Highlights

- 17123 **Credit Control** Executive order
- 17125 **Anti-inflationary Pay and Price Standards** CWPS establishes, on an interim basis, range for annual pay-rate increases; effective 10-1-79; comments by 4-17-80
- 17206 **Infant Formulas** HEW/FDA announces interim guidelines for nutrient composition and levels
- 17131 **Social Security** HEW/SSA issues interim regulations increasing money amounts used to evaluate work activity of claimants and beneficiaries with impairment other than blindness; effective on an interim basis starting 1-1-80; comments by 5-19-80
- 17132 **Radio Free Europe and Radio Liberty** BIB adopts regulations governing functions to ensure continuation; effective 2-21-80
- 17164 **Official Mail** PS proposes to revise procedures for using postage meters in Federal agencies; comments by 4-17-80
- 17147 **National Pollutant Discharge Elimination** EPA clarifies State requirements; effective 3-18-80

CONTINUED INSIDE

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for \$75.00 per year, or \$45.00 for six months, payable in advance. The charge for individual copies is \$1.00 for each issue, or \$1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Area Code 202-523-5240

Highlights

- 17446 **National Register of Historic Places** Interior/HCRS gives notice of annual listing of historic properties (Part II of this issue)
- 17306 **Privacy Act** NRC publishes a document affecting the systems of records
- 17152 **Privacy Act** FEMA publishes final implementation; effective 3-18-80
- 17129 **Privacy Act** NRC issues exemptions for a new system of records; effective 4-17-80
- 17138 **Commercial or Industrial Activities** DOD/Sec'y reaffirms the Government's general policy of reliance on private sector; effective 2-4-80
- 17129 **Natural Gas Policy** DOE/FERC expands notice requirements for filed protests to a Notice of Determination; effective 8-13-80
- 17165 **Replacement Farm Units** Interior/WPRS proposes revision to environmental assessment regarding sale to Teton Flood victims; comments by 4-17-80
- 17307 **Fish** Treasury/Customs announces tariff-rate quota for calendar year 1980
- 17148, 17160 **Ethics in Government** FEMA issues final rules and Treasury proposes rules concerning post employment conflicts of interest by former officers and employees; effective on and comments by 4-17-80 (2 documents)
- 17168 **Protection of Historic and Cultural Properties** Advisory Council on Historic Preservation proposes a Programmatic Memorandum of Agreements with EDA, Commerce, and the National Conference of State Historic Preservation Officers regarding EDA's finance programs; comments due 4-17-80
- 17147 **Chlorpyrifos** EPA establishes a tolerance for residues on nectarines; 3-18-80
- 17308 **Sunshine Act Meetings**

Title 3—

Executive Order 12201 of March 14, 1980

The President

Credit Control

By the authority vested in me as President of the United States of America by Section 205 of the Credit Control Act (12 U.S.C. 1904), and having determined that the regulation and control of credit is necessary and appropriate for the purpose of preventing and controlling inflation generated by the extension of credit in an excessive volume, it is hereby ordered as follows:

1-101. The Board of Governors of the Federal Reserve System is authorized to exercise all the authority under the Credit Control Act (12 U.S.C. 1901 *et seq.*) to regulate and control consumer credit.

1-102. The Board of Governors of the Federal Reserve System is authorized to exercise all the authority under the Credit Control Act to regulate and control credit extended by those financial intermediaries which are not subject, as of the date hereof, to either the amendments of law effected by Public Law 89-597, as amended, or Section 19 of the Federal Reserve Act, as amended (12 U.S.C. 461), and which are primarily engaged in the extension of short-term credit.

1-103. The Board of Governors of the Federal Reserve System is authorized to exercise all the authority under the Credit Control Act to regulate and control credit extended to commercial banks that are not members of the Federal Reserve System in the form of managed liabilities.

1-104. The Board of Governors of the Federal Reserve System is authorized to exercise the authority under Section 206(4) of the Credit Control Act (12 U.S.C. 1905(4)) to prescribe appropriate requirements as to the keeping of records with respect to all forms of credit.

1-105. For the purposes of this Order "consumer credit," "financial intermediaries," "short-term credit," "commercial banks," and "managed liabilities" shall have such meaning as may be reasonably prescribed by the regulations of the Board of Governors of the Federal Reserve System.

1-106. The authorizations granted by this Order shall remain in effect for an indefinite period of time and until revoked by the President.

THE WHITE HOUSE,
March 14, 1980.

Redesignation

Cross Reference: For a document redesignating regulations codified in Title 1 CFR Parts 415 and 416 into Title 22 CFR Parts 1301 and 1302 respectively, see FR Doc. 80-8243 appearing elsewhere in this issue.

BILLING CODE 6155-01-M

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 213

Excepted Service; Entire Executive Civil Service

AGENCY: Office of Personnel Management.

ACTION: Final rule.

SUMMARY: This document transmits two excepted service appointing authorities for career-related work-study programs. These programs are excepted under Schedule B because it is not practicable to examine competitively for them.

EFFECTIVE DATE: February 2, 1980.

FOR FURTHER INFORMATION CONTACT: James R. Poole, Office of Personnel Management, 202-632-5677.

SUPPLEMENTARY INFORMATION:

1. Under the provisions of E.O. 12015, the Federal Junior Fellowship Program is determined to be a career-related work-study program. The positions covered under the Program are excepted under Schedule B because it is not practicable to examine competitively for them.

2. Under the provisions of E.O. 12015, a career-related work-study program for students employed under the Stay-in-

School Program is established on a 2-year pilot basis. For the Social Security Administration, Department of Health, Education, and Welfare, the positions under this career-related work-study program are excepted under Schedule B because it is not practicable to examine competitively for them. Under this program, the number of annual conversions to competitive service entry-level clerk-typist, clerk-stenographer, other general clerical positions, and technician positions related to computer science and the graphic arts are limited to not more than 10 percent of the positions in those occupations by the agency annually.

Office of Personnel Management.

Beverly M. Jones,

Issuance System Manager.

Accordingly, OPM is amending 5 CFR 213.3202 as follows:

(1) The introductory text is revised; (2) the undesignated paragraph following paragraph (e) is deleted; (3) paragraphs (f) and (g) are added; and (4) paragraphs (h) and (i) are reserved as set forth:

§ 213.3202 Entire executive civil service.

The provisions established under paragraphs (a) through (i) are authorized under provisions of E.O. 12015 and support career-related work-study programs. OPM's requirements relating to appointment under paragraphs (a) through (i) will be published in the Federal Personnel Manual. Further, appointments under paragraphs (a) through (i) are subject to all the requirements and conditions governing career or career-conditional appointments, including investigation by OPM to establish an appointee's qualifications and suitability. Appointments of participants may be converted to career or career-conditional at any time within a 120-day period after satisfactory completion of a career-related work-study program.

(f) Positions under the Federal Junior Fellowship Program, a career-related work-study program covered under the provisions of E.O. 12015.

(g) Positions with the Social Security Administration, Department of Health, Education, and Welfare, in a 2-year pilot, career-related work-study program under the provisions of E.O. 12015 for students employed under the Stay-in-School Program. Under this program, the

number of annual conversions to competitive service entry level clerk-typist, clerk-stenographer, other general clerical positions, and technician positions related to computer science and the graphic arts are limited to not more than 10 percent of the positions filled in these occupations by the agency annually.

BILLING CODE 6325-01-M

COUNCIL ON WAGE AND PRICE STABILITY

6 CFR Parts 705, 706 and 707

Anti-Inflationary Pay and Price Standards; Procedural Rules; Data Requests; Miscellaneous Amendments

AGENCY: Council on Wage and Price Stability.

ACTION: Interim final pay standard, with request for public comments.

SUMMARY: The Council is establishing on an interim basis that the pay standard for the second program year be a range of 7.5 to 9.5 percent; in normal circumstances, annual pay-rate increases should be expected to average about the mid-point of the range (8.5 percent). In addition, the Council is adopting procedures requiring that those implementing pay-rate increases above 8.5 percent notify the Council of that action. Cost-of-living-adjustment clauses, according to this action, should be evaluated using an inflation assumption of 7.5 percent. Other technical amendments to the pay standard and related procedures are being adopted.

DATES: The effective date is October 1, 1979. Written comments should be submitted by April 17, 1980.

ADDRESS: Written comments should be addressed to: Office of the General Counsel, Council on Wage and Price Stability, 600 17th Street, NW, Washington, D.C. 20506.

FOR FURTHER INFORMATION CONTACT:

Office of Pay Monitoring, Lucretia Tanner, 456-7180; Malcolm Liggett, 456-7180; Homer Jack, 456-7180.

Office of the General Counsel, Daniel Duff, 456-6210; Jane Campana, 456-6210.

SUPPLEMENTARY INFORMATION: On September 28, 1979, the President announced the creation of a Pay Advisory Committee to advise the Council on policies that encourage anti-inflationary behavior by employers and labor, that decelerate the rate of inflation, and that provide for a fair and equitable distribution of the burden of restraint. The Committee's charter provides that it will recommend new or revised interpretations of the pay standard. In the meantime, the first-year pay standard (in Subpart 705B) remained in effect with certain modifications (see the Council's questions and answers published in the *Federal Register* on October 12, 1979 (44 FR 56900), October 19, 1979 (44 FR 60251), November 19, 1979 (44 FR 66534), and January 16, 1980 (45 FR 3247); see also the *Federal Register* of December 17, 1979 (44 FR 73003), December 28, 1979 (44 FR 76748), and January 22, 1980 (45 FR 4338)).

On January 22, 1980, the Committee recommended that the second program year pay standard be a range of 7.5 percent to 9.5 percent. Establishment of a range provides for greater flexibility than a single numerical standard. The Committee also presented a set of principles for voluntary pay stabilization during 1980, which provide in part that settlements or wage determinations in the normal circumstances should be expected to average about the mid-point of the range (8.5 percent). Such pay-rate increases are viewed as substantial restraint, particularly in the face of recent increases in consumer prices.

As the Pay Advisory Committee recommended, § 705.10(a) provides for a range of annual pay-rate increases of 7.5 percent to 9.5 percent. Section 705.10(a) further provides that compliance units implementing increases within the range but in excess of 8.5 percent should follow the procedures at § 706.24 of the Council's procedural rules. Exceptions are available for pay-rate increases in excess of the pay range; since there will be pay increases below 8.5 percent, the Council believes that the economy-wide pay increases should average about the Pay Advisory Committee's objectives. In addition, the Committee has recommended, and the Council has accepted, the principle that increases generated by cost-of-living formulas in multi-year contracts should be evaluated using a 7.5-percent inflation assumption rather than the 6 percent used in the first program year.

While these changes affect only a portion of the pay standard and procedural rules, for convenience the

Council is publishing Subpart 705B in its entirety. The major modifications adopted today on an interim final basis are as follows:

Section 705.10 (formerly 705B-1) is revised by deleting 7 percent and substituting the 7.5-percent-to-9.5-percent range and by specifying the criteria on which pay adjustments normally are based. Settlements or wage determinations in normal circumstances should be expected to average about the mid-point of the range (8.5 percent). Increases above the mid-point require notification to the Council under new Section 706.24 of the procedural rules.

In § 705.12 (formerly 705B-3), the inflation assumption is changed from 6 percent to 7.5 percent. The first year of a multi-year agreement should conform with the criteria outlined for the second program year and the collective-bargaining agreement should continue the historical relationship of deferred increases to first-year increases. Conforming changes in § 705.13 (formerly 705B-4) and § 705.15 (formerly 705B-6) reflect the new pay standard.

Certain portions of § 705.13 (formerly 705B-4) that are no longer applicable in the second program year are being deleted—namely, the exclusion of pay-rate increases dictated by the continuation of a formal annual pay plan in operation as of October 1, 1978, and the exclusion of pay-rate increases communicated to employees before that date.

The Council is also modifying the criteria for an acute-labor-shortage exception by deleting the requirement that the local Employment Service Agency certify that a shortage for the particular job category exists. Applicants must, however, show that the requested pay rate for the shortage category is comparable to the pay rate in the relevant labor market. Section 707.33 is revised to reflect these changes.

The Council is adding a new exception category to correct the inequities between workers covered by COLA clauses and those not covered by such provisions during the first program year. These issues have been considered under the gross inequity/undue hardship exception during the interim period.

These modifications of the pay standard and regulations are effective October 1, 1979—the beginning of the second program year—and supersede the interim rules authorizing a self-administered one-percent non-COLA catch-up for complying units. Carryover, however, is permitted as part of, or in addition to, the pay standard. Since these changes do not provide for any greater restraint than was called for by

the interim rules, the Council believes that no one is adversely affected by the retroactive application of these changes.

The Council will be publishing questions and answers on the revised standard and procedures, including any issues that may have developed under the interim-period rules. The Council requests interested parties to submit proposed questions and answers regarding issues that they think require clarification. Until further notice, existing questions and answers interpreting the first-year standard continue in effect unless they are inconsistent with the specific provisions contained herein.

Finally, the Council is publishing these materials on an interim final basis since many companies have a need to know and must be able to rely on the second-year pay standard. The Council has provided a 30-day comment period rather than the customary 60-day period, since it is important to receive any public comments as soon as possible so that any changes may be made rapidly. Companies may rely fully on these interim final changes to Parts 705, 706, and 707 until these materials are modified.

(Council on Wage and Price Stability Act, Pub. L. 93-387 (August 24, 1974), as amended by Pub. L. 94-78 (August 9, 1975) and Pub. L. 95-121 (October 5, 1977), (12 U.S.C. 1904 note); as last amended by Pub. L. 96-10 (May 10, 1979); E.O. 12092 (November 1, 1978); E.O. 12161 (September 28, 1979))

Issued in Washington, D.C., March 13, 1980.

R. Robert Russell,

Director, Council on Wage and Price Stability.

Accordingly, Parts 705, 706, and 707 of Title 6 CFR are amended as set forth below:

I. Subpart B of Part 705 is revised on an interim final basis to read as follows:

PART 705—ANTI-INFLATIONARY PAY AND PRICE STANDARDS

* * * * *

Subpart B—The Pay Standard

- Sec.
- 705.10 Pay Standard.
 - 705.11 Employee units.
 - 705.12 Application of the Pay Standard to Collective Bargaining Agreements.
 - 705.13 Application of the Pay Standard to Employees Not Under Collective Bargaining Agreements.
 - 705.14 Pay Standard for Future-Value Incentive Plans.
 - 705.15 Maintenance of Health Plan Benefits.
 - 705.16 Changes in Pension Funding Costs.
 - 705.17 Low-Wage Exemption.
 - 705.18 Tandem Pay-Rate Changes.
 - 705.19 Pay-Rate Increases Traded for Productivity Improving Work-Rule Changes.

Sec.

- 705.20 Pay-Rate Increases Attributable to Acute Labor Shortages.
 705.21 Pay-Rate Increases to Correct COLA-Related Inequities.
 705.22 Undue Hardship and Gross Inequity.
Authority. Council on Wage and Price Stability Act, Pub. L. 93-387 (August 24, 1974), as amended by Pub. L. 94-78 (August 9, 1975) and Pub. L. 95-121 (October 5, 1977), (12 U.S.C. 1904 note); as last amended by Pub. L. 96-10 (May 10, 1979); E.O. 12092 (November 1, 1978); E.O. 12161 (September 28, 1979)

Subpart B—The Pay Standards**§ 705.10 Pay standard.**

(a) For each employee unit, the annual pay-rate increase should be no more than an amount within a range of 7.5 percent to 9.5 percent. In the normal circumstance, annual pay-rate increases should be expected to average about the midpoint of the range (8.5 percent). Compliance units implementing a pay-rate increase above the midpoint should follow the procedures under § 706.24.

(b) Pay adjustments in normal circumstances under paragraph (a) of this section should be based on the following criteria: cost-of-living (and any provisions in the pay arrangements relating to cost-of-living adjustments), ability to pay, profits, competitive conditions, productivity, labor availability, comparable compensation in other establishments, etc.

§ 705.11 Employee units.

For the purpose of establishing compliance with the pay standard, a compliance unit must identify three types of employee units: (a) Each group of the compliance unit's employees subject to a collective bargaining agreement to which the compliance unit (or the company of which it is a part) is a party constitutes a separate employee unit, (b) All management employees not under a collective bargaining agreement constitute an employee unit, and (c) All other employees constitute an employee unit.

A compliance unit need not identify separately collective bargaining units accounting for less than 5 percent of its employees. However, if a collective bargaining unit is not separately identified, the workers must be included in the management or "all other employees" category.

§ 705.12 Application of the pay standard to collective bargaining agreements.

(a) A compliance unit complies with the pay standard if the annual rate of pay-rate change over the life of each collective-bargaining agreement negotiated during the program year is no more than provided for in § 705.10(a).

(b) The first year of a multi-year agreement should conform to the second year pay standard and the collective bargaining agreement should continue the historical relationship of deferred increases to first-year increases.

(c) For purposes of determining whether the annual rate of pay-rate change complies with the pay standard, formulas for cost-of-living adjustments should be computed on the assumption of a 7.5 percent annual rate of inflation in the Consumer Price Index over the life of the contract.

(1) This assumption cannot be used if:

- (i) A new cost-of-living provision is established that makes payments only after the Consumer Price Index has increased by some minimum amount;
- (ii) An existing cost-of-living provision is modified to begin making payments only after the Consumer Price Index has increased by some minimum amount;
- (iii) The Consumer Price Index minimum amount in an existing cost-of-living provision of the type described in paragraph (c)(1)(i) of this section is increased; or
- (iv) The duration of the contract is one year or less.

(2) Cost-of-living adjustment provisions that are not permitted to be evaluated using the 7.5 percent inflation assumption should be evaluated using the actual rate of inflation. Contracts with such clauses should be in compliance with the pay standard at the end of each year of the contract.

(d) The cost of private fringe benefit programs should be measured by employer contribution rates.

(e) Pay-rate increases dictated by agreements signed prior to October 25, 1978, are exempted from the pay standard.

(f) A contract that includes a provision for a future wage reopening will be assumed to be terminating on that date.

(g) The effects of legitimate promotions and increases under pre-existing incremental pay plans and practices are excluded from computations for the purpose of measuring compliance with the pay standard.

§ 705.13 Application of the pay standard to employees not under collective bargaining agreements.

(a) A compliance unit complies with the pay standard if, for each employee unit, the increase in the pay rate from the base quarter to the last quarter of the program year is no more than provided for in § 705.10(a).

(b) Alternatively, compliance may be determined by computing pay-rate changes for the fixed population of

continuing employees employed in the beginning and end of the program year. In this case, pay-rate increases may exclude the effects of legitimate promotions and increases under pre-existing incremental pay plans and practices.

(c) In determining compliance under paragraph (a) of this section, adjustments may be made for shifts in the composition of the work force among distinct functional employee subgroups within the employee unit.

§ 705.14 Pay standard for future-value incentive plans.

(a) A future-value incentive plan is any long-term plan under which the compensation value of the units (such as shares, stock options, and awards) granted or issued will not be known until some future time.

(b) Any such units granted or issued before October 25, 1978, under such plans are not subject to the pay standard.

(c) The average number of units per recipient granted or issued in the program year under any continuation of, or modification to, existing plans or creation of successor plans may not exceed one plus the percent provided for in § 705.10(a) multiplied by—

(1) The average number granted or issued in the twelve-month period prior to the program year, or

(2) The annual average of the units granted over the last five years, whichever is greater.

(d) With respect to plans covered by paragraph (c) of this section, any spread between an option or purchase price and fair market value at the time of the grant is included as pay.

(e) For any new plans introduced during the program year for which there is no historical precedent, companies should place a value on units granted or issued in the program year consistent with generally accepted accounting practices and include these amounts in pay.

§ 705.15 Maintenance of health plan benefits.

Changes in the costs of maintaining existing health benefits up to and including the rate of pay increase implemented under § 705.10(a) are charged against the pay standard; any additional costs of maintaining existing health benefits are excluded from computations for purposes of measuring compliance with the standard. Any changes in costs due to changes in benefits should be included as pay-rate changes.

§ 705.16 Changes in pension funding costs.

For pension plans that pay specified benefits at retirement (qualified defined-benefit plans), changes in employer costs due to (a) changes in funding methods, (b) changes in amortization periods, (c) changes in actuarial assumptions, and (d) plan experience (other than year-to-year wage or salary changes) are not included as pay-rate changes. Changes in employer costs due to plan amendments, changes in the benefit structure, or changes in benefit levels due to wage or salary changes are included as pay-rate changes.

§ 705.17 Low-wage exemption.

(a) Employee units with an average straight-time hourly wage rate of \$5.35 or less during the third quarter of 1979 are exempt from the pay standard in the second program year.

(b) Individual employees in other employee units who were earning \$4.00 or less per hour in straight-time wages on October 1, 1978, may be either excluded from or included in all pay-rate computations for the second program year. If such employees are included, any portion of their pay-rate increases that exceeds the pay standard should be excluded in determining compliance. Employers should also be prepared to demonstrate that, if low-wage employees are included, they are being treated equitably.

§ 705.18 Tandem pay-rate changes.

Pay-rate changes in an employee unit that have been linked regularly to pay-rate changes in another employee unit or groups of employee units will be excepted if the leader is in compliance with or exempt from the pay standard and the pay-rate change of the follower unit maintains the historical relationship. This exception also may be applied when pay-rate changes in an employee unit have been linked regularly to a survey of pay-rate changes in an identified labor market. In order to establish such linkage, the parties must be able to demonstrate that the past pay-rate changes in the follower unit have been substantially equivalent over a period of years to pay-rate changes in the leader unit, group of units, or identified labor market. Employee units need not be in the same company, industry, or geographical area to establish a relationship.

§ 705.19 Pay-rate increases traded for productivity improving work-rule changes.

In determining compliance, that part of a pay-rate change that is in return for changes in contractual work-rules and practices that improve productivity may

be deducted from the total pay-rate change. In order to comply in this manner, it must be demonstrated that the cost reductions generated by the work-rule changes are equal to or greater than the excess of the pay-rate change over the pay standard.

§ 705.20 Pay-rate increases attributable to acute labor shortages.

Where pay-rate increases in excess of the pay standard are necessary to attract or retain employees in a particular job category because of an acute labor shortage, the amount of such excess may be excepted if all of the following conditions are met:

(a) The proportion of vacancies relative to the work force or the number of vacancies during the preceding quarter has increased abnormally over that experienced during the past two years;

(b) The time required to fill vacancies during the preceding quarter has increased abnormally over that required during the past two years, despite intensive recruiting;

(c) Pay rates for the shortage category in the relevant labor market have increased abnormally over the past two years; and

(d) The requested pay rate for the shortage category is comparable to the pay rate in the relevant labor market.

§ 705.21 Pay-rate increases to correct COLA-related inequities.

The Council may grant an exception for increases in excess of the pay standard that are necessary to restore equity with wages of comparable groups of employees, occasioned by the operation of COLA clauses.

§ 705.22 Undue hardship and gross inequity.

The Council may grant an exception from the application of the pay standard or may make appropriate adjustments in the standard if its application would cause undue hardship or gross inequity.

(a) An undue hardship exists if application of the pay standard would seriously threaten the company's financial viability.

(b) A gross inequity is any situation that, in the Council's judgment is manifestly unfair.

PART 706—PROCEDURAL RULES

2. Section 706.24 is added to read as follows:

§ 706.24 Notification of pay-rate increases.

When a compliance unit implements a pay-rate increase under § 705.10(a) that is within the range but exceeds 8.5

percent, and the affected employee unit includes 100 or more employees in a compliance unit with (or that is part of a company with) 1,000 or more employees, or the affected collective bargaining agreement covers 1,000 or more employees, regardless of the number of employees in an individual company's employee units, the compliance unit should notify the Council of such action.

3. Section 706.32 is revised to read as follows:

§ 706.32 Grounds for exceptions.

The grounds for an exception to the price standard are contained in § 705.6 and § 705.41. The grounds for an exception to the pay standard are contained in §§ 705.13 through 705.22.

PART 707—DATA REQUESTS

4. Section 707.33 is revised to read as follows:

§ 707.33 Acute-labor shortage exceptions.

For an exception to the pay standard based on pay-rate changes needed because of acute labor shortages (§ 705.20), a compliance unit should submit:

(a) Documentation that, for the particular job categories, the proportion of vacancies relative to the work force and the time or effort required to fill them have increased abnormally during the preceding quarter relative to the two prior years;

(b) Documentation that pay rates for employees in those job categories have increased abnormally over the two prior years and that the requested pay rates for the shortage categories are comparable to pay rates in the relevant labor market;

(c) Documentation of the proportion of the compliance unit's work force that would be affected; and

(d) An estimate of the effect that the exception would have on the compliance unit's pay rates.

5. Section 707.40 is added to read as follows:

§ 707.40 Pay-rate increases to correct COLA-related inequities.

For an exception to the pay standard based on pay-rate increases to correct COLA-related inequities (Section 705.21), a compliance unit should submit:

(a) Documentation that the employee unit was not covered by a cost-of-living clause in the first program year;

(b) Documentation that the employee unit was in compliance with the pay standard during the first year;

(c) Documentation that pay-rate increases provided for in § 705.10(a) would be inadequate to compensate for

the fact that either (1) the non-COLA employee unit's wages have been compressed in comparison with COLA-covered employees within the same company (intra-firm inequities) or (2) the employer is competing in a labor market in which other employers provide COLA or COLA-related increases to their employees (intra-firm inequities).

6. Part 707 Subpart E is added to read as follows:

Subpart E—Data Submissions With Respect to Pay-Rate Increases Within the Range, but Above 8.5 Percent

§ 707.50 Pay-rate increases above 8.5 percent.

Compliance units covered by § 706.24 should promptly notify the Council of the following:

(a) Identification of the affected employee unit,

(b) The number of employees in the employee unit, and

(c) The total pay-rate percentage change for single year pay plans with the cost analysis of the increases in individual elements of pay compared with the base pay rate, or

(d) The average annual percentage pay-rate change and the percentage pay-rate change for each year of multi-year pay plans and collective bargaining agreements with the cost analysis of the increases in individual elements of pay compared with the base pay rate.

BILLING CODE 3410-30-M

NUCLEAR REGULATORY COMMISSION

10 CFR Part 9

Privacy Act Regulations; Notice of Exemptions

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Nuclear Regulatory Commission is publishing exemptions as provided under the Privacy Act of 1974. This amendment of the Commission's regulation "Public Records" exempts from certain requirements of the Privacy Act portions of a new system of records "Document Control System, NRC-29."

EFFECTIVE DATE: April 17, 1980.

FOR FURTHER INFORMATION CONTACT: Joseph M. Felton, Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Telephone: 301-492-7211.

SUPPLEMENTARY INFORMATION: The Nuclear Regulatory Commission published a notice of proposed exemptions which would exempt from the Privacy Act portions of a proposed new system of records "Document Control System" in the Federal Register on August 28, 1979 (44 FR 50353). The notice invited public comment on the proposed exemptions by September 27, 1979. No comments were received on the proposed exemptions. The NRC is now publishing a final rule exemption to NRC-29. Simultaneously with the publication of this rule, the final rule creating the new Document Control System is being published.

The amendment of § 9.95 of 10 CFR Part 9 set forth below exempts from certain requirements of the Privacy Act portions of the system of records NRC-29.

Specific exemptions from the requirements of the Privacy Act pertaining to proposed NRC-29 are intended to prevent access to records that contain information specifically authorized under Executive Order (E.O.

12065) to be kept secret in the interest of the national defense and foreign policy.

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and sections 552 and 553 of Title 5 of the United States Code, the following amendment to Title 10, Chapter I, Code of Federal Regulations, Part 9, is published as a document subject to codification.

PART 9—PUBLIC RECORDS

1. Section 9.95 is amended by adding a new paragraph (n) to read as follows:

§ 9.95 Specific exemptions.

Pursuant to 5 U.S.C. 552a(k), portions of the following systems of records are exempt from 5 U.S.C. 552a(c)(3); (d); (e)(1); (e)(4)(G), (H), (I); and (f) and are subject to the provisions of § 9.61 of this part:

* * * * *
(n) Document Control System.

BILLING CODE 7590-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 275

[Docket No. RM79-3]

Final Part 275 Regulations Under the Natural Gas Policy Act of 1978

AGENCY: Federal Energy Regulatory Commission.

ACTION: Order on Rehearing of Order No. 34.

SUMMARY: On June 14, 1979 (44 FR 34475), Order No. 34 was issued in Docket No. RM79-3 by the Federal Energy Regulatory Commission (Commission). Order No. 34 issued final regulations in Part 275 of the Commission's regulations. Part 275 deals with Commission review of jurisdictional agency determinations regarding the appropriate classification of natural gas under Natural Gas Policy Act of 1978 (NGPA). In this order on rehearing, the Commission hereby amends § 275.204(f) to expand the notice requirements for a filed protest to a

Notice of Determination to require that such notice be served upon "any persons who submitted or who sought an opportunity to submit written comments" as well as upon participants in the proceeding before the jurisdictional agency, as originally required. Further, § 275.206 has been amended to require that the Commission's notice to a submitter of information under § 274.104(a)(4) that such information will be made public be sent by telegram.

EFFECTIVE DATE: August 13, 1979.

FOR FURTHER INFORMATION CONTACT:

Mark Magnusson, Office of the General Counsel, 825 North Capitol Street, NE., Room 4016-I, Washington, D.C. 20426, (202) 357-8511.

Order on Rehearing of Order No. 34

Issued August 13, 1979.

On June 14, 1979, Order No. 34 was issued in Docket No. RM79-3 by the Federal Energy Regulatory Commission (Commission). Order No. 34 issued final regulations in Part 275 of the Commission's regulations. Part 275 deals with the Commission's review of jurisdictional agency determinations of the appropriate classification of natural gas wells under the Natural Gas Policy Act of 1978 (NGPA). One application for rehearing was filed, by the Indicated Producers, on July 13, 1979.

Indicated Producers also filed, on February 28, 1979, an application for rehearing of the entire interim regulations. In that first application for rehearing, Indicated Producers alleged ten separate errors in the part 275 regulations. In its second application for rehearing, two more errors were alleged, and the previously alleged errors were incorporated by reference.

I. The February 28, 1979 Application for Rehearing

Almost all of the issues raised in Indicated Producers' first application for rehearing were addressed either in the preamble to the interim rules or the preamble to Order No. 34. However, certain other issues were not addressed; the Commission does so in this order on rehearing.

First, Indicated Producers claims that § 275.202(b) is unlawful. That section of the regulations authorizes the Commission to issue an "incomplete notice" if the jurisdictional agency's notice is inadequate. The Commission recognizes that the limited statutory

grounds for reversal or remand¹ do not include those listed in § 275.202(b)(1).²

However, the issuance of an incomplete notice does not have the same effect as a reversal or remand. A reversal would terminate a producer's right to continue making interim collections. A remand would have the same effect after six months. See § 273.203(b)(2). An incomplete notice simply gives a jurisdictional agency a chance to correct certain deficiencies, and thus the statutory standards for reversal or remand do not apply. If the omission is not corrected, remand or reversal on the statutory grounds would be appropriate.

Further, the Commission is statutorily authorized, under section 503(a)(2) of the NGPA, to require, by rule, the information which must be submitted in the notice of determination. The incomplete notice is simply an extension of that authority, to enable the Commission to expeditiously exercise its review function.

Second, Indicated Producers claim that § 275.202(f), which involves the procedures following the issuance of a preliminary finding, does not allow interested parties to be formally apprised of the views of Staff or to respond to those views. Such is not the case. The Commission specifically expresses its views in the Notice of Preliminary Finding, and interested parties are allowed to respond in the informal conference provided for in § 275.202(d). Thus the rule will not be changed.

Indicated Producers did make one suggestion in its first application for rehearing that should be adopted. Section 275.204(f) requires a person who files a protest to a Notice of Determination to file that protest with all participants at the jurisdictional agency proceeding. However, Indicated Producer points out that § 274.104(a)(1) requires the Notice of Determination to include the names of all participants "as well as any persons who submitted or who sought an opportunity to submit written comments." The Commission agrees with Indicated Producers that all persons listed pursuant to § 275.104(a)(1) should be notified by the protestor of the protest. Therefore, § 275.204(f) has been amended accordingly.

II. The July 13, 1979 Application for Rehearing

As stated previously, Indicated Producers raised two additional issues

¹ See Section 503(b) (1) and (2) of the NGPA.

² § 275.202(b)(1) allows an Incomplete Notice to be sent if "all the material information required in § 274.104(a) (4) and (5)" is not included in the Notice of Determination.

in its second application for rehearing. The first involves § 275.205(d), which allows the Commission to include a refund obligation in a final order which reopens a final determination.³ The Indicated Producers assert that "the producer/applicant may be ordered to refund monies some or all of which are later determined by subsequent well determination to have been lawfully collected." The Commission disagrees with this statement, because if a final determination is subsequently reopened by final Commission order, any rate collected pursuant to the reopened determination which is in excess of the otherwise applicable rate was not lawfully collected. Absent a valid final determination, the rate for the gas is controlled by either section 104, 105, 106 or 109 of the NGPA. See § 273.302(g)(2). The effect of a reopening is to negate the determination *ab initio*. Thus, a Commission ordered refund may be appropriate upon the reopening of a final determination.

Indicated Producers also object to the change made in Order No. 34 involving the notice provisions of § 275.206(b). That section sets forth the procedure that will be followed by the Commission upon a request under the Freedom of Information Act (FOIA), 5 U.S.C. 552, for information submitted in a notice of determination. The last sentence of § 275.206(b) now provides that five days notice will be given to the party submitting the information. Prior to Order No. 34 the notice period was ten days. The time period was shortened because the FOIA requires that non-exempt requested information must be divulged within ten days of the request, unless a written extension is submitted to the party requesting the information on one of the grounds enumerated in 5 U.S.C. 552(a)(6)(B). Since providing ten days notice to the party submitting the information is not one of the enumerated grounds for extending the ten day period for divulging the information, the notice period will remain five days. However, the Commission agrees that § 275.206(b) should provide for notice by telegram, and the rule will have been amended accordingly.

The Commission Orders

The Application of Indicated Producers for rehearing of Order No. 34 is granted in part and denied in part.

(Natural Gas Act, as amended, 15 U.S.C. § 717, Department of Energy Organization

³ The Commission may reopen a determination if the determination was based on material misstatement or omission. See Section 503(d) of the NGPA.

Act, 42 U.S.C. § 7171, Natural Gas Policy Act of 1978, 15 U.S.C. § 3301)

For the reasons set forth above, the regulations of the Commission are amended as set forth below, effective for protests and FOIA requests filed thirty days after the issuance of this order.

By the Commission.

Kenneth F. Plumb,

Secretary.

1. Section 275.204 is amended by revising paragraph (f) to read as follows:

PART 275—COMMISSION DETERMINATIONS AND REVIEW OF JURISDICTIONAL AGENCY DETERMINATIONS

§ 275.204 Contents of protests to the Commission.

(f) A statement that the protestor has served, in accordance with §§ 1.17 and 1.51 of this chapter, a copy of the protest together with all supporting documents on the jurisdictional agency and all persons listed in the notice of determination pursuant to § 274.104(a)(1) of this subchapter.

2. Section 275.206 is amended in paragraph (b) by adding the following sentence to the end thereof:

§ 275.206 Confidentiality.

(b) * * * Such notice shall be sent to telegraph.

BILLING CODE 6450-85-M

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration

20 CFR Parts 404 and 416

[Regulations Nos. 4, 16]

Substantial Gainful Activity Earnings Guidelines for 1980

AGENCY: Social Security Administration, HEW.

ACTION: Interim regulations.

SUMMARY: These interim regulations increase the money amounts used as guidelines to determine whether persons with impairments other than blindness are able to do substantial gainful activity. For calendar year 1980, we are increasing the amount at the upper level from \$280 per month to \$300 per month and at the lower level from \$180 to \$190 per month. These increases reflect general increases in average earnings levels of workers in the national labor

market. Under the new guidelines, we will ordinarily consider a person's monthly earnings from work activity averaging more than the upper level amount as showing that he or she has the ability to do substantial gainful activity. Similarly, we will ordinarily consider an employee's monthly earnings from work activity averaging less than the lower level amount as showing that he or she has not done substantial gainful activity.

ADDRESSES: Send your written comments to the Commissioner of Social Security, Department of Health, Education, and Welfare, P.O. Box 1585, Baltimore, Maryland 21203.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Information, Social Security Administration, Department of Health, Education, and Welfare, North Building, room 1169, 330 Independence Avenue, SW., Washington, D.C. 20201.

DATES: The regulations are effective on an interim basis starting January 1, 1980. We must receive your comments no later than May 19, 1980 to consider them in establishing the final rule.

FOR FURTHER INFORMATION CONTACT: David Smith, Office of Regulations, Social Security Administration, 6401 Security Boulevard, Baltimore, Maryland 21235, telephone 301-594-7336.

SUPPLEMENTARY INFORMATION: These interim regulations increase the earnings guidelines we use to evaluate the work activity of claimants and beneficiaries with impairments other than blindness under titles II and XVI of the Social Security Act. We use these guidelines to determine whether an individual has the ability to do substantial gainful activity (SGA).

Under the increased guideline amounts, we will consider a person's earnings from work activity averaging more than \$300 a month in calendar year 1980 and later years as showing that he or she is able to do SGA, unless there is other evidence that the person is not able to do SGA. The present dollar amounts at the upper level of the guidelines for calendar years before 1980 contained in §§ 404.1534(b)(1) and 416.934(b)(1) will continue to be applied in evaluating earnings for those years.

Under the increased guideline amounts, we will consider an employee's earnings from work activity averaging less than \$190 a month in calendar year 1980 and later years as showing he or she did not do SGA, unless there is other evidence to the

contrary. The present dollar amounts at the lower level of the guidelines for calendar years before 1980 contained in §§ 404.1534(b)(2) and 416.934(b)(2) will continue to be applied in evaluating earnings for those years.

Where a person's monthly earnings from work activity average between the upper and lower levels of the guidelines, inclusively, other circumstances concerning the person's work and medical restrictions will be evaluated together with the amount of earnings to determine whether he or she is able to do SGA.

The increased guideline amounts reflect the general rise in earnings levels of workers in the national economy. The new amounts also maintain the same relationship to earnings levels which has existed in the past. The upper level amount was determined by multiplying \$280 (the 1979 upper level amount) by 1.079410 (the ratio of the average of the total wages (as defined in § 404.1049(b)) reported for 1978 to those reported for 1977). This produced the amount of \$302.23, which was rounded to \$300, the nearest multiple of \$10. The 1980 lower level amount was determined by multiplying \$180 (the 1979 lower level amount) by the same ratio. This produced the amount of \$194.29, which was rounded to \$190.

We will use the new guideline amounts to determine whether earnings from work activity in calendar year 1980 and subsequent calendar years show SGA. Any claim involving earnings in those years will be considered on the basis of the increased guideline amounts. We are publishing these rules as interim regulations before we receive public comments so that we can apply them in making SGA determinations beginning 1980. For this reason, we believe that it would be impracticable and contrary to the public interest to delay issuance of these interim rules pending receipt of public comment.

To show the increased guideline amounts in the regulations, we are amending § 404.1534 applicable to the Federal Old-Age, Survivors and Disability Benefits program and § 416.934 applicable to the Supplemental Security Income for the Aged, Blind, and Disabled program.

The interim regulations are to be issued under the authority in sections 205, 223, 1102, 1614, and 1631 of the Social Security Act; 53 Stat. 1368, as amended, 70 Stat. 815, as amended, 49 Stat. 647, as amended, and 86 Stat. 1471, 1475, as amended; 42 U.S.C. 405, 423, 1302, 1382c, and 1383.

(Catalog of Federal Domestic Assistance Program Nos. 13.802 Social Security-

Disability Insurance; 13.807 Supplemental Security Income)

Dated: February 25, 1980.

William J. Driver,

Commissioner of Social Security.

Approved: March 11, 1980.

Patricia Roberts Harris,

Secretary of Health, Education, and Welfare.

Chapter III of Title 20 of the Code of Federal Regulations is amended as follows:

1. In § 404.1534, paragraph (b)(1) is amended by revising paragraph (b)(1)(v), redesignating paragraph (b)(1)(vi) as (b)(1)(vii) and adding a new paragraph (b)(1)(vi). Paragraph (b)(2) is amended by revising paragraph (b)(2)(v), redesignating paragraph (b)(2)(vi) as (b)(2)(vii) and adding a new paragraph (b)(2)(vi) to read as follows:

PART 404—FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

§ 404.1534 Evaluation of earnings from work.

(b) *Earnings guidelines.* * * *

(1) *Earnings that will ordinarily show that a person has done substantial gainful activity.* We will ordinarily consider that a person's earnings from work activity show that he or she has done substantial gainful activity if * * *

(v) Earnings averaged more than \$280 a month in calendar year 1979; or

(vi) Earnings averaged more than \$300 a month in calendar years after 1979; and

(vii) There is no evidence that the person was unable to do substantial gainful activity under the rules in §§ 404.1532 and 404.1533 and paragraph (a) of this section.

(2) *Earnings that will ordinarily show that a person has not done substantial gainful activity.* We will ordinarily consider that a person's earnings from work activity as an employee show that he or she has not done substantial gainful activity if * * *

(v) Earnings averaged less than \$180 a month in calendar year 1979; or

(vi) Earnings averaged less than \$190 a month in calendar years after 1979; and

(vii) There is no evidence that the person was able to do substantial gainful activity under the rules in §§ 404.1532 and 404.1533 and paragraph (a) of this section.

2. In § 416.934, paragraph (b)(1) is amended by revising paragraph (b)(1)(v), redesignating paragraph (b)(1)(vi) as (b)(1)(vii) and adding a new paragraph (b)(1)(vi). Paragraph (b)(2) is

amended by revising paragraph (b)(2)(v), redesignating paragraph (b)(2)(vi) as (b)(2)(vii) and adding a new paragraph (b)(2)(vi) to read as follows:

PART 416—SUPPLEMENTAL SECURITY INCOME FOR THE AGED, BLIND, AND DISABLED

§ 416.934 Evaluation of earnings from work.

(b) *Earnings guidelines.* * * *

(1) *Earnings that will ordinarily show that a person has done substantial gainful activity.* We will ordinarily consider that a person's earnings from work activity show that he or she has done substantial gainful activity if * * *

(v) Earnings averaged more than \$280 a month in calendar year 1979; or

(vi) Earnings averaged more than \$300 a month in calendar years after 1979; and

(vii) There is no evidence that the person was unable to do substantial gainful activity under the rules in §§ 416.932 and 416.933 and paragraph (a) of this section.

(2) *Earnings that will ordinarily show that a person has not done substantial gainful activity.* We will ordinarily consider that a person's earnings from work activity as an employee show that he or she has not done substantial gainful activity if * * *

(v) Earnings averaged less than \$180 a month in calendar year 1979; or

(vi) Earnings averaged less than \$190 a month in calendar years after 1979; and

(vii) There is no evidence that the person was able to do substantial gainful activity under the rules in §§ 416.932 and 416.933 and paragraph (a) of this section.

BILLING CODE 4110-07-M

BOARD FOR INTERNATIONAL BROADCASTING

22 CFR Parts 1300, 1301, 1302 and 1303

Rules of Procedure; Radio Free Europe and Radio Liberty

AGENCY: Board for International Broadcasting.

ACTION: Final rulemaking.

SUMMARY: The Board for International Broadcasting (BIB) is adopting regulations to govern the manner in which its functions shall be carried out with particular respect to Radio Free Europe and Radio Liberty (RFE/RL, Inc.)

These regulations ensure the continuation of RFE/RL, Inc. as independent broadcast media with professional independence. They also prescribe the manner in which the Board for International Broadcasting will encourage efficient and economical utilization of resources by RFE/RL, Inc.; how it will assess the quality, effectiveness and professional integrity of RFE/RL broadcasting; how it will assure that grants provided to RFE/RL are applied in a manner not inconsistent with the broad foreign policy objectives of the United States; and how it will assure that grants to RFE/RL are applied for purposes intended by the grants.

Additionally, this document transfers into 22 CFR Chapter XIX BIB declassification, Privacy Act and Government in the Sunshine Act regulations appearing in 1 CFR Parts 415 and 416 and 32 CFR Part 2600.

EFFECTIVE DATE: February 21, 1980.

FOR FURTHER INFORMATION CONTACT: Arthur D. Levin, Budget & Administrative Officer, Board for International Broadcasting, Suite 430, 1030 15th Street, N.W., Washington, D.C. 20005, telephone 202-254-8040.

SUPPLEMENTARY INFORMATION: These regulations are published as final rulemaking without previous publication in proposed form since officers of RFE/RL, Inc., the organization to which the regulations will apply, have been consulted in connection with their preparation and have participated in their final development and because there is involved a foreign affairs function of the United States Government. Therefore, the requirement of publication for proposed rulemaking purposes under 5 U.S.C. 553(b) is not applicable to these regulations.

1. Therefore, there is established in Title 22 of the Code of Federal Regulations a new Chapter XIII, Board for International Broadcasting, consisting of the following Part 1300, Rules of Procedure.

PART 1300—RULES OF PROCEDURE

Sec.

1300.1 Purpose.

1300.2 Organization of the Board for International Broadcasting.

1300.3 Staff of the Board.

- 1300.13 Reorganization of RFE/RL operations and changes in charter of by-laws.
- 1300.14 Government relations.
- 1300.15 Relations with foreign governments and international organizations.
- 1300.16 Research, studies and progress reports.
- 1300.17 Procurement and ownership of equipment.

Appendix A—Additional reports to be submitted

Authority: Pub. L. 93-129; 22 U.S.C. 2873(a)(10).

§ 1300.1 Purpose.

(a) These regulations are adopted by the Board for International Broadcasting (BIB) pursuant to authority granted to it by Pub. L. 93-129 (22 U.S.C. 2871 et seq.).

(b) These regulations carry out the statutory mandate of the Board for International Broadcasting to insure the continuation of Radio Free Europe and Radio Liberty (RFE/RL, Inc.) as independent broadcast media with professional independence. They also provide the regulatory framework to enable the BIB to encourage the most efficient and economical utilization of resources by RFE/RL, to assure that grants provided by BIB to RFE/RL are applied in accordance with the purposes for which such grants are made, to assess the quality, effectiveness and professional integrity of RFE/RL broadcasting, and to assure that Federal grants are applied in a manner not inconsistent with the broad foreign policy objectives of the United States Government.

§ 1300.2 Organization of the Board for International Broadcasting.

(a) The Board for International Broadcasting is composed of seven members, two of whom are *ex officio* members. The five voting members are appointed by the President subject to confirmation by the Senate. Voting members are appointed for a term of three years. Not more than three voting members can be of the same political party. The chief operating executive and the Chairman of the Board of RFE/RL, Inc. are the *ex officio* members and participate in the deliberations of the Board for International Broadcasting, but do not vote in the determinations made by the Board. The terms of the *ex officio* members are concurrent with their tenure as officers of RFE/RL, Inc.

(b) A member of the Board for International Broadcasting is designated by the President to serve as Chairman. In the case of a vacancy in the office of the Chairman of the Board, or in the prolonged absence of the Chairman, the Board may designate one of its members

to serve as Acting Chairman for such time as may be necessary. The Chairman of the Board for International Broadcasting shall have the following duties and responsibilities:

(1) To call and preside at all meetings of the Board, or in his or her own temporary absence, to designate a Board member to so preside.

(2) To appoint standing or ad hoc committees comprised of one or more Board members.

(3) To represent the Board and RFE/RL in all matters relating to legislation and legislative reports.

(4) To represent the Board and RFE/RL in all matters requiring conferences or communications with officers, departments or agencies of the United States Government as well as foreign governments.

(5) To represent the voting members of the Board in matters requiring conferences or communications with RFE/RL.

(c) The Board shall hold formal meetings no less than four times in a calendar year and such meetings shall be held at the Board's offices in Washington, D.C. unless the Board determines otherwise. Meetings will be called by the Chairman or will be held at the request of any three voting members of the Board upon timely notice to other Board members.

(d) Three voting members constitute a quorum for the conduct of business. Actions of the Board shall be taken by a vote of at least three of the voting members. Members absent from a meeting may register their agreement or disagreement with Board decisions in writing or by telephone, to be included in the minutes of the meeting.

(e) Agendas for the Board meetings are prepared by the Executive Director with the concurrence of the Chairman or Board members convening the meeting and shall be received by members at least three working days before the meeting. Minutes of all meetings shall be prepared and distributed to Board members.

(f) In periods between meetings, the Chairman, any Board member or the Executive Director may poll the Board on matters requiring action before the next Board meeting, either in writing or by telephone, and Board action may be taken upon the concurrence of three voting members.

§ 1300.3 Staff of the Board.

(a) The Board may appoint such staff personnel as may be necessary subject to the provisions of Title 5, United States Code, governing appointments in the competitive service.

(b) There shall be an Executive Director appointed by the Board and responsible thereto and who is under the direct supervision of the Chairman. The Executive Director shall direct the activities of subordinate staff and shall monitor compliance by RFE/RL with the provisions of law and these regulations.

(c) The Board may delegate authority to its staff, through the Executive Director, to act on such matters which do not require the action of the Board or which may require immediate action. Any actions taken under delegated authority are subject to review by the Board. The Executive Director may refer any matter at any stage to the Chairman or to the full Board upon concluding that it involves matters warranting the Board's consideration, and the Board may instruct him to do so in specific instances.

(d) The functions of each staff member shall be described in a position description which shall be maintained on file in the Board's offices.

§ 1300.4 Annual report.

(a) The BIB shall publish an annual report subject to the concurrence of a majority of its voting members. Members of the Board who dissent from the majority shall have their views published as part of the BIB Annual Report if they so request.

§ 1300.5 Independence of RFE/RL, Inc.

(a) RFE/RL, Inc. shall be operated by its management in a manner not inconsistent with the broad foreign policy objectives of the United States. The BIB shall not impose any prior constraint on programming, on the preparation of broadcast materials or on the manner in which those materials are broadcast by RFE/RL.

(b) Where information and advice is relayed to the BIB by the Secretary of State in accordance with Section 6 of Pub. L. 93-129, which advice could likely render actions by RFE/RL to be inconsistent with the foreign policy objectives of the United States, the BIB shall convey this advice to RFE/RL, the management of which will take appropriate action based on such advice.

(c) RFE/RL is responsible for requesting the advice of the BIB on operating matters which in its judgment raise questions concerning the broad foreign policy objectives of the United States and the BIB will consult with the Secretary of State on such matters and advise RFE/RL.

§ 1300.6 Mission statement and policy guidelines.

(a) After consultation with RFE/RL and the Department of State, the BIB shall prepare a statement defining the mission of the radios and appropriate language priorities. Any change in the statement must be approved by a majority of the Board.

(b) After consultation with and subject to the concurrence of the BIB, the management of RFE/RL shall prepare such program policy guidelines as may be necessary to sound and effective conduct of the broadcasting operations.

(c) RFE/RL management is responsible for assuring compliance of its operations with the policy guidelines and shall promptly inform the BIB of any violations of the policy guidelines, and of the remedial actions it has taken as a result.

(d) Where BIB has found a violation of the mission statement or policy guidelines by RFE/RL, and no corrective action has been taken, the Executive Director shall inform the chief operating executive of RFE/RL of the violation, and, if he concurs in the finding, the chief operating executive shall take appropriate remedial action to preclude such violation in the future. He shall inform the Executive Director of the action taken.

(e) In the event the chief operating executive of RFE/RL does not concur in the BIB's finding of a violation or does not take the aforesaid remedial action, the matter will be presented at the next regularly scheduled meeting of the BIB for determination. Staff members of RFE/RL as well as staff members of the BIB involved in the subject matter of the violation shall be invited to participate in the discussion.

(f) The decision of the voting members of the BIB as to any such violation will be final and the Board shall direct remedial action which shall be carried out forthwith by the chief operating executive of RFE/RL.

(g) Where in the judgment of the Board it is desirable to do so, the Chairman may provide a report to the President and to the Congress as to a violation of mission statement or policy guidelines and of the steps taken to remedy the violation. The Chairman may suggest modifications in the authority of the BIB to assure that violations of a similar nature will not occur in the future.

§ 1300.7 Program evaluation.

(a) The BIB shall evaluate the operations of RFE/RL to assess the quality, effectiveness and professional integrity of its broadcasts. Such

evaluation will be made within the context of the statement of mission and the program policy guidelines.

(b) The BIB shall organize, at appropriate intervals, meetings and conferences to review RFE/RL programming. At least two voting Board members shall be present at such conferences. Timely notification shall be given to RFE/RL management and the RFE/RL board of directors of such conferences so as to permit the participation of program personnel. The BIB may at its discretion invite others, inside or outside the U.S. Government, to participate in such conferences or attend them as observers.

(c) The BIB will issue a written report on such conferences, including a summary of any specific requests or recommendations to RFE/RL, and within ninety days of receipt of such a report RFE/RL will inform the BIB in writing of actions taken or proposed to be taken pursuant to the BIB's recommendations.

(d) So that program evaluation by the BIB can be undertaken, the reports specified in Appendix A to this part shall be submitted to the BIB by RFE/RL as of the times and at intervals as specified in Appendix A to this part.

§ 1300.8 Languages of broadcast.

(a) The BIB shall review and approve changes in the roster of broadcast languages, or significant changes in the duration of broadcasting in any language, after holding consultations with appropriate persons in the Executive and/or Legislative Branches. The BIB shall also review and approve significant changes in the number of transmitters and total power allocated to each language, and in the scheduling of such allocations. In its review, the Board will be guided by the mission statement and the Board's evaluation of conditions in the audience area.

§ 1300.9 Personnel.

(a) RFE/RL shall be responsible for the appointment, assignment, promotion and separation of its employees and such personnel actions, with the exceptions noted below in paragraph (e) of this section, shall not require concurrence of the BIB.

(b) The Chairman of the BIB shall be an *ex officio* member of the Board of Directors of RFE/RL and its Executive Committee. He shall be a voting member of its Nominating Committee for the nomination of officers and, for the purpose of confirming or rejecting appointments to the positions enumerated in paragraph (e)(1) of this section, of the RFE/RL Executive Committee. Only those nominations

made with the unanimous consent of members of the Nominating Committee may be presented to the Board of Directors of RFE/RL for action. The By-laws of RFE/RL, Inc. will be amended to conform to this paragraph.

(c) Appointments to the Board of Directors of RFE/RL, to the positions of Chairman and Vice Chairman of the Board, to membership on the Executive Committee of the RFE/RL Board, to any officership of the RFE/RL corporation and to the positions of Director of the RFE Division and Director of the RL Division shall be made only upon the recommendation of the Nominating Committee.

(d) The officers of RFE/RL, Inc. specified in paragraph (c) of this section, including the Directors of the RFE and RL Divisions, shall be chosen annually by the RFE/RL Board of Directors upon recommendation of the Nominating Committee.

(e) Selections to the positions specified herein may be made by the management of RFE/RL only if, at least 15 days prior to final selection, the management of RFE/RL shall inform the Executive Committee of the Board of Directors of RFE/RL, Inc., including the chairman of the BIB, of the name of the nominee and relevant work related information concerning such nominee. A member of the Executive Committee may, within five business days of such notification, raise an objection to the proposed selection and request a meeting of the Executive Committee to discuss his or her objections. The Executive Committee shall confirm or reject the proposed appointment by majority vote within five business days after the objection has been raised.

(1) The positions covered by this provision are those named herein or any other position which is substantially identical functionally to the positions named herein regardless of title. The positions are: Directors of the five East European Broadcast Services; Director of the Russian Service; Director of the Nationalities Service; Directors of the RFE and RL Area Research and Audience Research Departments; Director of the Broadcast Analysis Department; Director of the Central News Division and Director of Administration.

(2) Any change in the function of these positions, or the establishment of any new positions at comparable levels of responsibility, shall be reported by RFE/RL to the BIB. Such new positions may be designated by the BIB as requiring action by the RFE/RL Executive Committee before appointment is made thereto.

(f) All appointments of members and officers of the RFE/RL Board, and appointments to such other positions as the BIB shall designate among those enumerated above in this Section, and such other positions as may be designated by the RFE/RL management, shall be subject to security clearance through the BIB.

(g) Within 120 days after the beginning of each fiscal year, RFE/RL shall provide the BIB with a complete roster of all personnel by position and title employed by RFE/RL stating citizenship, date of birth, date of hire, pay plan under which the employee is compensated, grade level and such information on personal compensation, including all allowances and special benefits, as the BIB shall specify. For foreign locations, the report shall provide current information at appropriate local currencies, with dollar equivalents calculated at exchange rates specified by the BIB.

(h) RFE/RL shall provide the BIB copies of all substantive communications made to management, or general announcements to employees, by labor unions, works councils and other employee organizations as well as copies of all substantive correspondence addressed by management to such organizations.

(i) Personnel actions shall be free from any discrimination on the basis of race, color, sex, age, religion or national origin.

§ 1300.10 Budget development and execution.

(a) During June of the year preceding the beginning of the fiscal year to which the budget applies, RFE/RL shall make a detailed oral presentation of projected budget requirements for each element of the RFE/RL operations to the Chairman and staff of the BIB. Written materials on which the oral presentation is based shall be submitted to the BIB at least ten working days beforehand.

(b) The budget presentation specified in paragraph (a) of this section shall be consistent with guidelines presented to RFE/RL by the BIB, as soon as practicable, based on the ceiling established by the Office of Management and Budget (OMB).

(c) Based on the BIB guidelines, the OMB ceiling, and the budget decisions resulting from the presentation specified in paragraph (a) of this section, RFE/RL shall submit to the BIB a formal budget request in August of each year, and the BIB shall arrange for RFE/RL to present and defend its budget before the voting members of the BIB. All written materials for such a budget hearing shall be submitted to the BIB at least seven

working days beforehand. RFE/RL shall restructure the budget request in accordance with directions received at such hearings.

(d) The BIB will present the budget to OMB for approval and subsequently present it to the authorization and appropriations committees of the Congress. In making such presentations, representatives of the BIB will be accompanied by the chief operating executive of RFE/RL, or his or her designee, a representative of the RFE/RL Board and a representative of its financial management staff.

(e) Expenditures during a fiscal year by RFE/RL shall correspond to planned spending as reflected in the final budget as approved by the Congress, and on or before October 1 of each year, RFE/RL shall submit to BIB a fiscal year financial plan which provides, on a quarterly basis, projected expenditures by object class for each of its programs and activities.

(1) For each object class line item budgeted for the fiscal year of more than \$25,000, any reprogramming of funds in any fiscal quarter in excess of \$50,000 or 10% of the budgeted amount for that quarter, whichever is less, shall require prior approval of the BIB.

(2) Quarterly financial reports to the BIB will show all cases where object class line item expenditures during the quarter deviated from the budgeted amount by more than \$50,000 or 10% of the budgeted amount, whichever is less, and will include an explanation for the deviations and, when the line item amount for the fiscal year exceeds \$25,000, either a request for reprogramming authority or a plan for offsetting the deviation in the succeeding fiscal quarter or quarters shall be submitted.

§ 1300.11 Access to information and premises.

(a) RFE/RL shall keep such records as prescribed by law and by the regulations and shall provide the BIB any and all such records and documents concerning its operations, including but not limited to information on corporate, financial, personnel, engineering, research and technical matters necessary to carry out the purposes of the regulations as may be requested from time to time by the BIB. Members, staff and consultants of the BIB shall have access to any information in the records of RFE/RL and access to RFE/RL premises or sites at reasonable times it may deem necessary. The Board will make every effort to assure that its requests for information and for access to premises and sites shall provide sufficient time for RFE/RL to respond

thereto in an orderly fashion without disruption of the business of RFE/RL.

(b) Appendix A to these regulations sets out certain reports which are to be provided by RFE/RL to the BIB and the time reporting period. Appendix A is a part of these regulations and shall have the same force and effect as if set out fully herein. Certain additional financial reporting requirements may be added from time to time to Appendix A and will be made an integral part of these regulations.

§ 1300.12 Financial oversight.

(a) Funds will be granted to RFE/RL by the BIB to support international radio broadcasting activities and all expenditures by RFE/RL under such grants shall be made in accordance with requirements of Office of Management and Budget Circular No. A-110.

(b) The grant agreement between the BIB and RFE/RL will incorporate financial requirements to be placed on the grantee and RFE/RL shall be bound by such grant agreement.

(c) RFE/RL shall keep such financial records as would be maintained by a prudent business organization and which will fully disclose the amount and disposition of funds granted to it by the BIB, including records showing the total costs of its programs for which grants are provided, and that portion of its expenditures, if any, supported by other sources of funds. In addition, RFE/RL will keep all financial records as required by the BIB.

(d) RFE/RL shall maintain separate accountability for funds granted to it by the BIB and shall not directly or indirectly commingle funds or accounts or combine the financing of its international radio broadcasting with those of any other of its operations, if any.

(e) For any construction program, RFE/RL shall submit to the BIB the Outlay Report and Request for Reimbursement for Construction Programs in Office of Management and Budget Circular No. A-110.

(f) To assure that the legislative intent of economy, efficiency and effectiveness in operations is met, RFE/RL shall submit to the BIB its proposals for capital expenditures, consultant or professional services, or lease arrangements under the following conditions:

(1) Copies of all draft contracts or proposals for a capital expenditure exceeding \$25,000 in any single fiscal year; of any proposed lease agreements for business premises, in the United States or overseas, for a period of more than two years or at an annual rental exceeding \$25,000.

(2) Copies of any solicitations by RFE/RL of consultant or professional services, and draft contracts for such services, including legal, actuarial and other noneditorial services with any person or organization which exceed \$25,000 in any single fiscal year.

(3) No contract described in paragraph (f) (1) and (2) of this section shall be entered into by RFE/RL without the prior written approval of the BIB.

(4) The dollar limitations in paragraph (f) (1) and (2) of this section may be reviewed periodically at the request of either BIB or RFE/RL.

(g) Reports on the management of foreign currency shall be governed by special agreement between the Board and the Office of Management and Budget and RFE/RL shall comply fully and promptly with all requirements of such agreement.

(h) Copies of all annual, quarterly, monthly or other periodic financial report, projection, statement or audit prepared by or on behalf of RFE/RL shall be submitted to BIB promptly upon issuance.

(i) Copies of all public solicitations made by or on behalf of RFE/RL Fund, Inc. shall be submitted to the BIB upon issuance and on a quarterly basis, reports shall be submitted by RFE/RL on the receipts and expenditures of the Fund.

(j) RFE/RL shall make available for public inspection during normal business hours at its principal offices in the United States, a complete list of every person and government making a contribution to RFE/RL or to the RFE/RL Fund, Inc. during the fiscal year preceding the making of any grant to it by the BIB and the fiscal year in which the grant is to be made, the address of the person or government making the contribution, and the date the contribution was made.

(k) The Comptroller General of the United States or his representative shall have access for the purpose of audit and examination to any book, document, paper and record of RFE/RL.

§ 1300.13 Reorganization of RFE/RL operations and changes in charter or by-laws.

(a) Any proposed major change in the organizational alignment of RFE/RL offices, programs or activities shall be presented as part of the RFE/RL budget presentation specified in § 1300.10 of these regulations so that they may be presented, if concurred in by the BIB, to the OMB and the relevant Congressional Committees in connection with the BIB appropriation request.

(b) Major organizational changes in RFE/RL shall include the addition or

elimination of languages, significantly altering broadcast transmitter time or power allocation among the languages, major structural reorganizations including the addition or elimination of departments, divisions or functions and any substantial relocation of offices, broadcast services or other significant activities. Proposals for such major changes must be presented to and concurred in by BIB.

(c) The Charter and By-laws of RFE/RL, Inc. are incorporated by reference in these regulations as if fully set out herein, and the BIB shall be informed of and provide its concurrence in any proposed change in the Charter or By-laws before such changes may be made effective by RFE/RL.

(d) The BIB Statement of Mission and the RFE/RL Program Policy Guidelines are incorporated by reference in these regulations as if fully set out herein.

§ 1300.14 Government relations.

(a) Relations within the Executive Branch, the Congress and with foreign governments on matters arising under the Board for International Broadcasting Act are the primary responsibility of the BIB and shall be carried out by the BIB.

(b) The BIB encourages contacts by RFE/RL Board members and staff with members and staff of Congress and officials of Federal government agencies, including U.S. diplomatic personnel overseas, in order to increase knowledge and understanding of the operations of RFE/RL. Where matters involving budget, proposals for legislative change or other matters of substance are raised, prompt reports of such discussions shall be made by RFE/RL representatives through RFE/RL management to the Executive Director or Chairman of the BIB.

(c) Discussion of budget proposals, legislative changes or other pending legislation is the primary responsibility of the BIB. RFE/RL officials and staff shall not initiate discussion on these matters with members of Congress, their staff, or Executive Branch officials including U.S. diplomatic personnel overseas, until they have discussed the purpose and substance of the proposed initiative with the BIB Chairman or Executive Director.

(d) To provide for a full exchange of information, it is the policy of the BIB that RFE/RL and BIB officials shall exchange memoranda setting forth relevant details of any substantive conversations which they have with members of Congress, their staff and officials of the Executive Branch on matters related to BIB and/or RFE/RL affairs.

(e) Nothing herein shall be construed to limit the normal exercise of professional duties by RFE/RL news, research and program personnel. The BIB supports, and when requested shall attempt to facilitate, full and unimpeded access by such personnel to officials of the Executive Branch and the Congress for interviews, news conferences, background briefings and all other legitimate journalistic purposes.

§ 1300.15 Relations with foreign governments and international organizations.

(a) Relationships with foreign governments on other than day-to-day operating matters is reserved to the BIB, in conjunction with the Department of State. The BIB will issue on request a blanket authorization for RFE/RL contacts with foreign government personnel which are of a routine nature. Any substantive contacts in person or writing on other than day-to-day matters with officials of foreign governments by officers, Board members or employees of RFE/RL, including contacts regarding licenses and agreements, shall have prior approval of the BIB. In each instance where approval is granted, the BIB shall be immediately apprised of the nature and substance of conversations and correspondence with representatives of foreign governments in sufficient detail to enable the BIB to take appropriate action. Any substantive communication from an official of a foreign government to RFE/RL shall be immediately transmitted to the BIB.

(b) The BIB, in conjunction with the Department of State, will exercise sole responsibility for formal relations with international organizations which are within the scope of the Bureau of International Organization Affairs.

§ 1300.16 Research, studies and progress reports.

(a) The BIB may direct and the RFE/RL shall undertake such studies as in the judgment of the BIB may identify areas where operations may be made more efficient and economical.

(b) RFE/RL management shall promptly transmit to the BIB progress reports made to management on on-going audience research or other studies, whether requested by BIB or undertaken by RFE/RL. In connection with studies involving collection of survey data for the purpose of audience estimates, RFE/RL shall notify BIB of the scope and timing of the project, including details of the methodology, and shall notify BIB when interviewing and analysis of data are completed, and when an initial submission is made to

RFE/RL management of an audience estimate report.

(c) Additional research reports and documents to be supplied by RFE/RL to the BIB are included in Appendix A.

§ 1300.17 Procurement and ownership of equipment.

(a) The BIB is authorized under 22 U.S.C. 2872(c) to procure supplies, services and other personal property, including specialized electronic equipment, and in consultation with and at the request of RFE/RL will use its authority to purchase for use by RFE/RL electronic equipment, title to which shall remain with the United States Government.

Appendix A—Additional Reports To Be Submitted

A. The following reports and documents shall be submitted by RFE/RL to BIB on the schedule shown below:

(1) *Corporate Information.* (a) Proposed agendas of meetings of the Board of Directors of RFE/RL or of any of its committees and any documents, reports, draft resolutions or exhibits prepared for such meetings shall be submitted at least three working days prior to such meetings, and minutes of such meetings shall be submitted as prepared.

(b) To the extent and the manner required by the provisions of § 1300.9, all relevant biographical information available concerning individuals being considered for appointment to such positions.

(2) *Technical and Program Information To Be Supplied as Prepared.* (a) Copies of proposed transmitter schedules, propagation charts, monitoring data, equipment specifications and records, studio schedules and other information relating to the technical operation of RFE/RL, Inc.

(b) Copies of daily broadcast analyses of all languages of broadcast; and of monthly, quarterly and annual statistical and/or content analyses of RFE/RL programs. Management shall also promptly inform the BIB when, in its judgment, any broadcast may have been wholly or in part in violation of the program policy guidelines and/or inconsistent with broad U.S. foreign policy objectives. In connection with such violations, RFE/RL shall promptly supply the Board with tapes, scripts, copies of any evaluations of such broadcasts by policy, research or program officers, and a report on the actions taken by management to prevent a recurrence of such violations.

