Federal Register

Book 1 of 2 Books
Tuesday, October 14, 1980

Highlights

Briefings on How To Use the Federal Register—For details on briefings in Washington, D.C., see announcement in the Reader Aids section at the end of this issue.

- 67629 **Delegation of authority concerning nuclear exports** Presidential memorandum
- 67664 **Handicapped** GSA publishes temporary regulation regarding accommodations for the physically handicapped; effective 10-14-80, expiration date 7-30-81
- 67777 **Housing** HUD/FHC publishes notice regarding conversion of existing multifamily projects to condominium and cooperative ownerships
- 67779 **Mortgage** HUD/FHC amends regulations governing eligibility requirements for HUD mortgagee approval
- 67358 **Equal Employment Opportunity** EEOC publishes regulations outlining means by which consultation and coordination shall occur between the EEOC and Federal agencies; effective 10-14-80 (Part V of this issue)
- 67770 **Grant Programs—Health** HHS/PHS announces competitive applications for Public Health Special Project Grants; apply by 1-9-81

CONTINUED INSIDE

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for \$75.00 per year, or \$45.00 for six months, payable in advance. The charge for individual copies is \$1.00 for each issue, or \$1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Highlights

- 68328 Clean Water** EPA proposes to revise regulations limiting pollutant discharges from steam electric power plants; comments by 12-15-80 (Part IV of this issue)
- 67770 Grant Programs—Health** HHS/PHS provides funding preferences governing grant awards for the Health Careers Opportunity Program
- 67824 Securities** Treasury/Sec'y announces 11½% interest rate on Public Debt Series No. 30-80
- 67708 Hazardous Materials** DOT/CG proposes rules for vessel operators who transport bulk hazardous waste; comments by 11-28-80
- 68004 Loan Programs—Education** ED gives notice of cancellation of loan for teaching services (Part III of this issue)
- 67674 Improving Government Regulations** FHLBB and SSS publishes semiannual agenda of regulations (2 documents)
- 67715 Grant Programs** CSA gives notice of decision to fund eight conduit migrant and seasonal farmworker Community Food and Nutrition Programs; effective 10-14-80
- 67631, 67367 Crop Insurance** USDA/FCIC prescribes procedures for insuring canning and processing tomatoes and apples grown in the Eastern United States effective with the 1981 crop year; effective 10-14-80 (2 documents)
- 67663 Contracts** GSA amends procurement regulations to add architect-engineer services as a class set-aside for small business concerns; effective 11-10-80
- 67656 Transportation** CAB publishes regulation requiring all U.S. certificated air carriers offering schedule passenger service to participate in Passenger Origin-Destination Survey; adopted 10-8-80, effective 1-1-81
- 67711 Tariff** FMC proposes interpretative rule regarding status of bulk commodities, comments by 11-13-80

Privacy Act Document

- 67830** FEMA
- 67810** OPM
- 67829** Sunshine Act Meeting

Separate Parts of this Issue

- 67830** Part II, FEMA

Title 3—

Memorandum of October 3, 1980

The President

Memorandum for The Secretary of State

By the authority vested in me by Title 3, United States Code, Section 301, you are hereby authorized to perform the following functions on my behalf:

1. Determination of the time, terms and conditions of exports made pursuant to any Executive Order heretofore or hereafter issued under Section 126(b)(2) of the Atomic Energy Act of 1954, as amended (42 U.S.C. § 2155(b)(2)).
2. Issuance of such rules, regulations and procedures as you may from time to time deem necessary or desirable for the exercise of functions delegated by paragraph 1.

This memorandum shall be published in the **Federal Register**.

THE WHITE HOUSE,
Washington, October 3, 1980.

Rules and Regulations

Federal Register

Vol. 45, No. 200

Tuesday, October 14, 1980

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

7 CFR Part 408

Eastern United States Apple Crop Insurance Regulations

AGENCY: Federal Crop Insurance Corporation.

ACTION: Final rule.

SUMMARY: This rule prescribes procedures for insuring apples grown in the Eastern United States effective with the 1981 crop year. This rule is a revision of the previous regulations for insuring such apples to include several changes and to reissue the regulations in a clearer, shorter, and simpler document which will make the program easier to understand and more effective administratively. This rule is promulgated under the authority contained in the Federal Crop Insurance Act, as amended.

EFFECTIVE DATE: October 14, 1980.

FOR FURTHER INFORMATION CONTACT: Peter F. Cole, Secretary, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, D.C., 20250, telephone 202-447-3325.

The Final Impact Statement describing options considered in developing this final rule and the impact of implementing each option is available upon request from the above-named individual.

SUPPLEMENTARY INFORMATION: This final action has been reviewed under USDA procedures established in Secretary's Memorandum No. 1955 (August 25, 1978), to implement Executive Order No. 12044 (March 23, 1978), and has been classified as "not significant".

The Federal Crop Insurance Corporation (FCIC) published a notice of proposed rulemaking in the *Federal Register* on Monday, June 30, 1980 (45 FR 43776-43783), prescribing procedures for insuring apples grown in the Eastern United States effective with the 1981 crop year. In the notice, FCIC, under the authority contained in the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 *et seq.*), proposed that the Eastern United States Apple Crop Insurance Regulations (7 CFR Part 408) be revised and reissued effective with the 1981 and succeeding crop years.

It has been determined that revising and reissuing 7 CFR 408 into one shortened, simplified, and clearer regulation would be more effective administratively.

In addition to shortening and simplifying the regulations, the revised 7 CFR Part 408 provides (1) for a premium adjustment table that affords up to a 50 percent premium discount for good insuring experience and premium increase for unfavorable insuring experience, in place of the present premium discount system, (2) that any premium not paid by the termination date will be increased by a 9 percent charge, with a 9 percent simple interest charge applying to any unpaid balance at the end of each subsequent 12-month period thereafter, (3) that the contract shall terminate if no premium is earned for 5 consecutive years, (4) that three coverage level options will be offered in each county, with the imposed level being shown on the actuarial table and the conversion level being the one closest to the present percent level for the county, and (5) for unit division by written agreement between the policyholder and the Corporation or by applicable guidelines.

In addition, § 408.5, "Good Faith Reliance on Misrepresentation", of the Revised Eastern United States Apple Crop Insurance Regulations increases the limitation from \$5,000 to \$20,000 in those cases involving good faith reliance on misrepresentation wherein the Manager of the Corporation (FCIC) is authorized to take action to grant relief.

All previous regulations applicable to insuring apples in the Eastern United States as found in 7 CFR Part 408, as amended, will not be applicable to the 1981 and succeeding apple crops in the

Eastern United States but will remain in effect for Federal Crop Insurance Corporation Eastern United States Apple insurance policies issued for the crop years prior to 1981.

Under the provisions of Executive Order No. 12044, and the Administrative Procedure Act (5 U.S.C. 553 (b) and (c)), the public was given an opportunity to submit written comments, data, and opinions on the proposed regulations, but none were received. Therefore, with the exception of minor and nonsubstantive corrections to language, the regulations as contained in the proposed rule are hereby issued as a final rule to be effective starting with the 1981 crop year.

In addition, there is hereby added to the final rule an Appendix "B", which lists the counties in the Eastern United States where apple crop insurance is available in accordance with the provisions of 7 CFR 408.1, which states in part that before insurance is offered in any county, there shall be published by appendix to this part the names of the counties where such insurance shall be offered.

In compliance with the Secretary's Memorandum No. 1955 and "Improving USDA Regulations" (43 FR 50988), the review of these regulations contained in 7 CFR Part 408 for need, currency, clarity, and effectiveness must be completed prior to the sunset date of May 30, 1985.

Final Rule

Accordingly, pursuant to the authority contained in the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 *et seq.*), the Federal Crop Insurance Corporation hereby revises and reissues the Eastern United States Apple Crop Insurance Regulations (7 CFR 408), with such regulations as contained in 7 CFR 408 and published in the *Federal Register* at 41 FR 53803 (December 9, 1976), as amended at 44 FR 71813 (December 12, 1979), to remain in effect for FCIC Eastern United States apple policies issued prior to 1981. The Eastern United States Apple Crop Insurance Regulations (7 CFR 408), which are hereby revised and reissued, shall remain in effect until amended or superseded and read as follows:

PART 408—EASTERN U.S. APPLE CROP INSURANCE**Subpart—Regulations for the 1981 and Succeeding Crop Years**

Sec.

- 408.1 Availability of Eastern U.S. Apple Insurance.
- 408.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed.
- 408.3 Public notice of indemnities paid.
- 408.4 Creditors.
- 408.5 Good faith reliance on misrepresentation.
- 408.6 The contract.
- 408.7 The application and policy.

Authority: Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended (7 U.S.C. 1506, 1516).

§ 408.1 Availability of Eastern U.S. Apple Insurance.

Insurance shall be offered under the provisions of this subpart on apples in counties within limits prescribed by and in accordance with the provisions of the Federal Crop Insurance Act, as amended. The counties shall be designated by the Manager of the Corporation from those approved by the Board of Directors of the Corporation. Before insurance is offered in any county, there shall be published in appendix B to this part the names of the counties in which Eastern U.S. apple insurance will be offered.

§ 408.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed.

(a) The Manager shall establish premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed for apples which shall be shown on the county actuarial table on file in the office for the county and may be changed from year to year.

(b) At the time the application for insurance is made, the applicant shall elect a coverage level and price at which indemnities shall be computed from among those levels and prices shown on the actuarial table for the crop year.

§ 408.3 Public notice of indemnities paid.

The Corporation shall provide for posting annually in each county at each county courthouse a listing of the indemnities paid in the county.

§ 408.4 Creditors.

An interest of a person in an insured crop existing by virtue of a lien, mortgage, garnishment, levy, execution, bankruptcy, or an involuntary transfer shall not entitle the holder of the interest to any benefit under the contract except as provided in the policy.

§ 408.5 Good faith reliance on misrepresentation.

Notwithstanding any other provision of the Eastern U.S. apple insurance contract, whenever (a) an insured person under a contract of crop insurance entered into under these regulations, as a result of a misrepresentation or other erroneous action or advice by an agent or employee of the Corporation, (1) is indebted to the Corporation for additional premiums, or (2) has suffered a loss to a crop which is not insured or for which the insured person is not entitled to an indemnity because of failure to comply with the terms of the insurance contract, but which the insured person believed to be insured, or believed the terms of the insurance contract to have been complied with or waived, and (b) the Board of Directors of the Corporation, or the Manager in cases involving not more than \$20,000, finds (1) that an agent or employee of the Corporation did in fact make such misrepresentation or take other erroneous action or give erroneous advice, (2) that said insured person relied thereon in good faith, and (3) that to require the payment of the additional premiums or to deny such insured's entitlement to the indemnity would not be fair and equitable, such insured person shall be granted relief the same as if otherwise entitled thereto.

§ 408.6 The Contract.

The insurance contract shall become effective upon the acceptance by the Corporation of a duly executed application for insurance on a form prescribed by the Corporation. Such acceptance shall be effective upon the date the notice of acceptance is mailed to the applicant. The contract shall cover the apple crop as provided in the policy. The contract shall consist of the application, the policy, the attached appendix, and the provisions of the county actuarial table. Any changes made in the contract shall not affect its continuity from year to year. Copies of forms referred to in the contract are available at the office for the county.

§ 408.7 The application and policy.

(a) Application for insurance on a form prescribed by the Corporation may be made by any person to cover such person's insurable share in the apple crop as landlord, owner-operator, or tenant. The application shall be submitted to the Corporation at the office for the county on or before the applicable closing date on file in the office for the county.

(b) The Corporation reserves the right to discontinue the acceptance of

applications in any county upon its determination that the insurance risk involved is excessive, and also, for the same reason, to reject any individual application. The Manager of the Corporation is authorized in any crop year to extend the closing date for submitting applications or contract changes in any county, by placing the extended date on file in the office for the county and publishing a notice in the **Federal Register** upon the Manager's determination that no adverse selectivity will result during the period of such extension: *Provided, however,* That if adverse conditions should develop during such period, the Corporation will immediately discontinue that acceptance of applications.

(c) In accordance with the provisions governing changes in the contract contained in policies issued under FCIC regulations for the 1977 and succeeding crop years, a contract in the form provided for under this subpart will come into effect as a continuation of an Eastern U.S. apple contract issued under such prior regulations, without the filing of a new application.

(d) The provisions of the application and Eastern U.S. Apple Insurance Policy for the 1981 and succeeding crop years, and the Appendix to the Eastern U.S. Apple Insurance Policy are as follows:

United States Department of Agriculture
Federal Crop Insurance Corporation
Application for 19 and Succeeding Crop
Years Eastern U.S. Apple Crop Insurance
Contract

(Contract Number)

(Identification Number)

(Name and Address) (Zip Code)

(County) (State)

Type of entity _____ applicant is over 18
Yes _____ No _____

A. The applicant, subject to the provisions of the regulations of the Federal Crop Insurance Corporation (herein called "Corporation"), hereby applies to the Corporation for insurance on the applicant's share in the apples grown on insurable acreage as shown on the county actuarial table for the above-stated county. The applicant elects from the actuarial table the coverage level and price at which indemnities shall be computed. The premium rates and production guarantees shall be those shown on the applicable county actuarial table filed in the office for the county for each crop year.

Level Election _____ Price Election _____

^{1/} Loss Ratio means the ratio of indemnity(ies) paid to premium(s) earned.

^{2/} Only the most recent 15 crop years will be used to determine the number of "Loss Years". (A crop year is determined to be a "Loss Year" when the amount of indemnity for the year exceeds the premium for the year.)

(d) Any amount of premium for an insured crop which is unpaid on the day following the termination date for indebtedness for such crop shall be increased by a 9 percent service fee, which increased amount shall be the premium balance, and thereafter, at the end of each 12-month period, 9 percent simple interest shall attach to any amount of the premium balance which is unpaid: *Provided*, When notice of loss has been timely filed by the insured as provided in section 7 of this policy, the service fee will not be charged and the contract will remain in force if the premium is paid in full within 30 days after the date of approval or denial of the claim for indemnity; *however*, if any premium remains unpaid after such date, the contract will terminate and the amount of premium outstanding shall be increased by a 9 percent service fee, which increased amount shall be the premium balance. If such premium balance is not paid within 12 months immediately following the termination date, 9 percent simple interest shall apply from the termination date and each year thereafter to any unpaid premium balance.

(e) Any unpaid amount due the Corporation may be deducted from any indemnity payable to the insured by the Corporation or from any loan or payment to the insured under any Act of Congress or program administered by the U.S. Department of Agriculture, when not prohibited by law.

6. *Insurance Period.* Insurance on insured acreage shall attach on March 1 or upon acceptance of the application, whichever is later, for the first crop year of the contract. For each crop year thereafter, insurance attaches on March 1. Insurance ceases each crop year upon the earliest of (a) harvest, (b) October 15, or (c) total destruction of the insured apple crop.

7. *Notice of Damage or Loss.* (a) Any notice of damage or loss shall be given promptly in writing by the insured to the Corporation at the office for the county.

(b) Notice shall be given for each damage to the apples from an insured cause of loss within seven days after such damage occurs, giving the date, cause, and estimated extent of such damage: *Provided*, That if an indemnity is to be claimed on any unit, the insured shall give written notice thereof to the Corporation at the office for the county (1) of the intended harvest date at least fifteen days before harvest commences if a final adjustment has not been made on the unit, and (2) immediately if the damage occurs within the fifteen-day period before harvest commences, or during harvest.

(c) In addition to the notices required in subsection (b) of this section, if an indemnity is to be claimed on any unit, the insured shall give written notice thereof to the Corporation at the office for the county not later than 30 Days after the earlier of (1) the calendar date for the end of the insurance period, or (2) the date the entire apple crop on the unit is destroyed, as determined by the Corporation. The Corporation reserves the right to provide additional time if it determines there are extenuating circumstances.

(d) Any insured acreage upon which an indemnity is to be claimed shall be left intact until inspected by the Corporation.

(e) The Corporation may reject any claim for indemnity if any of the requirements of this section are not met.

8. *Claim for Indemnity.* (a) It shall be a condition precedent to the payment of any indemnity that the insured (1) establish that any loss of production was directly caused by one or more of the causes insured against during the insurance period for which the indemnity is claimed and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(b) Indemnities shall be determined separately for each unit. The amount of indemnity for any unit shall be determined by (1) multiplying the insured acreage of apples on the unit by the applicable production guarantee per acre, which product shall be the production guarantee for the unit, (2) subtracting therefrom the total production of apples to be counted for the unit, (3) multiplying the remainder by the applicable price for computing indemnities, and (4) multiplying the result obtained in step (3) by the insured share: *Provided*, That if the premium computed on the insured acreage and share is more than the premium computed on the reported acreage and share, the amount of indemnity shall be computed on the insured acreage and share and then reduced proportionately.

(c) The total production to be counted for a unit shall be determined by the Corporation and, subject to the provisions hereinafter, shall include (1) all production harvested before insured damage occurs or harvested prior to an appraisal by the Corporation, (2) all production on the trees at the time of appraisal, (3) any appraisals made by the Corporation for poor farming practices, uninsured causes of loss, or acreage abandoned or put to another use without the consent of the Corporation: *Provided*, That (1) acreage harvested prior to an appraisal by the Corporation, not damaged by an insured cause, abandoned, or put to another use without the consent of the Corporation, shall be appraised at not less than the applicable production guarantee provided on the actuarial table, and (2) any apple which is reduced in grade due to an insured cause of loss, as determined by the Corporation, below U.S. No. 1, as defined in the United States Standards for Apples for Processing, shall not be counted as production.

9. *Misrepresentation and Fraud.* The Corporation may void the contract without affecting the insured's liability for premiums or waiving any right, including the right to collect any unpaid premiums if, at any time, the insured has concealed or misrepresented any material fact or committed any fraud relating to the contract, and such avoidance shall be effective as of the beginning of the crop year with respect to which such act or omission occurred.

10. *Transfer of Insured Share.* If the insured transfers any part of the insured share during the crop year, protection will continue to be provided according to the provisions of the contract to the transferee for such crop year on the transferred share, and the transferee shall have the same rights and responsibilities under the contract as the original insured for the current crop year.

Any transfer shall be made on an approved form. Both the transferor and the transferee shall be jointly and severally liable for any unpaid premiums.

11. *Records and Access to Farm.* The insured shall keep or cause to be kept for two years after the time of loss, records of the harvesting, storage, shipments, sale or other disposition of all apples produced on each unit including separate records showing the same information for production from any uninsured acreage. Any persons designated by the Corporation shall have access to such records and the farm for purposes related to the contract.

12. *Life of Contract: Cancellation and Termination.* (a) The contract shall be in effect for the crop year specified on the application and may not be canceled for such crop year. Thereafter, either party may cancel the insurance for any crop year by giving a signed notice to the other on or before the cancellation date preceding such crop year.

(b) Except as provided in section 5(d) of this policy, the contract will terminate as to any crop year if any amount due the Corporation under this contract is not paid on or before the termination date for indebtedness preceding such crop year: *Provided*, That the date of payment for premium (1) if deducted from an indemnity claim shall be the date of the insured signs such claim or (2) if deducted from payment under another program administered by the U.S. Department of Agriculture shall be the date such payment was approved.

(c) Following are the cancellation and termination dates:

State	Cancellation date	Termination date for indebtedness
All Counties.....	Dec. 31	Feb. 15.

(d) In the absence of a notice from the insured to cancel, and subject to the provisions of subsections (a), (b), and (c) of this section, and section 6 of the Appendix, the contract shall continue in force for each succeeding crop year.

Appendix (Additional Terms and Conditions)

1. *Meaning of Terms.* For the purposes of Eastern U.S. apple crop insurance:

(a) "Actuarial table" means the forms and related material for the crop year approved by the Corporation which are on file for public inspection in the office for the county, and which show the production guarantees, coverage levels, premium percentage rate, prices for computing indemnities, insurable and uninsurable acreage, and related information regarding apple insurance in the county.

(b) "Contiguous land" means land which is touching at any point, except that land which is separated by only a public or private right-of-way shall be considered contiguous.

(c) "County" means the Eastern U.S. county shown on the application and any additional land located in a local producing area bordering on the county, as shown on the actuarial table.

(d) "Crop year" means the period beginning with the date insurance attaches to the apple

crop and extending through normal harvest time and shall be designated by the calendar year in which the apples are normally harvested.

(e) "Eastern U.S." means those states east of a line extending north-south along the eastern state boundaries of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma and Texas.

(f) "Harvest" means the picking of marketable apples from the trees or from the ground.

(g) "Insurable acreage" means the land classified as insurable by the Corporation and shown as such on the county actuarial table.

(h) "Insured" means the person who submitted the application accepted by the Corporation.

(i) "Office for the county" means the Corporation's office serving the county shown on the application for insurance or such office as may be designated by the Corporation.

(j) "Person" means an individual, partnership, association, corporation, estate, trust, or other business enterprise or legal entity, and wherever applicable, a State, a political subdivision of a State, or any agency thereof.

(k) "Share" means the interest of the insured as landlord, owner-operator, or tenant in the insured apple crop at the time insurance attaches as reported by the insured or as determined by the Corporation, whichever the Corporation shall elect, and no other share shall be deemed to be insured: *Provided*, That for the purpose of determining the amount of indemnity, the insured share shall not exceed the insured's share at the earliest of (1) the date of beginning of harvest on the unit, (2) the calendar date for the end of the insurance period, or (3) the date the entire crop on the unit is destroyed, as determined by the Corporation.

(l) "Tenant" means a person who rents land from another person for a share of the apple crop or proceeds therefrom.

(m) "Unit" means all insurable acreage of apples in the county which is located on contiguous land, and, at the time insurance attaches for the crop year, (1) in which the insured has a 100 percent share, or (2) which is owned by one entity and operated by another entity on a share basis. Land rented for cash, a fixed commodity payment, or any consideration other than a share in the apple crop on such land shall be considered as owned by the lessee. Land which would otherwise be one unit may be divided according to applicable guidelines on file in the office for the county or by written agreement between the Corporation and the insured. The Corporation shall determine unit as herein defined when adjusting a loss, notwithstanding what is shown on the acreage report, and has the right to consider any acreage and share reported by or for the insured's spouse or child or any member of the insured's household to be the bona fide share of the insured or any other person having the bona fide share.

2. *Acreage Insured.* (a) The Corporation reserves the right to limit the insured acreage of apples to any acreage limitations established under any Act of Congress,

provided the insured is so notified in writing prior to the time insurance attaches.

(b) If the insured does not submit an acreage report on or before the acreage reporting date on file in the office for the county, the Corporation may elect to determine by units the insured acreage, share, and age and number of trees, or declare the insured acreage on any unit(s) to be "zero". If the insured does not have a share in any insured acreage in the county for any year, the insured shall submit a report so indicating. Any acreage report submitted by the insured may be revised only upon approval of the Corporation.

3. *Annual Premium.* (a) If there is no break in the continuity of participation, any premium adjustment applicable under section 5 of the policy shall be transferred to (1) the contract of the insured's estate or surviving spouse in case of death of the insured, (2) the contract of the person who succeeds the insured if such person had previously participated in the farming operation, or (3) the contract of the same insured who stops farming in one county and starts farming in another county.

(b) If there is a break in the continuity of participation, any reduction in premium earned under section 5 of the policy shall not thereafter apply; *however*, any previous unfavorable insurance experience shall be considered in premium computation following a break in continuity.

4. *Claim for And Payment of Indemnity.* (a) Any claim for indemnity on a unit shall be submitted to the Corporation on a form prescribed by the Corporation.

(b) In determining the total production to be counted for each unit, production from units on which the production has been commingled will be allocated to such units in proportion to the liability on each unit.

(c) There shall be no abandonment to the Corporation of any insured apple acreage.

(d) In the event that any claim for indemnity under the provisions of the contract is denied by the Corporation, an action on such claim may be brought against the Corporation under the provisions of 7 U.S.C. 1508(c) as amended: *Provided*, That the same is brought within one year after the date notice of denial of the claim is mailed to and received by the insured.

(e) Any indemnity will be payable within 30 days after a claim for indemnity is approved by the Corporation. *However*, in no event shall the Corporation be liable for interest or damages in connection with any claim for indemnity whether such claim be approved or disapproved by the Corporation.

(f) If the insured is an individual who dies, disappears, or is judicially declared incompetent, or the insured is an entity other than an individual and such entity is dissolved after insurance attaches for any crop year, any indemnity will be paid to the person(s) the Corporation determines to be beneficially entitled thereto.

(g) The Corporation reserves the right to reject any claim for indemnity if any of the requirements of this section or section 8 of the policy are not met and the Corporation determines that the amount of loss cannot be satisfactorily determined.

5. *Subrogation.* The insured (including any assignee or transferee) assigns to the

Corporation all rights of recovery against any person for loss or damage to the extent that payment hereunder is made by the Corporation. The insured thereafter shall execute all papers required and take appropriate action as may be necessary to secure such rights.

6. *Termination of the Contract.* (a) The contract shall terminate if no premium is earned for five consecutive years.

(b) If the insured is an individual who dies or is judicially declared incompetent, or the insured entity is other than an individual and such entity is dissolved, the contract shall terminate as of the date of death, judicial declaration, or dissolution; *however*, if such event occurs after insurance attaches for any crop year, the contract shall continue in force through such crop year and terminate at the end thereof. Death of a partner in a partnership shall dissolve the partnership unless the partnership agreement provides otherwise. If two or more persons having a joint interest are insured jointly, death of one of the persons shall dissolve the joint entity.

7. *Coverage Level and Price Election.* (a) If the insured has not elected on the application a coverage level and price at which indemnities shall be computed from among those shown on the actuarial table, the coverage level and price election which shall be applicable under the contract, and which the insured shall be deemed to have elected, shall be as provided on the actuarial table for such purposes.

(b) The insured may, with the consent of the Corporation, change the coverage level and/or price election for any crop year on or before the closing date for submitting applications for that crop year.

8. *Assignment of Indemnity.* Upon approval of a form prescribed by the Corporation, the insured may assign to another party the right to an indemnity for the crop year and such assignee shall have the right to submit the loss notices and forms as required by the contract.

9. *Contract Changes.* The Corporation reserves the right to change any terms and provisions of the contract from year to year. Any changes shall be mailed to the insured or placed on file and made available for public inspection in the office for the county at least 15 days prior to the cancellation date preceding the crop year for which the changes are to become effective, and such mailing or filing shall constitute notice to the insured. Acceptance of any changes will be conclusively presumed in the absence of any notice from the insured to cancel the contract as provided in section 12 of the policy.

Appendix B—Counties Designated for Eastern United States Apple Crop Insurance—7 CFR Part 408

In accordance with the provisions of 7 CFR Part 408.1, the following counties are designated for apple crop insurance:

North Carolina

Alexander
Henderson
Wilkes

Note.—The reporting requirements contained herein have been approved by the

Office of Management and Budget in accordance with the Federal Reports Act of 1942 and OMB Circular A-40.

This action will not have impact specifically on area and community development; therefore, review as required by OMB Circular A-95 is inapplicable.

Approved by the Board of Directors on May 30, 1980.

Peter F. Cole,

Secretary, Federal Crop Insurance Corporation.

Dated: October 6, 1980.

Approved by:

Everett S. Sharp,

Acting Manager.

[FR Doc. 80-31787 Filed 10-10-80; 8:45 am]

BILLING CODE 3410-08-M

7 CFR Part 438

Tomato Crop Insurance Regulations

AGENCY: Federal Crop Insurance Corporation.

ACTION: Final rule.

SUMMARY: This rule prescribes procedures for insuring canning and processing tomatoes effective with the 1981 crop year. This rule combines all previous regulations for insuring tomatoes into a simpler, clearer, and shorter document which will be easier to understand and make the program more effective administratively. This rule is promulgated under the authority contained in the Federal Crop Insurance Act, as amended.

EFFECTIVE DATE: October 14, 1980.

FOR FURTHER INFORMATION CONTACT: Peter F. Cole, Secretary, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, D.C., 20250, telephone 202-447-3325.

The Final Impact Statement describing options considered in developing this final rule and the impact of implementing each option is available from the above-named individual.

SUPPLEMENTARY INFORMATION: This final action has been reviewed under USDA procedures established in Secretary's Memorandum No. 1955 (August 25, 1978), to implement Executive Order No. 12044 (March 23, 1978), and has been classified as "not significant".

The Federal Crop Insurance Corporation (FCIC) published a notice of proposed rulemaking in the *Federal Register* on Monday, June 30, 1980 [45 FR 43783], prescribing procedures for insuring canning and processing tomatoes effective with the 1981 crop year.

In the notice, FCIC, under the authority contained in the Federal Crop

Insurance Act, as amended (7 U.S.C. 1501 *et seq.*), proposed that a new Part 438 of Chapter IV in Title 7 of the Code of Federal Regulations be established to prescribe procedures for insuring canning and processing tomatoes effective with the 1981 crop year to be known as 7 CFR Part 438 Canning and Processing Tomato Crop Insurance.

All previous regulations applicable to insuring canning and processing tomatoes, as found in 7 CFR 401.101-401.111, and 401.137 (33 FR 12665, September 6, 1968), as amended at 43 FR 2379 (January 17, 1978), will not be applicable to 1981 and succeeding tomato crops but will remain in effect for FCIC tomato insurance policies issued for crop years prior to 1981.

It has been determined that combining all previous regulations for insuring tomato crops into one shortened, simplified, and clearer regulation would be easier to administer, while at the same time providing fewer documents for the policyholder to be concerned with.

In addition, 7 CFR Part 438 provides (1) for a premium adjustment table that provides for up to 50 percent premium discount for good insuring experience and premium increases for unfavorable insuring experience, which replaces the present premium discount system, (2) that any premium not paid by the termination date will be increased by a 9 percent charge, with a 9 percent simple interest applying to any balance at the end of each subsequent 12-month period thereafter, (3) that the period for submitting a notice of damage or loss is extended from 15 days to 30 days and eliminates the 60-day period for filing a claim, (4) that three coverage level options be offered in each county with the imposed level being provided on the actuarial and the conversion level being closest to the present level for the county, and (5) that the termination date for California is January 31 instead of February 20, which sets the date for termination of the contract for nonpayment of premium 20 days earlier. The termination date for Ohio and all other States is March 31 instead of May 10, which sets the date for termination of the contract for nonpayment of premium 40 days earlier.

In addition, § 438.5 of the Canning and Processing Tomato Crop Insurance Regulations, titled "Good Faith Reliance on Misrepresentation," reflects an increase in limitation from \$5,000 to \$20,000 in those cases involving good faith reliance on misrepresentation wherein the Manager of the Corporation (FCIC) is authorized to take action to grant relief.

Under the provisions of Executive Order No. 12044, and the Administrative Procedure Act (5 U.S.C. 553 (b) and (c)), the public was given an opportunity to submit written comments, data, and opinions on the proposed regulations, but none were received. Therefore, with the exception of minor and nonsubstantive corrections to language, the regulations as contained in the proposed rule are hereby issued as a final rule to be effective starting with the 1981 crop year.

In addition, there is hereby added to the final rule an Appendix "B", which lists the counties where canning and processing tomato crop insurance is available in accordance with the provisions of 7 CFR Part 438.1, which states in part that before insurance is offered in any county, there shall be published by appendix to this part the names of the counties where such insurance shall be offered.

In compliance with the Secretary's Memorandum No. 1955 and "Improving USDA Regulations" (45 FR 50988), the review of these regulations contained in 7 CFR Part 438 for need, currency, clarity, and effectiveness must be completed prior to the sunset date of August 20, 1985.

Final Rule

Accordingly, pursuant to the authority contained in the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 *et seq.*), the Federal Crop Insurance Corporation hereby deletes and reserves 7 CFR 401.137, with such regulations contained therein remaining in effect for FCIC canning and processing tomato crop insurance policies issued for crop years prior to 1981, and issues a new part 438 in Chapter IV of Title 7 of the Code of Federal Regulations (7 CFR Part 438) to be known as the Canning and Processing Tomato Crop Insurance Regulations for the 1981 and Succeeding Crop Years, to read as follows:

PART 438—TOMATO CROP INSURANCE

Subpart—Regulations for the 1981 and Succeeding Crop Years

- Sec.
- 438.1 Availability of tomato insurance.
 - 438.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed.
 - 438.3 Public notice of indemnities paid.
 - 438.4 Creditors.
 - 438.5 Good faith reliance on misrepresentation.
 - 438.6 The contract.
 - 438.7 The application and policy.
- Authority. Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended (7 U.S.C. 1506, 1516).

§ 438.1 Availability of tomato insurance.

Insurance shall be offered under the provisions of this subpart on tomatoes in counties within limits prescribed by and in accordance with the provisions of the Federal Crop Insurance Act, as amended. The counties shall be designated by the Manager of the Corporation from those approved by the Board of Directors of the Corporation. Before insurance is offered in any county, there shall be published in Appendix B to this part the names of the counties in which tomato insurance will be offered.

§ 438.2 Premium rates, production guarantees, coverage levels, and prices at which indemnities shall be computed.

(a) The Manager shall establish premium rates, production guarantees, coverage levels and prices at which indemnities shall be computed for tomatoes which shall be shown on the county actuarial table on file in the office for the county and may be changed from year to year.

(b) At the time the application for insurance is made, the applicant shall elect a coverage level and price at which indemnities shall be computed from among those levels and prices shown on the actuarial table for the crop year.

§ 438.3 Public notice of indemnities paid.

The Corporation shall provide for posting annually in each county at each county courthouse a listing of the indemnities paid in the county.

§ 438.4 Creditors.

An interest of a person in an insured crop existing by virtue of a lien, mortgage, garnishment, levy, execution, bankruptcy, or an involuntary transfer shall not entitle the holder of the interest to any benefit under the contract except as provided in the policy.

§ 438.5 Good faith reliance on misrepresentation.

Notwithstanding any other provision of the tomato insurance contract, whenever (a) an insured person under a contract of crop insurance entered into under these regulations, as a result of a misrepresentation or other erroneous action or advice by an agent or employee of the Corporation, (1) is indebted to the Corporation for additional premiums, or (2) has suffered a loss to a crop which is not insured or for which the insured person is not entitled to an indemnity because of failure to comply with the terms of the insurance contract, but which the insured person believed to be insured, or believed the terms of the insurance contract to have been complied with or waived, and (b) the Board of Directors

of the Corporation, or the Manager in cases involving not more than \$20,000, finds (1) that an agent or employee of the Corporation did in fact make such misrepresentation or take other erroneous action or give erroneous advice, (2) that said insured person relied thereon in good faith, and (3) that to require the payment of the additional premiums or to deny such insured's entitlement to the indemnity would not be fair and equitable, such insured person shall be granted relief the same as if otherwise entitled thereto.

§ 438.6 The contract.

The insurance contract shall become effective upon the acceptance by the Corporation of a duly executed application for insurance on a form prescribed by the Corporation. Such acceptance shall be effective upon the date the notice of acceptance is mailed to the applicant. The contract shall cover the tomato crop as provided in the policy. The contract shall consist of the application, the policy, the attached appendix, and the provisions of the county actuarial table. Any changes made in the contract shall not affect its continuity from year to year. Copies of forms referred to in the contract are available at the office for the county.

§ 438.7 The application and policy.

(a) Application for insurance on a form prescribed by the Corporation may be made by any person to cover such person's insurable share in the tomato crop as landlord, owner-operator, or tenant. The application shall be submitted to the Corporation at the office for the county on or before the applicable closing date on file in the office for the county.

(b) The Corporation reserves the right to discontinue the acceptance of applications in any county upon its determination that the insurance risk involved is excessive, and also, for the same reason, to reject any individual application. The Manager of the Corporation is authorized in any crop year to extend the closing date for submitting applications or contract changes in any county, by placing the extended date on file in the office for the county and publishing a notice in the Federal Register upon the Manager's determination that no adverse selectivity will result during the period of such extension: *Provided, however,* That if adverse conditions should develop during such period, the Corporation will immediately discontinue the acceptance of applications.

(c) In accordance with the provisions governing changes in the contract

contained in policies issued under FCIC regulations for the 1969 and succeeding crop years, a contract in the form provided for under this subpart will come into effect as a continuation of a canning and processing tomato contract issued under such prior regulations, without the filing of a new application.

(d) The provisions of the application and Tomato Insurance Policy for the 1981 and succeeding crop years, and the Appendix to the Tomato Insurance Policy are as follows:

United States Department of Agriculture

Federal Crop Insurance Corporation

Application for 19—And Succeeding Crop Years Insert Canning and Processing Tomato Crop Insurance Contract

(Contract Number) _____

(Identification Number) _____

(Name and Address) _____

(Zip Code) _____

(County) _____ (State) _____

Type of Entity _____

Applicant is Over 18 Yes— No—

A. The applicant, subject to the provisions of the regulations of the Federal Crop Insurance Corporation (herein called "Corporation"), hereby applies to the Corporation for insurance on the applicant's share in the tomatoes planted on insurable acreage as shown on the county actuarial table for the above-stated county. The applicant elects from the actuarial table the coverage level and price at which indemnities shall be computed. THE PREMIUM RATES AND PRODUCTION GUARANTEES SHALL BE THOSE SHOWN ON THE APPLICABLE COUNTY ACTUARIAL TABLE FILED IN THE OFFICE FOR THE COUNTY FOR EACH CROP YEAR.

LEVEL ELECTION _____

PRICE ELECTION _____

Example: For the 19—Crop Year Only

[100% Share]

Location/ Farm No.	Guarantee per acre ¹	Premium per acre ²	Practice
.....
.....
.....

¹ Your guarantee will be on a unit basis (acres x per acre guarantee x share).

² Your premium is subject to adjustment in accordance with section 5(c) of the policy.

B. WHEN NOTICE OF ACCEPTANCE OF THIS APPLICATION IS MAILED TO THE APPLICANT BY THE CORPORATION, the contract shall be in effect for the crop year specified above, unless the time for submitting applications has passed at the time this application is filed, AND SHALL CONTINUE FOR EACH SUCCEEDING CROP YEAR UNTIL CANCELED OR TERMINATED as provided in the contract. This accepted application, the following canning and

processing tomato insurance policy, the attached appendix, and the provisions of the county actuarial table showing the production guarantees, coverage levels, premium rates, prices for computing indemnities, and insurable and uninsurable acreage shall constitute the contract. Additional information regarding contract provisions can be found in the county regulations folder on file in the office for the county. No term or condition of the contract shall be waived or changed except in writing by the Corporation.

Canning and Processing Tomato Crop Insurance Policy

Terms and Conditions

Subject to the provisions in the attached appendix:

1. *Causes of Loss.* (a) Causes of loss insured against. The insurance provided is against unavoidable loss of production resulting from adverse weather conditions, heat, insects, plant disease, wildlife, earthquake or fire occurring within the insurance period, subject to any exceptions, exclusions or limitations with respect to causes of loss shown on the actuarial table.

(b) Causes of loss not insured against. The contract shall not cover any loss of production, as determined by the Corporation, due to (1) the neglect or malfeasance of the insured, any member of the insured's household, the insured's tenants or employees, (2) failure to follow recognized good farming practices, (3) damage resulting from the backing up of water by any governmental or public utilities dam or reservoir project, (4) failure to market the tomatoes when such failure is not due to an insured cause of loss, or (5) any cause not specified as an insured cause in this policy as limited by the actuarial table.

2. *Crop and Acreage Insured.* (a) The crop insured shall be tomatoes for canning or processing grown on insured acreage under a contract executed with a canner or processor on or before the acreage to be insured is reported, for which the actuarial table shows a guarantee and premium rate per acre.

(b) The acreage insured for each crop year shall be that acreage planted to tomatoes on insurable acreage as shown on the actuarial table, and the insured's share therein as reported by the insured or as determined by the Corporation, whichever the Corporation shall elect; *Provided*, That insurance shall not attach or be considered attached, as determined by the Corporation, to any acreage (1) which is not grown under a contract with a canner or processor or which is excluded from such contract for the crop year pursuant to the terms thereof, (2) where premium rates are established by farming practices on the actuarial table, and the farming practices carried out on any acreage

are not among those for which a premium rate has been established, (3) not reported for insurance as provided in section 3 if such acreage is irrigated and an irrigated practice is not provided for such acreage on the actuarial table, (4) which is destroyed and after such destruction it was practical to replant to tomatoes and such acreage was not replanted, (5) initially planted after the date on file in the office for the county which has been established by the Corporation as being too late to initially plant and expect a normal crop to be produced, (6) planted to a type or variety of tomatoes not established as adapted to the area or shown as noninsurable on the actuarial table, or (7) planted for the development or production of hybrid seed or for experimental purposes.

3. *Responsibility of Insured To Report Acreage and Share.* The insured shall submit to the Corporation on a form prescribed by the Corporation, a report showing (a) all acreage of tomatoes planted in the county (including a designation of any acreage to which insurance does not attach) in which the insured has a share and (b) the insured's share therein at the time of planting. In California, a report of the preceding year's insurable acreage and the tonnage produced therefrom shall also be provided by the insured on a form prescribed by the Corporation when the acreage report for the current year is submitted. Such report(s) shall be submitted each year not later than the acreage reporting date on file in the office for the county.

4. *Production Guarantees, Coverage Levels, and Prices for Computing Indemnities.* (a) For each crop year of the contract, the production guarantees, coverage levels, and prices at which indemnities shall be computed shall be those shown on the actuarial table.

(b) The production guarantees per acre are progressive by periods as shown on the county actuarial table with such production guarantees increasing on specified dates up to the maximum production guarantee for harvested tomato acreage.

(c) Notwithstanding section 8 of this policy, or any other provisions of the contract, any acreage on which the tomato crop is damaged, as determined by the Corporation, to the extent that growers in the area generally would not further care for the crop shall be deemed to have been destroyed at the time of such damage even though the tomato crop is further cared for by the insured. Subject to section 8 of this policy, the production guarantee applicable to any acreage shall be that established for the period in which such destruction occurs, as determined by the Corporation, and the production guarantee for the final period shall apply only to harvested acreage.

5. *Annual Premium.* (a) The annual premium is earned and payable at the time of planting and the amount thereof shall be determined by multiplying the insured acreage times the applicable premium per acre, times the insured's share at the time of planting, times the applicable premium adjustment percentage in subsection (c) of this section.

(b) For premium adjustment purposes, only the years during which premiums were earned shall be considered.

(c) The premium shall be adjusted as shown in the following table:

BILLING CODE 3410-08-M

% ADJUSTMENTS FOR FAVORABLE CONTINUOUS INSURANCE EXPERIENCE

^{1/} Loss Ratio means the ratio of indemnity(ies) paid to premium(s) earned.

^{2/} Only the most recent 15 crop years will be used to determine the number of "Loss Years". (A crop year is determined to be a "Loss Year" when the amount of indemnity for the year exceeds the premium for the year.)

(d) Any amount of premium for an insured crop which is unpaid on the day following the termination date for indebtedness for such crop shall be increased by a 9 percent service fee, which increased amount shall be the premium balance, and thereafter, at the end of each 12-month period, 9 percent simple interest shall attach to any amount of the premium balance which is unpaid: *Provided*, When notice of loss has been timely filed by the insured as provided in section 7 of this policy, the service fee will not be charged and the contract will remain in force if the premium is paid in full within 30 days after the date of approval or denial of the claim for indemnity; *however*, if any premium remains unpaid after such date, the contract will terminate and the amount of premium outstanding shall be increased by a 9 percent service fee, which increased amount shall be the premium balance. If such premium balance is not paid within 12 months immediately following the termination date, 9 percent simple interest shall apply from the termination date and each year thereafter to any unpaid premium balance.

(e) Any unpaid amount due the Corporation may be deducted from any indemnity payable to the insured by the Corporation or from any loan or payment to the insured under any Act of Congress or program administered by the U.S. Department of Agriculture, when not prohibited by law.

6. *Insurance Period.* Insurance on insured acreage shall attach at the time the tomatoes are planted and shall cease upon the earliest of (a) final adjustment of a loss, (b) harvest or removal of the tomatoes from the field, (c) when the crop is deemed destroyed and it is not practical to replant by the date shown on the actuarial table, or (d) October 20 in California and October 10 in all other States of the calendar year in which the tomatoes are normally harvested.

7. *Notice of Damage or Loss.* (a) Any notice of damage or loss shall be given promptly in writing by the insured to the Corporation at the office for the county.

(b) Notice shall be given promptly if, during the period before harvest, the tomatoes on any unit are damaged to the extent that the insured does not expect to further care for the crop or harvest any part of it, or if the insured wants the consent of the Corporation to put the acreage to another use. No insured acreage shall be put to another use until the Corporation has made an appraisal of the potential production of such acreage and consents in writing to such other use. Such consent shall not be given until it is too late or impractical to replant to tomatoes. Notice shall also be given when such acreage has been put to another use.

(c) If an indemnity is to be claimed on a unit, the insured shall give written notice thereof to the Corporation at the office for the county immediately: (1) after harvest is completed on the unit, (2) if harvesting is discontinued on any acreage before the entire crop production is harvested, (3) at any time when harvest should be in progress on any unit if the insured does not expect to harvest, or (4) if the insured is unable to deliver production to the canner or processor.

(d) In addition to the notices required in subsections (b) and (c) of this section, written notice shall be given not later than 30 days after the earlier of (1) the calendar date for the end of the insurance period, or (2) the date the entire tomato crop on the unit is destroyed, as determined by the Corporation. The Corporation reserves the right to provide additional time if it determines there are extenuating circumstances.

(e) The tomato vines on any hand harvested insured acreage with respect to which an indemnity is to be claimed shall not be destroyed until inspected by the Corporation.

(f) Any insured acreage which is not to be harvested and upon which an indemnity is to be claimed shall be left intact until inspected by the Corporation.

(g) The Corporation may reject any claim for indemnity if any of the requirements of this section are not met.

8. *Claim for Indemnity.* (a) It shall be a condition precedent to the payment of any indemnity that the insured (1) establish the total production of tomatoes on the unit and that any loss of production was directly caused by one or more of the insured causes during the insurance period for the crop year for which the indemnity is claimed and (2) furnish any other information regarding the manner and extent of loss as may be required by the Corporation.

(b) Indemnities shall be determined separately for each unit. The amount of indemnity for any unit shall be determined by (1) multiplying the insured acreage of tomatoes on the unit by the applicable production guarantee per acre, which product shall be the production guarantee for the unit, (2) subtracting therefrom the total production of tomatoes to be counted for the unit, (3) multiplying the remainder by the applicable price for computing indemnities, and (4) multiplying the result obtained in step (3) by the insured share: *Provided*, That if the premium computed on the insured acreage and share is more than the premium computed on the reported acreage and share, the amount of indemnity shall be computed on the insured acreage and share and then reduced proportionately.

(c) The total production to be counted for a unit shall be determined by the Corporation and, subject to the provisions hereinafter, shall include: (1) all production marketed, (2) any appraisals made by the Corporation for potential production on harvested acreage, uninsured causes, poor farming practices, and for production which would meet the quality requirements of the processor contract referred to in section 2 if such tomatoes had been timely marketed, (3) not less than the applicable guarantee for any acreage which is abandoned or put to another use without prior written consent of the Corporation or damaged solely by an uninsured cause, and (4) only the appraisal in excess of the difference between the production guarantee applicable for such acreage and the production guarantee applicable for the final period for all other unharvested acreage.

(d) The appraised potential production for acreage for which consent has been given to be put to another use shall be counted as production in determining the amount of loss

under the contract. *However*, if consent is given to put acreage to another use and the Corporation determines that any such acreage (1) is not put to another use before harvest of tomatoes becomes general in the county, (2) is harvested, or (3) is further damaged by an insured cause before the acreage is put to another use, the indemnity for the unit shall be determined without regard to such appraisal and consent.

9. *Misrepresentation and Fraud.* The Corporation may avoid the contract without affecting the insured's liability for premiums or waiving any right, including the right to collect any unpaid premiums if, at any time, the insured has concealed or misrepresented any material fact or committed any fraud relating to the contract, and such avoidance shall be effective as of the beginning of the crop year with respect to which such act or omission occurred.

10. *Transfer of Insured Share.* If the insured transfers any part of the insured share during the crop year, protection will continue to be provided according to the provisions of the contract to the transferee for such crop year on the transferred share, and the transferee shall have the same rights and responsibilities under the contract as the original insured for the current crop year. Any transfer shall be made on an approved form. Both the transferor and the transferee shall be jointly and severally liable for any unpaid premiums.

11. *Records and Access to Farm.* The insured shall keep or cause to be kept for two years after the time of loss, records of the harvesting, storage, shipments, sale or other disposition of all tomatoes produced on each unit including separate records showing the same information for production from any uninsured acreage. Any persons designated by the Corporation shall have access to such records and the farm for purposes related to the contract.

12. *Life of Contract: Cancellation and Termination.* (a) The contract shall be in effect for the crop year specified on the application and may not be canceled for such crop year. Thereafter, either party may cancel the insurance for any crop year by giving a signed notice to the other on or before the cancellation date preceding such crop year.

(b) Except as provided in section 5(d) of this policy, the contract will terminate as to any crop year if any amount due the Corporation under this contract is not paid on or before the termination date for indebtedness preceding such crop year: *Provided*, That the date of payment for premium (1) if deducted from an indemnity claim shall be the date the insured signs such claim or (2) if deducted from payment under another program administered by the U.S. Department of Agriculture shall be the date such payment was approved.

(c) Following are the cancellation and termination dates:

State	Cancellation date	Termination date for indebtedness
California.....	Dec. 31.....	Jan. 31.
Ohio and other States.	Dec. 31.....	Mar. 31.

(d) In the absence of a notice from the insured to cancel, and subject to the provisions of subsections (a), (b), and (c) of this section, and section 7 of the Appendix, the contract shall continue in force for each succeeding crop year.

Appendix (Additional Terms and Conditions)

1. *Meaning of terms.* For the purposes of canning and processing tomato crop insurance:

(a) "Actuarial table" means the forms and related material for the crop year approved by the Corporation which are on file for public inspection in the office for the county, and which show the production guarantees, coverage levels, premium rates, prices for computing indemnities, insurable and uninsurable acreage, and related information regarding tomato insurance in the county.

(b) "County" means the county shown on the application and any additional land located in a local producing area bordering on the county, as shown on the actuarial table.

(c) "Crop year" means the period within which the tomato crop is normally grown and shall be designated by the calendar year in which the tomato crop is normally harvested.

(d) "Harvest" or "harvested" as to any insured acreage not deemed to have been destroyed earlier, means severance of tomatoes from the vines and delivery of such tomatoes under the insured's contract with a canner or processor. *However*, for the purpose of determining the applicable guarantee per acre, acreage in excess of 10% of the acreage for the unit from which no tomatoes are accepted by the canner or processor shall not be deemed to have been harvested.

(e) "Insurable acreage" means the land classified as insurable by the Corporation and shown as such on the county actuarial table.

(f) "Insured" means the person who submitted the application accepted by the Corporation.

(g) "Office for the county" means the Corporation's office serving the county shown on the application for insurance or such office as may be designated by the Corporation.

(h) "Person" means an individual, partnership, association, corporation, estate, trust, or other business enterprise or legal entity, and wherever applicable, a State, a political subdivision of a State, or any agency thereof.

(i) "Share" means the interest of the insured as landlord, owner-operator, or tenant in the insured tomato crop at the time of planting as reported by the insured or as determined by the Corporation, whichever the Corporation shall elect, and no other share shall be deemed to be insured: *Provided*, That for the purpose of determining the amount of indemnity, the insured share shall not exceed the insured's share at the earliest of (1) the date of beginning of harvest on the unit, (2) the calendar date for the end of the insurance period, or (3) the date the entire crop on the unit is destroyed, as determined by the Corporation.

(j) "Tenant" means a person who rents land from another person for a share of the tomato crop or proceeds therefrom.

(k) "Unit" means all insurable acreage of tomatoes in the county on the date of planting for the crop year (1) in which the insured has a 100 percent share, or (2) which is owned by one entity and operated by another entity on a share basis. Land rented for cash, a fixed commodity payment, or any consideration other than a share in the tomato crop on such land shall be considered as owned by the lessee. Land which would otherwise be one unit may be divided according to applicable guidelines on file in the office for the county or by written agreement between the Corporation and the insured. The Corporation shall determine units as herein defined when adjusting a loss, notwithstanding what is shown on the acreage report, and has the right to consider any acreage and share reported by or for the insured's spouse or child or any member of the insured's household to be the bona fide share of the insured or any other person having the bona fide share.

2. *Acreage Insured.* (a) The Corporation reserves the right to limit the insured acreage of tomatoes to any acreage limitations established under any Act of Congress, provided the insured is so notified in writing prior to the planting of tomatoes.

(b) If the insured does not submit an acreage report on or before the acreage reporting date on file in the office for the county, the Corporation may elect to determine by units the insured acreage and share or declare the insured acreage on any unit(s) to be "zero". If the insured does not have a share in any insured acreage in the county for any year, the insured shall submit a report so indicating. Any acreage report submitted by the insured may be revised only upon approval of the Corporation.

3. *Irrigated Acreage.* (a) Where the actuarial table provides for insurance on an irrigated practice, the insured shall report as irrigated only the acreage for which the insured has adequate facilities and water to carry out a good irrigation practice at the time of planting.

(b) Where irrigated acreage is insurable, any loss of production caused by failure to carry out a good irrigation practice, except failure of the water supply from an unavoidable cause occurring after the beginning of planting, as determined by the Corporation, shall be considered as due to an uninsured cause. The failure or breakdown of irrigation equipment or facilities shall not be considered as a failure of the water supply from an unavoidable cause.

4. *Annual Premium.* (a) If there is no break in the continuity of participation, any premium adjustment applicable under section 5 of the policy shall be transferred to (1) the contract of the insured's estate or surviving spouse in case of death of the insured, (2) the contract of the person who succeeds the insured if such person had previously participated in the farming operation, or (3) the contract of the same insured who stops farming in one county and starts farming in another county.

(b) If there is a break in the continuity of participation, any reduction in premium earned under section 5 of the policy shall not thereafter apply; *however*, any previous unfavorable insurance experience shall be

considered in premium computation following a break in continuity.

5. *Claim for and Payment of Indemnity.* (a) Any claim for indemnity on a unit shall be submitted to the Corporation on a form prescribed by the Corporation.

(b) In determining the total production to be counted for each unit, production from units on which the production has been commingled will be allocated to such units in proportion to the liability on each unit.

(c) There shall be no abandonment to the Corporation of any insured tomato acreage.

(d) In the event that any claim for indemnity under the provisions of the contract is denied by the Corporation, an action on such claim may be brought against the Corporation under the provisions of 7 U.S.C. 1508(c) as amended: *Provided*, That the same is brought within one year after the date notice of denial of the claim is mailed to and received by the insured.

(e) Any indemnity will be payable within 30 days after a claim for indemnity is approved by the Corporation. *However*, in no event shall the Corporation be liable for interest or damages in connection with any claim for indemnity whether such claim be approved or disapproved by the Corporation.

(f) If the insured is an individual who dies, disappears, or is judicially declared incompetent, or the insured is an entity other than an individual and such entity is dissolved after the tomatoes are planted for any crop year, any indemnity will be paid to the person(s) the Corporation determines to be beneficially entitled thereto.

(g) The Corporation reserves the right to reject any claim for indemnity if any of the requirements of this section or section 8 of the policy are not met and the Corporation determines that the amount of loss cannot be satisfactorily determined.

6. *Subrogation.* The insured (including any assignee or transferee) assigns to the Corporation all rights of recovery against any person for loss or damage to the extent that payment hereunder is made by the Corporation. The insured thereafter shall execute all papers required and take appropriate action as may be necessary to secure such rights.

7. *Termination of the Contract.* (a) The contract shall terminate if no premium is earned for five consecutive years.

(b) If the insured is an individual who dies or is judicially declared incompetent, or the insured entity is other than an individual and such entity is dissolved, the contract shall terminate as of the date of death, judicial declaration, or dissolution; *however*, if such event occurs after insurance attaches for any crop year, the contract shall continue in force through such crop year and terminate at the end thereof. Death of a partner in a partnership shall dissolve the partnership unless the partnership agreement provides otherwise. If two or more persons having a joint interest are insured jointly, death of one of the persons shall dissolve the joint entity.

8. *Coverage Level and Price Election.* (a) If the insured has not elected on the application a coverage level and price at which indemnities shall be computed from among those shown on the actuarial table, the coverage level and price election which shall

be applicable under the contract, and which the insured shall be deemed to have elected, shall be as provided on the actuarial table for such purposes.

(b) The insured may, with the consent of the Corporation, change the coverage level and/or price election for any crop year on or before the closing date for submitting applications for that crop year.

9. *Assignment of Indemnity.* Upon approval of a form prescribed by the Corporation, the insured may assign to another party the right to an indemnity for the crop year and such assignee shall have the right to submit the loss notices and forms as required by the contract.

10. *Contract Changes.* The Corporation reserves the right to change any terms and provisions of the contract from year to year. Any changes shall be mailed to the insured or placed on file and made available for public inspection in the office for the county at least 15 days prior to the cancellation date preceding the crop year for which the changes are to become effective, and such mailing or filing shall constitute notice to the insured. Acceptance of any changes will be conclusively presumed in the absence of any notice from the insured to cancel the contract as provided in section 12 of the policy.

Appendix B—Counties Designated for Canning and Processing Tomato Crop Insurance—7 CFR Part 438

In accordance with the provisions of 7 CFR 438.1, the following counties are designated for canning and processing tomato crop insurance:

California

Monterey	San Joaquin
San Benito	

Ohio

Darke	Ottawa
Fulton	Putnam
Henry	Sandusky
Lucas	Wood

Note.—The reporting requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942 and OMB Circular A-40.

This action will not have a significant impact specifically on area and community development; therefore, review as required by OMB Circular A-95 is inapplicable.

Approved by the Board of Directors on May 30, 1980.

Peter F. Cole,
Secretary, Federal Crop Insurance Corporation.

Dated: October 6, 1980.

Approved by:
Everett S. Sharp,
Acting Manager.

[FR Doc. 80-31786 Filed 10-10-80; 8:45 am]

BILLING CODE 3410-09-M

Animal and Plant Health Inspection Service

9 CFR Part 92

Importation of Certain Animals; Harry S. Truman Animal Import Center

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of receipt of applications for special permits and schedule of fees for the third importation of cattle through the Harry S. Truman Animal Import Center.

SUMMARY: This document establishes a specific date for receipt of applications for special permits to be drawn on a lottery basis for the allotment of quarantine space for the third group of cattle to be imported through the Harry S. Truman Animal Import Center (HSTAIC). This action is being taken to notify potential applicants of the lottery in accordance with the regulations.

DATE: January 6, 1981, 9 a.m.

ADDRESS: Room 643A, Federal Building, 6505 Belcrest Road, Hyattsville, MD.

FOR FURTHER INFORMATION CONTACT: Dr. D. E. Herrick, USDA, APHIS, VS, Federal Building, Room 815, Hyattsville, MD 20782, 301-436-8170.

SUPPLEMENTARY INFORMATION: Procedures are established in § 92.41 of Title 9, Code of Federal Regulations (9 CFR 92.41), concerning the allocating of space at the Harry S. Truman Animal Import Center (HSTAIC). These procedures include the holding of a drawing to determine from submitted applications which interested persons will have a right to qualify animals to enter the United States through HSTAIC. The present regulations require that the drawing be held at least six months before the cattle are to enter HSTAIC (9 CFR 92.41(a)(2)). Further § 92.41(a)(1) requires that 90 days prior to the drawing, notice be provided in the *Federal Register* of the date, time and place of the drawing.

The Department anticipates that cattle will be able to enter HSTAIC for the third importation on or about July 6, 1981. The drawing is scheduled for Tuesday, January 6, 1981, commencing at 9 a.m. in Room 643A Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782.

It should be noted that the Department will shortly be publishing a notice of proposed rulemaking concerning the allocation of space at HSTAIC, the application procedure, and the fees to be charged for a particular importation. This notice of proposed rulemaking is to be published for a 30 day comment period. Any changes to

the present procedure, if adopted, would be anticipated to be in effect on or about December 1, 1980, so that if warranted, it may be adopted for the drawing on January 6, 1981. Therefore, with the possibility that the proposed rulemaking changes may be adopted for the drawing on January 6, 1981, and because they do pertain, in part, to the application process and fee system for such drawing, the Department is not going to accept applications for the third importation of cattle into HSTAIC until after it is decided whether or not to adopt the proposed regulations which should be on or before December 1, 1980.

The proposed rule will include a provision authorizing the Department to designate the areas of the world from which animals will be considered eligible for a particular importation. If the proposed rulemaking is adopted, as proposed, APHIS would designate this third importation to be for cattle from the continent of Europe, if there is sufficient interest for such an importation.

The present regulations have a set fee based upon full allocation of the HSTAIC. The estimated fee per animal for this importation under the present regulations would be approximately \$6,824 per animal. Under the proposed regulations, the fee schedule would be graduated depending on the number of animals for which special authorization is granted to enter the HSTAIC and would be as follows:

BILLING CODE 3410-34-M

NUCLEAR REGULATORY COMMISSION

10 CFR Part 73

Physical Protection of Plants and Materials: Correction

AGENCY: Nuclear Regulatory Commission.

ACTION: Correction.

SUMMARY: In a final rule document published in the *Federal Register* July 24, 1979 (44 FR 43282), § 73.1(b) was revised. An error was made in the amendatory language resulting in the inadvertent deletion of § 73.1(b)(2), (3), (4), and (5). It was not the intent of the Commission to delete paragraphs (2), (3), (4) and (5) of § 73.1(b). This document corrects this error and republishes § 73.1(b) as it should appear including a revision made to § 73.1(b)(5) as published at 45 FR 37409 on June 3, 1980.

FOR FURTHER INFORMATION CONTACT: John D. Phillips, Chief, Rules and Procedures Branch Division of Rules and Records, Office of Administration, Nuclear Regulatory Commission, Washington, DC 20555, (301) 492-7086.

SUPPLEMENTARY INFORMATION: Section 73.1(b), appearing at 44 FR 43282, and as revised at 45 FR 37409, as corrected, reads as follows:

§ 73.1 Purpose and scope.

(b) *Scope.* (1) This part prescribes requirements for (i) the physical protection of production and utilization facilities licensed pursuant to Part 50 of this chapter, (ii) the physical protection of plants in which activities licensed pursuant to Part 70 of this chapter are conducted, and (iii) the physical protection of special nuclear material by

any person who, pursuant to the regulations in Part 70 of this chapter, possesses or uses at any site or contiguous sites subject to the control by the licensee, formula quantities of strategic special nuclear material or special nuclear material of moderate strategic significance or special nuclear material of low strategic significance.

(2) This part prescribes requirements for the physical protection of special nuclear material in transportation by any person who is licensed pursuant to the regulations in Part 70 and Part 110 of this chapter who imports, exports, transports, delivers to a carrier for transport in a single shipment, or takes delivery of a single shipment free on board (F.O.B.) where it is delivered to a carrier, formula quantities of strategic special nuclear material, special nuclear material of moderate strategic significance or special nuclear material of low strategic significance.

(3) This part also applies to shipments by air of special nuclear material in quantities exceeding (i) 20 grams or 20 curies, whichever is less, of plutonium or uranium-233, or (ii) 350 grams of uranium-235 (contained in uranium enriched to 20 percent or more in the U-235 isotope)

(4) Special nuclear material subject to this part may also be protected pursuant to security procedures prescribed by the Commission or another Government agency for the protection of classified materials. The provisions and requirements of this part are in addition to, and not in substitution for, any such security procedures. Compliance with the requirements of this part does not relieve any licensee from any requirement or obligation to protect special nuclear material pursuant to security procedures prescribed by the Commission or other Government agency for the protection of classified materials.

(5) This part also applies to the shipment of irradiated reactor fuel in quantities that in a single shipment both exceed 100 grams in net weight of irradiated fuel, exclusive of cladding or other structural or packaging material, and have a total radiation dose in excess of 100 rems per hour at a distance of 3 feet from any accessible surface without intervening shielding.

Dated at Bethesda, Maryland this 30th day of September, 1980.

For the Nuclear Regulatory Commission,
William J. Dircks,

Acting Executive Director for Operations.

[FR Doc. 80-31874 Filed 10-10-80; 8:45 am]

BILLING CODE 7590-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Airworthiness Docket No. 80-ASW-29; Amdt. 39-3942]

Bell Model 47 Series Helicopters; Airworthiness Directives

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which requires installation of safety washers and longer bolts on each tail rotor blade pitch control link on Bell Model 47 series helicopters equipped with the 47-641-170 series tail rotor hub and blades. The AD is needed to prevent possible fatigue failure of the tail rotor pitch control link. Failure of the control link would result in loss of tail rotor blade control and helicopter directional control.

DATES: Effective date of the adopted rule will be November 17, 1980.

Compliance required within 100 hours' time in service.

ADDRESSES: A copy of the bulletins and instructions may be obtained from the Regional Counsel, Attention: Docket No. 80-ASW-29, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. Bell service information may be obtained from the Product Support Department, Bell Helicopter Textron, P.O. Box 482, Fort Worth, Texas 76101.

FOR FURTHER INFORMATION CONTACT: J. H. Major, Airframe Section, Engineering and Manufacturing Branch, ASW-212, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas, telephone number (817) 624-4911, extension 516.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring removal of two bolts, installation of two new longer bolts, and two special washers on the blade pitch horn, and replacement of excessively worn rod end bearings within 100 hours' time in service after November 1980, on Bell Model 47 series helicopters was published in 45 FR 54071. The proposal was prompted by three reports of tail rotor pitch link fatigue failures on Bell Model 47G-2A-1, 47G-4, and 47G-5A helicopters, equipped with 47-641-170 tail rotor hub and blade assemblies, that reportedly resulted in loss of tail rotor blade pitch control and subsequent loss of helicopter directional control.

Excessive wear of the rod end bearing could allow the rod end housing to slide down on the tail rotor pitch horn boss, restrict the flapping action of the blade as a result of interference, and impose excessive bending loads on the pitch link.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No comments were received. Accordingly, the proposal is adopted without change.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

Bell: Applies to all Model 47 series helicopters and military Model H-13, OH-13, and TH-13T series helicopters, including modified versions, certificated in all categories, that are equipped with the 47-641-170 series tail rotor hub and blade assemblies (Airworthiness Docket No. 80-ASW-29).

Compliance required within 100 hours' time in service after November 17, 1980.

To prevent loss of directional control as a result of possible tail rotor pitch link failure, accomplish the following, unless already accomplished in accordance with Bell Helicopter Textron Alert Service Bulletin No. 47-80-5, Rev. A, dated April 29, 1980.

(a) Remove the tail rotor pitch link from each blade pitch horn.

(b) Inspect the pitch link bearings for axial and radial play. Remove bearings having .015 inch or more of play or looseness, and install serviceable bearings.

(c) Install bolts P/N NAS1304-30D or 20-057-4-30D (used with pitch horn, P/N 47-641-187-1, -3, or -5), or P/N NAS1304-32D, or 20-057-4-32D (used with pitch horn, P/N 47-641-187-7) as appropriate, with washer, P/N 47-641-189-1, or -3 under the bolt head or nut, and washer P/N 47-641-189-3 between the link bearing and pitch horn with bevel toward the bearing. Torque nuts 80 to 100 inch-pounds and install cotter pins.

(d) Determine that no binding or interference occurs in the blade controls when the tail rotor controls are full left and right, and the tail rotor hub is flapped to each stop. Track the tail rotor blades in accordance with the appropriate Model 47 maintenance manual if a rod end bearing or a link is replaced in accordance with paragraph (b) of this AD.

(e) Equivalent means of compliance with this AD may be approved by the Chief, Engineering and Manufacturing Branch, Flight Standards Division, FAA, Southwest Region.

(Bell Helicopter Textron Operations Safety Notice OSN 47-79-1 dated October 19, 1979, also pertains to this subject.)

This amendment becomes effective November 17, 1980.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of

Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Note.—The FAA has determined that this document involves a regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Fort Worth, Texas, on October 1, 1980.

C. R. Melugin Jr.,

Director, Southwest Region.

[FR Doc. 80-31877 Filed 10-10-80; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 80-SO-59; Amdt. No. 39-3940]

Great Lakes Model 2T-1A-1 and 2T-1A-2 Airplanes; Airworthiness Directives

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD) which requires a modified oil cooler installation on certain Great Lakes 2T-1A-1 and 2T-1A-2 model airplanes. The AD is prompted by reports of excessive engine oil inlet temperatures which, if not maintained within specified limits, could cause engine failure.

DATE: October 17, 1980.

Compliance required within the next 50 hours time in service after the effective date of this AD unless already accomplished.

ADDRESSES: The applicable service bulletin may be obtained from Great Lakes Aircraft Corporation, Drawer A, Eastman, Georgia 31023, telephone number (912) 374-5535.

A copy of the service bulletin is also contained in the Rules Docket, Room 275, Engineering and Manufacturing Branch, FAA, Southern Region, 3400 Norman Berry Drive, East Point, Georgia 30344.

FOR FURTHER INFORMATION CONTACT: R. C. Padgett, ASO-214, Engineering and Manufacturing Branch, FAA, Southern Region, P.O. Box 20636, Atlanta, Georgia 30320, telephone (404) 763-7435.

SUPPLEMENTARY INFORMATION: There have been reports of oil inlet temperatures exceeding allowable limits during various flight conditions on certain Great Lakes Model 2T-1A-1 and 2T-1A-2 airplanes. Since this condition is likely to exist or develop on other airplanes of the same type design, an Airworthiness Directive is being issued which requires a modified oil cooler installation on Great Lakes Model 2T-

1A-1 and 2T-1A-2 airplanes with Lycoming IO-360 and AEIO-360 engines.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new Airworthiness Directive:

Great Lakes Aircraft Corporation: Applies to Model 2T-1A-1 and 2T-1A-2 airplanes serial numbers 501 through 828 with Lycoming IO-360 or AEIO-360 engines installed, certificated in all categories.

Compliance is required within the next 50 hours time in service after the effective date of this AD, unless already accomplished.

To prevent engine oil inlet temperatures from exceeding acceptable limits, accomplish the following:

(a) Remove Cowl Face P/N 50106-2 and Belly Cowl P/N 50105-2 and modify in accordance with Great Lakes Service Bulletin No. 11, dated September 1, 1980, and incorporate Great Lakes Parts Kit SPK 101.

(b) Inspect oil system for leaks after engine run-up, and prepare the airplane for return to service.

(c) Make an appropriate maintenance record entry. An equivalent method of compliance may be approved by the Chief, Engineering and Manufacturing Branch, Federal Aviation Administration, Southern Region.

This amendment is effective October 17, 1980.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Note.—The FAA has determined that this document involves a regulation which is not significant under Executive Order 12044, as implemented by DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). A copy of the final evaluation prepared for this action is contained in the regulatory docket. A copy of it may be obtained by contacting the person identified above under the caption "For Further Information Contact."

Issued in East Point, Ga., on September 30, 1980.

Louis J. Cardinali,
Director, Southern Region.

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 80-SO-36; Amdt. No. 39-3938]

Piper Aircraft Corporation Model PA-44-180; Airworthiness Directives

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD) which requires inspection of aileron push rods and replacement of parts, if necessary, on certain Piper Model PA-44-180 aircraft. The AD is needed to prevent fatigue failure of the push rod which could result in loss of aileron control.

DATES: Effective October 17, 1980.

Compliance required within the next 25 hours time in service after the effective date of this AD, unless already accomplished.

ADDRESSES: The applicable Piper Service Bulletin may be obtained from Piper Aircraft Corporation, Lock Haven Division, Lock Haven, Pennsylvania 17745, telephone (707) 748-6711.

A copy of the Service Bulletin is also contained in Room 275, Engineering and Manufacturing Branch, FAA, Southern Region, 3400 Norman Berry Drive, East Point, Georgia 30344.

FOR FURTHER INFORMATION CONTACT: Curtis Jackson, Aerospace Engineer, Engineering and Manufacturing Branch, FAA, Southern Region, P.O. Box 20636, Atlanta, Georgia 30320, telephone (404) 763-7407.

SUPPLEMENTARY INFORMATION: There has been a report of aileron push rod binding on a Piper PA-44-180 aircraft, which resulted in fatigue failure of the rod. A failure of the aileron push rod could cause loss of aileron control. Since this situation is likely to exist or develop on other aircraft of the same type design, an Airworthiness Directive is being issued which requires inspection of the aileron push rod and parts replacement, if necessary, on certain Piper PA-44-180 airplanes.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new Airworthiness Directive (AD):

Piper Aircraft Corporation: Applies to Model PA-44-180 (Seminole), serial numbers 44-7995001 through 44-8095027, airplanes certificated in all categories.

Compliance is required within the next 25 hours time in service after the effective date of this AD, unless already accomplished.

To prevent binding of the aileron push rod which could result in fatigue failure of the rod and possible loss of aileron control, accomplish the following:

Note.—All instructions apply to both right and left ailerons.

(a) Remove bellcrank access cover on bottom of aft wing near push rod penetration point. Grasp aileron push rod between thumb and forefinger and rotate while moving aileron throughout entire travel. If free rotation of the push rod is evident in all aileron positions, no further action is required. Reinstall access cover.

(b) If push rod appears to be partially free but does not readily rotate and stop, inspect ball end at aileron actuator fitting and bearing ball sandwiched between rod clevis end at bellcrank for paint or other foreign material. Clean and lubricate ball end and bearing ball per the Piper PA-44 Service Manual and repeat Step (a). If requirements of Step (a) are met, no further action is required. Reinstall access cover.

(c) If push rod will not rotate freely throughout the aileron travel, replace the aileron push rod and aileron bellcrank assembly with new or serviceable parts. Rerig the aileron control system in accordance with the Piper PA-44 Service Manual and reinstall access plate.

(d) Make appropriate maintenance record entry.

(e) Compliance may be shown in an equivalent manner if approved by the Chief, Engineering and Manufacturing Branch, FAA, Southern Region.

Note.—Piper Aircraft Corporation Service Bulletin No. 689 covers this same subject.

This amendment becomes effective October 17, 1980.

(Secs. 313(a), 601, and 603 Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Note.—The FAA has determined that this document involves a regulation which is not significant under Executive order 12044, as implemented by DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). A copy of the final evaluation prepared for this action is contained in the regulatory docket. A copy of it may be obtained by contacting the person identified above under the caption "For Further Information Contact."

Issued in East Point, Ga., on September 29, 1980.

W. J. McGill,

Acting Director, Southern Region.

BILLING CODE 4910-13-M

14 CFR Part 39

[Airworthiness Docket No. 80-ASW-42; Amdt. 39-3934]

Piper Models PA-25 Series Airplanes; Airworthiness Directives

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: Amendment 39-1755 (38 FR 34460), AD 73-26-02, as amended by Amendment 39-1792 (39 FR 7164) requires an inspection of the wing forward spar for cracks and repair as necessary on Piper PA-25 (150 hp) and PA-25-235 airplanes certificated in all categories which have incorporated Supplemental Type Certificate (STC) SA501SW. After issuing Amendment 39-1792, due to service experience, the FAA determined that more models are affected than the Piper PA-25 (150 hp) and PA-25-235, that cracks may occur outside the areas described by Amendment 39-1792, and that damage caused during the incorporation of STC SA501SW can decrease the time in service when cracking occurs.

Therefore, the FAA is superseding Amendment 39-1755, as amended by Amendment 39-1792, with a new AD that adds additional models to the AD, reduces the number of hours when inspection must be conducted, adds more comprehensive inspections, and requires a modification in accordance with the manufacturers's documents.

DATES: Effective October 15, 1980.

Compliance required within the next 5 hours' time in service after the effective date of the AD, unless already accomplished.

ADDRESSES: The applicable technical data may be obtained from Claude Hutcherson Air Service, Box 940, Plainview, Texas 79072. A copy of the technical data is contained in the Rules Docket, at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, Texas.

FOR FURTHER INFORMATION CONTACT: R. T. Weaver, Airframe Section, Engineering and Manufacturing Branch, ASW-212, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas, telephone number (817) 624-4911, extension 516.

SUPPLEMENTARY INFORMATION: There has been a report of a crack in a Piper Model PA-25-260 outside the area covered by Amendment 39-1755 as amended by Amendment 39-1792. This report was on an aircraft that sustained a wing failure with resultant loss of the airplane. Since this condition is likely to

exist or develop on other airplanes of the same type design, an airworthiness directive is being issued which requires inspection, repair or replacement as necessary, and modification of the wing spars on Piper PA-25 series airplanes, certificated in all categories which have incorporated STC SA501SW.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

Piper: Applies to Model PA-25 series airplanes certificated in all categories which have incorporated STC SA501SW. (Docket No. 80-ASW-42). Compliance required as indicated. For airplanes with forward wing spar(s) with 500 hours or more time in service since incorporation of STC SA501SW, compliance is required within 5 hours time in service after the effective date of this AD, unless already accomplished. For airplanes with forward wing spar(s) with less than 500 hours time in service since incorporation of STC SA501SW, compliance is required upon accumulation of 500 hours time in service since incorporation of STC SA501SW or within the next 5 hours time in service, whichever is later.

To detect cracks or other damage in the forward wing spar cap, accomplish the following.

(a) Remove the wing walk lower rear and lower front (leading edge) skin panels from each wing.

(b) Detach the leading edge skin panel covering the wing strut attachment to the main spar sufficiently to allow inspection of the rear flange of the lower spar cap.

(c) Visually inspect the upright, bulbed flange on the aft side of the front and rear spars (upper and lower) of both wings for misdrilled holes common to the bulbed spar flange and skin attach angles. Conduct this inspection in the areas uncovered by (a) and (b).

(1) The center unit of each fastener hole must be between .18 and .34 inches from the free end of the bulbed spar flange.

(2) A gage fabricated as shown in figure number 1 may be used to check for misdrilled holes.

(3) Figures 2 and 3 show how the gage is used.

(d) Inspect the uncovered spar caps for cracks visually and with standard dye or fluorescent penetrant inspection procedures. Place special attention to the inboard 10 inches of the front spar aft, lower cap.

(e) If misdrilled holes or cracks are found in (c) or (d), parts must be replaced with

serviceable parts of the same part number. Replace blind fasteners common to the spar cap and skin angles (if removal is necessary) with MS20600M4 rivets.

(f) Visually inspect the left and right lower spar web at the inboard end for installation of the fatigue resistant doubler plates, Piper P/N 60373 and Moore/Hutcherson P/N's SPD 20025-1 and -2. The fatigue resistant doublers extend outboard of the wing-fuselage attach lug 15 inches while the original single spar web doubler extends only 6 inches outboard of the attach lug. If the fatigue resistant doubler plates are not installed, accomplish the following within the next 100 hours time in service:

(1) Remove left and right wing from fuselage.

(2) Remove wing attach fitting located on each forward wing spar root.

(3) Using standard dye or fluorescent penetrant inspection procedures, inspect the inboard end of the forward spars for a distance of 24 inches outboard of the wing-fuselage attach lug for cracks. Inspect both the spar web and the spar cap with particular attention placed on the inboard 10 inches of the rear flange of the lower spar cap.

(4) If cracks are found, part must be replaced with serviceable parts of the same part number before further flight. Replace blind fasteners common to the spar cap and skin angles (if removal is necessary) with MS20600M4 rivets.

(5) After the inspections and repair of (f)(3) and (f)(4), respectively, install the doubler plates of Moore/Hutcherson drawing SPD 20025.

(6) Reinstall the wing attach fittings and the wings.

(g) Reinstall the leading edge skin covers and walkway lower skin panels.

(h) Aircraft may be flown in accordance with FAR 21.197 to a base where inspections can be accomplished.

(i) Equivalent methods of complying with this AD may be approved by the Chief, Engineering and Manufacturing Branch, FAA, Southwest Region. This supersedes Amendment 39-1755 (38 FR 34460), AD 73-26-02, as amended by Amendment 39-1792 (39 FR 7164).

This amendment becomes effective October 15, 1980.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Issued in Fort Worth, Tex., on September 25, 1980.

C. R. Melugin, Jr.,

Director, Southwest Region.

BILLING CODE 4910-13-M

NOTES:

1. Check rivets with both "A" and "B" ends of gage.
2. The "A" finger must touch the spar flange before the "no" finger touches the rivet head.
3. The "yes" finger must touch the rivet head before the "B" finger touches the spar flange.
4. See Figures 2 and 3 for acceptable and unacceptable fastener installations.

[Docket No. 20836; Amdt. 39-3945]

British Aerospace, Aircraft Group, Model BAC 1-11 Series Airplanes; Airworthiness Directives**AGENCY:** Federal Aviation Administration (FAA), DOT.**ACTION:** Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) that requires inspection and rework as necessary of each Fixed Socket and Flow Selector in British Aerospace, Aircraft Group, Model BAC 1-11 series airplanes. This action also prescribes identification of inoperative selectors and operational limitations until rework is accomplished. This AD is prompted by reports of Fixed Sockets and Flow Selectors with undersized bores that could preclude insertion of the oxygen mask hose connector, preventing access to the oxygen supply in either the passenger cabin or the flight deck.

DATES: Effective—October 28, 1980.

Compliance schedule—As prescribed in the body of AD.

ADDRESSES: The applicable service bulletin may be obtained from: British Aerospace, Inc., Box 17414, Dulles International Airport, Washington, D.C. 20041.

Copies of the applicable service bulletins are contained in the rules docket for this amendment in Room 916, 800 Independence Avenue, S.W., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT: C. Christie, Chief, Aircraft Certification Staff, AEU-100, Europe, Africa, and Middle East Office, FAA, c/o American Embassy, Brussels, Belgium, Telephone: 513.38.30, or C. Chapman, Acting Chief, Technical Standards Branch, AWS-110, FAA, 800 Independence Avenue, S.W., Washington, D.C. 20591, Telephone: (202) 426-8192.

SUPPLEMENTARY INFORMATION: There have been reports of a number of Fixed Sockets and Flow Selectors with undersized bores in the bayonet connection that could preclude insertion of the oxygen mask hose connector, thereby preventing a cabin or flight deck occupant from obtaining oxygen from Fixed Sockets and Flow Selectors in British Aerospace, Aircraft Group, Model BAC 1-11 series airplanes.

Since this condition is likely to exist on other airplanes of the same type design, an airworthiness directive is being issued which requires a check either of the inside diameter of the bayonet connection of each Fixed

Socket and Flow Selector or that the hose connector of each oxygen mask can be fully inserted into the bayonet connection of each Fixed Socket and Flow Selector in British Aerospace, Aircraft Group, Model BAC 1-11 series airplanes. The AD also requires labeling Fixed Sockets and Flow Selectors having undersized bores with the word "INOPERATIVE", and provides a rework procedure to correct the condition.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

British Aerospace, Aircraft Group (formerly British Aircraft Corporation). Applies to Model BAC 1-11 series airplanes, certificated in all categories.

Compliance is required as indicated.

To prevent incompatibility between the bayonet connection of Fixed Sockets and Flow Selectors and the hose connection of oxygen masks which could preclude access to oxygen in the passenger cabin or the flight deck, accomplish the following:

(a) Within the next 50 hours time in service after the effective date of this AD, unless already accomplished, check each Fixed Socket and Flow Selector, Normalair P/N's OP4730, 1205X000, 1930W000, or 1931W000 in accordance with either subparagraph (a) or (b) of paragraph 2.1.1 of British Aerospace, Aircraft Group, Alert Service Bulletin 35-A-PM5723, Issue No. 1, dated September 20, 1979, or an FAA-approved equivalent.

(b) If it is found during the check required by paragraph (a) of this AD that a plug gauge or hose connector cannot be inserted fully into one or more Fixed Socket and Flow Selector—

(1) Rework any defective Fixed Socket and Flow Sectors in accordance with paragraph 2B of Normalair Garrett Alert Service Bulletin 35-A23, Revision 1, dated November 26, 1979, or an FAA-approved equivalent; or

(2) Label each such Selector "INOPERATIVE" in accordance with paragraph 2.1.2 of British Aerospace, Aircraft Group, Alert Service Bulletin 35-A-PM5723, Issue No. 1, dated September 20, 1979, or an FAA-approved equivalent.

(3) Pending the accomplishment of paragraph (b)(1) or (b)(2) of this AD, either—

(i) Install a portable oxygen breathing set at each "INOPERATIVE" Selector; or

(ii) Restrict the operating altitude for the airplane to 8,000 feet or less; or

(iii) Limit the number of passengers to no more than the number of operative selectors.

(c) If any Normalair P/N OP4730, 1205X000, 1930W000, or 1931W000 Fixed Socket and Flow Selector is installed in an airplane after accomplishment of the check required by paragraph (a) of this AD, comply with paragraph 2.1.1 of British Aerospace, Aircraft Group, Alert Service Bulletin 35-A-PM5723, Issue No. 1, dated September 20, 1979, or an FAA-approved equivalent, on the newly installed Selector at the time of installation.

(d) If an oxygen mask is installed in an airplane after accomplishment of the check required by paragraph (a) of this AD and the method used was that specified in paragraph 2.1.1(b) of British Aerospace, Aircraft Group, Alert Service Bulletin 35-A-PM5723, Issue No. 1, dated September 20, 1979, or an FAA-approved equivalent, comply with paragraph 2.1.1(b) with newly installed mask.

(e) within the next 1,200 hours time in service after the effective date of this AD, unless already accomplished, comply with paragraph 2.1.1(a) of British Aerospace, Aircraft Group, Alert Service Bulletin 35-A-PM5723, Issue No. 1, dated September 20, 1979, or an FAA-approved equivalent, and rework any defective Fixed Socket and Flow Selector in accordance with paragraph 2B of Normalair Garrett Alert Service Bulletin 35-A23, Revision 1, dated November 26, 1979, or an FAA-approved equivalent. After rework has been completed, remove the "INOPERATIVE" marking from reworked selectors.

(f) If any Normalair P/N OP4730, 1205X000, 1930W000, or 1931W000 Fixed Socket and Flow Selector is installed in an airplane after accomplishment of paragraph (e) of this AD, comply with paragraph 2.1.1(a) of British Aerospace, Aircraft Group, Alert Service Bulletin 35-A-PM5723, Issue No. 1, dated September 20, 1979, or an FAA-approved equivalent, and rework, if necessary, any defective Fixed Socket and Flow Selector in accordance with paragraph 2B of Normalair Garrett Alert Service Bulletin 35-A23, Revision 1, dated November 26, 1979, or an FAA-approved equivalent, at the time of installation.

(g) If an equivalent means of compliance is used in complying with paragraph (a), (b), (c), (d), (e) or (f) of this AD, that equivalent must be approved by the Chief, Aircraft Certification Staff, AEU-100, Europe, Africa, and Middle East Office, FAA, c/o American Embassy, Brussels, Belgium.

This amendment becomes effective October 28, 1980.

(Secs. 313(a), 601, and 603, of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423), Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89).

Note.—The Federal Aviation Administration has determined that this document involves a regulation which is not significant under Executive Order 12044 as implemented by Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979).

Issued in Washington, D.C., on October 6, 1980.

M. C. Beard,

Director of Airworthiness.

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 80-CE-34-AD; Amendment 39-3944]

Airworthiness Directives; Cessna Model P210N Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD) 80-19-16, superseding AD 80-19-07 and is applicable to certain Cessna Model P210N (Serial Numbers P21000001 through P21000590) airplanes. This new AD incorporates a corresponding emergency AD letter dated September 12, 1980, into the Federal Register. AD 80-19-16 requires, prior to further flight, checking engine cylinder compression and the installation of an instrument placard prohibiting fuel leaning above 60% power. It also requires checks of the engine cylinder compression at 50 hour time-in-service intervals after the initial check. The AD further requires, within 10 flight hours, changing engine magneto timing and increasing maximum fuel flow. These actions are necessary to assure that hidden detonation damage of the engine can be determined and that the detonation can be prevented from reoccurring, thereby precluding a serious safety hazard.

EFFECTIVE DATE: October 20, 1980, to all persons except those to whom it has already been made effective by airmail letter from the FAA dated September 12, 1980.

Compliance: As prescribed in the body of the AD.

ADDRESSES: Cessna Single-engine Customer Care Service Information Letter SE80-80 dated August 26, 1980, applicable to this AD, may be obtained from Cessna Aircraft Company, Marketing Division, Attention: Customer Service Department, Wichita, Kansas 67201; Telephone (316) 685-9111. Teledyne Continental Motors Service Bulletins M68-2, Revision 1, dated September 15, 1971; M73-19 dated December 3, 1973, and M79-8 dated May 25, 1979, also applicable to this AD, may be obtained from Teledyne Continental Motors, Aircraft Products Division, P.O. Box 90, Mobile, Alabama 36601. Copies of the Service Information Letter and Bulletins are also contained in the Rules

Docket, Office of the Regional Counsel, Room 1558, 601 East 12th Street, Kansas City, Missouri 64106; and/or Room 916, 800 Independence Avenue, S.W., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Paul O. Pendleton, ACE-214, Aircraft Certification Program, FAA, Room 238, Terminal Building No. 2299, Mid-Continent Airport, Wichita, Kansas 67209; Telephone (316) 942-7927.

SUPPLEMENTARY INFORMATION: On

August 29, 1980, Airworthiness Directive (AD) 80-19-07, Amendment 39-3912 was issued to become effective September 15, 1980. AD 80-19-07, applicable to certain serial numbers of the above-mentioned Cessna Model P210N airplanes, required within the next 25 hours time-in-service after the AD's effective date, installation of a placard and revision of the Pilot's Operating Handbook/Airplane Flight Manual (POH/AFM) to assure that minimum fuel flows are maintained at various power settings and prohibiting fuel flow adjustments that produce peak exhaust gas temperature above 60 percent power. In addition, it required a check and/or adjustment of the unmeted fuel pressure. Subsequent to the issuance of AD 80-19-07, a Cessna Model P210N airplane experienced in-flight detonation damage of the TSIO-520-P engine installed in the airplane. As a result, the FAA concluded that other airplanes of the same type design may have similar engine damage which, if undetected and not corrected, could cause a serious safety hazard. The FAA determined that this was an unsafe condition, that an emergency condition existed, that immediate corrective action was required and that notice and public procedure thereon was impractical and contrary to the public interest. Accordingly, an emergency AD airmail letter dated September 12, 1980, was sent to all known registered owners of the affected airplanes. The AD, which is identified as AD 80-19-16, superseded AD 80-19-07. It includes the basic requirements of the superseded AD and

sets forth a means for determining hidden detonation damage of the engine. AD 80-19-16 became effective as to registered owners upon receipt of the airmail letter. Since the unsafe condition described herein may still exist on other Cessna Model P210N airplanes, the AD is being published in the Federal Register as an amendment to Part 39 of the Federal Aviation Regulations (14 CFR Part 39) to make it effective to all persons who did not receive the letter notification.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new Airworthiness Directive.

Cessna: Applies to Model P210N (S/Ns P21000001 through P21000590) airplanes certificated in all categories.

Compliance: Required as indicated unless already accomplished.

To reduce the possibility of engine detonation, accomplish the following:
(A) Prior to further flight:

1. Perform the engine condition check (cylinder differential compression check) outlined in Teledyne Continental Motors (TCM) Service Bulletin No. M73-19. If the results of this check are unsatisfactory (greater than 25% differential) perform additional checks and corrections specified in Teledyne Continental Motors Service and Overhaul Manuals for its TSIO-520-P engine. Perform the check outlined in TCM Service Bulletin No. M73-19 thereafter at intervals not to exceed 50 hours time-in-service since the last check.

2. Install Cessna P/N 2105026-1 placard next to the fuel flow indicator which reads as follows:

"Set fuel flow per limitations section of POH/AFM. Do not lean to "peak EGT" above 60% power."

and operate the airplane in accordance with this limitation.

3. Revise the limitations sections of the Pilot's Operating Handbook/Airplane Flight Manual (POH/AFM) by either inserting a copy of the limitations provided in this paragraph or the applicable Cessna POH/AFM revision specified below:

Airplane serial No.	Revision	Cessna part No.
P21000001 through P21000150	Rev. 3, Aug. 20, 1980	D1124R3-13PH
P21000151 through P21000385	Rev. 4, Aug. 20, 1980	D1153R4-13PH
P21000386 through P21000590	Rev. 4, Aug. 20, 1980	D1188R4-13PH

The revised limitations read as follows and the airplane must be operated in accordance with these

limitations:

"Takeoff manifold pressure and fuel flow must be adjusted per Section 4 of the Pilot's

Operating Handbook (POH) under "TAKEOFF POWER CHECK."

During maximum continuous power operation, maintain fuel flow at not less than 162 pounds per hour (PPH). (Top of the white arc.)

For maximum cruise power (33" MP/2500 RPM), do not lean below 125 PPH.

At 60% power or less as defined by the POH, normal fuel flow settings or normal leaning with the exhaust gas temperature (EGT) may be used in accordance with the POH.

Above 60% power, do not lean to "peak EGT" at any time.

Between 60% and 80% power, do not lean unless an EGT indicator is installed. If an EGT indicator is installed, do not lean EGT above that EGT needle position established during engine operation at 33" MP, 2500 RPM and 125 PPH fuel flow."

(B) Within the next 10 hours of operation:

(1) Reset the engine timing to $20^{\circ} \pm 1^{\circ}$ before top dead center. Reference TCM Service Bulletin No. M68-2, Rev. 1, page 2.

(2) Reset the full rich fuel flow by fuel pump adjustments to the following specification referenced in TCM Service Bulletin No. M79-8:

RPM	Pump pressure (PSI)	Metered pressure (PSI)	Fuel flow (lbs/hr)
600	5.5-6.5	3.5-4.0	
2,700	35-39	19.5-21	186-195

NOTE.—Operation with reduced timing and increased fuel flow will result in a slight reduction in available power, approximately 6 Brake Horse Power (BHP).

(3) a. Restamp the engine nameplate to 20° timing and enter this setting in the applicable airplane maintenance records.

b. Remark the engine fuel flow gauge upper limit on the glass exterior. (Include a white slippage mark for reference of the glass to the gauge case.)

(C) A ferry permit to accomplish the needed compression check may be issued under the provisions of FAR 21.197 by the FAA District Offices, with appropriate limitations, in coordination with the Chief, Aircraft Certification Program Office, at the address indicated below.

(D) Any equivalent method of compliance with this Airworthiness Directive must be approved by the Chief, Aircraft Certification Program, Federal Aviation Administration, Room 238, Terminal Building No. 2299, Mid-Continent Airport, Wichita, Kansas 67209, Telephone (316) 942-4285.

Cessna Single-engine Customer Care Service Information Letter SE80-80 dated August 26, 1980, pertains in part to the subject matter of this AD.

This AD supersedes AD 80-19-07 (39-3912).

This amendment becomes effective on October 20, 1980, to all persons except those to whom it has already been made effective by an airmail letter from the FAA dated September 12, 1980, and is identified as AD 80-19-16.

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958, as amended, (49 U.S.C.

1354(a), 1421 and 1423); Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); Sec. 11.89 of the Federal Aviation Regulations (14 CFR Sec. 11.89))

Note.—The FAA has determined that this document involves a regulation which is not significant under Executive Order 12044, as implemented by Department of Transportation Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). A copy of the final evaluation prepared for this document is contained in the docket. A copy of it may be obtained by writing to FAA, Office of the Regional Counsel, Room 1558, Central Region, 601 East 12th Street, Kansas City, Missouri 64106.

Issued in Kansas City, Missouri, on October 3, 1980.

John E. Shaw,

Acting Director, Central Region.

BILLING CODE 4910-13-M

14 CFR Part 71

[Airspace Docket No. 80-ARM-11]

Alteration of Control Zone and Transition Area; Designation of Federal Airways, Area Low Routes, Controlled Airspace and Reporting Points

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This Amendment alters the Rock Springs, Wyoming control zone and 700' transition area due to the decommissioning of the THAER Outer Marker Compass Locator (LOM) and the relocation of the Rock Springs Airport reference point. There will be no change to the 1,200' transition area.

EFFECTIVE DATE: 0901, GMT, December 25, 1980.

FOR FURTHER INFORMATION CONTACT: Pruet B. Helm, Operations, Procedures and Airspace Branch, Air Traffic Division, ARM-500, Federal Aviation Administration, Rocky Mountain Region, 10455 East 25th Avenue, Aurora, Colorado 80010; telephone (303) 837-3937.

SUPPLEMENTARY INFORMATION:

History

On Thursday, July 31, 1980, the FAA published for comment (45 FR 50813) a proposal to alter the control zone and 700' transition area at Rawlins, Wyoming. The only comments received as a result of this notice expressed no objection.

The Rule

This Amendment to Part 71 of the Federal Aviation Regulations (FAR's)

alters the Rock Springs, Wyoming control zone and 700' transition area. This action is necessary due to the decommissioning of the THAER LOM and the relocation of the Rock Springs Airport reference point.

Drafting Information

The principal authors of this document are Pruet B. Helm, Operations, Procedures and Airspace Branch, Air Traffic Division, and Daniel J. Peterson, office of Regional Counsel.

Adoption of The Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended effective 0901 GMT, December 25, 1980, as follows:

By amending subpart F, § 71.171 (45 FR 356) so as to alter the following control zone to read:

Rock Springs, Wyoming

Within 5.5 miles each side of the Rock Springs, Wyoming VORTAC (Latitude $41^{\circ}35'25''$ N, Longitude $109^{\circ}00'53''$ W) $095^{\circ}275'$ radials extending from the VORTAC to 18 miles west and 12.5 east. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

By amending subpart G, § 71.181 (45 FR 445) so as to alter the following transition area to read:

Rock Springs, Wyoming

That airspace extending upward from 700' above the surface within an 11.5 mile radius of the Rock Springs-Sweetwater County Airport (latitude $41^{\circ}35'39''$ N., longitude $109^{\circ}03'53''$ W.) within 10 miles north and 7 miles south of the Rock Springs, Wyoming VORTAC 269° radial and 089° radial extending from the 11.5 mile radius to 29.5 miles west and 21 miles east of the VORTAC; and within 2.5 miles north and 5.5 miles south of the Rock Springs, Wyoming VORTAC 109° radial extending to 19 miles east of the VORTAC.

(Sec. 307(a) Federal Aviation Act of 1958 as amended (49 U.S.C. 1348(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c); and 14 CFR 11.69)

Note.—The FAA has determined that this document involves a regulation which is not significant under Executive Order 12044, as implemented by DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Since this regulatory action involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current and promote safe flight operations, the anticipated impact is so minimal that this action does not warrant preparation of a regulatory evaluation.

Issued in Aurora, Colorado on October 1, 1980.

Arthur Varnado,
Director, Rocky Mountain Region.

14 CFR Part 71

[Airspace Docket No. 80-ARM-13]

Alteration of 1,200' Transition Area; Designation of Federal Airways, Area Low Routes, Controlled Airspace and Reporting Points

AGENCY: Federal Aviation Administration (FAA), DOT
ACTION: Final rule.

SUMMARY: This amendment alters the 1,200' transition area at Great Falls, Montana to provide controlled airspace for aircraft being provided radar service while ingressing/egressing the Great Falls, Montana area. The 700' transition area will not be altered.

EFFECTIVE DATE: 0901 GMT, December 25, 1980.

FOR FURTHER INFORMATION CONTACT: Pruet B. Helm, Operations, Procedures and Airspace Branch, Air Traffic Division, ARM-500, Federal Aviation Administration, Rocky Mountain Region, 10455 East 25th Avenue, Aurora, Colorado, 80010; telephone (303) 837-3937.

SUPPLEMENTARY INFORMATION:

History

On Monday, August 4, 1980, the FAA published for comment (45 FR 51589) a proposal to alter the 1,200' transition area at Great Falls, Montana. The only comments received as a result of this circular expressed no objections.

The Rule

This amendment to subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) alters the 1,200' transition area at Great Falls, Montana to provide controlled airspace for aircraft being provided radar service while ingressing/egressing the Great Falls, Montana area.

Drafting Information

The principal authors of this document are Pruet B. Helm, Operations, Procedures and Airspace Branch, Air Traffic Division, and Daniel J. Peterson, office of Regional Counsel.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended

effective 0901 GMT, December 25, 1980, as follows:

By amending subpart G, § 71.181 (45 FR 445) so as to alter the following transition area to read:

Great Falls, Montana

That airspace extending upward from 1,200' above the surface within a 60-mile radius of the Great Falls VOR (latitude 47°27'00" N., longitude 111°24'41" W.); and that airspace beginning 60 miles southeast of the Great Falls VOR from the south edge of V-113, east to the west edge of V-187, southeast to the intersect of the east edge of V-2N, northwest to the intersect of the 60-mile radius of Great Falls VOR; thence to point of beginning, excluding that portion overlying the Billings and Helena, Montana 1,200' transition areas.

(Sec. 307(a) Federal Aviation Act of 1958 as amended (49 U.S.C. 1348(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c); and 14 CFR 11.69))

Note.—The FAA has determined that this document involves a regulation which is not significant under Executive Order 12044, as implemented by DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Since this regulatory action involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current and promote safe flight operations, the anticipated impact is so minimal that this action does not warrant preparation of a regulatory evaluation.

Issued in Aurora, Colorado on October 1, 1980.

[Airspace Docket No. 80-AAL-15]

Alteration of Point Barrow Transition Area; Designation of Federal Airways, Area Low Routes, Controlled Airspace, and Reporting Points

AGENCY: Federal Aviation Administration (FAA), DOT.
ACTION: Final rule.

SUMMARY: This amendment alters the Point Barrow, Alaska, Transition Area to provide additional controlled airspace to protect aircraft executing instrument approaches being developed for the Wiley Post-Will Rogers Memorial Airport.

EFFECTIVE DATE: December 25, 1980.

FOR FURTHER INFORMATION CONTACT: L. Jack Overman, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence

Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-3715.

SUPPLEMENTARY INFORMATION:

History

On August 21, 1980, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the Point Barrow, Alaska, Transition Area (45 FR 55755). Interested persons were invited to participate in the rulemaking proceeding by submitting written comments on the proposal to the FAA. The comments received expressed no objection. This is the same amendment as that proposed in the notice. Section 71.181 of Part 71 was republished in the Federal Register on January 2, 1980 (45 FR 445).

