely to be injured by reason of sales of Canadian bleached hardwood kraft pulp at LTFV.

By order of the Commission.

[SEAL] KENNETH R. MASON, *Secretary.*

VETERANS ADMINISTRATION

CAREER DEVELOPMENT COMMITTEE

Notice of Meeting

The Veterans Administration gives notice pursuant to Public Law 92-463 that a meeting of the Career Development Committee, authorized by 38 USC 4101, will be held in the Administrator's Conference Room, 10th Floor, Veterans Administration Central Office, 810 Vermont Avenue, NW., Washington, D.C. on October 15, 1974, at 8:30 a.m. The meeting will be for the purpose of scientific review of applications for appointment to the Career Development Program in the Veterans Administration system. The Committee advises the Assistant Chief Medical Director for Research and Development on selection and appointment of Research Associates, Clinical Investigators, Medical Investigators, Senior Medical Investigators and William S. Middleton Award Nominees.

The meeting will be open to the public up to the seating capacity of the room from 8:30 a.m. to 9 a.m. to discuss the general status of the program. Because of the limited seating capacity of the room, those who plan to attend should contact Mrs. Darlene R. Whorley, Executive Secretary of the Committee, VA Central Office, Washington, D.C. (202-389-5065) prior to October 13.

The meeting will be closed from 9 a.m. to 5 p.m. on October 15th for consideration of individual applications for positions in the Career Development Program. This necessarily requires examination of personnel files and discussion and evaluation of the qualifications, competence, and potential of the several candidates, disclosure of which information would constitute an unwarranted invasion of personal privacy, within the scope of exemption (6) to the Freedom of Information Act (5 USC 552 (b)(6)). Closure of the portion of the meeting is permitted by section 10 (d) of the Public Law 92-463. Minutes of the meeting and rosters of the committee members may be obtained from Mrs. Darlene R. Whorley, Chief, Career Development Unit, Medical Research Service, Veterans Administration, Washington, D.C. (Phone 202-389-5065).

Dated: September 23, 1974.

[SEAL] R. L. ROUDEBUSH, *Acting Administrator.*

[FR Doc.74-22488 Filed 9-26-74;8:45 am]

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[V-74-49]

METAL PLATE AND COATINGS, INC.

Notice of Application for Variance and Interim Order; Grant of Interim Order

I. *Notice of application.* Notice is hereby given that Metal Plate & Coatings, Inc., 500 Selig Drive SW., Atlanta, Georgia has made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11 for a variance and interim order pending a decision on the application for a variance, from the standards prescribed in 29 CFR 1910.22(c) Covers and Guardrails, and 29 CFR 1910.23(c)(3) Protection of Open-sided Floors, Platforms, and Runways.

The address of the place of employment that will be affected by the application is as follows:

Metal Plate and Coatings, Inc.
500 Selig Drive SW.
Atlanta, Georgia

The applicant certifies that employees who would be affected by the variance have been notified of the application by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant contends that it is providing a place of employment as safe as that required by 29 CFR 1910.22(c) and 29 CFR 1910.23(c)(3). Section 1910.22(c) requires that "Covers and/or guardrails shall be provided to protect personnel from the hazards of open pits, tanks, vats, ditches, etc." Section 1910.23(c)(3) requires that galvanizing tanks and similar hazards be guarded with a standard railing and toe board.

The applicant states that it has a galvanizing tank that is built below the floor level with sides rising above floor level. The sides of the tank rise 24 inches above the floor level. The ledge of the tank is 27½ inches wide.

The applicant asserts that the erection of a 42 inch guardrail around its galvanizing tank would seriously interfere with the moving of items into and out of the tank and with the skimming of the zinc. However, the applicant con-

tends that the combination of the 24 inch side height and a 33½ inch ledge width will provide protection to employees equivalent to that provided by a standard 42 inch guardrail and toe board. The applicant proposes to achieve the 33½ inch ledge width by adding a two inch pipe guard running parallel to the outer side of the ledge around the periphery of the tank, and six inches from it.

A copy of the application will be made available for inspection and copying upon request at the Office of Compliance Programming, U.S. Department of Labor, 1726 M Street NW., Room 210, Washington, D.C. 20210, and at the following Regional and Area Offices:

U.S. Department of Labor
Occupational Safety and Health Administration
1375 Peachtree Street NE.
Suite 587
Atlanta, Georgia 30309

U.S. Department of Labor
Occupational Safety and Health Administration
Building 10, Suite 33
La Vista Perimeter Park
Tucker, Georgia 30084

All interested persons, including employers and employees, who believe they would be affected by the grant or denial of the application for a variance are invited to submit written data, views and arguments relating to the pertinent application no later than October 28, 1974. In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application no later than October 28, 1974, in conformity with the requirements of 29 CFR 1905.15. Submission of written comments and requests for a hearing should be in quadruplicate, and must be addressed to the Office of Compliance Programming at the above address.

II. *Interim Order.* It appears from the application for a variance and interim order that an interim order is necessary to prevent an undue hardship upon the applicant and its employees pending a decision on the variance. Therefore it is ordered, pursuant to authority in section 6(d) of the Williams-Steiger Occupational Safety & Health Act of 1970, and 29 CFR 1905.11(c) that Metal Plate & Coatings, Inc. be, and it is hereby, authorized to continue use of its galvanizing tank which has sides 24 inches high from the floor and ledges 27½ inches wide, in lieu of the 42 inch guardrail required by 29 CFR 1910.22(c) and 29 CFR 1910.23(c)(3), provided that a two inch pipe guard is installed running parallel to the outer side of the ledge around the periphery of the tank, and six inches from the ledge, thus making the total ledge width 33½ inches.

Metal Plate & Coatings, Inc., shall give notice of this interim order to employees affected thereby, by the same means required to be used to inform them of the application for a variance.

Effective date. This interim order shall be effective as of September 27, 1974, and shall remain in effect until a decision is rendered on the application for variance.

Signed at Washington, D.C., this 23rd day of September 1974.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.74-22515 Filed 9-26-74;8:45 am]

Office of the Secretary

[Employment Standards' Order 2-74]

DIRECTOR, OFFICE OF WORKERS' COMPENSATION PROGRAMS

Redelegation of Authority

1. *Purpose.* This Order redelegates to the Director, Office of Workers' Compensation Programs, the authority and reassigns the responsibility vested in the Assistant Secretary for Employment Standards regarding workers' compensation programs and the performance of the functions assigned to the Assistant Secretary pursuant to Title IV, section 415 and Part C, of the Federal Coal Mine Health & Safety Act of 1969 as amended.

2. *Background.* a. Secretary's Order No. 18-67, 32 FR 12979, formerly identified as General Order No. 46 (Revised), delegated and assigned to the Director of the Bureau of Employees' Compensation authority and responsibility for performance of the functions of the Secretary of Labor under the Federal Employees' Compensation Act, 5 U.S.C. 8101, et seq., as amended and extended (except 8149 as it applied to the Employees' Compensation Appeals Board), and under the Longshoremen's and Harbor Workers' Compensation Act, 33 U.S.C. 901, et seq., as amended and extended, to be performed under the general direction and control of the Assistant Secretary for Labor-Management Relations. The overall responsibility for the authority delegated to the Director of the Bureau by Secretary's Order No. 18-67 was subsequently assigned successively to the Assistant Secretary for Wage and Labor Standards (see United States Government Organization Manual—1970/71, p. 320) and to the Assistant Secretary for Workplace Standards (Secretary's Order No. 19-70, 36 FEDERAL REGISTER 304), without change in the operational responsibilities of the Bureau of Employees' Compensation (Workplace Standards Administration, Description of Organization, 36 FEDERAL REGISTER 307).

b. Secretary of Labor's Order 13-71, 36 FEDERAL REGISTER 8755, established the Employment Standards Administration to perfom the functions of the Department with respect to employment standards programs. The Assistant Secretary for Employment Standards was therein delegated the authority and assigned responsibility for carrying out such programs. That Order further provided that the Employment Standards Administration was to be headed by a Deputy Assistant Secretary/Administrator who was to report to the Assistant Secretary for Employment Standards and was to act for the Assistant Secretary in his absence. Among the employment standards programs for which the responsibility was thus delegated were:

(1) The Federal Employees' Compensation Act, as amended and extended (5 U.S.C. 8101 et seq., except 8149 as it applied to the Employees' Compensation Appeals Board);

(2) The Longshoremen's & Harbor Workers' Compensation Act, as amended and extended;

(3) Part C of Title IV (Black Lung Benefits) of the Federal Coal Mine Health & Safety Act of 1969.

c. Secretary of Labor's Order 15-71, 36 FEDERAL REGISTER 8755, set forth in detail the delegation of authority to the Deputy Assistant Secretary for Employment Standards/Administrator.

d. Secretary of Labor's Order 38-72, 38 FEDERAL REGISTER 90, made provisions for the Benefits Review Board established by Pub. L. 92-576, 86 Stat. 1251, as a quasi-judicial body of first appeal under the Longshoremen's and Harbor Workers' Act; the Defense Base Act; the District of Columbia Workmen's Compensation Act; the Outer Continental Shelf Lands Act; the Nonappropriated Fund Instrumentalities Act; and Title IV, Section 415 and Part C, of the Federal Coal Mine Health & Safety Act of 1969, as amended by the Black Lung Benefits Act of 1972.

e. Secretary of Labor's Order 16-73, 38 FEDERAL REGISTER 19130, delegated authority to the Assistant Secretary for Employment Standards for the performance of the functions assigned to the Secretary of Labor pursuant to Parts B & C of Title IV of the Federal Coal Mine Health & Safety Act of 1969, as amended, with the exception of the functions vested with the Benefits Review Board by Secretary of Labor's Order 38-72.

f. Secretary of Labor's Order, September 23, 1974, revoked his prior Order 18-67, and the last sentence of paragraph No. 3 of Secretary of Labor's Order 13-71.

3. *Redelegation of Authority and Reassignment of Responsibilities.* The Director, Office of Workers' Compensation Programs, is hereby redelegated authority and reassigned responsibility, except as hereinafter provided, for carrying out the programs and activities hereinbefore delegated to the Assistant Secretary for Employment Standards under:

(1) The Federal Employees' Compensation Act, as amended and extended (5 U.S.C. 8101 et seq.), except 8149 as it pertains to Employees' Compensation Appeals Board.

(2) The Longshoremen's and Harbor Workers' Compensation Act, as amended and extended, except 33 U.S.C. 921(b) as it pertains to the Benefits Review Board;

(3) Title IV, Section 415 and Part C, of the Federal Coal Mine Health & Safety Act of 1969, as amended.

4. *Redelegation of authority.* The authority and responsibility delegated to the Director may be redelegated by him.

5. *Directives affected.* Secretary of Labor's Order 15-71 is hereby superseded

to the extent that it is inconsistent herewith.

6. *Reservation of Authority.* The powers and authority delegated to the Assistant Secretary for Employment Standards by paragraph 4 b & c of Secretary of Labor's Order 13–71, supra, are reserved to the Assistant Secretary.

7. *Effective date.* This Order is effective September 27, 1974. Signed at Washington, D.C., this 23rd day of September 1974.

BERNARD E. DELURY,
Assistant Secretary for Employment Standards.

[FR Doc.74–22483 Filed 9–26–74;8:45 am]

[Secretary of Labor's Order, September 23, 1974]

SOLICITOR OF LABOR

Revocation of Orders and Delegation of Authority

1. *Revocation.* Secretary of Labor's Order 18–67, 32 FEDERAL REGISTER 12979, and the last sentence of paragraph No. 3 of Secretary of Labor's Order 13–71, 36 FEDERAL REGISTER 8755, are hereby revoked.

2. *Delegation of Authority.* The bringing of legal proceedings, the representation of the Secretary of Labor or the Director, Office of Workers' Compensation Programs, and the determination whether such proceedings or representation is appropriate in a given case under the following statutes:

(a) The Federal Employees' Compensation Act, as amended and extended;

(b) The Longshoremen's and Harbor Workers' Compensation Act, as amended and extended;

(c) The Defense Base Act;

(d) The District of Columbia Compensation Act;

(e) The Outer Continental Shelf Lands Act;

(f) The Nonappropriated Fund Instrumentalities Act;

(g) Title IV, Sec. 415 & Part C of the Federal Compensation Health & Safety Act of 1969, as amended by the Black Lung Benefits Act of 1972.

Are delegated exclusively to the Solicitor of Labor.

3. *Effective date.* This order is effective September 27, 1974. Signed at Washington, D.C., this 23rd day of September, 1974.

PETER J. BRENNAN,
Secretary of Labor.

[FR Doc.74–22482 Filed 9–26–74;8:45 am]

INTERSTATE COMMERCE COMMISSION

[Notice 598]

ASSIGNMENT OF HEARINGS

SEPTEMBER 24, 1974.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC–C–8412, Bowman Transporation, Inc.—Investigation and Revocation of Certificates, now assigned October 7, 1974, at Atlanta, Ga., is postponed indefinitely.

MC 121658 Sub 4, Steven D. Thompson, now being assigned continued hearing November 4, 1974 (2 days), at the Sun-N-Sand Motor Hotel, 401 North Lamar, Jackson, Miss.

No. 35967, Household Goods, Increased Rates Nationwide, now assigned September 30, 1974, is postponed to October 29, 1974, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 136384 Sub 7, Palmer Motor Express, Inc., now assigned September 30, 1974, at Atlanta, Ga., is posponed to October 30, 1974 (8 days), in Room 305, 1252 W. Peachtree St. NW., Atlanta, Ga.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.74–22527 Filed 9–26–74;8:45 am]

[Notice 164]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

SEPTEMBER 27, 1974.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before October 22, 1974. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–74775. By order of September 18, 1974, the Motor Carrier Board approved the transfer to Donald E. Clark, doing business as Clark's Express, Castleton, N.Y., of that portion of the operating rights evidenced by Certificate of Registration No. MC–97059 (Sub-No. 1) issued November 6, 1963, to Ellwood V. Franks, doing business as Frank's Express, Millerton, N.Y., involving the transportation of general commodities (1) between all points in Rensselaer County, N.Y.; (2) between all points in Dutchess County, N.Y., on the one hand, and, on the other, points in Columbia County, N.Y.; (3) between the City of Albany, N.Y., on the one hand, and, on the other, points in Dutchess County, N.Y.; (4) between the City of Troy, N.Y., on the one hand, and, on the other, points in Dutchess County, N.Y.; (5) from the City of Albany, N.Y., to all points in Columbia, Rensselaer, and Putnam Counties, N.Y., and (6) from the City of Troy, N.Y., to all points in Columbia County, N.Y. John J. Brady, Jr., Suite 1111 Twin Towers, 99 Washington Ave., Albany, N.Y. 12210, attorney for applicants.

No. MC–FC–75176. By order of September 20, 1974, the Motor Carrier Board approved the transfer to Howard Dullum, Gardner, N. Dak., of the operating rights in Certificate No. MC–134604 (Sub-No. 2) issued July 26, 1971, to Wallace C. Score, Motley, Minn., authorizing the transportation of dry feed and dry feed ingredients (except chemicals in bulk), from LaMoure, N. Dak., to points in the United States (except Alaska and Hawaii, and from points in the United States, except points in Alaska and Hawaii and specified portions of Iowa, Nebraska, and Minnesota, to LaMoure, N. Dak., subject to certain restrictions. Gene P. Johnson, 425 Gate City Building, Fargo, N. Dak. 58102, attorney for applicants.

No. MC–FC–75363. By order of September 18, 1974 the Motor Carrier Board approved the transfer to Blair Cartage, Inc., Newbury, Ohio, of Certificate No. MC–127294 Sub 1 issued by the Commission October 28, 1966, to Leonard S. Terrill, doing business as Terrill Trucking, Pierpont, Ohio, authorizing the transportation of lumber between points in Ashtabula, Mahoning, and Cuyahoga Counties, Ohio, Crawford, Erie, Allegheny, Mercer, and Warren Counties, Pa., and Erie County, N.Y. Lewis S. Witherspoon, Esq., atorney for Transferor, 88 East Broad Street, Suite 1330, Columbus, Ohio 43215.

No. MC–FC–75382. By order of September 18, 1974, the Motor Carrier Board approved the transfer to Gene Autry Williamson, doing business as Gene A. Williamson, Aurora, N.C., of the operating rights in Certificate No. MC 133831 issued February 26, 1970, to Don Swain Wiliamson, Aurora, N.C., authorizing the transportation of materials and supplies used in shipping and packaging of seafood and seafood products (except commodities in bulk), from Baltimore, Md., to points in that part of North Carolina east of U.S. Highway 17. T. R. Thompson, Jr., P.O. Box 308, Aurora, N.C. 27806, attorney for applicants.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.74–22526 Filed 9–26–74;8:45 am]

[Ex Parte No. MC 19 (Sub-No. 23)]

PRACTICES OF MOTOR COMMON CARRIERS OF HOUSEHOLD GOODS

Experiment for Improving Accuracy of Estimates

Notice of filing of petition for permission to deviate from the requirements of

49 CFR 1056.8(a) and to conduct an estimate test for a period of one year. Filed September 19, 1974. Petitioner: NORTH AMERICAN VAN LINES, INC., Fort Wayne, Ind. 46801. Petitioner's representative: Martin A. Weissert, P.O. Box 988, Fort Wayne, Ind. 46801. Petitioner, a motor common carrier authorized by this Commission to transport household goods between points in the United States, requests permission (1) to deviate from the estimating rule prescribed for household goods carriers at 49 CFR 1056.8(a), and (2) to conduct a specific estimating test for a period of one year commencing January 1, 1975.

The essential requirements of 49 CFR 1056.8(a) are that a carrier must, upon request of a shipper, render an estimate of charges; that the estimate may be made only after a visual inspection of the goods; that the estimate must be rendered in the prescribed manner and form (see *Practices of Motor Common Carriers of Household Goods*, 111 M.C.C. 427, at 539), which includes use of a mandatory weight factor of not less than seven (7) pounds per cubic foot and a mandatory uniform table of measurements (see 111 M.C.C. 540); and that after completion of the estimate form, it must be delivered to the shipper (the householder), and a copy retained by the carrier. Permission to deviate from certain of the above requirements (petitioner does not seek permission to deviate from the requirements of 49 CFR 1056.8 (b) through (e)) is requested in order to conduct an experiment, the object of which is to determine whether use of different estimating forms and procedures are likely to result in more reliable estimates for the use and information of household goods carriers and shipping public.

Petitioner takes the position that estimating weights of shipments of household goods is only an art; that accurate estimates aid both shippers and carriers; that more than 20 years of mandatory estimating has not produced the degree of accuracy desired; that although estimated charges based on weight estimates for all shipments might be reasonably close to the cumulative actual charges for all shipments, a carrier's experience for each individual shipment might fall within a range which is more than plus or minus 25 percent; and that the industry now believes that a means to improve accuracy in estimates should be explored. Certain trade associations (American Movers Conference and National Furniture Warehousemen's Association) and individual motor common carriers of household goods (United Van Lines, Inc., Allied Van Lines, Inc., and Aero Mayflower Transit Company, Inc.) support the proposal to conduct an experiment in order to obtain data from a nationwide field test which may be given further engineering analysis and evaluation after the one year period of the test.

The potential public benefits envisaged by petitioner include: (1) More accurate information on which to provide a shipper with an approximation of his moving costs; (2) elimination of duplicate inventories (one by the estimator and one by the driver); (3) more accurate information for dispatchers to plan loads and to make more efficient use of equipment; and (4) determining whether the results may be sufficiently positive as to warrant having petitioner's proposed estimating system made applicable to the entire moving industry on a voluntary basis, or instituting a rulemaking proceeding looking toward that end.

Petitioner's proposal is based on tentative conclusions reached after preliminary analysis of three significant variables which are said to have an impact on the accuracy of any given estimate: the shipper, the estimator, and the tools used by the estimator. Results of field tests, according to petitioner, indicate that the latter is the most substantial contributor to inaccuracies in estimates. The results assertedly reveal that use of the standard of 7 pounds per cubic foot, although accurate overall, is not sufficiently accurate for estimating all individual shipments. Petitioner, therefore, proposes (1) that a weight stratification method be allowed for estimating the weights of furniture, appliances, goods packed in cartons, and all other miscellaneous items; (2) that the forms for the estimate and inventory of goods shipped be combined for the test period both so as to provide a check of one against the other and to save the driver's time; and (3) that use of an inventory supplement form be authorized. Petitioner's proposed forms for use during the experimental period are reproduced in the appendix to this notice.[1]

No oral hearing is contemplated at this time. Any interested person (including petitioner) desiring to participate in this proceeding may file with this Commission an original and fifteen (15) copies of his written representations, views, or arguments in support, or against, the relief sought in the petition (including any potential environmental effects thereof) on or before October 30, 1974. A copy of each such representation should be served upon petitioner's representative. Written material or suggestions submitted will be available for public inspection at the Offices of the Interstate Commerce Commission, 12th and Constitution, Washington, D.C., during regular business hours.

Notice to the general public of the matter herein under consideration will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection and by filing a copy thereof with the Director, Office of the Federal Register.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

WASHINGTON, D.C.

Volume 39 ■ Number 189

PART II

DEPARTMENT OF LABOR

Employment Standards Administration

■

Minimum Wages for Federal and Federally Assisted Construction

General Wage Determination Decisions

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions and Modifications and Supersedeas Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

BUILDING CONSTRUCTION - POWER EQUIPMENT OPERATORS :

GROUP I - Cranes (cable and hydraulic, climbing and tower)
I - A 121 ft. and under
I - B 121 ft. and 151 ft.
I - C 151 ft. and 201 ft.
I - D 201 ft. and 251 ft.
I - E 251 ft. and 301 ft.
I - F 301 ft. and 351 ft.
I - G 351 ft. and 401 ft.
I - H 401 ft. and 451 ft.

GROUP II - Air tugger, derrick, dredge, big generator plant, cableway, backhoe, clamshell, dragline, shovel and similar machines over 3/8 cubic yards capacity (factory rating), bridge crane (all types), caisson auger and similar type machine, forklift (with factory rating of 15 ft. or more of lift), hoist (on steel erection), mucking machines, ross carrier (and similar types), three drum hoist (when all three drums are in use)

GROUP III - A frame truck, backfilling machine, hoist (1 or 2 drums), barber green and similar typer machine, maintenance engineer (mechanic), mechanical slurry machines (all kinds), belt crete and similar type machines, bituminous spreading machine, post hole digger, bulldozer, carry all type scraper, core drill, pumps, (regardless of motive power) no more than (4) in number not to exceed 20 inches in total capacity), fine grade and finish rollers, side boom tractor, stone crusher, compressors: 4 not to exceed 2000 cfm combined capacity 3 or less with more than 1200 CFM, but not to exceed 2000 CFM, concrete mixer, concrete placer, concrete pumps, tournadozer and similar types, crane-hoe-shovel 3/8 yd. capacity or less (factory rating), tournapull and similar types, dinky locomotives (all types), tower-mobie and similar types, elevating grader, elevator trenching machines, fine grade machines (all kinds), welder, front end loader, forklift with factory rating of less than 15 feet of lift, well drill, well point system, high pressure boiler, Exception: single electric pumps up to and including 4 inches not be manned.

GROUP IV - Any combination (not to exceed 3 pieces of equipment), welding, machine or mechanical conveyor (over 12 ft in length), fireman, belt crete generator, mechanical heater, roller (fill & grade), pumps (regardless of motive power) no more than (3) in number, not to exceed twelve inches total capacity, rubber tired tractor, compressor 3 or less, not to exceed 1200 CFM combined capacity, longitudinal float, Exception: single gasoline driven welding machines up to 300 amps need not be manned.