(c) Copies of all program schedules, and of any proposals for significantly revising such schedules which might have substantial budgetary impact.

(d) Copies of any translations made into English of any broadcast.

(e) Copies of all reports made on programming on behalf of management by RFE/RL, Inc. employees, consultants or panels.

(f) Copies of significant articles, or texts of radio or television broadcasts, dealing with RFE and RL program content, whether in the United States, in the broadcast area, or elsewhere overseas; English translations of

such articles or texts shall be supplied whenever available.

(g) Upon request, after-broadcast copies of tapes and scripts, copies of news items, features, correspondent reports, policy guidances and other material distributed by the news division, policy officers, or research units to programmers; relevant content-monitoring tapes, texts and (as available) translations of same.

(3) *Research Materials.* (a) Copies of all area-research and audience-research reports, including reports submitted to management, immediately upon completion, and, if requested, copies of raw data and computer printouts.

(b) To the extent provided for in § 1300.16(b), copies of plans or proposals for new area-research or audience-research projects, specifically including audience-research questionnaires and details of survey methods.

(c) Copies of any proposal, draft agreement or draft contract providing for collaboration of the various research departments or any of its principal specialists with outside institutes, academic institutions, governmental agencies, survey organizations or commercial publishers.

(d) Copies of any proposal, plan or directive committing any of the various research units, or any of its principal specialists, to sustained work supported by RFE/RL funds which is not primarily designed to serve the daily broadcast needs of RFE and RL.

(4) *Assistance to Congressional Inquiries.*

(a) Upon request, RFE/RL management shall promptly provide the BIB with any or all information available to it which may be necessary for the BIB to respond satisfactorily to inquiries raised by committees of Congress, individual Members or their staffs in the course of hearings, in committee reports, or in other written communications.

1 CFR PARTS 415 AND 416 (CH. IV) [REDESIGNATED 22 CFR PARTS 1301 AND 1302 (CH. XIII)]

2. Regulations codified as Part 415, Board for International Broadcasting (Privacy Act of 1974), and Part 416, Rules for implementing open meetings within the Board for International Broadcasting, of Title 1 CFR Chapter IV are redesignated as Parts 1301 and 1302 respectively of Title 22 CFR Chapter XIII.

32 CFR PART 2600 (CH. XXVI) [REDESIGNATED 22 CFR PART 1303 (CH. XIII)]

32 CFR CH. XXVI [VACATED]

John A. Gronouski,
Chairman.

3. The regulations codified in Part 2600, Declassification, of Title 32 CFR Chapter XXVI is redesignated as Part

1303 of Title 22 CFR Chapter XIII, and Chapter XXVI is vacated.

February 21, 1980.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 5

[T.D. 7672]

Tentative Refund Under Claim of Right Adjustment; Correction

AGENCY: Internal Revenue Service, Treasury.

ACTION: Correction, temporary regulations.

SUMMARY: This document contains corrections to a previously published Treasury decision in order to correct a date in three separate places. The Treasury decision prescribes rules for applying for a tentative refund under a claim of right adjustment.

EFFECTIVE DATE: The regulation applies to applications for tentative refund filed after November 5, 1978.

FOR FURTHER INFORMATION CONTACT: Richard L. Mull of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224. Attn: CC:LR:T (LR-46-79), 202-566-3458, not a toll-free call.

SUPPLEMENTARY INFORMATION:

Background

On February 7, 1980, the Federal Register published T.D. 7672 (45 FR 8295), which prescribes rules for applying for a tentative refund under a claim of right adjustment (26 CFR Part 5). The application for the tentative refund is filed under section 6411(d) of the Internal Revenue Code of 1954.

Need for Correction

The full text of T.D. 7672 begins at 45 FR 8295. The text contains an incorrect date in the fourth full paragraph in the second column on page 8295 and in the heading and the first sentence of paragraph (c)(2) of § 5.6411-1 on page 8296. The correct date which should have been inserted in the text is February 7, 1980, the date of publication of the Treasury decision in the Federal Register.

Drafting Information

The principal author of these corrections is Richard L. Mull of the Legislation and Regulations Division,

Office of Chief Counsel, Internal Revenue Service.

Correction of Publication

Accordingly, FR Doc. 80-4002 (45 FR 8295) is amended by the following corrections:

1. In the fourth full paragraph in the second column on page 8295, the date "April 7, 1980", in the seventh line is corrected to read "February 7, 1980".
2. In the heading and first sentence of paragraph (c)(2) of § 5.6411-1 on page 8296 the date "April 7, 1980" is corrected to read "February 7, 1980".

Dated: March 13, 1980.

Robert A. Bley,
Director, Legislation and Regulations
Division.

BILLING CODE 4830-01-M

DEPARTMENT OF DEFENSE

Office of the Secretary

32 CFR Part 169

[DoD Directive 4100.15]¹

Commercial or Industrial Type Activities

AGENCY: Office of the Secretary of Defense.

ACTION: Final rule.

SUMMARY: The Department of Defense revised its rules regarding commercial and industrial type activities to conform with and implement the policies of OMB Circular A-76 and its Supplement No. 1. The Department of Defense reaffirms the Government's general policy of reliance on the private sector for commercial or industrial activities while recognizing that Government personnel must perform intrinsic governmental functions and must consider cost-effectiveness.

EFFECTIVE DATE: February 4, 1980.

FOR FURTHER INFORMATION CONTACT: Mr. Robert T. Mason, Office of the Deputy Assistant Secretary of Defense (Supply, Maintenance and Transportation), OASD(MRA&L), The Pentagon, Telephone: 202-695-0037/0337.

SUPPLEMENTARY INFORMATION: In FR Doc. 79-35151, appearing in the *Federal Register* (44 FR 65601) on November 14, 1979, the Office of the Secretary of Defense published Part 169 as a proposed rule to provide more definitive

guidelines to ensure consistency and equity to all parties in its implementation. The Office of the Defense previously published Part 169 in FR Docs. 67-10186 (32 FR 12607), August 31, 1967; 69-6119 (34 FR 8107) May 23, 1969; and 71-10943 (36 FR 14184) July 31, 1971. No substantive comments from the public sector were received; however, some internal DoD Components' comments and editorial changes were incorporated in the final rule.

Accordingly, 32 CFR Chapter I, is amended by revising Part 169, reading as follows:

PART 169—COMMERCIAL OR INDUSTRIAL TYPE ACTIVITIES

Sec.

- 169.1 Reissuance and purpose.
- 169.2 Applicability and scope.
- 169.3 Policy.
- 169.4 Responsibilities.
- 169.5 Definitions.

Authority: The provisions of this Part 169 issued under Title 5, U.S.C. 301 and 552, and Pub. L. 93-400.

§ 169.1 Reissuance and purpose.

This part is reissued to accommodate substantive changes required by OMB Circular No. A-76, "Policies for Acquiring Commercial or Industrial Products and Services Needed by the Government," March 29, 1979; and prescribes DoD policy for the establishment and operation of DoD commercial and industrial-type activities (CITA).

§ 169.2 Applicability and scope.

(a) The provisions of this part apply to the Office of the Secretary of Defense (OSD), the Military Departments, the Organization of the Joint Chiefs of Staff, the Unified and Specified Commands, and the Defense Agencies (hereafter referred to as "DoD Components").

(b) Its provisions encompass DoD policy for the establishment and operation of CITAs by DoD Components in the United States, its territories and possessions, and the Commonwealth of Puerto Rico.

(c) Its provisions further encompass the establishment (new start) or expansion of Government-Owned, Contractor-Operated (GOCO) commercial and industrial activities.

(d) This part does not apply to:

(1) Governmental functions, including discretionary application of Government authority, and monetary transactions and entitlements.

(2) Expert and consulting services of a purely advisory nature relating to the

governmental functions of DoD Component administration and management and program management. Assistance in the management area may be provided either by Government staff organizations or private sources, in accordance with DoD Directive 1442.4, "Procurement of Temporary and Intermittent Services of Experts and Consultants," January 11, 1965.

(3) Nonappropriated Fund Instrumentalities.

(4) Research, development, test, and evaluation (RDT&E) activities, whose funds are required to be authorized by 10 U.S.C. 138(a)(2). This exclusion does not apply to operation or support of installations or equipment used for RDT&E, such as facility and equipment maintenance, which are subject to the provisions of this Part under Pub.L. 96-107, section 802 (1979).

(e) Further, this Part shall not be applied when to do so would be contrary to law, or inconsistent with the terms of any treaty or international agreement.

(f) This Part is subject to any restrictions that may be imposed by Congress in annual Defense Appropriation Authorization or Appropriation Acts. Guidance for compliance with any such restrictions shall be provided in Part 169a of this title.

§ 169.3 Policy.

(a) It is the policy of the Government to rely on competitive private enterprise to supply the products and services it needs. This policy is reaffirmed in OMB Circular A-76, which also recognizes that governmental functions must be performed by Government personnel, that some functions must be performed by Government personnel to support national defense, that in some instances there may be no satisfactory private, commercial source available, and that proper attention must be given to relative cost.

(b) In conformance with this policy, the Department of Defense shall depend upon both Government and private, commercial sources for the provision of products and services to meet its military readiness requirements with maximum cost effectiveness as follows:

(1) No DoD Components shall engage in or contract for commercial or industrial activities except in accordance with the provisions of this Part or as otherwise provided by law. DoD CITAs may be authorized when it is determined that one or more of the following circumstances exist:

(i) The Government's cost for providing a product or service can be shown by a cost comparison analysis,

¹ Copies may be obtained, if needed, from the U.S. Naval Publications and Forms Center, 5801 Tabor Avenue, Philadelphia, PA 19120. Attention: Code 301.

conducted in accordance with OMB Circular A-76, to be lower than the commercial cost.

(ii) No satisfactory private, commercial source is available.

(iii) The DoD CITA is operated by military personnel who are assigned to the activity, and (A) the activity or military personnel assigned are utilized in or subject to deployment in a direct military combat support role; or (B) the activity is essential to training in exclusively military skills; or (C) the activity is needed to provide appropriate work assignments.

(iv) The DoD CITA provides depot or intermediate-level maintenance and the Secretary of the Military Department or the Director of the Defense Agency determines that the DoD CITA is required to support national defense, in accordance with criteria in Part 179 of this title.

(2) Specific justification for in-house performance must be documented and approved on a case-by-case basis. Part 169a provides guidance for determining whether a specific DoD CITA qualifies under one of these exceptions.

(3) Excess property or services available from other Federal agencies should be used in preference to new starts or new contracts, provided there is a formal program established for managing the excess capacity of the other Federal agencies, or the needed product or service cannot be obtained more economically from a private, commercial source.

(i) When a CITA operated by a DoD Component primarily to meet its own needs has excess capacity, that capacity can be used to provide products or services to other agencies, provided that it is done according to DoD Directive 4000.19,¹ "Basic Policies and Principles for Interservice, Interdepartmental and Interagency Support," March 27, 1972, and this Part.

(ii) All DoD CITAs providing products or services to other Federal agencies must be reviewed under this Part to determine whether continued in-house operation is justified.

(4) Implementation of this policy is subject to the following:

(i) This Part does not provide authority to enter into contracts. Guidelines governing contracting for goods and services are set forth in the Defense Acquisition Regulation.

(ii) This Part shall not be used as authority to enter into contracts that establish a situation tantamount to an employer-employee relationship between the Government and individual contract personnel. Additional guidance

on this subject is in the Federal Personnel Manual issued by the Office of Personnel Management.

(iii) This Part shall not be used to justify a conversion to contract solely to meet personnel ceilings or to avoid salary limitations. When in-house performance of a new start or expansion is justified under this Part but cannot be accommodated within DoD Component personnel ceilings, an appeal for necessary adjustment to the Component's personnel ceiling shall be made to the OSD in connection with the annual budget review process.

(iv) Major system acquisitions are governed by the provisions of DoD Directive 5000.1,¹ "Major System Acquisitions," January 18, 1977. Reliance on the private sector is one of the general policies contained in DoD Directive 5000.1 to ensure competitive consideration of all alternatives before making a decision on the best method of satisfying a DoD Component's mission need.

(v) This Part applies to printing and binding only to the extent that the printing and binding by the DoD Component are exempted by law from the provisions of 44 U.S.C.

§ 169.4 Responsibilities.

(a) The Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) (ASD(MRA&L)) shall:

(1) Formulate and develop policy consistent with this Part for the DoD CITA program.

(2) Issue instructions to implement the requirements of this Directive.

(3) Maintain an inventory of DoD CITAs and contract support service functions.

(4) Monitor program implementation.

(5) Conduct, in collaboration with the Assistant Secretary of Defense (Comptroller), a continuing program for improving management and cost effectiveness in the performance of DoD CITAs and contract support service functions.

(6) Exempt selected DoD CITAs from review, as provided in paragraph 10.c.(5) of OMB Circular A-76.

(7) Establish the use of automatic data processing (ADP) for DoD CITA program surveillance and managerial control.

(8) Develop, register, coordinate, and maintain data elements for use in ADP systems and reporting in accordance with the requirements of the DoD Data Element and Data Code Standardization Program (DoD Directive 5000.11,¹ "Data Elements and Data Codes

Standardization Program," December 7, 1964.

(9) Approve requests for changes in each DoD Component's review schedule when it is determined that the change is in the best interest of the Government, as provided in paragraph 10.c.(4) of OMB Circular A-76.

(b) The Secretaries of the Military Departments and the Directors of Defense Agencies, shall:

(1) Implement this Part in accordance with the instructions issued by the ASD(MRA&L) under § 169.4(a)(2).

(2) Act for the Secretary of Defense in approving or disapproving new starts involving a capital investment or annual operating cost of \$500,000 or more. Further, they are authorized to redelegate approval and disapproval for new starts involving a capital investment or annual operating cost of \$500,000 or more, but not below the level of an Assistant Secretary or an official of equivalent rank.

(3) Have the authority to determine that certain DoD CITAs are required to support national defense. This authority may be redelegated, but not below the Assistant Secretary of the Military Department or equivalent level.

(4) Act for the Secretary of Defense in approving or disapproving requests to continue, expand, or convert DoD CITAs operated by their respective DoD Component. This authority may be redelegated but not below the level of commanding officer of a major command.

(5) Ensure that high standards of objectivity and consistency are maintained in conducting the reviews and in compiling and maintaining the inventory.

(6) Maintain the technical competence necessary to ensure effective and efficient management of the total DoD CITA program.

§ 169.5 Definitions.

(a) *DoD Commercial or Industrial-Type Activity.* An activity operated and managed by a DoD Component that provides a product or service obtainable from a private, commercial source. A representative but not comprehensive listing of the functions performed by such activities is provided in Part 169a. A DoD CITA can be identified with an organization or a type of work, but must be: (1) separable from other functions to be suitable for either in-house or contract; and (2) a regularly needed activity of an operational nature, not a one-time operational activity of short duration associated with support of a particular project.

(b) *Private, Commercial Source.* A private business, university, or other

¹ See footnote, page 1.

¹ See footnote 1, page 1.

¹ See footnote, page 1.

non-Federal activity located in the United States, its territories and possessions, or the Commonwealth of Puerto Rico that provides a commercial or industrial product or service required by Government agencies.

(c) *Governmental Function.* A function that must be performed in house due to a special relationship in executing governmental responsibilities. Such governmental functions can fall into several categories:

(1) *Discretionary application of Government authority,* as in investigations, prosecutions, and other judicial functions; management of Government programs requiring value judgements, as in directing the national defense; management and direction of the Military Services; conduct of foreign relations; selection of program priorities; direction of Federal employees; regulation of the use of space, oceans, navigable rivers, and other natural resources; direction of intelligence and counter-intelligence operations; and regulation of industry and commerce, including food and drugs.

(2) *Monetary transactions and entitlements,* as in Government benefit programs; tax collection and revenue disbursements by the Government; control of the public treasury, accounts, and money supply; and the administration of public trusts.

(d) *New Start.* A newly established DoD CITA, of any dollar value, including a transfer of work from contract to in-house performance. Also included is any expansion that would increase capital investment or annual operating cost by 100 percent or more. New start does not include interim in-house operation of essential services pending reacquisition of the services prompted by such action as the termination of an existing contract operation. Also not included are actions required solely to comply with the requirements of the National Environmental Policy Act or the Occupational Safety and Health Act.

(e) *Expansion.* The modernization, replacement, upgrade, or enlargement of a DoD CITA that involves adding a capital investment of \$100,000 or more or increasing the annual operating costs by \$200,000 or more, provided the increase exceeds 20 percent of the total investment or annual operating cost. A consolidation of two or more activities is not an expansion unless the total capital investment or annual operating cost exceeds the total from the individual activities by the amount of the threshold.

(f) *Conversion.* The transfer of work from a DoD CITA to a private, commercial source under contract.

O. J. Williford,

Director, Correspondence and Directives,
Washington Headquarters Services,
Department of Defense.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[FRL 1438-4]

Florida Implementation Plan; 1979 Plan Revisions

AGENCY: U.S. Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: EPA today announces its conditional approval of the State Implementation Plan (SIP) revisions which the Florida Department of Environmental Regulations (DER) submitted pursuant to the requirements of Part D of Title I of the Clean Air Act (CAA), as amended in 1977, with regard to nonattainment areas.

The State's 1979 revisions contain deficiencies which the State has agreed to correct by May 30, 1980. After receipt of the supplementary submittal, they will be the subject of another notice of proposed rulemaking. The Florida Implementation Plan revisions that EPA is conditionally approving are described below in the General Discussion.

DATE: This action is effective March 18, 1980.

ADDRESSES: Copies of the materials submitted by Florida and the comments received in response to the proposal notice of July 16, 1979 (44 FR 41254), may

be examined during normal business hours at the following locations:

Public Information Reference Unit, Library Systems Branch, Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460.

Library, Environmental Protection Agency, Region IV, 345 Courtland Street, N.E., Atlanta, Georgia, 30308.

FOR FURTHER INFORMATION CONTACT: Archie Lee, Region IV, Air Programs Branch, 345 Courtland Street, N.E., Atlanta, Georgia, 30308, 404/881-3286 (FTS 257-3286)

SUPPLEMENTAL INFORMATION:

Background

In the July 16, 1979, Federal Register (44 FR 41254) EPA proposed conditional approval of the Florida SIP revision for the following nonattainment areas. The only area in the State designated nonattainment for sulfur dioxide (SO₂) is:

The northwest corner of Pinellas County. Both primary and secondary short-term (24-hour and 3-hour, respectively) sulfur dioxide standards were violated.

The areas designated nonattainment (the same standard which serves as both the primary and secondary standard) for photochemical oxidants or "ozone" [O₃] are:

Duval County
Orange County
Pinellas County
Hillsborough County
Dade County
Broward County
Palm Beach County

Implementation plan revisions under Part D of Title I of the Clean Air Act were developed by the State for all the foregoing areas. These revisions were submitted for EPA's approval on April 30, 1979; further information was submitted on August 27, 1979 and January 23, 1980.

In addition to the above nonattainment areas, two (2) Florida counties contain portions which were designated nonattainment for only the short-term (24 hours) secondary standard for particulate matter (TSP). These are:

The downtown Jacksonville area located just north and west of the St. Johns River, east of I-95, and south of the Trout River.

That portion of Hillsborough County (Tampa) which falls within the area of the circle having a centerpoint at the intersection of US 41 and State Road 60 and a radius of 12 kilometers.

EPA has received a formal request from Florida for an 18-month extension (to July 1, 1980) to submit a revised SIP for these two areas. This request was made in accordance with 40 CFR 51.31

and EPA approved that request in the January 10, 1980, Federal Register (45 FR 2032).

As mentioned in the July 16, 1979, Federal Register proposing conditional approval of Florida's nonattainment plan, attainment status designations for Escambia and Broward Counties (originally designated "nonattainment" for ozone and carbon monoxide, respectively) are changed to "unclassifiable". These changes were proposed in the June 27, 1979, Federal Register (44 FR 37515) and approved in the November 2, 1979, Federal Register (44 FR 63104).

Receipt of the Florida revisions submitted April 30, 1979, was first announced in the Federal Register of May 21, 1979 (44 FR 29496).

The Florida revisions have been reviewed by EPA in light of the Clean Air Act, EPA regulations, and additional guidance materials. The criteria utilized in this review were detailed in the Federal Register on April 4, 1979 (44 FR 20372), and need not be repeated in detail here. Supplements to the April 4 notice were published on July 2, 1979 (44 FR 38583), August 28, 1979 (44 FR 50371), September 17, (44 FR 53761), and November 23, (44 FR 67182) 1979, involving, among other things, conditional approval. As stated in the July 16, 1979 Federal Register (44 FR 41254), Florida was to meet a deadline of December 15, 1979, for submitting materials satisfying the conditions of EPA's proposed conditional approval of the revised SIP. This deadline is being changed to May 30, 1980.

General Discussion

The July 16, 1979, notice of proposed rulemaking listed each of the provisions of Section 172(b) of the Clean Air Act accompanied by a discussion of the contents and adequacy of the Florida submittals. The nonattainment plan for the Pinellas County sulfur dioxide area was submitted to EPA on April 30, 1979. The plan demonstrates that the nonattainment problem is due to downwash of the plume from Stauffer Chemical Company's kiln stack. The State has submitted information which will require Stauffer to correct the downwash situation which should also correct the nonattainment problem.

EPA has reviewed the submittal and is today conditionally approving the plan based on the following deficiencies being corrected by May 30, 1980:

1. A commitment to update annually the emission inventory for the SO₂ nonattainment area and submit the data to EPA in order to determine if there is RFP.

2. A test method for determining SO₂ emissions for compliance with the SIP.

3. Enforceable SO₂ emission limits for processes at Stauffer Chemical Company.

In the proposal notice, another deficiency was listed regarding the failure to identify the growth plan for this area. The State has adopted a new source review program which has provisions for offsets in the nonattainment areas and meets the requirements of Section 173 of the Clean Air Act.

The nonattainment plans for the ozone nonattainment areas were also submitted to EPA on April 30, 1979. The following table lists the nonattainment area along with the percent reduction in hydrocarbon emissions needed to attain standards and the percent reduction projected to be achieved with the adopted requirements.

	Reduction needed (percent)	Reduction projected (percent)
Duval County	23.8	31.3
Orange County	20.0	24.9
Pinellas County	20.0	24.9
Hillsborough County	20.0	24.5
Dade County	11.1	22.2
Broward County	11.1	24.0
Palm Beach County	11.1	18.9

The State submittal of April 30, 1979, shows that the percent reductions projected to occur by 1982 are sufficient to attain standards in all ozone nonattainment areas before December 31, 1982, excluding projected inspection and maintenance reductions.

These reductions are going to be effected through the Federal Motor Vehicle Control Program, stationary source volatile organic compound (VOC) regulations, and mobile source transportation control measures (TCMs).

As noted in the "General Preamble for Proposed Rulemaking on Approval of Plan Revisions for Nonattainment Areas", 44 FR 20376 (April, 1979), ozone SIPs, such as Florida's must include RACT requirements for VOC sources covered by CTGs EPA issued by January, 1978. The General Preamble also required such SIPs to contain schedules to adopt and submit by each future January additional requirements for sources covered by CTGs issued by the previous January. The submittal date for the first set of additional RACT requirements was revised from January 1, 1980, to July 1, 1980, by Federal Register notice of August 28, 1979 (44 FR 50371). Today's approval of the ozone portion of the Florida plan is contingent on the submittal of these additional RACT regulations by July 1, 1980 (for CTGs published between January, 1978

and January, 1979). Also, by each subsequent January beginning January 1, 1981, RACT regulations for CTGs published by the preceding January must be included in the plan. The above requirements are set forth in the "Approval Status" section of this final rule. If the RACT requirements are not adopted and submitted to EPA according to the time frame set forth in the rule, EPA will take appropriate remedial action.

Florida's SIP revisions for the aforementioned ozone nonattainment areas are conditionally approved. The State must, as a condition of approval of the ozone nonattainment plan, submit the following by May 30, 1980:

Commitments and schedules for the TCMs developed by the nonattainment counties' metropolitan planning organizations (MPOs), if they are to be a part of this SIP (The State has indicated they would implement TCMs to insure reasonable further progress (RFP) and provide a margin for additional growth).

For the Broward and Dade County portions of the SIP, commitments to implement any TCMs must be submitted. For Dade, Broward, Palm Beach, Duval, Orange and Pinellas Counties, schedules for implementation of TCMs must be submitted. In addition, commitments from the appropriate responsible agencies to the implementation and enforcement of the measures and projected emission reductions from the measures must be submitted.

(2) A demonstration that positive long-term as well as short-term air quality benefits will be realized for those reasonably available TCMs which are contained in the Annual Element of the Transportation Improvement Plan and are included in the SIP.

(3) For Pinellas County transportation control plan, a signed Section 174 agreement.

(4) A signed Section 174 agreement for Dade County.

(5) A Section 174 agreement for Hillsborough County specifying an attainment deadline of December 31, 1982, rather than 1987.

(6) A commitment to report annually to EPA the RFP for the ozone nonattainment areas.

(7) Certification that not auto and light duty truck coating operations exist in the ozone nonattainment areas.

(8) With regard to the regulation for petroleum liquid storage, the State adopted a tank size cut-off of 42,000 gallons instead of a 40,000 gallon cut-off recommended in the EPA control techniques guidelines (CTGs). Therefore, the cutoff should either be revised or a demonstration that the impact on

emissions is insignificant (e.g., less than five percent of the controlled emissions from this category), that it impacts only less than 100-ton sources and is not necessary for attainment, or that the exemption is otherwise justified.

(9) With regard to the regulation for cutback asphalt, procedures to be used to monitor the application of cutback asphalt (i.e., how such regulation will be enforced). In addition, the State should revise the regulation or justify the exemptions for seal and tack coats or show that the impact on emissions is insignificant (i.e., less than five percent).

(10) Specific testing methods or procedures for determining whether the VOC sources are complying with the emission limitations in the SIP. This is needed for enforceability of the regulations.

In the proposal notice, another deficiency was listed regarding the State's plan for ozone being based on the 0.08 instead of 0.12 ppm standard. This item is deleted as a deficiency since the State can be more stringent than Federal requirements if they so desire.

The following deficiencies were described in the July 16, 1979, Proposed Rules notice regarding Florida's plan, but have been corrected by the Florida DER's August 27, 1979, and January 23, 1980 SIP revision submittal to EPA. The State submitted regulatory revisions to address each of the following deficiencies:

(1) The Lowest Achievable Emission Rate (LAER) must be required for affected sources which significantly impact a nonattainment area.

(2) The baseline for emission offsets cannot be the maximum allowable permitted emissions as stated in the April 30, 1979, SIP revision if the potential emissions of the affected offsetting source(s) are less than the allowable emissions.

(3) LAER must apply to sources which construct or modify in increments such that individually they would not be considered major for a particular pollutant, but the cumulative amount would make them a major source or major modification.

(4) Due to the "default" provision in the Florida Administrative Procedures Act (Fla. Stat. Ann. (120.60(2)(1978))) which states that any application not approved or denied within a 90-day or shorter period shall be deemed approved and a license issued, there is no assurance that the requirements contained in the nonattainment SIP revisions will be applied. A provision should be added to the new source review permitting regulations which requires that any such permit issued by default must also be formally approved by EPA before the permit is effective.

(5) The regulation for cutback asphalt

allows the use of cutback when the ambient temperature is less than 50 degrees F. The State should include the authoritative source of such temperature determination.

(6) A provision which would assure compliance with the reasonable further progress requirement under Section 172(b) of the Clean Air Act when offsets are needed by a source in order to construct and operate.

(7) A means by which spillage losses from bulk gasoline terminals can be quantified.

(8) A provision requiring submission of revised operating permits, for sources which have provided external offsetting emissions to sources permitted under the nonattainment rules, to EPA as SIP revisions.

(9) In the regulation for cutback asphalt, provision of an authoritative source of temperature determination.

Public Comments

The following comment addressed extending the comment period on the proposing rulemaking.

Comment: An extension of the public comment period until August 29, 1979, is necessary because of the complexity of the issues involved, the short duration of the comment period, and personal conflicts the commenter had with the comment period schedule.

Agency Response: The revised portion of the Florida SIP submitted by the State for approval has been on file since the notice of availability was published in the *Federal Register* on May 21, 1979 (44 FR 29496). The present version of the conditionally approved Florida nonattainment area SIP, including past revisions, has been maintained on file (EPA Washington Library and EPA Region IV Library) since that date. There is no justifiable reason for extending the comment period beyond that previously established.

The only other comments received were those which were requested by the commenters to be applied to all State submissions. The response to these comments for States in Region IV may be reviewed in the November 26, 1979 issue of the *Federal Register* starting at Page 67377.

Attainment Dates

The 1978 edition of 40 CFR Part 52 lists in the subpart for Florida the applicable deadlines for attaining ambient standards (attainment dates) required by Section 110(a)(2)(A) of the Act. For each nonattainment area where a revised plan provides for attainment by the deadlines required by section 172(a) of the Act, the new deadlines are substituted on Florida's attainment date chart in 40 CFR Part 52. The earlier attainment dates under Section 110(a)(2)(A) will be referenced in a

footnote to the chart. Sources subject to plan requirements and deadlines established under Section 110(a)(2)(A) prior to the 1977 Amendments remain obligated to comply with those requirements, as well as with the new Section 172 plan requirements.

Congress established new attainment dates under Section 172(a) to provide additional time for previously regulated sources to comply with new, more stringent requirements and to permit previously uncontrolled sources to comply with newly applicable emission limitations. These new deadlines were not intended to give sources that failed to comply with pre-1977 plan requirements by the earlier deadlines more time to comply with those requirements. As stated by Congressman Paul Rogers in discussing the 1977 Amendments:

Section 110(a)(2) of the Act made clear that each source had to meet its emission limits "as expeditiously as practicable" but not later than three years after the approval of a plan. This provision was not changed by the 1977 amendments. It would be a perversion of clear congressional intent to construe part D to authorize relaxation or delay of emission limits for particular sources. The added time for attainment of the national ambient air quality standards was provided, if necessary, because of the need to tighten emission limits or bring previously uncontrolled sources under control. Delays or relaxation of emission limits were not generally authorized or intended under part D. (123 Cong. Rec. 11 11958, daily ed. November 1, 1977).

To implement Congress' intention that sources remain subject to pre-existing plan requirements, sources cannot be granted variances extending compliance dates beyond attainment dates established prior to the 1977 Amendments. EPA cannot approve such compliance date extensions even though a Section 172 plan revision with a later attainment date has been approved. However, a compliance date extension beyond a pre-existing attainment date may be granted if it will not contribute to a violation of an ambient standard or a PSD increment. (See General Preamble for Proposed Rulemaking, 44 FR 20373-74 (April 4, 1979)).

In addition, sources subject to pre-existing plan requirements may be relieved of complying with such requirements if a Section 172 plan imposes new, more stringent control requirements that are incompatible with controls required to meet the pre-existing regulations. Decisions on the incompatibility of requirements will be made on a case-by-case basis.

Conditional Approval

EPA is taking final action to conditionally approve certain elements of Florida's plan. A discussion of conditional approval and its practical effect appears in a supplement to the

General Preamble, 44 FR 38583 (July 2, 1979) and November 23, 1979 (44 FR 67182). The conditional approval requires the State to submit additional materials by the deadlines specified in today's notice. There will be no extensions of conditional approval deadlines which are being promulgated today. EPA will follow the procedures described below when determining if the State has satisfied the conditions.

1. If the State submits the required additional documentation according to schedule, EPA will publish a notice in the *Federal Register* announcing receipt of the material. The notice of receipt will also announce that the conditional approval is continued pending EPA's final action on the submission.

2. EPA will evaluate the State's submission to determine if the condition is fully met. After review is complete, a *Federal Register* notice will be published proposing or taking final action either to find the condition has been met and approve the plan, or to find the condition has not been met, withdraw the conditional approval and disapprove the plan. If the plan is disapproved the Section 110(a)(2)(I) restrictions on construction will be in effect.

3. If the State fails to timely submit the required materials needed to meet a condition, EPA will publish a *Federal Register* notice shortly after the expiration of the time limit for submission. The notice will announce that the conditional approval is withdrawn, the SIP is disapproved and Section 110(a)(2)(I) restrictions on growth are in effect.

Certain deadlines for satisfying conditions are being promulgated today without prior notice and comment. EPA finds that for good cause notice and comment on these deadlines are unnecessary. See 5 U.S.C. Section 553(b)(B) (the Administrative Procedure Act). The State is the party responsible for meeting the deadlines and the State has requested this extension of the deadline from December 15, 1979, to May 30, 1980. This is because the State must have the additional time to complete the SIP revision process. In addition, the public has had an opportunity to comment generally on the concept of conditional approval and on what deadlines should apply for these conditions. 44 FR 38583 (July 2, 1979), 44 FR 43302 (July 24, 1979).

EPA finds good cause to make this conditional approval immediately effective, because the Clean Air Act restricts new construction where plans are not approved after June 30, 1979, and making the conditional approval immediately effective will terminate the restriction as soon as possible.

Under Executive Order 12044, EPA is

required to judge whether a regulation is "significant" and therefore subject to the procedural requirements of the Order or whether it may follow other specialized development procedures. EPA labels these other regulations "specialized". EPA has reviewed these regulations and determined that they are specialized regulations not subject to the procedural requirements of Executive Order 12044.

(Sections 110 and 172 of the Clean Air Act (42 U.S.C. 7410 and 7502))

Dated: March 11, 1980.

Douglas M. Costle,
Administrator.

Part 52 of Chapter I, Title 40, Code of Federal Regulations, is amended as follows:

Subpart K—Florida

1. In § 52.520, paragraph (c) is amended by adding subparagraph (18) as follows:

§ 52.520 Identification of plan.

* * * * *

(c) The plan revisions listed below were submitted on the dates specified.

* * * * *

(18) 1979 implementation plan revisions for nonattainment areas, (sulfur dioxide and ozone), submitted on April 30, 1979, as supplemented with August 27, 1979 and January 23, 1980 submittals by the Florida Department of Environmental Regulation. Conditional approval is given to the following

revisions: SO₂ plan for Pinellas County and ozone plans for Dade, Broward, Palm Beach, Hillsborough, Pinellas, Orange and Duval Counties.

2. Section 52.522 is revised to read as follows:

§ 52.522 Approval status.

With the exceptions set forth in this subpart, the Administrator approves Florida's plans for the attainment and maintenance of the national standards under § 110 of the Clean Air Act. Furthermore, the Administrator finds the plans satisfy all requirements of Part D, Title I, of the Clean Air Act as amended in 1977, except as noted below. In addition, continued satisfaction of the requirements of Part D, for the ozone portion of the SIP depends on the adoption and submittal of RACT requirements by July 1, 1980 for those sources covered by CTGs issued between January 1978 and January 1979 and adoption and submittal by each subsequent January of additional RACT requirements for sources covered by CTGs issued by the previous January.

3. Section 52.523 is revised to read as follows:

§ 52.523 Attainment dates for national standards.

The following table presents the latest dates by which the national standards are to be attained. These dates reflect the information presented in Florida's plan, except where noted.

Air quality control region	Pollutant						
	Particulate matter		Sulfur oxides		Nitrogen dioxide	Carbon monoxide	Ozone
	Primary	Secondary	Primary	Secondary			
Mobile (Alabama)-Pensacola, Panama City (Florida)-Southern Mississippi Interstate:							
a. Escambia County.....	a	a	f	a	c	c	f
b. Rest of AQCR.....	a	a	a	a	c	c	a
Jacksonville (Florida)-Brunswick (Georgia) Interstate:							
a. Leon County.....	a	a	a	a	c	c	f
b. Duval County ¹	a	e	f	a	c	c	d
c. Rest of AQCR.....	a	a	a	a	c	c	a
West Central Florida Intrastate:							
a. Hillsborough County ¹	a	e	f	a	c	c	d
b. Pinellas County ¹	a	a	e	e	c	c	d
c. Pasco County.....	a	a	f	f	c	c	c
d. Polk County.....	a	f	a	a	c	c	c

b. Broward County.....	b	a	c	c	c	f	d
c. Palm Beach County.....	b	a	c	c	c	c	d
d. Rest of AQCR.....	b	a	c	c	c	c	c
Southwest Florida Intrastate.....	c	c	c	c	c	c	c

¹For more precise delineation, see § 81.310 of this chapter.

Sources subject to plan requirements and attainment dates established under Section 110(a)(2)(A) prior to the 1977 Clean Air Act Amendments remain obligated to comply with those requirements by the earlier deadlines. The earlier attainment dates are set out at 40 CFR 52.2223 (1978).

NOTE.—Dates or footnotes which are italic are prescribed by the Administrator because the plan did not provide a specific date or the date provided was not acceptable.

a. July 1975.

b. Air quality levels presently below primary standards.

c. Air quality levels presently below secondary standards.

d. December 31, 1982.

e. To be determined at a later date.

f. Area is unclassifiable.

4. A new § 52.527 is added as follows:

§ 52.527 Control strategy: Ozone.

(a) Part D, conditional approval. The plans submitted pursuant to Part D of Title I for Duval, Orange, Pinellas, Hillsborough, Dade, Broward, and Palm Beach County nonattainment areas are approved on the condition that the State submit the following by May 30, 1980:

(1) Commitments and schedules for the TCMs developed by the nonattainment counties' metropolitan planning organizations (MPOs), if they are to be a part of this SIP. For the Broward and Dade County portions of the SIP, commitments to implement any TCMs must be submitted. For Dade, Broward, Palm Beach, Duval, Orange and Pinellas Counties, schedules for implementation of TCMs must be submitted. In addition, commitments from the appropriate responsible agencies to the implementation and enforcement of the measures and projected emission reductions from the measures must be submitted.

(2) A demonstration that positive long-term as well as short-term air quality impacts will be realized for those reasonably available TCMs which are contained in the Annual Element of the Transportation Improvement Plan and are included in the SIP.

(3) A signed Section 174 agreement for the Pinellas County transportation control plan.

(4) A signed Section 174 agreement for Dade County.

(5) A Section 174 agreement for Hillsborough County showing an attainment deadline of December 31, 1982.

(6) A commitment to report annually to EPA the emission inventory for the ozone nonattainment areas.

(7) Certification that no auto and light duty truck coating operations exist in the ozone nonattainment areas.

(8) With regard to the regulation for petroleum liquid storage, a demonstration that the impact on emissions is insignificant (i.e., less than five percent of the controlled emissions from this category), that it impacts only less than 100-ton sources and is not necessary for attainment, or that the exemption is otherwise justified.

(9) With regard to the regulation for

cutback asphalt, procedures to be used to monitor the application of cutback (i.e., how such regulation will be enforced). In addition, the State should revise the regulation or justify the exemptions for seal and tack coats or show that the impact on emissions is insignificant (i.e., less than five percent).

(10) Specific testing methods or procedures for determining whether the VOC sources are complying with the emission limitations in the SIP.

(11) Provision of either source specific or categorical compliance schedules for sources of VOC.

5. Section 52.528 is amended by adding paragraph (b) as follows:

§ 52.528 Control strategy: Sulfur oxides.

* * * * *

(b) *Part D, conditional approval.* The plan submitted pursuant to Part D of Title I for the Pinellas County SO₂ nonattainment area is approved on the condition that the State submit the following by May 30, 1980:

(1) A commitment to update annually the emission inventory for the SO₂ nonattainment area and submit the data to EPA.

(2) A test method for determining SO₂ emissions for compliance with the SIP.

(3) Enforceable SO₂ emission limits for processes at Stauffer Chemical Company.

[FR Doc. 80-8188 Filed 3-17-80; 8:45 am]

BILLING CODE 6560-01-M

40 CFR Part 52

[FRL 1423-3]

Maryland State Implementation Plan; Approval of Revision

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: This final rulemaking amends the Maryland State Implementation Plan (SIP) to include two Consent Orders issued by the Acting Secretary of the Maryland Department of Health and Mental Hygiene. The orders would allow two boilers to be constructed as an exception to the current Maryland regulations. Studies submitted with the proposed changes show that no ambient

air quality standards or PSD increments will be violated due to the construction and operation of these two boilers. It is therefore the decision of the Administrator to approve the revision.

EFFECTIVE DATE: March 18, 1980.

ADDRESSES: Copies of the revisions and accompanying support material are available for public inspection during normal business hours at the following locations:

U.S. Environmental Protection Agency, Air Programs Branch, Curtis Building, 6th and Walnut Streets, Philadelphia, PA 19106, ATTN: Patricia Sheridan
Bureau of Air Quality and Noise Control, State of Maryland, 201 W. Preston St., Baltimore, MD 21201, ATTN: George Ferreri
Public Information Reference Unit, Room 2922, EPA Library, U.S. Environmental Protection Agency, 401 M Street SW, (Waterside Mall), Washington, D.C. 20460

FOR FURTHER INFORMATION CONTACT:

Edward A. Vollberg (3AH11), U.S. Environmental Protection Agency, Region III, 6th and Walnut Streets, Philadelphia, PA 19106, telephone number (215) 597-8179.

SUPPLEMENTARY INFORMATION:

I. Background

On February 7, 1979 and March 16, 1979, respectively, the State of Maryland submitted Consent Orders to allow the construction of two boilers; one in Frostburg, Maryland at the Beall Jr./Sr. High School and one in Frederick County, Maryland at Mount St. Mary's College. The orders allow construction of the boilers as an exception to the current Maryland Air Quality Regulations. (COMAR 10.18.02.02B, 10.18.03.02B, 10.18.02.03B(2)b, 10.18.03.03B(2)b, 10.18.02.03B(2)c(2), 10.18.03.03B(2)c(2), 10.18.02.06D(2) and 10.18.03.06D(2)). This revision grants exceptions to the two sources, to allow construction and operation of the new boilers, subject to the following conditions:

1. Operation of boilers are not to result in visible emissions exceeding 20% opacity and an outlet particulate grain loading of 0.10 grains per standard cubic feet dry.

2. Boilers are to be constructed so as to provide for a stack test, which is to be conducted within ninety (90) days after they have come into operation.

3. The boilers are to be fired with the fuel mixtures stated in the orders with the sources maintaining accurate records of the fuel ratios.

4. The boilers shall be constructed so as to provide for the installation of pollution control equipment if necessary.

II. Control Strategy Demonstration

Diffusion modeling performed by the State of Maryland indicates that the allowed increase in particulate emissions will not significantly affect ambient air quality. Maryland has therefore concluded that the modeling demonstrates that the SIP revision will not interfere with the attainment and maintenance of the National Ambient Air Quality Standards (NAAQS) or exceed the PSD increments for particulate matter.

III. Approvability of the Proposed Revision

Based upon an evaluation of the material submitted by the State of Maryland, the Agency believes that the proposed revision satisfies the applicable requirements of Section 110 of the Clean Air Act and EPA's regulations, 40 CFR Part 51. The revision will not exceed the PSD increments. Therefore, the Administrator approves the revisions to the Maryland State Implementation Plan.

Concurrently, the Administrator amends 40 CFR Section 52.1070 (Identification of Plan) of Subpart V (Maryland) to incorporate this plan revision into Maryland's SIP.

Under Executive Order 12044, EPA is required to judge whether a regulation is "significant" and therefore subject to the procedural requirements of the Order or whether it may follow other specialized development procedures. EPA labels these other regulations "specialized." I have reviewed this regulation and determined that it is a specialized regulation not subject to the procedural requirements of Executive Order 12044.

(42 U.S.C. 7401-642)

Dated: March 11, 1980.

Douglas M. Costle,
Administrator.

Part 52 of Title 40, Code of Federal Regulations is amended as follows:

Subpart V—Maryland

1. In Section 52.1070 *Identification of Plan*, paragraph (c) is amended as follows:

§ 52.1070 Identification of plan.

* * * * *

(c) Title of plan:

(26) Consent Orders for Beall Jr./Sr. High School and Mount St. Mary's College issued by the Secretary of the Maryland Department of Health and Mental Hygiene on January 30, 1979 and March 8, 1979 respectively.

[FR Doc. 80-8185 Filed 3-17-80; 8:45 am]

BILLING CODE 6560-01-M

40 CFR Part 52

[FRL 1438-5]

Missouri; Revision of Air Quality Implementation Plan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The EPA is approving several revised state air pollution control regulations as part of the Missouri State Implementation Plan (SIP). Approval means the regulations will be enforceable against individual sources of air pollution by the federal government as well as by the state government. The EPA is not taking any formal approval or disapproval action on additional specified regulation revisions.

DATES: This regulation is effective as of March 18, 1980.

ADDRESSES: Copies of these regulations are available at the office of EPA, Region VII, 324 East 11th Street, Kansas City, Missouri, 64106; Public Information Reference Unit, Library Systems Branch (PM-213), 401 M Street, S.W., Washington, D.C. 20460; and the Missouri Department of Natural Resources, 2010 Missouri Boulevard, Jefferson City, Missouri, 65101.

FOR FURTHER INFORMATION CONTACT: Wayne Leidwanger, EPA, Region VII, (816) 374-2880.

SUPPLEMENTARY INFORMATION:

A. On September 6, 1979, there was published in the *Federal Register* (44 FR 52001) a notice of proposed rulemaking to make certain regulations part of the State Implementation Plan. The notice also stated that no action to approve or disapprove was proposed for additional regulations.

The rulemaking today approves the revised state regulations which include EPA source test methods; revised air quality standard consistent with the National Ambient Air Quality Standards; Standards of Performance for New Stationary Sources (NSPS); continuous monitoring on certain power plants, cement kilns, and refinery sources; specific emission rates for individual power plants; and the recodification of the Missouri air

regulations. The reader is referred to the proposed rulemaking for the rationale for approval of these regulations.

No comments were received in response to the proposal.

The rationale for approval is the same as contained in the proposal.

Action: The EPA approves the Missouri regulations as proposed September 6, 1979.

B. On October 11, 1979, the EPA published in the *Federal Register* (44 FR 58758) a notice proposing to approve changes in the Missouri regulations affecting the three primary Missouri lead smelters.

These revised regulations establish mass emission rates for the Missouri lead smelters. The former regulations contained volumetric SO₂ emission rates. One lead smelter is required to erect a stack which does not exceed the good engineering practice (GEP) height.

The reader is referred to the proposed rulemaking for the rationale for approval of these regulations.

No comments were received in response to this proposal.

The rationale for approval is the same as contained in the proposal.

ACTION: The EPA approves the revisions to Missouri Rule 10 CSR 10-5.150 and Rule 10 CSR 10-3.100 pertaining to SO₂ emissions from primary lead smelters in the State of Missouri.

C. Internal review of the September 6, 1979, proposed rulemaking (44 FR 52001) after publication in the *Federal Register*, revealed that the discussion of the fugitive particulate regulations did not clearly distinguish between the requirements for the St. Louis regulation and the regulations for Kansas City and outstate Missouri. However, this does not alter the fact that the submission of the fugitive dust regulations did not constitute a complete SIP revision because no control strategy demonstration was provided by the state. The state argued that a control strategy demonstration was not necessary because the regulation only applies if particles of greater than 40 microns in size are found beyond the property line from where they originate. In the proposed rulemaking, EPA determined that a demonstration was required because all particulate, regardless of size, must be controlled if any particles of over 40 microns are found. Thus, the ambient air quality is affected.

The regulation for the St. Louis area does not contain the 40 micron restriction. This regulation simply prohibits the allowing of unnecessary amounts of particulate matter from

becoming airborne. Since particulate of all sizes are controlled by this regulation, the ambient air quality is impacted and a control strategy demonstration is required. Thus, the determination to take no action on this amendment is still valid.

Since no information was received to alter the conclusions of approvability set forth in the proposals, the EPA is taking no action on the proposed revision. These regulations will not be part of the applicable Missouri SIP.

Action: The EPA is taking no action on Rule 10 CSR 10-5.100, 10 CSR 10-2.050 and 10 CSR 10-3.070 which limit fugitive particulate emissions from the handling, transporting and storage of materials in the St. Louis AQCR, the Kansas City AQCR, and outstate Missouri respectively.

Dated: March 11, 1980.

Douglas M. Costle,
Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart AA—Missouri

1. In § 52.1320 paragraph (c) (13) and (14) are added:

§ 52.1320 Identification of plan.

* * * * *

(c) The plan revisions listed below were submitted on the dates specified.

* * * * *

(13) On August 28, 1978, the following revisions were submitted by the Missouri Department of Natural Resources:

(i) The recodification of Missouri regulations of July 1, 1976, now contained in Title 10, Division 10 of the Code of State Regulations.

(ii) Title 10, Division 10, Chapter 6 of the Code of State Regulations which contains air quality standards, definitions, and reference methods.

(iii) Missouri Rule 10 CSR 10-2.200; Rule 10 CSR 10-3.150; and Rule 10 CSR 10-4.190 pertaining to control of SO₂ from indirect heating sources.

(iv) Missouri Rule 10 CSR 10-2.030; Rule 10 CSR 10-3.050; Rule 10 CSR 10-4.030; and 10 CSR 10-5.050 exempting certain process sources from the process weight regulations for particulate matter.

(v) Missouri Rule 10 CSR 10-2.190; Rule 10 CSR 10-3.140; Rule 10 CSR 10-4.180; and Rule 10 CSR 10-5.280 which contain the "Standards of Performance for New Stationary Sources," found at 40 CFR Part 60 as in effect on January 18, 1975.

(vi) Missouri Rule 10 CSR 10-2.060; Rule 10 CSR 10-3.080; Rule 10 CSR 10-

4.060; and Rule 10 CSR 10-5.090 which require continuous opacity monitors for certain sources.

(vii) Missouri Rule 10 CSR 10-5.140 for determining settleable acid and alkaline mists is rescinded.

(viii) The EPA is taking no action on Rule 10 CSR 10-5.100; 10 CSR 10-2.050, and 10 CSR 10-3.070 which limit fugitive particulate emissions from the handling, transporting and storage of materials in the State of Missouri.

(14) On March 12, 1979, the Missouri Department of Natural Resources submitted Rule 10 CSR 10-3.100 and Rule 10 CSR 10-5.150 establishing revised SO₂ emission limits for primary lead smelters.

BILLING CODE 6560-01-M

40 CFR Part 52

[FRL 1438-3]

Missouri; Revision of Air Quality Implementation Plan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The EPA is approving a revised state air pollution control regulation as part of the Missouri State Implementation Plan (SIP). This revision affects the allowable emissions of sulfur dioxide in the St. Louis metropolitan area. Approval means the regulation will be enforceable against individual sources of air pollution by the federal government as well as by the state government.

This revision establishes new sulfur dioxide emission limits for the Union Electric Company's Sioux and Labadie plants. The allowable emission rates are being increased from 2.3 pounds per million BTUs heat input to 4.8 pounds per million BTUs. These power plants have never complied with the 2.3 pound limit, but operated at emission rates in excess of 8.0 pounds per million BTUs.

Compliance with the 2.3 pound limit would have required major expenditures for SO₂ removal equipment or transportation of low sulfur western coal. Compliance with the 4.8 pound limit can be achieved by blending approximately 25 percent low sulfur coal with the mid-western coal currently used. The 4.8 pound emission limit will assure that the National Ambient Air Quality Standards are met, and thus, will assure protection of the public health.

DATES: This regulation is effective April 17, 1980.

ADDRESSES: Copies of this regulation are available at the office of EPA, Region VII, 324 East 11th Street, Kansas City, Missouri 64106; Public Information Reference Unit, Library Systems Branch (PM-213), 401 M Street, SW., Washington, D.C. 20460; and the Missouri Department of Natural Resources, 2010 Missouri Boulevard, Jefferson City, Missouri 65101.

FOR FURTHER INFORMATION CONTACT: Wayne Leidwanger, EPA Region VII, (816) 374-2880.

SUPPLEMENTARY INFORMATION: On October 19, 1979, there was published in the Federal Register (44 FR 60339) a notice of proposed rulemaking to make a revised regulation part of the SIP. One comment was received in response to the proposal. This comment supported the proposed revision.

No objections were raised to the rationale for approval presented in the proposed rulemaking, and no new information is available that would alter that rationale. Thus, approval is based on that rationale.

Action: The EPA approves the revision to Missouri Regulation 10 CSR 10-5.110 pertaining to the allowable emissions of sulfur dioxide from the Union Electric Company's Sioux and Labadie Plants.

Dated: March 11, 1980.

Douglas M. Costle,
Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart AA—Missouri

1. In § 52.1320 paragraph (c)(15) is added:

§ 52.1320 Identification of plan.

* * * * *

(c) The plan revision listed below was submitted on the dates specified.

* * * * *

(15) On March 1, 1979, the Missouri Department of Natural Resources submitted a revision of regulation 10 CSR 10-5.110 revising the allowable emission rates of sulfur dioxide from Union Electric's Sioux and Labadie power plants.

Rationale for Approval

As discussed in the October 19, 1979, proposal and supporting technical review document, this revision increases the allowable emission rate of SO₂ from 2.3 pounds per million BTU heat input to 4.8 pounds per million BTUs. The state demonstrated, through the use of dispersion modeling, that violations of the NAAQS will not result from this change. Modeling did predict possible exceedances of the NAAQS

in Illinois, however, this was determined to be attributable to local sources and would continue to exist even in the complete absence of emissions from the Sioux and Labadie plants.

Although the revision increases the allowable emission rate, the actual emissions will decrease. This occurs because the plants have never complied with the 2.3 pound limit and have had emissions of about 6.3 pounds per million BTUs. Since actual emissions are decreased, PSD increment usage is not a concern.

The revised emission rate will provide for continued attainment of the NAAQS in Missouri, will not cause any NAAQS violations in Illinois, and will not consume PSD increment.

The public participation requirements of 40 CFR 51.4 and 51.6 have been met.

BILLING CODE 6560-01-M

40 CFR Parts 122 and 123

[FRL 1438-6]

National Pollutant Discharge Elimination System; Clarification of State Requirements

AGENCY: Environmental Protection Agency.

ACTION: Amendments to final rule.

SUMMARY: The United States Environmental Protection Agency (EPA) today is amending 40 CFR 123.12(a) to clarify that the listing of certain minimum requirements for State National Pollutant Discharge Elimination System (NPDES) programs does not preclude States from omitting or modifying those requirements to impose more stringent requirements. Similarly, EPA is amending 40 CFR 122.1(a) to clarify that States are not precluded from more stringent regulation of any activity covered by the NPDES regulations.

DATES: Effective date: March 18, 1980.

FOR FURTHER INFORMATION CONTACT: Edward A. Kramer, Office of Water Enforcement (EN-336), Environmental Protection Agency, 401 "M" Street SW., Washington, D.C. 20460, (202) 755-0750.

SUPPLEMENTARY INFORMATION: On June 7, 1979, EPA published a final rule revising its NPDES permit program regulations (44 FR 32854). Section 123.12(a) of that rule lists several provisions applicable to the EPA-administered permit program, and requires that these provisions also be implemented and administered by State permit programs. Section 510 of the Clean Water Act authorizes States to impose more stringent requirements concerning effluent limitations, or other limitations, effluent standards,

prohibitions, pretreatment standards, or standards of performance than those in effect under the Clean Water Act. Accordingly, § 123.1(g) of the June 7 rule specifies that nothing in Part 123 precludes a State from adopting a more stringent standard, limitation or other requirement. Nevertheless, § 123.12(a) has created confusion as to whether State programs may omit any permit conditions referred to in the list to make the State requirement more stringent than that required for EPA-issued permits. In particular, the State of Oregon and the Natural Resources Defense Council have questioned in court cases whether EPA can require States to recognize the upset defense defined in § 122.14(1). EPA believes that § 123.1(g) allows more stringent State requirements, even when they result from the modification or omission of a provision listed in § 123.12(a). Today's amendments make clearer this interpretation. Because the amendments merely clarify EPA's existing interpretation, I find good cause that it would be unnecessary to propose these amendments for public comment.

Accordingly, the following amendments are made:

1. 40 CFR 122.1(a) is amended to read as follows:

§ 122.1 Purpose and scope.

(a) The regulations in this Part define the National Pollutant Discharge Elimination System (NPDES) program including permit programs under sections 402, 318 and 405 of the Act. They apply to the program as administered by EPA and, to the extent incorporated by reference in Part 123, by approved NPDES States. Nothing in this rule precludes more stringent State regulation of any activity covered by these regulations, whether or not under an approved State program.

* * * * *

2. 40 CFR § 123.12(a) is amended to read as follows:

§ 123.12 Operational requirements.

(a) All State programs under this Part must have legal authority to implement each of the following provisions and must be administered in conformance with each; except that States are not precluded from omitting or modifying any provision to impose more stringent requirements.

Douglas M. Costle,
Administrator.

[PP 7F1925/R226A; FRL 1438-2]

Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities; Tebuthiuron; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Correction.

SUMMARY: This document corrects a final rule on tebuthiuron that appeared in the *Federal Register* of December 21, 1979 (44 FR 75638) under the Federal Food, Drug, and Cosmetic Act. The document corrects the word "insecticide" to read "herbicide" in the second column, p. 75639, under § 180.380.

DATE: Effective on March 18, 1980.

FOR FURTHER INFORMATION CONTACT: Robert J. Taylor, Product Manager (PM) 25, Registration Division (TS-767), Office of Pesticides and Toxic Substances, Environmental Protection Agency, 401 M St., S.W., Washington, DC 20460 (202-755-2196).

SUPPLEMENTARY INFORMATION: In FR Document 79-39149 appearing at p. 75639 in the issue of December 21, 1979, the herbicide tebuthiuron was incorrectly identified as an insecticide. The second line under "§ 180.390 Tebuthiuron; tolerances for residues" is corrected to read "residues of the herbicide tebuthiuron."

(Sec. 408(d)(2), 21 U.S.C. 346a(d)(2)).

Dated: March 11, 1980.

Edwin L. Johnson,
Deputy Assistant Administrator for Pesticide Programs.

BILLING CODE 6560-01-M

40 CFR Part 180

[PP 9E2215/R236; FRL 1438-1]

Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities; Chlorpyrifos

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a tolerance for residues of the insecticide chlorpyrifos on nectarines at 0.05 part per million (ppm). The regulation was requested by the Interregional Research Project No. 4. This rule establishes a maximum permissible level for residues of the subject insecticide on nectarines.

DATE: Effective on March 18, 1980.

FOR FURTHER INFORMATION CONTACT:

Patricia Critchlow, Registration Division (TS-767), Office of Pesticide Programs, Environmental Protection Agency, 401 M Street, SW, Washington, DC 20460 (202-426-0223).

SUPPLEMENTARY INFORMATION: In the Federal Register on January 11, 1980 (45 FR 2352), the EPA published a notice of proposed rulemaking in response to a pesticide petition (PP 9E2215) submitted to the Agency by the Interregional Research Project No. 4 (IR-4), New Jersey State Agricultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, NJ 08903, on behalf of the IR-4 Technical Committee and the Agricultural Experiment Station of Ohio under the provisions of the Federal Food, Drug, and Cosmetic Act. This petition proposed that 40 CFR 180.342 be amended by the establishment of a tolerance for residues of the insecticide chlorpyrifos in or on the raw agricultural commodity nectarines at 0.05 ppm. No comments or requests for referral to an advisory committee were received in response to this notice of proposed rulemaking.

It has been concluded, therefore, that the proposed amendment to 40 CFR 180.342 should be adopted without change, and it has been determined that this regulation will protect the public health.

Any person adversely affected by this regulation may, within 30 days after publication in the Federal Register, file written objection with the Hearing Clerk, Environmental Protection Agency, Rm. M-3708, (A-110), 401 M St., SW, Washington, DC 20460. Such objections should be submitted in triplicate and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Under Executive Order 12044, EPA is required to judge whether a regulation is "significant" and therefore subject to the procedural requirements of the Order or whether it may follow other specialized development procedures. EPA labels these other regulations "specialized". This regulation has been reviewed, and it had been determined that it is a specialized regulation not subject to the procedural requirements of Executive Order 12044.

Effective on the date of publication in the Federal Register, Part 180, Subpart C, § 180.342 is amended by adding a tolerance for residues of the subject

insecticide on nectarines at 0.05 ppm as set forth below.

Part 180, Subpart C, § 180.342 is amended by alphabetically inserting nectarines at 0.05 ppm in the table to read as follows:

§ 180.342 Chlorpyrifos; tolerances for residues.

Commodity:	Part per million
Nectarines.....	0.05

(Sec. 408(e), 21 U.S.C. 346a(e)).

Dated: March 11, 1980.

Edwin L. Johnson,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc. 80-8191 Filed 3-17-80; 8:45 am]

BILLING CODE 6560-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 3

[Docket No. FEMA-GEN-3-A]

Standards of Conduct; Post Employment Conflicts of Interest

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule.

SUMMARY: This final rule implements Title V of the Ethics in Government Act of 1978 concerning post employment conflicts of interest by former officers and employees of the Federal Emergency Management Agency. It establishes procedures for imposing administrative restrictions on such former officers and employees for violation of the post employment conflict of interest laws.

EFFECTIVE DATE: April 17, 1980.

ADDRESS: Any views on this rule can be addressed to Rules Docket Clerk, Room 801, 1725 I Street NW., Washington, DC 20472.

FOR FURTHER INFORMATION CONTACT: John Brosnahan, Office of General Counsel, 202/634-4100.

SUPPLEMENTARY INFORMATION: Title V of the Ethics in Government Act of 1978 amended 18 U.S.C. 207 which prohibits certain post employment activities of former Government employees. Subsection (j) of 18 U.S.C. 207, as amended, provides that if the head of the agency finds that a former officer or employee of the agency violated 18 U.S.C. 207 (a), (b), or (c), he may prohibit that person from appearing before the agency, or communicating with the

agency, with the intent to influence the agency on behalf of any other person (except the United States) for a period not to exceed five years or he may take other appropriate disciplinary action. Subsection (j) also requires that the former officer or employee be given notice and opportunity for a hearing. It also requires that departments and agencies, in consultation with the Director of the Office of Government Ethics (OGE), establish procedures to carry out subsection (j). The Office of Personnel Management (OPM) published interim regulations to implement 18 U.S.C. 207 in the Federal Register for April 3, 1979 (44 FR 19974 (1979)). The Federal Emergency Management Agency has consulted with OGE which has advised that these regulations conform with the law and with the OPM regulations.

The rule implements 18 U.S.C. 207(j) for the Federal Emergency Management Agency. It uses the substantive provisions of the regulations published by the Office of Personnel Management. The regulations will be enforced by the General Counsel, Federal Emergency Management Agency.

The sanctions available may affect a former employee's eligibility to practice before the entire Federal Emergency Management Agency.

This regulation merely implements for one specific agency, procedures which were subject to notice and public comment procedures when issued by OPM. The regulation also relates to agency practice and procedures. In view of this it is determined that the regulation is not subject to 5 U.S.C. 553 nor is it a significant regulation under Executive Order 12044.

Accordingly, Part 3 of Chapter 1 of Title 44 of the Code of Federal Regulations is amended by striking [Reserved] from the Table of Contents and adding to Part 3 a subpart E as follows:

Subpart E—Post Employment Conflicts of Interest

§ 3.100 Scope.

This part contains rules governing discipline of a former officer or employee of the Federal Emergency Management Agency because of a post employment conflict of interest. Such discipline may include prohibition from practice before the agency as these terms are defined in this part.

§ 3.101 Definitions.

For the purpose of this part—
(a) The term "agency" means the Federal Emergency Management Agency and includes the U.S. Fire Administration which has been designated as a separate statutory agency by rule of the Office of Government Ethics.

(b) The term "General Counsel" means the General Counsel of the agency.

(c) The term "practice" means any informal or formal appearance before, or, with the intent to influence, any oral or written communications to the agency on a pending matter of business on behalf of any other person (except the United States).

§ 3.102 General Counsel.

The General Counsel shall initiate and provide for the conduct of disciplinary proceedings involving former employees of the agency as authorized by 18 U.S.C. 207(j) and perform such other duties as are necessary or appropriate to carry out his/her functions under this part. The General Counsel reserves the right to issue such special orders as he/she may consider proper in any case within the purview of this part.

§ 3.103 Records.

There are made available to public inspection at the Office of General Counsel the roster of all persons prohibited from practice before the agency. Other records may be disclosed upon specific request, in accordance

with appropriate disclosure regulations of the agency.

§ 3.104 Interpretative standards.

A determination that a former officer or employee of the agency violated 18 U.S.C. 207 (a), (b), or (c) will be made in conformance with the standards established in the interpretative regulations promulgated by the Office of Personnel Management, 5 CFR Part 737.

§ 3.105 Authority to prohibit appearances.

Pursuant to 18 U.S.C. 207(j), if the General Counsel finds, after notice and opportunity for a hearing, that a former officer or employee of the agency violated 18 U.S.C. 207 (a), (b), or (c), the General Counsel in his/her discretion may prohibit that individual from engaging in practice before the agency for a period not to exceed five years, or may take other appropriate disciplinary action.

§ 3.106 Receipt of information concerning former employees.

(a) If an officer or employee of the Agency has reason to believe that a former officer or employee of the Agency has violated any provision of this part, or if any such officer or employee received information to that effect, he/she shall promptly make a written report thereof, which report or a copy thereof shall be forwarded to the Inspector General, Federal Emergency Management Agency. If any other person has information of such violations, he/she may make a report thereof to the Inspector General or to any officer or employee of the Agency. The Inspector General shall refer any information he/she deems warranted to the General Counsel.

(b) The General Counsel shall coordinate proceedings under this part with the Office of Government Ethics and with the Department of Justice in cases where the agency is in receipt of information regarding a possible violation of 18 U.S.C. 207 (5 CFR 27(a)(2)(ii)) or in cases where the Department of Justice initiates criminal prosecution.

§ 3.107 Conferences.

(a) *In general.* The General Counsel may confer with a former officer or employee concerning allegations of misconduct irrespective of whether an administrative disciplinary proceeding has been instituted against him or her. If such conference results in a stipulation in connection with a proceeding in which such person is the respondent, the stipulation may be entered in the record at the instance of either party to the proceeding.

(b) *Voluntary suspension.* A former officer or employee, in order to avoid the institution or conclusion of a proceeding, may offer his/her consent to suspension from practice before the Agency. The General Counsel in his/her discretion, may suspend a former officer or employee in accordance with the consent offered.

§ 3.108 Institution of proceeding.

Whenever the General Counsel has reason to believe that any former officer or employee of the Agency has violated 18 U.S.C. 207 (a), (b) or (c), he/she may reprimand such person or institute an administrative disciplinary proceeding for that person's suspension from practice before the Agency. The proceeding shall be instituted by a complaint which names the respondent and is signed by the General Counsel and filed in his/her office. Except in cases of willfulness, or where time, the nature of the proceeding, or the public interest does not permit, a reprimand will not be given nor will a proceeding be instituted under this section until facts or conduct which may warrant such action have been called to the attention of the proposed respondent in writing and he/she has been accorded the opportunity to provide his/her position on the matter.

§ 3.109 Contents of complaint.

(a) *Charges.* A complaint shall give a plain and concise description of the allegations which constitute the basis for the proceeding. A complaint shall be deemed sufficient if it fairly informs the respondent of the charges against him/her so that the respondent is able to prepare a defense.

(b) *Demand for answer.* In the complaint, or in a separate paper attached to the complaint, notification shall be given of the place and time within which the respondent shall file his/her answer, which time shall not be less than 15 days from the date of service of the complaint, and notice shall be given that a decision by default may be rendered against the respondent in the event he/she fails to file an answer as required.

§ 3.110 Service of complaint and other papers.

(a) *Complaint.* The complaint or a copy thereof may be served upon the respondent by certified mail, or first-class mail as hereinafter provided; by delivering it to the respondent or his/her attorney or agent of record either in person or by leaving it at the office or place of business of the respondent, attorney or agent; or in any other manner which has been agreed to by the

respondent. Where the service is by certified mail, the return post office receipt duly signed by or on behalf of the respondent shall be proof of service. If the certified mail is not claimed or accepted by the respondent and is returned undelivered, complete service may be made upon the respondent by mailing the complaint to him/her by first-class mail, addressed to him/her at the last address known to the General Counsel. If service is made upon the respondent or his/her attorney or agent of record in person or by leaving the complaint at the office or place of business of the respondent, attorney or agent, the verified return by the person making service, setting forth the manner of service, shall be proof of service.

(b) *Service of papers other than complaint.* Any paper other than the complaint may be served upon a respondent as provided in paragraph (a) of this section or by mailing the paper by first-class mail to the respondent at the last address known to the General Counsel, or by mailing the paper by first-class mail to the respondent's attorney or agent of record. Such mailing shall constitute complete service. Notices may be served upon the respondent or his/her attorney or agent of record by telegraph.