The Rule

This amendment to § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) alters the Point Barrow, Alaska, Transition Area by establishing extensions to the east and west to protect aircraft executing approaches to Wiley Post-Will Rogers Memorial Airport. This action designates an area within 4.5 miles each side of the Barrow, Alaska, ILS localizer E course extending from the localizer antenna (Lat. 71° 17'09"N., Long. 156°43'54"W.) to 24.5 miles east of the localizer antenna and within 4.5 miles north and 9.5 miles south of the Barrow, Alaska, ILS localizer W course extending from the localizer antenna to 25.5 miles west of the localizer antenna.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (45 FR 445) is amended, effective 0901 GMT, December 25, 1980, by amending the Point Barrow, Alaska, Transition Area by deleting the period at the end of the description and adding a semicolon and a new clause to read as follows:

Within 4.5 miles each side of the Barrow, Alaska, ILS localizer E course extending from the localizer antenna (Lat. 71°17'09"N., Long. 156°43'54"W.) to 24.5 miles east of the localizer antenna and within 4.5 miles north and 9.5 miles south of the Barrow, Alaska, ILS localizer W course extending from the localizer antenna to 25.5 miles west of the localizer antenna.

(Secs. 307(a), 313(a), and 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(a), and 1510; Executive Order 10854 (24 FR 9565); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69)

Note.—The FAA has determined that this document involves a regulation which is not significant under Executive Order 12044, as

implemented by DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Since this regulatory action involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current and promote safe flight operations, the anticipated impact is so minimal that this action does not warrant preparation of a regulatory evaluation.

Issued in Washington, D.C., on October 6, 1980.

C. V. Hannan,

Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc. 80-31863 Filed 10-10-80; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 75

[Airspace Docket No. 79-NW-20]

Extension of Jet Route No. 65 to Seattle, Wash.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment extends J-65 from its terminal at Red Bluff, Calif., to Seattle, Wash., via Klamath Falls, Ore. Increased use of this vector route justifies designation of the jet route. Designation of this route as a jet route also reduces the flight planning and communication time required for its use.

EFFECTIVE DATE: December 25, 1980.

FOR FURTHER INFORMATION CONTACT: L. Jack Overman, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-3715.

SUPPLEMENTARY INFORMATION:

History

On May 8, 1980, the FAA proposed to amend § 75.100 of Part 75 of the Federal Aviation Regulations (14 CFR Part 75) to extend J-65 from Red Bluff, Calif., direct to Klamath Falls, Ore.; direct to Seattle, Wash., (45 FR 30452). Interested persons were invited to participate in the rulemaking proceeding by submitting written comments on the proposal to the FAA. The comments received expressed no objections. This amendment is the same as that proposed in the notice. Section 75.100 of Part 75 was republished in the *Federal Register* on January 2, 1980, (45 FR 732).

The Rule

This amendment to § 75.100 of Part 75 of the Federal Aviation Regulations (14 CFR Part 75) extends J-65 from Red

Bluff, Calif., to Seattle, Wash., via Klamath Falls, Ore. Designation of this added route segment as a jet route would provide charted course radials and minimum altitudes where they may be required. Flight planning and communication time would be reduced by the use of a numbered jet route rather than describing the route by radials as is presently required. This route helps to relieve some of the congestion at Portland, Ore., by bypassing that area.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 75.100 of Part 75 of the Federal Aviation Regulation (14 CFR Part 75) as republished (45 FR 732) is amended, effective 0901 GMT, December 25, 1980, as follows:

Under Jet Route No. 65 "to Red Bluff, Calif." is deleted and "Red Bluff, Calif.; Klamath Falls, Ore.; to Seattle, Wash." is substituted therefor.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69)

Note.—The FAA has determined that this document involves a regulation which is not significant under Executive Order 12044, as implemented by DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Since this regulatory action involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current and promote safe flight operations, the anticipated impact is so minimal that this action does not warrant preparation of a regulatory evaluation.

Issued in Washington, D.C., on October 6, 1980.

C. V. Hannan,

Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc. 80-31862 Filed 10-10-80; 8:45 am]

BILLING CODE 4910-13-M

CIVIL AERONAUTICS BOARD

14 CFR Part 241

[Reg. ER-1201; Docket No. 37088; Amdt. No. 41 to Part 241]

Certificated Air Carriers; Passenger Origin-Destination Survey

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: This final rule will require all U.S. certificated air carriers offering scheduled passenger service (except helicopter and wholly intra-Alaska carriers) to participate in a Passenger Origin-Destination Survey based on a continuous sample of passenger tickets.

The Passenger Origin-Destination Survey has been in existence for many years and continues to serve a wide variety of the Board's remaining regulatory programs. While most carriers are already participating on a voluntary basis, this rule is necessary to insure the kind of universal participation that is essential to the continued usefulness of the survey.

DATES: Adopted: October 8, 1980. Effective: January 1, 1981.

FOR FURTHER INFORMATION CONTACT:

Clifford M. Rand or Thad Machcinski, Office of Economic Analysis, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428, (202) 673-6042.

SUPPLEMENTARY INFORMATION: In EDR-392 (44 FR 67140, November 23, 1979), the Board proposed a rule to require all U.S. certificated air carriers offering scheduled passenger service (except helicopter and wholly intra-Alaska carriers) to participate in a Passenger Origin-Destination Survey based on a continuous 10 percent sample of passenger tickets.

The Passenger Origin-Destination Survey is important to a wide variety of the Board's remaining regulatory programs. The O & D Survey is used in the Board's termination, reduction, and suspension of service decisions under Section 401(j) of the Federal Aviation Act; determinations of essential air service and subsidy need projections pursuant to Section 419 of the Act; and bilateral negotiations with foreign governments. In addition, environmental impact assessments and a variety of other formal proceedings involving calculations of market shares and fare dilutions utilize the data provided by the O & D Survey. It will also be used to evaluate the effects of deregulation for the Board's Report to Congress.

Before enactment of the Airline Deregulation Act of 1978 (ADA), certificated carriers providing scheduled passenger service were voluntarily participating in the Passenger Origin-Destination Survey. This rule is being adopted to insure continued participation by all certificated carriers including those certificated after the ADA.

EDR-392 also enumerated several reporting alternatives which the Board was exploring for reducing the reporting burdens associated with the O & D Survey. These were:

1. A reduction in the sample size from 10 percent to 5 percent.
2. A limitation in the number of coupons on tickets included in the survey.

3. A reduction in the number of tickets for which the dollar value is reported by excluding tickets with open-jaw or multi-break itineraries and surface movements.

4. The establishment of a two-tiered reporting system that would impose a lesser burden on the small carriers.

Concurrent with the issuance of EDR-392, the Board adopted Order 79-11-113, authorizing discussions between Board staff members and the air carriers concerning the Passenger Origin-Destination Survey reporting requirements and the reporting alternatives mentioned earlier.

The only carrier showing interest in face to face discussions on the alternatives contained in EDR-392 or the reporting requirements of the O & D Survey was Delta Air Lines, Inc., whose representatives met with the Board's staff on January 8, 1980. The opinions of Delta expressed at that meeting were included in the carrier's written comments in this proceeding and thus will not be repeated. The minutes of the meeting were made a part of this docket.

Comments

Fifteen comments were received in response to the rulemaking notice, ten of which came from certificated route air carriers.¹ The remaining commenters were Airport Operators Council International, Boeing Commercial Airplane Company, Harbor Airlines, Purdue University—School of Aeronautics and Astronautics, and the State of Nebraska—Department of Aeronautics.

Mandatory Participation

Eight of the fifteen respondents, six of which were certificated carriers, favored mandatory participation in the Passenger Origin-Destination Survey. Two carriers, Midway Airlines and Pacific Southwest Airlines objected to full participation of all carriers. The remaining respondents were silent on this issue.

Those favoring mandatory participation expressed the view that all carriers must participate in order to have a valid survey. Hughes Airwest not only favored mandatory participation but also stated that it would pull out of the survey if all carriers were not included.

Midway Airlines objected to mandatory participation for all carriers because it felt that newly certificated

carriers should be required to report only in cases where a particularized need can be persuasively established. In addition, Midway Airlines stated that their data would be of little value in administering the Board's continuing statutory responsibilities because of the limited time remaining before sunset and because of the lack of historical comparative data with which to analyze Midway's operations.

Pacific Southwest Airlines believes that the O & D Survey should be altered to suit today's highly competitive deregulated air transport marketplace. They feel that new entrants should not be burdened and required to conform to reporting practices established for the incumbent interstate carriers. Additionally, Pacific Southwest stated that most of the information gathered by the O & D Survey is available from other sources, such as the Immigration and Naturalization Service Data and the Official Airline Guide. Finally, Pacific Southwest Airlines pointed out that its operations are unusual in that only 1.4% of its passengers interline and, therefore, it would be unduly burdensome for them to inspect thousands of tickets to account for this minimal number of passengers.

Delta Air Lines favors mandatory participation by all carriers, but it believes that the O & D Survey should terminate on December 31, 1981, when the Board's jurisdiction over domestic routes terminates.

The comment of Hughes Airwest stating that it would pull out of the survey if all carriers did not participate lends credence to the Board's concern expressed in EDR-392 about the continued existence of the O & D Survey as a voluntary system.

We feel that the survey has taken on added importance over the past year. It is used in determining essential air service points, subsidy needs and the effects of deregulation itself. We do not believe that Midway or Pacific Southwest has made a persuasive case for exemption from the survey for now. We believe, on the basis of the information provided, that to exclude these carriers from the survey, and at the same time allow them to have access to other carriers' data would be inequitable. This does not mean that the door has been closed to exceptions in special circumstances. Carriers may still petition for waivers to be granted under authority delegated to the Director, Office of Economic Analysis (14 CFR 385.27(c)).

Pacific Southwest's statement that most of the data contained in the survey are available from other sources is not accurate. While the Board could get

limited international flight information from the Immigration and Naturalization Service (INS), it will not meet the Board's regulatory needs. INS data show traffic gateway-to-gateway. The Board needs the statistics in the O & D Survey which in addition to the true origin and destination of traffic includes itinerary, fare basis, and dollar amount of fare data. INS does not provide this information. OAG data are also very limited. OAG data show where carriers provide service and not how passengers are actually flying.

Delta Air Lines is correct in asserting that the Board's jurisdiction over domestic routes ends on December 31, 1981. However, the need for O & D data will continue beyond that date. In fact, even after the Board sunsets in 1985 these data may be needed by the Department of Transportation and other agencies which will assume some of the Board's activities. But the Board already announced in EDR-392 an intention to review O & D data needs in 1983 in light of then current needs, and a judgment on continuing the survey will be made at that time. Also, in announcing the proposed sunset date, we implied an interest in transferring ongoing maintenance of the O & D Survey to the private sector. We intend to explore this possibility with a determination by 1983.

Passenger Origin-Destination Directives

Delta Air Lines, Inc. objected to the use of Passenger Origin-Destination Directives to administer the survey. Delta is concerned that this procedure might at some time result in a material change to the data elements and reporting requirements of the survey without formal notice and opportunity to comment.

We will not use Passenger Origin-Destination Directives to make material changes to the scope of the survey, except to implement one technical modification decided upon in this rule. As EDR-392 points out, these directives have been used effectively to instruct the carriers about the technical aspects of the survey for many years. Because of its proven efficiency we will continue to use this medium in handling routine administrative changes such as listing a new participating carrier or changing the length of a data field.

Any change to the survey which materially alters the scope or which increases the burden (cost) to the carriers of complying with the change will be put forth in a notice of proposed rulemaking so that those affected will have the opportunity to submit comments.

Based on the comments received and the meeting with Delta, we have decided

¹ American Airlines, Inc.; Continental Air Lines, Inc.; Delta Air Lines, Inc.; Hughes Air Corp. d/b/a Hughes Airwest; Midway Airlines, Inc.; Ozark Air Lines, Inc.; Pacific Southwest Airlines; Pan American World Airways, Inc.; Trans World Airlines, Inc.; and United Air Lines, Inc.

to implement the requirements for an O & D Survey as proposed in EDR-392.

Technical Matters

As was mentioned earlier, the carriers except for Delta expressed no interest in face to face discussions with the Board's staff on the technical reporting alternatives contained in EDR-392. A few carriers did, however, submit written comments on the technical reporting alternatives in EDR-392 as a part of this proceeding. Based on these comments, we have decided to reduce the number of coupons on tickets included in the survey from a maximum of 24 to 7. This will afford all carriers the same relief already given to the recently certificated carriers. This change will be administered in a Passenger Origin-Destination Survey Directive to be issued shortly.

A number of commuter air carriers have expressed an interest in participating in the O & D Survey. However, since this action was not proposed in EDR-392, we will not include commuter air carriers in this rule. We will, however, permit any commuter air carrier to fully participate in the O & D Survey on a voluntary basis. Commuter requests to participate in the O & D Survey should be submitted in writing to the Board's Data Systems Management Division, Office of Comptroller.

Since EDR-392 was issued, we have published for new carriers a special edition of the *Instructions to Air Carriers for Collection and Reporting Passenger Origin-Destination Survey Statistics*. The final rule, therefore, refers to this edition along with the regular one and the O & D Directives.

Finally, this rule corrects two clerical errors made in ER-1188 (45 FR 48867; July 22, 1980), which amended Part 241 to substantially reduce reporting requirements. Where ER-1188 amended paragraph (d) of the reporting instructions for Schedules P-1.1 and P-1.2 in Section 24, it should have amended paragraph (e). This rule restores the former paragraph (d) and revises paragraph (e) accordingly. Also, in Section 22, the applicability citations for Schedule P-10, Employment Statistics by Labor Category, are revised to refer to all certificated carriers. Since these amendments merely correct clerical errors and make no substantive change, the Board finds that notice and public procedure are unnecessary.

Accordingly, the Civil Aeronautics Board amends Part 241 of the Economic Regulations (14 CFR Part 241), *Uniform System of Accounts and Reports for Certificated Air Carriers* as follows:

1. Add a new Section 19-7 in Section 19 to read:

§ 19-7 Passenger origin-destination survey.

(a) All U.S. certificated route air carriers conducting scheduled passenger operations (except helicopter and wholly intra-Alaska carriers) shall participate in a Passenger Origin-Destination Survey covering domestic and international operations, as described in the instruction manuals entitled, *Instructions to Air Carriers for Collection and Reporting Passenger Origin-Destination Survey Statistics*, *Instructions to Air Carriers for Collection and Reporting Passenger Origin-Destination Survey Statistics—Special Edition for Carriers Reporting for the First Time on or After October 1, 1979* and *Passenger Origin-Destination Directives* issued by the Board's staff. Copies of these manuals have been provided to certificated carriers and all revisions made after the adoption of this section will be mailed to each certificated carrier. Copies are also available through the Data Systems Management Division, Office of Comptroller.

(b) Those air carriers having access to automatic data processing services shall utilize either magnetic computer tape or punched cards for transmitting the prescribed data to the Board. Those carriers not having access to automatic data processing equipment shall utilize CAB Form 2787 in typewritten form.

(c) A 10 percent sample of flight coupons shall be selected for reporting in accordance with the instruction manuals and the directives mentioned in paragraph (a) of this section. The data to be recorded and submitted from reportable flight coupons, as stipulated in the instruction manuals and directives, shall include the following data elements: point of origin; carrier on each flight-coupon stage, fare-basis on each flight-coupon stage; points of stopover or connection (interline and intraline), point of destination, number of passengers, total dollar value of ticket (fare plus tax).

(d) Similar international Passenger Origin-Destination Survey data covering

the operations of the non-U.S. carriers are not generally available to the Civil Aeronautics Board, the U.S. carriers, or U.S. interest. Therefore, because of the damaging competitive impact on U.S. flag carriers and the adverse effect upon the public interest that would result from unilateral disclosure of the U.S. survey data, the Civil Aeronautics Board has determined its policy to be that the international data in the Passenger Origin-Destination Survey shall be disclosed only as follows:

(1) To an air carrier directly participating in, and contributing input data to, the survey, or to a legal or consulting firm or other organization designated by an air carrier to use on its behalf O & D data in connection with a specific assignment by such carrier.

(2) To parties to any proceeding before the Board to the extent that such data are relevant and material to the issues in the proceeding upon a determination to this effect by the administrative law judge assigned to the case or by the Board. Any data to which access is granted pursuant to this section may be introduced into evidence subject to the normal rules of admissibility of evidence.

(3) To agencies and other components of the U.S. Government.

(4) To other persons upon a showing that the release of the data will serve specifically identified needs of U.S. users which are consistent with U.S. interests.

(5) To foreign governments and foreign users as provided in formal reciprocal arrangements between the foreign and U.S. governments for the exchange of comparable O & D data.

(e) The Board reserves the right to make such other disclosure of the subject data as is consistent with its regulatory functions and responsibilities.

(f) The requirements of this section will expire on January 1, 1984, unless extended by the Board.

§ 22 [Amended]

2. Amend Section 22, *General Reporting Instructions* to change the applicability of Schedule P-10 to read as follows:

List of Schedules in CAB Form 41 Report

Schedule No.	Schedule title	Filing frequency	Applicability by carrier group		
			I	II	III
P-10	Employment Statistics by Labor Category	Annually	(*)	(*)	(*)

§ 24 [Amended]

3. Amend Section 24, by revising paragraphs (d) and (e) to the reporting instructions for Schedule P-1.1 and Schedule P-1.2 to read:

Schedule P-1.1.—Statement of Operations—Group I Air Carriers.

Schedule P-1.2.—Statement of Operations—Group II and Group III Air Carriers.

(d) Data reported on this schedule shall conform with the instructions pertaining to profit and loss classifications within this Uniform System of Accounts and Reports.

(e) Data reported in the "12-Months-to-Date" column shall represent for each individual item the sum of amounts reported in the "Quarter" column for the current and next previous three quarters. Data in the "Year-to-Date" column need not be provided when this schedule is not used for submission to the SEC. But when the schedule is used for SEC purposes, data reported in the "Year-to-Date" column shall represent, for the first three quarters of the carrier's fiscal year or calendar year, amounts from the beginning of the carrier's fiscal or calendar year to the end of the quarter for which the schedule is being submitted. For the fourth quarter of the air carrier's fiscal or calendar year, the "Year-to-Date" column should be used for the comparative presentation of data for the prior year.

(Secs. 204(a), 407, 1601, Federal Aviation Act of 1958, as amended, 72 Stats. 743, 766, 92 Stat. 1744 (49 U.S.C. 1324(a), 1377, 1551))

By the Civil Aeronautics Board.

Phyllis T. Kaylor,

Secretary.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 200

[Release No. 33-6228]

Delegation of Authority to the Director of the Division of Investment Management

Correction

In FR Doc. 80-26603 appearing on

page 57701 in the issue of Friday, August 29, 1980; on page 57702, first column, the section heading should read "§ 200.30-5****".

BILLING CODE 1505-01-M

17 CFR Parts 200, 230, 239, 274

[Release Nos. 33-6229, IC-11315]

Revised Procedures for Processing Post-Effective Amendments Filed by Investment Companies

Corrections

In FR Doc. 80-26604 appearing on page 57702 in the issue of Friday, August 29, 1980, make the following changes:

1. On page 57702, third column, first paragraph under "Background", eleventh line, the first "of" should read "or".

2. On page 57703, second column, sixteenth line from the top, "has" should read "had".

3. On page 57705, first column, second line of the first full paragraph, "days" should read "day".

4. On page 57707, first column, § 274.11, the second line from the bottom of the paragraph in small print, there should be a blank between "State" and "of"; and in the last line of that same paragraph, insert a bracket at the end.

GENERAL SERVICES ADMINISTRATION

41 CFR Parts 5-30 and 5A-30

Contract Financing

AGENCY: General Services Administration.

ACTION: Final rule.

SUMMARY: The General Services Administration Procurement Regulations, Chapter 5, are amended to transfer policies and procedures regarding contract financing from Chapter 5A. This transfer is part of the action to incorporate appropriate material in Chapter 5A into Chapter 5. The intended effect is to have a single GSA-wide procurement regulation.

EFFECTIVE DATE: October 31, 1980.

FOR FURTHER INFORMATION CONTACT:

Philip G. Read, Director, Federal Procurement Regulations Directorate,

Office of Acquisition Policy, (703-557-8947).

CHAPTER 5—GENERAL SERVICES ADMINISTRATION PROCUREMENT REGULATIONS

[APD 2800.2 CHGE 6]

1. The Table of Parts is amended by adding the following entry:

Table of Parts

Part 5-30; Contract Financing.

2. The contents for Part 5-30 is added as follows:

PART 5-30—CONTRACT FINANCING

Subpart 5-30.1—Forms of Financing

Sec.

5-30.109 Partial payments—description.

Subpart 5-30.2—Basic Policies

5-30.212 Coordination before contract award.

Subpart 5-30.4—Advance Payments

5-30.403 Interest.

5-30.405 Statutory requirements.

5-30.406 Responsibility—delegation of authority

5-30.412 Action by contracting officer.

5-30.414 Agreement for special bank account and contract provisions.

5-30.414-2 Contract provisions for advance payments.

Subpart 5-30.05—Progress Payments Based on Costs

5-30.503 Customary progress payments—standards.

5-30.503-50 Use of benchmarks with progress payments based on costs.

5-30.504 Formal advertising—small business restricted advertising.

5-30.504-1 Progress payment provision in invitation for bids.

5-30.504-4 Notice to bidders.

5-30.505 Unusual progress payments—standards—procedure.

5-30.510 Contract clauses.

5-30.511-2 Variation in percentages.

5-30.512 Progress payment liquidation.

5-30.517 Contract financing office clearance.

5-30.521 Administration—general.

5-30.524 Suspension or reduction of payments—general.

5-30.525 Government title.

5-30.550 Eligibility for progress payments.

5-30.551 Explanation of limitations and illustrations of their application.

5-30.551-1 Total costs basis.

5-30.551-2 Direct labor and materials costs basis.

5-30.551-3 Illustrations.

Subpart 5-30.7—Assignment of claims

5-30.702 Conditions governing assignment of claims.

5-30.702-50 Requirements and indefinite quantity contracts.

- 5-30.703 Contract clause—assignment of claims.
- 5-30.703-50 Requirements and indefinite quantity contracts for use by more than one agency.
- 5-30.703-51 Definite quantity contracts and requirements or indefinite quantity contracts for use only by GSA.
- 5-30.706 Procedures upon receipt of notice of assignment and instrument of assignment.
- 5-30.706-50 Requirements and indefinite quantity contracts for use by more than one agency.
- 5-30.706-51 Definite quantity contracts and requirements or indefinite quantity contracts for use only by GSA.

Authority: Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).

3. Part 5-30 Contract Financing is added as follows:

Subpart 5-30.1 Forms of Financing

§ 5-30.109 Partial payments—description.

Partial payments shall be made as provided in § 1-7.102-7 (Article 7 of Standard Form 32, General Provisions (Supply Contract)).

Subpart 5-30.2 Basic Policies

§ 5-30.212 Coordination before contract award.

(a) *Definitions.* As used in this § 5-30.212, the following terms shall have the meanings set forth below:

(1) "Financial provisions" means provisions for payments (generally), partial payments, progress payments, advance payments, insurance provisions, or any other financial terms and conditions contained in, or proposed to be included in, an invitation for bids, solicitation of proposals, or resultant contract.

(2) "Standard financial provisions" means financial provisions which have been formally prescribed by the FPR or GSPR; or as authorized by the Administrator, Assistant Administrator for Plans, Programs, and Financial Management (OPPFM), a Regional Administrator, or the Assistant Regional Administrator for Administration as appropriate.

(3) "Nonstandard financial provisions" means financial provisions (or proposed additions, deletions, or other modifications with respect to standard financial provisions) which have not been formally prescribed or authorized in accordance with paragraph (a)(2) of this § 5-30.212.

(4) "Appropriate financial office" means the Director of Finance (OPPFM), or the Regional Director, Finance Division for regional contracts.

(b) *Assistance in development of financial provisions.* Appropriate financial provisions shall be developed

and used in accordance with Part 1-30 and this Part 5-30. The appropriate financial office shall, upon request, provide technical advice and assistance in the development of all financial aspects of invitations for bids, solicitations of proposals, and resultant contracts. In addition, advice may be requested by the procuring activity as to the adequacy of proposed contracts containing standard financial provisions.

(c) *Clearances.* Invitations for bids, requests for proposals, and amendments of existing contracts involving nonstandard financial provisions, shall be forwarded to the appropriate financial office for review as early as possible during the procurement process. The review shall be made prior to execution or submission of a contract to higher authority for clearance or approval. In cases of proposed additions, deletions, or other modification regarding standard financial provisions, applicable deviation procedures (§ 5-1.109) shall be followed.

(d) *Action by appropriate financial office.* When a matter is referred to a financial office for review or clearance, that office shall immediately notify the contracting officer as to the sufficiency of the financial provisions. If inadequate or improper financial provisions are proposed, the deficiencies will be explained together with the recommended remedial action which must be taken.

Subpart 5-30.4 Advance Payments

§ 5-30.403 Interest.

The Office of Finance (OPPFM), will inform procuring activities of the interest rate to be charged on the unliquidated balance of all advance payments.

§ 5-30.405 Statutory requirements.

The determination required under § 1-30.405(c) shall be prepared by the contracting officer in cooperation with the appropriate legal counsel and the appropriate financial office.

§ 5-30.406 Responsibility—delegation of authority.

The responsibility and authority for making findings and determinations required by § 1-30.410, with respect to advance payments, approval of contract provisions for advance payments, or approval of the terms and conditions thereof, shall be exercised by the Head of the Service, Staff Office, or Regional Administrator, or their designee.

§ 5-30.412 Action by contracting officer.

The required findings and determinations, proposed advance payments clauses, supporting data and recommendation required by § 1-30.412, and an indication of compliance with the procedures of Subpart 1-30.4, shall be submitted by the contracting officer, after coordination in accordance with §§ 5-30.405 and 5-30.414-2, to the Head of the Service, Staff Office, or Regional Administrator, or their designee, for review and approval.

§ 5-30.414 Agreement for special bank account and contract provisions.

§ 5-30.414-2 Contract provisions for advance payments.

The contracting officer shall prepare contract provisions for advance payments after coordination with the appropriate legal counsel and the appropriate financial office.

Subpart 5-30.5 Progress Payments Based on Costs

§ 5-30.503 Customary progress payments—standards.

§ 5-30.503-50 Use of benchmarks with progress payments based on costs.

In unusual circumstances it may be desirable for program payments based on costs (see § 1-30.501) to provide for the achievement of specified benchmarks prior to the receipt of progress payments, when payments prior to the achievement of such benchmarks are not in the best interest of the Government. For example, such a benchmark might be the submission and acceptance of a preproduction or pilot model.

(a) The making of progress payments based on costs under any individual contract or class of contracts may be conditioned, in unusual circumstances, upon the achievement of specified benchmarks during the performance of the contract when the Head of the Service, Staff Office, or Regional Administrator concerned determines in writing, based on all relevant facts, that the use of benchmarks is in the best interest of the Government. When such a determination has been made, an appropriate provision establishing one or more such benchmarks shall be included in the invitation for bids or request for proposals and each resulting contract.

(b) Benchmarks may not be used in such a manner that their effect is to convert progress payments based on costs into progress payments based on a percentage or stage of completion. Use of progress payments based on a percentage or stage of completion shall

be approved by the Head of the Service, Staff Office, or Regional Administrator as provided in § 1-30.501.

§ 5-30.504 Formal advertising—small business restricted advertising.

§ 5-30.504-1 Progress payment provision in invitation for bids.

(a) When the contracting officer determines that the time between starting performance (usually immediately following date of award) and delivery of the first end items will be 6 months or less, the need for progress payments will ordinarily be obviated.

(b) Upon written determination by the contracting officer, provision for progress payments may be included in an invitation for bids even though one or more of the criteria enumerated in § 1-30.504-1(a)(2) or in (a) of this § 5-30.504-1 may apply. The determination must demonstrate that provision for progress payments is useful or necessary by documenting compliance with the appropriate standards, percentages, and procedures.

(c) Procedures regarding unusual progress payments are set forth in § 1-30.505.

§ 5-30.504-4 Notice to bidders.

When the notice set forth in § 1-30.504-4(b) is included in a solicitation, the notice shall include the following as an additional part thereof:

If a bidder desires progress payments, he should make a written request that will accompany his bid and check the appropriate box below:

[] Progress payments are desired, but bid is not conditioned on receiving progress payments.

[] Bid is conditioned on receiving progress payments. (Note: 1. If a bid is conditioned on the availability of progress payments and bidder is found ineligible for such payments, the bid will be rejected. 2. Submission of a bid without requesting progress payments does not preclude the bidder from later requesting progress payments in accordance with applicable regulations, prior to or after award of the contract.)

§ 5-30.505 Unusual progress payments—standards—procedure.

The Head of the Service, Staff Office, or Regional Administrator, or their designee, shall exercise responsibility for the approval or disapproval of requests for "unusual" progress payments on a case-by-case basis.

§ 5-30.510 Contract clauses.

The contracting officer shall select the appropriate progress payment clause to be used in a particular contract after coordinating the matter with appropriate

legal counsel and the appropriate financial office.

§ 5-30.511-2 Variation in percentages.

Provision for progress payments based on costs at rates in excess of 80 percent of total costs or 85 percent of direct labor and materials costs (either or both), as stated in paragraph (a)(1) of the clauses in §§ 1-30.510-1 and 1-30.510-2, or in excess of the respective percentages applicable to contracts with small business concerns (see §§ 1-30.503, 1-30.504-2, and 1-30.504-3), shall be made only with the approval of the Head of the Service or Staff Office, or their designee, and the Director of Finance, OPPFM, or the Assistant Regional Administrator for Administration for regional contracts, in accordance with the standards and procedures set forth in § 1-30.505.

§ 5-30.512 Progress payment liquidation.

Recovery at the rates lower than those specified in paragraph (b) of the clauses in §§ 1-30.510-1 and 1-30.510-2, may be made only with the approval of the Head of the Service, Staff Office, or their designee, and the Director of Finance, OPPFM, or Assistant Regional Administrator for Administration for regional contracts. In the case of regional contracts, the Office of Finance, or the Regional Director, Finance Division will provide assistance to contracting officers in estimating costs for the purpose of establishing the liquidation rate.

§ 5-30.517 Contract financing office clearance.

The contract finance office clearance required by § 1-30.517 shall be the responsibility of the Director of Finance (OPPFM), or the Assistant Administrator for Administration for regional contracts.

§ 5-30.521 Administration—general.

The Office of Finance (OPPFM), shall establish adequate administrative and fiscal procedures to ensure the accomplishment of the fiscal aspects of § 1-30.521. The Director of Finance (OPPFM), or the Regional Director, Finance Division for the appropriate regional accounting center, shall promptly report to the contracting officer the date and amount of each progress payment to a contractor and shall provide the contracting officer with written recommendations whenever findings are made which warrant action by the Government (see § 1-30.216).

§ 5-30.524 Suspension or reduction of payments—general.

Action recommended by the contracting officer under § 1-30.524 shall

be submitted to the Head of the Service, Staff Office, or Regional Administrator, or their designee, for approval after coordination with the appropriate legal counsel and the appropriate financial office. The circumstances and decision shall be documented in an appropriate findings as provided in § 1-30.524.

§ 5-30.525 Government title.

In the interest of clarifying the provision of § 1-30.525, it should be noted that clauses in §§ 1-30.510-1(a) and 1-30.510-2(a) provide for the passage of title to property to the Government as of the date of the contract, and clauses in §§ 1-30.510-1(b) and 1-30.510-2(b) provide for the passage of title to property to the Government when any progress payment is made under the contract.

§ 5-30.550 Eligibility for progress payments.

(a) Contracting officers shall determine the eligibility of contractors or prospective contractors to receive progress payments. The determination shall be approved by the Head of the Service, Staff Office, Regional Administrator, or their designee. The contractor or prospective contractor, and the appropriate financial office, shall be notified of the eligibility. Contract files shall include appropriate documentation to support the determinations.

(b) To be eligible to receive a progress payment, a contractor or prospective contractor must:

(1) Have submitted a written request therefor;

(2) Have been found responsible under the provisions of Subparts 1-1.12, and 5-1.12, and § 1-30.210; and

(3) Have an accounting system and controls adequate for the proper administration of the progress payments, as described in § 1-30.506.

§ 5-30.551 Explanation of limitations and illustrations of their application.

In accordance with § 1-30.510, all progress payment clauses must include limitations expressed in terms of percentages controlling the total amount of each progress payment, the aggregate amount of progress payments, the rate of liquidation of progress payments, and the amount of unliquidated progress payments. These limitations are described in (a) through (d) of this § 5-30.551.

(a) A limitation on the total amount of each progress payment, expressed in terms of the cumulative costs to the contractor allocable to the contract (referred to in this § 5-30.551 as "percentage A"), shall be included in

paragraph (a)(1) of the clauses set forth in §§ 1-30.510-1 and 1-30.510-2.

(b) A limitation on the total amount of each progress payment, expressed in terms of a percentage of the total contract price (referred to in this § 5-30.551 as "percentage B"), shall be included in paragraph (a)(4) of the clauses set forth in §§ 1.30.510-1 and 1-30.510-2(a), and shall also be included in the second percentage space indicated in paragraph (a)(3) of the clause set forth in § 1-30.510-2(b).

(c) A limitation, expressed in terms of a percentage, prescribing the minimum portion of the payments for delivered items which must be applied toward the reduction of unliquidated progress payments (referred to in this § 5-30.551 as "percentage C"), shall be included in paragraph (b) of the clauses set forth in §§ 1-30.510-1 and 1-30.510-2.

(d) A limitation on the amount of unliquidated progress payments at any one time, expressed in terms of the percentage specified in paragraph (a)(3) of the clauses set forth in §§ 1-30.510-1 and 1-30.510-2(a) and in the first percentage space indicated in paragraph (a)(3) of the clause set forth in § 1-30.510-2(b) (referred to in this § 5-30.551 as "percentage D"), provides that the amount of such unliquidated progress payments shall not exceed the lesser of the specified percentage ("percentage D") of either (1) the contractor's total costs or costs of direct labor or material, as the case may be, plus any unliquidated progress payments to subcontractors, both of which are applicable only to the supplies and services not yet delivered and invoiced to and accepted by the Government, or (2) the total contract price of supplies and services not yet delivered and invoiced to and accepted by the Government, less unliquidated advance payments.

§ 5-30.551-1 Total costs basis.

When either of the total costs type progress payments clauses set forth in § 1-30.510-1 are used, the maximum payments made ("percentage A") may not ordinarily exceed 80 percent of the cumulative total costs allocable to the contract (see § 5-30.511-2 regarding use of higher percentages). Under these clauses, percentage A is established first, and percentage B, C, and D are always the same as percentage A, except that a lower percentage for percentage C may be established pursuant to § 1-30.512.2. A discussion of these percentages and related computations are set forth in detail in §§ 1-30.511-3 and 1-30.512.

§ 5-30.551-2 Direct labor and materials costs basis.

When the progress payment clause is

based on costs of direct labor and materials (or based on narrower and more limited costs such as direct labor only, or specified direct costs other than direct labor and material costs) utilizing the types of clauses set forth in § 1-30.512-2, the maximum progress payments made ("percentage A") may not ordinarily exceed 85 percent of the cumulative direct labor and materials costs (or other specified costs) allocable to the contract. Under these types of clauses, percentage A is established first (see § 5-30.511-2 regarding the use of higher percentages). The percentage used for B, C, and D equals the percentage which is to percentage A as the amount of estimated costs forming the basis for the progress payments is to the amount of the estimated total costs. (For a percentage C lower than the percentage computed pursuant to this method and § 1-30.512-1(b), see § 1-30.512-2.) A discussion of the percentages and related computations for these clauses are set forth in detail in §§ 1-30.511-4, 1-30.511-5, and 1-30.512.

§ 5-30.551-3 Illustrations.

(a) In (b) and (c) of this § 5-30.551-3 the following hypothetical contract values are used to illustrate the computation and application of the limiting percentages described in § 5-30.551: (1) Total contract value: \$100,000.

Percentages	Costs of direct	
(B, C, or D) :	labor & materials :	Total costs
(B, C, or D) :	0.85 = \$63,000	: \$90,000

(2) Calculating the percentage as follows:

$$(B, C, \text{ or } D) = 0.85 \times \frac{63,000}{90,000}$$

$$(B, C, \text{ or } D) = 0.85 \times 0.70$$

$$(B, C, \text{ or } D) = 0.60 \text{ or } 60\%$$

[Percentage rounded off for purposes of this illustration]

Factor limited by percentage	Computation	Limited value of factor
A.....	\$63,000 × 85%	\$53,550
B.....	100,000 × 60%	60,000
C.....	60,000 × 60%	36,000
D.....	40,000 × 60%	24,000

§ 5-30.702 Conditions governing assignment of claims.

§ 5-30.702-50 Requirements and indefinite quantity contracts.

When more than one agency is making payments under a requirements or indefinite quantity contract, it is necessary to restrict assignments of claims to individual orders placed thereunder in order to prevent confusion and delay in making payment. Thus, assignments shall be limited to each particular purchase order amounting to \$1,000 or more. However, this limitation is unnecessary in connection with

(2) Total costs: \$90,000.

(3) Costs of direct labor and materials: \$63,000.

(4) Value of delivered items at contract prices: \$60,000.

(5) Value of undelivered items at contract prices: \$40,000.

(6) Value of invoice submitted for payment of delivered items: \$60,000.

(7) Percentage A (total-costs basis): 80%.

(8) Percentage A (direct labor and materials costs basis): 85%.

(b) Under a total costs clause, percentage A is 80 percent by hypothesis (see § 5-30.551-3(a)(7)), and percentages B, C, and D are 80 percent by definition. Accordingly, the dollar values of the factors corresponding to the limiting percentages are as follows:

Factor limited by percentage	Computation	Limited value of factor
A.....	\$90,000 × 80%	\$72,000
B.....	100,000 × 80%	80,000
C.....	60,000 × 80%	48,000
D.....	40,000 × 80%	32,000

(c) Under a direct labor and materials costs clause, percentage A is 85 percent by hypothesis (see § 5-30.551-3(a)(8)). By definition, percentages B, C, and D are computed:

(1) By establishing a ratio as follows:

requirements and indefinite quantity contracts under the sole administrative control of GSA.

§ 5-30.703 Contract clause—Assignment of Claims.

§ 5-30.703-50 Requirements and indefinite quantity contracts for use by more than one agency.

When entering into requirements or indefinite quantity contracts under which more than one agency may place orders, the following clause shall be included in the solicitation:

Assignment of Claims

If this is a requirements or indefinite quantity contract under which more than one agency may place orders, Article 8(a) of Standard Form 32 is inapplicable and the following is substituted therefor:

In order to prevent confusion and delay in making payment, no claim(s) for all moneys due or to become due under this contract, shall be assigned by the contractor; but it shall be permissible for the contractor to assign separately to a bank, trust company,

or other financing institution, including any Federal lending agency, in accordance with the provisions of the Assignment of Claims Act of 1940, as amended (31 U.S.C. 203, 41 U.S.C. 15), all moneys due or to become due under any particular purchase order amounting to \$1,000 or more issued by any Government activity or agency under this contract. Any such assignment shall be effective only if and when the assignee thereof shall file written notice of the assignment together with a true copy of the instrument of assignment with the officer issuing the purchase order, in addition to complying with the filing requirements set forth in clause 4 of the provision in said Act, as amended. Notwithstanding any other provisions of this contract, payments to an assignee of any moneys due or to become due under any purchase order assigned as provided herein, shall not, to the extent provided in said Act, as amended, be subject to reduction or set-off.
(End of Clause)

§ 5-30.703-51 Definite quantity contracts and requirements or indefinite quantity contracts for use only by GSA.

When entering into definite quantity contracts and requirements or indefinite quantity contracts under which only GSA may place orders, the clause prescribed in § 5-30.703-50 is inapplicable. The Assignment of Claims clause set forth in Article 8(a) of Standard Form 32 and § 1-30.703 will apply, and assignment of total amounts due or to become due under definite quantity contracts and requirements or indefinite quantity contracts for use only by GSA shall be honored if in proper form.

§ 5-30.706 Procedures upon receipt of notice of assignment and instrument of assignment.

When complying with the procedures set forth in §§ 1-30.706(a)(3) and 1-30.707 regarding the acknowledgment of an assignment or reassignment of claims in proper form, the contracting officer shall at the same time notify the contractor (assignor) that all future invoices or other requests for payment under the contract shall specify the name and address of the assignee, include a notation that payments due thereunder have been duly assigned, and should be made to the named assignee.

§ 5-30.706-50 Requirements and indefinite quantity contracts for use by more than one agency.

Upon receipt of a notice of assignment together with a true copy of the instrument of assignment by the GSA office that issued the purchase order under the contract, the appropriate ordering officer shall:

(a) Promptly furnish notification by TWX or other expeditious means of the

pending assignment to the appropriate accounting center(s), Accounts Payable Branch indicated on the original purchase order;

(b) Secure written assurance from assigned counsel that both the notice and the instrument of assignment are in proper form, are properly executed, and are actions that the contractor is entitled to make under the terms of the contract;

(c) Return three copies of the acknowledge notice of assignment to the assignee; and

(d) Promptly forward one copy of the notice of assignment together with a true copy of the instrument of assignment to the appropriate accounting center(s), Accounts Payable Branch, indicated on the original purchase order.

§ 5-30.706-51 Definite quantity contracts and requirements or indefinite quantity contracts for use only by GSA.

(a) When definite quantity contracts involve the issuance of one or more purchase orders, the contracting officer shall process any notice and instrument of assignment thereof as prescribed in § 5-30.706-50.

(b) When definite quantity contracts are utilized (1) to supplement and satisfy regional stores stock replenishment needs that exceed the maximum order limitation (MOL) or monthly supply potential of term contracts, or (2) to satisfy requirements that exceed the MOL of Federal Supply Schedule contracts, the contracting officer shall process any notice and instrument of assignment thereof in accordance with procedures prescribed in § 5-30.706-50. The contracting officer shall also notify all offices that will issue orders against the contract, that all moneys due or to become due under the contract have been assigned. The notification shall be furnished to the appropriate regional divisions on GSA Form 1584, Contract Summary, concurrently with the transmittal of copies of the notice and instrument of assignment to the accounting center(s), and shall include (1) the contract number, (2) the assignee's name and address, and (3) the assignment date.

(c) When requirements or indefinite quantity contracts are for the sole use of GSA, the contracting officer shall process any notice and instrument of assignment thereof as prescribed in § 5-30.706-51(b); however, notification of the assignment by means of GSA Form 1584 shall be furnished to all appropriate regional finance division directors.

(d) When ordering officers receive notices and instruments of assignment of claims relative to (a), (b), or (c), above, concerning contracts or purchase orders prepared by another GSA office,

the ordering officer shall return the documents to the contractor with the name and address of the contracting officer or ordering officer to whom the documents should have been sent.

CHAPTER 5A—GENERAL SERVICES ADMINISTRATION
[APD 2800.3 CHGE 10]

PART 5A-30—CONTRACT FINANCING [DELETED]

1. The Table of Parts for GSPR 5A is amended to delete Part 5A-30—Contract Financing.

2. Part 5A-30 is deleted in its entirety.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Dated: September 29, 1980.

Gerald McBride,

Assistant Administrator for Acquisition Policy.

BILLING CODE 6820-61-M

41 CFR Part 5B-1

[APD 2800.4 CHGE 4]

Small Business Class Set-Aside for Architect-Engineer Services

AGENCY: General Services Administration.

ACTION: Final rule.

SUMMARY: Chapter 5B, General Services Administration Procurement Regulations, is amended to add architect-engineer services as a class set-aside for small business concerns. The change resulted from a request by the Commissioner, Public Buildings Service. The intended effect is to provide opportunity for architect-engineer firms which are small business concerns to participate in Government contracts.

EFFECTIVE DATE: November 10, 1980.

FOR FURTHER INFORMATION CONTACT: Mr. Philip G. Read, Director, Federal Procurement Regulations Directorate, Office of Acquisition Policy (703-557-8947).

Section 5B-1.706 is amended by revising paragraphs (b), (c), (f), and (g) and adding paragraph (h) as follows:

§ 5B-1.706 Procurement set-aside for small business.

(b) Construction contracts from \$2,500 to \$500,000. Pursuant to an understanding with the SBA, every proposed procurement for construction, including alteration, maintenance, and repairs estimated to be in excess of \$2,500 and under \$500,000 shall be considered individually as though the

SBA had initiated a set-aside request and shall be set-aside, except as otherwise provided in § 5B-1.706 (d) and (h).

(c) *Construction contracts from \$500,000 to \$1 million.* The Commissioner, PBS, has unilaterally established a class set-aside for PBS procurements of construction, including alteration, maintenance, and repairs estimated to cost between \$500,000 and \$1 million. Such procurements shall be set-aside for small business except as otherwise provided in § 5B-1.706 (d) and (h).

(f) *Architect-Engineer contracts.* (1) All architect-engineer contracts for construction projects with an estimated construction contract amount not exceeding \$2.5 million shall be set aside for small business.

(2) A synopsis message indicating that the architect-engineer contract is set aside for small business shall be prepared and forwarded as provided by § 1-1.1003-7(b)(6).

(g) *All other contracts.* All contracts other than those contracts subject to the provisions of § 5B-1.706 (b), (c), (d), (e), and (f) are subject to set-aside in accordance with the provisions of § 1-1.706 and § 5B-1.706(a).

(h) *Determinations not to set aside.* Where the contracting officer determines that a small business set-aside of a procurement is not feasible, the procedures defined in § 1-1.706 and § 5B-1.706-52 shall be followed.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Dated: September 29, 1980.

Gerald McBride,

Assistant Administrator for Acquisition Policy.

BILLING CODE 6820-61-M

41 CFR Part 101-19

[FPMR Temp. Reg. D-66]

Accommodations for the Physically Handicapped; Temporary Regulations

AGENCY: General Services Administration.

ACTION: Temporary regulation.

SUMMARY: GSA is revising its regulations to include a new "GSA Accessibility Standard" to provide minimum accessibility standards for the design of Federal buildings and facilities to accommodate the physically handicapped. The new standard provides more enforceable, clearer, and up-to-date standards relevant to Federal buildings.

DATES: Effective date: October 14, 1980. Expiration date: July 30, 1981.

FOR FURTHER INFORMATION CONTACT: Mrs. Kathleen Fields, Design Management Division, General Services Administration (202-566-1348).

ADDRESS: Copies of the standard will be available from: GSA Business Service Centers (See attached listing.)

SUPPLEMENTARY INFORMATION: The General Services Administration has determined that this regulation will not impose unnecessary burdens on the economy or on individuals and, therefore, is not significant for the purpose of Executive Order 12044.

GSA is authorized to prescribe minimum accessibility standards for facilities under its jurisdiction through the Architectural Barriers Act of 1968, Public Law 90-480. GSA implements this responsibility through the Federal Property Management Regulations (FPMR), Subpart 101-19.6, Accommodations for the Physically Handicapped. Up to now, the accessibility standard prescribed in the FPMR has been the American National Standards Institute Standard ANSI A117.1(1961) "Specifications for Making Buildings and Facilities Accessible to, and Usable By, the Physically Handicapped," reaffirmed in December 1971.

Response to Comments

A February 6, 1980, Federal Register notice of proposed rulemaking (45 FR 8028) provided a 60-day comment period for this regulation. Over 40 responses were received, none of which commented on the proposed revisions to the FPMR Subpart 101-19.6, Accommodations for the Physically Handicapped. Many of the comments suggested various technical and dimensional alternatives to the criteria within the proposed standard. The majority of the comments, however, expressed concern that GSA's effort is redundant because the American National Standards Institute (ANSI) has recently developed voluntary standards ANSI A117.1(1980), "Specifications for Making Buildings and Facilities Accessible to, and Usable by, Physically Handicapped People." These commentators have therefore urged GSA to adopt the new ANSI Standard. Many appeared to be of the impression that GSA has produced its standard oblivious to the parallel work undertaken by ANSI. This is not the case; GSA is well aware of the existence of the new ANSI standard and, in fact, has a representative on the A117.1 committee who has participated in the development of the 1980 ANSI Standard.

We are appreciative of the work done by ANSI Committee A117, and have used ANSI A117.1(1980) as a primary resource in developing the GSA standard. We do not believe that there are many major conflicts between those technical requirements included in the GSA standard and the corresponding ANSI technical requirements; many of them are, in fact, identical. However, it has been decided not to adopt ANSI A117 as a reference for the following reasons:

1. ANSI A117(1980) in its present format is extremely difficult to use and understand and its information is difficult to locate. The new fragmented format is much harder to follow than the straightforward approach of the 1961 ANSI Standard, which we find preferable and, in fact, used as the organizational basis for the proposed GSA Accessibility Standard. Cross-referencing in the ANSI Standard (1980) is greatly overdone, many times requiring as many as four searches to locate the applicable criteria. Similarly, when the text references a particular illustration, it is seldom adjacent to the passage and often requires several turns of the page to locate.

2. ANSI A117.1(1980) goes into too much unnecessary detail, which will discourage and confuse the user. (Case in point: Section 4.26.3 "Handrails—Structural Strength" contains a 200-word highly technical narrative, inappropriate for most of its users, to explain what the GSA standard clearly states in less than 30 words. Another case: Nine illustrations were developed to explain "Maneuvering Clearances at Doors," a principle that the GSA standard consolidates into one drawing.)

3. There are many instances where the ANSI Standard includes criteria not yet fully developed, and which therefore cannot be enforced. For example, the National Bureau of Standards is currently doing much research on allowable door opening pressures. Until the results of this research are available, or a consensus among experts is obtained, GSA does not consider it appropriate to include this material within a legally binding standard. This is why GSA chose to leave this and several similar provisions out of the standard (most notably, carpeting and tactile warnings) with the intention of issuing more viable criteria as amendments when the information becomes available.

4. There are numerous instances where GSA believes that ANSI A117.1(1980) does not go far enough to ensure adequate accessibility. For example, throughout ANSI, when discussing accessible elements, the

clause "a reasonable number, but at least one" is frequently used. Since "reasonable number" has always provoked controversy and since, especially in new construction, accessibility can and should be built into each building element, GSA has found it desirable to go beyond ANSI and insist that all applicable building elements shall be made accessible.

5. The proposed GSA Accessibility Standard is more appropriately geared toward facilities for which GSA is responsible under the Architectural Barriers Act, and excludes extraneous criteria, such as for residential construction, which are the responsibility of the Department of Housing and Urban Development (HUD). GSA recognizes the need for these criteria, but feels that they should be published as separate documents.

6. Finally, GSA is generally concerned with the nonresponsiveness of ANSI in addressing many critical comments concerning ANSI A117.1(1980). Many respondents from both the public and private sector have not received adequate answers to their comments on ANSI drafts and, for the most part, have been merely invited to let these issues pass and join the majority in adopting the 1980 standard.

It is therefore our decision to adopt the new GSA Accessibility Standard. All comments have been carefully considered and the subject document modified where necessary. However, GSA is issuing this document as a temporary regulation rather than a permanent regulation because the Architectural and Transportation Barriers Compliance Board is publishing minimum guidelines for accessibility standards. The GSA Accessibility Standard will have to conform to these guidelines, which are scheduled to be published in December 1980.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

In 41 CFR Chapter 101, § 101-19.603 and paragraph (e) of § 101-19.604 are deleted and replaced by the following temporary regulation which is added to the appendix at the end of Subchapter D to read as follows:

Federal Property Management Regulations

Temporary Regulation D-66

October 6, 1980.

To: Heads of Federal agencies.

Subject: Accommodations for the physically handicapped.

1. *Purpose.* This temporary regulation establishes a new "GSA Accessibility Standard" to provide minimum accessibility standards for the design of

Federal buildings and facilities to accommodate the physically handicapped.

2. *Effective date.* This regulation is effective October 14, 1980.

3. *Expiration date.* This regulation expires July 30, 1981.

4. *Background.* Under Public Law 90-480, GSA is directed to prescribe such standards as necessary to ensure minimum accessibility for facilities under its jurisdiction. Up to now the standard referenced was the ANSI Standard A117.1-1961(R 1971). With this amendment, minimum accessibility shall be provided in accordance with a new GSA-authored document, "The GSA Accessibility Standard," which will supersede the currently prescribed ANSI standard.

5. *Effect on other directives.*

a. Section 101-19.603 is revised as follows:

§ 101-19.603 Standards.

Except as provided in § 101-19.604, every building shall be designed, constructed, or altered in accordance with the minimum standards in the "GSA Accessibility Standard" as developed by the General Services Administration, in consultation with the Department of Health, Education, and Welfare. Departures from these standards by use of other methods will be permitted when it is evident that equivalent accessibility and usability of the facility are provided. Except as provided under §§ 101-19.602 and 101-19.604, buildings designed, constructed, or altered before the effective date of this standard shall be in accordance with the minimum standards in the "American Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped," published by the American National Standards Institute, Inc. (ANSI A117.1-1961) (R1971). Buildings under design will be subject to the criteria within this standard if the date of bid invitation falls after the effective date of this standard.

b. Section 101-19.604(e) is revised as follows:

§ 101-19.604 Exceptions.

* * * * *

(e) The leasing of space when it is determined that after receipt of bids or offers not otherwise legally acceptable proposal substantially meets the requirements of the "GSA Accessibility Standard." If no offeror or bidder meets the requirements of the standard, then preference shall be given to the offeror or bidder who most nearly complies with the standard prescribed in § 101-

19.603. If the award is proposed to a firm other than the one offering space that most nearly complies with the entire "GSA Accessibility Standard" and whose bid or offer is reasonable as to price and is otherwise legally acceptable, a waiver or modification of those standards that could have been met but that are not being furnished must be obtained.

National Flood Insurance Program; Final Flood Elevation Determinations

Correction

In FR Doc. 80-29223, appearing on page 62824 in the issue of Monday, September 22, 1980, make the following corrections:

1. On page 62825, in the location column, the entry for "Ginger Creek" reading "Approximately 200 feet upstream of Regent Drive" should have read "Approximately 220 feet upstream of Regent Drive."

2. On page 62826, in the "Source of flooding" column, the second entry for the State of Kansas, "East Unnamed Creek", should have appeared one line down beside "At the downstream

corporate limit, downstream of the Union Pacific Railroad."

3. On page 62830, in the "Source of flooding" column, the twelfth and thirteenth entries reading "Chrissman Drain" and "Overland Flow at 19 Mile Road" should have been combined and appeared as the twelfth entry "Chrissman Drain (Overland Flow at 19 Mile Road)".

4. On page 62831, the table for "Minnesota", "(Uninc.) Wabasha County (Docket No. FEMA 5825)", in the column "#Depth in feet above ground." "Elevation in feet (NGVD)", the last entry "729", should have appeared two lines higher, beside the location "Mouth at Gilbert Creek".

5. On page 62831, the last entry at the bottom of the page reading "'544" in the "#Depth in feet above ground." "Elevation in feet (NGVD)" should have appeared as the first entry in that column on page 62832. The first entry presently reading "'552" should be moved one line lower beside "At western corporate limits".

6. On page 62833, the fourth entry in the "Source of flooding" column, "Mud Brook" should have appeared one line lower beside the entry "Downstream corporate limit".

BILLING CODE 1505-01-M

44 CFR Part 81

[Docket No. FEMA-FIA-81]

Purchase of Insurance and Adjustment of Claims

AGENCY: Federal Insurance Administration (FIA), Federal Emergency Management Agency (FEMA).

ACTION: Final rule.

SUMMARY: This rule amends the list of eligible states under the Federal Crime Insurance Program to include the State of California making the citizens of that state eligible to purchase Federal Crime Insurance policies against burglary and robbery losses under the Federal Crime Insurance Program.

EFFECTIVE DATE: November 1, 1980.

FOR FURTHER INFORMATION CONTACT: Mr. Robert DeHenzel, Director for Urban Property Insurance Operations Division, 451 Seventh Street, S.W., Room 5248, Washington, D.C. 20410, Telephone number 202-755-6555.

SUPPLEMENTARY INFORMATION: This action is being taken under the authority of 12 U.S.C. 1749bbb-10a on the basis of evidence obtained through a continuing review of the market availability situation in each of the several states

and particularly upon consultation with and conclusions and recommendations from numerous members of the California Congressional delegation, along with statements from state and local officials and numerous California citizens, who expressed their difficulties in obtaining affordable crime insurance coverage in the state after the recent repeal of legislation enacting a California state crime insurance program.

The Federal Crime Insurance Program commenced operation in August 1, 1971, and approximately 85,000 policies are currently in force in the District of Columbia, Puerto Rico, the Virgin Islands and twenty-five states eligible for Federal Crime Insurance. The program enables residents and businesses to obtain affordable policies of burglary and robbery insurance which will not be cancelled or nonrenewed because of losses. Applicants are required to meet minimum protective device requirements designed to reduce their vulnerability to losses. Numerous members of the California delegation, after considering the insurance needs of their constituents, have consulted with FIA and requested that their constituents be made eligible to purchase Federal Crime Insurance. On the basis of this evidence the Administration has concluded that California should be added to the program.

With the addition of this state, the Federal Crime Insurance Program will be available to the residents and businesses in the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands and twenty-six states. Accordingly, on the basis of the Administrator's continuing review of the crime insurance availability situation, it has been determined that a critical market unavailability situation exists in the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands and the states set forth in revised § 81.1(b) and that as of the effective date of this regulation, November 1, 1980, the jurisdictions will be made eligible for the sale of crime insurance or continued to be eligible for such sale. Because the increased availability of Federal Crime Insurance is beneficial to the public, and has no adverse effect upon any person, it is unnecessary to provide for notice and public procedure, and good cause exists for making this amendment effective as soon as possible. A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with FEMA

Regulations published at 44 CFR Part 11. A copy of this Finding of Inapplicability is available for public inspection during regular business hours at the following address: Rules Docket Clerk, Federal Emergency Management Agency, 1725 Eye Street, N.W., Washington, D.C. Accordingly, Part 81 is amended as follows: Paragraph (b) of § 81.1 is revised to read as follows:

§ 81.1 States eligible for the sale of crime insurance.

(b) On the basis of the information available, the Administrator has determined that the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands and the states set forth in this paragraph has an unresolved critical market availability situation that requires the operation of the Federal Crime Insurance Program therein as of November 1, 1980. Accordingly, the program is in operation in the following jurisdictions: Alabama, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Iowa, Kansas, Maryland, Massachusetts, Minnesota, Missouri, New Jersey, New Mexico, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Virginia, Washington, Wisconsin and the District of Columbia, Puerto Rico and the Virgin Islands.

(Sec. 7(d), 70 Stat. 670; 42 U.S.C. 3535(d); Sec. 1103, 82 Stat. 466, 12 U.S.C. 1749bbb-17).

Issued at Washington, D.C. October 7, 1980.

Gloria M. Jimenez,

Federal Insurance Administrator.

50 CFR Parts 611 and 672

Groundfish of the Gulf of Alaska; Apportionment of a Domestic Annual Harvest Amount

AGENCY: National Oceanic and Atmospheric Administration (NOAA)/Department of Commerce.

ACTION: Apportionment of a domestic annual harvest (DAH) amount.

SUMMARY: This notice announces the apportionment of a domestic annual harvest (DAH) amount of sablefish in

the Gulf of Alaska to the total allowable level of foreign fishing (TALFF) in accordance with provisions of the Fishery Management Plan (FMP) for Groundfish of the Gulf of Alaska (44 FR 64410) and implementing regulations (50 CFR 611.92(b)(1)(ii) and 672.20(c)).

EFFECTIVE DATE: October 9, 1980.

FOR FURTHER INFORMATION CONTACT:

Robert W. McVey, Director, Alaska Region, National Marine Fisheries Service, P.O. Box 1668, Juneau, Alaska 99802. Telephone: (907) 586-7221.

SUPPLEMENTARY INFORMATION:

I. Background

On September 7, 1979, the Secretary of Commerce published an approved amendment to the fishery management plan for Groundfish in the Gulf of Alaska (FMP) that established initial amounts of total allowable level of foreign fishing (TALFF), domestic annual harvest (DAH), and reserves for the November 1, 1979–October 31, 1980, fishing year. Amounts of DAH were determined by surveys conducted by the National Marine Fisheries Service and by the North Pacific Fishery Management Council (Council). Regulations implementing this amendment were effective November 1, 1979.

In the event that some of the DAH amounts are found to be excessive and will not be harvested by U.S. fishermen, the Regional Director is authorized to apportion those amounts to TALFF as soon as practicable after May 2 and July 2, and on such other dates as he determines to be appropriate.

II. Determination of Amount of DAH Apportionment

In accordance with regulations implementing the FMP (611.92(b)(1)(ii) and 672.20(c)), the Regional Director has determined that 125 metric tons (mt) of the 150 mt DAH amounts of sablefish in the Western Area of the Gulf of Alaska should be apportioned to TALFF.

In making this determination, the Regional Director considered the extent that U.S. vessels would harvest the present amount in DAH. To date, the U.S. catch of sablefish in the Western Area of the Gulf of Alaska has been less than 3 mt. There is currently no U.S. fishing effort in the Western Area and little, if any, is anticipated for the remainder of the fishing year. In consideration of these facts, the Regional Director has determined that the remaining 22 mt of unharvested sablefish DAH are adequate for any further U.S. sablefish catch in the Western Area during the remainder of the fishing year.

III. Waiver of Public Comment Period

When DAH amounts are to be apportioned to TALFF on dates other than those scheduled, the Regional Director is authorized to state a period during which comments may be submitted on the apportionment. Further domestic fishing in the Western Area of the Gulf of Alaska during the remainder of the fishing year, which ends on October 31, 1980, is unlikely. The 25 mt DAH after this apportionment would be sufficient to provide for a domestic fishery should it take place. For these reasons, the Regional Director has determined that waiver of a comment period is appropriate and necessary to allow foreign fisheries the opportunity to more fully achieve the optimum yield for sablefish, which is consistent with National Standard 1 of the FCMA.

IV. Other Matters

An environmental impact statement was prepared for the FMP and is on file with the Environmental Protection Agency (EPA). A negative assessment of environmental impact was prepared for DAH apportionment provisions of the FMP and is also on file with the EPA.

The Regional Director has determined that these regulations should be effective immediately for the following reasons:

- A. No regulatory restrictions are imposed on any person as a result of this action;
- B. This action relates to the extension of a benefit; and
- C. Immediate implementation is required to achieve full utilization of the fishery resources concerned.

This action is not significant in relation to criteria prescribed by Executive Order 12044, and a regulatory analysis is not required.

Signed at Washington, D.C., this 8 day of October, 1980.

William H. Stevenson,

Deputy Assistant Administrator for Fisheries.

(16 U.S.C., Section 1801 *et seq.*)

PART 611—FOREIGN FISHING

PART 672—GROUND FISH, OF THE GULF OF ALASKA

§§ 672.20, 611.92 [Amended]

(A) 50 CFR 672.20 and 50 CFR 611.92 are amended by revising Table 1—OY—DAH—DAP—JVP—Reserve—and TALFF by Regulatory Area of paragraphs (a) and (b), respectively, with changes shown in the attached Table 1.

Table 1

Proposed Rules

Federal Register

Vol. 45, No. 200

Tuesday, October 14, 1980

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 410

Subsistence Payments for Training Assignments; Amendment to Regulations

AGENCY: Office of Personnel
Management.

ACTION: Proposed rulemaking.

SUMMARY: This document proposes changes in the regulations implementing the Government Employees Training Act regarding subsistence payments for training assignments lasting more than 30 days.

DATE: Comments must be received on or before December 15, 1980.

ADDRESS: Send or deliver written comments to Office of Personnel Management, Training Policy Division TNG-WED, Attn: Mr. Masterson, P.O. Box 7230, Washington, D.C. 20044.

FOR FURTHER INFORMATION CONTACT: Mr. Michael Kurup, Training Policy Division, (202) 653-6171.

SUPPLEMENTARY INFORMATION:

Extended training assignments place employees in a special situation where lodging and meals at reduced rates are generally available from the training institutions themselves or from other nearby facilities. The Government Employees Training Act (5 U.S.C. 4101-4118) authorizes agencies to pay for all or a part of the subsistence expenses of employees assigned to training. Under the proposed regulations agencies may continue to pay all or a part of such actual expenses as agreed to by the employee assigned to training. However, where agencies choose to pay a training per diem in lieu of actual expenses, that training per diem will be 55 percent of the full per diem as set by the Federal Travel Regulations. If a training institution is in a high-rate geographic area, the agency, if it chooses to pay a training per diem, shall pay 55 percent of the prescribed maximum daily rate for that area as set by the Federal Travel

Regulations. Agencies may at any time substitute actual-expense payments for the set training per diem. When the actual expenses are above the 55-percent figure, the agency must record the circumstances before paying any amount above that figure. If this regulation is approved, the General Service Administration will cross-reference it in the Federal Travel Regulations. The Office of Personnel Management has determined that this is a significant regulation for the purposes of E.O. 12044.

Office of Personnel Management.
Beverly M. Jones,
Issuance System Manager.

Accordingly, the Office of Personnel Management proposes to redesignate § 410.603 and § 410.604 as § 410.604 and § 410.605, respectively, and to add a new § 410.603 to read as follows:

§ 410.603 Subsistence payment for extended training assignments.

(a) An agency has the authority to pay all subsistence expenses of an employee assigned to training at a temporary duty station or a part of those expenses as agreed to by the employee. If an agency pays for the employee's subsistence during an assignment lasting more than 30 calendar days, paragraph (b) or (c) of this section shall apply.

(b) When a training per diem is paid, the agency shall pay 55 percent of the full per diem rate set by the Federal Travel Regulations. If the training facility is in a designated high-rate geographical area, the agency, if it chooses to pay a training per diem, shall pay 55 percent of the prescribed maximum daily rate set for that area by the Federal Travel Regulations. If lodging or meal costs are included in the fees paid to the training institution or otherwise are provided for, an appropriate reduction shall be made in the authorized training per diem rate.

(c) When actual subsistence costs are paid, they may include the cost of acceptable lodging and meals provided by the training facility or other nearby facility, plus a Miscellaneous Subsistence Expenses payment of 6 percent of the full per diem rate. Relative to the cost of payment under paragraph (b): (1) If actual subsistence costs are lower, the agency may pay up to such actual costs; or

(2) If actual subsistence costs are higher, after documentation of the

circumstances the agency may pay up to the actual costs not exceeding the ceiling imposed by 5 U.S.C. 5702(c). 5 U.S.C. 4101 *et seq.*

BILLING CODE 6325-01-M

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

9 CFR Part 92

Cattle Imported through Harry S Truman Import Center; Procedures

AGENCY: Animal and Plant Health
Inspection Service, USDA.

ACTION: Proposed rulemaking.

SUMMARY: This document proposes to amend the regulations concerning the procedures to be used for the allotment of quarantine space for cattle to be imported through the Harry S Truman Animal Import Center (HSTAIC). This amendment proposes:

1. That at least 60 days prior to any drawing notice will be given in the Federal Register of the date, time and place of the drawing. The notice shall also designate the geographic areas from which animals will be considered for importation and shall include the fee schedule for the proposed importation.

2. That the application to import animals shall be accompanied by a certified check or money order in the amount of \$1,000 for each animal requested and that the application be received by the Department at least 5 days prior to the date of the drawing.

3. That the applicant, or their designated legal agent or representative, be present at the drawing at which time the cooperative agreement shall be executed and the financial responsibility shall be assumed by the successful applicants.

4. Editorial changes are provided to clarify the procedures and the importers' financial responsibility.

These changes are believed necessary to better administer the facility and help insure that the facility is fully utilized.

DATE: Comments on or before November 13, 1980.

ADDRESS: Written comments to Deputy Administrator, USDA, APHIS, VS, Room 821, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782.

FOR FURTHER INFORMATION CONTACT: Dr. E. Herrick, USDA, APHIS, VS, Federal Building, Room 819, 6505 Belcrest Road, Hyattsville, MD 20782, 301-436-8170.

SUPPLEMENTARY INFORMATION: This proposed action has been reviewed under USDA procedures established in Secretary's Memorandum 1955 to implement Executive Order 12044, and has been classified as "not significant".

Dr. Milton J. Tillery, Director, National Program Planning Staffs, has determined that an emergency situation exists which warrants less than a 60 day comment period on this proposed action because the lottery for the third importation of animals imported into the United States through the HSTAIC will be on January 6, 1981, and the procedures being proposed should save a substantial amount of money to the Federal Government and should facilitate the process to allocate space for HSTAIC. Therefore, in order to have any changes warranted in the proposal for the third importation only a 30 day comment period is being provided.

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that, pursuant to Section 1 of the Act of May 6, 1970 (21 U.S.C. 135), the Animal and Plant Health Inspection Service is considering amending Part 92, Title 9, Code of Federal Regulations.

The costs associated with the operation of the HSTAIC are to be borne by the importers using this facility and will vary in accordance with the actual number of animals utilizing the facility during a given importation period. Each importer who has been allotted a special authorization in the drawing, must sign a cooperative agreement which, among other things, sets forth the payment requirements prior to being awarded the special permit to import cattle into HSTAIC.

In order to provide sound financial management both for the prospective importers and the Department, it is essential that the importers assume fiscal responsibility for the expenses to be incurred as soon as possible after being selected to import animals into the facility. Due to the unusual nature of the service and the need to have adequate funds available to the Department for the cost of the services which will be performed in connection with the importation of animals into the HSTAIC in accordance with the provisions of section 1 of the Act of May 6, 1970 (21 U.S.C. 135), the Department requires either advance payment, a payment bond or a letter of credit, meeting the requirements specified in the cooperative agreement, be deposited

with the Service (Veterinary Services) at the time the cooperative agreements are signed on the day of the drawing.

The regulations presently require that the selected applicants deliver the cooperative agreement set forth in § 92.41(c) and the payment required under such agreement to the Department within 15 days after the selection. However, delays in the receipt of the agreement have resulted in the Department not being able to determine if the applicants selected by lottery are going to exercise their right to obtain a special authorization. This could result in less than full utilization of the HSTAIC for a particular importation.

Further, the Department has found that the formula for the fees prescribed for the quarantine period that are based upon full utilization of the facility do not provide for all contingencies. If there is less than full utilization of the facility during the quarantine period, then it will not be self-supporting to the fullest extent possible as Congress intended. However, whether or not the facility will actually be fully utilized depends on several factors, the first of which is the ability of all prospective importers to obtain the necessary financing to enter into the required cooperative agreement. If a prospective importer cannot obtain such financing the facility will not be fully utilized, unless there is time for another importer to be offered the space in accordance with the regulations and he has time to make all the necessary financial and pre-entry quarantine arrangements.

Therefore, the Department is proposing to amend 9 CFR Part 92 in the following respects:

1. In § 92.41, all references to the term "special permit" would be changed to "special authorization". The term "special permit" was intended by APHIS to represent an importer's right to qualify animals for entry into the Harry S Truman Animal Import Center (HSTAIC). Since the importer must sign a cooperative agreement with the Department prior to being able to qualify animals for entry, there is no need for a "special permit". The signed cooperative agreement represents special authorization for an importer to qualify animals for entry into HSTAIC.

2. Section 92.41(a) would be amended by stating that HSTAIC is intended to process animals from countries affected with exotic diseases and not otherwise eligible for importation into the United States including foot-and-mouth disease not just countries affected with foot-and-mouth disease. This non-substantive change more clearly reflects the statutory authorization (21 U.S.C. 135) establishing HSTAIC.

3. In § 92.41(a)(1), the time when applications for the lottery are to be submitted to APHIS would be changed from 15 days before the lottery to 5 days before the lottery. This change is being proposed because of another change which is also being proposed, namely, that the application be accompanied by deposit of \$1,000 per animal sought to be qualified for entry. The \$1,000 deposit requirement is explained elsewhere in this proposed rulemaking. However, it is sufficient to note that with such a requirement the Department wants to reduce the amount to time it has to hold a deposit prior to the lottery, for the benefit of the importers who have submitted their application and deposit. Five days should still provide enough time for the Department to prepare for the lottery.

4. Section 92.41(a)(1) would be amended by deleting the reference to when the applications for the second importation are due because the lottery for the second importation has now been held.

5. Section 92.41(a)(1) would also be amended by providing that the country of origin of the animals to be qualified for entry into HSTAIC is to be stated by the applicant on the application form. This will enable the Department to determine early in the selection process whether or not the application covers cattle which originate in areas in which conditions are considered to be unacceptable for importation into the United States as provided in § 92.4(a)(3) of the regulations. If the application does pertain to animals which are from unacceptable areas, the Department can return the deposit expeditiously to the applicant.

6. Section 92.41(a)(1) would be amended, as noted above, by requiring the applicant to submit a certified check or money order payable to the United States Department of Agriculture, Animal and Plant Health Inspection Service, in the amount of \$1,000 for each animal for which special authorization to import into HSTAIC is sought. In the event the applicant does not receive special authorization for animals for which he has applied, the fee deposited with the application for each animal not so authorized would be returned. If the applicant receives special authorization, the deposited fee would be applied against the total cost of importation of each animal. therefore, for example, if the application is for 10 animals, and the applicant is authorized to import 6 animals, \$4,000 of the \$10,000 deposit fee would be refunded to the applicant, and the remaining \$6,000 would be credited to the applicant to be applied to the fee

for the 6 animals authorized to be qualified for entry into HSTAIC.

The Department would require the deposit money as evidence of the commitment of the applicant to proceed with the importation process. The Department in previous importations, has received a significant number of applications not acted upon by the applicant when advised that the had been authorized to qualify animals into HSTAIC. This has resulted in delays in trying to determine if other applicants wanted to take advantage of the available spaces. This can result in less than full utilization of the HSTAIC or postponing an importation until all potential importers have been given an opportunity to utilize such space. The deposit requirement should make the applicant more aware of the nature of the undertaking and evidence a commitment by the applicant to request to import only those numbers of animals he ultimately intends to import.

7. Section 92.41(a)(1) would also be amended by changing the publication date of the notice of drawing from 90 to 60 days prior to the date of the drawing. This is being proposed because the 90 day time period was established to allow the importer to receive the cooperative agreement by mail, to execute the cooperative agreement, make the necessary financial arrangements and return the documents by mail to the agency. Since this proposal would require the cooperative agreements to be completed at the drawing, the 90 day time period is not longer necessary.

8. Section 92.41(a)(1) would also be amended by changing the contents of the notice of drawing to include the designation of geographic areas from which animals will be considered for importation into HSTAIC and a graduated schedule for the proposed importation. The Department proposes to designate particular areas for a particular importation. The Department has a limited number of personnel it can assign or employ to handle qualifying animals for entry into HSTAIC. This includes assigning personnel to foreign countries to examine the animals which the importers want qualified for entry into HSTAIC. To best allocate the limited numbers of personnel and to afford importers an opportunity to import animals from different parts of the world, the Department would designate the geographic areas from which animals could be imported for a particular importation.

A fee schedule based upon occupancy of HSTAIC is also proposed to be included in the notice of drawing. The Department has expended a

considerable amount of money in operation of HSTAIC. The legislative history of the Act which established HSTAIC (21 U.S.C. 135) is clear that Congress intended, to the fullest extent possible, that its operating expenses be borne by the importers desiring to utilize the facility. The fee for the first two importations was a flat fee based upon an assumption of an awarding of special permits for the 400 total available spaces of the facility. However, the actual number of cattle for which applications were received, and authorization granted was, in each instance, substantially less than 400 animals. This increased the cost to the Government because it had to absorb the cost of the difference between the cost per animal based upon full utilization of HSTAIC and the actual cost per animal when the facility was under utilized. The less number of cattle to be qualified for entry, the less number of cattle to spread the costs of importation. By pegging the fee to the number of animals for which special authorization has been granted, the Department believes that the operations of the HSTAIC will be more self supporting.

9. Section 92.41(a)(1) would further be amended to require that applicants or their designated legal agent or representative appear in person at the drawing, and that once awarded special authorization to qualify cattle for entry through HSTAIC, the cooperative agreement set forth in § 92.41(c) would be required to be completed and funds provided in accordance with the agreement at that time. Any legal agent or representative of an applicant must have proof of their authority to obligate the applicant as required by these regulations. This provision is an attempt to reduce delay in determining who is going to participate in a particular importation through HSTAIC. Under the present regulations, this may not be known for some time. This delay has generated some problems for the Department in scheduling the quarantine period and in the assigning of personnel to handle a particular importation. By having the applicant or their designated legal agent or representative at the drawing, the administrative procedures of awarding authorization, signing of necessary cooperative agreements and the depositing of funds can be accomplished all in one day so that at the end of the day of the drawing, the number of cattle to be qualified for entry through HSTAIC will be ascertained and appropriate administrative assignments can be made.

10. Section 92.41(a)(2) would be amended by deleting the requirement that the drawing be held 6 months prior to the prospective importation into HSTAIC. This is believed to be a meaningless and unnecessary requirement. The Department will designate the date, time and place of the lottery for an importation. No other requirement is believed necessary.

11. Section 92.41(a)(2) would also be amended to revise the lottery system to simplify it. The present selection system would be maintained if there are more than 400 applicants. The names of applicants will be drawn until 400 applicants have been selected to receive special authorization to qualify one animal for entry into the United States through HSTAIC subject to entering into a cooperative agreement with the Department and furnishing the necessary financing with the cooperative agreement.

If the total number of applications are to import 400 or less cattle, each applicant will receive authorization to import the number of cattle requested in the application. If available space still exists, each of the applicants will be offered an opportunity to request additional space. This should provide an additional means by which the facility can be fully utilized.

If there are less than 400 applicants, but the applicants are seeking to import more than 400 animals, a consecutive drawing will be held as follows: A drawing will be held of the names of those applicants seeking to import one or more animals into the facility. Then a drawing will be held of the names of applicants wishing to import at least two animals. If, after these names have been selected, available space in the facility still exists, a drawing will be held of the names of those applicants seeking to import at least three animals into the facility. The selection process shall continue in the same manner until no available space exists for importing animals into the facility. This system presently is in the regulations and would be maintained because it is believed to be the most equitable manner of designating individuals authorized to import cattle into HSTAIC.

12. Section 92.41(a)(2) would further be amended to provide that no lottery will be held and no qualifying of animals for importation will be approved unless at least 50 animals are to be imported. If less than 50 animals are to be imported, the Department believes that this does not constitute a sufficient benefit to the American public to warrant expenditure of services of government personnel.

13. Section 92.41(a)(3) would be amended to state clearly that if an application is not accepted, the deposit submitted with the application would be returned to the applicant.

14. Section 92.41(a)(2) would be amended by deleting the requirement that applicants not designated as authorized to import cattle into HSTAIC be notified in writing of this decision. Since the applicant or legal agent or representative would be present at the drawing, there would be no need to notify in writing the applicant of his failure to receive such special authorization.

15. Section 92.41(b)(2) would be revised by changing the statement that the "Deputy Administrator is authorized to promulgate reasonable fees" to "establish reasonable fees". The method of computing the fees is promulgated in the regulations, but the fee schedule (the exact fees on a graduated animal basis) would appear in the notice of drawing published in the *Federal Register* as discussed previously in this rulemaking document.

16. Section 92.41(b)(3)(iv) would be amended by adding a footnote concerning where the test protocol referenced in the regulations may be obtained.

17. Section 92.41(b)(4) would be amended to change the "Deputy Administrator is authorized to charge the special permittee for whom the service is performed the actual cost of such test" to the "Deputy Administrator shall charge the importer for whom the service is performed the actual cost of such test". This change is made to clarify the fact that the Deputy Administrator is going to charge an importer for any additional testing performed for the importer. This similar clarification change is proposed for § 92.41(b)(5) concerning the treatment services provided by the Department to an importer.

18. Section 92.41(b)(7) would be amended by deleting the flat fee and would be replaced with a fee system based upon the expected level of occupancy of HSTAIC as discussed above.

19. Section 92.41(c) Would be amended by revising subsection A of the cooperative agreement to reflect, as discussed previously, that the importer is liable for the cost of any test performed in addition to those identified in Veterinary Service protocol to import animals into the United States through HSTAIC. This is proposed to recover the costs to the Department for providing such testing services. Other editorial changes to those discussed above have been made as necessary.

Accordingly, Part 92, Title 9, Code of Federal Regulations would be amended the following respects:

1. Sections 92.41 (a) and (b) would be amended to read:

§ 92.41 Requirements for the importation of animals into the United States through the Harry S Truman Animal Import Center.

(a) *Special authorization.* Because of the extended period of time required to process cattle intended for importation from countries affected with exotic diseases not otherwise eligible for importation into the United States, including foot-and-mouth disease through the Harry S Truman Animal Import Center, (HSTAIC), special authorization shall be required before any animal may enter the facility for quarantine. Such authorization will be issued on a lottery basis in accordance with the following procedures.

(1) *Drawing; contents of applications and deposits.* For each importation of animals into the HSTAIC, a drawing will be held of the names of applicants who desire to import animals into the facility at that particular time. Each applicant shall complete an application for importing animals through the HSTAIC which shall be received by Veterinary Services, at least 5 days prior to the date of the drawing.¹⁴ The applicant shall state on the application the number of animals he desires to import into the HSTAIC and their country of origin. Each application shall be accompanied by a certified check or money order payable to the United States Department of Agriculture, Animal and Plant Health Inspection Service, in the amount of one thousand dollars (\$1,000), for each animal for which special authorization is requested on the application. In the event the applicant does not receive special authorization for animals for which he has applied, the amount deposited with the application for each animal not so authorized will be returned. If the applicant receives special authorization, the deposited amount shall be applied against the total cost of importation of each animal. At least 60 days prior to any drawing, notice will be given in the *Federal Register* of the date, time and place of the drawing for interested persons to submit an application. The notice shall also designate the geographic areas from which animals will be considered for importation into the HSTAIC and shall also include the

fee schedule for the proposed importation. All applicants, or their designated legal agents or representatives, shall be required to appear in person at the drawing. Such designated legal agent or representative shall have a notarized statement of authority signed by the applicant.

(2) *Drawing for special authorization.* At the time, date, and places specified in the Notice of Drawing, if there are more than 400 applicants, a Department employee shall consecutively draw the names of applicants, until a maximum of 400 names have been selected to receive special authorization to qualify one animal for entry into the United States through the HSTAIC. If there are less than 400 applicants for 400 animals or more, the procedure for the consecutive drawings for spaces shall be as follows: A drawing will be held of the names of those applicants seeking to import at least one animal into the HSTAIC. Then a drawing will be held of the names of applicants wishing to import at least two animals. If, after these names have been selected, available space in the HSTAIC still exists, a drawing will be held of the names of those applicants seeking to import at least three animals into the center. This selection process shall continue in the same manner until no available space exists for importing animals into the HSTAIC. However, if the total applications received are for less than 400 animals, each applicant shall receive special authorization for the number requested on their application in accordance with the provisions of subparagraph (4) of this paragraph (a). Further, if available space at the HSTAIC still exists at the designated time of the drawing, each of the applicants shall be offered an opportunity to request additional space(s). If the requests for additional space(s) exceed the space(s) available, a lottery drawing shall be conducted for the additional spaces in the same manner as provided above from those interested applicants. Each applicant shall receive special authorization for the additional space(s) in accordance with the provisions of subparagraph (4) of this paragraph (a). At the end of the drawing when the total number of animals has been determined, the fee will be established in accordance with the graduated fee scale. If any person selected to receive a special authorization declines acceptance, the other applicants will be offered the opportunity to receive the special authorization as provided above in this subparagraph. If any such additional authorization is not requested the fee per animal shall increase in accordance

¹⁴ Application forms may be obtained upon request from and completed applications should be sent to Import-Export Animals and Products Staff, Veterinary Services, APHIS, U.S. Department of Agriculture, 6505 Belcrest Road, Room 815, Hyattsville, MD 20782.

with the graduated fee schedule:

Provided, That if the total number of animals for which special authorization are requested is not at least 50, there shall not be a lottery or importation and the deposits shall be refunded to the applicants.

(3) *Area of origin; limitations.* All applications received will be carefully reviewed prior to the public drawing. In the event applications are received for the importation of cattle which originate from areas in which conditions are considered to be unacceptable as specified in § 92.4(a)(3), the applicant will be so advised in writing and the money submitted with the application will be returned.

(4) *Requirements for special authorization.* On the day of the drawing applicants selected to receive special authorization for cattle to be qualified for importation through the HSTAIC, or their designated legal agents or representatives shall be required to execute a cooperative agreement described in § 92.41(c) and pay the required fees in accordance with the provisions of the cooperative agreement. Authorization to qualify cattle into the United States through HSTAIC shall not be assigned or transferred, nor shall any interest be assigned or transferred.

(b) *Fees.* (Cost associated with the maintenance and operation of the facility shall be borne by applicants who receive a special authorization under this section in accordance with the provisions of a cooperative agreement specified in paragraph (c) of this section.

(2) The Deputy Administrator is authorized to establish reasonable fees of the costs incurred by the Department in the maintenance and operation of the HSTAIC. Such fees shall include certain pre-entry services provided by the Department to prepare HSTAIC and animals for entry into that facility. Fees shall also include costs incurred while animals are in the facility and for a period of 30 days subsequent to the animals leaving the facility for costs incurred in its cleaning and disinfecting.

(3) The fees authorized in this section shall be based upon the following items:

(i) *Personnel.* The hourly rates including appropriate premium pay in accordance with 5 U.S.C. 5541-5549 for Veterinary Services' employees who perform the service.

(ii) *Travel.* The costs of travel and per diem of Veterinary Services' employees from their official duty station to their temporary duty station and return in order to qualify animals for entry into the facility. Travel costs shall also include costs to courier test samples

from temporary duty stations overseas to Plum Island for testing.

(iii) *Utilities.* The cost of electricity, oil and water for operating the HSTAIC for the five month period of quarantine plus one month for cleaning and disinfection.

(iv) *Laboratory costs.* The cost of conducting three series of laboratory tests for each animal as authorized by the cooperative agreement and in accordance with a Veterinary Services protocol^{14a} to qualify for importation into the Harry S Truman Animal Import Center.

(v) *Supplies.* The cost of supplies (feed, bedding, disinfectants, contact test animals and miscellaneous supplies for the animal care, maintenance, and testing at the facility) for the five month period of quarantine plus one month for cleaning and disinfection.

(vi) *Overhead.* A surcharge for overhead based on the most current historical data available showing the percentage of Animal and Plant Health Inspection Services funds expended for administrative support.

(4) Any test performed on animals in excess of the number of animals specified in a cooperative agreement is not included in the fees authorized in this section. The Deputy Administrator shall charge the importer for whom the service is performed the actual cost of conducting such test. Payment shall be due upon receipt by such person of a bill for the services from the Department.

(5) The cost of any additional laboratory tests deemed necessary by the Deputy Administrator to determine an animal's freedom from communicable disease is not included in the fees authorized in this section. Also, any treatment performed on animals while at the Harry S Truman Animal Import Center is not included in the fees authorized in this section. The Deputy Administrator shall charge the importer for whom the service is performed the actual cost of such testing or treatment. Payment shall be due upon receipt by that person of a bill for the services from the Department.

(6) The importer shall be reimbursed for any monies advanced for feed, bedding or laboratory tests for animals at the HSTAIC if such feed or bedding are not used or if such laboratory test for animals are not performed by Veterinary Services.

(7) Fees shall be based on the expected level of occupancy of the

^{14a} A protocol concerning the requirements to be observed may be obtained upon request from Import-Export Animals and Products Staff, Veterinary Services, APHIS, U.S. Department of Agriculture, 6505 Belcrest Road, Room 819, Hyattsville, MD 20782.

HSTAIC as determined by the number of cattle for which importers have been specially authorized to import into the Center.

2. In § 92.41(c) the first paragraph would be amended to read:

(c) *Cooperative agreements.* Each applicant, or their legal agent or representative, selected to be specially authorized to qualify animals for importation through the HSTAIC shall enter into and abide by the provisions of the following cooperative agreement with the Department. Financial obligation for the amount detailed in the following cooperative agreement is to be provided at the time the cooperative agreement is signed.

3. In § 92.41(c)(A) subparagraphs 4, 5, 6, and 7 are renumbered 5, 6, 7 and 8 respectively and a new subparagraph 4 would be provided to read:

(A) * * *

4. To pay for all laboratory tests in addition to those identified in the Veterinary Services protocol for importing animals into the HSTAIC deemed necessary by the Department to determine freedom from communicable animal diseases.

(Sec. 1, Pub. L. 91-239 [21 U.S.C. 135]; 37 FR 28464, 28477; 38 FR 19141)

All written submissions made pursuant to this rule will be made available for public inspection at the Federal Building 6505 Belcrest Road, Room 819, Hyattsville, Maryland, during regular hours of business (8 a.m. to 4:30 p.m., Monday to Friday, except holiday) in a manner convenient to the public business (7 CFR 1.27(b)).

Comments submitted should bear a reference to the date and page number of this issue in the *Federal Register*.

Done at Washington, D.C. this 8th day of October 1980.

R. P. Jones,
Acting Deputy Administrator, Veterinary Services.

BILLING CODE 3410-34-M

NUCLEAR REGULATORY COMMISSION

10 CFR Part 30

[Docket No. PRM-30-57]

General Atomic Co.; Filing of Petition for Rulemaking

AGENCY: Nuclear Regulatory Commission.

ACTION: Publication of Petition for Rulemaking from General Atomic Company.

SUMMARY: The Nuclear Regulatory Commission is publishing for public comment, as a petition for rulemaking, a motion filed before the Commission on September 9, 1980, by the General Atomic Company. This petition, which has been assigned Docket No. PRM-30-57, requests that the Commission amend its regulation, 10 CFR Part 30, to permit persons exempt from regulation to receive ionizing radiation measuring instruments which contain more than one source of byproduct material.

DATE: Comment period expires December 15, 1980.

ADDRESSES: A copy of the petition for rulemaking is available for public inspection in the Commission's Public Document Room, 1717 H Street, NW., Washington, DC. A copy of the petition may be obtained by writing to the Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

All persons who desire to submit written comments concerning the petition for rulemaking should send their comments to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch.

FOR FURTHER INFORMATION CONTACT: J. M. Felton, Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone: 301-492-7211.

SUPPLEMENTARY INFORMATION: The petitioner states, in part, that " * * * it seem[s] evident that the particular language of the regulations (§ 30.15(a)(9)), read to limit licenses of instruments containing byproduct material to persons exempt from regulation to a single source per instrument, was in effect the result of a situation not envisioned at the time of drafting * * * The petitioner further states that "These (the petitioner's) instruments are devices which perform several radiation monitoring functions * * * (and) * * * the instruments would have to be redesigned, each as a single function instrument with a single exempt quantity byproduct source. To do so would increase costs and delay delivery of instrumentation important to monitoring radiation and radioactive materials in and around major nuclear facilities. There is no compromise of public health and safety by permitting use of more than one source in a single multi-functional device."

The petitioner requests that 10 CFR 30.15(a)(9) be amended to read as follows:

§ 30.15 Certain items containing byproduct material.

(a) * * * any person is exempt from the * * * regulations in * * * this chapter to the extent that such person receives, possesses, uses, transfers, owns, or acquires the following products:

(9) Ionizing radiation measuring instruments containing, for purposes of internal calibration or standardization, sources of byproduct material each not exceeding the applicable quantity set forth in §30.71, Schedule B.

* * * * *

Dated at Washington, DC this 7th day of October 1980.

For the Nuclear Regulatory Commission,
Samuel J. Chilk,
Secretary of the Commission.

BILLING CODE 7590-01-M

FEDERAL HOME LOAN BANK BOARD

12 CFR Ch V

[No. 80-616]

Semiannual Agenda

Dated: September 30, 1980.

AGENCY: Federal Home Loan Bank Board.

ACTION: Publication of semiannual agenda.

SUMMARY: Pursuant to Board Resolution No. 79-364 (44 FR 37556; June 27, 1979), the Board is publishing an agenda of regulatory items, appropriate for publication under paragraph 5 of Resolution No. 79-364, which are currently under consideration or will be considered by the Board during the next six months.

FOR FURTHER INFORMATION CONTACT: A staff contact for each item is identified with the regulatory description below.

SUPPLEMENTARY INFORMATION: The Board's Semi-annual Agenda is divided into two sections. Section I describes major regulatory actions which have been proposed by the Board and are under active consideration. The comment period for each item is also indicated. Section II lists major regulatory projects which are actively being developed by agency staff for possible Board consideration within the next six months. The list is not all-inclusive, but is based on information available at the present time.

SECTION I—PROPOSED REGULATIONS

1. Consumer Loans, Commercial Paper and Corporate Debt Securities

Action Taken: The Board, by Resolution No. 80-468 of July 31, 1980 (45 FR 52177; August 6, 1980), proposed to implement section 401 of Title IV of the Depository Institutions Deregulation and Monetary Control Act of 1980 which authorizes Federally-chartered savings and loan associations and mutual savings banks, subject to a 20-percent-of-assets limitation, to invest in, sell, or hold consumer loans, commercial paper and corporate debt securities as defined and approved by the Board. These regulations would also implement the Federal Financial Institutions Examination Council's recommended "Uniform Policy for Classification of Consumer Installment Credit Based on Delinquency Status." The public comment period closes October 6, 1980.

Authority: Secs. 5(c), (d), 48 Stat. 132, as amended by sec. 401, Pub. L. No. 96-221, 94 Stat. 151, (12 U.S.C. 1464(d)); secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260 as amended (12 U.S.C. 1725, 1726, 1730); Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071.

Staff Contact: Ann Hume Loikow, Attorney, Office of General Counsel (202-377-6448).

2. Revision of Real Estate Lending Regulations

Action Taken: By Resolution No. 80-469 of July 31, 1980 (45 FR 52173; August 6, 1980), the Board proposed regulations to implement, in part, Title IV of the Depository Institutions Deregulation and Monetary Control Act of 1980, which comprehensively revised and expanded the investment authority of Federal savings and loan associations in the area of real-estate-related loans. Major changes would include the lifting of restrictions on location of security property, lien priority and dollar amount of loans. The public comment period closes October 6, 1980.

Authority: Sec. 10, 47 Stat. 725 (12 U.S.C. § 1421 et seq.); sec. 5, 48 Stat. 132 (12 U.S.C. 1464(c)), as amended by sec. 401, 94 Stat. 160; secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended (12 U.S.C. 1725, 1726, 1730); Reorg. Plan No. 3 of 1947, 12 FR 4891, 3 CFR, 1943-48 Comp., 1071.

Staff Contact: Nancy L. Feldman, Associate General Counsel, Office of General Counsel (202-377-6440).

3. Trust Powers

Action Taken: By Resolution No. 80-528 of August 21, 1980 (45 FR 57728; August 29, 1980), the Board proposed a

new Part 550 to implement the recent statutory authorization for the granting of trust powers to Federal savings and loan associations. Section 403 of the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. No. 96-221, 94 Stat. 132) amends the Home Owners' Loan Act of 1933 ("HOLAA") (12 U.S.C. § 1464), by adding a new subsection (n) to section 5 of that law. The Board proposed regulations which implement its authority "to grant by special permit to an association applying therefor the right to act as trustee, executor, administrator, guardian or in any other fiduciary capacity in which state banks, trust companies, or other corporations which come into competition with associations are permitted to act under the laws of the state in which the association is located." The Board also proposed regulations regarding the proper exercise of Federal association trust powers. The public comment period closes October 21, 1980.

Authority: Sec. 403, Pub. L. No. 96-221, 94 Stat. 132, (12 U.S.C. § 1464(n)); Secs. 402, 403, & 407, 48 Stat. 1256, 1257, 1260, as amended (12 U.S.C. 1725, 1726, 1730); Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071.

Staff Contact: James C. Stewart, Attorney, Office of General Counsel (202-377-6457).

4. Mutual Capital Certificates

Action Taken: By Resolution No. 80-490 of August 15, 1980 (45 FR 55720; August 21, 1980), the Board proposed to amend its regulations for Federal mutual associations, Federally-insured state-chartered mutual institutions, and Federal mutual savings banks to provide procedures for the issuance of mutual capital certificates. In summary, the proposed regulations set forth: (1) procedures for application to the Board for approval of the issuance of mutual capital certificates; (2) procedures for insured mutual association membership approval of the authorization for issuance of mutual capital certificates; (3) proxy solicitation and issuer disclosure requirements; (4) pre-approved charter amendments for Federal mutual associations and Federal mutual savings banks; and (5) permissible and mandatory legal attributes of mutual capital certificates issued pursuant to the Board's regulations. In addition, the proposed regulations provide that mutual capital certificates shall be deemed to constitute a part of an insured mutual association's statutory reserve and net worth accounts. The proposed regulations implement Title IV of the Depository Institutions Deregulation and

Monetary Control Act of 1980, providing for the creation and issuance of mutual capital certificates. The public comment period closes October 20, 1980.

Authority: Sec. 5, 48 Stat. 132, as amended by sec. 407, Pub. L. No. 96-221, 94 Stat. 151, (12 U.S.C. § 1464); secs. 402, 403, 406, 48 Stat. 1256, 1257, 1259, as amended (12 U.S.C. §§ 1725, 1726, 1729); Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071.

Staff Contact: Harry M. Zimmerman, Jr., Associate General Counsel, (202-377-6459) or John P. Soukenik, Attorney (202-377-6427), Office of General Counsel.

5. Reserve Accounts

Action Taken: By Resolution No. 80-445 of July 24, 1980 (45 FR 50718; July 31, 1980), the Board proposed the following changes to the net worth requirements imposed on institutions which have accounts insured by the Federal Savings and Loan Insurance Corporation: (1) replace the current net worth requirement of five percent of insurable accounts plus five percent of secured borrowings with a requirement of four percent of liabilities, (2) eliminate the Asset Composition and Net Worth Index plus the five percent of secured borrowings requirement, (3) provide for up to a ten percent reduction in the otherwise applicable net worth requirement proportionate to the amount of long-term debt, flexible-yield mortgages and short-term liquid assets held, and (4) provide a limited waiver of the net worth and reserve requirements for institutions that sell residential mortgages carrying an interest rate of seven and one-half percent or less. The Board also proposed to reduce the current statutory reserve requirement from an amount equal to five percent of insured accounts to an amount equal to four percent of insured accounts. The public comment period closed September 29, 1980.

Authority: Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended (12 U.S.C. 1725, 1726, 1730); sec. 5A, 47 Stat. 727, as amended by sec. 1, 64 Stat. 256; sec. 17, 47 Stat. 736, as amended (12 U.S.C. 1425a, 1437); sec. 5, 48 Stat. 132, as amended (12 U.S.C. 1464); Reorg. Plan No. 3 of 1947, 12 FR 4891, 3 CFR, 1943-48 Comp., p. 1071.

Staff Contact: Jerry Hartzog, Office of Policy and Economic Research (202-377-6777), or Kenneth F. Hall, Attorney, Office of General Counsel (202-377-6466).

6. Accounting for Loan Servicing Fees

Action Taken: By Resolution No. 80-292 of May 2, 1980 (45 FR 31408; May 13, 1980), the Board proposed to restrict

savings and loan associations' accounting treatment for loan servicing fees by providing that such fees may be credited to current income only to the extent earned. The proposed regulation is intended to prohibit the reflection in net worth of unearned servicing income, which the Board regards as an unsafe and unsound practice. The public comment period closed July 9, 1980.

Authority: Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended (12 U.S.C. §§ 1725, 1726, 1730); Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071.

Staff Contact: James C. Stewart, Attorney, Office of General Counsel (202-377-6457).

7. Restrictions on Preferential Loans

Action Taken: By Resolution No. 80-30 of January 16, 1980 (45 FR 4361; January 22, 1980), the Board proposed to amend its Conflict of Interest regulations by further limiting the authority of insured institutions to grant loans at preferential rates or upon special terms ("preferential loans"). This proposal is being reconsidered in light of public comments and other information available to the Board.

Authority: Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended (12 U.S.C. 1725, 1726, 1730); sec. 5A, 47 Stat. 727, as amended by sec. 1, 64 Stat. 256, sec. 17, 47 Stat. 736, as amended (12 U.S.C. 1425a, 1437); sec. 5, 48 Stat. 132, as amended (12 U.S.C. 1464); Reorg. Plan No. 3 of 1947, 12 FR 4891, 3 CFR, 1943-48 Comp., p. 1071.

Staff Contact: Michael D. Schley, Attorney, Office of General Counsel (202-377-6444).

8. Referral of Settlement Business to Service Corporations

Action Taken: By Resolution No. 80-592 of September 18, 1980 (45 FR 63498; September 25, 1980), the Board proposed regulations in response to an interpretive rule published by the Department of Housing and Urban Development pursuant to § 8 of the Real Estate Settlement Procedures Act that casts doubt on the ability of insured institutions to refer borrowers to their service corporations for certain settlement services. The proposed amendment would establish a procedure for insured institutions to make available neutral lists of providers of settlement services which would avoid violation of the interpretive rule. The public comment period closes November 18, 1980.

Authority: Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended (12 U.S.C. 1725, 1726, 1730); sec. 5A, 47 Stat. 727, as amended by sec. 1, 64 Stat. 256, as

amended, sec. 17, 47 Stat. 736, as amended (12 U.S.C. 1425a, 1437); sec. 5, 48 Stat. 132, as amended (12 U.S.C. 1464); Reorg. Plan No. 3 of 1947, 12 FR 4891, 3 CFR, 1943-48 Comp., p. 1071.

Staff Contact: Wendy B. Davis, Attorney, Office of General Counsel (202-377-6465).

9. Graduated Payment Adjustable Mortgages

Action Taken: By resolution of September 30, 1980 (Federal Register publication to follow), the Board proposed regulations to authorize Federal savings and loan associations to make, purchase and participate in graduated payment adjustable mortgage instruments. A graduated payment adjustable mortgage (GPAM) combines the adjustable interest rate feature of the renegotiable rate mortgage with the graduated payment feature of the graduated payment mortgage. Authorization of GPAMs would provide an additional instrument for mortgage lending. The public comment period closed December 1, 1980.

Authority: Sec. 5, 48 Stat. 132, as amended (12 U.S.C. § 1464); Reorg. Plan No. 3 of 1947, 3 CFR, 1943-1949 Comp., p. 1071.

Staff Contact: Kenneth F. Hall, Attorney, Office of General Counsel (202-377-6466).