GROUP V - Truck crane oilers

GROUP 5:	10.28	.85*	1.05	.60	.24

LABORERS

GROUP 1: Asphalt ironers and rakers; Barko, wacker and similar type tampers; Buggymobile; Chainsaw, faller, logloader and bucker; Compactors of all types; Concrete and magnesite mixer 1/2 yd. and under; Concrete pan work; Concrete saw; Concrete sander; Cribber and/or shoring; Cut granite curb setter; Form raisers; slip forms; Green cutters, Headerboardmen, hubsetters, aligners; Jackhammer Ops.; Jacking of pipe over 12 in.; Jackson and similar type compactors; Kettlemen, potmen and men applying asphalt, lay-Kold, creosote, lime, caustic and similar type materials; Lagging, sheeting, whaling, bracing, trench-jacking, hand-guided lagging hammer; Magnesite, epoxyresin, fiberglass, and mastic workers (wet or dry); Pavement breakers and spaders, incl. tool grinder; Pipelayers, caulkers, banders, pipewrappers, conduit layers, plastic pipelayers; Post hole diggers - air, gas and electric; Power broom sweepers; Power tampers of all types (except as shown in Group 2); Ram set gun and stud gun; Riprap-stonepaver and rock-slinger, incl. placing of sacked concrete and/or sand (wet or dry); Rotary scarifier, multiple head concrete chipper; Davis Trencher - 300 or similar type (and all small trenchers); Roto and ditch witch; Rototiller; Sandblasters, potman, gunman, nozzleman; Signalling and rigging; Tank cleaners; Tree climbers; Vibra-screed - bull float in connection with laborers' work; Vibrators; Dri-pak-it machine; High pressures blow pipe (1 1/2" or over, 100 lbs. pressure or over); Hydro seeder and similar type; Laser beam in connection with laborers' work

GROUP 1(a): Joy drill Model TWM-2A; Gardener-Denver Model DH143 and similar type drills; Track drillers; Jack Leg drillers; Diamond drillers; Wagon drillers; Mechanical drillers - all types regardless of type or method of power; Multiple unit drills; Blasters and powdermen; All work of loading, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing; High scalers (incl. drilling of same); Tree topper; Bit grinder

GROUP 1(b): Burning and Welding

GROUP 1(c): Laborers on general construction work on or in bell hole footings and shaft

GROUP 1(d): Contra Costa County Only: Pipelayers, Caulkers, Banders, Pipewrappers, Conduit Layers and Plastic pipelayers; Pressure pipe tester, no joint pipe & stripping of same, incl. repair of voids, Precast manhole setters, cast in place, manhole form setters

GROUP 2: Asphalt Shovelers; Cement dumpers and handling dry cement or gypsum; Choke-setter and rigger (clearing work); Concrete bucket dumper and chuteman; Concrete chipping and grinding; Concrete Laborers (wet or dry); Driller's helper; Chuck Tender; Nipper; Guinea Chaser (Stakeman); Grout Crew; High Pressure Nozzleman, adductors; Hydraulic Monitor (over 100 lbs. pressure); Loading and unloading, carrying and handling of all rods and materials for use in reinforcing concrete

LABORERS (Cont'd)

construction; Pittsburgh Chipper, and similar type brush shredders; Sloper; Singlefoot, hand held, pneumatic tamper; All pneumatic, air, gas, and electric tools; Jacking of pipe under 12 in.

GROUP 3: All cleanup work of debris, grounds and buildings incl. but not limited to street cleaners; Cleaning and washing windows; Construction Laborers incl. bridge and general laborers; Dumpman, load spotter; Fire watcher; Street cleaners; Gardeners, horticultural and landscape laborers; Jetting; Limbers; Brush loaders; Pilers, Maintenance landscape laborers on new construction; Maintenance, repair trackmen and road beds; Streetcar and railroad construction track laborers; Temporary air and water lines, Victaulic or similar; Tool room attendant; Fence erectors; Guardrail erectors; Pavement markers (button setters)

LABORERS (Tunnel and Shaft Work)

GROUP 1: Diamond Driller; Groundmen; Gunite or Shotcrete Nozzlemen; Rodmen; Shaft Work and Raise (below actual or excavated ground level)

GROUP 2: Bit Grinder; Blaster, Drillers, Powdermen-heading; Cherry Pickermen - where car is lifted; Concrete Finisher in Tunnel; Concrete Screed man; Grout Pumpman and Potman; Gunite and Shotcrete Gunmen and Potmen; Headermen; High Pressure Nozzleman; Miners - Tunnel, including top and bottom man on shaft and raise work; Nipper Nozzleman on slick line; Sandblaster-potman (work assignment interchangeable) Steel Form Raisers and Setters; Timberman, Retimberman - wood or steel or substitute materials therefore; Tugger

GROUP 3: Cabletender; Chucktender; Powderman-primer house; Vibratormen, Pavement Breakers

GROUP 4: Bull Gang - Muckers, Trackmen; Concrete Crew - includes rodding and spreading; Dumpmen (any method); Grout Crew; Reboundmen; Swamper

LABORERS (Wrecking Work)

GROUP 1: Skilled wrecker (Removing and salvaging of sash, windows, doors, plumbing and electric fixtures

GROUP 2: Semi-skilled wrecker (Salvaging of other building materials)

GROUP 3: General laborer (Includes all cleanup work, loading, lumber, loading and burning of debris)

POWER EQUIPMENT OPERATORS
(Piledriving)

GROUP 1: Assistant to Engineer (Fireman, Oiler, Deckhand)

GROUP 1-A: Compressor Operator

GROUP 1-B: Truck Crane Oiler

GROUP 2: Tugger Hoist (hoisting material only)

GROUP 2-A Compressor operator (2-7); Generator (100 K. W. or over); Pump (2-7); Welding Machine (2-7) powered other than by electricity)

GROUP 3: Deck Engineer; Fork Lift; A-Frame; Self-propelled Boom Type Lifting Device

GROUP 3-A: Heavy Duty Repairman and/or Welder

GROUP 4: Operating Engineer in lieu of Assistant to Engineer tending boiler or compressor attached to crane piledriver; Operator of Piledriving Rigs, Skid or Floating and Derrick Barges; Operator of diesel or gasoline powered crane piledriver (w/o boiler) up to and incl. 1 cu. yd.; Truck Crane (up to and incl. 25 tons hoisting material only)

GROUP 5: Operator of Diesel or Gasoline powered Crane Piledriver without boiler, over 1 cu. yd.; Operator of Crane (w/steam, flash boiler, pump or compressor attached); Operator of steam powered Crawler or Universal type driver (Raymond or similar type); Truck Crane (over 25 tons hoisting material or performing piledriving work)

POWER EQUIPMENT OPERATORS
(Except Piledriving and Steel Erection)

* Includes 13¢ to Pensioned Health and Welfare Fund

POWER EQUIPMENT OPERATORS (AREAS I & II)
(Except Piledriving and Steel Erection)

GROUP 1: Assistants to Engineers (Brakeman; Fireman; Heavy Duty Repairman Helper; Oiler; Deckhand; Signalman; Switchman; Tar Pot Fireman); Partsman (Heavy Duty Repair shop parts room)

GROUP 2: Compressor Op.; Concrete Mixer (up to and incl. 1 yd.); Conveyor Belt Operator (tunnel); Fireman Hot Plant; Hydraulic; Monitor; Mechanical Conveyor (handling building materials); Mixer Box Op. (concrete plant); Pump Operator; Spreader Boxman (with screeds); Tar Pot Fireman (power agitated)

GROUP 3: Box Operator (bunker); Helicopter Radioman (signalman); Motorman; Locomotive; Oiler; Rodman or Chainman; Ross Carrier (construction job site); Rotomist Operator; Screedman (except asphaltic concrete paving); Self-propelled, automatically applied concrete curing machine (on streets, highways, airports and canals); Trenching Machine (Maximum digging capacity 3 ft. depth); Tugger Hoist, single drum; Truck Crane Oiler

GROUP 4: Ballast Jack Tamper; Ballast Regulator; Ballast Tamper Multipurpose; Boxman (asphalt plant); Elevator Op. (inside); Fork Lift or Lumber Stacker (construction job site); Line Master; Lubrication and Service Engineer (mobile and grease rack); Material Hoist (1 drum); Shuttlecar; Tie Spacer; Towermobile

GROUP 5: Compressor Op. (2 to 7); Concrete Mixers (over 1 yd.); Concrete Pumps or Pumpcrete Guns; Generators (100 K.W. or over); Grouting Machine; Press-weld (air-operated); Pumps (2 to 7); Welding Machines (powered other than by electricity) (2 to 7)

GROUP 6: BLH Lima Road Pactor or similar; Boom Truck or Dual Purpose A-Frame Truck; Concrete Batch Plants (wet or dry); Concrete Saws (self-propelled unit) on streets, highways, airports and canals; Drilling and Boring Machinery, vertical and horizontal (not to apply to waterliners, wagon drills or jackhammers); Gradesetter, Grade Checker (mechanical or otherwise); Highline Cableway Signalman; Locomotives (steam or over 30 tons) Maginnis Internal Full Slab Vibrator (on airports, highways, canals and warehouses); Mechanical Finishers (concrete) (Clary, Johnson, Bidwell Bridge Deck or similar types); Mechanical Burm, Curb and/or Curb and Gutter Machine, concrete or asphalt; Portable Crusher; Post Driver (M-1500 and similar); Power Jumbo Operator (setting slip forms, etc. in tunnels); Roller; Screedman (Barber-Greene and similar) (asphaltic concrete paving); Self-propelled Compactor (single engine); Self-propelled Pipeline Wrapping Machine, Perault, CRC, or similar types); Slip Forms Pumps (lifting device for concrete forms); Small Rubber Tired Tractors; Surface Heater

POWER EQUIPMENT OPERATORS (AREAS I & II) (CONT'D)
(Except Piledriving and Steel Erection)

GROUP 7: Concrete Conveyor or Concrete Pump, Truck or Equipment mounted (boom length to apply); Concrete Conveyor, building site; Deck Engineers; Dual Drum Mixer; Fuller Kenyon Pump and similar types; Gantry Rider (or similar); Hydra-Hammer (or similar); Instrument Man; Material Hoist (2 or more drums); Mechanical Finishers or Spreader Machine (asphalt, Barber-Greene and similar; Mine or Shaft Hoist; Mixermobile; Pavement Breaker with or without Compressor Combination; Pavement Breaker, Truck mounted with Compressor Combination; Pipe Bending Machine (pipelines only); Pipe Cleaning Machine (tractor propelled and supported); Pipe Wrapping Machine (tractor propelled and supported); Refrigeration Plant; Roller Operator (finish asphalt); Self-propelled boom type lifting device (center mount) (10 tons or less M.R.C); Self-propelled Elevating Grade Plane; Slusher Op.; Small Tractor (with boom) Soil Tester; Truck type Loader

GROUP 8: Amor-Coater (or similar); Asphalt Plant Engineer; Cast-in-place Pipe Laying Machine; Combination Slusher and Motor Op.; Concrete Batch Plant (multiple units); Dozer; Heading Shield Op.; Heavy Duty Repairman and/or Welder; Ken Seal Machine (or similar); Kolman Loader; Loader (up to 2 yds.); Mechanical Trench Shield; Portable Crushing and Screening Plants; Push Cat; Rubber Tired Earth-moving Equipment (up to and incl. 45 cu. yds. "struck" m.r.c., Euclids, T-Pulls, DW-10, 20, 21, and similar; Rubber Tired Dozer; Self-propelled Compactor with Dozer; Sheepfoot; Timber Skidder (Rubber tired or similar equipment); Tractor drawn Scraper; Tractor Trenching Machine; Tri-Batch Paver; Tunnel Mole Boring Machine; Welder; Woods-mixer (and other similar Pugmill equipment)

GROUP 9: Canal Finger Drain Digger; Chicago Boom; Combination Mixer and Compressor (gunite); Combination Slurry Mixer and/or Cleaner; Highline Cableway (5 tons and under); Lull Hi-Lift or similar (20 ft. or over); Mucking Machine (rubber tire, rail or track type); Tractor (with boom) (D-6 or larger and similar)

GROUP 10: Boom-type Backfilling Machine; Bridge Crane; Cary-Lift (or similar); Chemical Grouting Machine; Chief of Party; Combination Backhoe and Loader (up to and incl. 1/2 cu. yd. m.r.c.); Derrick (2 ops. required when swing engine remote from hoist); Derrick Barges (except excavation work); Do-Mor Loader; Adams Elegrader; Elevating Grader; Heavy Duty Rotary Drill Rig (incl. Caisson foundation work and Robbins type drills); Koehring Skooper (or similar); Lift Slab Machine (Vagtborg and similar types); Loader (2 yds. up to and incl. 4 yds.); Locomotive (over 100 tons) (single or multiple units); Multiple Engine Earthmoving Machine (Euclids, Dozers, etc.) (no tandem scraper); Pre-Stress Wire Wrapping Machine; Reservoir-Debris Tug (self-propelled floating); Rubber-tired Scraper, Self-loading(Paddle wheels, etc.); Shuttle Car (reclaim station); Single Engine Scraper over 45 yds.; Soil Stabilizer (P & H or equal); Sub-grader (Gurries or other automatic type); Tractor, Compressor Drill Combination; Track laying type earth moving machine (single engine with tandem scrapers); Train loading station; Vacuum Cooling Plant; Whirley Crane (up to and incl. 25 tons)

POWER EQUIPMENT OPERATORS (AREAS I & II) (cont'd)
(Except Piledriving and Steel Erection)

GROUP 10-A: Backhoe (hydraulic) (up to and incl. 1 cu. yd. m.r.c.); Backhoe (cable) (up to and incl. 1 cu. yd. m.r.c.); Combination Backhoe and Loader over 1/2 cu. yd. m.r.c.); Continuous Flight Tie Back Auger (up to and incl. 1 cu. yd.) (crane attached); Cranes (not over 25 tons, hammerhead and gantry); Grade-alls (up to and incl. 1 cu. yd.); Power Shovels, Clamshells, Draglines, (up to and incl. 1 cu. yd. m.r.c.); Power Blade (single engine); Self-propelled Boom-type Lifting Device (center mount) (over 10 tons); Self-propelled Boom-type Lifting Device (center mount) (over 15 tons)

GROUP 11: Automatic Concrete Slip Form Paver; Automatic Railroad Car Dumper; Canal Finger Drain Backfiller; Canal Trimmer; Canal Trimmer w/ ditching attachments; Cranes (over 25 tons up to and incl. 125 tons); Continuous Flight Tie Back Auger over 1 cu. yd. (incl. crane); Drott Travelift 650-A-1 or similar (45 tons or over); Highline Cableway (Over 5 tons); Loader (over 4 yds., up to and incl. 12 cu. yds.); Power Blade (multi-engine); Power Shovels, Clamshells, Draglines, Backhoes, Grade-alls (over 1 yd. and up to and incl. 7 cu. yds. m.r.c.); Rubber-tired earth moving machines (multiple propulsion power units and two or more scrapers) (up to and incl. 75 cu. yds. "struck" m.r.c.); Self-propelled Compactor (with multiple propulsion power units); Single engine Rubber-tired Earthmoving Machines (with tandem scrapers); Slip Form Paver (concrete or asphalt); Tandem Cats; Tower Cranes Mobile; Trencher (pulling attached shield); Universal Liebher and Tower Cranes (and similar types); Wheel Excavator (up to and incl. 750 cu. yd. per hour); Whirley Crane (over 25 tons

GROUP 11-A: Band Wagons (in conjunction with Wheel Excavator); Cranes (over 125 tons); Loader (over 12 cu. yds.; up to and incl. 18 cu. yds.); Power Shovels and Draglines (over 7 cu. yds., m.r.c.); Rubber Tired Multi-Purpose Earth Moving Machines (2 units over 75 cu. yds. "struck" m.r.c.); Wheel excavator (over 750 cu. yds. per hour)

GROUP 11-B: Loader (over 18 cu. yds.)

GROUP 11-C: Operator of Helicopter (when used in erection work); Remote controlled earthmoving equipment

CALIFORNIA
AREA DEFINITIONS for
POWER EQUIPMENT OPERATORS

**AREA 2: All areas not included within Area 1 as defined below.

*AREA 1: All areas included in the description defined below which is based upon township and range lines of Areas 1 and 2.

Commencing in the Pacific Ocean on the extension of the Southerly line of Township 19S.
Thence Easterly along the Southerly line of Township 19S, crossing the Mt. Diablo meridian to the S.W. corner of township 19S, range 6E, Mt. Daiblo base line and meridian,
Thence Southerly to the S.W. corner of township 20S, range 6E,
Thence Easterly to the S.W. corner of township 20S, range 13E,
Thence Southerly to the S.W. corner of township 21S, range 13E,
Thence Easterly to the S.W. corner of township 21S, range 17E,
Thence Southerly to the S.W. corner of township 22S, range 17E,
Thence Easterly to the S.E. corner of township 22S, range 17E,
Thence Southerly to the S.W. corner of township 23S, range 18E,
Thence Easterly to the S.E. corner of township 23S, range 18E,
Thence Southerly to the S.W. corner of township 24S, range 19E, falling on the Southerly line of Kings County, thence Easterly along the Southerly boundary of Kings
County and the Southerly boundary of Tulare County, to the S.E. corner of township 24S, range 29E,
Thence Northerly to the N.E. corner of township 21S, range 29E,
Thence Westerly to the N.W. corner of township 21S, range 29E,
Thence Northerly to the N.E. corner of township 13S, range 28E,
Thence Westerly to the N.W. corner of township 13S, range 28E,
Thence Northerly to the N.E. corner of township 11S, range 27E,
Thence Westerly to the N.W. corner of township 11S, range 27E,
Thence Northerly to the N.E. corner of township 10S, range 26E,
Thence Westerly to the N.W. corner of township 10S, range 26E,
Thence Northerly to the N.E. corner of township 9S, range 25E,
Thence Westerly to the N.W. corner of township 9S, range 25E,
Thence Northerly to the N.E. corner of township 8S, range 24E,
Thence Westerly to the N.W. corner of township 8S, range 24E,
Thence Northerly to the N.E. corner of township 6S, range 23E,
Thence Westerly to the S.E. corner of township 5S, range 19E,
Thence Northerly to the N.E. corner of township 5S, range 19E,
Thence Westerly to the N.W. corner of township 5S, range 19E,
Thence Northerly to the N.E. corner of township 3S, range 18E,
Thence Westerly to the N.W. corner of township 3S, range 18E,
Thence Northerly to the N.E. corner of township 2S, range 17E,
Thence Westerly to the N.W. corner of township 2S, range 17E,
Thence Northerly crosing the Mt. Diablo baseline to the N.E. corner of township 2N, range 16E,
Thence Westerly to the N.W. corner of township 2N, range 16E,
Thence Northerly to the N.E. corner of township 3N, range 15E,
Thence Westerly to the N.W. corner of township 3N, range 15E,
Thence Northerly to the N.E. corner of township 4N, range 14E,

CALIFORNIA

Thence Westerly to the N.E. corner of township 11N, range 10E,
Thence Northerly to the N.E. corner of township 15N, range 10E,
Thence Easterly to the S.E. cotner of township 16N, range 11E,
Thence Northerly to the N.E. corner of township 16N, range 11E,
Thence Easterly to the S.E. corner of township 17N, range 14E,
Thence Southerly to the S.W. corner of township 14N, range 15E,
Thence Easterly to the S.E. corner of township 14N, range 15E,
Thence Southerly to the S.W. corner of township 13N, range 16E,
Thence Easterly to the S.E. corner of township 13N, range 16E,
Thence Southerly to the S.W. corner of township 12N, range 17E,
Thence Easterly along the Southern line of township 12N to the Eastern boundary of the state of California,
Thence Northwesterly, thence Northerly along the Eastern boundary of the state of California to the N.E. corner of township 17N, range 18E,
Thence Westerly to the N.W. corner of township 17N, range 11E,
Thence Northerly to the N.E. corner of township 20N, range 10E,
Thence Westerly to the N.W. corner of township 20N, range 10E,
Thence Northerly to the N.E. corner of township 21N, range 9E,
Thence Westerly to the N.W. corner of township 21N, range 9E,
Thence Northerly to the N.E. corner of township 22N, range 8E,
Thence Westerly to the N.W. corner of township 22N, range 8E,
Thence Northerly to the S.W. corner of township 27N, range 8E,
Thence Easterly to the S.E. corner of township 27N, range 8E,
Thence Northerly to the N.E. corner of township 28N, range 8E,
Thence Westerly to the N.W. corner of township 28N, range 7E,
Thence Northerly to the N.E. corner of township 30N, range 6E,
Thence Westerly to the N.W. corner of township 30N, range 1E,
Thence Northerly along the Mt. Diablo meridian to the N.E. corner of township 34N, range 1W,
Thence Westerly to the N.W. corner of township 34N, range 6W,
Thence Southerly to the N.E. corner of township 32N, range 7W,
Thence Westerly to the N.W. corner of township 32N, range 7W,
Thence Southerly to the S.W. corner of township 30N, range 7W,
Thence Easterly to the S.E. corner of township 30N, range 7W,
Thence Southerly to the S.W. corner of township 16N, range 6W,
Thence Easterly to the S.E. corner of township 16N, range 6W,
Thence Southerly to the S.W. corner of township 14N, range 5W,
Thence Westerly to the S.E. corner of township 14N, range 7W,
Thence Northerly to the N.E. corner of township 14N, range 7W,
Thence Westerly to the N.W. corner of township 14N, range 7W,
Thence Northerly to the N.E. corner of township 15N, range 8W,

CALIFORNIA
AREA DEFINITIONS for
POWER EQUIPMENT OPERATORS (cont'd)

*Area 1 (cont'd)
Thence Westerly to the S.E. corner of township 16N, range 12W,
Thence Northerly to the N.E. corner of township 16N, range 12W,
Thence Westerly to the N.W. corner of township 16N, range 12W,
Thence Northerly to the N.E. corner of township 18N, range 13W,
Thence Westerly to the N.W. corner of township 18N, range 14W,
Thence Southerly to the S.W. corner of township 18N, range 14W,
Thence Easterly to the S.E. corner of township 18N, range 14W,
Thence Southerly to the S.W. corner of township 16N, range 13W,
Thence Westerly to the N.W. corner of township 15N, range 14W,
Thence Southerly to the S.W. corner of township 14N, range 14W,
Thence Easterly to the S.E. corner of township 14N, range 14W,
Thence Southerly to the S.W. corner of township 13N, range 13W,
Thence Easterly to the S.E. corner of township 13N, range 13W,
Thence Southerly to the S.W. corner of township 11N, range 12W,
Thence Easterly to the S.E. corner of township 11N, range 12W,
Thence Southerly along the Eastern line of range 12W to the Pacific Ocean excluding that portion of Northern California within Santa Clara County included within the following line:
Commencing at the N.W. corner of township 6S, range 3E, Mt. Diablo baseline and Meridian:
Thence in a Southerly direction to the S.W. corner of township 7S, range 3E,
Thence in a Easterly direction to the S.E. corner of township 7S, range 4E,
Thence in a Northerly direction to the N.E. corner of township 6S, range 4E,
Thence in a Westerly direction to the N.W. corner of township 6S, range 3E, to the point of beginning which portion is a part of Area 2.
Area 1 also includes that portion of Northern California within the following lines:
Commencing in the Pacific Ocean on an extension of the Southerly line of township 2N, Humboldt baseline and meridian:
Thence Easterly along the Southerly line of township 2N to the S.W. corner of township 2N, range 1W,
Thence Southerly to the S.W. corner of township 1N, range 1W,
Thence Easterly along the Humboldt baseline to the S.W. corner of township 1N, range 2E,
Thence Southerly to the S.W. corner of township 2S, range 2E,
Thence Easterly to the S.E corner of township 2S, range 2E,
Thence Southerly to the S.W. corner of township 4S, range 3E,
Thence Easterly to the S.E. corner of township 4S, range 3E,
Thence Northerly to the N.E. corner of township 2S, range 3E,
Thence Westerly to the N.W. corner of township 2S, range 3E,
Thence Northerly crossing the Humboldt baseline to the S.W. corner of township 1N, range 3E,
Thence Easterly along the Humboldt baseline to the S.E. corner of township 1N, range 3E,
Thence Northerly to the N.E. corner of township 9N, range 3E,
Thence Westerly to the N.W. corner of township 9N, range 2E,
Thence Northerly to the N.E. corner of township 10N, 1E,

CALIFORNIA
AREA DEFINITIONS for
POWER EQUIPMENT OPERATORS (cont'd)

*Area 1 (cont'd)
Thence Westerly along the Northerly line to township 10N, into the Pacific Ocena.
Area 1 also includes that portion of Northern California included within the following line:
Commencing at the Northerly boundary of the state of California at the N.W. corner of township 48N, range 7W, Mt. Diablo baseline and meridian:
Thence Southerly to the S.W. corner of township 44N, range 7W,
Thence Easterly to the S.E. corner of township 44N, range 7W,
Thence Southerly to the S.W. corner of township 43N, range 6W,
Thence Easterly to the S. E. corner of township 43N, range 5W,
Thence Northerly to the N.E. corner of township 48N, range 5W, on the Northerly boundary of the state of California,
Thence Westerly along the Northerly boundary of the state of California to the point of beginning.

SUPERSEDEAS DECISION

STATE: California

COUNTIES: Alameda, Alpine, Amador, Calaveras, Contra Costa, Del Norte, El Dorado, Fresno, Humboldt, Marin, Mariposa, Merced, Monterey, Napa, Nevada, Placer, Sacramento, San Benito, San Francisco, San Joaquin, San Mateo, Santa Clara, Santa Cruz, Shasta, Solano, Sonoma, Sutter, Tehama, Tuolumne, Yolo and Yuba

DECISION NUMBER: AR-1038

DATE: Date of Publication

Supersedes Decision No. AQ-1087 dated February 22, 1974, in 39 FR 7021.

DESCRIPTION OF WORK: Residential Construction consisting of single family homes and garden type apartments up to and including 4 stories.

Alpine, Amador, Calaveras, San Joaquin Counties	7.37	.33		1.00	
El Dorado, Nevada, Placer, Sacramento, Shasta, Sutter, Tehama, Yolo and Yuba Counties	7.25	.56	.35	.80	.015
Fresno County	7.72	.30			
Monterey and Santa Cruz County	8.37	.71	.645		
RIGGERS: WELDERS: Receive rate prescribed for craft performing operation to which rigging or welding is incidental.					

PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes 4% of basic hourly rate for over 5 years' service and 2% of basic hourly rate for 6 months to 5 years as Vacation Pay Credit. Six Paid Holidays: A through F.

b. 1st year employment employer contributes $.14 per hour to Vacation; 2nd year thru 5th year $.30 per hour; 6th year and thereafter $.46 per hour.

c. Employer contributes $.75 1st 5 years $.90 after 5 years to Vacation and Holiday Fund.

LABORERS

GROUP 1: Asphalt ironers and rakers; Barko, wacker and similar type tampers; Buggymobile; Chainsaw, faller, logloader and bucker; Compactors of all types; Concrete and magnesite mixer 1/2 yd. and under; Concrete pan work; Concrete saw; Concrete sander; Cribber and/or shoring; Cut granite curb setter; Form raisers; slip forms; Green cutters, Headerboardmen, hubsetters, aligners; Jackhammer Ops.; Jacking of pipe over 12 in.; Jackson and similar type compactors; Kettlemen, potmen and men applying asphalt, lay-Kold, creosote, lime, caustic and similar type materials; Lagging, sheeting, whaling, bracing, trench-jacking, hand-guided lagging hammer; Magnesite, epoxyresin, fiberglass, and mastic workers (wet or dry); Pavement breakers and spaders, incl. tool grinder; Pipelayers, caulkers, banders, pipewrappers, conduit layers, plastic pipelayers; Post hole diggers - air, gas and electric; Power broom sweepers; Power tampers of all types (except as shown in Group 2); Ram set gun and stud gun; Riprap-stonepaver and rock-slinger, incl. placing of sacked concrete and/or sand (wet or dry); Rotary scarifier, multiple head concrete chipper; Davis Trencher - 300 or similar type (and all small trenchers); Roto and ditch witch; Rototiller; Sandblasters, potman, gunman, nozzleman; Signalling and rigging; Tank cleaners; Tree climbers; Vibra-screed - bull float in connection with laborers' work; Vibrators; Dri-pak-it machine; High pressures blow pipe (1 1/2" or over, 100 lbs. pressure or over); Hydro seeder and similar type; Laser beam in connection with laborers' work

GROUP 1(a): Joy drill Model TWM-2A; Gardener-Denver Model DH143 and similar type drills; Track drillers; Jack Leg drillers; Diamond drillers; Wagon drillers; Mechanical drillers - all types regardless of type or method of power; Multiple unit drills; Blasters and powdermen; All work of loading, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing; High scalers (incl. drilling of same); Tree topper; Bit grinder

GROUP 1(b): Burning and Welding

GROUP 1(c): Laborers on general construction work on or in bell hole footings and shaft

GROUP 1(d): Contra Costa County Only: Pipelayers, Caulkers, Banders, Pipewrappers, Conduit Layers and Plastic pipelayers; Pressure pipe tester, no joint pipe & stripping of same, incl. repair of voids, Precast manhole setters, cast in place, manhole form setters

GROUP 2: Asphalt Shovelers; Cement dumpers and handling dry cement or gypsum; Choke-setter and rigger (clearing work); Concrete bucket dumper and chuteman; Concrete chipping and grinding; Concrete Laborers (wet or dry); Driller's helper; Chuck Tender; Nipper; Guinea Chaser (Stakeman); Grout Crew; High Pressure Nozzleman, adductors; Hydraulic Monitor (over 100 lbs. pressure); Loading and unloading, carrying and handling of all rods and materials for use in reinforcing concrete

LABORERS (Cont'd)

construction; Pittsburgh Chipper, and similar type brush shredders; Sloper; Singlefoot, hand held, pneumatic tamper; All pneumatic, air, gas, and electric tools; Jacking of pipe under 12 in.

GROUP 3: All cleanup work of debris, grounds and buildings incl. but not limited to street cleaners; Cleaning and washing windows; Construction laborers incl. bridge and general laborers; Dumpman, load spotter; Fire watcher; Street cleaners; Gardeners, horticultural and landscape laborers; Jetting; Limbers; Brush loaders; Pilers, maintenance landscape laborers on new construction; Maintenance, repair trackmen and road beds; Streetcar and railroad construction track laborers; Temporary air and water lines, Victaulic or similar; Tool room attendant; Fence erectors; Guardrail erectors; Pavement markers (button setters)

LABORERS (Gunite)

GROUP 1: Nozzleman (incl. Gunman, Potman); Rodmen; Groundman

GROUP 2: Reboundman

GROUP 3: General laborers

POWER EQUIPMENT OPERATORS (AREAS I & II)
(Except Piledriving and Steel Erection)

GROUP 1: Assistants to Engineers (Brakeman; Fireman; Heavy Duty Repairman Helper; Oiler; Deckhand; Signalman; Switchman; Tar Pot Fireman); Partsman (Heavy Duty Repair shop parts room)

GROUP 2: Compressor Op.; Concrete Mixer (up to and incl. 1 yd.); Conveyor Belt Operator (tunnel); Fireman Hot Plant; Hydraulic; Monitor; Mechanical Conveyor (handling building materials); Mixer Box Op. (concrete plant); Pump Operator; Spreader Boxman (with screeds); Tar Pot Fireman (power agitated)

GROUP 3: Box Operator (bunker); Helicopter Radioman (signalman); Motorman; Locomotive; Oiler; Rodman or Chainman; Ross Carrier (construction job site); Rotomist Operator; Screedman (except asphaltic concrete paving); Self-propelled, automatically applied concrete curing machine (on streets, highways, airports and canals); Trenching Machine (Maximum digging capacity 3 ft. depth); Tugger Hoist, single drum; Truck Crane Oiler

GROUP 4: Ballast Jack Tamper; Ballast Regulator; Ballast Tamper Multipurpose; Boxman (asphalt plant); Elevator Op. (inside); Fork Lift or Lumber Stacker (construction job site); Line Master; Lubrication and Service Engineer (mobile and grease rack); Material Hoist (1 drum); Shuttlecar; Tie Spacer; Towermobile

GROUP 5: Compressor Op. (2 to 7); Concrete Mixers (over 1 yd.); Concrete Pumps or Pumpcrete Guns; Generators (100 K.W. or over); Grouting Machine; Press-weld (air-operated); Pumps (2 to 7); Welding Machines (powered other than by electricity) (2 to 7)

GROUP 6: BLH Lima Road Pactor or similar; Boom Truck or Dual Purpose A-Frame Truck; Concrete Batch Plants (wet or dry); Concrete Saws (self-propelled unit) on streets, highways, airports and canals; Drilling and Boring Machinery, vertical and horizontal (not to apply to waterliners, wagon drills or jackhammers); Gradesetter, Grade Checker (mechanical or otherwise); Highline Cableway Signalman; Locomotives (steam or over 30 tons) Maginnis Internal Full Slab Vibrator (on airports, highways, canals and warehouses); Mechanical Finishers (concrete) (Clary, Johnson, Bidwell Bridge Deck or similar types); Mechanical Burm, Curb and/or Curb and Gutter Machine, concrete or asphalt; Portable Crusher; Post Driver (M-1500 and similar); Power Jumbo Operator (setting slip forms, etc. in tunnels); Roller; Screedman (Barber-Greene and similar) (asphaltic concrete paving); Self-propelled Compactor (single engine); Self-propelled Pipeline Wrapping Machine, Perault, CRC, or similar types); Slip Forms Pumps (lifting device for concrete forms); Small Rubber Tired Tractors; Surface Heater

POWER EQUIPMENT OPERATORS (AREAS I & II) (CONT'D)
(Except Piledriving and Steel Erection)

GROUP 7: Concrete Conveyor or Concrete Pump, Truck or Equipment mounted (boom length to apply); Concrete Conveyor, building site; Deck Engineers; Dual Drum Mixer; Fuller Kenyon Pump and similar types; Gantry Rider (or similar); Hydra-Hammer (or similar); Instrument Man; Material Hoist (2 or more drums); Mechanical Finishers or Spreader Machine (asphalt, Barber-Greene and similar; Mine or Shaft Hoist; Mixermobile; Pavement Breaker with or without Compressor Combination; Pavement Breaker, Truck mounted with Compressor Combination; Pipe Bending Machine (pipelines only); Pipe Cleaning Machine (tractor propelled and supported); Pipe Wrapping Machine (tractor propelled and supported); Refrigeration Plant; Roller Operator (finish asphalt); Self-propelled boom type lifting device (center mount) (10 tons or less M.R.C); Self-propelled Elevating Grade Plane; Slusher Op.; Small Tractor (with boom) Soil Tester; Truck type Loader

GROUP 8: Amor-Coater (or similar); Asphalt Plant Engineer; Cast-in-place Pipe Laying Machine; Combination Slusher and Motor Op.; Concrete Batch Plant (multiple units); Dozer; Heading Shield Op.; Heavy Duty Repairman and/or Welder; Ken Seal Machine (or similar); Kolman Loader; Loader (up to 2 yds.); Mechanical Trench Shield; Portable Crushing and Screening Plants; Push Cat; Rubber Tired Earth-moving Equipment (up to and incl. 45 cu. yds. "struck" m.r.c., Euclids, T-Pulls, DW-10, 20, 21, and similar; Rubber Tired Dozer; Self-propelled Compactor with Dozer; Sheepfoot; Timber Skidder (Rubber tired or similar equipment); Tractor drawn Scraper; Tractor Trenching Machine; Tri-Batch Paver; Tunnel Mole Boring Machine; Welder; Woods-mixer (and other similar Pugmill equipment)

GROUP 9: Canal Finger Drain Digger; Chicago Boom; Combination Mixer and Compressor (gunite); Combination Slurry Mixer and/or Cleaner; Highline Cableway (5 tons and under); Lull Hi-Lift or similar (20 ft. or over); Mucking Machine (rubber tire, rail or track type); Tractor (with boom) (D-6 or larger and similar)

GROUP 10: Boom-type Backfilling Machine; Bridge Crane; Cary-Lift (or similar); Chemical Grouting Machine; Chief of Party; Combination Backhoe and Loader (up to and incl. 1/2 cu. yd. m.r.c.); Derrick (2 ops. required when swing engine remote from hoist); Derrick Barges (except excavation work); Do-Mor Loader; Adams Elegrader; Elevating Grader; Heavy Duty Rotary Drill Rig (incl. Caisson foundation work and Robbins type drills); Koehring Skooper (or similar); Lift Slab Machine (Vagtborg and similar types); Loader (2 yds. up to and incl. 4 yds.); Locomotive (over 100 tons) (single or multiple units); Multiple Engine Earthmoving Machine (Euclids, Dozers, etc.) (no tandem scraper); Pre-Stress Wire Wrapping Machine; Reservoir-Debris Tug (self-propelled floating); Rubber-tired Scraper, Self-loading(Paddle wheels, etc.); Shuttle Car (reclaim station); Single Engine Scraper over 45 yds.; Soil Stabilizer (P & H or equal); Sub-grader (Gurries or other automatic type); Tractor, Compressor Drill Combination; Track laying type earth moving machine (single engine with tandem scrapers); Train loading station; Vacuum Cooling Plant; Whirley Crane (up to and incl. 25 tons)

POWER EQUIPMENT OPERATORS (AREAS I & II) (cont'd)
(Except Piledriving and Steel Erection)

GROUP 10-A: Backhoe (hydraulic) (up to and incl. 1 cu. yd. m.r.c.); Backhoe (cable) (up to and incl. 1 cu. yd. m.r.c.); Combination Backhoe and Loader over 1/2 cu. yd. m.r.c.); Continuous Flight Tie Back Auger (up to and incl. 1 cu. yd.) (crane attached); Cranes (not over 25 tons, hammerhead and gantry); Grade-alls (up to and incl. 1 cu. yd.); Power Shovels, Clamshells, Draglines, (up to and incl. 1 cu. yd. m.r.c.); Power Blade (single engine); Self-propelled Boom-type Lifting Device (center mount) (over 10 tons); Self-propelled Boom-type Lifting Device (center mount) (over 15 tons)

GROUP 11: Automatic Concrete Slip Form Paver; Automatic Railroad Car Dumper; Canal Finger Drain Backfiller; Canal Trimmer; Canal Trimmer w/ ditching attachments; Cranes (over 25 tons up to and incl. 125 tons); Continuous Flight Tie Back Auger over 1 cu. yd. (incl. crane); Drott Travelift 650-A-1 or similar (45 tons or over); Highline Cableway (Over 5 tons); Loader (over 4 yds., up to and incl. 12 cu. yds.); Power Blade (multi-engine); Power Shovels, Clamshells, Draglines, Backhoes, Grade-alls (over 1 yd. and up to and incl. 7 cu. yds. m.r.c.); Rubber-tired earth moving machines (multiple propulsion power units and two or more scrapers) (up to and incl. 75 cu. yds. "struck" m.r.c.); Self-propelled Compactor (with multiple propulsion power units); Single engine Rubber-tired Earthmoving Machines (with tandem scrapers); Slip Form Paver (concrete or asphalt); Tandem Cats; Tower Cranes Mobile; Trencher (pulling attached shield); Universal Liebher and Tower Cranes (and similar types); Wheel Excavator (up to and incl. 750 cu. yd. per hour); Whirley Crane (over 25 tons

GROUP 11-A: Band Wagons (in conjunction with Wheel Excavator); Cranes (over 125 tons); Loader (over 12 cu. yds.; up to and incl. 18 cu. yds.); Power Shovels and Draglines (over 7 cu. yds., m.r.c.); Rubber Tired Multi-Purpose Earth Moving Machines (2 units over 75 cu. yds. "struck" m.r.c.); Wheel excavator (over 750 cu. yds. per hour)

GROUP 11-B: Loader (over 18 cu. yds.)

GROUP 11-C: Operator of Helicopter (when used in erection work); Remote controlled earthmoving equipment

CALIFORNIA
AREA DEFINITIONS for
POWER EQUIPMENT OPERATORS

**AREA 2: All areas not included within Area 1 as defined below.

*AREA 1: All areas included in the description defined below which is based upon township and range lines of Areas 1 and 2.

Commencing in the Pacific Ocean on the extension of the Southerly line of Township 19S.
Thence Easterly along the Southerly line of Township 19S, crossing the Mt. Diablo meridian to the S.W. corner of township 19S, range 6E, Mt. Daiblo base line and meridian,
Thence Southerly to the S.W. corner of township 20S, range 6E,
Thence Easterly to the S.W. corner of township 20S, range 13E,
Thence Southerly to the S.W. corner of township 21S, range 13E,
Thence Easterly to the S.W. corner of township 21S, range 17E,
Thence Southerly to the S.W. corner of township 22S, range 17E,
Thence Easterly to the S.E. corner of township 22S, range 17E,
Thence Southerly to the S.W. corner of township 23S, range 18E,
Thence Easterly to the S.E. corner of township 23S, range 18E,
Thence Southerly to the S.W. corner of township 24S, range 19E, falling on the Southerly line of Kings County, thence Easterly along the Southerly boundary of Kings
County and the Southerly boundary of Tulare County, to the S.E. corner of township 24S, range 29E,
Thence Northerly to the N.E. corner of township 21S, range 29E,
Thence Westerly to the N.W. corner of township 21S, range 29E,
Thence Northerly to the N.E. corner of township 13S, range 28E,
Thence Westerly to the N.W. corner of township 13S, range 28E,
Thence Northerly to the N.E. corner of township 11S, range 27E,
Thence Westerly to the N.W. corner of township 11S, range 27E,
Thence Northerly to the N.E. corner of township 10S, range 26E,
Thence Westerly to the N.W. corner of township 10S, range 26E,
Thence Northerly to the N.E. corner of township 9S, range 25E,
Thence Westerly to the N.W. corner of township 9S, range 25E,
Thence Northerly to the N.E. corner of township 8S, range 24E,
Thence Westerly to the N.W. corner of township 8S, range 24E,
Thence Northerly to the N.E. corner of township 6S, range 23E,
Thence Westerly to the S.E. corner of township 5S, range 19E,
Thence Northerly to the N.E. corner of township 5S, range 19E,
Thence Westerly to the N.W. corner of township 5S, range 19E,
Thence Northerly to the N.E. corner of township 3S, range 18E,
Thence Westerly to the N.W. corner of township 3S, range 18E,
Thence Northerly to the N.E. corner of township 2S, range 17E,

AREA A

Adams, , Arapahoe, Boulder, Denver, Lake, Larimer and Summit Counties. Douglas and Jefferson Counties lying north of the south line of Township 7 south; Elbert County lying west of the east line of Range 65 West and North of the south line of Township 7 South. Weld County lying south and west of the following described line: Beginning at the northwest corner of Township 4 North, Range 68 West of the 6th p.m.; thence east along the north line of said Township six (6) miles, more or less, to the east line of said Township; thence south along the east line of said Township three (3) miles, more or less, to the southeast corner of Section 13, Township 4 North, Range 68 West; thence east along the eastwest center line of Township 4 North, Range 67 West, six (6) miles, more or less, to the east line of said Township; thence south along the east line of Range 67 West, being the east lines of Township 4 North, 3 North, 2 North, and 1 North, Range 67 West, sixteen (16) miles to the southeast corner of Section 1, Township 1 North, Range 67 West; thence east and parallel to the Base Line twelve (12) miles, more or less, to the southeast corner of Section 1, Township 1 North, Range 65 West; thence south along the east line of Range 65 West, five (5) miles, more or less, to the Base Line being the south line of Weld County.

Zone 1: That area encompassed by 0 to 30 driving miles from the main Post Office in each of the following cities: Boulder, Denver, Dillon, Englewood, Fort Collins, Golden, Greeley and Leadville

Zone 2: That area encompassed by 30 to 70 driving miles from the main Post Office of above named cities

Zone 3: That area encompassed by 70 driving miles and over from the main Post Office of above named cities

AREA B

Douglas, Elbert, Jefferson, and Weld Counties lying outside of the area as described in Area A, and all of Clear Creek, Eagle, Gilpin, Grand, Morgan, and Park Counties.

ZONE 1: That area encompassed by 0 to 30 driving miles from the main Post Office in each of the following Cities: Eagle, Fort Morgan, Golden, Grandby, Greeley and Vail.

ZONE 2: That area encompassed by 30 to 70 driving miles from the main Post Office of above named Cities.

ZONE 3: That area encompassed by 70 driving miles and over from that main Post Office in above named Cities.

GROUP DESCRIPTION FOR AREAS A and B

Group 1: General Building Laborer

Group 2: Laborers underpinning and shoring...
Class A: 0' to 8' below working surface
Class B: 8' below working surface to any depth below working surface.

Group 3: Power Tool Operators of all mechanical, air, gas, and electrical tools including self-propelled buggies; Cement Finisher Tenders; Gunnite Nozzleman; Sand Blasters

Group 4: Pipe Layers

Group 5: Laborers preparing and placing of stone or any other aggregate in sand bed to be used as exposed face of tiltup panels

Group 6: Jackhammer Operator underpinning and shoring over 12' below working sruface; Bellers and Stemmers on Caisson Work

Group 7: Mason Tenders, brick and plaster

Group 6	6.08	.42	.45		.07

LABORERS (Heavy Construction)

GROUP 1: Minimum laborer, including caissons to 8', carrying reinforcing rods; Work on cross culverts, connections and side drains in connection with highway work, whether corrugated metal or concrete pipe; Fence erectors; Metal Mesh; Dowel bars; Tie bars and chairs in concrete paving; Nursery man incl. seeding; mulching and planting of trees, shrubs and flowers; Stake chaser; Gabion baskets and Teno mattresses

GROUP 2: Chuck tenders; Nippers, core and diamond drill helpers; Powderman helpers

GROUP 3: Hot asphalt laborer; Rakers; Box-tenders; Asphalt curb machines; Potmen (not mechanical)

GROUP 4: Multi-plate culvert pipe; Air, gas and electric tools operators; Barco hammers; Spaders; Electric hammers; Air tampers; Cutting torches on demolition work; Caissons 8' to 12'; Cofferdams; Power operated concrete buggies; Operators of concrete saws on pavement (other than gang saws); Timber and chain saws; Stresser or stretcherman on post tension or prestressed concrete on or off jobsite; Tool room man and checkers; Cement finisher helper; Sandblaster helper; Concrete processing material monitor; Spotters; Signalmen; Dumpmen; Transverse concrete conveyor operator, mechanical grouters; Boring machines (air hydraulic); Automatic concrete power curbing machine; Jackhammer; Vibrators; Paving breakers; Frostproofing

GROUP 5: Any laborers performing bridge work over 40' above the ground or above a floor and working from a bos'n chair, swinging stage, life belt or block and tackle

GROUP 6: Gunniting and shotcrete helpers; Caissons over 12'; Cofferdams; Timbermen; Underpinning and shoring; Form setters and/or stringman on roads, highways, streets and airport runways; Distributor; Placing and hooking of landing mats; Bull float (hand operated) and center expansion machines; Sandblasters; Grade checkers if required by employer

GROUP 7: Powdermen and blasters; Gunnite nozzlemen; Shotcrete operator

GROUP 8: Pipelayer on truck pipe lines in connection with highway work

GROUP 9: Wagon drills and air tracks; Jackhammer operators in caissons over 12'; Bellers and stemmen; Licensed powdermen; Diamond and core drills powered by air

GROUP 10: Any work, other than on bridges, performed by laborers working from a bos'n chair, swinging stage, life belt or block and tackle as a safety requirement

LABORERS (Pipelines)

All mainline sewers; Water mains; Gas, oil or any product pipelines; Penstocks; Siphons or drainage lines; Pipe plants and yards not in connection with highway construction.

GROUP 1: Pipe plants and yards; Stringing of pipe or skids; Handling and signaling on line work.

GROUP 2: Potman (not mechanical); Pipewrapper, Dopers, Jeep Holiday Detector Men, Bandage makers, Powdermen helpers

GROUP 3: Laborers working in trenches on all pipelines; Sewer, water, gas, oil, telephone conduit, pen stock, siphons, drainage lines, caulkers, yarners, fine graders, air, gas, electric and hydraulic tools, boring machines, hydraulic jacks, drills, tampers, etc.

GROUP 4: Sandblaster, powdermen and blasters, wiping of joint concrete pipe, inside and out; Labor, applicable to pipe coating or wrapping, plants and yards; Enamelers of pipe, inside and out

GROUP 5: (Relining Pipe)
Relining Pipe

GROUP 5-A: Mixer man

GROUP 6: Pipelayer

LABORERS (TUNNELS):

Group 1: Outside laborers

Group 2: Minimum tunnel labor, dry house man

Group 3: Cable or hose tenders, chuck tenders, concrete laborers, dumpman, whirley pumps operators

Group 4: Helpers on shotcrete, gunniting and sandblasting; Helpers, core and diamond drills; Pot tender

Group 5: Cement finisher helper, applying of concrete processing materials

Group 6: Callapsible form movers and setters, miners, machinemen and bit grinders, nippers, powdermen and blasters, reinforcing steel setters, timbermen (steel or wood tunnel support, incl. the placement of sheeting when required) and all cutting and welding that is incidental to the miner's work; Tunnel liner plate setters; Vibrator men, internal and external; Unloading, stopping and starting of Moran Agitator Cars; Diamond and core drills; Cement finisher (underground); Shotcrete operator; Gunnite nozzlemen; Sandblaster; Pump concrete placement men

(SHAFTS, RAISES, MISSILE SILOS AND ALL UNDERGROUND WORK OTHER THAN TUNNELS)

Group 1: Laborers, Topmen, Bottommen, and Cagers

Group 2: Chucktenders, Concrete laborers, Whirley pumps operators

Group 3: Helpers on shotcrete, gunniting and sandblasting; Helpers on core and diamond drills; Pot tenders; Cement finisher helpers; Applying of concrete processing material

Group 4: Collapsible form movers and setters, miners, machinemen and bit grinders, nippers, powdermen and blasters, reinforcing steel setters, timbermen (steel or wood tunnel support, incl. the placement of sheeting when required); All cutting and welding that is incidental to the miner's work; Liner plate setters; Vibrator men, internal and external

Group 5: Diamond and core drill; Cement finisher (underground); Gunnite nozzlemen; Shotcrete operators; Sandblasters and pump concrete placement men

Group 6: Any employee performing work under ground from a bos'n chair, swinging stage, life belt or block and tackle

POWER EQUIPMENT OPERATORS
(Other than for work in Tunnels, Shafts and Raises)**

Mole	7.45	.37	.55	.30	.03

POWER EQUIPMENT OPERATORS **
(Other than for work in Tunnels, Shafts and Raises)

Group 1: Asphalt screed; Brakeman; Drill operator, smaller than William MF and similar; Helper to heavy duty mechanic and/or Welder; Tractor operator (under 70 HP), with or without attachments; Oiler

Group 2: Air compressor; Ditch witch trenching machine and similar; Equipment lubricating and service engineer; Fork lift; Haulage motorman; Operators of five or more light plants, welding machines, compressors 360 C.F.M. or less, pumps, generators; Pugmill operator; Pugmill; Pumps; Portable screening plant with or without a spray bar; Screening plants - with classifier; Self-propelled rollers - 5 tons & under; Vacuum well point system

Group 3: Asphalt plant; Backfiller; Bituminous spreader or laydown machine; Cableway signalman; Caissons drill; (William MF, similar and larger; C.M.I. and similar; Concrete finish machine; Concrete gang saws on concrete paving; Concrete mixer (less than 1 yd.); Concrete placement pumps (under 8 in.); Conveyor (handling building materials); Distributors, bituminous surfaces; Drill, (diamond or core); Drills rigs (rotary, churn or cable tool); Elevating graders; Engineer fireman; Fireman or tank heater, Road; Grout machine; Gunnite machine; Hoists (1 drum); Loader (Barber Greene, etc.); Loader (up to and including 6 cu. yds.); Machine doctor mechanic; Motor grader (blade); Road stabilization machine; Roller-self-propelled-all types over 5 tons; Sandblasting machine; Single unit portable crusher-with or without washer; Tile tamper, Wheel mounted; Tractor (70 h.p. & over) (with or without attachments); Trenching machine; Welder; Winch op., on truck; Concrete batching plants

Group 4: Concrete mixer (over 1 cu. yd.); Concrete paver 34 E or similar; Concrete placement pumps (8 in. and over); Crane (50 tons and under); Hoists (2 drums); Loader - over 6 cu. yds.; Mechanic-Welder (heavy duty); Mixer-mobile; Multiple unit portable crusher - with or without washer; Pile driver; Fireman; Cable-operated crane, truck mounted, 25 tons and over; Cable operated power shovels, dragline; Clamshell, and backhoes (5 cu. yds. and under); Hydraulic backhoes, 1 1/2 cu. yds. and over); Special utility operator; Self-propelled hydrocrane; Tractor with side boom; Truck mounted hydrocrane; Scraper-single bowl under 40 cu. yds.