(c) *Filing of papers.* Whenever the filing of a paper is required or permitted in connection with a proceeding, and the place of filing is not specified by this subpart or by rule or order of the Administrative Law Judge, the paper shall be filed with the General Counsel, Federal Emergency Management Agency, 1725 I Street, N.W., Washington, DC 20472. All papers shall be filed in duplicate.

§ 3.111 Answer.

(a) *Filing.* The respondent's answer shall be filed in writing within the time specified in the complaint or notice of institution of the proceeding, unless on application the time is extended by the General Counsel or the Administrative Law Judge. The answer shall be filed in duplicate with the General Counsel.

(b) *Contents.* The answer shall contain a statement of facts which constitutes the grounds of defense, and it shall specifically admit or deny each allegation set forth in the complaint, except that the respondent shall not deny a material allegation in the complaint which he/she knows to be true, or state that he/she is without sufficient information to form a belief when in fact he/she possesses such information. The respondent may also state affirmatively special matters of defense.

(c) *Failure to deny or answer allegations in the complaint.* Every allegation in the complaint which is not denied in the answer shall be deemed to be admitted and may be considered as proved, and no further evidence in respect of such allegation need be adduced at a hearing. Failure to file an answer within the time prescribed in the notice to the respondent, except as the time for answer is extended by the General Counsel or the Administrative Law Judge, shall constitute an admission of the allegations of the complaint and a waiver of hearing, and the Administrative Law Judge may make his/her decision by default without a hearing or further procedure.

§ 3.112 Reply to answer.

No reply to the respondent's answer shall be required, and new matter in the answer shall be deemed to be denied, but the General Counsel may file a reply in his/her discretion or at the request of the Administrative Law Judge.

§ 3.113 Proof; variance; amendment of pleadings.

In the case of a variance between the allegations in a pleading and the evidence adduced in support of the pleading, the Administrative Law Judge may order or authorize amendment of the pleading to conform to the evidence: *Provided*, That the party who would otherwise be prejudiced by the amendment is given reasonable opportunity to meet the allegations of the pleading as amended; and the Administrative Law Judge shall make findings on any issue presented by the pleadings as so amended.

§ 3.114 Motions and requests.

Motions and requests may be filed with the General Counsel or with the Administrative Law Judge.

§ 3.115 Representation.

A respondent or proposed respondent may appear in person or he/she may be represented by counsel or other representative.

§ 3.116 Administrative Law Judge.

(a) *Appointment.* An Administrative Law Judge appointed as provided by 5 U.S.C. 3105 (1966), shall conduct proceedings upon complaints for the administrative disciplinary proceedings under this part.

(b) *Power of Administrative Law Judge.* Among other powers, the Administrative Law Judge shall have authority, in connection with any proceeding assigned or referred to him/her, to do the following:

(1) Administer oaths and affirmations;

(2) Make rulings upon motions and requests, which rulings may not be appealed from prior to the close of a hearing except, at the discretion of the Administrative Law Judge, in extraordinary circumstances;

(3) Determine the time and place of hearing and regulate its course and conduct;

(4) Adopt rules of procedure and modify the same from time to time as occasion requires for the orderly disposition of proceedings;

(5) Rule upon offers of proof, receive relevant evidence, and examine witnesses;

(6) Take or authorize the taking of depositions;

(7) Receive and consider oral or written argument on facts or law;

(8) Hold or provide for the holding of conferences for the settlement or simplification of the issues by consent of the parties;

(9) Assess the responsible party extraordinary costs attributable to the location of a hearing;

(10) Perform such acts and take such measures as are necessary or appropriate to the efficient conduct of any proceeding; and

(11) Make initial decisions.

§ 3.117 Hearings.

(a) *In general.* The Administrative Law Judge shall preside at the hearing on a complaint for the suspension of a former officer or employee from practice before the Agency. Hearings shall be stenographically recorded and transcribed and the testimony of witnesses shall be taken under oath or affirmation. Hearings will be conducted pursuant to 5 U.S.C. 556.

(b) *Public access to hearings.* Hearings will be closed unless an open hearing is requested by the respondent, except that if classified information or protected information of third parties (such as tax information) is likely to be adduced at the hearing, it will remain closed. A request for an open hearing must be included in the answer to be considered.

(c) *Failure to appear.* If either party to the proceeding fails to appear at the hearing, after due notice thereof has been sent to him/her, he/she shall be deemed to have waived the right to a hearing and the Administrative Law Judge may make a decision against the absent party by default.

§ 3.118 Evidence.

(a) *In general.* The rules of evidence prevailing in courts of law and equity are not controlling in hearings on complaints for the suspension of a former officer or employee from practice

before the Agency. However, the Administrative Law Judge shall exclude evidence which is irrelevant, immaterial, or unduly repetitious.

(b) *Depositions.* The deposition of any witness taken pursuant to § 3.109 may be admitted.

(c) *Proof of documents.* Official documents, records and papers of the Agency shall be admissible in evidence without the production of an officer or employee to authenticate them. Any such documents, records, and papers may be evidenced by a copy attested or identified by an officer or employee of the Agency.

(d) *Exhibits.* If any document, record, or other paper is introduced in evidence as an exhibit, the Administrative Law Judge may authorize the withdrawal of the exhibit subject to any conditions which he/she deems proper.

(e) *Objections.* Objections to evidence shall be in short form, stating the grounds of objection relied upon, and the record shall not include argument thereon, except as ordered by the Administrative Law Judge. Rulings on such objections shall be a part of the record. No exception to the ruling is necessary to preserve the rights of the parties.

§ 3.119 Depositions.

Depositions for use at a hearing may, with the consent of the parties in writing or the written approval of the Administrative Law Judge, be taken by either the General Counsel or the respondent or their duly authorized representatives. Depositions may be taken upon oral or written interrogatories, upon not less than 10 days' written notice to the other party before any officer duly authorized to administer an oath for general purposes or before an officer or employee of the Agency who is authorized to administer an oath. Such notice shall state the names of the witnesses and the time and place where the depositions are to be taken. The requirement of 10 days' notice may be waived by the parties in writing, and depositions may then be taken from the persons and at the times and places mutually agreed to by the parties. When a deposition is taken upon written interrogatories, any cross-examination shall be upon written interrogatories. Copies of such written interrogatories shall be served upon the other party with the notice, and copies of any written cross-interrogation shall be mailed or delivered to the opposing party at least 5 days before the date of taking the depositions, unless the parties mutually agree otherwise. A party upon whose behalf a deposition is taken must file it with the Administrative Law Judge

and serve one copy upon the opposing party. Expenses in the reporting of depositions shall be borne by the party at whose instance the deposition is taken.

§ 3.120 Transcript.

In cases where the hearing is stenographically reported by a Government contract reporter, copies of the transcript may be obtained from the reporter at rates not to exceed the maximum rates fixed by contract between the Government and the reporter. Where the hearing is stenographically reported by a regular employee of the Agency, a copy thereof will be supplied to the respondent either without charge or upon payment of a reasonable fee. Copies of exhibits introduced at the hearing or at the taking of depositions will be supplied to the parties upon the payment of a reasonable fee (Sec. 501, Pub. L. 82-137, 65 Stat. 290 (31 U.S.C. 483a)).

§ 3.121 Proposed findings and conclusions.

Except in cases where the respondent has failed to answer the complaint or where a party has failed to appear at the hearing, the Administrative Law Judge prior to making his/her decision, shall afford the parties a reasonable opportunity to submit proposed findings and conclusions and supporting reasons therefor.

§ 3.122 Decision of the Administrative Law Judge.

As soon as practicable after the conclusion of a hearing and the receipt of any proposed findings and conclusions timely submitted by the parties, the Administrative Law Judge shall make the initial decision in the case. The decision shall include (a) a statement of findings and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record, and (b) an order of suspension from practice before the Agency or other appropriate disciplinary action, or an order of dismissal of the complaint. In any decision of the Administrative Law Judge ordering suspension from practice or other disciplinary action the respondent shall be advised that such disciplinary action shall be subject to review in an appropriate United States district court. The Administrative Law Judge shall file the decision with the Director of the Federal Emergency Management Agency and shall transmit a copy thereof to the respondent or his/her attorney of record. In the absence of an appeal to the Director, Federal Emergency Management Agency, the

decision of the Administrative Law Judge shall without further proceedings become the decision of the Agency 30 days from the date of the Administrative Law Judge's decision.

§ 3.123 Appeal to the Director, Federal Emergency Management Agency.

Within 30 days from the date of the Administrative Law Judge's decision, either party may appeal to the Director, Federal Emergency Management Agency. The appeal shall be filed in duplicate and shall include exceptions to the decision of the Administrative Law Judge and supporting reasons for such exceptions. If an appeal is filed by the General Counsel, he/she shall transmit a copy thereof to the respondent. Within 30 days after receipt of an appeal or copy thereof, the other party may file a reply brief in duplicate with the Director, Federal Emergency Management Agency. If the reply is filed by the General Counsel, he/she shall transmit a copy of it to the respondent. Upon the filing of an appeal and a reply brief, if any, the General Counsel shall transmit the entire record to the Director, Federal Emergency Management Agency.

§ 3.124 Decision of the Director, Federal Emergency Management Agency.

On appeal from the initial decision of the Administrative Law Judge, the Director, Federal Emergency Management Agency will make the agency decision. In making his/her decision, the Director, Federal Emergency Management Agency will review the record or such portions thereof as may be cited by the parties to permit limiting of the issues. A copy of the Director's decision shall be transmitted to the respondent. Any decision ordering disciplinary action shall contain provision that such disciplinary action is subject to review in an appropriate United States district court.

§ 3.125 Notice of disciplinary action.

(a) Upon the issuance of a final order suspending a former officer or employee from practice before the Agency, the General Counsel shall give notice thereof to appropriate officers and employees of the Agency. Officers and employees of the Agency shall refuse to participate in any appearance by such former officer or employee or to accept any communication which constitutes the prohibited practice before the Agency during the period of suspension.

(b) The General Counsel shall take other appropriate disciplinary action as may be required by the final order.

Dated: March 10, 1980.

BILLING CODE 4210-23-M

44 CFR Part 6

[Docket No. FEMA—General 6]

Implementation of the Privacy Act of 1974

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule.

SUMMARY: On August 27, 1979, the Federal Emergency Management Agency (FEMA) published its interim regulation implementing the Privacy Act of 1974 (44 FR 50293). While this regulation has been fully effective since August 27, FEMA did offer an opportunity for public comment on the regulation by October 26, 1979. This date has now passed and the regulation should be given final effect immediately.

EFFECTIVE DATE: March 18, 1980.

ADDRESS: Federal Emergency Management Agency, 1725 I Street, NW., Washington, DC 20472.

FOR FURTHER INFORMATION CONTACT: William L. Harding, office of General Counsel, (202) 634-4113.

SUPPLEMENTARY INFORMATION: No comments were received on this rule other than some editorial suggestions and some suggestions concerning organizational placement within FEMA of functions under the Act. These are reflected in the changes set out in these amendments. Also a provision is added to allow use of the OMB waiver procedures in connection with time requirements for establishing new systems of records.

Except for certain minor adjustments to the fee schedule, other changes are editorial and procedural in nature, and no useful purpose is served by delaying the effective date of this revision. Hence, the amendments are effective immediately.

Accordingly, the interim regulation "Implementation of the Privacy Act of 1974," 44 CFR Part 6, published at 44 FR 50293, hereby becomes the final regulation but with the following changes.

1. Subsections 6.2 (n) and (o) are amended to read as follows:

PART 6—IMPLEMENTATION OF THE PRIVACY ACT OF 1974

§ 6.2 Definitions.

* * * * *

(n) "Deputy Director" means the Deputy Director, FEMA, or, in the case of the absence of the Deputy Director, or a vacancy in that office, a person designated by the Director to perform the functions under this regulation of the Deputy Director.

(o) "Privacy Appeals Officer" means the Director of Office of Public Affairs or his/her designee.

2. Section 6.10 is amended to read as follows:

§ 6.10 Assistance and referrals.

Requests for assistance and referral to the responsible system manager or other FEMA employee charged with implementing these regulations should be made to the Privacy Appeals Officer, Federal Emergency Management Agency, Washington, DC 20472.

3. Section 6.33(b) is amended to read as follows:

§ 6.33 Denials of access.

* * * * *

(b) Upon receipt of a request for access to a record which the system manager believes is contained within an exempt system of records, he or she shall forward the request to the appropriate official listed below through normal supervisory channels:

- (1) At Headquarters:
 - (i) The Deputy Director.
 - (ii) Associate Directors or Office Directors.
 - (iii) Assistant Director for Training and Education.
 - (iv) U.S. Fire Administrator.
 - (v) Federal Insurance Administrator.
 - (vi) Director, Operations Support.
 - (vii) Director, Personnel.
 - (viii) Director, Finance and Administration.
 - (ix) Director, Program Evaluation and Research.
 - (x) General Counsel.
 - (xi) Inspector General.
- (2) At Regions: Regional Directors.

The system manager shall append to the request an explanation of the determination that the requested record is contained within an exempt system of records and a recommendation that the request be denied or granted.

* * * * *

4. Subsection 6.53(c) is amended to read as follows:

§ 6.53 Denial of requests to amend records.

* * * * *

(c) If the appropriate official listed in § 6.33, after reviewing the request to amend a record, determines not to amend the record in accordance with the request, the requestor shall be promptly advised in writing of the

determination. The refusal letter (1) shall state the reasons for the denial of the request to amend; (2) shall include proposed alternative amendments, if appropriate; (3) shall state the requestor's right to appeal the denial of the request to amend; and (4) shall state the procedures for appealing and the name and title of the official to whom the appeal is to be addressed.

* * * * *

5. Subsection 6.55(a) is amended to read as follows:

§ 6.55 Appeal of denial of request to amend a record.

(a) A requestor who disagrees with a denial of a request to amend a record may file an administrative appeal of that denial. The requestor should address the appeal to the FEMA Privacy Appeals Officer, Washington, DC 20472. If the requestor is an employee of FEMA and the denial to amend involves a record maintained in the employee's Official Personnel Folder covered by an Office of Personnel Management Government wide system notice, the appeal should be addressed to the Assistant Director, Information Systems, Agency Compliance and Evaluation Group, Office of Personnel Management, Washington, DC 20415.

6. Section 6.70 is amended by adding a new subsection (d) as follows:

§ 6.70 Reporting requirement.

* * * * *

(d) The Director may waive the time requirements set out in this section upon a finding that a delay in the establishing or amending the system would not be in the public interest and showing how the public interest would be adversely affected if the waiver were not granted and otherwise complying with OMB Circular A-108, and Transmittal Memorandums 1 and 3.

7. Section 6.70 (a) and (b) is amended by striking "Director, Finance and Administration" in the three places it appears in the section, and substituting "Privacy Appeals Officer".

§ 6.80 [Amended]

8. Section 6.80 is amended by changing the figure "6.98" to "in § 6.85."

9. Section 6.85 is amended to read as follows:

§ 6.85 Reproduction fees.

(a) There will be a minimum fee of \$2.00 for each request for reproducing copies of FEMA records up to and including material 8½ x 14 inches, plus the fee for each page as shown below:

Minimum fee first 6 copies.....	\$2.00
Forms per copy.....	.10
Reports per page.....	.10

(b) The fee for reproducing copies of FEMA records over 8½ x 14 inches or whose physical characteristics do not permit reproduction by routine electrostatic copying shall be the direct cost of reproducing the records through Government or commercial sources.

Dated: March 12, 1980.

John W. Macy, Jr.,

Director, Office of Management and Budget.

BILLING CODE 6718-01-M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1036

[Ex Parte No. 252 (Sub-No. 4)]

Level of Incentive Per Diem Charges

AGENCY: Interstate Commerce Commission.

ACTION: Final rules.

SUMMARY: The Interstate Commerce Commission is amending its incentive per diem (IPD) regulations to lower the level of incentive per diem charges on plain boxcars and XF cars as has been done for gondolas. The Commission will not extend IPD to year-round applicability for plain boxcars.

EFFECTIVE DATE: Thirty days from the date of service [March 7, 1980].

FOR FURTHER INFORMATION CONTACT: Richard B. Felder, (202) 275-7693.

SUPPLEMENTARY INFORMATION: In our notice of proposed rulemaking in this proceeding served October 11, 1979 [44 FR 59581, Oct. 16, 1979], we proposed to amend our incentive per diem (IPD) regulations at 49 CFR 1036.2 to lower the level of IPD charges on plain boxcars (XM cars) and XF cars as had been done in Ex Parte No. 252 (Sub-No. 2), *Incentive Per Charges—Gondolas*, 361 I.C.C. 454 (1979). We also requested comments on whether the IPD charges on plain boxcars should be returned to a year-round basis.

In our gondola decision, we found to be unnecessarily high the level of compensation produced by combining IPD and the basic per diem charges increased in Ex Parte No. 334, *Car Service Compensation Basic Per Diem Charges*, 361 I.C.C. 189 (1979). The pre-Ex Parte No. 334 combination of basic and incentive elements was implicitly found to constitute a reasonable level; since the basic rate was altered, we found in the gondola decision that an offsetting adjustment would be necessary in the incentive element. 361 I.C.C. at 467-68. Prior to Ex Parte No. 334, plain boxcars earned an 8.2% basic

per diem rate of return year-round and a 12.0% incentive per diem annual return for 6 months. This resulted in an average annual return of 14.2%. For XF cars, the annual return was 20.2% (8.2% plus 12.0% year-round).¹ In Ex Parte No. 334, the basic per diem rate of return was increased to 11.94%. Thus, the present combined IPD and basic return for plain boxcars is 17.94% and for XF cars it is 23.94%.

In response to our notice, a number of parties urged the elimination of IPD; others indicated the value of the program. These comments are outside the scope of this proceeding as set forth in our October 11, 1979 notice and shall not be considered. We shall examine the effectiveness of the incentive per diem program in Ex Parte No. 252 (Sub-No. 5) *Elimination of Incentive Per Diem Charges*, notice served December 5, 1979.²

The proposal to lower IPD on plain boxcars and XF cars received broad support. Approval for such a change in the regulations came from shippers (for example, the Kimberly-Clark Corporation), IPD creditor roads (the Western Pacific), IPD debtors (the Milwaukee Road), car leasing companies (ITEL), and the smaller carriers (the Chattahoochee Railroad), as well as supporters and opponents of the IPD concept in general. It was argued that lowering the level of IPD would still present a reasonable level of compensation and proper incentive for carriers to acquire boxcars. Little support for the current level of IPD was voiced; a carrier in favor of that level, the East Camden & Highland Railroad Company, maintains that IPD has been a very successful program infusing the rail industry with \$1 billion in rolling stock. All in all, however, the presumptions made in our notice proposing the lowering of IPD (the increased level of IPD is unnecessarily high; the pre-E.P. No. 334 level will provide sufficient incentive to attain the objectives of IPD) have not been rebutted by the parties.

We find that the pre-Ex Parte No. 334 level of the combination of incentive per diem and basic per diem charges, used in our gondola and prior boxcar reports, is reasonable. That level is 14.2% for plain (XM) boxcars and 20.2% for XF cars. Because of increases in the level of

basic per diem, the current combination of IPD and basic of 17.94% for XM cars and 23.94% for XF is, in our opinion, unnecessarily high for accomplishing IPD's purpose of encouraging the acquisition of cars in short supply. Despite the concerns voiced by the East Camden & Highland, we believe that the combined level we are prescribing will provide sufficient incentive to continue to attract capital which would otherwise not be available for investment in freight cars in short supply.

The tables below contain the incentive per diem charges effective April 1, 1980 on XF boxcars and plain (XM) boxcars.³ The XF table (§1036.2(b)) is the same as the current plain gondola table except for minor differences due to a more refined calculation. This refinement will facilitate implementation of the new charges by eliminating the computational difficulties encountered in implementing the plain gondola schedule.⁴ These difficulties were due to use of rounded figures in three tables since the gondola IPD table was derived by adding the old basic and old IPD and subtracting the new basic charges.

A separate table is required for plain (XM) boxcars to attain a rate of 14.2%. (See § 1036.2(a)). As noted by the National Railway Utilization Corporation, to use the XF and gondola table's 8.26% return for plain boxcars for 6 months would give a return of 16.07% (11.94% plus 4.13%) and not 14.2%. Thus, the table for XM cars reflects an incentive per diem rate of return of 4.52%. This 4.52% rate for 6 months and the 11.94% basic per diem rate results in the pre-Ex Parte No. 334 average annual yield of 14.2%.

Finally, we do not feel there is sufficient evidence to warrant extending IPD on plain boxcars to year-round applicability. We extended IPD year-round by order of March 30, 1973 because the nation was facing the most severe plain boxcar shortage in the Commission's history, caused in part by the Russian wheat sale. Daily shortages in 1973 ranged from a maximum of approximately 18,300 to a low of about 8,500. We returned IPD to six-month applicability by our decision of July 29, 1975 in *Incentive Per Diem Charges—1968* 350 I.C.C. 464. Although shortages still remain for plain boxcars, they are nowhere near the amounts found in 1973

¹This is the rate of return we approved in the gondola decision.

²Several shippers also complained that carriers were attempting to impose surcharges (\$200 per car according to the American Cotton Shippers Association) on incentive per diem cars. The Commission by decision of September 4, 1979, Special Permission No. 79-3481, rejected a tariff with such a surcharge. Such surcharges, absent further justification, are discriminatory.

³An explanation of the computation of these tables is found in the attachment, *Incentive Hourly Charge Computation Methodology*.

⁴Since IPD applies to XM cars from September through February, the lowered XM car charges will not actually take effect until September 1, 1980.

⁵Plain gondolas, effective April 1, 1980, will also be governed by this schedule.

when IPD was made year-round. According to the AAR's report CS 44-C, in October 1979, daily shortages of about 2000 were reported; for November, reports indicated shortages of 1000. Moreover, extending IPD year-round would increase return above the pre-Ex Parte No. 334 levels of the combination of IPD and per diem. IPD charges on plain boxcars shall remain in effect for the 6-month period of September through February.

This decision will not significantly affect either the quality of the human environment or conservation of energy resources.

It is ordered: We are amending 49 CFR 1036.2 as found below.

The rules are effective 30 days from the date of service. [March 7, 1980]

This proceeding is discontinued.

Decided: March 3, 1980.

Agatha L. Mergenovich,
Secretary.

Attachment—Incentive Hourly Charge Computation Methodology

In the interim report of the Commission in Ex Parte No. 252 (Sub-No. 1), *Incentive Per Diem Charges—1968*, decided December 12, 1969, the methodology used to compute incentive car hire charges was presented. The purpose of this appendix is to provide a more rigorous mathematical presentation of this methodology.

The incentive hourly charge applicable to a car in a given age and cost bracket represents the interest (at the effective incentive rate per hour) on the depreciated value of the midpoint of the cost bracket averaged over the age bracket. The structure of the incentive charges therefore is made up of three components; the cost bracket structure, the depreciation and age bracket structure and the effective hourly interest rate. These will be discussed in separate sections below. The concluding section presents a mathematical formula for computing the incentive hourly charges.

Cost Brackets

The first cost bracket ranges from \$1 to \$1000 with the remaining brackets defined at \$2000 increments. Letting CBL(J) and CBU(J) represent the lower and upper bounds of the Jth cost bracket respectively, the cost bracket structure may be specified as in equations (1), (2), (3), (4), (5) and (6)—

- (1) CBL(1)=1
- (2) CBU(1)=1000
- (3) CBL(2)=1001
- (4) CBU(2)=3000
- (5) CBL(J)=CBL(J-1)+2000 J=3, 4, ...
- (6) CBU(J)=CBU(J-1)+2000 J=3, 4, ...

Letting MPCB (J) represent the midpoint of the Jth cost bracket, equation (1)-(6) may be used to specify MPCB (J) as in equation (7).

$$\text{MPCB}(J) = \frac{\text{CBL}(J) + \text{CBU}(J)}{2000} \quad J=1, 2, \dots$$

Depreciation and Age Brackets

To represent original car cost less accrued depreciation over the car life, depreciation is calculated using the straight line method at a rate of 3 percent with 10 percent salvage value. The car's life is assumed to be 30 years.

Letting C(K) represent the depreciated value of \$1000 dollars of the total car cost after $(K - \frac{1}{2})$ years ($K=1, 2, \dots, 30, 30.5$), C(K) with the above assumptions may be expressed as in equation (8).

$$(8) \quad C(K) = 1000(1 - .03(K - \frac{1}{2})) = 1015 - 30K, \\ K=1, 2, \dots, 30, 30.5$$

The total depreciated cost of the car after $(K - \frac{1}{2})$ years is simply the initial cost of the car expressed in units of one thousand dollars multiplied by C(K) from equation (8).

As mentioned above the incentive charges are based on the depreciated initial cost of the car averaged over the age bracket covering the age of the car. The age brackets span five years; 1-5 years (group a), 6-10 years (group b), 11-15 years (group c), 16-20 years (group d), 21-25 years (group e), 26-30 years (group f) and greater than 30 years (group g). Letting L_i represent the lower bound and U_i the upper bound of age bracket i ($i=a, b, c, d, e, f, g$) (note for group g, $L_g = U_g = 30.5$) and letting ADC(i) represent the average depreciated cost over age bracket of \$1000 of the total initial cost of a car whose age is covered by age bracket i , equation (8) may be used to express ADC(i) as in equation (9).

(9)

$$= \frac{1}{5} \cdot \left[\sum_{k=L_i}^{U_i} C(k) \right] = 1015 - 30 \cdot \left[\left(\sum_{k=L_i}^{U_i} k \right) \cdot \frac{1}{5} \right]$$

ADC(i)

for $i = a, b, c, d, e, f$

$$= C(30.5) = 100 \quad \text{for } i=g$$

It is a simple matter to verify using (9) that ADC(a)=925, ADC(b)=775, ADC(c)=625, ADC(d)=475, ADC(e)=325, ADC(f)=175 and ADC(g)=100.

Effective Hourly Incentive Interest Rate

The incentive interest rate is applied seasonally (on a half year basis) to XM cars and annually to the other IPD car types. If the incentive rate is expressed on an annual basis, the effective incentive rate per hour (whether applicable seasonally or annually) is simply the annual incentive rate divided by the number of hours in a car-year. A car-year contains 342 days with 24 hours in each day

for a total of 8208 hours. Letting AIR represent the annual incentive rate, the effective incentive rate per hour (EIR) is given by equation (10).

$$(10) \quad \text{EIR} = \text{AIR} / 8208.$$

Incentive Hourly Charge Formula

Letting IHC(J,i) represent the incentive hourly charge applicable during the incentive period for a car whose initial cost falls in cost bracket J and whose age falls in age bracket i , equations (7), (9) and (10) may be used to express IHC(J,i) as in equation (11).

(11)

$$\text{IHC}(J, i) = \text{MPCB}(J) \cdot [1015 - 30 \cdot \left(\sum_{k=L_i}^{U_i} k \right) \cdot \frac{1}{5}] \cdot \text{EIR}$$

for $i = a, b, c, d, e, f$

$$= \text{MPCB}(J) \cdot (100) \cdot \text{EIR}$$

for $i = g$

Section 1036.2 is amended as follows:

§ 1036.2 Amount of incentive hourly charge.

(a) The incentive charges applicable on plain boxcars in each cost bracket by age group are set forth below:

Proposed Rules

Federal Register

Vol. 45, No. 54

Tuesday, March 18, 1980

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF ENERGY

10 CFR Part 440

[Docket No. CAS-RM-80-508]

Weatherization Assistance for Low-Income Persons; Amendment of Regulation and Request for Comments; Cancellation of Public Hearing

AGENCY: Department of Energy.

ACTION: Interim Rule with Request for Comments; Cancellation of Public Hearings.

SUMMARY: The Department of Energy hereby cancels two public hearings on the Weatherization Assistance for Low-Income Persons; Amendment of Regulation and Request for Comments which were scheduled for March 19, 1980 in Chicago, Illinois and March 20, 1980 in Denver, Colorado. The public hearings are cancelled due to lack of public interest in making oral presentations at the hearing. As stated in the notice of the Interim Final Rule with Request for Comments issued on February 22, 1980 (45 FR 13028, February 27, 1980), written comments on the Interim Final Rule must be received by 4:30 p.m. on April 28, 1980.

FOR FURTHER INFORMATION CONTACT:

Carolyn Martin, Office of Weatherization Assistance, Department of Energy, 1000 Independence Avenue, SW., Mail Stop 2H-027, Washington, D.C. 20585, (202) 252-2207.

Issued in Washington, D.C., March 12, 1980.

Worth Bateman,

Deputy Under Secretary.

BILLING CODE 6450-01-M

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

21 CFR Part 170

[Docket No. 77N-0222]

Nitrates and Nitrites in Poultry Products; Proposed Declaration that no Prior Sanction Exists

AGENCY: Food and Drug Administration.

ACTION: Extension of comment period on proposed rule.

SUMMARY: The Food and Drug Administration (FDA) is allowing an additional 90 days for comment on a proposed regulation that would declare that the use of nitrates and nitrites in poultry products is not the subject of any prior sanction granted by FDA under the Federal Food, Drug, and Cosmetic Act.

DATE: Comments by June 18, 1980.

ADDRESS: Written comments to the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Gerad McCowin, Bureau of Foods (HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: In the Federal Register of December 21, 1979 (44 FR 75662), FDA proposed to adopt by regulation the position that no prior sanction or approval granted under the Federal Food, Drug, and Cosmetic Act (the act), within the meaning of section 201(s)(4) of the act (21 U.S.C. 321(s)(4)), exists for the use of nitrates and nitrites in poultry products. Comments originally were to be filed by February 19, 1980.

The comment period was extended to March 20, 1980 in response to requests by the Special Poultry Research Committee (SPRC) and others for additional time to prepare comments (45 FR 11840; February 22, 1980). FDA granted that 30-day extension based on delays attributable to the holiday season. FDA concluded that the entire 180-day extension SPRC and others sought was not justified because the poultry industry, particularly SPRC, has been aware of FDA's position on the prior sanction issue for well over 2 years

and has known of FDA's intent to initiate this rulemaking since at least July 20, 1979. No adequate assurance was provided in the original request that a further extension would result in any new evidence that a prior sanction had been granted.

The SPRC now has provided FDA with details of new efforts in and other industry representatives are making to obtain new information, from sources not yet fully explored, bearing on the existence of a prior sanction for the use of sodium nitrite in poultry products. SPRC states, in part, that as a consequence of the December 21, 1979 notice, over 4,000 individual poultry businesses have been contacted by member trade associations and asked to search records and submit relevant information, and that a more thorough investigation of U.S. Department of Agriculture (USDA) records is warranted and has been undertaken. SPRC requests 90 additional days to gather this information and complete its comments.

The agency agrees that the actions SPRC has now undertaken to gather information on the prior sanction issue could be productive and will require more time to complete. Therefore FDA is granting the additional 90-day extension of the comment period. The new deadline for comments is June 18, 1980.

Subsequent to SPRC's latest request for extension of the comment period, the agency received requests from Valchris, Inc., and Land O Lakes, Inc., asking for a 180-day extension to give them time to search their files for documents supporting the existence of a prior sanction. FDA acknowledges that individual businesses need time to search their files, and this has been a consideration in granting the 90-day extension discussed above. The agency does not believe that such a search of files justifies a 180-day extension.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s) and 701(a), 72 Stat. 1784 as amended, 52 Stat. 1055 (21 U.S.C. 321(s) and 371(a))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), the comment period on the proposed rule to declare that no prior sanction exists for the use of nitrates and nitrites in poultry is extended to June 18, 1980.

Interested persons may, on or before June 18, 1980, submit written comments

to the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857. Four copies of all comments shall be submitted, except that individuals may submit single copies of comments, and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above-named office between 9 a.m. and 4 p.m., Monday through Friday.

Dated: March 13, 1980.

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

BILLING CODE 4110-03-M

DEPARTMENT OF LABOR

Wage and Hour Division

29 CFR Part 575

Waiver of Child Labor Provisions for Agricultural Employment of 10 and 11 Year Old Minors in Hand Harvesting of Short Season Crops; Provisions Governing Application for and Issuance of a Waiver; Restrictions on Use of Pesticides and Other Chemicals

Correction

In FR Doc. 80-7368 appearing at page 15168 in the issue of Friday, March 7, 1980, making the following corrections:

1. On page 15168, in the first column, the fifteenth line of the SUMMARY paragraph reading "injunction pending" should be corrected to read "injunction pending".

2. Also on page 15168, in the third column, the second line from the bottom reading "statutory criteria existed. The labor" should be corrected to read "statutory criteria existed. The Labor".

3. On page 15169, in the third column, the eighth line of the first full paragraph reading "were codified at 19 CFR 575.5(d). (The" should be corrected to read "were codified at 29 CFR 575.5(d). (The".

4. On page 15170, in the first column, the eleventh line of the third complete paragraph reading "chemicals which might possible be used" should be corrected to read "chemicals which might possibly be used".

5. On page 15170, in the second column, in the first table, on line six reading "Tricycloxylytin" should be corrected to read "Tricyclohexylytin".

6. Also on page 15170, in the second column, in the second table, on the

twenty-fifth line reading "Paragat" should be corrected to read "Paraquat".

BILLING CODE 1505-01-M

TREASURY DEPARTMENT

Office of the Secretary

31 CFR Part 14

Regulations Concerning Post Employment Conflict of Interest

AGENCY: Department of the Treasury.

ACTION: Proposed rule.

SUMMARY: The proposed rule implements the application of Title V of the Ethics in Government Act of 1978 addressing post employment conflicts of interest by former officers and employees of the Department of the Treasury. It establishes the procedure to impose administrative restrictions for violation of the post employment laws by such former officers and employees.

DATES: Comments must be in writing and must be received on or before April 17, 1980. The effective date of the regulation will be January 1, 1980.

ADDRESS: Comments should be addressed to the Director of Practice, Department of the Treasury, Washington, D.C. 20220.

FOR FURTHER INFORMATION CONTACT: Mr. Leslie S. Shapiro, Director of Practice, 202-376-0767.

SUPPLEMENTARY INFORMATION: Title V of the Ethics in Government Act of 1978 amended 18 U.S.C. 207 which prohibits certain post employment activities of former Government employees. Subsection (j) of 18 U.S.C. 207, as amended, provides that if the head of a department finds that a former officer or employee of the department violated 18 U.S.C. 207(a), (b) or (c), he/she may prohibit that person from appearing before the department, or communicating with the department, with the intent to influence, on behalf of any other person (except the United States) for a period of not to exceed five years or take other appropriate disciplinary action. Subsection (j) also requires that the former officer or employee be given notice and opportunity for a hearing. Accordingly, departments and agencies, in consultation with the Director of the Office of Government Ethics, have been required by the legislation to establish procedures to carry out such provision by January 1, 1980. The Office of Government Ethics published interim regulations to implement 18 U.S.C. 207 in the Federal Register for April 3, 1979 (44 FR 19974 (1979)). The final rule was

published in the Federal Register for February 1, 1980 (45 FR 7402 (1980)).

The proposed rule implements 18 U.S.C. 207(j) for the Department of the Treasury. It incorporates by reference the substantive provisions of the regulations published by the Office of Government Ethics. The regulations will be enforced by the Director of Practice, Office of the Secretary. The proposed procedural rules applicable to disciplinary proceedings are similar to those pertaining to the discipline of Internal Revenue Service practitioners in 31 CFR Part 10 and practitioners before the Bureau of Alcohol, Tobacco and Firearms in 31 CFR Part 8, which are also the responsibility of the Director of Practice.

The sanctions available may affect a former employee's eligibility to practice before the entire Department of the Treasury or a separate statutory agency of the Department depending on the circumstances of the violation. Effective July 1, 1979, the following agencies and bureaus within the Department of the Treasury were designated as separate statutory agencies or bureaus by rule of the Office of Government Ethics:

Internal Revenue Service
Bureau of Alcohol, Tobacco and Firearms
United States Secret Service
Bureau of the Mint
United States Customs Service
Bureau of Engraving and Printing
Comptroller of the Currency

In addition, a former officer or employee of the Department of the Treasury who violates 18 U.S.C. 207 (a), (b) or (c) during practice before the Bureau of Alcohol, Tobacco and Firearms or the Internal Revenue Service also may be subject to a disciplinary proceeding pursuant to 31 CFR Part 8 or Part 10, whichever is applicable. Such a proceeding may be consolidated with a proceeding under this part.

It has been determined that the proposed regulation does not meet the Treasury criteria for a significant regulation.

Drafting Information

The principal author of the proposed rule is Mr. Leslie S. Shapiro, Director of Practice, and members of his staff.

Authority

These amendments are proposed under authority of 92 Stat. 1864 (18 U.S.C. 207), as amended. In consideration of the foregoing, it is proposed, after consultation with the Office of Government Ethics, to amend Subtitle A of 31 CFR by adding a new Part 14 to read as follows:

**PART 14—REGULATIONS
CONCERNING POST EMPLOYMENT
CONFLICT OF INTEREST**

Subpart A—General Provisions

- Sec.
14.737-1 Scope.
14.737-2 Definitions.
14.737-3 Director of practice.
14.737-4 Other discipline.
14.737-5 Records.

**Subpart B—Rules Applicable to Post
Employment Practice by Officers and
Employees of the Department**

- § 14.737-6 Interpretative Standards.

**Subpart C—Administrative Enforcement
Proceedings**

- 14.737-7 Authority to prohibit practice.
14.737-8 Special orders.
14.737-9 Receipt of information concerning
former Treasury employee.
14.737-10 Conferences.
14.737-11 Institution of proceeding.
14.737-12 Contents of complaint.
14.737-13 Service of complaint and other
papers.
14.737-14 Answer.

**Subpart D—Other Departmental
Proceedings**

- 14.737-29 Review by the General Counsel.
Authority: 92 Stat. 1864 (18 U.S.C. 207), as
amended, except as otherwise noted.

Subpart A—General Provisions

§ 14.737-1 Scope.

This part contains rules governing discipline of a former officer or employee of the Department of the Treasury because of a post employment conflict of interest. Such discipline may include prohibition from practice before the Department or a separate statutory agency thereof as those terms are defined in this part.

§ 14.737-2 Definitions.

For the purpose of this part—

(1) The term "Department" means the Department of the Treasury and includes the separate statutory agencies thereof.

(2) The term "Director" means the Director of Practice.

(3) The term "General Counsel" means the General Counsel of the Department.

(4) The term "practice" means any informal or formal appearance before, or, with the intent to influence, any oral or written communication to the Department or, where applicable, to a separate statutory agency thereof on a pending matter of business on behalf of any other person (except the United States).

(5) The term "separate statutory agency thereof" means an agency or bureau within the Department designated by rule by the Director, Office of Government Ethics as a separate agency or bureau. The Internal Revenue Service, Bureau of Alcohol, Tobacco and Firearms, United States Secret Service, Bureau of the Mint, United States Customs Service, Bureau of Engraving and Printing, and Comptroller of the Currency were so designated effective July 1, 1979.

§ 14.737-3 Director of practice.

There is, in the Office of the Secretary of the Treasury, the Office of Director of Practice. The Director shall institute and provide for the conduct of disciplinary proceedings involving former employees of the Department as authorized by 18 U.S.C. 207(j), and perform such other duties as are necessary or appropriate to carry out his/her functions under this part.

§ 14.737-4 Other discipline.

For activity alleged to violate 18 U.S.C. 207 (a), (b) or (c), the Director may also bring a disciplinary proceeding pursuant to the regulations governing practice before the Bureau of Alcohol, Tobacco and Firearms or the Internal Revenue Service as found in 31 CFR Part 8 and 31 CFR Part 10, respectively. Such proceeding may be consolidated with any proceeding brought pursuant to this part.

§ 14.737-5 Records.

There are made available to public inspection at the Office of Director of Practice the roster of all persons prohibited from practice before the Department. Other records may be disclosed upon specific request, in accordance with appropriate disclosure regulations of the Department.

**Subpart B—Rules Applicable to Post
Employment Practice by Officers or
Employees of the Department**

§ 14.737-6 Interpretative standards.

A determination that a former officer or employee of the Department violated 18 U.S.C. 207 (a), (b) or (c) will be made in conformance with the standards

established in the interpretative regulations promulgated by the Office of Government Ethics and published at 5 CFR Part 737.

**Subpart C—Administrative
Enforcement Proceedings**

§ 14.737-7 Authority to prohibit practice.

Pursuant to 18 U.S.C. 207(j), if the General Counsel finds, after notice and opportunity for a hearing, that a former officer or employee of the Department violated 18 U.S.C. 207 (a), (b) or (c), the General Counsel in his/her discretion may prohibit that person from engaging in practice before the Department or a separate statutory agency thereof for a period not to exceed five years, or may take other appropriate disciplinary action.

§ 14.737-8 Special orders.

The General Counsel may issue special orders as he/she may consider proper in any case within the purview of this part.

§ 14.737-9 Receipt of information
concerning former Treasury employees.

If an officer or employee of the Department has reason to believe that a former officer or employee of the Department has violated 18 U.S.C. 207 (a), (b) or (c), or if any such officer or employee receives information to that effect, he/she shall promptly make a written report thereof, which report or a copy thereof shall be forwarded to the Inspector General, Department of the Treasury. If any other person has information of such violations, he/she may make a report thereof to the Inspector General or to any officer or employee of the Department. The Inspector General shall refer any information he/she deems warranted to the Director.

§ 14.737-10 Conferences.

(a) *In general.* The Director may confer with a former officer or employee concerning allegations of misconduct irrespective of whether an administrative disciplinary proceeding has been instituted against him/her. If such conference results in a stipulation in connection with a proceeding in which such person is the respondent, the stipulation may be entered in the record at the instance of either party to the proceeding.

(b) *Voluntary suspension.* A former officer or employee, in order to avoid the institution or conclusion of proceeding, may offer his/her consent to suspension from practice before the Department or a separate statutory agency thereof. The Director in his/her discretion, may suspend a former officer

or employee in accordance with the consent offered.

§ 14.737-11 Institution of proceeding.

(a) Whenever the Director has reason to believe that any former officer or employee of the Department has violated 18 U.S.C. 207(a), (b) or (c), he/she may reprimand such person or institute an administrative disciplinary proceeding for that person's suspension from practice before the Department or a separate statutory agency thereof. The proceeding shall be instituted by a complaint which names the respondent and is signed by the Director and filed in his/her office. Except in cases of willfulness, or where time, the nature of the proceeding, or the public interest does not permit, a proceeding will not be instituted under this section until facts or conduct which may warrant such action have been called to the attention of the proposed respondent in writing and he/she has been accorded the opportunity to provide his/her position on the matter.

(b) The Director shall coordinate proceedings under this part with the Department of Justice in cases where it initiates criminal prosecution.

§ 14.737-12 Contents of complaint.

(a) *Charges.* A complaint shall give a plain and concise description of the allegation which constitute the basis for the proceeding. A complaint shall be deemed sufficient if it fairly informs the respondent of the charges against him/her so that the respondent is able to prepare a defense.

(b) *Demand for answer.* In the complaint, or in a separate paper attached to the complaint, notification shall be given of the place and time within which the respondent shall file his/her answer, which time shall not be less than 15 days from the date of service of the complaint, and notice shall be given that a decision by default may be rendered against the respondent in the event he/she fails to file an answer as required.

§ 14.737-13 Service of complaint and other papers.

(a) *Complaint.* The complaint or a copy thereof may be served upon the respondent by certified mail, or first-class mail as hereinafter provided; by delivering it to the respondent or his/her attorney or agent of record either in person or by leaving it at the office or place of business of the respondent, attorney or agent; or in any other manner which has been agreed to by the respondent. Where the service is by certified mail, the return post office receipt duly signed by or on behalf of

the respondent shall be proof of service. If the certified mail is not claimed or accepted by the respondent and is returned undelivered, complete service may be made upon the respondent by mailing the complaint to him/her by first-class mail, addressed to him/her at the last address known to the Director. If service is made upon the respondent or his/her attorney or agent of record in person or by leaving the complaint at the office or place of business of the respondent, attorney or agent, the verified return by the person making service, setting forth the manner of service, shall be proof of such service.

(b) *Service of papers other than complaint.* Any paper other than the complaint may be served upon a respondent as provided in paragraph (a) of this section or by mailing the paper by first-class mail to the respondent at the last address known to the Director, or by mailing the paper by first-class mail to the respondent's attorney or agent of record. Such mailing shall constitute complete service. Notices may be served upon the respondent or his/her attorney or agent of record by telegraph.

(c) *Filing of papers.* Whenever the filing of a paper is required or permitted in connection with a proceeding, and the place of filing is not specified by this subpart or by rule or order of the Administrative Law Judge, the paper shall be filed with the Director of Practice, Department of the Treasury, Washington, D.C. 20220. All papers shall be filed in duplicate.

§ 14.737-14 Answer.

(a) *Filing.* The respondent's answer shall be filed in writing within the time specified in the complaint, unless on application the time is extended by the Director or the Administrative Law Judge. The answer shall be filed in duplicate with the Director.

(b) *Contents.* The answer shall contain a statement of facts which constitute the grounds of defense, and it shall specifically admit or deny each allegation set forth in the complaint, except that the respondent shall not deny a material allegation in the complaint which he/she knows to be true, or state that he/she is without sufficient information to form a belief when in fact he/she possesses such information. The respondent may also state affirmatively special matters of defense.

(c) *Failure to deny or answer allegations in the complaint.* Every allegation in the complaint which is not denied in the answer shall be deemed to be admitted and may be considered as proved, and no further evidence in

respect of such allegation need be adduced at a hearing. Failure to file an answer within the time prescribed in the notice to the respondent, except as the time for answer is extended by the Director or the Administrative Law Judge, shall constitute an admission of the allegations of the complaint and a waiver of hearing, and the Administrative Law Judge may make his/her decision by default without a hearing or further procedure.

§ 14.737-15 Reply to answer.

No reply to the respondent's answer shall be required, and new matter in the answer shall be deemed to be denied, but the Director may file a reply in his/her discretion or at the request of the Administrative Law Judge.

§ 14.737-16 Proof; variance; amendment of pleadings.

In the case of a variance between the allegations in a pleading and the evidence adduced in support of the pleading, the Administrative Law Judge may order or authorize amendment of the pleading to conform to the evidence: *Provided*, That the party who would otherwise be prejudiced by the amendment is given reasonable opportunity to meet the allegations of the pleading as amended; and the Administrative Law Judge shall make findings on any issue presented by the pleadings as so amended.

§ 14.737-17 Motions and requests.

Motions and requests may be filed with the Director or with the Administrative Law Judge.

§ 14.737-18 Representation.

A respondent or proposed respondent may appear in person or he/she may be represented by counsel or other representative. The Director may be represented by an attorney or other employee of the Department.

§ 14.737-19 Administrative Law Judge.

(a) *Appointment.* An Administrative Law Judge appointed as provided by 5 U.S.C. 3105 (1966), shall conduct proceedings upon complaints for the administrative disciplinary proceedings under this part.

(b) *Power of Administrative Law Judge.* Among other powers, the Administrative Law Judge shall have authority, in connection with any proceeding assigned or referred to him/her, to do the following:

- (1) Administer oaths and affirmations;
- (2) Make rulings upon motions and requests, which rulings may not be appealed from prior to the close of a hearing except, at the discretion of the

Administrative Law Judge, in extraordinary circumstances;

(3) Determine the time and place of hearing and regulate its course and conduct;

(4) Adopt rules of procedure and modify the same from time to time as occasion requires for the orderly disposition of proceedings;

(5) Rule upon offers of proof, receive relevant evidence, and examine witnesses;

(6) Take or authorize the taking of depositions;

(7) Receive and consider oral or written argument on facts or law;

(8) Hold or provide for the holding of conferences for the settlement or simplification of the issues by consent of the parties;

(9) Assess the responsible party extraordinary costs attributable to the location of a hearing.

(10) Perform such acts and take such measures as are necessary or appropriate to the efficient conduct of any proceeding; and

(11) Make initial decisions.

§ 14.737-20 Hearings.

(a) *In general.* The Administrative Law Judge shall preside at the hearing on a complaint for the suspension of a former officer or employee from practice before the Department. Hearings shall be stenographically recorded and transcribed and the testimony of witnesses shall be taken under oath or affirmation. Hearings will be conducted pursuant to 5 U.S.C. 556.

(b) *Public access to hearings.* Hearings will be closed unless an open hearing is requested by the respondent, except that if classified information or protected information of third parties (such as tax information) is likely to be adduced at the hearing, it will remain closed. A request for an open hearing must be included in the answer to be considered.

(c) *Failure to appear.* If either party to the proceeding fails to appear at the hearing, after due notice thereof has been sent to him/her, he/she shall be deemed to have waived the right to a hearing and the Administrative Law Judge may make a decision against the absent party by default.

§ 14.737-21 Evidence.

(a) *In general.* The rules of evidence prevailing in courts of law and equity are not controlling in hearings on complaints for the suspension of a former officer or employee from practice before the Department. However, the Administrative Law Judge shall exclude evidence which is irrelevant, immaterial, or unduly repetitious.

(b) *Depositions.* The deposition of any witness taken pursuant to Section 14.737-22 of this part may be admitted.

(c) *Proof of documents.* Official documents, records and papers of the Department shall be admissible in evidence without the production of an officer or employee to authenticate them. Any such documents, records, and papers may be evidenced by a copy attested or identified by an officer or employee of the Department.

(d) *Exhibits.* If any document, record, or other paper is introduced in evidence as an exhibit, the Administrative Law Judge may authorize the withdrawal of the exhibit subject to any conditions which he/she deems proper.

(e) *Objections.* Objections to evidence shall be in short form, stating the grounds of objection relied upon, and the record shall not include argument thereon, except as ordered by the Administrative Law Judge. Rulings on such objections shall be a part of the record. No exception to the ruling is necessary to preserve the rights of the parties.

§ 14.737-22 Depositions.

Depositions for use at a hearing may, with the consent of the parties in writing or the written approval of the Administrative Law Judge, be taken by either the Director or the respondent or their duly authorized representatives. Depositions may be taken upon oral or written interrogatories, upon not less than 10 days' written notice to the other party before any officer duly authorized to administer an oath for general purposes or before an officer or employee of the Department who is authorized to administer an oath. Such notice shall state the names of the witnesses and the time and place where the depositions are to be taken. The requirement of 10 days' notice may be waived by the parties in writing, and depositions may then be taken from the persons and at the times and places mutually agreed to by the parties. When a deposition is taken upon written interrogatories, any cross-examination shall be upon written interrogatories. Copies of such written interrogatories shall be served upon the other party with the notice, and copies of any written cross-interrogation shall be mailed or delivered to the opposing party at least 5 days before the date of taking the depositions, unless the parties mutually agree otherwise. A party upon whose behalf a deposition is taken must file it with the Administrative Law Judge and serve one copy upon the opposing party. Expenses in the reporting of depositions shall be borne by the party

at whose instance the deposition is taken.

§ 14.737-23 Transcript.

In cases where the hearing is stenographically reported by a Government contract reporter, copies of the transcript may be obtained from the reporter at rates not to exceed the maximum rates fixed by contract between the Government and the reporter. Where the hearing is stenographically reported by a regular employee of the Department, a copy thereof will be supplied to the respondent either without charge or upon payment of a reasonable fee. Copies of exhibits introduced at the hearing or at the taking of depositions will be supplied to the parties upon the payment of a reasonable fee (Sec. 501, Pub. L. 82-137, 65 Stat. 290 (31 U.S.C. 483a)).

§ 14.737-24 Proposed findings and conclusions.

Except in cases where the respondent had failed to answer the complaint or where a party has failed to appear at the hearing, the Administrative Law Judge prior to making his/her decision, shall afford the parties a reasonable opportunity to submit proposed findings and conclusions and supporting reasons therefor.

§ 14.737-25 Decision of the Administrative Law Judge.

As soon as practicable after the conclusion of a hearing and the receipt of any proposed findings and conclusions timely submitted by the parties, the Administrative Law Judge shall make the initial decision in the case. The decision shall include (a) a statement of findings and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record, and (b) an order of suspension from practice before the Department or separate statutory agency thereof or other appropriate disciplinary action, or an order of dismissal of the complaint. The Administrative Law Judge shall file the decision with the Director and shall transmit a copy thereof to the respondent of his/her attorney of record. In the absence of an appeal to the General Counsel or review of the decision upon motion of the General Counsel, the decision of the Administrative Law Judge shall without further proceedings become the decision of the General Counsel 30 days from the date of Administrative Law Judge's decision.

§ 14.737-26 Appeal to the General Counsel.

Within 30 days from the date of the Administrative Law Judge's decision, either party may appeal to the General Counsel. The appeal shall be filed with the Director in duplicate and shall include exceptions to the decision of the Administrative Law Judge and supporting reasons for such exceptions. If an appeal is filed by the Director, he/she shall transmit a copy thereof to the respondent. Within 30 days after receipt of an appeal or copy thereof, the other party may file a reply brief in duplicate with the Director. If the reply brief is filed by the Director, he/she shall transmit a copy of it to the respondent. Upon the filing of an appeal and a reply brief, if any, the Director shall transmit the entire record to the General Counsel.

§ 14.737-27 Decision of the General Counsel.

On appeal from or review of the initial decision of the Administrative Law Judge, the General Counsel will make the agency decision. In making his/her decision, the General Counsel will review the record or such portions thereof as may be cited by the parties to permit limiting of the issues. A copy of the General Counsel's decision shall be transmitted to the respondent by the Director.

§ 14.737-28 Notice of disciplinary action.

(a) Upon the issuance of a final order suspending a former officer of employee from practice before the Department or a separate statutory agency thereof, the Director shall give notice thereof to appropriate officers and employees of the Department. Officers and employees of the Department shall refuse to participate in any appearance by such former officer or employee or to accept any communication which constitutes the prohibited practice before the Department or separate statutory agency thereof during the period of suspension.

(b) The Director shall take other appropriate disciplinary action as may be required by the final order.

Subpart D—Other Departmental Proceedings

§ 14.737-29 Review by the General Counsel.

In any proceeding before the Department, if an initial decision is made with respect to the disqualification of a representative or attorney for a party on the grounds of 18 USC 207 (a), (b) or (c), such decision may be appealed to the General Counsel, who will make the agency decision on the issue.

Dated: March 12, 1980.

J. William Miller,
Secretary of the Treasury.

BILLING CODE 4810-25-M

POSTAL SERVICE

39 CFR Part 111

Official Mail; Revised Procedures for Handling Postage Meters Used by Federal Agencies

AGENCY: Postal Service.

ACTION: Proposed rule.

SUMMARY: These proposed regulations would expand and clarify current regulations for handling official mail postage meters. Major changes would provide that Federal agencies operate only one postage meter per license, that billings for postage be based upon the amount of postage set on each meter in a quarter, and that procedures be established to handle shortpaid official metered mail. This proposal is intended to improve accountability for official postage meter mail.

DATE: Comments must be received on or before April 17, 1980.

ADDRESS: Written comments should be sent or delivered to the Manager, Government Revenue and Examination Branch, Finance Department, U.S. Postal Service, 475 L'Enfant Plaza West, SW., Washington, D.C. 20260. Copies of all written comments received will be available for public inspection and photocopying at the above address between 9 A.M. and 4 P.M., Monday through Friday, in Room 8446.

FOR FURTHER INFORMATION CONTACT: Darrell L. Moriarity, (202) 245-5623.

SUPPLEMENTARY INFORMATION: Current regulations in Chapter 1 of the Domestic Mail Manual (formerly the Postal Service Manual) do not provide adequate information for proper handling of postage meters used by Federal agencies. The regulations proposed would provide more definitive instructions for handling these meters. Some agencies are presently operating more than one meter on a single license. This procedure, which does not provide adequate control to ensure that charges for all meters are properly billed, would be changed under the proposal.

Federal agencies currently reimburse the Postal Service for official meter postage based upon postage that has been used. The agencies provide the Postal Service with periodic reports of postage used and are billed based on these reports. This procedure depends solely upon the accuracy and

completeness of agency reporting, which is exceedingly difficult and costly to verify. The Postal Service proposes, therefore, to establish an automated accounting system, conforming to sound accounting principles, that will provide accurate accounting information for billing Federal agencies for postage set on their meters.

Present regulations do not identify procedures for handling short paid or unpaid official metered postage. As a result, there appears to be some confusion over the proper way to handle this mail, with resultant loss of revenue. The proposed regulations would instruct postal employees to follow procedures prescribed in 146.12, 146.13, and 146.4 of the Domestic Mail Manual for handling short paid or unpaid official metered mail. These sections provide that unpaid mail will be returned to sender for postage. Short paid mail is delivered to addressee if the addressee pays the additional postage. If the addressee refuses to pay the deficiency, the mail is returned to the sender and delivered upon payment of the deficiency.

To carry out the above purposes, the Postal Service proposes to revise sections 137.273a and 137.276 a and b of the Domestic Mail Manual. We anticipate these changes, if adopted, will become effective on July 1, 1980 (fourth quarter, GFY 1980).

Although exempt from the requirements of the Administrative Procedure Act (5 U.S.C. 553 (b), (c)) regarding proposed rulemaking by 39 U.S.C. 410(a), the Postal Service invites public comment on the following proposed revisions of the Domestic Mail Manual, which is incorporated by reference in the Federal Register. See 39 CFR 111.1.

PART 137—OFFICIAL MAIL

In 137.27, revise .273a and .276 to read as follows:

.27 Services To Be Provided

* * * * *

.273 Mailing Procedures Requiring Permits.

Government agencies authorized in 137.231 to use official mail services may use payment procedures and/or mail at postage rates requiring permits in accordance with the following requirements:

a. *Postage Meters*—The procedures prescribed in 144 must be followed for official mail postage meters, except as modified below:

(1) *License*. A government agency authorized by 137.231 to use official mail services may obtain a license to use an official postage meter by submitting Form 3601-A, *Application for a Postage Meter*

License, to the Manager, Government Revenue and Examination Branch, U.S. Postal Service, Washington, DC 20260. A separate application must be submitted for each meter to be set. Only one meter may be set for each license issued. A copy of each approved license will be sent to the post office at the authorized location as the authority to set one official postage meter without prepayment.

(2) *Meter Settings and Payment.* Payment is not required at the time an official meter is set. Government agencies are billed for all meter settings from Postal Service Headquarters, Form 3610, *Record of Postage Meter Settings*, must be completed and maintained for official mail meters by the meter-setting employee at the post office authorized to set the meter. When completing Form 3610, no entry is necessary in Column 6, *Amount Collected*. Form 3610 for official mail meters should be filed separately from commercial meter Form 3610 in license number sequence. There must be only one meter and one Form 3610 per license number. Since the six-month inspection required by 144.224 applies to official meters and payment will be based on amounts set, post offices should suggest that government agencies set their meters at least once every six months with enough postage to cover six month's estimated use.

(3) *Reporting Settings.* Official mail meter settings will not be reported by postal employees on Form 1412, *Daily Financial Report*. Total quarterly settings will be reported for each license/meter on Form 3612, *Quarterly Report of Official Mail Meter Settings*, and forwarded to the Manager, Government Revenue and Examination Branch within five days after the close of each quarter. A negative report is required for those meters with no settings during a quarter (see instructions on reverse of report Form 3612). Government agencies will be billed from Postal Service Headquarters for the amount of postage set during each quarter based upon these reports.

(4) *Spoiled Meter Postage.* To obtain credit, an agency must present spoiled meter postage to the setting post office. When spoiled postage is presented, follow the procedures in 147.2 must be followed by completing Form 3533, *Application and Voucher for Refund of Postage and Fees*. Note: No refund will be made in cash or applied to a meter. A file of Forms 3533 by license number will be maintained by the post office and the amount of credit will be reported in the "Credit" section on Form 3612 at the close of each quarter.

(5) *Changing Meter Location.* When an official mail meter is transferred from one post office to another, the government agency must re-apply in accordance with 137.273a(1) for a license authorizing the new post office to set the meter without prepayment. Official meters may be transferred between stations or branches within the same city without a new license application or notification to Headquarters.

(6) *Replacement Meters.* If a meter is replaced and the remaining postage is transferred from the original meter to the replacement meter, report the transfer

information will be reported in the "Transfer" section on Form 3612. Postage will be transferred to a replacement meter only. It will not be transferred to a meter operating under a different license number. If a meter is checked out-of-service without replacement, the procedures in 137.273a(7) will be followed.

(7) *Checking Meter Out-of-Service.* When an official mail meter is checked out-of-service without replacement, and postage remains on the meter, no cash refund will be given by the post office. The post office will report the required information in the "Withdrawn Meter (Not Replaced)" section of Form 3612. If a possible meter malfunction is indicated when a meter is checked out-of-service, a copy of the meter manufacturer's report will be forwarded to the Manager, Government Revenue and Examination Branch immediately, so the agency's account can be adjusted.

(8) *On-site Meter Settings.* Government agencies which desire on-site meter settings must pay the setting fee prescribed in 144.35 when the meter is set. Note: Agencies are not required to prepay for the actual amount of postage set. Reports of on-site settings will be made in accordance with 137.273a(3).

(9) *Mailings.* A special official mail meter-stamp design is prescribed for metered official mail (see 144.41). Official mail envelopes used with a postage meter system must not contain the *Postage and Fees Paid* imprint or other printing in the area where postage will be applied. Official meter imprints should indicate the correct postage, including applicable surcharge, for the class and weight of the mail piece. Official metered mail with insufficient postage imprinted will be handled in accordance with 146.13 or 146.4 as appropriate. If official envelopes and labels designed for meter use are found in the mail without a meter stamp, they will be treated in accordance with 146.12. Post offices serving Federal government agencies using postage meters will monitor such mailings for possible postage deficiencies.

* * * * *

.276 Forwarding Billing Records.

a. Copies of Forms 25, 3541, 3541-A, 3602, 3602-PC and 3612 pertinent to official mailings and meter settings will be forwarded to the Government Revenue & Examination Branch, Finance Department, U.S. Postal Service, Washington, D.C. 20260, for billing purposes.

b. Forms 3541, 3541-A, 3602, and 3602-PC will be forwarded at the end of each accounting period. Forms 25 and 3612 will be forwarded at the end of each quarter.

An appropriate amendment to 39 CFR 111.3 to reflect these changes will be published if the proposals are adopted.

(39 U.S.C. 401(2), 404(2))

W. Allen Sanders,

Associate General Counsel for General Law and Administration.

BILLING CODE 7710-12-M

DEPARTMENT OF THE INTERIOR

Water and Power Resources Service

43 CFR Part 428

Sale of Replacement Farm Units to Teton Flood Victims

AGENCY: Water and Power Resources Service, Interior.

ACTION: Proposed rule.

SUMMARY: An environmental impact assessment was prepared on the proposed sale on January 18, 1979. Since that time, the number of qualified farmers has been reduced, there are fewer acres to be sold, and changes have been made in the proposed wildlife mitigation plan. This required a revision in the environmental assessment. The current wording of 43 CFR 428.6 requires the sale of those lands to commence no later than February 1979. The revision of the environmental assessment has caused a delay in the implementation of 43 CFR 428.6. For that reason, we propose to revise 43 CFR 428.6 to allow for the necessary extra time.

DATE: Interested parties may submit written comments, suggestions, or objections regarding the proposed amendments to the Water and Power Resources Service. Comments must be received on or before April 17, 1980.

ADDRESS: Comments should be submitted to the Commissioner, Water and Power Resources Service, Department of the Interior, 18th and C Streets, NW., Washington, DC 20240, Attention: Code 420.

FOR FURTHER INFORMATION CONTACT: Mr. L. David Williamson, Jr., Senior Staff Assistant for Land Resources Management, Operation and Maintenance Policy Staff, Water and Power Resources Service, 18th and C Streets, NW., Washington, DC 20240, telephone (202) 343-5204.

SUPPLEMENTAL INFORMATION: The Act of February 25, 1978, (Pub. L. 95-230) directed the Water and Power Resources Service to sell 5,955 acres of land within the Idaho National Energy Laboratory to qualified farmers whose farms were damaged by the Teton Flood. An environmental assessment was prepared on the proposed sale on January 8, 1979. Since that time, the number of qualified farmers has been reduced, therefore, there are fewer acres to be sold. There also have been changes made to the proposed wildlife mitigation plan. These changes in the overall proposed action have made a revision to the environmental assessment necessary. This revision will cause a delay in the implementation of

43 CFR 428.6. For that reason we are amending 43 CFR Part 428.6 to accommodate the extra time needed.

Principal author of this document is Mr. Terence G. Cooper, Staff Assistant for Land Resources Management, Operation and Maintenance Policy Staff, Water and Power Resources Service.

The Department of the Interior has determined that this document is not a significant rule and does not require a regulatory analysis under Executive Order 12044 and 43 CFR Part 14.

Dated: March 5, 1980.

Daniel P. Beard

Acting Assistant Secretary of the Interior.

Pursuant to the authority of the Secretary of the Interior contained in Executive Order No. 11989 of May 24, 1977, it is hereby proposed to amend Part 428 of Title 43 as follows:

PART 428—SALE OF REPLACEMENT FARM UNITS TO TETON FLOOD VICTIMS

Paragraph (a) is amended to read as follows:

§ 428.6 Sale of replacement farm units.

* * * * *

(a) Replacement farm units shall be made available for purchase by qualifying farmers approximately every 6 months starting after final determinations have been made identifying the qualified farmers and within approximately 120 days after compliance with applicable Federal laws and regulations, including the National Environmental Policy Act of 1969; provided, however, that sales will be limited to the land made available for this program pursuant to the act of February 25, 1978 (92 Stat. 76) and described in § 428.4(3) hereof. The Secretary shall notify all qualifying farmers, in writing, of the date the first replacement farm units will be offered for sale and will also give notice of the closing date on which the qualifying farmer may file an intent to purchase a replacement farm unit from those offered for sale during the initial sale period. No subsequent notice will be provided; however, each qualifying farmer may file an intent to purchase at any time after the initial sale provided that no filings may be made after July 1, 1982.

BILLING CODE 4310-09-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FEMA 5794]

National Flood Insurance Program; Proposed Base Flood Elevation and Zone for the Town of Conklin, N.Y.

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base flood elevation and zone described below.

The proposed base flood elevation and zone will be the base for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in the newspaper of local circulation in the above-named community.

ADDRESSES: Map and other information showing the detailed outlines of the flood-prone areas and the proposed base flood elevation and zone are available for review at the Supervisor's Office, Town Hall, Conklin, New York:

Send comments to:

Mr. George S. Archie, Jr., Supervisor, Town of Conklin, 1070 Conklin Road, Box 182, Conklin, New York 13748.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert G. Chappell, Acting Assistant Administrator, Program Implementation and Engineering Office, National Flood Insurance Program, 451 Seventh Street, S.W., Washington, D.C. 20410, (202) 755-6570 or toll free line (800) 424-8872 or (800) 424-8873.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed base flood elevation and zone (100-year flood) for the Town of Conklin, New York, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 44 CFR 67.4(a) (presently appearing at its former Section, 24 CFR 1917.4(a)).

The base flood elevation and zone, together with the flood plain management measures required by

Section 60.3 (presently appearing at its former Section 24, CFR 1910.3) of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State or regional entities. The proposed elevation and zone will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed 100-year flood elevation and zone for the selected location:

Source of flooding	Location	Zone	Elevation ¹
Susquehanna River.....	West of the railroad...	A8	860

¹ Elevation in feet, mean sea level.

National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator, 44 FR 20963.

Issued: March 3, 1980.

Gloria M. Jimenez,

Federal Insurance Administrator.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 76

[Docket No. 21002; RM-2695; RM-2723]

Applications for Certificates of Compliance and Federal State/Local Regulatory Relationships; Order Extending Time for Comments

AGENCY: Federal Communications Commission.

ACTION: Order allowing for responsive comments in Docket 21002.

SUMMARY: Commission grants request of American Television and Communications Corporation and National Cable Television Association to file joint Supplemental Comments and an economic study prepared by the National Economic Research Associates dealing with the proposed elimination of the franchise fee limitation. Commission orders that comments responsive to the study be filed by April 7, 1980.

DATE: Comments responsive to the study "Removing the FCC Limit on Cable Television Franchise Fees" will be accepted until April 7, 1980.

ADDRESSES: Office of the Secretary, Federal Communications Commission, 1919 M Street, NW., Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Deborah Stuehrmann, Cable Television Bureau (202) 632-6468.

SUPPLEMENTARY INFORMATION: In the matter of amendment of Subpart B and C of Part 76 of the Commission's rules Pertaining to Applications for Certificates of Compliance and Federal, State/Local Regulatory Relationships, Docket No. 21002, RM-2695, RM-2723, 44 FR 37014, June 25, 1979.