10. Policy Statement on Branching

Action Taken: By Resolution No. 80-286 of May 5, 1980 (45 FR 31121; May 12, 1980), the Board proposed a new policy statement on branching to reflect amendments to its branching regulations adopted on the same date by Resolution No. 80-285 (45 FR 31046; May 12, 1980). This policy statement reaffirms the Board's procompetitive branching policy, further explains how the Board will evaluate branching criteria, discusses the Board's concern about implications of the name of a branch, describes its position on prompt opening of approved branches, and reaffirms its policy on the geographic limitations on the location of a branch office. The public comment period closed July 9, 1980.

Authority: Sec. 5, 48 Stat. 132, as amended (12 U.S.C. § 1464); Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071.

Staff Contact: Lois G. Jacobs, Attorney, Office of General Counsel (202-377-6456).

11. Shared Appreciation Mortgages

Action Taken: By Resolution No. 80-610 of September 30, 1980 (45 FR 66801; October 8, 1980), the Board proposed a regulation to permit Federal savings and

loan associations to make shared appreciation mortgages. A shared appreciation mortgage bears a fixed interest rate set below prevailing market rate over the term of the loan, and contingent interest based on the appreciation of the property securing the loan payable at the earlier of maturity or payment in full of the loan or sale or transfer of the property. The share of the appreciation payable as contingent interest is determined at the beginning of the loan and may not exceed 40 percent of net appreciation. The proposed maximum term of the shared appreciation mortgage is 10 years, with guaranteed long-term refinancing. The public comment period closes December 1, 1980.

Authority: Sec. 5, 48 Stat. 132, as amended (12 U.S.C. § 1464); Reorg. Plan No. 3 of 1947, 3 CFR, 1943-1948 Comp., p. 1071.

Staff Contact: Peter M. Barnett, Attorney, Office of General Counsel (202-377-6445), or Dale Riordan, Director, Office of Policy and Economic Research, (202-377-6750).

12. Director and Management Interlocks

Action Taken: By Resolution No. 80-6 of January 6, 1980 (45 FR 1916; January 9, 1980), the Board proposed deletions of and amendments to its regulations concerning director and officer management interlocks to conform them to new legislation. The Management Official Interlocks Act prohibits "management officials" from serving as directors, officers or managers of nonaffiliated depository organizations that the Act defines as being in competition. The prohibitions contained in the Interlocks Act effectively incorporate, and in many cases strengthen, Board rules which concern the composition of an insured institution's board of directors, and which prohibit a salaried officer of an insured institution from serving as a salaried officer of another competing depository organization. Because these rules have been effectively superseded by the Interlocks Act, the Board proposed to delete them. In addition, the Board proposed to exempt from disclosure insured institutions whose boards of directors are not in compliance with Board guidelines because the insured institutions' management officials are serving on the boards of other competing financial institutions at the specific request of the Federal Savings and Loan Insurance Corporation. The public comment period closed March 5, 1980.

Authority: Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended (12 U.S.C. 1725, 1726, 1730); sec 5A 47 Stat. 727, as

amended by sec. 1, 64 Stat. 256, as amended, sec. 17, 47 Stat. 736, as amended (12 U.S.C. 1425a, 1437); sec. 5, 48 Stat. 132, as amended (12 U.S.C. 1464); Reorg. Plan No. 3 of 1947, 12 FR 4891, 3 CFR, 1943-48 Comp., p. 1071.

Staff Contact: Nancy L. Feldman, Associate General Counsel, Office of General Counsel (202-377-6440).

SECTION II—REGULATORY ITEMS THE BOARD MAY CONSIDER DURING THE NEXT SIX MONTHS

1. Unfair or Deceptive Acts and Practices

Anticipated Action: Under Public law 96-37, which amended the Federal Trade Commission Act, the Board must, within 60 days after the effective date of an unfair trade practice rule promulgated by the FTC, promulgate a substantially similar rule for savings and loan institutions unless the Board determines that such practice is not unfair or deceptive as to savings and loans. Board staff is developing proposed regulations on the preservation of consumer claims and defenses ("holder in due course" rule) and other credit practices in anticipation of FTC rules which may require regulatory action by the Board.

Authority: Section 18(f) of the Federal Trade Commission Act, as amended, Pub. L. No. 96-37 (15 U.S.C. § 57a(f)).

Staff Contact: Patricia C. Trask, Attorney, Office of General Counsel (202-377-6442).

2. Futures Transactions and Forward Commitments in Mortgage-backed and Other Securities

Anticipated Action: A Board task force is reviewing current regulations regarding institutions' transactions in contracts to purchase and sell Federal Government and agency securities in the forward commitment and futures markets. This review has been undertaken to determine the nature and scope of changes which may be needed to the regulations in light of the Board's experience under them to date.

Authority: Sec. 5, 48 Stat. 132, as amended (12 U.S.C. § 1464); secs. 402, 403, and 407, 48 Stat. 1256, 1257, 1260, as amended (12 U.S.C. 1725, 1726, 1730); Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071.

Staff Contact: Patricia C. Trask, Attorney, Office of General Counsel (202-377-6442).

3. Accounting for Goodwill

Anticipated Action: The Board is reviewing the use of "goodwill" as part of net worth in mergers of savings and loan associations.

Authority: Sec. 5, 48 Stat. 132, as amended (12 U.S.C. 1464); secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended (12 U.S.C. 1725, 1726, 1730); Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071.

Staff Contact: Patricia C. Trask, Attorney, Office of General Counsel (202-377-6442).

4. Payment of Attorney Fees by Home Borrowers

Action Taken: 12 CFR 563.35(d) permits an FSLIC-insured lender to require a home borrower to reimburse, or to pay directly, attorney fees incurred by the lender in processing and closing a home loan. The Public Citizen Litigation Group, *et. al.*, has filed a petition requesting the Board to amend this regulation to give the borrower certain options in attorney selection and provide additional consumer safeguards.

The Board is delaying any decision on the merits of the petition until it has analyzed real estate settlement practices data, recently received from the Department of Housing and Urban Development, which that agency has obtained to prepare a report required by § 14 of the Real Estate Settlement Procedures Act of 1974 (Pub. L. No. 93-533, 12 U.S.C. § 2601 *et. seq.*, as amended by Pub. L. No. 94-205).

Authority: Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended (12 U.S.C. §§ 1725, 1726, 1730).

Staff Contact: Wendy B. Davis, Attorney, Office of General Counsel (202-377-6565).

5. Mobile Home Loan Consumer Protection Provisions

Anticipated Action: The Board is conducting a study of additional consumer protection provisions which may be needed to prevent abusive credit practices in the financing of mobile homes when the loans are exempt from state usury ceilings on interest rates. This study is being done pursuant to Section 501(c)(4) of the Depository Institutions Deregulation and Monetary Control Act of 1980 which authorizes the Board to determine whether abusive credit practices exists in this area, and, if so, to publish its findings and promulgate regulations prohibiting such practices.

Authority: Sec. 501(c), Pub. L. No. 96-221, 94 Stat. 161.

Staff Contact: Patricia C. Trask, Attorney, Office of General Counsel (202-377-6442).

By the Federal Home Loan Bank Board.

Robert D. Linder,

Acting Secretary.

BILLING CODE 6720-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 21

[Docket No. 19831; Notice No. 80-17]

Type Certification Procedures for Gliders

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FAA proposes to amend its procedural rules for the type certification of gliders (including sailplanes) to permit equivalency findings with respect to the applicable airworthiness standards as is no permitted in the type certification of other aircraft. These procedural rules would also be applicable to the type certification of fixed-wing, self-launching (powered) gliders. This updating of the Federal Aviation Regulations would eliminate, without any derogation of safety, an unnecessary economic burden which the present rule imposes on this segment of sport aviation as well as eliminate an inconsistency in the regulations.

DATE: Comments must be received on or before December 15, 1980.

ADDRESS: Comments on this proposal may be mailed in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-204), Docket No. 19831, 800 Independence Avenue, SW., Washington, D.C. 20591, or deliver comments in duplicate to: FAA Rules Docket, Room 916, 800 Independence Avenue, SW., Washington, D.C.

Comments delivered must be marked: Docket No. 19831.

Comments may be examined in the Rules Docket Weekdays between 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT:

Mr. Norman Miller, Regulatory Projects Branch (AVS-24), Safety Regulations Staff, Associate Administrator, 800 Independence Avenue, SW., Washington, D.C. 20591. Telephone (202) 755-8716.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 19831." The postcard will be date/time stamped and returned to the commenter. All communications received on or before the closing date for comments will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available in the Rules Docket for examination both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rule making (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, S.W., Washington, D.C. 20501, or by calling (202) 426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2, which describes the application procedures.

The Proposal

Section 21.23 of the Federal Aviation Regulations (FAR) provides that an applicant is entitled to a type certificate for a glider if he/she submits the type design, test reports, and computations necessary to show that the glider meets the applicable regulations and there is no unsafe feature or characteristic of the glider. The applicable regulations are defined in § 21.23(a) to be those airworthiness requirements of Part 23 or Part 27 of the FAR that the Administrator finds to be (1) appropriate for gliders and (2) applicable to the applicant's specific type design. No provision is made for gliders which may

not meet all of the applicable airworthiness requirements of Part 23 or Part 27, although the provisions not complied with are compensated for by factors in the glider's type design that provide an equivalent or greater level of safety. The procedural requirements for the type certification of gliders are unique in this respect. The type certification procedures applicable to all other aircraft specifically provide for such equivalency, and there does not appear to be any justification for the restriction against the use of designs which provide an equivalent level of safety with respect to certification of basically a sport aircraft operated for pleasure and not for compensation or hire.

The FAA believes the rigidity of the present rule imposes an economic burden on these aviation enthusiasts that cannot be justified on safety grounds. As such, the limitation is certainly contrary to the mandate of Executive Order 12044 to eliminate to the greatest extent possible the economic penalties imposed by Federal regulations.

Accordingly, the FAA proposes to amend § 21.23(a) to permit the issuance of type certificates for gliders (including sailplanes), including fixed-wing, self-launching (powered) gliders, that comply with either the applicable airworthiness requirements of Part 23 or 27 of the Federal Aviation Regulations or such other airworthiness requirements that provide an equivalent level of safety to those requirements.

For fixed-wing gliders, to further simplify the economic burden of (1) identifying those requirements of Part 23 that are applicable to the type design of a glider and (2) establishing equivalencies to those requirements, the FAA also intends to identify in new Advisory Circular 21.23-1 design criteria which the FAA has reviewed and held to be acceptable means of showing compliance with the requirements of § 21.23 for the type certification of fixed-wing gliders. In this connection it should also be noted that the FAA intends to adopt a policy of type certifying under § 21.23 fixed-wing gliders with self-launching capability, i.e., powered gliders, so long as free flight does not depend principally on the engine. This is consistent with Part 1 of the regulations which defines a "glider" as a heavier-than-air aircraft that is supported in flight by the dynamic reaction of the air against its lifting surfaces and whose free flight does not depend principally on an engine. Parts 33 and 35 of the regulations contain the certification requirements the engines would have to meet in order to be installed on a glider.

The proposal also responds to the

petition for rulemaking filed by the Soaring Society of America requesting the FAA to adopt the "Joint Airworthiness Requirements (JAR 22) Sailplanes and Powered Sailplanes" agreed to on April 1, 1980, by the civil airworthiness authorities of Belgium, the Federal Republic of Germany, France, Italy, the Netherlands, Sweden, and the United Kingdom. JAR 22 is one of two comprehensive and detailed criteria identified in Advisory Circular 21.23-1 that could be used in showing compliance with the requirements of § 21.23(a) of the regulations. The draft Advisory Circular, issued simultaneously with this Notice, is also published in the *Federal Register* for review and comment in connection with this rulemaking proposal.

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend § 21.23 of Part 21 of the Federal Aviation Regulations to read as follows:

§ 21.23 Issue of type certificate: Gliders (including sailplanes), including fixed-wing, self-launching (powered) gliders.

An applicant is entitled to a type certificate for a glider if he submits the type design, test reports, and computations necessary to show that the glider meets the applicable airworthiness requirements and the Administrator finds—

(a) That the glider complies either with those airworthiness requirements of Part 23 or Part 27 of this chapter found by him to be appropriate for gliders and applicable to the specific type design or with such other airworthiness requirements as the Administrator may find provide an equivalent level of safety to those Parts; and

(b) That there is no unsafe feature or characteristic of the glider.

(Sections 313(a), 314, 601, 603, 604, 610, and 611 of the Federal Aviation Act of 1958 (49 U.S.C. §§ 1354(a), 1355, 1421, 1423, 1424, 1430, and 1431); and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c))

Note.—The FAA has determined that this document involves a proposed regulation which is not considered significant under Executive Order 12044, as implemented by the Department of Transportation Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). A copy of the draft regulatory evaluation prepared for this action is contained in the regulatory docket. A copy may be obtained by contacting the person identified above under the caption: "For Further Information Contact."

Issued in Washington, D.C. on October 7, 1980.

M. C. Brand,

Director, Office of Airworthiness.

[FR Doc. 80-31861 Filed 10-10-80; 8:45 am]

BILLING CODE 4910-13-M

14 CFR PART 39

[Docket No. 80-NW-45-AD]

Boeing Model 727-100 and 727-100C Series Airplanes, Except All Cargo Configurations, Equipped With the Aft Airstair Emergency Extension System; Airworthiness Directives

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Proposed rule making (NPRM).

SUMMARY: This proposed rule making would require replacement or modification of the aft airstair emergency extension control handle on certain Model 727-100 and 727-100C airplanes. There have been four instances in which the control handle broke during attempts to lower the stairway. A broken handle could prevent actuation of the emergency extension system, which could leave the exit unusable in an evacuation.

DATE: Comments must be received on or before December 1, 1980.

ADDRESS: Send comments on the proposed rule in duplicate to: Federal Aviation Administration, Northwest Region, Office of the Regional Counsel, Attention: Airworthiness Rules Docket, Docket No. 80-NW-45-AD, Seattle, Washington 98108.

FOR FURTHER INFORMATION CONTACT: Mr. Roger S. Young, Airframe Section, ANW-212, Engineering and Manufacturing Branch, FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington 98108, telephone (206) 767-2516.

SUPPLEMENTARY INFORMATION: During a recent evacuation, a flight attendant attempted to lower the aft airstair by pulling the emergency extension control handle, which broke. The attendant then lowered the airstair by pulling on the cable that actuates the system. The control handle is plastic and can be broken when it is allowed to cock when attempting to activate the system. Since this situation may result in the aft airstair being unusable during an evacuation, this proposed rule would require replacement or modification of the control handle.

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments specified above will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available both before and after the closing date for comments in the Rules Docket for examination by interested persons. A report summarizing each FAA/public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Availability of NPRMS

Any person may obtain a copy of this Notice of Proposed Rule Making (NPRM) by submitting a request to the Federal Aviation Administration, Northwest Region, Office of the Regional Counsel, Attention: Airworthiness Directive Rules Docket No. 80-NW-45AD, 9010 East Marginal South, Seattle, Washington 98108.

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) by adding the following Airworthiness Directive:

Boeing: Applies to all Boeing Model 727-100 and 727-100C series airplanes, except all cargo configurations, equipped with the aft airstair emergency extension system.

Compliance is required as indicated.

Accomplish the following:

A. Prior to June 1, 1981, replace or modify the aft airstair emergency extension control handle in accordance with Boeing Service Bulletin 727-25-120 dated March 21, 1980, or later FAA approved revisions or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

B. Upon request of the operator, an FAA maintenance inspector, subject to prior approval by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region, may adjust the compliance date if the request contains substantiating data to justify the change.

All persons affected by this proposal who have not already received these documents from the manufacturer, may obtain copies upon request to Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. These documents may also be examined at FAA Northwest Region, 9010

East Marginal Way South, Seattle, Washington 98108.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c); and 14 CFR 11.89))

Note.—The FAA has determined that this document involves a regulation which is not considered to be significant under the provision of Executive Order 12044, as implemented by Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 28, 1979).

Issued in Seattle, Washington, on October 2, 1980.

Charles R. Foster,

Director, Northwest Region.

[FR Doc. 80-31676 Filed 10-10-80; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 39

[Airworthiness Docket No. 80-ASW-39]

Swearingen Models SA226-T, SA226-T(B), SA226-AT, and SA226-TC Airplanes; Airworthiness Directives

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rule making.

SUMMARY: This notice proposes to adopt an airworthiness directive (AD) that would require periodic replacement of rudder cable to rudder link attaching bolts and bushings, and inspection of rudder pedal links at bolt holes and replacement of links as necessary. The proposed AD is prompted by 13 reports of worn rudder cable to rudder link attaching bolts and bushings and in some cases elongated bolt holes in rudder pedal links at attaching bolt holes which could eventually result in complete failure of rudder cable to rudder link attachment and loss of rudder control of airplane.

DATES: Comments must be received on or before November 14, 1980.

ADDRESSES: Send comments on the proposal in triplicate to: Regional Counsel, Attention: Docket No. 80-ASW-39, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101.

The applicable service bulletin may be obtained from: The Director of Products Support, Swearingen Aviation Corporation, P.O. Box 32486, San Antonio, Texas 78284. A copy of the service bulletin is contained in the Rules Docket of the Regional Counsel, Southwest Region, FAA, 4400 Blue Mound Road, Fort Worth, Texas 76101.

FOR FURTHER INFORMATION CONTACT: Milton G. Martin, Airframe Section, Engineering and Manufacturing Branch,

ASW-212, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101, telephone (817) 624-4911, extension 516.

SUPPLEMENTARY INFORMATION:

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments will be considered by the Director before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Office of Regional Counsel, Federal Aviation Administration, Southwest Region, 4400 Blue Mound Road, Fort Worth, Texas, for examination by interested persons. A report summarizing each FAA-public contact, concerned with the substance of the proposed AD, will be filed in the docket.

There have been 13 reports on Swearingen Model SA 226-TC airplanes with worn rudder cable to rudder link attachment bolts and bushings and in some cases elongated holes in rudder pedal link at attaching bolt holes. The FAA has determined that this condition could eventually result in complete failure of rudder cable to rudder link attachment and loss of rudder control of the airplane if not corrected. Since this condition is likely to exist or develop on other airplanes of the same rudder control system type design, the proposed AD would require periodic replacement of bolts and bushings. It also would require periodic inspection of rudder pedal links for elongated attachment bolt hole and replacement of links as necessary.

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) by adding the following new airworthiness directive:

Swearingen: Applies to Swearingen Models SA226-T, SA226-T(B), SA226-AT, and SA226-TC airplanes certificated in all categories. Compliance required for airplanes with 5,000 or more hours' time in service within the next 50 hours, unless already accomplished within the last 500 hours, and thereafter at 5,000 hour intervals (Airworthiness Docket No. 80-ASW-39).

To prevent failure of rudder cable to rudder pedal link attachments, accomplish the following:

(a) Replace rudder cable to rudder pedal link attachment bolts and bushings.

(b) Inspect rudder pedal links, Part Number 26-72016, at attachment bolt hole and replace links if hole is elongated.

Special flight permit may be issued in accordance with FAR 21.197 to allow flight of aircraft to a base where this AD can be accomplished.

Equivalent methods of complying with this AD must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Southwest Region.

Note.—Swearingen Service Bulletin SB27-027 issued July 17, 1980, refers to this same subject.

(Sections 313(a), 601, and 603, Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.85).

Note.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Fort Worth, Texas, on September 26, 1980.

C. R. Melugin, Jr.,

Director, Southwest Region.

BILLING CODE 4910-13M-M

CIVIL AERONAUTICS BOARD

14 CFR Part 298

[EDR-410; Docket No. 38815; Dated: October 8, 1980]

Classification and Exemption of Air Taxi Operators; Elimination of Requirement To Reregister Every Two Years

AGENCY: Civil Aeronautics Board.

ACTION: Notice of proposed rulemaking.

SUMMARY: The CAB proposes to eliminate the requirement that air taxis reregister every 2 years. They will still have to register before beginning operations and file amendments when there is a change in their operations. The information that has been obtained by the biennial re-registration is available from other sources.

DATES: Comments by: December 15, 1980.

Comments and other relevant information received after this date will be considered by the Board only to the extent practicable.

Requests to be put on the Service List by: October 24, 1980.

The Docket Section prepares the Service List and sends it to each person listed, who then serves his comments on others on the list.

ADDRESSES: Twenty copies of comments should be sent to Docket 38815, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428. Individuals may submit their views as consumers without filing multiple copies. Copies may be examined in Room 711, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. as soon as they are received.

FOR FURTHER INFORMATION CONTACT: Patti Szrom, Bureau of Domestic Aviation, Special Authorities Division, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428; 202-763-5088; or David Schaffer, Office of the General Counsel, Rules & Legislation Division; 202-673-5442.

SUPPLEMENTARY INFORMATION: The Civil Aeronautics Board, under the provisions of 14 CFR Part 298, requires all air taxi operators, including commuter air carriers, to register with the Board before commencing operations and to maintain a minimum level of insurance coverage on those operations. These carriers are further required to re-register every 2 years on a prescribed re-registration date. The next re-registration date is July 1, 1981.

The purpose of the initial registration requirement has been to provide us with information on air taxis operating either scheduled or on-demand service. We use our list of air taxis to administer our traffic and statistical reporting requirements for commuters in § 298.61, and for the survey of other air taxis that we make for the National Transportation Safety Board. The registration requirement has also been used to check compliance with our insurance requirements for air taxi operators.

We have used biennial re-registration as a way of keeping current the list of air taxis. It helps us learn of any changes that have taken place in the carriers' operations since the previous registration and of any changes in the insurance information on file. As explained below, however, this information can be obtained from other sources, and we have therefore concluded that biennial re-registration is no longer necessary.

The information needed to update our records and ensure their accuracy is obtainable under existing Board rules. Section 298.23 requires air taxis to notify the Board of changes in their operations. These include changes in their name, address, type of operations they

perform, type of aircraft they use, and any temporary or permanent cessation of operations.

Section 298.41(d) requires air taxis to notify the Board of any changes in their insurance coverage, including the addition or elimination of aircraft covered by the policy. In addition, under § 298.45, an air taxi's insurance policy must include a provision that it cannot be canceled or expire by its own terms unless the Board has received written notice in advance of the termination. If an insurance policy is terminated and no replacement is submitted, it is our standard practice to contact that carrier to determine whether it has ceased operations or has neglected to forward appropriate insurance evidence to us. The Board coordinates these efforts with the Federal Aviation Administration, which supplies up-to-date information on air taxi operations. The Board notifies the FAA of a carrier's failure to maintain proper insurance coverage or comply with other provisions of Part 298. Thus, under our current rules and through our communications with FAA, we are able to keep track of changes in air taxis' operations and insurance coverage. While the re-registration procedures provide us with a further source for this information, it is no longer a necessary one.

Since the re-registration requirement does not appear to be needed and may impose a burden on air taxis, we are proposing to eliminate it. This would be accomplished by deleting several references to re-registration in Part 298. If adopted, air taxis would still have to register with the Board, maintain insurance by its own terms, however, the registration would remain in effect until it was amended by that carrier or canceled by the Board. Amendments would be made by re-filing Form 298-A as at present. No registration fee would be required for amendments. A cancellation may occur if the operator ceased operations, if its insurance coverage changed or lapsed, if it failed to amend its registration as required, if its safety authorization were revoked by the FAA, or, in the case of a commuter air carrier, if it were found unfit for scheduled passenger operations. If its registration were canceled, the operator would have to file a new registration with a filing fee before restarting or continuing operations. A commuter that was found unfit would have to indicate on the new registration that it was limiting itself to providing on-demand or cargo service.

Accordingly, the Board proposes to amend 14 CFR Part 298, *Classification*

and Exemption of Air Taxi Operators, as follows:

1. A new § 298.24 would be added to the table of contents, to read:

Sec.

298.24 Cancellation of the registration.

2. Section 298.3(a)(3) would be amended to eliminate the reference to re-registration so that it would read:

§ 298.3 Classification.

(a) * * *

(3) Have registered with the Board in accordance with Subpart C of this part;

3. In § 298.21, paragraphs (b), (c), (c)(1), (c)(1)(v), (c)(1)(vii) and (c)(3) would be amended to read:

§ 298.21 Filing for registration by air taxi operators.

(b) The registration of an air taxi operator shall remain in effect until it is amended by the carrier or canceled by the Board.

(c) Registration shall be accomplished by a filing with the Board's Bureau of Domestic Aviation, except for air taxi operators with a mailing address in the State of Alaska who shall file with the Board's Field Office, Anchorage, Alaska, 99501, the following:

(1) CAB Form 298-A, "Air Taxi Operator and Commuter Air Carrier Registration and Amendments Under Part 298 of the Economic Regulations of the Civil Aeronautics Board" executed in duplicate.⁶ This form shall be certified by a responsible official and shall include the following information:

(i) * * *

(ii) * * *

(iii) * * *

(iv) * * *

(v) A list of the aircraft that the carrier proposes to operate, or, in the case of an amendment to the registration, the aircraft that it is currently operating in its air taxi operations, and the aircraft type, FAA registration number and passenger capacity of each aircraft:

(vi) * * *

(vii) For amendments, whether the carrier has carried passengers in foreign air transportation during the previous 12 months;

(2) * * *

(3) A 15 dollar registration fee in the form of a check, draft, or postal money order payable to the Civil Aeronautics Board.

4. Section 298.22 would be amended to read:

§ 298.22 Processing by the board.

After examination of the Form 298-A submitted by the carrier, the Board will stamp the effective date of the registration on the form and return the duplicate copy to the carrier to confirm that it has registered with the Board as required by this part. The effective date of the registration shall not be earlier than the effective date of the insurance policy or policies named in the certificate of insurance filed by the carrier under § 298.21(c)(2).

5. Section 298.23 would be amended to read:

§ 298.23 Notifications to the Board of change in operations.

(a) An air taxi operator shall submit an amendment to its registration not later than 30 days after any of the following events:

- (1) A change in its name or address;
- (2) A change in its type of operations (passenger, cargo, mail, scheduled, etc.);
- (3) A temporary or permanent cessation of its operations; or
- (4) A change in the type of aircraft operated.

(b) An amendment shall be made by resubmitting CAB Form 298-A to the Board's Bureau of Domestic Aviation. If the air taxi operator has a mailing address in the State of Alaska, the form shall be mailed to the Board's Field Office, Anchorage, Alaska 99501.

6. A new § 298.24 would be added, to read:

§ 298.24 Cancellation of the registration.

The registration of an air taxi operator may be canceled by the Board if any of the following occur:

- (a) The operator notifies the Board that it is ceasing operations;
- (b) The operator's insurance coverage changes or lapses;
- (c) The operator fails to file an amended registration when required by § 298.23;
- (d) The operator's operating authorization is revoked by the Federal Aviation Administration;
- (e) In the case of a commuter air carrier, the Board finds that the carrier is not fit, willing, and able to conduct scheduled service.

7. Section 298.31 would be amended by removing the reference to re-registration so that it reads:

§ 298.31 Scope of service and equipment authorized.

Nothing in this part shall be construed as authorizing the operation of large aircraft in air transportation, and the exemption provided by this part to air taxi operators that register with the Board extends only to the direct

operation in air transportation in accordance with the limitations and conditions of this part of aircraft designed to have a maximum passenger capacity of 60 seats or less or a maximum payload capacity of 18,000 pounds or less.

(Secs. 204, 407, and 416 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 766, 771; (49 U.S.C. 1324, 1377, 1386))

By the Civil Aeronautics Board.

Phyllis T. Kaylor,

Secretary.

BILLING CODE 6320-01-M

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

15 CFR Part 400

Advance Notice of Proposed Rulemaking; Review of Regulations Concerning Special Subzones and Operations Detrimental to the Public Interest

AGENCY: International Trade Administration, DOC.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: The Foreign-Trade Zones Staff is soliciting suggestions for amendments to the regulations of the Foreign-Trade Zones Board.

DATE: Comments must be postmarked on or before December 15, 1980.

ADDRESS: Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 2006, Washington, D.C. 20230.

FOR FURTHER INFORMATION CONTACT: John J. Da Ponte, Jr., Executive Secretary, (202) 377-2862.

SUPPLEMENTARY INFORMATION: The Foreign-Trade Zones Staff, Import Administration, U.S. Department of Commerce is currently soliciting public suggestions for amendments to the regulations of the Foreign-Trade Zones Board (15 CFR Part 400).

Among the sections being reviewed are § 400.304, concerning special-purpose subzones, and § 400.807, concerning operations detrimental to the public interest. Both substantive and procedural changes will be considered with emphasis on providing improved guidance to the public on the criteria used by the Board in its decisions and the procedures followed under these sections.

Interested parties are invited to submit comments on these two sections, as well as any other provisions of the regulations they feel should be revised.

Comments should be addressed to the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 2006, Washington, D.C. They should be postmarked no later than December 15, 1980.

Dated: October 8, 1980.

B. Waring Partridge,

Deputy to the Deputy Assistant Secretary for Import Administration, Chairman, Committee of Alternates, Foreign-Trade Zones Board.

BILLING CODE 3510-25-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

24 CFR Parts 144, 146, 204, 242, 570, 803, 882, and 888

[Docket No. R-80-881]

Housing and Community Development; Age Discrimination; Mortgage Insurance and Housing Assistance Payment Programs; Congressional Waiver Request

AGENCY: Department of Housing and Urban Development.

ACTION: Notice of Congressional waiver request.

SUMMARY: Section 7(o)(4) of the Department of Housing and Urban Development Act permits the Secretary of HUD to request a waiver of the legislation's requirement of a 15 day delay prior to publication of proposed rules in appropriate instances. This notice lists and briefly summarizes for public information seven proposed rules with respect to which the Secretary is presently requesting a waiver.

FOR FURTHER INFORMATION CONTACT: Burton Bloomberg, Director, Office of Regulations, Office of General Counsel, 451 7th Street, SW., Washington, D.C. 20410 (202) 755-6207.

SUPPLEMENTARY INFORMATION:

Currently with issuance of this Notice, the Secretary is forwarding to the Chairmen and Ranking Minority Members of both Congressional Banking Committees the proposed rules listed below. The purpose of the transmittal is to request waiver of the 15 day delayed publication date for proposed rules under Section 7(o)(2) of the Department of Housing and Urban Development Act. A summary of the rulemaking documents for which waiver has been requested is set forth below:

Proposed Rule—24 CFR Part 144—Would add new Part implementing Section 109 of the Housing and Community Development Act of 1974.

Proposed Rule—24 CFR Part 204—Would amend existing Part to expand HUD's Single Family Coinsurance Program to include non-occupant transactions, Section 234(c) condominium loans and Section 235 interest subsidy loans.

Proposed Rule—24 CFR Part 146—Would add a new Part implementing for HUD programs the Age Discrimination Act of 1975.

Proposed Rule—24 CFR Part 242—Would amend existing Part to permit insurance of mortgages in connection with debt refinancing transactions by hospitals.

Proposed Rule—24 CFR Part 882—Would amend existing Part to state who may issue notices to vacate in the Section 8 Existing Housing Assistance Payments Program.

Proposed Rule—24 CFR Part 570—Would amend existing Part to establish formula system for distributing Small Cities Program funds to eligible municipalities in Puerto Rico.

Proposed Rule—24 CFR Part 803 and 888—Would amend existing Parts to establish Fair Market Rent Schedules for the Sections 8 and 23 Housing Assistance Payments Programs for existing housing and for mobile home spaces to reflect anticipated median rent levels as of October 1, 1981.

(Sec. 7(o), Department of HUD Act, (42 U.S.C. 3535(o)); sec. 324, Housing and Community Development Amendments of 1978)

Issued at Washington, D.C., October 6, 1980.

Victor Marrero,

Under Secretary, Department of Housing and Urban Development.

[FR Doc. 80-31887 Filed 10-10-80; 8:45 am]

BILLING CODE 4210-01-M

24 CFR Part 891

[Docket No. R-80-880]

Review of Applications for Housing Assistance and Allocations of Housing Assistance Funds; Transmittal of Proposed Rule to Congress

AGENCY: Department of Housing and Urban Development.

ACTION: Notice of transmittal of proposed rule to Congress under Section 7(o) of the Department of HUD Act.

SUMMARY: Recently enacted legislation authorizes Congress to review certain HUD rules for fifteen (15) calendar days of continuous session of Congress prior to each such rule's publication in the *Federal Register*. This Notice lists and summarizes for public information a proposed rule which the Secretary is submitting to Congress for such review.

This proposed rule would amend the procedure for the allocation of housing assistance funds. Also, it would implement a recent statutory amendment requiring that amounts which are allocated to a State or to areas within a State not be reallocated outside of the State unless HUD determines that they cannot be used within the original State.

FOR FURTHER INFORMATION CONTACT: Burton Bloomberg, Director, Office of Regulations, Office of General Counsel, 451 7th Street, S.W., Washington, D.C. 20410 (202) 755-6207.

SUPPLEMENTARY INFORMATION:

Concurrently with issuance of this Notice, the Secretary is forwarding to the Chairmen and Ranking Minority Members of both the Senate Banking, Housing and Urban Affairs Committee and the House Banking, Finance and Urban Affairs Committee the following rulemaking document:

24 CFR Part 891—Review of Applications for Housing Assistance and Allocations of Housing Assistance Funds

(Sec. 7(o) of the Department of HUD Act, 42 U.S.C. 3535(o), Section 324 of the Housing and Community Development Amendments of 1978)

Issued at Washington, D.C., October 2, 1980.

Moon Landrieu,

Secretary, Department of Housing and Urban Development.

BILLING CODE 4210-01-M

SELECTIVE SERVICE SYSTEM

32 CFR Ch. XVI

Improving Government Regulations; Semiannual Agenda

AGENCY: Selective Service System.

ACTION: Semiannual agenda.

SUMMARY: The purpose of this agenda is to report the proposed rulemaking activities of the Selective Service System that might affect the processing of registrants under the Military Selective Service Act (50 U.S.C. App. 451 *et seq.*) This information will allow the public to participate in the System's decisionmaking at an early stage.

FOR FURTHER INFORMATION CONTACT: Edward A. Frankle, Associate Director, Policy Development Directorate, Selective Service System, Washington, D.C. 20435. Telephone (202) 724-0817.

SUPPLEMENTARY INFORMATION: This agenda is published in accord with the requirements of E.O. 12044. Selective

Service Regulations appear in 32 CFR Chapter XVI.

Subjects of Proposed Rulemaking

Consideration will be given to a comprehensive revision of Selective Service Regulations that deal with the processing of registrants under the Military Selective Service Act (50 U.S.C. App. 451 *et seq.*) Regulations for the administration by the System of the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act of 1974 (5 U.S.C. 552a) may also be revised.

Bernard Rostker,

Director of Selective Service.

October 8, 1980.

BILLING CODE 8015-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-5-FRL 1632-4]

Approval and Promulgation of Indiana State Implementation Plan; Carbon Monoxide and Ozone

AGENCY: U.S. Environmental Protection Agency (USEPA).

ACTION: Supplemental notice of proposed rulemaking.

SUMMARY: On June 26, 1979, the State of Indiana submitted to USEPA, pursuant to Part D of the Clean Air Act as amended in 1977, a plan for the implementation of a vehicle emission control inspection and maintenance (I/M) program in the Indiana portion of the Chicago metropolitan area (Lake and Porter Counties) and in the Indiana portion of the Louisville, Kentucky metropolitan area (Clark and Floyd Counties). USEPA proposed rulemaking on the State's submittal in the March 27, 1980 *Federal Register* (45 FR 20432). The State of Indiana made subsequent State Implementation Plan (SIP) submittals further describing its plan for I/M program on April 7, 1980, June 12, 1980, and August 27, 1980. The purpose of this notice is to announce receipt of these submittals, to discuss the results of USEPA's review; and to repropose rulemaking.

DATE: Comments on this revision and USEPA's proposed action must be received by USEPA not later than November 13, 1980.

ADDRESSES: Copies of these revisions to the SIP are available for inspection at the following addresses:

U.S. Environmental Protection Agency, Air Programs Branch Region V, 230

South Dearborn Street, Chicago, Illinois 60604

U.S. Environmental Protection Agency, Public Information Reference Unit, 401 M Street, S.W., Washington, D.C. 20460
Indiana State Board of Health, Air Pollution Control Division, 1330 West Michigan, Indianapolis, Indiana 46206

WRITTEN COMMENTS SHOULD BE SENT TO:

Gary Gulezian, Chief, Regulatory Analysis Section, Air Programs Branch Region V, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT:

Gerald S. Kellman, Air Planning Section, Air Programs Branch Region V, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604. (312) 886-6070.

SUPPLEMENTARY INFORMATION:

General Introduction

On March 3, 1978 (43 FR 8962; 40 CFR 81.350), pursuant to the requirements of section 107 of the Clean Air Act (Act) as amended, USEPA designated certain areas in each State as not meeting the National Ambient Air Quality Standards (NAAQS) for carbon monoxide and ozone. Part D of the Act, which was added by the 1977 Amendments, requires each State to revise its State Implementation Plan (SIP) to meet specific requirements for areas designated as nonattainment. These SIP revisions must demonstrate attainment of the primary standards as expeditiously as practicable, but not later than December 31, 1982. Under certain circumstances that date may be extended to no later than December 31, 1987 for ozone or carbon monoxide.

The requirements for an approvable SIP are described in a *Federal Register* notice published on April 4, 1979 (44 FR 20372). Supplements to the April 4, 1979, notice were published on July 2, 1979 (44 FR 38583), August 28, 1979 (44 FR 50371), September 17, 1979 (44 FR 53761) and November 23, 1979 (44 FR 67182).

Pursuant to Part D of the Act, the State of Indiana submitted to USEPA a proposed revision of its SIP on June 26, 1979. Among other things this submission provides for the establishment of an I/M program in certain areas of Indiana that have not attained the National Ambient Air Quality Standards for ozone (O₃) and carbon monoxide (CO). USEPA proposed rulemaking on this submittal on March 27, 1980 (45 FR 20432). Additional submittals relating to the State's I/M program were submitted to USEPA on April 7, 1980, June 12, 1980, and August 27, 1980.

USEPA has completed its review of the new Indiana I/M submissions and

today is repropose rulemaking on the I/M program. USEPA solicits public comments on the provisions of the I/M program as well as on USEPA's proposed rulemaking. In the discussion below, USEPA specifies portions of the proposed revisions to the Indiana SIP which considers approvable or conditionally approvable. For minor deficiencies, USEPA proposes to approve the SIP on the condition that the State provides strong assurances that the deficiencies will be corrected by specified dates. The July 2, 1979 (44 FR 38583) and November 23, 1979 (44 FR 38583) *Federal Register* Notices discuss conditional approvals in more detail.

A thirty day comment period is being provided to enable publication of final action on this submission as expeditiously as possible. Final action approving this revision would satisfy one of the requirements of a Part D SIP. Until the State has an approved Part D SIP, it is subject to the new source growth prohibitions of section 110(a)(2)(I) of the Clean Air Act. Furthermore, USEPA believes that the thirty days provide the public with ample time to review and comment on today's proposed rulemaking.

To assist the public in preparing comments on the proposed SIP revision, USEPA includes the following summary of the principle requirements for a motor vehicle inspection and maintenance program.

Vehicle Inspection and Maintenance

"Inspection/Maintenance" (I/M) refers to a program to require motor vehicles to be given periodic inspections to check their exhaust emission control systems. Vehicles which have excessive emissions must then be given maintenance to correct the problem. Generally, I/M programs include passenger cars, although other classes of vehicles can be included as well. Operation on noncomplying vehicles is prohibited. This can be accomplished by requiring proof of compliance to purchase license plates or to register a vehicle. A windshield sticker system, much like that of many safety inspection programs can be used if it can be demonstrated that equal effectiveness can be achieved.

Section 172(b)(11) of the Act requires the establishment of a specific schedule for the establishment of a vehicle emission control inspection and maintenance (I/M) program when attainment of the primary standards for carbon monoxide (CO) or ozone (O₃) is not possible in an area prior to December 31, 1982, even if all other reasonable emission control measures are used.

USEPA issued guidance on February 24, 1978, on the general criteria for SIP approval including I/M, and on July 17, 1978, regarding the specific criteria for I/M SIP approval. Both of those items are part of the SIP guidance material referred to in the General Preamble for Proposed Rulemaking, 44 FR 23072, 23073, n.6. The July 17, 1978, guidance should be consulted for details. The requirements for approval of an I/M program are:

(1) *Legal Authority.* According to section 172(b)(10), states or local governments must have adopted the necessary statutes, regulations, ordinances, or other legally enforceable requirements to implement and enforce the I/M program. The legal authority must not be conditioned upon further legislative approval or any other substantial contingency. The legislation, however, can delegate certain decision making to an appropriate regulatory body. For example, a state department of environmental protection or department of transportation may be charged with implementing the program, selecting the type of test procedure to be used, and adopting all necessary rules and regulations.

(2) *Commitment to Implement.* Section 172(b)(10) of the Act also requires written evidence of a commitment by the appropriate governmental units to implement and enforce the appropriate elements of the program.

(3) *Identification and Commitment to Resources.* Section 172(b)(7) of the Act, requires that the state identify and commit the necessary finances and resources to carry out the I/M program.

(4) *Schedules for the Implementation of the Plan.* Section 172(b)(11)(B) requires a specific schedule for establishing an I/M program. The July 17, 1978, guidance memorandum established as USEPA policy the key milestones for the various types of I/M programs. These milestones were specified in accordance with the general requirements of 40 CFR 51.15(c) that increments of progress be incorporated in compliance schedules over one year in length.

(5) *Program Effectiveness.* In the July 17, 1978 I/M Policy Memorandum USEPA stated that each State must commit to achieve a reduction of at least 25 percent in light duty vehicle exhaust emissions by 1987. This reduction is measured by comparing the levels of emissions projected to December 31, 1987, with and without the I/M program. This policy is based on section 172(b)(2) which states that the plan provisions shall " * * * provide for the implementation of all reasonably

available control measures as expeditiously as practicable."

At the time of the passage of the Clean Air Act Amendments of 1977, several I/M programs including mandatory programs in New Jersey and Arizona, were already operating at about 20 percent stringency. (The stringency of a program is defined as the initial proportion of vehicles which would have failed the program's standards if the affected fleet has not undergone I/M before. In other words, it is the expected failure rate. Because some motorists tune their vehicles before I/M tests, the actual proportion of vehicles failing is usually a smaller number than the stringency of the program.) Depending on program type (private garage or centralized inspection), a mandatory I/M program may be begun as late as as December 31, 1982, and the attainment date may be as late as December 31, 1987. Based on an implementation date of December 31, 1982, and a 20 percent stringency factor, USEPA predicts that the reductions of both CO and HC exhaust emissions of 25 percent can be achieved by December 31, 1987. Earlier implementation of I/M will produce greater emission reductions. Thus, because of the Act's requirement for the implementation of all reasonably available control measures and because New Jersey and Arizona have effectively demonstrated practical operation of I/M programs with 20 percent stringency factors, it is USEPA policy to use a projected 25 percent emission reduction as the criterion to determine compliance of the I/M portion with section 172(b)(2).

Synopsis of Actions

The State of Indiana has demonstrated that attainment of the National Ambient Air Quality Standards (NAAQS) for carbon monoxide and ozone in the Indiana portion of the Chicago metropolitan area (Lake and Porter Counties) and the Indiana portion of the Louisville metropolitan area (Clark and Floyd Counties) is not possible by December 31, 1982, despite implementation of all other reasonable emission control measures. Therefore, the State has requested an extension until December 31, 1987 for these areas. According to the requirements of section 172(b)(11) of the Act, a schedule for implementation of an I/M program is required before such an extension can be granted. In a letter dated June 26, 1979, transmitting the State's SIP submission, the Governor of Indiana requested an extension of the statutory deadline and submitted the State's

proposal for an I/M program in these areas.

The June 26, 1979 submittal was discussed in the March 27, 1980 *Federal Register* (45 FR 20432). At that time, USEPA noted deficiencies in the Indiana plan, and noted that it could not approve the proposed implementation plan until these deficiencies were corrected.

On April 7, 1980, the State responded to USEPA's questions in the March 27, 1980 *Federal Register* concerning Indiana's legal authority to fully implement and enforce the I/M program by submitting an opinion of the Attorney General of Indiana. On June 12, 1980, the State submitted a description of some of the enforcement procedures which would be used in an I/M program. On August 27, 1980, the State made an additional submittal, also in response to USEPA's proposed rulemaking.

The purpose of this notice is to discuss USEPA's review of these submittals, and to repropose rulemaking on the I/M section of the nonattainment plan for Indiana.

Review and Evaluation of Indiana's I/M Program

1. *Legal Authority.* In the June 26, 1979 letter transmitting its previous submittal to USEPA, the Governor of Indiana stated that the program would be implemented under the authority of Chapter 171 of the Indiana Air Pollution Control Law. In the March 2, 1980 *Federal Register*, USEPA noted that it was not clear whether the statutory language, especially section 4b(b) of the Indiana Air Pollution Control Law, is sufficient to enable Indiana to implement and enforce the kind of I/M Program contemplated under the Clean Air Act. USEPA also stated that it was aware that the opinion of the Attorney General of Indiana had been requested on various questions related to the implementation of the I/M program. Consequently, USEPA did not propose approval of Indiana's legal authority to implement and enforce the I/M program.

The State's April 7, 1980 submittal contained the opinion of the Attorney General which concluded that the State has authority pursuant to Indiana Code Articles 13-1 (Air Pollution Control Act) or 13-7 (Environmental Management Act) to promulgate administrative rules and regulations concerning vehicle emission control standards, the violation of which would be enforceable by authorized law enforcement officers through penalties already established by statute. In addition, the opinion concluded that the State has authority to award a contract to a private firm to provide vehicle inspection for emission control.

The State discussed the application of the authority cited in the Attorney General's opinion in its June 12, 1980 description of enforcement procedures.

The Indiana Air Pollution Control Board states its intention to issue a general order requiring citizens of Lake, Porter, Floyd and Clark Counties to comply with the requirements set forth in a proposed regulation which has not yet been submitted for review. Violation of this general order would be treated as a Class C Infraction. The description further states that a person committing a Class C Infraction will be issued a citation by the local law enforcement officers and that violators would be required to appear before the appropriate court. USEPA's review of the submittals determined that the State has legal authority to implement and enforce an I/M program.

2. Commitment to Implement and Enforce. Section 172(b)(10) of the Act requires that the appropriate governmental body must be committed to implement and enforce the I/M program. On June 26, 1979, the Governor of Indiana wrote to USEPA and committed the State to implement an I/M program. Consequently, USEPA recognizes the State's commitment to implement the I/M program. However, to finally determine whether the enforcement procedures to be developed by the State can provide for a practical and effective I/M program, USEPA needs further clarification of the enforcement procedures and a commitment that these procedures will be carried out.

Therefore, USEPA proposes to approve the State of Indiana's commitment to enforce the I/M program with the following two conditions. First, by December 31, 1980, the State must submit a further detailed description of the exact procedures involved in enforcing an I/M program as part of the SIP.

The State submittal must address the following questions:

How will local law enforcement officers identify non-complying vehicles and prevent these vehicles from operating on the public roads?

What penalties will be imposed for non-compliance and who has the authority to impose these penalties?

What schedule and procedures will be used in issuing the general order which the State has informed USEPA it will issue to require compliance by vehicle owners in the affected areas? Items such as method of notification, public hearings and the opportunity for public comment should be included.

Second, by June 30, 1981, the State must submit, as a revision to the SIP, the

general order it has issued to vehicle owners in affected areas and the commitments by responsible enforcement officials to ensure compliance with the general order. The State must commit itself to satisfy these conditions by the specified dates during the period of public comment on this notice.

3. Identification and Commitment of Resources. Section 172(b)(7) of the Act requires the identification and commitment of the necessary finances and resources to carry out the I/M program. The State's submittal of August 27, 1980, contains a discussion of funding and staffing requirements for I/M implementation. In the same submittal, the State indicates it has preliminarily adopted regulations which will allow a contractor to charge an inspection fee sufficient to make the I/M program self-supporting. Based on a review of these submittals, USEPA proposes to approve the State's I/M resource commitment.

4. Schedule for the Implementation of the Plan. In the March 27, 1980 Federal Register (45 FR 20432), USEPA noted that pursuant to section 172(b)(11) of the Act, an I/M program must contain a legally enforceable schedule for the implementation of the plan and a commitment to the schedule by the State. USEPA further noted that the duties in the schedule must include the milestones listed in the July 17, 1978 memorandum by David G. Hawkins, Assistant Administrator for Air, Noise and Radiation.

As part of the August 27, 1980 submittal, the State submitted a preliminarily adopted revised implementation schedule. This revised implementation schedule establishes key milestones which meet criteria established in USEPA's July 17, 1978 memorandum, and demonstrates that the program will be implemented by January 1, 1983. The schedule does not specifically address the milestones for initiation of a public information program, for the adoption of procedures and guidelines for testing and quality control, and for the adoption of cutpoints, all of which are listed in USEPA's July 17, 1978 memorandum. However, it is EPA's understanding that these milestones are addressed through other milestones in the schedule, particularly the milestone to issue a Request for Proposal and to adopt Rules and Regulations for the program. Therefore, USEPA proposes to approve the State's I/M implementation schedule on the condition that the schedule is finally adopted and submitted to USEPA prior to final rulemaking.

5. Program Effectiveness. The March 27, 1980 Federal Register (45 FR 20432) states that an approvable I/M program must demonstrate, pursuant to the July 17, 1978 memorandum by Assistant Administrator David Hawkins, that the program will reduce light duty vehicle exhaust emissions in 1987 by 25 percent as compared to the level of these emissions without the I/M program.

In the June 26, 1979 and August 27, 1980 submittals, the State projects that by December 31, 1987, the I/M program will achieve a 28% hydrocarbon reduction and a 39% carbon monoxide reduction in Lake and Porter Counties, and a 26% hydrocarbon reduction and 38% carbon monoxide reduction in Clark and Floyd Counties. These projections were based on the program being fully operational by January, 1982.

The State's revised I/M implementation schedule shows that implementation of the program will occur on January 1, 1983. Because of this change in the program implementation date, the State must demonstrate or commit itself to a 25% reduction in hydrocarbon and carbon monoxide emissions by 1987, based on this new implementation date. USEPA proposes to approve Indiana's demonstration or commitment to obtain the necessary emissions reduction if, prior to final rulemaking, the State submits this demonstration or commitment.

Interested persons are invited to comment on these revisions to the Indiana SIP and on USEPA's proposed actions. Comments should be submitted to the address listed in the front of this Notice. All comments received will be available for inspection at the Region V Office, Air Programs Branch, 230 South Dearborn Street, Chicago, Illinois 60604.

Under Executive Order 12044 (43 FR 12681), EPA is required to judge whether a regulation is "significant" and, therefore, subject to certain procedural requirements of the Order or whether it may follow other specialized development procedures. EPA labels these other regulations "specialized." I have reviewed this proposed regulation pursuant to the guidance in EPA's response to Executive Order 12044, "Improving Environmental Regulations," signed March 29, 1979 by the Administrator, and I have determined that it is a specialized regulation not subject to the procedural requirements of Executive Order 12044.

This Notice of Proposed rulemaking is issued under the authority of Sections 110, 172, and 301(a) of the Clean Air Act as amended.

Dated: October 6, 1980.

John McGuire,
Regional Administrator.

BILLING CODE 6560-26-M

40 CFR Part 52

[A-10-FRL 1632-6]

State of Oregon; Implementation Plan

AGENCY: Environmental Protection Agency [EPA].

ACTION: Proposed rulemaking.

SUMMARY: In response to a condition for approval of changes to the State Implementation Plan, the State of Oregon Department of Environmental Quality submitted operating rules for their inspection and maintenance program (I/M). The purpose of this Notice is to invite public comment on EPA's proposed approval of said revision.

DATE: Comments will be accepted up to November 13, 1980.

ADDRESSES: The Oregon submittal may be examined during normal business hours at the following locations:

Central Docket Section, [10A-79-2],
West Tower Lobby, Gallery I,
Environmental Protection Agency,
Waterside Mall, 401 M Street, SW.,
Washington, DC 20460.

Air Programs Branch, Environmental
Protection Agency, Region 10, 1200
Sixth Avenue, Seattle, Washington
98101.

State of Oregon, Department of
Environmental Quality, 522 SW Fifth
Avenue, Yeon Building, Fourth Floor,
Portland, Oregon 97207.

Comments should be addressed to:
Laurie M. Kral, Air Programs Branch,
Region 10, Environmental Protection
Agency, 1200 Sixth Avenue M/S 629,
Seattle, Washington 98101.

FOR FURTHER INFORMATION CONTACT:
Michael Gearheard, Air Programs
Branch, Region 10, Environmental
Protection Agency, 1200 Sixth Avenue
M/S 625, Seattle, Washington 98101.
Telephone No: (206)442-1226; FTS: 399-
1226.

SUPPLEMENTARY INFORMATION: On June 24, 1980 EPA published in the *Federal Register* [45 FR 42265] final rulemaking on Part D revisions to the Oregon State Implementation Plan (SIP). As part of that action, EPA approved the ongoing Portland inspection and maintenance (I/M) program on the condition that the State of Oregon Department of Environmental Quality (DEQ) submit adequate operating regulations for this program by July 15, 1980. DEQ

responded on July 26, 1980 by submitting (1) copies of those sections of the Oregon Administration Rules, Chapter 340, that apply to their I/M program and (2) documentation that the rules were adopted in accordance with the requirements of 40 CFR 51.4.

Since DEQ's July 26, 1980 submittal fully satisfies the above mentioned approval condition, EPA proposes to approve the portion of the revised Oregon SIP pertaining to the Portland I/M program (OAR 340-24-300 through 340-24-350).

The purpose of this Notice is to call the public's attention to the fact that these rules have been formally submitted to EPA and are available for public inspection at the locations noted above. The public is encouraged to submit written comments regarding the proposed rules and thus participate in this rulemaking activity.

(Sec. 110(a) and 172 of the Clean Air Act (42 U.S.C. 7410(a) and 7502))

Dated: September 30, 1980.

Donald Dubois,
Regional Administrator.

BILLING CODE 6560-26-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 10

[Docket No. FEMA-GEN-10]

Environmental Considerations

AGENCY: Federal Emergency
Management Agency.

ACTION: Proposed rule.

SUMMARY: Pursuant to 44 CFR 10.8(d), the Federal Emergency Management Agency (FEMA) proposes to categorically exclude the actions listed below from application of 44 CFR Part 10 of FEMA's regulations. That part implements the National Environmental Policy Act of 1969 and the regulations of the Council on Environmental Quality (40 CFR Parts 1500-1508).

DATES: Comments are due by December 15, 1980.

ADDRESS: Send comments to Rules
Docket Clerk, Office of the General
Counsel, Federal Emergency
Management Agency, Room 802, 1725
Eye St., N.W., Washington, DC 20472.

FOR FURTHER INFORMATION CONTACT:
John Scheibel, Assistant to the General
Counsel for Environmental Quality and
Hazard Mitigation, 1725 Eye St., N.W.,
Washington, DC 20472, telephone (202)
634-1990.

SUPPLEMENTARY INFORMATION: FEMA has determined that the actions listed below have no significant impact on the quality of the human environment and should be categorically excluded from the preparation of environmental impact statements and environmental assessments. Housing in existing resources and minimal home repairs are both performed under section 404 of the Disaster Relief Act of 1974 (Pub. L. 93-288), as amended, as assistance for temporary housing. By definition, housing in existing resources requires no new structures or infrastructure. Minimal home repairs average about \$600 per structure and are intended only to make a damaged residence habitable. Neither action, individually or collectively, has the potential to have a significant impact on the quality of the human environment. The same can also be said for crisis counseling assistance and training performed under section 413 of the Disaster Relief Act of 1974, and administrative actions in support of maintaining normal day to day actions.

Therefore, after consultation with the Council on Environmental Quality, FEMA proposes to add the actions enumerated below to its list of categorical exclusions at 44 CFR 10.8(c).

In § 10.8(c)(2), subparagraphs (K) through (M) are added to paragraph (vii), and (viii) is added as follows:

§ 10.8 Determination of Requirement for Environmental Review.

- * * * * *
- (c) *Categorical Exclusions.* * * *
- (vii) * * *
- (K) Housing in existing resources (sec. 404);
- (L) Minimal home repairs (sec. 404); and
- (M) Crisis counseling assistance and training (sec. 413).
- (viii) Administrative actions such as personnel actions, travel, procurement of supplies, etc., in support of maintaining normal day to day actions.
- * * * * *

Dated: October 1, 1980.

John W. Macy, Jr.,

Director.

[FR Doc. 80-31852 Filed 10-10-80; 8:45 am]

BILLING CODE 6718-01-M

44 CFR Part 67

[Docket No. FEMA-5924]

National Flood Insurance Program; Proposed Flood Elevation Determinations

AGENCY: Federal Insurance
Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the nation. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: See table below.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, National Flood Insurance Program, (202) 426-1460 or Toll Free Line (800) 424-8872 (in Alaska and Hawaii call Toll Free Line (800) 424-9080), Federal Emergency Management Agency, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for selected locations in the nation, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 44 CFR 67.4 (a).

These elevations, together with the

flood plain management measures required by Section 60.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or Regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Proposed Base (100-Year) Flood Elevations

State	City/town/county	Source of Flooding	Location	#Depth in feet above ground. *Elevation in feet (NGVD)
Ohio	(V), Germantown, Montgomery County.	Twin Creek	About 850 feet downstream of State Route 4	*707
			Just downstream of Astoria Road	*720
		Little Twin Creek	Just downstream of State Route 725	*724
			At downstream corporate limits	*711
			About 300 feet upstream of Market Street	*716
			About 800 feet upstream of Cherry Street	*726
Maps available for inspection at the Village Hall, Walnut and Center Streets, Germantown, Ohio.				
Send comments to Honorable Douglas Fenske, Village Administrator, Village of Germantown, Village Hall, Walnut and Center Streets, Germantown, Ohio 45327.				
Oklahoma	City of Sand Springs, Tulsa and Osage Counties.	Arkansas River	Just downstream of State Highway 97	*648

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: September 24, 1980.

Gloria M. Jimenez,
Federal Insurance Administrator.

[FR Doc. 80-31855 Filed 10-10-80; 8:45 am]

BILLING CODE 6718-03-M

44 CFR Part 67

[Docket No. FEMA-5843]

**National Flood Insurance Program;
Revision of Proposed Flood Elevation
Determinations****AGENCY:** Federal Insurance
Administration, FEMA.**ACTION:** Proposed rule.**SUMMARY:** Technical information or
comments are solicited on the proposed
base (100-year) flood elevations listed
below for selected locations in the
Unincorporated Areas of Lake County,
Indiana.Due to recent engineering analysis,
this proposed rule revises the proposed
determinations of base (100-year) flood
elevations published in the *Hammond
Times* on June 5, 1980 and June 12, 1980,and at 45 FR 42698 on June 25, 1980, and
hence supersedes those previously
published rules.**DATES:** The period for comment will be
ninety (90) days following the second
publication of this notice in a newspaper
of local circulation in the above named
community.**ADDRESSES:** See table below:**FOR FURTHER INFORMATION CONTACT:**
Mr. Robert G. Chappell, National Flood
Insurance Program, (202) 426-1460 or
Toll Free Line, (800) 424-9080, Federal
Emergency Management Agency,
Washington, D.C. 20472.**SUPPLEMENTARY INFORMATION:** Proposed
base (100-year) flood elevations are
listed below for selected locations in the
Unincorporated Areas of Lake County,
Indiana, in accordance with section 110
of the Flood Disaster Protection Act of1973 (Pub. L. 93-234), 87 Stat. 980, which
added section 1363 to the National Flood
Insurance Act of 1968 (Title XIII of the
Housing and Urban Development Act of
1968 (Pub. L. 90-448), 42 U.S.C. 4001-
4128, and 44 CFR 67.4 (a)).These base (100-year) flood
elevations are the basis for the flood
plain management measures that the
community is required to either adopt or
show evidence of being already in effect
in order to qualify or remain qualified
for participation in the National Flood
Insurance Program (NFIP).These modified elevations will also be
used to calculate the appropriate flood
insurance premium rates for new
buildings and their contents and for the
second layer of insurance on existing
buildings and their contents.The proposed base (100-year) flood
elevations for selected locations are:**Proposed Base (100-Year) Flood Elevations**

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: September 24, 1980.

Gloria M. Jimenez,
Federal Insurance Administrator.

[FR Doc. 80-31854 Filed 10-10-80; 8:45 am]

BILLING CODE 6718-03-M

44 CFR Part 67

[Docket No. FEMA 5920]

National Flood Insurance Program; Proposed Flood Elevation Determinations; Alabama, et al.

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the nation. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: See table below.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, National Flood Insurance Program, (202) 426-1460 or Toll Free Line (800) 424-8872 (in Alaska and Hawaii call Toll Free Line (800) 424-9080), Federal Emergency Management Agency, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for selected locations in the nation, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the

Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 44 CFR Part 67.4(a).

These elevations, together with the flood plain management measures required by § 60.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State or Regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Proposed Base (100-Year) Flood Elevations

State	City/town/county	Source of flooding	Location	# Depth in feet above ground. *Elevation in feet (NGVD)
Alabama	Unincorporated Areas of Lawrence County.	Big Nanie Creek	Just upstream of Alabama State Highway 20	*561
		Muddy Fork	Just downstream of County Highway 28 (Harmony Road)	*569
			Just upstream County Road bridge	*597
		Crow Branch	Confluence of Muddy Fork, Crow Branch and Lateral 8	*612
		Lateral 8	Just upstream of County Highway 21 (Old Florence Road)	*616
		Just upstream of Private Road	*617

BILING CODE 6718-03-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

46 CFR Part 150

[CGD 79-95]

Shipment of Bulk Liquid Hazardous Waste Cargoes by Water

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: The Coast Guard is proposing rules for vessel operators who transport bulk hazardous waste. Under these rules, operators of vessels transporting cargoes of liquid hazardous wastes (vessel transporters) would be required to have EPA ID numbers, to carry documentation (hazardous waste manifests) for the hazardous waste cargoes, to report cargo spills, and to keep copies of the hazardous waste manifests for three years after the initial date of shipment. Placing such requirements in Title 46 of the Code of Federal Regulations would be more convenient for vessel transporters than the alternative of placing them only in Title 40. Compliance might also be better. The cost of compliance would be no different from that incurred under existing requirements in Title 40.

DATES: Comments must be received on or before November 28, 1980.

ADDRESS: Comments should be submitted to Commandant (G-CMC/TP24), U.S. Coast Guard, Washington, D.C. 20593. Between the hours of 7 a.m. and 5 p.m., Monday through Thursday, comments may be delivered to and will be available for examination or copying at the Marine Safety Council (G-CMC/TP24), Room 2418, U.S. Coast Guard Headquarters, 2100 Second Street, S.W., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Robert M. Query, Office of Merchant Marine Safety (G-MHM/TP14), U.S. Coast Guard Headquarters, 2100 Second Street, S.W., Washington, D.C. 20593. (202 426-1217).

SUPPLEMENTARY INFORMATION: The public is invited to participate in this proposed rulemaking by submitting written views, data, or arguments. Each person submitting a comment should include the name and address, identify this notice (CGD 79-95) and the specific section of the proposal to which the comment applies, and give the reasons

for the comment. If an acknowledgment is desired, the person should enclose a stamped, addressed postcard. The proposal may be changed in view of the comments received. All comments received will be considered before final action is taken on this proposal. No public hearing is planned, but one will be held at a time and place to be set in a later notice in the Federal Register if requested in writing by an interested person raising a genuine issue.

This proposal has been reviewed under the Department of Transportation's "Regulatory Policies and Procedures" (44 FR 11034, February 26, 1979). A draft evaluation has been prepared and placed in the public docket.

Drafting Information

The principal persons involved in drafting this proposal are: Robert M. Query, Project Manager, Office of Merchant Marine Safety and Michael N. Mervin, Project Attorney, Office of the Chief Counsel.

Discussion of the Proposed Regulation

The Resource Conservation and Recovery Act of 1976 ("RCRA") requires, among other things, that the Environmental Protection Agency (EPA) establish a tracking system for the handling of hazardous waste. RCRA also requires EPA to coordinate hazardous waste shipping requirements with any that may be established by the Secretary of Transportation.

In establishing the tracking system, EPA requested that the Coast Guard issue rules governing the transportation of bulk hazardous waste cargo by water. Without such rules, the EPA would have a gap in the tracking system that would make the system ineffective. To prevent any gap, EPA issued shipping requirements in Title 40 of the Code of Federal Regulations (CFR) when it issued the other rules for hazardous wastes. However, the agency feels that operators of vessels transporting cargoes of hazardous wastes (vessel transporters) would find it convenient to have the shipping requirements located with other shipping regulations in Title 46. EPA has discussed the RCRA requirements in its proposals of April 28, 1978 (43 FR 18056) and in its final rules of February 26, 1980 (45 FR 12722) and May 19, 1980 (45 FR 33066). The Materials Transportation Bureau has published similar requirements for

shipments made under Title 49 (45 FR 34560).

The Coast Guard agrees with EPA's suggestion and proposes to add to Title 46 the following requirements for bulk shipments of liquid hazardous waste by vessel:

a. To ensure that the Coast Guard had reviewed the hazardous waste, evaluated it for any shipping hazards, and developed appropriate requirements for bulk water shipment, the hazardous waste would have to be listed in one of the tables of hazardous cargoes in 46 CFR Parts 30, 148, 151, 153, and 154, or the vessel transporter would be required to obtain specific shipping authorization from the Commandant of the Coast Guard. Either of these conditions would indicate that the Coast Guard had evaluated the cargo for shipping hazards.

b. The vessel transporter would be required to have an EPA ID Number as a transporter of hazardous waste. EPA has described procedures for obtaining an ID Number in the Federal Register of February 26, 1980 (45 FR 12746). The application form for obtaining an ID Number (EPA form 8700-12) is available from EPA regional offices.

c. The vessel transporter would be prohibited from accepting or delivering a hazardous waste unless he obtained signatures of the person from whom he accepted or to whom he delivered the cargo.

d. The vessel transporter would be required to either carry a hazardous waste manifest with the shipment or, when the shipment moves by water only, carry an alternate document (which need not contain the complete information required of the manifest) such as a bill of lading (see §§ 150.346 and 150.347). This provision is intended to simplify the manifest requirements by allowing the usual shipping papers to serve the function of the hazardous waste manifest when a bulk shipment moves by water only.

e. The hazardous waste manifest would show a principal consignee and, perhaps, an alternate consignee. The vessel transporter would be required to deliver the hazardous waste to the principal consignee (the alternate consignee in an emergency) or call the generator for further instructions if unable to make delivery to one of the two consignees.

f. The vessel transporter would be required to retain his copy of the

hazardous waste manifest (or the alternate document mentioned above) for at least 3 years from the date the initial transporter accepted the cargo.

g. The vessel transporter would be required to report any discharges (spills) of the hazardous waste. The discharges would be reported in the same manner as now prescribed for oil or hazardous substances in 33 CFR 153.203. Although 33 CFR 153.203 allows a person to report a discharge directly to Coast Guard or EPA field offices when telephone notification is impractical, the Coast Guard prefers the person use the toll-free number set up for this purpose and has listed the number in the footnote to proposed § 150.370.

The rule would be issued under the authority of the Port and Tanker Safety Act of 1978. To be issued under this authority, a "hazardous waste cargo" as defined in the proposal would be defined so as to be a "hazardous material" in the sense of the Act; that is, a cargo regulated under this subpart would not only have been determined to be a hazardous waste under the standards EPA is publishing in 40 CFR Part 261, but would also be—

a. A flammable or combustible liquid, or

b. A liquid or liquefied gas designated a hazardous material under Section 104 of the Hazardous Material Transportation Act (49 U.S.C. 1803). Liquid cargoes falling within either of the above two categories are subject to Section 5 of the Act (46 U.S.C. 391a). Liquid hazardous wastes moved in bulk by vessel would come under the act because—

a. the proposal uses the condition of being included in 49 CFR 172.101 as a criterion for defining a hazardous material under Section 104 of the Hazardous Materials Transportation Act (the second category above), and

b. the Materials Transportation Bureau of the Department of Transportation (MTB) has included all hazardous wastes in 49 CFR 172.101 (45 FR 34560).

Hazardous wastes moved as bulk solids are not covered by this proposal. However, anyone intending to ship solid hazardous wastes in bulk should be aware that MTB has listed all EPA designated hazardous wastes in 49 CFR 172.101, as mentioned above. The conditions for shipping bulk solid cargoes listed in 49 CFR 172.101 by vessel are contained in 46 CFR Part 148, which requires that the bulk solid be either listed in Part 148 or shipped by special permit. The Coast Guard is not aware of any solid hazardous wastes presently listed in Part 148, so that any such wastes could be moved in bulk

only with a special permit. The Coast Guard intends to include the EPA standards for transporters of hazardous wastes among the conditions to be met when shipping a bulk solid hazardous waste under special permit. Therefore, transporters of hazardous wastes moved as bulk solids would be indirectly required to meet the tracking requirements. If this approach becomes unwieldy, the Coast Guard would propose requirements for Part 148.

This proposal also does not cover requirements for vessels that generate (as distinct from carrying as cargo) a hazardous waste. Those people having questions about the vessel as a generator of hazardous waste should contact EPA.

In consideration of the foregoing, the Coast Guard proposes to amend Part 150 of Title 46 of the Code of Federal Regulations by adding a new subpart as follows:

PART 150—COMPATIBILITY OF CARGOES AND OPERATIONAL REQUIREMENTS FOR BULK LIQUID HAZARDOUS WASTE CARGOES

* * * * *

Subpart C—Requirements for Bulk Liquid Hazardous Waste Cargoes

Sec.

- 150.310 Applicability.
- 150.320 Definitions.
- 150.325 EPA ID Number required.
- 150.330 Authorization to carry a hazardous waste cargo.
- 150.340 Mixing of hazardous waste cargoes.
- 150.344 Signatures required.
- 150.345 Delivery of a hazardous waste cargo.
- 150.346 Handling of documents for domestic hazardous waste cargo shipments.
- 150.347 Optional handling of documents for domestic shipments of hazardous waste cargo to be transported to a facility by vessel only.
- 150.348 Handling of documents for international hazardous waste cargo shipments.
- 150.360 Keeping copies of the hazardous waste manifest.
- 150.370 Reporting discharges of hazardous waste cargo.

Authority: The regulations in this subpart are issued under 46 USC 391a and 49 CFR 1.46(n)(4).

Subpart C—Requirements for Bulk Liquid Hazardous Waste Cargoes

§ 150.310 Applicability.

This subpart prescribes operational requirements for the bulk transportation of liquid or liquefied gas hazardous waste cargoes by vessel.¹ This subpart does not apply to vessels transporting

¹ Additional requirements for hazardous materials and flammable or combustible cargoes are listed in Parts 30–35, 151, 153, and 154 of this chapter.

wastes to sea for disposal under the Marine Protection, Research, and Sanctuaries Act.

§ 150.320 definitions.

In this subpart:

"EPA" means the U.S. Environmental Protection Agency.

"Generator" means the person named as generator on the hazardous waste manifest (see 40 CFR Parts 261 and 262).

"Hazardous waste cargo" means a cargo that is listed in 40 CFR Part 261 or determined to be a hazardous waste under the test standards prescribed in 40 CFR Part 261 and that is—

- (a) a flammable liquid as defined in § 30.10–22 or a combustible liquid as defined in § 30.10–15 of this chapter;
- (b) a material listed in table 151.05, table 1 of Part 153, or table 4 of Part 154 of this chapter; or
- (c) a liquid or liquefied gas listed in 49 CFR 172.101.

"Hazardous waste manifest" means a shipping paper, bill of lading, shipping manifest or other document that contains the following information about the hazardous waste cargo shipment:

- (a) a manifest document number;
- (b) The generator's name, mailing address, telephone number, and identification number;
- (c) The name and identification number of each transporter;
- (d) The name, address, and identification number of the hazardous waste management facility, and alternate facility if any;
- (e) The shipping name for the hazardous waste cargo as it appears in §§ 30.25–1, 148.01–7, table 151.05 of Part 151, table 1 Part 153, table 4 of Part 154, in the specific authorization from Commandant (G–MHM) under § 150.330(d), or Department of Transportation proper shipping name if a multimodal shipment;
- (f) The total quantity of hazardous waste in units of weight or volume, and the tanks in which the hazardous waste is loaded; and
- (g) A certification from the generator stating that the cargo is correctly described for shipment under Coast Guard and EPA shipping requirements.

"Person in charge" means the master of a tankship or the person in charge of a tank barge.

"Vessel transporter" means the operator of a vessel that carries a hazardous waste cargo.

"Vessel" has the meaning given the term in subsection (3), (4), and (5) of RS 4417a (46 USC 391a).

§ 150.325 EPA ID number required.

No person may operate a vessel that carries a hazardous waste cargo unless

that person has an EPA identification number assigned by EPA under 40 CFR 263.11.²

§ 150.330 Authorization to carry a hazardous waste cargo.

No person may operate a vessel that carries a hazardous waste cargo unless:

- (a) The cargo is listed in § 30.25-1 of this chapter;
- (b) The cargo is listed in Table 151.05 or in Table 1 of Part 153 of this chapter;
- (c) The cargo is listed in Table 4 of this chapter; or
- (d) The person has written authorization from the Commandant (G-MHM) to carry a specific hazardous waste cargo not listed.

§ 150.340 Mixing of hazardous waste cargoes.

Each vessel transporter who mixes hazardous waste cargoes having differing shipping names shall comply with the standards applying to generators of hazardous waste found in 40 CFR. 262

§ 150.344 Signatures required.

(a) Except as prescribed in § 150.347(b), the person in charge of a vessel may not accept a cargo of hazardous waste unless a hazardous waste manifest, signed by the person from whom the hazardous waste is received, accompanies the waste.

(b) The person in charge of a vessel may not deliver a cargo of hazardous waste unless the hazardous waste manifest is signed by the person who is to receive the hazardous waste.

§ 150.345 Delivery of a hazardous waste cargo.

(a) Except when following instructions received from the generator under paragraph (b), the person in charge of a vessel shall deliver the entire quantity of hazardous waste cargo to the next transporter, principal facility, alternate facility (in an emergency), or place outside the United States, prescribed by the hazardous waste manifest.

(b) A vessel transporter who cannot fulfill the delivery instructions in the hazardous waste manifest shall contact the generator for additional instructions.

§ 150.346 Handling of documents of domestic hazardous waste cargo shipments.

Except as prescribed in § 150.347, the person in charge of a vessel receiving a domestic shipment of hazardous waste cargo shall—

(a) Sign and date the copies of the hazardous waste manifest accompanying the shipment;

(b) Return a signed copy to the generator or transporter from whom the hazardous waste cargo was received;

(c) Carry the copies of the hazardous waste manifest with the shipment to the next transporter or hazardous waste management facility to which the shipment is delivered;

(d) Have the next transporter or person receiving the shipment at the hazardous waste management facility sign and date the copies of the hazardous waste manifest;

(e) Retain and deliver to the vessel transporter a copy of the signed hazardous waste manifest required for the vessel transporter in § 150.360; and

(f) Give the remaining copies of the hazardous waste manifest to the next transporter or to the person receiving the shipment at the hazardous waste management facility.

§ 150.347 Optional handling of documents for domestic shipments of hazardous waste cargo to be transported to a facility by vessel only.

(a) EPA rules allow a generator to send a copy of the hazardous waste manifest directly to the hazardous waste management facility when a domestic bulk shipment travels only by water (40 CFR 263.20(e)). If the generator chooses this procedure, the person in charge of the first vessel to receive the hazardous waste cargo shall—

(1) Sign and date the copies of the hazardous waste manifest accompanying the shipment;

(2) Retain and deliver to the vessel transporter the signed copy of the hazardous waste manifest required for the vessel transporter in § 150.360;

(3) Return the other copies to the generator from whom the hazardous waste cargo was received; and

(4) Carry with the shipment a document (such as an expanded bill of lading or a copy of the hazardous waste manifest) containing the following information:

(i) The manifest document number;

(ii) The generator's name, mailing address, and telephone number;

(iii) The name of each transporter;

(iv) The name and address of the hazardous waste management facility and alternate facility if any; and

(v) The shipping name for the hazardous waste cargo as it appears in §§ 30.25-1, 148.01-7, table 151.05 of Part 151, table 1 of Part 153, table 4 of Part 154, or in the specific authorization from Commandant (G-MHM) under § 150.330(d).

(b) The person in charge of a vessel that subsequently transports a hazardous waste cargo for which the generator sent the hazardous waste manifest directly to the facility shall—

(1) Carry a copy of the document prescribed in subparagraph (a)(5) of this section with the shipment; and

(2) Retain and deliver to the vessel transporter a copy of the document prescribed in subparagraph (a)(5) of this section.

§ 150.348 Handling of documents for international hazardous waste cargo shipments.

The person in charge of a vessel that carries a hazardous waste cargo outside the United States shall—

(a) Show on the hazardous waste manifest the date the shipment left the United States;

(b) Sign the hazardous waste manifest;

(c) Retain and deliver to the vessel transporter a signed copy of the hazardous waste manifest required for the vessel transporter in § 150.360; and

(d) Return another signed copy of the hazardous waste manifest to the generator.

§ 150.360 Keeping copies of the hazardous waste manifest.

A vessel transporter who accepts a hazardous waste cargo for shipment shall retain a copy of the signed hazardous waste manifest (or, where a hazardous waste manifest does not accompany the shipment, a copy of the document described in § 150.347) for 3 years from the date of acceptance by the initial transporter.³

§ 150.370 Reporting discharges of hazardous waste cargo.

A vessel transporter who carries a hazardous waste cargo shall ensure that any discharges of the cargo are reported in the manner prescribed for oil or hazardous substances in 33 CFR 153.203.⁴

Dated: October 6, 1980.

Clyde T. Lusk, Jr.,

Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.

[FR Doc. 80-31932 Filed 10-10-80; 8:45 am]

BILLING CODE 4910-14-M

³EPA requires that copies of the shipping document be retained longer than 3 years when requested by the EPA Administrator or when enforcement actions related to the shipment are unresolved (40 CFR 263.22(d)).

⁴Notice may be made by calling the National Response Center's toll free number (800) 424-8802 or if in the Washington, DC metropolitan area, 426-2675. EPA requires a transporter to clean up any discharge that occurs in shipment (40 CFR 263.31).

²Application forms for an EPA identification number (EPA form 8700-12) are available from EPA regional offices.

FEDERAL MARITIME COMMISSION**46 CFR Part 530**

[Docket No. 80-70]

Status of Bulk Commodities**AGENCY:** Federal Maritime Commission.**ACTION:** Proposed interpretative rule.

SUMMARY: The Federal Maritime Commission proposes to issue an interpretative rule that, where bulk cargo is loaded into a container, trailer or similar intermodal equipment, it will be considered as being loaded with mark or count and thus not exempt from the tariff filing requirements of section 18(b) of the Shipping Act, 1916. With the advent and development of containerization, commodities traditionally considered in the "bulk" category have become increasingly subject to carriage in containers and similar modes. Inasmuch as this could be said to make such cargoes susceptible to "mark or count," the possibility arises that a gap exists in the Commission's regulation of tariff filings.

DATE: Comments must be submitted on or before November 13, 1980.

ADDRESSES: Comments (original and 15 copies) to: Francis C. Hurney, Secretary, Federal Maritime Commission, Room 11101, 1100 L Street, NW., Washington, D.C. 20573.

FOR FURTHER INFORMATION CONTACT: Francis C. Hurney, Secretary, Federal Maritime Commission, Room 11101, 1100 L Street, NW., Washington, D.C. 20573, (202) 523-5725.

SUPPLEMENTARY INFORMATION: Section 18(b)(1) of the Shipping Act, 1916, requires that every common carrier by water in the foreign commerce of the United States file with the Federal Maritime Commission ocean freight tariffs showing all the rates and charges of such carriers or conferences of carriers for transportation to and from United States ports and foreign ports and between all points on their own route and on any through route which has been established. This filing requirement, however, does not extend to cargo which is loaded and carried in bulk without mark or count.

At the time of enactment of the Shipping Act, 1916, bulk cargoes were primarily carried by tramp and contract vessel operators who were exempted from the provisions of the Act. They also were carried on occasion by liner vessels in limited amounts in a segregated compartment of the ships such as deep tanks. With the advent and development of containerization, however, commodities traditionally

considered in the "bulk" category have become increasingly subject to carriage in containers and similar modes including RO-RO, LASH and SEABEE. Inasmuch as this could be said to make such cargoes susceptible to "mark or count," the possibility arises that a gap exists in the Commission's regulation of tariff filings. Accordingly, pursuant to 5 U.S.C. 553 and sections 18(b)(1) and 43 of the Shipping Act, 1916 (46 U.S.C. 817(b) and 841(a)), the Commission proposes to issue the following interpretative ruling:

Section 530. Further Interpretation of the Shipping Act, 1916

Section 18(b)(1) of the Shipping Act, 1916, provides:

From and after ninety days following enactment hereof every common carrier by water in foreign commerce and every conference of such carriers shall file with the Commission and keep open to public inspection tariffs showing all the rates and charges of such carriers for transportation to and from United States ports and foreign ports between all points on its own route and on any through route which has been established * * * The requirements of this section shall not be applicable to cargo loaded and carried in bulk without mark or count * * *

The Federal Maritime Commission interprets this provision to mean that where bulk type cargo is loaded in containers, trailers, rail cars, LASH or SEABEE barges or similar types of intermodal equipment, it is carried with mark or count and is, therefore, not exempt from the tariff filing requirements of section 18(b) of the Shipping Act, 1916.

The Commission seeks comment on this proposal particularly as to the extent of the practice of carrying bulk cargoes in containers or similar equipment, and the competitive impact of the advance filing of rates on bulk cargo by common carriers as compared to the unregulated rate quotations of tramp and contract vessel operators.

By the Commission.

Joseph C. Polking,

Assistant Secretary.

CIVIL AERONAUTICS BOARD

Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits

Notice is hereby given that, during the week ended October 3, 1980, CAB has received the applications listed below, which request the issuance, amendment, or renewal of certificates of public convenience and necessity or foreign air carrier permits under Subpart Q of 14 CFR 302.

Subpart Q Applications

Date filed	Docket No.	Description
Oct. 1, 1980.....	38771	Cascade Airways, Inc., c/o Nathaniel P. Breed, Jr., Shaw, Pittman, Potts & Trowbridge, 1800 M Street NW., Washington, D.C. 20036. Application of Cascade Airways, Inc. pursuant to Section 401 of the Act and Subpart Q of the Board's Procedural Regulations, requests an amendment of its certificate of public convenience and necessity for Route 215 to add Twin Falls, Idaho as a new intermediate point on its existing Linear route from Boise to Pocatello, Idaho and Salt Lake City, Utah. Conforming Applications and Answers are due October 29, 1980.
Oct. 1, 1980.....	38775	The Department of International Affairs of the General Administration of Civil Aviation of China d.b.a. "CAAC", c/o Robert B. Haserot, Haight, Gardner, Poor & Havens, One State Street Plaza, New York, New York 10004. Application of "CAAC" requests a foreign air carrier permit, pursuant to Section 402 of the Act and Subpart Q of the Board's Procedural Regulations to engage in scheduled foreign air transportation of passengers, property, and mail on the following route: Between the coterminal points Beijing and Shanghai, People's Republic of China, via the intermediate point Tokyo or another point in Japan, and the coterminal points Honolulu, Hawaii, Los Angeles and San Francisco, California, and New York, New York, with an optional technical stop at Anchorage, Alaska. Conforming Applications and Answers are due October 29, 1980.
Oct. 2, 1980.....	38788	Two Americas Trading Company, Inc. d.b.a. ICB International Airlines, c/o Herbert A. Rosenthal, Suite 300, 1747 Pennsylvania Ave. NW., Washington, D.C. 20006. Application of Two Americas Trading Company, Inc. d.b.a. ICB International Airlines, pursuant to Section 401 of the Act and Subpart Q of the Board's Procedural Regulations requests a certificate of public convenience and necessity authorizing it to engage in scheduled all-cargo transportation between a point or points in the United States, on the one hand, and points in Spain, Nigeria, South Africa, and Zimbabwe, on the other. Conforming Applications and Answers are due October 30, 1980.
Oct. 3, 1980.....	38798	American Eagle Airlines, Inc., c/o Herbert A. Rosenthal, Hausman and Rosenthal, 1747 Pennsylvania Ave. NW., Washington, D.C. 20006. Conforming Application of American Eagle Airlines, Inc. pursuant to Section 401 of the Act and Subpart Q of the Board's Procedural Regulations, requests a certificate of public convenience and necessity to engage in transatlantic charter air transportation of cargo. Answers may be filed by October 28, 1980.

Phyllis T. Kaylor,
Secretary.

[FR Doc. 80-31873 Filed 10-10-80; 8:45 am]

BILLING CODE 6320-01-M

Answers to foreign permit applications are due 28 days after the application is filed. Answers to certificate applications requesting restriction removal are due within 14 days of the filing of the application. Answers to conforming applications in a restriction removal proceeding are due 28 days after the filing of the original application. Answers to certificate applications (other than restriction removals) are due 28 days after the filing of the application. Answers to conforming applications or those filed in conjunction with a motion to modify scope are due within 42 days after the original application was filed. If you are in doubt as to the type of application which has been filed, contact the applicant, the Bureau of Pricing and Domestic Aviation (in interstate and overseas cases) or the Bureau of International Aviation (in foreign air transportation cases).

COMMISSION ON CIVIL RIGHTS

Maine Advisory Committee; Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a meeting of the Maine Advisory Committee to the Commission will convene at 6:00 p.m. and will end at 8:00 p.m., on October 23, 1980, at the Maine Teachers Association, Augusta, Maine. The purpose of the meeting is to review proposed projects for coming year; discuss State services to off-reservation Indians and discuss employers' responses to Sex Harassment Information Kit.

Persons desiring additional information or planning a presentation to the Committee, should contact the Chairperson, Ms. Madeleine D. Giguere, 35 Orange Extension, Lewiston, Maine 34240, (207) 780-4100, or the New England Regional Office, 55 Summer Street, 8th Floor, Boston, Massachusetts 02110, (617) 223-4671.

The meeting will be conducted pursuant to the provisions of the Rules and Regulations of the Commission.

Dated at Washington, D.C., October 7, 1980.

Thomas L. Neumann,
Advisory Committee Management Officer.

[FR Doc. 80-31845 Filed 10-10-80; 8:45 am]

BILLING CODE 6335-01-M

Nebraska Advisory Committee; Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a meeting of the Nebraska Advisory Committee to the Commission will convene at 1:00 p.m. and will end at 5:00 p.m., on November 6, 1980 and will convene at 1:00 p.m. and will end at 5:00 p.m., on November 7, 1980, at the Ramada Inn-Airport, Vortax Room, Abbott Drive and Locust, Omaha, Nebraska 68110. The purpose of the meeting is to plan program activities of the Advisory Committee for FY 1981.

Persons desiring additional information or planning a presentation

to the Committee, should contact the Chairperson, Mrs. Shirley M. Marsh, 2701 S. 34th Street, Lincoln, Nebraska 68509, (402) 471-2734 or the Central States Regional Office, Old Federal Office Building, Room 3103, 911 Walnut Street, Kansas City, Missouri 64106, (816) 374-5253.

Dated at Washington, D.C., October 7, 1980.

The purpose of the meeting is to discuss the coming projects.

Persons desiring additional information or planning a presentation to the Committee, should contact the Chairperson, Hon. Franklin H. Williams, Phelps Stokes Fund, 10 E. 87th Street, New York, N.Y. 10028, (212) 427-8100, or

the Eastern Regional Office, 26 Federal Office Building, Room 1639, New York, N.Y. 10007, (212) 264-0543.

The meeting will be conducted pursuant to the provisions of the Rules and Regulations of the Commission.

Dated at Washington, D.C., October 7, 1980.

Thomas L. Neumann,
Advisory Committee Management Officer.

BILLING CODE 6335-01-M

DEPARTMENT OF COMMERCE

International Trade Administration

Telecommunications Equipment Technical Advisory Committee; Partially Closed Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, as amended, 5 U.S.C. App. (1976), notice is hereby given that a meeting of the Telecommunications Equipment Technical Advisory Committee will be held on Wednesday, October 29, 1980, at 10:00 a.m. in Room 1851, Main Commerce Building, 14th Street and Constitution Avenue NW., Washington, D.C.

The Telecommunications Equipment Technical Advisory Committee was initially established in October 23, 1973. On October 7, 1975, October 21, 1977, August 28, 1978, and August 29, 1980, the Assistant Secretary for Administration approved the recharter and extension of the Committee pursuant to Section 5(h)(1) of the Export Administration Act of 1979, 50 U.S.C.A. App. 2401 *et seq.* and the Federal Advisory Committee Act.

The Committee advises the Office of Export Administration with respect to questions involving (A) technical specifications and policy issues relating to those specifications which are of concern to the Department, (B) worldwide availability of products and systems, including quantity and quality, and actual utilization of production technology, (C) licensing procedures which affect the level of export controls applicable to electronic instrumentation, or technology, and (D) exports of the aforementioned commodities subject to unilateral and multilateral controls which the United States establishes or in which it participates including proposed revisions of any such controls.

The Committee meeting agenda has five parts:

General Session

- (1) Opening remarks by the Chairman.

(2) Presentation of papers or comments by the public.

(3) Discuss the critical technology report submitted by the Department of Defense.

(4) Discussion and review of the annual report.

Executive Session

(5) Discussion of matters properly classified under Executive Order 11652 or 12065, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

With respect to agenda item (5), the Assistant Secretary for Administration, with the concurrence of the delegate of the General Counsel, formally determined on September 16, 1980, pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended by Section 5(c) of the Government In The Sunshine Act, Pub. L. 94-409, that the matters to be discussed in the Executive Session should be exempt from the provisions of the Federal Advisory Committee Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552b(c)(1). Such matters are specifically authorized under criteria established by an Executive Order to be kept secret in the interests of the national defense or foreign policy. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under Executive Order 11652 or 12065. All Committee members have appropriate security clearances.

A copy of the Notice of Determination to close meetings or portions thereof is available for public inspection and copying in the Central Reference and Records Inspection Facility, Room 5317, U.S. Department of Commerce, telephone: 202-377-4217.

Copies of the minutes of the open portions of the meeting will be available by calling Mrs. Margaret Cornejo, Office of the Director of Licensing, Office of Export Administration, Room 1609, U.S. Department of Commerce, Washington, D.C. 20230, telephone: 202-377-2583.

For further information, contact Mrs. Cornejo, either in writing or by phone at the address or number shown above.

Dated: October 7, 1980.

Saul Padwo,

Acting Director, Office of Export Administration, International Trade Administration, Department of Commerce.

BILLING CODE 3510-25-M

Circle Air Freight Corp.; Order

The Office of Export Administration, United States Department of Commerce, having initiated administrative proceedings pursuant to Section 11(c) of the Export Administration Act of 1979, (Pub. L. 96-72, to be codified at 50 U.S.C. app. sec. 2401, *et seq.*) (the "Act") and the Export Administration Regulations [15 CFR Part 368, *et seq.* (1979)] (the "Regulations") against Circle Air Freight Corporation ("CAF"), based on allegations that CAF violated §§ 387.2, 387.4 and 387.6 of the Regulations; and

The Department and CAF having entered into a Consent Agreement whereby each has agreed to settle this matter (1) by payment of a civil penalty in the amount of \$50,000, (2) by a denial of all validated export license privileges for its Seattle office only for a 30-day period terminating on November 7, 1980, and (3) by undertaking certain corrective measures to ensure compliance with the Regulations; and

The terms of the Consent Agreement having been approved by me, Now, therefore, pursuant to the authority vested in me, 15 CFR Part 388,

It is ordered,

I. A civil penalty in the sum of \$50,000 is assessed against respondent;

II. CAF's Seattle office shall not export any goods, commodities or technical data requiring a validated export license for a 30-day period terminating on November 7, 1980;

III. CAF, within 30 days of the service of this Order, shall pay to the Department, a civil penalty in the amount of \$35,000;

IV. Payment of the remaining \$15,000 shall be suspended for a probation period of 18 months and will be waived at the end of the probation period provided that respondent's Seattle office is in full compliance with the Regulations and all terms of the Order and that CAF has undertaken the corrective measures specified in the Consent Agreement.

This Order is effective immediately.

Entered this 8th day of October, 1980.

Bertram Freedman,

Hearing Commissioner.

BILLING CODE 3510-25-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjusting the Restraint Levels for Certain Cotton and Man-Made Fiber Apparel Products From the Dominican Republic

October 7, 1980.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Restoring unused carryforward yardage previously deducted from the levels of restraint established for cotton nightwear in Category 351; women's, girls' and infants' man-made fiber knit shirts and blouses in Category 639; and man-made fiber brassieres in Category 649, produced or manufactured in the Dominican Republic during the agreement year which began on June 1, 1980.

(A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the Federal Register on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463) and August 12, 1980 (45 FR 53504).

SUMMARY: The bilateral textile agreement of August 7 and 8, 1979, as amended, covering cotton, wool and man-made fiber textile products, produced or manufactured in the Dominican Republic, provides, for the borrowing of designated percentages of yardage from the succeeding year's levels (carryforward). It has been determined that the Dominican Republic did not utilize its requested carryforward during 1979. Action is being taken, therefore, to adjust levels to reinstate unused carryforward that was charged at the beginning of the agreement year.

EFFECTIVE DATE: OCTOBER 14, 1980.

FOR FURTHER INFORMATION CONTACT: Carl Ruths, International Trade Specialist, Office of Textiles & Apparel, U.S. Department of Commerce, Washington, D.C. 20230. (202/377-5423).

SUPPLEMENTARY INFORMATION: On June 4, 1980, there was published in the Federal Register (45 FR 109) a letter dated May 30, 1980 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs establishing levels of restraint for certain categories of cotton and man-made fiber textile products, produced or manufactured in the Dominican Republic, which may be entered into the United States for consumption or withdrawn from warehouse for consumption during the twelve-month period which began on

June 1, 1980 and extends through May 31, 1981.

The letter published below from the Chairman of the Committee for the Implementation of Textile Agreements amends the directive of May 30, 1980, directing the Commissioner of Customs to prohibit entry into the United States for consumption or withdrawal from warehouse for consumption of textile products in excess of adjusted levels of restraint of 302,960 dozen for Category 351; 277,844 dozen for Category 639 and 1,500,000 dozen for Category 649.

Paul T. O'Day,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington,
D.C.,

October 7, 1980.

Dear Mr. Commissioner: This directive further amends, but does not cancel, the directive issued to you on May 30, 1980 from the Chairman, Committee for the Implementation of Textile Agreements, concerning imports into the United States of certain cotton and man-made fiber textile products, produced or manufactured in the Dominican Republic.

Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Cotton, Wool and Man-Made Fiber Textile Agreement of August 7 and 8, 1979, as amended, concerning textile products exported from the Dominican Republic; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed further to amend, effective on October 14, 1980, the adjusted twelve-month level of restraint established in the directive of May 30, 1980 for Categories 351, 639 and 649 to the following:

Category	Amended 12 mo. level of restraint ¹
351.....	302,960
639.....	277,844
649.....	1,500,000

¹ The levels of restraint have not been adjusted to account for any imports after May 31, 1980.

² Dozen.

The actions taken with respect to the Dominican Republic and with respect to imports of cotton and man-made fiber textile products from the Dominican Republic have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, which are necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5

U.S.C. 553. This letter will be published in the Federal Register.

Sincerely,

Paul T. O'Day,

Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 80-31781 Filed 10-10-80; 8:45]

BILLING CODE 3510-25-M

Soliciting Public Comment on Bilateral Textile Consultations With the Government of Sri Lanka To Include a Review of Trade in Category 334 (Men's and Boys' Cotton Coats, Other)

October 8, 1980.

In accordance with the Committee for the Implementation of Textile Agreement's desire to solicit public comment whenever practicable on U.S. Government actions implementing the GATT Arrangement Regarding International Trade in Textiles (the "Multifiber Arrangement" or "MFA") and pursuant to the bilateral textile agreement of July 7, 1980 between the United States and Sri Lanka, the United States has requested, and anticipates holding, consultations in the near future with the Government of Sri Lanka regarding aspects of the agreement, including specifically, exports to the United States in Category 334 (Men's and Boys' Cotton Coats, Other).

Any party wishing to comment or provide data or information regarding the treatment of Category 334 (Men's and Boys' Cotton Coats, Other) under the agreement with Sri Lanka or on any other aspect thereof, or to comment on domestic production or availability of textiles and apparel affected by the agreement, is invited to submit such comments or information in ten copies to Mr. Paul O'Day, Chairman, Committee for the Implementation of Textile Agreements and Deputy Assistant Secretary of Commerce for Textiles, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230. Since the exact timing of the consultations is not yet certain, comments should be submitted promptly. Comments or information submitted in response to this notice will be available for public inspection in the Office of Textiles and Apparel, Room 2808, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230, and may be obtained upon written request. Further comment may be invited regarding particular comments or information received from the public which the Committee for the Implementation of Textile Agreements considers appropriate for further consideration.

The solicitation of comments

regarding any aspect of the MFA or agreements entered into thereunder or the implementation thereof is not a waiver in any respect of the exemption contained in 5 U.S.C. 553(a)(1) and 554(a)(4) relating to matters which constitute "a foreign affairs function of the United States".

Paul T. O'Day,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

COMMUNITY SERVICES ADMINISTRATION

Decision to Fund Eight (8) Conduit Migrant and Seasonal Farmworker Community Food and Nutrition Programs Operating in Every State Except Hawaii and Alaska

AGENCY: Community Services Administration.

ACTION: Notice to all Boards of Directors of CAA(s) and SEOO(s).

SUMMARY: The Community Services Administration is notifying all Boards of Directors of Community Action Agencies (CAAs) and State Economic Opportunity Offices (SEOOs), in accordance with Section 222(a) of the Economic Opportunity Act of 1964, as amended, that a decision has been made to fund eight (8) conduit migrant and seasonal farmworker Community Food and Nutrition Programs operating in every State except Hawaii and Alaska.

Grants are being awarded to the following organizations for operation in the following states: Rural New York Farmworker Opportunities, Inc. (serving: New York, New Jersey, Vermont, Rhode Island, Maine, Massachusetts, Connecticut, and New Hampshire); Delmarva Rural Ministries (serving: Maryland, Pennsylvania, Delaware, Virginia, and West Virginia); Florida Farmworkers Council (serving: Florida); Migrant and Seasonal Farmworkers Association (serving: North Carolina, South Carolina, Alabama, Mississippi, Georgia, Kentucky, Tennessee and Louisiana); Minnesota Migrant Council Inc. (serving: Illinois, Minnesota, Indiana, Michigan, Missouri, Nebraska, North Dakota, South Dakota, Wisconsin, Iowa, and Kansas); Colonias del Valle, Inc. (serving: Texas, Arkansas, Oklahoma, and New Mexico); Idaho Migrant Council (serving: Idaho, Oregon, Washington, Utah, Colorado, Montana, and Wyoming); and Campesinos Unidos, Inc. (serving: California, Arizona, and Nevada). These organizations will directly engage in Community Food and Nutrition activities and delegate

activities in those areas where the conduit has no direct-delivery system.

DATE: This notice becomes effective October 14, 1980.

FOR FURTHER INFORMATION CONTACT:

Eduardo Gutierrez, 1200-19th Street, NW., Washington, D.C. 20506.
Telephone: (202) 254-5400.

(Sec. 602, 78 Stat. 530; 42 U.S.C. 2942)

DEPARTMENT OF DEFENSE

Corps of Engineers, Department of the Army

National Hydropower Study; Workshop and Open Meeting

AGENCY: U.S. Army Corps of Engineers.

ACTION: Notice of workshop and open meeting.

SUMMARY: The U.S. Army Corps of Engineers announces a one day workshop on the National Hydropower Study (NHS) policy studies. The workshop is designed to inform participants of the policy studies and to obtain reactions to and discussion of the findings, conclusions, and tentative recommendations from each policy study. The workshop is open to the public.

DATE: November 20, 1980, 8:00 a.m. to 4:45 p.m.

ADDRESS: Bonneville Power Administration Auditorium, 1002 N.E. Holladay Street, Portland, Oregon.

FOR FURTHER INFORMATION AND

REGISTRATION CONTACT: Mr. Thomas M. Ballentine, U.S. Army Corps of Engineers, Institute for Water Resources, National Hydropower Study, Kingman Building, Ft. Belvoir, Virginia 22060 (202/325-0478).

SUPPLEMENTARY INFORMATION: The five policy studies, which are in various stages of development, address environmental impacts; legal and institutional aspects; economic evaluation procedures; marketing and transmission; and technology assessment.

The workshop will be of particular interest to national trade, professional, and public interest organizations in the following fields: engineering, the environment, natural resources, conservation, electric power generation and delivery, electric power equipment manufacturing, business and industry, government policy, government regulation, government development

and operations, labor, agriculture, water resources development, economics, biological sciences, physical science, forestry, fish and wildlife, recreation, and residential consumption.

In order to obtain workshop materials, persons who plan to attend are requested to pre-register. A draft copy of NHS workshop material is available upon request to interested persons who do not attend the meeting.

Dated: September 25, 1980.

Forrest T. Gay III,

Colonel, Corps of Engineers, Executive Director, Engineer Staff.

In FR Doc. 80-30241, appearing on page 64629, in the issue of Tuesday, September 30, 1980, the comment date was incorrect. The entry reading "Comments By: December 1, 1980" should have read "Comments By: October 30, 1980".

BILLING CODE 1505-01-M

Aminoil U.S.A., Inc.; Proposed Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of Proposed Consent Order and opportunity for comment.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces a proposed Consent Order and provides an opportunity for public comment on the proposed Consent Order and on potential claims against the refunds deposited in an escrow account established pursuant to the Consent Order.

COMMENTS BY: November 13, 1980.

ADDRESS: Send comments to Alan L. Wehmeyer, Chief, Crude Products Program Management Branch, Central Enforcement District, 324 East 11th Street, Kansas City, Missouri 64106.