Group 5: Crane operator - over 50 tons; Derrick; Electric rail type tower crane; Hoist (3 drum or more); Cable-operated power shovels, draglines, clamshells and backhoes (over 5 cu. yds.); Quad nine and similar push unit; Scraper-all tandem bowls; Scraper-single bowl including pups 40 cu. yd. and over

Group 6: Cableway; Crawler or truck mounted tower crane; Wheel excavator; Climbing tower crane

SUPERSEDEAS DECISION

STATE: Colorado COUNTIES: Garfield, Gunnison, Mesa, Montrose, and Pitkin

DECISION NUMBER: AR-1033 DATE: Date of Publication

Supersedes Decision No. AR-1023 dated August 23, 1074, in 39 FR 30678

DESCRIPTION OF WORK: Building Construction (excluding single family homes and garden type apartments up to and including 4 stories) and heavy construction.

BUILDING CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments

LABORERS (Heavy Construction)

GROUP 1: Minimum laborer, including caissons to 8', carrying reinforcing rods; Work on cross culverts, connections and side drains in connection with highway work, whether corrugated metal or concrete pipe; Fence erectors; Metal Mesh; Dowel bars; Tie bars and chairs in concrete paving; Nursery man incl. seeding; mulching and planting of trees, shrubs and flowers; Stake chaser; Gabion baskets and Teno mattresses

GROUP 2: Chuck tenders; Nippers, core and diamond drill helpers; Powderman helpers

GROUP 3: Hot asphalt laborer; Rakers; Box-tenders; Asphalt curb machines; Potmen (not mechanical)

GROUP 4: Multi-plate culvert pipe; Air, gas and electric tools operators; Barco hammers; Spaders; Electric hammers; Air tampers; Cutting torches on demolition work; Caissons 8' to 12'; Cofferdams; Power operated concrete buggies; Operators of concrete saws on pavement (other than gang saws); Timber and chain saws; Stresser or stretcherman on post tension or pre-stressed concrete on or off jobsite; Tool room man and checkers; Cement finisher helper; Sandblaster helper; Concrete processing material monitor; Spotters; Signalmen; Dumpmen; Transverse concrete conveyor operator, mechanical grouters; Boring machines (air hydraulic); Automatic concrete power curbing machine; Jackhammer; Vibrators; Paving breakers; Frostproofing

GROUP 5: Any laborers performing bridge work over 40' above the ground or above a floor and working from a bos'n chair, swinging stage, life belt or block and tackle

GROUP 6: Gunniting and shotcrete helpers; Caissons over 12'; Cofferdams; Timbermen; Underpinning and shoring; Form setters and/or stringman on roads, highways, streets and airport runways; Distributor; Placing and hooking of landing mats; Bull float (hand operated) and center expansion machines; Sandblasters; Grade checkers if required by employer

GROUP 7: Powdermen and blasters; Gunnite nozzlemen; Shotcrete operator

GROUP 8: Pipelayer on truck pipe lines in connection with highway work

GROUP 9: Wagon drills and air tracks; Jackhammer operators in caissons over 12'; Bellers and stemmen; Licensed powdermen; Diamond and core drills powered by air

GROUP 10: Any work, other than on bridges, performed by laborers working from a bos'n chair, swinging stage, life belt or block and tackle as a safety requirement

LABORERS (Pipelines)

All mainline sewers; Water mains; Gas, oil or any product pipelines; Penstocks; Siphons or drainage lines; Pipe plants and yards not in connection with highway construction.

GROUP 1: Pipe plants and yards; Stringing of pipe or skids; Handling and signaling on line work

GROUP 2: Potman (not mechanical); Pipewrapper, Dopers, Jeep Holiday Detector Men, Bandage makers, Powdermen helpers

GROUP 3: Laborers working in trenches on all pipelines; Sewer, water, gas, oil, telephone conduit, pen stock, siphons, drainage lines, caulkers, yarners, fine graders, air, gas, electric and hydraulic tools, boring machines, hydraulic jacks, drills, tampers, etc.

GROUP 4: Sandblaster, powdermen and blasters, wiping of joint concrete pipe, inside and out; Labor, applicable to pipe coating or wrapping, plants and yards; Enamelers of pipe, inside and out

GROUP 5: (Relining Pipe)
Relining Pipe

GROUP 5-A: Mixer man

GROUP 6: Pipelayer

LABORERS (TUNNELS):

Group 1: Outside laborers

Group 2: Minimum tunnel labor, dry house man

Group 3: Cable or hose tenders, chuck tenders, concrete laborers, dumpman, whirley pumps operators

Group 4: Helpers on shotcrete, gunniting and sandblasting; Helpers, core and diamond drills; Pot tender

Group 5: Cement finisher helper, applying of concrete processing materials

Group 6: Callapsible form movers and setters, miners, machinemen and bit grinders, nippers, powdermen and blasters, reinforcing steel setters, timbermen (steel or wood tunnel support, incl. the placement of sheeting when required) and all cutting and welding that is incidental to the miner's work; Tunnel liner plate setters; Vibrator men, internal and external; Unloading, stopping and starting of Moran Agitator Cars; Diamond and core drills; Cement finisher (underground); Shotcrete operator; Gunnite nozzlemen; Sandblaster; Pump concrete placement men

(SHAFTS, RAISES, MISSILE SILOS AND ALL UNDERGROUND WORK OTHER THAN TUNNELS)

Group 1: Laborers, Topmen, Bottommen, and Cagers

Group 2: Chucktenders, Concrete laborers, Whirley pumps operators

Group 3: Helpers on shotcrete, gunniting and sandblasting; Helpers on core and diamond drills; Pot tenders; Cement finisher helpers; Applying of concrete processing material

Group 4: Collapsible form movers and setters, miners, machinemen and bit grinders, nippers, powdermen and blasters, reinforcing steel setters, timbermen (steel or wood tunnel support, incl. the placement of sheeting when required); All cutting and welding that is incidental to the miner's work; Liner plate setters; Vibrator men, internal and external

Group 5: Diamond and core drill; Cement finisher (underground); Gunnite nozzlemen; Shotcrete operators; Sandblasters and pump concrete placement men

Group 6: Any employee performing work under ground from a bos'n chair, swinging stage, life belt or block and tackle

(Other than for work in Tunnels, Shafts and Raises)

Group 1: Asphalt screed; Brakeman; Drill operator, smaller than William MF and similar; Helper to heavy duty mechanic and/or Welder; Tractor operator (under 70 HP), with or without attachments; Oiler

Group 2: Air compressor; Ditch witch trenching machine and similar; Equipment lubricating and service engineer; Fork lift; Haulage motorman; Operators of five or more light plants, welding machines, compressors 360 C.F.M. or less, pumps, generators; Pugmill operator; Pugmill; Pumps; Portable screening plant with or without a spray bar; Screening plants - with classifier; Self-propelled rollers - 5 tons & under; Vacuum well point system

Group 3: Asphalt plant; Backfiller; Bituminous spreader or laydown machine; Cableway signalman; Caissons drill; (William MF, similar and larger; C.M.I. and similar; Concrete finish machine; Concrete gang saws on concrete paving; Concrete mixer (less than 1 yd.); Concrete placement pumps (under 8 in.); Conveyor (handling building materials); Distributors, bituminous surfaces; Drill, (diamond or core); Drills rigs (rotary, churn or cable tool); Elevating graders; Engineer fireman; Fireman or tank heater, Road; Grout machine; Gunnite machine; Hoists (1 drum); Loader (Barber Greene, etc.); Loader (up to and including 6 cu. yds.); Machine doctor mechanic; Motor grader (blade); Road stabilization machine; Roller-self-propelled-all types over 5 tons; Sandblasting machine; Single unit portable crusher-with or without washer; Tile tamper, Wheel mounted; Tractor (70 h.p. & over) (with or without attachments); Trenching machine; Welder; Winch op., on truck; Concrete batching plants

Group 4: Concrete mixer (over 1 cu. yd.); Concrete paver 34 E or similar; Concrete placement pumps (8 in. and over); Crane (50 tons and under); Hoists (2 drums); Loader - over 6 cu. yds.; Mechanic-Welder (heavy duty); Mixer-mobile; Multiple unit portable crusher - with or without washer; Pile driver; Fireman; Cable-operated crane, truck mounted, 25 tons and over; Cable operated power shovels, dragline; Clamshell, and backhoes (5 cu. yds. and under); Hydraulic backhoes, 1 1/2 cu. yds. and over); Special utility operator; Self-propelled hydrocrane; Tractor with side boom; Truck mounted hydrocrane; Scraper-single bowl under 40 cu. yds.

Group 5: Crane operator - over 50 tons; Derrick; Electric rail type tower crane; Hoist (3 drum or more); Cable-operated power shovels, draglines, clamshells and backhoes (over 5 cu. yds.); Quad nine and similar push unit; Scraper-all tandem bowls; Scraper-single bowl including pups 40 cu. yd. and over

Group 6: Cableway; Crawler or truck mounted tower crane; Wheel excavator; Climbing tower crane

SUPERSEDEAS DECISION

STATE: Colorado
COUNTIES: Las Animas and Pueblo
DECISION NUMBER: AR-1034
DATE: Date of Publication
Supersedes Decision No. AR-1014 dated August 9, 1974, in 39 FR 28792
DESCRIPTION OF WORK: Building Constuction (excluding single family homes and garden type apartments up to and including 4 stories) and heavy construction.

LABORERS (Building Construction)

GROUP DESCRIPTION

Group 1: General Building Laborer

Group 2: Laborers underpinning and shoring...
Class A: 0' to 8' below working surface
Class B: 8' below working surface to any depth below working surface.

Group 3: Power Tool Operators of all mechanical, air gas, and electrical tools including self-propelled buggies; Cement Finisher Tenders; Gunnite Nozzleman; Sand Blasters

Group 4: Pipe Layers

Group 5: Laborers preparing and placing of stone or any other aggregate in sand bed to be used as exposed face of tiltup panels

Group 6: Jackhammer Operator underpinning and shoring over 12' below working sruface; Bellers and Stemmers on Caisson Work

Group 7: Mason Tenders, brick and plaster

Group 5	6.03	.42	.45		.07
Group 6	6.08	.42	.45		.07

LABORERS (Heavy Construction)

GROUP 1: Minimum laborer, including caissons to 8', carrying reinforcing rods; Work on cross culverts, connections and side drains in connection with highway work, whether corrugated metal or concrete pipe; Fence erectors; Metal Mesh; Dowel bars; Tie bars and chairs in concrete paving; Nursery man incl. seeding; mulching and planting of trees, shrubs and flowers; Stake chaser; Gabion baskets and Teno mattresses

GROUP 2: Chuck tenders; Nippers, core and diamond drill helpers; Powderman helpers

GROUP 3: Hot asphalt laborer; Rakers; Box-tenders; Asphalt curb machines; Potmen (not mechanical)

GROUP 4: Multi-plate culvert pipe; Air, gas and electric tools operators; Barco hammers; Spaders; Electric hammers; Air tampers; Cutting torches on demolition work; Caissons 8' to 12'; Cofferdams; Power operated concrete buggies; Operators of concrete saws on pavement (other than gang saws); Timber and chain saws; Stresser or stretcherman on post tension or pre-stressed concrete on or off jobsite; Tool room man and checkers; Cement finisher helper; Sandblaster helper; Concrete processing material monitor; Spotters; Signalmen; Dumpmen; Transverse concrete conveyor operator, mechanical grouters; Boring machines (air hydraulic); Automatic concrete power curbing machine; Jackhammer; Vibrators; Paving breakers; Frostproofing

GROUP 5: Any laborers performing bridge work over 40' above the ground or above a floor and working from a bos'n chair, swinging stage, life belt or block and tackle

GROUP 6: Gunniting and shotcrete helpers; Caissons over 12'; Cofferdams; Timbermen; Underpinning and shoring; Form setters and/or stringman on roads, highways, streets and airport runways; Distributor; Placing and hooking of landing mats; Bull float (hand operated) and center expansion machines; Sandblasters; Grade checkers if required by employer

GROUP 7: Powdermen and blasters; Gunnite nozzlemen; Shotcrete operator

GROUP 8: Pipelayer on truck pipe lines in connection with highway work

GROUP 9: Wagon drills and air tracks; Jackhammer operators in caissons over 12'; Bellers and stemmen; Licensed powdermen; Diamond and core drills powered by air

GROUP 10: Any work, other than on bridges, performed by laborers working from a bos'n chair, swinging stage, life belt or block and tackle as a safety requirement

LABORERS (Pipelines)

All mainline sewers; Water mains; Gas, oil or any product pipelines; Penstocks; Siphons or drainage lines; Pipe plants and yards not in connection with highway construction.

GROUP 1: Pipe plants and yards; Stringing of pipe or skids; Handling and signaling on line work

GROUP 2: Potman (not mechanical); Pipewrapper, Dopers, Jeep Holiday Detector Men, Bandage makers, Powdermen helpers

GROUP 3: Laborers working in trenches on all pipelines; Sewer, water, gas, oil, telephone conduit, pen stock, siphons, drainage lines, caulkers, yarners, fine graders, air, gas, electric and hydraulic tools, boring machines, hydraulic jacks, drills, tampers, etc.

GROUP 4: Sandblaster, powdermen and blasters, wiping of joint concrete pipe, inside and out; Labor, applicable to pipe coating or wrapping, plants and yards; Enamelers of pipe, inside and out

GROUP 5: (Relining Pipe)
Relining Pipe

GROUP 5-A: Mixer man

GROUP 6: Pipelayer

LABORERS (TUNNELS):

Group 1: Outside laborers

Group 2: Minimum tunnel labor, dry house man

Group 3: Cable or hose tenders, chuck tenders, concrete laborers, dumpman, whirley pumps operators

Group 4: Helpers on shotcrete, gunniting and sandblasting; Helpers, core and diamond drills; Pot tender

Group 5: Cement finisher helper, applying of concrete processing materials

Group 6: Callapsible form movers and setters, miners, machinemen and bit grinders, nippers, powdermen and blasters, reinforcing steel setters, timbermen (steel or wood tunnel support, incl. the placement of sheeting when required) and all cutting and welding that is incidental to the miner's work; Tunnel liner plate setters; Vibrator men, internal and external; Unloading, stopping and starting of Moran Agitator Cars; Diamond and core drills; Cement finisher (underground); Shotcrete operator; Gunnite nozzlemen; Sandblaster; Pump concrete placement men

(SHAFTS, RAISES, MISSILE SILOS AND ALL UNDERGROUND WORK OTHER THAN TUNNELS)

Group 1: Laborers, Topmen, Bottommen, and Cagers

Group 2: Chucktenders, Concrete laborers, Whirley pumps operators

Group 3: Helpers on shotcrete, gunniting and sandblasting; Helpers on core and diamond drills; Pot tenders; Cement finisher helpers; Applying of concrete processing material

Group 4: Collapsible form movers and setters, miners, machinemen and bit grinders, nippers, powdermen and blasters, reinforcing steel setters, timbermen (steel or wood tunnel support, incl. the placement of sheeting when required); All cutting and welding that is incidental to the miner's work; Liner plate setters; Vibrator men, internal and external

Group 5: Diamond and core drill; Cement finisher (underground); Gunnite nozzlemen; Shotcrete operators; Sandblasters and pump concrete placement men

Group 6: Any employee performing work under ground from a bos'n chair, swinging stage, life belt or block and tackle

POWER EQUIPMENT OPERATORS
(Other than for work in Tunnels, Shafts and Raises)**

Group 6	6.08	.42	.45		.07

LABORERS (Heavy Construction)

GROUP 1: Minimum laborer, including caissons to 8', carrying reinforcing rods; Work on cross culverts, connections and side drains in connection with highway work, whether corrugated metal or concrete pipe; Fence erectors; Metal Mesh; Dowel bars; Tie bars and chairs in concrete paving; Nursery man incl. seeding; mulching and planting of trees, shrubs and flowers; Stake chaser; Gabion baskets and Teno mattresses

GROUP 2: Chuck tenders; Nippers, core and diamond drill helpers; Powderman helpers

GROUP 3: Hot asphalt laborer; Rakers; Box-tenders; Asphalt curb machines; Potmen (not mechanical)

GROUP 4: Multi-plate culvert pipe; Air, gas and electric tools operators; Barco hammers; Spaders; Electric hammers; Air tampers; Cutting torches on demolition work; Caissons 8' to 12'; Cofferdams; Power operated concrete buggies; Operators of concrete saws on pavement (other than gang saws); Timber and chain saws; Stresser or stretcherman on post tension or pre-stressed concrete on or off jobsite; Tool room man and checkers; Cement finisher helper; Sandblaster helper; Concrete processing material monitor; Spotters; Signalmen; Dumpmen; Transverse concrete conveyor operator, mechanical grouters; Boring machines (air hydraulic); Automatic concrete power curbing machine; Jackhammer; Vibrators; Paving breakers; Frostproofing

GROUP 5: Any laborers performing bridge work over 40' above the ground or above a floor and working from a bos'n chair, swinging stage, life belt or block and tackle

GROUP 6: Gunniting and shotcrete helpers; Caissons over 12'; Cofferdams; Timbermen; Underpinning and shoring; Form setters and/or stringman on roads, highways, streets and airport runways; Distributor; Placing and hooking of landing mats; Bull float (hand operated) and center expansion machines; Sandblasters; Grade checkers if required by employer

GROUP 7: Powdermen and blasters; Gunnite nozzlemen; Shotcrete operator

GROUP 8: Pipelayer on truck pipe lines in connection with highway work

GROUP 9: Wagon drills and air tracks; Jackhammer operators in caissons over 12'; Bellers and stemmen; Licensed powdermen; Diamond and core drills powered by air

GROUP 10: Any work, other than on bridges, performed by laborers working from a bos'n chair, swinging stage, life belt or block and tackle as a safety requirement

LABORERS (Pipelines)

All mainline sewers; Water mains; Gas, oil or any product pipelines; Penstocks; Siphons or drainage lines; Pipe plants and yards not in connection with highway construction.

GROUP 1: Pipe plants and yards; Stringing of pipe or skids; Handling and signaling on line work

GROUP 2: Potman (not mechanical); Pipewrapper, Dopers, Jeep Holiday Detector Men, Bandage makers, Powdermen helpers

GROUP 3: Laborers working in trenches on all pipelines; Sewer, water, gas, oil, telephone conduit, pen stock, siphons, drainage lines, caulkers, yarners, fine graders, air, gas, electric and hydraulic tools, boring machines, hydraulic jacks, drills, tampers, etc.

GROUP 4: Sandblaster, powdermen and blasters, wiping of joint concrete pipe, inside and out; Labor, applicable to pipe coating or wrapping, plants and yards; Enamelers of pipe, inside and out

GROUP 5: (Relining Pipe)
Relining Pipe

GROUP 5-A: Mixer man

GROUP 6: Pipelayer

LABORERS (TUNNELS):

Group 1: Outside laborers

Group 2: Minimum tunnel labor, dry house man

Group 3: Cable or hose tenders, chuck tenders, concrete laborers, dumpman, whirley pumps operators

Group 4: Helpers on shotcrete, gunniting and sandblasting; Helpers, core and diamond drills; Pot tender

Group 5: Cement finisher helper, applying of concrete processing materials

Group 6: Callapsible form movers and setters, miners, machinemen and bit grinders, nippers, powdermen and blasters, reinforcing steel setters, timbermen (steel or wood tunnel support, incl. the placement of sheeting when required) and all cutting and welding that is incidental to the miner's work; Tunnel liner plate setters; Vibrator men, internal and external; Unloading, stopping and starting of Moran Agitator Cars; Diamond and core drills; Cement finisher (underground); Shotcrete operator; Gunnite nozzlemen; Sandblaster; Pump concrete placement men

(SHAFTS, RAISES, MISSILE SILOS AND ALL UNDERGROUND WORK OTHER THAN TUNNELS)

Group 1: Laborers, Topmen, Bottommen, and Cagers

Group 2: Chucktenders, Concrete laborers, Whirley pumps operators

Group 3: Helpers on shotcrete, gunniting and sandblasting; Helpers on core and diamond drills; Pot tenders; Cement finisher helpers; Applying of concrete processing material

Group 4: Collapsible form movers and setters, miners, machinemen and bit grinders, nippers, powdermen and blasters, reinforcing steel setters, timbermen (steel or wood tunnel support, incl. the placement of sheeting when required); All cutting and welding that is incidental to the miner's work; Liner plate setters; Vibrator men, internal and external

Group 5: Diamond and core drill; Cement finisher (underground); Gunnite nozzlemen; Shotcrete operators; Sandblasters and pump concrete placement men

Group 6: Any employee performing work under ground from a bos'n chair, swinging stage, life belt or block and tackle

POWER EQUIPMENT OPERATORS
(Other than for work in Tunnels, Shafts and Raises)**

LABORERS (AREA 1)

Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone and that portion of Idaho County North of the 46th Parallel

Group 1: Brush Hog Feeder; Carpenter Tender; Concrete Crewman (to include stripping of forms, hand operating jacks on slip form construction, application of concrete curing compounds, pumpcrete machine, handling the nozzle of squeezecrete or similar machine - 6" and smaller); Concrete Signalman; Crusher Feeder; Demolition (to include clean-up, burning, loading, wrecking and salvage of all material); Driller Helper; Dumpman; Fence Erector (to include guard rails, guide and reference posts, sign posts, and right of way markers); General Laborer; Grout Machine Header Tender; Nipper; Riprap Man; Scaleman; Stake Jumper; Structural Mover (to include separating foundation preparation, cribbing, shoring, jacking and unloading of structure); Tailhoseman (water nozzle); Track Laborer (RR); Truck Loader; Timber, Bucker and Faller (by hand); Window Cleaner (prior to completion of construction)

Group 2: Cement Finisher Tender; Cement Handler; Demolition Torch; Dope Pot Fireman, non-mechanical; Form Cleaning Machine - Feeder, Stacker; Form Setter, paving; Driller Helper (when required to move and position machine); Nozzleman, water and air or steam; Pipe Layer, corrugated metal culvert; Pipewrapper; Pot Tender; Powderman Helper; Power Tool Operator, gas, electric, pneumatic; Sandblast Tailhoseman; Scaffold Erector, wood or steel; Railroad Equipment, power driven, except dual mobile power spiker or puller; Rodder and Spreader; Wheelbarrow, power driven; Well-point Man; Vibrator up to 4"

Group 3: Asphalt Raker; Asphalt Roller, walking; Chain Saw Operator with attachments; Concrete Saw Walking; Grade Checker, using level; Jackhammer Operator; Multi-section Pipe Layer; Nozzleman (to include squeeze and flocrete nozzle); Pavement Breaker; Power Buggy Operator; Railroad Power Spiker or Puller, dual mobile; Tamper (to include operation of Barco, Essex and similar tamper and pavement breakers); Trencher, Shawnee; Water Pipe Liner; Wagon Drills

Group 4: Chain Saw (faller); Laser Beam Operator; Pipe Layer (Caulker, Collarman, Jointer, Mortarman, Rigger, Jacker, Shorer and Lagger but not including laying corrugated metal culvert pipe)

Group 5: Concrete Stack; Mortar Mixer

Group 6: Caisson Worker, free air; High Scaler

LABORERS (AREA 1) (Cont'd)

Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone and that portion of Idaho County North of the 46th Parallel

Group 7: Brush Machine (to include Horizontal Construction Joint Clean-up Brush Machine, power propelled); Drills (to include Down-the-hole Drills with 3½ inch piston or larger and Out-of-the-hole Drills with 4½ inch piston or larger); Gunnite (to include operation of machine and nozzle); Hod Carrier; Monitor Operator, Air Track or similar mounting; Nozzleman (to include Jet Blasting Nozzleman over 1,200 pounds, Jet Blast Machine, power propelled, Sand Blast Nozzle); Vibrator, 4 inches and over

Group 8: Air Track Drills with Dual Masts and Drills; Powderman

TUNNEL AND SHAFT, FREE AIR

Group 9:

Class A: Bull Gang, Pump Crete Crewman including distributing pipe, assembling and dismantle and Nipper

Class B: Brakeman, Dumpman

Class C: Miner and Nozzleman for concrete and Laser Beam Operator on tunnels

Class D: Raise and Shaft Miner and Laser Beam Operator on raises and shafts

LABORERS (AREA 2)

Remaining Counties and that portion of Idaho County South of the 46th Parallel

Group 1: General Laborers, Sloper, Clearing and Grading; Form Stripper; Concrete Crew; Concrete Curing Crew; Carpenter Tender; Asphalt Laborer; Hopper Tender; Flagman, (including Pilot Car), Watchman, Heater Tender; Stake Jumper, Choker Setter; Spreader and Weighman; Power Wheelbarrow; Scouring Concrete; Rip Rap Man (hand placed); Fence Erector and Installer - manual or mechanical (includes the installation and erection of fences, guard rails, median rails, reference posts, guide posts and right-of-way markers); Crusher Helper; Cribbing and Shoring (in open ditches); Machinery and Parts Cleaner; Leverman - manual or mechanical; Demolition - salvage; Landscaper; Tool Room Man; Janitor

LABORERS (AREA 2) (Cont'd)

Remaining Counties and that portion of Idaho County South of the 46th Parallel

Group 2: Chuck Tender; Driller Helper; Air Tampers; Gunite Nozzleman Tender; Pipewrapper Tar Pot Tender; Concrete Sawyer; Signalman, handling cement; Dumpman; Steam Nozzleman; Air and Water Nozzleman (Green Cutter, concrete); Vibrator (less than 4"); Pumpcrete and Grout Pump Crew; Hydraulic Monitor

Group 3: Pipelayer, including sewer, drainage, sprinkler systems and water lines; Free Air Caisson; Jackhammer; Paving Breaker; Powderman Helper; Asphalt Raker, Gasoline Powered Tamper; Electric Ballast Tamper; Sand Blasting Form Setter - Airport Paving; Gunman (Gunite); Manhole Setter; Hand Guided Machines, such as Roto Tillers, Trenchers, Post Hole Diggers, Walking Garden Tractors, etc.; Form Setter (Highway Curb and Gutter); Vibrator (4" and over); Timber Faller and Bucker; Metal Pan Installer

Group 4: Hod Carrier; Mason Tender; Plaster Tender; Mason Tender (concrete); Terrazzo-Tile Tender

Group 5: Highscaler; Wagon Drill; Grade Checker; Gunite Nozzleman; Diamond Drillers on Drills.