Order

Adopted: March 7, 1980.

Released: March 11, 1980.

1. In connection with the Commission's *Memorandum Opinion and Order and Further Notice of Proposed Rule Making in Docket 21002*, released April 27, 1979, relating to the possible elimination of the cable

television franchise fee limitation, the American Television and Communications Corporation (ATC) filed a request for an extension of time on June 11, 1979. That request was premised on the need for additional time to have an outside contract study of the economic implications of the proposal completed. The request was denied in an *Order* issued June 26, 1979, with the statement that if

American Television and Communication wishes to proceed with the study in any case, we of course would consider motions to accept late filed pleadings during the pendency of this proceeding.

2. On February 29, 1980, American Television and Communications Corporation and the National Cable Television Association filed a request that the Commission accept and consider their joint Supplemental Comments and a study by the National Economic Research Associates entitled "Removing the FCC Limit on Cable Television Franchise Fees."

3. Since the proceeding is still pending at the time of this request, we will grant permission to file the Supplemental Comments and the NERA study. We believe that granting this request will not cause any undue delay.

4. In order that interested parties may have an opportunity to comment on this additional research, copies of the study have been placed in Docket 21002 and a period of thirty (30) days will be allocated for submission of comments.

Accordingly, it is ordered, that comments responsive to the study "Removing the FCC Limit on Cable Television Franchise Fees" will be accepted until April 7, 1980.

This action is taken by the Chief, Cable Television Bureau pursuant to authority delegated by § 0.288 of the Commission's rules.

Willard R. Nichols,
Chief, Cable Television Bureau.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

Agreement Regarding the Development Finance Program of the Economic Development Administration

AGENCY: Advisory Council on Historic Preservation.

ACTION: Notice.

SUMMARY: The Advisory Council on Historic Preservation proposes to execute a Programmatic Memorandum of Agreement pursuant to § 800.8 of the regulations for the "Protection of Historic and Cultural Properties" (36 CFR Part 800) with the Economic Development Administration, Department of Commerce (EDA), and the National Conference of State Historic Preservation Officers concerning the EDA's assistance actions in all the States, the District of Columbia, the Commonwealths of Puerto Rico and Northern Mariana Islands, the Virgin Islands, the Trust Territory of the Pacific Islands, Guam, and American Samoa. Authorization for a vastly expanded program is currently pending in Congress as "an Act to extend the Appalachian Regional Development Act and Title V of the Public Works and Economic Development Act of 1965 (S. 914)." The Agreement is being published for public comment to avoid delays in implementation once the Act becomes law. The Agreement provides a system that will ensure EDA will give adequate consideration to historic and cultural properties in its assistance programs to meet the requirements of Section 106 of the National Historic Preservation Act (16 U.S.C. 470f).

COMMENTS DUE: April 17, 1980.

ADDRESS: Comments should be addressed to Executive Director, Advisory Council on Historic

Preservation, 1522 K Street NW., Suite 430, Washington, D.C. 20005.

FOR FURTHER INFORMATION CONTACT:

Peter H. Smith, Director, Division of Federal Program Review, Advisory Council on Historic Preservation, 1522 K Street NW., Suite 510, Washington, D.C. 20005; Telephone: 202-254-3886.

Andrew Kauders, Special Assistant for the Environment, Economic Development Administration, Department of Commerce, Washington, D.C. 20240; Telephone: 202-377-4208.

SUPPLEMENTARY INFORMATION: The notice of the proposed Agreement invites comments from interested parties. Copies of the proposed Agreement are available from either the Economic Development Administration or the Council. The Agreement concerns the manner in which EDA will meet its responsibilities under Section 106 of the National Historic Preservation Act, and the Council's implementing regulations, 36 CFR Part 800. Section 106 requires that the head of any Federal agency having direct or indirect jurisdiction over a proposed Federal or federally assisted or licensed undertaking affecting properties either in or eligible for the National Register of Historic Places shall afford the Council a reasonable opportunity for comment. The Agreement is designed to respond to various programmatic undertakings resulting in approximately 5000 actions, 75 percent of which EDA proposes to process in 15 working days. The Agreement establishes several generic classes of actions for which the Council will accept No Effect Determinations pursuant to its regulations. Further, the Agreement provides that for all other classes of actions EDA will make every reasonable effort to avoid adverse effects on cultural resources. For all actions which will not have an adverse effect and for those actions where the adverse effect may be satisfactorily mitigated through agreement between EDA and the relevant State Historic Preservation Officer, no further Council comment will be required. The Council will be informed of all such agreements. If there is no mutually acceptable agreement between EDA and the State Historic Preservation Officer, or if any of the parties so requests, the undertaking will be referred to the Council with a request for comment in accordance with 36 CFR Part 800. The proposed Agreement will be reviewed

Federal Register

Vol. 45, No. 54

Tuesday, March 18, 1980

on an annual basis to determine whether it should be continued or modified. The parties to the proposed Agreement believe that it provides a workable system for expediting review of actions proposed by EDA as part of the Development Finance Program which will result in decreased paper work and provide adequate protection for historic and cultural properties and sites.

Dated: March 11, 1980.

Thomas F. King,
Acting Executive Director.

[FR Doc. 80-8216 Filed 3-17-80; 8:45 am]

BILLING CODE 4310-10-M

Programmatic Agreement Regarding the Intercontinental Ballistic Missile System (MX) of the U.S. Air Force

AGENCY: Advisory Council on Historic Preservation.

ACTION: Notice.

SUMMARY: The Advisory Council on Historic Preservation proposes to execute a Programmatic Memorandum of Agreement pursuant to § 800.8 of the regulations for the "Protection of Historic and Cultural Resources" (36 CFR Part 800) with the U.S. Air Force and Nevada and Utah State Historic Preservation Officers concerning the Intercontinental Ballistic Missile System known as the MX System. The Agreement provides a system that will ensure that adequate consideration is given to historic and cultural properties in the planning of the program in order to meet the requirements of Section 106 of the National Historic Preservation Act (16 U.S.C. 470).

COMMENTS DUE: April 17, 1980.

ADDRESS: Comments should be addressed to Executive Director, Advisory Council on Historic Preservation, 1522 K Street, NW., Washington, D.C. 20005.

FOR FURTHER INFORMATION CONTACT: Dr. Thomas F. King, Director, Office of Cultural Resource Preservation, Advisory Council on Historic Preservation, 1522 K Street, NW., Washington, D.C., 20005, 202-254-3974.

SUPPLEMENTARY INFORMATION: This notice of the proposed Agreement invites comments from interested parties. Copies of the proposed Agreement are available from the Council. The proposed Agreement

concerns the manner in which the Air Force will meet its responsibilities under Section 106 of the National Historic Preservation Act and the Council's implementing regulations (36 CFR Part 800). Section 106 requires that the head of any Federal agency having indirect or direct jurisdiction over a proposed Federal or federally assisted or licensed undertaking affecting properties included in or eligible for inclusion in the National Register of Historic Places shall afford the Council a reasonable opportunity for review and comment. The proposed Agreement provides that an oversight committee will be established to assist the State Historic Preservation Officers (SHPOs) in coordinating historic preservation-related work carried out in connection with the undertaking. The Air Force will, in consultation with the Bureau of Land Management and the Nevada and Utah State Historic Preservation Officers, develop a plan for study of all potential facility locations in order to identify sites listed in or eligible for the National Register of Historic Places, as well as guidelines for data recovery that take into account the concerns of local communities, social and ethnic groups, the native American Religious Freedom Act, the guidelines published by the Department of the Interior as 36 CFR Part 86, and the standards of the Society of Professional Archeologists. The plan and guidelines will be implemented in consultation with the SHPOs, in the course of project planning and development.

Dated: March 11, 1980.

Thomas F. King,

Acting Executive Director.

BILLING CODE 3410-16-M

Los Olmos Creek Watershed, Texas.

AGENCY: Soil Conservation Service, U.S. Department of Agriculture.

ACTION: Notice of Intent to Prepare an Environmental Impact Statement.

FOR FURTHER INFORMATION CONTACT:

Mr. George C. Marks, State Conservationist, Soil Conservation Service, W. R. Poage Federal Building, 101 South Main Street, Temple, Texas 76501, telephone number (817) 773-1711.

NOTICE: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is being prepared for the Los Olmos Creek Watershed, Jim Hogg and Starr Counties, Texas.

The environmental evaluation of this federally-assisted action indicates that the project may cause significant local, regional or national impacts on the environment. As a result of these findings, Mr. George C. Marks, State Conservationist, has determined that the preparation and review of an environmental impact statement is needed for this project.

The project concerns a plan to eliminate the threat to risk of loss of life from the 100-year frequency flood in every building in the flood hazard area, reduce average annual damages to urban property, reduce average annual flood damages to agricultural properties, and increase the quality of life for the area as a result of project installation.

The planned works of improvement are one floodwater retarding structure and two dikes, one at El Sauz and one at Rio Grande City, to be installed within a 4-year installation period.

A draft environmental impact statement will be prepared and circulated for review by agencies and the public. The Soil Conservation Service invites participation of agencies and individuals with expertise or interest in the preparation of the draft environmental impact statement. The draft environmental impact statement will be developed by Mr. George C. Marks, State Conservationist, Soil Conservation Service, W.R. Poage Federal Building, 101 South Main Street, Temple, Texas 76501, telephone number (817) 773-1711.

(Catalog of Federal Domestic Assistance Program No. 10.904, Watershed Protection and Flood Prevention Program—Public Law 83-566, 16 U.S.C. 1001-1008)

Dated: March 3, 1980.

Joseph W. Haas,

Assistant Administrator for Water Resources, Soil Conservation Service.

BILLING CODE 3410-16-M

**Paw Paw Bottoms Watershed,
Oklahoma**

AGENCY: Soil Conservation Service, U.S. Department of Agriculture.

ACTION: Notice of Availability of a Record of Decision.

FOR FURTHER INFORMATION CONTACT.

Mr. Roland R. Willis, State Conservationist, Soil Conservation Service, Agricultural Center Building, Farm Road and Brumley Street, Stillwater, Oklahoma 74074, telephone number (405) 624-4360.

NOTICE: Pursuant to the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that a decision has been made to implement the drainage and flood prevention plan developed for Paw Paw Bottoms Watershed project, Sequoyah County, Oklahoma. The planned works of improvement include 8.13 miles of channel work and 3 grade control structures.

The environmental impact statement (EIS) prepared for this federally-assisted action indicates that the impacts of the project are primarily beneficial and that the minor adverse impacts are acceptable in terms of trade-offs. As a result of these findings, Mr. Roland R. Willis, State Conservationist, has

determined that the plan for this project should be implemented.

The draft EIS has been circulated for review and the final EIS has been filed with the Environmental Protection Agency (EPA).

The record of decision has been forwarded to the EPA. A limited number of copies of this document are available to fill single copy requests. The copies may be requested from Mr. Roland R. Willis, State Conservationist, Soil Conservation Service, Agricultural Center Building, Farm Road and Brumley Street, Stillwater, Oklahoma 74074, telephone number (405) 624-4360.

(Catalog of Federal Domestic Assistance Program No. 10.904, Watershed Protection and Flood Prevention Program—Public Law 83-566, 16 U.S.C. 1001-1008)

Dated: March 3, 1980.

Joseph W. Haas,

Assistant Administrator for Water Resources, Soil Conservation Service.

BILLING CODE 3410-16-M

DEPARTMENT OF COMMERCE**National Technical Information Service****Government-Owned Inventions;
Availability for Licensing**

The inventions listed below are owned by the U.S. Government and are available for domestic and, possibly, foreign licensing in accordance with the licensing policies of the agency-sponsors.

Copies of patents cited are available from the Commissioner of Patents & Trademarks, Washington, DC 20231, for \$5.00 each. Requests for copies of patents must include the patent number.

Copies of patent applications cited are available from the National Technical Information Service (NTIS), Springfield, Virginia 22161 for \$5.00 each (\$10.00 outside North American Continent). Requests for copies of patent applications must include the PAT-APPL number. Claims are deleted from patent application copies sold to avoid premature disclosure. Claims and other technical data will usually be made available to serious prospective licensees upon execution of a non-disclosure agreement.

Requests for information on the licensing of particular inventions should

be directed to the addresses cited for the agency-sponsors.

Douglas J. Campion,

Program Coordinator, Office of Government Inventions and Patents, National Technical Information Service, Department of Commerce.

Chief, Intellectual Property Division, OTJAG, Department of the Army, Room 2D 444, Pentagon, Washington, DC 20310

Patent application 6,004,636: Early-Late Gate; filed January 19, 1979.

Patent application 6,056,581: Chemical Protective, Fire Resistant Composition; filed July 11, 1979.

U.S. Department of the Air Force, AF/JACP, 1900 Half Street, S.W., Washington, DC 20324

Patent 4,168,470: Two-Bit A/D Conversion Apparatus without a Signal Derived Automatic Gain Control; filed February 15, 1977; patented September 18, 1979; not available NTIS.

Patent 4,168,500: Method and System for Moving Target Elimination and Indication Using Smoothing Filters; filed March 10, 1972; patented September 18, 1979; not available NTIS.

Patent 4,168,908: Precision Pointing and Tracking Control System; filed December 30, 1977; patented September 25, 1979; not available NTIS.

U.S. Department of Agriculture, Program Agreements & Patent Branch, Administrative Service Division, Federal Building, Science and Education Administration, Hyattsville, MD 20782

Patent application 6,076,540: Prevention of Damage to Falling Fruits and Vegetables; filed September 18, 1979.

Patent application 4,167,447: Method for Insolubilizing Enzymes on Chitosan; filed March 24, 1978; patented September 11, 1979; not available NTIS.

U.S. Environmental Protection Agency, Room W513, 401 M Street, S.W., Washington, DC 20460

Patent application 881,980: Distributing Fluids Into Fluidized Beds; filed January 16, 1978.

Patent application 953,147: Converting Calcium Sulphide to Calcium Oxide; filed October 17, 1978.

U.S. Department of the Interior Branch of Patents, 18th and C Streets, N.W., Washington, DC 20240

Patent application 6,047,542: Process for Directly producing Anhydrous Aluminum Sulfate from Aluminum Sulfate Solution; filed June 11, 1979.

Patent application 6,056,151: Production of Alumina from Aluminum Nitrate Solutions; filed July 10, 1979.

U.S. Department of the Navy, Assistant Chief for Patents, Office of Naval Research, Code 302, Arlington, VA 22217

Patent application 6,066,271: Frequency Comparator for Electronic Clocks; filed August 13, 1979.

Patent application 4,156,761: Room Temperature Cured Elastomer; filed August 24, 1978; patented May 29, 1979; not available NTIS.

National Aeronautics and Space Administration Assistant General Counsels for Patent Matters, NASA Code GP-2, Washington, DC 20546

Patent 4,165,460: Coal-Rock Interface Detector; filed November 4, 1977; patented August 21, 1979; not available NTIS.

N80, 11469, 7: One Step Dual Purpose Joining Technique; August 30, 1979.

Patent application 6,061,566: Self-Calibrating Threshold Detector; filed July 27, 1979.

Patent application 727,444: Continuous Coal Processing Method and Means; filed September 28, 1976.

Patent application 900,659: Molten Salt Pyrolysis of Latex; filed April 27, 1978.

Patent 4,033,133: Start Up System for Hydrogen Generator Used With an Internal Combustion Engine; filed March 22, 1976; patented July 5, 1977; not available NTIS.

Patent 4,167,111: Borehold Geological Assessment; filed May 4, 1978; patented September 1979; not available NTIS.

Patent 4,168,287: Compound Oxidized Styrylphosphine; filed May 19, 1978; patented September 18, 1979; not available NTIS.

Patent 4,168,483: System for Detecting Substructure Microfractures and Method Therefor; filed September 6, 1977; patented September 18, 1979; not available NTIS.

Patent 4,168,706: Portable Breathing System; filed March 24, 1977; patented September 25, 1979; not available NTIS.

Patent 4,168,718: Passive Propellant System; filed July 11, 1978; patented September 25, 1979; not available NTIS.

Patent 4,169,129: Sodium Storage and Injection System; filed February 24, 1978; patented September 25, 1979; not available NTIS.

Program Coordinator, Office of Government Inventions and Patents, National Technical Information Service, U.S. Department of Commerce.

Chief, Intellectual Property Division, OTJAG, Department of the Army, Room 2D 444, Pentagon, Washington, DC 20310

Patent application 6-003,175: Near Carrier AM-FM Calibration Technique; filed January 15, 1979.

Patent application 6-009,000: Tire Removing Tool; filed February 5, 1979.

Patent application 6-010,551: Blinker Aiming Post Light; filed February 9, 1979.

Patent application 6-011,480: Digital Fluidic Output Force Balance Accelerometer; filed February 12, 1979.

Patent application 6-021,037: A Method for the Removal of Phosgene Impurities from Boron Trichloride; filed March 16, 1979.

Patent application 6-025,632: Magnesium Anodize Bath Control; filed March 30, 1979.

Patent application 6-029,421: Array Antenna Controller; filed May 11, 1979.

Patent application 6-033,936: Projectile Pallet Truck; filed April 27, 1979.

Patent application 6-042,681: Output Coupling System for Near-Millimeter Microwave Source; filed May 25, 1979.

Patent application 6-042,688: Multi-Beam Antenna Controller; filed May 25, 1979.

Patent application 6-047,675: Optical Memory with Fiber Optic Light Guide; filed June 12, 1979.

Patent application 6-047,676: Improved Null Mask; filed June 12, 1979.

Patent application 6-050,365: Multilayer Store Beam Accessed Memory; filed June 20, 1979.

Patent application 6-056,581: Chemical Protective, Fire Resistant Composition; filed July 11, 1979.

Patent application 6-066,598: Castable TNT Compositions Containing a Broad Spectrum; Preformed Thermoplastic Polyurethane Elastomer Additive; filed August 14, 1979.

Patent application 733,658: Snap Ring Bearing for a Gun Barrel Bushing; filed October 18, 1976.

Patent application 842,835: Optical Sight Mount; filed October 17, 1977.

Patent application 871,171: Helical Lock for Automatic Gun; filed January 23, 1978.

Patent application 904,052: Electrically Energized Impact Detonated Projectile with Safety Device; filed May 8, 1978.

Patent application 916,167: Cartridge for Reducing Bare Erosion and Extending Barrel Life; filed June 16, 1978.

Patent application 921,390: Prepackaged Ammunition System; filed July 3, 1978.

Patent application 930,827: Front Sight for Small Arms; filed August 3, 1978.

Patent application 931,356: Constant Power Regenerative Magnetic Switching Regulator; filed August 7, 1978.

Patent application 939,760: Method of Bonding Propellants Containing Mobile Constituents; filed September 5, 1978.

- Patent application 940,545: Technique for Passivating Stainless Steel; filed September 8, 1978.
- Patent application 941,446: Bead Breaker; filed September 11, 1978.
- Patent application 944,489: Method for Connecting to Semiconductor Chips without the Use of Wires; filed September 21, 1978.
- Patent application 962,436: Rifle Adapter Assembly With Hold Open Feature; filed November 20, 1978.
- Patent 4,104,953: Machine Gun Barrel for Firing Blanks; filed February 14, 1977; patented August 8, 1978; not available NTIS.
- Patent 4,126,080: High Velocity Anti-Surge Spring Assembly; filed April 29, 1977; patented November 21, 1978; not available NTIS.
- Patent 4,126,955: High Velocity Tapered Bore Gun and Ammunition; filed March 17, 1977; patented November 28, 1978; not available NTIS.
- Patent 4,128,040: Blank Firing Adapter; filed June 2, 1977; patented December 5, 1978; not available NTIS.
- Patent 4,128,041: Weapon Elevating Mechanism Having an Automatic Clutch; filed October 3, 1977; patented December 5, 1978; not available NTIS.
- Patent 4,128,754: Arc Spray Welding Replaceable Electrode Tip; filed March 6, 1978; patented December 5, 1978; not available NTIS.
- Patent 4,131,052: Drum Cam with Anti Hang-Fire Feature; filed July 5, 1977; patented December 26, 1978; not available NTIS.
- Patent 4,137,893: Riot Control Weapon; filed October 31, 1977; patented February 6, 1979; not available NTIS.
- Patent 4,141,276: Locking and Firing Mechanism for Rotating-Cam Actuated Weapons; filed August 1, 1977; patented February 27, 1979; not available NTIS.
- Patent 4,152,091: Numerical Controlled Rotary Cutting Tool Extension; filed November 25, 1977; patented May 1, 1979; not available NTIS.
- Patent 4,160,927: Ferroelectric Ceramic Devices; filed April 5, 1977; patented July 10, 1979; not available NTIS.
- Patent 4,162,499: Flush-Mounted Piggyback Microstrip Antenna; filed October 26, 1977; patented July 24, 1979; not available NTIS.
- Patent 4,164,850: Means for Reducing Nuclear Radiation-Induced Fluorescence Noise in Fiber-Optics Communications Systems; filed July 8, 1977; patented August 14, 1977; not available NTIS.
- U.S. Department of the Air Force, AF/JACP, 1900 Half Street, S.W., Washington, DC 20324**
- Patent application 6-060,066: Fully Asynchronous Input/Output Data Buffer Apparatus; filed July 24, 1979.
- Patent application 6-063,510: Insulated Structural Bushings; filed August 3, 1979.
- Patent application 6-063,872: Adjustable Electronic Circuit Card Supporter; filed August 3, 1979.
- Patent application 6-064,337: Image Enhancement Using On-Line Spatial Filtering; filed August 3, 1979.
- Patent 4,168,273: Method for the Preparation of Glycidyl 2,2-dinitro-2-fluoroethoxide; filed May 14, 1974; patented September 18, 1979; not available NTIS.
- Patent 4,168,465: Tapered Hole Capacitive Probe; filed Dec. 15, 1977; patented Sept. 18, 1979; not available NTIS.
- Patent 4,168,532: Multimode Data Distribution and Control Apparatus; filed Feb. 24, 1977; patented Sept. 18, 1979; not available NTIS.
- Patent 4,169,267: Broadband Helical Antennas; filed June 19, 1978; patented Sept. 25, 1979; not available NTIS.
- Patent 4,169,268: Metallic Grating Spatial Filter for Directional Beam Forming Antenna; filed May 11, 1978; patented Sept. 25, 1979; not available NTIS.
- U.S. Department of Health, Education, and Welfare, National Institutes of Health, Chief, Patent Branch, Westwood Building, Bethesda, MD 20892**
- Patent application 6,082,056: 7 Alkyl-Methyl-norethindrone Enanthate and Its Use in Long-Term Suppression of Fertility in Female Mammals; filed Oct. 5, 1979.
- U.S. Department of the Interior, Branch of Patents, 18th and C Streets NW., Washington, DC 20240**
- Patent application 6,060,102: Decomposition of AlCl₃.6H₂O in H₂ Atmosphere; filed July 24, 1979.
- Patent 4,164,460: System for the Dielectrophoretic Separation of Particulate and Granular Materials; filed Apr. 17, 1978; patented Aug. 14, 1979; not available NTIS.
- U.S. Department of the Navy, Assistant Chief for Patents, Office of Naval Research, Code 302, Arlington, VA 22217**
- Patent application 6,063,506: Antisparking Electrodes for Dielectrophoretic Filters; filed Aug. 3, 1979; not available NTIS.
- Patent application 6,066,220: Sea Hunt System; filed Aug 13, 1979.
- Patent application 6,067,646: An Anti-Blooming Shield for Two-Dimensional Charge-Injection Devices; filed Aug. 17, 1979.
- Patent application 6,073,399: Treatment of Body Tissue by Means of Internal Cavity Resonance; filed Sept. 7, 1979.
- Patent application 966,717: Apparatus for Expanding the Memory of a Mini-Computer System; filed Dec. 5, 1979.
- Patent application 931,348: Shaft Decoupling Device; filed Aug. 7, 1978.
- Patent application 944,433: Ejected Roller Shaft Disconnect Mechanism; filed Sept. 21, 1978.
- Patent application 952,169: Rotary Shaft Decoupling Mechanism; filed Oct. 17, 1978.
- Patent application 955,542: Condition Responsive Cable with Bendable Coaxial Sensor Mount; filed Oct. 27, 1978.
- Patent 4,114,137: Directional Sonobuoy; filed Dec. 19, 1974; patented Sept. 12, 1978; not available NTIS.
- Patent 4,115,753: Filter Optic Acoustic Array; filed July 18, 1977; patented Sept. 19, 1978; not available NTIS.
- Patent 4,123,732: Method of Making Tuned Resonance Passive Electronic Filters; filed Jan. 31, 1977; patented Oct. 31, 1978; not available NTIS.
- Patent 4,128,300: Optical Logic Elements; filed Sept. 26, 1977; patented Dec. 5, 1978; not available NTIS.
- Patent 4,128,759: Fiber Optic Delay Line Filter; filed Nov. 21, 1977; patented Dec. 5, 1978; not available NTIS.
- Patent 4,131,444: Method for Increasing the Strength and Density of Lead Titanate Ceramic Bodies; filed Aug. 25, 1977; patented Dec. 26, 1978; not available NTIS.
- Patent 4,139,403: Dinitroalkyl and Fluorodinitroalkyl Silicon Compounds; filed Aug. 19, 1977; patented Feb. 13, 1979; not available NTIS.
- Patent 4,139,897: Fast Two Dimensional Fourier Transform Device; filed Mar. 18, 1977; patented Feb. 13, 1979; not available NTIS.
- Patent 4,140,057: Axisymmetric Stabilized Liner Implosion System; filed May 2, 1978; patented Feb. 20, 1979; not available NTIS.
- Patent 4,141,295: Actuation Mine Simulator; filed Feb. 13, 1978; patented Feb. 27, 1979; not available NTIS.
- Patent 4,142,145: Method for Determining Conduction-Band Edge and Electron Affinity in Semiconductors; filed Dec. 22, 1977; patented Feb. 27, 1979; not available NTIS.
- Patent 4,143,299: Charged-particle Beam Acceleration in a Converging Waveguide; filed Feb. 22, 1978; patented Mar. 6, 1979; not available NTIS.
- Patent 4,143,838: Folding Fin Assembly Detent; filed Aug. 22, 1977; patented Mar. 13, 1979; not available NTIS.
- Patent 4,144,488: Investigation of Near-Surface Electronic Properties in Semiconductors by Electron Beam Scanning; filed Dec. 22, 1977; patented Mar. 13, 1979; not available NTIS.
- Patent 4,144,530: Combined Intrusion Sensor Line; filed Nov. 17, 1977; patented Mar. 13, 1979; not available NTIS.
- Patent 4,145,484: Safe High Energy Density Battery; filed Jan. 23, 1978; patented Mar. 20, 1979; not available NTIS.
- Patent 4,145,713: Composite Video Signal Field Recognition Circuit; filed Aug. 29, 1977; patented Mar. 20, 1979; not available NTIS.
- Patent 4,145,972: Dual-Mode Warhead Initiation System; filed Dec. 17, 1976; patented Mar. 27, 1979; not available NTIS.
- Patent 4,146,329: Autoalignment System for High Power Laser; filed Sept. 14, 1977; patented Mar. 27, 1979; not available NTIS.
- Patent 4,148,032: Method and Means for Defocusing Engine Cavity Reflected Energy; filed Oct. 27, 1977; patented Apr. 3, 1979; not available NTIS.
- Patent 4,149,770: Single-Fiber Duplex Coupler; filed Nov. 21, 1977; patented Apr. 17, 1979; not available NTIS.
- Patent 4,150,341: High Input Power Laser Device; filed Dec. 28, 1978; patented Apr. 17, 1979; not available NTIS.
- Patent 4,152,934: Vector Measuring Current Meter; filed Mar. 1, 1978; patented May 8, 1979; not available NTIS.
- Patent 4,153,368: Electro-Optical Detector Protection Device; filed Dec. 12, 1977; patented May 8, 1979; not available NTIS.

National Aeronautics and Space Administration, Assistant General Counsel for Patent Matters, NASA Code GP-2, Washington, DC 20546

Patent application 6,034,529: Diced Tile Thermal Protection for Spacecraft; filed Apr. 27, 1979.

Patent 4,168,287; Compound Oxidized Styrylphosphine; filed May 19, 1978; patented Sept. 18, 1979; not available NTIS.

Travel Service

Travel Advisory Board Meeting

On January 29, 1980, notice was given in the Federal Register (44 FR, Page 6637), that the Travel Advisory Board would meet on March 27, 1980. Notice is hereby given that the Travel Advisory Board meeting will begin at 9:00 a.m. in Room 1858 of the Main Commerce Building, 14th Street & Constitution Avenue, N.W., Washington, D.C. 20230.

Established in July 1968, the Travel Advisory Board consists of senior representatives of 15 U.S. travel industry segments who are appointed by the Secretary of Commerce.

Members advise the Secretary of Commerce and Assistant Secretary of Commerce for Tourism on policies and programs designed to accomplish the purposes of the International Travel Act of 1961, as amended, and the Act of July 19, 1940, as amended.

Agenda items are as follows: 1. Department of Energy—Petroleum Stock and Supply Outlook.

2. U.S.-Mexico Consultative Mechanism Progress Report.

3. Pacific Basin Development Conference—Report on Kuilima, Hawaii Conference.

4. Progress Report on Visa Waiver Legislation.

5. General Report on USTS Activities.

6. Reports of TAB Members.

7. Review of S. 1097.

8. USTS FY '81 Budget.

9. Miscellaneous.

A limited number of seats will be available to observers from the public and the press. The public will be permitted to file written statements with the Committee before or after the meeting. To the extent time is available, the presentation of oral statements will be allowed.

Sue Barbour, Travel Advisory Board Liaison Officer of the United States Travel Service, Room 1858, U.S. Department of Commerce, Washington, D.C. 20230, (telephone (202) 377-4752)

will respond to public requests for information about the meeting.

Jeanne Westphal,

Acting Assistant Secretary for Tourism.

[FR Doc. 80-8211 Filed 3-17-80; 8:45 am]

BILLING CODE 3510-11-M

DEPARTMENT OF DEFENSE

Department of the Army

Army Medical Research and Development Advisory Panel Ad Hoc Study Group on Bacterial Diseases; Partially Closed Meeting

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following Committee meeting:

Name of Committee: United States Army Medical Research and Development Advisory Panel Ad Hoc Study Group on Bacterial Diseases.

Date of Meeting: April 7 and 8, 1980.

Time and Place: 0900 hours, Room 3092, Walter Reed Army Institute of Research, Washington, DC.

Proposed agenda: This meeting will be open to the public from 0900-1000 hrs on April 7, 1980 to discuss the scientific research program of the Bacterial Diseases Branch, Walter Reed Army Institute of Research and on April 8 from 1630-1700 for the summation of the meetings. Attendance by the public at open sessions will be limited to space available.

In accordance with the provisions set forth in Section 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on April 7 from 1000-1630 hrs and on April 8, from 0900-1630 hrs for the review, discussion and evaluation of individual programs and projects conducted by the U.S. Army Medical Research and Development Command, including consideration of personnel qualifications and performance, the competence of individual investigators, medical files of individual research subjects, and similar items, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Dr. Howard Noyes, Associate Director, Walter Reed Army Institute of Research, Building 40, Room 1111, Walter Reed Army Medical Center, Washington, DC 20012 (202/576-3061) will furnish summary minutes, roster of Committee members, and substantive program information.

For the Commander.

Richard O. Spertzel,

Colonel, VC, Executive Officer.

[FR Doc. 80-8180 Filed 3-17-80; 8:45 am]

BILLING CODE 3710-08-M

Army Medical Research and Development Advisory Panel Ad Hoc Study Group on Medical Entomology; Partially Closed Meeting

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act (P.L. 92-463), announcement is made of the following Committee meeting:

NAME OF COMMITTEE: United States Army Medical Research and Development Advisory Panel Ad Hoc Study Group on Medical Entomology.

DATE OF MEETING: 21 & 22 April 1980.

TIME & PLACE: 0900 hours, Room 3092, Walter Reed Army Institute of Research, Washington, DC.

PROPOSED AGENDA: This meeting will be open to the public from 0900-1000 hrs on 21 April 1980 to discuss the scientific research program of the Medical Entomology Branch, Walter Reed Army Institute of Research and on 22 April from 1630-1700 for the summation of the meetings. Attendance by the public at open sessions will be limited to space available.

In accordance with the provisions set forth in Section 552b(c)(6), Title 5, U.S. Code and Section 10(d) of P.L. 92-463, the meeting will be closed to the public on 21 April from 1000-1630 hrs and on 22 April from 0900-1630 hrs for the review, discussion and evaluation of individual programs and projects conducted by the U.S. Army Medical Research and Development Command, including consideration of personnel qualifications and performance, the competence of individual investigators, medical files of individual research subjects, and similar items, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Dr. Howard Noyes, Associate Director, Walter Reed Army Institute of Research, Room 1111, Building 40, Walter Reed Army Medical Center, Washington, DC 20012 (202/576-3061) will furnish summary minutes, roster of Committee members, and substantive program information.

FOR THE COMMANDER:

Richard O. Spertzel,

Colonel, VC, Executive Officer.

BILLING CODE 3710-08-M

Shoreline Erosion Advisory Panel; Open Meeting

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act (PL 92-463), notice is hereby given of a meeting of the Shoreline Erosion Advisory Panel on 15 April 1980.

The meeting will be held in the Howard Johnson's Motor Lodge, Route 1 and Capital Beltway, Alexandria, Virginia, from 0830 hours to 1630 hours on 15 April 1980.

The meeting will be devoted to briefings by the responsible Districts on the Stuart-Jensen Causeways, Florida demonstration site; the Basin Bayou, Louisiana demonstration site, and the Fountainebleau, Louisiana demonstration site; a presentation on sitting vegetation for erosion control by a representative of the Soil Conservation Service, Department of Agriculture; a report on dissemination of information by members of the Panel; and a report from the contractor on the data analysis contract.

Participation by the public is scheduled at 1300 hours on 15 April.

The meeting will be open to the public subject to the following:

1. Since seating capacity of the meeting room at the Howard Johnson's Motor Lodge is limited, advance notice of intent to attend, although not required, is requested in order to assure adequate arrangements for those wishing to attend.

2. Oral participation by public attendees is encouraged during the time scheduled on the agenda; written statements may be submitted prior to the meeting or up to 30 days after the meeting.

Inquiries and notice of intent to attend

the meeting may be addressed to Colonel Ted E. Bishop, Executive Secretary, Shoreline Erosion Advisory Panel, Kingman Building, Fort Belvoir, VA 22060; Telephone (202) 325-7000.

Marian G. Spittle,

Army Liaison Officer with the Federal Register.

DEPARTMENT OF ENERGY

Requests for Interpretation; Months of December 1979 and January 1980

Notice is hereby given that during the months of December 1979 and January 1980, the requests for interpretation listed in the Appendix to this notice were filed pursuant to 10 CFR Part 205, Subpart F with the Office of General Counsel, Department of Energy (DOE). Notice of subsequently received requests will be published at the end of each calendar month. Copies of the requests for interpretation listed herein are on file in and should be obtained from the DOE's Public Reading Room, Information Access Office, Room 5B-180, Forrestal Building, 1000 Independence Avenue, SW., Washington, D.C. 20585, (202) 252-5968.

The statement of issue that follows each request for interpretation listed in the Appendix is not intended to be

definitive or final. Rather, the issue statement should be regarded as the initial restatement by the DOE of the question that appears to have been presented for resolution. The issue may, of course, be refined and modified during the interpretive process.

Interested parties may submit written comments on the listed interpretation requests by April 17, 1980. Comments should be identified on the outside envelope and on documents submitted with the file number of the interpretation request and all comments should be filed with the Assistant General Counsel for Interpretations and Rulings, Office of the General Counsel, Department of Energy, Room 5E052, 1000 Independence Avenue, SW., Washington, D.C. 20585. Any comments submitted should be served on the requesting parties as identified in the Appendix below. When appropriate, aggrieved parties, as defined in 10 CFR 205.2, will continue to receive actual notice of pending interpretation requests in accordance with the current practice of the Office of General Counsel.

For further information contact Diane Stubbs, Office of General Counsel, 1000 Independence Avenue, SW., Room 5E052, Washington, D.C. 20585, (202) 252-2931.

Merrill F. Hathaway, Jr.,

Acting Assistant General Counsel for Interpretations and Rulings.

March 11, 1980.

Appendix.—List of Requests for Interpretation Received by the Office of General Counsel

(Months of December 1979 and January 1980)

Date received	Name and location of requester	File No.
Dec. 12, 1979	Calvert Drilling Company, Horace K. Calvert, President, Calvert Drilling Company, 1000 City Center Building, Oklahoma City, Oklahoma 73102.	A-505
	Issue: Where crude oil was recovered from a property in 1978 in the course of testing, was crude oil "produced" from that property for purposes of the "newly discovered crude oil" provisions of 10 CFR 212.79(b)?	
Dec. 17, 1979	Clardy Oil Company, Russell C. Powell, Esq., Bassman, Mitchell & Levy, Suite 1000, 1612 K Street, NW., Washington, D.C. 20006	A-506
	Issue: Does the normal business practices rule set forth in 10 CFR 210.62 prohibit the operation of "card-lock" automated gasoline sales outlets?	
Dec. 17, 1979	Western Marketing, Inc., Russell C. Powell, Inc., Bassman, Mitchell & Levy, Suite 1000, 1612 K Street, NW., Washington, D.C. 20006	A-507
	Issue: Does the normal business practices rule set forth in 10 CFR 210.62 prohibit the operation of "card-lock" automated gasoline sales outlets?	
Dec. 20, 1979	Sunmark Industries Division of Sun Oil Company of Pennsylvania, Richard Berryman, Esq., Fried, Frank, Harris, Shriver & Kampelman, Suite 1000, 600 New Hampshire Avenue, NW, Washington, D.C. 20037.	A-508
	ISSUES	
	(1) May Sun use a proportional method to determine its "dealer tank wagon" price for a product which is blended at the point of retail sale under the provisions of 10 CFR 212.83(c)(1)(i)(C)?	
	(2) May Sun's independent dealers similarly determine their "acquisition cost" for blended grades of gasoline under 10 CFR 212.92 and 212.93(a)(2)?	
Dec. 28, 1979	Gulf Oil Corporation, James W. Copp, Esq., Gulf Oil Corporation, P.O. Box 3725, Houston, Texas 77001	A-509
	ISSUES	
	(1) Where Gulf has changed its method of financing refinery assets, modernization and expansion, from general corporate borrowings to segregated borrowing for particular purposes, may Gulf include any increased interest costs associated with such segregated borrowing in its total increased non-product costs consistent with the requirements of 10 CFR 212.83(c)(2)(iii)(E)?	
	(2) How is the C ₂ factor for May 1973 interest cost increases attributable to refinery operations computed?	
Dec. 28, 1979	Seneca Oil Company, Frank J. LaPallo, Esq., Casson, Calligaro & Mutryn, 900 Watergate Office Building, 2600 Watergate Avenue, NW., Washington, D.C. 20037.	A-510
	Issue: Where crude oil was recovered from a property in 1978 in the course of testing, was crude oil "produced" from that property for purposes of the "newly discovered crude oil" provisions of 10 CFR 212.79(b)?	
Jan. 7, 1980	Vulcan Asphalt Refining Company, Dillon J. Ferguson, Esq., Butler, Binlon, Rice, Cook & Knapp, 818 Connecticut Avenue, NW., Washington, D.C. 20006.	A-511
	Issue: May a refiner include in its crude oil runs to stills for purposes of the entitlements program those barrels of crude oil refined by other firms, or be paid the proceeds of entitlements sold pursuant to processing agreements under 10 CFR 211.62, 211.66, and 211.67?	
Jan. 8, 1980	Eugene Water & Electric Board, William F. Rau, Director, General Services Division, Eugene Water & Electric Board, 500 East Fourth Avenue, P.O. Box 10148, Eugene, Oregon 97440.	A-512
	Issue: Are commercial buildings heated by electricity and steam generated through the use of "hogged fuel" exempt from the Emergency Building Temperature Restrictions in 10 CFR 490?	

Appendix.—List of Requests for Interpretation Received by the Office of General Counsel—Continued

[Months of December 1979 and January 1980]

Date received	Name and location of requester	File No.
Nov. 23, 1979	Enterprise Products Company, Michael R. Johnston, Esq., Enterprise Products Company, 1100 Milam Building, Suite 2900, Houston, Texas 77002.	A-513
Issue: Must a separate "bank" be established for unrecovered costs as computed under the special rules for natural gas liquid products, 10 CFR 212.93(f)(2) of the Mandatory Petroleum Price Regulations?		
Jan. 4, 1980	The Parawax Company, William F. Cockrell, Jr., Esq., Seyfarth, Shaw, Fairweather & Geraldson, 1111 19th Street, NW., Washington, D.C. 20036.	A-514
Issue: Does a reclaimer of crude oil determine its maximum lawful selling price under 10 CFR Part 212 Subpart D or Subpart L?		
Jan. 15, 1980	Standard Oil Company (Indiana), Matthew Gallo, Esq., Standard Oil Company (Indiana), 200 E. Randolph Drive, Post Office Box 5910-A, Chicago, Illinois 60680.	A-515
ISSUES		
(1) Does the Tertiary Incentive Program (10 CFR 212.78) apply to enhanced oil recovery (EOR) programs already in existence on October 1, 1979 (the effective date of the program)?		
(2) May a producer receive the market price for tertiary incremental crude oil produced from a particular property, while at the same time recouping expenses that relate to the EOR project on that property by selling tertiary incentive crude oil produced from a different property?		
(3) Are the royalty interests in a EOR property and the royalty interests in the property from which allowed expenses are to be recouped through the sale of tertiary incentive crude oil at uncontrolled prices to be paid on the basis of the otherwise applicable ceiling price?		
(4) Under the Tertiary Incentive Program, may a producer recover expenses incurred for services or material which is provided "in-house" or by an affiliate of the producer?		
Jan. 22, 1980	DeLozier Chevron Station, Thomas Hal Clarke, Jr., Esq., Mitchell, Clarke, Pate, Anderson, & Wimberly, Sixth Floor, Georgia Federal Savings Building, Atlanta, Georgia 30303.	A-516
Issue: In determining its substituted base period volumes, does 10 CFR 211.104(a)(1) allow a station that did not come into existence until December 15, 1978, to compute "its average monthly purchases in those months of the October 1978 through February 1979 period" on a pro rata basis?		
Jan. 22, 1980	Risser Oil Corporation, P. N. Risser III, Risser Oil Corporation, 7101 Park Boulevard, Pinellas Park, Florida 33565	A-517
Issue: Where a supplier has sold petroleum products to accounts at a price below that charged the consignee agent and subsequently the same accounts become the consignee's upon conversion to a wholesale purchaser-reseller, does 10 CFR 212.111(c) compel the wholesale purchaser-reseller to determine its maximum lawful selling price in accordance with 10 CFR 212.93?		
Jan. 23, 1980	E-Z Serve, Inc., John D. Hemphill, Esq., E-Z Serve, Inc., One Allen Center, Suite 975, Houston, Texas 77002	A-518
Issue: Do the provisions of 10 CFR 211.13(c) (1) and (2) permit a wholesale purchaser-reseller with more than one base period supplier, which is entitled to receive an adjustment to its base period use, to supply a new retail sales outlet by an upward certification on a proportional base period use basis for those suppliers located in the same marketing area as the new outlet?		
Jan. 31, 1980	Concord Oil Co., Inc., J. M. Tomaino, Vice President, Concord Oil Co., Inc., 147 Lowell Road, Concord, Massachusetts 01742	A-520
Issue: Does a supplier violate the normal business practices rule set forth in 10 CFR 210.62 if by refusing to sufficiently increase a wholesale purchaser-reseller's line of credit, it does not maintain payment terms extended to a purchaser since 1976?		
Jan. 21, 1980	Nederland Processing Company, Sherwood B. Smith, Jr., Esq., Kaler, Worstley, Daniel & Hollman, 1200 18th Street, NW., Washington, D.C. 20036.	A-522
Issue: Is a limited partnership to construct and operate a refinery a "firm," as that term is defined in 10 CFR 211.51 and 212.31 for purposes of the Mandatory Petroleum Allocation and Price Regulations, distinct from the participating partners, if the proposed facility is to be operated on a "day-to-day" basis by an entity that is a wholly-owned subsidiary of one of those partners?

Office of Hearings and Appeals

Cases Filed; Week of January 4 Through January 11, 1980

Notice is hereby given that during the week of January 4, 1980 through January 11, 1980 the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with

the Office of Hearings and Appeals of the Department of Energy.

Under the DOE's procedural regulations, 10 CFR, Part 205, any person who will be aggrieved by the DOE action sought in such cases may file with the DOE written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those

regulations, the date of service of notice shall be deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Hearings and Appeals, Department of Energy, Washington, D.C. 20461.

Melvin Goldstein,

Director, Office of Hearings and Appeals.

March 10, 1980.

List of Cases Received by the Office of Hearings and Appeals

[Week of Jan. 4 through Jan. 11, 1980]

Date	Name and location of applicant	Case No.	Type of submission
Jan. 4, 1980	Commonwealth Oil Refining Co., Inc., Washington, D.C.	BED-0024, BEJ-0024.	Motion for Discovery and Protective Order. If granted: Discovery would be granted to Commonwealth Oil Refining Co., Inc., in connection with the Statement of Objections submitted by Texaco, Inc., to the November 30, 1979, Proposed Decision and Order (Case No. DEE-8020) issued to Commonwealth Oil Refining Co., Inc. In addition, the December 14, 1979, Protective Order agreed upon by Texaco, Inc., and Commonwealth Oil Refining Co., Inc. (Case No. BEJ-0009) would be supplemented.
Jan. 4, 1980	ICG Vista Petroleum, Inc., Denver, Colo.	BEN-0638, BEE-0638, BEL-0638.	Allocation Exception, Motion for Interim Order. If granted: ICG Vista Petroleum, Inc., would receive an exception from the provisions of 10 CFR 211.65 (the Buy/Sell Program) and would receive the relief requested on an interim basis pending a final determination on the application for exception.
Jan. 7, 1980	Acme, Inc., Lincolnton, N.C.	BEE-0635	Allocation Exception. If granted: Acme, Inc., would receive an exception from the provisions of 10 CFR Part 211 that would increase the firm's allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 7, 1980	Ashland Oil, Inc., Washington, D.C.	BEA-0133	Appeal of Assignment Order. If granted: The December 6, 1979, Assignment Order issued to Ashland Oil, Inc., by the Economic Regulatory Administration, Office of Petroleum Operations, Region IV, would be rescinded with respect to Ashland Oil Inc.'s supply obligations to Delta Petroleum Corporation.
Jan. 7, 1980	Barton Bernstein, Stanford, Calif.	BFA-0131	Appeal of Information Request Denial. If granted: The July 12, 1979, Information Request Denial issued to Barton Bernstein would be rescinded, and the applicant would receive access to information in connection with atomic bomb stockpiles.
Jan. 7, 1980	By-Rite Oil Company, Dearborn Heights, Mich.	BEE-0631	Allocation Exception. If granted: By-Rite Oil Company would receive an exception from the provisions of 10 CFR Part 211 that would increase the firm's allocation of unleaded motor gasoline for the purpose of blending gasohol.

List of Cases Received by the Office of Hearings and Appeals—Continued

[Week of Jan. 4 through Jan. 11, 1980]

Date	Name and location of applicant	Case No.	Type of submission
Jan. 7, 1980	Castle Aero Club, Inc., Merced, Calif.	BEE-0620	Allocation Exception. If granted: Castle Aero Club, Inc., would receive an exception from the provisions of 10 CFR Part 211 that would permit the firm to receive an allocation of aviation fuel.
Jan. 7, 1980	Chronister Oil Company (Lincoln Land), Springfield, Ill.	BMR-0018, BEJ-0018.	Petition for Modification and Protective Order. If granted: The January 5, 1977, Allocation Order issued by the Economic Regulatory Administration, Fuels Regulation Branch, to Coastal States Gas Corporation would be modified with respect to the firm's allocation fractions. Chronister Oil Company would enter into a Protective Order with Coastal States Gas Corporation in order to ensure the confidentiality of information provided to Chronister pursuant to its petition for modification.
Jan. 7, 1980	Chuck Bryant Chevron Service, Whittier, Calif.	BRW-0016	Remedial Order. If granted: An Interim Remedial Order for Immediate Compliance issued to Chuck Bryant Chevron Service on October 12, 1979, would be issued as a final Remedial Order for Immediate Compliance.
Jan. 7, 1980	Cities Service Company, Tulsa, Okla.	BES-0044, BST-0044.	Request for Stay and Temporary Stay. If granted: Cities Service Company would receive a stay and a temporary stay of the December 21, 1979, Decision and Order issued to Union Oil Company of California (BEN-0009) pending a final determination on Union Oil Company's Application for Exception (Case No. DEE-5748).
Jan. 7, 1980	Cities Service Company, Tulsa, Okla.	BEE-0637	Exception from the Entitlements and Buy/Sell Programs. If granted: Cities Service Company would receive an exception from the provisions of 10 CFR 211.67 and 10 CFR 211.65 which would have the effect of equalizing the firm's past entitlement crude oil costs with those of other domestic refiners.
Jan. 7, 1980	Cities Service Company, Tulsa, Okla.	BEA-0129	Appeal of Entitlements Notice. If granted: The September 1979 Entitlements Notice would be modified with respect to Cities Service Company's entitlements purchase obligations.
Jan. 7, 1980	Clouse Oil Company, Ozark, Ala.	BEE-0636	Allocation Exception. If granted: Clouse Oil Company would receive an exception from the provisions of 10 CFR Part 211 that would increase the firm's allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 7, 1980	Coulson Oil Company, Inc., North Little Rock, Ark.	BEE-0627	Allocation Exception. If granted: Coulson Oil Company, Inc., would receive an exception from the provisions of 10 CFR Part 211 that would increase the firm's allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 7, 1980	Exxon Company, U.S.A., Houston, Tex.	BEA-0132	Appeal of Assignment Order. If granted: The December 6, 1979, Assignment Order issued to Exxon Company, U.S.A., by the Economic Regulatory Administration, Region IV, would be rescinded with respect to Exxon Company, U.S.A.'s supply obligations to Publix Oil Company.
Jan. 7, 1980	Getty Refining & Marketing Co., Tulsa, Okla.	BEE-0621, BEE-0622, BEE-0623, BEE-0624, BEE-0625, BEE-0626.	Allocation Exception. If granted: Getty Refining & Marketing Co. would receive an exception from the provisions of 10 CFR Part 211 that would increase the firm's allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 7, 1980	Harrison Gas and Oil, Inc., Los Angeles, Calif.	BRW-0015	Remedial Order. If granted: An Interim Remedial Order for Immediate Compliance issued to Harrison Gas and Oil, Inc., on October 25, 1979, would be issued as a final Remedial Order for Immediate Compliance.
Jan. 7, 1980	M.F.A. Oil Company, Columbia, Miss.	BEE-0630	Credit Exception. If granted: M.F.A. Oil Company would receive an exception from the provisions of 10 CFR 212.62 that would permit the firm to adopt a 30-day billing cycle with credit beyond 30 days extended at the lawful interest rate.
Jan. 7, 1980	M. W. Sewell and Company, Bath, Maine	BEE-0629	Allocation Exception. If granted: M. W. Sewell and Company would receive an exception from the provisions of 10 CFR Part 211 that would increase the firm's allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 7, 1980	Newsday, Garden City, N.Y.	BFA-0130	Appeal of Information Request Denial. If granted: The December 12, 1979, Information Request Denial issued by the Economic Regulatory Administration, Office of Petroleum Operations, Region II, would be rescinded, and Newsday would receive access to certain DOE information.
Jan. 7, 1980	Texaco, Inc., White Plains, N.Y.	BED-0025	Motion for Discovery. If granted: Discovery would be granted to Texaco, Inc., in connection with Applications for Exception, Stay, Temporary Exception and a Petition for Special Redress submitted by Energy Cooperative, Inc. (Case Nos. BEE-0508, BES-0508, Bel-0508, and BSG-0009).
Jan. 7, 1980	Wallace Mays, Jr., Point Marion, Pa.	BRW-0014	Remedial Order. If granted: An Interim Remedial Order for Immediate Compliance issued to Wallace Mays, Jr., on October 12, 1979, would be issued as a final Remedial Order for Immediate Compliance.
Jan. 7, 1980	Williams & Connolly, Washington, D.C.	BFA-0128	Appeal of Information Request Denial. If granted: The December 11, 1979, Information Request Denial issued by the Deputy General Counsel for Enforcement and Litigation would be rescinded and Williams & Connolly would receive access to certain DOE and FEA documents relating to criminal sanctions provided in the 1973 Emergency Petroleum Allocation Act.
Jan. 8, 1980	Crown Central Petroleum Corporation/Office of Special Counsel, Baltimore, Md.	BEX-0024	Supplemental Order. If granted: The relief granted in the June 5, 1979, Decision and Order (Case No. DES-0211) would be extended pending a final determination on the objection to a proposed remedial order (Case No. DRO-0111).
Jan. 8, 1980	Dale Olson Oil Company, Sioux Falls, S. Dak.	BEE-0709	Allocation Exception. If granted: Dale Olson Oil Company would receive an exception from the provisions of 10 CFR Part 211 that would increase the firm's allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 9, 1980	Brock Exploration Corporation, Washington, D.C.	BFA-0134	Appeal of Information Request Denial. If granted: The December 10, 1979, Information Request Denial issued to Brock Exploration Corporation would be rescinded and the firm would receive access to DOE documents in connection with an agency audit of the firm.
Jan. 9, 1980	Duo-matic Olsen Inc., Park Forest South, Ill.	BEE-0648	Exception from the Energy Efficiency Test Procedures. If granted: Duo-matic Olsen Inc., would receive an exception from the provisions of 10 CFR Part 430 to modify the energy efficiency test procedures applicable to furnaces.
Jan. 9, 1980	Lumberport-Shinnston Gas Co., Lumberport, W. Va.	BEE-0643	Exception to the Reporting Requirements. If granted: Lumberport-Shinnston Gas Co. would not be required to file Form EIA-149 ("Natural Gas Supply Requirements").
Jan. 9, 1980	Marathon Oil Company, Findlay, Ohio	BEA-0139	Appeal of Assignment Order. If granted: The December 4, 1979, Assignment Order issued to Marathon Oil Company by the Economic Regulatory Administration, Region IV, would be rescinded with respect to Marathon Oil Company's supply obligations to Philip Sloan Oil Company.
Jan. 9, 1980	Marathon Oil Company, Findlay, Ohio	BED-0026	Motion for Discovery. If granted: Discovery would be granted to Marathon Oil Company in connection with the Statement of Objections it submitted to the October 31, 1979, Proposed Decision and Order (Case No. DEE-2427), issued to Apollo Oil Company by the Office of Hearings and Appeals.

List of Cases Received by the Office of Hearings and Appeals—Continued

[Week of Jan. 4 through Jan. 11, 1980]

Date	Name and location of applicant	Case No.	Type of submission
Jan. 9, 1980	Mid-State Oil Company, Fargo, N. Dak.	BEL-0025	Temporary Allocation Exception. If granted: Mid-State Oil Company would receive a temporary exception from the provisions of 10 CFR Part 211 that would increase the firm's allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 9, 1980	Pride Refining, Inc., Abilene, Tex.	BEE-0651	Allocation Exception. If granted: Pride Refining, Inc., would receive an exception from the provisions of 10 CFR 211.65 that would permit the firm to receive an allocation of crude oil.
Jan. 9, 1980	Reed Distributing Company, Inc., Beaumont, Tex.	BEE-0649	Allocation Exception. If granted: Reed Distributing Company, Inc., would receive an exception from the provisions of 10 CFR Part 211 that would increase the firm's allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 10, 1980	Marathon Oil Company, Findlay, Ohio	BEA-0135	Appeal of Redirection Order. If granted: The December 7, 1979, Redirection Order issued to Marathon Oil Company by the Economic Regulatory Administration, Region IV, regarding Marathon Oil Company's supply obligations to Farm Stores, Inc., would be rescinded.
Jan. 10, 1980	Pester Refining Company, Washington, D.C.	BEE-0656	Price Exception (Section 212.83). If granted: Pester Refining Company would receive an exception from the provisions of 10 CFR 212.83 that would permit the firm to pass through incremental expenses relating to the blending, storage, distribution, and marketing of gasohol.
Jan. 10, 1980	Publicker Industries, Inc., Greenwich, Conn.	BEE-0652	Allocation Exception. If granted: Publicker Industries, Inc., would receive an exception from the provisions of 10 CFR Part 211 that would permit the firm to receive an allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 10, 1980	Randolph Oil Company, Moberly, Mo.	BEE-0654	Allocation Exception. If granted: Randolph Oil Company would receive an exception from the provisions of 10 CFR Part 211 that would increase the firm's allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 10, 1980	The Country Store, Tafton, Pa.	BEN-0012	Interim Order. If granted: The Country Store would receive interim allocation exception relief pending a final determination on its Application for Exception.
Jan. 11, 1980	Mid-South Oil Company, Dallas, Tex.	BEL-0039	Request for Temporary Exception. If granted: Mid-South Company's supplier/purchaser obligations with Oklahoma Refining would be terminated.
Jan. 11, 1980	Thomsen Oil Company, Hastings, Nebr.	BEE-0664	Allocation Exception: If granted: Thomsen Oil Company would receive an exception from the provisions of 10 CFR Part 211 that would increase the firm's allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 7, 1980	Kenneth L. Tipps, Denver, Colo.	BXE-0633	Price Exception. If granted: Kenneth L. Tipps would be permitted to continue to sell the crude oil from the Marick 1-A property at upper tier ceiling prices.
Jan. 10, 1980	Buttes Resources, Inc., Dallas, Tex.	BEE-0653	Exception to Reporting Requirements. If granted: Buttes Resources, Inc., would be granted an extension of time in which to file Form EIA-23 (Annual Survey of Domestic Oil and Gas Reserves).
Jan. 10, 1980	Raymer Oil Company, Statesville, N.C.	BEJ-0015	Motion for Protective Order. If granted: Raymer Oil Company will disclose confidential information contained in its application for exception (Case No. BEE-0404) to Standard Oil Company of Indiana (Amoco).

List of Cases Involving the Standby Petroleum Product Allocation Regulations for Motor Gasoline

Week of January 4 through January 11, 1980

If granted: The following firms would receive an exception which would increase their base period allocation of motor gasoline.

January 4, 1980

Champion Oil Service Co., BEE-0619, District of Columbia.

January 7, 1980

D & J ARCO Service, BEE-0634, California.
Earle's Grocery, BEE-0628, Kentucky.

January 8, 1980

Art's Mobil, BEE-0659, Pennsylvania.
Benson General Store, BEE-0645, Vermont.
Bill Haramis Truck Stop, BEE-0662, California.
McCoy Oil Company, Inc., BEE-0640, North Carolina.
Shield's ARCO, BEE-0667, Pennsylvania.
Turner, Harold, BEE-0663, California.

January 9, 1980

Bee Jay's Auto Body, BEE-0641, New Jersey.
Dennisport ARCO Station, BEE-0661, Massachusetts.
Des Moines Ind. Com. Sch. Dist., BEE-0675, Iowa.

Earman Oil Co., Inc., BEE-0642, Florida.
Fireline Petroleum Co., BEE-0650, District of Columbia.

Town & Country Food Markets Inc., BXE-0647, District of Columbia.

January 10, 1980

Blair Park Exxon, BEE-0658, District of Columbia.
Dickson Motor Service, Inc., BEE-0655, California.

Jones Sunoco Service, BEE-0729, Ohio.
L. D. Service Center, BEE-0657, Missouri.
McDonough Iron Work, BEE-0639, Texas.
Park & 86 Exxon, BEE-0684, Florida.
Sun Coast Supply Co., Inc., BEE-0672, Florida.

Thoele Oil & Hauling Co., Inc., BEE-0692, Missouri.

January 11, 1980

Chen's United Petroleum, BEE-0674, California.
Earl & Fred's ARCO, BEE-0660, Washington.
Langley Park Amoco, BEE-0669, Maryland.
Mason Valley Petroleum Dealers, BXE-0673, Nevada.
McCormack's Service Center, BEE-0668, Illinois.
Quick Trip Corp., BEE-0671, Oklahoma.
Tollison ARCO, BEE-0666, California.

[FR Doc. 80-8253 Filed 3-17-80; 8:45 am]

BILLING CODE 6450-01-M

Cases Filed; Week of January 11 through January 18, 1980

Notice is hereby given that during the week of January 11, 1980 through January 18, 1980 the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy.

Under the DOE's procedural regulations, 10 CFR, Part 205, any person who will be aggrieved by the DOE action sought in such cases may file with the DOE written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, the date of service of notice shall be deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Hearings and Appeals, Department of Energy, Washington, D.C. 20461.

Melvin Goldstein,

Director, Office of Hearings and Appeals.

March 10, 1980.

List of Cases Received by the Office of Hearings and Appeals

[Week of Jan. 11 through Jan. 18, 1980]

Date	Name and location of applicant	Case No.	Type of submission
Jan. 11, 1980	Alcot, Inc., Kathleen, Ga.	BFA-0138	Appeal of Information Request Denial. If granted: The December 13, 1979, Information Request Denial issued to Alcot, Inc., would be rescinded, and the firm would receive access to certain DOE documents.
Jan. 11, 1980	Chevron U.S.A. Inc., San Francisco, Calif.	BEA-0137	Appeal of Assignment Order. If granted: The December 6, 1979, Assignment Order issued to Chevron U.S.A., Inc., by the Economic Regulatory Administration Region IV would be rescinded with respect to Chevron U.S.A., Inc.'s supply obligations to Publix Oil Company, Inc.
Jan. 11, 1980	Chevron, U.S.A. et al., Washington, D.C.	BEA-0153	Appeal of Assignment Order. If granted: The December 10, 1979, Assignment Order issued by the Economic Regulatory Administration to the firms of Chevron, U.S.A., Atlantic Richfield Company, Exxon Company, U.S.A., Getty Refining & Marketing Co., Marathon Oil Co., Mobil Oil Corp., and Tosco Corporation, regarding their supply obligations to Fina Jobbers Association, Inc., would be modified.
Jan. 11, 1980	Exxon Company, U.S.A., Houston, Tex.	BEA-0138	Appeal of Assignment Order. If granted: The December 4, 1979, Assignment Order issued to Exxon Company, U.S.A., would be rescinded with respect to Exxon Company, U.S.A.'s supply obligations to Philip Sloan Oil Company.
Jan. 11, 1980	Glen Eilyn Standard, Glen Eilyn, Ill.	BEE-0670	Allocation Exception. If granted: Glen Eilyn Standard would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 11, 1980	Sabre Oil Company, Bakersfield, Calif.	BEH-0010	Motion for Evidentiary Hearing. If granted: An Evidentiary Hearing would be convened in connection with the Application for Exception submitted by Sabre Oil Company and the December 6, 1979, Proposed Decision and Order issued to the firm.
Jan. 11, 1980	Vickers Petroleum Corp., Washington, D.C.	BEA-0152	Appeal of Assignment Order. If granted: The December 10, 1979, Assignment Order issued by the Economic Regulatory Administration to Vickers Petroleum Corporation regarding the firm's supply obligations to Fina Jobbers Association, Inc., would be modified.
Jan. 14, 1980	Audio of Baton Rouge, Inc., Baton Rouge, La.	BEE-0677	Allocation Exception. If granted: Audio of Baton Rouge, Inc., would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 14, 1980	Commonwealth Oil Refining Co., Washington, D.C.	BED-0028, BEJ-0028.	Motion for Discovery and Protective Order. If granted: Discovery and Protective Order would be granted to Commonwealth Oil Refining Company in connection with the Statement of Objection submitted in response to the October 22, 1979, Proposed Decision and Order (Case No. DXE-7928) issued to Commonwealth Oil Refining Company.
Jan. 15, 1980	Aminoil USA, Inc., Harris County, Tex.	BXE-0678	Extension of relief granted in <i>Aminoil USA, Inc.</i> , DOE, Par. (October 24, 1979). If granted: Aminoil USA Inc., would be permitted to continue to sell the crude oil produced from the California State Lease, located in Harris County, Texas, at upper tier ceiling prices.
Jan. 15, 1980	Amoco Oil Company, Washington, D.C.	BRZ-0020	Interlocutory Order. If granted: The Office of Hearings and Appeals of the Department of Energy would issue an Interlocutory Order to Amoco Oil Company with respect to the Motion for Discovery filed by the petitioner.
Jan. 15, 1980	Atlantic Richfield Company, Los Angeles, Calif.	BRZ-0015	Interlocutory Order. If granted: The Office of Hearings and Appeals of the Department of Energy would issue an Interlocutory Order to Atlantic Richfield Company with respect to the Motion for Discovery filed by the petitioner.
Jan. 15, 1980	Chevron U.S.A., Inc., San Francisco, Calif.	BRZ-0018	Interlocutory Order. If granted: The Office of Hearings and Appeals of the Department of Energy would issue an Interlocutory Order to Chevron U.S.A., Inc., with respect to the Motion for Discovery filed by the petitioner.
Jan. 15, 1980	Clarence Berner, Randolph, Nebr.	BEE-0685	Allocation Exception. If granted: Clarence Berner would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an allocation of unleaded motor gasoline for the purpose of blending gasohol.

List of Cases Received by the Office of Hearings and Appeals—Continued

[Week of Jan. 11 through Jan. 18, 1980]

Date	Name and location of applicant	Case No.	Type of submission
Jan. 15, 1980	Don White Oil Service, Inc., Galesburg, Ill.	BEE-0690	Allocation Exception. If granted: Don White Oil Service, Inc., would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increase allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 15, 1980	Fritz Ashland Service Station, Greenup, Ky.	BEH-0559	Motion for Evidentiary Hearing. If granted: An evidentiary hearing would be convened in connection with the Statement of Objections submitted by Fritz Ashland Service Station in response to the Proposed Decision and Order issued to the firm.
Jan. 15, 1980	Getty Refining and Marketing Company, Tulsa, Okla.	BEA-0141	Appeal of an Assignment Order. If granted: The December 17, 1979, Assignment Order issued to Getty Refining and Marketing Company by the Economic Regulatory Administration, Region VII, regarding the firm's supply obligations to Schapeler Oil Company, would be rescinded.
Jan. 15, 1980	Gulf Oil Company, Washington, D.C.	BRZ-0016	Interlocutory Order. If granted: The Office of Hearings and Appeals of the Department of Energy would issue an Interlocutory Order to Gulf Oil Company with respect to the Motion for Discovery filed by the petitioner.
Jan. 15, 1980	Gulf Oil Company, Houston, Tex.	BEA-0140	Appeal of Assignment Order. If granted: The December 6, 1979, Assignment Order issued to Gulf Oil Company, by the Economic Regulatory Administration, Region IV, with respect to Gulf Oil Company's supply obligations to Publix Oil Company would be rescinded.
Jan. 15, 1980	Kerr McGee Corporation, Oklahoma City, Okla.	BES-0045	Request for Stay. If granted: Kerr McGee Corporation would receive a Stay of the December 5, 1979, Decision and Order issued to San-Ann Service, Inc., by the Office of Hearings and Appeals pending a final determination on the Appeal if that Order filed with FERC.
Jan. 15, 1980	Koch Exploration Company, Wichita, Kans.	BXE-0687	Price Exception (Section 212.73). If granted: Koch Exploration Company would be permitted to sell the crude oil produced from the Sink Draw #1 Lease located in Duchesne County, Utah, at upper tier ceiling prices.
Jan. 15, 1980	Landes Oil Company, Salina, Kans.	BEE-0697	Allocation Exception. If granted: Landes Oil Company would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 15, 1980	Louisiana Land & Exploration, Washington, D.C.	BRZ-0022	Interlocutory Order. If granted: The Office of Hearings and Appeals of the Department of Energy would issue an Interlocutory Order to Louisiana Land & Exploration with respect to the Motion for Discovery filed by the petitioner.
Jan. 15, 1980	Manatee Energy Company, Washington, D.C.	BEX-0025	Supplemental Order in <i>Manatee Energy Co.</i> , DOE Par. (December 28, 1979). If granted: The DOE would reconsider the December 28, 1979, Decision and Order issued to Manatee Energy Company (Case No. BES-0025).
Jan. 15, 1980	Marathon Oil Company, Washington, D.C.	BRZ-0017	Interlocutory Order. If granted: The Office of Hearings and Appeals of the Department of Energy would issue an Interlocutory Order to Marathon Oil Company with respect to the Motion for Discovery filed by the petitioner (Case No. BRD-0026).
Jan. 15, 1980	Mocar Oil Company, Pensacola, Fla.	BEE-0698	Allocation Exception. If granted: Mocar Oil Company would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 15, 1980	Raymer Oil Company, Statesville, N.C.	BEJ-0016	Motion for Protective Order. If granted: Raymer Oil Company will disclose confidential information contained in its application for exception (Case No. BEE-0404) to Cities Service Company.
Jan. 15, 1980	Saveway, Cape Girardeau, Mo.	BEE-0683	Allocation Exception. If granted: Saveway would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 15, 1980	Standard Oil Company of Ohio, Cleveland, Ohio	BRZ-0019	Interlocutory Order. If granted: The Office of Hearings and Appeals of the Department of Energy would issue an Interlocutory Order to Standard Oil Company of Ohio with respect to the Motion for Discovery filed by the petitioner (Case No. BRD-0022).
Jan. 15, 1980	Tennessee Valley Energy, Waynesboro, Tenn.	BEE-0689	Allocation Exception. If granted: Tennessee Valley Energy would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 15, 1980	Texaco, Inc., Washington, D.C.	BRZ-0021	Interlocutory Order. If granted: The Office of Hearings and Appeals of the Department of Energy would issue an Interlocutory Order to Texaco, Inc., with respect to the Motion for Discovery filed by the petitioner.
Jan. 16, 1980	Atlantic Richfield Company, Los Angeles, Calif.	BEE-0696	Allocation and Price Exception. If granted: Atlantic Richfield Company would receive an exception from the provisions of 10 CFR 211 and 212.83 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol and to pass through incremental expenses relating to the blending, storage, distribution, and marketing of gasohol.
Jan. 16, 1980	Commonwealth Oil Refining Co., Inc., San Antonio, Tex.	BEE-0691, BEL-0691	Allocation Exception and Temporary Exception. If granted: Commonwealth Oil Refining Co., Inc., would receive an exception and temporary exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of crude oil.
Jan. 16, 1980	Farmers Co-Op of Arkansas and Oklahoma, Van Buren, Ark.	BEE-0708	Allocation Exception. If granted: Farmers Co-Op of Arkansas and Oklahoma would receive an allocation of unleaded motor gasoline for the purpose of blending gasohol.