FOR FURTHER INFORMATION CONTACT:

Alan L. Wehmeyer, Chief, Crude Products Program Management Branch, Central Enforcement District, 324 East 11th Street, Kansas City, Missouri 64106. Phone (816) 374-5932.

SUPPLEMENTARY INFORMATION: On September 24, 1980, the Office of Enforcement of the ERA executed a proposed Consent Order with Aminoil U.S.A., Inc. (Aminoil). Under 10 CFR 205.199(j), a proposed Consent Order which involves a sum of \$500,000 or more in the aggregate, excluding penalties and interest, becomes effective only after the DOE has received comments with respect to the proposed Consent Order. Although the ERA has signed and tentatively accepted the proposed Consent Order, the ERA may, after consideration of the comments it receives, withdraw its acceptance and, if appropriate, attempt to negotiate an alternative Consent Order.

I. The Consent Order

Aminoil, with its home office located in Houston, Texas, is engaged in the production and sale of crude oil in the form of condensate, and is subject to the Mandatory Petroleum and Allocation and Price Regulations at 10 CFR, Parts 210, 211, and 212. To resolve certain civil actions which could be brought by the Office of Enforcement of the Economic Regulatory Administration as a result of its audit of Aminoil, the ERA Office of Enforcement and Aminoil entered into a Consent Order, the significant terms of which are as follows:

1. The Office of Enforcement has examined Aminoil's books and records and reviewed all pertinent matters relating to Aminoil's compliance with the DOE petroleum price regulations in

effect during the period from September 1, 1973 through April 30, 1980. All matters pertaining to compliance with the DOE petroleum price regulations and prices charged by Aminoil in sales of crude oil in the form of condensate during the period September 1, 1973 through April 30, 1980 are resolved by this Consent Order.

2. Aminoil will refund \$1,600,000.00, which includes interest through the date on which the Consent Order becomes effective, as specified in the Consent Order.

3. Execution of the Consent Order constitutes neither an admission by Aminoil nor a finding by DOE that Aminoil has violated any statutes or applicable regulations of the Cost of Living Council, the Federal Energy Office, the Federal Energy Administration or the Department of Energy.

4. The provisions of 10 CFR 205.199J, including the publication of this Notice, are applicable to the Consent Order.

II. Disposition of Refunded Overcharges

In this Consent Order, Aminoil agrees to refund, in full settlement of any civil liability with respect to actions which might be brought by the Office of Enforcement, ERA, arising out of the transactions specified in I.1. above, the sum of \$1,600,000.00 within 30 days from when the Consent Order becomes effective. Refunded overcharges will be made in the form of a check made payable to the United States Department of Energy and delivered to the Assistant Administrator for Enforcement, ERA. These funds will remain in a suitable account pending the determination of their proper disposition.

The DOE intends to distribute the refund amounts in a just and equitable manner in accordance with applicable laws and regulations. Accordingly, distribution of such refunded overcharges requires that only those "persons" (as defined at 10 CFR 205.2) who actually suffered a loss as a result of the transactions described in the Consent Order receive appropriate refunds. Because of the petroleum industry's complex marketing system, overcharges may have been passed through as higher prices to subsequent purchasers or offset through devices such as the Old Oil Allocation (Entitlements) Program, 10 CFR 211.67. In fact, the adverse effects of the overcharges may have become so diffused that it is a practical impossibility to identify specific, adversely affected persons, in which case disposition of the refunds will be made in the general public interest by

an appropriate means such as payment to the Treasury of the United States pursuant to 10 CFR 205.199I(a).

III. Submission of Written Comments

A. *Potential Claimant:* Interested persons who believe that they have a claim to all or a portion of the refund amount should provide written notification to the ERA at this time. Proof of claims is not now being required. Written notification to the ERA at this time is requested primarily for the purpose of identifying valid potential claims to the refund amount. After potential claims are identified, procedures for the making of proof of claims may be established. Failure by a person to provide written notification of a potential claim within the comment period for this notice may result in the DOE irrevocably disbursing the funds to other claimants or to the general public interest.

B. *Other Comments:* The ERA invites interested persons to comment on the terms, conditions, or procedural aspects of this Consent Order. You should submit your comments or written notification of a claim within 30 days after publication of this notice of Alan L. Wehmeyer, Chief, Crude Products Program Management Branch, ERA Central Enforcement District, U.S. Department of Energy, 324 East 11th Street, Kansas City, Missouri 64106. You may obtain a free copy of this Consent Order by writing to the same address.

You should identify your comments or written notification of a claim on the outside of your envelope and on the documents you submit with the

designation, "Comments on Aminoil U.S.A., Inc. Consent Order." We will consider all comments we receive within 30 days after the publication of this notice.

Issued in Kansas City, Missouri on the 24th day of September, 1980.

William D. Miller,

District Manager, Central Enforcement District Economic Regulatory Administration.

VOLUME 292 PAGE 011

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission by October 29, 1980.

Please reference the FERC Control Number (JD No.) in all correspondence related to these determinations.

Kenneth F. Plumb,

Secretary.

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission by October 29, 1980.

Please reference the FERC Control Number (JD No.) in all correspondence related to these determinations.

Kenneth F. Plumb,
Secretary.

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission by October 29, 1980.

Please reference the FERC Control Number (JD No) in all correspondence related to these determinations.

Kenneth F. Plumb,
Secretary.

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy of description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street NE., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission by October 29, 1980. Please reference the FERC Control Number (JD No) in all correspondence related to these determinations.

Applications for Waiver of Effective Date of the 1981 and 1982 Model Year Carbon Monoxide Emission Standard for Light-Duty Motor Vehicles—Tenth Decision of the Administrator

I. Introduction

This is the tenth decision I have issued under Section 202(b)(5) of the Clean Air Act, as amended (Act), 42 U.S.C. 7521(b)(5), regarding applications from automobile manufacturers for waiver of the 3.4 grams per vehicle mile (gpm) carbon monoxide (CO) emission standard scheduled to apply to 1981 and 1982 model year light-duty motor vehicles and engines.¹

As the introductions to the previous consolidated decisions explain, section 202(b)(1)(A) of the amended Act establishes a schedule for implementing standards applicable to CO emissions for 1977 and later model year light-duty motor vehicles and engines.² The 1977 amendments to the Act, however, included a new provision allowing the Administrator of the Environmental Protection Agency (EPA), under certain limited conditions, to delay for up to two model years implementation of the statutory 3.4 gpm CO standard scheduled to take effect for the 1981 and 1982 model years.³ However, these

¹ The preceding decisions were published as follows: 44 FR 53376 (September 13, 1979); 44 FR 69417 (December 3, 1979); 45 FR 7122 (January 31, 1980); 45 FR 17914 (March 19, 1980); 45 FR 37360 (June 2, 1980); 45 FR 40030 (June 12, 1980); 45 FR 49876 (July 25, 1980); 45 FR 53400 (August 11, 1980); 45 FR 59396 (September 9, 1980).

² Regulations were promulgated on August 24, 1978, setting a CO standard of 3.4 gpm for 1981 and later model year vehicles. 40 CFR 86.081-8(a)(1)(ii). This standard represents at least a 90 percent reduction in CO emissions from the CO standard applicable to 1970 model year vehicles.

³ Section 202(b)(5)(C) of the Act provides, in part: The Administrator may grant such waiver if he finds that protection of the public health does not require attainment of such 90 percent reduction for carbon monoxide for the model years to which such waiver applies in the case of such vehicles and engines and if he determines that—

(i) such waiver is essential to the public interest or the public health and welfare of the United States;

(ii) all good faith efforts have been made to meet the standards established by this subsection;

(iii) the applicant has established that effective control technology, processes, operating methods, or other alternatives are not available or have not been available with respect to the model in question for a sufficient period of time to achieve compliance

amendments require the Administrator to promulgate interim standards in such cases which do not permit CO emissions over 7.0 gpm.⁴

In response to waiver applications received prior to the one under consideration, EPA held six sets of public hearings and issued nine decisions pursuant to section 202(b)(5)(A).⁵ In those decisions, I denied waivers for certain engine families either because I determined that effective control technology⁶ was available contrary to the requirement of section 202(b)(5)(C)(iii) of the Act or because the applicants failed to provide sufficient information to establish that effective control technology was not available. Furthermore, the applicants failed to establish that considerations of costs, driveability, or fuel economy gave me a basis for reaching a different conclusion. I granted the waiver applications covering the remaining engine families after determining for each of those families that the requisite technology was not available, considering costs, driveability, and fuel economy, and that each application met all of the remaining statutory criteria for receiving a waiver.

On June 11, 1980, EPA received a waiver application from Rolls-Royce Motors Limited (Rolls-Royce). EPA held a hearing on this application on July 17, 1980. The transcript of this hearing, the materials submitted by the applicant in

prior to the effective date of such standards, taking into consideration costs, driveability, and fuel economy; and

(iv) studies and investigations of the National Academy of Sciences conducted pursuant to subsection (c) and other information available to him has not indicated that technology, processes, or other alternatives are available (within the meaning of clause (iii)) to meet such standards.

⁴ As noted in previous decisions, Section 202(b)(5) of the Act requires that I make a separate assessment for each vehicle model covered by a waiver request. See, e.g., 44 FR 53376 (September 13, 1979); 44 FR 69416 (December 3, 1979); 45 FR 7122 (January 31, 1980). Thus, these earlier consolidated decisions generally have included separate decisions for individual engine families. As in the previous decisions, I have distinguished among engine families here primarily on the basis of engine displacement. See note 17, second consolidated decision, 44 FR 69416, 69418 (December 3, 1979).

⁵ EPA has included testimony received at these six hearings, as well as all other information considered in deciding these six groups of waiver applications, in EPA Public Dockets EN-79-4, EN-79-17, EN-79-19, EN-80-1, EN-80-9 and EN-80-13.

⁶ As was the case in the earlier consolidated decisions, I am using the term "technology" in this decision to encompass the statutory language "technology, processes, operating methods, or other alternatives" included as part of section 202(b)(5)(C)(iii) of the Act.

its waiver request, and all other information upon which I have based my decision on this waiver request, including the technical appendix cited below, are included in EPA Public Docket EN-80-14.⁷

This decision will address the waiver request from Rolls-royce on the basis of information provided by Rolls-Royce and from other sources.⁸

II. Summary of Decision

I am denying Rolls-Royce's waiver request for its 6.75 liter (L) V-8 engine family for the 1981 and 1982 model years. I have made this decision because I cannot conclude that effective control technology, considering costs, driveability, and fuel economy, is not available to enable this engine family to meet the statutory CO standard for the 1981 and 1982 model years. In fact, the emission test data which Rolls-Royce submitted indicate that this engine family should be capable of meeting 3.4 gpm CO emission standard. The certification durability vehicle which Rolls-Royce has tested for this engine family has completed testing while maintaining CO emission levels below the statutory CO standard.⁹

Considerations of costs, driveability, or fuel economy, whether viewed separately or cumulatively, do not give me a basis for altering my determinations regarding the availability of technology for this engine family for the 1981 and 1982 model years.

While this engine family may meet some, or all, of the remaining statutory criteria for receiving a waiver for the 1981 and 1982 model years, my determinations regarding available technology, considering costs, driveability, and fuel economy, preclude me from granting waivers covering this engine family for the 1981 and 1982 model years.

⁷ This decision uses the following abbreviations: RR. App.—Rolls-Royce Application for CO Waiver, dated June 11, 1980, for its 6.75 liter V.8 engine family.

EPA Public Docket EN-80-14 can be found in EPA's Central Docket Section, Gallery I, 401 M St., S.W., Washington, D.C. 20460. Copies of materials in the docket, including the technical appendix, may be obtained by writing to this address at Mail Code (A-130).

⁸ See the discussion on my considerations of other sources of information in the previous waiver decisions, e.g. section III(B)(1)(C), 44 FR 69416, 69422 (December 3, 1979).

⁹ App. A, section V.

Discussion

A. Availability of Technology

The decision I have made here on whether to grant or deny the requested waiver turns primarily on whether technology is available to enable Rolls-Royce's 6.75 L/V-8 engine family to meet the 3.4 gpm CO standard for the 1981 and 1982 model years. Section 202(b)(5)(C)(iii) of the Act expressly assigns an applicant the task of establishing that effective CO control technology is not available, taking into account costs, driveability, and fuel economy. Even if the Administrator determines that an applicant has met this burden, section 202(b)(5)(C)(iv) requires the Administrator to consider whether National Academy of Sciences (NAS) studies or other information indicate that technology is available considering costs, driveability, and fuel economy, before granting a waiver request.

As was the case in the previous CO waiver decisions, this decision relies on information contained in the waiver application and other information found in the public record.¹⁰ I am unable to conclude on the basis of this information that the requisite technology, considering costs, driveability, and fuel economy, is not available for the engine family in question.

As part of my assessment of available technology here, I have considered the results of NAS studies and investigations¹¹ conducted under section 202(c) of the Act regarding available technology, processes, or other alternatives. The findings of the available NAS studies do not contradict my assessment regarding the availability of technology for Rolls-Royce's 6.75 L/V-8 engine family.¹²

¹⁰ Much of this information was gathered for and included in the docket for the previous CO waiver decisions. See EPA Public Dockets EN-79-4, EN-79-17, EN-79-19, EN-80-1, EN-80-9, and EN-80-13. Those dockets have been incorporated by reference into the docket for this tenth decision, EPA Public Docket EN-80-14.

¹¹ Report by the Committee on Motor-Vehicle Emissions by the National Research Council of the National Academy of Sciences, dated June 30, 1980. See also discussions of the applicability of earlier NAS studies in previous CO waiver decisions; e.g., 44 FR 53376, 53386 (September 13, 1979) and 44 FR 69416, 69423, 69428 (December 3, 1979).

¹² See, e.g., 44 FR 53376, 53386 (September 13, 1979); 44 FR 69416, 69428 (December 3, 1979). The conclusions reached in the June 30, 1980 NAS report give me no reason to alter my findings regarding the availability of technology under sections 202(b)(5)(C)(iii) and 202(b)(5)(C)(iv) of the Act. The report states that the requisite technology is available for much of the industry's planned production for the 1981 model year, but confirms that this might not be the case for all engine families. This conclusion is consistent with my present and previous waiver determinations regarding available technology and is consistent

Specifically, Rolls-Royce stated that, on the basis of emission test results available at the time it submitted its waiver request, it was unable to guarantee that its engine family could comply with the 3.4 gpm CO standard.¹³ Rolls-Royce contended that it preferred that the certification durability vehicle achieve CO emission levels reasonably below the standard in order to include some sort of margin of safety to provide adequate assurance that the production vehicles which contain the same emission control systems installed in the certification prototype also would meet the applicable emission standards.¹⁴

Rolls-Royce testified at the public hearing that it needed a waiver to enable it to manufacture and market an engine family with one emission control system which can meet both Federal and California emission standards.¹⁵ In attempting to produce a "50-state vehicle", Rolls-Royce's prime motivation is to obtain maximum market flexibility.¹⁶ Although Rolls-Royce did not elaborate on this point, it may have intended to contend implicitly that by marketing a 50-state vehicle it would save the costs involved in producing vehicles with two different emission control systems, one for California and one for the remaining 49 states.

After due consideration of these arguments and the data submitted in support of them, I have concluded that the Rolls-Royce 6.75 L/V-8 engine family should be capable of meeting the 3.4 gpm CO standard. I reached my determination primarily on the basis of the test results of this engine family's 1981 model year certification durability vehicle.¹⁷ Since Rolls-Royce first filed its waiver request, this certification vehicle, which incorporated the design for which Rolls-Royce requested a waiver, successfully completed certification

with the previous NAS report. Comments submitted by the National Automobile Dealers Association pertaining to the June 30, 1980 NAS report and its impact on CO waiver decisions are discussed in section III(B) of this decision.

¹³ July 17, 1980 Transcript, p. 16.

¹⁴ Id., p. 48.

¹⁵ Id. at pp. 13 and 57. In the 1981 model year, the applicable Federal emission standards are 1.0 gpm oxides of nitrogen (NOx), 0.41 gpm hydrocarbon (HC), and 7.0 gpm CO with a waiver (3.4 gpm CO without one). The California standards which Rolls-Royce was targeting its specifications to meet are 0.7 gpm NOx, 0.41 gpm HC, and 7.0 gpm CO. See RR App. p. 3. Thus, if Rolls-Royce's engine family met California's 1981 model year emission standards, it would also meet applicable Federal standards if a CO waiver were in effect.

¹⁶ Id. at p. 57.

¹⁷ Certification durability testing requires that a "durability vehicle" be tested at 5,000 mile intervals up to 50,000 miles to demonstrate an engine family's emissions performance over extended mileage. See 40 CFR 86.079-26(a)(4).

testing with CO emission levels below the statutory CO standard.¹⁸

Rolls-Royce did not submit data which were sufficient to establish that this engine family would be likely to have any problems meeting the statutory CO standard in production. Although Rolls-Royce indicated a desire to certify below the 3.4 gpm CO standard in order to assure a margin of safety in meeting the CO standard for its production vehicles,¹⁹ it submitted no specific data indicating what design targets it would use, how it would derive those targets, why it would need the safety margin these targets would provide, or how it would react if its certification test vehicle could not meet those targets.²⁰

Considerations of costs, driveability, or fuel economy offer no basis for altering my conclusion that Rolls-Royce has failed to establish that effective emissions control technology is not available for its 6.75 L/V-8 engine family. Rolls-Royce did not submit any specific supporting data which established that the increased costs, if any, which it would incur in conjunction with producing and marketing both a California vehicle and a 49-state vehicle to meet different sets of standards if the waiver were denied would be so great as to preclude it from continuing to market this engine family on a national scale. Rolls-Royce also could initially seek relief from California's stricter NOx emission standard from the State itself before it has to resort to applying for relaxation of the Federal CO standard if in fact cost considerations make it feasible for Rolls-Royce to market only a 50-state vehicle.

In any event, the certification vehicle test results show that the engine family, in addition to meeting the Federal 3.4 gpm CO standard, can also meet the 0.7 California NOx standard, and thereby

¹⁸ In addition, emission test results from a Rolls-Royce precertification development test vehicle demonstrate the ability of this engine family to meet the 3.4 gpm CO standard utilizing the standard Monte Carlo analysis, which I have used in earlier waiver decisions to project on the basis of available extended-mileage emission data the likelihood that an engine family will be able to meet statutory emission standards during certification durability testing. See Renault and Peugeot consolidated decision for a more detailed discussion of the Monte Carlo analysis, 45 FR 37359, 37361-37362, note 21 (June 2, 1980). The Rolls-Royce certification vehicle has finished the 50,000 miles necessary to complete certification testing and has met the 3.4 gpm statutory CO standard; therefore there is no need to use a Monte Carlo statistical simulation in this particular instance to evaluate the engine family's probability of passing certification testing. See App. A, section V.

¹⁹ July 17, 1980 Transcript, p. 48.

²⁰ For discussion of other CO waiver applicants' contentions relating to design targets, see, e.g., 44 FR 37362 (June 2, 1980); 44 FR 69416, 69427 (December 3, 1979).

simultaneously meet both Federal and California emission standards.²¹ Rolls-Royce has, thus, failed to establish that it is not capable of producing and marketing a uniform 6.75 L/V-8 engine family in all 50 states. Therefore, it is not necessary to change my decision to deny the waiver request based on the possible costs involved in marketing a California vehicle and a 49-state vehicle.

Rolls-Royce stated that the emission control system specifications which it would use if I granted the requested waiver and established a 7.0 gpm CO standard are the same as the specifications that Rolls-Royce used in its certification durability vehicle which demonstrated compliance with the 3.4 gpm CO standard.²² Rolls-Royce also stated that it does not expect any impact on either driveability or fuel economy by the grant or denial of the waiver request, since it plans on using the same emission control system specifications in either event.²³ Therefore, I have no basis for using these considerations to alter my conclusion that Rolls-Royce has failed to establish that effective emissions control technology is not available for its 6.75 L/V-8 engine family.

B. Protection of Public Health

According to the express terms of the statute, there is no need for me to determine whether waiver applications covering engine families for which applicants failed to establish the unavailability of effective control technology (considering costs, driveability, and fuel economy) meet any of the remaining statutory criteria in order for me to deny these applications. The Act requires me to deny waiver applications where an applicant has failed to meet any one of the criteria, regardless of whether such applicant could meet the remaining criteria. Nevertheless, I will address these issues briefly in the course of discussing the remaining criteria as I have done in my previous waiver decisions.

Section 202(b)(5)(C) of the Act states that before I grant a waiver covering a given engine family, I must find that protection of the public health does not require attainment of a 3.4 gpm CO standard by the vehicles of the engine family receiving the waiver.²⁴

While waiving the 1981 and 1982 statutory CO standards for the engine

family here arguably would not significantly affect public health,²⁵ noticeably increases in ambient CO levels could result from granting waivers industry-wide. In light of the fact that industry-wide waivers would not be protective of the public health, it is reasonable to grant waivers covering only that portion of the industry consisting of engine families for which I have determined that effective control technology, considering costs, driveability, and fuel economy, is not available (presuming these families also meet the remaining statutory criteria).²⁶

The National Automobile Dealers Association (NADA) submitted comments to the public docket claiming that EPA should grant a two-year, industry-wide waiver from the 3.4 gpm CO standard, and cited as support for that position the June 30, 1980 National Academy of Science report.²⁷ That NAS report concludes that the technology exists to meet the congressionally-mandated 3.4 gpm CO standard to be set at 3.4 gpm.²⁸ NADA claims that a 7.0 gpm CO standard is adequate to protect public health, and it relies on the NAS June 30, 1980 recommendation to re-evaluate the statutory 3.4 gpm CO standard as support for this contention.²⁹

I already have discussed the results of the air quality analysis which indicate that noticeable increases in ambient CO levels could result from a two-year, industry-wide waiver.³⁰ In further response to NADA's assertion that an industry-wide waiver would not adversely affect public health I refer to Congress' intent in including the waivers provision in the Act. In the 1977 Amendments to the Act, Congress specifically substituted the requirement that the Administrator make individual

²⁵ Rolls-Royce argued that granting a waiver to its 6.75 L/V-8 engine family would have an insignificant impact due to the fact that Rolls-Royce's projected sales amount to less than 0.00015% of total light-duty vehicle sales in the United States for the model years 1981 and 1982. RR. App. p. 7. For further discussion concerning this type of contention see the first decision, 44 FR 53376, 53381 and Appendix B at 44 FR 54402-53407 (September 13, 1979).

²⁶ I discussed the ambient air quality effect of granting CO waivers in each Appendix B in two previous decisions. 44 FR 53376, 53402-53407 (September 13, 1979) and 44 FR 69416, 69456-69462 (December 3, 1979).

²⁷ National Automobile Dealers Association Comments on Motor Vehicle Pollution Control Waiver of Carbon Monoxide Standards. Public Docket EN-80-14, July 25, 1980, p. 1.

²⁸ Report by the Committee on Motor Vehicle Emissions by the National Research Council of the National Academy of Sciences, June 30, 1980, pp. 15-16.

²⁹ National Automobile Dealers Association Comments on Motor Vehicle Pollution Control Waiver of Carbon Monoxide Standards. Public Docket EN-80-14, July 25, 1980, p. 1.

³⁰ See text accompanying note 26, supra.

CO waiver determinations for each vehicle model at issue in place of the requirement in the 1970 version of the Act to consider suspension of emission standards on a manufacturer-by-manufacturer basis. In so doing, Congress made clear that it wanted the Administrator to relax the statutory requirement calling for CO reduction of at least 90 percent only when appropriate and as narrowly and precisely as possible.

Indeed, discussions in Congress concerning the Act's current CO waiver provision include the explicit statement that "[t]he waiver is not a general waiver for all manufacturers, nor is it a general waiver for all models of vehicles produced by a single manufacturer."³¹ Instead, the waiver provision is to be available for a manufacturer's particular model line which cannot meet the 3.4 gpm standard in the 1981 or 1982 model years.³²

Based on such clear evidence of Congressional intent with respect to the application of the waivers provision, I believe it would exceed the scope of my authority to grant an industry-wide waiver as suggested by NADA. Section 202(b)(1)(A) of the Act mandates that the CO emissions standards for light-duty vehicles manufactured during or after the 1981 model year be at least a 90 percent reduction from emission of CO allowable in the 1970 model year; namely, 3.4 grams per mile. Congress established that standard (in conjunction with the other statutory emission standards) at the level which it determined would best address public health concerns, given the number of regions which need to reduce ambient CO to levels which are protective of public health. Congress did not intend that I relax the requirement for attaining the statutory emission levels it prescribed except for specific models meeting the set of criteria set forth in section 202(b)(5)(C) of the Act.

C. Essential to the Public Interest or to the Public Health and Welfare

Before I may grant a waiver request, section 202(b)(5)(C)(i) of the Act requires that I determine that granting the waiver is essential to the public interest or the public health and welfare.³³

I have determined that it is not essential to the public interest to grant a waiver to the Rolls-Royce 6.75 L/V-8

³¹ 123 Cong. Rec. S13703 (daily ed. Aug. 4, 1977) (remarks by Sen. Muskie).

³² Id. at S13702-13703.

³³ provision decisions discussed more fully the public interest and public health and welfare effects of engine families denied waivers. 44 FR 53387, 44 FR 69429 (September 13, 1979 and December 3, 1979).

²¹ App. A, Table V-4.

²² July 17, 1980 Transcript, p. 28.

²³ Id.

²⁴ These criteria are found in section 202(b)(5)(C) of the Act. For discussion regarding these criteria in earlier waiver decisions, see 44 FR 53376, 53378 (September 13, 1979); 44 FR 69416, 69420 (December 3, 1979); and 45 FR 7122, 7126 (January 31, 1980).

engine family where the applicant has failed to establish that this engine family is incapable of meeting a 3.4 gpm CO standard or is likely to incur significant risks associated with marketing available alternative technology which is capable of meeting that standard. Rolls-Royce has not established that in meeting the 3.4 gpm CO standard any costs (or other penalties) are involved which would be so substantial as to present a significant risk to the waiver applicant's ability to produce and competitively market vehicles of that engine family, or vehicles generally.³⁴

D. Risks in Determining Available Technology

In *International Harvester Co. v. Ruckelshaus*,³⁵ the United States Court of Appeals for the District of Columbia Circuit reviewed the Administrator's decision to deny manufacturers' requests for a one-year suspension (from 1975 to 1976) of the effective date of the statutory hydrocarbon (HC) and CO standards mandated by the 1970 version of the Act. The court stated, among other things, that the Administrator should have considered the risks associated with the possibility of erroneously granting or denying those requests. The court indicated that the Administrator should balance the economic costs (in terms of jobs and misallocated resources) possibly associated with an erroneous or only partially accurate denial versus the possible environmental benefits lost through an erroneous grant.

Even though the health risks associated with erroneous grants in the proceedings at hand may not be great, the risks associated with erroneous denials (which do not involve health considerations) also are significantly limited. My finding here that technology is available for an engine family to meet certification testing requirements is based on the actual successful completion of certification durability testing in compliance with the 3.4 gpm CO standard by the certification vehicles.³⁶ Rolls-Royce has not substantiated that it will incur any problems with achieving comparable

levels of CO emissions in its production vehicles, which do not rely on any substantial shift to untried emission control methods to achieve the 3.4 gpm CO standard.

Furthermore, an incorrect determination here would have the potential to adversely affect the production of only one engine family (or might result merely in Rolls-Royce having to produce separate California and Federal versions), as opposed to adversely affecting the ability of the industry as a whole to produce cars for the public generally. In light of Congress' expressed intent to afford a statutory waiver only in exceptional circumstances rather than on an across-the-board basis,³⁷ I have concluded that it is appropriate to deny waiver applications insofar as they cover engine families for which the manufacturer has failed to establish that effective control technology considering costs, driveability, and fuel economy is not available.

IV Conclusion

I have determined that Rolls-Royce has failed to establish that effective technology is unavailable to meet a 3.4 gpm CO standard for the 1981 and 1982 model years, even after considering costs, driveability and fuel economy. Therefore, I must deny the waiver request for this engine family.

Dated: October 8, 1980.

Douglas M. Costle,
Administrator.

[WH-FRL 1632-5]

Hazardous Waste Management System; Notice of Recent Congressional Action

AGENCY: United States Environmental Protection Agency.

ACTION: Notice of recent Congressional action.

SUMMARY: On October 1 and 2, 1980, the House and Senate passed a bill to amend the Resource Conservation and Recovery Act of 1976, as amended (RCRA). Among other things, this bill amends Section 3005(e) of RCRA to provide that a facility which is in existence as of November 19, 1980, and otherwise complies with the requirements of that section, may qualify for interim status. The

³⁷ See also discussion of the *International Harvester* case in two previous decisions. 44 FR 53376, 53387 (September 13, 1979); 44 FR 69416, 69429 and 69430 (December 3, 1979).

significance of obtaining interim status is explained in detail at 45 FR 33158-33159, 33323-33324 (May 19, 1980).

FOR FURTHER INFORMATION CONTACT: Larry Snowwhite, Office of Legislation, U.S. Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460, (202) 755-2687.

Dated: October 6, 1980.

James N. Smith,

Deputy Assistant Administrator for Water and Waste Management.

BILLING CODE 6560-29-M

[ER-FRL 1633-4]

Intent To Prepare an Environmental Impact Statement

AGENCY: U.S. Environmental Protection Agency (EPA), Region VII.

ACTION: Notice of Intent to prepare an environmental impact statement (EIS).

PURPOSE: In accordance with Section 102(2)(C) of the National Environmental Policy Act, EPA has identified a need to prepare an EIS and therefore issues this Notice of Intent pursuant to 40 CFR 1501.7.

FOR FURTHER INFORMATION CONTACT: Dr. Linda Kirkland, Environmental Impact Statement Program, Environmental Protection Agency, Region VII, 324 East 11th Street, Kansas City, Missouri 64106, Telephone: (Commercial) (816) 374-2921 (FTS 758-2921).

SUMMARY:

1. *Description of the Proposed Action:* Greene County, in southwest Missouri, occupies an area of Karst Topography containing three major watersheds. Due to intensive industrial development and other socioeconomic factors, as well as its proximity to major lake recreation areas, the county has experienced unprecedented growth over the past 25 years. Although this growth occurred mainly in the county's largest city, Springfield, a substantial amount has also occurred in the unincorporated areas and the remaining eight small towns and villages within the county. This growth has resulted in a potential for severe health and water pollution problems in much of the area's surface and groundwater systems due to water pollution from numerous septic tank installations. Because of this situation, the Greene County Court formed the Greene County Sewer District in 1977 to formulate a comprehensive and orderly plan for proper handling and disposal of wastewater through the Environmental Protection Agency's 201 Facility Planning Grant Program.

³⁴ This point was discussed in the public interest analysis section in previous decisions regarding engine families denied waivers. 44 FR 53376, 53385 (September 13, 1979); 44 FR 69416, 69430 (December 3, 1979); 45 FR 7122 (January 31, 1980); 45 FR 7914 (March 19, 1980). Appendix A contains a closer examination of these penalties. App. A, sections V-IX. See also, 44 FR 53376, 53385, 53386 (September 13, 1980). Section III(D), *infra*, presents a more detailed discussion of my consideration of the risks at issue.

³⁵ 478 F. 2d 615 (D.C. Cir. 1973). For further discussion of this case, see 44 FR 53376, 53388 (September 13, 1979).

³⁶ See App. A, section V.

The EPA action to be evaluated in the environmental impact statement (EIS) would be the approval of a facilities plan and the issuance of grant funds pursuant to Section 201 of the Clean Water Act for the design and construction of wastewater treatment facilities for the Greene County Sewer District. The facilities planning and environmental impact study areas include all of the incorporated (except the City of Ash Grove) and unincorporated areas of Greene County and 26 sections of north central Christian County.

2. Description of Alternatives:

Preliminary planning by the facility planning consultants, Hood-Rich Architects and Consulting Engineers, of Springfield, Missouri, has divided the study area into four distinct categories. These include the unincorporated rural nongrowth areas, unincorporated growth areas, incorporated cities and villages and water supply protection drainage basins. For all these categories the "no action alternative" allowing for continued use of existing practices will be evaluated. In the unincorporated rural nongrowth areas, consideration will also be given to single or cluster systems with onsite treatment and disposal or cluster systems with onsite treatment and disposal to surface waters. In the remainder of the planning area, other alternatives to be considered will be (1) single or cluster systems with onsite treatment and disposal, (2) cluster systems with onsite treatment and surface water discharge, (3) conventional gravity or alternative sewer collection systems with treatment and surface water discharge, and (4) conventional gravity or alternative sewer collection systems with treatment and reuse of land application.

In all cases, consideration will be given to interim and permanent facilities including regionalized systems.

3. Public and Private participation in the EIS Process:

Full participation by interested Federal, state and local agencies, as well as other interested private organizations and parties is invited. The public will be involved to the maximum extent possible and is encouraged to participate in the planning process. A public participation coordinator will be chosen in the near future.

Significant issues to be discussed in the EIS include:

- a. The effects of treated effluent on surface and groundwater.
- b. The effects of wastewater collection and treatment systems on land use.

c. The effects of induced growth on water supply.

d. The effects of the project on air quality, aesthetics and environmentally sensitive areas.

e. The effects of the project on archaeological, historic, or cultural sites or areas.

f. The effects of the project on the local tax rate(s) and sewer user costs.

4. Scoping:

The first public meetings will be conducted by EPA Region VII to obtain assistance in identification of significant environmental issues and to determine a reasonable scope for the EIS. Two meetings are scheduled for October 27, 1980; one, at 2:00 p.m. in the Greene County Courtroom, 833 Boonville Avenue, Springfield, and one for 7:30 p.m. at the Hillcrest High School, 3319 North Grant Avenue, Springfield.

5. Timing:

EPA estimates that the draft EIS will be available for public review and comment about August 1981.

6. Requests for Copies of Draft EIS:

All interested parties are encouraged to submit their name and address to the person indicated above for inclusion on the distribution list for the draft EIS and related public notices.

William N. Hedeman, Jr.,

Director, Office of Environmental Review.

Dated: October 2, 1980.

BILLING CODE 6560-37-M

[OPTS-50020; TS-FRL 1632-7]

Navy Publication and Printing Office and the Environmental Protection Agency; Interagency Agreement to Microfiche Certain Confidential Documents

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: An Interagency Agreement (IAG) is being established between EPA and the Navy Publication and Printing Office (NPPO) to microfiche confidential documents submitted by the chemical industry to EPA under various sections of the Toxic Substances Control Act (TSCA).

DATE: The agreement will be in effect no sooner than 10 working days after the publication of this notice in the *Federal Register* and will remain in effect through September 30, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. John B. Ritch, Jr., Director, Industry Assistance Office (TS-793), Office of Pesticides and Toxic Substances, Environmental Protection Agency, 401 M

Street, SW., Washington, DC: 20460, 202/554-1404 or Toll free 800/424-9065.

SUPPLEMENTARY INFORMATION: Under sections 4, 5, 6, 8, and 12 of TSCA, manufacturers, processors, distributors, and exporters of chemical substances are, or will be, required to submit information. The Office of Toxic Substances (OTS), EPA, is responsible for processing and storing this information. As the number of rules and regulations proposed and promulgated in support of TSCA increases, the quantity of information received by OTS will continue to grow. The implementation of this agreement will significantly reduce storage space for this information.

Under this agreement, documents including confidential business information will be microfilmed in a NPPO secure facility capable of processing the quantity of documents received from OTS. Photoready copies of the confidential documents will be picked up at EPA by the Microfilm Section of the NPPO. NPPO may not subcontract any of the procedures associated with processing these materials. NPPO will return to EPA the original document and one silver halide master fiche per document. No confidential business information will be retained by NPPO.

Pursuant to the TSCA Confidential Business Information Security Manual, NPPO has been authorized to have access to this information. NPPO's facilities have been found to be in compliance with the requirements of the TSCA Confidential Business Information Security Manual. NPPO is required to treat all TSCA confidential business information in accordance with the requirements of that manual. (TSCA (Pub. L. 94-469, 90 Stat, 2003m 15 U.S.C. 2601 et seq.))

Dated: September 26, 1980.

Warren R. Muir,

Deputy Assistant Administrator for Toxic Substances.

[FR Doc. 80-31803 Filed 10-10-80; 8:45 am]

BILLING CODE 6560-31-M

[OPTS-51151; TS-FRL 1632-8]

Octanamine, N,N-Dimethyl-Phosphate Salt; Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before

manufacture or import commences. Section 5(d)(2) requires EPA to publish in the **Federal Register** certain information about each PMN within 5 working days after receipt. This Notice announces receipt of a PMN and provides a summary.

DATE: Written comments by November 16, 1980.

ADDRESS: Written comments to: Document Control Officer (TS-793), Office of Pesticide and Toxic Substances, Environmental Protection Agency, 401 M St. SW., Washington, D.C. 20460 (202-755-8050).

FOR FURTHER INFORMATION CONTACT: Kirk Maconaughey, Chemical Control Division (TS-794), Office of Pesticides and Toxic Substances, Environmental Protection Agency, 401 M St. SW., Washington, D.C. 20460 (202-426-3936).

SUPPLEMENTARY INFORMATION: Section 5(a)(1) of TSCA [90 Stat. 2012 (15 U.S.C. 2604)], requires any person who intends to manufacture or import a new chemical substance to submit a PMN to EPA at least 90 days before manufacture or import commences. A "new" chemical substance is any substance that is not on the Inventory of existing substances compiled by EPA under Section 8(b) of TSCA. EPA first published the Initial Inventory on June 1, 1979. Notices of availability of the Inventory were published in the **Federal Register** of May 15, 1979 (44 FR 28558—Initial) and July 29, 1980 (45 FR 50544—Revised). The requirement to submit a PMN for new chemical substances manufactured or imported for commercial purposes became effective on July 1, 1979.

EPA has proposed premanufacture notification rules and forms in the **Federal Register** issues of January 10, 1979 (44 FR 2242) and October 16, 1979 (44 FR 59764). These regulations, however, are not yet in effect. Interested persons should consult the Agency's Interim Policy published in the **Federal Register** of May 15, 1979 (44 FR 28564) for guidance concerning premanufacture notification requirements prior to the effective date of these rules and forms. In particular, see page 28567 of the Interim Policy.

A PMN must include the information listed in Section 5(d)(1) of TSCA. Under section 5(d)(2) EPA must publish in the **Federal Register** nonconfidential information on the identity and use(s) of the substance, as well as a description of any test data submitted under section 5(b). In addition, EPA has decided to publish a description of any test data

submitted with the PMN and EPA will publish the identity of the submitter unless this information is claimed confidential.

Publication of the section 5(d)(2) notice is subject to section 14 concerning disclosure of confidential information. A company can claim confidentiality for any information submitted as part of a PMN. If the company claims confidentiality for the specific chemical identity or use(s) of the chemical, EPA encourages the submitter to provide a generic use description, a nonconfidential description of the potential exposures from use, and a generic name for the chemical. EPA will publish the generic name, the generic use(s), and the potential exposure descriptions in the **Federal Register**.

If no generic use description or generic name is provided, EPA will develop one and after providing due notice to the submitter, will publish an amended **Federal Register** notice. EPA immediately will review confidentiality claims for chemical identity, chemical use, the identity of the submitter, and for health and safety studies. If EPA determines that portions of this information are not entitled to confidential treatment, the Agency will publish an amended notice and will place the information in the public file, after notifying the submitter and complying with other applicable procedures.

After receipt, EPA has 90 days to review a PMN under section 5(a)(1). The section 5(d)(2) **Federal Register** notice indicates the date when the review period ends for each PMN. Under section 5(c), EPA may, for good cause, extend the review period for up to an additional 90 days. If EPA determines that an extension is necessary, it will publish a notice in the **Federal Register**.

Once the review period ends, the submitter may manufacture the substance unless EPA has imposed restrictions. When the submitter begins to manufacture the substance, he must report to EPA, and the Agency will add the substance to the Inventory. After the substance is added to the Inventory, any company may manufacture it without providing EPA notice under section 5(a)(1)(A).

Exposure.

Activity	Exposure route	Maximum number exposed	Maximum duration		Concentration (ppm)	
			Hours/day	Day/year	Average	Peak
Manufacturing	Dermal	10	2	35		> 100

Therefore, under the Toxic Substances Control Act, a summary of the data taken from the PMN is published herein.

Interested persons may, on or before November 16, 1980, submit to the Document Control Officer (TS-793), Rm. E-447, Office of Pesticides and Toxic Substances, 401 M St. SW., Washington, D.C. 20460, written comments regarding this notice. Three copies of all comments shall be submitted, except that individuals may submit single copies of comments. The comments are to be identified with the document control number "(OPTS-51151)" and the specific PMN number. Comments received may be seen in the above office between 8:00 a.m. and 4:00 p.m., Monday through Friday, excluding holidays.

(Sec. 5, 90 Stat. 2012 (15 U.S.C. 2604))

Dated: October 6, 1980.

Warren R. Muir,

Deputy Assistant Administrator for Toxic Substances.

PMN 80-255.

Close of Review Period. December 16, 1980.

Manufacturer's Identity. Sybron Corp., Chemical Division-Tanatex, P.O. Box 125, Wellford, SC 29385.

Specific Chemical Identity. Octanamine, *N,N*-dimethyl-phosphate salt.

The following summary is taken from data submitted by the manufacturer in the PMN.

Use. Textile dyeing assistant.
Production Estimates.

	Kilograms per year	
	Minimum	Maximum
1st year	8,000	32,000
2d year	16,000	80,000
3d year	16,000	160,000

Physical/Chemical Properties.
(Diluted solution of the PMN substance):

Appearance—Clear liquid.
Color—Water white.
pH (1%)—3-6.
Specific gravity (25° C)—1.05.
Refractive index (25° C)—1.397-1.399.
Water—1.51-54%.

Toxicity Data.

Primary skin irritation index: 3.08—moderately irritating—no other data submitted.

The manufacturer claims that contact with the new substance would be due to accidents or poor handling practices.

Environmental Release/Disposal. Sybron Corp. states that: Between 100-1,000 kilograms (kg) of the new substance will be released to the environment per year and any spills will be diluted and washed to the waste treatment system.

Availability of Environmental Impact Statements

AGENCY: Office of Environmental Review (A-104), U.S. Environmental Protection Agency.

PURPOSE: This notice lists the Environmental Impact Statements (EISS) which have been officially filed with the EPA and distributed to Federal agencies and interested groups, organizations and individuals for review pursuant to the council on Environmental Quality's regulations (40 CFR part 1506.9).

PERIOD COVERED: This notice includes EIS's filed during the week of September 29, 1980 to October 3, 1980.

REVIEW PERIODS: The 45-day review period for draft EIS's listed in this notice is calculated from October 10, 1980 and will end on November 24, 1980. The 30-day review period for final EIS's as calculated from October 10, 1980 will end on November 10, 1980.

EIS AVAILABILITY: To obtain a copy of an EIS listed in this notice you should contact the Federal agency which prepared the EIS. This notice will give a contact person for each Federal agency which has filed an EIS during the period covered by the notice. If a Federal agency does not have the EIS available upon request you may contact the Office of Environmental Review, EPA, for further information.

BACK COPIES OF EIS'S: Copies of EIS's previously filed with EPA or CEQ which are no longer available from the originating agency are available with charge from the following source: Information Resources Press, 1700 North Moore Street, Arlington, Virginia 22209, (703) 558-8270.

SUMMARY OF NOTICE: This notice sets forth a list of EIS's filed with EPA during the week of September 29, 1980 to October 3, 1980. The Federal agency filing the EIS, the name, address, and telephone number of the Federal agency contact for copies of the EIS, the filing status of the EIS, the actual date the EIS was filed with EPA, the title of the EIS. The State(s) and county(ies) of the proposed action and a brief summary of the proposed Federal action and the Federal agency EIS number, if available,

is listed in this notice. Commenting entities on draft EIS's are listed for final EIS's. All additional information relating to EIS's such as time extensions or reductions of prescribed review periods, withdrawals, retractions, corrections, or supplemental reports is also noticed under the appropriate agency.

FOR FURTHER INFORMATION CONTACT: Kathi L. Wilson, Office of Environmental Review, Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460, (202) 245-3006.

Dated: October 7, 1980

William N. Hedeman, Jr.,

Director, Office of Environmental Review (A-104)

DEPARTMENT OF AGRICULTURE

Contact: Mr. Barry Flamm, Director, Office of Environmental Quality, Office of the Secretary, U.S. Department of Agriculture, Room 412-A Admin. Building, Washington, D.C. 20250, (202) 447-3965.

Forest Service

Final Supplement

Flathead Wild and Scenic River Designation (FS-1), Flathead County, Mont., Oct. 1: Proposed is the designation of Three Forks of the Flathead River as Wild and Scenic. These forks are located in Flathead County, Montana. This supplement addresses the scenic easement provisions and recommends: (1) Public use be permitted on privately owned shoreland, (2) Protection of Wild and Scenic Resources, (3) All new structures blend with the natural environmental, (4) Reduction in cost, (5) Permit commercial facilities, and (6) Insurance of compliance while locating landowners. This statement supplements final EIS, No. 770337, filed 3-16-77. Comments made by: local agencies, groups and individuals. (EIS order No. 800765.)

Correction

The Draft Supplement, No. 791304, concerning the Flathead River Wild and Scenic Designation, Flathead County, Montana, was not filed at the time of distribution. The official **Federal Register** date has been established as October 26, 1979. Therefore the comment period officially ended on December 10, 1979.

Soil Conservation Service

Final

Big Muddy Creek Watershed, Butler and Logan counties, Ky., October 1: Proposed is a watershed protection and flood prevention plan for the Big Muddy Creek Watershed in

Butler and Logan Counties, Kentucky. The plan includes: (1) Construction of a floodwater retarding structure, (2) alteration of 17.5 miles of stream channel, and (3) continued application of the current land treatment program. The alternatives consider: (1) No action, (2) structural measures only, and (3) nonstructural measures only (USDA-SCS-EIS-WS-(ADM)-79-2-(F)-KY). Comments made by: COE, HEW, DOI, DOT, EPA, AHP, USDA, State agencies. (EIS Order No. 800755.)

Corrections

Rural Electrification Administration

Guthrie County Generating Station, published in the September 26, 1980, **Federal Register** was filed on *September 19, 1980*, not *April 19, 1980*. (EIS Order No. 800720.)

Soil Conservation Service

Washington Mountain Brook Watershed, Berkshire County, Massachusetts, published in the September 19, 1980, **Federal Register** had an incorrect statement stating *50 miles of concrete channel*. The correct wording is *50 feet of concrete channel* (EIS Order No. 800677.)

U.S. Army Corps of Engineers

Contact: Mr. Richard Makinen, Office of the Chief of Engineers, Attn: DAEN-CWR-P, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 20 Massachusetts Avenue, Washington, D.C. 20314, (202) 272-0121

Draft

Eldred and Spankey Drainage Flood Protection, Greene and Jersey Counties, Ill., September 30: Proposed is a flood control plan for Eldred and Spankey Drainage and Levee District in Greene and Jersey Counties, Illinois. The district is located along the east bank of the Illinois River. The recommended plan involves: (1) raising and enlarging the existing levee, (2) relocation of a section of the levee, (3) installation of pressure relief walls and adjacent to the levee, (4) construction of two closure structures, (5) use of interior borrow sites, and (6) alter pump station discharge pipes (St. Louis District.) (EIS Order No. 800752.)

Extension

The review period for the above EIS, Eldred and Spankey drainage flood protection, has been extended to December 12, 1980.

Final

Boston Harbor, debris removal and disposal Suffolk County, Mass., October 2: The proposed project provides for a one-time program to rid Boston harbor, located in Suffolk County, Massachusetts of its sources of floatable debris. These sources are potentially hazardous to navigation, suppressant to land values and aesthetically unpleasant. The debris include dilapidated shorefront structures, derelict vessels and loose on-shore debris. Existing floating debris will be removed from the harbor area. All debris would be delivered to one or the other of two staging areas, crushed and compacted

and taken to a sanitary landfill in Marshfield for disposal. (New England District). Comments made by: AHP, DOC, HUD, DOI, EPA, DOT, State and local agencies. (EIS Order No. 800758.)

Supplemental Information Reports

Maintenance dredging Hampton Creek, Hampton, Virginia, filed October 2, 1980. (EIS Order No. 800765.)

Greenville Harbor, 404 Evaluation, Mississippi, filed October 2, 1980. (EIS Order No. 800767.)

Retraction

Final Supplement: Dickey-Lincoln School Lakes Project, Aroostook County, Maine, published in the October 3, 1980, **Federal Register**, filed September 24, 1980, has been retracted due to nondistribution. (EIS Order No. 800729.)

Department of Commerce

Contact: Dr. Robert T. Miki, Acting Deputy Assistant Secretary for Regulatory Policy, Room 7614, Department of Commerce, Washington, D.C. 20230, (202) 377-2482.

Economic Development Administration

Draft

Industrial/commercial area Trumbull County, Trumbull, Ohio, October 2: Requested are grant funds for the extension of an interceptor sewer to a proposed industrial/commercial area in Trumbull County, Ohio. The 1.5 mile, 30-inch sewer would be constructed from the existing Red Run sewer along Park Avenue, to the proposed industrial/commercial area. The purpose of the project is to promote and stimulate industrial and commercial development in the county. Alternatives to the proposed action include no action and various sewer designs, locations, and capacities to serve the proposed industrial/commercial area. (EIS Order No. 800760.)

Withdrawal

National Oceanic and Atmospheric Administration

Draft:

Pink shrimp fishery off Washington, Oregon, and California published in the July 7, 1980 **Federal Register**, filed June 27, 1980, is hereby officially withdrawn by the Department of Commerce.

Environmental Protection Agency

Contact: Mr. T. A. Wastler, Chief, Marine Protection Branch (WH-548), Environmental Protection Agency, Washington, D.C. 20460, (202) 472-2836.

Final

Hawaiian ocean disposal sites, designation, several counties, Hawaii, Pacific Ocean, October 1: Proposed is the designation of five Hawaiian ocean disposal sites for continuing use for the disposal of maintenance dredged material. The proposed sites are off the islands of Oahu, Kauai, Maui, and Hawaii. The counties involved include Honolulu, Kauai, Maui and Hawaii. The Oahu site would be used by the COE and navy for the disposal of material from

Honolulu and Pearl Harbors. The other sites would be used by the COE as disposal sites for the adjacent harbor. The alternatives considered are no action and use of other sites. Comments made by: DOC, COE, USN, HEW, DOI, STAT, State and local agencies, groups. (EIS Order No. 800756.)

Nuclear Regulatory Commission

Contact: Mr. Voss A. Moore, Assistant Director for Environmental Projects, Nuclear Regulatory Commission, P-518, Washington, D.C. 20555, (301) 492-8446.

Final

Uranium Milling, Generic Statement, Programmatic, October 2: This is a generic EIS concerning uranium milling which examines associated problems for the purpose of future regulatory changes, to be proposed as a result of this analysis. The problems examined include controlling emissions from mills during operations and the problem of mill decommissioning. The latter includes the special problem of dealing with the large volume wastes (mill tailing) produced by milling operations. (NUREG-0706). Comments made by: COE, DOI, HEW, FERC, DOE, EPA, USDA, State and local agencies, groups, individuals, and businesses. (EIS Order No. 800762.)

Department of HUD

Contact: Mr. Richard H. Broun, Director, Office of Environmental Quality, Room 7274, Department of Housing and Urban Development, 451 7th Street, S.W., Washington, D.C., 20410, (202) 755-6300.

Draft

Rancho Isabella Subdivision Mortgage Insurance, Brazoria County, Tex., October 2: Proposed is the granting of mortgage insurance for the Rancho Isabella subdivision in the City of Angleton, Brazoria County, Texas. Specific development objectives have been established for approximately 473 acres. 161 acres will be used for residential area within the city limits. The remaining 312 acres will be used for a proposed municipal utility district. The residential area will contain approximately 1,636 lots and will accommodate a population of 5,071 people over the next 5 to 10 years. The three alternatives are: (1) HUD acceptance of the subdivision as proposed, (2) HUD rejection of the subdivision and (3) HUD acceptance with modification. (HUD-RO-6-EIS-80-7D). (EIS Order No. 800761.)

Correction

White center drainage improvement project King County, Washington, published in the September 5, 1980 **Federal Register** contained an incorrect statement asking for the awarding of a UDAG. The correct statement is the proposed awarding of a CDBG. (EIS Order No. 800652.)

Federal Energy Regulatory Commission

Contact: Dr. Jack M. Heinemann, Advisor on Environmental Quality, Room 3000 S-22, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, (202) 357-8228.

Final

Trailblazer Pipeline System, Wyoming, Colorado, Nebraska, October 1: Proposed is the construction and operation of the Trailblazer Pipeline System extending from Uintah County, Wyoming through Colorado to Gage County, Nebraska. The facilities would consist of approximately 819 miles of 36 inch diameter pipeline, 12 miles of 24 inch diameter pipeline, and 28,700 horsepower of compression. The pipeline would transport natural gas from the Rocky Mountain area to markets of that area, the East, and Midwest. The alternatives consider: (1) no action, (2) use existing pipelines, and (3) pipeline sizing (FERC/EIS-0018). Comments made by: AHP, COE, DOC, HEW, DOI, EPA, State and local agencies, groups. (EIS Order No. 800757.)

Department of Energy

Contact: Dr. Robert Stern, Acting Director, NEPA Affairs Division, Department of Energy, Mail Station 4G-064, Forrestal Building, Washington, D.C. 20585, (202) 252-4600.

Draft Supplement

Dickey-Lincoln School Lakes project, several counties, Maine, New Hampshire, Vermont, October 3: Proposed is the construction of a steel double-circuit 345-kv transmission line from Moore substation near Littleton, New Hampshire, to Comerford substation near Monroe, New Hampshire, a 345-kv wood pole transmission line from Comerford substation to Webster substation near Franklin, New Hampshire. The total length of the proposed line is 73.8 miles. The alternatives consider: (1) no build, (2) use of existing transmission system, (3) alternative transmission routes, and (4) different types of tower and reconductoring. This statement supplements a DEIS No. 780337, filed 4-6-78. The cooperating agency is the COE (DOE/EIS-008-DS). (EIS Order No. 800764.)

Department of Interior

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 4256 Interior Building, Department of the Interior, Washington, D.C. 20240, (202) 343-3891.

Bureau of Land Management

Final

California Desert Conservation Area, several counties, California, October 2: Proposed is a management plan for the California Desert Conservation Area. The area encompasses 12.1 acres of Federal land in several counties of California. Four alternative plans have been developed which provide designations of: (1) intensive use and development, (2) moderate use with competing resource tradeoffs, (3) limited use favoring protection of sensitive resources, and (4) controlled use preserving wilderness values. The alternatives include: (1) no action, (2) protection-oriented plan, (3) balanced plan, and (4) use-oriented plan (FES-80-40). Comments made by: DOI, DOD, DOT, USDA, EPA, CEQ, DOE, COE, USN, USAF, State and local agencies, groups. (EIS Order No. 800743.)

Extension

The review period for the above EIS, California Desert Conservation Area,

California, has been extended to November 18, 1980.

Gunnison Basin/Silverton Unit, Grazing management, several counties, Colorado, September 29: Proposed is a domestic livestock grazing management program for the Gunnison Basin Resource Area and Silverton Planning Unit in Gunnison, Hinsdale, San Juan, Saguache and Montrose Counties, Colorado. The area encompasses 637,277 acres and 167 livestock grazing allotments. The preferred action involves: (1) setting initial livestock grazing allocations at 44,542 AUMS, (2) implement grazing systems around Spring Rest requirements for forage plants, and (3) construct various range improvements. The alternatives include: (1) Fall Rest, (2) no action, (3) elimination of livestock grazing, (4) optimize wildlife and watershed values, and (5) optimize livestock grazing (FES-80-42). Comments made by: EPA, DOI, USDA, State and local agencies, groups, individuals and businesses. (EIS Order No. 800749.)

Final

San Juan Livestock Grazing Management Program, San Juan, Rio Arriba, Sandoval, N. Mex., September 30: Proposed is implementation of a livestock grazing management program for the San Juan Planning Unit in San Juan, Rio Arriba and Sandoval Counties, New Mexico. The program proposes to allocate vegetation to livestock, big game, and wild horses; determine the levels of livestock grazing management; identify needed livestock support facilities; outline a general implementation schedule; list the standard procedures for operation; and coordinate with other programs in the region. The alternatives consider: (1) no action, (2) elimination of livestock grazing, (3) maximization of livestock forage production, and (4) enhancement of other resource values (FES-80-39). Comments made by: USDA, AHP, EPA, State and local agencies, groups and individuals. (EIS Order No. 800754.)

Ironside Grazing Management Program, Baker, and Malheur Counties, Oreg., September 29: Proposed is the implementation of a livestock grazing management program for the Ironside area in Baker and Malheur Counties, Oregon. The area encompasses 1,001,964 acres of public land. Intensive grazing is proposed on 914,000 acres, nonintensive on 71,131 acres, unallotted status on 14,219 acres and elimination of grazing on 2,609 acres. Implementation of program would include: (1) allocation of vegetation to livestock, wild horses, wildlife and nonconsumptive uses; (2) establishment of grazing systems; and (3) construction of range improvements (FES-80-43). Comments made by: DOI, AHP, EPA, State and local agencies, groups, individuals and businesses. (EIS Order No. 800751.)

Final

Cowhead-Massacre Planning Unit, Washoe County, Nev., Lassen and Modoc Counties, Calif., September 29: Proposed is the implementation of a livestock grazing management program for the Cowhead/Massacre Planning Units in Washoe County, Nevada and Lassen and Modoc Counties,

California. Program components are: (1) constraint of livestock grazing use, and (2) grazing treatment, including no grazing on 97,000 acres, rest-rotation with light forage use on 237,000 acres, rest-rotation with moderate forage use on 368,000 acres, fall/winter grazing on 159,000 acres, private land management on 50,000 acres, and periodic grazing on 23,000 acres. Eight alternatives are considered (FES-80-41). Comments made by: DOT, USDA, DOI, EPA, COE, State agencies, groups, individuals and businesses. (EIS Order No. 800750.)

National Park Service

Final

Delaware Water Gap National Recreation Area, several counties, Pa., N.J., October 3: Proposed is a general management plan for Delaware Gap National Recreation Area, Pennsylvania and New Jersey to guide park development and management. The alternatives considered are: (1) no action, (2) deauthorization, (3) no development served by U.S. 209, (4) public transportation system within the national recreation area, (5) Mount Minsi development, (6) fee collection, (7) require permits for canoes, (8) provide fast-food service at Copper Mine Inn, (9) pedestrian ferries, and (10) reroute portion of Appalachian Trail (DES-80-65). (EIS Order No. 800763.)

Extension

Fish and Wildlife Service

Final

Currituck Outer Banks National Wildlife Refuge, North Carolina, published in the September 12, 1980 *Federal Register* filed September 3, 1980 has been extended from October 14, 1980 to November 14, 1980. (EIS Order No. 800656.)

Department of Transportation

Contact: Mr. Martin Convisser, Director, Office of Environment and Safety, U.S. Department of Transportation, 400 7th Street, SW., Washington, D.C. 20590, (202) 426-4357.

Federal Highway Administration

Draft

Charles Town Bypass U.S. 340 and WV-9, Jefferson County, W. Va., October 2: Proposed is the improvement of the Charles Town Bypass, U.S. 340 and WV-9, Jefferson County, West Virginia. Four build alternatives are considered along with the no build alternative. The design of the roadway for any of the build alternatives will be a four-lane, partially controlled access facility consisting of four 12-foot travel lanes, two in each direction, separated by an 18- to 40-foot median. The outside shoulder width will be 12 feet, the inside shoulder width 6 feet and the average right of way width 300 feet. Two sets of railroad tracks will be crossed, one on a 48-foot high bridge and the other on a 28-foot high bridge (FHWA-WV-EIS-80-01-D). (EIS Order No. 800759.)

Extension

The review period for the above EIS, Charles Town Bypass, U.S. 340 and WV-9, West Virginia, has been extended to December 5, 1980.

Federal Highway Administration

Draft

U.S. 7, VT-125 to Happy Valley Rd./Exchange Street, Addison County, Vermont, published in the September 26, 1980 *Federal Register* filed September 17, 1980 has been extended from November 10, 1980 until November 14, 1980. This EIS was incorrectly published as a *final EIS*. The correct status is *draft EIS*. (EIS Order No. 800703.)

[FR Doc. 80-31875 Filed 10-10-80; 8:45 am]

BILLING CODE 6560-01-M

[OPTS-51153; TS FRL 1633-1]

Toxic Substances; Certain Chemicals Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Section 5(d)(2) requires EPA to publish in the *Federal Register* certain information about each PMN within 5 working days after receipt. This Notice announces receipt of two PMN's and provides a summary of each.

DATE: Written comments by November 17, 1980.

ADDRESS: Written comments to: Document Control Officer (TS-793), Office of Pesticides and Toxic Substances, Environmental Protection Agency, 401 M St., SW, Washington, DC 20460, (202-755-8050).

FOR FURTHER INFORMATION CONTACT: Rick Green, Chemical Control Division (TS-794), Office of Pesticides and Toxic Substances, Environmental Protection Agency, 401 M St., SW, Washington, DC 20460, (202-426-3980).

SUPPLEMENTARY INFORMATION: Section 5(a)(1) of TSCA [90 Stat. 2012 (15 U.S.C. 2604)], requires any person who intends to manufacture or import a new chemical substance to submit a PMN to EPA at least 90 days before manufacture or import commences. A "new" chemical substance is any substance that is not on the Inventory of existing substances compiled by EPA under section 8(b) of TSCA. EPA first published the Initial Inventory on June 1, 1979. Notices of availability of the Inventory were published in the *Federal Register* of May 15, 1979 (44 FR 28558-Initial) and July 29, 1980 (45 FR 50444-Revised). The requirement to submit a PMN for new chemical substances manufactured or imported for

commercial purposes became effective on July 1, 1979.

EPA has proposed premanufacture notification rules and forms in the **Federal Register** issues of January 10, 1979 (44 FR 2242) and October 16, 1979 (44 FR 59764). These regulations, however, are not yet in effect. Interested persons should consult the Agency's Interim Policy published in the **Federal Register** of May 15, 1979 (44 FR 28564) for guidance concerning premanufacture notification requirements prior to the effective date of these rules and forms. In particular, see page 28567 of the Interim Policy.

A PMN must include the information listed in section 5(d)(1) of TSCA. Under section 5(d)(2) EPA must publish in the **Federal Register** nonconfidential information on the identity and use(s) of the substance, as well as a description of any test data submitted under section 5(b). In addition, EPA has decided to publish a description of any test data submitted with the PMN and EPA will publish the identity of the submitter unless this information is claimed confidential.

Publication of the section 5(d)(2) notice is subject to section 14 concerning disclosure of confidential information. A company can claim confidentiality for any information submitted as part of a PMN. If the company claims confidentiality for the specific chemical identity or use(s) of the chemical, EPA encourages the submitter to provide a generic use description, a nonconfidential description of the potential exposures from use, and a generic name for the chemical. EPA will publish the generic name, the generic use(s), and the potential exposure descriptions in the **Federal Register**.

If no generic use description or generic name is provided, EPA will develop one and after providing due notice to the PMN submitter, will publish an amended **Federal Register** notice. EPA immediately will review confidentiality claims for chemical identity, chemical use(s), the identity of the submitter, and for health and safety studies. If EPA determines that portions of this information are not entitled to confidential treatment, the Agency will publish an amended notice and will place the information in the public file, after notifying the submitter and complying with other applicable procedures.

After receipt, EPA has 90 days to review a PMN under section 5(a)(1). The section 5(d)(2) **Federal Register** notice indicates the date when the review period ends for each PMN. Under

section 5(c), EPA may, for good cause, extend the review period for up to an additional 90 days. If EPA determines that an extension is necessary, it will publish a notice in the **Federal Register**.

Once the review period ends, the submitter may manufacture the substance unless EPA has imposed restrictions. When the submitter begins to manufacture the substance, he must report to EPA, and the Agency will add the substance to the Inventory. After the substance is added to the Inventory, any company may manufacture it without providing EPA notice under section 5(a)(1)(A).

Therefore, under the Toxic Substances Control Act, summaries of the data taken from the PMN's are published herein.

Interested persons may, on or before November 17, 1980, submit to the Document Control Officer (TS-793), Rm. E-447, Office of Pesticides and Toxic Substances, 401 M St., SW, Washington, DC 20460, written comments regarding these notices. Three copies of all comments shall be submitted, except that individuals may submit single copies of comments. The comments are to be identified with the document control number "[OPTS-51153]" and the specific PMN number. Comments received may be seen in the above office between 8:00 a.m. and 4:00 p.m., Monday through Friday, excluding holidays.

(Sec. 5, 90 Stat. 2012 (15 U.S.C. 2604)).

Dated October 6, 1980.

Warren R. Muir,

Deputy Assistant Administrator for Toxic Substances.

PMN 80-258

Close of Review Period. December 17, 1980.

Manufacturer's Identity. Claimed confidential business information.

Generic information provided:
Annual sales—Between \$100 million and \$500 million.

Manufacturing site—Mid-Atlantic region, U.S.

Standard Industrial Classification Code—284.

Specific Chemical Identity. Claimed

confidential business information. Generic name provided: Unsaturated branched chain ketone having 12 carbons atoms.

The following summary is taken from data submitted by the manufacturer in the PMN.

Use. Claimed confidential business information. Generic use provided: The manufacturer states that the substance will be used in an open use (and in a destructive use) that will release less than 50 kilograms (kg) of the substance to the environment per year.

Production Estimates

	Kilograms per year	
	Minimum	Maximum
First year.....	800	2,000
Second year.....	3,000	6,000
Third year.....	6,000	32,000

Physical/Chemical Properties:

Boiling point—65–82°C at 3mm Hg.
Appearance—Clear liquid.
Solubility—Insoluble in water; soluble in organic solvent.

Toxicity Data:

Oral LD₅₀ (rat)—Final report in preparation. (3–5 g/kg).

Dermal LD₅₀ (rat)—Final report in preparation. (> 5g/kg).

Skin irritation (guinea pig)—At 30% in ethanol, slight reaction under full occlusion. At 15% in ethanol, no reaction under full occlusion.

Skin irritation (human)—Final report in preparation. At 15% in ethanol, it was non-irritating under semi-occlusion.

Eye irritation (rabbit)—Final report in preparation. Neat material was practically non-irritating, when tested with no washout. (modified Draize) Draize Index = 1.3.

Phototoxicity—Not phototoxic at 1% in methanol (*in vitro* yeast screen). Positive results at 10% in methanol are being investigated.

Sensitization (guinea pig)—at 15% in ethanol under full occlusion, 3 of 15 pigs had a mild reaction. (Buehler technique.)

Sensitization (human)—Final report in preparation. At 15% in ethanol under semi-occlusion, 0 of 53 reacted. (Draize-Shelanski technique) Therefore, little chance exists for human sensitization at the expected 3% use level.

Activity	Exposure route	Maximum number exposed	Maximum duration		Concentration (ppm)	
			Hours/day	Days/year	Average	Peak
Manufacture.....	Dermal inhalation.	10	Accidental contact only.....		0-1	1-10
Processing.....	Dermal inhalation.	10	Accidental contact only.....		(¹)	(¹)
Use.....	Dermal inhalation.	10	Accidental contact only.....		(¹)	(¹)
Disposal.....	Dermal inhalation.	10	Accidental contact only.....		0-1	1-10

¹ Not available.

Environmental Release/Disposal. The manufacturer states that less than 30 kg of the substance will be released to the environment per year and that disposal of waste will be by incineration and/or through regional sewage facility.

PMN 80-257

Close of Review Period. December 17, 1980.

Manufacturer's Identity. Claimed confidential business information. Generic information provided:

FOR FURTHER INFORMATION CONTACT:

Sewall H. E. Johnson, Disaster Response and Recovery, Federal Emergency Management Agency, Washington, D.C. 20472 (202) 634-7848.

NOTICE: Pursuant to the authority vested in the Director of the Federal Emergency Management Agency (FEMA) by the President under Executive Order 12148 effective July 15, 1979, and delegated to me by the Director under Federal Emergency Management Agency Delegation of Authority, and by virtue of the Act of May 22, 1974, entitled "Disaster Relief Act of 1974" (88 Stat. 143); notice is hereby given that, in a letter of October 2, 1980, to the Director of FEMA the President declared a major disaster as follows:

I have determined that the damage in certain areas of the State of California resulting from flooding, beginning on September 26, 1980, is of sufficient severity and magnitude to warrant a major-disaster declaration under Public Law 93-288. I therefore declare that such a major disaster exists in the State of California.

Flooding in the Sacramento/San Joaquin Delta area has been a chronic problem with the most recent declaration prior to this action in February of 1980. The delta area contains many essential transmission routes for water, electricity, and recreational areas. These vital and fragile systems are dependent upon antiquated earthen levees for protection. As part of the mitigation aspects of your responsibility for comprehensive emergency management, I direct you to conduct a thorough overview of these continuing problems and potential hazards in this area.

You should work with representatives of the Department of Interior, Department of Agriculture, U.S. Army Corps of Engineers, Department of Transportation and other appropriate Federal and private agencies as well as agencies of the State of California to complete this review and analysis. I expect a preliminary report on your findings and recommendations by January 1, 1981.

In order to provide Federal assistance, you are hereby authorized to allocate, from funds available for these purposes, such amounts as you find necessary for Federal disaster assistance and administrative expenses. Consistent with the requirement that Federal assistance be supplemental, the Federal Government will provide 75 percent of all eligible public assistance under Pub. L. 93-288 in designated areas.

The time period prescribed for the implementation of Section 313(a), Priority to Certain Applications for Public Facility and Public Housing assistance, shall be for a period not to

Management Agency.

ACTION: Notice.

SUMMARY: This is a Notice of the Presidential declaration of a major disaster for the State of California (FEMA-633-DR), dated October 2, 1980, and related determinations.

DATED: October 2, 1980.

exceed six months after the date of this declaration. Notice is hereby given that pursuant to the authority vested in the Director of Federal Emergency Management Agency under Executive Order 12148, and delegated to me by the Director under Federal Emergency Management Agency Delegation of Authority, I hereby appoint Mr. Robert C. Stevens of the Federal Emergency Management Agency to act as the Federal Coordinating Officer for this declared major disaster.

I do hereby determine the following area of the State of California to have been affected adversely by this declared major disaster.

Lower Jones Tract in the San Joaquin Delta of San Joaquin County for Public Assistance to local governments.

(Catalog of Federal Domestic Assistance No. 83.300, Disaster Assistance. Billing Code 6718-02)

FEDERAL MARITIME COMMISSION

[Docket No. 80-69]

Archie Peltzman v. American Maritime Association, et al.; Filing of Complaint and Assignment

Notice is given that a complaint filed by Archie Peltzman (pro se) against American Maritime Association, Pacific Maritime Association, and those of its members who are common carriers by water, and other persons subject to the Shipping Act, 1916, named in Annex A, B, C, and D was served October 6, 1980. Complainant alleges that respondents' collective bargaining agreements' restrictive hiring provisions are violative of sections 15, 16 and 17 of the Shipping Act, 1916.

This proceeding has been assigned to Chief Administrative Law Judge John E. Cogrove. Hearing in this matter, if any is held, shall commence within the time limitations prescribed in 46 CFR 502.61. The hearing shall include oral testimony and cross-examination in the discretion of the presiding officer only upon a proper showing that there are genuine

issues of material fact that cannot be resolved on the basis of sworn statements, affidavits, depositions or other documents or that the nature of the matter in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record.

Francis C. Hurney
Secretary.

FEDERAL RESERVE SYSTEM

Ankeny Investment Co.; Formation of Bank Holding Company

Ankeny Investment Co., Webster City, Iowa, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by acquiring 80 percent or more of the voting shares of Ankeny State Bank, Ankeny, Iowa. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than November 5, 1980. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, October 6, 1980.

BILLING CODE 6210-01-M

Bank Holding Companies; Notice of Proposed de Novo Nonbank Activities

The bank holding companies listed in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to each application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on an application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

Each application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated for that application. Comments and requests for hearings should identify clearly the specific application to which they relate, and should be submitted in

writing and received by the appropriate Federal Reserve Bank not later than November 6, 1980.

A. *Federal Reserve Bank of New York* (A. Marshall Puckett, Vice President), 33 Liberty Street, New York, New York 10045:

Barclays Bank Limited and its subsidiary, Barclays Bank International Limited, each a bank holding company whose principal office is in London, England (financing and insurance activities in North Carolina): to engage through their subsidiary, Barclays American/Financial, Inc. ("BAFI"), in (i) making direct consumer loans and purchasing of sales finance contracts representing extensions of credit such as would be made or acquired by a consumer finance company, and wholesale financing (floor planning), and (ii) acting as agent for the sale of related credit life, credit accident and health and credit property insurance. These activities would be conducted from offices of BAFI in Greenville, North Carolina and Wilson, North Carolina, each such office serving portions of the county in which such office is located and in certain cases portions of contiguous counties.

B. *Federal Reserve Bank of San Francisco* (Harry W. Green, Vice President), 400 Sansome Street, San Francisco, California 94120:

Orbanco Financial Services Corporation, Portland, Oregon (mortgage banking activities, Oregon, Idaho, Washington, and California) to engage through an indirect subsidiary, Mortgage Creditcorp, in making or acquiring, for its own account or for the account of others, mortgage loans or other extensions of credit secured by real property, servicing mortgage loans, periodically inspecting collateral and supervising repossessions in the event of unremedied defaults. The proposed activities would be conducted from an office at 516 Southeast Morrison, Suite 820, Portland, Oregon 97214, serving Oregon, Washington, Idaho and California.

C. *Other Federal Reserve Banks:* None.

* Board of Governors of the Federal Reserve System, October 6, 1980.

Jefferson A. Walker,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

The Walsh Bancorporation, Inc.; Proposed Acquisition of Walsh Insurance Agency, Inc.; Correction

This notice corrects a previous Federal Register document (FR Doc. 80-22784) published at page 50656 of the issue for Wednesday, July 30, 1980.

The Walsh Bancorporation, Inc., Plymouth, Minnesota, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire

voting shares of Walsh Insurance Agency, Inc., Plymouth, Minnesota.

Applicant states that the proposed subsidiary would engage in sale of credit life and accident health and crop hail insurance. These activities would be performed from an office of Applicant's subsidiary in Walsh, Colorado, and the geographic areas to be served are Baca County, Colorado and Stanton County, Kansas. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than October 21, 1980.

Board of Governors of the Federal Reserve System, October 6, 1980.

Jefferson A. Walker,
Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Willmar Bancorporation, Inc.; Formation of Bank Holding Company

Willmar Bancorporation, Inc., Willmar, Minnesota, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by acquiring 83.85 percent or more of the voting shares of Citizens National Bank of Willmar, Willmar, Minnesota. The factors that are

considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Minneapolis. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than November 3, 1980. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, October 3, 1980.

Jefferson A. Walker,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Bank Holding Companies; Proposed de Novo Nonbank Activities

The bank holding companies listed in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to each application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue

concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on an application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

Each application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated for that application. Comments and requests for hearings should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than October 30, 1980.

A. *Federal Reserve Bank of Kansas City* (Thomas M. Hoenig, Assistant Vice President) 925 Grand Avenue, Kansas City, Missouri 64198:

United Missouri Bancshares, Inc., Kansas City, Missouri (mortgage banking activities; Missouri): to engage in mortgage banking activities through a subsidiary known as United Missouri Mortgage Company. These activities would be conducted from an office in Ferguson, Missouri, serving St. Louis County and Northern Jefferson County, all located in Missouri.

B. *Federal Reserve Bank of San Francisco* (Harry W. Green, Vice President) 400 Sansome Street, San Francisco, California 94120:

Security Pacific Corporation, Los Angeles, California (finance activities; Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota and Wisconsin): to engage through its subsidiary, Security Pacific Finance Corp. in making or acquiring for its own account or for the account of others, asset-based business loans and other commercial or industrial loans and extensions of credit, such as would be made by a factoring, rediscount or commercial finance company. These activities would be conducted from an office of Security Pacific Finance Corp. located in Oak Brook, Illinois, serving the States of Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota and Wisconsin.

C. *Federal Reserve Bank of St. Louis* (Delmer P. Weisz, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

TG Bancshares, Inc. St. Louis, Missouri (investment advisory activities; Arkansas, Illinois, Iowa, Missouri, and Tennessee): to engage, through its

subsidiary, Midwest Investment Advisory Services, Inc., in providing portfolio investment advice to individuals, pension and profit sharing plans and trusts, financial institutions, general business corporations, charitable institutions, and educational institutions. These activities will be performed from an office located in St. Louis, Missouri, serving Arkansas, Illinois, Iowa, Missouri, and Tennessee.

D. *Federal Reserve Bank of Chicago* (Franklin D. Dreyer, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

Midland Mortgage Corporation, Detroit, Michigan (mortgage banking activities; United States): to engage in the origination of mortgage loans at two offices of the holding company, located in Clearwater, Florida, and Grand Rapids, Michigan. The geographic scope of the operations of such offices is to be nationwide.

E. *Other Federal Reserve Banks:* None.

Board of Governors of the Federal Reserve System, September 29, 1980.

Jefferson A. Walker,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

FEDERAL TRADE COMMISSION

Early Termination of the Waiting Period of the Premerger Notification Rules

AGENCY: Federal Trade Commission.

ACTION: Granting of request for early termination of the waiting period of the premerger notification rules.

SUMMARY: Weeks Petroleum Limited is granted early termination of the waiting period provided by law and the premerger notification rules with respect to the proposed formation of a joint venture. The grant was made by the Federal Trade Commission and the Assistant Attorney General in charge of the Antitrust Division of the Department of Justice in response to a request for early termination submitted by Weeks Petroleum. Neither agency intends to take any action with respect to this acquisition during the waiting period.

EFFECTIVE DATE: September 30, 1980.

FOR FURTHER INFORMATION CONTACT:

Naomi Licker, Attorney, Premerger Notification Office, Bureau of Competition, Room 303, Federal Trade Commission, Washington, D.C. 20580 (202-523-3894).

SUPPLEMENTARY INFORMATION: Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott-Rodino Antitrust Improvement Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Commission and Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the Federal Register.

By direction of the Commission.

Carol M. Thomas,

Secretary.

BILLING CODE 6750-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service, Health Resources Administration

Application Announcement; Public Health Special Project Grants

The Bureau of Health Professions, Health Resources Administration, announces that competitive applications for Public Health Special Project Grants will be accepted from accredited schools of public health and other educational institutions under the authority of section 792(a) & (b) of the Public Health Service Act, as amended. Application materials are expected to be available on October 9, 1980.

Section 792(a) authorizes the Secretary to make grants to assist accredited schools of public health in meeting the costs of special projects to develop new programs or expand existing ones in:

- (1) Biostatistics or epidemiology;
- (2) Health administration, health planning, or health policy analysis and planning;
- (3) Environmental or occupational health;
- (4) Dietetics and nutrition; or
- (5) Maternal and child health.

Section 792(b) authorizes the Secretary to make grants to assist other educational institutions in meeting the costs of special projects for graduate programs in:

- (1) Biostatistics or epidemiology;
- (2) Health administration, health planning, or health policy analysis and planning;
- (3) Environmental or occupational health; or
- (4) Dietetics and nutrition.

Awards are limited to these listed programs. For FY 1981, in determining the order in which approved competitive applications will be funded, preference will be accorded to the types of projects listed below. Projects that meet any one of these criteria will receive funding preference; projects that meet more than one of these criteria will not receive additional preference.

1. Projects which develop or expand external degree programs or similar educational offerings providing opportunities for practicing public health personnel to obtain formal training in an eligible program area without interrupting current employment.

2. Projects which expand or improve the training of individuals to (1) plan, manage, and direct environmental health programs, or (2) identify, assess, and devise methods of control of a variety of types of environmental health hazards.

3. Projects which expand or improve the training of epidemiologists.

4. Projects which expand or improve the training of Public Health Nutritionists.

Applications which do not address these preferences will be reviewed and given consideration for funding.

Requests for application materials and questions regarding grants policy should be directed to:

Grants Management Officer, (D04),
Bureau of Health Professions, Health Resources Administration, Center Building, Room 4-27, 3700 East-West Highway, Hyattsville, Maryland 20782. Telephone: (301) 436-7360.

Questions concerning the programmatic aspects of these grants should be directed to:

Miss Sallie Norcott, Education Development Branch, Division of Associated Health Professions, Bureau of Health Professions, Health Resources Administration, Center Building, Room 5-27, 3700 East-West Highway, Hyattsville, Maryland 20782. Telephone: (301) 436-6800.

To be considered for fiscal year 1981 funding, applications must be received by the Grants Management Officer, Bureau of Health Professions, at the address above no later than January 9, 1981. Approximately \$2.3 million is expected to be available for these grants.

This program is listed at 13.961 in the Catalog of Federal Domestic Assistance. Applications submitted in response to this announcement are not subject to review by State and areawide clearinghouses under the procedures in Office of Management and Budget Circular No. A-95.

Dated: October 8, 1980.

Henry A. Foley,
Administrator, Health Resources Administration.

BILLING CODE 4110-83-M

Fiscal Year 1981 Funding Preferences for the Health Careers Opportunity Program

This notice provides the final funding preferences which will govern the distribution of grant awards to approved applicants for fiscal year 1981 under section 787 of the Public Health Service Act ("the Act").

In the September 2, 1980 Federal Register (45 FR 58208), the Health Resources Administration (HRA) announced the deadline for submitting applications for fiscal year 1981 Health Career Opportunity Program (HCOP)

grants under the authority of sections 787 and 798 of the Act. It also provided a 30 day public comment period on four proposed funding preferences which would establish a priority order for funding approved applications under section 787 only. No funding preferences for grants under section 798 were proposed, and none are planned for fiscal year 1981 awards.

Section 787 authorizes the Secretary of Health and Human Services to make grants to schools of medicine, osteopathy, public health, dentistry, veterinary medicine, optometry, pharmacy, and podiatry and other public or private nonprofit health or educational entities to carry out programs which assist individuals from disadvantaged backgrounds to enter and graduate from health professions schools. Section 798 establishes a parallel program for training in allied health.

Public Comments

The Health Resources Administration received thirteen comments on the proposed preferences for section 787 by the October 2 closing date. These comments are discussed below.

Comment: Most respondents expressed concerns about the level of preference given to "health or educational entities," such as community groups and junior colleges, which are neither health professions schools nor institutions that award baccalaureate degrees. Some felt that these entities would be virtually excluded under the preferences, and requested that HRA set aside 10 to 25 percent of available funds for them. One respondent felt that national organizations which represent health professions schools and baccalaureate institutions would be excluded, and requested that HRA add these organizations to the first three preferences. Other respondents were concerned about the effect of the preferences on baccalaureate institutions. Some requested that HRA set aside a percentage of funds for baccalaureate institutions as well as for other entities. One respondent urged HRA to give first preference to baccalaureate institutions because few professions schools have the commitment and capability to educate students from disadvantaged backgrounds.

Response: Individuals who need HCOP assistance are best served when organizations work together to provide a continuous, educational "pathway" of support from community groups through health professions schools. For this reason, HRA proposed funding priorities

to encourage "Educational Assistance Agreements" between organizations and institutions which would develop and assure this continuity.

Each organizational link along the "pathway" can provide a unique and essential function. Nonetheless, health professions schools received both the first and second proposed preferences because the effectiveness of the HCOP program ultimately hinges on the admissions policies of these schools as well as the rates at which they actually accept and graduate disadvantaged students. Only 73 of the 326 health professions schools participated in the HCOP program in fiscal year 1980. The Health Resources Administration hopes to involve more of them, and at the same time involve them with potential students much earlier than they have in the past. Although health professions schools presently have the capacity to meet the nation's long-term need for health professionals, the chronic underrepresentation of minorities in the health professions will continue if these institutions do not accept and graduate higher percentages of disadvantaged individuals.

At the same time, the establishment of an effective network of organizational linkages requires that the HCOP program continue to provide support at each level along the educational "pathway." HRA recognizes the concerns of those respondents who pointed out the contributions made by institutions and groups other than health professions schools. The preferences were not established to preclude support to these organizations. Consequently, HRA will assure that at least ten percent of funds for competing awards will be available for each preference below the health professions school level, and for approved applicants who do not qualify for a preference.

Comment: One respondent felt that the proposed preferences would encourage health professions schools to establish Educational Assistance Agreements with the undergraduate institutions at their own universities, thereby limiting participation to the few disadvantaged individuals who attend the larger, well endowed universities which have health professions schools.

Response: There are already examples in the HCOP program of undergraduate schools which do not belong to universities with health professions schools but have still entered into mutually beneficial agreements with health professions schools in different regions of the country. Also, it should be noted that applicants must describe the target populations they propose to assist, and

an applicant which proposes to assist individuals from a "feeder" institution which lacks a sufficient disadvantaged population will probably not be funded.

Comment: One respondent asked whether the preferences apply to approved applications for allied health projects under section 798 of the Act.

Response: The funding preferences do not apply to approved applications under section 798 of the Act. Only \$500,000 is estimated to be available for new, competitive grant awards in fiscal year 1981 under section 798. HRA believes that funding preferences are not warranted for such a relatively small program.

Funding Preferences

The preferences for determining priority for funding approved applications in fiscal year 1981 under section 787 of the Act are as follows:

First preference will be given to schools of medicine, osteopathy, dentistry, veterinary medicine, optometry, pharmacy, podiatry, and public health ("health professions schools") whose applications: (a) Show the school has or will have an Educational Assistance Agreement, as described below, with an institution which awards baccalaureate degrees, and (b) propose to carry out at least both of the following purposes:

(1) To facilitate the entry of individuals from disadvantaged backgrounds into health professions schools by engaging in activities which assist them to compete for admission, such as instruction designed to improve performance on admission tests, and by assisting admissions committees with the evaluation of disadvantaged applicants; and

(2) To provide counseling or other retention services, such as tutorial assistance and assistance in adjusting to the environment of the school, which are designed to help individuals from disadvantaged backgrounds who are enrolled in health professions schools to complete this education.

Second preference will be given to health professions schools which propose to carry out purposes (1) and (2) as stated in the preceding paragraphs.

Third preference will be given to institutions which award baccalaureate degrees and have an Educational Assistance Agreement with a health professions school; and

Fourth preference will be given to other health or educational entities, such as community groups, which have an Educational Assistance Agreement with an institution which awards baccalaureate degrees where this

baccalaureate institution also has an Educational Assistance Agreement with a professions school.

An Educational Assistance Agreement must evidence a formal relationship between the grantee and the other school or entity for the purpose of assuring a continuity of training through the health professions school. This agreement must provide financial (excluding direct student aid) or other support for this purpose which may include funds from the grant awarded under this program. It may be demonstrated by joint use of faculty, staff and facilities.

No less than ten percent of the funds available for competitive awards will be available for approved applicants that qualify for the third preference. The same will apply for applicants that qualify for fourth preference, and for approved applicants that do not qualify for a preference. If all the awards to approved applicants who qualify for a particular preference do not result in the award of all the funds available for that preference, the balance will be added to the funds available for the next lower preference, or for approved applicants without preference, as the case may be.

Additionally, applicants are reminded that the funding preferences do not affect eligibility for a grant, are not taken into consideration when an application is reviewed for technical acceptability, and are only applied to approved applications.

Finally, HRA recognizes that applicants might have difficulty obtaining written Educational Assistance Agreements by the December 11 deadline for applications. Consequently, copies of these agreements must be received by January 9 from applicants seeking a preference involving an Educational Assistance Agreement.

Dated: October 8, 1980.

Henry A. Foley,
Administrator, Health Resources
Administrator.

BILLING CODE 4110-83-M

Office of the Secretary

Public Health Service; Center for Disease Control; Office of the Assistant Secretary for Health; Statement of Organization, Functions, and Delegations of Authority

This Federal Register notice announces the reorganization of the Center for Disease Control and the change of its name to Centers for Disease Control. This reorganization is

the first major organizational change in the Center for Disease Control since 1973, and is designed to enhance the fulfillment of its mission for the improvement of disease prevention and health promotion activities.

The internal organization of the Center for Disease Control is being changed to: (1) Realign the major components of the Center for more effective implementation of the Center's role as the prevention arm of the Public Health Service as it has evolved over the last 7 years; (2) abolish the Bureau of Smallpox Eradication now that its original mission has been achieved; and (3) enhance both the functional and operational strengths of the Center. The overall mission of the Center remains the same: to prevent unnecessary illness and death and to enhance the health of the American people.

The Center, as reorganized, will carry out its functions through six operational bureau-level Centers, three functional program-level Offices, and five staff-level Offices. The mission, functional statements, order of succession, and delegations of authority for the Centers for Disease Control are published in the succeeding paragraphs.

This notice also makes minor changes in certain functional statements within the Office of the Assistant Secretary for Health.

Part H, Chapter HC (Center for Disease Control) of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health and Human Services (39 FR 1461, January 9, 1974, as amended most recently at 43 FR 49369, October 23, 1978) is deleted in its entirety and the following substituted:

Centers For Disease Control (HC)

Section HC-A Mission. The Centers for Disease Control (CDC) serves as the Department's focus for developing and applying disease prevention and control, environmental health, and health promotion and health education activities designed to improve the health of the people of the United States.

To accomplish this, the Centers for Disease Control: (1) Defines preventable health problems and identifies what can and must be done to prevent unnecessary disease and promote better health; (2) maintains active surveillance of diseases through epidemiologic and laboratory investigations and the collection, analysis, and distribution of data related to preventable diseases and conditions; (3) serves as the PHS lead agency in developing, stimulating, and implementing operational programs to deal with environmental health problems, including response to

environmental, chemical, and radiation emergencies; (4) supports and conducts operational research aimed at developing and testing effective disease prevention, control, and health promotion and health education programs; (5) conducts, supports, and stimulates disease prevention and control, and health promotion programs in States and communities, working in close concert with State and local agencies; (6) administers a national program to develop recommended occupational safety and health standards and to conduct research, training, and technical assistance to assure safe and healthful working conditions for every working person; (7) conducts a national program for improving the performance of clinical laboratories; (8) develops and sustains a stronger capacity to develop personnel and resources for disease prevention and control and health promotion, and stimulates the development and maintenance of the capacity of State and local health agencies to respond to the health needs of their citizens; (9) carries out Federal responsibilities for controlling the introduction and spread of infectious diseases; (10) provides consultation to, and participates with, other nations and international agencies in preventing and controlling diseases and environmental health problems; and makes available to developing nations expertise, procedures, and programs to assist them in improving their disease prevention and control, environmental health, and health promotion activities.

Section HC-B Organization and Functions. The Centers for Disease Control is under the direction of a Director who reports to the Assistant Secretary for Health and Surgeon General. The agency consists of the following major components, with functions indicated:

Office of the Director (HCA). (1) Manages and directs the activities of the Centers for Disease Control; (2) provides leadership for the implementation of CDC's responsibilities related to disease prevention and control; (3) advises the Assistant Secretary for Health and Surgeon General on policy matters concerning CDC activities; (4) participates in the development of CDC goals and objectives; (5) provides overall direction and coordination to the epidemiologic activities of the Centers for Disease Control; (6) coordinates the CDC response to health emergencies; (7) provides liaison with other governmental agencies, international organizations including the World Health Organization and the U.S. Agency for International Development,

learning institutions, and other outside groups; (8) coordinates, in collaboration with the PHS Office of International Health, international health activities relating to disease prevention and control; (9) in cooperation with the PHS Regional Offices, provides or obtains technical assistance for State and local health departments and private and official agencies as needed; (10) provides overall direction to, and coordination of, the scientific/medical programs of CDC; (11) plans, promotes, and coordinates an ongoing program to assure equal employment opportunities in CDC; (12) provides leadership, coordination, and assessment of administrative management activities; (13) coordinates or assures coordination with the appropriate PHS staff offices on administrative and program matters.

Office of Administrative Management (HCA5). Under the direction of the Executive Officer: (1) Assists and advises in the development, coordination, direction, and assessment of management activities throughout the Centers for Disease Control, and assures consideration of management implications in program decisions; (2) conducts CDC's activities in the areas of financial management, personnel management, management analysis and services, computer systems, engineering services, grants management, procurement and materiel management, publications management, library, legislation reference, and other delegated authorities as may be assigned; (3) directly and/or through the individual staff offices of the Centers for Disease Control, provides leadership, guidance, and evaluation of administrative management services performed for or by Centers, Offices, and other components of the CDC; (4) maintains liaison with officials of the Office of the Assistant Secretary for Health and the Office of the Secretary on management matters; (5) provides financial data and systems development in support of overall planning and budgeting systems; (6) participates in the development of CDC's goals and objectives.

Office of Biosafety (HCA1). Under the direction of CDC's Assistant Director for Science: (1) Develops and implements a CDC-wide program for the control of biological, chemical, and physical hazards for the protection of CDC employees and the surrounding community; (2) issues permits for importation and distribution of etiologic agents and vectors, and regulates packaging of etiologic agents in interstate commerce; (3) plans, directs, and coordinates laboratory,

environmental, and industrial safety programs at all CDC facilities.

CDC Washington Office (HCA6). Under the direction of the Assistant Director/Washington, and as directed by the CDC Director or the Assistant Secretary for Health/Surgeon General: (1) Serves as a resource for linkage within the Public Health Service and with other components of HHS, other governmental agencies, and outside groups; (2) provides coordination and oversight of CDC's health promotion and health education activities and serves as liaison with the Office of Health Information, Health Promotion, and Physical Fitness and Sports Medicine, Office of the Assistant Secretary for Health; (3) as appropriate, represents CDC in professional, program, and management matters within HHS and with external groups.

Office of Program Planning and Evaluation (HCA4). (1) Develops CDC's multi-year program plans for input into the overall plans of the Office of the Assistant Secretary for Health and the Department; (2) implements the Department's Operational Management System within CDC; (3) evaluates the Centers for Disease Control's progress toward program goals and objectives, and coordinates evaluation efforts; (4) conducts continuing studies and analyses of major program activities; (5) develops and maintains a CDC-wide program information system; (6) analyzes major health care programs and proposed legislation with respect to CDC's program goals and objectives; (7) coordinates CDC's public-use reports clearance.

Office of Public Affairs (HCA2). (1) Plans, organizes, and administers CDC's public information program consistent with policy direction established by the Assistant Secretary for Public Affairs; (2) maintains liaison with appropriate officials of the PHS and official and voluntary health agencies to coordinate information programs of mutual interest and concern; (3) provides a mechanism for review/clearance of information materials; (4) utilizes existing resources in disseminating health messages of the Centers for Disease Control; (5) coordinates the CDC implementation of the Freedom of Information Act for CDC.

Epidemiology Program Office (HCD). Under the direction of CDC's Assistant Director for Public Health Practice: (1) Serves as the focal point for the collection, analysis, and communication of basic surveillance information; (2) plans, develops, and edits the Morbidity and Mortality Weekly Report and various surveillance reports; (3) maintains the Epidemic Intelligence

Service through the recruitment, training, and assignment of epidemiologists; (4) provides epidemiologic assistance and epidemic aid through the field assignment of epidemiologists; (5) provides assistance in analyzing the influence of various factors such as socioeconomic status and demographic characteristics on the incidence and severity of preventable diseases; (6) provides consultation on epidemiology and surveillance to other Centers and Offices of the CDC, other Federal agencies, State and local health departments, international organizations (such as the World Health Organization and the Pan American Health Organization), and other nations; (7) in carrying out the above functions, collaborates, as appropriate, with other Centers and Offices of the CDC.

International Health Program Office (HCG). Under the direction of CDC's Assistant Director for International Health: (1) Provides consultation to, and participates with, other nations and international agencies in preventing and controlling diseases and environmental health problems; (2) coordinates the provision of CDC expertise, resources, and programs to developing countries to assist them in improving their disease prevention and control, environmental health, and health promotion activities; (3) develops, field tests, and makes recommendations on adoption of new and improved procedures to assist developing countries in improving their disease prevention and control, environmental health, and health promotion activities; (4) plans, conducts, and evaluates research activities in various aspects of disease control for global programs; (5) coordinates the special foreign currency program (Pub. L. 480) activities overseas; (6) provides for the reception and orientation of foreign visitors to the Centers for Disease Control; (7) maintains regular liaison with the PHS Office of International Health and with other organizations concerned with international health; (8) in carrying out the above functions, collaborates, as appropriate, with other Centers and Offices of the CDC.

Laboratory Improvement Program Office (HCL). Under the direction of CDC's Assistant Director for Science: (1) Coordinates a comprehensive national laboratory improvement program; (2) develops and recommends standards, regulations, and criteria for clinical laboratory licensure and certification; (3) monitors the effectiveness of clinical laboratory licensure and certification programs; (4) administers a proficiency testing program for clinical laboratories;

(5) works with other Federal agencies and State and professional organizations in developing laboratory improvement programs; (6) administers a national laboratory training program directed primarily toward State public health and other health laboratories; (7) administers a national laboratory managerial consultation program, directed toward State public health and other health laboratories, which includes research, development, analysis, and the provision of technical assistance related to improved laboratory management and resource utilization; (8) in carrying out the above functions, collaborates, as appropriate, with other Centers and offices of the CDC.

Center for Prevention Services (HCM). Plans, directs, and coordinates national programs of assistance involving preventive health services to State and local health agencies. In carrying out this mission, the Center: (1) Provides leadership to the health community, especially State and local health agencies, in the development, organization, and implementation of improved preventive health services programs; (2) assists State and local health agencies in integrating and coordinating preventive services delivered by private and public organizations in the community and in assuring delivery of preventive services to all persons regardless of socioeconomic status; (3) assists States and localities in specifying major health problems in the community and in formulating technical theories on which intervention strategies can be based; (4) serves as the primary focus for assisting States and localities, through formula and project grants and other mechanisms, in establishing and maintaining prevention and control programs directed toward health problems, such as immunizable diseases, sexually transmissible diseases, dental disease, kidney disease, diabetes, and tuberculosis; (5) maintains operational knowledge of the nature, scope, and occurrence of preventable health problems; (6) conducts operation research to improve the assistance programs; (7) assesses program operations and public health practices and provides technical assistance to States in the operation of preventive health service programs; (8) administers a quarantine program to protect the United States against the introduction of diseases from other nations; (9) maintains liaison with other U.S. Governmental agencies, State and local health agencies, national organizations, and educational institutions; (10)

provides technical assistance to other nations; (11) in carrying out the above functions, collaborates, as appropriate, with other Centers and Offices of the CDC.

Center for Environmental Health (HCN). Plans, directs, and coordinates a national program to prevent or control environmentally related health problems occurring outside the workplace. In carrying out this mission, the Center: (1) Provides leadership to the public health community in the prevention and control of disease and health problems related to the environment; (2) develops and maintains surveillance (in cooperation with the National Center for Health Statistics and the National Institute of Environmental Health Sciences) of environmentally related health problems and chronic diseases, including resultant illness, disability, and death; (3) conducts applied and operational research related to problem definition, distribution, prevention, containment, and control of environmentally related health problems and chronic diseases; (4) conducts epidemiologic studies of the effects of low level radiation on community populations; (5) serves as the coordinating point for PHS review of environmental impact statements; (6) has the lead responsibility in PHS for responding to environmental, chemical, and radiation emergencies occurring outside the workplace; (7) provides technical assistance to States and localities in the prevention and control of environmental health and chronic disease problems; (8) evaluates biochemical and immunochemical techniques, materials, and reagents used in public health laboratories; (9) assists States and localities, through grants and other mechanisms, in establishing and maintaining prevention and control programs, such as lead-based paint poisoning prevention, urban rat control, and injury control; (10) maintains liaison with, and provides advice and assistance to, other Federal agencies and to outside groups; (11) provides technical assistance to other nations in the development and implementation of prevention and control of environmental health and chronic disease problems; (12) in carrying out the above functions, collaborates, as appropriate, with other Centers and Offices of the CDC.

National Institute for Occupational Safety and Health (HCC). Plans, directs, and coordinates a national program to develop and establish recommended occupational safety and health standards and to conduct research, training, technical assistance, and related activities to assure safe and healthful working conditions for every

working person. In carrying out this mission, the Institute: (1) Administers research in the field of occupational safety and health, including the conduct of health hazard evaluations; (2) develops innovative methods and approaches for dealing with occupational safety and health problems; (3) provides medical criteria which will ensure, insofar as practicable, that no employee will suffer diminished health, functional capacity, or life expectancy as a result of work experience, with emphasis on ways to discover latent disease, establishing causal relationship between diseases and work conditions; (4) serves as a principal focus for training programs to increase the number and competence of personnel engaged in the practice of occupational safety and health; (5) develops and coordinates the appropriate reporting procedures which assist in accurately describing the nature of the national occupational safety and health problems; (6) consults with the U.S. Department of Labor; U.S. Department of the Interior; other Federal agencies; and, in cooperation with the PHS Regional Offices, State and local government agencies; industry; and employee organizations with regard to promotion of occupational safety and health; (7) provides technical assistance to other nations in establishing and implementing occupational safety and health programs; (8) in carrying out the above functions, collaborates, as appropriate, with other Centers and Offices of the CDC.

Center for Health Promotion and Education (HCK). Within the overall policy and guidance of the Office of the Assistant Secretary for Health, plans, directs, and coordinates the operation of a national program for the development, stimulation, and support of health promotion, health education, and risk reduction activities. In carrying out this mission, the Center: (1) Provides leadership in the development, implementation, and improvement of health promotion, health education, and risk reduction efforts; (2) serves as the focus for health education and promotion operations carried out through various settings including, but not limited to, health care facilities, schools, worksites, and communities; (3) develops and disseminates health education materials designed for delivery to population groups; (4) conducts research and demonstrations in health promotion, health education, and risk reduction, particularly with respect to the identification and demonstration of techniques employed in key settings such as the school, the

worksite, and the community; (5) conducts research, develops and maintains surveillance, carries out demonstrations, and evaluates programs relating to major personal health factors, such as nutrition, family planning, abortion, and exercise; (6) assists States and localities, through grants and other mechanisms, in establishing effective health promotion and health education programs related to general community health education and risk reduction; (7) collaborates with public and private organizations and provides technical assistance with respect to health education in general and to special target areas and risk factors including, but not limited to, reproductive health, nutrition, patient education, and lifestyle programs; (8) provides technical assistance to other nations in the development and implementation of plans for effective health promotion, health education, and risk reduction programs; (9) in carrying out the above functions, collaborates, as appropriate, with other Centers and Offices of CDC.