Group 6: Drill with Manufacturers' rating 3" or over

Group 7: Powderman

UNDERGROUND WORK

Group 8: Reboundman; Chucktender; Nipper; Dumpman; Vibrator (less than 4"); Brakeman; Muckers; Bullgang

Group 9: Form Setter and Mover

Group 10: Miners; Machinemen; Timbermen; Steelmen; Drill Doctors; Spaders and Tuggers; Spiling and/or Caisson Workers, Vibrator (on 4")

POWER EQUIPMENT OPERATORS (AREA 1)

Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone and that portion of Idaho County North of the 46th Parallel

Group 1: Bit Grinders; Bolt Threading Machine; Compressors, under 2,000 cu. ft. per minute gas, diesel or electric power; Crusher Feeder (mechanical); Deckhand; Drillers' Helper; Fireman and Heater Tender; Grade Checker; Helper (mechanic or welder, H.D.); Oiler; Oiler and Cable Tender, Mucking Machine; Pumpman; Rollers, all type on subgrade (farm type, Case, John Deere and similar - or compacting or vibrator) except when pulled by dozer with operable blade; Steam Cleaner; Welding Machine

POWER EQUIPMENT OPERATORS (Area 1) (Cont'd)

Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone and that portion of Idaho County North of the 46th Parallel

Group 2: A-Frame Truck (single-drum); Assistant Refrigeration Plant (under 1,000 tons); Assistant Plant Operator, Fireman or Pugmixer (asphalt); Bagley or Stationary Scraper; Batch Plant and Wet Mix Operator, single unit (concrete); Belt Finishing Machine; Bending Machine (pipeline); Blower Operator (cement); Cement Hog; Compressor (2,000 cu. ft. or over, 2 or more - gas, diesel, or electric power); Concrete Saw (multiple cut); Distributor Leverman; Elevator Hoisting Materials; Dope Pots (power agitated); Fork Lift or Lumber Stacker, Hydra-lift and similar; Gin Trucks (pipeline); Hoist, single drum; Loader (Bucket Elevators and Conveyors); Longitudinal Float; Mixer (portable-concrete); Pavement Breaker (Hydra-hammer and similar); Post Hole Auger or Punch; Power Broom; Railroad Ballast Regulation Operator, (self-propelled); Railroad Power Tamper Operator, (self-propelled); Railroad Power Tamper Jack Operator, (self-propelled); Spray Curing Machine (concrete); Spreader Box (self-propelled); Straddle Buggy (Ross and similar on construction job site); Tractor (farm type R/T with attachments except Backhoe); Tugger Operator; Ditch Witch or similar

Group 3: A-Frame Truck (2 or more drums); Assistant Refrigeration Plant and Chiller Operator (over 1,000 tons); Backfillers (Cleveland and similar); Belt-crete Conveyors with Power pack or similar; Belt Loader (Kocal or similar); Blade Operator (motor patrol and attachments); Boat Operators; Boom Cats (side); Boring Machine (earth); Boring Machine (rock under 8" bit)(Quarry Master, Joy or similar); Bump Cutter (Wayne, Saginaw or similar); Canal Linning Machine (concrete); Chipper (without crane); Cleaning and Doping Machine (pipeline); Concrete Pumps (squeeze-crete, flow-crete, pumpcrete, Whitman and similar); Drills (Churn, Core, Calyx, or Diamond); Elevating Belt-type Loader (Euclid, Barber Greene, or similar); Elevating Grader-type Loader (Dumor, Adams, or similar); Equipment Serviceman, Greaser and Oiler; Generator Plant Engineers (diesel, electric); Gunite Combination Mixer and Compressor; Hoist, (2 or more drums or tower hoist); Loaders (overhead and front-end under 4 yards, R/T); Locomotive Engineer; Mixer-mobile; Mucking Machines; Paver or Curb Extruder (asphalt and concrete); Pump (Grout or Jet); Rollerman (finishing pavement); Rubber-tired Scraper (one motor with one scraper, under 40 yards); Screed Operator; Soil Stabilizer (P & H or similar); Spreader Machine; Tractor (Crawler, including Dozer, Scraper, Drills, Booms, Rollers, etc.); Traverse Finishing Machine; Trenching Machines (under 7 feet depth capacity); Turnhead Operator; Vacuum Drill (reverse circulation drill, under 8")

POWER EQUIPMENT OPERATORS (AREA 1) (Cont'd)

Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone and that portion of Idaho County North of the 46th Parallel

Group 4: Asphalt Plant Operator; Crusher, Grizzle and Screening Plant Operator; H. D. Mechanic; H. D. Welder; Refrigeration Plant Engineer (under 1,000 ton); Rubber-tired Scraper, Multi-engine power, with one scraper (Euclid, TS-24 and similar); Rubber-tired Scrapers, one motor with one scraper (40 yards and over); Surface Heater and Planer Machine; Turnhead (with re-screening)

Group 5: Automatic Subgrader (ditches and trimmers) (Autograde, ABC, R.A. Hansen and similar on grade wire); Backhoes (under 3 yards); Batch and Wet Mix Operator - multiple units (2 and including 4); Chipper (with crane); Clamshell Operator (under 3 yards); Concrete Slip Form Paver; Cranes all (under 65 tons); Derricks and Stifflegs (under 65 tons); Draglines (under 3 yards); Drilling Equipment (8" bit and over)(Robbin's Reverse Circulation and similar); Loader Operator (Front end and Overhead 4 yards to 8 yards); Piledriving Engineers; Paver (dual drum); Quad-track or similar equipment; Railroad Track Liner Operator (self-propelled); Rubber-tired Scrapers, multi-engine, power with one scraper (Euclid, TS-24 and similar); Push Pull or Help Mate in use; Rubber-tired Scrapers, multiple engines with two scrapers; Shovels (under 3 yard yards); Refrigeration Plant Engineer (1,000 tons and over); Signalmen (Whirleys, Highline Hammerheads or similar); Trenching Machines (7 feet depth and over); Multiple Dozer units with single blade

Group 6: Backhoes (3 yards and over); Batch Plant (over 4 units); Cableway Controller - Dispatcher; Cableway Operator; Clamshell Operator (3 yards and over); Cranes, all - 65 tons and over; Derricks and Stifflegs (65 tons and over); Draglines (3 yards and over); Elevating Belt (Holland type); Loader (360 degrees revolving Koehring Scooper or similar); Loaders (overhead and front-end over 8 to 12 yards); Rubber-tired Scrapers (multiple engine with three or more scrapers); Shovels (3 yards and over); Tower Crane; Whirleys and Hammerheads (all)

Group 7: Helicopter Pilot; Loaders (overhead and front-end - over 12 yards)

POWER EQUIPMENT OPERATORS (AREA 2)

Remaining Counties and that portion of Idaho County, South of the 46th Parallel

Group 1: Brakemen; Crusher; Plant Feeder (mechanical); Deckhand; Drill Helpers; Grade Checkers; Heater Tender; Land Plane; Oilers; Pumpman; Rear Chainman

POWER EQUIPMENT OPERATORS (AREA 2) (Cont'd)

Remaining Counties and that portion of Idaho County, South of the 46th Parallel

Group 2: Air Compressor, Assistant Refrigeration Plant Operator, Bell Boy, Bit Grinder Operator, Blower Operator (cement), Bolt Threader Machine Operator, Broom, Cement Hog, Concrete Mixer, Concrete Saw - Multiple Cut, Discing - Harrowing or Mulching (regardless of motive power), Distributor Leverman, Drill Steel Threader Machine Operator, Fireman - All, Heavy Duty Mechanic Helper or Welder Helper, Head Chainman, Hoist - single drum, Hydraulic Monitor Operator - skid mounted, Oiler (single piece of equipment), Pugmixer - Box or Screed Operator, Spray Curing Machine, Tractor - Rubber Tired Farm type using attachments

Group 3: A-Frame Truck (Hydra Lift, Swedish Cranes, Ross Carrier, Hyster on construction jobs), Battery Tunnel Locomotive, Belt Finishing Machine, Cable Tenders (Underground), Chip Spreader Machine (self-propelled), Hoist - 2 or more drums or Tower Hoist, Hydralift - Fork Lift and similar (when hoisting), Oilers (Underground), Power Loader (Bucket Elevator, Conveyors), Rodman, Road Roller (regardless of motive power).

Group 4: Boring Machine (Earth or Rock) Quarrymaster - Joy - Tractor mounted, Drills: Churn - Core - Calyx or Diamond, Front End and Overhead Loaders and similar Machines - (up to and including 4 yards) - (Rubber-tired), Grout Pump, Hydra-hammer, Instrument Man, Locomotive Engineer, Longitudinal Float Machine, Mixermobile, Spreader Machine, Tractor - Rubber-tired - using Backhoe, Transverse Finishing Machine, Trenching Machines, Waggoner Compactor and similar, Asphalt Spreaders

Group 5: Concrete Plant Operator, Concrete Road Paver (Dual), Elevating Grader Operator, Euclid Elevating Loader, Generator Plant Operator-Mechanic (diesel electric), Post Hole Auger or Punch Operator, Power Shovels and Draglines - under 1 yard, Pumpcrete, Refrigeration Plant Operator, Road Roller (Finishing High Type Pavement), Skidder - Rubber-tired, Sub Grader, Multiple Station Beltline Operator (Teton Dam Project only); Service Oiler

Group 6: Asphalt Pavers - self-propelled, Asphalt Plant Operator, Blade Operator (Motor Patrol), Concrete Slip Form Paver, Cranes - up to and including 50 ton, Crusher Plant Operator, Derrick Operator, Drilling Equipment (Bit under 8 inches) (Robbins Reverse Circulation and similar), Front End and Overhead Loaders and similar Machines-(over 4 yards to and including 7 yards), Koehring Scooper, Heavy Duty Mechanic or Welder, Mucking Machine (Underground), Multi-batch Concrete Plant Operator, Piledriver Engineer, Power Shovels and Draglines (1 yard to and including 3½ yards), Tower Crane Operator, Tractor - Crawler Type - including all attachments, Refrigeration Plant Operator (over 1,000 tons), Trimmer Machine Operator, Tournapulls - Euclid and similar - to and including 40 yards

POWER EQUIPMENT OPERATORS (AREA 2) (Cont'd)

Remaining Counties and that portion of Idaho County South of the 46th Parallel

Group 7: Cableway Operator, Continuous Excavator (Barber Greene WL-50), Cranes - over 50 ton, Dredges, Drilling Equipment (Bit 8 inches and over) (Robbins Reverse Circulation and similar), Fine Grader - CMI or Equivalent, Front End and Overhead Loaders and similar Machines - (over 7 yards), Power Shovels and Draglines over 3-½ yards, Quad type Tractors with all attachments, Tournapulls - Euclid and similar - over 40 yards to and including 50 yards, Multiple Scraper Units.

Group 8: Tournapulls - Euclid and similar - over 50 yards to and including 75 yards

Group 9: Tournapulls - Euclids and similar - over 75 yards to and including 100 yards

Group 10: Tournapulls - Euclids and similar - over 100 yards

TRUCK DRIVERS (AREA 1)

Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone and that portion of Idaho County North of the 46th Parallel

Group 1: Flat Bed Truck, single rear axle; Escort Driver; Fish Truck; Fork Lift, 3,000 pounds and under; Fuel Truck Driver (Steam Cleaner and Washer); (Helper and Swamper; Leverperson loading (trucks at bunkers; Pickup hauling material; Seeder and Mulcher; Stationary Fuel Operator; Team Driver; Tractor (small rubber tired pulling trailer or similar equipment); Water Tank Truck 1,800 gallons.

TRUCK DRIVERS (AREA 1) (Cont'd)

Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone and that portion of Idaho County North of the 46th Parallel

Group 2: Bus Driver or Employeehaul Driver; Flat bed truck, dual rear axle; Power Boat hauling employees or material; Tireperson No. 1; Warehouseperson

Group 3: Buggy Mobile and similar; Bulk Cement Tanker; Oil Tank Driver; Power Operated Sweeper; Semi-trailer, low bed, truck and trailer; Straddle Carrier (Ross Hyster and similar); Transit Mixers and trucks hauling concrete (3 yards and under); Trucks, side, end, and bottom dump (under 6 yards); Water tank truck (1,801 - 4,000 gallons)

Group 4: Auto Crane - 2,000 pounds capacity; Bulk Cement Spreader; Dumptor (6 yards and under); Flaherty Spreader, Box Driver; Flat bed truck (using power take off); Fork Lift (over 3,000 pounds); Oil Distributor Driver (road, bootperson, leverperson helper); Rubbertired tunnel jumbo; Scissor truck; Slurry Truck Driver; Transit mixers and trucks hauling concrete (over 3 yards to 6 yards); Water tank truck (4,001 - 6,000 gallons); Wrecker and tow trucks

Group 5: Low Boy (under 50 tons); Service Greaser; Tireperson Nc. 2 Truck, side, end, and bottom dump (over 6 yards to 12 yards)

Group 6: A-Frame (Swedish Crane, Iowa 3,000, Hydrolift); Water tank truck (over 6,001 - 8,000 gallons)

Group 7: Dumptor (over 6 yards); Transit mixers and trucks hauling concrete (6 yards to 10 yards); Trucks, side, end, and bottom dump (over 12 yards including 20 yards)

Group 8: Low Boy (over 50 tons), Water tank truck (8,001 - 10,000 gallons)

Group 9: Transit mixers and trucks hauling concrete, (10 yards to 15 yards); Trucks, side, end and bottom dump (over 20 yards including 30 yards); Water tank truck (10,001 - 12,000 gallons)

Group 10: Mechanic, field

Group 11: Tournarocker, D.W.'s and similar, with 2 or 4 wheel power tractor with trailer, gallonage or yardage scale, which is greater; Transit Mixers and Trucks hauling concrete (15 yards to 20 yards); Trucks, side, end and bottom dump (over 30 yards to 40 yards); Water tank truck (12,001 - 14,000 gallons)

Group 12: Transit mixers and trucks hauling concrete (over 20 yards); Trucks, side, end and bottom dump (over 40 yards to 50 yards)

Group 13: Truck, side, end and bottom dumps, (over 50 yards to 100 yards)

TRUCK DRIVERS (AREA 1) (Cont'd)

Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone and that portion of Idaho County North of the 46th Parallel

Group 14: Helicopter Pilot hauling employees or material; Trucks, side, end and bottom dump (over 100 yards)

TRUCK DRIVERS (AREA 2)

Remaining Counties and that portion of Idaho County South of the 46th Parallel

Group 1: Leverman loading at bunkers; Pilot Car or Escort Driver

Group 2; Flat bed - 2 axle and pickup hauling material; Water tank truck (1,800 gallons and under); Fork lift (3,000 and under)

Group 3: Flat bed - 3 axle, fuel truck (1,000 gallons and under); Greaser; Tireman; Serviceman; Buggymobile; Man haul (Shuttle truck or bus)

Group 4: Transit mix truck - 3 yds. and under; Warehouseman; Truck helpers; Slurry or concrete pumping truck

Group 5: Flat bed using power takeoff; Water tank truck (over 1,800 - 4,000 gallons); Semi-trailer - Low boy - up to 96,000 lbs. GVW, Bulk cement tanker - up to 96,000 lbs. GVW; Fork lift - over 3,000 lbs. (Bull lift, Hydro lift); Ross, Hyster and similar straddle equipment; "A" Frame truck (Swedish Crane, Iowa 3,000, Hydro-lift)

Group 6: Transit mix truck, over 3 yds. - 6 yds.

Group 7: Water tank truck - over 4,000 gallons; Fuel truck - over 1,000 gallons; Distributor or spreader truck

Group 8: Transit mix truck - over 6 yds. - 8 yds.; Dumptors; Field Tireman; Serviceman

Group 9: Transit mix truck - over 8 yds. - 10 yds.; Snow Plow (Truck Mounted)

Group 10: Low boy - 96,000 lbs. GVW and over; Bulk cement tanker - 96,000 lbs. GVW and over

Group 11: Transit mix truck - over 10 yds.

Group 12: Turnarocker and similar equipment

TRUCK DRIVERS (AREA 2) (Cont'd)

Remaining Counties and that portion of Idaho County South of the 46th Parallel

Group 13:
Truck - side, end and bottom dump
Class A: 6 yds. and under
Class B: Over 6 yds. - including 12 yds.
Class C: Over 12 yds. - including 20 yds.
Class D: Over 20 yds. - including 30 yds.
Class E: Over 30 yds. - including 40 yds.
Class F: Over 40 yds. - including 50 yds.
Class G: Over 50 yds. - including 75 yds.
Class H: Over 75 yds. - including 100 yds.
Class I: Over 100 yds.

Group 14: Truck mechanic

SUPERSEDEAS DECISION

AR-4041 P. 2

STATE: Mississippi
DECISION NUMBER: AR-4041

COUNTIES: Harrison, Hancock, Jackson & Pearl River
DATE: Date of Publication

Supersedes Decision No. AR-4032 in 39 FR 33161 dated September 13, 1974
DESCRIPTION OF WORK: Building construction (excluding single family homes and garden type apartments up to and including 4 stories), heavy, sewer, water & highway construction.

BUILDING & HEAVY CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	App. Tr.
Asbestos Workers (Pearl River County)	$7.25	.40	.90

PAID HOLIDAYS

A-New Year's Day B-Memorial Day C-Independence Day
D-Labor Day E-Thanksgiving Day F-Christmas Day

FOOTNOTES:

a. Holidays: A through F

b. Employer contrivutes 4% of regular hourly rate to Vacation Pay Credit for employee who has worked in business more than 5 years. Employer contributes 2% of regular hourly rate to Vacation Pay Credit for employee who has worked in business less than 5 years.

c. Holidays: Labor Day, Mardi Gras Day, provided the employee works at least one day out of the 3 workdays prior to the paid holiday, and the first workday after the paid holiday.

BUILDING AND HEAVY CONSTRUCTION

POWER EQUIPMENT OPERATORS:

	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	App. Tr.
GROUP 1	$7.75	.25	.25		
GROUP 2	6.80	.25	.25		
GROUP 3	6.55	.25	.25		
GROUP 4	6.00	.25	.25		
GROUP 5	5.45	.25	.25		
GROUP 6	5.45	.25	.25		

GROUP 1:
Engineer - operating under air pressure

GROUP 2:
Mechanic

GROUP 3:
Air tugger (2 drum), asphalt plant, backhoe , blacksmith, boom tractor, bulldozer, central mixing plant, cherry picker, clamshell, crane, derrick, derrick boat, derrick car, dragline, dredge, elevating grader, excavator (power belt), fork lift, hoist (2 drum), locomotive engineer, marine engineer (chief), master pilot, mixermobile, motor patrol & similar type equipment, paver (21 C.F. or larger), piledriver, recharger, roaming greaser (1st), scoop (skimmer), scraper, shovel, trenching machine (over 18" bucket line width), tournapull, DW-10 & similar pulltype scrapers, traxcavator and similar endloaders, welder, welding machines or S/W pumps (2 to 6), well driller, well point pumps

GROUP 4:
Air tugger, asphalt spreader (bituminous distributor) aspahlt spreader (bituminous mixer), backfilling machine, conveyor, drill (earth), finishing machine, fireman, heating plant, hoist, marine engineer (assistant), mixer, payloader, and similar endloaders, pilot, power generating plant, pump (concrete), roller, scoopmobile, tractor (with power take-off), trenching machine (18" or smaller bucket line width), tugboat, well driller (1st helper), winch truck

GROUP 5:
Air compressor, form grader, locomotive hostler, mechanic helper, oiler (truck crane), pump, roughneck, tractor (without attachments), welding machine

GROUP 6:
Batch scale, deckhand, motorboat (in or outboard), oiler, scowman

BUILDING AND HEAVY CONSTRUCTION

TRUCK DRIVERS:

	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	App. Tr.
GROUP 1	$5.04	.28	.25		
GROUP 2	5.51	.28	.25		
GROUP 3	6.55	.28	.25		
GROUP 4	7.12	.28	.25		
GROUP 5	5.04	.28	.25		
GROUP 6	4.41	.28	.25		

GROUP 1:
Up to and including 1½ tons such as station wagons, jeeps, autos, pick-up trucks, motorcycles, bicycles, truck spotters, teamsters, team drivers

GROUP 2:
1½ tons up to but not including 5 tons such as dump trucks, flat beds, stake bodies, bus drivers, winch and "A" frame trucks

GROUP 3:
5 tons or 6 yards and over including heavy equipment such as pole trucks, miss or corning wagons, dumpsters, semi-drivers, agitators, ross carriers, dempsey dumps, euclid trucks, forklift truck in warehouses and similar equipment such as tractors, 10 wheelers, jeeps, or dump trucks or pick-up trucks pulling 2 or 4 wheel trailers hauling equipment

GROUP 4:
Truck and auto mechanics

GROUP 5:
Truck drivers' helpers, unloaders, unloading and handling creosote or coppertox material

GROUP 6:
Truck drivers' helpers

SEWER, WATER, & HIGHWAY CONSTRUCTION

	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	App. Tr.
Air Tool Operator	$2.00				
Asphalt Raker	2.50				
Bricklayer	4.25				
Carpenter	3.50				
Cement Mason (Finisher)	3.25				
Concrete Saw Operator	3.50				
Electrician	5.40				
Form Setter	2.80				
Grade Checker	2.25				
Ironworker, Reinforcing	3.50				
Ironworker Helper, Reinforcing	2.25				
Ironworker, Structural	3.15				
Laborer, Unskilled	2.00				
Mason Tender (Cement Mason Helper)	2.50				
Painter (Structural Steel)	3.75				
Piledriverman	3.00				
Truck Driver	2.00				
Tugboat Operator	2.50				
Welder	3.50				
Power Equipment Operators:

FOOTNOTE: a. Holidays: A through F, Veterans Day, Washington's Birthday and Columbus Day.