List of Cases Involving the Standby
Petroleum Product Allocation Regulations for
Motor Gasoline

Week of January 11 Through January 18, 1980

If granted: The following firms would receive an exception which would increase their base period allocation of motor gasoline.

January 11, 1980

Chen's United Petroleum, BEE-0674, California.
Earl & Fred's Arco, BEE-0660, Washington.
Langley Park Amoco, BEE-0669, Maryland.
Mason Valley Petroleum Dealers, BXE-0673, Nevada.
McCormack's Service Center, BEE-0668, Illinois.
Quick Trip Corp., BEE-0671, Oklahoma.
Tollison Arco, BEE-0666, California.

January 15, 1980

Charles Hasting Oil Co., BEE-0688, Tennessee.
James Tidwell Chevron, BEE-0699, California.
Marlow's Service Center, BEE-0682, Oklahoma.
Prewitt, Roger J., BEE-0680, Kentucky.
Ripley Exxon Servicenter, BEE-0679, West Virginia.
Steve's Market, BEE-0681, New Hampshire.
Travelers Petroleum, Inc., BEE-0686, South Carolina.

January 16, 1980

Dale's Chevron, BEE-0730, Colorado.
Golden Eagle Refining Co., Inc., BEE-0694,
California.

January 17, 1980

Dean-O's Dairybar, BEE-0705, New York.
Nance, W. N., BEE-0706, Texas.
Saveway, BEE-0716, Missouri.

January 18, 1980

Bob's American, BEE-0717, Pennsylvania.
McCombs Oil Co., Inc., BEE-0725, North
Carolina.
Round's Service Station, BEE-0775, Rhode
Island.
Service O-Mation, BEE-0898, Pennsylvania.

Issuance of Decisions and Orders; Week of January 14 Through January 18, 1980

Notice is hereby given that during the week of January 14 through January 18, 1980, the Decisions and Orders summarized below were issued with respect to Appeals and Applications for Exception or other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions which were dismissed by the Office of Hearings and Appeals and the basis for the dismissal.

Appeals

American Petrofina, Inc., Dallas, Texas;
BEA-0095, motor gasoline

American Petrofina (Fina) filed an Appeal from an Assignment Order which was issued to Treasure Coast Oil, Inc. The Order directed Treasure Coast to supply motor gasoline to a retail outlet. Fina is the prime supplier of Treasure Coast. The Fina Appeal relates to an Order issued on September 14, 1979 granting temporary exception relief to a class consisting of branded Fina jobbers, and directing Fina to supply gasoline to those jobbers at specified allocation levels during the period September through December 1979. In its Appeal Fina contended that the Assignment Order failed to comply with the provisions of Paragraph (13) of the September 14, Order. That Paragraph required that any assignment order issued subsequent to March 1, 1979 assigning a firm to supply motor gasoline to a firm eligible to receive relief pursuant to the September 14 Decision be rescinded unless specific findings were made that the assignment order was to be maintained. Since no such specific findings were made, Fina claimed that the assignment was defective on its face and should be rescinded. The DOE found that the terms of Paragraph (13) applied only to assignment orders in which the beneficiary was a Fina jobber not a retail motor gasoline outlet such as that to be supplied by Treasure Coast Oil, Inc. The DOE therefore concluded that the Fina Appeal should be denied.

Blackmon's Exxon, Kershaw, South Carolina;
DEA-0665, motor gasoline

Blackmon's Exxon filed an Appeal from an Assignment Order which the Region IV Office of Petroleum Operations had issued. In its Appeal, Blackmon contended that the Office of Petroleum Operations erred in establishing a base period volume for its outlet. In considering the Appeal, the DOE found that Blackmon failed to meet its burden of establishing that the determination of the Office of Petroleum Operations was not in accordance with the "Guidelines for Evaluation of Applications for Assignment of Supplier and Base Period Use to New Gasoline Retail Outlets" issued by the Economic Regulatory Administration. The DOE also found that Blackmon's had failed to make a *prima facie* showing that it was entitled to exception relief.

Marathon Oil Company, Washington, D.C.;
BEA-0099, motor gasoline

Marathon Oil Company filed an Appeal of a December 6, 1979 order issued by the Region IV Office of the Economic Regulatory Administration (ERA) requiring Marathon to supply Delta Petroleum Corporation with motor gasoline. If Marathon's request was granted, the December 6 order would be rescinded. The December 6 order was issued at the direction of the Office of Hearings and Appeals in a Decision and Order issued on November 20, 1979 in which exception relief was granted to Delta. In considering Marathon's Appeal, the DOE determined that Marathon's contentions that the December 6 order was legally deficient for failure to comply with Subpart C of the DOE procedural regulations were without merit because the order was not technically an assignment order issued pursuant to Subpart C. Instead, the DOE found that the order was required to satisfy generally applicable constitutional due process requirements and that the procedures followed in choosing Marathon as a supplier for Delta satisfied those requirements. Marathon's Appeal was therefore denied.

Miller Oil Company, Oneonta, Alabama;
DEA-0583, Motor Gasoline

Miller Oil Company filed an Appeal from an Assignment Order which the Deputy Regional Director of the Office of Fuels Regulation of the Economic Regulatory Administration, Region IV, issued to Robinson's Grocery and Gas Station. In considering the Appeal, the DOE found that the Economic Regulatory Administration erred in assigning a base period volume to Robinson based on volume data obtained from Roy's Spur Go Shop. The DOE therefore granted the Miller Appeal and remanded the matter to the Region IV Office of Petroleum Operations for further review and to issue a new assignment order to Robinson. The DOE further determined that in the interim Miller should supply additional volumes of motor gasoline to Robinson, over the amount assigned in the above-cited Assignment Order, until the Region IV Office of Petroleum Operations establishes a permanent allocation level for the outlet.

Raymond International Builders, Inc.,
Houston, Texas; BFA-0080, Freedom of
Information

Raymond International Builders, Inc. filed an Appeal from a denial by the Contract Specialist, Department of Energy, New Orleans of a Request for Information which the firm had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that the Contract Specialist acted correctly in withholding the information requested pursuant to Exemption 4. An important issue that was considered in the Decision and Order was whether information relating to ongoing procurement contract negotiations should be withheld pursuant to Exemption 4 while such negotiations remain pending.

Requests for Exception

Bob Dix Union 76, Wilmington, Ohio; BEO-
0028, Motor Gasoline

Bob Dix Union 76 filed an Application for Exception from the provisions of 10 CFR 211 in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE determined that the Applicant had failed to show that it is suffering a serious hardship, or gross inequity. Accordingly, exception relief was denied.

Bob's Standard, Moorhead, Minnesota; DEE-
6965, Motor Gasoline

On June 28, 1979, Bob's Standard (Bob's) filed an Application for Exception in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that exception relief is not necessary because Bob's is already entitled to an increased allocation under the DOE regulations. Bob's qualifies for a transfer of the allocation of the facility where it now operates pursuant to 211.106(e) because it moved there shortly after the prior operator vacated and the prior operator has not established another outlet. In addition, Bob's is entitled to the allocation of its former outlet pursuant to 211.106(c)(1) because it serves substantially the same market at its new location and because of the former outlet is not being operated by an independent marketer. Accordingly, Bob's Application for Exception was dismissed without prejudice to a refile at a later date.
Earl McCarley Service Station, Bradenton,
Fla.; BEO-0210, motor gasoline

Earl McCarley Service Station filed an Application for Exception from the provisions of 10 CFR Part 211 in which the firm sought an increase in its base period allocation of motor gasoline in order to realize the intended benefits of an investment it had made. In considering the request, the DOE found that the firm had made its investment after the institution of the new base period. Therefore any difficulties which the firm might be experiencing were the result of its own discretionary business decisions and were not attributable to DOE regulations. Accordingly, exception relief was denied.
Fitzgerald's Gulf Service, St. Petersburg, Fla.;
BEO-0019, motor gasoline

Fitzgerald's Gulf Service (Fitzgerald) filed an Application for Exception from the provisions of 10 CFR Part 211 in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE Region IV found that

exception relief was necessary to alleviate the serious financial hardship the firm was experiencing as a result of its acquisition of the retail outlet and improvements made thereto. The firm's objections to the issuance of the Proposed Decision and Order were denied by the DOE.

Gordon Mandt's Arco, Tacoma, Wash.; BEO-0024, motor gasoline

Gordon Mandt's Arco filed an Application for Exception from the provisions of 10 CFR 211.102, in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that the firm would not experience any serious financial difficulties as a result of denial of exception relief. The DOE also determined that the residents of the market area served by Mandt's were not subject to a gross inequity or unequal distribution of burdens as a result of an unusual shortage of motor gasoline in the community. Accordingly, exception relief was denied.

Gulf Oil Corp., Houston, Tex.; DEE-3447, crude oil

Gulf Oil Corporation (Gulf) filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit Gulf to sell at upper tier ceiling prices the crude oil produced from the H. F. Hansen #1 Lease in Brazoria County, Texas. In analyzing the exception application, the DOE used imputed 1973 operating costs for the lease because the actual 1973 data was unavailable. On the basis of operating data for the most recently completed fiscal period, the DOE found that operating costs for the lease exceeded the revenues which Gulf received from the sale of crude oil at lower tier ceiling prices. Accordingly, in order to provide the working interest owners with an economic incentive to continue production, the DOE determined that Gulf should be permitted to sell 100% of the crude oil produced and sold for the benefit of the working interest owners of the H. F. Hansen #1 Lease at upper tier ceiling prices.

H.L. Mills Petroleum Products, Hagerstown, Md.; DEE-2997 Exxon Co., U.S.A., Houston, Tex.; DEA-0572

Amoco Oil Company, Chicago, Ill.; DEA-0519, Motor gasoline

H.L. Mills Petroleum Products filed an Application for Exception seeking a new, lower priced supplier which would furnish the firm with its base period use of motor gasoline. In considering the request, the DOE tentatively determined that exception relief was necessary to prevent the firm from suffering a serious hardship and gross inequity as a result of DOE allocation regulations. Proposed exception relief was immediately implemented in an accompanying Interim Decision. In assignment orders dated June 28, 1979, the ERA directed Exxon Company, U.S.A. and Amoco Oil Company to supply Mills with motor gasoline for the months of June and July 1979. Exxon and Amoco subsequently filed Objections to the Proposed Decision, and Appeals from the June 28 Orders. In their respective Objections and Appeals, Exxon and Amoco contended that exception relief was unwarranted and that the June Orders

were not issued in accordance with DOE procedural regulations. The DOE found these contentions to be without merit. Accordingly, the Proposed Decision was issued in final form, and the Appeals were denied.

Holiday Gulf, Careyville, Tenn.; BEO-0217, motor gasoline

Holiday Gulf filed an Application for Exception from the provisions of 10 CFR Part 211 in which the firm sought an increase in its base period allocation of motor gasoline in order to realize the intended benefits of an investment it had made. In considering the request, the DOE found that the firm had made its investment after the institution of the new base period. Therefore, any difficulties which the firm might be experiencing were the result of its own discretionary business decisions and were not attributable to DOE regulations. Accordingly, exception relief was denied.

Jimbo's Fast Foods, Baton Rouge, La.; BEO-0137, motor gasoline

Jimbo's Fast Foods filed an Application for Exception from the provisions of 10 CFR Part 211 in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that the firm was realizing a substantial profit from the sale of its current base period allocation of motor gasoline. Therefore, the firm had failed to substantiate its claim that it was experiencing a financial hardship. Accordingly, exception relief was denied.

Lavery & Sons Garage, Spring House, Pa.; BEO-0045, motor gasoline

Lavery & Sons Garage filed an Application for Exception from the provisions of 10 CFR 211.102, in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that the firm would not experience any serious financial difficulty as a result of denial of exception relief. The DOE further found that the firm had made no significant alteration in its business practices. Finally, the DOE determined that the residents of the market area served by Lavery were not subject to a gross inequity or unequal distribution of burdens as a result of an unusual shortage of motor gasoline in the community served by the firm. Accordingly, exception relief was denied.

Martin Petroleum Corp., Port Everglades, Fla.; DEE-2935, motor gasoline

Martin Petroleum Corporation filed an Application for Exception from the provisions of 10 CFR part 211 in which the firm sought an increase in the base period allocation for three retail outlets which it supplies. In considering the request, the DOE found that exception relief was necessary to prevent a serious hardship to two retail operators who had made substantial investments in the outlets after the end of the base period, and to the third who had significantly changed his outlet's business practices in order to attract new customers. The DOE found that if exception relief were not granted the outlets would experience a severe financial hardship that could jeopardize their continued existence as viable business entities. Accordingly, exception relief was granted.

Munro Petroleum & Terminal Corp., Biloxi, Miss.; DEE-4810, motor gasoline

Munro Petroleum & Terminal Corporation (Munro) filed an Application for Exception from the provisions of 10 CFR 211.9 in which the firm sought an increased allocation of motor gasoline to supply its retail outlets located in the City of Biloxi, Mississippi. In considering the request, the DOE found that the City of Biloxi had a sufficient volume of motor gasoline to meet demand, and that it was not experiencing a gross inequity or unfair distribution of burdens relative to the current nationwide shortage of motor gasoline. Accordingly exception relief was denied.

Natrogas, Inc. Minneapolis, Minn.; BEE-0380, propane

Natrogas, Inc. filed an Application for Exception from the provisions of 10 CFR 211.9, which, if granted, would result in the issuance of an Order directing the Economic Regulatory Administration (ERA) to assign a new, lower-priced supplier of propane to Natrogas to replace its four base period suppliers. In considering the Natrogas request, the DOE surveyed the propane prices in the firm's market area and found that the price charged for propane by two of the firm's base period suppliers exceeded by over 4 cents per gallon the average price which the firm's competitors pay for that product. In addition, Natrogas submitted financial data which indicated that the firm was experiencing serious financial difficulties as a result of its high acquisition cost of propane. Based upon these factors, the DOE concluded that the application of the provisions of Section 211.9, which require adherence to base period supplier/purchaser relationships would result in a serious hardship to Natrogas. Exception relief was therefore approved which directed ERA to replace the firm's two high-priced base period suppliers with a new lower-priced supplier(s) of propane for the months January through March 1980.

Ozona Gas processing Plant, Crockett County, Tex.; DXE-0396, DXE-1237, natural gas liquid products

Ozona Gas Processing Plant filed two Applications for Exception from the provisions of 10 CFR 212.165 in which the firm requested that it be permitted to raise its selling prices for the natural gas liquid products which it produces at its natural gas processing facility located in Crockett County, Texas. In considering the request, the DOE found that exception relief was necessary to prevent a gross inequity which would result from the firm's inability under the regulations to recover certain increased non-product costs incurred in connection with the operations of its processing plant. Accordingly, on March 21, 1978, and June 28, 1978, the DOE issued Proposed Decision and Orders in which it tentatively determined that Ozona's exception applications should be approved and that the firm should be permitted to increase its prices for NGL products sold during the period January through December 1978, inclusive. Subsequently, Gas del Oro, Inc., and two affiliated companies, filed Statements of Objections to the March 21 and June 28

Proposed Decisions. In its Statements of Objections, Gas del Oro contended that the DOE improperly allocated Ozona's nonproduct costs by failing to offset certain processing fees received by Ozona. The DOE rejected the claim because the calculation of the amounts of nonproduct cost increases per unit which Ozona experienced was performed correctly and on an internally consistent basis. The DOE cited *Gas del Oro, Inc.*, 2 DOE Par. 80,138 (1978), in which Gas del Oro had previously raised a similar issue unsuccessfully. Gas del Oro also contended that the two Proposed Decisions were invalid because Ozona failed to notify the DOE of all administrative and judicial proceedings related to its exception requests as required by 10 CFR 204.9(e). The DOE found that contrary to Gas del Oro's contention, Ozona had informed the Office of Hearings and Appeals that the DOE had undertaken an audit of the firm. The DOE determined that since the audit had recently been completed and no substantial pricing violations had been found to exist, Ozona's failure to notify the DOE of the other proceedings did not warrant the denial of exception relief in the present proceedings. Finally, the DOE rejected Gas del Oro's contention that it was denied due process because it did not have access to certain information concerning Ozona's operations. The DOE concluded that this information was commercial and financial information of a confidential nature which the agency is required to protect from unwarranted disclosure. After carefully considering the issues raised in Gas del Oro's Statements of Objections, the DOE determined that the Proposed Decisions and Orders issued to Ozona on March 21 and June 28, 1978, should be issued in final form.

Publix Oil Co., Morristown, Tenn., DEE-2254; Exxon Co., U.S.A., Houston, Tex., DEA-0384; Amoco Oil Co., Chicago, Ill., DEA-0408; Gulf Oil Co., Houston, Tex., DEA-0407, motor gasoline

Publix Oil Company filed an Application for Exception from the provisions of 10 CFR Part 211 in which the firm requested that the DOE assign it a new, lower-priced supplier of motor gasoline for the months of March through May. In considering the request, the DOE found that Publix was unable to purchase motor gasoline at reasonable price levels and that the substantial disparity between the prices which the firm and its customers were paying to their base period suppliers as compared to those being paid by other comparable firms was leading to severe financial difficulties. Accordingly, exception relief was granted. The DOE also determined that the Appeals filed by Exxon, Gulf and Amoco from the motor gasoline assignment orders issued by ERA Region IV to implement the exception relief for Publix should be denied.

R. W. Tyson Producing Co., Inc., Jackson, Miss., DXE-6554, DXE-6555, DXE-6556, DXE-6557, crude oil

R. W. Tyson Producing Company, Inc. (Tyson) filed four Applications for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception requests, if granted, would result in an extension of exception relief previously granted to Tyson and would

permit the firm to continue to sell a portion of the crude oil produced from four wells in the Ovelt Field at prices in excess of the ceiling price levels. In considering the exception applications, the DOE found that the Carter No. 1 Federal Land Bank No. 1, and McCann No. 1 wells continued to incur operating costs in excess of the ceiling price levels and that, in the absence of exception relief, the working interests would lack an incentive to produce crude oil from those properties. The DOE therefore concluded that the working interest owners should be permitted to sell 100 percent of the crude oil produced from those wells at market prices. However, the DOE also determined that the Vickers No. 3 well incurred operating costs well below the ceiling price levels, and an extension of exception relief for that well was accordingly denied.

Shell Oil Co., Houston, Tex., DEE-4640, motor gasoline

Shell Oil company filed an Application for Exception from the provisions of 10 CFR, Part 211 in which the firm sought an increased allocation of motor gasoline for a company-owned motor gasoline retail outlet located in Las Vegas, Nevada. In considering the request, the DOE determined that as a major integrated oil company Shell proceeded with the renovation of the Las Vegas outlet with the full realization that gasoline supplies would be restricted and that it would in all likelihood be unable to furnish surplus gasoline to this station. The DOE also noted that Shell could not seriously argue that it would experience a hardship if it is unable to realize immediately the benefits of that investment. Finally, the DOE concluded that Shell had failed to show that the citizens of Las Vegas are experiencing a disproportionate burden as a result of the DOE allocation program. Accordingly, exception relief was denied.

Ted's Rent-A-Car, Burbank, Calif., DEE-6105, motor gasoline

Ted's Rent-A-Car filed an Application for Exception from the provisions of 10 CFR 211 in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that the Applicant had failed to show that it is experiencing a gross inequity as a result of the DOE allocation regulations. Accordingly, exception relief was denied.

Walters Oil, Easton, Pa., BEO-0003, motor gasoline

Walters Oil filed an Application for Exception from the provisions of 10 CFR 211 in which the firm sought an increase in its base period allocation of motor gasoline and a change in its base period supplier. In considering the request, the DOE determined that the firm did not make a showing that the hardship allegedly being experienced is primarily attributable to the DOE allocation regulations. The DOE also found that the Applicant failed to meet the standards for a change in base period supplier. Accordingly, exception relief was denied.

Request for Temporary Exception

Petraco-Valley Oil & Refining Co. Brownsville, Tex., BEL-0019, crude oil

Petraco-Valley Oil and Refining Company filed an Application for Temporary Exception from the requirement that it purchase entitlements during the month of November 1979 based on the firm's purchase of crude oil during September 1979 for establishment of a starting inventory. In considering the Application, the DOE determined that the criteria set forth in 10 CFR 205.125(b) for the granting of a temporary exception had not been met. Petraco-Valley's temporary exception request was therefore denied.

Request for Stay

Ashland Oil, Inc., Washington, D.C., BES-0036 motor gasoline

Ashland Oil, Inc. filed an Application for Stay from the requirement that it supply motor gasoline to Delta Petroleum Corporation pursuant to a December 6, 1979 order issued by ERA Region IV at the direction of the Office of Hearings and Appeals in *Delta Petroleum Corp.*, Case No. DEE-2368 (Proposed Decision issued November 20, 1979) pending a final determination on Ashland's Appeal of that order. In considering the Application, the DOE determined that Ashland had failed to show that it or its customers were likely to suffer irreparable injury in the absence of stay relief because the December 6 order provides that Ashland can purchase from Champlin Oil Company, Delta's base period supplier, an amount of gasoline equal to that supplied to Delta by Ashland. The DOE also determined that Ashland's contention concerning the possible cumulative effect of similar assignments was without merit because adequate procedural safeguards exist to prevent overburdening Ashland. Ashland's stay request was therefore denied.

Motions for Discovery

Gene L. Bolin, d.b.a. Gene Bolin's Chevron Station, Lagrange, Oreg., DRD-0026, DRH-0026, motor gasoline

Gene L. Bolin, d.b.a. Gene Bolin's Chevron Station (Bolin) filed a Motion for Discovery and a Motion for Evidentiary Hearing in connection with his Statement of Objections to a Proposed Remedial Order (PRO) which the DOE Region X Office of Enforcement (Region X) issued to him on June 27, 1978. In the PRO, Region X found that Bolin had improperly calculated his maximum lawful selling prices for motor gasoline at the time he began operating his Chevron Station, which had formerly been operated by Standard Stations, Inc., a subsidiary of Standard Oil of California (SoCal). Region X concluded that these improper calculations resulted in overcharges to his customers which totaled \$47,343.85.

The DOE limited Bolin's request for any agency material which related to him or to his service station to audit workpapers not heretofore released and to those additional materials for which Bolin persuasively demonstrated a specific need. The DOE also granted Bolin an evidentiary hearing to present his testimony regarding the oral advice for dealers received from agency personnel. The DOE denied Bolin's Motions for Discovery and Evidentiary Hearing insofar as they sought to inquire into the

calculations of SoCal's product costs. Accordingly, Bolin's Motion for Discovery and Motion for Evidentiary Hearing were each granted in part.

Golden Gate Petroleum Co., San Francisco, Calif., DRH-0253, DRD-0253, residual fuel oil.

Golden Gate Petroleum Company filed a Motion for Evidentiary Hearing and a Motion for Discovery in connection with its Statement of Objections to a Proposed Remedial Order issued to the firm on June 8, 1979. In considering the Motion for Evidentiary Hearing, the DOE determined that Golden Gate had not established that there were disputed issues of fact which could best be resolved at an evidentiary hearing. In considering the Motion for Discovery, the DOE concluded that with respect to some of the material which Golden Gate sought, the firm had not shown that the material was relevant to its Statement of Objections. With respect to the rest of the material sought by Golden Gate, the DOE determined that the requested discovery would unnecessarily delay the objection proceeding. Accordingly, the Motion for Evidentiary Hearing and the Motion for Discovery were denied.

Supplemental Orders

Henderson Petroleum Corp., Denver, Colo., BEX-0019, crude oil.

On December 16, 1977, the Department of Energy issued a Decision and Order to B. W. Whittington which granted the firm's request for exception relief from the provisions of 10 CFR, Part 212, Subpart D. Subsequently the Henderson Petroleum Corporation acquired the working interest ownership of the property from B. W. Whittington. Accordingly, the DOE issued a Supplemental Decision and Order transferring the exception relief originally granted to B. W. Whittington to the Henderson Petroleum Corporation.

Manatee Energy Co., Washington, D.C., BEX-0026, crude oil.

On January 16, 1980, the DOE issued a supplemental Decision and Order to Manatee Energy Company. The supplemental order rescinded the provisions of a Decision and Order issued to Manatee on December 28, 1979, which stayed a portion of the firm's obligation to purchase entitlements in December 1979 and required the firm to purchase one-twelfth of the remaining December 1979 obligation during each month of the period January 1980 through December 1980. The supplemental order provided the firm with the same stay relief as the December 28 Order and in addition afforded the firm an opportunity to have its January 1980 entitlement purchase obligation stayed pending final action on an Application for Exception provided that the firm and its equity owners obtain a security bond for the unconditional payment of its December 1979 entitlements obligation if the firm should fail on the merits of its exception request.

Remedial Order

In the following case involving a Proposed Remedial Order and/or an Interim Remedial Order for Immediate Compliance, no

Statements of Objections were filed. The DOE therefore issued the order in final form.

Company Name, Case No., and Location

Jack Shield d.b.a. Palatine 76, BRW-0002, Palatine, Ill.

Protective Orders

The following firms filed Applications for Protective Orders. The applications, if granted, would result in the issuance by the DOE of the proposed Protective Order submitted by the firm. The DOE granted the following applications and issued the requested Protective Order as an Order of the Department of Energy.

Company Name, Case Number and Location

Atlantic Richfield, BEJ-0013, Washington, D.C.

Quik Serv Marts, Inc., Union Oil Co. of California, BEJ-0010, Washington, D.C.

Interim Orders

The following firms were granted Interim Exception relief which implements the relief which the DOE proposed to grant in an order issued on the same date as the Interim Order:

Company Name, Case Number and Location

Brock's Automotive, DEN-8275, El Paso, Tex.

Busler Enterprises, DEN-5175, Evansville, Ind.

Fountain Hills Servi-Center, DEN-2995, Fountain Hills, Ariz.

Reece Oil Co., Inc., DEN-5130, Terre Haute, Ind.

Wagoner Gas and Oil, DEN-4837, W. Newton, Pa.

Petitions Involving the Motor Gasoline Allocation Regulations

The following firms filed Applications for Exception, Temporary Exception, Stay, and/or Temporary Stay from the provisions of the Motor Gasoline Allocation Regulations. The requests, if granted, would result in an increase in the firms' base period allocation of motor gasoline. The DOE issued Decisions and Order which determined that the requests be denied.

Company Name, Case Number and Location

Bob's 66 Service, DEE-3452, Indianapolis, Ind.

Fleetwing Corp., DEE-2547, Washington, D.C.

Jerry Cox Co., DEE-7944, Washington, D.C.

Petitions Involving the Motor Gasoline Allocation Regulations

The following firm filed an Application for Exception, Temporary Exception, Stay, and/or Temporary Stay from the provisions of the Motor Gasoline Allocation Regulations. The request, if granted would result in an increase in the firm's base period allocation of motor gasoline. The DOE issued a Decision and Order which determined that the request be dismissed without prejudice to a refiling at a later date.

Company Name, Case Number and Location

Mid-South Oil Co., BEL-0039, Dallas, Tex.

Petitions Involving the Motor Gasoline Allocation Regulations

The following firm filed an Application for Exception, Temporary

Exception, Stay, and/or Temporary Stay from the provisions of the Motor Gasoline Allocation Regulations. The request if granted, would result in an increase in the firm's base period allocation of motor gasoline. The DOE issued a Decision and Order which determined that the request be granted.

Company Name, Case No. and Location

Bingo Exxon, BXE-0279, Muscle Shoals, AL.

 BILLING CODE 6450-01-M

Cases Filed; Week of January 18, 1980 Through January 25, 1980

Notice is hereby given that during the week of January 18, 1980 through January 25, 1980 the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy.

Under the DOE's procedural regulations, 10 CFR, Part 205, any person who will be aggrieved by the DOE action sought in such cases may file with the DOE written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, the date of service of notice shall be deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Hearings and Appeals, Department of Energy, Washington, D.C. 20461.

Melvin Goldstein,
 Director, Office of Hearings and Appeals.
 March 10, 1980.

List of Cases Received by the Office of Hearings and Appeals

[Week of Jan. 18 through Jan. 25, 1980]

Date	Name and location of applicant	Case No.	Type of submission
Jan. 18, 1980	BRO Oil Company, Inc., Des Moines, Iowa	BEE-0710	Allocation Exception. If granted: BRO Oil Company, Inc., would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 18, 1980	Casson, Calligaro and Mutryn, Washington, D.C.	BFA-0142	Appeal of Information Request Denial. If granted: The November 21, 1979, Information Request Denial issued to Casson, Calligaro, and Mutryn by the Economic Regulatory Administration, Office of Enforcement, Region VI, would be rescinded, and the firm would receive access to certain DOE documents.
Jan. 18, 1980	Lakes Charles Refining Company, Addison, Tex.	BEE-0715	Allocation Exception. If granted: Lakes Charles Refining Company would receive an exception from the provisions of 10 CFR 211.67 which would permit the firm to receive an increased allocation of crude oil.
Jan. 18, 1980	National Oil Jobbers Council, Washington, D.C.	BST-0003	Request for Temporary Stay. If granted: The National Oil Jobbers Council would receive a temporary stay of the Special Report Orders issued by the Economic Regulatory Administration, Office of Enforcement for the period between May 1, 1979, and July 31, 1979, as well as any future Special Report Orders which may be issued, pending a final determination on its Application for Exception and Stay which the firm intends to file.
Jan. 18, 1980	Office of Enforcement, Washington, D.C.	BRD-0027	Motion for Discovery. If granted: Discovery would be granted to the Office of Enforcement in connection with the Statement of Objections submitted in response to the July 30, 1979, Proposed Remedial Order issue to Kenneth H. White by the Economic Regulatory Administration.
Jan. 18, 1980	Strait Oil Company, Inc., Storm Lake, Iowa	BEE-0731	Allocation Exception. If granted: Strait Oil Company, Inc., would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 18, 1980	United Company, Overland Park, Kans.	BEE-0713	Allocation Exception. If granted: United Company would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 18, 1980	West Fargo, Truck Stop, West Fargo, N. Dak.	BEE-0714	Allocation Exception. If granted: West Fargo Truck Stop would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 21, 1980	Ackerman Oil Company, Inc., Jasper, Ind.	BEE-0720	Allocation Exception. If granted: Ackerman Oil Company, Inc., would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 21, 1980	Ashland Oil, Inc., Ashland, Ky.	BEX-0026	Supplemental Order. If granted: A Supplemental Order would be issued to Ashland Oil Inc., which would modify the temporary exception granted to the firm by the November 27, 1979, Decision and Order (Case No. BEL-0373).
Jan. 21, 1980	Ashland Oil, Inc., Ashland, Ky.	BEX-0027	Supplemental Order. If granted: A Supplemental Order to the December 21, 1979, Protective Orders BEJ-0004 through BEJ-0008 issued by the Department of Energy would be issued which would include three additional firms in protective order agreements with Ashland Oil, Inc.
Jan. 21, 1980	Conoco, Inc., Houston, Tex.	BEA-0143	Appeal of Assignment Order. If granted: The October 11, 1979, Assignment Order issued to Conoco, Inc., by the Economic Regulatory Administration, Region VII, would be rescinded with respect to the firm's supply obligations to American Agri-Fuels.
Jan. 21, 1980	Continental Oil Co., Inc., Houston, Tex.	BMR-0020	Request for Modification/Rescission. If granted: The August 28, 1979, Decision and Order issued to American Agri-Fuels Corporation (Case No. DEE-2179) would be modified or rescinded.
Jan. 21, 1980	Getty Refining & Marketing, et al., Houston, Tex.	BEJ-0038	Motion for Protective Order. If granted: Union Oil Company of California, Getty Refining and Marketing, Atlantic Richfield Company, Texaco, Inc., and Conoco, Inc., would enter into a Protection Order regarding the exchange of certain confidential information in connection with Union Oil's Application for Exception (Case No. DEE-5748).
Jan. 21, 1980	Lyle and Company, Los Angeles, Calif.	BXE-0727	Price Exception (Section 212.73). If granted: Lyle and Company would be permitted to sell the crude oil produced from the Skeeter Slaughter Lease at upper tier ceiling prices.
Jan. 21, 1980	Marathon Oil Company Findlay, Ohio	BED-0237	Motion for Discovery. If granted: Discovery would be granted to Marathon Oil Company in connection with the Statement of Objections submitted in response to the December 13, 1979, Proposed Decision and Order issued to Lawrence and Sons Oil Company (Case No. BEE-0237).
Jan. 21, 1980	Redding Petroleum, Inc., Concord, Calif.	BEE-0721	Allocation Exception. If granted: Redding Petroleum, Inc., would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.

List of Cases Received by the Office of Hearings and Appeals—Continued

[Week of Jan. 18 through Jan. 25, 1980]

Date	Name and location of applicant	Case No.	Type of submission
Jan. 21, 1980	Robert H. Hart & Sons, Inc., Winter Haven, Fla.	BEE-0722	Allocation Exception. If granted: Robert H. Hart & Sons, Inc., would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 21, 1980	Tucson Electric Power Co., Tucson, Ariz.	BES-0047, BST-0047	Request for Stay and Temporary Stay. If granted Tucson Electric Power Company would receive a stay and a temporary stay of the December 21 1979, Interim Order issued to the company by the Office of Hearings and Appeals; Region IX.
Jan. 21, 1980	Wayne G. Aarestad, Ltd., Fargo, N.D.	BEE-0723	Allocation Exception. If granted: Wayne G. Aarestad, Ltd., would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 22, 1980	Ayers Oil Company, Canton, Mo.	BEE-0732	Allocation Exception. If granted: Ayers Oil Company would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 22, 1980	Bracewell & Patterson, Washington, DC	BFA-0145	Appeal of an Information Request Denial. If granted: The December 27, 1979, Information Request Denial issued by the Director of Petroleum Price Regulations would be rescinded, and Bracewell & Patterson would receive access to certain documents concerning the proposed crude oil reseller regulations issued by the DOE on October 25, 1979 (Case No. ERA-R-79-48).
Jan. 22, 1980	Cities Service Company, Tulsa, Okla.	BEE-0735	Price Exception. If granted: Cities Service Company would receive an exception from the provisions of 10 CFR 212.83 which would permit the firm to pass through incremental expenses relating to the blending, storage, distribution and marketing of gasohol.
Jan. 22, 1980	Copper Oil Company	BEE-0734	Allocation Exception. If granted: Cooper Oil Company would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 22, 1980	Energy Cooperative, Inc., East Chicago, Ind.	BEX-0028	Supplemental Order. If granted: A Supplemental Order would be issued to Energy Cooperative, Inc., which would clarify the methodology used to calculate the relief granted in its application for Temporary Exception (BEL-0508).
Jan. 22, 1980	H. H. Weinert Estate, Sequin, Tex.	BEE-0728	Exception to the reporting requirements. If granted: H. H. Weinert Estate would not be required to file Form EIA-14 "Refiners Monthly Cost Allocation Report".
Jan. 22, 1980	Heath Oil Company, Winchester, Tenn.	BEE-0733	Allocation Exception. If granted: Heath Oil Company would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 22, 1980	Marathon Oil Company, Findlay, Ohio	BEJ-0020	Protective Order. If granted: A Protective Order would be issued in regard to the exchange of confidential information between Energy Cooperative, Inc.'s and Marathon Oil Company in connection with Energy Cooperative, Inc.'s Application for Exception, Application for Temporary Exception, Petition for Special Redress, and Request for Stay (Case Nos. BEE-0508, BEL-0508, BSG-0009).
Jan. 22, 1980	Mobil Oil Corporation, Scarsdale, N.Y.	BEA-0144	Appeal of a State Set Aside Order. If granted: The December 21, 1979, State Set Aside Order issued to Mobil Oil Corporation by the Connecticut Office of Policy and Management/Energy Division regarding the firm's supply obligations to Fuel Oils, Inc., would be rescinded.
Jan. 23, 1980	Atlantic Richfield Company, Los Angeles, Calif.	BRH-0293, BRD-0293	Motion for Discovery; Request for Evidentiary Hearing. If granted: Discovery would be granted and an evidentiary hearing would be convened in connection with the Statement of Objections submitted in response to the Proposed Remedial Order (Case No. BRO-0293) issued to Atlantic Richfield by the Office of Special Counsel for Compliance of the Economic Regulatory Administration.
Jan. 23, 1980	Bracewell & Patterson, Washington, D.C.	BFA-0146	Appeal of an Information Request Denial. If granted: Bracewell & Patterson would receive access to certain Department of Energy Entitlements Office documents regarding working inventory adjustments for new refiners.
Jan. 23, 1980	Bray Terminals, Inc., Marcy, N.Y.	BEE-0746	Allocation Exception. If granted: Bray Terminals, Inc., would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 23, 1980	Campbell Oil Company, Olean, N.Y.	BEE-0743	Allocation Exception. If granted: Campbell Oil Company would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 23, 1980	J. J. Doherty and Co., Inc., Trenton, N.J.	BEE-0739	Allocation Exception. If granted: J. J. Doherty and Company, Inc., would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 23, 1980	Leihser Oil Company, Decatur, Ill.	BEE-0742	Allocation Exception. If granted: Leihser Oil Company would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 23, 1980	Mauritz and Carroll, El Campo, Tex.	BEE-0737	Allocation Exception. If granted: Mauritz and Carroll would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 23, 1980	Montgomery Oil, Leeds, Ala.	BEE-0689	Allocation Exception. If granted: Montgomery Oil would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 23, 1980	Occidental Petroleum Corp., Houston, Tex.	BEX-0031	Supplemental Order. If granted: Occidental Petroleum Corporation would be dismissed as a participant in the Commonwealth Oil Refining Co., Inc.'s Application for Exception (Case No. BEE-0691).
Jan. 23, 1980	Patricia M. Fairbanks, Spokane, Wash.	BEE-0744	Allocation Exception. If granted: Patricia M. Fairbanks would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 23, 1980	Petroleum Delivery Service, Inc.	BEH-0014	Motion for Evidentiary Hearing. If granted: An evidentiary hearing would be convened in connection with an application for exception and temporary exception submitted by Southern Bell Telephone and Telegraph.
Jan. 23, 1980	Southern Bell Telephone and Telegraph Company, Atlanta, Ga.	BEH-0011	Motion for Evidentiary Hearing. If granted: An evidentiary hearing would be convened in connection with the Statement of Objections submitted in response to the December 4, 1979, Proposed Decision and Order (Case No. DEE-8328) issued to Southern Bell Telephone & Telegraph Company by the Office of Hearings and Appeals.
Jan. 23, 1980	United Refining Company, Warren, Pa.	BEE-0738	Price Exception. If granted: United Refining Company would receive an exception from the provisions of 10 CFR 212.83 which would permit the firm to pass through incremental expenses relating to the blending, storage, distribution, and marketing of < gasohol.
Jan. 24, 1980	Commonwealth Oil Refining Co., Inc./Occidental Petroleum, Washington, D.C.	BEJ-0022	Motion for Protective Order. If granted: Commonwealth Oil Refining Company, Inc., would enter into a Protective Order with Occidental Corporation which would ensure the confidentiality on information designated as confidential by Corco and Occidental.
Jan. 24, 1980	Duncan, Allen and Mitchell, Washington, D.C.	BFA-0147	Appeal of Information Request Denial. If granted: The December 27, 1979, Information Request Denial issued to Duncan, Allen and Mitchell by the Economic Regulatory Administration, Office of Power Marketing Coordination, Resource Applications would be rescinded, and the firm would receive access to certain DOE documents.

List of Cases Received by the Office of Hearings and Appeals—Continued

[Week of Jan. 18 through Jan. 25, 1980]

Date	Name and location of applicant	Case No.	Type of submission
Jan. 24, 1980	Gast Fuel & Service, Warsaw, Ind	BEE-0747	Allocation Exception. If granted: Gast Fuel and Service would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 24, 1980	Guam Energy Office, Agana, Guam	BEE-0745	Exception from the Emergency Building Temperature Restrictions. If granted: The Guam Energy Office would receive an exception from the provisions of 10 CFR 450.51 concerning the definition of "heating and cooling systems" eligible for energy audit grants.
Jan. 24, 1980	Husky Oil Company, Denver, Colo	BMR-0021	Request for Modification. If granted: The January 4, 1980, Decision and Order issued to Husky Oil Company regarding the firm's Appeal (Case No. DEA-0356) would be modified.
Jan. 24, 1980	Keller Oil Company, Enfield, Conn	BEE-0753	Allocation Exception. If granted: Keller Oil Company would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 24, 1980	Macon Oil Company, Lafayette, Tenn	BRW-0017	Proposed Remedial Order Finalization. If granted: The November 21, 1979, Proposed Remedial Order issued to Macon Oil Company by the Economic Regulatory Administration, Region IV, would be issued as a final Remedial Order.
Jan. 24, 1980	Mobil Oil Corp./Texaco, Inc., Washington, D.C	BES-0050	Request for Stay. If granted: Mobil Oil Corp. and Texaco, Inc., would receive a stay of the August 28, 1979, Decision and Order issued to American Agri-Fuels Corp. (Case No. DEE-2179) regarding Mobil's and Texaco's supply obligations to American Agri-Fuels, pending a final determination on the firms' Appeals.
Jan. 24, 1980	Sun Oil Co. of Pennsylvania, Philadelphia, Pa	BEH-0071	Motion for Evidentiary Hearing. If granted: An evidentiary hearing would be convened in connection with an Appeal submitted by Sun Oil Company of Pennsylvania in response to the August 28, 1979, Proposed Decision and Order issued to American Agri-Fuels (Case No. DEE-2179).
Jan. 25, 1980	Darsey Oil Company, Inc., Albany, Ga	BEE-0755	Allocation Exception. If granted: Darsey Oil Company, Inc., would receive an exception from the Provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 25, 1980	Georgia-Pacific Corporation, Bellingham, Wash	BEE-0759	Allocation Exception. If granted: Georgia-Pacific Corporation would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 25, 1980	Mallard Oil Company, Kinston, N.C	BEE-0757	Allocation Exception. If granted: Mallard Oil Company would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.
Jan. 25, 1980	Toney Petroleum, Inc., Terre Haute, Ind	BEE-0754	Allocation Exception. If granted: Toney Petroleum, Inc., would receive an exception from the provisions of 10 CFR 211 which would permit the firm to receive an increased allocation of unleaded motor gasoline for the purpose of blending gasohol.

Notices of Objection Received

[Week of Jan. 18 to 25, 1980]

Date	Name and location of applicant	Case No.
1/18/80	Pardee Oil Co., Dover, Del	DEE-7527
1/21/80	Mutual Ga-a-rama, Inc., Springfield, Mass.	DEE-6490
1/21/80	Oil Products Co., Inc., Houston, Tex.	BEE-0258
1/18/80	The Filling Station, Bala-Cynwyd, Pa.	BEO-0835

List of Cases Involving the Standby Petroleum Product Allocation Regulations for Motor Gasoline

Week of January 18 through January 25, 1980

If granted: the following firms would receive an exception which would increase their base period allocation of motor gasoline.

January 18, 1980

Bob's American, BEE-0717, Pennsylvania.
McCombs Oil Co., Inc., BEE-0725, North Carolina.
Round's Service Station, BEE-0775, Rhode Island.

Service O-Mation, BEE-0898, Pennsylvania.

January 21, 1980

City of Stanton, N. Dak., BEE-0724, North Dakota.

Kettering Amoco, BEE-0718, Maryland.
New Hampshire Public Works Dept., BEE-0719, New Hampshire.

Shepherd Bros., Inc., BEE-0726, District of Columbia.

January 22, 1980

Massachusetts Bay Trans. Author., BEE-0137, Massachusetts.

January 23, 1980

A. G. Lee Oil Co., Inc., BEE-0741, North Carolina.

Boc Corporation, BEE-0740, Rhode Island.

January 24, 1980

Fones, Bill, BEE-0829, New York.

Hartley Oil Co., BEE-0805, Ohio.

Smith Oil Co., Inc., BEE-0738, West Virginia.

Turbo Tunnel Car Wash, BEE-0748, Maryland.

Vincent & Anna Marie Cutinelli, BEE-0752, New York.

January 25, 1980

Lucas, Edgar D., BEE-0762, Indiana.

Midland Energy Corp., BEE-0756, Missouri.

Seeman, J. H., BEE-0758, Minnesota.

Items retrieved, 19.

BILLING CODE 6450-01-M

Issuance of Decisions and Orders; Week of January 21 Through January 25, 1980

Notice is hereby given that during the week of January 21 through January 25, 1980, the Decisions and Orders summarized below were issued with respect to Appeals and Applications for Exception or other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions which were dismissed by the Office of Hearings and Appeals and the basis for the dismissal.

Appeals

Barnes, P. A., McLean, Virginia, BFA-0107, freedom of information

Ms. Patricia A. Barnes filed an Appeal from a partial denial by the Department of Energy's Inspector General of a Request for Information which she had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that certain of the documents which were initially withheld under Exemption 5 and 7(c) should be released to the public. An important issue considered in the Decision and Order was the extent of protection afforded personal privacy interests in connection with investigatory records compile for law enforcement purposes.

Cabco, Inc., Washington, D.C., BEA-0030, motor gasoline

Cabco, Inc., of Washington, D.C. filed an Appeal of an Order issued to the firm by the

Region III Office of Petroleum Operations of the Economic Regulatory Administration. This Order denied Cabco's application for assignment of a base period supplier of motor gasoline. In considering the Appeal, the DOE noted that Cabco, a taxi cab company which previously purchased gasoline at the retail level qualifies as a priority user of gasoline and as such is entitled to preferential treatment in accordance with ERA's own guidelines for evaluating applications of new bulk purchasers for assignments of base period suppliers. The DOE therefore rescinded the ERA Order issued to Cabco and ordered the Director of Petroleum Operations, Region III to reconsider Cabco's application.

Cass County Bank, Plattsmouth, Nebraska, BFA-0114, freedom of information

Cass County Bank filed an Appeal from a denial by the DOE Central District Office of Enforcement of a Request for Information which the firm had submitted under the Freedom of Information Act (the FOIA). In considering the Appeal, the DOE found that the information was properly withheld under exemption 7(D) relating to the identity of confidential sources.

Remedial Order

Harmar Marina, Harmarville, Pennsylvania, BRO-0143, motor gasoline

On November 14, 1979 Harmar Marina filed a Notice of Objection to a Proposed Remedial Order which the ERA Northeast Enforcement District issued to the firm on October 29, 1979. In the Proposed Remedial Order, the Northeast Enforcement District found that during the period August 1, 1979 through August 29, 1979, Harmar Marina had sold regular leaded gasoline at prices in excess of the maximum lawful selling price. On January 8, 1980, the Northeast Enforcement District and Harmar Marina entered into a Consent Order which disposed of all issues in the Proposed Remedial Order. The DOE therefore concluded that the Proposed Remedial Order should be rescinded.

Requests for Exception

Al Whitmore's Auto and U-Haul, Buena Park, Calif., DEE-3360, motor gasoline.

Al Whitmore's Auto and U-Haul filed an application for Exception from the provisions of 10 CFR 211.102 seeking an increased allocation of motor gasoline. In considering the request, the DOE found that the firm did not qualify for exception relief under the criteria developed in *Leo Anger, Inc.*, 3 DOE Par. — (June 22, 1979). Accordingly, exception relief was denied.

Aminoil U.S.A., Inc., Washington, D.C.; DEE-2187, crude oil.

Aminoil USA, Inc., filed an application for Exception from the provisions of 10 CFR, Part 212, Subpart D. Exception relief was granted to permit Aminoil to sell at upper tier ceiling prices 51 percent of the crude oil produced from the North Bolsa lease.

Assembly of God, Ecorse, Mich., BEO-0193, Emergency building temperature restrictions.

The Assembly of God filed an Application for Exception from the provisions of 10 CFR

Part 490 in which the applicant sought permission to raise the dry bulb temperature in its church above 65°F during the heating season. In considering the request, the firm failed to demonstrate that its parishioners would suffer a gross inequity or health hazard in the absence of relief. Accordingly, exception relief was denied.

R. B. Baldwin, Jasper, Tex., DEO-0363, motor gasoline.

R. B. Baldwin filed an Application for Exception from the provisions of 10 CFR Part 211 in which he sought an increase in his base period allocation of motor gasoline. In considering the request, the DOE found that the increased gasoline sales expected from the firm's investment and conversion of the outlet to self service were already reflected by the unusual growth adjustment and that the firm was not experiencing a severe financial hardship. Accordingly, exception relief was denied.

City of Belmont, Mississippi, Belmont, Mississippi; BEE-0037.

City of Berry, Alabama, Berry, Alabama; BEE-0024.

City of Bowden, Georgia, Bowden, Georgia; BEE-0025.

City of Buford, Georgia, Buford, Georgia; BEE-0026.

City of Hawkinsville, Georgia, Hawkinsville, Georgia; BEE-0027.

City of Lawrenceville, Georgia, Lawrenceville, Georgia; BEE-0028.

City of Monticello, Georgia, Monticell, Georgia; BEE-0029.

City of New Albany, Mississippi, New Albany, Mississippi; BEE-0038.

City of Pikeville, Tennessee, Pikeville, Tennessee; BEE-0040.

City of Pontotoc, Mississippi, Pontotoc, Mississippi; BEE-0039.

City of Shellman, Georgia, Shellman, Georgia; BEE-0030.

City of Sugar Hill, Georgia, Sugar Hill, Georgia; BEE-0031.

City of Thomson, Georgia, Thomson, Georgia; BEE-0032.

City of Toccoa, Georgia, Toccoa, Georgia; BEE-0140.

City of Trion, Georgia, Trion, Georgia; BEE-0033.

City of Warner Robins, Georgia, Warner Robins, Georgia; BEE-0034.

City of Winder, Georgia, Winder, Georgia; BEE-0035.

City of Wrens, Russellville Utilities, Wrens, Georgia, Russellville, Alabama; BEE-0036, BEE-0042, reporting requirements.

The applications named above filed Applications for Exception from the reporting requirements of Form EIA-149 ("Natural Gas Supply, Requirements, and Usage"). The applicants requested that they be relieved of the requirement to file the form with the Energy Information Administration. In considering the requests, the DOE determined that the reporting requirements were somewhat burdensome for the applicants, but that a complete waiver of the requirements was not desirable for public policy reasons. The applicants were granted exception relief which permitted them to file a modified form which provides the needed information but at a lesser cost to the applicants. The firms were

also granted an extension of time in which to file the modified submission.

Mr. John P. Davis, Ouachita County, Ark., DEE-7364, crude oil.

Mr. John P. Davis (Davis) filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The Davis request, if granted, would permit Davis to receive upper tier ceiling prices for the crude oil which he produced and sold from the J. P. Davis #1 Well during the period August 1977 through August 1979 by recertifying the well's production as "new" crude oil. In his exception application, Davis indicated that he failed to certify in writing in a timely manner that the crude oil produced from the well qualified as "new" crude oil as required by Section 212.131 and that as a result did not receive upper tier ceiling prices for the crude oil which was produced from the well between August 1977 and August 1979. In considering the Davis request, the DOE noted that all crude oil producers are subject to the certification requirements set forth in Section 212.131, and that Davis presented no evidence which indicated that in his case the application of the requirements was either discriminatory or inequitable. The DOE also noted that Davis did not allege that he will experience a financial hardship as a result of his inability to obtain the additional revenues. The DOE noted that retroactive exception relief is generally inappropriate unless an applicant demonstrates that it would otherwise experience a severe and irreparable injury or that compelling reasons exist for the approval of retroactive relief. Since Davis had failed to satisfy these criteria, his Application was denied.

Lloyd Engeran, Hammond, La., BEE-0676, emergency building temperature restrictions.

Lloyd Engeran filed an Application for Exception from the provisions of 10 CFR Part 490 in which the applicant sought permission to lower the dry bulb temperature in his offices to 74° F during the cooling season. In considering the request, the DOE found that exception relief was necessary to avoid a serious health risk.

Furrh, Moon & Hines, Jackson, Miss., DEE-4103, crude oil.

Furrh, Moon & Hines (Furrh) filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit Furrh to treat certain tracts of land as separate properties and thereby enable the applicant to sell any volumes of crude oil produced from the as yet undeveloped tracts at market prices. In considering the request, the DOE determined that the applicant should be afforded sufficient relief to enable him to earn a 23 percent rate of return on the proposed investment in developing the tracts. However, the applicant refused to submit the information necessary to evaluate the financial viability of the project. Accordingly, the application was dismissed.

Groff's Food Store, Ephrata, Pa., BEO-0111, motor gasoline.

Groff's Food Store filed an Application for Exception from the provisions of 10 CFR 211.102 in which the firm sought an increase

in its base period allocation of motor gasoline. In considering the request, the DOE found that the firm acquired the outlet and began operations subsequent to the updating of the base period *i.e.* after publication of Standby Regulation Activation Order No. 1 on February 28, 1979. Accordingly, exception relief was denied. The important issues discussed in the Decision and Order are (i) the fact that the failure of the applicant to consider the effect of the allocation regulations at the time it undertook its investment was the primary cause of the difficulties that it was seeking exception relief to resolve, and (ii) the exception process is not designed to relieve a firm of adverse consequences of a discretionary business decision made in apparent disregard of applicable regulations.

Gulf Oil Corp., Tulsa, Okla., BXE-0350, crude oil.

Gulf Oil Corporation filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. Exception relief was granted to permit Gulf to sell at upper tier ceiling prices 49.88 percent of the crude oil produced from the N.W. Graylin "D" Sand Unit.

Henry Engineering, Midland, Tex., BXE-0387, crude oil.

Henry Engineering filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. Exception relief was granted to permit Henry Engineering to sell at upper tier prices 64.26 percent of the crude oil produced from the Riley lease.

Husky Oil Co., Denver, Colo., DXE-6322, crude oil.

Husky Oil Company filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. Exception relief was granted to permit Husky Oil Company to sell at upper tier prices 100 percent of the crude oil produced from the Fleisher lease.

Husky Oil Co., Denver, Colo., DXE-6326, crude oil.

Husky Oil Company filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. Exception relief was granted to permit Husky Oil Company to sell at upper tier prices 100 percent of the crude oil produced from the Standard Nicholson lease.

Husky Oil Co., Denver, Colo., DXE-6324, crude oil.

Husky Oil Company filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. Exception relief was granted to permit Husky Oil Company to sell at upper tier prices 100 percent of the crude oil produced from the Lakeview lease.

Johnson Petroleum Products, Everett, Wash., BEO-0101, motor gasoline.

Johnston Petroleum Products filed an Application for Exception from the provisions of 10 CFR Part 211 seeking an increase in its allocation of motor gasoline. In considering the request, the DOE found that the firm had not made a substantial investment in its business, was not experiencing a severe financial hardship and that the community served by the firm was not bearing a

disproportionate share of the burdens resulting from the nation's energy problems. The DOE also rejected the applicant's contention that small retailers should be given increased allocations of motor gasoline before the DOE grants additional gasoline to governmental entities. The DOE stated in this regard that the preservation of the competitive viability of independent marketers was only one of the objectives set out in the EPAA which must be weighed in determining whether to grant exception relief. The DOE further stated that even if a grant of relief to a governmental entity was in error, this would still not be reason to grant the applicant's application. Accordingly, exception relief was denied.

M. J. Mitchell, Dallas, Tex., BXE-0342, crude oil.

M. J. Mitchell filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. Exception relief was granted to permit Mitchell to sell at upper tier ceiling prices 75.89 percent of the crude oil produced from the Mitchell State Minnelusa Sand Unit.

*M. J.'s Queen Size Fashions, Janesville, Wisconsin, BEO-0238, BEO-0209
X-Size Ladies Fashions, Inc., Clear Lake, Iowa, BEO-0222, emergency building temperature restrictions*

Happy Day Shoppe, Ypsilanti, Michigan

M. J.'s Queen Size Fashions, et al., filed Applications for Exception from the provisions of 10 CFR Part 4990 in which the firms sought permission to lower the minimum cooling temperature below 78°F in their stores. In considering the request, the DOE found that the firms have not presented any medical evidence to substantiate their claims that the health of their customers is jeopardized by compliance with the Temperature Restrictions. Accordingly, exception relief was denied.

Nashotah Garage, Nashotah, Wis., BEE-0088, motor gasoline.

Nashotah Garage filed an Application for Exception from the provisions of 10 CFR Part 211 in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that since the firm failed to establish that it was subject to a gross inequity as a result of an anomalous event during the entire base period, exception relief was necessary only for certain months of the base period. Accordingly, exception relief was granted in part and denied in part.

O'Meara Brothers, New Orleans, La., BXE-0317, crude oil.

O'Meara Brothers filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. Exception relief was granted to permit O'Meara to sell 97.10 percent of the crude oil produced for the benefit of the working interest owners from the Louisiana State Lease 2192 at market price levels not to exceed \$32.28 per barrel and the remaining working interests' share of the production from that lease at upper tier ceiling prices.

Pennzoil Producing Company, Houston, Tex., BXE-0348, crude oil.

Pennzoil Producing Company filed an Application for Exception from the provisions

of 10 CFR, Part 212, Subpart D. Exception relief was granted to permit Pennzoil to sell 63.54 percent of the crude oil produced for the benefit of the working interest owners from the Woodruff Sand Waterflood Unit at market price levels not to exceed \$28.86 per barrel and the remaining working interests' share of production from that Unit at upper tier ceiling prices.

West Side Distributing Co., Rochester, Minn., DEE-2749, motor gasoline.

West Side Distributing Company filed an Application for Exception from the provisions of 10 CFR, Part 211 in which the firm sought reassignment of a portion of its motor gasoline supply entitlement from its base period supplier to another supplier. In considering the request, the DOE found that exception relief was necessary to relieve the gross inequity the firm was suffering as an unintended consequence of the operation of the DOE motor gasoline allocation regulations. Accordingly, exception relief was granted. (The important issues involved in the Decision are: (i) the degree of involvement in the distribution of motor gasoline that is necessary for a firm to be considered a wholesale purchaser-reseller under the allocation regulations; and (ii) the granting of exception relief terminating a base period supplier/purchaser relationship on grounds other than price disparity.)

Request for Modification and/or Rescission

Mobil Oil Corp., New York, N.Y., DMR-0071, crude oil.

Mobil Oil Corporation (Mobil) filed an Application for Modification or Rescission of a Decision and Order issued by the Economic Regulatory Administration (ERA) on February 16, 1979. The ERA found that Hudson Refining Company (Hudson) had suffered a loss of actual access to imported crude oil sufficient to qualify for an emergency supplemental allocation of crude oil under the Buy/Sell Program and ordered Mobil to arrange to sell 527,000 barrels of crude oil to Hudson.

Mobil contended that a decrease in the demand for Hudson's refined products during March 1979 was a "significantly changed circumstance" which warranted consideration of its Application for Modification or Rescission of the ERA's determination. The DOE found that, since the initial Decision and Order was not dependent on demand for Hudson's refined products and made no findings on the subject, the changed circumstances alleged by Mobil are not "facts or circumstances upon which the . . . order" was based. Since Mobil had not made the threshold showing of "significantly changed circumstances," the DOE denied its Application for Modification or Rescission.

Requests for Temporary Exception

Beacon Oil Co., Hanford, Calif., BEL-0010, gasohol.

Beacon Oil Company filed an Application for Temporary Exception from the provisions of 10 CFR Part 211 in which the firm sought an increased allocation of unleaded motor gasoline for the purpose of expanding its gasohol production and marketing program.

In considering the Application, the DOE determined that Beacon had not met the criteria for temporary exception relief set forth at 10 CFR 205.125(b). The Beacon temporary exception request was therefore denied.

Chevron U.S.A. Inc., San Francisco, Calif., BEL-0614, gasohol.

Chevron U.S.A. Inc. filed an Application for Temporary Exception from the provisions of 10 CFR 212.83 in which the firm sought permission to market gasohol as a separate category and grade of gasoline for cost pass-through purposes. In considering the request, the DOE noted that the removal of the regulatory disincentives for the production of gasohol would help to diminish the nation's reliance on petroleum products for energy. The DOE also concluded that Chevron had made a showing that denial of temporary exception relief would result in a more immediate hardship to itself than to any other parties. Accordingly, temporary exception relief was granted.

Requests for Stay

Air-Conditioning and Refrigeration Institute, Washington, D.C., BES-0618; BST-0618, test procedures.

The Air-Conditioning and Refrigeration Institute (ARI), on behalf of its members, filed an Application for Stay and Temporary Stay of the provisions of 10 CFR Part 430, in which it requested that its member firms be relieved of the requirement to perform energy efficiency test procedures on packaged terminal air-conditioners. In considering the requests, the DOE determined that certain of ARI's members might suffer significant financial injury in the absence of stay relief and that ARI had demonstrated a significant likelihood of success on the merits of its exception request (Case No. BEE-0618). The ARI stay request was therefore granted and the temporary stay request was dismissed.

Energy Cooperative, Inc., East Chicago, Ind., DES-0508; DEL-0508, crude oil.

On December 14, 1979 Energy Cooperative, Inc. (ECI) filed an Application for Stay and Temporary Exception to the provisions of 10 CFR 211.65 and/or 211.67. In that Application, ECI sought sufficient volumes of crude oil under the DOE Buy/Sell Program to allow it to run its refinery at a rate equal to the current national average refinery utilization ratio based on its current refinery certified capacity. In considering the request, the DOE found that exception relief was necessary to prevent the ECI refinery from being forced to shut down for lack of crude oil. Temporary Exception relief was granted to ECI which provided the firm with sufficient crude oil to run its refinery at the minimum level necessary to maintain operations and required the firm to purchase 10,000 barrels per day of crude oil on the spot market. The supply obligation was divided between the seven largest refiners-sellers and the Standard Oil Company of Ohio for the months January and February 1980.

Getty Refining & Marketing Co., Tulsa, Okla., BES-0082, motor gasoline.

Getty Refining & Marketing Company filed an Application for Stay from the requirement

that it supply unleaded motor gasoline to American Agri-Fuels Corporation as required by an October 11, 1979 order issued by the Region VII Office of Petroleum Operations pursuant to an August 28 Decision and Order granting exception relief to AAF for the production of gasohol. *American Agri-Fuels Corp.*, 3 DOE Par. (August 28, 1979). In considering the Application, the DOE determined that Getty had failed to show that it was likely to succeed on the merits of its underlying Appeal of the October 11 order because the firm had not shown that exception relief should not have been granted to AAF or that Getty had not received adequate notice of the assignment. Getty's stay request was therefore denied.

Request for Temporary Stay

National Oil Jobbers Council, Washington, D.C., DST-0003, reporting requirements.

The National Oil Jobbers Council filed an Application for Temporary Stay from the requirement that its members respond to a Special Report Order issued by the DOE Office of Enforcement. In considering the Application, the DOE determined that the NOJC failed to present sufficient factual material to permit consideration of the merits of the NOJC's Application. The temporary stay request was therefore dismissed.

Motions for Discovery

Lucia Lodge, Big Sur, Calif., DRD-0162, motor gasoline.

On March 5, 1979, Lucia Lodge filed a Motion for Discovery in which it sought certain information and material allegedly in the possession of the DOE. In considering the discovery motion, the DOE determined that Lucia Lodge had failed to satisfy the standards for the approval of a Motion for Discovery set forth in 10 CFR 205.198. The Motion for Discovery filed by Lucia Lodge was therefore denied.

Peerless Petro-Chemicals, Inc., Washington, D.C., BED-0016; BEJ-0002, naphtha.

Peerless Petro-Chemicals, Inc. (Peerless) filed a Motion for Discovery and Protective Order. In this Motion, Peerless requested that the DOE direct the Commonwealth Oil Refining Co., Inc. (Corco) to provide Peerless with certain data pertaining to Corco's monthly after-entitlement cost of purchased naphtha since November of 1978. The DOE found that Peerless had failed to show that the data it had requested was relevant to the underlying exception proceeding involving Corco and Peerless. However, the DOE also found that Peerless was entitled to certain data which would enable it to assess the impact which the approval of exception relief to Corco would have upon Peerless's operations. Accordingly, the Peerless Motion was granted in part.

Riddle Oil Co., San Antonio, Tex., DRD-0133, crude oil.

Riddle Oil Company and the other working interest owners of certain crude oil producing properties filed a Motion for Discovery in conjunction with enforcement proceedings pending against them. In their Motion, the working interest owners sought discovery of information presented to the Economic Regulatory Administration (ERA) by the

operator of the properties in question regarding the operator's financial condition. It was asserted that this information had been the basis for the ERA's determination to assess the working interest owners directly for alleged overcharges. In considering the request, the DOE determined that the ERA had discretion to identify and assess the working interest owners directly for alleged overcharges without regard to the financial condition of the operator. The information sought was therefore determined to be insufficiently relevant to the enforcement proceedings to warrant discovery. Accordingly, the Motion for Discovery was denied.

Interlocutory Order

Atlantic Richfield Co., BRZ-0015; Gulf Oil Corp., BRZ-0016; Marathon Oil Co. BRZ-0017; Standard Oil Co. of California, BRZ-0018; The Standard Oil Co (Ohio) BRZ-0019; Standard Oil Co. (Indiana) BRZ-0020; Texaco, Inc., BRZ-0021; Louisiana Land and Exploration Co., BRZ-0022, Washington, D.C., crude oil.

The petitioners in this proceeding filed Motions for Discovery in connection with seven enforcement proceedings pending before the Office of Hearings and Appeals of the Department of Energy. Substantial portions of the petitioners' discovery requests related to legal issues in dispute in the enforcement cases. In an Interlocutory Order, the Office of Hearings and Appeals specified the proper scope of discovery related to those issues, particularly requests for administrative records of allegedly invalid rulemakings and rulings and agency constructions of regulations. The Office of Hearings and Appeals held that:

(a) The record for informal notice-and-comment rulemaking for purposes of OHA review of the rulemaking should contain: (1) the notice of proposed rulemaking and any documents referred to therein; (2) comments and other documents submitted by interested persons; (3) any transcripts of oral presentations made in the course of the rulemaking; (4) factual information not included in the foregoing that was considered by the authority responsible for the promulgation of the rule or that is proffered by the agency as pertinent to the rule; (5) reports of any advisory committees; and (6) the agency's concise general statement or final order and any documents referred to therein.

(b) No administrative record need to be produced by the agency in support of a Ruling issued pursuant to Subpart K of the DOE procedural regulations.

(c) Discovery of agency constructions is appropriate where a showing is made that the regulations in question were silent as to the subject matter in dispute or that the regulations were susceptible to several reasonable interpretations and had not been clarified by agency or congressional pronouncements of a public nature.