Center for Professional Development and Training (HCT). Plans, directs, and coordinates a program to develop and sustain a strong national workforce in disease prevention and control. In carrying out this mission, the Center: (1) Provides leadership in updating and improving the performance of practicing health professionals in the methods and techniques of disease prevention and control and health promotion; (2) conducts research and demonstration activities related to the improvement of health promotion and disease prevention training and professional development; (3) conducts short-term training for public health workers to correct skill and knowledge deficiencies and to transfer technology; (4) provides assistance to States in the establishment, maintenance, and improvement of State and other health training and technology transfer programs; (5) works collaboratively with learning institutions, especially schools of public health and departments of preventive and social medicine, to develop and implement improved learning programs for disease prevention and health promotion; (6) assists other nations in establishing and implementing plans for effective disease prevention professional development programs; (7) coordinates CDC's training activities, manages the Atlanta training facilities, and provides training support services; (8) in carrying out the above functions, collaborates, as appropriate, with other Centers and Offices of the CDC.

Center for Infectious Diseases (HCR). Plans, directs, and coordinates a national program to improve the identification, investigation, diagnosis, prevention, and control of infectious diseases. In carrying out this mission, the Center: (1) Provides leadership in investigation and diagnosis of infectious diseases of public health significance; (2) maintains surveillance of infectious diseases, disability, and death; (3) conducts applied and operational research related to definition, distribution, diagnosis, prevention, and control of infectious diseases, including vaccine development; (4) administers a biological reagents program which includes research on production; development of guidelines for production and utilization; and standardization, production, and distribution of reference reagents; (5) produces, evaluates, and distributes experimental vaccines, antisera and antitoxins, skin test antigens, and immune serum globulins to control and prevent laboratory infections and to prevent or minimize illness in certain population groups; (6) produces and distributes microbiological reference and working reagents not commercially available or of unreliable supply; (7) conducts applied research related to vectors of disease; (8) provides epidemic assistance; (9) maintains competence in the detection, identification, and control of rare, exotic, or tropical diseases; (10) provides reference diagnostic services; (11) provides technical assistance to States and localities and to other nations in the investigation, diagnosis, prevention, and control of infectious diseases; (12) provides scientific services in support of CDC's laboratories; (13) provides epidemic aid to foreign nations and assists other nations in establishing and implementing infectious disease control programs; (14) in carrying out the above functions, collaborates, as appropriate, with other Centers and Offices of the CDC.

Section HC-C Order of Succession. During the absence or disability of the CDC Director or in the event of a vacancy in the Director's office, the first official listed below who is available shall act as Director, except that during a planned period of absence the Director may specify a different order of succession:

(1) Deputy Director; (2) Assistant Director for International Health; (3) Assistant Director for Public Health Practice; (4) Assistant Director for Science; (5) Assistant Director/Washington; (6) Executive Officer.

Section HC-D Delegations of Authority. All delegations of authority to the Director, Center for Disease Control, which were in effect immediately prior to the effective date of this reorganization shall continue in effect in the Director, Centers for Disease Control, pending further redelegation. All delegations or redelegations of authority to any officers or employees of the Center for Disease Control which were in effect immediately prior to the effective date of this reorganization shall continue in effect in them or their successors, pending further redelegation.

Office of the Assistant Secretary for Health

Part H, Chapter HA (Office of the Assistant Secretary for Health) of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health and Human Services (38 FR 18571, July 12, 1973, as amended in pertinent part at 44 FR 23125-23130, April 18, 1979) is amended to reflect the: (1) restatement of the functional statement for the Senior Advisor for Environmental Affairs; and (2) deletion of the reference to immunization from the functional statement of the Office of Disease Prevention and Health Promotion.

Under *Section HA-20 Functions*, make the following changes:

Delete the State for the *Senior Advisor for Environmental Affairs (HA3)* in its entirety and substitute the following:

Senior Advisor for Environmental Affairs (HA3). Serves as the principal advisor to and representative of ASH/SG on all aspects of environmental health and related health and scientific matters. As directed by the ASH/SG, participates in the coordination of PHS components in crosscutting environmental health efforts. Advises ASH/SG on actions which should be taken by PHS to improve its capacity to help prevent or control the major environmental causes of morbidity and mortality. Serves as the ASH/SG's personal agent in coordinating PHS participation in the Department's collaboration with other Federal Departments and agencies relative to health and environmental effects of energy technologies; and as directed by the ASH/SG, serves as Departmental liaison with the scientific community on environmental health matters.

Amend the statement for the Office of Disease Prevention and Health Promotion (HA8) by deleting ", such as immunization," under item (5); and amending item (8) to read "conducts a comprehensive national program for

promoting physical fitness and sports medicine."

Dated: October 1, 1980.

Patricia Robers Harris,
Secretary.

BILLING CODE 4110-86-M

Public Health Service; National Institutes of Health; Statement of Organization, Functions, and Delegations of Authority

Part H, Chapter HN (National Institutes of Health) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health and Human Services (40 FR 22859, May 27, 1975, as amended most recently in pertinent part at 44 FR 40141, July 9, 1979), is amended to reflect the following changes in the Office of Program Planning and Evaluation, Office of the Director: (1) abolishment of the Division of Resources Analysis and (2) modification of the functional statement for the Division of Program Analysis. These changes will more closely link program planning and evaluation with direct policy and program analysis needs.

Section HN-B, Organization and Functions, is amended as follows:

Under the heading *Office of Program Planning and Evaluation (HNA6)*, make the following changes:

- (1) Delete the statement for the *Division of Resources Analysis (HNA63)* in its entirety.
- (2) Amend the statement for the *Division of Program Analysis (HNA62)* to delete the period and include after item (3) the following: "; (4) monitors flow of funds supporting health research and development and production of research personnel in bioscience and relevant health-related fields."

Dated: September 30, 1980.

Patricia Roberts Harris,
Secretary, Department of Health and Human Services.

[FR Doc. 80-31886 Filed 10-10-80; 8:45 am]
BILLING CODE 4110-08-M

Public Health Service; Food and Drug Administration; Statement of Organization, Functions, and Delegations of Authority

Part H, Chapter HF (Food and Drug Administration) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health and Human Services (35 FR 3685, February 25, 1970, as amended in pertinent part at 43 FR 16418, April 18, 1978 and 44 FR 73165, December 17, 1979) is amended to reflect

a realignment of functions within the Office of the Commissioner.

Subsequent to the April 1978 reorganization, an Office of Consumer Affairs was established in the Immediate Office of the Commissioner (44 FR 73165, December 17, 1979). This was in compliance with Executive Order 12160 of September 26, 1979 (44 FR 55787) and Consumer Affairs Council guidelines (44 FR 71103, December 10, 1979).

On June 9, 1980 the Department issued its Final Consumer Affairs Plan (45 FR 38977). These guidelines place renewed emphasis on improving consumer communication services including distributing information, handling consumer concerns, and coordinating intra-Department consumer activities. For this reason and for better operating efficiency in the Office of Policy Coordination, consumer communication functions related to consumer inquiries not directed to the Commissioner or field offices under the Executive Director of Regional Operations are being transferred to the Office of Consumer Affairs. As presented in this Notice, these functions will reside in the Office of Consumer Affairs. The Office is headed by an Associate Commissioner and will now be given full staff office stature.

Accordingly, revised functional statements are presented for the Offices of Policy Coordination and Consumer Affairs, Office of the Commissioner. *Section HF-B, Organization*, is amended as follows:

1. Delete in its entirety subparagraph (a-1) *Office of Consumer Affairs (HFA-C)*, which is under paragraph (a) *Office of the Commissioner (HFA)*, and substitute a new paragraph as indicated in 3. below.

2. Delete paragraph (e) *Office of Policy Coordination (HFAE)* in its entirety and substitute the following:
 - (e) *Office of Policy Coordination (HFAE).*

Advises and assists the Commissioner and other key officials concerning information that may affect current or proposed FDA policies.

Develops and maintains management information necessary to establish and monitor Agency priorities.

Monitors policy formulation activities of interest to the Commissioner.

Directs the resolution of policy issues involving more than one component of the Agency.

Coordinates review and analysis of policy documents directed to the Commissioner for adequacy of clearances and other elements of completed staff work.

Insures that FDA bureaus and staff offices are informed of and given opportunity to comment on proposed actions or decisions affecting their responsibilities.

Coordinates the implementation planning for new or important policies, and monitors the progress of such efforts.

Provides correspondence control for the Commissioner; provides central control for and processes all Agency public correspondence directed to the Commissioner.

3. Insert the following new paragraph (i) reading as follows:

(i) *Office of Consumer Affairs (HFAG).*

Serves as the Agency focal point for coordinating information from the Bureaus and other Agency components about significant or public interest issues; develops mechanisms to gather consumer views for use in developing Agency policy on these issues; monitors the development of Agency policy on these issues; appraises the Policy Board and Commissioner on the impact of consumer involvement in resolving these issues.

Serves as the Agency focal point for contacting and involving national consumer groups on Agency public participation programs; analyzes consumer feedback at the national level in collaboration with the Executive Director of Regional Operations (EDRO) to assess potential major health issues, to determine national trends in consumer concerns, and to compile a consumer perspective of Agency regulatory policies and activities; informs other Agency components of consumer trends.

Serves as the Agency focal point for coordinating information from bureaus and other Agency components about potential public participation opportunities and informs the consumer of these activities.

Designs and administers special community outreach projects to broaden Agency interaction with special target audiences, including the economically and educationally disadvantaged and the minorities.

Designs public participation compliance programs for implementation by field Consumer Affairs Officers (CAO's); reviews and approves CAO consumer education compliance programs developed by other Agency components to assess the public participation impact.

Administers consumer awareness and advocacy skills training programs designed to educate lay consumers and current/potential consumer representatives for advisory committees

to enhance their participation in Agency regulatory and decision making processes.

Administers the Agency selection process for consumer representatives on advisory committees and panels.

Administers the Agencywide Public Participation Reimbursement Program.

Provides a central Agency control point for consumer inquiries, except those directed to the Commissioner or field offices under the Executive Director of Regional Operations; responds to inquiries if information is available from OCA resource files; coordinates and tracks referrals.

Dated: September 11, 1980.

Patricia Roberts Harris,
Secretary.

BILLING CODE 4110-03-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Housing-Federal Housing Commissioner

[Docket No. N-80-1033]

Conversion of Existing Multifamily Projects to Condominium and Cooperative Ownership

AGENCY: Department of Housing and Urban Development (HUD).

ACTION: Notice of HUD Position with Respect to Conversion of Existing Multifamily Projects to Condominium and Cooperative Housing.

SUMMARY: On July 31, 1980, the Assistant Secretary of Housing-Federal Housing Commissioner issued a notice to all HUD field offices explaining that under certain circumstances FHA mortgage insurance can be used in connection with the conversion of existing multifamily housing to condominium and cooperative ownership. The text of that notice is set forth below.

FOR FURTHER INFORMATION CONTACT: Robert W. Wilden, Director, Elderly and Condominium Health Facilities, Department of Housing and Urban Development, 451 7th Street, S.W., Washington, D.C. 20410. 202-755-6528. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: The Department has received a number of requests involving the conversion of existing rental property to condominium and cooperative ownership. Because of its concern over the seriousness of conversion and its desire to review thoroughly the results of the conversion study recently completed by the Office

of Policy Development and Research, the Department has not yet resolved what its overall policy should be.

While a comprehensive, Departmental policy may not be completed for a short time, pending requests require that the Department immediately determine under what conditions it will approve certain actions. Generally, the Department wants to avoid conversions that would involve moderate cost rental housing or a significant proportion of tenants with limited financial resources. Yet it does not want to inhibit conversions unreasonably where these concerns are not relevant.

The actions that require immediate attention and a specific statement of the Department's position regarding these actions are set forth below:

1. The conversion of a multifamily project, which is or has been insured, to a condominium under the Section 234(c) program or to a cooperative using the Section 203(n) program.

2. The conversion of a project that has been insured under Section 207 pursuant to Section 223(f).

3. A transfer of physical assets to a purchaser who intends to convert the property to homeownership.

4. The sale of a HUD-owned multifamily property on terms that permit the project to be converted.

Note

1. These actions and the following statements apply only to multifamily projects that are unsubsidized. Unsubsidized projects are those which are insured or have been insured under Sections 207, 213, 220, 221 (except 221(d)(3) BMIR), 231, 234 or 608, and which do not receive rent supplement or Section 8 assistance.

2. This notice does not affect the right of a mortgagor to pre-pay in full the mortgage on an FHA-insured, unsubsidized project.

3. This notice also does not affect the availability of FHA mortgage insurance for the construction or substantial rehabilitation of condominium and cooperative housing. Rather, it sets forth the Department's position regarding the conversion of existing projects without substantial rehabilitation.

Sections 234(c) and 203(n)

The Department will approve the conversion of a multifamily project to condominium or cooperative ownership using Section 234(c) or Section 203(n), respectively, only where (1) the project has been finally endorsed under an FHA mortgage insurance program, and (2) the project rents prior to conversion equal or exceed 125% of Section 8 Existing

Housing Fair Market Rents (FMRs) for the same location, type and size of units.

A project that has been processed but not finally endorsed under a section of the Act other than Section 234(d) must either be reprocessed under Section 234(d) or proceed to final endorsement, if it is to be converted to condominium ownership. For example, in reprocessing a Section 221(d)(4) project under Section 234(d), BSPRA would have to be deleted and the Section 234(d) processing requirements, such as per unit limits, would have to be applied. A Section 221(d)(4) project that has been initially endorsed may not skip final endorsement and go directly to insurance of individual units under Section 234(c). The project must either be finally endorsed as a Section 221(d)(4) project or be reprocessed under Section 234(d) before final endorsement. (The same principle would apply in a cooperative conversion.)

The multifamily handbook instructions for the Section 203(n) program are in preparation and will be issued shortly.

Section 223(f)

The Section 207/223(f) program is not intended to be a vehicle to obtain mortgage insurance for homeownership units. Therefore, a project which is or has been purchased or refinanced by a mortgage insured under Section 207 pursuant to Section 223(f) shall not be eligible for mortgage insurance under any other program unless at least three years have elapsed from the date of final endorsement of the Section 207/223(f) mortgage.

Transfer and Change in Use

The Department will approve a transfer of physical assets to a purchaser who plans to convert a rental property with an FHA-insured or HUD-held mortgage to condominium or cooperative ownership only where the standard transfer requirements are satisfied and the project rents prior to conversion equal or exceed 125 percent of the Section 8 Existing Housing FMRs for the same location and type and size of units. Similarly, the Department will approve a project owner's request for a conversion-related change in use only where this standard is met.

Partial Release

Partial release of security in connection with conversion may be approved by the Assistant Secretary for Housing upon the recommendation of the field office. The field office shall recommend such action only when the standards for transfer or change in use are satisfied and conversion is

particularly beneficial to the prospective purchasers or necessary to address the problems of a distressed project, or where other circumstances exist which in the opinion of the Area Office Manager justify such action. In addition, the provisions of HUD Handbook 4350.1 (insured Project Servicing Handbook) pertaining to partial release must be satisfied.

Multifamily Sales

The sale of HUD-owned formerly unsubsidized, multifamily projects is governed by 24 CFR, Part 290. In balancing the objectives set forth in Section 290.20, particular attention should be given to the need for rental housing in the market area in which the project is located. If there is a significant, unmet need for rental housing, the field office director shall provide in the disposition recommendation for the preservation of the project as rental housing.

Tenant-Sponsored Conversion

The Department will approve use of the Section 234(c) and 203(n) programs, transfer of physical assets and change in use in connection with the tenant-sponsored conversions even though the 125 percent standard is not met. Such conversions must be sponsored by residents of the project and must have the support of a majority of the residents. For this purpose, support may be shown by a signed statement. A commitment to purchase a unit or an earnest money deposit is not required.

Tenant Benefits

In order to obtain Departmental approval for conversion, the tenants of the units being converted must be provided certain protection and benefits. Specifically, the Department shall require that protection and benefits be provided in the following ways:

1. The Department shall not consider a conversion-related request until the tenants have been given individual notice of the owner's (or contract purchaser's) intention to convert. The notice, at a minimum, should provide the following information:

a. A brief description and schedule of the proposed conversion, including a general description of any physical improvement to the property to be made in connection with the conversion and an estimate of the sales price for various size units;

b. A summary of applicable federal, state and local laws, including the requirements imposed by HUD; and

c. The names, addresses and telephone numbers of a representative of the owner or converter and staff of

the local HUD office who can be contacted for additional information.

2. The owner or converter must:

a. Establish to HUD's satisfaction that he is complying with all applicable laws and requirements; and

b. Make available to tenants information regarding suitable housing alternatives in the community so that tenants can more easily obtain other housing where they wish or need to do so.

3. A tenant for a period of 60 days shall be provided a reasonable opportunity to purchase his or her unit at the lowest sale price at which the unit is offered, before that unit is offered for sale to others. In many instances tenants are offered units at a substantially discounted price. The Department does not intend in any way to discourage this practice.

4. A tenant who does not wish to purchase shall have the right to remain in his or her unit at the same rent, for a period of six months from the notice of intent to convert or until expiration of the tenant's current lease, whichever is later.

These provisions are in addition to the requirements of federal, state or local laws governing conversion and are not intended to abrogate such requirements.

Application of the 125% Standard

1. The special exception rent levels shall be used as the base where they are in effect.

2. To determine whether or not the 125% standard is satisfied, the relationship of individual units to the applicable FMRs, expressed as a percentage, shall be averaged. This figure, the average for all units, is the determinative one.

Reporting Requirements

For each conversion approved pursuant to this notice, the Field Office shall collect and forward to Headquarters the following information:

1. A description of the property being converted, including—Address; section of the Act under which it is or was insured; number and size of units; occupancy rate; rent levels prior to conversion; the average rent expressed as a percentage of FMR; and the number of units with rent in excess of FMR.

2. A description of the conversion, including—Form of ownership, condominium or cooperative; whether or not the conversion is tenant-sponsored; sale prices of the units by size (and type, if appropriate); and amount of discount for tenants, if any. Sale price of the project Financing, interim and permanent Nature and extent a

significant physical improvements, if any.

3. A summary of the concerns of the tenants and actions taken to address these concerns.

4. An explanation of any special problems or circumstances. Any other comments.

5. A copy of the notice of the intent to convert.

(5 U.S.C. 552, 24 CFR Part 10)

Issued at Washington, D.C., October 3, 1980.

Clyde McHenry

Deputy Assistant Secretary for Housing,
Federal Housing Commissioner.

[FR Doc. 80-31798 Filed 10-10-80; 8:45 am]

BILLING CODE 4210-01-M

[Docket No. N-80-1034]

Eligibility Requirements: Mortgagee Approval—Implementation of Fee Schedule

AGENCY: Office of Assistant Secretary for Housing-Federal Housing Commissioner, Department of Housing and Urban Development.

ACTION: General Notice—Listing of Application and Annual Fees To Be Paid to HUD by Mortgagees.

SUMMARY: On July 30, 1980 the Department published in the *Federal Register* at Docket No. R-80-844 as an interim rule, amended regulations governing the eligibility requirements for HUD mortgagee approval which are set forth in 24 CFR Part 203, §§ 203.1 through 203.9. This Notice sets forth the schedule of application and annual fees to be paid to HUD by mortgagees.

FOR FURTHER INFORMATION CONTACT: Andrew Zirneklis, Office of Mortgagee Activities, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410, (202) 755-7330 (This is not a toll-free number).

SUPPLEMENTARY INFORMATION: Section 203.2(a)(11) of 24 CFR requires a mortgagee, other than a Governmental Institution or National Mortgage Association, to pay an application and annual fee to HUD, including fees for each branch office authorized to submit applications for mortgage insurance in the amounts and at such times as HUD may require. This Notice sets forth the schedule of fees to be paid by mortgagees which will take effect on October 1, 1980.

Schedule of Application Fees

Main Office—\$250.

Authorized Agent (except an agent for a Governmental Institution or National Mortgage Association)—\$250.
Branch Office Registration—\$50.

All mortgagees other than Governmental Institutions and National Mortgage Associations or their Authorized Agents applying for HUD approval must submit the nonrefundable application fee and authorized agent fee to the HUD Field Office having jurisdiction over the mortgagee's or authorized agent's main office facility for which approval is requested. The nonrefundable branch office registration fee must be submitted to the HUD Field Office having jurisdiction over the branch office facility. The fees must be submitted with the appropriate mortgagee approval application forms which may be obtained from HUD Field Offices. All applications and registrations received by the HUD Field Offices without the required fee or with payment in an incorrect amount will be returned to the applicant as unacceptable.

Schedule of Annual Fees

HUD-approved mortgagees main office—\$150.

Branch Office registered with HUD—\$50.

All mortgagees other than Governmental Institutions or National Mortgage Associations must pay an annual fee to HUD in the amounts indicated in the schedule of annual fees. Payment of the annual fee must be submitted with Form HUD 92001V, Yearly Verification Report, to the HUD Field Office having jurisdiction over the location of the mortgagee's main office facility. The failure to pay the required annual fee will be included as a grounds for withdrawal of mortgagee approval in the final rule under 24 CFR Part 25. Mortgagees which are approved as Governmental Institutions and National Mortgage Associations are not required to pay the annual fee, they must, however, submit the Form HUD 92001V.

The Form HUD 92001V is used by HUD to verify its data as to a mortgagee's status and operations. HUD will send this form to all HUD-approved mortgagees following the close of the mortgagee's fiscal year. For those approved mortgagees on which HUD does not have an established fiscal year end in its records, the Form HUD 92011V will be sent during January of each year. Where appropriate, mortgagees must correct erroneous data on this form prior to submitting the form to the HUD Field Office. If the required annual fee is not submitted with the Form HUD 92001V,

or the payment is in an incorrect amount, the form will be returned to the mortgagee.

(Secs. 203, 211, 52 Stat. 10, as amended, 23; (12 U.S.C. 1709, 1715b); sec. 207, 52 Stat. 16, as amended; (12 U.S.C. 1713), sec. 7(d), 79 Stat. 670; (42 U.S.C. 3535)).

Issued at Washington, D.C., on October 3, 1980.

Lawrence B. Simons,

Assistant Secretary for Housing, Federal Housing Commissioner.

[FR Doc. 80-31866 Filed 10-10-80; 8:45 am]

BILLING CODE 4210-01-M

[Docket No. D-80-623]

Attesting Officers; Redlegation of Authority

AGENCY: Office of General Counsel, HUD.

ACTION: Redlegation of Authority as Attesting Officer.

Redlegation of Authority

Pursuant to Section B of the delegation of authority published at 44 FR 31322, May 31, 1979, each of the following employees of the Office of General Counsel is designated an attesting officer and is authorized to cause the seal of the Department of Housing and Urban Development to be affixed to such documents as may require its application and to certify that a copy of any book, record, paper, microfilm or other documents is a true copy of that in the file of the Department:

1. Legal Assistant to the Assistant General Counsel for Administrative Law;
2. Secretary to the Associate General Counsel for Litigation

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

Arizona—Final Wilderness Inventory Decision for Hualapai-Aquarius Planning Area

I hereby announce the final Hualapai-Aquarius special inventory decision under the authority of Sec. 603 of the Federal Land Policy and Management Act of 1976 and in accordance with the guidelines in the September 27, 1978, BLM *Wilderness Inventory Handbook* and Organic Act Directive No. 78-61, change 3.

By publication in the September 7, 1979 *Federal Register* page 52349, the BLM announced the beginning of a 60 day public review and comment period on the 17 intensive inventory units totalling approximately 483,695 acres. The public comment period ended on November 12, 1979. During the public comment period, six open houses were held at various locations throughout Arizona. All comments, whether mailed in or presented at an open house in writing or verbally, as well as late comments received in time to be reviewed before final decision was made, were all considered. They have been read, recorded, analyzed, and, where appropriate, field checked. The final intensive wilderness inventory report, including maps, is available upon request from Bureau of Land Management, Phoenix District, 2929 West Clarendon Avenue, Phoenix, Arizona 85017.

Final Intensive Inventory Decision

Inventory unit No.	Preliminary findings ¹		Decision ²	
	Acres proposed dropped	Acres proposed WSA	Acres dropped	Acres WSA
2-37/43	1,850	37,450	2,570	36,730
2-46	22,000		22,000	
2-48	17,700		17,700	
2-50	5,400		5,400	
2-51	17,230		17,230	
2-53		12,765		12,765
2-54	4,800	15,240	4,800	15,240
2-56	4,690	17,010	4,690	17,010
2-57	6,500		6,500	
2-58	9,600	62,300	9,600	62,300
2-59	39,315	108,285	36,300	111,300
2-60	1,400	22,300	1,400	22,300

2-62	5,110	28,190	5,910	27,390
2-63	14,460		14,460	
2-65	9,400		9,400	
2-67	9,900		9,900	
Total	180,155	303,540	178,660	305,035

¹ Before public comment.
² After public comment.

All of the above inventory units will be subject to Interim Management Policy and Guidelines (IMP) until the decision becomes effective. The decision for each inventory unit is

considered individually and separately from the decision for every other unit. These decisions will become effective on November 14, 1980 unless timely protests are received by the Arizona State Director.

Persons wishing to protest any of the decisions announced herein must file a written protest with State Director, 2400 Valley Bank Center, Phoenix, Arizona 85073, on or before 4:15 p.m., November 14, 1980. Only those protests received in the Arizona State Office by time and date specified will be accepted.

The protest must specify the inventory unit, by number, to which it is directed. It must include a clear and concise statement of the reasons for the protest, as well as data to support the reasons stated.

At the conclusion of the protest period, the State Director will publish in the *Federal Register*, a notice of those decisions what were not protested and therefore have become final, and those decisions which are under formal protest. The notice will identify those inventory units under protest and will announce that the decision on the units will not become final pending a decision on the protest and any resulting appeal.

The State Director will issue a written decision on any protest which is filed according to the above requirements and will publish a notice in the *Federal Register* of the action taken in response to the protest.

Any person adversely affected by the State Director's decision on a written protest, may appeal such decision under the provisions of 43 Code of Federal Regulations (CFR) Part 4.

Clair M. Whitlock,
State Director.

October 1, 1980.

Boston National Historical Park; Advisory Commission; Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act, Pub. L. 92-463, that a meeting of the Boston National Historical Park Advisory Commission will be held October 30, 1980 in the site office, Dorchester Heights National Historic Site, 456 West Fourth Street, South Boston, Massachusetts, beginning at 11 a.m.

The Commission was established by Pub. L. 93-431 to advise the Secretary of the Interior on matters relating to the development of the Boston National Historical Park.

The members of the Advisory Commission are as follows:

Mr. Richard A. Berenson, Chairman, Brookline
Mr. Guy A. Beninati, Boston
Mr. Mon O'Shea, Charlestown
Mr. Richard A. Kendall, Boston
Ms. Gail E. Seybold, Boston
Mr. William B. Osgood, Boston
Mr. Byron D. Rushing, Boston
Mrs. Katherine D. Kane, Boston

The matters to be discussed at this meeting include:

1. Tour of Dorchester Heights & briefing on planning, maintenance and operations
2. Review of the Boston NHP Transportation Study
3. Report on the General Management Plans, Volumes I & II
4. Report on African-American National Historic Site Legislation
5. Reports on moving the Historic Wall at the Navy Yard, and the Water-Chelsea connector
6. Status of the Boston NHP Cooperating Association
7. Freedom Trail Maintenance and Operation
8. Report on rehabilitation projects completed at Bunker Hill and underway at Old South Meeting House and the Navy Yard
9. Cooperative Agreements
10. Park Administration and Operations.

The meeting will be open to the public. However, space and facilities are limited, and it is expected that not more than 50 persons will be able to attend the session. Any member of the public may file with the committee a written

statement concerning the matters to be discussed.

Persons wishing further information about this meeting, or who wish to submit written statements, may contact the Superintendent, Boston National Historical Park, at 612-242-5644.

Dated: September 30, 1980.

Hugh D. Gurney,

Superintendent, Boston National Historical Park.

BILLING CODE 4310-70-M

INTERSTATE COMMERCE COMMISSION

Motor Carrier, Financial Application; Decision-Notice

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by Special Rule 240 of the Commission's Rules of Practice (49 CFR 1100.240). These rules provide, among other things, that opposition to the granting of an application must be filed with the Commission on or before November 13, 1980. Failure seasonably to oppose will be construed as a waiver of opposition and participation in the proceeding. Opposition under these rules should comply with Rule 240(c) of the Rules of Practice which requires that it set forth specifically the grounds upon which it is made, and specify with particularity the facts, matters and things relied upon, but shall not include issues or allegations phrased generally. Opposition not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of any protest shall be filed with the Commission, and copy shall also be served upon applicant's representative or applicant if no representative is named. If the protest includes a request for oral hearing, the request shall meet the requirements of Rule 240(c)(4) of the special rules and shall include the certification required.

Section 240(e) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request its dismissal.

Further processing steps will be by Commission notice or order which will be served on each party of record.

Broadening amendments will not be accepted after the date of this publication except for good cause shown.

Any authority granted may reflect administratively acceptable restrictive amendments to the transaction proposed. Some of the applications may have been modified to conform with Commission policy.

We find with the exception of those applications involving impediments (e.g., jurisdictional problems, unresolved fitness questions, questions involving possible unlawful control, or improper divisions of operating rights) that each applicant has demonstrated, in accordance with the applicable provisions of 49 U.S.C. 11301, 11302, 11343, 11344, and 11349, and with the Commission's rules and regulations, that the proposed transaction should be authorized as stated below. Except where specifically noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor does it appear to qualify as a major regulatory action under the Energy Policy Conservation Act of 1975.

In those proceedings containing a statement or note that dual operations are or may be involved we find, preliminarily and in the absence of the issue being raised by a protestant, that the proposed dual operations are consistent with the public interest and the national transportation policy subject to the right of the Commission, which is expressly reserved, to impose such conditions as it finds necessary to insure that applicant's operations shall conform to the provisions of 49 U.S.C. 10930.

In the absence of legally sufficient protests as to the finance application or any application directly related thereto filed on or November 13, 1980 (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except those with impediments) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, the duplication shall not be construed as conferring more than a single operating right.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

Decided: September 23, 1980.

By the Commission, Review Board number 5, members Krock, Taylor, and Williams.

MC-F-14282F, filed January 3, 1980.
LARMORE INCORPORATED (Larmore) (P.O. Box 3043, Wilmington, DE 19804)—PURCHASE—COX—PATRICK TRANSFER & STORAGE CO. (Cox) (5607 Forney, Houston, TX 77036). Representative: Robert J. Gallagher, Suite 1200, 1000 Connecticut Avenue, NW, Washington, DC 20036. Larmore seeks authority to purchase the interstate operating rights and property of Cox. William A. Larmore, III, the majority stockholder and President of Larmore, and John J. Mulholland, a stockholder, officer and director of Larmore, also seek authority to acquire control the operating rights and property of Cox through the transaction. Larmore is purchasing the interstate operating rights of Cox contained in Certificate No. MC-2184 which authorizes the transportation, as a motor common carrier, over irregular routes of (1) *household goods* as defined by the Commission, (a) from Galveston and Houston, TX, to points in LA, MO, and OK, and (b) from points in LA, MO, and OK, to points in TX; and (2) *general commodities* (except those of unusual value, Classes A and B explosives, commodities in bulk, and commodities requiring special equipment other than those requiring specialized hauling or rigging because of size or weight), between points within three miles of Houston, TX, including Houston. Larmore holds authority in Certificate No. MC-5449 which authorizes the transportation, as a motor common carrier, over irregular routes, of *household goods* as defined by the Commission, between points in PA, MD, NJ, within 30 miles of Wilmington, DE, and those in Kent and New Castle Counties, DE, on the one hand, and, on the other, points in PA, NJ, NY, CT, RI, MA, NH, MD, VA, NC, GA, FL, MS, and DC. Impediment: Larmore has not established financial fitness to carry out the transaction. In addition, the record shows that the transaction has already been consummated, without Commission approval, in violation of 49 U.S.C. 11343. (Hearing site: Dover, DE.)

MC-F-14287F, filed January 7, 1980.
TRANS-SWEET, INC. (Trans-Sweet) (3401 Rochester Rd., Lakeville, NY 14480)—PURCHASE (PORTION)—McBRIDE TRANSPORTATION, INC. (McBride) (P.O. Box 430, Goshen, NY 10924). Representative: S. Michael Richards, 44 North Avenue, P.O. Box 225, Webster, NY 14580. Trans-Sweet seeks authority to purchase a portion of the interstate operating rights of McBride. Allen Process Corporation, a

non-carrier and sole stockholder of Trans-Sweet, and in turn, Trust Company of Florida and Helen M. Allen as Personal Representatives of the Estate of E. Ronald Allen, Philip H. Gerner, Robert McClellan, William S. Conway, Jr., and Joseph F. Rapp, Jr., who combined own 55% of the stock of Allen Process Corporation, also seek authority to acquire control of said rights through the transaction. Trans-Sweet is purchasing the interstate operating rights of McBride that are contained in Certificates in MC-80428 and sub-numbers thereunder which authorize the transportation, as a motor common carrier, over irregular routes, of the following: 1. *Liquid sugar, invert sugar, and syrups*, in tank trucks, (a) From Yonkers and New York, NY to Williamsport, Milton, Berwick, Hazleton, Kingston, Scranton and Wilkes-Barre, PA, (b) From New York, NY to Ellenville and Highland, NY, (c) From New York and Yonkers, NY to points in that portion of New York on, north and west of a line beginning at the Pennsylvania-New York State line near Hancock, NY and extending along unnumbered highway to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 30, thence along New York Highway 30 to Grand Gorge, NY, thence along New York Highway 23 to Catskill, NY, thence along an unnumbered highway to Athens, NY, thence across the Hudson River, and thence along New York Highway 23 through Hudson, NY, to the New York-Massachusetts State line, 2. *Liquid sugar and invert sugar*, in tank trucks, From Yonkers, NY to Ellenville and Highland, NY, 3. *Liquid sugar and invert sugar*, in bulk, in tank trucks, From Yonkers, NY, to Bridgeport, New Haven and New London, CT, From New York, NY to Bridgeport, Fairfield, Bridgeton, Asbury Park, New Brunswick and Trenton, NJ, 4. *Liquid sugar, invert sugar, syrup, and flavorings*, in bulk, in tank vehicles, From New York, NY to points in Ohio, 5. *Flavoring syrup used in the manufacturing of carbonated beverages*, in bulk, in tank trucks, From Long Island City, NY, to Baltimore, MD, and Pittsburgh, PA, 6. *Flavoring syrup*, in bulk, in tank trucks, From New York, NY to Boston, MA, 7. *Flavoring syrup, and invert and liquid sugar*, in bulk, in tank vehicles, from Long Island City, NY to Annapolis, MD, 8. *Maple syrup*, in tank vehicles, from Burlington, and Essex Junction, VT to New York, NY, 9. *Blends or mixtures of corn syrup and liquid or invert sugar, and blends or mixtures of corn syrup and liquid and invert sugar*, in bulk, in tank vehicles, (a) From Yonkers and

New York, NY to Williamsport, Milton, Berwick, Hazleton, Kingston, Scranton and Wilkes-Barre, PA, Bridgeport, Fairfield, Bridgeton, Asbury Park, New Brunswick, and Trenton, NJ, Ellenville and Highland, NY, points in Ohio, and points in that portion of New York on, north and west of a line beginning at the Pennsylvania-New York State line near Hancock, NY and extending along unnumbered highway to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 30, thence along New York Highway 30 to Grand Gorge, NY, thence along New York Highway 23 to Catskill, NY, thence along unnumbered highway to Athens, NY, thence across the Hudson River, and thence along New York Highway 23 through Hudson, NY, to the New York-Massachusetts State line. (b) From Yonkers, NY, to Bridgeport, New Haven and New London, CT, (c) from Long Island City, NY, to Annapolis, MD, 10. *Liquid sugar, invert sugar, syrups, blends or mixtures of corn syrup and liquid or invert sugar, and blends or mixtures of corn syrup and liquid and invert sugar*, in bulk, in tank vehicles, From Bayonne, NJ, to Williamsport, Milton, Berwick, Hazleton, Kingston, Scranton, and Wilkes-Barre, PA, and points in Ohio and New York, 11. *Flavoring syrups* (except commodities in bulk, in tank vehicles) from Goshen, NY, to points in New Jersey, 12. (a) *Flavoring syrups* (except commodities in bulk, in tank vehicles) from Goshen, NY, to points in Connecticut, and points in that part of Pennsylvania on and east of U.S. Highway 15; and (b) *Returned shipments of flavoring syrups* described above, from points in Connecticut, and points in that part of Pennsylvania on and east of U.S. Highway 15, to Goshen, NY, 13. (a) *Liquid sugar, invert sugar, syrups, and blends or mixtures of syrups and sugar*, in bulk, in tank vehicles, from Montezuma, NY, to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Vermont, Virginia, Rhode Island, West Virginia, and the District of Columbia; and (b) *Returned, refused, and rejected shipments* of the above-specified commodities, from points in Connecticut, Delaware, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Vermont, Virginia, Rhode Island, West Virginia, and the District of Columbia to Montezuma, NY, restricted in (a) and (b) above to the transportation of traffic originating at or destined to Montezuma, NY, 14. *Dry sugar*, in bulk, from Montezuma, NY, to

points in Connecticut, Delaware, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia and the District of Columbia, 15. *Liquid sugar and molasses*, in tank vehicles, and *dry sugar*, in bulk, from Boston, MA, to points in New York north and west of Rensselaer, Albany, Greene and Delaware Counties, NY, 16. *Flavoring syrups* (except commodities in bulk, from Binghamton, NY, to points in Pennsylvania, 17. *Liquid and invert sugar, corn syrup, mixtures of liquid or invert sugar and corn sugar, and flavoring syrups*, in bulk, in tank vehicles, from New York, NY, to Alexandria, VA, and points in Maryland, Delaware, and Pennsylvania (except Williamsport, Milton, Berwick, Hazleton, Kingston, Scranton, and Wilkes-Barre). Restriction: The authority granted herein is restricted against the transportation of (a) mixtures of corn syrup and liquid or invert sugar, from Long Island City, NY, to Annapolis, MD (b) flavoring syrup used in the manufacture of carbonated beverages, from Long Island City, NY, to Baltimore, MD, and Pittsburgh, PA, and (c) flavoring syrup and invert and liquid sugar from Long Island City, NY, to Annapolis, MD, 18. *Liquid and invert sugar*, in bulk, in tank truck vehicles, (a) from New York, NY, to Alexandria, VA, Allentown, Harrisburg, and Pittsburgh, PA, and points in Delaware and Maryland, (b) From Yonkers, NY, to points in Pennsylvania (except Williamsport, Milton, Berwick, Hazleton, Kingston, Scranton, Wilkes-Barre, Allentown, Harrisburg and Pittsburgh), and points in that part of New Jersey within 25 miles of Philadelphia, PA, and points in Delaware and Maryland, 19. *Flavorings and syrup*, in bulk, in tank truck vehicles, from New York, NY, to Annapolis and Baltimore, MD, Allentown, Harrisburg and Pittsburgh, PA, and Alexandria, VA, with no transportation for compensation on return except as otherwise authorized, 20. *Flavoring syrup*, in bulk, in tank truck vehicles, from New York, NY, to points in Pennsylvania (except Philadelphia and points within 25 miles thereof, and except Williamsport, Milton, Berwick, Hazleton, Kingston, Scranton, Wilkes-Barre, Allentown, Harrisburg and Pittsburgh), with no transportation for compensation on return except as otherwise authorized, 21. *Flavorings and flavoring syrups* (except liquid chocolate, liquid chocolate coating, liquid chocolate liquor, cocoa butter, and liquid

vegetable oil coatings), in bulk, or in tank truck vehicles, from New York and Yonkers, NY, to points in Delaware and Maryland. 22. *Blends of liquid and/or invert sugar, and/or corn syrups*, in bulk, in tank vehicles, from Yonkers, NY, to Chestertown, MD, Wilmington, DE, Philadelphia, PA, and points within 25 miles of Philadelphia, PA. 23. *Blends and mixtures of corn syrup and liquid and/or invert sugar*, in bulk, in tank truck vehicles, (a) from Yonkers, NY, to Alexandria, VA, and points in Pennsylvania (except Philadelphia and points in New Jersey and Pennsylvania within 25 miles thereof, and except Williamsport, Milton, Berwick, Hazleton, Kingston, Scranton and Wilkes-Barre), Delaware and Maryland, (b) from Long Island City, NY, to Alexandria, VA, Annapolis and Baltimore, MD, and points in Pennsylvania (except Philadelphia and points within 25 miles thereof, and except Williamsport, Milton, Berwick, Hazleton, Kingston, Scranton and Wilkes-Barre).

(c) From New York, N.Y., to points in Delaware and Maryland. 24. *Liquid sugar, liquid invert sugar, liquid dextrose, corn syrups, and blends of liquid sugar, liquid invert sugar, liquid dextrose, and corn syrups* (in bulk), From Lakeville, NY, to points in New Jersey, Pennsylvania, Connecticut, Massachusetts, Maine, New Hampshire, Rhode Island, and Vermont. 25. *Liquid sugar, invert sugar, corn syrups, and blends, of liquid and invert sugar and corn syrups*, in bulk, in tank vehicles, From Yonkers, N.Y., to points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. 26. *Products derived from corn and blends containing products derived from corn*, in bulk, in tank vehicles, From the Clinton Corn Processing Company Plant site located at Montezuma, NY, to points in the United States (except Alaska and Hawaii). Restriction: The operations authorized herein are restricted to the transportation of traffic originating at the above described facilities. Trans-Sweet holds authority to operate as a motor common carrier pursuant to certificates in MC-145155 and sub-numbers thereunder. Condition: Trans-Sweet, Inc.'s parent company, Allen Process Corporation, is a non-carrier. So far as can be ascertained from the evidence of record in this proceeding, its investments and functions are primarily related to transportation. Accordingly, concurrently with consummation of the transaction authorized in this proceeding, Allen Process Corporation will be considered a motor carrier

within the meaning of 49 U.S.C. 11348. It will, therefore, be subject to the applicable provisions of 49 U.S.C. Subtitle IV subchapter III of chapter 111 relating to reporting and accounting, and of 49 U.S.C. 11302 relating to the issuance of securities.

Note.—Application for temporary authority has been filed.

MC-F-14339F, filed March 12, 1980. STEWART MOTOR FREIGHT, INC. (Stewart) (1440 Intercity Trafficway, Kansas City, MO 64101)—PURCHASE (PORTION)—DODDS TRUCK LINE, INC. (Dodds) (623 Lincoln, West Plains, MO 65775). Representatives: Paul Dodds, 623 Lincoln, West Plains, MO 65575, and William E. Scott, 1440 Intercity Traffic Way, Kansas City, MO 64101. Stewart seeks authority to purchase a portion of the interstate operating rights of Dodds. William E. Scott, the sole stockholder of Stewart, seeks authority to acquire control of said rights through the transaction. Dodds hold authority in MC-99798 (Sub-No. 1) which authorizes the transportation, as pertinent, of general commodities, usual exceptions, between St. Louis, MO, and Thayer, Cainesville, Doniphan, Springfield, Salem, Ava, and Hartville, MO: from St. Louis over U.S. Hwy 66 to Rolla, MO, then over U.S. Hwy 63 to Cabool, MO, then over U.S. Hwy 60 to Springfield, and return over the same route, serving specified intermediate and off-route points, and restricted against the transportation of shipments moving between St. Louis, MO, on the one hand, and, on the other, Rolla, Springfield, Alton, and Doniphan, MO, or between Rolla and Springfield, MO, and further restricted to the service in the St. Louis, MO-East St. Louis, IL, Commercial Zone as defined by the Commission, to points which are in MO. Stewart is purchasing that portion of the above authority which authorizes the transportation of *general commodities*, with usual exceptions, between St. Louis, MO, and Springfield, MO: from St. Louis over Interstate Hwy 44 to junction U.S. Hwy 63, then over U.S. Hwy 63 to junction U.S. Hwy 60, then over U.S. Hwy 60 to Springfield, and return over the same route, serving no intermediate points, and restricted against the transportation of shipments moving between St. Louis, MO, on the one hand, and, on the other, Springfield, MO, and further restricted to the service in the St. Louis, MO-East St. Louis, IL Commercial Zones, to points in MO. Dodds also holds authority in MC-99798 (Sub-No. 17) which authorizes the transportation, as pertinent, of *general commodities*, usual exceptions, (1) between Collins and Clinton, MO, over MO Hwy 13,

serving all intermediate points and the off-route point of Bay Scout Camp at or near Osceola, MO, and (2) between Springfield and Collins, MO, over MO Hwy 13, serving all intermediate points. Stewart is purchasing that portion of the Sub 17 authority which authorizes the transportation of *general commodities*, usual exceptions, (1) between Collins and Clinton, MO, over MO Hwy 13, serving no intermediate points, and (2) between Springfield and Collins, MO, over MO Hwy 13, serving no intermediate points. Dodds also holds authority in MC-99798 (Sub-No. 18) which authorizes, as pertinent, the transportation, of *general commodities*, usual exceptions, between Kansas City, KS, and Windsor, MO: from Kansas City over city streets to Kansas City, MO, then over US Hwy 50 to junction By-Pass US Hwy 71, then over By-Pass US Hwy 71 to junction US Hwy 71, then over US Hwy 71 to junction MO Hwy 7, then over MO Hwy 7 to junction MO Hwy 52, then over MO Hwy 52 to Windsor, and return over the same route, serving all intermediate points and the off-route points of LaDue, Blavstownm and Leeton, MO.

Stewart is purchasing that portion of the Sub-18 authority which authorizes the transportation of *general commodities*, usual exceptions, between Kansas City, MO, and Clinton, MO: from Kansas City over U.S. Hwy 50 to junction US Hwy 291, then over US Hwy 291 to junction US Hwy 71, and then over US Hwy 71 to junction MO Hwy 7, then over MO Hwy 7 to Clinton, and return over the same route, serving no intermediate points. Stewart, a motor common carrier, has pending before the Commission, a proceeding in MC-F-14236F, in which Stewart is selling all its interstate operating authority in MC-121030. Condition: In order to eliminate the retention of duplicating operating rights by Dodds, its Certificates in MC-99798 (Sub-Nos. 17 and 18) are restricted against the transportation of traffic moving between Springfield, MO, on the one hand, and, on the other, Kansas City, MO. Impediments: Approval and authorization of this transaction is conditioned upon the prior receipt by the Commission of the following: (1) Appendices C-5 and C-6, the "giving effect" balance sheet and income statements, and (2) Appendix E-5, the effect of the transaction on the interests of the carrier employees affected.

Note.—Application for temporary authority has been filed.

MC-F-14428F, filed June 18, 1980. NELSON DISTRIBUTION CORP. (NDC) (20 Enterprise Avenue, Secaucus, NJ 07094)—CONTROL—TRI-STATE

TRANSPORTATION CO., INC. (Tri-State) (Interstate Industrial Park, P.O. Box A, Bellmawr, NJ 08038) and BRADLEY'S EXPRESS, INCORPORATED (Bradley's) (130 Bodwell Street, Avon, MA 02322). Representative: A. David Millner, P.O. Box 1409, 167 Fairfield Road, Fairfield, NJ 07006. NDC seeks authority to acquire control of the interstate operating rights and properties of Tri-State and Bradley's through the purchase of the stock of these designated companies from Nelson Resource Corp. (NRC). NRC presently controls NDC and Bradley's by ownership of 100 percent of the stock of these companies and indirectly controls Tri-State by ownership of 100 percent of the stock of Tri-State's parent company, A & B Transportation Co., Inc. Under the plan before the Bankruptcy Court, all shares of NDC now owned by NRC would be acquired by 4 individuals: William A. Nelson, Jr., James E. McClain, Donald F. Tompkins, and William Schultz. The interstate operating rights to be controlled by NDC are as follows: Tri-State (MC-30374), transporting, as a motor common carrier, (A) over regular routes, (1) *men's and women's garments, and materials, supplies equipment, and machinery* used in the manufacture of such garments, between Philadelphia, PA, and New York, NY, and Bordentown, NJ, serving the intermediate points of Minotola, Hammonton, Camden, and Vineland, NJ, and the off-route points of Richland, Mizpah, Mays Landing, Egg Harbor City, Millville, Bridgeton, and New Brunswick, NJ, as follows: (a) from Philadelphia across the Delaware River to Camden, NJ, then over NJ Hwy 45 to junction NJ Hwy 47, then over NJ Hwy 47 to junction NJ Hwy 540 near Vineland, NJ, then over NJ Hwy 540 via Vineland, NJ, to junction unnumbered hwy, then over unnumbered hwy via Minotola, NJ, to junction NJ Hwy 54, then over NJ Hwy 54 to junction US Hwy 206, then over US Hwy 206 to junction US Hwy 130, then over US Hwy 130 to junction US Hwy 1, and then over US Hwy 1 to New York, and return over the same route, and (b) from Philadelphia across the Delaware River to Camden, NJ, then over US Hwy 130 to junction unnumbered hwy near Bordentown, NJ, and then over unnumbered hwy to Bordentown, and return over the same route; and (2) *general commodities*, (usual exceptions), (a) between Woodbine, NJ, and Philadelphia, PA, serving all intermediate points, and the off-route points of Dorchester, Leesbury, and Dennisville, NJ; from

Woodbine over NJ Secondary Hwy 557 to Marshallville, NJ, then return over NJ Secondary Hwy 557 to junction NJ Hwy 47, then over NJ Hwy 47 via Millville, NJ, to Fairview, NJ, then over NJ Hwy 41 to Runnemede, NJ, then over NJ Hwy 168 to Camden, NJ, and then across the Delaware River to Philadelphia, and return from Philadelphia to Millville, NJ, as specified above, then over NJ Hwy 49 to junction NJ Secondary Hwy 557, and then over NJ Secondary Hwy 557 to Woodbine, and (b) between Philadelphia, PA, and Egg Harbor City, NJ, over U.S. Hwy 30, serving all intermediate points, and serving the off-route points of Tansboro, Cedar Brook, Blue Anchor, and Winslow, NJ, and those within 5 miles of Egg Harbor City; and (B) over irregular routes, (1) *men's clothing*, in containers and on hangers, from Vineland, NJ, to Baltimore, MD, and Washington, DC; (2) *materials and supplies* used in the manufacture of men's pants, in containers, from Baltimore, MD, to Hammonton, NJ, (3) *men's pants*, in containers, from Hammonton, NJ, to Baltimore, MD; (4) *general commodities* (usual exceptions), (a) between Egg Harbor City, NJ, and points within 20 miles thereof, on the one hand, and, on the other, New York, NY, and (b) between Egg Harbor City, NJ, and points within 20 miles thereof, on the one hand, and, on the other, Philadelphia, PA; (5) *men's garments*, on hangers, *pants and vests*, and *materials and supplies* used in the manufacture of men's garments, between Boston, MA, and Woodbine, NJ; (6) *clothing and hatters' supplies*, from Woodbine, NJ, to New York, NY; (7) *materials and supplies* used in the manufacture of clothing, from New York, NY, to Woodbine, NJ; (8) *rubber heels*, from Woodbine, NJ, to New York, NY, and Marlboro, MA; (9) *rubber cement*, from Woodbine, NJ, to New York, NY; (10) *rejected shipments* of the four next above-specified commodities, from the four next above-specified destinations points to Woodbine, NJ; (11) *materials and supplies* used in the manufacture of shoes, and *rejected shipments* thereof, between Woodbine, NJ, on the one hand, and, on the other, New York, NY, and Marlboro, MA; (12) *clothing and wearing apparel*, on hangers, and *component parts* used in the manufacture of such garments as described in Appendix X to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, between points in Cumberland and Atlantic Counties, NJ, on the one hand, and, on the other, Martinsburg, WV; (13) *wearing apparel and materials, supplies and equipment* used in the manufacture

of wearing apparel, between points in Cumberland, Salem, Atlantic, Camden, and Gloucester Counties, NJ, on the one hand, and on the other, points in Hudson, Bergen, Passaic, and Essex Counties, NJ, with specified restrictions; (14) (a) *wearing apparel*, and (b) *materials and supplies* used in the manufacture of wearing apparel (except commodities in bulk), and (c) *such commodities* as are sold by department stores when moving in mixed loads with the commodities in (a) and (b) above, between New York, NY, and Secaucus, NJ, and Philadelphia, PA, on the one hand, and, on the other, Baltimore and Frederick, MD, Washington, DC, Woodbridge and Manassas, VA, and points in Baltimore, Howard, Montgomery, Anne Arundel, and Prince Georges Counties, MD, and points in Fairfax County, VA; (15) *general commodities* (usual exceptions), between New York, NY, and Philadelphia, PA; (16) *wearing apparel, and materials and supplies and equipment* used in the manufacture of wearing apparel, (except commodities in bulk), between points in Hudson, Passaic, Bergen and Essex Counties, NJ, on the one hand, and on the other, Philadelphia, PA, with specified restrictions; (17) *wearing apparel*, loose, on hangers, between Baltimore and Frederick, MD, on the one hand, and, on the other, points in Washington, DC commercial zone and those in Fairfax County, VA; (18) *wearing apparel, and materials, equipment and supplies* (except commodities in bulk), used in the manufacture of wearing apparel, between Baltimore, MD, on the one hand, and, on the other, Eldersburg, MD, with restrictions; (19) *such commodities* as are dealt in by retail department stores (except foodstuffs and commodities in bulk), between New York, NY, on the one hand, and, on the other, the facilities of Gimbel Bros. at Lancaster, PA; and (20) *books* in mixed loads with department store merchandise and wearing apparel, between points in Carroll County, MD, on the one hand, and, on the other, New York, NY, Philadelphia, PA, Boston, MA, and points in NJ, Fairfax County, VA, and DC; and Bradley's (MC-85130), transporting, as a motor common carrier, (A) over regular routes, *general commodities* (usual exceptions), (1) serving Thompsonville, CT, as an off-route point in connection with carrier's regular route operations authorized herein to and from Hartford, CT, with restrictions; (2) between Middletown, CT, and New York, NY, serving the intermediate point to New Haven, CT, the off-route points of East Hampton,

Portland, Moodus, and Higganum, CT, and Newark, NJ, and the intermediate and off-route points in the New York, NY, Commercial Zone, as defined by the Commission, in 1 M.C.C. 665: (a) from Middletown over alternate US Hwy 6 to Meriden, CT, then over US Hwy 5 to New Haven, CT, and then over US Hwy 1 to New York, and return over the same route; and (b) from Middletown over CT Hwy 17 to New Haven, CT, then as specified above to New York, and return over the same route;

(3) between Middletown and Hartford, CT, serving the intermediate points of Cromwell, Rocky Hill, and Weathersfield, CT, over CT Hwy 9; (4) between Bridgeport and Middletown, CT, serving the intermediate and off-route points of Stratford, Milford, West Haver, New Haven, North Haven, Wallingford, and Meriden, CT, from Bridgeport over U.S. Hwy 1 to New Haven, CT, then over Alternate U.S. Hwy 5 to junction U.S. Hwy 5, then over U.S. Hwy 5 to junction Alternate U.S. Hwy 5, then over Alternate U.S. Hwy 5 to Meriden, CT, and then over Alternate U.S. Hwy 6 to Middletown, and return over the same route; and (B) over irregular routes; (1) *cotton cloth*, from Fonda and Broadalbin, NY, Woonsocket, RI, and Canton, MA, to Middletown, CT, and (2) *refused, rejected or damaged cotton cloth*, from Middletown, CT, to Fonda and Broadalbin, NY, Woonsocket, RI, and Canton, MA; (3) *rubber footwear and empty cartons*, from Middletown, CT, to Utica, NY; (4) *refused, rejected or damaged rubber footwear and empty cartons*, from Utica, NY, to Middletown, CT; (5) *paper and fibre cases*, from East Walpole, MA, to Middletown, East Hampton, Rocky Hill, and Cromwell, CT; (6) *refused, rejected or damaged paper and fibre cases*, from Middletown, East Hampton, Rocky Hill, and Cromwell, CT, to East Walpole, MA; (7) *mica*, between Portland, CT, and Boston, MA; (8) *general commodities* (usual exceptions), (a) between Middletown, CT, on the one hand, and, on the other, Iliion, NY, and Boston, MA, (b) between points in MA; (c) from points in Nassau County, NY, to points in Suffolk County, NY, (d) between New York, NY, on the one hand, and, on the other, points in Bergen, Essex, Hudson, Middlesex, Monmouth, Passaic, and Union Counties, NJ, Nassau, Suffolk, Westchester, Rockland, Orange, Sullivan, Ulster, Greene, Columbia, Dutchess, and Putnam Counties, NY, and Fairfield and New Haven Counties, CT, (e) between points in Hudson County, NJ, on the one hand, and, on the other, points in Bergen, Essex, Hudson,

Middlesex, Monmouth, Passaic, and Union Counties, NJ, and Westchester, Rockland, Orange, Sullivan, Ulster, Greene, Columbia, Dutchess, and Putnam Counties, NY, (f) between Middletown, CT, on the one hand, and, on the other, points in MA (except Boston and points in its commercial zone, as defined by the Commission), and (g) between New York, NY, on the one hand, and, on the other, Iliion, NY, and points in MA; and (9) (a) *wearing apparel*, on hangers, and in cartons, and (b) *department store merchandise* when transported in mixed loads with wearing apparel, on hangers and in cartons, from Secaucus, NJ, to Coventry, RI, restricted to the transportation of traffic destined to the facilities of Outlet Department Stores. *Conditions:* (1) Tri-State and Bradley's hold, to a minor extent, duplicating operating rights. NDC plans to merge Tri-State and Bradley's, subsequent to this instant transaction. Therefore, our approval and authorization of this transaction is conditioned to provide that to the extent that Tri-State and Bradley's rights duplicate, they may not thereafter be severed from common ownership by sale or otherwise. (2) As far as can be ascertained from the evidence of record in this proceeding, NDC is a non-carrier with its investments and functions primarily related to transportation. Accordingly, concurrently with consummation of the transaction authorized in this proceeding, NDC will be considered a motor carrier within the meaning of 49 U.S.C. 11348 of Subtitle IV. It will, therefore, be subject to the applicable provisions of 49 U.S.C. subchapter III of chapter III relating to reporting and accounting and of 49 U.S.C. 11302 relating to the issuance of securities. *Impediments:* Authorization and approval of this transaction is conditioned upon the prior receipt by the Commission of an affidavit signed by William A. Nelson, Jr., James E. McClain, Donald F. Tompkins, and William Schultz, stating that they will control NDC through stock ownership and that they join in this application. Agatha L. Mergenovich, Secretary.

BILLING CODE 7035-01-M

Motor Carrier, Financial Application; Decision-Notice

The following applications filed on or after July 3, 1980, seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to

these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by Special Rule 240 of the Commission's Rules of Practice (49 CFR 1100.240). An interim proposed final Rule 240 reflecting changes to comport with the Motor Carrier Act of 1960 was published in the July 3, 1980, Federal Register at 45 FR 45529 under Ex Parte 55 (Sub-No. 44), *Rules Governing Applications Filed By Motor Carriers Under 49 U.S.C. 11344 and 11349*. These rules provides among other things, that opposition to the granting of an application must be filed with the Commission in the form of verified statements on or before November 28, 1980. Failure seasonably to oppose will be construed as a waiver of opposition and participation in the proceeding. If the protest includes a request for oral hearing, the request shall meet the requirements of Rule 240(c) of the special rules and shall include the certification required.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.240(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of \$10.00, in accordance with 49 CFR 1100.240(A)(h).

Amendments to the request for authority will not be accepted after the date of this application. However, the Commission may modify the operating authority involved in the application to conform to the Commission's policy of simplifying grants of operating authority. *We find*, with the exception of those applications involving impediments (e.g., jurisdictional problems, unresolved fitness questions, questions involving possible unlawful control, or improper divisions of operating rights) that each applicant has demonstrated, in accordance with the applicable provisions of 49 U.S.C. 11301, 11302, 11343, 11344, and 11349, and with the Commission's rules and regulations, that the proposed transaction should be authorized as stated below. Except where specifically noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor does it appear to qualify as a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests as to the finance application or to any application directly related thereto filed within 45 days of publication (or, if the application later becomes unopposed), appropriate authority will be issued to each

applicant (unless the application involves impediments) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, the duplication shall not be construed as conferring more than a single operating right.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

Dated: September 23, 1980.

By the Commission, Review Board Number 5, Members Krock, Taylor and Williams. (Board member Taylor not participating.)

MC-F-14440F, filed September 15, 1980. SOUTH EASTERN XPRESS, INC. (South Eastern) (P.O. Box 6459, Fort Worth, TX 76115)—PURCHASE (PORTION)—TOMAHAWK TRUCKING, INC. (Tomahawk) (P.O. Box O, Vernal, UT 84078). Representative: Billy R. Reid, 1721 Carl Street, Fort Worth, TX 76103. South Eastern seeks authority to purchase a portion of the interstate operating rights of Tomahawk. Ben Hamrick, the sole stockholder of South Eastern, seeks authority to acquire control of said rights through the transaction. South Eastern is purchasing that portion of Tomahawk's authority which is contained in Certificate No. MC-115092 (Sub-No. 25), which authorizes the transportation, as a motor common carrier, over irregular routes, of *meats, meat products, meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides), from the facilities of Columbia Foods, Inc., a subsidiary of Iowa Beef Processors, at or near Boise, ID, to points in AZ, CA, CO, IL, IN, NV, OR, TX, UT, WA, and WI, restricted to the transportation of shipments originating at the above-named origin point. South Eastern is authorized to operate as a common carrier by motor vehicle, pursuant to Certificates issued in MC-118130 and sub-numbers thereunder.

Note.—South Eastern also seeks authority to purchase Tomahawk's authority in MC-115092 (Sub-Nos. 93TA and 108F). This portion is being deleted from the authority authorized to be acquired by South Eastern because the temporary authority cannot be transferred under 49 U.S.C. 11343, and the Sub-no. 108F is still pending before the Commission. South Eastern should seek to be

substituted for Tomahawk in these proceedings.

MC-F-14480F, filed September 15, 1980. WENGER TRUCK LINE, INC. (Wenger) (1011 Floral Lane, P.O. box 3427, Davenport, IA 52808)—PURCHASE—MORTON TRUCK LINES, INC. (Morton) (101 W. Willis Avenue, Perry, IA 50220). Representative: Larry D. Knox, 60 Hubbell Bldg., Des Moines, IA 50309. Wenger seeks authority to purchase the interstate operating rights of Morton. Robert F. Murray is the sole stockholder of Wenger. Operating rights sought to be acquired through the purchase are Transferor's MC-119384 and Subs 12, 14, 16, 18, 23, 25, 27, 28, 29, 32, and 36, authorizing operations as a common carrier, by motor vehicle, over irregular routes, transporting: MC-119384: *Sheet steel*, including corrugated and galvanized sheet steel, *steel posts, rivets, steel fencing*, galvanized or not, *corrugated plating, bolts, and nuts*, from Kokomo, IN and points in Calumet and North Townships, Lake County, IN, to Muscatine, Des Moines, and Sioux City, IA, and Pierre, SD; *Steel culvert pipe, tarred corrugated galvanized pipe, nuts, fence, posts, and gates*, from Des Moines and Sioux City, IA, to points in NE and SD; *Iron and steel castings*, from Perry, IA, to Albert Lea, MN, and points in IL; *Seed corn*, from Perry, Iowa, to points in MO, NE, KS, and SD, and From Coon Rapids, IA, to points in NE; *Commercial fertilizer*, from Perry, IA, to points in MO, KS, and SD; and *Deteriorated commercial fertilizer*, from points in MO, KS, and SD, to Perry, Iowa. *Fertilizer*, from Perry, Iowa, to points in that part of MN on and south of a line beginning at the SD-MN State line and extending along MN Hwy. 19 through Ivanhoe, Marshall, Gaylord, and Howsdale, MN, to the WI-MN State line near Red Wing, MN; *Livestock*, from Coon Rapids, IA, and points within 20 miles thereof, to Omaha, NE, and *Petroleum products in containers, livestock, building materials, binder twine, hay, straw, mill feeds, molasses, paper, salt, farm machinery, steel and iron fencing, tanks, and coal*, from Omaha, NE, to Coon Rapids, IA, and points within 20 miles of Coon Rapids, IA. Sub 12: *Meats, meat products, and meat by-products, and articles distributed by meat packinghouses*, as described in sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, (except hides and commodities in bulk), from the plant site of Oscar Mayer & Co., Inc., at Perry, IA, to points in IL, IN, MI, MN, NE, OH, and WI, restricted to the transportation of traffic originating at the named plant

site and destined to points in the above-named States. Sub 14: *Meats, meat products, and meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plant site of Oscar Mayer & Co., Inc., at Beardstown, IL, to points in IN, IA, MI, MN MO, NE, OH, and WI, restricted to the transportation of traffic originating at the described plant site and destined to points in the States named. Sub 16: *Meats, meat products and meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, except hides and commodities in bulk, and from the plant site and storage facilities utilized by Oscar Mayer & Co., Inc., at Davenport, IA, to points in MI, OH, and IN (except points in the Chicago, IL, commercial zone as defined by the Commission), restricted to the transportation of traffic originating at the described plant site and storage facilities and destined to points in the above-named States. Sub 18: *Meats, meat products, and meat by-products, and articles distributed by meat Packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, except hides and commodities in bulk, from the plant site of Oscar Mayer & Co., Inc., at Perry, Iowa, to Louisville, KY; Kansas City, KS; and points in MO, restricted to the transportation of shipments originating at the plant site of Oscar Mayer & Co., Inc., at Perry, IA. Sub 23: *Foundry sand* (except in bulk), from points in WI and IL (except Troy Grove and Aurora, IL) to Perry, IA. Sub 25: *Frozen foods*, from Quincy, IL, to Cleveland, OH. Sub 27: *Meats, meat products, meat by-products, and articles distributed by meat packinghouses, and such commodities* as are used by meat packers in the conduct of their business as defined in Sections A, C, and D of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, (except hides and commodities in bulk), between the facilities of Oscar Mayer & Co., Inc., located at or near Madison, WI, and the facilities of Oscar Mayer & Co., Inc., located at or near Davenport, IA, restricted to the transportation of traffic originating at and destined to the above-named facilities. Sub 28: *Agricultural twine and baler wire*, from Kenosha, WI, to points in IA, MO, KS, and MN,

Sub 29: *Agricultural twine*, from Milwaukee, WI, to points in IA, KS, MN, MO, NE, WI, ND, and SD, and From Kenosha, WI, to points in NE, WI, ND, and SD, Sub 32: *Meats, meat products, and meat by-products, articles distributed by meat-packing houses, and such commodities* as are used by meat packers in the conduct of their business when destined to and for use by meat packers, as described in Sections A, C, and D of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766, (except commodities in bulk and hides), between the facilities of (a) Lauridsen Foods, Inc., at or near Britt, IA, and (b) Armour and Company, At Mason City, IA, on the one hand, and, on the other, points in MN, WI, MI, OH, IN, IL, MO, KS, and NE, restricted to the transportation of traffic originating at and destined to the indicated points. Sub 36: *Tankage*, in bulk, in hopper type vehicles, from Perry, IA, to Omaha, NE. Wenger is authorized to operate as a motor common carrier pursuant to certificates issued in MC-109818 and sub-numbers thereunder. **Impediment:** Authorization and approval of this transaction is conditioned upon the prior receipt by the Commission of an affidavit signed by Robert F. Murray, stating that he is the sole stockholder of Wenger Truck Line, Inc., and that as person in control of Transferee through stock ownership, he joins in this application.

Note.—Application for temporary authority has been filed.

Agatha L. Mergenovich,
Secretary.

Motor Carrier Temporary Authority Application

Correction

In FR Doc. 80-25973, at page 57185 in the issue of Wednesday, August 27, 1980, on page 57194, in the last column, the first full paragraph, the thirteenth line down, correct "ND" to read "NC".

BILLING CODE 1505-01-M

Permanent Authority Decisions

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special rule 247 was published in the Federal Register of July 3, 1980, at 45 FR 45539. Person wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's

supporting evidence, can be obtained from any applicant upon request and payment to applicant of \$10.00. Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings:

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975. In the absence of legally sufficient protests in the form of verified statements filed on or before November 28, 1980 [or, if the application later becomes unopposed] appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notice that the decision-notice is effective. Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition. To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OPI-047

Decided: October 3, 1980.

By the Commission, Review Board Number 3, Members, Parker, Fortier and Hill.

MC 200 (Sub-499F), filed September 26, 1980. Applicant: RISS INTERNATIONAL CORPORATION, P.O. Box 100, 215 W. Persing Rd., Kansas City, MO 64141. Representative: H. Lynn Davis (same address as applicant). Transporting *noodles and noodle products*, in containers, from the

facilities of C. F. Mueller Co., at or near Jersey City, NJ, to points in MI, restricted to traffic originating at the named origin and destined to the indicated destinations.

MC 1990 (Sub-3F), filed September 30, 1980. Applicant: BOSTON & WOONSOCKET EXPRESS CO., INC., d.b.a. B & W EXPRESS, P.O. Box 89, 1117 River St., Woonsocket, RI 02895. Representative: Frank J. Weiner, 15 Court Square, Boston, MA 02108. Transporting (1) *plastic articles*, and (2) *materials, equipment, and supplies* used in the manufacture and distribution of plastic articles, between points in RI, on the one hand, and, on the other, points in NH.

MC 2860 (Sub-208F), filed September 8, 1980, and previously noticed in FR issue of September 23, 1980. Applicant: NATIONAL FREIGHT, INC. 71 West Part Ave., Vineland, NJ 08360. Representative: Peter J. Nickles, 888 16th St., NW., Washington, DC 20006. Transporting *general commodities* between points in AL, AR, GA, IL, IN, KY, LA, MA, ME, MI, MN, MS, NH, OH, OK, PA, TN, TX, VT, WI, and WV. Condition: To the extent that the certificate in this proceeding authorizes the transportation of classes A and B explosives, it will expire five years from the date of issuance.

Note.—Applicant intends to tack this authority with its existing regular and irregular route authority. This republication shows applicant's intention to tack with its existing authority.

MC 2900 (Sub-431F), filed September 30, 1980. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Rd., P.O. Box 2408-R, Jacksonville, FL 32203. Representative: S. E. Somers, Jr. (same address as applicant). Transporting *primary metal products, fabricated metal products, and machinery and supplies* as described in Items (33), (34), and (35), respectively of the Standard Transportation Commodity Code Tariff, between points in the U.S.

MC 2900 (Sub-433F), filed September 22, 1980. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Road, P.O. Box 2408, Jacksonville, FL 32203. Representative: John C. Bradley, Suite 1301, 1600 Wilson Blvd., Arlington, VA 22209. Over *regular routes*, transporting *general commodities* (except classes A and B explosives and household goods as defined by the Commission), (1) between Hamburg, NY, and Princeton, WV, over U.S. Hwy 219; (2) between Buffalo, NY, and Youngstown, OH, over U.S. 62; (3) between Painted Post, NY, and Clarksville, VA, over U.S. Hwy 15; (4) between Scranton, PA, and Roanoke, VA, over U.S. Hwy 11; (5) between Van

Buren, ME, and Boston, MA, over U.S. Hwy 1; (6) between Moose River and Brunswick, ME, over U.S. Hwy 201; (7) between Stewartstown and Boston, MA, over U.S. Hwy 3; (8) between Derby Line, VT, and Hartford, CT, over U.S. Hwy 5; (9) between Highgate Springs, VT, and Norwalk, CT, over U.S. Hwy 7; (10) between Houlton, ME, and Rouses Point, NY, over U.S. Hwy 2; (11) between Portsmouth, ME, and Troy, NY, over U.S. Hwy 4; (12) between Boston, MA, and Binghamton, NY, from Boston over MA Hwy 2 to MA-NY State line, then over NY Hwy 2 to junction NY Hwy 7, then over NY Hwy 7 to Binghamton, and return over the same route; (13) between Springfield, MA, and Buffalo, NY, over U.S. Hwy 20; (14) between Orleans, MA, and Cleveland, OH, over U.S. Hwy 6; (15) between Cape May, NJ, and Rouses Point, NY, over U.S. Hwy 9 to junction NY Hwy 9B, then over NY Hwy 9B to Rouses Point, and return over the same route; (16) between Selinsgrove, and Meadville, PA, over U.S. Hwy 522 to Lewiston, then over U.S. Hwy 322 to Meadville, and return over the same route; (17) between Baltimore, MD, and Washington, PA, over U.S. Hwy 40; (18) between the District of Columbia and Grafton, WV, over U.S. Hwy 50; (19) between Richmond, VA, and Elkins, WV, over U.S. Hwy 33; (20) between Norfolk and Winchester, VA, over U.S. Hwy 17; (21) between Richmond, VA, and Charleston, WV, over U.S. Hwy 60; (22) between Suffolk, VA, and Bluefield, WV, over U.S. Hwy 460; (23) between Danville and Warrenton, VA, over U.S. Hwy 29; (24) between Sayre, PA, and Martinsville, VA, over H.S. Hwy 220; (25) between Danville and Abingdon, VA, over U.S. Hwy 58; and (26) between Atlantic City, NJ, and Philadelphia, PA, over U.S. Hwy 30, serving in routes (1) through (26) all intermediate points and all points in ME, NH, VT, MA, CT, RI, NY, PA, NJ, DE, MD, and VA as off-route points.

Note.—Applicant intends to tack this authority with its existing regular-route operations.

MC 2900 (Sub-436F), filed September 25, 1980. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Rd., P.O. Box 2408, Jacksonville, FL 32203. Representative: S. E. Somers, Jr. (same address as applicant). Transporting (1) household appliances, and (2) parts for household appliances, and (3) materials used in the manufacture of the commodities in (1) and (2), between points in MI, on the one hand, and, on the other, points in the U.S.

MC 2900 (Sub-438F), filed September 30, 1980. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Rd., P.O. Box

2408-R, Jacksonville, FL 32203. Representative: S. E. Somers, Jr. (same address as applicant). Transporting *such commodities* as are dealt in by food business houses, between points in the U.S.

MC 5470 (Sub-231F), filed September 30, 1980. Applicant: TAJON, INC., R.D. 5, Mercer, PA 16137. Representative: Brian L. Troiano, 918 16th St., N.W., Washington, DC 20006. Transporting *hazardous waste materials*, between points in the U.S.

MC 8771 (Sub-72F), filed September 29, 1980. Applicant: S M TRANSPORT INC., P.O. Box 41, Camp Hill, PA 17001. Representative: John R. Sims, Jr., 915 Pennsylvania Bldg., 425 13th St., N.W., Washington, DC 20004. Transporting *commodities* which because of their size and weight require the use of special equipment, between points in Scott County, IA, Hennepin County, MN, and Hillsborough County, FL, on the one hand, and, on the other, points in the U.S.

MC 11220 (Sub-218F), filed September 25, 1980. Applicant: GORDONS TRANSPORTS, INC., 185 West McLemore Ave., Memphis, TN 38101. Representative: James J. Emigh, P.O. Box 59, Memphis, TN 38101. Transporting *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between points in Carroll County, KY, on the one hand, and, on the other, points in AL, AR, FL, GA, IL, IN, IA, KS, LA, MI, MN, MS, MO, NY, NC, OH, OK, PA, SC, TN, TX, VA, WV, and WI, restricted to traffic originating at or destined to the facilities of Dow Corning Corporation.

MC 11220 (Sub-219F), filed September 29, 1980. Applicant: GORDONS TRANSPORTS, INC., 185 West McLemore Avenue, Memphis, TN 38101. Representative: James J. Emigh, P.O. Box 59, Memphis, TN 38101. Transporting *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving (1) Canton, MO, (2) Malvern, OH, and (3) Osceola, WI, as off-route points in connection with carrier's presently authorized regular route operations.

MC 11220 (Sub-220F), filed October 1, 1980. Applicant: GORDONS TRANSPORTS, INC., 185 West McLemore Ave. Memphis, TN 38101. Representative: James J. Emigh, P.O. Box 59, Memphis, TN 38101. Transporting *general commodities* (except household

goods as defined by the Commission and classes A and B explosives), between points in Hardeman County, TN, on the one hand, and, on the other, points in AL, AR, GA, IA, IL, IN, KS, KY, LA, MI, MN, MO, MS, OH, OK, PA, TN, TX, WI, and WV.

MC 29910 (Sub-292F), filed September 23, 1980. Applicant: ABF FREIGHT SYSTEM, INC., 301 South Eleventh St., Fort Smith, AR 72901. Representative: Joseph K. Reber (same address as applicant). Transporting *lumber and building materials*, between points in De Soto Parish, LA, on the one hand, and, on the other, points in the U.S. (except AK and HI).

MC 51280 (Sub-3F), filed September 22, 1980. Applicant: GRANTSBURG TRANSFER, INC., Route 1—Box 304, Grantsburg, WI 54840. Representative: Daniel R. Carlson (same address as applicant). Transporting (1) *brass scrap*, in bulk, from Grantsburg, WI, to Chicago, IL, (2) *brass and steel materials*, from Chicago, IL, to Grantsburg, WI, (3) *crusher and safety screens*, from the facilities of Durex Products, Inc., at Luck, WI, to the facilities of Durex Products, Inc. at Windfall and Delphi, IN, and (4) *wire steel*, from Chicago, IL, to the facilities of Durex Products, Inc., at Luck, WI.

MC 59120 (Sub-42F), filed September 26, 1980. Applicant: EAZOR EXPRESS, INC., Eazor Square, Pittsburgh, PA 15201. Representative: Ted Kanoza (same address as applicant). Transporting *lumber or wood products* (except furniture), *clay, concrete, glass or stone products, primary metal products*, including galvanized (except coating or other allied processing), *fabricated metal products, machinery and supplies* (except electrical), and *transportation equipment*, as described in Items (24), (32), (33), (34), (35) and (37) respectively, of the Standard Transportation Commodity Code Tariff, between points in Allegheny and Beaver Counties, PA, Mahoning County, OH, on the one hand, and, on the other, points in CT, MA, RI, KY, and WI.

MC 61231 (Sub-181F), filed September 23, 1980. Applicant: EASTER ENTERPRISES, INC., d.b.a. ACE LINES, INC., P.O. Box 1351, Des Moines, IA 50305. Representative: William L. Fairbank, 1980 Financial Center, Des Moines, IA 50309. Transporting (1) *construction materials, buildings, metal and metal articles, lumber, wood products, forest products, insulation materials, plastic, cellulose and urethane articles, pipe, paper and paper products, and packaging and cushioning materials*, and (2) *materials and supplies* used in the manufacture and

distribution of the commodities in (1) above, between points in AZ, AR, CO, IL, IN, IA, KS, KY, MI, MN, MO, MT, NE, NM, ND, OH, OK, SD, TX, WI, and WY. Condition: Issuance of a certificate in this proceeding is subject to the coincidental cancellation, at applicant's written request, of its certificates in MC 61231 Sub-E1 through Sub-E84.

MC 70151 (Sub-62F), filed September 25, 1980. Applicant: UNITED TRUCKING SERVICE, INC., 8505 West Warren Avenue, P.O. Box 610, Dearborn, MI 48121. Representative: LaVergne L. Adsit (same address as applicant). Transporting *general commodities* (except classes A and B explosives and household goods as defined by the Commission), between points in St. Charles County, MO, on the one hand, and, on the other, points in the U.S. (except AK and HI).

MC-75320 (Sub-23F), filed September 29, 1980. Applicant: CAMPBELL SIXTY-SIX EXPRESS, INC., P.O. Box 807, Springfield, MO 65801. Representative: John A. Crawford, P.O. Box 22567, Jackson, MS 39205. Transporting *general commodities* (except household goods as defined by the Commission and classes A and B explosives), serving points in St. Charles County, MO, as off-route points in connection with applicant's otherwise authorized regular-route operations.

MC 82841 (Sub-293F), filed September 26, 1980. Applicant: HUNT TRANSPORTATION, INC., 10770 "I" Street, Omaha, NE 68127. Representative: Donald L. Stern, 7171 Mercy Road, Suite 610, Omaha, NE 68106. Transporting (1) *iron and steel articles*, and (2) *materials, equipment and supplies* used in the manufacture and distribution of iron and steel articles, between points in Washington County, TX, on the one hand, and, on the other, points in the U.S. (except AK and HI).

MC 82841 (Sub-294F), filed September 29, 1980. Applicant: HUNT TRANSPORTATION, INC., 10770 "I" St., Omaha, NE 68127. Representative: Donald L. Stern, 7171 Mercy Rd., Suite 610, Omaha, NE 68106. Transporting (1) *metal products*, and (2) *materials and supplies* used in the manufacture of metal products, between points in Lancaster County, NE, on the one hand, and, on the other, points in the U.S.

MC 83430 (Sub-15F), filed September 26, 1980. Applicant: ONEIDA MOTOR FREIGHT, INC., Commercial Ave., Carlstadt, NJ 07072. Representative: William Biederman, 371 Seventh Ave., New York, NY 10001. Transporting *general commodities* (except those of unusual value, classes A and B

explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between points in Erie, Warren, McKean, Potter, Tioga, Bradford, Susquehanna and Wayne Counties, PA, on the one hand, and, on the other, Hartford, CT, and those points in that part of CT on and south of a line beginning at the NY-CT State line, and extending along U.S. Hwy 6 to Sandy Hook, CT., then along CT Hwy 34 to New Haven, CT, and points in Bucks, Philadelphia, Delaware, and North Hampton Counties, PA.

MC 84450 (Sub-4F), filed September 23, 1980. Applicant: S. R. T. MOTOR FREIGHT, INC., 1801 South Pennsylvania Ave., Morrisville, PA 19067. Representative: Stephen R. Tranovich (same address as applicant). Transporting *foodstuffs*, between points in Camden County, NJ, on the one hand, and, on the other, points in CT, MA, and RI.

MC 88161 (Sub-99F), filed September 29, 1980. Applicant: INLAND TRANSPORTATION CO., INC., 6737 Corson Ave. South, Seattle, WA 98108. Representative: Richard J. Howard, 3201 Bank of California Center, Seattle, WA 98164. Transporting (1) *commodities in bulk*, and (2) *fertilizers, resins, catalysts, polyurethane foam, and glass fiber roving*, in packages, between points in CA, CO, ID, MT, OR, UT, and WA. Condition: Issuance of a certificate in this proceeding is subject to the coincidental cancellation, at applicant's written request, of its certificates in MC 88161 Sub-16, 20, 22, 24, 26, 28, 31, 21, 36, 37, 38, 40, 43, 46, 48, 51, 57, 61, 63, 67, 68, 69, 72, 73, 78, 84, 87, 89, 91, 92, and 94F.

MC 97251 (Sub-14F), filed September 30, 1980. Applicant: TURNER TRUCKING COMPANY, INC., 1215 West Main St., Lebanon, IN 46052. Representative: Alki E. Scopelitis, 1301 Merchants Plaza, Indianapolis, IN 46204. Transporting *printed matter*, from the facilities of World Color Press, Inc. at Effingham, Mt. Vernon, Salem, and Sparta, IL, to points in IN.

MC 106920 (Sub-110F), filed September 25, 1980. Applicant: RIGGS FOOD EXPRESS, INC., West Monroe St., P.O. Box 26, New Bremen, OH 45869. Representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh St., N.W., Washington, DC 20001. Transporting *salad dressings*, from Columbus, OH, to points in CT, DE, IL, IN, IA, KS, KY, MD, MA, MI, MN, MO, NE, NJ, NY, PA, RI, VA, WI, and DC.

MC 110410 (Sub-29F), filed September 30, 1980. Applicant: BENTON BROTHERS FILM EXPRESS, INC., 723 Forrest Rd., N.E., Atlanta, GA 30312.

Representative: James L. Fant, P.O. Box 577, Jonesboro, GA 30237. Transporting *instant tea*, from Plant City, FL, to Atlanta and Marietta, GA.

MC 111231 (Sub-315F), filed September 26, 1980. Applicant: JONES TRUCK LINES, INC., 610 East Emma Avenue, Springdale, AR 72764. Representative: James H. Berry (same address as applicant). *Over regular routes*, transporting *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between the AR-LA state line at or near Junction City, AR and Little Rock, AR, from the AR-LA state line over U.S. Hwy 167 to junction U.S. Hwy 65, then over U.S. Hwy 65 to Little Rock, and return over the same route; (2) between the AR-LA state line near Haynesville, LA and Memphis, TN, over U.S. Hwy 79; (3) between Little Rock, AR and the AR-MS state line at or near Greenville, MS-Lake Village, AR Bridge on U.S. Hwy 82, from Little Rock over U.S. Hwy 65 to junction U.S. Hwy 82, then over U.S. Hwy 82 to the AR-MS state line, and return over the same route; (4) between Texarkana, AR-TX and Ft. Smith, AR, over U.S. Hwy 71; (5) between Texarkana, AR and Dalles, TX, (a) over U.S. Hwy 67, and (b) over Interstate Hwy 30; (6) between Texarkana, AR and the MS-AR state line, from Texarkana over U.S. Hwy 67 to Prescott, AR, then over AR Hwy 24 to Camden, then over U.S. Hwy 79 to Fordyce, then over AR Hwy 8 to Warren, then over AR Hwy 4 to Arkansas City, then due east to the MS-AR state line, and return over the same route, serving those points in the State of AR on and south of the route described in (6) above as off-route points in connection with carrier's otherwise authorized regular-route operations; and (7) between Sheridan, AR and Pine Bluff, AR, over U.S. Hwy 270, serving all intermediate points in connection with routes (1) through (8) above. Condition: Issuance of a certificate in this proceeding is subject to the coincidental cancellation, at applicant's written request, of its certificate in MC 111231 Sub-214.

Note:—Applicant intends to tack the rights sought to its existing regular route authority.

MC 111401 (Sub-605F), filed September 30, 1980. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, 2510 Rock Island Blvd., Enid, OK 72701. Representative: Victor R. Comstock (same address as applicant). Transporting *petroleum products*, in bulk, (a) between points in IL, IN and Denton County, TX, and (b) between

points in Titus County, TX, and Howard County, AR.

MC 114211 (Sub-476F), filed September 23, 1980. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, IA 50704. Representative: Kurt E. Vragel, Jr., (same address as applicant). Transporting *such commodities* as are dealt in or used by manufacturers and dealers of forestry equipment, between points in the U.S. (except AK and HI), restricted to traffic originating at or destined to the facilities of National Hydro-Ax, Inc., or its dealers.

MC 115181 (Sub-44F), filed September 30, 1980. Applicant: HAROLD M. FELTY, INC., R.D. #1, Box 148, Pine Grove, PA 17963. Representative: John W. Dry, 541 Penn St., Reading, PA 19601. Transporting *coal*, from points in PA, to points in CT, DE, IL, IN, MA, MD, ME, NH, NJ, NY, OH, RI, VA, VT, WV, and DC.

MC 118130 (Sub-120F), filed September 30, 1980. Applicant: SOUTH EASTERN XPRESS, INC., P.O. Box 6459, Fort Worth, TX 76115. Representative: Billy R. Reid, 1721 Carl St., Fort Worth, TX 76103. Transporting *such commodities* as are dealt in or used by discount stores, between points in LA and TX, on the one hand, and, on the other points in the U.S.

MC 119741 (Sub-277F), filed September 29, 1980. Applicant: GREEN FIELD TRANSPORT COMPANY, INC., 1515 Third Ave., NW., P.O. Box 1235, Fort Dodge, IA 50501. Representative: D. L. Robson (same address as applicant). Transporting (1) *such commodities* as are dealt in by grocery, hardware, and drug business houses, (2) *cleaning and building maintenance supplies*, (3) *such commodities* as are used in the maintenance of swimming pools, spas, and hot tubs, (4) *chemicals*, and (5) *materials, equipment, and supplies* used in the manufacture and distribution of the commodities named in (1) through (4), (except commodities in bulk), between the facilities of the Purex Corporation at (a) Columbus, London, and Toledo, OH, (b) Brockport, NY, (c) St. Louis, MO, (d) Chicago, IL, (e) Bristol, PA, (f) Atlanta, GA, (g) Tampa, FL, (h) New Orleans, LA, and (i) St. Paul, and Eagan, MN, on the one hand, and, on the other, points in the U.S. (except AK and HI), restricted to traffic originating at or destined to the Purex Corporation.

MC 119741 (Sub-278F), filed September 30, 1980. Applicant: GREEN FIELD TRANSPORT COMPANY, INC., 1515 Third Ave., NW., P.O. Box 1235, Fort Dodge, IA 50501. Representative: D. L. Robson (same address as applicant). Transporting (1) *aluminum and wood*

windows and doors, and glass, and (2) materials, equipment and supplies used in the manufacture and distribution of the commodities in (1) above, between the facilities of Mon-Ray Windows, Inc., at Osage, IA, on the one hand, and, on the other, points in the U.S.

LEGAL SERVICES CORPORATION

Grants and Contracts

October 8, 1980.

The Legal Services Corporation was established pursuant to the Legal Services Corporation Act of 1974, Pub. L. 93-355a, 88 Stat. 378, 42 U.S.C. 2996-2996f, as amended, Pub. L. 95-222 (December 28, 1977). Section 1007(f) provides: "At least thirty days prior to the approval of any grant application or prior to entering into a contract or prior to the initiation of any other project, the Corporation shall announce publicly * * * such grant, contract, or project * * *."

The Legal Services Corporation hereby announces publicly that it is considering the grant application submitted by:

Palmetto Legal Services in Columbus, South Carolina, to serve Aiken County.

Interested persons are hereby invited to submit written comments or recommendations concerning the above application to the Regional Office of the Legal Services Corporation at: Legal Services Corporation, Atlanta Regional Office, 615 Peachtree Street, N.E., 9th Floor, Atlanta, Ga. 30308.

Clinton Lyons,

Director, Office of Field Services.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (80-67)]

NASA Advisory Council (NAC); Space Systems and Technology Advisory Committee (SSTAC); Meeting

The Informal Advisory Subcommittee on Space Electronics of the NAC SSTAC will meet November 6 & 7, 1980, at the NASA Goddard Space Flight Center, Building 26, Room 200, Greenbelt, MD. The meeting will be open to the public up to the seating capacity of the room (approximately 30 persons including Subcommittee members and participants).

The Subcommittee was established to review and make recommendations on NASA research and technology programs in Space Electronics, which includes microelectronic devices, sensors, information systems, automation and guidance and control technology. The Chairperson is Dr. Edward Gerry and there are seven members on the Subcommittee. Following is the approved agenda for the meeting.

Agenda

November 6, 1980

8:30 a.m.—Introductory Remarks
9:30 a.m.—Review of NASA End-to-End Data System (NEEDS)
3:00 p.m.—Subcommittee Discussion
4:30 p.m.—Adjourn

November 7, 1980

8:30 a.m.—Review Active Remote Sensing Research and Technology
3:00 p.m.—Subcommittee Discussion
4:30 p.m.—Adjourn

For further information contact Dr. Herman A. Rediess, Executive Secretary of the Subcommittee, Code RTE-6, NASA Headquarters, Washington, D.C. 20546. Telephone 202/755-2243.

Gerald D. Griffin,

Acting Associate Administrator for External Relations.

October 3, 1980

BILLING CODE 7510-01-M

[Notice (80-68)]

National Advisory Council (NAC), Aeronautics Advisory Committee (AAC); Meeting

The Informal Advisory Subcommittee on Aeronautical Propulsion Technology of the NAC Aeronautics Advisory Committee will meet October 29-30, 1980, in Room 215 of the Administration Building, NASA Lewis Research Center, Cleveland, Ohio. The meeting will be open to the public up to the seating capacity of the room (approximately 60 persons including Subcommittee members and participants).

The Subcommittee was established to assist the NASA in identifying and examining advanced propulsion technology requirements for future aeronautical vehicles, and to recommend program additions, deletions or changes in scope or emphasis which may be found necessary to support the overall NASA aeronautical research and technology objectives. The Chairperson is Dr. Maurice Shank and there are eleven members on the Subcommittee. Following is the approved agenda for the meeting:

Agenda

October 29, 1980

8:30 a.m.—Introductory Remarks
9:00 a.m.—Report on Aeronautics Role Workshop at Woods Hole
9:30 a.m.—Review of Numerical Aerodynamic Simulator
1:00 p.m.—Review of Integrated Program for Aerospace Vehicle Design
2:00 p.m.—Review of the Engine Component Improvement Diagnostics Program
3:30 p.m.—Review of Hot Section Technology Program
4:00 p.m.—Review of Turbine Fundamentals Program
5:00 p.m.—Review of Refinery Fuel Tradeoff Studies

October 30, 1980

8:30 a.m.—Transfer of U.S. Technology Abroad
9:30 a.m.—Review of Lewis 5-Year Facility Plan
10:30 a.m.—Committee Discussion and Formulation of Recommendations
3:00 p.m.—Adjourn.

For further information please contact Dr. Raymond S. Colladay, Executive Secretary of the Subcommittee, Code RTP-6, NASA Headquarters, Washington, DC 20546. Telephone 202/755-3273.

Gerald D. Griffin,

Acting Associate Administrator for External Relations.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-261]

Carolina Power & Light Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 49 to Facility Operating License No. DPR-23, issued to Carolina Power and Light Company, which revised Technical Specifications for operation of the H. B. Robinson Unit No. 2 (the facility) located in Darlington County, South Carolina. The amendment is effective as of the date of issuance.

The amendment consists of changes to the Technical Specifications related to the setpoints, calibrations, and surveillance requirements associated with modifications at Robinson which include the installation of a degraded voltage protection system for Class 1E equipment.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated October 3, 1979, (2) Amendment No. 49 to License No. DPR-23, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the

Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Hartsville Memorial Library, Home and Fifth Avenues, Hartsville, South Carolina 29550. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Md., this 19th day of September 1980.

For the Nuclear Regulatory Commission.
Steven A. Varga,
Chief, Operating Reactors Branch No. 1,
Division of Licensing.

[FR Doc. 80-31827 Filed 10-10-80; 8:45 am]

BILLING CODE 7590-01-M

Draft Regulatory Guide; Issuance and Availability

The Nuclear Regulatory Commission has issued for public comment a draft of a proposed revision to a guide in its Regulatory Guide Series together with a draft of the associated value/impact statement. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

The draft, temporarily identified by its task number, RS 807-5 (which should be mentioned in all correspondence concerning this draft guide), is the second proposed Revision 2 to Regulatory Guide 1.8 and is entitled "Personnel Qualification and Training." Revision 1 of Regulatory Guide 1.8, dated September 1975, which endorsed ANSI N18.1-1971, "Selection and Training of Nuclear Power Plant Personnel," was issued to describe a method acceptable to the NRC staff for complying with portions of the Commission's regulations governing the qualification and training of nuclear power plant personnel. In February 1979, a draft Revision 2 of Regulatory Guide 1.8 was issued for public comment. It was intended that Revision 2 would endorse ANSI/ANS 3.1-1978, which was a revised version of ANSI N18.1-1971. In May 1979, additional comments on the draft revision 2 in the area of personnel qualifications were requested in light of experience gained from the accident at Three Mile Island. Copies of all comments received, both on the

February 1979 draft guide and as a result of the May 1979 request for comments, were provided to the ANS-3 Subcommittee, which was developing a revision to the 1978 standard. This second proposed revision to the guide was developed in parallel with the revision to the 1978 standard as a result of the lessons learned from the accident at Three Mile Island Nuclear Station, other operating experience, and public comments on the first proposed revision 2 issued in February 1979. Further revision to this guide is anticipated before the active guide is issued as a result of planned changes to the Commission's regulations, the recommendations of studies and investigations now in progress, and public comment expected on this draft.

This draft guide and the associated value/impact statement are being issued to involve the public in the early stages of the development of a regulatory position in this area. They have not received complete staff review and do not represent an official NRC staff position.

Public comments are being solicited on both drafts, the guide (including any implementation schedule) and the draft value/impact statement. Comments on the draft value/impact statement should be accompanied by supporting data. Comments on both drafts should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch, by December 5, 1980.

Although a time limit is given for comments on these drafts, comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of draft guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future draft guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Technical Information and Document Control. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

Dated at Rockville, Md. this 30th day of September 1980.

For the Nuclear Regulatory Commission.
Guy A. Arlotto,

Director, Division of Engineering Standards,
Office of Standards Development.

BILLING CODE 7590-01-M

[Docket No. 50-334]

Duquesne Light Co., Ohio Edison Co. and Pennsylvania Power Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 32 to Facility Operating License No. DPR-66 issued to Duquesne Light Company, Ohio Edison Company, and Pennsylvania Power Company (the licensees), which revised Technical Specifications for operation of the Beaver Valley Power Station, Unit No. 1 (the facility) located in Beaver County, Pennsylvania. The amendment is effective as of the date of issuance.

The amendment adds new Technical Specifications to Appendix A of License No. DPR-66 which describe requirements for a chlorine detection system for the plant's control room.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since this amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated May 14, 1980, (2) Amendment No. 32 to License No. DPR-66 and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission Public Document Room, 1717 H Street, NW., Washington, D.C. and at the B. F. Jones Memorial Library, 663 Franklin Avenue, Aliquippa, Pennsylvania 15001. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington,

D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Md., this 29th day of September 1980.

BILLING CODE 7590-01-M

[Docket No. 50-302]

Florida Power Corp., et al.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 35 to Facility Operating License No. DPR-72, issued to the Florida Power Corporation, City of Alachua, City of Bushnell, City of Gainesville, City of Kissimmee, City of Leesburg, City of New Smyrna Beach and Utilities Commission, City of New Smyrna Beach, City of Ocala, Orlando Utilities Commission and City of Orlando, Sebring Utilities Commission, Seminole Electric Cooperative, Inc., and the City of Tallahassee (the licensees) which revised the Technical Specifications for operation for the Crystal River Unit No. 3 Nuclear Generating Plant (the facility) located in Citrus County, Florida. The amendment is effective as of the date of issuance.

This amendment modifies Appendix B of the Technical Specifications to revise definition 1.6 on emergency need for power and to delete Section 2.1 regarding maximum ΔT across the condenser and maximum condenser discharge temperature.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment is a ministerial action and will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated May 23, 1979. (Change Request No. 40), (2) Amendment No. 35 to License No. DPR-72, and (3) the Commission's letter to the licensee dated September 29, 1980. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Crystal River Public Library, Crystal River, Florida. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Md., this 29th day of September 1980.

For the Nuclear Regulatory Commission,

Florida Power Corp., et al.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 34 to Facility Operating License No. DPR-72, issued to the Florida Power Corporation, City of Alachua, City of Bushnell, City of Gainesville, City of Kissimmee, City of Leesburg, City of New Smyrna Beach and Utilities Commission, City of New Smyrna Beach, City of Ocala, Orlando Utilities Commission and City of Orlando, Sebring Utilities Commission, Seminole Electric Cooperative, Inc., and the City of Tallahassee (the licensees) which revised the Technical Specifications for operation of the Crystal River Unit No. 3 Nuclear Generating Plant (the facility) located in Citrus County, Florida. The amendment is effective as of the date of issuance.

This amendment modifies the Technical Specifications to delete the power level cutoff requirement of Technical Specification 3/4.1.3.8, xenon reactivity, for the currently authorized power level.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as are required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public

notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated July 23, 1980, (2) Amendment No. 34 to License No. DPR-72, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555, and at the Crystal River Public Library, Crystal River, Florida. BILLING CODE 7590-01-M

[Dockets Nos. 50-321, 50-366]

Georgia Power Co., et al.; Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 78 and 17 to Facility Operating Licenses Nos. DPR-57 and NPF-5, issued to Georgia Power Company (the licensee), Oglethorpe Power Corporation, Municipal Electric Authority of Georgia, City of Dalton, Georgia, which revised the licenses for operation of the Edwin I. Hatch Nuclear Plant, Units Nos. 1 and 2 (the facility), located in Appling County, Georgia. The amendments are effective as of the date of issuance.

The amendments revise license conditions to include the Commission-approved Safeguards Contingency Plan as part of the licenses. This Plan is to be fully implemented within 30 days in accordance with the provisions of 10 CFR 73.40(b).

The licensee's filings comply with the standards and requirements of the Atomic Energy Act of 1954, as amended

(the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendments.

The licensee's filing dated May 14, 1980, is being withheld from public disclosure pursuant to 10 CFR 2.790(d). The withheld information is subject to disclosure in accordance with the provisions of 10 CFR 9.12.

For further details with respect to this action, see (1) Amendments Nos. 78 and 17 to Licenses Nos. DPR-57 and NPF-5 and (2) the Commission's related letter to the licensee dated October 1, 1980. These items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Appling County Public Library Parker Street, Baxley, Georgia. Gulf States Utilities Co. and Cajun Electric Power Cooperative, Inc.; of Issuance of Amendment to Construction Permit

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 1 to Construction Permit No. CPPR-145. The amendment reflects the addition of Cajun Electric Power Cooperative, Inc. as a new co-owner of the River Bend Station, Unit 1 (the facility). An application to add Sam Rayburn G&T, Inc. as an owner is still

being reviewed by the Commission and, if approved, will be the subject of a further Federal Register notice. Gulf States Utilities Company has sole responsibility for the design and construction of the facility, which is located in West Feliciana Parish, Louisiana.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the amendment.

Prior public notice of the amendment was not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated October 26, 1979, and supplemental information dated August 28, 1980, (2) Amendment No. 1 to Construction Permit No. CPPR-145, (3) the Commission's related Safety Evaluation, (4) the Environmental Impact Appraisal and (5) the Negative Declaration supporting the amendment to the construction permit. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555, and at the Audubon Library, West Feliciana Branch, Ferdinand Street, St. Francisville, Louisiana and the Government Documents Department, Louisiana State University, Baton Rouge, Louisiana. In addition, a copy of the above items (2), (3), (4) and (5) may be obtained upon request, addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing, Office of Nuclear Reactor Regulation.