CLASSIFICATIONS:

CLASS 1--Shovel, crane, dragline, derrick, backhoe, elevator with Chicago boom, gradall, elevating grader, front end loader 6 yds. and over, cherry picker, pile driving rigs, concrete road pavers, all three drum hoisting and trenching machines.

CLASS 2--Rotary drill with mounted compressor, compressor house (3-6 compressors), rock and earth boring machines excluding McCarthy and similar drills, graders, 4 yds. and over front end loader, two drum hoists, high fork lifts with capacity of 15' & over, scrapers, sonic hammer, vibratory hammer.

CLASS 3--Bulldozers, push cats, scrapers (tractor drawn), asphalt paver, front end loader 3/4 yds. to 4 yds., well driller, mechanics, pumpcrete machines, concrete pumps and similar type pumps, engineer or firemen on high pressure boiler (on job), self loading batch plant, well point operators including installing, engineer-in-charge of powered grease truck, all automatic elevators permanent or temporary operated manually or by remote controls.

CLASS 4--Single drum hoist, self-powered roller, self-propelled compactors, power pavement breakers, concrete pavement finishing machines, two bag mixers with skip, front end loaders under 3/4 yds. McCarthy and similar drills, batch plant not self loading, bulk cement plants, self-propelled material spreaders, A-frame trucks, fork lifts up to 15'.

CLASS 5--Compressor 315 cubic feet and over, (one or two), pumps (4 inches and over-total discharge) when total discharge is over 12 inches, classification 3 will be paid, tractor (without blade or bucket) drawing roller compactors or other machines.

CLASS 6--Compressors(up to 315 cubic feet) small mixers, pumps (up to 4 inches), power heaters, welding machines (when 3 or more heaters or welding machines are used on one job, classification 4 rate will be paid), conveyor, oiler, including helpers on grease trucks and grease trucks with hand greasing equipment.

CLASS 7--Oilers on truck cranes and gradalls.

CLASS 8--Cranes with boom lengths of 200 feet or more.

CLASS 9--Crane with boom length of 150 feet or more.

FOOTNOTE:

a. Holidays A through F, providing the employee works the day before and after the holiday.

HEAVY & HIGHWAY CONSTRUCTION - POWER EQUIPMENT OPERATORS:

GROUP I: Automated concrete spreader (CMI), automatic fine grader, backhoe (except tractor mounted, rubber tired), belt placer (CMI type), blacktop plant (automated), cherry picker (over 5 tons capacity), concrete pump (8" or over), crane, cranes & derricks (steel erection), dragline, dredge, dual drum paver, excavator (all purpose-hydraulically operated), fork lift (factory rated 15 ft. and over), front end loader 4 c.y. and over), head tower (sauerman or equal), hoist (2 or 3 drum), mine hoist, mucking machine or male, overhead crane (gantry or straddle type), piledriver, power grader, quarry master (or equivalent), scraper, shovel, sideboom, slip form paver (if second man is nuded, he shall be on oiler), tractor drawn belt type loader, truck crane, tunnel shovel

GROUP II: Backhoe (tractor mounted, rubber tired), bituminous spreader and mixer, blacktop plant (non-automated), blast or rotary drill truck or tractor mounted), boring machine, cage-hoist, central mix plant (non-automated) and all concrete batching plants), cherry picker (5 tons capacity and under), compressors (4 or less) exceeding 2000 C.F.M. combined capacity, concrete paver (over 165), concrete pump (under 8"), crusher, diesel power unit, drill rigs (tractor mounted), front end loader (under 4 c.y.), hi-pressure - boiler (15 lbs. and over), hoist (one drum), Kolman plant loader and similar type loaders (if another man is required to clean screen or to mountain the equipment, he shall be on oiler), locomotive, maintenance/engineer/greaseman/welder, mixer (for stabilized base self-propelled), monorail machine, plant engineer, pump crete, ready mix concrete plant, refrigeration equipment (for soil stabilization), road widener, roller (all above subgrade), tractor with dozer and/or pusher, trencher, tugger-hoist, winch, winch cot

GROUP III: A-frame truck, compressors (4 not to exceed 2000 C.F.M. combined capacity or 3 or less with more than 1200 C.F.M. but not to exceed 200 C.F.M.), compressors (any size but subject to other provisions for compressors), dust collectors, generators, pumps, welding machines (4 of any type or combination), concrete pavement spreaders and finishers, conveyor, drill-core, drill-well, electric pumps used in conjunction with well point system, farm tractor with accessories, fine grade machine, fork lift (under 15 ft.), gunite machine, homers (hydraulic-self propelled), post hole digger and post driver, power sweeper, roller (grade and fill), submersible electric pump (when used in lieu of well point system), tractor with towed accessories, vibratory compactor, vibro tamp, well point

GROUP IV: Aggregate plant, boiler (used in conjunction with production), cement and bin operator, compressors (3 or less not to exceed 1200 c.f.m. combined capacity), compressor (any size, bust subject to other provisions for compressors), dust collectors, generators pumps, welding machines (3 or less of any combination), concrete paver or mixer (165 and under), concrete saw (self propelled), fireman, form tamper, hydraulic pump (jacking system), lighting plants, mulching machine, oiler, parapet concrete or pavement grinder, power broom (towed), power heaterman, revinius widener, shell winder, steam cleaner, tractor

HEAVY & HIGHWAY CONSTRUCTION POWER EQUIPMENT OPERATORS	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	App. Tr.
GROUP I	$8.70	.45	.45+a	b	.10
GROUP II	8.40	.45	.45+a	b	.10
GROUP III	7.85	.45	.45+a	b	.10
GROUP IV	7.15	.45	.45+a	b.	.10

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Indpendence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes $.30 per hour to an Supplemental Unemployment Benefit Fund.

b. Paid Holidays A through F; providing the works the day day before and after the holiday.

N.Y. 3-PEO-1-I 1 of 1

BUILDING CONSTRUCTION - POWER EQUIPMENT OPERATORS:

GROUP 1: Oilers

GROUP 2: Firemen and heavy duty greasers, all boilers and steam generators

GROUP 3: Pumps, vibrators, concrete mixers, spreaders, concrete finishing machines, mortar mixers, air compressors, dust collectors, welding machines well points, two or more Herman Nelson and like heaters, batch and plant op., seed and mulching machines, generators, temporary light plants, concrete pump, beltcrete power pac (beltcrete system), electric submersible pump 4" and over

GROUP 4: Dinkey locomotives, Barber Greene loaders, loaders and conveyors, tractors, scoopmobiles, bulldozers, road rollers, form fine graders, power brooms and sweepers

GROUP 5: Black top spreaders, black top rollers, high lifts, fork lifts, one drum hoist or hod hoists, post hole diggers, traxcavators, core and well well drillers (one drum), economobile and similar type machines, elevators, A-L frame winches, power hoisting (single drum)

GROUP 6: LeTourneau graders or scrapers, trenching machines, push cart

GROUP 7: Tractor road pavers, cranes, power road graders, shovels, backhoes, draglines, pile drivers, hoists two or more drums, three drum engines, hysters, two drum and swinging engines, three drum swinging engine, locomotive cranes, gradalls, hydrocrane, model CHB Vibrotamp or similar, Murphy type diesel generator-beltcrete system, side booms, hydro hammer, tractor mounted drill (quarry master), euclid loaders, concrete pumps, all CMI equipment, concrete central mix plant, automated asphalt, concrete central plant, derrick, whirlies, tower cranes, cableways, hydraulic cranes, power hoisting (2 drum and over), mucking machine

LABORERS:					
GROUP 1	4.80	.25	.20		
GROUP 2	5.10	.25	.20		
GROUP 3	5.30	.25	.20		

CLASSIFICATION DEFINITIONS

GROUP I - All digging and dirt work, firing of salamanders and smudge pots; loading and unloading of materials and equipment; loading and unloading of materials to and from hoist or cages for stock piling only; wheeling and placing of concrete; handling of lumber, steel, cement and distribution of materials; all cleaning, including cleaning of windows; wrecking and razing of building and all structures, cleaning and clearing of debris; loading and unloading of materials, hoist or cages, except when the man is directly tending lathers, masons, or plasterers; water boys, when used, carpenter tenders; and common laborers.

DECISION NO. AR-35

LABORERS CLASSIFICATION DEFINITIONS CONT'D

GROUP II - All machine tool operators that come under the jurisdiction of the laborers; all sewer and drain tile layers and handling at the ditch, excluding distribution; operators of water pumps up to four inches and slip form jacks; men erecting scaffolds and directly tending lathers, masons, cement masons and plasterers, mortar mixers, hod carriers and dry mixers; high work over 30 feet from the ground or floors; cement finisher helper; work on swinging scaffoid; all kettle and pot men, tank cleaning, all pipe doping, treating and wrapping, including all men working with dope; mortar and plaster mixing machine, pump-crete machines, and gunite mixing machines, including placing of concrete; handling creosoted or treated materials, liquid acids, or like materials when injurious to health, eye and skin or clothes; all newly developed mechaincal equipment which replaces wheel barrows or buggies previously used be laborers; all scale men on batch plants; all laborers screening sand, running sand drier, and feeding operating sand blaster, except nozzle; signal men and curring torch operators in connection with laborers' work; concrete grader

GROUP III - Wagon drill operator and powdermen or blaster

POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITIONS

GROUP I - All crane type equipment with 100' of boom or over (including jib); all tower cranes and all crane type of 3 cu. yd. or more.

GROUP II - Heavy duty mechanic; welder; crane hook and overhead monorail; whirley; panel board batch plant operators; derrick; piledriver; engineer; dragline; shovel; clamshell; backhoe; sideboom; gradall; hydro crane; cherry picker; hoists while operating 2 or more drums.

GROUP III - Motor patrol (Blade); dozer (engine H.P. 65 or over); Fordson tractor or like equipment with hoe or loader equipment or ditcher; scraper type equipment; tournapull, DW 10, 15, 16, 20, 21, and similar rubber-tired equipment, Euclid, TS-24 and similar; loader operator or hi-lift (engine H.P. 65 or over); Asphalt lay machine; tail boom; conveyor-multiple; panel board control, power driver hole digger; trenching machine; concrete pump - boom type

GROUP IV - Locomotive engineer; boring machine, tug boat; mixer, 18 cu. ft. and over, sand barge; dredging machine; tugger; hoist when operating one drum, welding machine, 3 to 6, Air compressor, 3 to 6, 500 cu. ft. and under; air compressor, over 500 cu. ft. (1), pumps, battery, 3 to 6; fork-lift, bobcat and similar equipment; generator plant engineer, diesel elec; winch trucks with A-Frame; rollers all types; outside elevator or building or personnel hoist, concrete buster or tamper; heater under jurisdiction of operator; engineers; fireman; boiler operator; crushing plants; oiler distributor; pulvimixer; farmer tractor with or without attachments; batch plant operator (portable) conveyor operator-duel, continuous or belt-bulk handling; screened operator; concrete pump; form grader; screening plant, well point pump operator; signal man or large whirleys when and if required; operator for rotary drilling machine when operated from console or machines

GROUP V - Permanant elevator-building type (automatic), concrete mixer, with hopper less than 18 cu. ft.; air compressor, 500 cu. ft. and under (1 or 2); welding machine (1 or 2); fuelman; conveyor operator-single continuous belt bulk handling

DECISION NO. AR-35

POWER EQUIPMENT OPERATORS (CONT'D) CLASSIFICATIONS DEFINITIONS

GROUP VI - Greaser, tilt top trailer operator

GROUP VII - Truck crane oiler driver or truck crane oiler

GROUP VIII - Asphalt lay machine back end man helpers

Engineers for machine not listed under the above classification shall receive the scale comparable to these classifications.

Engineers of all classifications when working in caverns or tunnels shall receive $0.25 per hour above listed rates.

CLASS 1-C: Cranes (boom or mast over 200 ft. + .75

CLASS II: auger - truck or tractor mounted, back filling machine, boat - material or personnel carrying (powered) boat of job woek (inboard or out-board), bulldozer, cable layer, compactor with blade, concrete belt placer, crane - overhead, crushing & screening plants, drill - davey or similar type, drill - core (truck or skid mounted), drill - well & core (truck mounted) elevator (new buildings and major remodeling old), euclid loader, excavating equipment (all other), forklift-lull or similar, grader, grader-elevating, greaser-equipment (head), Hi-Lift less than 4 yds, hoist - one drum (4 floors or over), hoist - hod (buildings 4 floors or more), hoist - (2 drums or more in one unit), jumbo operator, locomotive, lift slab machine (hydraulic), mixer - paving, mucking machine, pipe cleaning machine, refrigeration plant (used for constr. jobs ie. cooling, concrete & holding banks), ross carrier (or similar type) scoop (single bowl) self-powered & tractor drawn) spreader - concrete, asphalt and stone, Tower Mobile (hoisting or lowering material) trencher, well point systems, grout pump (10 H.P. or over) paver operator asphalt (spreader), pumpcrete or similar type (not self-propelled) pumpkrete machine operator (stationary), tire repairman (when assigned to job), welder repariman) Asphalt plant operator, athey loader.

CLASS III: Boiler, compactor (ridden or self-propelled), crane (carry) curb builder (self-propelled) drills-wells and horizontal, elevator (alterations of old building), forklifts (ridden or self-propelled), hoist one drum (regardless of power used) pavement breaker (self-propelled or ridden), pipe dream, roller, saw (concrete), soil stabilizer (pump type), stone crusher, stone spreader self-propelled, tractors (when used for snaking and hauling), tube finishing (CMI or similar type), tugger, truck (winch) truck or hydraulic boom (when hoisting & placing), ballast regulator, boring machine, broom, power (except push type), conveyor over 1 and up to units (regardless of power used) form line machine, hoists (monorail) regardless of power used) hoist roof (regardless of power used), huck machine or similar type, mixer concrete (regardless of power used), mixer mortar - over 10 cu. ft. (regardless of power used), spray cure machine power driven steam jenny (or similar type) syphon (steam or air), welding machine single (300 amp or over) (other than electrically driven

CLASS 3-A: Conveyors 4 units or more

CLASS IV: Ballast Regulator, Boring Machine, Broom, power (except push type), Compressor - Single (over 65 CFM), conveyor over 1 and up to 3 units (regardless of power used), Form line machine, Generator (over 5 KW), Hoists (Monorail) (regardless of power used), Hoist Roof (regardless of power used), Huck machine or similar type, Mixer Concrete (regardless of power used), Mixer Mortar - over 10 cu ft (regardless of power used), pump (over 1½" discharge regardless of power used), Spray Cure Machine (power Driven), steam jenny (or similar type), syphon (steam or air), Welding machine single (300 amp or over) other than electrically driven, plant, private or industrial air or steam valve

CLASS V: Compressor - 65 cu. ft. or under (regardless of power used), conveyor one (1) unit (regardless of power used), heaters - up to and including 6, jack motor hydraulic (single type) power driven, ladavator, mixer mortar (10 cu. ft. or under), mulching machine, pin puller (powered), pulverizer, pump - 1½" discharge or less. seeding machine, spreader side delivery, shoulder (attachment), tie tamper (multiple heads), tractor farm (when used for landscaping), water blaster

CLASS VI: Brake man, deck hand, helicopter signalman, oiler

CLASS 6-A: Crane truck oiler and fireman

CLASS 6-B: Oiler truck crane 50 ton or over, mechanic helper

CLASS 1-B: Cranes (boom or mast over 150 ft. up to & including 200 ft. (truck or crawler type), engineer - lead.

CLASS 1-C: Cranes (boom or mast over 200 ft. + .75

CLASS II: auger - truck or tractor mounted, back filling machine, boat - material or personnel carrying (powered) boat of job woek (inboard or outboard), bulldozer, cable layer, compactor with blade, concrete belt placer, crane - overhead, crushing & screening plants, drill - davey or similar type, drill - core (truck or skid mounted), drill - well & core (truck mounted) elevator (new buildings and major remodeling old), euclid loader, excavating equipment (all other), forklift-lull or similar, grader, grader-elevating, greaser-equipment (head), Hi-Lift less than 4 yds, hoist - one drum (4 floors or over), hoist - hod (buildings 4 floors or more), hoist - (2 drums or more in one unit), jumbo operator, locomotive, lift slab machine (hydraulic), mixer - paving. mucking machine, pipe cleaning machine, refrigeration plant (used for constr. jobs ie. cooling, concrete & holding banks), ross carrier (or similar type) scoop (single bowl) self-powered & tractor drawn) spreader - concrete, asphalt and stone, Tower Mobile (hoisting or lowering material) trencher. well point systems, grout pump (10 H.P. or over) paver operator asphalt (spreader), pumpcrete or similar type (not self-propelled) pumpkrete machine operator (stationary), tire repairman (when assigned to job), welder repariman) Asphalt plant operator, athey loader.

CLASS III: Boiler, compactor (ridden or self-propelled), crane (carry) curb builder (self-propelled) drills-wells and horizontal, elevator (alterations of old building), forklifts (ridden or self-propelled), hoist one drum (regardless of power used) pavement breaker (self-propelled or ridden), pipe dream, roller, saw (concrete), soil stabilizer (pump type), stone crusher, stone spreader self-propelled, tractors (when used for snaking and hauling), tube finishing (CMI or similar type), tugger, truck (winch) truck or hydraulic boom (when hoisting & placing), ballast regulator, boring machine, broom, power (except push type), conveyor over 1 and up to units (regardless of power used) form line machine, hoists (monorail) regardless of power used) hoist roof (regardless of power used), huck machine or similar type, mixer concrete (regardless of power used), mixer mortar - over 10 cu. ft. (regardless of power used), spray cure machine power driven steam jenny (or similar type) syphon (steam or air), welding machine single (300 amp or over) (other than electrically driven

CLASS 3-A: Conveyors 4 units or more

CLASS IV: Ballast Regulator, Boring Machine, Broom, power (except push type), Compressor - Single (over 65 CFM), conveyor over 1 and up to 3 units (regardless of power used), Form line machine, Generator (over 5 KW), Hoists (Monorail) (regardless of power used), Hoist Roof (regardless of power used), Huck machine or similar type, Mixer Concrete (regardless of power used), Mixer Mortar - over 10 cu ft (regardless of power used), pump (over 1½" discharge regardless of power used), Spray Cure Machine (power Driven). steam jenny (or similar type), syphon (steam or air), Welding machine single (300 amp or over) other than electrically driven. plant, private or industrial air or steam valve

CLASS V: Compressor - 65 cu. ft. or under (regardless of power used), conveyor one (1) unit (regardless of power used), heaters - up to and including 6, jack motor hydraulic (single type) power driven, ladavator, mixer mortar (10 cu. ft. or under), mulching machine, pin puller (powered), pulverizer, pump - 1½" discharge or less. seeding machine, spreader side delivery, shoulder (attachment), tie tamper (multiple heads), tractor farm (when used for landscaping), water blaster

CLASS VI: Brake man, deck hand, helicopter signalman, oiler

CLASS 6-A: Crane truck oiler and fireman

CLASS 6-B: Oiler truck crane 50 ton or over, mechanic helper

SUPERSEDEAS DECISION

STATE: Texas COUNTY: Wichita
DECISION NO.: AR-46 DATE: Date of Publication
Supersedes Decision No. AQ-115, dated June 21, 1974, in 39 FR 22364.
DESCRIPTION OF WORK: Building Construction, (excluding single family homes and garden type apartments up to and including 4 stories). (See General Wage Determination AR-36 for Paving & Utilities Incidental to Building Construction).

CLASSIFICATION DEFINITIONS

POWER EQUIPMENT OPERATORS

GROUP 1 - Fireman, Oiler; Mechanic, Grease Truck and Welder's Helpers; Screedman, Pneumatic roller towed by farmtype tractor or truck; Scale Operator and such as bin-a-batch; Rubber-tired farm type tractors and tractors under 35 HP without attachments

GROUP 2 - Air Compressors, Power Plants, pumps and welding machines (an operating engineer will not be required for an air compressor under 315 c.f.m., a pump under three inches or a light plant generating fifteen kilowatts or less, or one welding machine, if and when there is another operating engineer employed on the job who services the units); Concrete mixers, under 1 yard, and concrete batch plants, under 1 yard, gunnite and pumpcrete machines, mechanical bull floats, spreading and finishing machines. Screening Plants. Drilling machines, Diamond, rotary, core and cable drilling; well under 6 inches. Hoists, scoopmobiles, A frame Air tugger; building hoist, 1 drum hydrolift, Hydrocranes, winch truck. Loaders; Elevating, belt type loader, front end loader (under 2 yards) and over head loaders; forklift and lumber staker on construction job site. Grease truck operator, (Head Oiler). Motor man and Industrial Locomotive. Tractors under 35 HP with attachments; and farm type tractor with back, or shovel type attachments

GROUP 3 - Concrete mixers 1 yard and over and batch plants 1 yard and over, single drum paving machines. Crushing plants. Drilling Machines, 6 inches and over; Front end loaders, 2 yards and over; Paving: Asphalt plants, boiler or retort heater, distributor, lay down machine, pug mill, breakdown and tandem rollers. Steam Engineer. Trenching Machines. Patrol, rough, not required to blue top or finish

GROUP 4 - Tractor Equipment: Athey and Barber Green Loader, Bulldozer, DW10, DW20, DW21, Dumor, Elevating Grader; Euclid, Highlander, Scraper, Traxcavator, Turnapull, Turnarocker and Tractors 35 HP and up

GROUP 5 - Concrete Paving machines, double drum. Catcranes, Hysters, Cherry Picker, Attachment cranes, side and swing boom tractors, Building Hoist, 2 drums and up. Mechanic, Welder. Patrol, finish

DECISION NO. AR-49

POWER EQUIPMENT OPERATORS (CONT'D)

GROUP 6 - Shovel, Backhoe, clam and dragline 3/4 yards and under; Cranes 25 tons and under

GROUP 7 - Guy and stiff leg derrick, Piledrivers; Crawler or skid rig. Shovel, Backhoe, clam and dragline over 3/4 yards; Cranes over 25 tons

GROUP 8 - Refrigeration, slusher, Jumbo form operators

GROUP 9 - Mucking machines

GROUP 10 - Mine hoists

CLASSIFICATION DEFINITIONS

POWER EQUIPMENT OPERATORS

GROUP 1 - Utility operator

GROUP 2 - Blade grader, self-propelled; Clam shells; Cable ways; Cranes, power operated (all types); Air compressors; Pumps, welding machines and light plants; Derricks, power operated (all types); Draglines; Elevating graders, self-propelled; Hoist, 2 drum or more; Locomotive; Mixmobiles; Paving mixers, all types; Pile drivers; Scrapers; Bulldozers; Side boom; Cherry pickers; Shovels; Heavy duty mechanic; All welders; All tractors with power attachments (crawler type); Ditching machine; Farm type tractor (loader, 1 yd. & over) with backhoe; All other equipment of similar nature coming within the heavy class, when power operated

GROUP 3 - Air compressors, pumps, welding machines, throttle valves, light plants (3 - 6); Farm type tractor (loader, under 1 yd.) with backhoe; Go-devil; Mixer, 14 cu. ft. or over; Rollers, over 10 tons; Air compressor and one tugger; 2 or more boilers; All other equipment of similar nature coming within the light class, when power operated

GROUP 4 - Winch trucks

GROUP 5 - Front end scoopmobile, loader & payloader

GROUP 6 - Blade grader, towed; Elevators, building; Fork lifts; Hoist, single drum or 1 line hoisting (1 tugger); Mixers, less than 14 cu. ft.; Rollers; Screening Plants; Crushing plants; Tractors wheel type except when hauling material; Truck crane driver and/or oiler; Front end crane

GROUP 7 - Mechanic helper; Welder helper; Fireman

GROUP 8 - Greasers

GROUP 9 - Oilers, 1st year

GROUP 10 - Oilers, 2nd year

Bulldozer, 150 HP and Less	3.50				
Bulldozer, over 150 H.P.	3.75				
Concrete Paving Mixer	3.65				
Crane, Clamshell, Backhoe, Derrick, Dragline, Shovel (less than 1½ CY)	3.50				
Crane, Clamshell, Backhoe, Derrick, Dragline, Shovel (1½ CY & Over)	4.25				
Crusher or Screening Plant Operator	3.25				
Foundation Drill Operator (Truck Mounted)	4.25				
Foundation Drill Operator Helper	2.90				
Front End Loader (2½ CY and Less)	3.50				
Front End Loader (Over 2½ CY)	3.75				
Motor Grader Operator, Fine Grade	4.00				
Motor Grader Operator	3.75				
Roller, Steel Wheel (Plant-Mix Pavements)	2.90				
Roller, Steel Wheel (Other-Flat Wheel or Tamping)	2.50				
Roller, Pneumatic (Self-Propelled)	2.50				
Scrapers (17 CY and Less)	3.50				
Scrapers (Over 17 CY)	3.75				
Tractor (Crawler Type) 150 HP and Less	3.00				
Tractor (Crawler Type) over 150 HP	3.25				
Tractor (Pneumatic) 80 HP and Less	2.50				
Tractor (Pneumatic) over 80 HP	3.10				
Traveling Mixer	3.15				
Trenching Machine, Light	2.75				
Trenching Machine, Heavy	3.50				
Wagon Drill, Boring Machine or Post Hole Driller Operator	3.00				
Truck Drivers:					
Single Axle, Light	2.50				
Single Axle, Heavy	2.50				
Tandem Axle or Semitrailer	2.50				
Weighman (Truck Scales)	2.25				
Welder	3.50				

SUPERSEDEAS DECISION

STATE: Washington COUNTIES: Statewide*
DECISION NUMBER: AR-1031 DATE: Date of Publication
Supersedes Decision No. AQ-1111 dated June 14, 1974 on 39 FR 20932
DESCRIPTION OF WORK: Building Construction (excluding single family homes and garden type apartments, up to and including 4 stories), heavy and highway construction and dredging.