Supplemental Orders

Ashland Oil, Inc., Ashland, Ky., BEX-0026, crude oil.

On November 27, 1979, the DOE granted a temporary exception to Ashland Oil, Inc.

which assigned nine refiners to supply Ashland with 80,000 BPD of crude oil to replace crude oil previously obtained from Iran. *Ashland Oil, Inc.*, 4 DOE Par. (Case No. BEL-0373, November 27, 1979). Based on certain developments since November 27, the DOE issued a Supplemental Order which reduced the amount of relief to Ashland to 60,00 BPD of crude oil.

Energy Cooperative, Inc., East Chicago, Ind., BEX-0028, crude oil.

On January 21, 1980 the DOE issued a Temporary Exception Decision and Order to Energy Cooperative, Inc. (ECI). That Decision allocated crude oil to ECI which would allow the firm to run its refinery at the minimum operable level. The January 21 Decision also designated specific suppliers to supply ECI with specific quantities of crude oil during the period January 1 through February 29, 1980. The Supplemental Order issued to ECI on January 24, 1980, clarifies the methodology used to calculate the amount of relief granted to ECI and how the supply obligation for each of the eight designated suppliers was determined.

Husky Oil Co., Denver, Colo., BEX-0020, crude oil.

On June 27, 1979 the DOE issued a Decision and Order to Husky Oil Company which granted the firm's request for exception relief from the provisions of 10 CFR, Part 212, Subpart D. This exception relief was provided for the benefit of the working interest owners of the Fleisher Lease but was not extended to the royalty interest owners. Subsequent to the issuance of the Decision and Order the royalty interest owners filed additional information reasserting a claim that exception relief granted to working interest owners should be applied on an equal basis to royalty interest owners. In its submission the royalty interest owners claimed to be in a unique position because unlike most royalty interest owners they are required to absorb a proportionate share of the cost of diluents that are injected into the Fleisher Lease well in order to enhance production. The DOE decided to review this specific contention of the royalty interest owners of the Fleisher Lease and on its own motion issue a Supplemental Order. Upon review the DOE determined that the royalty interest owners of the Fleisher Lease were not in the same relative financial position as the working interest owners. During the latest six month period reviewed, the royalty interest owners were able to achieve a significant profit without exception relief whereas the working interest owners had no economic incentive to continue production without such relief. Accordingly, the DOE affirmed its previous conclusion that exception relief of the royalty interest owners was not warranted.

Interim Orders

Appollo Oil Co., Peoria, Ill., BEN-0011, motor gasoline.

Appollo Oil Company filed a Motion for Interim Decision and Order in which the firm sought to implement immediately exception relief which the DOE proposed to approve on October 31, 1979. See *Appollo Oil Co.*, Case No. DEE-2427 (October 31, 1979). The effect

of granting the Motion would be to require the Marathon Oil Company to supply Apollo with 300,000 gallons of unleaded motor gasoline per month for use in the firm's gasohol blending operations. In considering the request, the DOE found that substantial objections have been raised to the implementation of the proposed relief and that Apollo had failed to establish that it will be harmed in any way by the denial of the present Motion. Accordingly, the Apollo Motion for Interim Decision and Order was denied.

McCall Marketing Co., Portland, Oreg., BEN-0015, motor gasoline.

McCall Marketing Company filed an Application for Exception from the provisions of 10 CFR 211.102 in which the firm sought an increase in its base period allocation of motor gasoline to implement a gasohol blending program. In considering the request, the DOE found that an interim order was necessary because a strong probability existed that exception relief would be approved, immediate implementation of the relief sought would relieve some of McCall's difficulties encountered in developing its gasohol operation, public interest considerations strongly favor the approval of an interim exception.

Interim Orders

The following firms were granted Interim Exception relief which implements the relief which the DOE proposed to grant in an order issued on the same date as the Interim Order:

- Company Name, Case Number, and Location*
- Brace's Service Station, BEN-0393, Wellsville, Mo.
Brighton auto Body, DEN-7235, Brighton, Mass.
Callan & Co., DEN-7157, Blythe, Calif.
Colstrip Town Pump, DEN-5883, Washington, D.C.
Cone Oil Co., Inc., BEN-0545, Washington, D.C.
Duncan Oil Co., DEN-8624, Xenia, Ohio.
Staggers Oil Co., DEN-7104, Marshall, Tex.

Protective Orders

The following firms filed Applications for Protective Orders. The applications, if granted, would result in the issuance by the DOE of the proposed Protective Order submitted by the firm. The DOE granted the following applications and issued the requested Protective Order as an Order of the Department of Energy:

- Company Name, Case Number, and Location*
- Marathon Oil Co., BEJ-0020, Findlay, Ohio.
Publix Oil Co., BEJ-0014, Washington, D.C.
Raymer Oil Co., BEJ-0015, Washington, D.C.
Raymer Oil Co., BEJ-0016, Washington, D.C.
Texaco, Inc. and United Refining Co., BEJ-0011, Washington, D.C.

Petitions Involving the Motor Gasoline Allocation Regulations

The following firms filed Applications for Exception, Temporary Exception, Stay, and/or Temporary Stay from the provisions of the Motor Gasoline Allocation Regulations. The requests, if granted, would result in an increase in the firms' base period allocation

of motor gasoline. The DOE issued Decisions and Orders which determined that the requests be denied.

- Company Name, Case Number, and Location*
- Stockbridge Motors, DEE-6765, Stockbridge, Mass.
Walter Mockus d.b.a. The Pumper, BEO-0021, Addison, Ill.

Dismissals

The following submissions were dismissed without prejudice to refiling at a later date:

- Company Name, Case Number, and Location*
- Beacon Oil Co., DEE-3561.
Butler & Williamson, BEL-0504; BES-0504.
Buttes Resources Co., BEE-0653.
Chevron U.S.A., Inc., DES-0214; DST-0214.
City of Sikeston, DEE-5319.
D&C Exxon, DRO-0313.
Deck Johnson Oil Co., DEE-4968.
Federal Info. Tools, BFA-0103.
Land O'Lakes, Inc., DEE-5971; DES-5972.
Marlow Heights Group Health Association, DEE-7781.
Northwestern Bell Telephone, BEO-0348.
State of Alaska, BEE-0200.
State University of New York at Binghamton, BEE-0319.
Universal Atlas Cement, BEO-0227.
Universal Atlas Cement, BEO-0026.
Universal Atlas Cement, BEO-0240.
Wayne's Shell, BEO-0403.

Copies of the full text of these Decisions and Orders are available in the Public Docket Room of the Office of Hearings and Appeals, Room B-120, 2000 M Street, N.W., Washington, D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., e.s.t., except Federal holidays. They are also available in *Energy Management: Federal Energy Guidelines*, a commercially published loose leaf reporter system.

March 10, 1980.

Melvin Goldstein,

Director, Office of Hearings and Appeals.

[FR Doc. 80-8251 Filed 3-17-80; 8:45 am]

BILLING CODE 6450-01-M

Issuance of Decisions and Orders; Week of February 4 Through February 8, 1980

Notice is hereby given that during the week of February 4 through February 8, 1980 the Decisions and Orders summarized below were issued with respect to Appeals and Applications for Exception or other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions which were dismissed by the Office of Hearings and Appeals and the basis for the dismissal.

Appeals

Barton Bernstein, Stanford, Calif., BFA-0131, freedom of information.

Mr. Barton Bernstein filed an Appeal from a denial by the Director of the DOE Office of Classification of a Request for Information

which Mr. Bernstein had submitted under the Freedom of Information Act (the FOIA). In considering the Appeal, the DOE found that the documents were properly withheld under Exemption 3 of the FOIA since they are properly classified. The present Appeal was accordingly denied.

Newsday, Long Island, N.Y., BFA-0130, freedom of information.

Newsday filed an Appeal from a partial denial by the Director of the Region II Office of Petroleum Operations of a Request for Information which the firm had submitted under the Freedom of Information Act (FOIA). In considering the Appeal, the DOE found that the information which Newsday sought—base period suppliers and volumes of a certain firm—was recently held to be not of a confidential nature unless release of the information would cause competitive harm. See *Atlantic Richfield Company*, 5 DOEPar. — (January 17, 1980). The DOE therefore remanded the matter to the regional office to determine whether release of the information in the present case would cause competitive harm to the firms involved. In addition, the DOE ordered the release of two documents which are in the public record of a May 17, 1979 DOE hearing.

Rosedale, Miles R., Los Angeles, Calif., BFA-0112, freedom of information.

Miles R. Rosedale filed an Appeal from a denial by the Director of Freedom of Information and Privacy Acts Activities of a Request for Information which the firm had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that certain of the documents which were initially withheld under Exemption 5 should be released to Mr. Rosedale. Important issues that were considered in the Decision and Order were (i) whether advisory memoranda of the Office of General Counsel embodied the effective law or policy of the agency and (ii) whether cover letters containing no substantive material are protected by Exemption 5.

Oak Hills Oil, Meta, Mo., BEO-0432, BEA-0150, motor gasoline.

Oak Hills Oil filed a Statement of Objection to a December 6, 1979 Proposed Decision and Order issued to it by the Central Regional Center of the Office of Hearings and Appeals. In considering the matter, the DOE determined that Oak Hills' submission should be construed as an Appeal of a determination by the ERA Region VII Office that Oak Hills could not be assigned as the base period supplier of a new retail outlet, Hooks Car Wash, which it owns. The DOE found that the firm's Application for Assignment should have been approved by Region VII despite the opposition of Oak Hills' supplier, Amoco Oil Company. The Decision held that the unwillingness of a prime supplier is not generally a bar to the assignment of base period volumes to a new outlet where the immediate supplier is willing to assume the obligation. Consequently, the DOE granted the firm's Appeal and remanded the firm's Request for Assignment to ERA for appropriate action. In addition, the DOE dismissed the exception proceeding without prejudice.

Requests for Exception

Bainbridge Shell, Chagrin Falls, Ohio, DEO-0371, motor gasoline.

Bainbridge Shell filed a Statement of Objections to a Proposed Decision and Order issued by the Central Regional Center of the Office of Hearings and Appeals. The firm had sought an exception from the provisions of 10 CFR 211 which would have increased its base period allocation of motor gasoline. In considering the firm's objections to the proposed denial of exception relief, the DOE determined that the current allocation regulations are not causing the firm a serious financial hardship. Accordingly, exception relief was denied.

City of Wilson, Wilson, N.C., BEE-0442, reporting requirements.

The City of Wilson, North Carolina (Wilson) filed an Application for Exception from the reporting requirements of Form EIA-149 ("Natural Gas Supply, Requirements, and Usage"). Wilson requested that it be relieved entirely of the requirement to file the form with the Energy Information Administration. In considering Wilson's application, the DOE found that the impending retirement of the city's gas system supervisor coupled with a long delay in the city's receipt of the form imposed a gross inequity on the city. Accordingly, exception relief was granted which permitted Wilson to file its data in simplified form no later than March 31, 1980.

Euclid Bee Clean Auto Wash, Euclid, Ohio, BEO-0052, motor gasoline.

Euclid Bee Clean Auto Wash filed an Application for Exception from the provisions of 10 CFR, Part 211 in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that the firm had failed to demonstrate that it was suffering a serious hardship as a result of DOE regulations. Accordingly, exception relief was denied.

Finch Oil Co., Fayetteville, N.C., DEE-7195, motor gasoline.

Finch Oil Company filed an Application for Exception from the provisions of 10 CFR 211.102 in which the firm sought an increased allocation of unleaded motor gasoline so that the firm could blend and sell gasoline. In considering the request, the DOE found that exception relief was necessary to relieve the gross inequity which Finch was experiencing as a result of the allocation regulations. Accordingly, exception relief was granted.

Geesey's Mobil Service, York, Pa., BEO-0383, motor gasoline.

Geesey's Mobil Service filed an Application for Exception from the provisions of 10 CFR, Part 211 in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that Geesey's is not experiencing a hardship of inequity as a result of the DOE allocation regulation's. Accordingly, exception relief was denied.

Spencer's Quick Six, Chicago, Ill., BEO-0118, motor gasoline.

Spencer's Quick Six filed an Application for Exception in which it requested an increase in its base period allocation of motor

gasoline. In considering the exception request, the DOE found that Spencer had satisfied the criteria established in *Leo Anger, Inc.*, 4 DOE Par. — (June 18, 1979) for the approval of exception relief. Accordingly, exception relief was granted.

Kenneth L. Tipps, Denver, Colo., BXE-0633, crude oil.

Kenneth L. Tipps filed an application for Exception from the provisions of 10 CFR, Part 212, Subpart D, in which the firm sought an extension of exception relief which would permit it to continue to sell quantities of crude oil produced from its Marick 1-A property at upper tier ceiling prices. In considering the request, the DOE found that operating costs at the property had increased substantially and that exception relief was necessary to provide the working interest owners with an economic incentive to continue production activities. Accordingly, exception relief was granted permitting 100 percent of the crude oil produced from the property and sold for the benefit of the working interest owners to be priced at upper tier ceiling price levels.

Zachary Gulf Service Station, Zachary, La., DEO-0387, motor gasoline.

Zachary Gulf Service Station filed an application for Exception from the provisions of 10 CFR 211.102 in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that the firm had been able to utilize the ten percent growth adjustment provided in 10 CFR 211.104(a) to substantially increase the quantity of gasoline it is entitled to receive from its base period supplier and had failed to provide financial data indicating its viability as an independent marketer was jeopardized as a result of the updating of the base period. Exception relief was therefore denied.

Request for Temporary Exception

ICG Vista Petroleum, Inc., Denver, Colo., BEL-0636, crude oil.

ICG Vista Petroleum, Inc. (ICG) filed an Application for Temporary Exception in which it requested that it be permitted to sell additional entitlements (10 CFR 211.67) or that it gain access to additional crude oil under the Buy/Sell Program (10 CFR 211.65) in order to reduce its average cost of crude oil. In considering the Application, the DOE determined that ICG has not demonstrated that it is experiencing an irreparable injury as a result of the DOE regulatory program. ICG's temporary exception request was therefore denied.

Supplemental Order

Commonwealth Oil Refining Co., Inc., San Antonio, Tex., BEX-0030, crude oil.

On December 21, 1979, the Commonwealth Oil Refining Company, Inc. filed a Motion to Dismiss the Mobil Oil Corporation as a participant in Case No. DEE-8020 and various related cases pending before the Office of Hearings and Appeals. In considering the Motion, the DOE found it appropriate to preclude Mobil from further participation in the Corco proceedings because Mobil had willfully refused to comply with a Discovery Order issued by the Office of Hearings and

Appeals. In addition, Mobil had failed to file a timely Notice of Objection. The Decision discusses the authority of the Office of Hearings and Appeals to impose sanctions for failure to comply with a discovery order, and refers to Rule 37 of the Federal Rules of Civil Procedure.

Remedial Orders

In the following cases involving Proposed Remedial Orders and/or Interim Remedial Orders for Immediate Compliance, no Statements of Objections were filed. The DOE therefore issued the orders in final form.

Company Name, Case Number, and Location
Macon Oil Co., BRW-0017, Washington, DC.
Arcadia Exxon Service, DRO-0348, Old Bridge, NJ.

Protective Orders

The following firms filed Applications for Protective Orders. The applications, if granted, would result in the issuance by the DOE of the proposed Protective Order submitted by the firm. The DOE granted the following applications and issued the requested Protective Order as an Order of the Department of Energy:

Company Name, Case Number, and Location
Occidental Pet. Corp., BEJ-0022, Washington, DC.
Marathon Oil Co., BEJ-0023, Washington, DC.
Chevron USA, Inc., BEJ-0027, Washington, DC.

Interim Orders

The following firms were granted interim exception relief which implements the relief which the DOE proposed to grant in an order issued on the same date as the Interim Order:

Company Name, Case Number, and Location
Benson Gen. Store, BEN-0645, Benson, VT.
F. S. Williams Country Store, DEN-3469, Ethel, LA.
Gold Oil Co., BEN-0454, Belleville, IL.
P&W Oil Co., Inc., BEN-0559, Athens, AL.
Southwest Research Institute, DEN-5896, San Antonio, TX.
Tuscaloosa City School System, BEN-0246, Tuscaloosa, AL.

Petition Involving the Emergency Building Temperature Restrictions

The following firm filed an Application for Exception from the provisions of the Emergency Building Temperature Restrictions. The request, if granted, would permit the firm to change the temperature in its facilities from the temperature level prescribed in the regulations. The DOE issued a Decision and Order which determined that the request be granted.

Company Name, Case Number, and Location
Tri Rehabilitation Institute, DEE-7567, Mineola, NY.

Petitions Involving the Motor Gasoline Allocation Regulations

The following firms filed Applications for Exception, Temporary Exception, Stay, and/or Temporary Stay from the provisions of the Motor Gasoline Allocation Regulations. The requests, if granted, would result in an

increase in the firms' base period allocation of motor gasoline. The DOE issued Decisions and Orders which determined that the requests be denied.

Company Name, Case Number, and Location

Bob Webb's Arco Service, DEO-0399, Long Beach, CA.
Red Carpet Car Wash, BEO-0120, Hillsborough, CA.
Sparta's Gulf Service, DEO-0386, Bryn Mawr, PA.

Dismissals

The following submissions were dismissed without prejudice to refile at a later date:

Company Name and Case Number

Alan Corporation, DEE-5132.
Bubble Machine Car Wash, DEE-6353; DEE-6354.
Five Points Standard, DEE-6957.
Foust Oil Co., DES-3089; DST-3089.
Midtown Oil Co., Inc., DEE-2437.
Rogerson & Manzone, DEE-8755.
S&S Gulf Service, DEE-7958.
Sagamore Amoco, DEE-7690.
Standard Tractor Sales Co., DEE-7108.
Bennett's Cobra Oil Co., Inc., DEE-2660.
Bill Warren, DEE-8572.
Bonner's Arco Mini Market, DEE-6700.
C.T. Decinces Construction Corp., DEE-6952.
City of Industry Disposal Co., Inc., DEE-6161.
Fore, Inc., DEE-3771; DST-3771; DES-3771.
GSC/Six Flags Corp., BEE-0371.
Johnson's Grocery, DEE-6955.
Marathon Oil Co., BED-0252.
Robert Winston Sunoco, DEE-7695.
S & J Gen. Store, DEE-6402.
Sierra Glen Store, DEE-6907.
Strickland Oil Co., DEE-3167.
Southwest Research Institute, DES-5896.
Conoco, Inc., BEA-0143; BMR-0020.
Energy Development Corporation, DXE-1310.
Fargo, Inc., DEE-2533; DES-2533; DST-2533.
Universal Atlas Cement, BEO-0265.

Copies of the full text of these Decisions and Orders are available in the Public Docket Room of the Office of Hearings and Appeals, Room B-120, 2000 M Street, N.W., Washington, D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., e.s.t., except Federal holidays. They are also available in *Energy Management: Federal Energy Guidelines*, a commercially published loose leaf reporter system.

Dated: March 10, 1980.

Melvin Goldstein,

Director, Office of Hearings and Appeals.

[FR Doc. 80-8252 Filed 3-17-80; 8:45 am]

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Docket No. ER80-263]

Cleveland Electric Illuminating Co.; Filing

March 10, 1980.

Take notice that on March 3, 1980, the Cleveland Electric Illuminating Company (CEI) tendered for filing Amendment No. 5 to the CAPCO Basic Operating Agreement dated January 1, 1975 as amended (the "Agreement") which is on file with the Commission.

CEI states that Section 1 of Amendment No. 5 amends the Agreement extending the term of the Agreement by six months—from March 1, 1980 to September 1, 1980.

CEI requests that the Commission waive its notice requirements in order to allow an effective date of March 1, 1980.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 28, 1980. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket Nos. RP78-51, RP79-1]

Colorado Interstate Gas Co.; Informal Conference

March 10, 1980.

Take notice that on March 19, 1980, at 11:00 A.M. an informal conference of all interested persons will be held pursuant to Article II of the "Stipulation and Agreement of Settlement" in this proceeding. The conference will be held at a meeting room of the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene in this matter by order of the Commission, attendance

will not be deemed to authorize intervention as a party in these proceedings.

All parties will be expected to come fully prepared to discuss the merits of the issues arising in these proceedings and to make commitments with respect to such issues and to any offers of settlement or stipulation discussed at the conference.

BILLING CODE 6450-85-M

[Docket No. CP80-246]

Columbia Gas Transmission Corp.; Application

March 10, 1980.

Take notice that on February 19, 1980, Columbia Gas Transmission Corporation (Applicant), 1700 MacCorkle Avenue, S.E., Charleston, West Virginia 25314, filed in Docket No. CP80-246 an application pursuant to Section 3 of the Natural Gas Act for authorization to import natural gas from Canada for a period of 15 years, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it has contracted pursuant to a gas sales contract with Columbia Gas development of Canada, Ltd. (Columbia Development) for the sale by Columbia Development and purchase by Columbia of gas not to exceed 41,000 Mcf per day or 13,600,000 Mcf per annum which gas would be purchased at the applicable border price set by the National Energy Board of Canada (NEB), which is currently \$2.80 (U.S.) per million Btu.

Columbia Development would, it is stated, obtain the natural gas from the Kotaneelee field which is located in the Yukon Territory of Canada pursuant to gas purchase agreements with Dome Petroleum Limited, Esso resources Canada Limited, Amoco Canada Petroleum Company Ltd., Alminex Limited, and Canada Southern Petroleum Ltd. The remaining natural gas reserves in this field are stated to be 205,200,000 Mcf at 14.65 psia.

Columbia Development is, it is stated, finalizing arrangements with Westcoast Transmission Company Limited (Westcoast) for the processing and transportation of the gas from the Kotaneelee gas field to the international border.

Applicant states that the arrangements for the transportation of gas within the United States would be the subject of separate applications filed

with the Commission pursuant to Section 7(c) of the Natural Gas Act. It is stated that the gas would enter the United States at Sumas, Washington, at the existing delivery point of Westcoast with Northwest Pipeline Corporation (Northwest); the gas would then be displaced by Northwest to El Paso Natural Gas Company (El Paso) in LaPlata County, Colorado; El Paso would deliver a similar quantity from its supply in the Gulf of Mexico region to Columbia Gulf Transmission Company, an affiliate of Applicant, in southern Louisiana; which would deliver such gas through its existing pipeline system to Applicant at existing points of delivery in Kentucky.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 2, 1980, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,
Secretary.

BILLING CODE 6450-85-M

[Docket No. CP77-289]

El Paso Natural Gas Co.; Change in Rates

March 10, 1980.

Take notice that on February 29, 1980, El Paso Natural Gas Company ("El Paso") filed, pursuant to Part 154 of the Federal Energy Regulatory Commission's ("Commission") Regulations Under the Natural Gas Act, the following revised tariff sheets to its FERC Gas Tariff:

Tariff Volume and Tariff Sheet

Original Volume No. 1—Seventh Revised Sheet No. 63-C.6, Third Revised Sheet No. 63-C.9A

Third Revised Volume No. 2—Seventh Revised Sheet No. 1-M.8, Third Revised Sheet No. 1-M.9A

Original Volume No. 2A—Seventh Revised Sheet No. 7-MM.8, Third Revised Sheet No. 7-MM.9A

El Paso states that the purpose of the filing is to give notice of a change in the

surcharge rate applicable to the Clay Basin Interim Storage Arrangements ("Clay Basin Arrangements")¹ and a revision in costs associated with the utilization of the Clay Basin Arrangements by Southwest Gas Corporation ("Southwest") for the purpose of preserving a portion of its Opinion No. 800-B Payback Gas entitlements.² El Paso proposes that such change be made effective April 1, 1980.

El Paso states that the notice of change is being filed in accordance with the effective storage provisions in its FERC Gas Tariff relating to the Clay Basin Arrangements which provide, among other matters, that the surcharge rate applicable thereto shall be adjusted each April 1, and October 1, so as to permit El Paso to recover during the succeeding six (6) month period its actual and projected costs in providing (i) Priority 1 and 2 storage protection service to its EOC customers through the Clay Basin Arrangements, and (ii) storage service for the portion of Southwest's Opinion No. 800-B Payback Gas.

El Paso states that it is proposing to change the surcharge rate applicable to all rate schedule services for those EOC Priority 1 and 2 customers receiving the benefit of the Clay Basin Arrangements from the currently effective surcharge rate of 4.24¢ per Mcf of Priority 1 and 2 monthly nominations to 9.51¢ per Mcf of Priority 1 and 2 monthly nominations, effective as of April 1, 1980.

El Paso states that the surcharge applicable to Southwest for serving its Opinion No. 800-B Payback Gas is comprised of an injection fee, fixed and variable cost residency fees and a withdrawal fee. El Paso further states that it is proposing to revise the currently effective injection fee, fixed

¹ By order issued July 3, 1978, as modified by order issued February 5, 1979, at Mountain Fuel Resources, Inc., et al., Docket Nos. CP76-285, et al., the Commission granted temporary certificates for, among other things, the extended Clay Basin Arrangements and El Paso's participation in such arrangements through September 30, 1980. Such extended Clay Basin Arrangements provide for the sale, transportation and storage of gas in the Clay Basin Field, located in Daggett County, Utah, under agreements between El Paso, Northwest Pipeline Corporation, Mountain Fuel Resources, Inc. and Clay Basin Storage Company.

² By order issued December 22, 1978, at Docket Nos. CP76-285, et al., the Commission amended the terms of Opinion No. 800-B and its order issued July 3, 1978, at such docketed proceedings in order to permit the interim use of the Clay Basin Arrangements for purposes of preserving El Paso's east-of-California ("EOC") customers' opinion No. 800-B Payback Gas. Southwest Gas Corporation was the only customer advising El Paso that it desired El Paso to provide for the preservation of certain quantities of its allocable share of Opinion No. 800-B Payback Gas through the Clay Basin Arrangements.

and variable cost residency fees of 27.03¢, (0.78¢) and 2.86¢ per Mcf, respectively, to 28.02¢, 4.33¢ and 2.50¢ per Mcf, respectively, effective as of April 1, 1980. No change in the withdrawal fee portion of the subject surcharge, presently 1.0¢ per Mcf, is proposed in the subject filing.

El Paso also states that copies of the filing have been served upon all parties of record in Docket No. CP77-289, and, otherwise, upon all of El Paso's interstate system customers and interested state regulatory commissions.

Any person desiring to be heard or to make any protest with reference to said tariff filing should, on or before Mar. 21, 1980, file with the Federal Energy Regulatory Commission, Washington, D.C., 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations Under the Natural Gas Act (18 CFR 157.10). Protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make any protestants parties to the proceeding. Any person wishing to become a party to a proceeding must file a petition to intervene in accordance with the Commission's Rules. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,
Secretary.

BILLING CODE 6450-85-M

[Docket No. CP80-192]

Florida Gas Transmission Co.; Amendment to Application

March 10, 1980.

Take notice that no February 19, 1980, Florida Gas Transmission Company (Applicant), P.O. Box 44, Winter Park, Florida 32790, filed in Docket No. CP80-192 pursuant to Section 7(c) of the Natural Gas Act an amendment to the application pending in said docket so as to reflect a revision in the three contracts pursuant to which it sells natural gas for resale in the state of Texas, as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

It is stated that, pursuant to the terms of Applicant's initial filing, it has executed contracts by which it sells natural gas for resale in the state of Texas to the Texas Department of Corrections, Gulfside Gas Company, and Entrex, Inc.

Such contracts, it is stated, have been amended to provide that Buyer would pay Applicant for all services rendered prices established under Applicant's Rate Schedule G and as such rate schedule may hereafter be legally amended or superseded.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before April 2, 1980, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. All persons who have heretofore filed need not file again.

Kenneth F. Plumb,
Secretary.

BILLING CODE 6450-85-M

[Docket No. ES80-34]

Iowa Electric Light and Power Co.; Application

March 10, 1980.

Take notice that on February 28, 1980, the Iowa Electric Light and Power Company (Applicant) filed an application pursuant to Section 204 of the Federal Power Act with the Federal Energy Regulatory Commission seeking authority to issue 225,000 shares of common stock pursuant to the Company's Employee Stock Ownership Plan.

Applicant is incorporated under the laws of the State of Iowa and is authorized to do business in the States of Iowa, Minnesota, Colorado and Nebraska with its principal business office at Cedar Rapids, Iowa. Applicant is engaged primarily in the generation, transmission and sale at retail of electric energy in 55 counties in the State of Iowa.

Any person desiring to be heard or to make protest with reference to this application should on or before March 28, 1980, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions or protests in accordance with the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is

on file with the Commission and available for public inspection.

BILLING CODE 6450-85-M

[Docket No. ER80-259]

Kansas Gas & Electric Co.; Proposed Tariff Change

March 10, 1980.

The filing Company submits the following:

Take notice that Kansas Gas and Electric Company on February 29, 1980 tendered for filing proposed changes in its FERC Electric Service Tariff Nos. 32, 55, 98, 110, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 128, 129, 131, 132, 133, 134 and 135. The proposed changes would increase revenues from Applicant's Municipal jurisdictional customers' sales and service by \$3,550,874 based on the twelve month period ending December 31, 1980.

Applicant is experiencing a number of major problem which necessitate requesting the proposed increase. The principal factor is the addition of the Jeffrey Energy Center No. 1 and 2 Units and their related facilities on July 31, 1978 and May 31, 1980, respectively. Unit No. 1 has been in commercial operation for over one year and applicant has been permitted virtually no rate relief to offset the significant increase in operating and maintenance expense, depreciation and taxes attributable to the unit nor to earn a rate of return on the investment. Rising capital expenditures, inflation, attrition and regulatory lag have contributed to a general erosion in the return earned from jurisdictional customers. Unit No. 2 is scheduled to go into commercial operation on May 31, 1980 and Applicant will be faced with the same problems associated with the No. 1 Unit, necessitating timely rate relief.

Copies of the filing were served upon the public utility's jurisdictional customers and the State Corporation Commission of Kansas.

Any person desiring to be heard or to protest said Application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE, Washington, D.C. 20436, in accordance with Paragraph 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 28, 1980. Protests will be considered by the Commission in

determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this Application are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket Nos. CP77-641 and CP78-23]

Natural Gas Pipeline Co. of America and United Gas Pipe Line Co.; Petition to Amend

March 10, 1980.

Take notice that on December 21, 1980, Natural Gas Pipeline Company of America (Natural), 122 South Michigan Avenue, Chicago, Illinois 60603, and United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77001, filed in Docket Nos. CP77-461 and CP78-23, respectively, a joint petition to amend the order of December 20, 1977, issued in the instant dockets, pursuant to Section 7(c) of the Natural Gas Act so as to authorize the exchange of up to 185,500 Mcf per day of natural gas, the exchange of natural gas at additional exchange points in Cameron Parish, Louisiana, Panola County, Texas, and Polk County, Texas, and the construction and operation of facilities at the proposed Panola County Exchange Point, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

It is stated that, pursuant to the order issued December 20, 1977, Petitioners were authorized to exchange up to 105,500 Mcf of natural gas per day, at three points of exchange; the Texaco Henry Plant located in Vermilion Parish, Louisiana (Henry Delivery Point); the Mobil Cameron Meadows Plant, Cameron Parish, Louisiana (Cameron Delivery Point); and the terminus of Sea Robin Pipeline Company's (Sea Robin) onshore measuring station located in Vermilion Parish, Louisiana (Erath Delivery Point).

It is further stated that Natural has additional gas supply volumes available to be purchased from offshore areas which would be transported by Sea Robin pursuant to a gas transportation agreement dated September 2, 1977, authorized by Commission order of December 20, 1977, in Docket No. GP78-7. Petitioners stated that this agreement provides for Sea Robin to transfer and redeliver volumes of natural gas that

Natural has available for purchase, to United for Natural's account at the Erath Delivery Point.

It is stated that Petitioners have agreed to amend their existing gas exchange agreement, dated August 16, 1977, so as to increase the volumes of gas to be exchanged between them to 185,500 Mcf per day, and to add the following three points of exchange: (1) the existing interconnection of the facilities of U-T Offshore System and Natural near Johnson's Bayou, Cameron Parish, Louisiana; (2) a proposed point of interconnection between the Pipeline systems of Petitioners in Panola County, Texas; and (3) the existing interconnection between the pipeline systems of the Petitioners near Goodrich, Polk County, Texas.

Natural also proposed to construct approximately 1,800 feet of 10-inch pipeline, a 10-inch measuring facility, and 8-inch tap connection, and other appurtenant facilities which would cost \$189,000. United proposes to construct an 8-inch tap connection and other appurtenant facilities for a cost of \$28,000. It is stated that these facilities would be constructed in Panola County, Texas. It is asserted such costs would be financed from funds on hand.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before April 2, 1980, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. CP80-259]

Northern Natural Gas Co.; Application

March 10, 1980.

Take notice that on February 27, 1980, Northern Natural Gas Company (Applicant), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP80-259 an application pursuant to

Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity so as to authorize the construction and operation of a new sales measuring station to serve as an additional point of delivery to Iowa Power and Light Company (Iowa Power), all as more fully set forth in the application which is on file with the commission and open to public inspection.

It is stated that this application is filed pursuant to a settlement agreement entered into by the parties in the proceeding involving Iowa Power's application filed pursuant to Section 7(c) of the Natural Gas Act in Docket No. CP79-198. Applicant states that in Docket No. CP79-198 Iowa Power requested the Commission to issue an order directing Applicant to construct facilities to establish a new natural gas delivery point at Iowa Power's Sycamore Power Station. Applicant states that, in accordance with the terms of the settlement agreement, it proposes to install and operate a town border station to serve Iowa Power's Sycamore Power Station. It is stated that the new delivery point would be located in Polk County, Iowa. It is further stated that deliveries to Iowa Power for use in their peak load generating units, which would include deliveries to the Sycamore Power Station through the herein proposed town border station, would be limited to 1,400,000 Mcf annually.

It is stated that volumes of natural gas to be provided through the proposed facilities would be served out of Iowa Power's presently effective firm entitlement.

It is further stated that the cost of the proposed facilities would be \$174,400, for which Iowa Power has agreed to reimburse Applicant for the total actual cost of construction.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 1, 1980, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition

to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,
Secretary.

[Docket No. RP80-77]

United Gas Pipe Line Co.; Proposed Changes in FERC Gas Tariff

March 10, 1980.

Take notice that United Gas Pipe Line Company (United), on February 27, 1980, tendered for filing the following proposed tariff sheets for inclusion in its FERC Gas Tariff, First Revised Volume No. 1:

Twelfth Revised Sheet No. 5
Thirteenth Revised Sheet No. 6
Twentieth Revised Sheet No. 21
Sixth Revised Sheet No. 22

United States that the revisions are being made to eliminate the demand ratchet provisions of United's Tariff, and to limit the overrun penalty to only those volumes taken in excess of 102% of Buyer's Maximum Daily Quantity. Previously the overrun penalty applied to all volumes taken by Buyer in excess of its Maximum Daily Quantity if the quantity taken on any day exceeded 102% of the Maximum Daily Quantity. United has requested that the revised tariff sheets be made effective as of December 1, 1978, the date that its rate filing in Docket No. RP78-68 became effective, and will not increase the rates charged to any of its customers.

Any person desiring to be heard or to protest said filing should file a petition

to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 27, 1980. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. GP80-41]

United Gas Pipeline Co., Third-Party Protests¹

March 10, 1980.

Take notice that in accordance with the procedures established by the Federal Energy Regulatory Commission (Commission) in Order No. 23-B,² and "Order on Rehearing of Order No. 23-B,"³ the Staff of the Commission protested on March 4, 1980, the assertion by the United Gas Pipeline Company (United) and certain producers that the contracts identified in its protest constitute contractual authority for the producers to charge and collect any applicable maximum lawful price under the Natural Gas Policy Act of 1978 (NGPA).

Staff stated that the language of the contracts contained in Appendix A does not constitute authority for the producer to increase prices to the extent claimed by United in its evidentiary submission.

Any person, other than the pipeline and the seller, desiring to be heard or to make any response with respect to these protests should file with the Commission, on or before March 24, 1980, a petition to intervene in accordance with 18 C.F.R. § 1.8. The seller need not file for intervention because under 18 C.F.R. § 154.94(j)(4)(ii),

¹ The term "third-party protest" refers to a protest filed by a party who is not a party to the contract which is protested.

² "Order Adopting Final Regulations and Establishing Protest Procedure," Docket No. RM79-22, issued June 21, 1979.

³ Docket No. RM79-22, issued August 6, 1979.

the seller in the first sale is automatically joined as a party.

BILLING CODE 6450-95-M

[Docket No. RP80-76]

West Texas Gathering Co.; Tariff Filing

March 10, 1980.

Take notice that on February 27, 1980, West Texas Gathering Company (West Texas) filed Original Tariff Sheet Nos. 51A, 51B, 51C, and 51D. The proposed effective date of these sheets is April 1, 1980. West Texas also filed a financial statement for the year ending December 31, 1979, certain cost of service data for 1979 and statements N and O for the year 1980.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 21, 1980. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to

intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,
Secretary.

BILLING CODE 6450-95-M

ENVIRONMENTAL PROTECTION AGENCY

[FRL 1437-8; 80P-14]

California Department of Agriculture; Issuance of Specific Exemption To Use Diclofop-Methyl to Control Italian Ryegrass and Wild Oats in Wheat Fields

AGENCY: Environmental Protection (EPA).

ACTION: Notice.

SUMMARY: EPA has granted a specific exemption to the California Department of Food and Agriculture (hereafter referred to as the "Applicant") to use diclofop-methyl to control Italian ryegrass and wild oats in wheat in that portion of California north of and including San Joaquin County.

DATE: The specific exemption expires on June 15, 1980.

FOR FURTHER INFORMATION CONTACT:

Mr. Donald Stubbs, Emergency Response Section, Environmental Protection Agency, Rm. E-124, (TS-767), 401 M St., SW., Washington, DC 20460, (202-426-0223).

SUPPLEMENTARY INFORMATION:

According to the Applicant, both Italian ryegrass (*Lolium multiflorum*) and wild oats (*Avena fatua*) are widespread weed problems in California. The Applicant states that they compete with the crops for light, nutrients, and water and severely reduce yield.

The Applicant proposed to treat a maximum of 150,000 acres of wheat and barley fields with diclofop-methyl. The Applicant claimed that the number of infested fields has been increasing because of the inadequacy of the registered herbicides, barban, triallate, and difenzoquat. The Applicant further stated that although cultural controls work on the long-term basis, they will have no effect on this year's crops. Data indicate that the herbicide diclofop-methyl is effective for controlling both Italian ryegrass and wild oats.

EPA has determined that the frequent rainfall in the counties north of and including San Joaquin often prevents effective use of pre-emergent herbicides there and that triallate cannot be used on the short-statured wheat grown in California. However, since barban can

be used on wheat grown in the southern part of California and triallate can be used on barley grown in California, EPA cannot determine that an emergency situation exists in wheat grown in the southern counties or in barley.

EPA has determined that the proposed use should not result in residues of diclofop-methyl and its metabolites in excess of 0.1 part per million (ppm). This level has been judged adequate to protect the public health. Applicators will be required to wear protective clothing and respirators.

A restriction on the grazing or foraging of treated land and a prohibition against the use of treated hay or straw as animal feed have been imposed. Since diclofop-methyl is acutely toxic to fish, EPA has imposed a restriction which would prohibit the application of diclofop-methyl within 100 feet of any aquatic habitat. EPA has also prohibited the use of diclofop-methyl in areas where any endangered or threatened species occur.

After reviewing the application and other available information, EPA has determined that (a) pest outbreaks of Italian ryegrass and wild oats have occurred; (b) the pesticides registered for this use do not provide adequate control of Italian ryegrass and wild oats in California; (c) there are no alternative means of control, taking into account the efficacy and hazard; (d) significant economic problems may result if Italian ryegrass and wild oats are not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until June 15, 1980 subject to the following conditions:

1. Use of the American Hoechst product Hoelon 3EC, which contains the active ingredient (a.i.) diclofop-methyl, is authorized at the following dosage rates and methods of application:

Ground Equipment: 2 to 3.3 pints of product (0.75 to 1.25 pounds a.i.)/minimum of 10 gallons of water/acre per season;

Aerial Equipment: 2 to 3 pints of product (0.75 to 1.25 pounds a.i.)/minimum of 5 gallons of water/acre per season;

2. Up to 42,000 pounds of diclofop-methyl are authorized;

3. One laboratory study with mice indicated that diclofop-methyl may be oncogenic. Because of uncertainty relating to the oncogenic potential of diclofop-methyl, the Applicant shall be responsible for assuring that all workers who will come into contact with this material through pesticide applications

and related agricultural operations are fully advised of the uncertainty of the oncogenicity situation prior to any exposure to the material. In addition, the following precautions must be taken: (a) Applications are to be made only by State-certified commercial and private applicators; (b) the following protective apparel must be worn during all loading and mixing operations of diclofop-methyl and when diclofop-methyl is applied with ground equipment: gloves, waterproof boots, impermeable pants and shirts, goggles, and a cartridge-type respirator; (c) aerial pilots are not to be involved in the mixing and loading of diclofop-methyl unless the aforementioned equipment is worn. Pilots must wear a cartridge-type respirator when applying diclofop-methyl;

4. Applications of diclofop-methyl shall be made only when a knowledgeable expert determines that densities of Italian ryegrass are at a level where the use of herbicides registered for use on wheat to control those weeds is not likely to provide sufficient economic control of those weeds. Such knowledgeable experts may be personnel of the California Department of Food and Agriculture, county agricultural personnel, university personnel, or state-licensed pest control advisors;

5. Diclofop-methyl is highly toxic to fish. It must be kept out of lakes, streams, ponds, tidal marshes, and estuaries. Direct applications or drift of spray material to water surfaces must be avoided. It may not be applied within 100 feet of aquatic habitats or within 100 feet of any vegetable, corn, or milo crop. Aerial applications may not be made when wind velocity is above five miles per hour. Care must be taken to avoid contamination of arable land or water by the cleaning of equipment or disposal of waste;

6. There are seven fish which have been classified as either endangered or threatened species, in accordance with the Endangered Species Act of 1973, found in California. Hoelon 3 EC may not be used in areas where these species are known or expected to occur;

7. The Applicant must set up a monitoring program to prevent adverse effects to aquatic habitats and non-target border vegetation. The EPA shall be informed of any adverse effects resulting from the use of diclofop-methyl under this specific exemption;

8. Fields treated with diclofop-methyl must not be grazed or foraged. Likewise, wheat hay or straw must not be fed to livestock;

9. Wheat grain with residues of diclofop-methyl not exceeding 0.1 ppm

may entered interstate commerce. The Food and Drug Administration, U.S. Department of Health, Education, and Welfare, has been advised of this action;

10. Pest control advisors recommending the use of Hoelon 3 EC in accordance with item 4 above must submit to the Applicant a written statement concerning the conditions found in each field which led them to believe an emergency situation existed. The Applicant is responsible for summarizing these statements and forwarding copies to EPA; and

11. The Applicant is responsible for ensuring that all of the provisions of this specific exemption are met and must submit a full report which summarizes the amounts of diclofop-methyl used and the economic benefits derived, as a result of this specific exemption, to the EPA by October 31, 1980.

(Sec. 18, 92 Stat. 819, as amended (7 U.S.C. 136))

Dated: March 11, 1980.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

BILLING CODE 6560-01-M

[FRL 1437-7; 80P-27]

Issuance of Experimental Use Permit for N-(Mercaptomethyl)-Phthalimide S-(O,O-Dimethyl Phosphorodithioate)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has issued an experimental use permit under provisions of the Federal Insecticide, Fungicide, and Rodenticide Act to Zoecon Industries for use of the insecticide N-(mercaptomethyl)phthalimide S-(O,O-dimethyl phosphorodithioate) on 1,250 hogs to evaluate control of hog mange and hog lice.

FOR FURTHER INFORMATION CONTACT: Mr. George T. LaRocca, Product Manager, Room E-329, (PM-15), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., S.W., Washington, DC 20460 (202-426-9490).

SUPPLEMENTARY INFORMATION: Zoecon Industries, Dallas, TX 75234, has been issued experimental use permit No. 2724-EUP-15. This permit allows the use of 20 pounds of the insecticide N-(mercaptomethyl) phthalimide S-(O,O-dimethyl phosphorodithioate) on 1,250 hogs to evaluate control of hog mange and hog lice. The program is authorized only in the States of Arkansas, Illinois,

Indiana, Iowa, Nebraska, Pennsylvania, and Virginia. This experimental use permit is effective from February 8, 1980, to February 8, 1981. A permanent tolerance for residues of the active ingredient in or on the meat, fat, and meat byproducts of hogs has been established (40 CFR 180.26). (PM-25, Room: E-329, Telephone: 202-426-9490).

Persons wishing to review the experimental use permit are referred to the designated Product Manager (PM), Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street S.W., Washington, D.C. 20460. Inquiries regarding this permit should be directed to the contact person given above. It is suggested that interested persons call before visiting the EPA Headquarters Office so that the appropriate file may be made conveniently available for review purposes. The files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday, excluding holidays.

(Sec. 5, 92 Stat. 819 as amended, (7 U.S.C. 136))

Dated: March 7, 1980.

[FRL 1437-6; 80P-59]

Experimental Use Permit for Oryzalin and Trifluralin

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has issued an experimental use permit to Elanco Products Co. for use of the herbicides oryzalin and trifluralin on cotton and soybeans to evaluate control of weeds. DATE: The experimental use permit is effective from March 30, 1980 to March 30, 1981.

FOR FURTHER INFORMATION CONTACT: Robert J. Taylor, Product Manager (PM-25), Rm. E-359, (TS-767), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, (202)-765-2196).

SUPPLEMENTARY INFORMATION: Elanco Products Co., Indianapolis, IN 46206 has been issued experimental use permit No. 1471-EUP-68. This permit allows the use of 1,627 pounds each of the herbicides oryzalin and trifluralin on cotton and soybeans to evaluate control of weeds.

A total of 2,814 acres are involved; the program is authorized only in the States of Alabama, Arizona, Arkansas, California, Georgia, Florida, Illinois,

Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Virginia, and Wisconsin.

This experimental use permit is effective from March 30, 1980 to March 30, 1981. Permanent tolerances for residues of the active ingredients in or on cottonseed and soybeans have been established (40 CFR 180.304 and 180.207).

Persons wishing to review the experimental use permit are referred to the designated Product Manager (PM), Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street, SW., Washington, D.C. 20460. Inquiries regarding this permit should be directed to the contact person given above. It is suggested that interested persons call before visiting the EPA Headquarters Office so that the appropriate file may be made conveniently available for review purposes. The files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday, excluding holidays.

Stauffer Chemical Co.; Experimental Use Permit for S-Ethyl Diisobutylthiocarbamate Alternate Formula Containing Safener R-29148

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has issued an experimental use permit to Stauffer Chemical Co. for use of the herbicide S-ethyl diisobutylthiocarbamate alternate formula containing safener R-29148 on corn to evaluate control of weeds.

FOR FURTHER INFORMATION CONTACT: Robert Taylor, Product Manager (PM) 25, Rm. E-359 (TS-767), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, (202-755-2196).

SUPPLEMENTARY INFORMATION: Stauffer Chemical Co., Richmond, CA 94804, has been issued experimental use permit No. 476-EUP-98. This permit allows the use of 4,000 pounds of the herbicide S-ethyl

diisobutylthiocarbamate alternate formula containing safener R-29148 on corn to evaluate control of weeds.

A total of 800 acres are involved; the program is authorized only in the States of Illinois, Indiana, Iowa, Kansas, Minnesota, Missouri, and Wisconsin. The experimental use permit is effective from March 15, 1980 to September 15, 1981. This permit is being issued with the limitation that all treated crops are to be destroyed or used for research purposes only.

Persons wishing to review the experimental use permit are referred to the designated Product Manager (PM), Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW., Washington, D.C. 20460. Inquiries regarding this permit should be directed to the contact persons given above. **CIBA-Geigy Corp. Amendment to
Experimental Use Permit for N-(2, 6-
Dimethylphenyl)-N-(Methoxyacetyl)-
Alanine Methyl Ester**

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has amended an experimental use permit issued to Ciba-Geigy Corp. for use of 1,543 pounds of the fungicide N-(2,6-dimethylphenyl)-N-(methoxyacetyl)-alanine methyl ester on potatoes to evaluate control of late blight and early blight by adding the State of Alabama to and removing the State of Iowa from the program.

FOR FURTHER INFORMATION CONTACT: Henry Jacoby, Product Manager (PM) 21, Rm. E-305 (TS-767), Office of Pesticide Programs, Environmental Protection Agency, 401 M Street, SW, Washington, DC 20460, (202-755-2562).

SUPPLEMENTARY INFORMATION: In the Federal Register on June 27, 1979 (44 FR 37553), information appeared pertaining to the issuance of an experimental use permit, No. 100-EUP-1, to Ciba-Geigy Corp., Greensboro, NC 27409, under provisions of the Federal Insecticide,

Fungicide, and Rodenticide Act. At the request of the company, that permit has been amended. The program is now authorized also in the State of Delaware; it is no longer authorized in the State of Iowa. All other conditions and limitations of the experimental use permit remain the same.

**Dow Chemical Co.; Experimental Use
Permit for Chlorpyrifos**

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has issued an experimental use permit to Dow Chemical U.S.A., for use of the insecticide chlorpyrifos on field corn to evaluate control of insects.

FOR FURTHER INFORMATION CONTACT: Charles Mitchell, Acting Product Manager (PM) 12, Room E-303 (TS-767), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. (202-426-2635).

SUPPLEMENTARY INFORMATION: Dow Chemical U.S.A., Midland, MI 48640, has been issued experimental use permit No. 464-EUP-58. This permit allows the use of the remaining supply of 4,660 pounds (4,720 pounds originally authorized) of the insecticide chlorpyrifos on field corn to evaluate control of insect pests; this use was authorized in a previous experimental use permit.

A total of 1,800 acres are involved; the program is authorized only in the States of Alabama, Illinois, Indiana, Iowa, Kansas, Kentucky, Minnesota, Missouri, Nebraska, Ohio, Texas, and Wisconsin. This experimental use permit is effective from April 1, 1980 to April 1, 1981.

A permanent tolerance for residues of the active ingredient in or on field corn has been established (40 CFR 180.342). However, this permit is being issued with the limitation that all treated crops are to be destroyed or used for research purposes only because residues are expected to exceed established tolerances.

Persons wishing to review the experimental use permit are referred to the designated Product Manager (PM),

Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street, S.W., Washington, DC 20460. Inquiries regarding this permit should be directed to the contact person given above. It is suggested that interested persons call before visiting the EPA Headquarters Office so that the appropriate file may be made conveniently available for review purposes. The files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday, excluding holidays.

FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA-614-DR]

Arizona; Amendment to Notice of Major Disaster Declaration

AGENCY: Federal Emergency Management Agency.

ACTION: Notice.

SUMMARY: This Notice amends the Notice of a major disaster for the State of Arizona (FEMA-614-DR), dated February 19, 1980, and related determinations.

DATED: March 10, 1980.

FOR FURTHER INFORMATION CONTACT:

Sewall H. E. Johnson, Disaster Response and Recovery, Federal Emergency Management Agency, Washington, D.C. 20472 (202) 634-7845.

NOTICE: The Notice of a major disaster for the State of Arizona dated February 19, 1980, is hereby amended to include the following areas among those areas determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of February 19, 1980.

The following for Individual Assistance and Public Assistance: Mohave County, Fort Apache Indian Reservation, San Carlos Apache Indian Reservation.

(Catalog of Federal Domestic Assistance No. 14.701, Disaster Assistance.)

William H. Wilcox,

Associate Director, Disaster Response and Recovery, Federal Emergency Management Agency.

BILLING CODE 6718-02-M

FEDERAL MARITIME COMMISSION

Independent Ocean Freight Forwarder License Applicants

Notice is hereby given that the following applicants have filed with the Federal Maritime Commission applications for licenses as independent ocean freight forwarders pursuant to section 44(a) of the Shipping Act, 1916 (75 Stat. 522 and 46 U.S.C. 841(b)).

Persons knowing of any reason why any of the following applicants should not receive a license are requested to communicate with the Director, Bureau of Certification and Licensing, Federal Maritime Commission, Washington, D.C. 20573.

Genuine International Freight Forwarders, Inc., 17 Battery Place, Suite 300, New York, NY 10004. Officers: Hans-George Reintgen, President, Carol Reintgen, Secretary.

Garden State Maritime Services, Inc., 201 Bay Avenue, Elizabeth, NJ 07201. Officers: Wm. F. Carthy, Pres./Treasurer, Gerard Marino, Vice President/Secretary, Lancelot W. Burns, Vice President Operations.

S.C.M. International Inc., 7277 N.W. 12 Street, Miami, FL 33126. Officers: Efraim E. Serrano, President, Guillermo G. Marmol, Treasurer.

Kenneth M. Williams & Associates, Inc., Suite 22, World Trade Center, Baltimore, MD 21202. Officers: Kenneth M. Williams, President/Treasurer, David M. Moore, Vice President/Secretary.

Denis Seiglie, P.O. Box 3841, Coral Gables, FL 33134.

Plazas International Company (Carlos E. Plazas, d.b.a.), 1873 West 29th Street, Long Beach, CA 90810.

Fred Pelsinger, 15810 Laurel Heights Drive, Houston, TX 77084.

WTS of Houston, Inc., 2050 North Loop West, Suite 226-S, Houston, TX 77018. Officers: James Shaw, President/Director, Fred C. Leatherland, Chairman of the Board, Phillip E. Boyd, Secretary/Treasurer.

Jiffco Systems, Inc., 17795 J.F.K. Blvd., Suite 226-S, Houston, TX 77025. Officers: Harold R. Jones, Vice President/Treasurer, L. Ivonne Jones, President.

Anthony C. Pfister, 2324 Carol Sue Avenue, Gretna, LA 70053.

Houston Expeditors (Mary U. Upton, d.b.a.), 8144 Niles, Houston, TX 77017.

Volga Forwarders Service Inc., 500 SW 7th Street, 2nd Floor, Miami, FL 77056. Officers: Orlando A. Arencibia, President/Director, Maria J. Arencibia, Sec./Treas./Director.

Summit Forwarding Corporation, 3000 S. Post Oak Road, #1460, Houston, TX 77056.

Officers: James A. Swann, President, David Hsiang, Sec./Treasurer.

Herbert Hall Pierce, 3805 Cypress Shores Drive, North, Route 4, Box 142, Mobile, AL 36609.

European Ocean Freight Inc., 17 Battery Place, New York, NY 10004. Officer: Uwe F. Kordts, President/Treasurer.

Gayo International Forwarders, Inc., 1820 S.W. 127 Avenue, Miami, FL 33175. Officer: Gilda R. Gayo, President (sole officer).

Dated: March 13, 1980.

By the Federal Maritime Commission.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM

Ameribanc, Inc.; Acquisition of Bank

Ameribanc, Inc., St. Joseph, Missouri, has applied for the Board's approval under § 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of First National Bank of Centralia, Centralia, Missouri. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than April 10, 1980. Any comment on an application that requests a hearing must include a statement of why a written presentation

would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, March 10, 1980.

William N. McDonough,
Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Bank Holding Companies; Notice of Proposed De Novo Nonbank Activities

The bank holding company listed in this notice has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and section 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to the application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on an application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated for that application. Comments and requests for hearings should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than April 11, 1980.

A. Federal Reserve Bank of New York (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

MANUFACTURERS HANOVER CORPORATION, New York, New York (financing, loan servicing and real and personal property leasing; Alabama and

Tennessee); to engage, through a direct subsidiary, Manufacturers Hanover Leasing Corporation in leasing real and personal property on a full payout basis in accordance with the provisions of regulations promulgated by the Board of Governors of the Federal Reserve System and acting as agent, broker or advisor in leasing of such property and making and acquiring for its own account or for the account of others, loans and other extensions of credit with respect to such property and servicing such leases, loans or other extensions of credit. These activities will generally involve substantial dollar amounts and property used for commercial/business purposes by the lessee/borrower concerned and will be conducted from an office located in Nashville, Tennessee serving Tennessee and the northern half of Alabama.

B. Other Federal Reserve Banks: None.

Board of Governors of the Federal Reserve System, March 11, 1980.

William N. McDonough,
Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Kiester Investments, Inc.; Proposed General Insurance Activities

Kiester Investments, Inc., Kiester, Minnesota, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843 (c)(8) and 225.4(b)(2)) of the Board's Regulation Y (12 CFR CFR 225.4(b)(2)), for permission to retain voting shares of Kiester Insurance Agency, Kiester, Minnesota.

Applicant states that the proposed subsidiary would engage in the activities of acting as an agent or broker for general insurance services sold in a community not exceeding 5,000. These activities would be performed from offices of applicant's subsidiary in Kiester, Minnesota, and the geographic area to be served is Kiester, Minnesota and its surrounding area. Such activities have been specified by the Board in section 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of section 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests,

or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Minneapolis.

Any views or requests for hearing should be submitted in writing and received by the Reserve Bank, not later than April 10, 1980.

Board of Governors of the Federal Reserve System, March 10, 1980.

William N. McDonough,
Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Southern Bancorporation, Inc.; Proposed Acquisition of Citizens Finance Service

Southern Bancorporation, Inc., Greenville, South Carolina, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire the assets of Citizens Finance Service, Moultrie, Georgia.

Applicant proposes to engage in the activities of a small loan company, making direct loans and acting as agent for the sale of credit life, accident, and health insurance written in connection with such loans. These activities would be performed from offices of Applicant's indirect subsidiary World Finance Corporation of Georgia in Moultrie, Georgia, and the geographic area to be served includes the city of Moultrie and the immediate surrounding area. Such activities have been specified by the Board in section 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of section 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any

request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Richmond.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than April 11, 1980.

Board of Governors of the Federal Reserve System, March 11, 1980.

William N. McDonough,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

First National Corp. of El Reno; Proposed De Novo Subsidiary, First Air Courier, Inc.

First National Corporation of El Reno, El Reno, Oklahoma, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR § 225.4(b)(2)), for permission to establish a *de novo* subsidiary, First Air Courier, Inc., El Reno, Oklahoma.

Applicant states that the proposed subsidiary would transport time critical materials of limited intrinsic value of the types utilized by banks and bank-related firms in performing their business activities. These activities would be performed from an office of Applicant's Subsidiary in El Reno, Oklahoma, and the geographic areas to be served are the State of Oklahoma, northern Texas, southern Kansas and southwestern Missouri. Such activities have been specified by the Board in § 22.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than April 10, 1980.

Board of Governors of the Federal Reserve System, March 10, 1980.

William N. McDonough,

Assistant Secretary of the Board.

[FR Doc. 80-8217 Filed 3-17-80; 8:45 am]

BILLING CODE 6210-01-M

Manufacturers National Corp.; Proposed Acquisition of Manucor Insurance Corp.

Manufacturers National Corporation, Detroit, Michigan, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire voting shares of Manucor Insurance Corporation, Phoenix, Arizona.

Applicant states that the proposed subsidiary would engage in underwriting, as a reinsurer, credit life, credit accident and health insurance directly related to extensions of credit by banking subsidiaries of Applicant. These activities would be performed from offices of Applicant's subsidiaries in Detroit, Livonia, Southfield, St. Clair Shores, Novi, Bay City, Saline and Coopersville, Michigan, and the geographic areas to be served are Wayne, Oakland, Macomb and Bay Counties, and the cities of Livonia, Southfield, St. Clair Shores, Novi, Saline and adjacent townships, Coopersville, Comstock Park, Marne, Fruitport and Muskegon all in the State of Michigan. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago.

Any views or requests for hearing should be submitted in writing and received by the Reserve Bank, not later than April 14, 1980.

Board of Governors of the Federal Reserve System, March 12, 1980.

 BILLING CODE 6210-01-M

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. 80N-0025]

Infant Formulas; Interim Guidelines for Nutrient Composition; Notice to Manufacturers, Packers, and Distributors

AGENCY: Food and Drug Administration.
 ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing in this notice a statement of policy concerning interim guidelines for the nutrient composition and nutrient levels in infant formulas. The recommendations on standards for nutrient levels in infant formulas made by the Committee on Nutrition of the American Academy of Pediatrics in 1976 should be followed by infant formula manufacturers as interim guidelines until revision in the existing infant formula nutrient composition regulation (21 CFR 105.65) is completed.

FOR FURTHER INFORMATION CONTACT: Joginder Chopra, Bureau of Foods (HFF-203), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, DC 20204, 202-245-1561.

SUPPLEMENTARY INFORMATION: Recently, a major manufacturer of soy protein-based infant formulas reformulated its products which resulted in an inadequate level of chlorine (as choride ion), an essential nutrient. In late July and early August 1979, a number of cases of hypochloremic metabolic alkalosis, an abnormal condition generally characterized in infants by a failure to thrive, were found by several pediatricians to be associated with prolonged exclusive use of the manufacturer's chloride-deficient soy protein-based infant formulas.

In an attempt to prevent the recurrence of this type of problem, FDA announced in the January 29, 1980 Federal Register (45 FR 6702) a public meeting held on February 19, 1980 and a public hearing held on March 12, 1980 to discuss, among other things, the adequacy of the nutrient composition of

infant formulas and to obtain scientific justification for changes in the current regulation, Title 21, Code of Federal Regulations, § 105.65 (21 CFR 105.65), which governs the nutrient labeling of infant formulas. Testimony and other information derived from these proceedings are being used to assist FDA in revising the existing nutrient composition labeling regulation.

The current regulation on nutrient composition of formulas (21 CFR 105.65) was issued in 1971 and was patterned after the proposed standards published in 1967 by the Committee on Nutrition of the American Academy of Pediatrics (CON/AAP) ("Proposed Changes in

Food and Drug Administration Regulations Concerning Formula Products and Vitamin-Mineral Dietary Supplements for Infants," *Pediatrics* 40:916-922, 1967). Nine years later, CON/AAP revised and expanded its recommendations on standards for infant formulas in a statement titled "Commentary on Breast-Feeding and Infant Formulas, Including Proposed Standards for Formulas" (*Pediatrics* 57:278-285, 1976). Table I from that statement, which specifies recommended nutrient levels for infant formula products, is reproduced below with the permission of the American Academy of Pediatrics.

Table 1.—Nutrient Levels of Infant Formulas (per 100 Kcal)

Nutrient	FDA 1971 regulations: Minimum	CON 1976 recommendations:	
		Minimum	Maximum
Protein (gm).....	1.8	1.8	4.5
Fat:			
(gm).....	1.7	3.3	6.0
(% cal).....	15.0	30.0	54.0
Essential fatty acids (linoleate):			
(% cal).....	2.0	3.0	
(mg).....	222.0	300.0	
Vitamins:			
A (IU).....	250.0	250.0 (75 µg) ¹	750.0 (225 µg). ¹
D (IU).....	40.0	40.0	100.0
K (µg).....		4.0	
E (IU).....	0.3	0.3 (with 0.7 IU/gm linoleic acid).	
C (ascorbic acid) (mg).....	7.8	8.0	
B ₁ (thiamine) (µg).....	25.0	40.0	
B ₂ (riboflavin) (µg).....	60.0	60.0	
B ₃ (pyridoxine) (µg).....	35.0	35.0 (with 15 µg/gm of protein in formula).	
B ₆ (µg).....	0.15	0.15	
Niacin:			
(µg).....		250.0	
(µg equiv).....	800.0		
Folic acid (µg).....	4.0	4.0	
Pantothenic acid (µg).....	300.0	300.0	
Biotin (µg).....		1.5	
Choline (mg).....		7.0	
Inositol (mg).....		4.0	
Minerals:			
Calcium (mg).....	250.0	250.0	
Phosphorus (mg).....	25.0	25.0	
Magnesium (mg).....	6.0	6.0	
Iron (mg).....	1.0	0.15	
Iodine (µg).....	5.0	5.0	
Zinc (mg).....		0.5	
Copper (µg).....	60.0	60.0	
Manganese (µg).....		5.0	
Sodium (mg).....		20.0 (6 mEq) ²	60.0 (17 mEq). ³
Potassium (mg).....		80.0 (14 mEq) ²	200.0 (34 mEq). ³
Chloride (mg).....		55.0 (11 mEq) ²	150.0 (29 mEq). ³

¹ Retinol equivalents.

² Calcium to phosphorus ratio must be no less than 1.1 nor more than 2.0.

³ Milliequivalent for 670 kcal/liter of formula.

Because the list of essential nutrients in the current regulation, § 105.65, is not as comprehensive as that given above, FDA is recommending to manufacturers and packers of infant formulas that the additional information contained in the CON/AAP table above that is not addressed in § 105.65 be used as interim

guidelines for nutrients in infant formulas until a revised regulation becomes effective.

FDA is now preparing a proposal for revision of § 105.65 using the most current recommendations from CON/AAP. All information received from the American Academy of Pediatrics on this

issue is on file with the FDA Hearing Clerk under Docket No. 80N-0025. However, because there may be some changes made in the 1976 standards for nutrient levels, FDA is recommending, as a statement of policy, that the 1976 recommendations of CON/AAP be used as interim guidelines. Based on recent analytical data compiled by FDA on the nutrient content of a number of formulations that constitute the greater part of the U.S. infant formula market, the agency believes that the major infant formula manufacturers are currently utilizing the 1976 recommendations of CON/AAP. FDA believes if the infant formula industry strictly adheres to the 1976 CON/AAP recommendations, they will reasonably ensure the nutritional safety and adequacy of their products.

Dated: March 11, 1980.

Jere E. Goyan,

Commissioner of Food and Drugs.

[FR Doc. 80-8039 Filed 3-12-80; 11:07 am]

BILLING CODE 4110-03-M

Consumer Participation Meeting

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces a forthcoming consumer exchange meeting to be chaired by James E. Anderson, District Director, Dallas District Office, Dallas, TX.

DATE: The meeting will be held at 9 a.m., Wednesday, April 23, 1980.

ADDRESS: The meeting will be held in the W.L.D. Glass Home Economics Bldg., 2404 North Grand, Tyler, TX.

FOR FURTHER INFORMATION CONTACT: Hazel L. Wallace, Consumer Affairs Officer, Food and Drug Administration, Department of Health, Education, and Welfare, 500 S. Ervay, Suite 470-B, Dallas, TX 75201, 214-767-5433.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is to encourage dialogue between consumers and FDA officials, to identify and set priorities for current and future health concerns, to enhance relationships between local consumers and FDA's Dallas District Office, and to contribute to the agency's policymaking decisions on vital issues.

Dated: March 10, 1980.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4110-03-M

Public Health Service

Food and Drug Administration; Statement of Organization, Functions, and Delegations of Authority

Part H, Chapter HF (Food and Drug Administration) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare (35 FR 3692 as amended most recently at 44 FR 73165, December 17, 1979) is amended to reflect organizational changes within the Bureau of Drugs. These changes include: (1) The retitling of the Office of Planning and Evaluation to the Office of Planning, Evaluation, and Management, and (2) the integration of all administrative and management support functions into the Office of Planning, Evaluation, and Management.

Section HF-B, Organization and Functions, is amended by deleting the entire paragraph (1-1-i) and substituting a new paragraph (1-1-i) reading as follows:

(1-1-i) *Office of Planning, Evaluation, and Management (HFG12)*. Advises and assists the Bureau Director and other key Bureau officials regarding strategic and operational planning, substantive program policy development, and resource management.

Provides advice and support to the Bureau Director and Deputy Director in the establishment of management and administrative policies and guidelines; assists in Bureau implementation.

Develops the Bureau's submission to the Agency annual Forward Plan. Develops and implements the Bureau's annual budget.

Identifies operational goals and evaluation measures for Bureau programs; develops and applies appropriate effectiveness measures to these programs.

Provides planning and evaluation consulting services to Bureau program and management officials.

Represents the Bureau in matters related to planning, evaluation, and management within FDA, and with other Federal agencies and the regulated industries.

Develops policy and provides technical and professional assistance to the Bureau contracts and grants programs, including the Bureau Contracts and Grants Review Committee.

Develops, in coordination with the Executive Director of Regional Operations (EDRO), surveillance and compliance programs for field implementation, including appropriate evaluation and reporting requirements.

Develops plans for the allocation of field resources and coordinates the implementation of the planned allocations with EDRO. Monitors the status of this implementation.

Develops and implements Bureau management programs and administrative services including employee development and training, committee management, general office services support activities, and extramural programs.

Serves as the principal advisor and coordinator to the Bureau Director and Deputy Director for the Bureau's personnel management, position allocation, financial management, contracts and grants, and field resources programs; develops and implements plans relating to these functions.