Dated at Bethesda, Md., this 3rd day of October, 1980.

For the Nuclear Regulatory Commission,

BILLING CODE 7590-01-M

[Docket No. 50-219]

Jersey Central Power & Light Co.; Issuance of Amendment to Provisional Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 50 to Provisional Operating License No. DPR-16, issued to

Jersey Central Power & Light Company (the licensee), which revised the Technical Specifications for operation of the Oyster Creek Nuclear Generating Station (the facility) located in Ocean County, New Jersey. The amendment is effective as of its date of issuance.

The amendment modifies the provisions of Sections 6 and 5 of the Appendix A and Appendix B Technical Specifications, respectively, to reflect organizational changes.

The application for amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated August 7, 1980, and supplements thereto dated August 14, 25, and 27, 1980, (2) Amendment No. 50 to License No. DPR-16, including the Commission's letter of transmittal, and (3) the Commission's related Safety Evaluation. All of these are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555, and at the Ocean County Library, Brick Township Branch, 401 Chambers Bridge Road, Brick Town, New Jersey 08723. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-458]

Negative Declaration Supporting Amendment No. 1 to CPPR-145 Relating to Change in Ownership Interests, River Bend Station, Unit 1

The U.S. Nuclear Regulatory Commission (the Commission) has reviewed the request for amendment to Construction Permit CPPR-145 relating to changes in ownership interests in the River Bend Station, Unit 1, located in West Feliciana Parish, Louisiana. The construction permit was issued to the Gulf States Utilities Company on March 25, 1977. The amendment would add Cajun Electric Power Cooperative, Inc. as co-owner of River Bend Station, Unit 1 with the present owner.

In accordance with 10 CFR Part 51, the Commission's Division of Licensing has prepared an environmental impact appraisal (EIA) for the amendment. The Commission has concluded that an environmental impact statement for this action is not warranted, because there will be no adverse environmental impact affecting the quality of the human environment attributable to the proposed action that would be in addition to those impacts evaluated in the Commission's final Environmental Statement related to construction of River Bend Nuclear Power Station, Units 1 and 2, issued in September 1974. A negative declaration is, therefore, appropriate.

The environmental impact appraisal is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., 20555 and at the local public document rooms located at the Audubon Library, West Feliciana Branch, Ferdinand Street, St. Francisville, Louisiana and at the Louisiana State University, Government Documents Department, Baton Rouge, Louisiana. A copy of the EIA may be obtained upon request, addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C., 20555, Attention: Director of Licensing.

Dated at Bethesda, Md., this 3rd day of October, 1980.

Frank J. Miraglia,

Acting Chief, Licensing Branch No. 3, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-112]

Oklahoma University; Issuance of Amendment to Facility Operating License and Negative Declaration

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 7 to Facility Operating License No. R-127, issued to Oklahoma State University, which revised the license for operation of the AGN-211 nuclear reactor (the facility) located on the licensee's campus in Norman, Oklahoma. The amendment is effective as of its date of issuance.

The amendment to the licensee authorizes an increase in the amount of fuel inventory from 907 grams to 1700 grams of contained U-235 enriched equal to or less than 20% for use in connection with the facility.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

It has been concluded that: (1) There is reasonable assurance that the health and safety of the public will not be endangered by an increase in the UO fuel inventory and storage facilities, and (2) such activities, will be conducted in compliance with the Commission's regulations and the issuance of this amendment will not be inimical to the health and safety of the public.

It has also been concluded that there will be no significant environmental impact attributed to this proposed license increase. In accordance therefore, no environmental impact statement for the proposed action need be prepared and a negative declaration to this effect is appropriate.

For further details with respect to this action, see (1) the application for amendment dated April 30, 1980, (2) Amendment No. 7 to License No. R-53, (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 2nd day of October 1980.

For the Nuclear Regulatory Commission,
James R. Miller,
Chief, Standardization and Special Projects Branch, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-346]

Toledo Edison Co. and Cleveland Electric Illuminating Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 32 to Facility Operating License No. NPF-3, issued to The Toledo Edison Company (TECO) and The Cleveland Electric Illuminating Company (the licensees), which revised the license for operation of the Davis-Besse Nuclear Power Station, Unit No. 1 (the facility), located in Ottawa County, Ohio. The amendment is effective as of the date of issuance and is to be fully implemented within 30 days of Commission approval in accordance with the provisions of 10 CFR 73.40(b).

The amendment adds a license condition to include the Commission-approved Safeguards Contingency Plan as part of the license.

The licensees' filings comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendment.

The licensees' filing dated March 23, 1979, as revised November 6, 1979, and June 2, 1980, is being withheld from public disclosure pursuant to 10 CFR 2.790(d). The withheld information is subject to disclosure in accordance with the provisions of 10 CFR 9.12.

For further details with respect to this action, see (1) Amendment No. 32 to License No. NPF-3 and (2) the Commission's related letter to TECO dated October 1, 1980. These items are

available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Ida Rupp Public Library, 310 Madison Street, Port Clinton, Ohio. A copy of items (1) and (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Md., this 1st day of October 1980.

For the Nuclear Regulatory Commission.

BILLING CODE 7590-01-M

[Docket No. 50-346]

Toledo Edison Co. and Cleveland Electric Illuminating Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 33 to Facility Operating License No. NPF-3, issued to The Toledo Edison Company and The Cleveland Electric Illuminating Company (the licensees), which revised the license and Technical Specifications for operation of the Davis-Besse Nuclear Power Station, Unit No. 1 (the facility) located in Ottawa County, Ohio. The amendment is effective as of its date of issuance.

This amendment modifies the Technical Specifications to permit operation for a second cycle and to reflect changes in the reactor coolant system high pressure and power operated relief valve setpoints. The amendment also deletes three satisfied License Conditions, 2.C.(3)(e), 2.C.(3)(f) and 2.C.(3)(g).

The applications for the amendment comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need

not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the applications for amendment dated February 11, 1980, as revised and supplemented, and July 13, 1979, (2) Amendment No. 33 to License No. NPF-3, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, DC, and at the Ida Rupp Public Library, 310 Madison Street, Port Clinton, Ohio. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Md., this 1st day of October 1980.

BILLING CODE 3110-01-M

Agency Forms Under Review

October 8, 1980.

Background

When executive departments and agencies propose public use forms, reporting, or recordkeeping requirements, the Office of Management and Budget (OMB) reviews and acts on those requirements under the Federal Reports Act (44 USC, Chapter 35). Departments and agencies use a number of techniques including public hearings to consult with the public on significant reporting requirements before seeking OMB approval. OMB in carrying out its responsibility under the Act also considers comments on the forms and recordkeeping requirements that will affect the public.

List of Forms Under Review

Every Monday and Thursday OMB publishes a list of the agency forms received for review since the last list was published. The list has all the entries for one agency together and grouped into new forms, revisions, extensions, or reinstatements. Some forms listed as revisions may only have a change in the number of respondents or a reestimate of the time needed to fill them out rather than any change to the content of the form. The agency clearance officer can tell you the nature of any particular revision you are interested in. Each entry contains the following information:

The name and telephone number of the agency clearance officer (from whom a copy of the form and supporting documents is available);

The office of the agency issuing this form;

The title of the form;

The agency form number, if applicable;

How often the form must be filled out;

Who will be required or asked to report;

An estimate of the number of forms that will be filled out;

An estimate of the total number of hours needed to fill out the form; and

The name and telephone number of the person or office responsible for OMB review.

Reporting or recordkeeping requirements that appear to raise no significant issues are approved promptly. Our usual practice is not to take any action on proposed reporting requirements until at least ten working days after notice in the *Federal Register* but occasionally the public interest requires more rapid action.

Comments and Questions

Copies of the proposed forms and supporting documents may be obtained from the agency clearance officer whose name and telephone number appear under the agency name. The agency clearance officer will send you a copy of the proposed form, the request for clearance (SF83), supporting statement, instructions, transmittal letters, and other documents that are submitted to OMB for review. If you experience difficulty in obtaining the information you need in reasonable time, please advise the OMB reviewer to whom the report is assigned. Comments and questions about the items on this list should be directed to the OMB reviewer or office listed at the end of each entry.

If you anticipate commenting on a form but find that time to prepare will prevent you from submitting comments promptly, you should advise the reviewer of your intent as early as possible.

The timing and format of this notice have been changed to make the publication of the notice predictable and to give a clearer explanation of this process to the public. If you have comments and suggestions for further improvements to this notice, please send them to Jim J. Tozzi, Assistant Director for Regulatory and Information Policy, Office of Management and Budget, 726 Jackson Place, Northwest, Washington, D.C. 20503.

OFFICE OF PERSONNEL MANAGEMENT**Privacy Act of 1974; Adoption of New Routine Uses**

AGENCY: Office of Personnel Management.

ACTION: Notice; adoption of new routine uses for an existing system of records.

SUMMARY: The purpose of this document is to announce adoption of two new routine uses for the Office's General Personnel Records System (OPM/GOVT-1). These routine uses permit disclosure of records by health care facilities to organizations accrediting such facilities and disclosure of records in connection with a Veterans Administration matching program.

EFFECTIVE DATE: October 14, 1980.

FOR FURTHER INFORMATION CONTACT: William H. Lynch, Work Force Records Management Branch (202) 254-9790/9793.

SUPPLEMENTARY INFORMATION: The Office proposed two new routine uses for its General Personnel Records system on July 18, 1980 (45 FR 48291). The 30-day public comment period ended on August 18, 1980. After reviewing comments the Office determined that routine use cc. should be adopted as proposed. The non-specified routine use for VA's matching project is being changed to reflect the use of a more up-to-date listing of Federal employees and to extend the life of the routine use to a full six months from the date of adoption (April 14, 1981). Accordingly this routine use is adopted as it appears below.

Office of Personnel Management.

Beverly M. Jones,
Issuance System Manager.

OPM GOVT-1**SYSTEM NAME:**

General Personnel Record.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Note.—The following routine use is alphabetically unspecified as it is temporary in nature, i.e., will cease to exist after April 14, 1981.

To disclose the name, Social Security Number, date of birth, annual Salary, work schedule (full time, part time or intermittent), geographic location code (duty station location), agency subelement code (employing agency), and service office location of all Federal employees as of June 30, 1980, to the Veterans Administration in connection with that agency's matching program, conducted under authority of Pub. L. 95-452, to reduce fraud and unauthorized payment in all benefits programs administered by that agency, and to collect debts owed to the Federal government. This routine use will be operative for a limited period of six months from October 14, 1980 (April 14, 1981).

[FR Doc. 80-31928 Filed 10-10-80; 8:45 am]

BILLING CODE 6325-01-M

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVES

Trade Policy Staff Committee; Requests for Public Comment: The International Sugar Organization; November Council Meeting

The International Sugar Organization, of which the United States is a member, will hold its second annual Council meeting from November 10-21. The United States is also a full member of the International Sugar Agreement.

To assist in formulating the Government's position for the meeting, the Trade Policy Staff Committee is soliciting public views and comments on revision of the price range and the global quota.

Views on adjustment of the price range, currently set at 12-22 cents per pound, would be particularly useful.

Any interested party may file a written statement, in 20 copies, with the Office of the U.S. Trade Representative in accordance with section 2003.2 of Title 15 of the Code of Federal

Regulations. Statements should be forwarded to Carolyn Frank, Secretary, Trade Policy Staff Committee, Room 735, Office of the U.S. Trade Representative, Washington, D.C. 20506, by October 31.

For further information, call Ms. R. Prager on (202) 395-6127.

Ann H. Hughes,

Chairman, Trade Policy Staff Committee.

[FR Doc. 80-31775 Filed 10-10-80; 8:45 am]

BILLING CODE 3190-01-M

Trade Policy Staff Committee: Generalized System of Preferences (GSP) Subcommittee; Articles Being Considered for Designation as Eligible Articles for Purposes of the Generalized System of Preferences and Other Matters Pertaining to the Annual GSP Product Review

Summary: The purpose of this notice is (1) to announce the list of articles sent by the United States Trade Representative to the International Trade Commission for probable economic effect advice with respect to designating articles as eligible for GSP; (2) to announce public hearings on certain articles before the GSP Subcommittee of the Trade Policy Staff Committee (TPSC); and (3) to correct a notice appearing in the August 20 Federal Register announcing the petitions accepted for consideration in the 1980 GSP product review.

I. Articles Which May Be Considered for Designation as Eligible Articles for Purposes of the Generalized System of Preferences

In conformity with sections 503(a) and 131(a) of the Trade Act (19 U.S.C. 2463(a) and 2151(a)), notice is hereby given that the articles listed in Annex I of this notice may be considered for designation as eligible articles for purposes of the Generalized System of Preferences (GSP). The articles are identified by reference to five-digit numbers of the Tariff Schedules of the United States (TSUS) (19 U.S.C. 1202) and consist of all articles in such listed item numbers except as limited by the addition of two-digit statistical suffixes of the Tariff Schedules of the United States Annotated (1980) and by footnote descriptions. The Tariff Schedules of the United States Annotated (1980) is for sale by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20404 and is also available for inspection at any field office of the U.S. Customs Service or the Department of Commerce. A list giving informal abbreviated descriptions of the articles contained in the TSUS items

identified in this notice is available upon written request from the Secretary, GSP Subcommittee, Office of the United States Trade Representative, Executive Office of the President, Room 711, Washington, D.C. 20506.

An article which is determined to be import sensitive in the context of the GSP cannot be designated as an eligible article. Recommendations with respect to the eligibility of any listed article will be made after public hearings have been held and advice has been received from the International Trade Commission on the probable effects of GSP designation on industries producing like or directly competitive products, and on consumers.

II. Public Hearings

Notice of the public hearings to consider these articles was published in the *Federal Register* on August 20, 1980, in the announcement of the acceptance for review of petitions to modify the list of articles receiving duty-free treatment under the GSP (45 FR 55668).

III. Advice of the International Trade Commission

On behalf of the President and in accordance with sections 503(a) and 131(a) of the Trade Act, the International Trade Commission is being furnished with a list of articles published in Annex I for the purpose of securing from the Commission its advice on the probable economic effect on United States industries producing like or directly competitive articles, and on consumers, of the designation of such articles as eligible articles for purposes of the GSP.

IV. Announcement of Public Hearings on Certain Articles Before the GSP Subcommittee

The articles listed in Annex II will be the subject of public hearings before the GSP Subcommittee on Thursday, November 6, 1980, in Room 730, Office of the United States Trade Representative, 1800 "G" Street, Northwest, Washington, D.C. 20506. The hearings will begin at 10:00 a.m. and continue until all witnesses scheduled to present testimony that day have been heard. Requests to present oral testimony in connection with these hearings, accompanied by twenty copies in English of all written briefs or statements, should be received by the Chairman of the GSP Subcommittee, Room 711, Office of the United States Trade Representative, Washington, D.C. 20506, not later than close of business, Friday, October 24, 1980.

Oral testimony before the GSP Subcommittee will be limited to five-

minute presentations. All such requests to appear and accompanying briefs or statements must conform to the regulations codified at 15 CFR Parts 2001-2003 and 2007. Part 2007 was published in the September 9, 1977 *Federal Register* (42 FR 45532). Rebuttal briefs or statements will be accepted if submitted in twenty copies in English within one week after the close of the hearings (but in no case later than close of business, Thursday, November 13, 1980).

Parties not wishing to appear at the hearings also may submit written briefs or statements in twenty copies in English in connection with the articles listed in Annex II, provided that such submissions are filed by November 13 and conform with the regulations cited above.

Ann H. Hughes,
Chairman, Trade Policy Staff Committee.

BILLING CODE 3190-01-M

V. Corrections to August 20, 1980 Federal Register Notice Announcing Acceptance of Petitions for Consideration in the 1980 Product Review (45 FR 55668)

The TSUS item numbers for four articles announced for consideration in the 1980 GSP product review have been revised. Case numbers 80-4, 80-41, 80-42, and 80-58 should be modified as follows:

[The bracketed language in this list has been included only to clarify the scope of the numbered items which are being considered, and such language is not itself intended to describe articles which are under consideration.]

A. Petitions to add products to the list of eligible articles for the Generalized System of Preferences

ANNEX I

As indicated in Section IV of this notice, the revised TSUS item numbers not included in the August 20, 1980 Federal Register notice are listed in Annex II and will be subject to public hearings before the GSP Subcommittee on November 6, 1980.

Case No. 80-25, TSUS 169.13 pt., Cachaca or aguardente de cana in containers each holding not over 1 gallon, is hereby deleted from the list of petitions accepted for review as announced in the August 20, 1980 Federal Register. The United States Customs Service has informed the GSP Subcommittee that this product should be classified under TSUS.169.48 or TSUS 169.49, Other spirits, and preparations in chief value of distilled spirits, fit for use as beverages or for beverage purposes, Other, in containers each holding not over, or over, 1 gallon. Articles classified under TSUS 169.48 and TSUS 169.49 are already eligible articles for purposes of the GSP.

BILLING CODE 3190-01C

**SECURITIES AND EXCHANGE
COMMISSION**

[File No. 22-10730]

**Pacific Southwest Airlines; Application
and Opportunity for Hearing**

October 9, 1980.

Notice is hereby given that Pacific Southwest Airlines ("Applicant") has filed an application under clause (ii) of Section 310(b)(1) of the Trust Indenture Act of 1939 (the "Act") for a finding by the Commission that the trusteeships of the United States Trust Company of New York (the "Trust Company") under (i) an existing Indenture qualified under the Act in 1967; (ii) an existing Indenture qualified under the Act in 1979; and (iii) two proposed Trust Agreements that will not be qualified under the Act, are not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify the Trust Company from acting as trustee under such Indenture or Trust Agreements.

The Application alleges that:

I. The 1967 Indenture

A. As of July 31, 1980, Applicant had outstanding \$10,365,000 in aggregate principal amount of 6% Subordinated Debentures due October 1, 1987 (the "1967 Debentures"), issued under an Indenture dated as of October 1, 1967 between a predecessor corporation (the "Predecessor Corporation") of the Applicant and the Trust Company, as Trustee, as supplemented by a First Supplemental Indenture (the "Supplemental Indenture") dated as of February 28, 1973 among the Applicant, the Trust Company, as Trustee, and PSA, Inc. ("PSA").

B. The Supplemental Indenture was entered into pursuant to the terms of a Plan and Agreement of Reorganization dated as of March 16, 1972 which provided for the merger of the Predecessor Corporation into the Applicant, a wholly-owned subsidiary of PSA. A description of such Plan and Agreement of Reorganization is contained in the March 28, 1972 proxy statement of the Predecessor Corporation, also named Pacific Southwest Airlines. Pursuant to the Supplemental Indenture, the Applicant assumed the obligations of the Predecessor Corporation under the 1967 Indenture and PSA assumed joint and several liability, subject to subordination provisions comparable to those provided in the 1967 Indenture, with the Applicant for the payment of the principal of and premium, if any, and interest on the 1967 Debentures. The 1967 Debentures were registered under the Securities Act of 1933 (the "1933

Act") on Form S-1 (Registration No. 2-27326) and the 1967 Indenture was filed as Exhibit 4D to such registration statement. The 1967 Indenture was qualified under the Act.

C. The Applicant is not in default under the 1967 Indenture, as supplemented, and PSA is not in default under the Supplemental Indenture.

D. With respect to the subordination of the 1967 Debentures, Section 14.01 of the 1967 Indenture, as supplemented, provides as follows:

The Company covenants and agrees, and each holder of Debentures by his acceptance thereof likewise covenants and agrees, that the payment of the principal of (and premium, if any) and interest on each and all of the Debentures is hereby expressly subordinated, to the extent and in the manner hereinafter set forth, in right of payment to the prior payment in full of all Superior Indebtedness.

and "Superior Indebtedness" is defined in the 1967 Indenture to include:

Any other Indebtedness of the Company, whether outstanding on the date of this Indenture or hereafter created, unless, in each case, by the terms of the instrument by which the Company creates, assumes, guarantees or otherwise becomes liable for any such Indebtedness or which is issued by the Company to evidence any such Indebtedness it is provided that such Indebtedness is not superior in right of payment to the Debentures.

Indebtedness is defined to include "all obligations of the Company for borrowed money."

E. With respect to a conflicting interest of the Trustee for the 1967 Debentures, the 1967 Indenture provides in part as follows:

Section 7.08. (a). If the Trustee has or shall acquire any conflicting interest, as defined in this Section 7.08, the Trustee shall, within 90 days after ascertaining that it has such conflicting interest, either eliminate such conflicting interest or resign in the manner and with the effect specified in Section 7.01 hereof * * *

(c) For the purposes of this Section 7.08 the Trustee shall be deemed to have a conflicting interest if—

(1) the Trustee is trustee under another indenture under which any other securities, or certificates of interest or participation in any other securities, of the Company are outstanding, unless such other indenture is a collateral trust indenture under which the only collateral consists of Debentures issued under this Indenture, provided that there shall be excluded from the operation of this paragraph (1) another indenture or indentures under which other securities, or certificates of interest or participation in other securities, of the Company are outstanding if . . . (ii) the Company shall have sustained the burden of proving, on application to the Securities and Exchange Commission and after opportunity for hearing thereon, that the trusteeship under this Indenture and such other indenture or indentures is not so likely

to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify the Trustee from acting as such under one of such Indenture.

II. The 1979 Indentures

As at July 31, 1980, PSA had outstanding \$29,303,000 in aggregate principal amount of 11 1/4% Convertible Subordinated Debentures Due 2004 (the "1979 Debentures"), issued under an Indenture (the "1979 Indenture") dated as of July 31, 1979 between PSA and the Trust Company, as Trustee. PSA is not in default under such Indenture. The 1979 Debentures were registered under the 1933 Act on Form S-7 (Registration No. 2-64901) and the 1979 Indenture was filed as Exhibit 2.1(a) to such registration statement. The 1979 Indenture was qualified under the 1939 Act.

III. The Trust Agreements

A. The applicant proposes to enter into a Loan Participation Agreement (the "Loan Participation Agreement"), with the loan participants listed therein (the "Loan Participants") in order to finance the acquisition of a McDonnell Douglas DC-9 Series 80 aircraft (including the engines installed thereon) (the "Aircraft") and three spare Pratt and Whitney JT8D-209 engines (the "Spare Engines"), as more fully described therein. Such Aircraft and Spare Engines will be purchased by the Applicant with the proceeds of a borrowing from the Trust Company, in its capacity as trustee under a Trust Agreement (the "Trust Agreement") with the Loan Participants, which borrowing will be evidenced by the Applicant's Promissory Note (the "Note"). The Trust Company, in such trustee capacity, will obtain funds to make such loan through the issuance and sale of approximately \$19,750,000 in aggregate principal amount of three classes (Class A, Class B and Class C) of loan participation certificates (collectively, the "Participation Certificates") to the Loan Participants. No more than 90% of the loan will be funded by the sale of Class A Participation Certificates and at least 10% will be funded by the sale of Class B and Class C Participation Certificates, collectively. The Class A Participation Certificates will not be registered under the 1933 Act pursuant to an exemption contained in Section 3(a)(2) thereof, the Class B and C Participation Certificates will not be registered under the 1933 Act pursuant to an exemption contained in Section 4(2) thereof and the Trust Agreement will not be qualified under the 1939 Act pursuant to the exemptions

contained in Section 304(a)(4) and Section 304(b) thereof.

B. Pursuant to a Security Agreement between the Applicant and the Trust Company, as trustee under the Trust Agreement, the payment of the Note will be secured by a first mortgage (the "Mortgage") on the Aircraft and the Spare Engines.

C. It is contemplated that the Trust Company, as trustee under the Trust Agreement, and the United States of America (the "Government") will enter into an Aircraft Loan Guarantee Agreement (the "FAA Guarantee") pursuant to which the Government will guarantee 90% of the unpaid principal amount of the loan to be made by the Trust Company, as Trustee to the applicant and 100% of the unpaid interest thereon, as more fully set forth in the FAA Guarantee. The FAA Guarantee will thus cover the principal amount of the Class A Participation Certificates only.

D. The FAA Guarantee provides in Section 4.4 that after a demand for payment is made thereunder and upon payment by the Government, the Trust Company as trustee under the Trust Agreement, will assign to the Government all of its right, title and interest in the Note and the Mortgage, retaining only the right to receive a 10% participation in any recovery by the Government under the Note.

E. It is also contemplated that the Applicant will guarantee the payment of the Class B and Class C Participation Certificates pursuant to a Guarantee Agreement in substantially the form filed herewith as Exhibit 5.

F. The Applicant and the Loan Participants desire to have the Trust Company act as trustee under the Trust Agreement.

G. The Applicant also proposes to enter into another FAA guaranteed loan transaction involving a separate Loan Participation Agreement in order to finance the acquisition of three other McDonnell Douglas DC-9 Series 80 aircraft (including the engines installed thereon). Such aircraft will be purchased by the Company with the proceeds of a borrowing of approximately \$46 million from the Trust Company, in its capacity as trustee under a separate and additional trust agreement (the "Additional Trust Agreement"). The documentation and parties, except for the Loan Participants, will be substantially similar to those described in Paragraphs A through E above. Documentation for the transaction has not yet been completed but is expected to be finalized prior to the delivery of the first such aircraft, presently

contemplated to be at the end of October 1980.

H. The Applicant and the Loan Participants desire to have the Trust Company act as trustee under the Additional Trust Agreement as well.

IV. Reasons for an Exemption

A. The Applicant believes that there would exist no material conflict of interest in the Trust Company's acting as Trustee under the 1967 Indenture and as trustee under the Trust Agreement or the Additional Trust Agreement.

B. The Applicant further believes that if an Event of Default were to occur with respect to the Participation Certificates, the Trust Company, as trustee under the Trust Agreement, would act as directed by the holders of the Participation Certificates and, provided it had been so directed, would make a demand for payment from the Government pursuant to the FAA Guarantee. Once payment was made by the Government, the Government would, pursuant to Section 4.4 of the FAA Guarantee, receive an assignment of the Note and the Mortgage. Thereupon, the Trust Company's only right with respect thereto would be to receive for the benefit of the holders of the Class B and Class C Participation Certificates a participation in the 10% portion of the Note which was not guaranteed by the FAA and all amounts from time to time payable in respect thereof, the Security Agreement, and the insurance policies maintained with respect to the Aircraft, Engines and Spare Engines pursuant to the terms of the Security Agreement, and the certificate issued by the FAA to the Trustee to evidence such participation. In addition, the Government would either take over the administration and enforcement of the loan or instruct the Trust Company as to what action to take (Section 5.1 of the FAA Guarantee). Accordingly, as a practical matter, upon any default by the Applicant, the Trust Company, as trustee under the Trust Agreement, would cease to be a creditor of the Applicant and would have no right to direct or control any proceedings against the Applicant seeking recovery on the Note or enforcement of the Mortgage. Thus, no conflict of interest would exist between the Trust Company's duties as trustee under the Trust Agreement and its duties as Trustee under the 1967 Indenture.

C. The Applicant also asserts that the holders of the Class B and Class C Participation Certificates, who would not be paid off with the proceeds of the FAA Guarantee, would themselves have direct rights against the Applicant under the terms of the Guarantee Agreement

pursuant to which the Applicant guaranteed payment on their Participation Certificates.

D. The Applicant waived notice of hearing and waived any hearing in connection with this application and also waived any and all rights to specify procedures under the Rules of Practice of the Commission with respect to this application.

For a more detailed account of the matters of fact and law asserted, all persons are referred to the application, which is a public document on file in the offices of the Commission at the Public Reference Room, 1100 L Street, NW., Washington, D.C. 20549.

Notice is further given that any interested person may, not later than October 27, 1980, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of law or fact raised by such application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. At any time after said date, the Commission may issue an order granting the application, upon such terms and conditions as the Commission may deem necessary or appropriate in the public interest and the protection of investors, unless a hearing is ordered by the Commission.

For the Commission by the Division of Corporation Finance, pursuant to delegated authority.

George A. Fitzsimmons,
Secretary.

BILLING CODE 8025-01-M

[Proposed License No. 09/09-5260]

**Sam Woong Investment Co.;
Application for License To Operate as
a Small Business Investment Company**

An application for a license to operate as a small business investment company under the provisions of Section 301(d) of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 *et seq.*), has been filed by Sam Woong Investment Company (Applicant), with the Small Business Administration (SBA), pursuant to 13 CFR 107.102 (1980).

The officers, directors and stockholders of the Applicant are as follows:

Masao Aoki (President, Director, 51% Stockholder) 115 N. McCadden Place, Los Angeles, CA 90004

Eui Nam Lee (Vice President, Director, 25% Stockholder) 115 N. McCadden Place, Los Angeles, CA 90004

Mitsuo Aoki (Secretary, Director, 24% Stockholder) 115 N. McCadden Place, Los Angeles, CA 90004

Madeleine Bong-Hi Rhee (Treasurer, Director) 6302 W. 6th Street, Los Angeles, CA 90004

The Applicant, a California corporation with its principal place of business at 4607 South Main Street, Los Angeles, California 90037, will begin operations with \$500,000 of paid-in capital and paid-in surplus from the sale of 5,070 shares of common stock.

The Applicant will conduct its activities principally in the State of California.

Applicant intends to provide assistance to all qualified socially or economically disadvantaged small business concerns as the opportunity to profitably assist such concerns is presented.

As a small business investment company under Section 301(d) of the Act, the Applicant has been organized and chartered solely for the purpose of performing the functions and conducting the activities contemplated under the Small Business Investment Act of 1958, as amended, from time to time, and will provide assistance solely to small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose participation in the free enterprise system is hampered because of social or economic disadvantages.

Matters involved in SBA's consideration of the Applicant include the general business reputation and character of the proposed owners and management, and the probability of successful operations of the Applicant under this management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and the SBA Rules and Regulations.

Notice is hereby given that any person may, on or before October 29, 1980, submit to SBA written comments on the proposed Applicant. Any such communication should be addressed to the Associate Administrator for Investment, 1441 L Street, N.W., Washington, D.C. 20418.

A copy of this notice shall be published in a newspaper of general circulation in Los Angeles, California.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: October 6, 1980.

Peter F. McNeish,

Acting Associate Administrator for Investment.

BILLING CODE 4910-14-M

Federal Aviation Administration

Advisory Circular for the Type Certification of Fixed-Winged Gliders (Sailplanes)

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Request for comments on a proposed advisory circular.

SUMMARY: The proposed advisory circular (AC) identifies acceptable design criteria for showing compliance with § 21.23 of the Federal Aviation Regulations for the type certification of fixed-wing gliders (sailplanes), including self-launching (powered) gliders. The proposed AC would cancel AC 21-3, dated October 18, 1966.

DATES: Comments must identify the file number and be received on or before December 15, 1980.

ADDRESSES: Comments on the proposed AC are solicited from all interested persons and may be mailed to: Federal Aviation Administration, Office of Airworthiness, Technical Standards Branch (AWS-110), File No. AC 21.23-1, 800 Independence Avenue, SW., Washington, D.C. 20591; or delivered to: Room 335D, 800 Independence Avenue,

SW., Washington, D.C. Comments may be inspected at Room 335D between 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: Mr. James Zahringer, Technical Standards Branch (AWS-111), Aircraft Engineering Division, Office of Airworthiness, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; Telephone: (202) 426-8374.

SUPPLEMENTARY INFORMATION:

Discussion of the Draft Advisory Circular

The proposed AC provides guidance on an applicant's use of the FAA Basic Glider Criteria Handbook, the Joint Airworthiness Requirements (JAR-22) Sailplanes and Powered Sailplanes, or alternative applicant-developed criteria based on Part 23 for showing compliance with § 21.23 of the Federal Aviation Regulations for the type certification of fixed-wing glider (sailplanes), including self-launching (powered) gliders. The proposed AC also provides general guidance on the type certification of gliders. Existing AC 21-3 would be cancelled.

AC 21.23-1, would provide a means for type certifying gliders with self-launching capability, that is, powered gliders under § 21.23. Part 1 of the FAR defines a "glider" as "a heavier-than-air aircraft, that is supported in flight by the dynamic reaction of the air against its lifting surfaces and whose free flight does not depend principally on an engine." This definition does not preclude the installation of an engine so long as free flight does not depend principally on the engine. AC 21.23-1, would use maximum weight, number of occupants, and minimum rate of descent at maximum weight and most unfavorable center of gravity position with power-off to distinguish a glider with self-launching capability from an aircraft that depends principally upon an engine for free flight. This criteria is virtually the same as those selected by the European Civil Airworthiness Authorities in JAR 22.1(a)(2) and JAR 22.71. The FAA is particularly interested in receiving comments and alternative suggestions on criteria for self-launching (powered) gliders.

Proposed AC 21.23-1 also calls for engines and propellers installed on self-launching gliders to be type certificated under FAR Parts 33 and 35, respectively. This would represent a determination by the FAA, under § 21.23(a), that §§ 23.903(a) and 23.905(a) are appropriate and applicable to gliders with self-launching capability. JARs 22.903(a) and 22.905 require the engine

and propeller to be type certificated or otherwise approved but do not specify the airworthiness standards to be used. Since, by definition, self-launching gliders would not depend principally upon the engine for free flight, the FAA recognizes that Parts 33 and 35 may be too severe for engines and propellers, respectively, as designed specifically for installation on self-launching gliders. Therefore, the FAA is particularly interested in receiving comments on amendments that should be made to Parts 33 or 35, or both, for engines and propellers designed for glider use only, and alternative suggestions to the requirement that the engine and propeller be type certificated.

The Proposed Advisory Circular

In accordance with the above, the FAA publishes proposed Advisory Circular AC 21.23-1, Type Certification—Fixed-Wing Gliders (Sailplanes), as follows:

Issued in Washington, D.C. on October 7, 1980.

M. C. Brand,
Director of Airworthiness.

Type Certification—Fixed-Wing Gliders (Sailplanes)

1. *Purpose.* This advisory circular identifies two comprehensive and detailed criteria, but not the only criteria, that may be used by an applicant in showing compliance with Section 21.23(a) of Federal Aviation Regulations for the type certification of fixed-wing gliders (sailplanes), including self-launching (powered) gliders. General guidance relative to glider type certification is also provided.

2. *Cancellation.* Advisory Circular No. 21-3, dated October 18, 1966, is cancelled.

3. Related Federal Aviation Regulations.

Section 21.5 Airplane or Rotorcraft flight Manual.

Section 21.23 Issue of type certificate: gliders.

Part 45, Subpart C—Nationality and Registration Marks.

Section 91.31 Civil aircraft operating limitations and marking requirements.

Section 91.33 Powered civil aircraft with standard category U.S. airworthiness certificates; instruments and equipment requirements.

4. Background.

a. Section 21.23 provides that an applicant is entitled to a type certificate for a fixed-wing glider (sailplane) if it is shown that the glider complies with those airworthiness requirements of Part 23 or Part 27 that the FAA considers appropriate and applicable to the

specific type design. The FAA must also determine that the glider design has no unsafe features or characteristics. The Airworthiness standards for glider type certification as defined by § 21.23 are very general and subjective in nature, making it necessary for the applicant to outline comprehensive and detailed criteria to be used in evaluating the glider's type design.

b. In 1962, the FAA published a Basic Glider Criteria Handbook. Advisory Circular No. AC 21-3, dated October 18, 1966, advised the public that the handbook could be used as an acceptable means, but not the only means, of showing compliance with § 21.23 for fixed-wing gliders. Except for self-launching (powered) gliders, the FAA still considers the criteria in the handbook acceptable. Criteria for self-launching sailplanes is addressed in paragraphs 5g, h, and i of this AC.

c. On April 1, 1980, certain European Civil Airworthiness Authorities agreed to Joint Airworthiness Requirements (JAR-22) Sailplanes and Powered Sailplanes. JAR-22 is based on the Federal Republic of Germany national airworthiness code

(Lufttauglichkeitsanforderungen für Segelflugzeuge und Motorsegler (LFSM) published by the Luftfahrt Bundesamt), and was developed through joint participation of the Civil Airworthiness Authorities of Belgium, the Federal Republic of Germany, France, Italy, the Netherlands, Sweden, and the United Kingdom. After reviewing JAR-22, the FAA has determined that a fixed-wing glider design, including self-launching (powered) gliders, that is shown by the applicant to comply with the standards of JAR-22 may be found by the FAA to comply with those airworthiness requirements of Part 23. Also, the FAA has in the past, type certificated a number of gliders manufactured in the Federal Republic of Germany that were designed to the LFSM. The highly satisfactory service experience gained with these gliders further supports the acceptability of JAR-22 as criteria for showing compliance with § 21.23(a).

d. Alternatively, applicants may wish to study Part 23, identify those requirements they believe to be appropriate and applicable for type certification of their fixed-wing glider design and propose alternative criteria for showing compliance with § 21.23(a). When approved by the FAA, such independently developed criteria may be used as acceptable means of showing compliance with § 21.23(a).

e. In addition to the type certification requirements of Part 21, gliders must also comply with certain operational provisions of Part 91. Applicants for

type certification of gliders, particularly self-launching gliders, should ensure that these requirements are considered in their designs.

5. Acceptable Criteria.

a. Applicants may utilize the FAA Basic Glider Criteria Handbook, JAR-22, or develop their own criteria using Part 23 as a basis for compliance with § 21.23(a).

b. If JAR-22 is selected by the applicant—

1. The national variances identified by individual countries need not be applied;

2. The "ACJ (interpretive material)" is considered acceptable to the FAA;

3. The maximum weight limit of JAR 22.1(a)(1) need not be applied for unpowered gliders; and,

4. Engines type certificated under Part 33 and propellers type certificated under Part 35 must be used to satisfy the engine and propeller certification criteria of JARs 22.903 and 22.905, respectively.

c. Regardless of the criteria selected, wing and tail surface attachments designed for quick removal and installation by the pilot, as is permitted by Part 43, appendix A, paragraph (c) (25), must provide a means for direct visual inspection of the connections for placement and security. The lack of a visual inspection means is considered an unsafe feature and is prohibited under § 21.23(b).

d. The airplane flight manual requirements of § 21.5 are applicable to fixed-wing gliders. In addition, all gliders must comply with the civil aircraft operating limitations and marking requirements of § 91.31.

e. Nationality registration marking requirements for U.S.-registered gliders are provided by Part 45, Subpart C.

f. The FAA will document § 21.23 as the type certification basis for aircraft designs approved as gliders. The type certificate data sheet will explain in summary statement form, the criteria selected by the applicant for showing compliance with § 21.23.

g. Chapter 6 of the FAA Basic Glider Criteria Handbook is no longer

considered to adequately address self-launching (powered) gliders. Applicants wishing to type certificate self-launching gliders, that comply with the criteria of paragraph 5h and this AC, must either use the criteria of JAR-22 for powered sailplanes or develop criteria for individual FAA approval using Part 23 as a base. Self-launching gliders that exceed the limitations in 5h can only be type certificated as normal, utility, or acrobatic category airplanes under Part 23.

h. Self-launching (powered), fixed-wing gliders may be type certificated under § 21.23 if—

1. The total occupant capacity does not exceed two persons;

2. The maximum certificated weight does not exceed 2,000 lbs; and

3. The minimum descent rates for the glider, power-off, at maximum weight and most unfavorable center of gravity position, does not exceed—

i. 3.3 ft/sec. (1m/sec) for single-seat gliders; or

ii. 4.0 ft/sec. (1.2 m/sec) for two-seat gliders.

i. Self-launching (powered) gliders are considered to be powered aircraft for the purpose of complying with § 91.33.

6. Availability of Documents.

a. Copies of the FAA Basic Glider Criteria Handbook may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

b. Copies of Joint Airworthiness Requirements (JAR-22) Sailplanes and Powered Sailplanes, may be purchased from the Civil Aviation Authority, Printing and Publications Services, Greville House, 37 Gratton Road, Cheltenham Glos. GL50 2BN, England.

BILLING CODE 4910-13-M

[Summary Notice No. PE-80-28]

Petitions for Exemption; Summary of Petitions Received and Dispositions of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

Petitions for Exemptions

ACTION: Notice of petitions for exemptions received and of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption (14 CFR Part 11), this notice contains a summary of certain petitions seeking relief from specified requirements of the Federal Aviation Regulations (14 CFR Chapter I) and of dispositions of certain petitions previously received. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATE: Comments on petitions received must identify the petition docket number involved and must be received on or before: November 3, 1980.

ADDRESS: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-204), Petition Docket No. , 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION: The petition, any comments received and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC-204), Room 916, FAA Headquarters Building (FOB 10A), 800 Independence Avenue SW., Washington, D.C. 20591; telephone (202) 426-3644.

This notice is published pursuant to paragraphs (c), (e), and (g) of § 11.27 of Part 11 of the Federal Aviation Regulations (14 CFR Part 11).

Issued in Washington, D.C., on October 6, 1980.

Edward P. Faberman,
Acting Assistant Chief Counsel, Regulations and Enforcement Division.

Docket No.	Petitioner	Regulations affected	Description of relief sought
20050	Jimsair Aviation	14 CFR 135.10(b)(3) and 135.173	To permit operation in IFR weather without having the required thunderstorm detection equipment installed in its aircraft.
20642	Aeroamerica, Inc.	14 CFR 141.35	To allow Rondo R. Pietscher to be chief instructor of a Boeing rating course without meeting chief instructor recent experience requirements.
20665	Cochise Airlines, Inc.	14 CFR 135.297(b)	To delete the requirement to demonstrate an ADF approach during the pilot-in-command instrument proficiency check.
20770	Accelerated Ground Training	14 CFR 63.39	To allow the practical test for a Flight Engineer rating to be conducted in an FAA-approved flight simulator.
17702	American Airlines	14 CFR 61.3, 61.29, 63.3, and 63.16.	Petitioner requests extension of Nov. 30, 1980, expiration date of Exemption No. 2628 to permit AAL teletype confirmation of airman certificates.

Dispositions for Petitions for Exemptions—Continued

Docket No.	Petitioner	Regulations affected	Description of relief sought—disposition
20551	Aeroamerica, Inc.	14 CFR 61.157(d)(1) and 61.63(d)(2) and (3).	To allow petitioner's trainees to complete a practical test for the issuance of a type rating to be added to any grade of pilot certificate in an airplane.
20630	Western Helicopters	14 CFR 141.35	To permit Robert W. Spencer to be designated the chief flight instructor for petitioner's training courses even though he does not meet all the experience requirements.
13199	American Airlines Training Corp.	14 CFR 61.63	Requests renewal of Exemption No. 2064C to allow the substitution of check requirements when testing private and commercial pilots for a CE-500 type rating.

Dispositions for Petitions for Exemptions

Docket No.	Petitioner	Regulations affected	Description of relief sought—disposition
19936	American Airlines	14 CFR Part 121, Appendix F, III(c)(4).	To permit the use of alternative training in lieu of demonstrating at least one nonprecision approach procedure on a let down aid. <i>Denied 9/25/80.</i>
20576	USAIR	14 CFR 121.417(c)(1)	To allow USAIR until Sept. 29, 1981, to complete recurrent emergency exit hands on training for all of its crewmembers. <i>Partial grant 9/25/80.</i>
19113	Capitol International Airways	14 CFR 121.3, 121.105, 121.443, 121.465, 121.533, 121.535, 121.593, 121.595, 121.601.	Extension of the Sept. 30, 1980, expiration date of Exemption No. 2746A which permits continued scheduled passenger service under the supplemental air carrier rules of Part 121. <i>Partial grant 9/25/80.</i>
20402	Braniff International	14 CFR 121.359(c)(2)(iii)	To extend the compliance date of the cited Part to allow the possible operation of 24 Braniff aircraft without emergency locator beacons affixed to cockpit voice recorders. <i>Withdrawn 10/1/80.</i>
20512	Missionary Aviation Fellowship	14 CFR 65.91(c)(1)	To waive the requirement for at least 3 years holding of a A and P Mechanics License for application for an Inspection Authorization. <i>Granted 9/30/80.</i>
20419	Cascade Airways, Inc.	14 CFR 21.197	To allow petitioners to apply for and permit their use of a special flight permit with a continuing authorization to fly an aircraft, that may not meet applicable airworthiness requirements but is capable of safe flight, to a base where repairs or maintenance are to be performed. <i>Granted 9/30/80.</i>
20997	Crystal Shamrock Airlines	14 CFR 121.61(d)(2)	To allow Mr. Terry Ahr to work as Chief Inspector without meeting the full 3 year experience requirement. <i>Granted 9/26/80.</i>
20587	Air Florida	14 CFR 121.158(a)(1)	To permit petitioner to operate one B-737-200 aircraft under foreign ownership and/or registry. <i>Granted 9/24/80.</i>
20619	Meroy Flights, Inc.	14 CFR 135.19(c)	To allow Petitioner to make deviation reports instead of requiring the individual pilots to make the reports. <i>Denied 9/24/80.</i>
20465	Golden Gate Airlines	SFAR 38	To permit petitioner, to the extent necessary, to conduct its maintenance under FAR 121, Subpart L, rather than FAR 135. <i>Withdrawn 9/22/80.</i>
20171	Ohio State University	14 CFR 91.169	To allow petitioner to operate small civil airplanes of U.S.-registry under the operating rules of § 91.183 through § 91.215 and the inspection provisions of § 91.217 and § 91.219. <i>Partial grant 9/15/80.</i>
20334	Evergreen Helicopters, Inc.	14 CFR 135.261(b)	To allow petitioner's pilots to have only 8 instead of 10 hours of rest during any 24 hours of duty. <i>Granted 10/2/80.</i>
20779	The Department of International Affairs of the General Administration of Civil Aviation of China and Pan American World Airways.	Portions of Parts 21	To permit petitioner to operate U.S.-registered aircraft using the Federal Aviation Administration (FAA)-approved master minimum equipment list and PAA's continuous airworthiness maintenance program. <i>Granted 9/23/80.</i>
20775	Albuquerque International	14 CFR 61.3 and 91.27	To allow certain foreign balloon pilots and foreign balloons to participate in the annual Albuquerque International Balloon Fiesta. <i>Granted 9/19/80.</i>

Correction of Summary of a Disposition

Docket No.	Petitioner	Regulations affected	Description of relief sought
20410	Midwest Helicopter	14 CFR 135.261(b)	To allow petitioner's pilots to have 8 instead of 10 hours of rest during any 24 hours of duty. <i>Granted 9/8/80.</i>

BILLING CODE 4910-13-M

Federal Highway Administration

Environmental Impact Statement:
Marion County, Oreg.AGENCY: Federal Highway
Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for six proposed highway projects in Marion County, Oregon.

FOR FURTHER INFORMATION CONTACT:
Paul V. Riedl, Environmental
Coordinator, Federal Highway
Administration, Equitable Center, Suite
100, 530 Center Street NE., Salem,
Oregon 97301, Telephone: (503) 378-
3832.SUPPLEMENTARY INFORMATION: The
FHWA, in cooperation with the Oregon
Department of Transportation and the
Mid Willamette Valley Council of
Governments, will prepare an
environmental impact statement (EIS) onsix proposed highway projects in
Marion County, Oregon. These are (1)
the Salem Parkway from Chemawa
Road to Pine Street, (2) Chemawa Road
from the Southern Pacific Railroad to
Highway 99E, (3) Verda Lane from
Chemawa Road to Hyacinth Street, (4)
Hyacinth Street from Verda Lane to
Highway 99E, (5) Cherry Avenue from
North River Road to Pine Street, and (6)
the Chemawa Interchange at the
overcrossing of Interstate 5 at Chemawa
Road. The first five projects are part of

the I-305 transfer program. The sixth is an Interstate project.

The proposed projects either follow existing streets or occupy land that for the most part is not currently developed. Much of the right of way needed for these projects is already in public ownership.

The Salem Parkway Project involves construction of a four-lane limited access arterial with left turn refuges at the principal at-grade intersections.

The Salem Parkway Project has two purposes: (1) to provide a major arterial connection between Interstate 5 north of Salem and the Salem downtown and points south and west, thereby relieving traffic problems on other arterials, and (2) to provide increased access between the downtown and points in Keizer and Northeast Salem.

There are three alternatives to the Salem Parkway. The first would connect with the same termini as the original proposal but running parallel to the south. The second would extend from an existing arterial and connect with the southern third of the original alignment. The third alternative is no-build.

The Chemawa Interchange Project would (1) provide new freeway access to the northeast Salem urban area, and (2) provide full access between Chemawa Road and the Parkway and Interstate 5. Alternatives considered are constructing a new full-diamond interchange and the no-build.

The Chemawa Road Project involves resurfacing and widening a portion of Chemawa Road on its present two-lane alignment. This includes the widening of existing lanes and addition of shoulders. The Chemawa Road Project would provide additional capacity for regional trips in Keizer and Northeast Salem that are attracted by the Chemawa Interchange. Alternatives considered are the build and no-build.

The Verda Lane Project involves the improvement of Verda Lane to a two-lane minor arterial along the existing alignment south of Chemawa Road, and the southerly extension of Verda Lane to the Salem Parkway. There, the Verda Lane extension would intersect a corresponding northerly extension of Hyacinth Street. The two streets would in effect become a single arterial intersecting the Salem Parkway.

The Verda Lane Project would accommodate increased traffic volumes associated with future residential growth in Keizer and Northeast Salem. It would also provide convenient access to and from the Salem Parkway.

There are two build alternatives with partially new alignments considered. A third alternative is the no-build.

The Hyacinth Street Project involves improving Hyacinth Street to adopted minor arterial standards and extending Hyacinth Street northerly on a new alignment to intersect with the Salem Parkway at the extension of Verda Lane. The new alignment would have at-grade crossing of the Southern Pacific and Burlington Northern railroad tracks. Intersection improvements would also be made at Portland Road.

The purpose of this project is to facilitate southeast-northwest traffic movement in the Northeast Salem/Keizer area and to provide convenient access to and from the Salem Parkway. In conjunction with the Verda Lane Project, there are two build alternatives and the no-build.

The Cherry Avenue Project involves widening Cherry Avenue to four lanes and making intersection improvements at North River Road and the Salem Parkway. The project would increase the overall capacity of north-south arterials in the North Salem/Keizer area to handle anticipated future traffic increases. The build and no-build alternatives are being considered.

In addition to these project alternatives, other alternatives may develop during the project study stage.

Information describing the proposed actions will be sent to the appropriate Federal, State and local agencies and to private organizations and citizens who have previously expressed interest in these proposals. Public meetings have been held and, as necessary, more will be held and, in addition, a public hearing will be held. No formal scoping meeting is planned at this time.

Comments or questions concerning these proposed actions and the EIS should be directed to the FHWA at the address provided above.

Catalog of Federal Domestic assistance program Number 20.205, "Construction of the Salem Parkway and related project."

The provisions of OMB Circular No. A-95 regarding State and local clearinghouse review of Federal and federally assisted programs and projects apply to this program issued September 30, 1980.

E. J. Valach,

Program Development Engineer, Oregon Division Salem, Oregon.

[FR Doc. 80-31666 Filed 10-10-80; 8:45 am]

BILLING CODE 4910-22-M

Environmental Impact Statement: Marion County, Oregon.

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed highway project in Marion County, Oregon.

FOR FURTHER INFORMATION CONTACT: Paul V. Riedl, Environmental Coordinator, Federal Highway Administration, Equitable Center, Suite 100, 530 Center Street NE., Salem, Oregon 97301, Telephone: (503) 378-3832.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Oregon Department of Transportation and the Mid Valley Council of Governments, will prepare an environmental impact statement (EIS) on the proposal to widen and improve a 1.1 mile section of Mission Street (between 12th and 24th Streets) in the City of Salem, Marion County, Oregon. This project is part of the I-305 Transfer program.

The purpose of the project is to provide an improved route for major east-west traffic passing through Salem. In addition the project will examine a grade separated crossing of the Southern Pacific Railroad Tracts.

The proposed project will follow the existing alignment, for the most part, with design alternatives to be examined at the Western Terminus. Other alternatives being considered will be: underpass, overpass, or an at grade crossing of the Southern Pacific Railroad, shifting the alignment to avoid existing structures, design alternatives in the linkage of Mission Street to Pringle Parkway. Other alternatives may develop during the EIS process.

Information describing the proposed actions will be sent to the appropriate Federal, State and local agencies and to provide organizations and citizens who have previously expressed interest in these proposals. A public meeting will be held and as necessary more will be scheduled during the EIS process. In addition, a public hearing will be scheduled. No formal scoping meeting is planned at this time.

Comments or questions concerning these proposed actions and the EIS should be directed to the FHWA at the address provided above.

Catalog of Federal Domestic Assistance Program Number 20.205, "Reconstruction of Mission Street (between 12th and 24th Streets)."

The provisions of OMB Circular No. A-95 regarding State and local clearinghouse review of Federal and federally assisted programs and projects

apply to this program issued September 30, 1980.

E. J. Valach,

Program Development Engineer, Oregon
Division, Salem, Oregon.

BILLING CODE 4910-22-M

Federal Railroad Administration

[Docket No. RSSI-80-1; Notice No. 1]

Special Safety Inquiry; Use of Metal Hooks to Open Coupler Knuckles

AGENCY: Federal Railroad Administration.

ACTION: Notice of safety inquiry.

SUMMARY: The Federal Railroad Administration (FRA) is initiating a special safety inquiry to examine the use of metal hooks by railroad employees to open coupler knuckles on moving equipment during switching operations. The inquiry is intended to be responsive to a number of complaints from affected employees and their representatives questioning the safety of the procedure. This safety inquiry is intended to provide FRA with adequate information to determine whether regulatory action is appropriate in this area.

DATE: The public hearing in this inquiry will begin at 9:00 a.m. on October 28, 1980. Written comments should be submitted by October 24, 1980.

ADDRESSES: The public hearing will be held at the Holiday Inn, 1725 Memorial Drive, Waycross, Georgia 31501, in a room to be announced on the day of the hearing. Written comments should be submitted to the Docket Clerk, Office of Chief Counsel (RCC-1), FRA, 400 Seventh Street, S.W., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT: J. U. Chrisman, Office of Safety, FRA, 202-426-9252, or Kenneth Gradia, Office of Chief Counsel, FRA, 202-426-8285.

SUPPLEMENTARY INFORMATION: All freight cars hauled by common carriers engaged in interstate commerce are required by law to be equipped with couplers that couple automatically upon impact. In order for a freight car to couple upon impact, the knuckle portion of its coupler must be completely open. A device known as the uncoupling lever, which extends beyond the side of the car, is manually operated to open the knuckle. For a variety of reasons, a knuckle will occasionally fail to open completely through operation of the uncoupling lever. If the knuckle is not completely open, the car may not automatically couple on impact. In that

event, the car must be coupled manually.

The Seaboard Coast Line Railroad Company (SCL) has devised a procedure to address this problem, which is described below as observed by FRA representatives at SCL's Rice Yard in Waycross, Georgia. Generally speaking, the procedure involves manipulation of coupler knuckles with metal hooks by employees during humping operations. ERA is aware of four locations, two each on the SCL and the St. Louis-San Francisco Railway Company (SLSF), at which employees are required to use metal hooks to open coupler knuckles during switching operations.

Procedure. During humping operations, two employees are stationed at opposite sides of the hump track near the crest of the hump. A cut of cars is moved toward the employees at a speed of approximately 2½ miles per hour. As the cut approaches the crest of the hump, one employee stations himself at the front end of the second car in the cut and operates its uncoupling lever, which separates it from the lead car. Immediately after separation, the other employee operates the uncoupling lever at the rear end of the lead car with one hand and, at the same time, attempts with the other hand to further open the knuckle of the lead car by placing the tip of a metal hook in a hole at the top of the knuckle and pulling towards himself. Because the hooks used are not long enough to permit an employee to manipulate the knuckle while standing beyond the side of the car, the employee must step between the moving cars to perform his job. After completing their respective tasks, each employee walks back to the rear end of the next car in the cut and repeats the process. The hooks used vary in length from approximately 32 to 36 inches. They have a tip at one end to engage the knuckle and a handle at the opposite end.

Safety Risk. The SCL began use of the metal hooks at Rice Yard on January 18, 1979. Since that date, FRA is aware of three serious injuries to SCL employees that resulted from their use. In each case, the employee lost his balance and fell when a hook broke while in use. Because the employee using the hook is forced to work between moving cars to perform his task, a fall could result in serious injury or death. On December 17, 1979, the United Transportation Union formally requested FRA to prohibit use of metal hooks to open coupler knuckles during switching, contending that the practice created a serious risk of injury and death to affected employees.

FRA is instituting this safety inquiry to develop sufficient information to base

its judgment on whether regulatory action is appropriate in this area. See 49 CFR 211.61. A public hearing will be held in furtherance of the inquiry at 9:00 a.m. on October 28, 1980, at the Holiday Inn, 1725 Memorial Drive, Waycross, Georgia, in a room to be announced on the day of the hearing. Representatives of the SCL, SLSF, the railroad industry, railroad employees, car builders and other interested parties are invited to attend the hearing and to make informal oral presentations. An FRA board of inquiry will direct questions to each witness for the purpose of developing a full factual background upon which FRA may base its decisions. Written comments are also solicited and should be submitted to the address indicated above not later than October 24, 1980.

Commenters are encouraged to provide information concerning all issues relevant to the topic under examination. Comment is specifically solicited on the following issues:

1. What are the safety hazards that result from use of the hooks? Do any safety benefits result from their usage?
2. Can the hooks be used as intended by employees without going between moving cars? If not, can the hooks be lengthened sufficiently to preclude the necessity of employees going between moving equipment while retaining the characteristics necessary to perform their intended function and without adding additional hazards?
3. What materials are used to fabricate the hooks? How often do the hooks break while in use? Are the hooks tested in any manner to ensure that they will not break during normal use? Can effective hooks be manufactured from materials more durable than those presently used?
4. Are the hooks being used for any purpose other than manipulation of coupler knuckle? If so, do such usages create any safety hazards? Explain.
5. Have any employees suffered injuries as a result of using the hooks? What were the circumstances and the nature of the injuries?
6. Are there written carrier procedures governing use of the hooks? If so, what do those procedures provide? Are employees trained in proper use of the hooks? If so, give details.
7. Is the speed at which cars are moved over the hump held constant, or are there sudden surges? If there are surges, how frequently do they occur?
8. Are there any practical alternatives to use of the hooks that would ensure automatic coupling upon impact but would not require manual manipulation of couplers? Explain.
9. Any other information that will advance this inquiry.

Information gathered in this safety inquiry may form the basis of rulemaking under the Federal Railroad Safety Act of 1970 (45 U.S.C. 421 *et seq.*).

(Secs. 202, 208, 84 Stat. 971, 974 (45 U.S.C. 431, 437); § 1.49(n) of the Regulations of the Office of the Secretary of Transportation (49 CFR 1.49(n))

Issued in Washington, D.C. on October 8, 1980.

John M. Sullivan,

Federal Railroad Administrator.

BILLING CODE 4910-06-M

DEPARTMENT OF THE TREASURY

Customs Service

[T.D. 80-250]

Washington Stove Works; Recordation of Trade Name

On July 1, 1980, there was published in the *Federal Register* (45 FR 44438-44439) a notice of application for the recordation under section 42 of the Act of July 5, 1946, as amended (15 U.S.C. 1124), of the trade name Washington Stove Works. The notice advised that prior to final action on the application, filed pursuant to § 133.12, Customs Regulation (19 CFR 133.12), consideration would be given to relevant data, views, or arguments submitted in opposition to the recordation and received not later than November 13, 1980. No responses were received in opposition to the application.

The name "Washington Stove Works" is hereby recorded as the trade name of Washington Stove Works, a corporation organized under the laws of the State of Washington, located at 3402 Smith, Everett, Washington 98201, when applied to freestanding fireplaces, wood heaters, marine ranges, cook stoves, both oil and wood/coal, manufactured in Yugoslavia. No foreign firm is authorized to use the trade name.

Dated: October 8, 1980.

Harvey B. Fox,

Director, Office of Regulations and Rulings.

BILLING CODE 4810-22-M

Office of the Secretary

[Supplement to Department Circular; Public Debt Series No. 30-80]

Bonds of 1995; Interest Rate

October 8, 1980.

The Secretary announced on October 7, 1980, that the interest rate on the

bonds designated Bonds of 1995, described in Department Circular—Public Debt Series—30-80, dated September 30, 1980, will be 11½ percent. Interest on the bonds will be payable at the rate of 11½ percent per annum.

Paul H. Taylor,

Fiscal Assistant Secretary.

Supplementary Statement

The announcement set forth above does not meet the Department's criteria for significant regulations and, accordingly, may be published without compliance with the Departmental procedures applicable to such regulations.

- CAG-12. Docket No. CP80-401, Kentucky West Virginia Gas Co.
- CAG-13. Docket No. CP79-457, Mississippi River Transmission Corp.

Power Agenda—465th Meeting, October 15, 1980, Regular Meeting

I. Licensed Project Matters

- P-1. Project No. 108, Northern States Power Co.
- P-2. Project No. 2545, Washington Water Power Co.

II. Electric Rate Matters

- ER-1. Docket No. ER80-546, Allegheny Power Service Corp. and Virginia Electric & Power Co.
- ER-2. Docket No. ER80-717, Connecticut Yankee Atomic Power Co.
- ER-3. Docket No. ER80-713, Arkansas Power & Light Co.
- ER-4. Docket No. ER79-551, Philadelphia Electric Co.
- ER-5. Docket No. ER80-329, Central Power & Light Co.
- ER-6. Docket Nos. E-9520 and ER77-531, Illinois Power Co.
- ER-7. Docket No. ER80-313, Public Service Co. of New Mexico.
- ER-8. Docket No. ER80-259, Kansas Gas & Electric Co.
- ER-9. Docket No. EL80-15, Sierra Pacific Power Co.
- ER-10. Docket No. ER78-360, Connecticut Yankee Atomic Power Co.
- ER-11. Docket No. ER76-320, The Connecticut Light & Power Co.
- ER-12. Docket No. ER78-409, Philadelphia Electric Co.
- ER-13. Docket No. ER78-517, Connecticut Light & Power Co.

Miscellaneous Agenda—465th Meeting, October 15, 1980, Regular Meeting

- M-1. Reserved.
- M-2. Reserved.
- M-3. (A) Docket No. RM78-15, Rules relating to investigations, (B) Docket No. RM81- Amendment to the standards of conduct.
- M-4. Docket No. RM79-76, High-cost natural gas produced from tight formations.
- M-5. (A) Docket No. RM80-50, high-cost natural gas; Production enhancement procedures; (B) Docket No. RM80-14, final regulations under sections 105 and 106(b) of the Natural Gas Policy Act of 1978; (C) Docket No. RM80-21, regulations under sections 110, 105 and 106(b) of the Natural Gas Policy Act of 1978; (D) Docket No. SA80-90, American Petrofina Co. of Texas, et al.
- M-6. Docket No. GP80-97, United States Geological Survey at Casper, Wyoming, § 102 NGPA determination, Mobil Oil Corp., Piceance Creek F31-13G USA, JD79-9850, USGS CC83-9.
- M-7. Docket No. GP81- , USGS New Mexico section 108 NGPA determination; Depco, Inc., Hancock Well No. 6; USGS Docket No. NM 2732-79, GERC No. JD80-415.
- M-8. Docket No. RA80-41, Eagle's Chevron Service.

Gas Agenda— 465th Meeting, October 15, 1980, Regular Meeting

I. Pipeline Rate Matters

- RP-1. Docket No. RP79-64, Florida Gas Transmission Co.

II. Producer Matters

- CI-1. Docket Nos. CI77-298 and IN79-3, Tenneco Inc., et al.; Docket Nos. G-3973, G-7360, G-11936, G-11943 and G-11948, Mobil Oil Corp.

III. Pipeline Certificate Matters

- CP-1. Docket No. CP74-94 (phase I and phase II), United Gas Pipe Line Co. v. Billy J. McCombs, et al., R. James Stillings d.b.a.

- Gastill Co., David A. Onsgard, Basin Petroleum Corp., Louis H. Haring, Jr., National Exploration Co., E. I. du Pont de Nemours & Co., Bill Forney Sr., and Bill Forney, Inc.
- CP-2. Docket Nos. CP79-352, RP80-97, CP76-492, CP77-569, CP77-570, CP77-571, CP78-490, CP78-499, CP78-523, CP78-543, CP79-67, CP79-81 and CP79-311, Tennessee Gas Pipeline Co., a division of Tenneco Inc.
- CP-3. Docket Nos. CP78-123, et al., Northwest Alaskan Pipeline Co.; Docket No. CP78-124, Northern Border Pipeline Co.; Docket No. CP79-60, Pacific Gas Transmission Co.

12

[Meeting No. 1254]

TENNESSEE VALLEY AUTHORITY.

TIME AND DATE: 7 p.m., CDT, Thursday, October 16, 1980.

PLACE: Calloway County Middle School Gymnasium, 2110 College Farm Road, Murray, Kentucky.

STATUS: Open.

MATTERS FOR ACTION: Old business items:

1. Req. No. 170183 (Reissue)—Load management control system for the Load Management Air-Conditioning Cycling Program.
2. Req. No. 827370—250-ton polar crane for Yellow Creek Nuclear Plant, Unit 1.
3. Personal services contract with Radian Corporation for performance of a process and environmental test program of the Texaco gasification process at the Ruhrchemie/Ruhrkohle gasification facility in Oberhausen-Holten, Federal Republic of Germany.
4. Personal services contract with TRW, Inc., for performance of an environmental test program of the Koppers-Totzek gasification process at the Nitrogen Fertilizer Industries, S.A. gasification facility in Ptolemais, Greece.
5. Personal services contract with GKT Gesellschaft Fur Kohle-Technologie mbH for performance of a process test program of the Koppers-Totzek gasification process at the Nitrogen Fertilizer Industries, S.A. gasification facility in Ptolemais, Greece.

New business items: B—Purchase awards:

1. Req. No. 827379—Radioactive waste volume reduction and solidification systems for Sequoyah and Watts Bar Nuclear Plants.
2. Req. No. 827503—Labor, materials, equipment, and services to design and construct chimney at Colbert Steam Plant.

C—Power items:

- *1. Termination of certain coal leases at the Eads Mine in Jefferson County, Illinois.
- *2. Interagency agreement with Department of Energy to examine relationships between coal characteristics and the performance of TVA power plants.
- *3. Amendment to interagency agreement with Department of Energy for support of the Federal Photovoltaic Utilization Program (TV-52509A).
4. Supplement to Contract TV-36914A with Battelle-Columbus Laboratories, Columbus, Ohio, for technical assistance in nuclear technology and other evaluations.
5. Agreement with West Kentucky Rural Electric Cooperative Corporation covering arrangements for distributor's participation in TVA's Thermostat Field Test.
6. Deed and bill of sale conveying to the city of Paris, Tennessee, a 6.97-mile section of the Paris-McKenzie 69-kV Transmission Line.
7. Proposed sale of surplus property—Used pulverizer motors with associated spare parts located at Cumberland Steam Plant, Cumberland City, Tennessee.

D—Personnel items:

- *1. Change of status for George F. Dilworth from Chief Nuclear Engineer to Assistant Manager (Thermal Power Engineering), Division of Engineering Design, Office of

Engineering Design and Construction, Knoxville, Tennessee.

*2. Change of status for John A. Raulston from Nuclear Engineer to Chief Nuclear Engineer, Nuclear Engineering Branch, Division of Engineering Design, Office of Engineering Design and Construction, Knoxville, Tennessee.

*3. Change of status for Richard L. Morgan, Jr., from Director of Land and Forest Resources, Office of Natural Resources, to Manager of Community Development, Knoxville, Tennessee.

*4. Change of status for Charlesetta Woodard-Thompson, Director of Equal Opportunity Compliance, Office of the General Manager.

5. Consulting contract with Donald R. F. Harleman, Lexington, Kentucky, for advice and assistance in the field of water resources and hydrodynamics, requested by the Office of Natural Resources.

6. Amendment to consulting contract with Dr. Menachem Luria, Jerusalem, Israel, for technical advice and counseling concerning atmospheric chemical transformation to coal-fired power plant plumes, requested by the Office of Natural Resources.

7. Consulting contract with Robert B. Jansen, Mead, Washington, for consultation on the design and construction of major hydro projects and on foundation engineering problems associated with thermal power plant construction, requested by the Office of Engineering Design and Construction.

E—Real property transactions:

1. Grant of permanent easement to Williamson County, Tennessee, for public recreation purposes, affecting 17 acres of TVA phosphate land in Williamson County—Tract No. XTPS-12RE.
2. Abandonment and modification of flowage and other easement rights affecting approximately 20 acres of Watts Bar Reservoir land in Loudon County, Tennessee—Tract Nos. WER-1639F, WBR-1640F, WBR-1642F, and WBR-1644F.

F—Unclassified:

1. New TVA policy code relating to occupational radiation protection.
2. Letter agreement with Defense Mapping Agency Hydrographic/Typographic Center for TVA's assistance in an accelerated mapping program (TV-55140A).
- *3. Settlement of TVA's claims under Contracts 75P-87-T3, 75P-93-T10, and 75P-43-T27 with Island Creek Coal Sales Company.
- *4. Settlement agreement between Arrow Transportation Company and TVA relating to claims for damages and losses resulting from the sinking of barges operated by Arrow Transportation Company at TVA's Colbert Steam Plant.

DATED: October 9, 1980.

Register Federal

Tuesday
October 14, 1980

Part II

Federal Emergency Management Agency

Privacy Act of 1974; Annual Publication
of Systems of Records

FEDERAL EMERGENCY MANAGEMENT AGENCY

Privacy Act of 1974; Annual Notice of Systems of Records

AGENCY: Federal Emergency Management Agency.

ACTION: Annual notice of Privacy Act Systems of Records.

SUMMARY: Federal agencies are required by the Privacy Act of 1974 to give notice of certain records that they maintain. The purpose of this document is to fulfill the Privacy Act annual notice requirement by publishing an annual notice of the systems of records currently being maintained by the Federal Emergency Management Agency. Also, in an effort to economize on the cost of publication in the *Federal Register*, we are publishing minor administrative corrections to existing systems of records which were previously published this year at 45 FR 37888, 45 FR 40646, 45 FR 51431 and 45 FR 53569.

EFFECTIVE DATE: October 14, 1980.

FOR FURTHER INFORMATION CONTACT: Linda Keener, Freedom of Information and Privacy Specialist, Office of Public Affairs, (202) 634-6772.

SUPPLEMENTARY INFORMATION: All of the existing systems of records maintained by the Federal Emergency Management Agency were previously published this year in the *Federal Register*, see referenced pages under the "Summary" column above. Comments were received from the Subcommittee on Government Information and Individual Rights and the Office of Management and Budget that certain blanket routine uses that were initially published were not required because they were already covered by the Privacy Act, see 5 U.S.C. 552a(b)(1), (2) and (10). We were also requested to further identify exactly which routine uses listed under the blanket routine use section, Appendix A, were applicable to each particular system of records. We have made the necessary changes and in most cases, the routine use section of many of our systems of records have become more limited. Minor typographical errors and clarifications have been made throughout the notices.

Certain personnel-related files are covered by the OPM Government-wide notices and subject to control by the Office of Personnel Management. The Personnel Investigations Records of present, former or potential FEMA employees is covered by the OPM/Gov't-4 system notice and maintained at the Office of Personnel Management. The following records are maintained by

the Federal Emergency Management Agency but subject to control by OPM:
OPM/GOVT-1...General personnel records.
OPM/GOVT-3...Adverse action records.
OPM/GOVT-5...Recruiting, examining, and placement records.
OPM/GOVT-6...Personnel research and test validation records.
OPM/GOVT-7...Applicant race, sex, ethnicity and disability status records.
OPM/GOVT-8...Confidential Statements of Employment and Financial Interests.
OPM/GOVT-9...Position classification review and retained rate of pay appeals.

Following are the notices of all FEMA systems of records and Appendix A which lists the routine uses which have been identified as applicable to more than one system notice and Appendix AA which lists the addresses of our ten Regional offices.

Dated: October 2, 1980.

Peg Maloy,

Acting Director, Office of Public Affairs.

FEMA/ACC-1

SYSTEM NAME:

Payroll and leave accounting.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Office of Finance and Administration, Budget and Finance Division, Federal Emergency Management Agency, Washington, D.C. 20472; timekeepers at FEMA headquarters, Staff College (Eventually to become Emergency Management Institute) and U.S. Fire Academy, Emmitsburg, Maryland, Computer Center, and all FEMA Regional offices, addresses are listed in Appendix AA; bi-weekly payroll records are also maintained at classified location and relocation facilities under the FEMA Vital Operating Records Program.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All FEMA employees, headquarters and field, including full-time permanent, part-time, temporary, consultants, and former employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain earnings and leave statements provided directly to employees; net check listing; Federal and state withholding statement; bond applications; bond listing; listing of payroll checks mailed; requests by employees for allotments of pay for credit to savings account with financial

institutions; and notification of personnel actions.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 112(a) of the Budget and Accounting Procedures Act of 1950; 31 U.S.C. 66(a); 5 U.S.C. 5501, et seq., 5525 et seq., and 6301 et seq.

PURPOSE(S):

For the purpose of administering the pay and leave requirements.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in these records may be used: (a) By the Department of the Treasury to issue checks and U.S. Savings bonds; (b) By the Department of Labor in connection with a claim filed by an employee for compensation due to a job-connected injury or illness; (c) By state offices of unemployment compensation in connection with claims by former Agency employees for unemployment compensation; (d) by Federal Employees' Group Life Insurance or Health Benefits carriers in connection with survivor annuity or health benefits claims or records reconciliations; (e) To provide officials of labor organizations recognized under the Civil Service Reform Act with information as to the identity of Agency employees contributing union dues each pay period and the amount of dues withheld from each contributor; (f) To disclose information to officials of labor organizations recognized under the Civil Service Reform Act when relevant and necessary to their duties of exclusive representation concerning personnel policies, practices, and matters affecting working conditions; (g) To disclose information to another Federal agency or to a court when the Government is party to a judicial proceeding before the court; (h) to disclose, in response to a request for discovery or for appearance of a witness, information that is relevant to the subject matter involved in a pending judicial or administrative proceeding; (h) To disclose information to officials of: the Merit Systems Protection Board, including the Office of the Special Counsel; the Federal Labor Relations Authority and its General Counsel; Social Security Administration; or the Equal Employment Opportunity Commission when requested in performance of their authorized duties.

Additional routine uses may include any of the uses listed in Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

The net check listing, listing of payroll checks mailed, bond lists, and notification of personnel actions consist of paper records in file folders; information from these forms are keyed into a computer system and transmitted to the Department of the Treasury in San Francisco for preparing checks and bonds.

RETRIEVABILITY:

Net check listings, listings of payroll checks mailed, and bond lists are filed by payroll date. Federal and state withholding statements, bond applications, requests by employees for allotments of pay for credit to savings accounts with financial institutions, and notifications of personnel actions are filed alphabetically by name of individual.

SAFEGUARDS:

Paper records are retained in a locked container and/or room records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Listings of payroll checks mailed and bond lists are destroyed after 2 years. Personnel notification actions are destroyed after 6 years. All other records are retained in accordance with GSA General Records Control absence FEMA regulations governing the retention and disposal of records.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Finance and Administration, Budget and Finance Division, Federal Emergency Management Agency, Washington, D.C. 20472; all Regional directors of FEMA, addresses are listed in Appendix AA.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Treasury Form TDS 10-11, G-6, Earnings and Leave Statements; Net check listings; Listing of Payroll Checks Mailed are prepared by the Department of the Treasury in San Francisco; Form W-4, Federal and State Withholding Statements; SF 1192, Bond Application; SF 1198, Request by Employees for Allotment of Pay for Credit to Savings Account with a Financial Organization is submitted by the individual to the Department of the Treasury in San Francisco through FEMA payroll offices; and SF 50, Notification of Personnel Action.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/ACC-2**SYSTEM NAME:**

Travel and Transportation Accounting.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Office of Finance and Administration, Budget and Finance Division, Federal Emergency Management Agency, Washington, D.C. 20472; Staff College (Eventually to become Emergency Management Institute) and U.S. Fire Academy, Emmitsburg, Maryland; Computer Center and all FEMA Regional offices, addresses are listed in Appendix AA; at classified location and relocation facilities under the FEMA Vital Operating Records Program.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All FEMA employees, headquarters and field, including full-time permanent, part-time, temporary, consultants, and former employees who perform (temporary duty or permanent change of duty station) travel.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain requests and authorizations for travel; U.S. Government transportation requests; request for advances of funds; payment records of outstanding travel advances; paid travel vouchers; records of unused tickets; travel history records; collection vouchers for refunds of advances; and correspondence relating to travel claims.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 5701; 31 U.S.C. 71; 31 U.S.C. 65; 30 U.S.C. 52; 41 U.S.C. 3101; 50 U.S.C. App. 2253

PURPOSE(S):

For the purpose of administering travel requirements.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To finance and administration personnel for the purpose of recording and controlling obligations involving travel, and the storage and shipment of household goods, advances, refunds and expenditures of travel funds; to prevent errors leading to improper payments; to detect and recover overpayments; and to support billings to carriers for travel and transportation furnished.

Additional routine uses may include any of the uses listed in Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Travel authorizations are filed alphabetically by organization; transportation requests and records of unused tickets are filed by TR number; records of outstanding advances and travel history records are filed alphabetically by individual; and all advance, refund and payment records are filed by payment date in voucher number sequence.

RETRIEVABILITY:

See Storage section above.

SAFEGUARDS:

Paper records are retained in a locked container and/or room. Records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Travel history records are retained indefinitely, all other records are sent to the Federal Records Center after five

years where they are destroyed after 10 years.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Finance and Administration, Budget and Finance Division, Federal Emergency Management Agency, Washington, D.C. 20472; all Regional Directors of FEMA, addresses are listed in Appendix AA.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personnel identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

FEMA Form 60-2T, Official Travel Authorization; SF 1169, U.S. Government Transportation Request; and DD Form 1131, Request for Advance of Funds are submitted by authorized officials; SF 1038, Application and Account for Advances of Funds are submitted by employees requiring advances; DD Form 1351-2, (PAID) Travel Vouchers are received from the finance and administration office; SF 1170, Redemption of Unused Tickets are prepared from unused tickets turned in by travelers and the file copy of the related Transportation Request and Travel History Record by individual are prepared from paid vouchers.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/ADM-1

SYSTEM NAME:

Committee Management Files.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Office of Finance and Administration, Administration Services Division, Washington, D.C. 20472; and all FEMA Regional Offices, addresses are listed in Appendix AA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

FEMA employees active in private associations in which FEMA has an interest; Federal government employees on FEMA internal committees and on FEMA sponsored international and interagency committees; Architects and engineers and other persons who are not FEMA employees who are appointed to the FEMA sponsored advisory committees.

CATEGORIES OF RECORDS IN THE SYSTEM:

Government employees—name, office address, and name of employing agency; Non-Government employees—biographical material including name of employer, title, address, legal voting residence, place and date of birth, marital status, military service, education, registration in professional societies, work experience, record of performance, publications authored, membership on other boards or committees, professional awards, and other information which can be used to determine fitness of individual to sit on the committee; Description of private associations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 44 U.S.C. 3101; 50 U.S.C. App. 2253; P.L. 42-463 (Federal Advisory Committee Act), E. O. 11769 (Advisory Committee Management).

PURPOSE(S):

For the purpose of maintaining a list of members of the various advisory committees in order to provide them with information on committee functions, meeting dates, agendas, and other purposes for managing the committee activities.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To assure that FEMA participation in private, nongovernmental associations, societies, etc., is limited only to the extent of FEMA interest therein; to assure preparation and submittal of certain input information that is needed for the reports required by laws and issuance cited above; to provide a tool with which top management can assure

that the terms of the regulations regarding the creation and use of committees are being compiled with.

Additional routine uses may include any of the uses listed in Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

By name of committee, society, or association, then alphabetically by name of individual.

SAFEGUARDS:

Paper records are retained in a locked container and/or room. Records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Records are retained for two years after committee ceases to exist or society membership expires, then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Finance and Administration, Administrative Services Division, Federal Emergency Management Agency, Washington, D.C. 20472; all Regional Directors of FEMA, addresses are listed in Appendix AA.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedures above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Biographical information submitted by government or nongovernmental individuals nominated for membership.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/ADM-2

SYSTEM NAME:

Central Files.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Office of Finance and Administration, Administrative Services Division, Washington, D.C. 20472; all Regional Offices, Staff College (Eventually to become Emergency Management Institute), Computer Center. Addresses for the Regional Offices are listed in Appendix AA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals, including Congress, from whom an inquiry or request is received, and to whom a reply is addressed. Transmittals in response to routine requests for publications, etc., are not retained.

CATEGORIES OF RECORDS IN THE SYSTEM:

Correspondence applicable to the internal administration of the Agency; e.g., accounting, correspondence pertinent to the personnel program, budget, procurement, administrative services, etc., congressional correspondence, international FEMA activities, public affairs activities, correspondence concerning regional activities, equal opportunity, program analysis and evaluation, operations support (communications and computer services, operations center activities) Federal Insurance Administration, U.S. Fire Administration, training and education activities, activities concerning Nationwide plans and preparedness for peacetime and wartime emergencies, hazard mitigation, research program relative to Agency missions, Federal disaster assistance program activities.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 44 U.S.C. 3101; 50 U.S.C. App. 2253; E. O. 12127, 44 FR 19367; E. O. 12148, 44 FR 43239; and Reorganization Plan No. 3 of 1978, 43 FR 41943.

PURPOSE(S):

For the purpose of maintaining a record and background material concerning inquiries made to FEMA and FEMA responses.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Routine uses may include any of the uses listed in Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Alphabetically by inquirer's name, except that responses to Congressional inquiries are filed separately.

SAFEGUARDS:

Paper records are retained in a locked container and/or room. Records are maintained in areas that are secured by building guards during the non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Records are cut off at end of calendar year and destroyed two years after cut off.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Finance and Administration, Administrative Services Division, Federal Emergency Management Agency, Washington, D.C. 20472; all Regional Directors of FEMA, addresses are listed in Appendix AA.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter.

The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6 published in the Federal Register.

RECORD SOURCE CATEGORIES:

All records in the system consist of FEMA generated records according to a request or inquiry from the individual.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/ADM-3

SYSTEM NAME:

Office Services File System.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Office of Finance and Administration, Administrative Services Division, Washington, D.C. 20472; all FEMA Regional Offices, Staff College (Eventually to become Emergency Management Institute), Computer Center, and Classified Location. Addresses of Regional Offices are listed in Appendix AA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All employees of FEMA, headquarters and field, including full time permanent, part time, temporary and consultants.

CATEGORIES OF RECORDS IN THE SYSTEM:

Trip ticket file, government driver's license file, accident report file, memoranda regarding car pools and parking pools, and telephone directories which contain no personal information but serve as a means of locating individuals during business hours.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 50 U.S.C. App. 2253; E.O. 12127, 44 FR 19367; E.O. 12148, 44 FR 43239; and Reorganization Plan No. 3 of 1978, 43 FR 41943.

PURPOSE(S):

For the in-house use of identifying FEMA employees authorized to operate Government vehicles; to record individuals and vehicles involved in accidents involving FEMA owned or leased vehicles; to maintain a record of FEMA employees authorized official parking spaces; to maintain a record of FEMA employees participating in carpools; and to maintain telephone

directories which contain no personal information but serve as a means of locating individuals during business hours; personnel within FEMA will use data or documents in the file or will develop same, as necessary, in connection with their duties.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Routine uses may include any of the uses listed in Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Data filed alphabetically.

RETRIEVABILITY:

By last name of employee or organizational element.

SAFEGUARDS:

Records are retained in a locked container and/or room. Records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

These records become obsolete when updated records are prepared. Obsolete rosters and directories are destroyed. Accident reports are destroyed after six months.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Finance and Administration, Administrative Services Division, Federal Emergency Management Agency, Washington, D.C. 20472; all Regional Directors of FEMA, addresses are listed in Appendix AA.

NOTIFICATION PROCEDURES:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the

system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

All records are FEMA generated based on data submitted by the employee.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/COM-1

SYSTEM NAME:

List of Custodians of Decision Info Sys (DIDS) Radio Receivers.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Federal Regional Center, 5321 Riggs Road, Gaithersburg, Maryland 20760 which falls within the responsibility of the Regional Director of FEMA in Region III, address is listed in Appendix AA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Federal agency personnel and officials and key personnel of emergency services of governments at State, county and local level.

CATEGORIES OF RECORDS IN THE SYSTEM:

A property accountability and operational location listing for DIDS radio receivers used for civil defense purposes. It contains the custodian's name, address, type facility of location, job title and telephone number.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 44 U.S.C. 3101; 50 U.S.C. App. 2253, 2281; E. O. 12148, 44 FR 43239; and Reorganization Plan No. 3 of 1978, 43 FR 41943.

PURPOSE(S):

For the purpose of determining exact location of receivers in need of maintenance, a listing of custodians of DIDS radio receivers, and provides basis to obtain statistical information as to what kind of operational locations or other installations are associated with the radio receivers.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USE:

The list of custodians maintains property accountability. It also provides a base to obtain statistical information as to what kind of operational locations or other installations are associated with the radio receivers. Provides a base for obtaining operational information on receiver operations by soliciting the custodians. Determines exact location of receivers in need of maintenance.

Additional routine uses may include Nos. 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records.

RETRIEVABILITY:

By name of individual and location.

SAFEGUARDS:

Paper records in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Records are kept as long as the person listed is custodian of a DIDS radio receiver; when receiver is given up, the name is removed from the list.

SYSTEM MANAGER(S) AND ADDRESS:

FEMA Regional Director, Region III, address is listed in Appendix AA.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter.

The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

The individual custodians.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/DR&R-1

SYSTEM NAME:

Disaster Recovery Assistance Files.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Disaster Response and Recovery, Washington, D.C. 20472 and FEMA Regional Offices, addresses are listed in Appendix AA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons applying for disaster recovery assistance following Presidentially declared major disasters or emergencies.

CATEGORIES OF RECORDS IN THE SYSTEM:

Socio-economic, demographic and financial information; disaster impact (including verification and cost estimates); disaster recovery plans and needs; and assistance requested by applicant. Files include applications for individual and family grant programs; temporary housing assistance; disaster unemployment assistance; home and personal loans; status of disposition of applications; and legal services.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Pub. L. 93-288, Disaster Relief Act of 1974; Reorganization Plan No. 3 of 1978, 43 FR 41943; and E. O. 12148, 44 FR 43239.

PURPOSE(S):

The information is used by FEMA and its agents in carrying out the Federal disaster relief and recovery assistance programs in Presidentially declared disasters and emergencies; to coordinate recovery assistance; for making eligibility determinations; and verifying nonduplication of benefits.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To other Federal, state and local agencies for the purpose of providing relief and recovery assistance.

Additional routine uses may include Nos. 1, 2, 3, 5, 6 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tape/disc/drum and file folders.

RETRIEVABILITY:

By name, address or case file number.

SAFEGUARDS:

Personnel screening, hardware and software computer security measures; paper records in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Applications and supporting documents are retained until the disaster field office closes, and then moved to the FEMA Regional Office and kept for a period of three years after the date of the disaster declaration. Disposition of records shall be in accordance with the FEMA Records Maintenance and Disposition System.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director, Disaster Response and Recovery, Federal Emergency Management Agency, Washington, D.C. 20472; all Regional Directors of FEMA, addresses are listed in Appendix AA.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURE:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the

system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Applicants for disaster recovery assistance, financial references, credit rating bureaus, insurance companies and agencies providing disaster relief.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/DR&R-2

SYSTEM NAME:

Temporary Housing Files.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

FEMA Regional Offices, addresses listed in Appendix AA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who apply for temporary housing assistance in Presidentially declared major disaster or emergency areas, and candidates for staff positions at Federal Disaster Assistance Centers.

CATEGORIES OF RECORDS IN THE SYSTEM:

Personal information is contained, such as name, address, social security number, telephone number, wages, job location, family income, insurance data (relating to home) as pertaining to some applicants, and disapproval or approval of applicants for aid or employment. There is general correspondence concerning complaints, plaudits, reinstatement on jobs or housing, requests for disbursement of payments and inquiries from tenants and landlords in regard to aid. Files also include general administrative and fiscal information, including payroll, payment schedules and forms, travel vouchers, time and attendance records, applications, termination notices, individual and family grant programs, damage and relocation information, leases, contracts, listings of emergency repairs given as a result of specific natural disasters, reasons for tenant eviction or denial of aid, sales information on homes after tenant purchase, and status of dispositions of applicants for housing.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Pub. L. 93-288, Disaster Relief Act of 1974; Reorganization Plan No. 3 of 1978, 43 FR 41943; and E.O. 12148, 44 FR 43239.

PURPOSE(S):

The information is used by FEMA and its agents in administering the Federal disaster relief and recovery assistance programs in Presidentially declared disasters and emergencies.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

This information may be disclosed to: local public assistance departments for relocation information; to the Post Office for location of individuals; to Department of Motor Vehicles and State Tax Departments for serial numbers and costs of mobile homes and vehicles; to local housing authorities and departments of community affairs to determine family status relating to relocation into other-than-temporary housing; and to utility companies regarding lease dates and forwarding information. Additional routine uses may include Nos. 1, 2, 3, 5, 6, and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Magnetic tape/disc/drum and file folders.

RETRIEVABILITY:

By name, address or case file number.

SAFEGUARDS:

Personnel screening, hardware and software computer security measures; paper records in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Applications and supporting documents are retained until the disaster field office closes. When a Disaster Field Office has been audited and closed out, any pertinent records are shipped to the Regional Office and kept for a period of three years after the date of the disaster declaration. disposition of records shall be in accordance with the FEMA Records Maintenance and Disposition System.

SYSTEM MANAGER(S) AND ADDRESS:

Regional directors of FEMA, addresses are listed in Appendix AA.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, drivers license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURE:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORY

Subject individuals; social security and other State and city agencies; current or previous employers; credit rating bureaus; financial institutions; insurance companies and agencies providing disaster relief.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/DR&R-3**SYSTEM NAME:**

Disaster Assistance Personnel Reserve Files.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Disaster Response and Recovery, Washington, D.C. 20472; all Regional Offices, addresses listed in Appendix AA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals designated as active disaster Assistance Reservists.

CATEGORIES OR RECORDS IN THE SYSTEM:

File folders and computer files contain name, address, telephone number, social security number, grade and salary,

professional specialties and experience in disaster relief and recovery activities, type and date of appointment, expiration data, availability, and duty station.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Pub. L. 93-288, Disaster Relief Act of 1974; Reorganization Plan No. 3 of 1978, 43 FR 41943; and E. O. 12148, 44 FR 43239.

PURPOSE(S):

The information is used by FEMA in fulfilling personnel requirements in preparation for as well as in actual disaster response and recovery periods following presidentially declared disasters and emergencies.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

This information may not be disclosed outside the Federal Emergency Management Agency except as listed in paragraphs 1, 2, 3, 4, 5, 6 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Magnetic tape/disc/drum and file folders.

RETRIEVABILITY:

Name, functional title.

SAFEGUARDS:

Personnel screening, hardware and software computer security measures; paper records in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Records are maintained until employee termination date. Disposition of records shall be in accordance with the FEMA Records Maintenance and disposition system.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director, Disaster Response and Recovery, Federal Emergency Management Agency, Washington, D.C. 20472; all Regional directors of FEMA, addresses are listed in Appendix AA.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some

type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURE:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6 published in the Federal Register.

RECORD SOURCE CATEGORIES:

Applicants for and current employees of FEMA's disaster response and recovery personnel reserve.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

FEMA/EO-1

SYSTEM NAME:

Equal Employment Opportunity Complaints of Discrimination Files.

SECURITY CLASSIFICATION:

Limited Access.

SYSTEM LOCATION:

Federal Emergency Management Agency, Equal Opportunity Office, Washington, D.C. 20472.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any FEMA employee or applicant for employment, headquarters, regional and field offices, including full-time permanent, part-time and temporary employees, who files a complaint of discrimination against FEMA. Also, any persons who file or could file a complaint with FEMA alleging discrimination by a state or local government in violation of Title VI of the Civil Rights Act of 1964 and any other similar legislation involving discrimination by a state or local government.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files include complaints of discrimination brought against FEMA by employees or applicants because of race, color, religion, sex, age, handicapped, or national origin; records of counselor's reports, records of investigation, records of hearings and disposition of cases involving Equal Employment Opportunity. Files also include reports, documents, and information in support of or contrary to the complaint or potential complaint, records of hearings and disposition of the cases by the states or the Director, Federal Emergency Management Agency or higher authority.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Public Laws 92-261 and 93-211 as amended by Public Law 93-516, Equal Employment Opportunity Act of 1972, Executive Orders 11478 and 12067, Title VI, Civil Rights Act of 1964 (78 Stat.) (42 U.S.C. 2000d et seq.).

PURPOSE(S):

For the purpose of ascertaining whether discrimination has taken place.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(a) To EO Office to ascertain whether discrimination has taken place under the Equal Employment Opportunity Commission (EEOC) rules and regulations; (b) to Title VI Officers, Regional Officers and other investigators and reporting officers to ascertain whether discrimination under the Title VI rules and regulations have taken place; (c) to investigators (EEOC, U.S. Army Civilian Appeal Review Office, General Services Administration and private contractors) to secure testimony and affidavits of witnesses and other pertinent data involving Equal Employment Opportunity cases; (d) to State officials and investigators to secure testimony of witnesses and other pertinent data involving Title VI, Civil Rights act, cases; (e) to FEMA General Counsel for advice and legal assistance during hearings and appeals; (f) To EEOC and other Federal agencies with jurisdiction for hearings and appeals; and (g) to Agency Head and higher authority for purposes of making a decision and (H) to the U.S. Justice Department or other agencies as appropriate for enforcement action and where necessary in reporting.

Additional routine uses may include Nos. 4, 5, 7 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper files.

RETRIEVABILITY:

By name.

SAFEGUARDS:

Paper records are retained in a locked container and/or room. Records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

The Equal Employment Opportunity files are considered permanent. The Civil Rights Act (Title VI) files are retained for 10 years after completion of the case. Significant and precedent cases are sent to the National Archives and Records Service of the General Services Administration and all others are destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Equal Opportunity, Federal Emergency Management Agency, Washington, D.C. 20472.

NOTIFICATION PROCEDURE:

The major part of this system is exempted from this requirement and the access and contesting requirement under 5 U.S.C. 552a(k)(2). To the extent that this system of records is not subject to exemption, it is subject to notification, access and contest. A determination as to the applicability of an exemption as to a specific record shall be made at the time a request for notification, access or contest is received. Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act

Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the **Federal Register**.

RECORD SOURCE CATEGORIES:

(a) For the Equal Employment Opportunity files—Information is secured from previous employers, friends, and acquaintances of the complainant and the alleged discriminating official, official personnel records, educational institutions, etc.; (b) For Civil Rights Act (Title VI) files—Information is secured from complainants and from FEMA officials who conduct Title VI compliance reviews at the State and local level, from citizens who have been denied services or use of facilities, from State and local government records and institutional and organizational records, from State officials who have observed violations or local officials who have reported violations to the State.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Director, Federal Emergency Management Agency, has determined that this system should be exempted from subsections (c)(3), (d), (e)(1), (e)(4), (G), (H), and (I), and (f) of the Privacy Act, 5 U.S.C. 552a, pursuant to 5 U.S.C. 552a(k)(2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c), and (e) and have been published in the **Federal Register**.

FEMA/FA-1

SYSTEM NAME:

Student Application and Registration Records, National Fire Academy.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, U.S. Fire Administration, Office of Superintendent, National Fire Academy, Emmitsburg, Maryland 21727.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicants and former applicants for admission to the courses and programs of the National Fire Academy and students registered for Academy courses.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files include application forms and other information submitted by the applicants. Information collected

includes, but is not limited to, name, sex, date of birth, education level, home address and job title. Files concerning students registered for Academy courses include the above information in addition to the next of kin (in case of emergency), home and/or business address, name or course, number of course credits, and grade, if any, and medical information in case of student injury or illness.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Pub. L. 93-498; Federal Fire Prevention and Control Act of 1974; 15 U.S.C. 2206; 5 U.S.C. 301; E. O. 12127, 44 FR 19367; and Reorganization Plan No. 3 of 1978, 43 FR 431943.

PURPOSE(S):

For the purpose of determining eligibility and effectiveness of Academy courses and to maintain necessary student records.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To determine eligibility for participation in the courses and programs of the National Fire Academy; to supply students with information of courses, credits and grades; supplying Academy Registrar with record of student enrollment in Academy courses by geographic location; assessing use of course material in the field; and assessing the impact of course material on the community; to Members of the Board of Visitors for the purpose of advisory at the state and evaluating the participants evaluation of courses; to provide medical assistance to students who become ill or are injured during courses.

Additional routine uses may include Nos. 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored on microfilm, paper and computer.

RETRIEVABILITY:

By name of the applicant.

SAFEGUARDS:

Personnel screening; hardware and software computer security measures. Paper records are retained in a locked container and/or room. Records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Paper records are retained for 1 year, then transferred to microfilm for permanent retention.

SYSTEM MANAGER(S) AND ADDRESS:

Federal Emergency Management Agency, Superintendent, National Fire Academy, U.S. Fire Administration, Emmitsburg, Maryland 21727.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification card, or other identification data

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the **Federal Register**.

RECORD SOURCE CATEGORIES:

Subject individuals, applicant employers, educational institutions recommendations and instructors.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/FA-2

SYSTEM NAME:

Federal Employees with Fire Related Expertise.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, U.S. Fire Administration, Washington, D.C. 20472.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Federal employees with expertise in fire prevention and control and associated fields.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, agency and area of expertise.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 8(e) and 21 (b)(1) and (e) of the Federal Fire Prevention and Control Act of 1974, P.L. 93-498; 88 Stat. 1535 (15 U.S.C. 2207, 2218); E. O. 12127, 44 FR 19367; and Reorganization Plan No. 3 of 1978, 43 FR 41943.

PURPOSE(S):

For the purpose of identifying Federal employees with expertise in fire prevention and control and associated fields.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information about individuals is provided to Federal, state, local or international agencies and members of the fire service community, including, but not limited to, fire safety and protection organization, state fire marshals, and firemen, in response to requests indicating that the individual or organization making the request would benefit from the expertise of individuals in the system. Such disclosures are made only if the subject individual has given prior written consent.

Additional routine uses may include Nos. 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Paper records in file folders, bound paper directory and magnetic tape.

RETRIEVABILITY:

By individual's name, expertise, agency and geographic location.

SAFEGUARDS:

Personnel screening; hardware and software computer security measures. Paper records are retained in a locked container and/or room. Records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Records are updated biennially and retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

U.S. Fire Administrator, Federal Emergency Management Agency, Washington, D.C. 20472.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Subject individuals.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/FA-3**SYSTEM NAME:**

President's and Secretary's Award Nominees.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, U.S. Fire Administration, Washington, D.C. 20472.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals nominated to receive the President's Award for outstanding Public Safety Service and individuals nominated to receive the Secretary's Award for Distinguished Public Safety Service.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name and address of the candidate, his or her position and title, whether the nomination is for the President's or Secretary's Award, the public agency served, the locale where the candidate performs his or her duties, the name of the nominating official, a summary

description of the outstanding contribution, distinguished service or extraordinary valor of the nominee, and the relevant duties relating thereto, and copies of any published factual accounts of the nominee's accomplishments.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

15 U.S.C. 2214; E. O. 12127, 44 FR 19367; and Reorganization Plan No. 3 of 1978, 43 FR 41943.

PURPOSE(S):

For the purpose of selecting individuals who have been nominated to receive the President's Award for Outstanding Public Safety Service and the Secretary's Award for Distinguished Public Safety Service.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(a) President's Award Nominees—Information about individuals nominated for the President's Award is provided to selected members of the public safety community, including but not limited to, fire safety and protection organizations, state fire marshals and firemen, civil defense officers, and law enforcement, corrections or court officers in connection with the evaluation and selection of recipients. Information is also provided to the Department of Defense, the Department of Justice, and the Executive Office of the President; (b) Secretary's Award Nominees—Information about individuals nominated for the Secretary's Award is provided to selected members of the fire service community, including but not limited to, fire safety and protection organizations, state fire marshals and firemen in connection with the evaluation and selection of recipients. When it appears that a nominee's accomplishments are in the areas of civil defense or law enforcement, nominations may be sent to the Department of Defense and/or the Department of Justice.

Additional routine uses may include Nos. 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Paper records in file folders.

RETRIEVABILITY:

Filed by file number and cross-referenced alphabetically by nominee names.

SAFEGUARDS:

Paper records are retained in a locked container and/or room. Records are

maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Records are retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

U.S. Fire Administrator, Federal Emergency Management Agency, Washington, D.C. 20472.

NOTIFICATION PROCEDURES:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Heads of Federal government departments and agencies, governors of states or territories, or chief executives of any general governmental unit within any state or territory.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/FA-4**SYSTEM NAME:**

National Fire Academy Instructor Records.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, U.S. Fire Administration, Office

of Superintendent, National Fire Academy, Emmitsburg, Maryland 21727.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals teaching Academy courses.

CATEGORIES OF RECORDS IN THE SYSTEM:

Instructor's name; home and/or business addresses and telephone numbers; titles of courses taught; dates and locations of courses; and evaluations of courses and instructors.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Federal Fire Prevention and Control Act of 1974; 15 U.S.C. 2201, et seq.; 5 U.S.C. 301 and 3109; E.O. 12127, 44 FR 19367; and Reorganization Plan No. 3 of 1978, 43 FR 41943.

PURPOSE(S):

For the purpose of selecting emergency replacement instructors and providing instructors with lists of courses and students taught.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Maintaining a list of instructors selecting emergency replacement instructors; providing instructors with lists of courses and students taught. The Fire Administration will also use student evaluations of instructors to help determine effectiveness of courses taught. These evaluations will be anonymous. Student evaluations will be a consideration in the rehiring of an instructor.

Additional routine uses may include Nos. 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM.**STORAGE:**

Magnetic storage media; and temporary paper records, which exist only until data is automated.

RETRIEVABILITY:

Filed according to the surname of the Instructor.