	Basic Hourly Rates	Fringe Benefits Payments

LABORERS (AREA 1)

All Counties and portions of Counties East of the 120th Meridian (except that part of Klickitat County)

Group 1: Brush Hog Feeder; Carpenter Tender; Concrete Crewman (to include stripping of forms, hand operating jacks on slip form construction, application of concrete curing compounds, pumpcrete machine, handling the nozzle of squeezecrete or similar machine - 6" and smaller); Concrete Signalman; Crusher Feeder; Demolition (to include clean-up, burning, loading, wrecking and salvage of all material); Driller Helper; Dumpman; Fence Erector (to include guard rails, guide and reference posts, sign posts, and right of way markers); General Laborer; Grout Machine Header Tender; Nipper; Riprap Man; Scaleman; Stake Jumper; Structural Mover (to include separating foundation preparation, cribbing, shoring, jacking and unloading of structure); Tailhoseman (water nozzle); Track Laborer (RR); Truck Loader; Timber, Bucker and Faller (by hand); Window Cleaner (prior to completion of construction)

Group 2: Cement Finisher Tender; Cement Handler; Demolition Torch; Dope Pot Fireman, non-mechanical; Form Cleaning Machine - Feeder, Stacker; Form Setter, paving; Driller Helper (when required to move and position machine); Nozzleman, water and air or steam; Pipe Layer, corrugated metal culvert; Pipewrapper; Pot Tender; Powderman Helper; Power Tool Operator, gas, electric, pneumatic; Sandblast Tailhoseman; Scaffold Erector, wood or steel; Railroad Equipment, power driven, except dual mobile power spiker or puller; Rodder and Spreader; Wheelbarrow, power driven; Well-point Man; Vibrator up to 4"

Group 3: Asphalt Raker; Asphalt Roller, walking; Chain Saw Operator with attachments; Concrete Saw Walking; Grade Checker, using level; Jackhammer Operator; Multi-section Pipe Layer; Nozzleman (to include squeeze and flocrete nozzle); Pavement Breaker; Power Buggy Operator; Railroad Power Spiker or Puller, dual mobile; Tamper (to include operation of Barco, Essex and similar tamper and pavement breakers); Trencher, Shawnee; Water Pipe Liner; Wagon Drills

Group 4: Chain Saw (faller); Laser Beam Operator; Pipe Layer (Caulker, Collarman, Jointer, Mortarman, Rigger, Jacker, Shorer and Lagger but not including laying corrugated metal culvert pipe)

Group 5: Concrete Stack; Mortar Mixer

Group 6: Caisson Worker, free air; High Scaler

LABORERS (AREA 1) (Cont'd)

All Counties and portions of Counties East of the 120th Meridian (except that part of Klickitat County)

Group 7: Brush Machine (to include horizontal construction joint clean-up brush machine, power propelled); Drills (to include down-the-hole drills with 3½ inch piston or larger and out-of-the hole drills with 4½ inch piston or larger); Gunnite (to include operation of machine and nozzle); Hod Carrier; Monitor Operator, air track or similar mounting; Nozzleman (to include jet blasting nozzleman over 1,200 pounds, jet blast machine power propelled, sand blast nozzle); Vibrator, 4 inches and over

Group 8: Air track drills with Dual Masts and Drills; Powderman

TUNNEL AND SHAFT, FREE AIR

Group 9:

Class A: Bull Gang, Pump Crete Crewman including distributing pipe, assembling and dismantle and Nipper

Class B: Brakeman, Dumpman

Class C: Miner and Nozzleman for concrete and Laser Beam Operator on tunnels

Class D: Raise and Shaft Miner and Laser Beam Operator on raises and shafts

LABORERS (AREA 2)

All Counties West of the 120th Meridian (except those enumerated in Areas 3 and 4) and including the Northern portion of Pacific County

Group 1: General Laborer; Nipper; Truck Spotter; Pitman; Brush Cutter; Choke Setter; Concrete and Monolithic Laborer; Pot Tender; Asphalt Laborer; Ditch Digger; Drierman; Concrete Form Stripper; Carpenter Helper; Track Laborer; Wellpoint and Header Laborer; Guardrail Erector

Group 2: Dumpman; Faller and Bucker, hand; Powderman's Helper; Sloper (over 20'); Wagon Driller and Air Trac Helper

Group 3: Groutman (pressure); Power Tools (light duty) Chippers, Grinders, Tampers, and similar electric and air operated tools; Swinging Scaffold or Boatswain Chair over water or over 25' in height

Group 4: Concrete Saw Operator; Pipe Pot Tender; Power Wheel Barrow or Buggy; Power Tools (heavy duty) Jackhammer, Pavement Breaker, Vibrators, Tampers (multiple and self-propelled), Railroad Spike Puller; Rakers-asphalt

Group 5: Form Setter (steel forms); Grademan and Stake Hopper; Nozzleman (concrete pump, green cutter when using combination of high pressure air and water on concrete and rock, sandblast, gunnite, shot-crete)

LABORERS (AREA 2) (Cont'd)

All Counties West of the 120th Meridian (except those enumerated in Areas 3 and 4) and including the Northern portion of Pacific County

Group 6: Faller and Bucker, chain saw; High Scaler; Mortarman and Hod Carrier; Pipe Layer and Caulker; Pipe Wrapper; Timberman - sewer; Wagon Driller and Air Trac; Manhole Builder; Laser Beam Operator (pipe)

Group 7: Cement Dumper - paving; Powderman

TUNNEL WORK

Group 8: Topman and Bull Gang

Group 9: Chuck Tender; Mucker and Laborer; Nipper; Brakeman

Group 10: Powderman's Helper

Group 11: Miner (including monolithic work); Spader; Re-timberman; Maintenance Man; Laser Beam Operator (tunnel)

Group 12: Miner, Shaft and Raise

Group 13: Powderman

LABORERS (AREA 3)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum, and the Southern portion of Pacific, Counties

Group 1: Asphalt Plant Laborers; Asphalt Spreaders; Batch Weighman; Broomers; Brush Burners and Cutter; Car and Truck Loaders; Carpenter Temder; Change-house Man or Dry Shack Men; Choke Setters; Clean Up Laborers; Concrete Laborers; Crusher Feeders; Culvert, hand labor; Curing, concrete; Demolition, Wrecking, and Moving Laborers; Driller Helpers; Dumpers, road oiling crew; Dumpmen (for grading crew); Elevator Feeders; Fence Builder (including guard rail, median rail, reference post, guide post, right-of-way marker); Fine Graders; Form Strippers (not swinging stages); General Laborers; Landscaping or Planting Laborers; Leverman on aggregate spreader (Flaherty and similar types); Loading Spotters; Material Yard Man (including electrical); Pittsburgh Chipper Operator or similar types; Powderman Helper; Railroad Track Laborers; Ribbon Setters (including steel forms); Rip Rap Man (hand placed); Road Pump Tender; Sewer Labor; Skipmen; Signalmen; Slopers, Spraymen; Stake Chaser-Stake Setter-Grade Checker; Stockpiler; Timber Faller and Bucker (hand labor); Toolroom Man (at job site); Tunnel Bull Gang (above ground); Weightman-Crusher (aggregate when used)

LABORERS (AREA 3) (Cont'd)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum, and the Southern portion of Pacific, Counties

Group 2: Applicator (including pot tender for same), applying protective material by hand or nozzle on utility lines or storage tanks on project; Burners; Choker Splicer; Clary Power Spreader and similar types; Clean-up Nozzleman - Greencutter (concrete rock, etc.); Concrete Power Buggyman; Demolition and wrecking charred materials; Gunite Nozzleman Tender; Gunite or Sand Blasting Pot Tender; Handlers of mixers of all materials of an irritating nature (including cement and lime); Manhole Builders; Power Tool Operator, includes but not limited to: Chipping guns, Dry pack machine, Jackhammer, Paving breakers, Post hole digger, (air, gas, or electric), Tampers, Vibrating screed, Vibrators (less than 4" in diameter); Ribbon Setter, head; Rip Rap Man (head), hand placed; Sand Blasting (wet); Sewer Timbermen; Timber Buckers and Fallers, Brush Cutters (power saw); Tunnel-Muckers, Brakemen, Concrete crew, Bull gang (underground).

Group 3: Asphalt Rakers; Bit Grinder; Concrete Saw Operator; Drill Doctor; Drill Operators, Air tracks, Cat drills, Wagon drills, Rubber-mounted drills and other similar types; Gunite Nozzleman; High Scalers, Strippers and Drillers (covers work in swinging stages, chairs or belts, under extreme conditions unusual to norman drilling, blasting, barring-down or sloping and stripping); Powdermen; Power Saw Operators (bucking and falling merchantable logs); Pumpcrete Nozzlemen; Sand Blasting (dry); Sewer Pipe Layers; Track Liners, Anchor Machines, Ballast Regulators, Multiple Tampers, Power Jacks; Tugger Operator, Tunnel-Chuck Tenders, Nippers and Timbermen; Vibrators (4" and larger); Water Blaster, Welder; Laser Beam (pipe laying)

Group 4: Tunnel Miners; Tunnel Powderman; Laser Beam (tunnel)

LABORERS (AREA 4)

Those portions of Chelan, Douglas, Kittitas, Okanogan and Yakima Counties West of the 120th Meridian

Group 1: General Laborer; Carpenter Tender; Form Stripper; Rip Rap Man; Track Laborer; Stake Hopper; Choker Setter; Fence Laborer

Group 2: Air Track and Wagon Drill Helper; Crusher Feeder; Dump and Stock Pile Man; Powderman Helper; Sloper, over 20 feet

Group 3: Power Buggy; Drill Chipper; Grinder and similar light power tools; Faller and Bucker (hand); Grout Man (power)

Group 4: Asphalt Raker and Spreader; Cement Handler, sack or bulk; Dope Pot Tender; House Wreckers; Jackhammer; Pavement Breaker; Tamper - Vibrator; Track Spike Puller; Concrete Saw and similar heavy power tools; Nozzleman (air and water)

LABORERS (AREA 4) (Cont'd)

Those portions of Chelan, Douglas, Kittitas, Okanogan and Yakima Counties West of the 120th Meridian

Group 5: Form Setter, Steel Forms; Grade Checker; Swinging Stage or Bosun Chair over water or over 25 feet in height

Group 6: Air Track and Wagon Drill Operator; Chain Saw Operator; Gunite Man; High Scaler; Pipe Layer and Caulker; Pipe Wrapper; Sandblaster; Timber Man; Open Ditch; Mortar Man and Hod Carrier

Group 7: Faller and Bucker (chain saw); Powderman

Group 8: Caisson Workers; Free Air

TUNNEL SHAFTS, FREE AIR

Group 9:
Class A: Topman and Bull Gang
Class B: Chuck Tender; Mucker and Laborer; Nipper; Brakemen
Class C: Powderman Helper
Class D: Miner (including Monolithic Worker); Re-Timberman; Maintenance Man; Spader
Class E: Miner; Shaft and Raise
Class F: Powderman

POWER EQUIPMENT OPERATORS (AREA 1)

All Counties and portions of Counties East of the 120th Meridian (except that part of Klickitat County)

Group 1: Bit Grinders; Bolt Threading Machine; Compressors, under 2,000 cu. ft. per minute gas, diesel or electric power; Crusher Feeder (mechanical); Deckhand; Drillers' Helper; Fireman and Heater Tender; Grade Checker; Helper (mechanic or welder, H.D.); Oiler; Oiler and Cable Tender, Mucking Machine; Pumpman; Rollers, all types on subgrade (farm type, Case, John Deere and similar - or compacting or vibrator) except when pulled by dozer with operable blade; Steam Cleaner; Welding Machine

Group 2: A-Frame Truck (single-drum); Assistant Regrigeration Plant (under 1,000 tons); Assistant Plant Operator, Fireman or Pugmixer (asphalt); Bagley or Stationary Scraper; Batch Plant and Wet Mix Operator, single unit (concrete); Belt Finishing Machine; Bending Machine (pipeline); Blower Operator (cement); Cement Hog; Compressor (2,000 cu. ft. or over, 2 or more - gas, diesel or electric power); Concrete Saw (multiple cut); Distributor Leverman; Elevator Hoisting Materials; Dope Pots (power agitated); Fork Lift or Lumber Stacker, Hydra-lift and similar; Gin Trucks (pipeline); Hoist, single drum; Loader (bucket elevators and conveyors); Longitudinal Float; Mixer (portable-concrete); Pavement Breaker (hydra-hammer and similar); Post Hole Auger or Punch; Power Broom; Railroad Ballast Regulation Operator, (self-propelled); Railroad Power Tamper Operator, (self-propelled); Railroad Power Tamper Jack Operator, (self-propelled); Spray Curing Machine (concrete); Spreader Box (self-propelled); Straddle Buggy (Ross and similar on construction job site); Tractor (farm type R/T with attachments except backhoe); Tugger Operator; Ditch Witch or similar

POWER EQUIPMENT OPERATORS (AREA 1) (Cont'd)

All Counties and portions of Counties East of the 120th Meridian (except that part of Klickitat County)

Group 3: A-frame Truck (2 or more drums); Assistant Refrigeration Plant and Chiller Operator (over 1,000 tons); Backfillers (Cleveland and similar); Belt-crete Conveyors with power pack or similar; Belt Loader (Kocal or similar); Blade Operator (motor patrol and attachments); Boat Operators; Boom Cats (side); Boring Machine (earth); Boring Machine (rock under 8" bit)(Quarry Master, Joy or similar); Bump Cutter (Wayne, Saginaw or similar); Canal Linning Machine (concrete); Chipper (without crane); Cleaning and Doping Machine (pipeline); Concrete Pumps (squeeze-crete, flow-crete, pumpcrete, Whitman and similar); Drills (churn, core, calyx or daimond); Elevating Belt-type Loader (Euclid, Barber Green, or similar); Elevating Grader-type Loader (Dumor, Adams, or similar); Equipment Serviceman, Greaser and Oiler; Generator Plant Engineers (diesel, electric); Gunite Combination Mixer and Compressor; Hoist, (2 or more drums or tower hoist); Loaders (overhead and front-end under 4 yards, R/T); Locomotive Engineer; Mixer-mobile; Mucking Machines; Paver or Curb Extruder (asphalt and concrete); Pump (grout or jet); Rollerman (finishing pavement); Rubber-tired Scraper (one motor with one scraper, under 40 yards); Screed Operator; Soil Stabilizer (P & H or similar); Spreader Machine; Tractor (crawler, including dozer, scraper, drills, booms, rollers, etc.); Traverse Finishing Machine; Trenching Machines (under 7 feet depth capacity); Turnhead Operator; Vacuum Drill (reverse circulation drill, under 8")

Group 4: Asphalt Plant Operator; Crusher, Grizzle and Screening Plant Operator; H. D. Mechanic; H. D. Welder; Refrigeration Plant Engineer (under 1,000 ton); Rubber-tired Scraper, Multi-engine power, with one scraper (Euclid, TS-24 and similar); Rubber-tired Scrapers, one motor with one scraper (40 yards and over); Surface Heater and Planer Machine; Turnhead (with re-screening)

Group 5: Automatic Subgrader (ditches and trimmers) (Autograde, ABC, R.A. Hansen and similar on grade wire); Backhoes (under 3 yards); Batch and Wet Mix Operator - multiple units (2 and including 4); Chipper (with crane); Clamshell Operator (under 3 yards); Concrete Slip Form Paver; Cranes all (under 65 tons); Derricks and Stifflegs (under 65 tons); Draglines (under 3 yards); Drilling Equipment (8" bit and over) (Robbin's reverse circulation and similar); Loader Operator (front end and overhead 4 yards to 8 yards); Piledriving Engineers; Paver (dual drum); Quad-track or similar equipment; Railraod Track Liner Operator (self-propelled); Rubber-tired Scrapers, multi-engine, power with one scraper (Euclid, TS-24 and similar), Push Pull or Help Mate in use; Rubber-tired Scrapers, multiple engines with two scrapers; Shovels (under 3 yards); Refrigeration Plant Engineer (1,000 tons and over); Signalmen (Whirleys, Highline Hammerheads or similar); Trenching Machines (7 feet depth and over); Multiple Dozer units with single blade

POWER EQUIPMENT OPERATORS (AREA 1) (Cont'd)

All Counties and portions of Counties East of the 120th Meridian (except that part of Klickitat County)

Group 6: Backhoes (3 yards and over); Batch Plant (over 4 units); Cableway Controller - Dispatcher; Cableway Operator; Clamshell Operator (3 yards and over); Cranes, all - 65 tons and over; Derricks and Stifflegs (65 tons and over); Draglines (3 yards and over); Elevating Belt (Holland type); Loader (360 degrees revolving Koehring Scooper or similar); Loaders (overhead and front-end over 8 to 12 yards); Rubber-tired Scrapers (multiple engine with three or more scrapers); Shovels (3 yards and over); Tower Crane; Whirleys and Hammerheads (all)

Group 7: Helicopter Pilot; Loaders (overhead and front-end - over 12 yards)

POWER EQUIPMENT OPERATORS (AREA 2)

All Counties and portions of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County

Group 1: Mechanics' Helpers (heavy duty)

Group 2: Oilers, Grade Checkers and Stakemen and/or Brakemen

Group 3: Firemen; Fireman (drier and hot plant)

Group 4: Rollers, Tampers and Vibrators (other than plant, road mix or multilift materials); Tractor (farmall type, 60 h.p. and under); Compressor (excavating and general purposes)

Group 5: Oiler Driver on Truck Cranes (over 45 tons up to 100)

Group 6: Blower Distributors and Mulch Seeding Operator; Oil Distributors

Group 7: Locomotives (Dinkey-air, diesel, electric, gas, steam)

Group 8: Equipment Service Oiler; Oiler Driver on Truck Cranes (100 tons and over)

Group 9: Pump (water); Tractors (Farmall type, over 60 h.p.)

Group 10: Post Hole Diggers (mechanical)

POWER EQUIPMENT OPERATORS (AREA 2)(Cont'd)

All Counties and portions of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County

Group 11: Brooms (power, Wayne, Saginaw, and similar types); Bulldozers (under D9 or similar); Loaders (fort lifts or lumber stacker-on construction job site - Drot travel lift); Rollers, Tampers and Vibrators (twin engine); Saws (concrete); Scrapers (carry-all type, single)

Group 12: Batch Plant (batch and mixer, 200 yards per hour and under); Cranes ("A" frame trucks, single power drum); Conveyors; Crusher (rock), Washing and Screening Plants; Finishing Machine Operator, Concrete Paving; Hoists, Air Tuggers, Strato Tower Bucket, Elevators and Deck Winches (power); Loaders (Elevating-Athey, Barber Greene, and similar types, and overhead and front end, under 2½ yards); Mixers (asphalt up to 4 tons per batch, and concrete mixer and batch - 200 yards per hour and under); Power Plant Operators; Pumps (Fuller Kenyon, and concrete and pump crete); Rollers, Tampers and Vibrators (on plant, road mix or multilift materials); Screed Man; Spreaders (Blaw Knox, Cedarapids, Jaeger, Flarrety or similar types); Trenching Machine (under 16 inches)

Group 13: Mechanics or Welder (heavy duty)

Group 14: Motor Patrol Graders (including Model 14 and similar); Tournapulls, Caterpillar, Euclid Scrapers, and similar type equipment (25 yards and under)

Group 15: Compressor (steel erection including sandblasting, painting of the same); Hoists on steel erection, Air Tuggers and Towermobiles; Loaders (fork lifts with tower)

Group 16: Cement Hogs; Loaders (Elevating grader type, Dumor and similar); Locomotive (geared or rod engine); Mixers (paving); Scraper (carryall type, double)

Group 17: Tractors (Farmall type, used as backhoes, rubber tired, Ford, Ferguson, Case and similar types 60 h.p. and under)

Group 18: Bull Dozer (D-9 or similar)

Group 19: Trenching Machines (16 inches and over)

Group 20: Bump Cutter (Concut, Christianson or similar types)

Group 21: Batch Plant (batch and mixer, over 200 yards per hour through 400 yards per hour); Conveyors (Beltcrete with power pack and similar types); Loaders (elevating belt type - Euclid and similar types); Mixers (asphalt, 4 tons and over, per batch, and concrete mixers and batch - over 200 yards per hour through 400 yares per hour, and paving dual)

POWER EQUIPMENT OPERATORS (AREA 2) (Cont'd)

All Counties and portions of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County

Group 22: Bulldozer engaged in Yo Yo Operation (while clearing and scaling); Cableways (3 yards and under); Cranes ("A" frame trucks, double power drum: and Crawler, truck type, floating, Locomotive, Whirley, either 3 yards and under, or 150' of boom including jibs and under, or 45 tons and under: and Hydralifts, Hyster Cat Cranes and attachments and Chipper, wood with boom attachment); Derricks, all; Drilling Machine (core, cable rotary and exploration); Loaders (fork lift with power boom and swing attachment, and overhead and front end, 2½ yards and up to 4 yards); Mixers (mobile type with hoist combination); Motor Patrol Graders (over Model 14 and similar); Mucking Machines (mole, tunnel drill, and/or shield); Paydozer and Linker Pusher (Quad-9 and similar); Piledriver Engineer, (L. B. Foster Puller or similar, paving breaker); Shovels (Crawler and truck types, all attachments, 3 yards and under); Sub Grader (Gurries, CMI and similar types); Tractors (Farmall type, used as backhoes, rubber tired - Ford, Ferguson, Case and similar types - over 60 h.p.); Tournapulls, Caterpillar, Euclid Scrapers and similar type equipment - over 25 yards through 40 yards

Group 23: Loaders (overhead and front end, 4 yards up to 8 yards)

Group 24: Mixer (concrete mixers and batch over 400 yards per hour through 600 yards per hour)

Group 25: Tournapulls, Caterpillar, Euclid, Scrapers and similar type (over 40 yards through 55 yards)

Group 26: Cableways (over 3 yards); Cranes (Crawler, truck type, floating, Locomotive, Whirley, either over 3 yards, or over 150' of boom including jibs or over 45 tons up to 100 tons: and, Tower Cranes, Pecco, Lorraine, Bucyrus and similar types); Helicopter Winch Operator; Remote Control Operator on Rubber-tired Earth Moving Equipment; Shovels (Crawler and trück type, all attachments, over 3 yards up to 6 yards); Slip Form Paver (Zimmerman, CMI and similar types)

Group 27: Tournapulls, Caterpillar, Euclid, Scrapers, and similar type equipment (over 55 yards through 70 yards)

Group 28: Loaders (overhead and front end 8 yards and over)

Group 29: Tournapulls, Caterpillar, Euclid, Scrapers and similar type equipment (over 70 yards through 85 yards)

POWER EQUIPMENT OPERATORS (AREA 2) (Cont'd)

All Counties and portions of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County

Group 30: Cranes (Crawler, Truck Type, Floating, Locomotive, Whirley, either 5 yards and over, 200' of boom including jibs and over, or 100 tons and over); Shovel (Crawler and Truck Type, all attachments, 6 yards and over)

Group 31: Tournapulls, Caterpillar, Euclid, Scrapers and similar type equipment (over 85 yards through 100 yards)

POWER EQUIPMENT OPERATORS (AREA 3)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum, and the Southern portion of Pacific, Counties

Group 1: Assistant Conveyor Operator; Crusher Feederman; Oilers (including asphalt and concrete plant, crane, crusher, guardrail equipment - including punch, shovel, dragline, clamshell backhoe, skooper, railroad equipment, and trenching machine); Parts Man (tool room); Pump (under 4 inches); Railroad Equipment (Brakeman and Switch Man); Self-propelled Scaffolding Operator (on job site)

Group 2: Auger Oiler; Blade Operator (pulled type); Combination Guardrail Machines Oiler; Crane (Truck crane oiler - driver 25 ton capacity or over; and Fireman, all equipment: and A-Frame Truck, single drum: and Tugger or Coffin Type Hoist); Drill Helper; Floating Equipment Boatman; Fork Lift or Lumber Stacker Operator (on construction job site); Grade Checker; Grade Oiler (required to check grade); Helicopter Radioman (ground); Repairman Helper (H.D.); Roller Operator (grading of base rock - not asphalt); Shovel Fireman; Tar Pot Fireman (including power agitated); Temporary Heating Plant Operator