Advises the Bureau Director and Deputy Director on implementation of Bureau program management systems. Directs the operations of these systems, including coordination of goal-setting, performance review, and related resource utilization reporting systems.

Dated: March 11, 1980.

Patricia Roberts Harris,
Secretary.

BILLING CODE 4110-03-M

Health Resources Administration, Office of the Assistant Secretary for Health; Statement of Organization, Functions, and Delegations of Authority

Part H, Chapter HR (Health Resources Administration) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare (43 FR 39432, September 5, 1978, as amended most recently at 44 FR 20306, April 4, 1979), is amended to reflect: (1) A revised mission statement for the Health Resources Administration, (2) the retitling of the Bureau of Health Facilities Financing, Compliance, and Conversion; the Bureau of Health Manpower; and the Division of Manpower Training Support and the Division of Manpower Analysis within the Bureau of Health Manpower; and (3) title changes in the *order of succession* statement.

Part H, Chapter HA (Office of the Assistant Secretary for Health) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare (38 FR 18571, July 12, 1973, as amended most recently at 44 FR 65190, November 9, 1979) is amended to change the title and revise the functional statement of the Division of Manpower

Management and Planning within the Office of Organization and Management Systems, Office of Management, Office of the Assistant Secretary for Health.

Health Resources Administration

1. *Section HR-A mission* is deleted in its entirety and replaced with the following:

Section HR-A mission. The mission of the Health Resources Administration (HRA) is to identify health care resource problems through a careful assessment of the health care system; recommend changes to improve that system in terms of improving access to health care, improving continuity of health care, assuring reasonable costs of health care, assuring equal access to health education, and enhancing the Federal, State, local, and private partnership; and stimulate priority changes through program action to improve both the health care system and individual health status.

To carry out this mission, HRA administers programs which: contribute to better use of the Nation's health resources through promulgation of National Guidelines on Health Planning and other major policies; direct and support a nationwide system of State and local planning agencies; develop new approaches to analyze and influence health capital expenditures; provide financial aid and technical assistance for modernization and replacement of needed health care facilities; and provide leadership to improve the distribution, supply, use and quality of the Nation's health personnel through analytical studies, financial support, and technical assistance.

2. *Section HR-B organization and functions.*—a. Change the organizational title of the *Bureau of Health Facilities Financing, Compliance, and Conversion (HRF)* to the *Bureau of Health Facilities (HRF)* and all references to the Bureau of Health Facilities Financing, Compliance, and Conversion to read "Bureau of Health Facilities."

b. Change the organizational title of the *Bureau of Health Manpower (HRM)* to the *Bureau of Health Professions (HRM)*; the *Division of Manpower Training Support (HRM6)* to the *Division of Health Professions Training Support (HRM6)*; and the *Division of Manpower Analysis (HRM7)* to the *Division of Health Professions Analysis (HRM7)*. Change all references to the Bureau of Health Manpower to read "Bureau of Health Professions" and to the Division of Manpower Analysis to read "Division of Health Professions Analysis."

3. *Section HR-C order of succession.*—Change item (3) to read "Director, Bureau of Health Professions" and item (5) to read "Director, Bureau of Health Facilities."

Office of the Assistant Secretary for Health

Section HA-20 Functions is amended as follows:

Under the heading *Office of Organization and Management Systems (HAU2)*, delete the functional statement for the *Division of Manpower Management and Planning (HAU23)* and substitute the following:

Division of Management Planning and Quantitative Assessment (HAU23).—(1) Provides advice and assistance in the design and installation of management planning and control systems. (2) Develops standards and policy for the development of quantitative staffing systems. (3) Administers the system for justifying staffing authorizations by PHS agencies, and periodically evaluates those systems for conformance to PHS policies. (4) As an integral part of the PHS budget review process, participates in the review of all requests for personnel resources and prepares recommendations on appropriate position levels to be supported by ASH's request to the Department. (5) Participates in the development of systems and procedures used in preparation of the ZBB for PHS. (6) Conducts staffing assessment studies utilizing quantitative analysis and/or work measurement techniques. (7) Encourages and improves the efficient and effective use of information systems in PHS staff offices and agencies by: (a) providing criteria and guidance for the review and evaluation of existing and planned information system applications; (b) reviewing proposals for information system consultant contracts for broad management impact; and (c) assuring complete and accurate measurement of costs and benefits associated with information systems. (8) Coordinates the functioning of the Legislative Planning Implementation System internal to the Office of Management.

Dated: March 12, 1980.

Patricia Roberts Harris,
Secretary.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Environmental Quality

[Docket No. NI-13]

Intended Environmental Impact Statement for the Cheyenne Mountain Ranch Housing Development, Colo.

The Department of Housing and Urban Development gives notice that an Environmental Impact Statement (EIS) is intended to be prepared for the following project under HUD programs as described in the appendix to this Notice: Cheyenne Mountain Ranch Housing Development, Colorado Springs, Colorado. This Notice is required by the Council on Environmental Quality under its rules (40 CFR Part 1500).

Interested individuals, governmental agencies, and private organizations are invited to submit information and comments concerning the project to the specific person indicated.

Particularly solicited is information on reports or other environmental studies planned or completed in the project area, issues and data which the EIS should consider, recommended mitigating measures and alternatives, and major issues associated with the proposed project. Federal agencies having jurisdiction by law, special expertise or other special interests should report their interests and indicate their readiness to aid the EIS effort as a "cooperating agency."

Issued at Washington, D.C., March 13, 1980.

Richard H. Broun,

Director, Office of Environmental Quality.

EIS on Cheyenne Mountain Ranch Housing Development, Colorado Springs, Colo.

The HUD Area Office in Denver, Colorado intends to prepare an EIS on Cheyenne Mountain Ranch, described below, and requests information and comments for consideration in the EIS.

Description. Approximately 8,500 dwelling units (single and multi-family) will be constructed in the southwest section of Colorado Springs, Colorado. Construction will include streets, housing, commercial, industrial, park, open space, and school facilities.

Need. An EIS is required because the total number of dwelling units exceeds a HUD-established threshold.

Alternatives. The alternatives are HUD participation in the development as proposed by the builder, participation in the development provided that HUD-required modifications are implemented by the builder, or reject participation in the development.

Scoping: A scoping meeting will not be held. HUD will request input from the appropriate government agencies and service organizations. This notice will also appear in a paper of local circulation in Colorado Springs, Colorado.

Comments. Comments should be forwarded by April 14, 1980, to: HUD, Region VIII, Attention: Carroll F. Goodwin, Area Office Environmental Clearance Officer, 1405 Curtis Street, Executive Tower Inn, Denver, Colorado 80202, or call (303) 837-3102.

BILLING CODE 4310-03-M

Water and Power Resources Service

Irrigation Water Service Contract Negotiations; Intent To Negotiate for Irrigation Water Service

The Department of the Interior, through the Water and Power Resources Service, intends to begin negotiations with John and Lois Rumney, Cascade, Montana, and other potential contractors for long-term irrigation water service from Canyon Ferry Reservoir, a storage feature of Canyon Ferry Unit, Pick-Sloan Missouri Basin Program. The proposed contracts will be drafted pursuant to section 9(e) of the

Reclamation Project Act of August 4, 1939 (53 Stat. 1187).

The Rumneys have requested that irrigation water service be provided to 130 acres of land adjacent to the Missouri River, near Cascade, which is approximately 60 river miles below Canyon Ferry Dam. In this case, water would be delivered at the outlet works of Canyon Ferry Dam. All costs of diverting and delivering water to the land would be the responsibility of the contractors.

Because of the time and cost of processing water service contract applications, it is to the advantage of the United States to process several applications for contracts at one time. Therefore, other parties interested in obtaining water service from Canyon Ferry Reservoir in 1981 are asked to make applications by September 30, 1980.

Canyon Ferry Unit, consisting of Canyon Ferry Dam and Reservoir and associated hydroelectric, permanent operating, and recreational facilities, was constructed as part of the Pick-Sloan Missouri Basin Program. Total storage capacity of the reservoir is about 2 million acre-feet with active conservation space of 713,000 acre-feet and joint conservation and flood control space of 799,000 acre-feet.

Any new use of Missouri River water between Canyon Ferry Dam and Great Falls, Montana, will usually affect the existing rights of the Montana Power Company (MPC). Therefore, MPC usually objects to the issuance of new water use permits by the State of Montana, in this reach of the river. For new uses of water above Canyon Ferry Reservoir, the existing rights of both Water and Power Resources Service and MPC are affected. Objections to the issuance of new water use permits above Canyon Ferry Reservoir are usually filed by both the Service and MPC.

Execution of water service contracts for Canyon Ferry storage would satisfy the objections of the Service and MPC for all water use permit applications below Canyon Ferry Dam and for many permit applications above the reservoir. Meetings between the Service and the Montana Department of Natural Resources and Conservation are being scheduled to discuss the establishment of procedures that will satisfy State water use permit requirements.

All meetings and/or negotiating sessions, where terms and conditions of proposed contracts are to be discussed, are open to the public. Advance notice of such meetings or sessions will be furnished on written request identifying a specific contract of interest. Requests

for meeting notices on water service contracts should be addressed to the Regional Director, Water and Power Resources Service, Attention Code 440, P.O. Box 2553, Billings, Montana 59103.

A proposed draft contract will be made available for public review following completion of contract negotiations. Thereafter, a public hearing may be held, if necessary, and a 30-day period will be allowed for receipt of written comments from the public.

For further information on proposed water service contractual arrangements, please contact William E. Crosby, Chief, Economics and Repayment Branch, Division of Water and Land, at the address stated above or by telephone (406) 657-6413.

Dated: March 10, 1980.

Clifford I. Barrett,

Assistant Commissioner of Water and Power Resources.

[FR Doc. 80-8020 Filed 3-17-80; 8:45 am]

BILLING CODE 4310-09-M

INTERSTATE COMMERCE COMMISSION

Permanent Authority Decisions

The following applications, filed on or after March 1, 1979, are governed by Special Rule 247 of the Commission's *Rules of Practice* (49 CFR 1100.247). These rules provide, among other things, that a petition for intervention, either in support of or in opposition to the granting of an application, must be filed with the Commission within 30 days after the date notice of the application is published in the *Federal Register*. Protests (such as were allowed to filing prior to March 1, 1979) will be rejected. A petition for intervention without leave must comply with Rule 247(k) which requires petitioner to demonstrate that it (1) holds operating authority permitting performance of any of the service which the applicant seeks authority to perform, (2) has the necessary equipment and facilities for performing that service, and (3) has performed service within the scope of the application either (a) for those supporting the application, or, (b) where the service is not limited to the facilities of particular shippers, from and to, or between, any of the involved points.

Persons unable to intervene under Rule 247(k) may file a petition for leave to intervene under Rule 247(l) setting forth the specific grounds upon which it is made, including a detailed statement of petitioner's interest, the particular facts, matters, and things relied upon, including the extent, if any, to which petitioner (a) has solicited the traffic or

business of those supporting the application, or, (b) where the identity of those supporting the application is not included in the published application notice, has solicited traffic or business identical to any part of that sought by applicant within the affected marketplace. The Commission will also consider (a) the nature and extent of the property, financial, or other interest of the petitioner, (b) the effect of the decision which may be rendered upon petitioner's interest, (c) the availability of other means by which the petitioner's interest might be protected, (d) the extent to which petitioner's interest will be represented by other parties, (e) the extent to which petitioner's participation may reasonably be expected to assist in the development of a sound record, and (f) the extent to which participation by the petitioner would broaden the issues or delay the proceeding.

Petitions not in reasonable compliance with the requirements of the rule may be rejected. An original and one copy of the petition to intervene shall be filed with the Commission indicating the specific rule under which the petition to intervene is being filed, and a copy shall be served concurrently upon applicant's representative, or upon applicant if no representative is named.

Section 247(f) provides, in part, that an applicant which does not intend to timely prosecute its application shall promptly request that it be dismissed, and that failure to prosecute an application under the procedures of the Commission will result in its dismissal.

If an applicant has introduced rates as an issue it is noted. Upon request, an applicant must provide a copy of the tentative rate schedule to any protestant.

Further processing steps will be by Commission notice, decision, or letter which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication.*

Any authority granted may reflect administrative acceptable restrictive amendments to the service proposed below. Some of the applications may have been modified to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminarily, that each common carrier applicant has demonstrated that its proposed service is required by the present and future public convenience

and necessity, and that each contract carrier applicant qualifies as a contract carrier and its proposed contract carrier service will be consistent with the public interest and the transportation policy of 49 U.S.C. 10101. Each applicant is fit, willing, and able properly to perform the service proposed and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulation. Except where specifically noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In those proceedings containing a statement or note that dual operations are or may be involved we find, preliminarily and in the absence of the issue being raised by a petitioner, that the proposed dual operations are consistent with the public interest and the transportation policy of 49 U.S.C. 10101 subject to the right of the Commission, which is expressly reserved, to impose such terms, conditions or limitations as it finds necessary to insure that applicant's operations shall conform to the provisions of 49 U.S.C. 10930(a) (formerly section 210 of the Interstate Commerce Act).

In the absence of legally sufficient petitioners for intervention, filed on or before April 16, 1980 (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notification of effectiveness of the decision-notice. To the extent that the authority sought below may duplicate an applicant's other authority, such duplication shall be construed as conferring only a single operating right.

Applicants must comply with all specific conditions set forth in the following decision-notices on or before April 16, 1980, or the application shall stand denied.

Note.—All applications are for authority to operate as a common carrier, by motor vehicles, in interstate or foreign commerce, over irregular routes, except as otherwise noted.

[Volume No. 11]

Decided: March 4, 1980.

By the Commission, Review Board Number 1, Members Carleton, Joyce and Jones.

MC 531 (Sub-429F), filed October 30, 1979. Applicant: YOUNGER BROTHERS, INC., 4904 Griggs Road, P.O. Box 14048, Houston, TX 77021. Representative: Wray E. Hughes (same address as applicant). Transporting

liquid chemicals, in bulk, in tank vehicles, from the facilities of Shell Oil/Shell Chemical, at or near Norco, LA, to points in AL, FL, GA, KS, KY, MO, NC, TN, TX, and WV. (Hearing site: New Orleans, LA or Houston, TX.)

MC 2900 (Sub-403F), filed October 15, 1979. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Rd., P.O. Box 2408-R, Jacksonville, FL 32203. Representative: Paul Dixon (same address as applicant). Transporting (1) *sugar*, in containers or in trailers, having an immediately prior or subsequent movement by water, and (2) *empty containers or trailers*, between Savannah, GA, and Jacksonville, FL. (Hearing site: Jacksonville, FL or Atlanta, GA.)

Note.—Common control may be involved.

MC 4080 (Sub-2F), filed October 23, 1979. Applicant: BRICK HAULERS, INC., 403 Holland Lane, Alexandria, VA 22313. Representative: Francis J. Ortman, 7101 Wisconsin Ave., Suite 605, Washington, D.C. 20014. *Contract carrier* transporting *brick, cinder block, and mortar* (except in bulk), from points in Washington County, MD, and Berks County, PA, to Alexandria, VA, under continuing contract(s) with United Materials & Services, Inc., of Vienna, VA. (Hearing site: Washington, DC.)

MC 4941 (Sub-78F), filed October 15, 1979. Applicant: QUINN FREIGHT LINES, INC., 1093 North Montello St., Brockton, MA 02403. Representative: Russell S. Callahan (same address as applicant). Over regular routes transporting *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring the use of special equipment), serving the facilities of Zayre Corp., at Madawaska and Presque Isle, ME as off-route points in connection with applicant's otherwise authorized regular-route operations, restricted to the transportation of traffic originating at or destined to the named facilities. (Hearing site: Boston, MA or Washington, DC.)

MC 6801 (Sub-11F), filed October 22, 1979. Applicant: G. H. HARNUM, INC., 867 Woburn St., Wilmington, MA 01887. Representative: Wesley S. Chused, 15 Court Square, Boston, MA 02108. Transporting *machinery, machinery parts, and machinery accessories*, between Boston and Worcester, MA, New Haven, CT, Nottingham, NH, and Spartanburg, SC, on the one hand, and on the other, points in the United States (except AK and HI). (Hearing site: Boston, MA.)

MC 7840 (Sub-20F), filed October 19, 1979. Applicant: ST. LAWRENCE FREIGHTWAYS, INC., 650 Cooper St., Watertown, NY 13601. Representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh Street, NW., Washington, DC 20001. Transporting (1) *paper and paper products*; and (2) *materials, equipment and supplies*, used in the manufacture and shipping of paper and paper products, between Lockport and Taylorville, IL, Woodland, ME, St. Louis, MO, Thomson and Warwick, NY, Hamlet, NC, Reading, PA, Richmond, VA, Tomahawk, WI, and facilities of Georgia Pacific Corporation at or near Guilderland Center, NY, on the one hand, and, on the other, points in and east of MN, IA, MO, AR, and LA. (Hearing site: Hartford, CT.)

MC 29910 (Sub-238F), filed October 24, 1979. Applicant: ARKANSAS-BEST FREIGHT SYSTEM, INC., 301 South 11th St., Fort Smith, AR 72901. Representative: Don A. Smith, P.O. Box 43, Fort Smith, AR 72902. Over regular routes transporting *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the facilities of Colt Industries, Trent Tube Division, at or near East Troy, WI, as an off-route point in connection with applicant's authorized regular-route service at Milwaukee, WI. (Hearing site: Milwaukee, WI, or Chicago, IL.)

MC 29910 (Sub-240F), filed October 15, 1979. Applicant: ARKANSAS-BEST FREIGHT SYSTEM, INC., 301 South 11th St., Fort Smith, AR 72901. Representative: Don A. Smith, P.O. Box 43, 510 North Greenwood Ave., Fort Smith, AR 72902. Transporting *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment) serving the facilities of Siemens Allis Company, at or near Wendell, NC, as an off-route point in connection with carrier's authorized regular route operations at Raleigh, NC. Applicant intends to tack this authority. (Hearing site: Raleigh, NC or Washington, DC.)

MC 35320 (Sub-359F), filed October 15, 1979. Applicant: T.I.M.E.-DC, Inc., 2598 74th St., P.O. Box 2550, Lubbock, TX 79408. Representative: Kenneth G. Thomas (same address as applicant). Transporting *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), from the facilities of

the General Electric Company, at or near Fort Smith, AR to all points in the United States (except Alaska and Hawaii). (Hearing site: Memphis, TN or Washington, DC.)

MC 44801 (Sub-13F), filed October 15, 1979. Applicant: DICK HARRIS & SON TRUCKING CO., INC., P.O. Box 10277, Lynchburg, VA 24506. Representative: Morton E. Kiel, Suite 1832, 2 World Trade Center, New York, NY 10048. Transporting *printed matter and printing paper*, between all points in the United States (except AK and HI) restricted to traffic from or to facilities of Meredith/Burda, Inc. and Meredith Printing Group of Meredith Corp. (Hearing site: Washington, DC.)

MC 53841 (Sub-37F), filed October 15, 1979. Applicant: W. H. CHRISTIE & SONS, INC., P.O. Box 517, East State St., Knox, PA 16232. Representative: John A. Pillar, 1500 Bank Tower, 307 Fourth Ave., Pittsburgh, PA 15222. Transporting *iron, copper, or tin powder* (except in bulk) from Riverton and Carteret, NJ and Gallatin, TN, to Columbus, OH. (Hearing site: Pittsburgh, PA or Columbus, OH.)

MC 59150 (Sub-168F), filed October 22, 1979. Applicant: PLOOF TRUCK LINES, INC., 1414 Lindrose St., Jacksonville, FL 32206. Representative: Martin Sack, Jr., 1754 Gulf Life Tower, Jacksonville, FL 32207. Transporting *lumber* from points in FL to points in AL, GA, LA, MS, NC, SC, TN, and VA. (Hearing site: Jacksonville, FL.)

MC 63871 (Sub-7F), filed October 12, 1979. Applicant: ANDREWS & PIERCE, INC., 1431 Bedford St., North Abington, MA 02351. Representative: Joseph M. Klements, 84 State St., Boston, MA 02109. Transporting (1) *insulation* and (2) *materials and supplies* used in the manufacture of insulation between the facilities of Bay State Gas Company in Lawrence, MA, on the one hand, and, on the other, points in ME, NH, VT, CT, RI and NY. (Hearing site: Boston, MA.)

MC 68100 (Sub-40F), filed October 12, 1979. Applicant: D. P. BONHAM TRANSFER, INC., P.O. Drawer G, Bartlesville, OK 74003. Representative: Larry E. Gregg, 641 Harrison St., Topeka, KS 66603. Transporting (1) *prefabricated buildings and building parts*, from the facilities of Sonoco Buildings located at or near Chetopa, KS and Waukesha, WI, to points in AL, AR, CO, FL, GA, IA, IL, IN, KS, KY, LA, MI, MO, MS, NE, ND, NM, OH, OK, SD, TN, TX, WI, and WY, and (2) *materials and supplies* used in the manufacture of commodities named in (1) above, in the reverse direction. (Hearing site: Tulsa, OK or Kansas City, MO.)

MC 78400 (Sub-78F), filed October 22, 1979. Applicant: BEAUFORT TRANSFER COMPANY, a corporation, P.O. Box 151, Gerald, MO 63037. Representative: Ernest A. Brooks II, 1301 Ambassador Bldg., St. Louis, MO 63101. MC-146716 (Sub-2F), filed June 28, 1979. Applicant: LEVELLAND

TRUCKING CO., P.O. Box 1375, Levelland, TX 79336. Representative: Richard Hubbert, P.O. Box 10236, Lubbock, TX 79408. Transporting (1) *dry fertilizer*, from Littlefield, TX, to Albuquerque, Lovington, and Deming, NM; and (2) *dry fertilizer*, in bulk, from Carlsbad, NM, to points in TX. (Hearing Site: Lubbock, TX, or Dallas, TX.)

MC 146987 (Sub-2F), filed June 29, 1979. Applicant: EARL WEVER, Route 2, Box 59, Madill, OK 73446. Representative: G. Timothy Armstrong, 200 N. Choctaw (P.O. Box 24), El Reno, OK 73036. Transporting: *meats, meat products, meat by-products, and articles distributed by meat-packing houses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk) from Detroit and Quincy, MI, Chicago, IL, Council Bluffs, Dubuque and Sioux City, IA, Omaha, NE, Oklahoma City, OK, St. Joseph and Kansas City, MO, and Wichita, KS, to Ft. Smith, Little Rock and West Memphis, AR, Los Angeles and San Francisco, CA, Oklahoma City and Tulsa, OK; Portland, OR, Dallas, Ft. Worth and Houston, TX, Seattle, WA, Detroit, MI, Cleveland, OH, Buffalo and New York, NY, Philadelphia, PA, Boston, MA, and Baltimore, MD. (Hearing site: Oklahoma City, OK.)

MC 147227 (Sub-2F), filed July 24, 1979. Applicant: ATLANTIC MARKETING CARRIERS, INC., 39400 Clarkson Drive, Kingsburg, CA 94631. Representative: Eric Meierhoefer, Suite 423, 1511 K Street, NW., Washington, DC 20005. Transporting *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), from Willsboro, NY, and points in MA and VT, to points in IN, OH, MI, MO, IL, WI, MN, and CA. (Hearing site: Boston, MA.)

MC 147236 (Sub-1F), filed July 23, 1979. Applicant: KENYON TRUCKING INC., P.O. Box 477, Mills, WY 82644. Representative: Donnie G. Kenyon, 2912 Pheasant Dr., Casper, WY 82601. Transporting (1) *machinery, equipment and supplies* used in, or in connection with the discovery development, production, refining, manufacture, processing, storage, transmission and distribution of natural gas and petroleum and their products and byproducts, and (2) *machinery, materials, equipment and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling, of pipelines, including the stringing and

pick up thereof, between points in WY, CO, UT, MT, and ID. (Hearing site: Casper, or Cheyenne, WY.)

MC 147596F, filed June 26, 1979. Applicant: INTERNATIONAL TRAVEL GUILD, 330 Sutter St., San Francisco, CA 94108. Representative: Michael J. Stecher, 256 Montgomery St., 5th Floor, San Francisco, CA 94104. Transporting *passengers and their baggage*, in the same vehicle with passengers, in special and charter operations, limited to the transportation of not more than 20 passengers in any one vehicle not including the driver thereof, between Anchorage, AK, Seattle, WA, San Francisco and Los Angeles, CA, and New York, NY, on the one hand, and, on the other, points in the United States (including AK, but excluding HI). (Hearing site: San Francisco, CA.)

MC 147669 (Sub-4F), filed July 22, 1979. Applicant: J. H. STEWART AND SON TRUCKING CO., 735 Laidlaw Avenue, Cincinnati, OH 45237. Representative: John L. Alden, 1396 West Fifth Avenue, P.O. Box 12241, Columbus, OH 43212. Transporting *general commodities*, (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities requiring special equipment, commodities in bulk), between Columbus, OH, on the one hand, and, on the other, points in OH, restricted to the transportation of traffic having a prior or subsequent movement by rail. (Hearing site: Columbus, OH, and Washington, DC.)

MC 147677 (Sub-2F), filed July 24, 1979. Applicant: J & L TRUCK LINES, INC., 620 West Second St., Odessa, TX 79760. Representative: Joe L. White (same address as applicant). To operate as a *common carrier*, by motor vehicle, in interstate or foreign commerce, over regular routes, transporting *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between Odessa, TX, and Artesia, NM, serving all intermediate points in NM, including the off-route points of Monument and Oil Center, NM; from Odessa over U.S. Hwy 385 to Andrews, TX, then over TX Hwy 176 to junction NM Hwy 18, then over NM Hwy 18 to junction U.S. Hwy 82, then over U.S. Hwy 82 to Artesia, and return over the same route, and (2) between Odessa, TX and Artesia, NM, serving all intermediate points in NM: from Odessa over TX Hwy 302 to junction TX Hwy 18, then over TX Hwy 18 to junction NM Hwy 18, then over NM Hwy 18 to

junction U.S. Hwy 285, then over U.S. Hwy 285 to Artesia, and return over the same route. (Hearing site: Odessa, TX, or Hobbs, NM.)

MC 147716F, filed June 28, 1979. Applicant: OVERLAND TRANSPORT, INC., 904 Wright Ave. #28, Richmond, CA 94805. Representative: James H. Gulseth, 100 Bush St., 21st Fl., San Francisco, CA 94104. Transporting (1) *animal feed and animal feed ingredients, supplements, and additives*, and *materials* used in the manufacture and sale of animal feed, between the facilities of Kal Kan Foods, Inc., at or near Ogden and Salt Lake City, UT, on the one hand, and, on the other, points in CA, OK, and WA (2)(a) *such commodities* as are dealt in by wholesale and retail groceries, food businesses, drug, discount and variety houses, (b) *equipment, materials, and supplies* used in the conduct of such businesses; and (c) *general commodities* in mixed loads with commodities in (a) and (b), between the facilities of Colgate Palmolive Co. in Alameda County, CA, on the one hand, and, on the other, points in UT and NV. (Hearing site: San Francisco, CA.)

MC 147746F filed June 28, 1979. Applicant: TRI-UNION EXPRESS, INC., 3680 179th St., Suite "D", Hammond, IN 46323. Representative: James R. Madler, 120 W. Madison St., Chicago, IL 60602. Transporting *general commodities* (except classes A and B explosives); between points in the Chicago, IL, Commercial Zone, restricted to traffic having a prior or subsequent movement by water. (Hearing site: Chicago, IL.)

MC 147886-1F, filed June 27, 1979. Applicant: A M & M, INCORPORATED, P.O. Box 1627, Jackson, TN 38301. Representative: R. Connor Wiggins, Jr., Suite 909, 100 North Main Building, Memphis, TN 38103. Transporting (1) *such commodities as are dealt in by manufactures and converters of pallets and packaging materials*; and (2) *wooden pallets, skids and crating devices and materials (except commodities in bulk)* between the facilities of Menasha Corporation in IN and TN on the one hand, and, on the other, points in AR, IL, IN, KY and TN. (Hearing site: Chicago, IL.)

MC 148046F, filed June 26, 1979. Applicant: ROGER CHILTON, d.b.a. CHILTON TRUCKING COMPANY, P.O. Box 841, Beaumont, TX 77707. Representative: Phillip Robinson, P.O. Box 2207, Austin, TX 78768. Transporting *marine engines, parts, pumps, generators, motors, gauges, valves, fittings, pipe, electrical equipment and controls; ships' stores, tackle rigging and gangways; marine*

tools and ships' personnel's baggage; and materials, equipment, parts and supplies used in the repair, maintenance and operation of marine vessels (except ships' lading, commodities and bulk and commodities requiring special equipment), (a) between points in AL, MI, LA, and TX on and south of a line commencing at the AL-FL State Line and extending along Interstate Hwy 10 to Houston, TX, then along U.S. Hwy 59 to junction U.S. Hwy 77 at or near Victoria, TX, then along U.S. Hwy 77 to the International boundary line between TX and the Republic of Mexico at or near Brownsville, TX, (b) between Dallas, TX, on the one hand, and, on the other, points within the territory described in (a) above, restricted to the transportation of traffic having a prior or subsequent movement by water. (Hearing site: Houston, TX, or New Orleans, LA.)

MC 148046 (Sub-1F), filed June 26, 1979. Applicant: ROGER CHILTON, d.b.a. CHILTON TRUCKING COMPANY, P.O. Box 841, Beaumont, TX 77707. Representative: Phillip Robinson (same address as applicant). Transporting *passengers and their baggage*, in the same vehicle with passengers, in special and charter operations, limited to the transportation of not more than 15 passengers in any one vehicle, not including the driver thereof, (1) between points in AL, MI, LA and TX, on and south of a line commencing at the AL-FL state line and extending along Interstate Hwy 10 to Houston, TX, then along U.S. Hwy 59 to junction U.S. Hwy 77 at or near Victoria, TX, then along U.S. Hwy 77 to Corpus Christi, TX, and (2) between the Dallas-Ft. Worth Regional Airport, on the one hand, and, on the other, points in the territory described in (1) above, restricted to the transportation of passengers having an immediately prior or subsequent movement by water. (Hearing site: Houston, TX, or New Orleans, LA.)

MC 148267F, filed July 24, 1979. Applicant: BEELER INC., 219 Vernon Avenue East, Fergus Falls, MN. Representative: Brent Wm. Primus, 432 Midland Bank Bldg., Minneapolis, MN 55401. Transporting *liquid nitrogen fertilizer*, from the facilities of C & F Industries at or near Grand Forks, ND, to the facilities of Perham Co-op Creamery, at or near Perham, MN. (Hearing site: Minneapolis/St. Paul, MN.)

Agatha L. Mergenovich,
Secretary.

BILLING CODE 7035-01-M

INTERNATIONAL TRADE COMMISSION

Termination of Nine Countervailing Duty Investigations Concerning Frozen Boneless Beef from the European Communities

AGENCY: U.S. International Trade Commission.

ACTION: Termination of countervailing duty investigations under section 704 of the Tariff Act of 1930.

EFFECTIVE DATE: March 6, 1980.

FOR FURTHER INFORMATION CONTACT: Ms. Vera A. Libeau, Office of Investigations, telephone number (202) 523-0368.

SUPPLEMENTARY INFORMATION: The Trade Agreements Act of 1979, subsection 104(a)(1)(C), requires the Commission to conduct countervailing duty investigations in cases where the Commission receives the most current net subsidy information pertaining to any countervailing duty order in effect on January 1, 1980, applicable to frozen, boneless beef from the European Communities under Treasury Decision 76-109. On February 5, 1980, the Commission received such information from the Department of Commerce with respect to the following countervailing duty orders:

Frozen boneless beef, provided for in tariff schedule item 106.10/Belgium;
Frozen boneless beef, provided for in tariff schedule item 106.10/Denmark;
Frozen boneless beef, provided for in tariff schedule item 106.10/Fed. Rep. of Germany;
Frozen boneless beef, provided for in tariff schedule item 106.10/France;
Frozen boneless beef, provided for in tariff schedule item 106.10/Ireland;
Frozen boneless beef, provided for in tariff schedule item 106.10/Italy;
Frozen boneless beef, provided for in tariff schedule item 106.10/Luxembourg;
Frozen boneless beef, provided for in tariff schedule item 106.10/Netherlands; and
Frozen boneless beef, provided for in tariff schedule item 106.10/United Kingdom.

The Commission has received communications from the original petitioners for these countervailing duty orders—the American Farm Bureau Federation and the National Cattlemen's Association. In a letter dated February 21, 1980, the American Farm Bureau Federation informed the Commission that it had withdrawn from its status as a petitioner for these countervailing duty investigations in 1975. The National Cattlemen's Association requested that the Commission terminate those investigations under section 704 of the Tariff Act of 1930. This request was received on February 26, 1980.

Section 704 requires that all parties be notified of the termination. The receipt of these letters from the original petitioners prior to the formal institution of the investigations presents the Commission with a situation in which no persons have formally appeared as parties to these investigations. Section 704, however, does not require that the Commission formally institute proceedings in order that the original petitioners formally appear as parties to request termination of the investigations. For these reasons the Commission is acknowledging the information supplied by the American Farm Bureau Federation and granting the request of the National Cattlemen's Association by terminating these investigations.

In addition to publishing this notice in the Federal Register, the Commission is serving this notice on all persons who have written the agency in connection with the investigations and is notifying the Department of Commerce of its action in these cases.

Issued: March 7, 1980.

By order of the Commission,
Kenneth R. Mason,
Secretary.

BILLING CODE 7020-02-M

DEPARTMENT OF LABOR

Employment and Training Administration

Federal-State Unemployment Compensation Program; New Extended Benefit Period in the State of Maine

This notice announces the beginning of a new Extended Benefit Period in the State of Maine, effective on March 16, 1980.

Background

The Federal-State Extended Unemployment Compensation Act of 1970 (26 U.S.C. 3304 note) established the Extended Benefit Program as a part of the Federal-State Unemployment Compensation Program. The Extended Benefit Program takes effect during periods of high unemployment in a State or the nation, to furnish up to 13 weeks of additional benefits to eligible individuals who have exhausted their rights to regular benefits under permanent State and Federal unemployment compensation laws. Part 615 of Title 20, Code of Federal Regulations, implements the statute (20 CFR Part 615).

In accordance with section 203(e) of the Act, the Maine unemployment compensation law provides that there is a State "on" indicator in the State for a week if the head of the State employment security agency determines, in accordance with 20 CFR 615.12(e), that, for the period consisting of that week and the immediately preceding 12 weeks, the rate of insured unemployment under the State unemployment compensation law equalled or exceeded the State trigger rate, 20 CFR 615.12(b) or (c). The Extended Benefit Period actually begins with the third week following the week for which there is an "on" indicator. A benefit period will be in effect for a minimum of 13 consecutive weeks, and will end the third week after there is an "off" indicator.

Determination of "on" Indicator

The head of the employment security agency of the State of Maine has determined that, for the period consisting of the week ending on March 1, 1980, and the immediately preceding 12 weeks, the rate of insured unemployment in the State equalled or exceeded the State trigger rate.

Therefore, an Extended Benefit Period commenced in that State with the week beginning on March 16, 1980.

Information for Claimants

The duration of Extended Benefits payable in the new Extended Benefit Period, and the terms and conditions on which they are payable, are governed by the Act and the State unemployment compensation law. The State employment security agency will furnish a written notice of potential entitlement to Extended Benefits to each individual who has established a benefit year in the State that will expire after the new Extended Benefit Period begins, and who has exhausted all rights under the State unemployment compensation law to regular benefits before the beginning of the new Extended Benefit Period, 20 CFR 615.13(d)(1). The State employment security agency also will provide such notice promptly to each individual who exhausts all rights under the State unemployment compensation law during the Extended Benefit Period, including exhaustion by reason of the expiration of the individual's benefit year, 20 CFR 615.13(d)(2).

Persons who believe they may be entitled to Extended Benefits in the State of Maine, or who wish to inquire about their rights under the Extended Benefit Program, should contract the nearest State Employment Office of the Maine Employment Security Commission in their locality.

Signed at Washington, D.C., on March 13, 1980.

Ernest G. Green,
Assistant Secretary for Employment and Training.

BILLING CODE 4510-30-M

Mine Safety and Health Administration

[Docket No. M-80-28-C]

McInnes Coal Mining Co.; Petition for Modification of Application of Mandatory Safety Standard

McInnes Coal Co., Box 201, Sidney, Kentucky 41564, has filed a petition to modify the application of 30 CFR 75.326 (air courses and belt haulage entries) to its McInnes Mine located in Pike County, Kentucky. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition follows:

1. The petitioner states that the coal bed of the mine is below the water table, and the operator is in the process of gaining access to this coal bed by the shaft and slope method.

2. As an alternative to application of the mandatory standard, the operator proposes to provide ventilation on a temporary basis, and only in the initial phase of gaining access to the coal bed, by separating intake and return air courses in the belt haulage entry.

3. In connection with the alternate method, the operator will:

(a) continuously monitor the methane content of the air and will immediately shut off all underground power circuits should methane content reach 0.75%;

(b) will carry out a program of regular inspection of the belt of certified personnel; and

(c) will maintain the belt line in a safe, rock dusted condition.

4. The petitioner states the alternate method will at all times guarantee no less than the same measure of protection afforded the miners at this mine by the mandatory standard for the following reasons:

(a) The velocity of the ventilation air current at the working faces can and will be maintained at a consistently higher level than would be provided by strict compliance with the mandatory standard.

(b) Transporting personnel, supplies and equipment on the slope will be less hazardous than installing a temporary means of hoisting at the shaft.

(c) Means of escape for personnel in emergencies will be provided that will not only be safer and faster than that provided only by the shaft, but, in

addition, two separate means of escape will be available.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: March 10, 1980.

Frank A. White,

Director, Office of Standards, Regulations and Variances.

[FR Doc. 80-8219 Filed 3-17-80; 8:45 am]

BILLING CODE 4510-43-M

[Docket No. M-80-33-M]

Cominco American Inc.; Petition for Modification of Application of Mandatory Safety Standard

Cominco American Incorporated, Magmont Mine, Bixby, Missouri 65439, filed a petition to modify the application of 30 CFR 57.4-61A (fire prevention and control) to its Magmont Mine located in Iron County, Missouri, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The mine has three levels.
2. Most of the inherent fire hazards are located within a few hundred feet of the mine shaft, which is lined with concrete.
3. There is a minimum of flammable material in the shaft, shaft stations, and shaft access drifts.
4. The petitioner proposes as an alternative to application of 30 CFR 57.4-61A to adjust the main fan so that any smoke generated by a fire, should one occur, would be removed directly from the mine.
5. The petitioner states that fire doors would restrict its ability to redirect ventilation and the fire doors at this mine would constitute more of a safety hazard than a safety advantage.
6. For these reasons, the petitioner requests a modification of the application of the standard.

Request for Comments

Persons interested in this petition may furnish written comment on or before April 17, 1980. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: March 5, 1980.

Frank A. White,

Director, Office of Standards, Regulations and Variances.

BILLING CODE 4510-43-M

[Docket No. M-80-1-M]

Diamond Crystal Salt Co.; Petition for Modification of Application of Mandatory Safety Standard

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-10 (fire prevention and control in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure from conventional underground mining. Rooms are large (160 feet wide and when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gases exist among the salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, any concentration of flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably occur in the area directly below that point on the next mining level (vertical predictability).

4. To eliminate the danger due to the remote possibility of methane gas outbursts, the petitioner proposes the following:

- a. To test drill faces prior to blasting so high concentrations of methane gas can be located.

b. To locate concentrations of methane gas through study of mine maps for vertical predictability.

c. To provide continuous and comprehensive monitoring for methane. These monitoring devices will automatically sound an alarm if the methane concentration reaches one (1.0) percent. Such monitoring will allow miners the time needed to take adequate precautions to control or eliminate any potential hazard.

d. To issue manual methanometers to qualified personnel to supplement the continuous monitoring systems.

e. To remove miners from the mine before face blasting is done in known gassy zones. At other times, comprehensive monitoring will ensure that no miner will be endangered by methane.

5. In conjunction with these measures for controlling the dangers due to outbursts of methane gas, the petitioner proposes to modify the application of 30 CFR 57.21-10 as follows:

a. Smoking will be permitted in specified controlled enclosed areas outside the vicinity of any known gassy zones. A nonportable electric lighting device will be provided at each area. No matches, lighters or other lighting materials will be allowed in the mine.

b. At the beginning of each shift, petitioner will require that cigarettes be checked and left at the smoking area.

c. An automatic methane monitoring device will be located in the smoking area to signal miners if the flammable gas concentration in the areas reaches one (1.0) percent.

6. The petitioner asserts that the presence of a controlled smoking station would significantly lessen the probability of an individual attempting to "sneak" a cigarette in some other area.

7. The petitioner states that application of 30 CFR 57.21-10 may be potentially more hazardous than the proposed alternative, and that the proposed alternative application is no less safe than the standard.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: March 5, 1980.

Frank A. White,
Director, Office of Standards, Regulations
and Variances.

BILLING CODE 4510-43-M

[Docket No. M-80-2-M]

**Diamond Crystal Salt Co.; Petition for
Modification of Application of
Mandatory Safety Standard**

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-12 (fire prevention and control in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure from conventional underground mining. Rooms are large (160 feet wide and when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gases exist among the salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, any concentration of flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably occur in the area directly below that point on the next mining level (vertical predictability).

4. To eliminate the danger due to the remote possibility of methane gas outbursts, the petitioner proposes the following:

a. To test drill faces prior to blasting so high concentrations of methane gas can be located.

b. To locate concentrations of methane gas through study of mine maps for vertical predictability.

c. To perform continuous and comprehensive monitoring for methane which will give more than adequate notice of significant increases over the relatively minute quantities which may be present at any given time. These monitoring devices will automatically sound an alarm if the methane concentration reaches one (1.0) percent. Such monitoring will allow miners the time needed to take adequate precautions to control or eliminate any potential hazard.

d. To issue manual methanometers to qualified personnel to supplement the continuous monitoring systems.

e. To remove miners from the mine before face blasting is done in known gassy zones. At other times, comprehensive monitoring will ensure that no miner will be endangered by methane.

5. In conjunction with these measures for controlling the dangers due to outbursts of methane gas, the petitioner proposes to modify the application of 30 CFR 57.21-12 as follows:

a. Before creating an ignition source, the site will be monitored for methane.

b. Methane monitoring measurements will be made at thirty (30) minute intervals during the existence of the ignition source.

6. The petitioner asserts that it is impossible for a concentration of methane gas to accumulate to an explosive level between such thirty minute time intervals, and that the presence of methane would be detected soon enough to evacuate the affected area.

7. The petitioner states that the proposed alternative application of 30 CFR 57.21-12 will provide miners the same degree of safety as that provided by the standard.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. **Diamond Crystal Salt Co.; Petition for
Modification of Application of
Mandatory Safety Standard**

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-20 (ventilation in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure from conventional underground mining. Rooms are large (160 feet wide and when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gases exist among the salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, any concentration of flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably occur in the area directly below that point on the next mining level (vertical predictability).

4. To eliminate the danger due to the remote possibility of methane gas outbursts, the petitioner proposes the following:

a. To test drill faces prior to blasting so high concentrations of methane gas can be located.

b. To locate concentrations of methane gas through study of mine maps for vertical predictability.

c. To perform continuous and comprehensive monitoring for methane which give more than adequate notice of significant increases over the relatively minute quantities which may be present at any given time. These monitoring devices will automatically sound an

alarm if the methane concentration reaches one (1.0) percent. Such monitoring will allow miners the time needed to take adequate precautions to control or eliminate any potential hazard.

d. To issue manual methanometers to qualified personnel to supplement the continuous monitoring systems.

e. To remove miners from the mine before face blasting is done in known gassy zones. At other times, comprehensive monitoring will ensure that no miner will be endangered by methane.

5. In conjunction with these measures for controlling the dangers due to outburst of methane gas, the petitioner proposes to modify the application of 30 CFR 57.21-20 by maintaining fresh air on the escapeway from the mine. The petitioner states that several hours would be required to reverse the flow of air because of the massive volume involved. Further, the petitioner alleges, reversing of the airflow could endanger miners not previously exposed to noxious gases.

6. The petitioner alleges that the presence of fresh air on the emergency escapeway provides the miners the same degree of safety as that provided by 30 CFR 57.21-20(b), and eliminates a potential diminution of safety.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

[FR Doc. 80-8111 Filed 3-17-80; 8:45 am]

BILLING CODE 4510-43-M

[Docket No. M-80-4-M]

Diamond Crystal Salt Co.; Petition for Modification of Application of Mandatory Safety Standard

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-21 (ventilation in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure from conventional underground mining. Rooms are large (160 feet wide and when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gasses exist among the salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, any concentration of flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably occur in the area directly below that point on the next mining level (vertical predictability).

4. To eliminate the danger due to the remote possibility of methane gas outbursts, the petitioner proposes the following:

a. To test drill faces prior to blasting so high concentrations of methane gas can be located.

b. To locate concentrations of methane gas through study of mine maps for vertical predictability.

c. To perform continuous and comprehensive monitoring for methane which will give more than adequate notice of significant increases over the relatively minute quantities which may be present at any given time. These monitoring devices will automatically sound an alarm if the methane concentration reaches one (1.0) percent. Such monitoring will allow miners the time needed to take adequate precautions to control or eliminate any potential hazard.

d. To issue manual methanometers to qualified personnel to supplement the continuous monitoring systems.

e. To remove miners from the mine before face blasting is done in known gassy zones. At other times, comprehensive monitoring will ensure that no miner will be endangered by methane.

5. In conjunction with these measures for controlling the dangers due to outbursts of methane gas, the petitioner proposes to modify the application of 30 CFR 57.21-21 as follows:

a. Miners would not be removed from the mine because of intentional stopping of a main fan during a controlled shutdown to lower equipment or to inspect and service shafts. Controlled shutdowns will occur only during nonblasting operations when the potential for release for methane is minimal.

b. Operation of diesel-powered production equipment will be kept at a minimum during controlled main fan shutdowns.

c. Carbon monoxide and carbon dioxide will be monitored during main fan shutdowns.

6. Early detection of methane by automatic monitors will give ample time for evacuation of miners from the affected area.

7. The petitioner alleges that the proposed alternative to 30 CFR 57.21-21 will provide the same degree of safety to the miners as that provided by the standard.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. [FR Doc. 80-8112 Filed 3-17-80; 8:45 am]

BILLING CODE 4510-43-M

[Docket No. M-80-5-M]

Diamond Crystal Salt Co.; Petition for Modification of Application of Mandatory Safety Standard

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-24 (ventilation in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure from conventional underground mining. Rooms are large (160 feet wide and

when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gases exist among the salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, any concentration of flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably occur in the area directly below that point on the next mining level (vertical predictability).

4. To eliminate the danger due to the remote possibility of methane gas outbursts, the petitioner proposes the following:

a. To test drill faces prior to blasting so high concentrations of methane gas can be located.

b. To locate concentrations of methane gas through study of mine maps for vertical predictability.

c. To provide continuous and comprehensive monitoring for methane which will give more than adequate notice of significant increases over the relatively minute quantities which may be present at any given time. These monitoring devices will automatically sound an alarm if the methane concentration reaches one (1.0) percent. Such monitoring will allow miners the time needed to take adequate precautions to control or eliminate any potential hazard.

d. To issue manual methanometers to qualified personnel to supplement the continuous monitoring systems.

e. To remove miners from the mine before face blasting is done in known gassy zones. At other times, comprehensive monitoring will ensure that no miner will be endangered by methane.

5. In conjunction with these measures for controlling the dangers due to outbursts of methane gas, the petitioner

proposes to modify the application of 30 CFR 57.21-24 as follows:

a. During controlled shutdowns of main fans, and during uncontrolled shutdowns where air quality is not adversely affected, the petitioner will

(1) Allow miners to remain in the affected workings and would not deenergize power.

(2) Provide methane monitoring as described above, and monitor for noxious gases.

(3) Perform no blasting.

b. During shutdowns of main fans where air quality has been adversely affected, the petitioner will

(1) Remove miners from the affected active workings.

(2) Deenergize the power. However, this will render inoperable the automatic methane monitoring system.

(3) Activate the ventilation system and monitor exhaust air until levels below one (1.0) percent are reached. At that time, power will be reenergized in order to activate the automatic methane monitoring devices for purposes of determining when an acceptable level of concentration has been reached.

6. For the reasons stated above, the petitioner states that the proposed alternative method will provide the same measure of protection as that provided by the standard.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

and Variances.

[FR Doc. 80-8113 Filed 3-17-80; 8:45 am]

BILLING CODE 4510-43-M

[Docket No. M-80-6-M]

Diamond Crystal Salt Co.; Petition for Modification of Application of Mandatory Safety Standard

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-25 (ventilation in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure from conventional underground mining. Rooms are large (160 feet wide and when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gases exist among the salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, any concentration of flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably occur in the area directly below that point on the next mining level (vertical predictability).

4. To eliminate the danger due to the remote possibility of methane gas outbursts, the petitioner proposes the following:

a. To test drill faces prior to blasting so high concentrations of methane gas can be located.

b. To locate concentrations of methane gas through study of mine maps for vertical predictability.

c. To perform continuous and comprehensive monitoring for methane which will give more than adequate notice of significant increases over the relatively minute quantities which may be present at any given time. These monitoring devices will automatically sound an alarm if the methane concentration reaches one (1.0) percent. Such monitoring will allow miners the time needed to take adequate precautions to control or eliminate any potential hazard.

d. To issue manual methanometers to qualified personnel to supplement the continuous monitoring systems.

e. To remove miners from the mine before face blasting is done in known gassy zones. At other times, comprehensive monitoring will ensure that no miner will be endangered by methane.

5. In conjunction with these measures for controlling the dangers due to outbursts of methane gas, the petitioner proposes to modify the application of 30 CFR 57.21-25 as follows:

a. Miners would not be removed from the active workings so long as the air quality is not adversely affected, as determined by the monitoring described above.

b. Blasting will not be done.

c. The petitioner will monitor the air for carbon monoxide and carbon dioxide.

6. Detection of excess levels of methane by the automatic monitoring system will give ample time for evacuation of miners from the affected area.

7. If miners have been evacuated and the power has been deenergized, the automatic methane detector would be rendered inoperable. A procedure for reestablishing air quality and monitoring is given. Then miners may reenter the area and power may be reactivated.

8. The petitioner submits that the proposed alternative application of 30 CFR 57.21-25 will provide the same measure of protection as that afforded by the standard.

Request for Comments

BILLING CODE 4510-43-M

[Docket No. M-80-7-M]

Diamond Crystal Salt Co.; Petition for Modification of Application of Mandatory Safety Standard

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-28 (ventilation in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure from conventional underground mining.

Rooms are large (160 feet wide and when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gases exist among and salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, any concentration of flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably occur in the area directly below that point on the next mining level (vertical predictability).

4. The petitioner proposes the following alternative to the application of 30 CFR 57.21-28:

a. To locate concentrations of methane gas by

(1) Test drilling of faces before blasting.

(2) Study of mine maps for vertical predictability of methane concentrations before blasting.

b. To establish a system of automatic monitoring for methane gas by placing continuous monitors in strategic places throughout the mine. These devices will automatically sound an alarm if the methane concentration reaches one (1.0) percent. Miners would have sufficient time after the warning to take adequate precautions to control or eliminate the hazard.

c. To supplement the automatic monitoring system by issuing manually operated mathanometers to miners qualified to use them.

d. To remove miners from the mine before face blasting in areas where test drilling or mine maps predict a concentration of methane gas. At other times, comprehensive monitoring for methane would ensure that no miner is endangered by methane, the petitioner alleges.

e. To monitor for noxious gases such as carbon monoxide and carbon dioxide.

5. The petitioner alleges that the proposed alternative to 30 CFR 57.21-28 will provide the same degree of safety as that afforded by the standard.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Director, Office of Standards, Regulations and Variances.

[FR Doc. 80-8115 Filed 3-17-80 8:45 am]

BILLING CODE 4510-43-M

[Docket No. M-80-8-M]

Diamond Crystal Salt Co.; Petition for Modification of Application of Mandatory Safety Standard

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-29 (ventilation in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure from conventional underground mining. Rooms are large (160 feet wide and when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gases exist among the salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, any concentration of

flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably occur in the area directly below that point on the next mining level (vertical predictability).

4. The petitioner proposes the following alternative to the application of 30 CFR 57.21-29:

a. To locate concentrations of methane gas by

(1) Test drilling of faces before blasting.

(2) Study of mine maps for vertical predictability of methane concentrations before blasting.

b. To establish a system of automatic monitoring for methane gas by placing continuous monitors in strategic places throughout the mine. These devices will automatically sound an alarm if the methane concentration reaches one (1.0) percent. Miners would have sufficient time after the warning to take adequate precautions to control or eliminate the hazard.

c. To supplement the automatic monitoring system by issuing manually operated methanometers to miners qualified to use them.

d. To remove miners from the mine before face blasting in areas where test drilling or mine maps predict a concentration of methane gas. At other times, comprehensive monitoring for methane would ensure that no miner is endangered by methane, the petitioner alleges.

5. The petitioner asserts that in accordance with 30 CFR 57.21-29, power is off when the concentration of methane is over one (1.0) percent so there is no need for remote controls of booster fans. If methane is less than one (1.0) percent, manual control of fans by a miner is permitted. Booster fans should not be reversed in this mine, the petitioner asserts, because it could stop the flow of air in some areas. Also, it could place the emergency escape route on exhaust air. Therefore, remote controls are not needed.

6. For these reasons, the petitioner requests that application of the standard be modified for this mine.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: March 5, 1980.

Frank A. White,
Director, Office of Standards, Regulations
and Variances.

[FR Doc. 80-8116 Filed 3-17-80; 8:45 am]

BILLING CODE 4510-43-M

[Docket No. M-80-9-M]

Diamond Crystal Salt Co.; Petition for Modification of Application of Mandatory Safety Standard

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-30 (ventilation in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure from conventional underground mining. Rooms are large (160 feet wide and when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gases exist among the salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, any concentrations of flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably occur in the area directly below that point on the next mining level (vertical predictability).

4. The petitioner proposes the following alternative to the application of 30 CFR 57.21-30:

a. To locate concentrations of methane gas by

(1) Test drilling of faces before blasting.

(2) Study of mine map for vertical predictability of methane concentrations before blasting.

b. To establish a system of automatic monitoring for methane gas by placing continuous monitors in strategic places throughout the mine. These devices will automatically sound an alarm if the methane concentration reaches one (1.0) percent. Miners would have sufficient time after the warning to take adequate precautions to control or eliminate the hazard.

c. To supplement the automatic monitoring system by issuing manually operated methanometers to miners qualified to use them.

d. To remove miners from the mine before face blasting in areas where test drilling or mine maps predict a concentration of methane gas. At other times, comprehensive monitoring for methane would ensure that no miner is endangered by methane, the petitioner alleges.

5. Recirculation can not be entirely eliminated in such large openings. A buildup of methane, however, would be detected by the automatic monitoring system well in advance of dangerous levels. Immediate concentrations of methane could develop only when face blasting in a known gassy area after miners have been removed from the mine. The petitioner states that these precautions, therefore, will provide a system as safe as that provided by the standard.

BILLING CODE 4510-43-M

[Docket No. M-80-10-M]

Diamond Crystal Salt Co.; Petition for Modification of Application of Mandatory Safety Standard

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-46 (ventilation in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with

section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure from conventional underground mining. Rooms are large (160 feet wide and when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). These dimensions are necessitated by the rock mechanics program at the mine. The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gases exist among the salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, any concentration of flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably occur in the area directly below that point on the next mining level (vertical predictability).

4. The petitioner proposes the following alternative to the application of 30 CFR 57.21-46:

a. The distance of crosscuts or intervals between entries and between rooms may exceed 100 feet. At the fifteen hundred (1,500) foot level, for example, crosscuts are presently on four hundred (400) foot centerlines.

b. A system of automatic monitoring for methane gas would be established by placing continuous monitors in strategic places throughout the mine. These devices will automatically sound an alarm if the methane concentration reaches one (1.0) percent. The system would be supplemented by issuing manually operated methanometers to miners qualified to use them.

c. Concentrations of methane gas would be located by

(1) Test drilling of faces before blasting.

(2) Study of mine maps for vertical predictability of methane concentrations before blasting.

d. Miners would be removed from the mine before face blasting in areas where test drilling or mine maps predict a concentration of methane gas.

5. The petitioner alleges that the proposed alternative to 30 CFR 57.21-46 will provide no less safety to miners than that achieved by application of the standard.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: March 5, 1980.

Frank A. White,

Director, Office of Standards, Regulations and Variances.

[FR Doc. 80-8118 Filed 3-17-80; 8:45 am]

BILLING CODE 4510-43-M

[Docket No. M-80-11-M]

Diamond Crystal Salt Co.; Petition for Modification of Application of Mandatory Safety Standard

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-52 (ventilation in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure from conventional underground mining. Rooms are large (160 feet wide and when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). These dimensions are necessitated by the rock mechanics program at the mine. The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gases exist among the salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve

simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, any concentration of flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably occur in the area directly below that point on the next mining level (vertical predictability).

4. The petitioner proposes the following alternative to the application of 30 CFR 47.21.52:

a. The existing dimensions of rooms, pillars, and openings would be maintained. For example, at the fifteen hundred (1,500) foot level, crosscuts are on four hundred (400) foot centerlines. The larger pillars and rooms provide for greater stability during mining operations, the petitioner alleges.

b. The depth of room necks and entries beyond the last open crosscuts would not be limited to 18 feet, because ventilation technology for large rooms is completely different from that needed for small rooms. (Examples illustrating both large room and small room mining developments are attached to the petition.)

c. A system of automatic monitoring for methane would be established by placing continuous monitors in strategic places throughout the mine. These devices will automatically sound an alarm if the methane concentration reaches one (1.0) percent. The automatic monitoring system would be supplemented by issuing manually operated methanometers to miners qualified to use them.

(d) Methane gas pockets in the ore would be located by

(1) Test drilling of faces before blasting.

(2) Study of mine maps for vertical predictability of methane concentrations before blasting.

e. Miners would be removed from the mine before blasting in areas where test drilling or mine maps predict a concentration of methane gas.

5. The petitioner alleges that the proposed alternative to 30 CFR 57.21-52 will provide no less safety to miners than that achieved by application of the standard.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627,

4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: March 5, 1980.

Frank A. White,

Director, Office of Standards, Regulations and Variances.

[Docket No. M-80-12-M]

Diamond Crystal Salt Co.; Petition for Modification of Application of Mandatory Safety Standard

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-53 (ventilation in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure from conventional underground mining. Rooms are large (160 feet wide and when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). These dimensions are necessitated by the rock mechanics program at the mine. The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gases exist among the salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, any concentration of flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably occur in the area directly below that point on the next mining level (vertical predictability).

4. Tight rigidly constructed stoppings invariably collapse under the pressure of salt movement in the domal mine.

5. The petitioner proposes the following alternative to the application of 30 CFR 57.21-53:

a. Broken salt and fire resistant brattice will be used as an alternative to rigid stoppings.

b. An automatic monitoring system will be established for methane gas by placing continuous monitors in strategic places throughout the mine. These devices will automatically sound an alarm if the methane concentration reaches one (1.0) percent. The system will be supplemented by issuing manually operated methanometers to miners qualified to use them.

c. Methane gas pockets in the ore will be located by:

(1) Test drilling of faces before blasting.

(2) Study of mine maps for vertical predictability of methane concentrations before blasting.

d. Miners will be removed from the mine before face blasting in areas where test drilling or mine maps predict a concentration of methane gas.

6. The petitioner alleges that the proposed alternative, will provide no less than the measure of safety provided miners by application of 30 CFR 57.21-53.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: March 5, 1980.

BILLING CODE 4510-43-M

[Docket No. M-80-13-M]

Diamond Crystal Salt Co.; Petition for Modification of Application of Mandatory Safety Standard

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-59 (ventilation in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure

from conventional underground mining. Rooms are large (160 feet wide and when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). These dimensions are necessitated by the rock mechanics program at the mine. The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gases exist among the salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, and concentration of flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably occur in the area directly below that point on the next mining level (vertical predictability).

4. The petitioner proposes the following alternative to preshift examinations:

a. An automatic monitoring system for methane gas will be established by placing continuous monitors in strategic places throughout the mine. These devices will automatically sound an alarm if the methane concentration reaches one (1.0) percent. In addition, the system will be supplemented by issuing manually operated methanometers to miners qualified to use them.

b. Methane gas pockets in the ore will be located by:

(1) Test drilling of faces before blasting.

(2) Study of mine maps for vertical predictability of methane concentrations before blasting.

c. Miners would be removed from the mine before blasting in areas where test drilling or mine maps predict a concentration of methane gas.

5. The petitioner alleges that application of the proposed alternative will provide the same degree of safety as application of the standard.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

BILLING CODE 4510-43-M

[Docket No. M-80-14-M]**Diamond Crystal Salt Co.; Petition for Modification of Application of Mandatory Safety Standard**

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-78 (permissible equipment in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure from conventional underground mining. Rooms are large (160 feet wide and when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gases exist among the salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, and concentration of flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably

occur in the area directly below that point on the next mining level (vertical predictability).

4. The petitioner proposes the following alternative to the application of 30 CFR 57.21-78:

a. An automatic monitoring system will be established for methane gas by placing continuous monitors in strategic places throughout the mine. These devices will automatically sound an alarm if the methane concentration reaches one (1.0) percent. In addition, the petitioner proposes to supplement the system by issuing manually operated methanometers to miners qualified to use them.

b. Methane gas pockets in the ore will be located by:

(1) Test drilling of faces before blasting.

(2) Study of mine maps for vertical predictability of methane concentrations before blasting.

c. In areas of mining operations which will involve potential disturbance of areas which could propagate flammable gas, permissible equipment will be used. Specifically, the petitioner will use permissible face drills, undercutters, roofbolters, and test drills. Other equipment will not necessarily be permissible.

d. Miners will be removed from the mine before face blasting is done in known gassy zones. At other times, comprehensive monitoring will ensure that no miner will be endangered by methane.

5. The petitioner alleges that the proposed alternative to application of 40 CFR 57.21-78 will result in no diminution of the level of safety provided by the standard.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: March 6, 1980.

BILLING CODE 4510-43-M

[Docket No. M-80-15-M]**Diamond Crystal Salt Co.; Petition for Modification of Application of Mandatory Safety Standard**

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-79 (equipment in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure from conventional underground mining. Rooms are large (160 feet wide and when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gasses exist among the salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, any concentration of flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably occur in the area directly below that point on the next mining level (vertical predictability).

4. The petitioner proposes the following alternative to the application of 30 CFR 57.21-79:

a. An automatic monitoring system will be established for methane gas by placing continuous monitors in strategic places throughout the mine. These devices will automatically sound an alarm if the methane concentration reaches one (1.0) percent. In addition, the system will be supplemented by issuing manually operated methanometers to miners qualified to use them.

b. Methane gas pockets in the ore will be located by:

(1) Test drilling of faces before blasting.

(2) Study of mine maps for vertical predictability of methane concentrations before blasting.

c. Miners will be removed from the mine prior to face blasting operations in known gassy zones.

d. Permissible distribution boxes will be used only in those area of mining operations which will involve potential disturbance of areas which could propagate flammable gas.

5. The petitioner alleges that the proposed alternative to 30 CFR 57.21-79 will result in no diminution of the level of safety provided by the standard.

BILLING CODE 4510-43-M

[Docket No. M-80-4-M]

Diamond Crystal Salt Co.; Petition for Modification of Application of Mandatory Safety Standard

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-97 (explosive in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure from conventional underground mining. Rooms are large (160 feet wide and when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gasses exist among the salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until

released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, any concentration of flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably occur in the area directly below that point on the next mining level (vertical predictability).

4. The petitioner proposes the following alternative to the application of 30 CFR 57.21-97:

a. Blasting procedures using primadet plastic caps will be used in lieu of electric detonation.

b. An automatic monitoring system will be established for methane gas by placing continuous monitors in strategic places throughout the mine. These devices will automatically sound an alarm if the methane concentration reaches one (1.0) percent. In addition, the petitioner proposes to supplement the automatic monitoring system by issuing manually operated methanometers to miners qualified to use them.

c. Miners will be removed from the mine when blasting in known gassy zone (determined from mine maps and advance test drilling of faces); miners will be removed to a safe place at the level above the level of a shot when blasting in non-gassy zones.

5. The petitioner states that two accidents have been directly related to electric blasting caps.

6. The petitioner alleges that application of the proposed modification will provide no less a measure of safety than that guaranteed by 30 CFR 57.21-97 and that application of the standard would present an unwarranted danger to the safety of miners.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: March 6, 1980.

BILLING CODE 4510-43-M

[Docket No. M-80-17-M]

Diamond Crystal Salt Co.; Petition for Modification of Application of Mandatory Safety Standard

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-98 (explosives in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure from conventional underground mining. Rooms are large (160 feet wide and when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gasses exist among the salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, any concentration of flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably occur in the area directly below that point on the next mining level (vertical predictability).

4. The petitioner proposes the following alternative to the application of 30 CFR 57.21-98:

a. An automatic monitoring system will be established for methane gas by placing continuous monitors in strategic places throughout the mine. These devices will automatically sound an alarm if the methane concentration

reaches one (1.0) percent. In addition, the system will be supplemented by issuing manually operated methanometers to miners qualified to use them.

b. Methane gas pockets in the ore will be located by:

(1) Test drilling of every face before blasting to insure knowledge of gassy concentrations.

(2) Study of mine maps for vertical predictability of methane concentrations before blasting.

c. Miners will be removed from the mine before face blasting is done in known gassy zones.

5. The petitioner asserts that the monitoring system, coupled with the predictability factor, adequately meets any potential hazard of dangerous concentrations of methane during blasting operations in non-gassy zones. Further, the petitioner states that since miners will be removed before face blasting in known gassy zones, there is no need to stem boreholes.

6. The petitioner alleges that the comprehensive monitoring system, coupled with the unique geological qualities of its domal salt mine, provides a measure of safety no less than that provided by 30 CFR 57.21-98.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: March 6, 1980.

[Docket No. M-80-18-M]

Diamond Crystal Salt Co.; Petition for Modification of Application of Mandatory Safety Standard

Diamond Crystal Salt Company, St. Clair, Michigan 48079 filed a petition to modify the application of 30 CFR 57.21-99 (explosives in gassy mines) to its Jefferson Island Mine located in New Iberia, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The technology and methodology of salt dome mining is a radical departure

from conventional underground mining. Rooms are large (160 feet wide and when coupled with benching, about 73 feet high). Pillars are big (240 feet on a side). The air volume in the mine is estimated to be in excess of 500,000,000 cubic feet. There are 4 levels, and a 5th level has been planned.

2. Concentrations of methane or other flammable gasses exist among the salt crystals. Porosity and permeability of the deposit are low, however, and there is little if any propagation of the methane gas within the salt dome. Methane will remain confined until released through mining operations (called localization), and, the petitioner notes, there has been no case recorded of instantaneous outbursts of methane or other flammable gas in any salt dome mine operation which did not involve simultaneous blasting or some other induced disturbance. Thus, danger of outbursts of gas exists only as a direct result of blasting or other mining induced disturbance.

3. Because of the geological formation of the dome itself, any concentration of flammable gas or other contaminants will occur in generally vertical patterns. An encounter with gas in an area at one level is indicative that gas will probably occur in the area directly below that point on the next mining level (vertical predictability).

4. The petitioner proposes the following alternative to the application of 30 CFR 57.21-99:

a. An automatic monitoring system will be established for methane gas by placing continuous monitors in strategic places throughout the mine. These devices will automatically sound an alarm if the methane concentration reaches one (1.0) percent. In addition, the system will be supplemented by issuing manually operated methanometers to miners qualified to use them.

b. Methane gas pockets in the ore will be located by:

(1) Test drilling of faces before blasting.

(2) Study of mine maps for vertical predictability of methane concentration before blasting.

c. Miners will be removed from the mine prior to face blasting in known gassy zones.

5. The petitioner alleges that the proposed alternative method will provide the same measure of safety as that provided by the standard.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Comments must be filed with the Office of Standards,

Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Frontier-Kemper Constructors; Petition for Modification of Application of Mandatory Safety Standard

Frontier-Kemper Constructors, P.O. Box 2295, New Iberia, Louisiana 70560, has filed a petition to modify the application of 30 CFR 57.19-11 (man hoisting) to its operation at Morton Salt Company's Weeks Island New Mine located in Iberia Parish, Louisiana, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The mine shaft is completed. A Nordberg hoist is installed. The flanges of the 6 foot diameter drum are 3 inches. The drum is 10 feet wide.