SAFEGUARDS:

Personnel screening; hardware and software computer security measures. Paper records are retained in a locked container and/or room. Records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Paper records are retained until information can be automated. Automated data is retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Federal Emergency Management Agency, Superintendent, National Fire Academy, U.S. Fire Administration, Emmitsburg, Maryland 21727.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Instructors and students.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/FIA-1**SYSTEM NAME:**

Federal Crime Insurance Program.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Various offices of a servicing agent under contract to the Federal Insurance Administration, Federal Emergency Management Agency.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individual policyholders.

CATEGORIES OF RECORDS IN THE SYSTEM:

Names of policyholders, addresses of insured premises; type of premises;

amounts and types of insurance desired; annual premiums; claims information; record of claim payments; record of premium payments; agent's name and address; other insurance held by policyholder; inspection report or protective devices.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Urban Property Protection and Reinsurance Act of 1968, 12 U.S.C. 1749bbb-et seq; E.O. 12127, 44 FR 19367.

PURPOSE(S):

For the purpose of verifying coverage of Federal Crime Insurance, issuing policies, claims adjusting and billing purposes.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To the servicing company for the contract and insurance adjustment firms retained by the servicing company for billing, verification of coverage, claims adjusting and issuance of policies; to property loss reporting bureaus; to State Insurance Departments and insurance companies investigating fraud or potential fraud in connection with burglary or robbery claims. Additional routine uses may include Nos. 1, 2, 3, 5, and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Tape/disc library and paper files.

RETRIEVABILITY:

By name of policyholder, social security number of policyholder or policy number.

SAFEGUARDS:

Personnel screening, hardware and software computer security measures; paper records in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Information partly current and partly historical. Retention of records shall be for 6 years or until no longer needed. Disposition of records shall be in accordance with the FEMA Records Maintenance and Disposition System.

SYSTEM MANAGER(S) AND ADDRESS:

Federal Insurance Administrator, Office of Insurance Operations, Federal Emergency Management Agency, Washington, D.C. 20472.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Private Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Individual policyholders; police reports (for verification of claims data); servicing companies (for verification of claims data).

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/FIA-2

SYSTEM NAME:

National Flood Insurance Application and Related Documents Files.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Various offices of a servicing agent under contract to the Federal Insurance Administration; FIA Headquarters office, Federal Emergency Management Agency, Washington, D.C. 20472. Copies of some of the files are also provided to the FEMA Regional offices when additional information is requested from their respective offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicants for individual flood insurance and individuals insured.

CATEGORIES OF RECORDS IN THE SYSTEM:

Flood insurance, policy issuances and administration records and claims adjustment records, including applications for emergency and regular flood insurance, endorsements, renewal applications, cancellation notices, policy questionnaires, notice of loss, and proofs of loss.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

National Flood Insurance Act of 1968 and the Flood Disaster Protection Act of 1973, 42 U.S.C. 4001, et seq.; 5 U.S.C. 301; Reorganization Plan No. 3 of 1978, 43 FR 41943; and E. O. 12127, 44 FR 19367.

PURPOSE(S):

For the purpose of carrying out the National Flood Insurance Program and verifying nonduplication of benefits.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To property loss reporting bureaus, State insurance departments, and insurance companies investigating fraud or potential fraud in connection with claims, subject to approval of the Office of Inspector General, FEMA; for use of insurance agents, brokers and adjusters, and lending institutions for carrying out the purposes of the National Flood Insurance Program; to Small Business Administration, the American Red Cross, the Federal Disaster Assistance Administration, the Farmers Home Administration and State and local government individual and family grant and assistance agencies, including but not limited to the State of Ohio Disaster Services Agency and the Johnstown, Pennsylvania, Redevelopment Authority for determining eligibility for benefits and for verification of nonduplication of benefits following a flooding event or disaster.

Additional routine uses may include Nos. 1, 5, 6, and 8, of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tape/disc/drum and file folders.

RETRIEVABILITY:

By name and policy number.

SAFEGUARDS:

Personnel screening, hardware and software computer security measures; paper records in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible

only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Policy records are kept as long as insurance is desired and premiums paid and for an appropriate time thereafter and claim records are kept for the statutory time within which to file a claim.

SYSTEM MANAGER(S) AND ADDRESS:

Federal Insurance Administration,
Federal Emergency Management
Agency, Washington, D.C. 20472.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the *Federal Register*.

RECORD SOURCE CATEGORIES:

Individuals who apply for flood insurance under the National Flood Insurance Program and individuals who are insured under the program.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/GC-1

SYSTEM NAME:

Claims (litigation).

SECURITY CLASSIFICATION:

Limited Access.

SYSTEM LOCATION:

Federal Emergency Management
Agency, Office of General Counsel,
Washington, D.C. 20472.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual, whether a FEMA employee or non-FEMA employee, who asserts a remedy from FEMA for some alleged injury to said individual or the individual's property.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain claims, complaints or documents or any of these means by which an individual asserts a remedy from FEMA for some alleged injury to said individual or property; the data and documents submitted in support of the claims; the data and documents developed or obtained in making a decision or determination on such claims, including any appeals and any other relevant materials; including litigation file if such develops.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 44 U.S.C. 3101; 31 U.S.C. 240 et seq.;
E. O. 12127, 44 FR 19367; E. O. 12148, 44 FR 43239; Reorganization Plan No. 3 of 1978, 43 FR 41943; 28 U.S.C. 2671 et seq.; and any specific authority depending on the nature of the claim.

PURPOSE(S):

For the purpose of processing claims and determining the validity of the claim.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To those FEMA employees responsible for processing claims, investigating claims, making recommendations concerning the validity of the claim, and making decisions regarding the claims; to other investigative or similar authorities responsible for investigating or making recommendations on complaints or claims, whether or not a part of FEMA or some other agency; to decision-making authorities outside of FEMA when required by law, regulation or order.

Additional routine uses may include Nos. 2, 3, 5, 6 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by name within general subject matter files.

SAFEGUARDS:

Paper records are retained in a locked container and/or room. Records are

maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Files are retained for 5 years after final decision and then destroyed if no longer needed.

SYSTEM MANAGER(S) AND ADDRESS:

General Counsel, Federal Emergency Management Agency, Washington, D.C. 20472.

NOTIFICATION PROCEDURE:

The major part of this system is exempted from this requirement and the access and contesting requirements under 5 U.S.C. 552a(k)(2). To the extent that this system of records is not subject to exemption, it is subject to notification, access and contest. A determination as to the applicability of an exemption to a specific record shall be made at the time a request for notification, access or contest is received. Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the *Federal Register*.

RECORD SOURCE CATEGORIES:

Claim or similar documents with supporting evidence submitted by claimant; Government employees; Members of the public and witnesses and informants.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Director, Federal Emergency Management Agency, has determined that this system should be exempted from subsections (c)(3), (d), (e)(1), (e)(4) (G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a(k)(2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

FEMA/GC-2**SYSTEM NAME:**

FEMA Enforcement (Compliance).

SECURITY CLASSIFICATION:

Limited Access.

SYSTEM LOCATION:

Federal Emergency Management Agency, Office of General Counsel, Washington, D.C. 20472; all Regional Directors of FEMA, addresses are listed in Appendix AA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual, whether a FEMA employee or non-FEMA employee, alleged of violation of or noncompliance with some law or regulatory matter, including FEMA directives, instructions or particular programs administered by FEMA.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains all allegations, reports, documents or similar items of information which allege that an individual, either acting in his/her official capacity or as a private citizen, has violated or is in nonconformance with some law or regulatory matter, including FEMA directives, instructions, and programs administered by FEMA, or misuse of Federal funds. The file may also include investigative reports or documents furnished by FEMA or any other agency charged with investigative responsibilities and any type of information submitted either by the subject individual or informants.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 44 U.S.C. 3101; E.O. 12127, 44 FR 19367; E.O. 12148, 44 FR 43239; Reorganization Plan No. 3 of 1978, 43 FR 41943; and any specific authority depending on the nature of the allegation.

PURPOSE(S):

For the purpose of determining whether an allegation is substantiated and what action should be taken against the individual.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To FEMA employees responsible for processing allegations, investigating the allegations, making recommendations concerning the validity of the allegation and making decisions as to what action, if any, should be taken against the individual; to other agencies charged with investigative responsibilities and enforcement actions of any nature including prosecution for violations of criminal laws; to employers, whether Federal, State or local agencies, whose employee is involved; and to state and local investigative authorities.

Additional routine uses may include Nos. 1, 2, 3, 4, 5, 6 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Paper records in file folders.

RETRIEVABILITY:

Filed by name within general subject matter files.

SAFEGUARDS:

Paper records are retained in a locked container and/or room. Records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

(a) For FEMA employees—files are retained until obsolete or until separation of employees plus one year, whichever is longer, then destroyed if no longer needed. (b) for non-FEMA employees—files are retained for five years after final decision, then destroyed if no longer needed.

SYSTEM MANAGER(S) AND ADDRESS:

General Counsel, Federal Emergency Management Agency, Washington, D.C. 20472; all regional directors of FEMA, addresses are listed in Appendix A.

NOTIFICATION PROCEDURE:

The major part of this system is exempted from this requirement and the access and contesting requirements under 5 U.S.C. 552a(k)(2). to the extent that this system of records is not subject to exemption, it is subject to notification, access and contest. A determination as to the applicability of an exemption to a specific record shall be made at the time a request for notification, access or contest is received. Inquiries should be addressed to the system manager. Written requests

should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Officials or employees charged with responsibility for enforcement action. Other sources include subject individual, informants or other persons knowledgeable of the matter, and organizational or individual records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Director, Federal Emergency Management Agency, has determined that this system should be exempted from subsections (c)(3), (d), (e)(1), (e)(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a(k)(2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

FEMA/IG-1**SYSTEM NAME:**

Security Management System.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Office of Inspector General, Washington, D.C. 20472.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

FEMA employees, other Federal agency employees, State employees, and contract employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

Security records include: Statement of personal history, personal data (e.g. name, address, telephone number and social security number) contained on security clearance forms, rosters, lists, and forms for record container combinations and other related records. Also this system contains records concerning Personnel Security Program for positions associated with computer systems (Chapter 732 of Federal Personnel Manual). Records do not contain investigatory materials.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 12127, 44 FR 19367; Executive Order 12148, 44 FR 43239; Reorganization Plan No. 3 of 1978, 43 FR 41943.

PURPOSE(S):

For the purpose of agency official use, based upon a need-to-know requirement, in maintaining office security for sensitive data and facilities.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

An employee's level of security clearance may be reported to another agency for the purpose of interagency security administration.

Additional routine use may include Nos. 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Mag-tape, drum, disc, paper, and index cards.

RETRIEVABILITY:

By name and social security number.

SAFEGUARDS:

Personnel screening; hardware and software computer security measures. Paper records are retained in a locked container and/or room. Records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Retention of records shall be for duration of employment. Disposition of records shall be in accordance with FEMA Records Maintenance and Disposition System.

SYSTEM MANAGER(S) AND ADDRESS:

Inspector General, Federal Emergency Management Agency, Washington, D.C. 20472.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Information in this system comes from the individual to whom the record pertains.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/IG-2**SYSTEM NAME:**

General Investigative Files.

SECURITY CLASSIFICATION:

Limited access.

SYSTEM LOCATION:

Federal Emergency Management Agency, Office of Inspector General, Washington, D.C. 20472.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual suspected of violating any criminal, civil, regulatory, licensing, or other enforcement laws, whether Federal, state, local or foreign.

CATEGORIES OF RECORDS IN THE SYSTEM:

The subject records may contain any identifying or other relevant information on subject individuals which might relate to possible violation of criminal, civil, regulatory, licensing, or other

enforcement laws, whether Federal, state, local or foreign.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 12127, 44 FR 19367; Executive Order 12148, 44 FR 43239; Reorganization Plan No. 3 of 1978, 43 FR 41943.

PURPOSE(S):

For the purpose of preventing and detecting fraud abuse, conducting and supervising audits and investigations relating to programs and operations, informing the Head of the establishment about problems and deficiencies relating to programs and administration and suggesting corrective actions.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(a) In the event that this system of records includes information which indicates a violation or potential violation of law, whether criminal, civil or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation or order issued thereto; (b) a record contained in this system of records may be disclosed as a routine use to possible sources of information in connection with civil or criminal investigations or inquiries under circumstances where it is necessary to disclose certain information in order to pose a question to those sources; (c) a record which is contained in this system and derived from another FEMA system of records may be disclosed as a routine use as specified in the Federal Register notice of the system of records from which the record is derived; (d) a record which is contained in this system may be disclosed to State Insurance Departments and insurance companies investigating fraud or potential fraud in connection with burglary, robbery or flood claims.

Additional routine uses may include any of the items listed in Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Paper and card.

RETRIEVABILITY:

By name and file number.

SAFEGUARDS:

Paper records are retained in a locked container and/or room. Records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Investigative files are retained at least 5 years after completion of the investigation and/or actions based thereon or until the office determines that the records are no longer needed. The files are then transferred to the Federal Records Center and kept for an additional 10 years and then destroyed. Index and cross-index cards are considered permanent or until the office determines that they are no longer needed.

SYSTEM MANAGER(S) AND ADDRESS:

Inspector General, Federal Emergency Management Agency, Washington, D.C. 20472.

NOTIFICATION PROCEDURE:

The major part of this system is exempted from this requirement and the access and contesting requirement under 5 U.S.C. 552a(j)(2), (k)(1) or (k)(2). To the extent that this system of records is not subject to exemption, it is subject to notification, access and contest. A determination as to the applicability of an exemption as to a specific record shall be made at the time a request for notification, access or contest is received. Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and

concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

(1) Federal, state, local or foreign government agencies concerned with the administration of criminal justice and non-law enforcement agencies both public and private; (2) Members of the public; (3) Government employees; (4) Published material; (5) Witnesses and informants.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Director, Federal Emergency Management Agency, has determined that this system should be exempted from subsections (c)(3) and (4), (d), (e)(1), (2), (3), (e)(4)(G), (H), and (I), (e)(5) and (8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a(j)(2) and (k)(1) and (2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the Federal Register.

FEMA/OS-1**SYSTEM NAME:**

Emergency Assignment System.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Office of Operations Support, Western Virginia Operations Division, Washington, D.C. 20472.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Emergency assignees to the FEMA Special Facility.

CATEGORIES OF RECORDS IN THE SYSTEM:

Personnel data, social security number, personal data, skills inventory, assignment information, badge number, and other related information for the purpose of in-house official use, based upon a need-to-know requirement, to assist officials charged with emergency responsibilities in the assignment and coordination of activities in the Western Virginia Operation Division of FEMA. Authority for maintenance of the system: Executive Order 12148, 44 FR 43239.

PURPOSE:

To assist officials charged with emergency responsibilities in the assignment and coordination of

activities in the Western Virginia Operations Division of FEMA.

Additional routine uses may include Nos. 1, 2, 3, 5, and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Mag-tape, drum, disc and paper.

RETRIEVABILITY:

By name, personal characteristics or skills, badge number, and agency.

SAFEGUARDS:

Personnel screening, hardware and software computer security measures; paper records in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Retention of records shall be for duration of assignment. Disposition of records shall be in accordance with the FEMA Records Maintenance and Disposition System.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Western Virginia Operations Division, Office of Operations Support, Federal Emergency Management Agency, Washington, D.C. 20472.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

The individuals to whom the record pertains.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/OS-2**SYSTEM NAME:**

Key Personnel Central Locator List.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Office of Operations Support, Interagency Communications Operations Division, Washington, D.C. 20472.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Selected Key FEMA Personnel.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files and related documents contain lists of key FEMA officials with their home telephone numbers, office telephone numbers, and itinerary who may be contacted in the event of a national disaster or civil emergency.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 12148, 44 FR 43239.

PURPOSE(S):

For the purpose of locating selected Key FEMA Personnel in the event of a national disaster or civil emergency.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

In the event of a national disaster or civil emergency which requires action by FEMA, the list will be referred to in order to locate selected Key Officials.

Additional routine uses may include Nos. 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Paper records.

RETRIEVABILITY:

By name.

SAFEGUARDS:

Paper records in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours.

Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Records are destroyed on a monthly basis.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Interagency Communications Operations Division, Office of Operations Support, Federal Emergency Management Agency, Washington, D.C. 20472.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Telephone numbers and itineraries are furnished by the individuals on the list via telephone on a weekly basis.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/PA-1**SYSTEM NAME:**

Biographies.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Office of Public Affairs, Washington, D.C. 20472; Regional

Directors of FEMA, addresses are listed in Appendix AA; Staff College (Eventually to become Emergency Management Institute) within the Office of Training and Education, Federal Emergency Management Agency, Washington, D.C. 20472.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Key FEMA Headquarters and Regional offices, and State and local Emergency Management Directors/Coordinators.

CATEGORIES OF RECORDS IN THE SYSTEM:

(a) Office of Public Affairs files contain biographies of key officials of FEMA, including Headquarters and Regional offices and a listing of State and local Emergency Management Directors/Coordinators; (b) Regional files contain biographies of Key Regional officials, and State and local Directors/Coordinators within regional geographic boundaries. Includes form on Notice of Appointment of Emergency Management Director/Coordinator; (c) Staff College files contain biographies of guest lecturers and other key officials.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

44 U.S.C. 3101; E. O. 12148, 44 FR 43239; and Reorganization Plan No. 3 of 1978, 43 FR 41943.

PURPOSE(S):

For the purpose of preparing speeches, correspondence and other public releases in connection with emergency preparedness program.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND PURPOSES OF SUCH USES:

For use in preparing speeches, correspondence, and other public releases in connection with emergency preparedness program. Use as backup information to fulfill requirements of FEMA Director and Regional Directors.

Additional routine uses may include Nos. 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Paper records in file folders.

RETRIEVABILITY:

(a) FEMA officials—filed alphabetically by name, (b) State and local Directors/Coordinators—filed alphabetically by state.

SAFEGUARDS:

Paper records in a locked container and/or room. All records are maintained

in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Biographies for FEMA officials, headquarters and field, are retained in active file until end of calendar year after separation of employee, then retired to Federal Records Center. Biographies of State and local Directors/Coordinators are retained in active file until end of calendar year after termination, then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Public Affairs, Federal Emergency Management Agency, Washington, D.C. 20472; for Staff Colleges files—Assistant Director, Training and Education, Federal Emergency Management Agency, Washington, D.C. 20472; and all FEMA Regional Directors, addresses are listed in Appendix AA.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

The key officials on whom biographies are maintained and other knowledgeable sources.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/PER-1**SYSTEM NAME:**

Grievance Records.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Office of Personnel, Washington, D.C. 20472; and classified location.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current or former employees who have submitted grievances with FEMA in accordance with Part 771 of the Office of Personnel Management regulations (5 CFR Part 771), or a negotiated procedure.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system contains records relating to grievances filed by agency employees under Part 771 of the Office of Personnel Management regulations. These case files contain all documents related to the grievance, including statements of witnesses, reports of interviews and hearings, examiner's findings and recommendations, a copy of the original and final decision, and related correspondence and exhibits. This system includes files and records of internal grievances and arbitration systems that FEMA may establish through negotiations with recognized labor organizations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 1302, 3301, 3302, E.O. 10577, 3 CFR 1954-58 Comp., p218, E.O. 10987, 3 CFR 1959-1963 Comp., p519, agency employees for personnel relief in a matter of concern or dissatisfaction which is subject to the control of FEMA management.

PURPOSE(S) FOR THE PURPOSE OF PROCESSING GRIEVANCE COMPLAINTS.**ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:**

To disclose information to any source from which additional information is requested in the course of processing a grievance, to the extent necessary to identify the individual, inform the source of the purpose(s) of the request and identify the type of information requested; to disclose information to another Federal agency or to a court when the Government is a party to a judicial proceeding before the court; in

the production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained, or for related work force studies. While published statistics and studies do not contain individual identifiers, in some instances the selection of elements of data included in the study may be structured in such a way as to make the data included individually identifiable by inference; to disclose information to officials of the Merit Systems Protection Board, including the Office of the Special Counsel, the Federal Labor Relations Authority and its General Counsel, or the Equal Employment Opportunity Commission when requested in performance of their authorized duties; to disclose in response to a request for discovery or for appearance of a witness, information that is relevant to the subject matter involved in a pending judicial or administrative proceeding; and to provide information to officials of labor organizations reorganized under the Civil Service Reform Act when relevant and necessary to their duties of exclusive representation concerning personnel policies, practices, and matters affecting work conditions.

Additional routine uses may include Nos. 1, 2, 5, and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

These records are maintained in file folders.

RETRIEVABILITY:

By name of the individual.

SAFEGUARDS:

These records are maintained in lockable metal filing cabinets to which only authorized personnel have access.

RETENTION AND DISPOSAL:

These records are disposed of 3 years after closing of the case. Disposal is by shredding or burning.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Office of Personnel, Federal Emergency Management Agency, Washington, D.C. 20472.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some

acceptable identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Information in this system of records is provided by (1) the individual on whom the record is maintained; (2) testimony of witnesses; (3) from related correspondence from organizations or persons.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/PP-1

SYSTEM NAME:

National Defense Executive Reserve System.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Plans and Preparedness, Government Preparedness Office (NDER Coordinator), Washington, D.C. 20472; all FEMA regional offices listed in Appendix AA to these notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicants for and incumbents of NDER assignments.

CATEGORIES OF RECORDS IN THE SYSTEM:

Personnel and administrative records, skills inventory, training data, and other related records necessary to coordinate and administer the NDER program.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Defense Production Act, 1950, Executive Order 11179, September 22, 1964, as amended by Executive Order 12148, July 20, 1979.

PURPOSE(S):

For the purpose of administering the NDER program, agency officials and

officials of participating departments and agencies may obtain from the NDER Coordinator data relevant to reservists assigned to their units.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Periodically, a directory (containing name, title, business name and address, NDER unit, and status-emeritus or active) will be distributed to reservists and to NDER units. Additional routine use may include Nos. 3, 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Mag-tape, drum, disc and paper.

RETRIEVABILITY:

By name, personnel data, skills or agency.

SAFEGUARDS:

Personnel screening, hardware and software computer security measures; paper records in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Retention of records shall be for duration of application or assignment. Disposition of records shall be in accordance with the FEMA Records Maintenance and Disposition System.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director, Plans and Preparedness, Government Preparedness Officer (NDER Coordinator), Federal Emergency Management Agency, Washington, D.C. 20472; all FEMA Regional Directors, addresses listed in Appendix AA of these notices.

NOTIFICATION PROCEDURE:

Inquires should be addressed to the system manager(s). Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager(s). Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

Federal Emergency Management Agency, Plans and Preparedness, Resources Preparedness Office, Washington, D.C. 20472.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals reporting or commenting on resource shortages during national emergencies—private citizens; industry experts; business, labor and government leaders.

CATEGORIES OF RECORDS IN THE SYSTEM:

Includes name, address, telephone number, statements about resource problems, and other related information necessary to monitor resource interruptions.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 12148, July 20, 1979.

PURPOSE(S):

For the purpose of assessing the status of resources (supply shortage or problems of maldistribution) which poses a threat to the health and welfare of communities or to the economy or security of the Nation when normal market mechanisms appear inadequate, agency analysts summarize reports for

comparison to economic norms or for highlighting problems in an industry or in a geographic area. In-house agency use is also made of the computerized communication and conferencing components of the system for the purpose of carrying on conferences and discussions, and for transmitting other related communications among the offices of FEMA.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Individual applications for assistance may be referred for response to another agency with emergency responsibilities. Information may be provided to Federal, State and local officials with emergency responsibilities and to selected industries for purpose of coordinating actions taken to alleviate the crisis situation; to news media. Additional routine uses may include Nos. 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Mag-tape, drum, disc and paper.

RETRIEVABILITY:

By name, problem resource, geographic area, and phrase in text.

SAFEGUARDS:

Personnel screening, hardware and software computer security measures; paper records in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Retention of records shall be for duration of resource problem. Disposition of records shall be in accordance with the FEMA Records Maintenance and Disposition System.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director, Plans and Preparedness, Resources Preparedness Office, Federal Emergency Management Agency, Washington, D.C. 20472.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some

acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Individual applications for assistance in locating alternate supplies; news media reports; notifications by individual correspondence or phone, from Congress, by original staff reports or reports from other agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/PP-3

SYSTEM NAME:

Interagency Directories System.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Plans and Preparedness, Washington, D.C. 20472; all FEMA regional offices listed in Appendix AA to these notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Federal Emergency Management Agency employees and employees of other Federal, State and local agencies with related responsibilities; e.g., members of the Regional Preparedness Committee, the Interagency Emergency Preparedness Committee, and the Regional Field Board as well as Emergency Coordinators, Alternate Emergency Coordinators, State Emergency Preparedness Directors, and State Civil Defense Directors.

CATEGORIES OF RECORDS IN THE SYSTEM:

Includes name, office and home addresses and telephone numbers, and level of security clearance.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 11490, as amended and Executive Order 12148.

PURPOSE(S):

For the purpose of providing a locator service and a means of distributing publications and communications for in-house agency use and for the use of member agencies.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

For the purpose of providing a locator service and a means of distributing publications and communications, interagency directories will be distributed to Federal, regional and state interagency committee members and to the agencies which they represent; e.g., State Emergency Planning Directors, holders of the FEMA Emergency Planning Reference Package for Regional Governments and Central Office Emergency Readiness Instructions and the White House Communications Agency. To the key personnel in Federal agencies and departments involved in emergency preparedness responsibilities. Additional routine uses may include Nos. 2, 3, 5, and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Mag-card, mag-tape, drum, disc and paper.

RETRIEVABILITY:

By name and agency.

SAFEGUARDS:

Personnel screening, hardware and software computer security measures; paper records in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Retention of records shall be for duration of individual membership in interagency organizations. Disposition of records shall be in accordance with the FEMA Records Maintenance and Disposition System.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director, Plans and Preparedness, Federal Emergency Management Agency, Washington, D.C. 20472; all Regional Directors of FEMA, addresses are listed in Appendix AA.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

The individual to whom the record pertains.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/PP-4**SYSTEM NAME:**

FEMA Form 95-3, Appl for Enrollment in Arch Engr Prof Dev Prog.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Plans and Preparedness, Survey and Engineering Branch, Washington, D.C. 20472.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who apply for FEMA professional development courses: Fallout Shelter Analysis (FSA), Protective Construction (PC), Environmental Engineering (EE), Multiprotection Design (MPD).

CATEGORIES OF RECORDS IN THE SYSTEM:

Includes applicant's name, address, date of birth, education and status of completion in the course.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301, 44 USC 3104, 50 USC App. 2253.

PURPOSE(S):

For the purpose of ascertaining qualifications for certification as FSA for issuance of appropriate certificates and development of mailing lists for disseminating new information to them as appropriate.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The names and addresses of the individuals are used to print mailing labels to send them the most up-to-date information on Fallout Shelter Analysis. Additional routine use may include Nos. 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Application forms are kept in loose-leaf binders. Some of the data are kept on computer magnetic tapes for processing in conjunction with dissemination of new information.

RETRIEVABILITY:

By the name of the individual to whom the record pertains.

SAFEGUARDS:

Personnel screening, hardware and software computer security measures; application forms in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Files are considered permanent.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director, Plans and Preparedness, Survey and Engineering Branch, Federal Emergency Management Agency, Washington, D.C. 20472.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's

identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

FEMA Form 95-3 submitted by applicants.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/PP-5**SYSTEM NAME:**

FEMA Summer Shelter Survey Program.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Plans and Preparedness, Survey and Engineering Branch, Washington, D.C. 20472.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who apply for FEMA Summer Shelter Survey Program.

CATEGORIES OF RECORDS IN THE SYSTEM:

Includes student's name, address, telephone number, college, age, veteran's status, license, curriculum, number of college years completed, prior Summer Shelter Survey training, experience, availability of transportation and training.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 44 U.S.C. 3101, 50 U.S.C. App. 2253.

PURPOSE(S):

For the purpose of selecting students for employment under the Summer Shelter Survey Program.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The names, addresses and phone numbers are provided to the U.S. Army Corps of Engineers to offer the individuals employment until such time as FEMA is prepared to assume the selection process. A report is available to the Office of Personnel Management which indicates which students were hired and which were not.

Additional routine use may include Nos. 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Applications are maintained on magnetic tape, card and loose-leaf binders.

RETRIEVABILITY:

By the name of the individual to whom the record pertains.

SAFEGUARDS:

Personnel screening, hardware and software computer security measures; application forms in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Retention of records shall be for 2 years. Disposition of records shall be in accordance with the FEMA Records Maintenance and Disposition System.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director, Plans and Preparedness, Survey and Engineering Branch, Federal Emergency Management Agency, Washington, D.C. 20472.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

FEMA Form 85-1 entitled "Application for FEMA Summer Shelter Survey Program" and FEMA Form Letter 1 entitled "FEMA Summer Shelter Survey Employment Questionnaire" submitted by applicants.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/PP-6**SYSTEM NAME:**

Program Management Information System.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Plans and Preparedness, Operations Services Branch, Washington, D.C. 20472.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Local Civil Preparedness Directors/Coordinators.

CATEGORIES OF RECORDS IN THE SYSTEM:

Includes name and business address of all local civil preparedness directors/coordinators participating in FEMA contributions programs.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 44 U.S.C. 3101; 50 U.S.C. App. 2253; E. O. 12148, 44 FR 43239; Reorganization Plan No. of 1978, 43 FR 41943.

PURPOSE(S):

For the purpose of keeping an up-to-date listing of all local civil preparedness directors/coordinators and advising the public as to who the civil preparedness director/coordinator is for a particular location.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Responding to inquiries from the public advising who the local civil preparedness director/coordinator is for a particular location.

Additional routine uses may include Nos. 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Computer paper printouts and microfiche.

RETRIEVABILITY:

By geographic location number printed alphabetically by State and agency name; name of director/coordinator can be retrieved on the computer printout.

SAFEGUARDS:

Personnel screening, hardware and software computer security measures; printouts are kept in locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Retention of records shall be until obsolete. Disposition of records shall be in accordance with the FEMA Records Maintenance and Disposition System.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director, Plans and Preparedness, Operations Services Branch, Federal Emergency Management Agency, Washington, D.C. 20472.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURE:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the

system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

FEMA Form 19-1, Program Paper for Local Civil Preparedness, are prepared by local agencies and submitted to the State and FEMA Regional offices which in turn forward copies to FEMA Headquarters for computer development printouts.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/PP-7

SYSTEM NAME:

Military Reserve Program.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Plans and Preparedness, Operations Services Branch, Washington, D.C. 20472; all FEMA Regional Directors, mailing addresses are listed in Appendix AA; and State and local civil preparedness agencies requesting information.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All military reservists who have or could have mobilization designation to FEMA, including FEMA Regional offices and State and local civil preparedness agencies.

CATEGORIES OF RECORDS IN THE SYSTEM:

Includes copies of orders, lists of reservists assigned, and those eligible to be assigned, to the FEMA regions and State and local civil preparedness agencies; other related documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 270; 10 U.S.C. 275; 41 U.S.C. 3101; 50 U.S.C. App. 2253; E. O. 12148, 44 FR 43239; Reorganization Plan No. 3 of 1978, 43 FR 41943; P. L. 93-579.

PURPOSE(S):

For the purpose of preparing statistical reports, rosters, lists of new assignees, review of assignments to provide information for reallocation of

vacant spaces, provide basis for general management of the program including the preparing of efficiency and other reports.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Applications are processed by the uniformed service's personnel headquarters and if approved, issuances of assignment orders are distributed to interested offices for program recruiting, record and management purposes.

Additional routine uses may include Nos. 5, 7 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer printouts and orders and related papers are filed in paper file folders in metal file cabinets.

RETRIEVABILITY:

At FEMA Headquarters—by region and military service; At FEMA Regional offices—by military service, State and individual name.

SAFEGUARDS:

Personnel screening, hardware and software computer security measures; paper file folders in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Retention of records shall be as long as the individual is assigned to the program. Disposition of records shall be in accordance with the FEMA Records Maintenance and Disposition System.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director, Plans and Preparedness, Operations Services Branch, Federal Emergency Management Agency, Washington, D.C. 20472; all Regional Directors of FEMA, mailing addresses are listed in Appendix AA.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the appropriate system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license,

employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the appropriate system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Reservist submits completed application to FEMA Regional or State and local civil preparedness agency where he or she desires to work. Application is endorsed at each level and forwarded through civil preparedness channels to the respective service personnel administrative headquarters for processing, and if approved, issuance of assignment orders. Copies of assignment orders are distributed to interested offices.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/PP-8

SYSTEM NAME:

Radioactive Materials Inventory.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Plans and Preparedness, Population Preparedness Office, Washington, D.C. 20472; all FEMA Regional offices; Staff College (Eventually to become Emergency Management Institute); Computer Center; and Defense General Supply Center, ATTN: DCPO, Richmond, Virginia. Mailing addresses for the Regional offices are listed in Appendix AA. Copies are also maintained at the appropriate State and local civil preparedness agencies and at State radiological systems maintenance and calibration facilities, and as applicable to another Federal agency or FEMA contractor having radioactive material on loan.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Custodians of FEMA Radioactive Material.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain a listing of all FEMA owned radioactive materials on loan to a State, other Federal agencies, FEMA contractors and others. Categories of information stored in the system include: custodian's name, address, city, county, telephone number, user authorization number and expiration date, date of transfer, FEMA Region, State, storage name, address, city, county, license number, type, expiration date, radioactive material nomenclature; isotope, activity; civil preparedness nomenclature; serial numbers; leak test data, ID number of item, voucher number and date.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 44 U.S.C. 3104; 50 U.S.C. App. 2253; E. O. 12148, 44 FR 43239; Reorganization Plan No. 3 of 1978, 43 FR 41943.

PURPOSE:

For the purpose of controlling and maintaining a record to whom radioactive materials are loaned in order to avoid loss or unauthorized use.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

RADEF and Technological Hazards Branch, Plans and Preparedness—as an inventory of all FEMA owned radioactive materials including whether on loan or in storage; locating an item by ID number or serial number; determining custodian of an item; number of items on loan to a State, other Federal agency, contractor and others; record of license number authorizing custodian possession of material; inventory of items by radioisotope; using encapsulation date and radioisotope decay to determine activity at any given time. File may be sorted and/or searched by any items in Record-Category above. As records are updated, file incorporates records into a historical file so that previous information remains on storage enabling a listing of all previous data in file in various Record-Categories. This permits a listing of leak test history data, listing of all storage locations and date of transfer, listing of all custodians, date of transfer, license numbers under which item was loaned. Based on expiration date of license, lists can be prepared of licenses due for renewal and overdue. Based on leak test date, lists can be prepared of items scheduled for leak

testing and overdue. Items in possession of unauthorized personnel can be traced to last custodian by serial number, ID number or other available nomenclature.

Regional Offices, FEMA—same uses as RADEF and Technological Hazards Branch, Plans and Preparedness; usually limited to radioactive material on loan to States in their respective regions. For lost or unauthorized sources entire file may be searched.

State Radiological Systems Maintenance, Maintenance and Calibration Facility, State Civil Preparedness Office, Other Federal Agencies, FEMA Contractors and others possessing loaned material: Same as RADEF and Technological Hazards Branch, Plans and Preparedness; usually limited to radioactive material items on loan to the user. For lost or unauthorized sources entire file may be searched.

Additional routine uses may include Nos. 1, 5, and 8 Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Computer magnetic tapes and disks, computer paper printouts.

RETRIEVABILITY:

Computer file is accessible by any of the categories listed in Record Category above.

SAFEGUARDS:

Requests for computer printouts are made by other users through FEMA RADEF and Technological Hazards Branch. Authorized users have access to data on computer tapes and disks through computer terminals. Printouts at FEMA facilities are stored in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Files are updated as changes occur. Previous data is stored in history file for historical data printouts described in Routine-Uses.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director, Plans and Preparedness, Population Preparedness Office, RADEF and Technological Hazards Branch, Federal Emergency Management Agency, Washington, D.C. 20472; all Regional Directors of FEMA, addresses are listed in Appendix AA.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the appropriate system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the appropriate system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Data to update file is supplied by custodians of loaned material (note: transferee will report name of new custodian). State Civil Preparedness Agency Maintenance and Calibration Facility personnel, FEMA Regional offices, RADEF and Technological Hazards Branch of Plans and Preparedness; other sources include other FEMA divisions.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/PP-9**SYSTEM NAME:**

Maintenance and Calibration.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Plans and Preparedness, Population Preparedness Office, Washington, D.C. 20472; all FEMA Regional Offices, FEMA Computer Center, Defense General Supply Center, ATTN: DCPO, Richmond, Virginia. Mailing addresses for the Regional

Offices are listed in Appendix AA. Copies are also maintained at the appropriate State and local civil defense agencies and at State radiological systems maintenance and calibration facilities, and as applicable to another Federal agency.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All State RADEF Officers and Maintenance Officers.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files containing the shipping and mailing addresses of the State radiological systems maintenance, maintenance and calibration facilities. It also contains the name and telephone number of the maintenance officer of the maintenance and calibration facility and the State RADEF officer.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 44 U.S.C. 3104; 50 U.S.C. App. 2253; and E. O. 12148, July 20, 1979.

PURPOSE(S):

For the purpose of keeping an up-to-date list and addresses of the maintenance officer of the maintenance and calibration facility and the State RADEF officer.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

RADEF and Technological Hazards Branch—to address correspondence to the facilities. Names and telephone numbers are used to contact individuals by phone as required.

FEMA Regions: Same as RADEF and Technological Hazards Branch for the states in their region.

FEMA Computer Center—to prepare mailing and shipping labels for computer output.

Others: Copy furnished Defense General Supply Center, ATTN: DCPO, Richmond, Virginia, for use by them and the associated FEMA Federal Supply Depot to ship and mail supplies to the states for use under the Radiological Systems Maintenance contract. Information furnished to other FEMA elements, other Federal agencies and to State radiological maintenance facilities upon request in order to furnish supplies and/or information for use in the radiological systems maintenance contract.

Additional routine uses may include Nos. 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper files and computer tapes and disks.

RETRIEVABILITY:

Filed by region then alphabetically by State name.

SAFEGUARDS:

Authorized users have access to data on computer tapes and disks through computer terminals. Printouts at FEMA facilities are stored in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

When a list is updated, the prior list is destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director, Plans and Preparedness, Population Preparedness Office, RADEF and Technological Hazards Branch, Federal Emergency Management Agency, Washington, D.C. 20472; and all Regional Directors of FEMA, addresses listed in Appendix AA.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Information submitted by State RADEF Officer, Maintenance and Calibration Facility Officer, FEMA Regional Staff, and others knowledgeable of change in data.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/PP-10

SYSTEM NAME:

Radiation Exposure and Radioactive Materials; Radiation Committee Records.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Plans and Preparedness, Population Preparedness Office, Washington, D.C. 20472; Staff College (Eventually to become Emergency Management Institute), and FEMA Computer Center. Mailing addresses of the Regional Offices are listed in Appendix AA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Files contain the following types of individuals within FEMA or under FEMA Byproduct Materials License: All authorized users of sources of ionizing radiation; activity radiation safety officers; ionizing radiation dose records for individuals using or exposed to ionizing radiation under FEMA license or authorization; authorized custodians of FEMA sources of ionizing radiation; committee members and alternates.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain records produced in the conduct of committee duties and functions which include the control and administration of, the procurement, use, handling, storage and disposal of all sources of ionizing radiation throughout FEMA and other users under FEMA licenses and authorizations, assuring compliance with licenses and authorizations issued to FEMA for ionizing radiation and the regulations applicable to these license holders. Records include committee members, authorized users, activity radiation safety officers, ionizing radiation dose records for individuals who may be exposed to FEMA sources of ionizing radiation, and inspections (surveys) of activities and facilities using FEMA sources of ionizing radiation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

44 U.S.C. 3101; 50 U.S.C. App. 2253, 2281; 44 U.S.C. 2073 2093, 2095, 2111, 2112, 2201, 2232, 2233, 2234, 2273 and E.O. 12148, July 20, 1979.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Radiation control committee: In conduct of committee duties and functions including the following: Serving as an advisory board recommending approval and exercising control of the procurement, use, handling, storage, and disposal of sources of ionizing radiation for emergency management purposes; based upon the qualifications submitted, designate for approval all authorized users of sources of ionizing radiation within FEMA or under FEMA licenses or authorizations; recommend for approval activity radiation safety officers for all FEMA installations and other facilities where sources of ionizing radiation are used, handled or stored under FEMA licenses or authorizations; establishes general procedures and guidance governing the use, handling, storage of sources of ionizing radiation, including appropriate health physics or emergency procedures and precautions, establishing formal rules and regulations as necessary; assure that the rules and conditions of the FEMA licenses, authorizations, and regulations are observed in all FEMA activities; maintain records of the procurement, receipt, transfer and disposal of all FEMA sources of ionizing radiation; maintain ionizing radiation dose records for each FEMA employee and other individual who may have been exposed to ionizing radiation under FEMA licenses or authorizations; providing liaison with other Federal agencies with regard to committee duties and functions; maintain records of applications and amendments to licenses and authorizations for the use of ionizing radiation at FEMA facilities; maintains records of periodic inspections of all FEMA activities involved with sources of ionizing radiation under FEMA licenses and authorizations.

Additional routine uses may include Nos. 1, 5, and 8 of Appendix A.

PURPOSE(S):

For the purpose of procuring, using, handling, controlling, and administration of, the procurement, use, handling, storage and disposal of all sources of ionizing radiation throughout FEMA and other users under FEMA licenses and authorizations, assuring compliance

with licenses and authorizations issued to FEMA for ionizing radiation and the regulations applicable to these license holders.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Paper files and radioactive materials inventory on computer magnetic tape and disks.

RETRIEVABILITY:

Filed by subject and ionizing radiation exposure records subfiled alphabetically by name.

SAFEGUARDS:

Requests for computer printouts are made by other users through FEMA RADEF and Technological Hazards Branch. Authorized users have access to data on computer tapes and disks through computer terminals. Printouts at FEMA facilities are stored in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Files kept in accordance with 10 CFR 19, 20, 30 and 33. Files not covered by 10 CFR are kept for two years after completion then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director, Plans and Preparedness, Population Preparedness Office, RADEF and Technological Hazards Branch, Federal Emergency Management Agency, Washington, D.C. 20472.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the

system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Reports prepared and submitted by committee members, activity radiation safety officers and users. Data for ionizing radiation dose records from individuals wearing dosimeters and film badge processors.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/PP-11**SYSTEM NAME:**

Industrial Group Consultation.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Emergency Management Agency, Plans and Preparedness, Resources Preparedness Office, Washington, D.C. 20472.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals in industrial organizations, or national organizations who participate in emergency management services.

CATEGORIES OF RECORDS IN THE SYSTEM:

Names, addresses, organization affiliation, and speech making.

PURPOSE(S):

For the purpose of obtaining speakers at conventions, seminars, courses, etc.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

44 U.S.C. 3101; 50 U.S.C. App. 2253, 2281; and E. O. 12148 dated July 20, 1979.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To communicate with industrial and national organizations who can perform emergency management services; to obtain speakers at conventions, seminars, courses, etc.

Additional routine uses may include Nos. 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

3 x 5 index cards.

RETRIEVABILITY:

By name, company or organizations.

SAFEGUARDS:

All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Files kept until obsolete, then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Director, Plans and Preparedness, Resources Preparedness Office, Federal Emergency Management Agency, Washington, D.C. 20472.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Directly from the individuals in the system.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/SUP-1

SYSTEM NAME:

Operating Personnel Folder Files.

SECURITY CLASSIFICATION:

Limited Access.

SYSTEM LOCATION:

Files are located in Regional, field and Headquarters offices which are located separate from the Headquarters FEMA Personnel Office, which maintains the Official Personnel File, depending upon the post of duty of the employee. It is noted that not all of FEMA supervisors maintain such a file.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current FEMA employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records relate to personnel matters, such as, copies of Form 50 and 52 Personnel actions (supervisor's copies), awards, letters of appreciation, promotions, step increases, position descriptions, reports of discussions held with employee regarding performance, copies of discussions written to employee concerning performance, leave, overtime hours, locator card information and related employment records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; FPM 293-31.

PURPOSE(S):

Because the Official Personnel Folder is maintained in the Headquarters, Washington, D.C., location, it is necessary to have an operating personnel folder available to the supervisor to evaluate performance, and related employment performance for awards, promotions or recommended disciplinary actions.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

For use by the supervisor in evaluating employee performance and monitoring of leave for the purpose of approving employee requests for leave.

Additional routine uses may include Nos. 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders and/or index cards.

RETRIEVABILITY:

By name or social security number.

SAFEGUARDS:

Records are located in lockable metal file cabinets or in secured rooms with limited access. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

The files will be destroyed after the employee leaves the Federal Emergency Management Agency through transfer or separation.

SYSTEM MANAGER(S) AND ADDRESS:

Headquarters and Regional and Field offices within the Federal Emergency Management Agency, or managerial officials in appropriate posts of duty of employee, Appendix AA.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Information in this system of records comes from the employee, from personnel actions as noted in official personnel folders, and from supervisor.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Director, Federal Emergency Management Agency, has determined that this system should be exempted

from subsections (c)(3), (d), (e)(1), (e)(4)(G), (H) and (I), and (f) of the Privacy Act pursuant to 5 U.S.C. 552a(k)(2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c), and (e) and have been published in the Federal Register.

FEMA/T&E-2

SYSTEM NAME:

State and local Civil Preparedness Instructional Program (SLCPIP).

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Primary system located at Federal Emergency Management Agency Regions, address listed in Appendix AA. Decentralized system located with State and local agencies contractors in various States who provide input to Regional offices. Duplicate data is forwarded to State Emergency Management offices by contractors in the States for information purposes only. Addresses of contractors and State Emergency Management offices are available at FEMA Regions.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals include local Emergency Management coordinators, teachers, school administrators and local officials who are in need of emergency management training.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system is comprised of 4 reporting forms only one of which has names. These are forwarded from the contractors at the State level to the Regional offices. The form with names is the SLCPIP Contractor's Roster. This form is used to give name, address, and title of participants for each course or workshop conducted. This is a monthly report to the Regions.

The Contracting Officer (Region) forwards to FEMA Assistant Director, Training and Education gross number of activities and participants. The Regions maintain the roster. The Headquarters FEMA Assistant Director, Training and Education consolidates all ten Regions reports and prepares a consolidated report to the Director, FEMA, when required.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

44 U.S.C. 3101; 50 U.S.C. App. 2253, 2281; Reorganization Plan No. 3 of 1978, 43 FR 41943; and E. O. 12148, 44 FR 43239.

PURPOSE(S):

For the purpose of determining which officials are in need or have taken emergency management training.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Used by the contractor to report to the contracting officer (Region) his progress and expenditures. The Regions use this system to report quarterly to FEMA Headquarters Assistant Director, Training and Education progress of the training activities. The Assistant Director, Training and Education prepares a consolidated quarterly report to the Director, FEMA. Additional routine uses may include Nos. 2, 3, 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records.

RETRIEVABILITY:

By name, address, name of course, date and location.

SAFEGUARDS:

Records are kept in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Records are retained in active file for one calendar year or fiscal year or until contract is completed. Records are then in inactive file for 3-6 years depending on program. Disposition of records shall be in accordance with the FEMA Records Maintenance and Disposition System.

SYSTEM MANAGER(S) AND ADDRESS:

Regional Directors of FEMA, addresses are listed in Appendix AA.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager in whose region you are interested in. Written requests should be clearly marked "Privacy Act Request" of the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

The source for information on participants in a course is forwarded by the contractors in the various States as he conducts training activities in his State.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/T&E-2 (Reserved for future use) FEMA/T&E-3

SYSTEM NAME:

Student Academic and Course Records.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Temporarily the records are located in the Registrar's Office, Staff College, Federal Emergency Management Agency, Battle Creek, Michigan. Eventually the records will be transferred to the Federal Emergency Management Agency Emergency Management Institute, Emmitsburg, Maryland 21727. Also records are located at Headquarters, Assistant Director, Training and Education, Washington, D.C. 20472, and all Regional offices, Computer Center. Addresses of the Regional Directors of FEMA are listed in Appendix AA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any citizen who applies for and completes resident and field emergency management training conducted under the auspices of the Staff College. Eventually the Staff College will be replaced by the Federal Emergency Management Agency Emergency Management Institute.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains student application records—FEMA 95-2, containing name, address, educational level, emergency management courses taken and where, emergency management organization and program affiliation, emergency management title, emergency management telephone number and length of emergency management service, employer, business title and business telephone number, student travel authorization and voucher for partial expense and date and location of course; individual training records; individual and business file for Staff College Catalogs (Eventually to become Emergency Management Institute Catalogs), Information Bulletins, etc.; Career Development Individual files; photographs with identification; MOBDES training files; Career Development directory; Student Expense files; completed Grant-in-aid forms; State recommendations, attendance and progress reports, student locators, and related academic documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 44 U.S.C. 3101; 50 U.S.C. App. 2253, 2281; Reorganization Plan No. 3 of 1978, 43 FR 41943; and E.O. 12148, 44 FR 43239.

PURPOSE(S):

For the purpose of monitoring and reporting statistics on training courses in emergency management and determine who has or has not been trained in emergency management courses.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Staff College (Eventually to become Emergency Management Institute)—to maintain individual training records; to compile regional, State, headquarters, military training data for administrative purposes such as budget requirements, replies to congressional inquiries, internal reporting and performance statistics, Program reports, and transmittals of satisfactory course completion of State and local governments.

Regions—to maintain up-to-date statistics of Staff College (Eventually to become Emergency Management Institute) graduates assigned to regional jurisdictions and to inform States and local governments.

States—to maintain up-to-date statistics of Staff College (Eventually to become Emergency Management Institute) graduates assigned to State and local jurisdictions.

Headquarters, Office of Finance and Administration—to record and obligate funds for students attending Staff College (Eventually to become Emergency Management Institute) courses and forward records to FEMA Budget and Finance Office for payment purposes.

Computer Center—to prepare ADP documents relating to student participation.

Other routine uses may include Nos. 2, 3, 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Paper files and 3 x 5 index cards.

RETRIEVABILITY:

3 x 5 locator cards files alphabetically by name; academic records filed chronologically by course title; and travel authorizations and vouchers filed by fiscal year and State.

SAFEGUARDS:

Records are retained in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Records are considered permanent. Course folders retained in active file until course is completed, held 20 years in inactive file and subsequently transferred to Records Center, destroyed after 40 years.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Director, Training and Education, Federal Emergency Management Agency, Washington, D.C. 20472; all Regional Directors of FEMA, addresses are listed in Appendix AA.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the appropriate system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individuals should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the *Federal Register*.

RECORD SOURCE CATEGORIES:

Education institutions, Staff College (Eventually to become Emergency Management Institute), records derived from student applications and academic records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

FEMA/T&E-4**SYSTEM NAME:**

Home Study Courses.

SYSTEM LOCATION:

Temporarily the records are located in the Registrar's Office, Staff College, Federal Emergency Management Agency, Battle Creek, Michigan. Eventually the records will be transferred to the Federal Emergency Management Agency, Emergency Management Institute, Emmitsburg, Maryland. Also records are located at Headquarters, Assistant Director, Training and Education, Washington, D.C. 20472, and all Regional Offices, Computer Center. Addresses of the Regional Directors of FEMA are listed in Appendix AA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any citizen who desires to further his knowledge of emergency management in general, basic concepts of radiological monitoring, the duties of a local Emergency Management Director Coordinator, or the duties of a Shelter Manager, is eligible for these courses.

CATEGORIES OF RECORDS IN THE SYSTEM:

File includes individual application forms, group enrollment forms, group completion forms, key punch cards and related computer printout indicating home study entry, progress, grades and

completion, correspondence and related academic documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 44 U.S.C. 3101; 50 U.S.C. App. 2253, 2281; Reorganization Plan No. 3 of 1978, 43 FR 41953; and E.O. 12148, 44 FR 43239.

PURPOSE(S):

For the purpose of providing home study courses to citizens who cannot attend regular classroom courses and certify applicants who successfully complete the courses.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Michigan Technological University (MTU)—key punch cards to enter applicant into home study program and to release home study materials to applicants, and to forward certificates to applicants who successfully complete a course. Also used to prepare statistical reports for Staff College (Eventually to become Emergency Management Institute)

FEMA Computer Center—use key punch cards to establish printout including name, address, student number, numerical grade for each course unit, date of completion of each course unit and final grade and date of course completion. FEMA Computer Center provides printouts for MTU, Staff College (Eventually to become Emergency Management Institute), FEMA Regions and State Emergency Management Offices.

Staff College (Eventually to become Emergency Management Institute)—to respond to student inquiries relating to completion dates, requests for military reserve retirement credits and requests for certificates of completion that were awarded but did not arrive for the student. Uses MTU prepared statistics to prepare annual, quarterly and monthly reports for Director, FEMA. Provides course completion/progress data to State and local governments.

FEMA Regional Offices—use the printout to measure training progress in the Region. The Regions also provide each State Emergency Management Office with monthly printouts of home study activities and completion.

State Emergency Management Offices—Use the printouts to schedule more advanced training for students who have completed basic emergency management instruction through home study courses.

Other routine uses may include Nos. 2, 3, 5 and 8 of Appendix A.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

FEMA Computer Center stores records on computer magnetic tapes or disks. Staff College (Eventually to become Emergency Management Institute), FEMA Regions, MTU and State Emergency Management Offices store printouts of records as developed and forwarded by FEMA Computer Center.

RETRIEVABILITY:

By name and address of Student Number.

SAFEGUARDS:

Records are retained in a locked container and/or room. All records are maintained in areas that are secured by building guards during non-business hours. Records are retained in areas accessible only to authorized personnel who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

All Home Study records at Staff College (Eventually to become Emergency Management Institute) are destroyed after 6 years. Home Study records held by FEMA Regions, Michigan Technological University and State Emergency Management Offices are destroyed when obsolete, superseded or no longer needed.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Director, Training and Education, Federal Emergency Management Agency, Washington, D.C. 20472; all Regional Directors of FEMA, addresses are listed in Appendix AA.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the appropriate system manager. Written requests should be clearly marked "Privacy Act Request" on the envelope and letter. Include full name of the individual, some type of appropriate personal identification, and current address.

For personal visits, the individuals should be able to provide some acceptable identification, that is, driver's license, employing office's identification card, or other identification data.

RECORD ACCESS PROCEDURES:

Same as Notification procedure above.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the

system manager. Written requests should be clearly marked "Privacy Act Amendment" on the envelope and letter. The letter should state clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment to the information sought.

FEMA Privacy Act Regulations are promulgated in 44 CFR Part 6, published in the Federal Register.

RECORD SOURCE CATEGORIES:

Application forms completed and submitted by applicants for FEMA Home Study courses.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Appendix A

Introduction to Routine Uses. Certain routine uses have been identified as being applicable to many of the FEMA systems of record notices. The specific routine uses applicable to an individual system of record notice will be listed under the "Routine Use" section of the notice itself and will correspond to the numbering of the routine uses published below. These uses are published only once in the interest of simplicity, economy and to avoid redundancy, rather than repeating them in every individual system notice.

1. *Routine Use—Law Enforcement:* In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency whether Federal, State, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

2. *Routine Use—Disclosure When Requesting Information:* A record from a FEMA system of records may be disclosed as a routine use to a Federal, State, or local agency maintaining civil, criminal, regulatory, licensing or other enforcement information or other pertinent information, such as current licenses, if necessary, to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a

contract, or the issuance of a license, grant, or other benefit.

3. *Routine Use—Disclosure of Requested Information:* A record from a FEMA system of records may be disclosed to a Federal agency, in response to a written request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

4. *Routine Use—Grievance, Complaint, Appeal:* A record from a FEMA system of records may be disclosed to an authorized appeal or grievance examiner, formal complaints examiner, equal employment opportunity investigator, arbitrator, or other duly authorized official engaged in investigation or settlement of a grievance, complaint, or appeal filed by an employee. A record from this system of records may be disclosed to the Office of Personnel Management in accordance with agency's responsibility for evaluation of Federal personnel management.

To the extent that official personnel records in the custody of FEMA are covered within systems of records published by the Office of Personnel Management as government-wide records, those records will be considered as a part of that government-wide system. Other official personnel records covered by notices published by FEMA and considered to be separate systems of records may be transferred to the Office of Personnel Management in accordance with official personnel programs and activities as a routine activities as a routine use.

5. *Routine Use—Congressional Inquiries:* A record from a FEMA system of records may be disclosed as a routine use to a Member of Congress or to a Congressional staff member in response to an inquiry of the Congressional office made at the request of the individual about whom the record is maintained.

6. *Routine Use—Private Relief Legislation:* The information contained in a FEMA system of records may be disclosed as a routine use to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that circular.

7. *Routine Use—Disclosure to the Office of Personnel Management:* A record from a FEMA system of records

may be disclosed to the Office of Personnel Management Division concerning information on pay and leave benefits, retirement deductions, and any other information concerning personnel actions.

8. *Routine Use—Disclosure of Information to NARS (GSA):* A record from a FEMA system of records may be disclosed as a routine use to the National Archives and Records Service of the General Services Administration in records management inspections conducted under authority of 44 U.S.C. 2904 and 12906.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR NOTICE FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/FSQS		DOT/FAA	USDA/FSQS
DOT/FHWA	USDA/REA		DOT/FHWA	USDA/REA
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/NHTSA	LABOR		DOT/NHTSA	LABOR
DOT/RSPA	HHS/FDA		DOT/RSPA	HHS/FDA
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	
CSA			CSA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday. Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week-Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408

NOTE: As of September 2, 1980, documents from the Animal and Plant Health Inspection Service, Department of Agriculture, will no longer be assigned to the Tuesday/Friday publication schedule.

REMINDERS

The "reminders" below identify documents that appeared in issues of the **Federal Register** 15 days or more ago. Inclusion or exclusion from this list has no legal significance.

Rules Going Into Effect Today

- ENERGY DEPARTMENT**
Economic Regulatory Administration—
53682 8-12-80 / Powerplant and Industrial Fuel Use Act of 1978
- ENVIRONMENTAL PROTECTION AGENCY**
54337 8-15-80 / Amendment to regulations for books and records of pesticide production and distribution
- FEDERAL COMMUNICATIONS COMMISSION**
60186 9-11-80 / Cable Television syndicated Program exclusivity rules
- HEALTH AND HUMAN SERVICES DEPARTMENT**
Food and Drug Administration—
60576 9-12-80 / Hematology and pathology medical devices classifications (106 documents)
60754 9-12-80 / Prescription drug products; patient package insert requirements
- HOUSING AND URBAN DEVELOPMENT DEPARTMENT**

THE FEDERAL REGISTER: WHAT IT IS AND HOW TO USE IT

- FOR:** Any person who uses the Federal Register and Code of Federal Regulations.
- WHO:** The Office of the Federal Register.
- WHAT:** Free public briefings (approximately 2½ hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
 2. The relationship between Federal Register and the Code of Federal Regulations.
 3. The important elements of typical Federal Register documents.
 4. An introduction to the finding aids of the FR/CFR system.
- WHY:** To provide the public with access to information necessary to research Federal agency regulations which directly affect them, as part of the General Services Administration's efforts to encourage public participation in Government actions. There will be no discussion of specific agency regulations.
- WHEN:** November 14 and 21; December 5 and 19; at 9 a.m. (identical sessions).
- WHERE:** Office of the Federal Register, Room 9409, 1100 L Street NW., Washington, D.C.
- RESERVATIONS:** Call King Banks, Workshop Coordinator, 202-523-5235.

Department of Education

**National Defense Student Loan Program
and National Direct Student Loan
Program; Cancellation of Loan for
Teaching Service**

DEPARTMENT OF EDUCATION

National Defense Student Loan Program and National Direct Student Loan Program; Cancellation of Loan for Teaching Service

List of Schools Determined to Have a High Concentration of Students From Low-Income Families—List of Schools in Which the Enrollment of Students From Low-Income Families Exceeds Thirty Percent of the Total Enrollment of Students

Defense Loans

Borrowers under the National Defense Student Loan Program may cancel the entire amount of their loan plus interest, if they teach full-time in one of the schools listed. For each complete year of full-time teaching a borrower may cancel 15 percent of his or her loan and the interest on that amount.

The procedures used for selecting schools are described in the National Defense Student Loan Program regulations (45 CFR 144.53).

The Secretary has determined that for the 1980-81 academic year teaching service in the schools set forth below qualifies for cancellation in accordance with the above provision.

Direct Loans

Borrowers under the National Direct Student Loan Program may cancel the entire amount of their loan plus interest, if they teach full-time in one of the schools listed. For the first two complete years of full-time teaching, the cancellation rate is 15 percent; for the third and fourth complete years of full-time teaching, the cancellation rate is 20 percent; for the fifth complete year, the cancellation rate is 30 percent.

The procedures used for selecting schools are described in the National Direct Student Loan Program regulations (45 CFR 144.54).

The Secretary has determined that for the 1980-81 academic year teaching service in the schools set forth below qualifies for cancellation in accordance with the above provision.

The schools are listed under county and/or school district designation, by State. The entries for American Samoa, Commonwealth of the Northern Mariana Islands, Guam, Puerto Rico, the Trust Territory of the Pacific Islands, and the Virgin Islands appear following the list for the State of Wyoming. The District of Columbia is included in the alphabetical sequence.

Inquiries concerning these lists may be made to the appropriate State educational agency or to the Campus and State Grants Branch, Division of

Program Operations, Office of Student Financial Assistance, U.S. Department of Education, Washington, D.C. 20202.

(Catalog of Federal Domestic Assistance Number 13.470: Higher Education—National Defense/Direct Student Loan Cancellations)

Dated: September 30, 1980.

Albert H. Bowker,

Assistant Secretary for Postsecondary Education.

Environmental Protection Agency

**Effluent Limitations Guidelines,
Pretreatment Standards and New Source
Performance Standards Under Clean
Water Act; Steam Electric Power
Generating Point Source Category**

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 125 and 423

[WH FRL 1569-4]

Effluent Limitations Guidelines, Pretreatment Standards and New Source Performance Standards Under Clean Water Act; Steam Electric Power Generating Point Source Category

AGENCY: Environmental Protection Agency.

ACTION: Proposed regulation.

SUMMARY: EPA is proposing to revise its regulations limiting pollutant discharges from steam electric power plants. EPA is proposing these revisions because the Clean Water Act requires EPA to review and revise its regulations periodically and because EPA is under a court order to develop regulations for toxic pollutant discharges from steam electric power plants. Today's proposal relates only to the discharge of toxic and other chemical pollutants; EPA is not proposing regulations for thermal discharges at this time.

DATES: Written comments must be submitted by December 9, 1980.

ADDRESSES: Comments should be sent to John W. Lum or Teresa Wright at the address listed immediately below. Supporting information and all comments on this proposal will be available for inspection and copying at the EPA Public Information Reference Unit, Room 2404 (Rear) PM 213 (EPA Library), 401 M Street, S.W., Washington, D.C. 20460. The EPA information regulation (40 CFR Part 2) provides that a reasonable fee may be charged for copying.

FOR FURTHER INFORMATION CONTACT: For general and technical information contact John W. Lum or Teresa Wright (WH-552), EPA, 401 M Street, S.W., Washington, D.C. 20460, telephone (202) 426-4617. For information concerning the economic impact analysis, contact Jeffrey Wasserman (PM-221), EPA, 401 M Street, S.W., Washington, D.C. 20460, telephone (202) 755-4803.

I. Legal Authority

EPA is proposing these regulations under the authority of sections 301, 304, 306, 307, 308, and 501 of the Clean Water Act (the Federal Water Pollution Control Act Amendments of 1972, Pub. L. 92-500 as amended by the Clean Water Act of 1977, Pub. L. 95-217, (the "Act")). These regulations are also proposed in compliance with the Settlement Agreement in *Natural Resources Defense Council v. Train*, 8 ERC 2120 (D.D.C. 1976), modified at 12 ERC 1833 (D.D.C. 1979).

II. Background

A. Introduction

On October 8, 1974, EPA promulgated a comprehensive set of regulations limiting water pollution discharges from steam electric power plants. 39 FR 36186. These regulations are codified at 40 CFR Part 423 (hereafter referred to as "Part 423"). The 1974 regulations covered two basic kinds of pollution from power plants: (a) thermal pollution (discharges of heat) and (b) chemical pollution (such as discharges of chlorine, phosphorus, suspended solids, etc.).

On July 16, 1976, the U.S. Court of Appeals for the Fourth Circuit remanded the thermal portion of the regulations. *Appalachian Power v. Train*, 545 F. 2d 1351 (4th Cir. 1976). Most of the chemical limitations, however, remain in effect. In today's notice, EPA is proposing revisions and additions to the chemical limitations in Part 423. This notice does not propose any regulations for thermal discharges. EPA is still considering various thermal options in light of *Appalachian*.

There are separate chemical limitations in Part 423 for each of the following power plant waste streams:

- (1) Once-through cooling water;
- (2) Cooling tower blowdown;
- (3) Fly ash transport water;
- (4) Bottom ash transport water;
- (5) Low volume wastes;
- (6) Metal cleaning wastes;
- (7) Boiler blowdown; and
- (8) Area runoff.

Today's proposal, with minor exceptions, relates only to the first three waste streams described above. An overview of this proposal is:

- (1) Once-through cooling water—increase the stringency of the chlorine limits now in Part 423;
- (2) Cooling tower blowdown—increase the stringency of the chloring limits and add a prohibition on the discharge of certain toxic pollutants;
- (3) Fly ash transport water—add a prohibition on the discharge of certain toxic pollutants from new facilities.

EPA is also proposing to relax certain existing limitations for bottom ash transport water and boiler blowdown.

EPA seriously considered proposing further control beyond BPT on the discharge of fly and bottom ash transport water from existing facilities. As described below, however, EPA has concluded that with its present data base, such controls should not be imposed in view of the high cost involved.

In the discussion below, EPA will generally describe the legal, technical, and economic aspects of the proposed revisions. More detailed support for the

proposal is found in three EPA documents:

(1) *Development Document for Proposed Effluent Limitations Guidelines, New Source Performance Standards and Pretreatment Standards for the Steam Electric Power Generating Point Source Category*, (EPA 440/1-80/029-B September, 1980);

(2) *Economic Analysis of Proposed Effluent Limitations Guidelines, New Source Performance Standards and Pretreatment Standards for the Steam Electric Power Generating Point Source Category*, (EPA August, 1980); and

(3) *Sampling and Analysis Procedures for Screening of Industrial Effluents for Priority Pollutants*, (EPA, Effluent Guidelines Division, as Revised April, 1977). Proposed with some modifications, in 44 FR 69364-69575, December 3, 1979.

Copies of these documents may be obtained from the EPA personnel listed in the "Further Information" section above. Copies will be available for public inspection and copying as noted in the ADDRESSES section above. The abbreviations, acronyms, and other terms used in the Supplementary Information section are defined in Appendix A to this notice.

B. The Clean Water Act and the NRDC Settlement Agreement

The Federal Water Pollution Control Act Amendments of 1972 established a comprehensive program to "restore and maintain the chemical, physical, and biological integrity of the Nation's waters." Section 101(a). The Act required existing industrial dischargers to achieve by July 1, 1977, effluent limitations representing the application of the best practicable control technology currently available (BPT), Section 301(b)(1)(A); by July 1, 1983, these dischargers were required to achieve effluent limitations representing the application of the best available technology economically achievable (BAT), "which will result in reasonable further progress toward the national goal of eliminating the discharge of all pollutants", Section 301(b)(2)(A).

New industrial dischargers were required to comply with § 306 new source performance standards (NSPS), based on best available demonstrated technology, and new and existing dischargers to publicly owned treatment works (POTW's) were subject to pretreatment standards under Sections 307 (b) and (c).

While the requirements for direct dischargers (plants discharging wastewaters into the Nation's waterways) were incorporated into National Pollution Discharge Eliminating

System (NPDES) permits issued under Section 402 of the Act, pretreatment standards are enforced by the Agency directly against indirect dischargers (plants discharging at least part of their wastewaters to POTWs). Although Section 402(a)(1) authorized the setting of requirements for direct discharges on a case-by-case basis, Congress intended for the most part that control requirements be based on EPA regulations.

Section 304(b) of the Act required the Agency to promulgate regulations providing guidelines for effluent limitations that set forth the degree of effluent reduction attainable through the application of BPT and BAT. Sections 304(c) and 306 required promulgation of regulations for NSPS, and Sections 304(f), 307(b), and 307(c) required promulgations of regulations for pretreatment standards. In addition to these regulations for designated industry categories, Section 307(a) of the Act required the Agency to promulgate effluent standards applicable to all dischargers of toxic pollutants. Finally, Section 501(a) authorized the Administrator to prescribe any additional regulations "necessary to carry out his functions" under the Act.

EPA was unable to promulgate many of these regulations by the dates specified in the Act, and in 1976 was sued by several environmental groups, including the Natural Resources Defense Council (NRDC). In settlement of this lawsuit, EPA and the plaintiffs executed a "Settlement Agreement," which was approved by the Court. This Agreement required EPA to develop a program and adhere to a schedule to promulgate for 21 major industries (including the steam electric power industry) BAT effluent limitations guidelines, pretreatment standards, and new source performance standards for 65 classes of toxic pollutants (subsequently defined by the Agency as 129 specific "priority pollutants"). *NRDC v. Train*, 8 ERC 2120 (D.D.C. 1976), modified at 12 ERC 1833 (D.D.C. 1979).

On December 27, 1977, the President signed into law the Clean Water Act of 1977. Although this law makes several important changes in the Federal water pollution control program, its most significant feature is the incorporation of several of the basic elements of the Settlement Agreement program for toxic pollution control. Sections 301(b)(2)(A) and 301(b)(2)(C) of the Act now require the achievement by July 1, 1984, of effluent limitations reflecting BAT for toxic pollutants, including the 65 pollutants and classes of pollutants which Congress declared toxic under

Section 307(a). Likewise, the Agency's programs for new source performance standards and pretreatment standards are now aimed principally at toxic pollutant controls. Moreover, to strengthen the toxics control program, Section 304(e) of the Act now authorizes the Administrator to prescribe "best management practices" ("BMPs") to prevent the release of toxic and hazardous pollutants from plant site runoff, spillage or leaks, sludge or waste disposal, and drainage from raw material storage associated with, or ancillary to, the manufacturing or treatment process.

In keeping with its emphasis on toxic pollutants, the Clean Water Act of 1977 also revised the control program for non-toxic pollutants. Instead of BAT for "conventional" pollutants identified under Section 304(a)(4) (including biochemical oxygen demand, suspended solids, fecal coliform, oil and grease and pH), the new Section 301(b)(2)(E) requires achievement by July 1, 1984, of "effluent limitations requiring the application of the best conventional pollutant control technology" ("BCT") by July 1, 1984. The factors considered in assessing BCT for an industry include the costs and benefits of reducing pollutants at a point source compared with the costs and benefits of reducing pollutants at a publicly owned sewage treatment works. (Section 304(b)(4)(B)). For non-toxic, nonconventional pollutants, Sections 301(b)(2)(A) and (b)(2)(F) require achievement of BAT effluent limitations within three years after their establishment or by July 1, 1984, whichever is later, but not later than July 1, 1987.

The purpose of these proposed regulations is to provide effluent limitations guidelines for BAT and to establish NSPS, pretreatment standards for existing sources (PSES), and pretreatment standards for new sources (PSNS), under Sections 301, 304, 306, 307, and 501 of the Clean Water Act.

C. Current EPA Regulations

Current Part 423 contains BPT, BAT, and NSPS limitations for "direct" sources (39 FR 36186, October 8, 1974) and pretreatment standards for existing and new "indirect" sources (PSES, PSNS) (42 FR 15695, March 23, 1977). A "direct" source discharges pollutants directly into the waters of the United States. An indirect source discharges pollutants into a publicly owned sewage treatment works (POTW).

Today's proposal will supplement, not replace, much of current Part 423. In the regulatory section at the end of this notice, however, EPA has reprinted the entire Part 423 as it would be

supplemented by this proposal. The reprint reflects some additional changes in format and style, and reflects deletion of the old and small unit subcategories (see Section VII below). The fact that a currently-existing limitation (such as all BPT limits) appears in the proposed regulatory amendments does not mean that EPA is reconsidering the limitation or that it is subject to comment as part of this proposed rulemaking. Similarly, the reprint designates as BCT existing BAT limitations for conventional pollutants. In all such cases, the existing BAT is equivalent to BPT; thus, the designation is not subject to comment as part of this proposed rulemaking.

III. Industry Overview

The steam electric power generating industry is included within the U.S. Department of Commerce Bureau of the Census Standard Industrial Classification (SIC) 4900. These proposed regulations apply to subgroup SIC 4911, Electric Services, and SIC 4931, Electric and Other Services Combined. Included in these two subgroups are those establishments primarily engaged in the generation of electricity for distribution and sale from processes using fossil-type fuel (coal, oil, or gas) or nuclear fuel in conjunction with a thermal cycle with the steam/water system as the thermodynamic medium.

There are approximately 850 steam electric power plants in the United States with a total capacity of over 450 gigawatts (GW). Coal plants, with an average capacity of nearly 850 megawatts (MW), account for slightly more than 50 percent of the total capacity and just over forty percent of the total number of plants. Oil and gas plants have an average capacity of 400 MW and make up over 50 percent of the plants but less than 40 percent of the capacity. Nuclear plants average 1,400 MW and account for 12 percent of capacity and less than 5 percent of the plants. About 2 percent of the plants use other fuels such as refuse; however, this accounts for less than 1 percent of the capacity.

The industry has two ownership categories: investor-owned and publicly-owned, with the latter further divided into federal, non-federal, and cooperative facilities. Approximately 80 percent of the capacity in the industry is privately owned, the remaining 20 percent is owned by municipalities, the federal government, and cooperatives. Generally, plants in the private sector are larger than those in the public sector.

Overall, the Agency estimates that by 1995 the electric power generating

industry will experience approximately 60 percent growth in generating capacity. Growth in the steam section of the industry, however, will be more rapid; that is, a 90 percent increase in generating capacity is expected by 1995.

There is a definite correlation between plant size and age. Forty-four percent of the capacity of existing plants were built since 1970, and 93 percent of this capacity is in plants larger than 500 MW. By way of contrast, 27 percent of the steam electric capacity was built before 1960, and only 54 percent is in plants greater than 500 MW. The significance of these facts for the industry is that these older and smaller plants have shorter remaining economic lives in which to amortize the costs of pollution control equipment.

The overwhelming majority of steam electric power plants are direct dischargers. Only about 85 of the 850 plants are indirect dischargers. Moreover, many of these 85 plants discharge at least one or more waste streams into the waters of the United States and are thus also direct dischargers.

Existing indirect dischargers are much smaller on the average (150 MW) than direct dischargers (540 MW). With new plant construction, the proportional dominance of direct over indirect dischargers will increase.

The basic process for producing electricity begins with boiling water to produce high-temperature, high-pressure steam. At a fossil-fuel plant, coal, oil, or gas is burned to boil water. Ash materials are formed in coal and low-grade oils that must be collected and disposed of. A common disposal method uses water to sluice ash materials to a disposal pond. At a nuclear plant, atomic reactions produce the heat to boil the water.

Expansion of high pressure steam drives the blades of a turbine, and a generator then converts the turbine's mechanical energy into electrical energy. Once steam has passed through the turbine, it is condensed by transferring heat to cooling water in a heat exchanger called the condenser. The condensed water is returned to the boiler (after polishing) to begin the cycle again.

As a result of the steam/water cycle and ash handling operations, chemical pollutants may be discharged into the Nation's waterways through various waste streams. Two of the major waste streams covered by today's proposal are related to the process of condensing the steam with cooling water (once-through cooling water and cooling tower blowdown); the other major waste streams are related to the process of

burning coal or oil in the boiler (fly and bottom ash transport water).

—*Once-through cooling water.*—All plants circulate large volumes of water through their condensers in order to condense steam in the turbines. About 550 of the 850 existing plants use a "once-through" cooling system. With such a system, the plant withdraws water from a water body, passes the water through the condensers, and then discharges the heated water into a receiving water body. At an average plant, the flow of the once-through cooling water is approximately 210 million gallons per day (MGD).

The thermal efficiency of the steam cycle can be greatly reduced if biological growth ("biofouling") occurs in the condensers. Primarily because of this problem, about 60 percent of all plants add chlorine to once-through cooling water systems to control biofouling. Plants using chlorine have the potential to discharge total residual chlorine (TRC) and chlorinated compounds into the navigable waters. TRC is a pollutant that has been studied extensively and is known to adversely affect aquatic life.

—*Cooling tower blowdown.*—Some plants recirculate part of the cooling water. When the cooling water passes through the condensers, it is heated from the condensing steam, and must be cooled before reuse. One common cooling device, used at approximately 330 plants, is the evaporative cooling tower.

Cooling towers do not recirculate 100 percent of the cooling water. To control the buildup of dissolved solids, a small percentage of the recirculating water is discharged. This discharge is known as cooling tower "blowdown."

At an average plant, the flow of the cooling tower blowdown is approximately 0.6 MGD. Since most plants with recirculating systems add chlorine to control condenser biofouling and cooling tower slime, this practice results in the discharge of TRC. In addition, other toxic chemicals may be added to control surface scaling, corrosion, and biofouling within the cooling tower.

—*Ash transport water.*—Coal or oil that is burned in a boiler produces some ash that requires disposal. Some relatively fine and light-weight ash is commonly carried out of the boiler with the flue gases and collected with air pollution control equipment. This is called "fly ash." The relatively bulky and heavy ash that settles at the bottom

of the boiler's furnace is called "bottom ash."¹

Most plants discharge all of the water used for ash sluicing. This practice is called once-through sluicing. Some plants recirculate some of this water, and these systems are called recirculating ash sluicing systems. At an average plant using wet fly ash systems, the discharge is approximately 2 MGD. For wet bottom ash transport systems, the discharge rate from an average plant is about 1.3 MGD.

IV. Scope of Rulemaking and Summary of Methodology

EPA's 1973-1976 round of rulemakings emphasized the achievement of best practicable technology (BPT) by July 1, 1977. In general, this technology level represents the average of the best existing performances of well known technologies for control of familiar (i.e., "classical") pollutants.

This round of rulemaking, in contrast, aims for the achievement by July 1, 1984, of the best available technology economically achievable (BAT) that will result in reasonable further progress toward the national goal of eliminating the discharge of all pollutants. At a minimum, this technology level represents the very best economically achievable performance in any industrial category or subcategory. Moreover, as a result of the Clean Water Act of 1977, the emphasis of EPA's program has shifted from "classical" pollutants to the control of a lengthy list of toxic substances.

In its 1977 legislation, Congress recognized that it was dealing with areas of scientific uncertainty when it declared the 65 "priority" pollutants and classes of pollutants "toxic" under Section 307(a) of the Act. These priority pollutants were relatively unknown outside of the scientific community, and those engaged in wastewater sampling and control had little experience dealing with them. Additionally, these pollutants, primarily the organic pollutants, often have toxic effects at very low concentrations, and analytical techniques were not available to monitor these quantities. Though Congress was aware of these difficulties and of the expense of "toxics" control and detection, it nevertheless directed EPA to act quickly and decisively to detect, measure, and regulate these substances.

¹ Sometimes "economizer ash" is collected from the flue gas between the boiler and the air pollution control device. This ash is generally intermediate in size and weight between bottom ash and fly ash. It is commonly combined with bottom ash for transport and disposal.

EPA's implementation of the Act required a complex program to develop new analytical techniques, as well as extensive technical and economic data about the industry. Using the information from this program, the Agency has developed regulations for the steam electric power generating industry.

EPA first studied the steam electric power industry to determine whether differences in fuel type, equipment, age and size of plants, water usage, wastewater constituents, or other factors required the development of separate effluent limitations and standards for different segments of the industry. This involved a detailed analysis of wastewater discharges and treated effluent characteristics, including: 1) the sources and volume of water use, the processes employed, and the sources of pollutants and wastewaters in the plant; and 2) the constituents of wastewaters, including toxic pollutants. Such analyses enabled the Agency to determine the presence and concentrations of priority pollutants in wastewater discharges.

EPA also identified several distinct control and treatment technologies (both in-plant and end-of-pipe processes) for potential use in the steam electric power industry. The Agency analyzed both historical and newly generated data on the performance of these technologies, including their non-water quality environmental impact on air quality, solid waste generation, water consumption, and energy requirements.

The cost of each control and treatment technology was estimated from unit cost curves developed by standard engineering analyses of control technologies representative of the proposed effluent standards. EPA derived the unit process costs by applying model plant characteristics (production and flow) to the unit cost curve of each treatment technology (i.e., dechlorination, chlorine minimization, dry fly ash transport, recirculation of ash sluice water, etc.). These unit process costs were added together to yield the total cost.

A two-pronged approach was taken in the economic analysis of the steam electric industry that examined the economic effects of the regulations at both plant and industry level.

The plant level analysis focused on plants representing the most common characteristics of steam electric generating plants, as well as the sectors believed to be most vulnerable to the impact of BAT regulations. After selecting five model plants based on these criteria, the Agency computed the costs of generating electricity at each of the

plants in order to establish a benchmark. Later, the costs of the technologies capable of achieving the proposed regulations were computed, and the differences between these and the baseline costs were compared.

The industry level analysis, on the other hand, was aimed at determining the total cost of the proposed regulations that will be assumed by the electric utility industry and its customers. An additional effort was made to assess the effects of the increased costs on the physical and financial operations of the industry. Here too, baseline projections were made which were later compared to the projections that incorporated the costs of the proposed regulations.

Using the technical and economic data, the Agency characterized the various control and treatment technologies as BAT, PSES, PSNS, and NSPS. The proposed regulations, however, do not require the installation of any particular technology. Rather, they require effluent limitations representative of the proper operation of these technologies or equivalent technologies.

V. Data Gathering Efforts

In 1976-77, under the authority of Section 308 of the Act, the Agency sent detailed questionnaires to approximately 900 steam electric facilities, of which 812 responded. Requested information included: age distribution by boiler; mode of operation; fuel type; discharge flow; construction material; chemical additives; intake water quality; geographical location; and best engineering judgment on the presence of the 65 families of toxic pollutants in power plant wastewaters.

EPA, through the use of its contractors, visited 36 power plants in order to gather additional information on costs, wastewater characteristics, production details, and pollution control systems. The Agency also surveyed literature and conducted both field and bench scale studies to collect information on treatability and treatment systems not currently used in the industry.

In addition to the foregoing data sources, supplementary data were obtained from NPDES permit files in EPA regional offices, engineering studies on treatment facilities, and contacts with state pollution control offices. EPA also contacted suppliers and manufacturers for information regarding chemical use and treatment systems.

VI. Sampling and Analysis Program

As Congress recognized in enacting the Clean Water Act of 1977, the state-of-the-art ability to monitor and detect toxic pollutants is limited. Apart from the metals and a small number of organic pollutants, most of the toxic pollutants were relatively unknown until a few years ago. As a result, for many toxic pollutants, primarily the organic pollutants, the Agency has not yet promulgated analytical methods under Section 304(h) of the Act. The sampling protocol and analytical techniques used in this rulemaking are described in *Sampling and Analysis Procedures for Screening of Industrial Effluents for Priority Pollutants*, as revised April 1977. These procedures, with minor modifications, were proposed in FR 69464-69575, December 3, 1979.

Before proceeding to analyze any industrial wastewaters, EPA concluded that it had to isolate specific toxic pollutants for analysis. The list of 65 pollutants and classes of pollutants potentially includes thousands of specific pollutants; analyses for all of them would overwhelm private and government laboratory resources. In order to make the task more manageable, EPA selected 129 specific toxic "priority pollutants" for study in this rulemaking and other industry rulemakings. The criteria for choosing these pollutants included the frequency of their occurrence in water, their chemical stability and structure, the amount of the chemical produced, and the availability of chemical standards for measurement.

Because Section 304(h) methods were available for analyzing most toxic metals, pesticides, cyanide, and phenolics, the analytical effort focused on methods of sampling and analyzing organic toxic pollutants. EPA considered three basic analytical approaches: infrared spectroscopy; gas chromatography (GC); and gas chromatography/mass spectrometry (GC/MS). In selecting among these alternatives, EPA considered their sensitivity, laboratory availability, costs, applicability to diverse waste streams from numerous industries, and capacity for implementation within the statutory and court-ordered time constraints of EPA's program.

EPA chose GC/MS for its first phase of the steam electric sampling program because it is the only available technique that can identify a wide variety of pollutants in many different wastewaters, in the presence of interfering compounds, and within the time constraints of the program. In EPA's judgement, GC/MS and the other

analytical methods used in this rulemaking represent the best state-of-the-art methods for toxic pollutant analyses available when this study began. The Agency chose GC only for most of the second phase of the steam electric sampling program because: (1) GC is a better analytical method for quantification where there is no interference with the compounds of interest; and (2) the time and cost of GC analyses were more attractive to the Agency.

Although EPA has refined its sampling and analytical protocols as technology has advanced, resource constraints prevent the Agency from reworking completed analyses according to new analytical methods. The analytical techniques used in some rulemakings may therefore differ from those used in others, but each case represents the best analytical methods available for a given industry study.

The steam electric sampling data base includes information on the presence and magnitude of the 129 pollutants from 52 power plants. Although the primary focus of this program involved streams with the largest discharge flows—once-through cooling water, cooling tower blowdown, and ash transport waters—the Agency also sampled other waste streams such as flue gas desulfurization system blowdown, boiler blowdown, floor drainage, and demineralizer regenerants.

The high costs, slow pace, and limited laboratory capability for toxic pollutant analyses presented limitations to both the amount and quality of steam electric power plant data that could be collected. The cost of analyzing each wastewater sample for organic priority toxic pollutants ranges between \$650 and \$1,700, not including sampling costs. Although efficiency has been improving, when this sampling program began, a well-trained technician using the most sophisticated equipment could perform only one complete organic analysis in an eight-hour work day. Moreover, there were less than 20 commercial laboratories in the United States with sufficient capability to perform these analyses. Today there are about 75 commercial laboratories known to the Agency that have the capability to analyze for priority pollutants, and the number is increasing as the demand for such capability increases.

The organic priority pollutants were analyzed using EPA's December 3, 1979 proposed 304(h) method. Methylene chloride was used to extract the acid and base/neutral organic fractions; hexane/methylene chloride extracted the pesticide containing fractions. The

acid and base/neutral fractions were reduced in volume and analyzed by gas chromatography-mass spectrometry (GC/MS) or gas chromatography (GC). Pesticides were analyzed by electron capture gas chromatography followed by GC/MS confirmation of positive results. Volatile organics were analyzed by the purge and trap method of introducing the material into the inlet system.

Metals analyses were by atomic adsorption (AA) spectrophotometry or inductively coupled argon plasma (ICAP) optical emission spectrometry except that the standard cold vapor method was used for mercury. ICAP is now a proposed standard 304(h) method of analysis.

Analyses for cyanide and cyanide amenable to chlorination also used 304(h) methods. Analyses for asbestos fibers used transmission electron microscopy with selected area defraction; results were reported as chrysotile fiber count.

Analyses for conventional pollutants (BOD₅, TSS, pH, and oil and grease) and nonconventional pollutants (total residual chlorine, iron, ammonia, fluoride, and COD) were performed by 304(h) methods. Table XIX summarizes those pollutants that were detected as a net discharge at least once for each waste stream in the steam electric sampling data base. Additional data is included in the development document.

VII. Industry Subcategorization

Current Part 423 divides the steam electric industry into three subcategories based on generating units, small units and old units.² This was based on considerations relating to thermal regulations; all of the 1974 chemical limitations apply uniformly to each subcategory. Partly because regulations for thermal discharges are not included in the proposal, this subcategorization scheme is not retained here.

This scheme was also reevaluated from information compiled through questionnaire surveys, plant visits, and the sampling and analysis program for priority pollutants. This reevaluation consisted of both statistical and engineering analyses to assess the influence of age, size, fuel type, geographic location (certain factors specified in S304), and other variables on wastewater pollutant loading and the need for subcategorization. On the basis of the statistical and engineering studies, EPA concluded that there is no

² A fourth "subcategory" is area runoff. 40 CFR Part 423, Subpart D. EPA recently reinstated certain limitations in this subcategory (45 FR 37432, Vol. 45, No. 108, June 3, 1980).

need to retain the current subcategorization scheme, and that the basic differences among plants can be accommodated through separate limitations for each waste stream. A description of the slightly modified waste stream subcategorization scheme, and the statistical and engineering analyses are presented in Section IV of the Development Document.

As discussed in Part XV below, the regulations contain a built-in "safety valve" in the event an individual plant's technical, cost, non-water quality environmental impact, and engineering characteristics are so fundamentally different as to warrant a variance from national limitations.

EPA is also proposing to change the Part 423 format in three other respects. First, boiler blowdown discharges currently are regulated separately from low volume waste discharges. While both have the same TSS and oil and grease limitations, there are additional copper and iron limitations for boiler blowdown. (Compare 40 CFR 423.12(3) with 40 CFR 423.12(6).) Information available to EPA since 1974 indicates that the levels of copper and iron in boiler blowdown have consistently been much lower than expected. Because of the low concentrations, and because of the relatively low flow levels from the boiler blowdown stream (33,260 gpd at an average coal-fired plant) the Agency has concluded that boiler blowdown should be regulated as any other low volume waste. Accordingly, the regulations proposed below no longer treat boiler blowdown as a separately regulated stream. Boiler blowdown discharges would be regulated as part of low volume wastes, and the copper and iron limitations would no longer apply.

Second, certain limitations currently designated as BAT are now redesignated as BCT (see Section VIII below). The current list of conventional pollutants includes BOD, TSS, fecal coliform, oil and grease, and pH. Limitations for TSS and oil and grease are designated as BCT for low volume wastes, metal cleaning wastes, and runoff from coal piles and chemical storage areas. The limitation for pH is also designated as BCT and is applied to all discharges, except once-through cooling water. In all cases the limitations now designated as BCT are the same as those under current BPT because the BAT limits had been equivalent to BPT. Accordingly, the BCT designations are not to be considered subject to comment as part of this proposed rulemaking package.

Third, the regulations proposed below clarify an issue of applicability for the "metal cleaning wastes" stream

limitations. In the current Part 423, there are identical TSS and oil and grease limits for both the metal cleaning waste stream and the "low volume" waste stream. Compare 423.12(b)(3) with 423.12(b)(5). For the metal cleaning waste stream, however, there are additional limitations for copper and iron.³ Currently, some confusion exists as to what types of cleaning practices are subject to the more stringent metal cleaning waste limitations.

Current Part 423 broadly defines "metal cleaning wastes" to include wastes derived from cleaning any metal process equipment, including boiler fireside cleaning and air preheater cleaning. 40 CFR 423.10(j). Despite the regulatory language, however, EPA adopted a policy in a memorandum of June 17, 1975, which narrowed the coverage of the metal cleaning waste limitations. In this memo, EPA stated that metal cleaning with water only would be considered a "low volume" waste and that only wastes resulting from cleaning with chemical solutions would be considered as metal cleaning wastes.

EPA has reconsidered this position and concluded that it should not be followed in the future. The cost and technology data supporting the copper and iron limitations in the original Part 423 apply to all wastes defined in 423.10(j), whether they result from washing with water only or with chemical solutions. Moreover, there are toxic pollutants in these waste streams even where only water is used for washing.⁴

Accordingly, the regulations proposed below make clear that the "metal cleaning waste" definition will apply according to its terms, and the question of whether washing is done with water only will be irrelevant. Because many dischargers may have relied on EPA's memorandum of June 1975, however, the regulations proposed below adopt the memorandum's position for purposes of BPT only.

Finally, it should be noted that discharges from flue gas desulfurization (FGD) systems are currently regulated as low volume waste discharges. EPA has determined that this discharge stream should be regulated separately because the flow of the blowdown from the wet scrubber system can be far greater than flows from other low volume streams. Further, analyses of effluents from this waste stream indicate potential discharges of toxic

³For both streams, the BAT limitations are identical to the BPT limitations.

⁴EPA based the iron and copper limitations on the availability of chemical precipitation technology.

substances such as arsenic, lead, mercury, selenium, cadmium, etc. The Agency does not have sufficient data on this stream at this time to propose revised BAT, NSPS and pretreatment standards. In the interim, the BPT control for low volume wastes limiting TSS, pH, and oil and grease will still be applied to discharges from flue gas cleaning systems using wet scrubbing.

Accordingly, the Agency reserves this stream for limitations to be developed in the future.

VIII. General Criteria for Effluent Limitations

A. BAT Effluent Limitations

In its assessment of the best available technology economically achievable, EPA considers the following factors:

1. Age and size of equipment and facilities;
2. Process employed;
3. Engineering aspects of applying various technologies;
4. Process changes;
5. Costs of achieving effluent reductions; and
6. Non-water quality environmental impacts (including energy requirements).

At a minimum, BAT represents the very best economically achievable performance of plants of various ages, sizes, processes, or other shared characteristics; uniformly inadequate performance may require a transfer of BAT from different industry categories or subcategories. BAT also may include process changes or internal controls even when these are not common industry practice.

The statutory assessment of BAT "considers" costs, but does not require a balancing of costs against effluent reduction benefits (see *Weyerhaeuser Company v. Costle*, 590 F. 2d 1011 (D.C. Cir. 1978)). In developing this proposed BAT, however, EPA has given substantial weight to the reasonableness of costs. The Agency has considered the volume and nature of discharges both before and after application of BAT, the general environmental effects of the pollutants, and the costs and economic impacts of the required pollution control levels. Nevertheless, the primary determinant of BAT is effluent reduction capability. Congress stressed in Section 301(b)(2)(A) that BAT "shall require the elimination of discharges of all pollutants" if the Administrator finds such a requirement technologically and economically achievable.

B. Best Conventional Pollutant Control Technology

The 1977 amendments added Section 301(b)(4)(E) to the Act, establishing

"best conventional pollutant control technology" (BCT) for discharges of conventional pollutants from existing industrial point sources. Conventional pollutants are those defined in Section 304(b)(4)—BOD, TSS, fecal coliform, and pH—and any additional pollutants defined by the Administrator as "conventional." On July 30, 1978, EPA designated oil and grease as a conventional pollutant (44 FR 44501).

BCT is not an additional limitation; rather it replaces BAT for the control of conventional pollutants. BCT requires that limitations for conventional pollutants be assessed in light of a new "cost-reasonableness" test which involves a comparison of the cost and level of reduction of conventional pollutants from the discharge of publicly owned treatment works (POTW) to the cost and level of reduction of such pollutants from a class or category of industrial sources. As a part of its review of BAT for certain "secondary" industries, the Agency has promulgated a methodology for this cost test. (See 44 FR 50732, Aug. 29, 1979.) The Agency compares industry costs with that of an "average" POTW with a flow of 2 mgd and costs (1977 dollars) of \$1.18 per pound of pollutant removal (BOD and TSS).

C. New Source Performance Standards

The basis for new source performance standards (NSPS) under Section 306 of the Act is the best available demonstrated technology. New plants have the opportunity to design the best and most efficient steam electric generating processes and wastewater treatment technologies, and Congress therefore directed EPA to consider the best demonstrated process changes, in-plant controls, and end-of-pipe treatment technologies which reduce pollution to the maximum extent feasible.

D. Pretreatment Standards for Existing Sources

Section 307(b) of the Act requires EPA to promulgate pretreatment standards for existing sources (PSES) which must be achieved within three years of promulgation. PSES are designed to prevent the discharge of pollutants which pass through, interfere with, or are otherwise incompatible with the operation of POTWs. The Clean Water Act of 1977 adds a new dimension by requiring pretreatment for pollutants, such as heavy metals, that limit POTW sludge management alternatives, including the beneficial use of sludges on agricultural lands. The legislative history of the 1977 Act indicates that pretreatment standards are to be

technology-based, analogous to the best available technology for removal of toxic pollutants. The general pretreatment regulations (40 CFR Part 403), which served as the framework for these proposed pretreatment regulations for the steam electric power generating industry, can be found at 43 FR 27736 (June 26, 1978).

E. Pretreatment Standards for New Sources

Section 307(c) of the Act requires EPA to promulgate pretreatment standards for new sources (PSNS) at the same time that it promulgates NSPS. New indirect dischargers, like new direct dischargers, have the opportunity to incorporate the best available demonstrated technologies (including process changes, in-plant controls, and end-of-pipe treatment technologies) and to select plant sites that ensure adequate treatment system installation.

IX. Rationale for Proposal by Waste Streams

A. Once-Through Cooling Water

1. *Pollutants present.*—The Agency detected several pollutants in once-through cooling water discharges. Table XIX lists those pollutants detected at least once in greater concentrations in the effluent than in the influent. The pollutants present as a result of plant operation are copper, chromium, nickel, zinc, bromoform, chloroform, chlorodibromomethane, and total residual chlorine (TRC).

2. *Need to control TRC.*—In general, chlorine is a strong oxidizing agent with a high solubility in water. Numerous reports are available that document the toxicity of chlorine and its byproducts to aquatic organisms. Chlorine in water may be present as free available chlorine (hypochlorous acid or hypochlorite ion) or combined residual chlorine (mono-, di-, and tri-chloramines) or other chlorine derivatives. Studies have shown that the toxicity to aquatic life is dependent on the concentration of total residual chlorine (TRC) remaining in the water, including both free available and combined residual chlorine, as well as the duration of contact.⁵

Of about 550 plants with once-through cooling, EPA estimates that 335 use chlorine for biofouling control.

3. *Available technologies and techniques.*—Because of current requirements in Part 423, and because of state and local requirements, many

⁵ In estuarine/marine environments, brominated compounds are formed instead. The term "residual oxidants" is more appropriate than "residual chlorine" in such cases.

power plants already are making efforts to reduce their TRC discharges. The principal ways in which to curtail or eliminate TRC discharges include the following:

(a) *No biocides.*—The intake water quality at many plants is such that condenser biofouling is not a problem. Characteristics of this type of intake water include high turbidity, low dissolved oxygen or low temperatures. Currently, 40 percent of the plants with once-through cooling water do not chlorinate.

(b) *Use of alternative biocides to chlorine.*—Some plants with biofouling problems use other biocides than chlorine. The alternative biocides include chloride bromide, chlorine dioxide and ozone.

(c) *Chlorine minimization.*—In the past, caution has dictated the liberal chlorination of chlorination of condenser tubes. Plant operators are discovering, however, that by following careful operating, monitoring, and maintenance procedures, they can significantly reduce the use of chlorine without impeding effective biofouling control.

In essence, "chlorine minimization" is nothing more than a program designed to assure the most efficient use of chlorine and reduce the amount of TRC discharged. Such a program requires plant personnel to conduct a number of tests to determine the minimum amount of chlorine necessary to control biofouling. Chlorination practices then can be adjusted in accordance with the test results. Continued monitoring and inspection of the condensers on a periodic basis is also required.

Many power plants undergoing some form of chlorine minimization program find that they do not need biofouling control at all; others find that their current chlorine doses can be reduced significantly.

(d) *Dechlorination.*—Some plants have installed chemical treatment devices that remove a significant amount of TRC from the cooling water before it is discharged from the plant. Most of these dechlorination devices use sulfur dioxide or sodium thiosulfate to accomplish TRC reduction. The reaction products, if sulfur dioxide is used, are sulfate ions, chloride ions and ammonium bisulfate. Each is present in low concentrations and have been shown to have insignificant pH and dissolve oxygen shift effect. This technology has been demonstrated to be effective both in fresh and salt water media. This technology reduces TRC to less than 0.14 mg/l at any time (instantaneous maximum).

(e) *Mechanical antifouling devices.*— Some plants use mechanical devices, either with chlorine or in place of chlorine, to control biofouling. Two types of on-line mechanical devices are used. One method uses sponge rubber balls of slightly larger diameter than the inside diameter of the tubes to be cleaned. The balls are fed to the inlet of the exchanger, forced through the tubes under water pressure, removed at the downstream side of the heat exchanger, and recycled. A second method uses brushes which are installed in each tube. Movement of the brushes is induced by periodic changes in the direction of the cooling water flow.

4. *Proposed Regulation— a. BAT.*— The Agency is proposing to prohibit the discharge of total residual chlorine (TRC); however, power plants that demonstrate a need for chlorine to control condenser biofouling may discharge the minimum amount of TRC necessary (chlorine minimization program). In no event may a TRC discharge exceed 0.14 mg/l maximum concentration at the point of discharge. Moreover, TRC may not be discharged from any discharge point for more than two hours per day unless the plant shows that chlorination for a longer period is required for crustacean control. The current Part 423 provision prohibiting simultaneous chlorination of several units would be deleted. This provision is already incorporated into the chlorine minimization requirements.

Section 301(b)(2)(A) of the Act requires the Agency to develop limitations that will result in reasonable further progress towards eliminating all pollutant discharges. This section states that BAT limitations must prohibit pollutant discharges if the Agency finds this technologically and economically achievable.

The Agency has determined that at many plants, a prohibition against TRC discharges is technologically and economically achievable. As noted earlier, about 40 percent of existing power plants with once-through cooling do not chlorinate at all. Moreover, the Agency believes that some plants now using chlorine could discontinue it without adverse effect.

Many plants, however, must use chlorine or other means to control biofouling because of the nature of their intake water. For such plants, a total prohibition against TRC discharges may be neither technologically nor economically achievable. Mechanical anti-fouling devices are expensive to backfit, and are not always adequate substitutes for chlorine. There is insufficient data to demonstrate that the alternative biocides can substitute for

chlorine under all cases, or if they are more or less environmentally acceptable on a national basis.⁶

Dechlorination has been demonstrated to be effective from both technical and economic standpoints. While dechlorination significantly reduces the amount of TRC discharged, it does not eliminate it.

Accordingly, the Agency has structured the proposed TRC regulation in two basic parts. First, the proposed regulation contains a general prohibition against TRC discharges. This is BAT for the many plants that do not need chlorine for biofouling control. Second, the proposed regulation requires that any plant which must control biofouling must use only the minimum amount of chlorine demonstrated to be necessary at that plant (chlorine minimization).