Group 3: Asphalt (including plant fireman, pugmill operator - any type, and truck mounted asphalt spreader, with screed); Broom Operator (self-propelled - on construction job site); Compressor Operator (any power - under 1,250 cu. ft. total capacity); Concrete (including Conveyor Operator, Mixer Box - CTB, Dry Batch, etc., Cement Hog, Concrete Saw, Concrete curing machine - riding type, and Wire mat or Brooming machine operator); Fork Lift (Ross Carrier, on construction job site); Hydraulic Pipe Press Operator; Loader (Bucket elevator, Barber-Greene and similar type); Pump, (any power - 4 inches and over, and Hydrostatic pump); Railroad Equipment (Motorman and Ballast jack tamper); Seeder Machine - Hydrographic (straw, pulp, or seed); Signalman (Bell Boy, phone, etc.); Tamping Machine (Mechanical. self-propelled); Tunnel (Conveyor operator - any type, and air filtration equipment)

POWER EQUIPMENT OPERATORS (AREA 3) (Cont'd)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum, and the Southern portion of Pacific, Counties

Group 4: Asphalt Screed Operator; Compactor (self-propelled - including Vibratory); Compressor (any power - over 1,250 cu. ft. total capacity); Concrete (Combination mixer and Compressor operator, Gunite work); Concrete Screed Operator; Concrete Mixer (single drum under five bag capacity); Floating Equipment Fireman; Fork Lift (over 5 tons); Helicopter Hoist Operator; Hydra Hammer or similar; Locomotive (under 40 tons); Lull Hi-lift Operator; Oiler (service, greaser); Pavement Breaker; Pump (more than 4 - any size); Roller (oiling, CTB)

Group 5: Asphalt Extrusion Machine; Chip Spreading Machine; Compactor (Wagner Pactor or similar type - without blade); Concrete Batch Plant quality control; Concrete (Power Jumbo Operator - Setting slip forms etc., in tunnels); Concrete (Slip Form Pumps - power driven Hydraulic Lifting device for concrete forms); Crane (Hoist - single drum and Elevator Operator); Lime Spreading Machine; Pulva Mixer (or similar type); Sweeper (Wayne type - self-propelled, on construction job site); Tractor Operator (Rubber-tired 50 h.p. flywheel and under); Trenching Machine (maximum digging capacity 3 feet depth)

Group 6: Asphalt Paver; Asphalt Burner and Reconditioner (any type); Concrete Pavement Grinder and/or Grooving Machine Operator (riding type); Concrete (Cast-in-place Pipe Laying Machine and Maginnis Internal Full Slab Vibrator Operator); Concrete Finishing Machine (Clary, Johnson, Bidwell, Burgess Bridge Deck or similar type); Concrete Curb Machine (mechanical berm, curb and/or gutter); Concrete Joint Machine; Concrete Planer; Concrete Paving Machine; Concrete Finishing Machine; Concrete Spreader; Loaders (rubber-tired, 2-1/2 cu. yds. and under); Rock Spreaders, self-propelled

Group 7: Asphalt Plant Operator (any type); Asphalt Roller Operator (any mix); Beltcrete Operator; Concrete, Cement Pump (Fuller-Kenyon and similar); Concrete Grouting Machine; Concrete Mixer (single drum, five bag capacity and over); Crane (A-frame Truck double drum, and Boom Truck); Drill (Churn drill and Earth boring machine); Hydraulic Backhoe (wheel type 3/8 cu. yds. and under, with or without front end attachments 2½ cu. yds. and under - Ford, John Deere, Case type); Loader (Elevating Grader, tractor towed requiring operators on grader); Pot Rammer; Pumpcrete (any type); Railroad Equipment (Ballast regulator, Ballast tamper multi-purpose, Track liner, Tie spacer, Shuttle car, Locomotive - 40 ton and over)

Group 8: Concrete Batch Plant and/or Wet Mix Operator (one and two drum); Diesel - electric engineer (including asphalt plant, crusher, floating equipment generator, shovel, dragline, clamshell, backhoe, skooper, etc.); Generator Operator; Loader (belt loaders, Kolman and Ko Cal types)

POWER EQUIPMENT OPERATORS (AREA 3) (Cont'd)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum, and the southern portion of Pacific, Counties

Group 9: Boring Machine; Bulldozer; Clearing equipment (including Log skidders, Chippers, Incinerators, and Stump splitters); Compactor, with blade; Concrete cooling machine; Cranes (Chicago Boom and similar types, Lift slab machine, Boom type lifting device - 5 ton capacity or less, and Cherry Picker or similar type crane - Hoist - 5 ton capacity or less); Crusher Plant Operator; Drill Cat; Drill Doctor (including Bit Grinder); Grizzley Operator; Guardrail Punch Operator; Guardrail Auger Operator; Hammer Operator; Heater and Planer Operator (surface); Hydraulic Backhoe (track type 3/8 cu. yd.); Loader (front end and overhead - 2½ cu. yds. and under 4 cu. yds.); Machine tool; Mechanic (H.D.); Pipe cleaning machine; Pipe doping machine; Pipe bending machine; Pipe wrapping machine; Side-boom Cats; Stationary Drag Scraper; Tractor (rubber-tired over 50 h.p. flywheel); Tractor (with boom attachment); Trenching Machine (maximum digging capacity over 3 feet depth)

Group 10: Barge Operator (self-unloading); Bulldozer (twin engine - TC 12 and similar); Cable-plow (any type); Compactor (multi-engine); Dozers and Pushers (rubber-tired - Michigan, Cat, Hough type); Driller (percussion, diamond, core, cable, rotary, and similar); Jack Operator (elevating barges)

Group 11: Concrete Mixer Mobile Operator; Concrete Breaker; Crane (25 ton and under); Grade-all (under 1 cu. yd.); Guardrail machine combination (i.e., puncher, auger, etc.); Mucking Machine (tunnel); Shovel, Dragline, Clamshell, Hoe, etc., under 1 cu. yd.

Group 12: Blade Operator; Concrete Batch Plant and/or Wet Mix (3 or more units); Hoist Operator (two or more drums); Loader (elevating - Athey and similar type); Piledriver Operator (not crane type); Reinforced Tank Banding Machine (K-17 or similar); Scrapers (rubber-tired - single engine, single scraper; and Self-loading, Paddle wheel, Auger type; and Twin engine; and Scraper with push-pull attachments); Shield Operator (tunnel)

Group 13: Backfilling Machine; Blade Operator, finish; Blade Operator (externally controlled by electronic, mechanical hydraulic means); Blade Operator (multi-engine); Cableway (up to 25 tons); Concrete Paving Road Mixer; Crane (over 25 ton to and including, 40 ton); Derrick (under 100 tons); Floating Equipment Piledriver; Floating Clamshell (under 3 cu. yds.); Floating Crane (derrick barge - less than 30 tons); Grade-all (1 cu. yd. and over); Hoist (Stiffleg, Guy Derrick or similar, 50 tons and over); Loader (Elevating grader - operated by tractor operator, Sierra, Euclid, or similar types); Shovel, Dragline, Clamshell, Hoe, etc., 1 cu. yd. and less than 3 cu. yds.)

POWER EQUIPMENT OPERATORS (AREA 3) (Cont'd)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum, and the Southern portion of Pacific, Counties

Group 14: Crane - tower; Scraper (rubber-tired self loading paddle wheel, Auger type, finish and/or 2 or more units); Scraper (rubber-tired with tandem scraper)

Group 15: Loader (4 cu. yds. but less than 6 cu. yds.); Rock Hound Operator

Group 16: Auto Grader or "Trimmer" Operator; Bulldozer (Tandem, Quad-nine and similar type); Cableway (25 tons and over); Concrete Slip Form Paver (automatic); Concrete Canal Line Operator; Crane (over 40 tons and including 100 tons); Floating Clamshell (3 cu. yds. and over); Floating Crane (Derrick barge - 30 tons but less than 80 tons); Loader (6 cu. yds. but less than 12 cu. yds.); Scraper (rubber-tired, with Tandem Scrapers, multi-engine); Shovel, Dragline, Clamshell, Hoe, etc., 3 cu. yds. but less than 5 cu. yds.; Wheel excavator (under 750 cu.yds. per hour); Whirley (80 tons and under)

Group 17: Canal Trimmer; Crane (over 100 tons to and including, 200 tons); Floating Crane (Derrick barge, 80 tons but less than 150 tons); Loader (12 cu. yds. and over); Shovel, Dragline, Clamshell, Hoe, etc., 5 cu. yds. and over; Whirley (over 80 tons to and including, 150 tons)

Group 18: Band Wagons (in conjunction with wheel excavator; Crane (over 200 tons); Floating Crane (150 tons but less than 250 tons); Wheel Excavator (over 750 cu. yds. per hour); Whirley (150 tons and over)

Group 19: Floating Crane (250 tons and over); Helicopter, when used in erecting work; Remote controlled earth-moving equipment; Underwater equipment (remote or otherwise)

POWER EQUIPMENT OPERATORS (AREAS 1, 2, and 3)
(DREDGING)

Group Descriptions for all Areas 1, 2, and 3 covering Statewide Washington

Group 1: Assistant Mate (Deckhand)

Group 2: Fireman; Oiler

Group 3: Assistant Engineer (Electric, Diesel, Steam or Booster Pump); Mates and Boatmen

Group 4: Engineer Welder; Craneman

Group 5: Assistant Engineer (Electric Generator operator for Primary Pump, Power Barge or Dredge)

POWER EQUIPMENT OPERATORS (AREAS 1, 2, and 3) (cont'd)
(DREDGING)

Group Descriptions for all Areas 1, 2, and 3 covering Statewide Washington

Group 6: Leverman, Hydraulic

Group 7: Leverman, Dipper:
(a) Over 5 yards
(b) 5 yards and under

TRUCK DRIVERS (AREA 1)

All Counties and portions of Counties East of the 120th Meridian (except those portions of Kittitas, Klickitat, and Yakima Counties)

Group 1: Flat Bed Truck, single rear axle; Escort Driver; Fish Truck; Fork Lift, 3,000 pounds and under; Fuel Truck Driver (Steam Cleaner and Washer); Helper and Swamper; Leverperson loading trucks at bunkers; Pickup hauling material; Seeder and Mulcher; Stationary Fuel Operator; Team Driver; Tractor (small rubber tired pulling trailer or similar equipment); Water Tank Truck 1,800 gallons.

Group 2: Bus Driver or Employeehaul Driver; Flat bed truck, dual rear axle; Power Boat hauling employees or material; Tireperson No. 1; Warehouseperson

Group 3: Buggy Mobile and similar; Bulk Cement Tanker; Oil Tank Driver; Power Operated Sweeper; Semi-trailer, low bed, truck and trailer; Straddle Carrier (Ross Hyster and similar); Transit Mixers and trucks hauling concrete (3 yards and under); Trucks, side, end, and bottom dump (under 6 yards); Water tank truck (1,801 - 4,000 gallons)

Group 4: Auto Crane - 2,000 pounds capacity; Bulk Cement Spreader; Dumptor (6 yards and under); Flaherty Spreader, Box Driver; Flat bed truck (using power take off); Fork Lift (over 3,000 pounds); Oil-Distributor Driver (road, bootperson, leverperson helper); Rubber-tired tunnel jumbo; Scissor truck; Slurry Truck Driver; Transit mixers and trucks hauling concrete (over 3 yards to 6 yards); Water tank truck (4,001 - 6,000 gallons); Wrecker and tow trucks

Group 5: Low Boy (under 50 tons); Service Greaser; Tireperson No. 2 Truck, side, end, and bottom dump (over 6 yards to 12 yards)

Group 6: A-Frame (Swedish Crane, Iowa 3,000, Hydrolift); Water tank truck (over 6,001 - 8,000 gallons)

Group 7: Dumptor (over 6 yards); Transit mixers and trucks hauling concrete (6 yards to 10 yards); Trucks, side, end, and bottom dump (over 12 yards including 20 yards)

TRUCK DRIVERS (AREA 1) (Cont'd)

All Counties and portions of Counties East of the 120th Meridian (except those portions of Kittitas, Klickitat, and Yakima Counties)

Group 8: Low Boy (over 50 tons); Water tank truck (8,001 - 10,000 gallons)

Group 9: Transit mixers and trucks hauling concrete, (10 yards to 15 yards); Trucks, side, end and bottom dump (over 20 yards including 30 yards); Water tank truck (10,001 - 12,000 gallons)

Group 10: Mechanic, field

Group 11: Tournarocker, D.W.'s and similar, with 2 or 4 wheel power tractor with trailer, gallonage or yardage scale, which is greater; Transit Mixers and Trucks hauling concrete (15 yards to 20 yards); Trucks, side, end and bottom dump (over 30 yards to 40 yards); Water tank truck (12,001 - 14,000 gallons)

Group 12: Transit mixers and trucks hauling concrete (over 20 yards); Trucks, side, end and bottom dump (over 40 yards to 50 yards)

Group 13: Truck, side, end and bottom dumps, (over 50 yards to 100 yards)

Group 14: Helicopter Pilot hauling employees or material; Trucks, side, end and bottom dump (over 100 yards)

TRUCK DRIVERS (AREA 2)

All Counties and portions of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County and including all of Kittitas and Yakima Counties

Group 1: Leverman and Loaders at bunkers and batch plants; Pickup truck, Escort or Pilot Car; Swampers; Warehouseman and Checkers

Group 2: Team Drivers

Group 3: Bull Lifts and similar equipment used in loading and unloading trucks, transporting materials on job site, warehousing; Dumpsters, and similar equipment (including Tournarockers, Tournawagon, Turnatrailer, Cat DW series, Terra Cobra, LeTourneau, Westinghouse, Athey Wagon, Euclid, two and four-wheeled power tractor with trailer and similar top-loaded equipment transporting material: Dump trucks - side, end and bottom dump, including semi-trucks and trains or combinations thereof) - up to and including 5 yards; Flatbed, single rear axle; Fuel truck; Grease truck; Greaser, Battery Service Man and/or Tire Service Man; Scissor truck; Spreader, Flaherty; Tractor (small, rubber-tired); Vacuum truck; Water Wagon and tank truck (up to 1,600 gallons); Winch truck, single rear axle; Wrecker, tow truck and similar equipment

TRUCK DRIVERS (AREA 2) (Cont'd)

All Counties and portions of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County and including all of Kittitas and Yakima Counties

Group 4: Flatbed, dual rear axle

Group 5: Buggymobile; Hyster Operators; Straddle Carrier (Ross, Hyster, and similar equipment); Water Wagon and tank truck, 1,600 gallons to 3,000 gallons

Group 6: Transit-mix, 0 to and including 4½ yards

Group 7: Dumpsters, and similar equipment (as listed in Group 3) - over 5 yards to and including 12 yards; Explosive truck (field mix) and similar equipment; Lowbed and heavy duty trailer, under 50 tons gross; Road Oil Distributor Driver; Slurry truck; Sno-go and similar equipment; Winch truck, dual rear axle

Group 8: Dumpsters, and similar equipment (as listed in Group 3) - over 12 yards to and including 16 yards

Group 9: Bulk Cement tankers; Dumpsters, and similar equipment (as listed in Group 3) - over 16 yards to and including 20 yards; Water Wagon and tank truck, over 3,000 gallons

Group 10: Bull lifts or similar equipment used in loading or unloading trucks transporting materials on job site, other than warehousing

Group 11: Transit-mix, over 4½ yards to and including 6 yards

Group 12: "A" Frame or Hydralift trucks or similar equipment

Group 13: Dumpsters, and similar equipment (as listed in Group 3) - over 20 yards to and including 30 yards; Lowbed and heavy duty trailer, over 50 tons gross to and including 100 tons gross

Group 14: Transit-mix, over 6 yards, to and including 8 yards

Group 15: Dumpsters, and similar equipment (as listed in Group 3) - over 30 yards to and including 40 yards; Lowbed and heavy duty trailer, over 100 tons gross

Group 16: Transit-mix, over 8 yards to and including 10 yards

Group 17: Dumpsters, and similar equipment (as listed in Group 3) - over 40 yards to and including 55 yards

TRUCK DRIVERS (AREA 2) (Cont'd)

All Counties and portions of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County

Group 18: Transit-mix, over 10 yards to and including 12 yards

Group 19: Transit-mix, over 12 yards to and including 16 yards

Group 20: Transit-mix, over 16 yards to and including 20 yards

Group 21: Transit-mix over 20 yards

TRUCK DRIVERS (AREA 3)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum, and the Southern portion of Pacific, Counties

Group 1: Battery Rebuilders; Bus or Manhaul Driver; Concrete Buggies (power operated); Dump trucks, side, end, and bottom dumps, including semi-trucks and trains or combinations thereof: 6 cu. yds. and under Lift Jitneys, Fork Lifts (all sizes used in loading, unloading and transporting material on job site); Loader and/or Leverman on concrete dry batch plant (manually operated); Pilot car; Solo flat bed and misc. body trucks, 0-10 tons; Truck Helper; Truck Mechanic Helper; Warehouseman (warehouse parts, tool men and parts chaser, checkers and receivers); Water wagons (rated capacity) - up to 1,600 gallons

Group 2: "A" Frame of hydra-lift truck with load bearing surface; Lubrication Man, Fuel Truck Driver, Tireman, Wash Rack, Steam Cleaner or combinations; Team Drivers

Group 3: Dump trucks, side, end, and bottom dumps, including semi-trucks and trains or combinations thereof: over 6 cu. yds. and including 10 cu. yds.; Slurry Truck Driver or Leverman; Transit mix, and wet or dry mix trucks: 5 cu. yds. and under; Tireman (full-time basis); Water wagons (rated capacity) - 1,600 to 3,000 gallons

Group 4: Flaherty Spreader Driver or Leverman; Low bed equipment, Flat bed semi-trailer, truck and trailer or doubles transporting equipment or wet or dry materials; Lumber Carrier Driver - Straddle carrier (used in loading, unloading and transporting of materials on job site); Oil Distributor Driver or Leverman; Water wagons (rated capacity) - 3,000 to 5,000 gallons

Group 5: Dumpsters or similar equipment, all sizes; Transit mix and wet or dry trucks, over 5 cu. yds. and including 7 cu. yds.

TRUCK DRIVERS (AREA 3) (Cont'd)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum, and the Southern portion of Pacific, Counties

Group 6: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: over 10 cu. yds. and including 20 cu. yds.; Transit mix and wet or dry mix trucks, over 7 cu. yds. and including 9 cu. yds.; Truck mechanic-welder-body repairman; Water wagons (rated capacity) - 5,000 to 7,000 gallons

Group 7: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: Over 20 cu. yds. and including 30 cu. yds.; Transit mix and wet or dry mix trucks - over 9 cu. yds. and including 11 cu. yds.; Water wagons (rates capacity) - over 7,000 gallons to 10,000 gallons

Group 8: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: over 30 cu. yds. and including 40 cu. yds.; Transit mix and wet or dry mix trucks - over 11 cu. yds. and including 13 cu. yds.; Water wagons (rated capacity) - over 10,000 gallons to 15,000 gallons

Group 9: Dump trucks, side, end and bottom dumps, including semi trucks an and trains or combinations thereof: over 40 cu. yds. and including 50 cu. yds.; Transit mix and wet or dry mix trucks - over 13 cu. yds. and including 15 cu. yds.

Group 10: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: over 50 cu. yds. and including 60 cu. yds.

Group 11: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations therof: over 60 cu. yds. and including 70 cu. yds.

Group 12: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combination thereof: over 70 cu. yds. and including 80 cu. yds.

Group 13: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combination thereof: over 80 cu. yds. and including 90 cu. yds.

Group 14: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: over 90 cu. yds. and including 100 cu. yds.

Drivers and Helpers (handling sacked cement add $.15 per hour)

Winch truck - takes classification of truck on which winch is mounted.

SUPERSEDEAS DECISION

STATE: Wisconsin COUNTY: Statewide
DECISION NUMBER: AR-3146 DATE: Date of Publication
Supersedes Decisions numbered AP-70, AP-71, AP-72, AP-73, AP-74, & AP-75 dated December 12, 1972 in 37 FR 26269, 26271, 26273, 26275, 26277, and 26279 respectively.
DESCRIPTION OF WORK: Heavy, Highway, Sewer, Tunnel & Water Construction.

	Basic Hourly Rates	Fringe Benefits Payments

GROUP 11	7.79	.55	.55		.05
GROUP 12	7.67	.55	.55		.05

CLASSIFICATION DEFINITIONS

GROUP 1 - Cranes, shovels, draglines, backhoes, clamshels, derricks, caisson rigs, pile driver, skid rigs, dredge operator, traveling crane (bridge type).
GROUP 2 - Concrete paver (over 27E), concrete spreader & distributor.
GROUP 3 - Material hoist, stack hoist, tractor or truck mounted hydraulic backhoe, tractor or truck mounted hydraulic crane (5 T. or under), man-hoist, tractor over 40 h.p., bulldoder over 40 h.p., endloader over 40 h.p., forklift 25' & over, motor patrol, scraper, sideboom, straddle carrier, mechanic, welder, bituminous plant & paver, roller over 5 T., rotary drill, blaster, trencher (wheel type or chain type w/over 8" bucket.
GROUP 4 - Concrete & grout pumps, backfiller, concrete auto breaker (large), concrete finishing machine (road type).
GROUP 5 - Roller (rubber tire).
GROUP 6 - Concrete batch hopper, concrete conveyor system, concrete mixers (14S or over), screw type pumps, gypsum pumps, tractor, bulldozer, endloader, pumps (well points), trencher (chain type with bucket 8" & under), Ind. locomotives.
GROUP 7 - Roller under 5 T., firemen (pile driver & derricks).
GROUP 8 - Automatic hoist, forklift 12' to 25', tampers-compactors riding type, Asst. engineer, A frames & winch trucks, concrete auto breaker, small hydrohammer, brooms & sweepers, hoist (tuggers), large stump chipper, boats (tug, saftey, work barges, launches).
GROUP 9 - Shouldering mach., screed, farm or Ind. tractor mounted equipment, post hole digger, stone crusher, screening plant.
GROUP 10 - Firemen-asphalt plant.
GROUP 11 - Generators over 150 KW, air compressors over 300 cu. ft., pumps over 3", augers (vertical & horizontal).
GROUP 12 - Combination small equip., air-electric-hydraulis jacks (slip form, compressors under 300 CFM, welding mach., mechanical heaters, prestress mach., bobcats, generators under 150 KW, pumps 3" & under, small electric winches, oiler, greaser, boiler (temporary heat), rotary drill helper, conveyor, forklift 12' & under.

DECISION NO. AR-3146

POWER EQUIPMENT OPERATORS HIGHWAY CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments			
		H & W	Pensions	Vacation	App. Tr.

GROUP 7	8.13	.55	.55		.05
GROUP 8	8.01	.55	.55		.05

CLASSIFICATION DEFINITIONS

GROUP 1 - Bituminous paver or plant, concrete breaker (truck mounted, heavy), crane, derrick, dragline, dredge, pile driver, power shovel, material hoist, mixer or paver 21 c.f. or over, roller over 5 T., self propelled stabilizing mixer, trenching machine, tractor (side boom, heavy), concrete Pvt. spreader (heavy duty, rubber tired0, hydraulic back hoe, asphalt plane engineer, automatic slipform concrete paver, automatic concrete subgrader, batch mixer portable, caisson rigs, central mixer concrete, dredge engineer, concrete batch plant engineer, central mix plant concrete, percussion or rotary drill machine, grader or motor patrol, loading machine (conveyor), mechanic or welder (heavy duty equipment), tractor (scraper, dozer, pusher, loader), tugger, end loader, asphalt heater & planer, boatman, bump cutter & grooving machine, shoulder widener, winches & A frames, tube finisher.
GROUP 2 - Concrete mixer less than 21 cu. ft., concrete pump, steel roller 5 tons or less.
GROUP 3 - Screed (bituminous paver), shouldering machine, self-propelled chip spreader.
GROUP 4 - Concrete breaker & tamper (light), concrete spreader, finishing mach., mechanical float, curing mach., power subgrader, joint sawer (multiple blade), launch, roller (pneumatic tired) self propelled, tractor (mounted or towed compactors & light equipment), light rubber tired tractor-end loader, fork lift, belting machine, burlap machine, jeep digger, mulcher, texturing machine.
GROUP 5 - Fireman, Environmental burner.
GROUP 6 - Air compressor, drilling or boring machine (mechanical heavy), greaser (heavy equipment) lead-man, tank car heaters, stump chipper, curb machine, concrete proportioning plants, generators, mud jacks.
GROUP 7 - Crusher or screening plant, automatic belt conveyor & surge bin, pneumatic tired roller farm tractor towed, pug mill.
GROUP 8 - Oiler, pump over 3", surge bin, drilling machine helper.