2. The petitioner proposes as an alternative to application of 30 CFR 57.19-11 to use a single wrap of 1 1/4 inch hoist rope with a maximum fleet angle of 1 1/2 degrees at maximum speed of 500 feet per minute. Although the present rope will spool to 12 inches from one flange at the upper limit and 42 inches from the opposite flange at the lower limit, the petitioner further proposes a stipulated safety area of 12 inches from either flange to allow for additional rope when the present rope is replaced. Photographs of the drum with the rope spooled to both the upper and lower limits are a part of the petition.

3. The petitioner alleges that the proposed modification of 30 CFR 57.19-11 will not diminish the safety of miners.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Martin Marietta Aggregates; Petition for Modification of Application of Mandatory Safety Standard

Martin Marietta Aggregates, Central Division of the Martin Marietta Corporation, P.O. Box 789, Cedar Rapids, Iowa 52406, filed a petition to modify the application of 30 CFR 57.4-61B (fire prevention and control) to its Clayton Mine located in Clayton County, Iowa, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The nature and dimensions of the mine cause no danger to affected miners from the spread of toxic gases.

2. Confinement of toxic gases in an enclosed shop area by fire doors constructed in accordance with the provisions of 30 CFR 57.4-61B could create a concentrated toxic environment for miners as well as a potentially explosive one.

3. Installation of bulkheads or fire doors in the underground shop area of the mine will result in a diminution of safety to affected miners, the petitioner alleges.

4. For these reasons, the petitioner requests a modification of the application of the standard.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. [Docket No. M-80-30-C]

Reitz Coal Co.; Petition for Modification of Application of Mandatory Safety Standard

Reitz Coal Company, 509 15th Street, Winber, Pennsylvania 15963, filed a

petition to modify the application of 30 CFR 75.1600-1 (communication facilities) to four mines (No. 21 North Somerset Mine, No. 22 St. Thomas Mine, No. 23 J. T. Mine, and No. 24 Camp Hamilton Mine) located in Somerset County, Pennsylvania, in accordance with section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. The petitioner plans a central communications and fan monitoring system to serve four mines. The greatest distance from the proposed location of the central system would be 9 miles. Travel time is expected to be 8 minutes for this maximum distance. Travel time to the other three mines is expected to be 0, 3, and 5 minutes.

2. As an alternative to application of 30 CFR 75.1600-1, the petitioner proposes to put one responsible person at the monitoring station who can hear the telephone and respond immediately as required by the standard.

3. The petitioner alleges that the proposed alternative meets the requirements of the standard, and there would not be a diminution of safety to the miners in the four mines.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. Tram Coal Co.; Petition for Modification of Application of Mandatory Safety Standard

Tram Coal Company, P.O. Drawer A & B, Harold, Kentucky 41635 has filed a petition to modify the application of 30 CFR 75.1719 (illumination) to its Mine No. 34 located in Floyd County, Kentucky. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

The substance of the petition follows:

1. The petition concerns the installation of lighting equipment to scoops and roof bolt machines in the petitioner's mine.

2. Petitioner states that lighting in addition to that presently on the equipment would be hazardous due to the height of the coal seam.

3. Petitioner further states that miners are immobile due to seam height and that additional lighting would tend to blind the miners.

4. Petitioner believes that compliance with the standard will therefore reduce the safety of miners, and seeks a modification of the application of the standard.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. BILLING CODE 4510-43-M

[Docket No. M-80-33-C]

Westmoreland Coal Co.; Petition for Modification of Application of Mandatory Safety Standard

The Westmoreland Coal Company, Winding Gulf Division, Tams, West Virginia 25933, filed a petition to modify the application of 30 CFR 75.305 (Weekly examinations for hazardous conditions) to its Eccles No. 6 Mine located in Raleigh County, West Virginia, in accordance with section 101(c) of the federal Mine Safety and Health Act of 1977.

The substance of the petition is as follows:

1. Eccles No. 6 Mine, closed in 1978, has been reopened. To eliminate the former rail haulage and hoisting system, a new slope was driven from the surface. Intentions are, the petitioner states, to eventually convert to total belt haulage.

2. While closed, Number One and Number Three Entries of the mine fell in and both entries have deteriorated over distances of approximately 1,300 feet. The entries are too dangerous to be traveled and inspected as required by 30 CFR 75.305, the petitioner claims. Airways used to ventilate the mine, however, are open and safe for weekly travel and inspection.

3. The petitioner proposes as an alternative to application of 30 CFR

75.305 to monitor methane in the air by weekly tests taken from a safe area in/ by the falls and deteriorated areas until such time as parallel entries are completed and made safe for travel.

4. The petitioner states that monitoring the two-1,300 foot fall areas would diminish the safety of those monitoring the areas.

5. For these reasons, the petitioner requests that modification of the application of 30 CFR 75.305 be granted.

Request for Comments

Persons interested in this petition may furnish written comments on or before April 17, 1980. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: March 8, 1980.

Frank A. White,
Director, Office of Standards, Regulations
and Variances.

[TA-W-6758]

American Home Products Corp. (Boyle-Midway Division; Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met.

The investigation was initiated on January 10, 1980 in response to a worker petition received on December 31, 1979 which was filed by the Oil, Chemical and Atomic Workers Union on behalf of workers and former workers producing household chemicals at Boyle-Midway, Cranford, New Jersey. The investigation revealed that Boyle-Midway is a division of the American Home Products Corporation and that the plant produces household chemical products. In the following determination, without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Imports into the United States of household insecticides, starch, polishes, waxes and other cleaners, were negligible during 1977, 1978 and 1979.

Imports of soaps and detergents decreased relative to domestic production from 1978 to 1979. The ratio of imports to domestic production did not exceed 0.18 percent during the period 1975 through 1979.

Total sales of household chemicals by the Boyle-Midway Division increased from 1977 to 1978 and from 1978 to 1979.

Total sales from the Cranford, New Jersey plant increased from 1977 to 1978 and from 1978 to 1979.

Conclusion

After careful review, I determine that all workers of the Cranston, New Jersey plant of the American Home Products Corporation, Boyle-Midway Division, are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 10th day of March 1980.

James F. Taylor,
Director, Office of Management
Administration and Planning.

BILLING CODE 4510-28-M

[TA-W-6766]

American Shingle Co.; Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met.

The investigation was initiated on January 14, 1980 in response to a worker petition received on January 9, 1980 which was filed on behalf of workers and former workers producing redcedar shakes and shingles at American Shingle Company, Garibaldi, Oregon. It is concluded that all of the requirements have been met.

U.S. imports of redcedar shingles and shakes increased both absolutely and relative to domestic production in 1978

compared to 1977 and increased absolutely in the first nine months of 1979 compared to the first nine months of 1978.

A survey of customers who decreased purchases of redcedar shingles and shakes from American Shingle Company in 1979 compared to 1978 indicated that several large customers increased purchases of imported redcedar shakes and shingles during the same period.

The survey further revealed that several firms plan to purchase imported redcedar shingles in 1980 due to price considerations.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with redcedar shakes and shingles produced at American Shingle Company, Garibaldi, Oregon contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of American Shingle Company, Garibaldi, Oregon who became totally or partially separated from employment on or after January 2, 1979 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 11th day of March 1980.

James F. Taylor,
Director, Office of Management,
Administration and Planning.

BILLING CODE 4510-28-M

[TA-W-6831]

Braswell Shipyards, Inc.; Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met.

The investigation was initiated on January 22, 1980, in response to a worker petition received on January 14, 1980, which was filed on behalf of workers and former workers engaged in ship repair functions at Braswell Shipyards, Inc., Boston, Massachusetts.

Braswell Shipyards, Inc. is engaged in providing the service of ship repair functions.

Thus, workers of Braswell Shipyards, Inc. do not produce an article within the meaning of Section 222(3) of the Act. Therefore, they may be certified only if their separation was caused importantly by a reduced demand for their services from a parent firm, a firm otherwise related to Braswell Shipyards, Inc. by ownership, or a firm related by control. In any case, the reduction in demand for services must originate at a production facility whose workers independently meet the statutory criteria for certification and that reduction must directly relate to the product impacted by imports.

Braswell Shipyards, Inc. and its customers have no controlling interest in one another. The subject firm is affiliated with another firm which performs subcontract work for the subject firm. The other firm in no way controls or affects the demand for the services of Braswell Shipyards, Inc.

All workers engaged in ship repair functions at Braswell Shipyards, Inc. are employed by that firm. All personnel actions and payroll transactions are controlled by Braswell Shipyards, Inc. All employee benefits are provided and maintained by Braswell Shipyards, Inc. Workers are not, at any time, under employment or supervision by customers of Braswell Shipyards, Inc. Thus, Braswell Shipyards, Inc., and not any of its customers, must be considered to be the "workers' firm".

Conclusion

After careful review, I determine that all workers of Braswell Shipyards, Inc., Boston, Massachusetts are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 11th day of March 1980.

Donald J. Rousslang,

Acting Director, Office of Foreign Economic Research.

BILLING CODE 4510-26-M

[TA-W-6870]

Brunswick Corp. (Consumer Division); Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met.

The investigation was initiated on January 30, 1980 in response to a worker petition received on January 23, 1980 which was filed on behalf of workers and former workers producing home recreation games for Brunswick Corporation, Consumer Division, Marion, Virginia. The investigation revealed that the petition was filed for the Pinball Machine Department of the Consumer Division. In the following determination, without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Evidence developed during the course of the investigation revealed that imports of home pinball machines like or directly competitive with those assembled by the Pinball Machine Department of the Consumer Division are negligible. Numerical data are unavailable for U.S. production and U.S. imports as there is little domestic demand for the machines and there are virtually no imports.

Trade and industry sources indicate that programmable electronic video games and coin operated pinball machines are competitive with home pinball machines. U.S. imports of coin-operated pinball machines decreased in 1979 compared with 1978, and were less than four percent of domestic production. U.S. imports of programmable electronic video games were negligible during 1978 and 1979.

The petition alleges that imports of component parts have contributed importantly to employment declines in the pinball machine department. The investigation revealed that the company has imported all the playfields used in assembling its pinball machines ever since it started producing pinball machines in 1976. Since the company has never produced its own playfields, and since its importation of playfields varies with the production of pinball machines, it is concluded that increased company imports of playfields cannot be considered to have contributed importantly to employment declines within the meaning of Section 222(3) of the Trade Act of 1974.

Conclusion

After careful review, I determine that all workers of the Pinball Machine Department, Consumer Division, the Brunswick Corporation, Marion, Virginia are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 11th day of March 1980.

BILLING CODE 4510-26-M

[TA-W-6760]

Corcol Energy, Inc. (Preparation Plant #101); Amended Certification of Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 221 and 223(a) of the Trade Act of 1974 (19 U.S.C. 2271, 2273), on February 26, 1980 the Department of Labor issued a certification of eligibility to apply for adjustment assistance applicable to workers and former workers of Corcol Energy, Incorporated, Preparation Plant #101, Wharncliffe, West Virginia. That certification included all workers who became totally or partially separated from employment on or after April 5, 1979.

Subsequent to the publication of the original determination, the Office of Trade Adjustment Assistance received an inquiry regarding workers who became separated from employment prior to April 5, 1979. Further information revealed that partial separations had occurred prior to April 5, 1979.

Conclusion

Based on the additional evidence, a review of the entire record and in accordance with the provisions of the Act, I make the following amended certification:

All workers of Corcol Energy, Incorporated, Preparation Plant #101, Wharncliffe, West Virginia who became totally or partially separated from employment on or after December 26, 1978 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 12th day of March 1980.

James F. Taylor,

Director, Office of Management Administration and Planning.

BILLING CODE 4510-26-M

[TA-W-6488 and TA-W-6604]

Corning Distribution Co. and ACF Industries (Carter Carburetor Division); Negative Determination Regarding Application for Reconsideration

By letters of February 18 & 19, 1980 the petitioners and former workers requested administrative reconsideration of the Department of Labor's Negative Determination Regarding eligibility to apply for worker adjustment assistance in the case of workers and former workers of the Corning Distribution Company, Corning, Arkansas and ACF Industries, Carter Carburetor Division, St. Louis, Missouri. The determination was published in the *Federal Register* on February 8, 1980 (45 FR 8767).

Pursuant to 29 CFR 90.18(c), reconsideration may be granted under the following circumstances:

- (1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;
- (2) If it appears that the determination complained of was based on a mistake in the determination of facts previously considered; or
- (3) If, in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justifies reconsideration of the decision.

The petitioners and former workers claim in their application for reconsideration that increased imports of automobiles have hurt the production and sales of domestically produced automobile parts and have caused considerable layoffs at their auto parts plants. The petitioners further claim that workers at a nearby auto parts plant received trade adjustment assistance while the petitioners did not.

The Department's review showed that Carter Carburetor in St. Louis, Missouri produced carburetors and fuel pumps which were distributed through the Corning Distribution Company in Corning, Arkansas. The review further showed that workers at the subject firms, both subsidiaries of American Car Foundry (ACF) Industries, were denied because they did not meet the "contributed importantly" test of the Trade Act of 1974. The Department's survey of major customers of the subject firms showed that none of the customers surveyed purchased imported fuel pumps or carburetors during 1977, 1978 or 1979. Further, U.S. imports of carburetors, which constitutes virtually all of the St. Louis plant production, are negligible. Components of automobiles, such as carburetors and fuel pumps cannot be considered "like or directly competitive" with finished articles. See *United Shoe Workers of America v. Bedell 506 F2d.*, (1974).

The Department does not consider the petitioners' claim that workers in a nearby auto parts plant producing shock absorbers were found eligible for trade adjustment assistance while they were not as relevant in rebutting the Department's original denial. For certification, the Trade Act requires that worker groups filing a petition must meet the three statutory group criteria by themselves during the period under investigation. In this case, workers of Carter Carburetor and the Corning Distribution Company did not meet all the statutory criteria while those of the other firm did. In the shock absorber case, the certification was based on corporate imports by Monroe and a major OEM customer shifted to imports of shock absorbers.

Conclusion

After review of the application and the investigative file, I conclude that there has been no error or misinterpretation of fact or misinterpretation of the law which would justify reconsideration of the Department of Labor's prior decision. The application is, therefore, denied.

Signed at Washington, D.C., this 11th day of March 1980.

James F. Taylor,
*Director, Office of Management,
Administration and Planning.*

DeLuca Sportswear, Inc.; Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met.

The investigation was initiated on January 10, 1980 in response to a worker petition received on December 20, 1979 which was filed by the Amalgamated Clothing and Textile Workers Union on behalf of workers and former workers producing men's and boys' suits, sportcoats and vests at DeLuca Sportswear, Incorporated, Philadelphia, Pennsylvania. Without regard to whether any of the other criteria have

been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

U.S. imports of men's and boys' tailored suits decreased absolutely and relative to domestic production in 1978 compared to 1977 and decreased absolutely in 1979 compared to 1978. U.S. imports of men's and boys' tailored dress coats and sportcoats decreased absolutely in 1979 compared to 1978. U.S. imports of men's and boys' tailored suit vests decreased absolutely in 1978 compared to 1977.

A Department survey of clothing manufacturers who provided contract work to DeLuca revealed that none of the manufacturers surveyed imported suits, sportcoats, or vests during 1978 and 1979. The manufacturers' sales increased from 1978 to 1979.

Conclusion

After careful review, I determine that all workers of DeLuca Sportswear, Incorporated, Philadelphia, Pennsylvania are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 10th day of March 1980.

Dunlop Tire and Rubber Corp.; Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met.

The investigation was initiated on January 7, 1980 in response to a worker petition received on December 26, 1979 which was filed by the United Rubber, Cork, Linoleum and Plastic Workers of America on behalf of workers and

former workers producing passenger car tires at the Huntsville, Alabama plant of the Dunlop Tire and Rubber Corporation. It is concluded that all of the requirements have been met.

U.S. imports of passenger car tires increased both absolutely and relative to domestic production in 1979 compared with 1978.

Imports of passenger car tires by Dunlop increased both absolutely and relative to domestic production in 1979 compared with 1978.

A survey of customers buying passenger car tires from Dunlop Tire and Rubber Corporation revealed that a significant proportion of customers decreased purchases from domestic sources and increased purchases from foreign sources in 1979 compared with 1978.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with passenger car tires produced at the Huntsville, Alabama plant of the Dunlop Tire and Rubber Corporation contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers at the Huntsville, Alabama plant of the Dunlop Tire and Rubber Corporation who became totally or partially separated from employment on or after April 22, 1979 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 7th day of March 1980.

Dunlop Tire & Rubber Corp.; Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met.

The investigation was initiated on January 21, 1980 in response to a worker petition received on January 15, 1980 which was filed by the United Rubber, Cork, Linoleum and Plastic Workers of America on behalf of workers and former workers producing tires for passenger cars, trucks, and motorcycles at the Buffalo, New York plant of the Dunlop Tire and Rubber Corporation. It is concluded that, with respect to workers producing passenger car tires, all of the requirements have been met.

U.S. imports of passenger car tires increased both absolutely and relative to domestic production in 1979 compared with 1978.

Company imports of passenger car tires by Dunlop increased both absolutely and relative to domestic production in 1979 compared with 1978.

A survey of customers buying passenger car tires from Dunlop Tire and Rubber Corporation revealed that a significant proportion of customers decreased purchases from domestic sources and increased purchases from foreign sources in 1979 compared with 1978.

With respect to workers producing truck tires, all of the requirements have been met.

U.S. imports of truck tires increased both absolutely and relative to domestic production in 1979 compared with 1978.

Imports of truck tires by Dunlop increased both absolutely and relative to domestic production in 1979 compared with 1978.

A survey of customers buying truck tires from Dunlop Tire and Rubber Corporation revealed that a significant proportion of customers decreased purchases from domestic sources and increased purchases from foreign sources in 1979 compared with 1978.

With respect to workers producing motorcycle tires, all of the requirements have been met.

U.S. imports of motorcycle tires increased both absolutely and relative to domestic production in 1978 compared with 1977 and remained at high levels in 1979 compared with 1978.

Imports of motorcycle tires by Dunlop Tire and Rubber Corporation increased both absolutely and relative to domestic production in 1979 compared with 1978.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with tires for passenger cars, trucks and motorcycles produced at the Buffalo, New York plant of the Dunlop Tire and Rubber Corporation contributed importantly to the decline in sales or production and to

the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers at the Buffalo, New York plant of the Dunlop Tire and Rubber Corporation who became totally or partially separated from employment on or after April 29, 1979 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of March 1980.

James F. Taylor,

Everlock Detroit Inc.; Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met.

The investigation was initiated on January 28, 1980 in response to a worker petition received on January 18, 1980 which was filed on behalf of workers and former workers producing industrial fasteners at Everlock Detroit Incorporated, Sterling Heights and Mt. Clemens, Michigan. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

U.S. imports of specialty fasteners, including nuts, were negligible in 1978 and 1979.

Everlock Detroit Incorporated produces threaded female industrial fasteners (nuts) that are engineered to customer specifications. A Department survey revealed that none of the surveyed customers who had reduced purchases from Everlock Detroit had increased purchases of imported industrial fasteners in 1979 compared to 1978.

Conclusion

After careful review, I determine that all workers of Everlock Detroit Incorporated, Sterling Heights and Mt. Clemens, Michigan are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 11th day of, March 1980.

[TA-W-6862]

General Industries Electronics, Inc.; Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met.

The investigation was initiated on January 28, 1980 in response to a worker petition received on January 23, 1980 which was filed on behalf of workers and former workers producing direct current fractional horsepower electric motors at General Industries Electronics, Incorporated, Forrest City, Arkansas. In the following determination, without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

General Industries Electronics, Incorporated produced direct current fractional horsepower motors for use in the automobile industry. The petitioners allege that increased imports of automobiles contributed importantly to declines in sales or production and to the separation of workers at General Industries Electronics, Incorporated. Imported automobiles cannot be considered like or directly competitive with direct current fractional horsepower motors.

A survey of customers of General Industries Electronics, Incorporated, Forrest City, Arkansas representing over 95 percent of sales was conducted by the Department. The survey results indicated that none of the customers purchased imported direct current fractional horsepower motors of the size and capacity produced by General Industries Electronics during 1978 and 1979.

Conclusion

After careful review, I determine that all workers of the General Industries Electronics, Incorporated, Forrest City, Arkansas are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 11th day of March 1980.

Jacobson Manufacturing Co. and Jersey Jacobson; Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group of eligibility requirements of Section 222 of the Act must be met.

The investigations were initiated on January 16, 1980 in response to worker petitions received on December 31, 1979 which were filed by the United Automobile, Aerospace, and Agricultural Implement Workers of America on behalf of workers and former workers producing nuts at Jacobson Manufacturing Company, Kenilworth, New Jersey (TA-W-6793) and on behalf of workers and former workers producing nuts at Jersey Jacobson, Union, New Jersey (TA-W-6794). Jacobson Manufacturing Company and Jersey Jacobson are jointly owned and operated. In the following determination, without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

U.S. imports of specialty fasteners, including nuts, were negligible during 1978 and 1979.

A Department survey revealed that none of the surveyed customers who had reduced purchases from Jacobson Manufacturing Company has increased purchases of imported industrial fasteners in 1979 compared to 1978.

Conclusion

After careful review, I determine that all workers of Jacobson Manufacturing Company, Kenilworth, New Jersey (TA-W-6793) and all workers of Jersey Jacobson, Union, New Jersey (TA-W-6794) are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 11th day of March 1980.

James F. Taylor,

Director, Office of Management Administration and Planning.

BILLING CODE 4510-28-M

[TA-W-6822]

Keystone Group; Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met.

The investigation was initiated on January 21, 1980 in response to a worker petition received on January 15, 1980 which was filed by the Independent Steel Workers Alliance on behalf of workers and former workers producing steel and wire products at Keystone Group, Bartonville, Illinois. In the following determination, without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or

threat thereof, and to the absolute decline in sales or production.

U.S. imports of carbon steel wire rod, wire, and wire products decreased both absolutely and relative to domestic shipments during the first nine months of 1979 compared to the first nine months of 1978. U.S. imports of semifinished carbon steel products, including steel billets, decreased absolutely during the first nine months of 1979 compared to the first nine months of 1978. Sales of steel rods and billets produced at Bartonville, measured in both quantity and value, increased during 1979 compared to 1978.

On March 10, 1978 the Office of Trade Adjustment Assistance issued a certification of eligibility to apply for trade adjustment assistance applicable to workers of the Bartonville, Illinois plant (TA-W-2612). That certification expired on March 10, 1980—two years from its date of issuance. The most recent employment declines at the Bartonville plant began in June 1979 and continued until January 1980, when recalls of workers commenced. By the end of February 1980 levels of employment at Bartonville had risen to match levels of employment in June 1979.

Conclusion

After careful review, I determine that all workers of Keystone Group, Bartonville, Illinois are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 12th day of March 1980.

James F. Taylor,
*Director, Office of Management,
Administration and Planning.*

[TA-W-7146]

Lilliput; Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility

requirements of Section 222 of the Act must be met.

The investigation was initiated on February 19, 1980 in response to a worker petition received on February 5, 1980 which was filed on behalf of workers and former workers who contracted sewing for children's snowsuits and jackets at Lilliput, Hackensack, New Jersey. It is concluded that all of the requirements have been met.

U.S. imports of women's, misses' and children's coats and jackets increased both absolutely and relative to domestic production in 1978 compared to 1977.

U.S. imports of women's, misses' and children's suits (which includes snowsuits) increased absolutely and relative to domestic production in 1978 compared to 1977.

Lilliput is a contractor for a manufacturer of children's and infants' outerwear. A Department survey revealed that the sole customer of this manufacturer decreased purchases from the manufacturer and increased purchases of imports in 1979 compared to 1978. Workers of this manufacturer were certified eligible to apply for trade adjustment assistance in January 1980.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that the increases of imports of articles like or directly competitive with children's snowsuits and jackets produced at Lilliput, Hackensack, New Jersey contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Lilliput, Hackensack, New Jersey who became totally or partially separated from employment on or after January 2, 1979 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 11th day of March 1980.

James F. Taylor,
*Director, Office of Management,
Administration and Planning.*

BILLING CODE 4510-28-M

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance

Petitions have been filed with the Secretary of Labor under Section 221(a)

of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigations pursuant to Section 221(a) of the Act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than March 28, 1980.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than March 28, 1980.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 13th day of February 1980.

Marvin M. Fooks,
*Director, Office of Trade Adjustment
Assistance.*

Loree Footwear Corp.; Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met.

The investigation was initiated on January 22, 1980 in response to a worker petition received on January 18, 1980 which was filed on behalf of workers and former workers producing dresses and casual shoes for women at Loree Footwear Corporation, Freeport, Maine. The investigation revealed that the plant produces women's dress and casual shoes but does not manufacture dresses. It is concluded that all of the requirements have been met.

U.S. imports of women's non rubber footwear, except athletic, increased absolutely and relative to domestic production in 1978 compared to 1977 and in January through September 1979 compared to the like period of 1978.

The Departmental survey was conducted of customers which decreased purchases of women's dress and casual shoes from Loree Footwear Corporation in 1979 compared to 1978. The survey revealed that, in aggregate, customers increased their purchases of imported women's shoes on an absolute basis and as a percent of their total demand for women's dress and casual shoes in 1979 compared to 1978.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increase of imports of articles like or directly competitive with women's dress and casual shoes produced at Loree Footwear Corporation, Freeport, Maine contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Loree Footwear Corporation, Freeport, Maine who became totally or partially separated from employment on or after January 14, 1979 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 11th day of March 1980.

James F. Taylor,

Director, Office of Management, Administration and Planning.

BILLING CODE 4510-23-M

[TA-W-6764]

McGregor Sportswear; Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met.

The investigation was initiated on January 10, 1980 in response to a worker

petition received on December 26, 1979 which was filed by the Amalgamated Clothing and Textile Workers' Union on behalf of workers and former workers at the Berwick, Pennsylvania distribution center of McGregor Sportswear (formerly McGregor-Doniger, Incorporated). It is concluded that all of the requirements have been met.

U.S. imports of men's and boys' outer jackets increased from 1976 to 1977 and from 1977 to 1978.

During the past two years, five out of a total of seven McGregor-Doniger plants (for which the Berwick, Pennsylvania facility acts as a distribution center), as well as corporate offices in Dover, New Jersey, has been closed permanently.

Workers at six of the seven McGregor-Doniger plants have been certificated as eligible to apply for trade adjustment assistance (TA-W-1693, 4124, 4216-4217, 4436, 4702). Notices of Determination were issued on, respectively, October 31, 1977; January 8, 1979; January 22, 1979; February 5, 1979; and March 16, 1979. These six plants represent a substantial portion of McGregor-Doniger's domestic production. Workers at corporate offices in Dover, New Jersey and New York, New York have also been certified (TA-W-4702A, 4702B). A Notice of Determination was issued on March 16, 1979.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's apparel produced by McGregor-Doniger, Incorporated contributed importantly to the decline in sales or production and to the total or partial separation of workers of the Berwick, Pennsylvania distribution center of McGregor Sportswear (formerly McGregor-Doniger, Incorporated). In accordance

with the provisions of the Act, I make the following certification:

All workers of the Berwick, Pennsylvania distribution center of McGregor Sportswear (formerly McGregor-Doniger, Incorporated) who became totally or partially separated from employment on or after December 20, 1978 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 10th day of March 1980.

James F. Taylor,

Director, Office of Management, Administration and Planning.

Modern Coat Co.; Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met.

The investigation was initiated on February 12, 1980 in response to a worker petition received on January 29, 1980 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' coats at Modern Coat, Union City, New Jersey. The investigation revealed that the correct company's name is Modern Coat Company. In the following determination, without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

U.S. imports of women's, misses' and children's coats and jackets declined absolutely in the first nine months of 1979 compared with similar period in 1978.

A survey conducted by the Department of Labor of the customers of Modern Coat Company shows that these manufacturers decreased imports of ladies' coats and increased orders for ladies' coats with other domestic

contractors in 1979 compared with 1978. Sales of ladies' coats by the manufacturers increased from 1978 to 1979.

Conclusion

After careful review, I determine that all workers of Modern Coat Company, Union City, New Jersey are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 11th day of March 1980.

James F. Taylor,

Director, Office of Management, Administration and Planning.

BILLING CODE 4510-28-M

[TA-W-6127 and 6128]

National Standard Co.; Negative Determination on Reconsideration

On January 22, 1980, the Department made an Affirmative Determination Regarding Application for Reconsideration for workers and former workers of the Columbiana and Childersburg, Alabama, plants of National Standard Company. This determination was published in the *Federal Register* on January 29, 1980, (45 FR 6675).

In applying for reconsideration, the petitioners define three major arguments: (1) That production and employment losses at the Columbiana and Childersburg, Alabama, plants of National Standard Company have occurred as a result of a corporate transfer in the production of tire cord wire from the domestic production facilities in Columbiana and Childersburg to the foreign production operations of National Standard Company in the United Kingdom and Canada; (2) that the workers of several customers of National Standard Company (i.e., workers of passenger and truck tire manufacturers) have been certified as eligible to apply for worker adjustment assistance is indicative of a prejudicial determination in their own case; and (3) that foreign suppliers are capturing an increasing portion of the U.S. tire cord market displacing the workers of such domestic suppliers as National Standard Company. In addition, the United Steelworkers of America cite the 1979 Report of National Standard Company and company import data for the last five years contained therein in support of the petitioners' arguments. The petitioners and the union do not dispute the Department's findings with respect to production of

bead wire, hose wire and fiber wire at the Columbiana and Childersburg plants.

In light of the arguments and information presented by the petitioners, a further investigation was made by the Department. The investigation confirmed the Department's initial findings that importing by National Standard Company from its foreign operations in the United Kingdom and Canada was insignificant during the period of investigation, 1978-1979. According to company officials, tire cord wire produced in the United Kingdom was imported on an experimental basis to determine the compatibility of this tire cord with the rubber compound produced by domestic tire manufacturers. National Standard Company also imported semi-finished wire from its Canadian facility. However, the quantity of semi-finished wire imported was insignificant and was used only to supplement the brass plating operations of the Columbiana and Childersburg plants. The Canadian facility did not produce finished tire cord during 1978-1979. The data on National Standard Company imports submitted by the union represents total intracorporate sales—machinery as well as finished product and exports as well as imports.

The fact that the Department has certified workers of several tire manufacturers as eligible to apply for adjustment assistance does not direct a certification for the workers of the tire cord industry. The Department has certified certain groups of workers in the tire manufacturing industry on the basis of increases of imports of tires. The Department's findings indicate that Columbiana and Childersburg plants are not in a situation comparable to tire manufacturers. The major domestic customers of National Standard have found that the tire cord wire produced at Columbiana and Childersburg is incompatible with the rubber compound produced at their facilities. The compatibility of the tire cord wire and the rubber compound is defined by the adhesion characteristics the wire and the rubber exhibit for each other. Without proper adhesion the tire results cannot meet minimum safety and performance standards. The compatibility of tire cord with a rubber compound is unique, i.e., a type of tire cord may be compatible with certain rubber compounds but not with others. Thus, National Standard Company was able to maintain sales to some firms but lost significant others. As a consequence, several major domestic tire manufacturers have turned to

foreign tire cord producers which are capable of meeting their specifications.

The fact *per se* that domestic tire manufacturers have increased their purchases of foreign-manufactured tire cord, as a result of the inability to obtain tire cord domestically, is not a basis for certification. The Senate Finance Committee report on the Trade Act of 1974, in discussing the certification criterion that increased imports must have "contributed importantly" to the petitioning workers' separations and to the firm's production or sales declines, states: ". . . the Secretary may find that imports were at such a level that, under ordinary circumstances, they would have been an important factor in causing total or partial separations of a group of workers and in the decline in sales or production, but that another cause was so dominant that the separations and decline in sales or production would have been essentially the same irrespective of the influence of the import increase. In such a case, the Secretary would not find the increased imports had 'contributed importantly' " (S. Report 93-1298, 93rd Cong., 2d Sess., 1974, p. 133).

In the case of Columbiana and Childersburg plants, the dominant cause of the separations was the incompatibility of the tire cord produced there with tire manufacturers' technical specifications. Thus, the separations and declines in sales and production would have been essentially the same irrespective of the influence of imports. Tire manufacturers surveyed by the Department indicated that total domestic supply of tire cord is insufficient to support demand, and that this supply shortfall is aggravated by the problem of obtaining tire cord which will meet their technical specifications.

Conclusion

After reconsideration, I reaffirm the original denial of eligibility to apply for adjustment assistance to workers and former workers of the National Standard Company, Columbiana and Childersburg, Alabama, plants.

Signed at Washington, D.C., this 10th day of March 1980.

James F. Taylor,

Director, Office of Management,
Administration and Planning.

BILLING CODE 4510-28-M

[TA-W-6809]

Stanhope Sewing Center, Inc.; Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met.

The investigation was initiated on January 18, 1980 in response to a worker petition received on January 11, 1980 which was filed on behalf of workers and former workers producing women's sportswear at Stanhope Sewing Center, Incorporated, Netcong, New Jersey. The investigation revealed that the plant primarily produces women's blouses. In the following determination, without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

U.S. imports of women's, misses' and children's blouses and shirts decreased absolutely during the January-September period of 1979 compared to the corresponding period of 1978.

The Department of Labor conducted a survey of the manufacturers from whom Stanhope Sewing Center, Incorporated received contract work during 1979. The survey revealed that these manufacturers did not contract with foreign sources or import women's blouses during 1977, 1978 or 1979. The manufacturers reported that their sales increased during 1979 compared to 1978.

Conclusion

After careful review, I determine that all workers of Stanhope Sewing Center, Incorporated, Netcong, New Jersey are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 11th day of March 1980.

Donald J. Rousslang,

Acting Director, Office of Foreign Economic
Research.

BILLING CODE 4510-28-M

[TA-W-7117]

Swagger, Inc.; Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met.

The investigation was initiated on February 13, 1980 in response to a worker petition received on February 1, 1980 which was filed on behalf of workers and former workers producing men's trousers and slacks at Swagger, Incorporated, Telfor, Pennsylvania. In the following determination, without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Evidence developed in the course of the investigation revealed that U.S. imports of men's and boys' dress and sport trousers and short declined in quantity in 1979 compared to 1978.

Swagger, Incorporated produces men's trousers on a contract basis for one manufacturer. That manufacturer does not purchase imported trousers nor use the services of foreign contractors to produce trousers. Sales, however, of trousers by the manufacturer declined. A survey of customer (retail outlets) of the manufacturer revealed that most retail outlets who reduced purchases of trousers from the manufacturer in 1979 compared to 1978 did not increase purchases of imported trousers during the period. Customers surveyed who increased import purchases from 1978 to 1979 while decreasing purchase from Irving Greenberg, Incorporated accounted for an insignificant proportion of the total sales decline experienced by Irving Greenberg, during the period.

Conclusion

After careful review, I determine that all workers of Swagger, Incorporated, Telfor, Pennsylvania are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 11th day of March 1980.

James F. Taylor,

Director, Office of Management,
Administration and Planning.

BILLING CODE 3510-12-M

NUCLEAR REGULATORY COMMISSION

Privacy Act of 1974; New System of Records

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of new system of records.

SUMMARY: The Nuclear Regulatory Commission has established a new system of records identified as Document Control System, NRC-29. The purpose of the system is to enable the agency to maintain document control for all documents originated or received by the NRC staff and to serve as an information source for these documents. The system incorporates existing system NRC-26. When the new system NRC-29 becomes effective on the existing system NRC-26 will be deleted.

EFFECTIVE DATE: This amendment to the NRC Notices of Systems of Records becomes effective on April 17, 1980.

FOR FURTHER INFORMATION CONTACT: Joseph M. Felton, Director, Division of

Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Telephone: 301-492-7211.

SUPPLEMENTARY INFORMATION: The Nuclear Regulatory Commission published a notice of a proposed new system of records in the *Federal Register* on August 28, 1979 (44 FR 50418). The notice invited comments on the proposed new system of records identified as Document Control System, NRC-29, by September 27, 1979. No comments were received on the proposed new system of records, which will consist of correspondence and related documents originated or received by the NRC staff.

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and sections 552, 552a, and 553 of Title 5 of the United States Code, the following notice of NRC Systems of Records, Document Control System, NRC-29, is published as a document subject to publication in the annual compilation of Privacy Act Documents.

Dated at Bethesda, Maryland this 5th day of March 1980.

For the Nuclear Regulatory Commission,
William J. Dircks,
Acting Executive Director for Operations.

NRC-29

SYSTEM NAME:

Document Control System—NRC-29.
Pursuant to 5 U.S.C. 552a(k), the Commission has exempted portions of this system of records from 5 U.S.C. 552a(c)(3), (e)(1), (e)(4)(G), (H), (I), and (f). This exemption rule is contained in section 9.95 of the NRC regulation (10 CFR 9.95).

SYSTEM LOCATION:

Primary system—Division of Technical Information and Document Control, Office of Administration, U.S. Nuclear Regulatory Commission, 7920 Norfolk Avenue, Bethesda, Maryland.

Duplicate system—duplicate systems exist, in whole or in part, at the locations listed in Addendum I, Parts 1 and 2 of the NRC Notice of Systems of Records; the NRC Public Document Room, 1717 H Street, NW., Washington, D.C.; the NRC Local Public Document Rooms (LPDR's); and the TERA Advanced Services Corporation, 7101 Wisconsin Avenue, Suite 1400, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NRC staff, contractors, and sub-contractors, licensees, congressional

offices, and other correspondents with the NRC staff.

CATEGORIES OF RECORDS IN THE SYSTEM:

Documents both received by and originated by the NRC.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

- a. 44 U.S.C. 3101.
- b. Sec. 201, Energy Reorganization Act of 1974, U.S.C. 5841.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

- a. To refer, where appropriate, inquiries to Federal agencies or persons for their reply or action;
- b. To provide information to persons or agencies requesting this information, including provision of Daily Accession Lists in the NRC Public Document Room and Local Public Document Rooms;
- c. To prepare a monthly "Title List of Documents Made Publicly Available," and
- d. For any of the routine uses specified in the Prefatory Statement.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on microfiche, disks, tapes, and paper in file folders. Classified documents are maintained in locked safes; proprietary and sensitive safeguards documents are maintained in secured facilities.

RETRIEVABILITY:

Accessed by name (author and recipient), corporate source, subject matter, or other identifying document or control number.

SAFEGUARDS:

Access to and use of these records are limited to those persons whose official duties require such access. Information not exempt from disclosure under the Freedom of Information Act (FOIA) will be publicly available in the PDR's and LPDR's.

RETENTION AND DISPOSAL:

Retained and destroyed in accordance with approved records disposal schedules for the various types of records involved.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Technical Information and Document Control, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

NOTIFICATION PROCEDURE:

Director, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure." Information which is classified or otherwise exempt from public disclosure under the FOIA and will not be disclosed.

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information in this system of records comes from the correspondence to and from the NRC staff, contractors, and NRC staff employees.

TREASURY DEPARTMENT

Customs Service

[T.D. 80-83]

Tariff-Rate Quota for the Calendar Year 1980, on Fish Dutiable Under Item 110.50, Tariff Schedules of the United States (TSUS).

March 7, 1980.

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Announcement of the quota quantity on certain fish for calendar year 1980.

SUMMARY: The tariff-rate quota for fish pursuant to item 110.50, TSUS, for the 1980 calendar year is 45,241,035 pounds.

EFFECTIVE DATES: The 1980 tariff-rate quota is applicable to fish described in item 110.50, TSUS, which are entered, or withdrawn from warehouse, for consumption during calendar year 1980.

FOR FURTHER INFORMATION CONTACT: Helen C. Rohrbaugh, Head, Quota Section, Duty Assessment Division, Office of Commercial Operations, U.S. Customs Service, Washington, D.C. 20229 (202-566-8592).

SUPPLEMENTARY INFORMATION: This tariff-rate quota for fish is equal to 15 percent of the average aggregate apparent annual consumption in the United States of fish, fresh, chilled or frozen, fillets, steaks, and sticks, of cod, cusk, haddock, hake, pollock, and rosefish, for the three preceding years, as provided for in headnote 1, part 3A, schedule 1, and item 110.50, TSUS.

It has been determined that the average aggregate consumption for calendar years 1977 through 1979 was

301,606,899 pounds. Therefore, the quota quantity of fish, item 110.50, TSUS, for calendar year 1980 is 45,241,035 pounds.

William T. Archey,

Acting Commissioner of Customs.

CIVIL AERONAUTICS BOARD.

TIME AND DATE: 1 p.m., March 20, 1980.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT:

1. Ratification of Items adopted by notation.
2. Freedom of Information Act request of A. V. Costantini for access to Board records concerning violations of the Federal Aviation Act (memo No. 9539, OGC, BCP).
3. Dockets 33113 and 36202; statutory notice requirements for tariff filing and Special Tariff Permission to file on less than statutory notice (OGC, BDA).
4. Docket 35197, Finalization of interim rule on terminations, suspensions, and reductions of service (OGC, BDA).
5. Schedule listings and delays in discontinuing service under Part 323 (OGC, BDA).
6. Docket 25546, Mackey certification proceeding; removal of condition concerning inter-corporate transactions (memo No. 7984-C, OGC).
7. Dockets EAS-429, 430, 431, 446; Appeals of Essential Air Service Determinations of Alexandria, Lafayette, Lake Charles and Shreveport, Louisiana (memo No. 9532, OGC, OCCR, BDA).
8. Docket 36941, Reconsideration of Order 79-10-133 that deferred action on applications for new route authority at Boston (memo No. 9200-B, BDA).
9. Docket 37072, Petition to review Order 79-11-52, November 7, 1979, award of unused authority in the Ft. Meyers-West Palm Beach market to TWA (memo No. 9537, BDA).
10. Docket 36116, *Seattle-San Francisco/Los Angeles/San Diego Show-Cause*

Proceeding; Docket 37299, Seattle-Sacramento/Reno/Fresno/Stockton/Las Vegas/Tucson Show-Cause Proceeding. (BDA).

11. Docket 37712, Cochise's notice to terminate service at Gallup, New Mexico (BDA, OCCR).
12. Docket 37703, Sun International's notice to terminate service at Aguadilla, Puerto Rico (BDA, OCCR).
13. Docket 33789, Petition of Air Florida for reconsideration of Order 79-11-103 (BDA).
14. Docket 36357 Altair Airlines, Inc.; Docket 37424 Air New England, Inc.; Docket 37380 Big Sky Airlines; Docket 37401 New Haven Airways, Inc.; Docket 37618 Imperial Airlines; Docket 37667 Mid-South Aviation, Inc. and Docket 37287 Sky West Aviation, Inc. Altair requests reconsideration of its exemption from Part 250 granted in Order 79-12-161. The other carriers request similar exemption from Part 250 (BDA).
15. Docket 32901 Application of Texas International Airlines for compensation for losses incurred in support of essential air service at Carlsbad and Hobbs, New Mexico. Docket 36481 Application of Air Midwest for compensation for losses sustained in providing part of the essential air service at Carlsbad, Clovis and Hobbs, New Mexico (memo No. 9406-A, BDA).
16. Docket 34774 Application of Metro Airlines for compensation for losses in providing essential air service at Paris, Texas (memo No. 8060-J, BDA, OCCR, OGC, OC).
17. Docket 37751 Petition of Nor East Commuter Airlines, Inc. for advance compensation for losses in providing essential air service at New Bedford (BDA, OCCR, OGC, OC).
18. Docket 23080-2 and 37294, Priority and Nonpriority Domestic Service Mail Rates Investigation (BDA).
19. Domestic Fare Flexibility and Docket 31290, Domestic Passenger Fare Policy (BDA).
20. Docket 32660, IATA agreements establishing a number of general resolutions governing such matters as currency surcharge factors, conditions of service, meeting of non-party carrier fares and practices and other administrative or fare matters (memo No. 9538, BIA).
21. Docket 37123, Application of Transportes Aereos Nacionales, S.A. for exemption to operate limited Fifth Freedom turnaround cargo service between Miami and Belize (BIA).
22. Docket 36919, Application of Redcoat Air Cargo Limited for foreign charter air carrier permit to carry cargo between the United States and the United Kingdom (BIA, OGC, BALJ).
23. Docket 26373, Aerolineas El Salvador, S.A. application for renewal of foreign air carrier permit authorizing foreign air transportation of property and mail between El Salvador and Miami (BIA, OGC, BALJ).
24. Docket 37306, Application of Societe Anonyme Belge d'Exploitation de la

Navigation Aerieenne (SABENA) for amendment of its foreign air carrier permit to add the coterminous points Detroit and Chicago (BIA, OGC, BALJ).

STATUS: Open.

PERSON TO CONTACT: Phyllis T. Kaylor, the Secretary (202) 673-5068.

Part II

Department of the Interior

**Heritage Conservation and Recreation
Service**

**National Register of Historic Places;
Annual Listing of Historic Properties**

DEPARTMENT OF THE INTERIOR**Heritage Conservation and Recreation
Service****National Register of Historic Places;
Annual Listing of Historic Properties**

Pursuant to the National Historic Preservation Act of 1966 (80 Stat. 915, 16 U.S.C. 470 et seq.), the Heritage Conservation and Recreation Service, Department of the Interior, has undertaken steps to implement the purposes of that act through: (1) expansion of the National Register of Historic Places, (2) initiating a program of grants-in-aid for historic preservation, and (3) adoption of procedures and criteria for furthering the Nation's historic preservation program.

It is the purpose of this notice, through publication of the information included herein, to apprise the public, as well as governmental agencies, associations, and all other organizations and individuals interested in historic preservation of the properties added to the National Register during 1979, and of the properties determined eligible for inclusion in the National Register through December 1979.

Ronald M. Greenberg,

Acting Chief, National Register of Historic Places.

The following properties were placed on the National Register of Historic Places between January and December 1979. Properties recorded by the Historic American Buildings Survey are designated by HABS and properties recorded by the Historic American Engineering Record are designated by HAER.

This listing differs from previous annual listings published by the Heritage Conservation and Recreation Service in that properties are listed that were entered on the National Register only for calendar year 1979. For a cumulative listing comprising all properties on the National Register, we recommend that users retain the **Federal Register** listing from February 6, 1979 (Vol. 44 No. 26, Part II). Together these listings provide accumulative information for all National Register properties and for properties determined eligible for inclusion on the National Register through 1979. The 1979 **Federal Register** Part II is available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 (GPO Stock No. 022-003-00971-0) price 75¢.

The following properties have been determined to be eligible for inclusion in the National Register. All determinations of eligibility are made at the request of the concerned Federal Agency under the authorities in section 2(b) and 1(3) of Executive Order 11593, as implemented by the Advisory Council on Historic Preservation, 36 CFR Part 800. This listing is not complete.

Pursuant to the authorities discussed herein, an Agency Official shall refer any questionable actions to the Associate Director for Cultural Programs, Heritage Conservation and Recreation Service, U.S. Department of the Interior, Washington, D.C. 20243, for an opinion respecting a property's eligibility for inclusion in the National Register.

Historical properties which are determined to be eligible for inclusion in the National Register of Historic Places are entitled to protection pursuant to section 106 of the National Historic Preservation Act of 1966, as amended, and the procedures of the Advisory Council on Historic Preservation, 36 CFR, Part 800. Agencies are advised that in accord with the procedures of the Advisory Council on Historic Preservation, before an agency of the Federal Government may undertake any project which may have an effect on such a property, the Advisory Council on Historic Preservation shall be given an opportunity to comment on the proposal.

Part III

Department of Agriculture

**Animal and Plant Health Inspection
Service**

**Animal Welfare; List of Registered
Research Facilities**

DEPARTMENT OF AGRICULTURE**Animal and Plant Health Inspection
Service****Animal Welfare; List of Registered
Research Facilities**

Pursuant to the provisions of the Animal Welfare Act (7 U.S.C. 2131 *et seq.*), and the regulations thereunder (9 CFR Part 2), notice is hereby given that the research facilities listed below are registered under said Act:

Note.—Any "X" denotes inactive registrant-research facilities that have suspended research activities but may resume research at a future time.

(Sec. 3, 80 Stat. 351, as amended (7 U.S.C. 2133).)

Done at Washington, D.C., this 10th day of March 1980.

J. K. Atwell,

*Acting Deputy Administrator, Veterinary
Services.*

BILLING CODE 3410-34-C

Federal Register

Tuesday
March 18, 1980

Part V

Department of Energy

Foreign Gifts and Decorations; Policies
for Department Employees

DEPARTMENT OF ENERGY

10 CFR Part 1050

Foreign Gifts and Decorations

AGENCY: Department of Energy.

ACTION: Proposed regulations.

SUMMARY: The Department of Energy is proposing to amend 10 CFR to establish a new Part 1050 which establishes policies and procedures for DOE employees to follow concerning the acceptance of gifts and decorations from foreign Governments. This new rule implements the Foreign Gifts and Decorations Act, (5 U.S.C. 7342).

DATE: Written comments should be submitted April 17, 1980.

ADDRESS: Written comments should be submitted to: Ralph D. Goldenberg, Assistant General Counsel for Standards of Conduct GC-45, U.S. Department of Energy, MS B206, Washington, D.C. 20545.

FOR FURTHER INFORMATION CONTACT: Katherine B. Soffer, Attorney, Office of the Assistant General Counsel for Standards of Conduct, GC-45, U.S. Department of Energy, Washington, D.C. 20545, (301) 353-4016.

SUPPLEMENTARY INFORMATION: In the Foreign Gifts and Decorations Act, 5 U.S.C. 7342 (hereafter the Act), the Congress consented to an exception to the general Constitutional rule prohibiting Federal employees from accepting gifts or decorations from foreign governments. The statute allows employees to accept gifts of minimal value tendered as souvenirs or as marks of courtesy; it permits acceptance of gifts such as medical or educational services; it allows acceptance, on behalf of the United States, of gifts of more than minimal value where refusal would adversely affect the foreign relations of the United States; it consents to acceptance by employees of gifts of travel and related expenses for travel taking place entirely outside of the United States; and it permits the acceptance of decorations in recognition of active field service in combat or other outstanding performance. The Act establishes reporting and enforcement provisions and identifies the Department of State as the lead Executive Branch agency in this area.

The proposed regulations are consistent with State Department Guidelines issued on the subject and implemented the substantive provisions of the Act in a straightforward manner. They identify the Directorate of Administration as the lead organization within the Department of Energy for purposes of administering the Act, and

include draft forms for use in meeting reporting requirements. Where appropriate, the General Counsel, the Inspector General, and International Affairs are given major responsibility for consultation. The Federal Energy Regulatory Commission has been included in coverage of the regulations.

Comments

These are not significant regulations as that term is used in section 501 of the DOE Organization Act (42 U.S.C. 7191), Executive Order 12044, and DOE 2030.1. No substantial issue of fact or law exists and the regulations are not likely to have a substantial impact on the Nation's economy or large numbers of individuals or businesses. Therefore, these regulations will be promulgated in accordance with section 553 of Title 5, United States Code. Although the regulations related to Department management and personnel and therefore may be made final without notice and comment period (5 U.S.C. 553(a)(2)), written comments are solicited and will be accepted. Comments must be received by 4:30 p.m. on April 17, 1980 at the address indicated in the "Address" section of this preamble. Seven copies should be submitted.

(The Constitution of the United States, Article I, Section 9; 5 U.S.C. 7342; Pub. L. 95-91, sections 644 and 652, 91 Stat 599 (42 U.S.C. 7254 and 7262))

Issued in Washington, D.C., February 22, 1980.

Charles W. Duncan, Jr.,
Secretary of Energy.

We propose that title 10 Code of Federal Regulations be amended to add a new Part 1050 to read as follows:

PART 1050—FOREIGN GIFTS AND DECORATIONS**Subpart A—General**

- Sec.
- 1050.101 Purpose and scope.
 - 1050.102 Applicability.
 - 1050.103 Definitions.
 - 1050.104 Responsibilities and authorities.

Subpart B—Guidelines for Acceptance of Foreign Gifts or Decorations

- 1050.201 Policy against accepting foreign gifts or decorations.
- 1050.202 Allowable acceptance of gifts.
- 1050.203 Acceptance of decorations.
- 1050.204 Advance approval for acceptance of gifts or decorations.

Subpart C—Procedures and Enforcement

- 1050.301 Reports.
- 1050.302 Use or disposal of gifts and decorations accepted on behalf of the United States.
- 1050.303 Enforcement.

Subpart D—Gifts to Foreign Individuals

- 1050.401 Prohibition against use of appropriated funds.
- Appendix I—Form DOE
- Appendix II—Form DOE
- Appendix III—Standard Form 120.

Subpart A—General**§ 1050.101 Purpose and scope.**

These regulations implement the provisions of the Foreign Gifts and Decorations Act (5 U.S.C. 7342), which establishes policies and procedures pertaining to the acceptance, use, and disposition of gifts or decorations from foreign governments.

§ 1050.102 Applicability.

These regulations apply to all Department of Energy (DOE) employees, including special Government employees, and civilian and military personnel of other Government agencies regularly detailed to DOE, and to spouses and dependents of such personnel. These regulations apply to all employees of the Federal Energy Regulatory Commission (FERC) to the extent the Commission by rule makes these regulations applicable to FERC employees. These regulations do not apply to gifts and bequests accepted by the Department as authorized by section 652 of the Department of Energy Organization Act (42 U.S.C. 7262), except as set forth in § 1050.202(d) of this Part.

§ 1050.103 Definitions.

- (a) "Employee" means—
- (1) An employee of DOE or FERC as defined by 5 U.S.C. 2105 (employees of DOE contractors are specifically excluded);
 - (2) A special Government employee as defined in 18 U.S.C. 202(a), and an expert or consultant who is under contract to the DOE pursuant to 5 U.S.C. 3109, including, in the case of an organization performing services under such section, any individual involved in the performance of such services;
- A member of a Uniformed Service or an employee of another Government agency assigned or detailed to the DOE or FERC;
- (4) The spouse of an individual described in subparagraphs (a)(1) through (a)(3) (unless such individual and his or her spouse are legally separated) or a dependent (within the meaning of section 152 of the Internal Revenue Code of 1954) of such individual, other than a spouse or dependent who is an employee under subparagraphs (a)(1) through (a)(3).

¹ Appendices I through III do not appear in this document. They will be published in the Final Rule.

(b) "Foreign government" means—

(1) Any unit of foreign governmental authority, including any foreign national, State, local, or municipal government;

(2) Any international or multinational organization whose membership is composed of any unit of foreign government described in subparagraph (b)(1); and

(3) Any agent or representative of any such unit or such organization, while acting as such.

(c) "Gift" means a tangible or intangible present (other than a decoration) tendered by, or received from, a foreign government.

(d) "Decoration" means an order, device, medal, badge, insignia, emblem, or award tendered by, or received from, a foreign government.

(e) "Minimal value" means a retail value in the United States at the time of acceptance of \$100 or less.

(f) "The Act" means the Foreign Gifts and Decorations Act, 5 U.S.C. 7342.

(g) "Appropriate General Counsel" means either the DOE General Counsel when the employee involved is an employee of that portion of the DOE which excludes FERC, or the FERC General Counsel when the employee involved is an employee of FERC.

§ 1050.104 Responsibilities and authorities.

The Director of Administration shall—

(1) Assure that all employees are given access to or a copy of the Act and these regulations;

(2) Maintain liaison with the Department of State and prepare Departmental reports to the Department of State consistent with the Act and these regulations;

(3) Provide advice and assistance on implementation of the Act and these regulations, in coordination with the Assistant Secretary for International Affairs (IA) and the appropriate General Counsel;

(4) Collect and maintain for public inspection all employee statements submitted pursuant to these regulations;

(5) Arrange for independent appraisal of the value of gifts or decorations, upon the request of the General Services Administration or the Inspector General (or other appropriate DOE official); and

(6) Accept and maintain custody and make all determinations regarding the use and disposition of all gifts and decorations accepted by employees on behalf of the United States, in coordination with IA, the appropriate General Counsel, and, for gifts to the Secretary, Deputy Secretary or Under Secretary, the appropriate official in the Office of the Secretary.

(b) The Assistant Secretary for International Affairs (IA) shall assist the Directorate of Administration, where appropriate, in making determinations concerning the effects of the proposed acceptance, use, or disposition of a foreign gift or decoration on the foreign relations of the United States.

(c) The General Counsel, DOE, shall assist the Directorate of Administration in matters relating to the interpretation and application of the Act, and these and any related regulations, and shall provide counseling and interpretation regarding the Act, and these and any related regulations, to all DOE employees except FERC employees.

(d) The General Counsel, FERC, shall have the same responsibilities regarding FERC employees as the General Counsel, DOE, has regarding DOE employees other than FERC employees.

(e) Suspected violations of the Act or these regulations shall be referred to the Inspector General.

Subpart B—Guidelines for Acceptance of Foreign Gifts or Decorations

§ 1050.201 Policy against accepting foreign gifts or decorations.

(a) The Constitution of the United States, Article I, section 9, clause 8, provides that "no person holding any office of profit or trust under . . . [the United States], shall, without the consent of the Congress, accept of any present, emolument, office, or title, of any kind whatever, from any . . . foreign state." In the Foreign Gifts and Decorations Act the Congress consented to the acceptance by Federal employees of gifts and decorations with certain constraints and under certain procedures. Acceptance of any gift or decoration not consistent with this Act, the Department of Energy Organization Act, or the regulations in this Part is prohibited.

(b) No employee shall request or otherwise encourage the tender of a gift or decoration from a foreign government. No employee shall accept a gift or decoration from a foreign government except as provided in §§ 1050.202 or 1050.203 of this Part and in accordance with the additional procedures set forth in §§ 1050.204 and 1050.301 of this Part.

(c) An employee, when offered a gift of more than minimal value from a foreign government, should advise the donor that acceptance of such gifts by the employee is contrary to the policy of the United States.

§ 1050.202 Allowable acceptance of gifts.

(a) Employees may accept and retain gifts from foreign governments:

(1) Where the gift is tendered or received as a souvenir or mark of courtesy, and is of minimal value. Initial responsibility for determining the value of a gift lies with the employee.

(2) Where the gift is in the nature of an educational scholarship.

(3) Where the gift is in the form of medical treatment.

(4) Where the gift constitutes assistance from a foreign government for participation in foreign exchange or visitors programs pursuant to the Mutual Educational and Cultural Exchange Act (22 U.S.C. 2458a).

(b) Employees may accept gifts of travel or expenses for travel (such as transportation, food, lodging, or entertainment) taking place entirely outside of the United States where the provision of such travel or expenses is in accordance with diplomatic custom or treaty. A spouse or dependent may accept gifts of travel or travel expenses when accompanying the employee, provided this is done with the prior written approval of the Head of the employee's Office. Travel or expenses for travel may not be accepted merely for the personal benefit, pleasure, enjoyment, or financial enrichment of the individual involved. Appropriate statements shall be filed in accordance with § 1050.301(b) of this Part. When any portion of the travel (such as the origination or termination of a flight) is within the United States, it may not be paid for by a foreign government, except as set forth in paragraph (d) of this section.

Employees may accept gifts of more than minimal value, where it appears that refusal of the gift would likely cause offense or embarrassment or otherwise adversely affect the foreign relations of the United States. If any such gift is accepted by an employee and not immediately returned thereby, it shall be deemed to have been accepted on behalf of the United States. Upon acceptance it becomes the property of the United States. Within 60 days after acceptance by the employee, the gift shall be deposited with the Directorate of Administration for disposal or official Departmental use as determined by the Directorate of Administration, in accordance with § 1050.302 of this Part, and an appropriate statement shall be filed by the employee in accordance with § 1050.301 of this Part.

(d) Pursuant to section 652 of the DOE Organization Act, employees may accept gifts from the International Atomic Energy Agency or other energy-related international organizations (e.g., the Nuclear Energy Agency and the International Energy Agency) covering transportation expenses to or from a

foreign country in connection with scientific or technical assistance projects of such agencies for which the Department of Energy has lead U.S. Government agency responsibility. Such gifts may be accepted only with approval of the Head of the employee's Office, who is hereby delegated authority to accept such gifts in accordance with section 652.

§ 1050.203 Acceptance of decorations.

(a) An employee may accept, retain and wear a decoration tendered by a foreign government in recognition of active field service in time of combat operations or awarded for other outstanding or unusually meritorious performance.

(b) Acceptance of a decoration in accordance with paragraph (a) of this section shall be reviewed and approved by the Directorate of Administration in accordance with § 1050.204 of this Part. Otherwise, it will be deemed to have been accepted on behalf of the United States, and shall be deposited, within 60 days of acceptance, with the Directorate of Administration for disposal or official Departmental use as determined by the Directorate of Administration in accordance with § 1050.302 of this Part.

§ 1050.204 Advance approval for acceptance of gifts or decorations.

(a) If an employee is advised that a gift of more than minimal value as described in § 1050.202(c) is to be tendered to him, the employee shall, if time permits, request the advice of the Directorate of Administration regarding the appropriateness of accepting or refusing the gift. If such advice cannot be obtained and refusal would likely cause offense or embarrassment or otherwise adversely affect the foreign relations of the United States, the gift may be accepted, but the Directorate of Administration shall immediately be informed. In either event, the employee shall proceed as provided in §§ 1050.202 and 1050.301 of this Part. The Directorate of Administration shall consult with Assistant Secretary for International Affairs and the appropriate General Counsel in connection with advising the employee.

(b) Where an employee is notified of the intent of a foreign government to award him a decoration for outstanding or unusually meritorious service, approval required under § 1050.203 should be obtained prior to acceptance of the award. A request for approval shall be submitted to the Directorate of Administration in writing, stating the nature of the decoration and the reasons

why it is being awarded. The Directorate of Administration shall consult with the Assistant Secretary for International Affairs and the appropriate General Counsel. If time does not permit the employee to obtain approval for the award of the decoration before its receipt, the employee may accept it, but shall seek such approval immediately thereafter.

Subpart C—Procedures and Enforcement

§ 1050.301 Reports.

(a) Within 60 days of accepting a tangible present (e.g., wearing apparel, liquor, etc., but not a decoration) of more than minimal value an employee shall, in addition to depositing the gift with the Directorate of Administration in accordance with § 1050.202 of this Part, file with the Directorate of Administration a statement concerning the gift containing the information identified on the sample form set forth in Appendix I.

(b) Within 30 days after accepting travel or travel expenses in accordance with § 1050.202 of this Part, an employee shall file with the Directorate of Administration a statement concerning the travel containing the information identified on the sample form set forth in Appendix II. Such a statement need not be filed, however, if the travel is in accordance with specific travel arrangements made by the Department in cooperation with the foreign government.

(c) The Directorate of Administration shall:

(1) Maintain the statements filed pursuant to these regulations and make them available for public inspection and copying during regular business hours; and

(2) Not later than January 31 of each year compile and transmit to the Department of State for publication by the Department of State in the *Federal Register* a list of all statements filed pursuant to these regulations during the preceding calendar year.

§ 1050.302 Use or disposal of gifts and decorations accepted on behalf of the United States.

(a) The Directorate of Administration shall accept and maintain custody of all gifts and decorations accepted by employees on behalf of the United States pending their final disposition.

(b) Whenever possible, the gift or decoration shall be returned to the original donor. The Directorate of Administration shall examine the circumstances surrounding its donation, and, in consultation with the Assistant

Secretary for International Affairs, assess whether any adverse effect upon the United States foreign relations might result from return of the gift or decoration to the donor. The appropriate officials of the Department of State shall be consulted if the question of an adverse effect arises.

(c) The Directorate of Administration may determine that the gift or decoration may be retained for the official use of the Department, if it can be properly displayed in an area at Headquarters or at a field facility accessible to employees or members of the public or if it is otherwise usable in carrying out the mission of the Department. The Assistant Secretary for International Affairs shall be consulted to determine whether failure to accept the gift or decoration for the official use of the Department will have an adverse effect on the foreign relations of the United States. In no case shall a gift or decoration be accepted for the official use of the Department when the enjoyment and beneficial use of the gift will accrue primarily to the benefit of the donee or any other individual employee. Gifts or decorations that are retained for the official use of the Department shall be handled in accordance with the provisions of paragraph (d) of this section when their official use is ended.

(d) If a gift or decoration is not retained for official use of the Department, or if its official use has ended, the Directorate of Administration shall, within 30 days after its deposit or after its official use has ended—

(1) Report the gift or decoration to the General Services Administration (GSA) for transfer, donation, or other disposal in accordance with the provisions of the Federal Property and Administrative Services Act of 1949 and the Federal Property Management Regulations at 41 CFR 101-49, or

(2) If the gift or decoration is in cash, currency, or monies (except those with possible historic or numismatic value), or is a noncash monetary gift such as a check, money order, bonds, shares of stock, or other negotiable instrument, forward it to the Finance and Accounting Office for deposit with the Department of the Treasury.

(e) The Directorate of Administration shall retain custody of gifts and decorations not returned to the donor or retained for the official use of the Department until GSA directs it concerning their disposition. At the request of GSA, the Directorate of Administration shall arrange for appraisal of specific gifts and decorations.

§ 1050.303 Enforcement.

(a) An employee who violates the provisions of the Act or these regulations may be subject to disciplinary action or civil penalty action as set forth in paragraphs (c) and (d) of this section.

(b) Suspected violations of the Act or these regulations shall be reported promptly to the Inspector General.

(c) The Inspector General will be responsible for taking the following actions, as appropriate:

(1) If the results of an investigation by the Inspector General do not provide any support for a determination that a violation of the Act or these regulations has occurred, then no further action shall be taken.

(2) If it is determined that the employee knowingly and through actions within his own control has done any of the following, the matter shall be referred to the Attorney General for appropriate action: (i) Solicited or accepted a gift from a foreign government in a manner inconsistent with the provisions of the Act and these regulations; (ii) As the approved recipient of travel expenses failed to follow the procedures set forth in the Act and these regulations; or (iii) Failed to deposit or report a gift as required by the Act and these regulations.

(3) If it is determined that the employee failed to deposit a tangible gift with the Directorate of Administration within 60 days, or to account properly for acceptance of travel expenses, or to comply with the requirements of these regulations relating to the disposal of gifts and decorations retained for official use, but that the criteria of knowledge and control specified in subparagraph (2) of this section for referral to the Attorney General have not been met, then the matter shall be referred by the Inspector General to appropriate Departmental officials for administrative action.

(d) The Attorney General may bring a civil action in any district court of the United States against any employee who knowingly solicits or accepts a gift from a foreign government not consented to by the Act, or who fails to deposit or report such gift as required by the Act. The court in which such action is brought may assess a civil penalty against such employee in any amount not to exceed the retail value of the gift improperly solicited or received plus \$5000.

Subpart D—Gifts to Foreign Individuals**§ 1050.401 Prohibition against use of appropriated funds.**

No appropriated funds other than funds from the "Emergencies in the Diplomatic and Consular Service" account of the Department of State may be used to purchase any tangible gift of more than \$100 value for any foreign individual unless such gift has been approved by the Congress.

Note.—Published without Appendices I, II, and III.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR NOTICE FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/FHWA	USDA/FSQS		DOT/FHWA	USDA/FSQS
DOT/FRA	USDA/REA		DOT/FRA	USDA/REA
DOT/NHTSA	MSPB/OPM		DOT/NHTSA	MSPB/OPM
DOT/RSPA	LABOR		DOT/RSPA	LABOR
DOT/SLSDC	HEW/FDA		DOT/SLSDC	HEW/FDA
DOT/UMTA			DOT/UMTA	
CSA			CSA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of

the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408

REMINDERS

The "reminders" below identify documents that appeared in issues of the **Federal Register** 15 days or more ago. Inclusion or exclusion from this list has no legal significance.

Rules Going Into Effect Today

INTERSTATE COMMERCE COMMISSION

- 3586 1-18-80 / Transportation of U.S. government traffic; regulations governing special application proceeding for for-hire motor carriers

List of Public Laws

Last Listing March 17, 1980

This is a continuing listing of public bills from the current session of Congress which have become Federal laws. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 (telephone 202-275-3030).

- H.J. Res. 493 / Pub. L. 96-207 Providing for the appointment of William G. Bowen as a citizen regent of the Board of Regents of the Smithsonian Institution (Mar. 13, 1980; 94 Stat. 94) Price \$1.00.
- H.J. Res. 494 / Pub. L. 96-208 Providing for the appointment of Carlisle H. Humelsine as a citizen regent of the Board of Regents of the Smithsonian Institution (Mar. 13, 1980; 94 Stat. 95) Price \$1.00.