Plants needing to use chlorine to control biofouling in their once-through cooling water must demonstrate to the NPDES permit-writer, through the chlorine minimization study set forth in Appendix A of the proposed regulations, how much chlorination is actually necessary at the plant. Based on this study, the permit writer establishes a BAT limitation for that plant (in terms of a TRC concentration level (mg/l) as well as limits on the duration and frequency of chlorine added) reflecting the minimum amount of chlorination necessary to control biofouling. The limitations may vary seasonally or vary with intake water temperature.

The proposed regulation specifies that in no event may a TRC limitation exceed 0.14 mg/l concentration at the point of discharge. The Agency believes that many plants can achieve this limitation merely by following the minimization program. In the event a plant cannot meet this limit with minimization only, the plant could meet the limitation by adding a dechlorination system. Thus, the proposed BAT for plants that must chlorinate requires a minimization program in all cases, and may require dechlorination in some.

The Agency considered the option of merely requiring minimization without specifying a maximum TRC concentration level. Under this option, no plant would be required by BAT to dechlorinate. The Agency's conclusion, however, is that this approach would impede reasonable further progress toward the elimination of TRC discharges throughout the nation because some plants would be allowed to discharge TRC at concentrations

much greater than those which can be achieved by a technology (dechlorination) that is both technically and economically available.

Another option was to specify a maximum TRC concentration level (based upon dechlorination technology for plants that must chlorinate) without first requiring that the plants minimize their use of chlorine. The Agency has rejected this option because many plants have the ability with economically and technologically available procedures (chlorine minimization) to discharge a lower maximum TRC concentration level than is generally achievable on a national basis by dechlorination (maximum of 0.14 mg/l). Further, the chlorine minimization program is environmentally advantageous in that it always reduces, and in some cases eliminates, the discharge of chlorine. Further, those plants that will be required to dechlorinate after the chlorine minimization program will use less dechlorination chemicals.

The Agency believes that the proposed scheme best follows the mandate of § 301(b)(2)(A), which is that BAT should be no discharge unless it is not technologically or economically feasible. The Agency's scheme assures that there will be no TRC discharge at plants where this is technologically and economically feasible, and limits discharges at other plants to the maximum degree technologically and economically feasible.

The Agency is also proposing to limit TRC discharges from plants that must chlorinate to no more than two hours per day unless plant personnel can demonstrate that discharges for longer periods are necessary for crustacean control. This limitation is essentially the same as that which is already in effect for free available chlorine.

Finally, the Agency is proposing to relax current Part 423 in one respect. The current BAT regulation prohibits simultaneous chlorine discharges from more than one unit at any plant, even if each unit is meeting the maximum concentration and hours-per-day limitations. The Agency is proposing to eliminate this restriction because plants with multiple units may not be able to comply with the one unit at a time restriction. The current Part 423 provision prohibiting simultaneous chlorination of several units (unless a demonstration of need is made) would be deleted. This provision is already incorporated into the chlorine minimization requirements.

This change is necessary because the proposed discharge limitations are more stringent than BPT and adequate

⁶This is not to say that the use of alternative biocides and/or mechanical systems might not be appropriate in some cases.

biofouling control for multi-unit plants, in some cases, may require multi-unit chlorination. It should be noted that BPT provides for exemption from the "one-unit-at-a-time" requirement if the need for multi-unit chlorination can be demonstrated. The minimization program required by this proposed regulation is equivalent to the demonstration of need required under BPT.

b. *NSPS*.—The proposed NSPS is the same as the proposed BAT.

Section 306(a)(1) directs the Agency to set a NSPS which prohibits pollutant discharges "where practicable." The Agency must also consider costs. § 306(b)(1)(B). For the same reasons discussed in part 4a above, practical considerations and high costs are the reasons for not imposing an across-the-board prohibition on TRC discharges. The Agency is accordingly proposing to make NSPS equivalent to BAT.

c. *PSES*.—The proposed PSES do not restrict the discharge of any pollutants from this wastewater source.

For PSES, the Agency is proposing no limitations on TRC because no plants currently discharge their once-through cooling water to POTW's. In addition, TRC dissipates in the POTW system.

d. *PSNS*.—For PSNS, EPA is proposing no limitations on TRC or any other pollutants. Because of the massive flows, it is unlikely that new plants will discharge to POTW's. In addition, the TRC dissipates in the POTW system.

B. Cooling Tower Blowdown

1. *Pollutants present*.—Several pollutants detected in cooling tower blowdown discharges were attributed entirely to their presence in the intake water. The sampling data show that the following pollutants are being discharged as a result of power plant operations: copper, nickel, zinc, asbestos, benzene, chloroform, 2,4-dichlorophenol, total phenolics and TRC. Table XIX lists those pollutants that were detected at least once in the EPA data base in greater concentrations in the effluent than in the influent.

2. *Need to control TRC and other chemicals added for cooling tower maintenance*.—Chlorine is commonly added to cooling water to inhibit organism growth in both the tower and the condenser. Of about 300 plants with recirculating cooling systems, approximately 75 percent of these plants use chlorine. The need to control TRC discharges was covered in the previous discussion on once-through cooling water. In addition to chlorine, other chemicals may be added to control scaling, corrosion, and biofouling of the tower itself. Scaling, corrosion, and

biofouling affect cooling tower performance and are the major maintenance items that are commonly handled by chemical treatment. Some of these chemicals contain priority pollutants.

3. *Available technologies and techniques*—(a) *For control of TRC*.—The technologies and techniques for TRC control are essentially the same as discussed for once-through cooling (Part IV (A)(3) above).

(b) *For control of 129 toxic pollutants discharged from chemicals added for cooling tower maintenance*.—Many power plants can avoid or minimize discharges of the 129 toxic pollutants from the cooling tower blowdown stream by using chemicals that do not contain the 129 toxic pollutants. Many plants are already using some of these readily available chemicals.

(c) *For control of all pollutants from recirculating cooling water systems*.—Some plants (principally in the southwest) do not discharge cooling tower blowdown but use evaporation ponds to eliminate all discharges. In areas where net evaporation is less than 20 inches/year, this is not a practical technology. Vapor compression distillation (VCD) is sometimes used to reduce the volume of wastewater to be evaporated and to provide recovery of water for inplant use. VCD is a forced evaporation system which evaporates over 90 percent of the water. The vapor is condensed and reused by the plant as makeup water, and the remaining 10 percent is a concentrated brine that is disposed of in evaporation ponds or spray dryers.

(d) *For control of heavy metals*.—An available option for removal of chromium and zinc is precipitation. This treatment method involves the addition of chemicals to precipitate the dissolved metals and sedimentation or filtration to remove suspended solids. This technology is required under existing BAT. This treatment method is effective in lowering amounts of dissolved metals.

4. *Proposed regulation*—a. *BAT*.—The Agency is proposing to limit TRC discharges to a maximum concentration of 0.14 mg/l at any time. The Agency is also proposing to prohibit the discharge of all chemicals used for tower and condenser maintenance that contain any of the 129 toxic priority pollutants. Plants with cooling towers are not required to demonstrate the need to chlorinate or to undergo a minimization program.

For Control of TRC: One technology that is available to achieve the .14 mg/l TRC limit is dechlorination. In some cases, plants may be able to meet this

limitation without dechlorination, by a minimization program, and/or by using other good management practices, i.e., discontinuation of discharge for two to three hours until the TRC dissipates inside the system.

The Agency is not requiring a chlorine minimization program because such a program would be unduly complex for this stream (as compared to once-through cooling) since chlorine may be required for cooling tower maintenance as well as biofouling control in the condenser tubes. Moreover, minimization is not as important in this waste stream because the daily flow is commonly less than 1/100th of the once-through cooling water flow.

The Agency has rejected a no discharge limitation because it would either require the use of alternative biocides for biofouling control or would require vapor compression distillation. Some of these alternative biocides may be as toxic as chlorine. The Agency does not believe vapor compression distillation is a viable technology for the treatment of this waste stream since disposal of the brine wastes in an environmentally acceptable manner may not be technically feasible in some cases and, may be too expensive in some geographical locations.

Thus, because dechlorination is clearly technologically and economically achievable, the Agency has determined that the 0.14 mg/l limit, which can be met by dechlorination, is BAT for the control of TRC. Meeting this limit will result in reasonable further progress toward the Act's no discharge goal.

For control of the 129 toxic pollutants: Many chemicals are available for cooling tower maintenance that do not contain any of the 129 toxic pollutants, and these chemicals can effectively and economically protect cooling towers and system equipment from scaling, corrosion, and biofouling problems. High levels of chromium and zinc are present in cooling tower blowdown only if they were added for tower maintenance. Although precipitation reduces the discharge of these chemicals, it will not be able to eliminate it as in the case of using replacement material. Therefore, BAT for this stream prohibits the use of chemicals containing the 129 pollutants (no discharge of chemicals added for cooling tower maintenance).

For control of phosphorus: Phosphorus is used in cooling towers primarily for scaling control. The existing BAT requires treatment of phosphorus to 5 mg/l. The Agency has determined that this requirement is not necessary because (1) the limited use of phosphorus in cooling towers and (2) the

environmental impact is quite site specific. The Agency has determined that the environmental effect of this non-toxic/non-conventional pollutant is adequately addressed by water quality standards. The proposed BAT is, therefore, relaxed in this respect, and the current limitation for phosphorus will not apply.

b. *NSPS*.—The proposed NSPS controls for cooling tower blowdown are identical to the proposed BAT controls. The same factors and considerations discussed in the BAT section immediately above apply here.

c. *PSES and PSNS*.—For PSES and PSNS, EPA is proposing no limitations on TRC because most of the TRC dissipates before reaching the POTW and the remaining low levels do not warrant control. For the 129 priority pollutants and phosphorus, EPA is proposing PSES equal to BAT because the Act's legislative history indicates that pretreatment standards should be equivalent to BAT. Moreover, these pollutants (primarily chromium, zinc, and pentachlorophenol) are not compatible with POTW treatment and may interfere with POTW operation or limit their sludge disposal options. For PSES and PSNS, the Agency is proposing no limitations on phosphorus as in the case for BAT.

C. Ash Transport Water

1. *Fly ash*—a. *Pollutants present*.—Table XIX lists those pollutants that were detected at least once in the EPA data base in greater concentrations in the effluents than in the influents. The following toxic pollutants are believed to be a result of transporting fly ash: arsenic, antimony, beryllium, selenium, nickel, lead, chromium, copper, zinc, and cadmium.

These materials enter the water primarily via dissolution of reactive compounds on the surface of the fly ash particles. Only plants handling fly ash with partially recirculating or wet once-through systems contribute to this problem. Gas-fired and nuclear plants do not generate ash. Further, out of approximately 850 steam electric plants, only 43 oil-fired plants and 183 coal-fired plants currently discharge fly ash sludge water (many of the oil-fired facilities do not collect fly ash and would not be affected by regulations for fly ash transport water).

b. *Need to control toxics from this stream*.—The sampling data demonstrates that toxic pollutants are present in the fly ash transport water discharge stream; however, most of these pollutants are also present in the plants' make-up or intake water source. Data on concentrations of pollutants in

the intake water and fly ash transport water discharges are limited to seven of approximately 25 plants (nationally) with separate fly ash ponds. These data do not demonstrate a consistent pattern. That is, at certain plants the observed concentrations (or average concentrations) of some toxics are higher in the intake water than in the ash pond discharge while for other toxics the reverse is true. In other cases, effluent concentrations are higher than intake concentrations but the observed values are close to or at the detectable limit for the pollutant. The Agency's conclusion is that the present data base is not sufficient to support any reasonable estimation of net discharges of toxic pollutants for the industry from this waste source. This conclusion is based on the small numbers of observations and the large variation in the data.

C. Available technologies and techniques

1. *Dry fly ash transport*.—Currently 48 percent of the 352 coal-fired plants and 14 percent of the 429 oil-fired plants in the country use dry fly ash transport and disposal systems. Such systems of transport carry fly ash collected in precipitators to short-term storage vessels (silos) by vacuum or pressurized air. No water is used in the transport. The ash in the silos is trucked to landfill disposal sites.

A number of these facilities retrofitted their systems—that is, they replaced wet sluicing to ponds with the dry transport systems. This method of handling fly ash eliminates the discharge of all ash sludge water and thus eliminates priority pollutant discharge.

The motivation for retrofitting dry fly ash systems for these facilities may be the result of a water shortage in the area, state or local requirements, or a plant's desire to market the fly ash.

2. *Partial recirculation of fly ash sludge water*.—Currently 52 percent of coal fired plants and 10 percent of oil fired plants wet sluice their fly ash to a disposal pond. This method carries ash from the fly ash hoppers to a settling pond or basin using water as the transport medium. Most plants operate in a once-through mode since they do not pump any of the ash water back to be reused. Of the plants wet sluicing fly ash, 9 percent coal-fired plants partially recirculate the sludge water. The sluiced ash is commonly pumped to settling ponds and then flows to a clear pond where water is recirculated to the main sluice pumps. In partially recirculating systems, a portion of the clear pond overflow is discharged. Theoretically, partial recirculation reduces the flow of

ash transport discharge and therefore the mass rate of discharge for priority pollutants; however, data to quantify the degree of toxic reduction are not available at the present time.

Essentially no major equipment need be removed in order to retrofit a partially recirculating system from a wet once-through system, other than the rerouting of old pipe. The addition of recirculation pumps to move the pond water, and a recirculation pond are required. The technology is in use today at some facilities and is available to all plants. The degree of water recycle/reuse practiced by existing facilities with recirculating systems varies. The Agency has not identified any plants with complete recirculation (no blowdown or point source discharge).

3. *Chemical precipitation*.—Another available technology option is chemical precipitation of the final discharge from the partially recycled ash sludge water.

Chemical precipitation, in particular lime precipitation, has been demonstrated over many years as an effective method of removing heavy metals from aqueous solutions. The Agency has data to quantify arsenic removal to 50 ppb although the removal of other inorganic priority pollutants was also studied. The Agency has demonstrated the effectiveness of lime precipitation for reducing levels of metals in fly ash pond effluents in bench scale tests.

The Agency's data base indicates that approximately 10 percent of the plants discharging fly ash sludge water will have high levels of dissolved arsenic (exceeding .05 mg/l).

d. *Proposed regulation*—1. *BAT*.—The Agency is not proposing any additional controls for fly ash transport water beyond those established by BPT at this time. This decision is the result of careful consideration of factors including costs, treatment technology availability, quantity of pollutants removed, and other factors. The ash ponds generally used to achieve BPT limits already produce substantial reductions in the amounts of toxic pollutants discharged from fly ash transport water.

EPA seriously considered proposing a no-discharge limitation for all plants larger than 200 MW based upon dry fly ash transport. While EPA found this option to be technologically feasible for these plants, EPA has concluded that the extremely high costs to the industry (\$3.19 billion in capital costs for 1980–1985) could not be justified in view of the inconclusive nature of the available data regarding the degree of toxic pollutant reduction to be achieved beyond BPT. EPA does not feel that it

would be responsible to impose such costly additional requirements in the face of such uncertainty. EPA's decision is not based upon consideration of water quality impacts. The decision is based solely on the inconclusive nature of the data regarding the degree of effluent reduction that would be achieved.

Another option to eliminate discharge is through complete recirculation of ash transport water. However, the information available to the Agency at this time is not sufficient to determine if this system is technically achievable.

The Agency rejected partial recirculation (with blowdown) because data are not available at this time to support a specific numerical effluent limitation for any toxic pollutant; nor can the Agency conclude at this time that any non-toxic pollutant parameter (such as TSS) could serve as an "indicator" for toxic control from partial recirculation. In addition, more stringent limitations for conventional pollutants based on partial recirculation are not imposed because the cost will not pass the cost reasonableness test for Best Conventional Technology.

Precipitation has been explored as a technology option for inorganic priority pollutant removal from ash pond overflows. Precipitation is rejected because the mean concentrations of most of the inorganic pollutants from the untreated ash ponds overflow are less than the treated levels through precipitation from other industrial plants, and thus no technology transfer can be made. The Agency conducted a pilot study and determined that precipitation can remove inorganic pollutants from ash pond overflows; but the data are not sufficient to specify the removal level achievable at a full scale plant.

Precipitation is an option for treating arsenic at certain plants with high levels of arsenic. Existing data are available to specify a removal level for arsenic of 0.05 mg/l. This level is estimated to be exceeded by 10 percent of the coal-fired facilities. Although the precipitation technology option was not selected for proposal, it, together with the dry fly ash transport requirements will be seriously considered as an alternate BAT option in the future.

EPA has decided not to propose further control of fly ash transport water beyond BPT for existing sources at this time because the available data do not support the need for further control.⁷ EPA is considering further sampling and industry profile studies, that would

possibly allow the Agency to reassess its position. The Agency requests public comment on how such a program might best be structured.

2. *NSPS and PSNS.*—The proposed NSPS and PSNS prohibits all discharges of fly ash water. In light of the large number of plants already using dry fly ash systems, the technology is clearly demonstrated and available. Unlike BAT, the costs for a dry fly ash handling system are not appreciable different than costs for wet sluicing fly ash in a new plant. All new sources regardless of size are prohibited from discharging fly ash water. The Agency does not anticipate any of the new sources to discharge their fly ash transport water to POTWs.

3. *PSES.*—For PSES, EPA is proposing no additional control beyond existing PSES. This is equivalent to no control.

2. *Bottom ash transport water—*a. *Pollutants present.*—Similar pollutants were detected in bottom ash transport water and fly ash transport water (see Part IV(C)(1)), but the concentrations detected in bottom ash sluice water discharges were typically lower. Moreover, in comparison to the fly ash sampling data, the data on bottom ash water discharge displays a more consistent pattern of lower concentrations in the effluent than in the intake water.

At most plants sampled, the concentrations of priority inorganic pollutants detected in the bottom ash pond were less than the concentrations detected in the raw or intake water source. The bottom ash data are still somewhat inconclusive due to small sample size and large variability. The pollutants detected in bottom ash transport water are summarized in Table XIX of Section XI.

b. *Need to control toxics from this stream.*—The following priority inorganic pollutants were detected at least once in the EPA sampling data base: antimony, nickel, arsenic, lead, beryllium, chromium, copper, cadmium, mercury, selenium, and zinc. In most cases, however, the observed effluent concentrations of these pollutants are smaller than the intake water concentrations. Thus, the need to control toxic pollutants for this waste stream beyond BPT is not warranted on the basis of the sampling data now available to the Agency.

c. *Available technologies and techniques—*(i) *Dry transport.*—Approximately 70 plants currently transport their bottom ash using a dry system and report no discharge to the navigable waters. Dry transport of bottom ash entails the mechanical removal of the bottom ash from the

bottom ash bin and mechanical transport (conveyor type) to a temporary storage vessel. The ash from the temporary storage vessel is transported by truck to the permanent disposal site. No water is required in this transport system. Dry handling of bottom ash is typical of plants with stoker-fired boilers. These plants usually have small capacities, with relatively small amounts of bottom ash generated.

(ii) *Partial to complete recirculation.*—Many plants recirculate their bottom ash transport water with a blowdown stream to control the buildup of dissolved solids. A completely recirculating system returns all of the ash sluice water to the ash collecting hoppers for repeated use in sluicing. A recirculating system can be operated at partial recirculation, usually 12.5 or 25 times recycle, or operated with a complete recycle of bottom ash sluice water. The Agency has not identified any plants with complete recirculation except those in arid areas using evaporation ponds to eliminate final discharge.

(iii) *Precipitation.*—This is the same treatment method as discussed in part 3(c) of the fly ash section.

d. *Proposed regulation—*1. *BAT.*—No further control beyond BPT is proposed. The Agency has considered the above options and determined that in view of the waste characteristics and costs of control options, adequate control methods are imposed under BPT for this waste stream.

Dry transport of bottom ash for all plants is rejected because this technology is known to be adequate for handling only small amounts of bottom ash. The Agency does not believe that this technology is economically feasible and technically available on a national basis.

The Agency seriously considered the options of partial to complete recirculation of bottom ash sluice water. Although complete recirculation is concluded to be a technically feasible option, the high costs, and the fact that the data to quantify the effluent reduction beyond BPT are inadequate, are the two major reasons for not selecting this option. The Agency may gather additional information on this waste source (through the sampling program discussed in Part IV (c)(1) above), and the Agency's position may be reassessed upon review of the new information.

The Agency is proposing the withdrawal of the current BAT requirement of 12.5 recycle of bottom ash sluice water based on the removal of conventional pollutants because the "reasonableness" of this option using

⁷ All available data are published as an appendix to the Steam Electric Development Document.

the cost tests for conventional pollutants in 40 CFR Part 405 (August 23, 1978) was assessed and for all plant sizes, the 12.5 recycle option did not pass the BCT test.

Precipitation is rejected because the effectiveness of this technology in bottom ash wastewater is uncertain. The mean concentrations of the inorganic priority pollutants are lower than the treated levels from other industries using this technology, and thus a technology transfer cannot be established. Bench scale studies applying this technology to ash pond effluents indicate effective removal of certain trace metals, but more studies are necessary to confirm these results.

2. *NSPS*.—For the same reasons that EPA is not proposing any requirements beyond BPT for existing sources, EPA is proposing to withdraw the current NSPS requirement of 20 times recycle and substitute the basic BPT requirement in its place. Unlike dry fly ash handling systems for new sources (which are no more costly than other fly ash handling systems) a recycle system for bottom ash is substantially more expensive than other bottom ash handling systems.

3. *PSES and PSNS*.—The proposed PSES and PSNS do not restrict the discharge of any pollutants from this wastewater source. The costs of controlling priority inorganic pollutants and the low levels of pollutants detected do not warrant the imposition of effluent standards for this waste stream at this time.

X. Pollutants Not Regulated

Under the Settlement Agreement, the Agency is generally required to establish BAT, NSPS, and pretreatment standards for each of the 129 toxic pollutants detected, unless a pollutant is present in a discharge solely because of its presence in intake waters. Paragraph 8 of the Settlement Agreement, however, permits the Agency to exclude a detected toxic pollutant from coverage on several grounds, among which are:

Ground 1—Sufficient protection is already provided by the Agency's guidelines and standards under the Act (§8(a)(i));

Ground 2—The pollutant is detectable only in a small number of sources within the industrial category and is uniquely related to those sources (§8(a)(iii));

Ground 3—The pollutant is present only in trace amounts and is neither causing nor likely to cause toxic effects (§8(a)(iii));

Ground 4—The pollutant is present in amounts too small to be effectively reduced by technologies known to the Agency (§8(a)(iii)).

Paragraph 8(c) requires the Agency to prepare an affidavit for the parties

involved in the Settlement Agreement stating the reasons for all paragraph 8 exclusions. This provision also requires the Agency to identify each exclusion, summarize the reasons for it, and solicit public comments in the *Federal Register* preamble announcing the proposed regulations. The Agency is therefore listing each exclusion below and summarizing the reason for them. The Agency hereby solicits comment on the proposed exclusions.

(a) *Once-Through Cooling Water*.—Seven priority pollutants were detected in the cooling water discharge that were attributed to power plant operation.

Copper, nickel, zinc and chromium may be discharged from plants using those metals as alloys for piping or equipment. The average detected levels range from one to ten ppb. The Agency has determined to exclude these metals on Ground 4.

Bromoform, chloroform, and chlorodibromomethane are trihalomethanes that are believed to result from cooling water chlorination to control biofouling. These compounds were detected in very low concentrations. The plant with bromoform in the effluent has a marine/estuarine intake. Four of the 18 plants sampled used marine/estuarine water for cooling. Formation of bromoform, as well as other trihalomethanes, is strongly dependent on factors such as chlorine dosage, contact time, pH, temperature, and the presence of precursors in the intake water. These pollutants are excluded from regulation on Grounds 2 and 4. There are no demonstrated technologies economically available to remove these low levels of trihalomethanes at the levels detected and the flows that would require treatment.

(b) *Cooling Tower Blowdown*.—Both organic and inorganic priority pollutants were detected in the cooling tower blowdown. Cooling towers decrease their volume of water primarily through evaporation. This evaporation increases concentration of pollutants in the remaining water, with the exception of possible volatile organics which may be stripped in the tower and some suspended metals which may settle in the cooling tower basin. Pollutants present in cooling tower blowdown as a result of plant operation include several organic and inorganic priority pollutants as listed in Table XIX. Specific limitations for these pollutants are excluded on Grounds 1 and 4.

(c) *Fly Ash Transport Water*.—The waste characteristic data on this waste stream are limited. The observed concentrations of the detected pollutants are generally low and vary

considerably from plant to plant. The Agency has made a preliminary determination that the pollutants in this waste stream from existing power plants are excluded from further control on Ground 1.

(d) *Bottom Ash Transport Water*.—The Agency has determined that the presence of priority inorganic pollutants are the result of these pollutants leaching from the bottom ash. Most of the concentrations of these metals were below the proposed water quality criteria for industrial and municipal effluents. Thus, the Agency is not proposing any further control of these pollutants and is excluding these pollutants from further regulation on Grounds 1 and 3.

(e) *Low Volume Wastewaters*.—As explained in part VII above, the Agency is proposing to add boiler blowdown wastes into this subcategory and remove air scrubber blowdown wastes. The Agency is not proposing further control of pollutants from this waste stream on Ground 4. The net pollutants detected at least once from this waste stream are listed in Table XIX. The inorganic pollutants are present at concentrations which are below the level of treatability (Ground 4) and in such small quantity that they will not cause toxic effects (Ground 3). The concentrations observed are representative of plants after compliance with BPT.

(f) *Metal Cleaning Wastewaters*.—The Agency is not proposing further control of pollutants from this waste stream on Grounds 1 and 4. The Agency already requires precipitation technology under BPT.

(g) *Coal Pile and Chemical Handling Area Runoff*.—The Agency has excluded further control (beyond BPT) of pollutants from this waste stream on Ground 1 in that sufficient protection is already provided by the Agency's guidelines and standards under the Act.

XI. Variances and Modifications

Upon the promulgation of final regulations, federal and state NPDES permits issued to direct dischargers must apply the numerical effluent limitations. Also on promulgation, the pretreatment limitations are enforced directly by the Agency against indirect dischargers.

In setting these national limitations, the Agency has considered data from various power plants in light of all of the relevant statutory factors contained in §§ 301 and 304 (i.e., non-water quality impact, age, size, etc.). The Agency has accordingly determined that the national limits proposed herein generally represent BAT, etc., for plants

throughout the country. It is possible, however, that a specific plant might be so fundamentally different with respect to the plants the Agency studied such that the national limitations do not accurately reflect BAT, etc., within the meaning of the Act for that plant.

Accordingly, the Agency is proposing to allow individual plants (and/or other interested parties) to seek case-by-case variations from EPA's national limitations through a "fundamentally different factors (FDF)" variance clause. The Agency already has promulgated such a clause that applies to all other industrial categories. 40 CFR 125.30-32, 44 FR 32950, June 7, 1979, amended at 45 FR 33512, May 19, 1980. The Agency is hereby proposing to extend the same clause to the steam electric industry for BAT, PSES, and PSNS limits.

This proposed clause would not affect the BPT variance clause which EPA promulgated for the steam electric industry at 43 FR 44846, September 29, 1978. That clause continues to appear in the BPT regulations in the proposed regulatory section below. Nor would it apply to NSPS because of the Supreme Court ruling in *duPont v. Train*, 430 U.S. 112 (1977).

Those commenting on extending 40 CFR 125.30-32 to the steam electric industry for BAT and pretreatment purposes should consider the preamble discussion accompanying the promulgation of that clause. It appears at 44 FR 32893-94.

In addition to the FDF variance, BAT limitations for *non-toxic pollutants* (such as TRC) are subject to modifications under Sections 301(c) and 301(g). Under Section 301(1), these statutory modifications are not applicable to "toxic" pollutants. Likewise, limitations on conventional and nonconventional pollutants used as "indicators" for toxic pollutants are not subject to Section 301(c) or Section 301(g) modifications, unless the discharger demonstrates that a waste stream does not contain any of the toxic pollutants for which the "indicator" was designed to demonstrate removal.

Pretreatment standards for existing sources are also subject to the credits for pollutants removed by POTW's. See 40 CFR §§ 403.7, 403.13; 43 FR 27736 (June 26, 1978). Pretreatment standards for new sources are subject only to the credits provision in 40 CFR § 403.7.

XII. Non-Water Quality Aspects of Pollution Control

The elimination or reduction of one form of pollution may aggravate other environmental problems. Therefore, Sections 304(b) and 306 of the Act require the Agency to consider the non-

water quality environmental impacts (including energy requirements) of certain regulations. In compliance with these provisions, the Agency has considered the effect of these regulations on air pollution, solid waste generation, water scarcity, and energy consumption. This proposal was circulated to and reviewed by Agency personnel responsible for non-water quality environmental programs. While it is difficult to balance pollution problems against each other and against energy use, the Agency is proposing regulations that it believes best serve often competing national goals.

The following are the non-water quality environmental impacts (including energy requirements) associated with the proposed regulations:

A. Air Pollution—Applications of NSPS using dry fly ash handling may cause a higher dust loading in certain localized areas unless a baghouse or other type of filter is placed on the vent from the silo. The cost of installing such a system is included in the economic analysis. Dry fly ash landfill sites must be watered down in arid climates to control dust emissions.

B. Solid Waste—No additional solids are expected from the proposed regulations.

C. Consumptive Water Loss—None of the requirements will cause significant evaporative water loss.

D. Energy Requirement—Energy requirement for the proposed regulations is restricted primarily to the pumping of dechlorination chemicals. These requirements are insignificant compared to the power generation.

XIII. Costs, Effluent Reduction Benefits, and Economic Impact

The Agency's economic impact assessment is set forth in *Economic Analysis of Proposed Effluent Limitations Guidelines, New Source Performance Standards and Pretreatment Standards for the Steam Electric Power Generating Point Source Category*, EPA August, 1980. This report details the investment and annualized costs for the steam electric power generating industry as a whole and for model plants covered by the proposed regulations. The data underlying the analysis were obtained from the Development Document.

On a national basis, the total capital expenditures required to bring existing plants into compliance with the proposed regulations for the period 1980-1985 equals \$120 million. This represents 0.05 percent of the total anticipated capital expenditures for the industry during the same period. With

the addition of operation and maintenance costs, this means that the average electric bill for consumers would increase approximately 0.04 percent. Additionally, the estimated capital expenditures for plants coming on line between 1985 to 1995 are \$80 million.

Individual plants affected by the regulations may experience somewhat larger cost increases than the 0.04 percent. For example, the costs of generating electricity at an old 25 MW plant are expected to rise 3.5 percent, and at an old 100 MW plant, 1.3 percent.

A zero cost figure was attributed to fly ash handling systems at new plants because the system required by these regulations costs no more than alternative systems utilities may have installed in the absence of these regulations.

Finally, the proposed regulations will not place an economic burden on indirect dischargers. That is, the costs for complying with the alternative cooling tower chemical additives requirement is considered to be negligible. Furthermore, the Agency does not anticipate any of the new power plants to discharge their fly ash transport waters to POTWs.

The discrepancies between the percentage increase in costs on the national level and those on the plant level can be explained by the fact that the affected population of plants represents only a portion of the entire electric utility industry. That is, many utilities generate power from plants that are either not encompassed in this rulemaking (e.g., hydroelectric plants) or that incur only small cost increases (e.g., large nuclear plants).

Although data are scarce, preliminary estimates indicate that the proposed regulations will result in the following reduction or elimination of pollutants by waste stream types:

(1) Once Through Cooling Water: 17.4 million pounds per year of total residual chlorine.

(2) Cooling Tower Blowdown:
(a) 30,000 lbs/yr of total residual chlorine;
(b) 157,000 lbs/yr of toxics (chromium, zinc, chlorinated phenolics, others).

XIV. Best Management Practices (BMP's)

Section 304(e) of the Clean Water Act authorizes the Administrator to prescribe "best management practices" ("BMP's"). The Agency intends to develop BMP's that are: (1) applicable to all industrial sites; (2) applicable to a designated industrial category; and (3) offer guidance to permit authorities in

establishing BMP's required by unique circumstances at a given plant.

Although BMP's are not being proposed at this time, the Agency may consider developing BMP's specific to the Steam Electric Industry in the future.

XV. Upset and Bypass Provisions

A recurring issue has been whether industry guidelines should include provisions authorizing noncompliance with effluent limitations during periods of "upset" or "bypass". An upset, sometimes called an "excursion," is unintentional noncompliance occurring for reasons beyond the reasonable control of the permittee. Upset provisions have been called necessary because such upsets may occur due to limitations even in properly operated control equipment. On the other hand, because technology-based limitations can require only what technology can achieve, it is claimed that liability for such situations is improper. When confronted with this issue, courts have been divided on the question of whether an explicit upset or excursion exemption is necessary, or whether upset or excursion incidents may be handled through the Agency's exercise of enforcement discretion. Compare *Marathon Oil Co. v. EPA*, 564 F.2d 1253 (9th Cir. 1977) with *Weyerhaeuser v. Costle, supra* and *Corn Refiners Association, et al. v. Costle*, No. 7801069 (8th Cir., April 2, 1979). See also *American Petroleum Institute v. EPA*, 540 F.2d 1023 (10th Cir. 1976); *CPC International, Inc. v. Train*, 540 F.2d 1320 (8th Cir. 1976); *MMC Corp. v. Train*, 539 F.2d 973 (4th Cir. 1976).

While an upset is an unintentional episode during which effluent limits are exceeded, a bypass is an act of intentional noncompliance to circumvent waste treatment facilities during emergency situations. Bypass provisions have been included in NPDES permits.

The Agency has decided to include both upset and bypass provisions in NPDES permits, and has promulgated NPDES regulations that include upset and bypass permit provisions. See 44 FR 32854, 32862-3 (June 7, 1979). The upset provision establishes an upset as an affirmative defense to prosecution for violation of technology-based effluent limitations. The bypass provision authorizes bypassing to prevent loss of life, personal injury, or severe property damage. Consequently, although permittees in the steam electric power generating industry will be entitled to upset and bypass provisions in NPDES permits, these proposed regulations do not address these issues.

XVI. Relationship to NPDES Permits

The BPT, BAT, and NSPS limitations in these regulations will be applied to individual steam electric plants through NPDES permits issued by EPA or approved state agencies under § 402 of the Act. A preceding section of this preamble discussed the binding effect of these regulations on NPDES permits, except where variances and modifications are expressly authorized. This section describes several other aspects of the interaction of these regulations and NPDES permits.

One subject that has received different judicial rulings is the scope of NPDES permit proceedings in the absence of effluent limitations guidelines and standards. Under current EPA regulations, states and EPA Regions issuing NPDES permits prior to promulgation of these regulations or July 1, 1981, whichever is sooner, must include a "re-opener clause", providing for permits to be modified to incorporate "toxics" regulations when they are promulgated. See 40 CFR 122.62(c), 45 FR 33449, May 19, 1980. To avoid cumbersome modification procedures, the Agency has adopted a policy of issuing short-term permits, with a view toward issuing long-term permits only after promulgation of these and other BAT regulations, or July 1, 1981, whichever is sooner. The Agency has published rules designed to encourage states to do the same. See 40 CFR 122.62(a), 45 FR 33452. In the event that the Agency or state finds it necessary to issue long-term permits prior to promulgation of BAT regulations, both EPA and state offices will follow essentially the same procedures used in many cases of initial permit issuance. The appropriate technology levels and limitations will be assessed by the permit issuer on a case-by-case basis on consideration of the statutory factors. See *U.S. Steel Corp. v. Train*, 556 F.2d 822, 844, 854 (7th Cir. 1977). In these situations, EPA documents and draft documents (including these proposed regulations and supporting documents) are relevant evidence, but not binding, in NPDES permit proceedings. See 44 FR 32854, 32893 (June 7, 1979).

Another issue is the effect of these regulations on the powers of NPDES permit-issuing authorities. The promulgation of these regulations does not restrict the power of any permit-issuing authority to act in any manner that is consistent with law on these or any other EPA regulations, guidelines, or policy. For example, the fact that these regulations do not control a particular pollutant does not preclude the permit issuer from limiting such pollutant on a

case-by-case basis, when necessary to carry out the purposes of the Act. In addition, to the extent that state water quality standards or other provisions of state or Federal law require limitation of pollutants not covered by these regulations (or require more stringent limitations on covered pollutants), such limitations *must* be applied by the permit-issuing authority.

One additional topic that warrants discussion is the operation of the Agency's NPDES enforcement program, many aspects of which have been considered in developing these regulations. The Agency wishes to emphasize that although the Clean Water Act is a strict liability statute, the initiation of enforcement proceedings by EPA is discretionary. The Agency has exercised and intends to exercise that discretion in a manner that recognizes and promotes good faith compliance efforts and conserves enforcement resources for those who fail to make good faith efforts to comply with the Act.

XVII. Summary of Public Participation

In September 1978, the Agency circulated a draft technical development document to a number of interested parties, including the Utility Water Act Group (UWAG), the Natural Resources Defense Council (NRDC), Regional EPA offices, and affected state and local authorities. This document did not include recommendations for specific effluent limitations and pretreatment standards. Instead it presented the technical basis for the proposed regulations. A brief summary of major written comments and EPA responses is presented below.

(1) Comment—A number of reviewers expressed concern about the limited amount of data available to the Agency for establishing BAT limitations, especially for toxic pollutants.

Response—The Agency recognizes that the data base for toxic pollutants is limited. This results from a history of infrequent monitoring or regulation, and the high costs and limited technical capabilities for toxic pollutant analyses. The limitations of the available data are a major reason for not proposing the zero discharge of ash transport water at this time. Further, the Agency is reserving regulations for flue gas desulfurization system discharges and ash pile, construction area, and chemical handling area runoff because of inadequate data. The Agency is considering conducting a sampling program to remedy this data deficiency.

(2) Comment—Two reviewers questioned the analytical data establishing effluent concentrations in

wastewater streams on the basis that the precision of the Agency's analytical methods have not been proven in interlaboratory testing.

Response—The Agency has established a protocol for securing and analyzing samples. This protocol is based on the best analytical methods available at the time the program began. The Draft Development Document includes further discussion of EPA's analytical methods.

(3) Comment—One reviewer was concerned that characterization of the industry was inadequate due to improper use or interpretation of "308" data, particularly in identifying the elimination of ash transporting waters.

Response—The data from the 1976 "308" questionnaires have been used only as a screening tool, not as a means of defining specific technologies or specific practices. In cases where existing plants are used to define the extent of usage of a given technology, the Agency has used only information confirmed by direct contact with plant or company personnel.

(4) Comment—Two reviewers noted that in many cases individual wastewater discharges from some power plants do not contain significant concentrations of the regulated pollutants. The new regulations should exclude such wastewaters from monitoring.

Response—Monitoring requirements are established by individual permit writers, who can impose more or less stringent monitoring requirements depending upon their evaluation of the situation. Relaxation of monitoring requirements must be obtained on a case-by-case basis through the permit water.

(5) Comment—Two reviewers noted that the development document does not address the use of refuse or biomass as fuel. These reviewers expressed the opinion that such fuels should be considered in terms of their impact on water quality.

Response—The fuel categories for the steam electric industry as provided in 40 CFR 423.10 are defined as fossil-type fuel gas, oil, and coal or nuclear fuel. Refuse and biomass as fuel sources are not included in this definition; in addition, the use of these fuel types is not a major factor affecting power generation at present. If or when such fuels do become prevalent, the Agency may consider them for wastewater quality impact and may accordingly amend its regulations.

(6) Comment—One reviewer noted that the section on cost, energy, and non-water quality aspects does not include additional disposal

requirements made necessary by regulations under the Resource Conservation and Recovery Act (RCRA). The reviewer felt that these factors should be included.

Response—As noted above, no additional solids are anticipated from the proposed regulation.

(7) Comment—One reviewer noted that there are several steam plants in the country with the same basic equipment and wastewaters as steam electric plants. These plants supply steam for heating as opposed to electricity. The reviewer expressed the opinion that these plants should be included in the regulations.

Response—EPA has defined the industrial coverage for each industry in previous rulemakings. This regulation covers steam electric plants and does not apply to plants which produce steam for use outside the plant boundaries.

XVIII. Solicitation of Comments

The Agency invites and encourages public participation in this rulemaking. The Agency asks that any claimed deficiencies in the record of this proposal be addressed specifically and supported by data.

The Agency particularly requests additional comments and data on the following issues:

(1) The Agency solicits comments on all aspects of the sampling data base, specifically as they are applied in determining the presence and magnitude of toxic pollutants from power plant effluents. The Agency invites power companies to submit their own data which may be relevant to the proposed regulations.

(2) In order to compare the Agency's cost data with the industry's cost data, EPA is requesting detailed information on salient design and operating characteristics; actual installed cost (not estimates of replacement costs) for each unit treatment operation or piece of equipment; the date of installation and the amount of installation labor provided by plant personnel; and the actual cost of operation and maintenance, broken down into units of usage and cost for energy (kilowatt hours or equivalent), chemicals, and labor (work-years or equivalent).

(3) The Agency is requesting that POTWs receiving wastewaters from steam electric plants submit data documenting the occurrence of interference with collection system and treatment plant operations; permit violations; sludge disposal difficulties; or other incidents attributable to the pollutants contained in POTW influent.

(4) Some parties are concerned that operating problems associated with the

proposed technology options may hinder compliance with regulations, particularly dry fly ash transport systems. The Agency is soliciting data supporting this claim. Of particular interest is information from plants that have retrofitted this dry fly ash transport system. For those plants that failed to achieve this end, the specific reasons for such failure and the data supporting these conclusions are solicited.

(5) The Agency is soliciting information on the net discharge of priority pollutants from the following waste streams for steam electric plants:

- (a) fly ash pond discharge;
- (b) recirculating cooling water;
- (c) once-through cooling water;
- (d) bottom ash sluice water discharge;
- (e) coal pile and chemical storage runoff;

- (f) low volume wastes; and
- (g) flue gas desulfurization.

(6) One of the technology options considered was partial to complete recirculation of ash transport water. Data available to the Agency at this time indicate that the concentration of toxic materials does not increase significantly with recirculation. The Agency is soliciting all available data on the effect of recirculation of fly ash and bottom ash wastewater on the discharge of priority inorganic pollutants, in particular the heavy metals.

(7) The Agency is considering additional sampling and industry profile development to attempt to clarify the uncertainty regarding quantities of toxic pollutants in fly ash and bottom ash effluent and intake water. The Agency is soliciting information in these areas and comments on the usefulness and extent of such an effort. In particular the following issues are under consideration and the Agency would benefit from comments on these points:

- (a) Should both fly ash and bottom ash be included?
- (b) How many plants should be sampled and what are the selection criteria?
- (c) How many samples should be taken?
- (d) What pollutants would be analyzed for and which analytical methods should be used?

Dated: October 3, 1980.

Douglas M. Costle,
Administrator.

Appendix A—

Abbreviations, Acronyms, and other Terms Used in this Notice

Act—The Clean Water Act.
Agency—The U.S. Environmental Protection Agency.

BAT—The best available technology economically achievable, applicable to effluent limitations to be achieved by July 1, 1984, for industrial discharges to surface waters, as defined by Section 304(b)(2)(B) of the Act.

BCT—The best conventional pollutant control technology, applicable to discharges of conventional pollutants from existing industrial point sources, as defined by Section 304(b)(4) of the Act.

BMP—Best management practices, as defined by Section 304(e) of the Act.

BPT—The best practicable control technology currently available, applicable to effluent limitations to be achieved by July 1, 1977, for industrial discharges to surface waters, as defined by Section 304(b)(1) of the Act.

Classical pollutants—A general term used to refer to the pollutants of primary concern before the "conventional, nonconventional, and toxic pollutant" designations set forth in the Act as amended.

Clean Water Act—The Federal Water Pollution Control Act Amendments of 1972 (33 U.S.C. 1251 et seq.), as amended by the Clean Water Act of 1977 (Pub. L. 95-217).

Conventional pollutants—Constituents of wastewater as determined by Section 304(a)(4) of the Act, including, but not limited to, pollutants classified as biological oxygen demand, suspended solids, oil and grease, fecal coliform, and pH.

Development Document—Development Document for Proposed Effluent Limitations Guidelines, New Source Performance Standards, and Pretreatment Standards for the Textile Mills Point Source Category, prepared by the Effluent Guidelines Division of EPA.

Direct discharger—An industrial discharger that introduces wastewater to a receiving body of water or land, with or without treatment by the discharger.

Economic analysis—Economic Impact Analysis of Proposed Effluent Limitations Guidelines, New Source Performance Standards, and Pretreatment Standards for the Textile Mills Point Source Category, prepared by the Office of Analysis and Evaluation of EPA.

Effluent limitation—A maximum amount per unit of production (or other unit) of each specific constituent of the effluent that is subject to limitation from an existing point source.

Federal Water Pollution Control Act Amendments of 1972—Public Law 92-500, which provides the legal authority for current EPA water pollution abatement projects, regulations, and policies. The Federal Water Pollution

Control Act was amended further in 1977 in legislation referred to as the Clean Water Act.

Indicator pollutants—A group of pollutants, including, but not limited to, BOD₅, COD, and TSS, which can serve as a basis for limitations on toxic pollutants, which in themselves are very difficult to monitor and expensive to analyze.

Indirect discharger—An industrial discharger that introduces wastewater to a publicly-owned collection system.

In-plant control technologies—Controls or measures applied within the manufacturing process to reduce or eliminate pollutant and hydraulic loadings of raw wastewater. Typical in-plant control measures include chemical substitution, material reclamation, water reuse, water reduction, and process changes.

Internal subcategorization—Divisions within a subcategory to group facilities that, while producing related products from similar raw materials, have differing raw waste characteristics due to the complexity of manufacturing processes employed.

New source—Industrial facilities from which there is, or may be, a discharge of pollutants, and whose construction is begun after the publication of the proposed regulations.

Nonconventional pollutants—Parameters selected for use in developing effluent limitation guidelines and new source performance standards which have not been previously designated as either conventional pollutants or toxic pollutants.

Non-Water environmental quality impact—Deleterious aspects of control and treatment technologies applicable to point source category wastes, including, but not limited to, air pollution, noise, radiation, sludge and solid waste generation, and energy usage.

NPDES—National Pollutant Discharge Elimination System, a Federal program requiring industry and municipalities to obtain permits to discharge plant effluents to the nation's water courses, under Section 402 of the Act.

NSPS—New source performance standards, applicable to industrial facilities whose construction is begun after the publication of the proposed regulations, as defined by Section 306 of the Act.

Performance standards—A maximum weight discharged per unit of production for each constituent that is subject to limitations. Performance standards are applicable to new sources, as opposed to existing sources, which are subject to effluent limitations.

Point source category—A collection of industrial sources with similar function

or product, established by Section 306(b)(1)(A) of the Federal Water Pollution Control Act, as amended for the purpose of establishing Federal standards for the disposal of wastewater.

Pollutant loading—Ratio of the total daily mass discharge of a particular pollutant to the total daily wet production of a mill expressed in terms of (kg pollutant)/(kg wet production).

POTW—Publicly owned treatment works, facilities that collect, treat, or otherwise dispose of wastewaters, owned and operated by a village, town, county, authority, or other public agency.

Pretreatment standard—Industrial wastewater effluent quality required for discharge to a publicly-owned treatment works.

PSES—Pretreatment standards for existing sources of indirect discharges, under Section 307(b) of the Act.

PSNS—Pretreatment standards for new sources of indirect discharges, under Section 307 (b) and (c) of the Act.

RCRA—Resource Conservation and Recovery Act (PL 94-580) of 1976, Amendments to Solid Waste Disposal Act.

Revised Settlement Agreement—A rewritten form of the Settlement Agreement which described provisions authorizing the exclusion from regulation, in certain instances, of toxic pollutants and industry subcategories.

Settlement Agreement—Agreement entered into by EPA with the Natural Resources Defense Council and other environmental groups and approved by the U.S. District Court for the District of Columbia on June 7, 1976. One of the principal provisions of the Settlement Agreement was to direct EPA to consider an extended list of 65 classes of pollutants in 21 industrial categories, including Textile Mills, in the development of effluent limitations guidelines and new source performance standards.

SIC—Standard Industrial Classification, a numerical categorization scheme used by the U.S. Department of Commerce to denote segments of industry.

Toxic pollutants—All compounds specifically named or referred to in the Settlement Agreement, as well as recommended specific compounds representative of the nonspecific or ambiguous groups or compounds named in the agreement. This list of pollutants was developed based on the use of criteria such as known occurrence in point source effluents, in the aquatic environment, in fish, in drinking water, and through evaluations of

carcinogenicity, other chronic toxicity, bioaccumulation, and persistence.

Water use—Ratio of the spent water from a manufacturing operation to the total wet production by the mill, expressed in terms of (liters of wastewater/day)/(Kilogram of wet production/day).

Note:
 X = Present in greater concentration in the effluent than in the influent at least once.
 0 = Never present in greater concentration in the effluent than in the influent.
 * = Since coal pile runoff has no influent stream (except rainfall), this column reflects whether or not the pollutant was ever detected in the coal pile effluent stream.

1. It is hereby proposed to revise Part 423 of Title 40 in its entirety to read as follows:

PART 423—STEAM ELECTRIC POWER GENERATING POINT SOURCE CATEGORY

Sec.

- 423.10 Applicability.
 423.11 General definition.
 423.12 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of best practicable control technology currently available (BPT).
 423.13 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of best available technology economically achievable (BAT).
 423.14 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best conventional pollutant control technology (BCT).
 423.15 New source performance standards (NSPS).
 423.16 Pretreatment standards for existing sources (PSES).
 423.17 Pretreatment standards for new sources (PSNS)
 Appendix A: Chlorine Minimization Program For Once-through Cooling Water
 Appendix B: List of 129 Priority Pollutants

Authority: Sections 301; 304 (b), (c), (e), and (g); 306 (b) and (c); 307 (b) and (c); and 501 of the Clean Water Act (the Federal Water Pollution Control Act Amendments of 1972, as amended by the Clean Water Act of 1977) (the "Act"; 33 United States c. 1311; 1314 (b), (c), (e), and (g); 1316 (b) and (c); 1317 (b) and (c); and 1361; 86 Stat. 816, Pub. L. 92-500; 91 Stat. 1567, Pub. L. 95-217).

§ 423.10 Applicability.

The provisions of this part are applicable to discharges resulting from the operation of a generating unit by an establishment primarily engaged in the generation of electricity for distribution and sale which results primarily from a process utilizing fossil-type fuel (coal, oil, or gas) or nuclear fuel in conjunction with a thermal cycle employing the steamwater system as the thermodynamic medium.

§ 423.11 General definitions.

In addition to the definitions set forth in 40 CFR 401, the following definitions apply to this part:

(a) The term "total residual chlorine" (or total residual oxidants for intake water with bromides) means the value obtained using the amperometric method for total residual chlorine described in "Standard Methods for the Examination of Water and Waste Water," p. 112 (13th edition).

(b) The term "low volume waste sources" means, taken collectively as if

from one source, wastewater from all sources except those for which specific limitations are otherwise established in this part. Low volume waste sources include, but are not limited to: wastewaters from wet scrubber air pollution control systems, ion exchange water treatment system, water treatment evaporator blowdown, laboratory and sampling streams, boiler blowdown, floor drains, cooling tower basin cleaning wastes, and recirculating house service water systems, and (for BPT only) non-chemical metal cleaning waste. Sanitary and air conditioning wastes are not included.

(c) The term "chemical metal cleaning waste" means any wastewater resulting from the cleaning of any metal process equipment with chemical compounds, including, but not limited to, boiler tube cleaning.

(d) The term "metal cleaning waste" means any wastewater resulting from cleaning of (with or without chemical cleaning compounds) any metal process equipment including, but not limited to, boiler tube cleaning, boiler fireside cleaning, and air preheater cleaning.

(e) The term "fly ash" means the ash that is carried out of the furnace by the gas stream and collected by mechanical precipitators, electrostatic precipitators, and/or fabric filters.

(f) The term "bottom ash" means the ash that drops out of the furnace gas stream in the furnace and in the economizer sections.

(g) The term "once through cooling water" means water passed through the main cooling condensers in one or two passes for the purpose of removing waste heat.

(h) The term "recirculated cooling water" means water which is passed through the main condensers for the purpose of removing waste heat, passed through a cooling device for the purpose of removing such heat from the water and then passed again, except for blowdown, through the main condenser.

(i) The term "10 year, 24/hour rainfall event" means a rainfall event with a probable recurrence interval of once in ten years as defined by the National Weather Service in Technical Paper No. 40, "Rainfall Frequency Atlas of the United States," May 1961, and subsequent amendments, or equivalent regional or State rainfall probability information developed therefrom.

(j) The term "blowdown" means the minimum discharge of recirculating water for the purpose of discharging materials contained in the water, the further buildup of which would cause concentration in amounts exceeding limits established by best engineering practices.

(k) The term "average concentration" as it relates to chlorine discharge means the average of analyses made over a single period of chlorine release which may not exceed two hours per discharge point.

(l) The term "free available chlorine" shall mean the value obtained using the amperometric titration method for free available chlorine described in "Standard Methods for the Examination of Water and Wastewater," page 112 (13th edition).

§ 423.12 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available (BPT).

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, utilization of facilities, raw materials, manufacturing processes, non-water quality environmental impacts, control and treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations. In

accordance with the decision in *Appalachian Power Co. v. Train*, 545 F.2d 1351, 1358-60 (4th Cir. 1976). EPA's legal interpretation appearing at 39 FR 30073 (1974) shall not apply to this paragraph. The phrase "other such factors" appearing above may include significant cost differentials and the factors listed in section 301(c) of the Act. In no event may a discharger's impact on receiving water quality be considered as a factor under this paragraph.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available (BPT):

(1) The pH of all discharges, except once through cooling water, shall be within the range of 6.0-9.0.

(2) There shall be no discharge of polychlorinated biphenyl compounds such as those commonly used for transformer fluid.

(3) The quantity of pollutants discharged from low volume waste sources shall not exceed the quantity determined by multiplying the flow of low volume waste sources times the concentration listed in the following table:

[Milligrams per liter]		
Pollutant or pollutant property	BPT effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
TSS.....	100.0	30.0
Oil and grease.....	20.0	15.0

(4) The quantity of pollutants discharged in fly ash and bottom ash transport water shall not exceed the quantity determined by multiplying the flow of fly ash and bottom ash transport water times the concentration listed in the following table:

[Milligrams per liter]		
Pollutant or pollutant property	BPT effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
TSS.....	100.0	30.0
Oil and grease.....	20.0	15.0

(5) The quantity of pollutants discharged in chemical metal cleaning wastes shall not exceed the quantity determined by multiplying the flow of chemical metal cleaning wastes times the concentration listed in the following table:

[Milligrams per liter]		
Pollutant or pollutant property	BPT effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
TSS.....	100.0	30.0
Oil and grease.....	20.0	15.0
Copper, total.....	1.0	1.0
Iron, total.....	1.0	1.0

(6) The quantity of pollutants discharged in once through cooling water shall not exceed the quantity determined by multiplying the flow of once through cooling water sources times the concentration listed in the following table:

Pollutant or pollutant property	BPT effluent limitations	Average concentration
	Maximum concentration	
Free available chlorine.....	0.5 mg/l	0.2 mg/l

(7) The quantity of pollutants discharged in cooling tower blowdown shall not exceed the quantity determined by multiplying the flow of cooling tower blowdown sources times the concentration listed in the following table:

Pollutant or pollutant property	BPT effluent limitations	Average concentration
	Maximum concentration	
Free available chlorine.....	0.5 mg/l	0.2 mg/l

(8) Neither free available chlorine nor total residual chlorine may be discharged from any unit for more than two hours in any one day and not more than one unit in any plant may discharge free available or total residual chlorine at any one time unless the utility can demonstrate to the regional administrator or State, if the State has NPDES permit issuing authority, that the units in a particular location cannot

operate at or below this level of chlorination.

(9) Subject to the provisions of paragraph (10) of this section, the following effluent limitations shall apply to the point source discharges of coal pile runoff:

Pollutant or pollutant property	BPT effluent limitations
	Maximum concentration for any time
TSS.....	50 (mg/l)

(10) Any untreated overflow from facilities designed, constructed, and operated to treat the volume of coal pile runoff which results from a 10 year, 24 hour rainfall event shall not be subject to the limitations in paragraph (9) of this section.

(11) In the event that waste streams from various sources are combined for treatment or discharge, the quantity of each pollutant or pollutant property controlled in paragraphs (b)(1) through (b)(10) of this section attributable to each controlled waste source shall not exceed the specified limitations for that waste source.

§ 423.13 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable (BAT).

Except as provided in 40 CFR §§ 125.30-32, any existing point source subject to this part must achieve the following effluent limitations:

(a) There shall be no discharge of polychlorinated biphenyl compounds such as those commonly used for transformer fluid.

(b) There shall be no discharge of total residual chlorine (or total residual oxidants) from once through cooling water.

(c) Notwithstanding 423.13(b), a facility may, upon showing the Regional Administrator (or the State if the State has the NPDES program) that the facility must use chlorine for condenser biofouling control, discharge the minimum amount of total residual chlorine necessary to operate the facility. Such a showing must be made in accordance with Appendix A.

(d) Upon a successful showing under 423.13(c), the discharge of total residual chlorine is permitted under the following conditions:

(1) The quantity of pollutants discharged in once through cooling water from each discharge point shall not exceed the quantity determined by

multiplying the flow of once through cooling water from each discharge point times the concentration listed in the following table:

Pollutant or pollutant property	BAT effluent limitations	
	Maximum concentration for any time	
Total residual chlorine	0.14 mg/l	

(2) Total residual chlorine may not be discharged from each once through cooling water point source for more than two hours per day unless it is required for crustacean control. Multi-unit chlorination is permitted.

(e) The quantity of pollutants discharged in cooling tower blowdown shall not exceed the quantity determined by multiplying the flow of cooling tower blowdown times the concentration listed below:

Pollutant or pollutant property	BAT effluent limitations	
	Maximum concentration for any time	
Total residual chlorine	0.14 mg/l	

(f) There shall be no discharge of cooling tower maintenance chemicals which contain the 129 priority pollutants (Appendix B).

(g) The quantity of pollutants discharged in metal cleaning wastes shall not exceed the quantity determined by multiplying the flow of metal cleaning wastes times the concentration listed in the following table:

Pollutant or pollutant property	BAT effluent limitations	
	Maximum concentration for any time	
Copper	1.0 mg/l	
Iron	1.0 mg/l	

(h) In the event that waste streams from various sources are combined for treatment or discharge, the quantity of each pollutant or pollutant property controlled in paragraphs (a) through (g) of this section attributable to each controlled waste source shall not exceed the specified limitation for that waste source.

§ 423.14 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best conventional pollutant control technology (BCT).

Except as provided in 40 CFR 125.30-125.32, any existing point source subject to this subpart must achieve the following effluent limitations representing the degree of effluent reduction attainable by the application of the best conventional pollutant control technology (BCT):

(a) The limitations for coal pile runoff are the same as those specified in §§ 423.12(b) (9) and (10).

(b) The quantity of pollutants discharged from low volume waste sources shall not exceed the quantity determined by multiplying the flow of low volume waste sources times the concentration listed in the following table:

Pollutant or pollutant property	[Milligrams per liter]	
	BCT effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
TSS	100.0	30.0
Oil and grease	20.0	15.0

(c) The quantity of pollutants discharged from fly ash and bottom ash transport water shall not exceed the quantity determined by multiplying the flow of fly ash and bottom ash transport water times the concentration listed in the following table:

Pollutant or pollutant property	[Milligrams per liter]	
	BCT effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
TSS	100.0	30.0
Oil and grease	20.0	15.0

(d) The quantity of TSS and oil and grease discharged from metal cleaning wastes shall not exceed the quantity determined by multiplying the flow of metal cleaning wastes times the concentration listed in the following table:

Pollutant or pollutant property	[Milligrams per liter]	
	BCT effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
TSS	100.0	30.0
Oil and grease	20.0	15.0

(e) The pH of all discharges, except once through cooling water, shall be within the range of 6.0-9.0.

(f) In the event that waste streams from various sources are combined for treatment or discharge, the quantity of each pollutant or pollutant property controlled in paragraphs (a) through (e) of this section attributable to each controlled waste source shall not exceed the specified limitation for that waste source.

§ 423.15 New source performance standards (NSPS).

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

(a) The pH of all discharges, except once through cooling water, shall be within the range of 6.0-9.0.

(b) There shall be no discharge of polychlorinated biphenyl compounds such as those commonly used for transformer fluid.

(c) The quantity of pollutants discharged from low volume waste sources shall not exceed the quantity determined by multiplying the flow of low volume waste sources times the concentration listed in the following table:

Pollutant or pollutant property	[Milligrams per liter]	
	NSPS effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
TSS	100.0	30.0
Oil and grease	20.0	15.0

(d) The quantity of pollutants discharged in metal cleaning wastes shall not exceed the quantity determined by multiplying the flow of metal cleaning wastes times the concentration listed in the following table:

[Milligrams per liter]		
Pollutant or pollutant property	NSPS effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
TSS	100.0	30.0
Oil and grease	20.0	15.0
Copper, total	1.0	1.0
Iron, total	1.0	1.0

(e) The quantity of pollutants discharged in bottom ash transport water shall not exceed the quantity determined by multiplying the flow of the bottom ash transport water times the concentration listed in the following table:

[Milligrams per liter]		
Pollutant or pollutant property	NSPS effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
TSS	100.0	30.0
Oil and grease	20.0	15.0

(f) There shall be no discharge of copper, nickel, zinc, arsenic and selenium from fly ash transport water.

(g) There shall be no discharge of total residual chlorine (or total residual oxidants) from once through cooling water.

(h) Notwithstanding 423.15(g), a facility may upon showing the Regional Administrator (or the State if the State has the NPDES program) that the facility must use chlorine for condenser biofouling control, discharge the minimum amount of total residual chlorine necessary to operate the facility. Such a showing must be made in accordance with Appendix A.

(i) Upon successful showing as required under 423.15(h), the discharge of total residual chlorine is permitted under the following conditions:

(1) The quantity of pollutants discharged in once through cooling water from each discharge point shall not exceed the quantity determined by multiplying the flow of once through cooling water from each discharge point times the concentration listed in the following table:

Pollutant or pollutant property	NSPS effluent limitations	
	Maximum concentration for any time	
Total residual chlorine	0.14 mg/l	

(2) Total residual chlorine may not be discharged from each once through cooling water point source discharge for more than two hours per day unless it is required for crustacean control. Multi-unit chlorination is permitted.

(j) The quantity of pollutants discharged in cooling tower blowdown shall not exceed the quantity determined by multiplying the flow of cooling tower blowdown times the concentration listed below:

Pollutant or pollutant property	NSPS effluent limitations	
	Maximum concentration for any time	
Total residual chlorine	0.14 mg/l	

(k) There shall be no discharge of cooling tower maintenance chemicals which contain the 129 priority pollutants (Appendix B).

(l) Subject to the provisions of 423.15(m), the quantity or quality of pollutants or pollutant parameters discharged in coal pile runoff shall not exceed the limitations specified below:

Pollutant or pollutant property	NSPS effluent limitations	
	Maximum concentration for any time	
TSS	50 (mg/l)	

(m) Any untreated overflow from facilities designed, constructed, and operated to treat the coal pile runoff which results from a 10 year, 24 hour rainfall event shall not be subject to the limitations in 423.15(l).

(n) In the event that waste streams from various sources are combined for treatment or discharge, the quantity of each pollutant or pollutant property controlled in paragraphs (a) through (m) of this section attributable to each controlled waste source shall not exceed the specified limitation for that waste source.

§ 423.16 Pretreatment standards for existing sources (PSES).

Except as provided in 40 CFR § 403.13, any existing source subject to this subpart which introduces pollutants into a publicly owned treatment works must comply with 40 CFR 403 and achieve the following pretreatment standards for existing sources (PSES):

(a) There shall be no discharge of polychlorinated biphenol compounds such as those used for transformer fluid:

(b) The pollutants discharged in metal cleaning water shall not exceed the concentration listed in the following table:

Pollutant or pollutant property	PSES pretreatment standards (mg/l)	
	Maximum for 1 day	
Copper, total	1.0	

(c) The pollutants discharged in cooling tower blowdown shall not exceed the concentration listed in the following table:

Pollutant or pollutant property	PSES pretreatment standards	
	Maximum for any time	
Chemicals added for cooling tower maintenance which contains the 129 priority pollutants.	No detectable amount.	

§ 423.17 Pretreatment standards for new sources (PSNS).

Any new source subject to this part which introduces pollutants into a publicly owned treatment works must comply with the general pretreatment regulations in 40 CFR Part 403 and the following pretreatment standards:

(a) There shall be no discharge of polychlorinated biphenyl compounds such as those used for transformer fluid.

(b) The pollutants discharged in metal cleaning wastes water shall not exceed the concentration listed in the following table:

Pollutant or pollutant property	PSNS pretreatment standards (mg/l)	
	Maximum for 1 day	
Copper, total	1.0	

(c) The pollutants discharged in cooling tower blowdown shall not

exceed the concentration listed in the following table:

Pollutant or pollutant property	PSNS pretreatment standards
	Maximum for any time
Chemicals added for cooling tower maintenance which contains the 129 priority pollutants.	No detectable amount.

(d) There shall be no discharge of copper, nickel, zinc, arsenic, and selenium from fly ash transport water.

§ 125.30 [Amended]

2. It is hereby proposed to amend 40 CFR 125.30(a) by amending the last sentence thereof to read as follows:

(a) * * * This subpart applies to all national limits promulgated under Sections 301, 304 and 307(b) of the Act, except for the BPT limits contained in 40 CFR Part 423 (steam electric generating point source category).

Appendix A—Chlorine Minimization Program for Once-Through Cooling Water

Purpose

The purpose of chlorine minimization is to reduce the discharge of chlorine or its related compounds to receiving waters. This description is intended to explain what a chlorine minimization program is and how to develop and implement one. Anticipated situational factors and how to approach them are also presented.

Background

Chlorine is commonly added to condenser cooling water of steam electric facilities in order to control the growth of various organisms (algae, bacteria, barnacles, clams) that would otherwise attach to surfaces in the condenser, cooling towers, or to other components of the cooling system and prevent the system from functioning properly.

The attachment of these various organisms to the cooling water system is called biofouling. Since the control method using chlorine involves creating a residual dose of reactive chlorine, some of the chlorine used to control biofouling is still present when the cooling water is discharged from the plant. It is desirable to minimize the discharge of free and combined residual chlorine from steam electric powerplants due to the toxicity these compounds have on aquatic life.

Various power plants have undertaken some type of program to reduce the use of chlorine. The results of these programs indicate that significant chlorine reduction can be achieved in many cases. Some of the plants found that chlorination is not required at all while others have found that the amount of chlorine added can be significantly reduced, especially during the winter months.

General Approach

In order to determine the minimum amount of chlorine a specific powerplant requires, a

chlorine minimization study must be undertaken. A detailed approach to chlorine minimization is presented in the Draft Development Document for the Steam Electric Industry. A chlorine minimization study should last at least a full year, during which each of the following three variables is controlled at various levels until the minimum value that permits proper plant performance is determined:

1. *Dose* of chlorine added—where dose is defined as the total amount of chlorine added per unit volume of cooling water.

2. *Duration* of chlorine addition—where duration is defined as the length of time between the start and end of a single period of chlorine addition.

3. *Frequency* of chlorination—where frequency is defined as the number of periods of chlorine addition per day or week.

During the trials of various combinations of dose, duration, and frequency, data on plant performance must be collected. These data may include turbine back pressure, condenser back pressure and the temperature drop across the condenser. The performance data can be analyzed to determine if proper plant performance is being maintained. Different plants will necessarily employ different measures of performance to ensure that conditions specific to that plant are taken into account. If plant performance is not adequate, dose, duration, or frequency is increased until proper performance is again achieved. At the end of a full year of study, which takes into account seasonal variations in water quality and biological organisms, data are available to define the minimum dose, duration and frequency. These minimum values then define the proper chlorination procedure to be used for future operations. Performance data on the system must be taken periodically to check the adequacy of the procedure and to enable any needed changes to be made.

The level of sophistication taken in the development of such a program is highly variable. At the discretion of plant operators, the chlorine dose may be related to physical or chemical properties of the cooling water. At this level of sophistication, considerable water quality data must be taken. The advantage of such an approach is that dose can be controlled directly by monitoring one water quality parameter.

In addition to the general considerations presented, specific factors that must be considered include the following:

(a) The portion of the cooling system which would require chlorine for biofouling control, and

(b) Other methods, besides chlorine minimization, that would achieve the same end result of reducing the discharge of chlorine and its related compounds.

With regard to the first of these factors, biofouling is frequently not a problem in many portions of the cooling system. Although biological growth occurs in all segments of the cooling system, the most sensitive portion is usually the condenser. Biological growth in the other segments does not generally impair the operation and efficiency of the plant with the exception of plants with incrustaceans (barnacles, clams) in the intake water. The relocation of the

point of chlorine addition to the condenser inlet box can result in significant reduction in the quantity of chlorine required to achieve the necessary level of free available chlorine at the condenser. Chlorine addition, however, is required in the cooling water intake structure and other sections of the cooling system for plants with crustacean fouling problems.

Most experience has demonstrated that the continuous application of chlorine to obtain a free residual (normally a very low level would be adequate) in the condenser discharge is necessary to gain control of both larval and adult forms of the incrustaceans where they occur on the intake structure, intake tunnels, intake water boxes and discharge structure. Chlorine minimization in such instances involves applying chlorine only during the growing season and at the lowest concentrations necessary to achieve control. Visual inspection is the most usual and reliable method of measuring the chlorine effectiveness. For new facilities, the option of utilizing heat treatment to resolve this problem should be explored. The benefits and costs of chlorine reduction would have to be balanced with the utilization of heat treatment.

With regard to the second of the specific factors, many other means of controlling biofouling in cooling water systems are available. Already mentioned were heat treatment and relocation of the points of chlorine injection. Another alternative is the use of a mechanical condenser antifouling device (mechanical cleaning). Most plants using mechanical cleaning do not chlorinate at all, but the need for chlorine addition is not always eliminated. For existing plants, the retrofitting of a mechanical cleaning system may be expensive. For new plants, costs of a mechanical cleaning system are lower since no retrofit is needed. New plants should seriously consider the use of a condenser mechanical cleaning system.

Systematic Approach for Determining Minimum Amount of Chlorine Addition

As explained in the preceding discussion, the control variables are dose, duration, and frequency. During the program development stage, these factors must be varied in order to determine the optimum program. Throughout this period the operating integrity of the plant must be protected. To accomplish this, plant operators will need to establish some absolute means of monitoring condenser (or other critical part of the cooling system) performance. If at all possible, provisions should be made to enable visual inspection of the condenser elements following a test period. The actual condition of the system in terms of biofouling can then be directly compared to the indirect means of monitoring performance (condenser back pressure, temperature drop, etc.). Actual inspection of the condenser or other part of the cooling system (which requires plant closure or loading reduction) should not be considered to be a 'routine' method of evaluating the effectiveness of the chlorine addition program as unit downtime to make such inspections is costly and highly undesirable from a boiler operator's standpoint.

The specifics of implementation are presented below according to:

1. Required capabilities,
2. Test program elements, and
3. Implementation plan.

1. *Required Capabilities.*—a. A means of measuring the apparent waterside condenser tube fouling. This should include visual inspections and biofouling sampling at some point in the test program. Inspection should include condenser intake and discharge water boxes, and, if needed, the cooling water intake structure. Other measurements may be substituted with caution such as deviation from expected condenser pressure drop, etc. The substitute measurements all have serious problems of ambiguity since many factors other than biofouling film growth in the condenser tubes affect these measurements.

b. A means of relating the periodic inspection result or other measurements to condenser performance.

c. A means of gathering grab samples from condenser inlet, outlet, and NPDES discharge point.

d. A means of measuring free available chlorine (FAC) and total residual chlorine (TRC) on samples without delay once collected. The test method to be employed in ASTM D 1253 Chlorine in Water, Method A, Direct Amperometric Titration.

e. A means of controlling and measuring with appropriate accuracy the addition of chlorine to the cooling water to the unit or condenser under study. The arrangement for adding chlorine varies considerably from plant-to-plant. The physical differences may influence the minimization strategy and may require physical modification of the existing system in order to properly implement the program.

f. General chemical analytical capability for properties or substances in water.

g. A means of determining short-term chlorine demand of the inlet water either in the laboratory or the difference between applied chlorine concentration and the free chlorine residual found at the condenser inlet.

2. *Test program elements.*—a. Establish a baseline of condenser performance associated with the condenser for each seasonal period of plant operation (winter, summer, etc.). This may involve an initial offline chemical or mechanical leaning. It is necessary that these baseline conditions be used to evaluate the results of the various chlorination strategies. Data needed to establish baseline conditions will be available at most facilities, and thus, will not require a delay in systematic testing of minimization strategies.

b. Conduct screening tests for a length of time to be determined by plant operators. Different plant cooling water and chlorine feed configurations may require alterations in the selection of the minimization strategies. Plants with several units with similar tube metal, intake water, transit times, temperature gradient across the condensers and cooling water velocity may allow parallel trials of the minimization strategies on several units while maintaining other units on the dose, frequency and duration found effective in past experience. The duration of plant chlorination should be restricted to a maximum of two hours per day.

There are three basic ways to institute a chlorine minimization program: (i) reduce the dose, (ii) reduce the duration, or (iii) change the frequency. For some facilities, it may be desirable to conduct all three alternatives prior to selecting the most suitable. In most cases, the operator can choose one alternative based on previous experience. The three alternative approaches are explained in detail as follows:

(i) *Reduction of Dose:* Establish a desired outlet concentration for TRC. Maintain the frequency and duration found effective in past experience but reduce the dose of chlorine until the desired effluent concentration is not exceeded. Closely monitor condenser performance parameters during this period. If the system shows signs of biofouling, increase the dose. Test periods of about two months should be used for evaluating effectiveness of each new dose used.

(ii) *Reduction of Duration:* Decrease the duration of chlorine feed while maintaining the dose and frequency found effective in past experience. Again, test periods of two months are probably adequate to evaluate a particular duration strategy.

(iii) *Change the Frequency:* Frequency changes with the goal of minimization can be made in two ways: (1) reduce the frequency while keeping dose and duration at baseline values; or (2) increase the frequency but simultaneously decrease the duration. (for example, increase frequency from one to three times per day while reducing duration from one hour to 10 minutes). Test periods of two months are probably adequate to evaluate a particular change in frequency.

The entire test program, from start to finish, should not require more than one year. Selection of which minimization strategies to be attempted (reduction of dose, duration, or frequency) may be limited by the one year time constraint. In such cases, previous operational experience should be called upon to decide which strategy shows the most promise for success and testing efforts should be placed on that strategy.

3. *Implementation Plan.*—a. The information obtained in the test plan above should serve as the guidelines for a permanent chlorine minimization program. The most successful approach (the method that provides for adequate plant performance while minimizing chlorine discharge) should be implemented.

b. The implementation program should take into account seasonal variations in water quality. For example, as was done in the minimization testing program, each season of the year should be approached as a new set of operating conditions. Different combinations of dose, duration, and frequency should be applied in each season. The optimum combinations for each season being those defined by the chlorine minimization study during that season.

c. Monitoring of condenser performance indicators (condenser back pressure, etc.) should continue during the implementation plan. This is necessary to prevent serious biofouling (and potential plant shutdown) in the event that the influent cooling water quality or plant operating characteristics undergo a sudden change that increases the plant's susceptibility to biofouling.

Appendix B—List of 129 Priority Pollutants

001	Acenaphthene
002	Acrolein
003	Acrylonitrile
004	Benzene
005	Benzidine
006	Carbon tetrachloride (tetrachloromethane)
007	Chlorobenzene
008	1,2,4-trichlorobenzene
009	Hexachlorobenzene
010	1,2-dichloroethane
011	1,1,1-trichloroethane
012	Hexachloroethane
013	1,1-dichloroethane
014	1,1,2-trichloroethane
015	1,1,2,2-tetrachloroethane
016	Chloroethane
017	Bis (chloromethyl) ether
018	Bis (2-chloromethyl) ether
019	2-chloroethyl vinyl ether (mixed)
020	2-chloronaphthalene
021	2,4,6-trichlorophenol
022	Parachlorometra cresol
023	Chloroform (trichloromethane)
024	2-chlorophenol
025	1,2-dichlorobenzene
026	1,3-dichlorobenzene
027	1,4-dichlorobenzene
028	3,3-dichlorobenzidine
029	1,1-dichloroethylene
030	1,2-trans-dichloroethylene
031	2,4-dichlorophenol
032	1,2-dichloropropane
033	1,2-dichloropropylene (1,3- dichloropropene)
034	2,4-dimethylphenol
035	2,4-dinitrotoluene
036	2,6-dinitrotoluene
037	1,2-diphenylhydrazine
038	Ethylbenzene
039	Fluoranthene
040	4-chlorophenyl phenyl ether
041	4-bromophenyl phenyl ether
042	Bis(2-chloroisopropyl) ether
043	Bis(2-chloroethoxy) methane
044	Methylene chloride (dichloromethane)
045	Methyl chloride (dichloromethane)
046	Methyl bromide (bromomethane)
047	Bromoform (tribromomethane)
048	Dichlorobromomethane
049	Trichlorofluoromethane
050	Dichlorodifluoromethane
051	Chlorodibromomethane
052	Hexachlorobutadiene
053	Hexachloromyclopentadiene
054	Isophorone
055	Naphthalene
056	Nitrobenzene
0057	2-nitrophenol
058	4-nitrophenol
059	2,4-dinitrophenol
060	4,6-dinitro-o-cresol
061	N-nitrosodimethylamine
062	N-nitrosodiphenylamine
063	N-nitrosodi-n-propylamine
064	Pentachlorophenol
065	Phenol
066	Bis(2-ethylhexyl)phthalate
067	Butyl benzyl phthalate
068	Di-N-Butyl Phthalate
069	Di-n-octyl phthalate
070	Diethyl Phthalate
071	Dimethyl phthalate
072	1,2-benzanthracene (benzo(a)anthracene)

- 073 Benzo(a)pyrene (3,4-benzopyrene)
- 074 3,4-Benzofluoranthene
(benzo(b)fluoranthene)
- 075 11,12-benzofluoranthene
(benzo(b)fluoranthene)
- 076 Chrysene
- 077 Acenaphthylene
- 078 Anthracene
- 079 1,12-benzoperylene (benzo(ghi)perylene)

Part V

Equal Employment Opportunity Commission

**Coordination of Federal Equal
Employment Opportunity Programs; Final
Regulations**

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

29 CFR Part 1690

Coordination of Federal Equal Employment Opportunity Programs

AGENCY: Equal Employment Opportunity Commission.

ACTION: Final regulations.

SUMMARY: These regulations implement the obligations outlined in Sections 1-303 and 1-304 of Executive Order 12067 (Providing for Coordination of Federal Equal Employment Opportunity) (43 FR 28967) which require that Federal agencies consult and coordinate with EEOC in the development of rules, regulations, policies, procedures or orders dealing with equal employment opportunity. These regulations outline the means by which the consultation and coordination shall occur between the EEOC and Federal agencies.

EFFECTIVE DATE: October 14, 1980.

FOR FURTHER INFORMATION CONTACT: Francesta E. Farmer, Director, Office of Interagency Coordination, Room 4208, Equal Employment Opportunity Commission, 2401 "E" Street, NW., Washington D.C. 20506, (202) 634-6916.

SUPPLEMENTARY INFORMATION: On September 28, 1979, EEOC published (44 FR 55907) proposed regulations to meet the obligations outlined in Section 1-304 of the Order and invited comments from the public. The regulations were revised in light of the public comment and sent to Federal agencies on March 6, 1980 with a 15 working day notice of intent to publish in final. Three major agencies and the Equal Employment Advisory Council responded to the September publication. Twenty-six agencies responded to the March 6 fifteen day notice, the last letter arriving on June 4. Most agencies did not offer substantive comments and agreed with the proposal.

The numbering system used in these regulations was changed since the September publication to allow them to be placed in the Code of Federal Regulations and in EEOC's Management Directives System as well. For purposes of this discussion, parts of these regulations are referred to here only by the last part of the citation, e.g., Sec. 305. Here, we present the changes made since the September publication.

Coverage

The Office of Personnel Management (OPM) took the position that it was covered by the Executive Order but not by these regulations on the theory that the regulations only covered agencies which enforced EEO regulations. OPM

claimed to be only a policy development agency and not an enforcement agency. However, in light of several of OPM's enforcement responsibilities, including enforcement of the Federal Equal Employment Opportunity Recruitment Program, the enforcement of reporting requirements on government agencies in the management of the Civilian Personnel Data File, the program for the selective placement of the handicapped in Federal employment, and a primary role in the enforcement of the Intergovernmental Personnel Act of 1970, and the Standards for a Merit System of Personnel Administration for State and local agencies, we conclude that OPM's responsibilities are within the ambit of those contemplated to require coverage under these regulations.

Issuance

Three of the major agencies (DOL, HEW, and E.D.) have suggested that it would be burdensome for EEOC to obligate itself to make all determinations of whether issuances are exempt from coordination on the basis of their being internal management and administration documents. In the interest of easing the burden on the agencies and the EEOC in deciding what is covered we have modified the definition of issuance (Sec. 107(f)) by deleting the words "but is not limited to", in response to suggestions by the above agencies.

OPM and HEW suggested that "issuance" be limited such that it not cover items such as publications which reflect ideas that appear in already agreed upon rules and regulations. However, the Order (Section 1-301(h)) mandates that EEOC assist the agencies in the development of appropriate publications. The labor Department similarly requested that data collection or recordkeeping instruments be eliminated from the list of items which must be submitted as issuances. Here, too, the Order (Section 1-301(e)) requires that EEOC develop uniform recordkeeping and reporting requirements to be utilized by all Federal departments and agencies having equal employment enforcement responsibilities in that this is a major area of potential duplication, overlap, and inconsistency.

Internal Management and Administration Exemption

The Department of Labor also suggested that we broaden the scope of the term "Internal or Administrative Documents" (Sec. 107(e)) by deleting language referring to form letters and substitute "correspondence which does

not transmit significant new policy interpretations or program standards having an impact upon other Federal agencies." This language was adopted because it will eliminate the impression of requiring an agency to consult with EEOC before sending out any correspondence which interprets policy or enunciates established policy and standards. Finally, the regulations (Sec. 301(d)) have been changed to indicate that we expect the agencies to make the initial determination of what is a covered issuance and that they will involve EEOC only in those instances when there is doubt.

HUD indicated that EEOC should allow room in its definition of "Internal or Administrative Document" for coverage of program evaluation and program accountability in the coordination process such that when two divisions within an agency with related equal employment opportunity monitoring or enforcement responsibilities disagree on their respective roles, EEOC could (on request) mediate. EEOC's view is that while we are willing, in some circumstances, to assist agencies on intra-agency disagreements, such disagreements are not interagency and therefore not matters subject to the coordination process.

Affected Agency

The Federal Deposit Insurance Corporation pointed out that the definition of "affected agency" contained a reference to the definition of "agencies", thus limiting the definition of "affected agency" to those agencies having responsibility for EEO programs. The reference was not intended to create such a limitation and it has been removed from the definition of "affected agencies." The result is to clarify that agencies other than those with EEO programs will, for example, receive pre-publication notice of issuances under development and will have recourse to the dispute resolution mechanism in Section 1-307 of the Order.

Significant Issuance

It was requested by OPM that EEOC identify the mechanism for receiving public comment on significant issuances. Sections 304(a) (3) and (4) have been modified to indicate the opportunity provided for public comment on significant issuances.

Agency Component

OPM suggested that we drop the definition of "Agency Component" since it was not used in the regulations except in the definition of "Agencies" (Sec.

107(b)). We agree that the term is self-explanatory and have dropped it.

Publication

OPM suggested that we define the term "Public Announcement" (Sec. 107(h)) instead of "Publication" since the former appears in the Order. This suggestion has been adopted.

Notification to EEOC

The Department of Labor urged a return to the language of the September publication which merely *suggested* that agencies notify EEOC upon their intention to develop an issuance (Sec. 301(a)). The Order demands otherwise: Section 1-304 of the Order requires that all Federal agencies "shall advise and offer to consult with the Equal Employment Opportunity Commission during the development of any proposed rules, regulations, policies, procedures or orders concerning equal employment opportunity." (emphasis added).

DOL has also suggested a modification of Sec. 301(a) such that only significant issuances and issuances affecting another agency would trigger the requirement to notify EEOC. DOL has also suggested that agencies should only be required to supply early drafts (Sec. 301(b)) of *significant* issuances. These suggestions are inconsistent with the requirement that the agencies consult, not only on significant issuances, but also on policies and procedures including data collection and recordkeeping instruments and publications. Accordingly, EEOC has developed a system of notification of issuances under development in the form of a Management Directive. It calls for Quarterly Reports to EEOC by the agencies and a Quarterly Bulletin by EEOC to the agencies. This system is intended to assist EEOC and other Federal agencies with equal employment opportunity responsibilities to comply with the requirements in Sections 1-303 and 1-304 of Executive Order 12067. These sections require that EEOC and other Federal agencies "advise and offer to consult with affected Federal agencies during the development" of equal employment opportunity issuances.

Extension of Time for Consultation

When an initiating agency has denied requests by affected agencies for additional time to review a proposed issuance during the consultation period, the affected agency may appeal to the EEOC for additional time (Sec. 304(a)(2)). If the EEOC grants additional time, it will inform the initiating agency and the requesting agency of its decision. The Department of Labor has

suggested that when the EEOC grants additional time, that it give the initiating agency reasons for overturning its denial. This suggestion has been adopted because it will provide guidance to the agencies on such questions and in the long run may reduce the number of occasions when such requests will come to EEOC.

Coordination Among Lead Agencies

It was suggested by OPM that where lead agencies have already been designated in certain policy areas (handicapped, for example), EEOC should work directly with the lead agency to relieve the initiating agency from having to work with two coordination agencies. EEOC is always the lead agency where there are employment issues; however, it has always been EEOC's policy to work with other lead agencies on issues of mutual concern so that an initiating agency need not mediate between two lead agencies.

Agency Review Before Public Comment

OPM has suggested eliminating the 15 working day review period prior to publication for public comment (Sec. 304(a)(1)). The Executive Order, however, requires that
" * * * Departments and agencies shall formally submit such proposed issuances to the Equal Employment Opportunity Commission and other interested Federal departments and agencies at least 15 working days prior to public announcement * * *".

Public Comment on Significant Issuances

We have adopted OMB's suggestion to clarify that agencies must allow at least 60 days for adequate public comment on significant issuances (Sec. 304(a)(3)). This is consistent with the requirements imposed by Executive Order 12044 (Improving Government Regulations), 43 FR 12661 (March 24, 1978).

Highlighting Changes Subsequent to Public Comment

We have adopted the suggestion by the Treasury Department to require that agencies highlight changes made by the initiating agency in issuances forwarded to EEOC with the 15 day notice of intent to publish in final (Sec. 304(b)). This will facilitate review by EEOC and the other affected agencies.

Nondisclosure of Proposed Issuances

A discussion of limitations on disclosure has been added and other language has been deleted from Sec. 305 of the regulations in response to DOL's

concern. Section 305, according to DOL and HUD, was not clear on the issue of when proposed issuances would be made public. DOL was particularly concerned that the initiating agency be assured the right to be the first to make public proposed issuances which are submitted to EEOC with a 15 day notice of intent to publish in final. DOL's comment is consistent with Section 1-304 of the Order which provides that "Departments and agencies shall formally submit such proposed issuances to the Equal Employment Opportunity Commission and other interested Federal departments and agencies at least 15 working days prior to public announcement * * *" (emphasis added). This means that the initiating agency shall be the agency to make the proposed issuance public. EEOC would not make proposed issuances public simply because the initiating agency indicated an *intent* to do so.

Compliance with this request raises several issues pertaining to disclosure requirements. The Sunshine Act, with certain exceptions, obligates the EEOC to hold open meetings in its decisionmaking process. The Freedom of Information Act requires that except for specified exemptions, documents in the possession of a government agency shall be made available to the public, on request.

However, as the Administrative Conference of the United States indicates in a 1978 Interpretative Guide to the Sunshine Act:

A question has been raised as to whether an agency would be able to assert (9)(B) in order to protect a proposed action of another agency. Although the situation may not have been in the contemplation of the drafters, the Act seems to permit it, and nothing in the policy underlying exemption (9)(B) requires a different result. The agency closing the meeting would, of course, have to make its own determination as to the likelihood of harm from opening the meeting and as to public interest in an open meeting.

Similarly, EEOC's Freedom of Information Act regulations, at 29 CFR 1610.6, provide that:

Requests for records that originated in another Agency and are in the custody of the Commission, will be coordinated in appropriate circumstances with that Agency, and the person submitting the request shall be so notified. The decision made by that Agency with respect to such records will be honored by the Commission.

Thus, Section 305 of this regulation comports with the concerns of DOL and complies with the Sunshine Act and the Commission's Freedom of Information Act regulation.

Temporary Waivers

DOL has suggested that the tone of Section 307 could be improved by not requiring written certification of EEOC's right to review documents which have been granted a temporary waiver. With respect to the same section, Treasury recommended the addition of language indicating that the comments of other affected agencies, in addition to those of EEOC, could result in changes to a proposed issuance. Both recommendations have been accepted.

Notice of Unresolved Disputes

DOL interpreted Section 308 as suggesting that agencies would have to have the concurrence of EEOC before referring a dispute to the Executive Office of the President. This was not the intention of this section. Rather it was the intention to give the initiating agency ample opportunity to resolve disputes by having them framed in writing, by the affected agency, so that the disputes may be clearly understood and discussed prior to such referral. We conclude that the prior notice requirement is a minimal requirement and consistent with EEOC's mandate to facilitate full discussion of controversial issues.

Treasury has requested that the "reasonable time" allowed agencies to resolve disputes be defined. Given that disputes may only be referred during the 15 day notice of intent to publish in final, it would not seem necessary to further define that term.

Recordkeeping and Reporting Requirements

OMB pointed out that the Federal Reports Act of 1942 requires that certain recordkeeping and reporting requirements cannot become effective without OMB approval. Clearance of an EEO recordkeeping and reporting requirement by EEOC under the Order does not, of course, substitute for OMB clearance.

This regulation is the first in a series of such issuances under EEOC's Executive Order 12067 authority. As experience dictates, we will issue additional written interpretations or amendments of these Executive Order regulations. Accordingly, the EEOC is adding 29 CFR Part 1690 as set forth below.

Signed at Washington, D.C., this 8th day of October, 1980.

For the Commission,
Eleanor Holmes Norton,
Chair.

PART 1690—PROCEDURES ON INTERAGENCY COORDINATION OF EQUAL EMPLOYMENT OPPORTUNITY ISSUANCES

Subpart A—General

- Sec.
1690.101 Subject.
1690.102 Purpose.
1690.103 Supersession.
1690.104 Authority.
1690.105 Policy intent.
1690.106 Scope.
1690.107 Definitions.

Subpart B—Responsibilities

- 1690.201 Responsibilities.

Subpart C—Policies and Procedures

- 1690.301 Notification to EEOC during development of issuances.
1690.302 Issuances proposed by EEOC.
1690.303 Consultation with affected agencies.
1690.304 Coordination of proposed issuances.
1690.305 Nondisclosure of proposed issuances.
1690.306 Formal submission in absence of consultation.
1690.307 Temporary waivers.
1690.308 Notice of unresolved disputes.
1690.309 Interpretation of the order.

Subpart D—Reporting Requirements

- 1690.401 Reporting requirements.

Authority: Sec. 715 of Title VII of the Civil Rights Act of 1964, as amended, (42 U.S.C. 2000e-14); Reorganization Plan No. 1 of 1978, 43 FR 19807; E.O. 12067, 43 FR 28967.

Subpart A—General

§ 1690.101 Subject.

Procedures on Interagency Coordination of Equal Employment Opportunity Issuances.

§ 1690.102 Purpose.

These regulations prescribe the means by which review and consultation shall occur between the Equal Employment Opportunity Commission and other Federal agencies having responsibility for enforcement of Federal statutes, Executive Orders, regulations and policies which require equal employment opportunity without regard to race, color, religion, sex, national origin, age or handicap. Subsequent regulations will expand on standards for the coordination of specific matters referenced or alluded to herein.

§ 1690.103 Supersession.

None. These regulations are the first in a series of instructions issued by EEOC pursuant to its authority under Executive Order 12067.

§ 1690.104 Authority.

These regulations are prepared pursuant to the Equal Employment

Opportunity Commission's obligation and authority under Section 1-303 and 1-304 of Executive Order 12067 (Providing for Coordination of Federal Equal Employment Opportunity Programs) 43 FR 28967, July 5, 1978. (These regulations will also appear as EEOC Management Directive No. 1000).

§ 1690.105 Policy intent.

These procedures will govern the conduct of such agencies in the development of uniform standards, guidelines and policies for defining discrimination, uniform procedures for investigations and compliance reviews and uniform recordkeeping and reporting requirements and training programs. These procedures will also facilitate information sharing and programs to develop appropriate publications and other cooperative programs. The goals of uniformity and consistency are to be achieved with the maximum participation and review on both an informal and formal basis by the relevant Federal agencies and, finally, by the public.

§ 1690.106 Scope.

These regulations apply to Federal agencies having equal employment opportunity program responsibilities or authority other than equal employment responsibilities for their own Federal employees or applicants for employment. Its provisions do not apply to issuances related to internal management or administration of the agency.

§ 1690.107 Definitions.

(a) "Affected Agency" means any agency whose programs, policies, procedures, authority or other statutory mandates (including coverage of groups of employers, unions, State and local governments or other organizations mandated by statute or Executive Order) indicate that the agency may have an interest in the proposed issuance.

(b) "Agencies" means those Executive and independent agencies, agency components, regulatory commissions, and advisory bodies having equal employment opportunity program responsibilities or authority other than equal employment opportunity responsibilities for their own Federal employees.

(c) "Consultation" means the exchange of advice and opinions on a subject occurring among the EEOC and affected agencies before formal submission of the issuance.

(d) "Formal Submission" means the transmittal of a written, publication-ready document by the issuing agency to the EEOC and other affected agencies for at least 15 working days from date of receipt. The formal submission shall take place before the publication of any issuance as a final document.

(e) "Internal or Administrative Documents", pursuant to 1-304 of the Order, may include, but are not limited to forms for internal audit and recordkeeping; forms for performance and program evaluation; internal directives dealing with program accountability; routine intra-agency budget forms; intra-agency agreements; correspondence which does not transmit significant new policy interpretations or program standards having an impact upon other Federal agencies; tables of organization; and other documents setting forth administrative procedures for the conduct of programs. Internal or administrative documents do not include compliance manuals, training materials, publications or any other internal documents setting forth procedures for the resolution of complaints, standards of review or proof, or any other policies, standards or directives having implications for non-Federal employees.

(f) "Issuance" refers to any rule, regulation, guideline, order, policy directive, procedural directive, legislative proposal, publication, or data collection or recordkeeping instrument. It also includes agency documents as described above, or revisions of such documents, developed pursuant to court order. "Issuance" does not include orders issued to specific parties as a result of adjudicatory-type processes.

(g) "Order" means Executive Order 12067 (Providing for Coordination of Federal Equal Employment Opportunity Programs).

(h) "Public Announcement" means the publication of a document in final form in the **Federal Register** or to any other promulgation for general agency or public reference.

(i) "Significant Issuance" means any issuance which the public must be afforded an opportunity to comment upon. In determining whether an issuance is significant, the EEOC shall apply the following criteria:

(1) The type and number of individuals, businesses, organizations, employers, labor unions, or State and local governments affected;

(2) The compliance and reporting requirements likely to be involved;

(3) The impact on the identification and elimination of discrimination in employment;

(4) The relationship of the proposed issuance to those of other programs and agencies.

Subpart B—Responsibilities

§ 1690.201 Responsibilities.

(a) The Director of the Office of Interagency Coordination (OIC) is responsible for coordinating the consultation and review process with other agencies on any issuances covered by the Order.

(b) All Federal agencies shall advise and offer to consult with the EEOC during the development of any proposed issuances, concerning equal employment opportunity which affect the obligations of employers, labor organizations, employment agencies or other Federal agencies.

(c) The Equal Employment Opportunity Commission shall advise and offer to consult with the affected Federal agencies during the development of any proposed issuances concerning equal employment opportunity which affect the obligations of employers, labor organizations, employment agencies or other Federal agencies.

Subpart C—Policies and Procedures

§ 1690.301 Notification to EEOC during development of issuances.

(a) Agencies shall notify the Commission whenever they intend to develop a significant issuance or an issuance affecting other agencies so that potential duplication, overlap, or inconsistency with the proposed issuances of other agencies can be identified before substantial agency time and resources have been expended. The requirement for consultation applies whether or not the agency plans to publish the issuance in the **Federal Register** for public comment.

(b) Whenever an agency of the Federal government (initiating agency) develops a proposed issuance which will require consultation among the affected agencies, a responsible official of that agency or agency component shall initiate consultation by submitting an early draft of the appropriate documents, preferably after review at the first or second supervisory level, to the chair of the EEOC (ATTN: Director, OIC). The submission shall be made prior to the point that the issuance is deemed final and ready for publication and shall indicate the appropriate office or person responsible for development of the issuance.

(c) EEOC recognizes that subsequent intra-agency clearance activities may change the policies outlined in the

issuance and may add or delete items included in prior drafts. Therefore, during this period of policy development, an initiating agency shall not be bound by the contents of drafts which precede the final draft.

(d) Except as provided in Section 1690.307, in no instance shall there be formal submission to the EEOC or the affected agencies without prior consultation pursuant to Section 1-304 of the Order.

(e) Where an agency issuance is related to the internal management or administration of the agency, the issuance is exempt from the consultation process under the Order. The initiating agencies will make the determination of what must be submitted. When the agencies are in doubt, EEOC will determine the extent to which a particular issuance is covered by this exemption.

§ 1690.302 Issuances Proposed by EEOC.

Whenever the EEOC proposes to develop a significant issuance or any issuance requiring consultation, the procedure outlined in these regulations, shall also apply, as set forth in Section 1-303 of the Order. The EEOC shall advise and consult with other affected agencies whenever it develops an issuance, in the same manner and to the same extent as other agencies are required to do in § 1690.301 above and in other sections below.

§ 1690.303 Consultation with affected agencies.

At the start of consultation, the EEOC shall determine which other agencies would be affected by the proposed issuance, and the initiating agency shall consult with such agencies. Initiating agencies shall also consult with other agencies which claim that their internal equal employment opportunity or personnel programs are affected by proposed issuances otherwise directed at external equal employment opportunity efforts. Agencies may consult with any other agencies that they believe would be affected by the issuance. The consultation period shall be determined by the parties. During the consultation period, the EEOC shall seek to resolve any disputes with the initiating agency before publication.

§ 1690.304 Coordination of proposed issuance.

(a) *Procedure for publication of proposed issuance.* (1) If the initiating agency, after consultation with EEOC, proposes to publish the issuance for purposes of receiving comments from the public, it shall confer with EEOC and agree on a mutually agreeable

length of time, not less than 15 working days, during which the proposal shall be submitted to all affected Federal agencies pursuant to Section 1-304 of the Order. The period of review shall be sufficient to allow all affected agencies reasonable time in which to properly review the proposal.

(2) When an affected agency wishes an extension of the review period, it shall make such request of the initiating agency. If the initiating agency does not grant the request, the affected agency may then make that request of EEOC. EEOC may, at its discretion, grant the additional time requested, whereupon EEOC will inform the initiating agency which shall extend the review period. EEOC shall also inform the initiating agency of the reasons for the extension.

(3) After 15 working days, if the EEOC has not requested an extension of time or otherwise communicated the need for more time to review the proposal, the initiating agency may proceed to publication of the proposed significant issuance for public comment for at least 60 days.

(4) During this public comment period, certain issues may be submitted to employer and employee representatives for comment pursuant to Section 2(c) of Executive Order 12044 (Improving Government Regulations) which requires that agencies give the public an early and meaningful opportunity to participate in the development of significant regulations.

(b) *Procedure for publication of final issuance.* After the period for public comment has closed, the initiating agency shall then incorporate the changes it deems appropriate and forward to EEOC for review, a copy of the document as published, a copy of the document as amended, with changes highlighted, any staff analysis, and a list of commentors. EEOC or affected agencies may review and copy the comments received. The time needed to review these materials shall be agreed on by the EEOC and the initiating agency. After completion of this review, the initiating agency shall formally submit the proposed final issuance to all affected agencies for at least 15 working days prior to publication.

§ 1690.305 Nondisclosure or proposed issuances.

(a) In the interest of encouraging full interagency discussion of these matters and expediting the coordination process, the EEOC will not discuss the proposed issuances of other agencies at an open Commission meeting where disclosure of information would be likely to significantly frustrate implementation of a proposed agency action. The

Commission will make this determination on a case by case basis.

(b) Requests by the public for drafts of proposed issuances of another agency will be coordinated, in appropriate circumstances, with that agency and the person submitting the request shall be so notified. The decision made by that agency with respect to such proposed issuances will be honored by the Commission.

§ 1690.306 Formal submission in absence of consultation.

If an initiating agency has an issuance which was already under development on or before July 1, 1978, when Executive Order 12067 became effective, and on which there has been no consultation, the agency shall immediately notify the EEOC of the existence of such proposals and the following procedure shall apply:

(a) EEOC shall confer with the initiating agency and shall determine whether the proposal should be the subject of informal consultation and/or formal submission to other affected Federal agencies pursuant to Section 1-304 of the Order. This does not preclude the right of the agency to consult with any other agency it wishes.

(b) If the EEOC decides that informal consultation and/or formal submission is necessary, it shall confer with the proposing agency and agree on a mutually acceptable length of time for one or both (the informal consultation and/or formal submission).

(c) The period of formal submission shall be sufficient to allow all affected agencies time in which to properly review the proposal. While such period may be longer, in no instance may it be shorter than 15 working days.

§ 1690.307 Temporary waivers.

(a) In the event that the proposed issuance is of great length or complexity, the EEOC may, at its discretion, grant a temporary waiver of the requirements contained in § 1690.303 or § 1690.304. Such waivers may be granted if: (1) The period of consultation and thorough review required for these documents would be so long as to disrupt normal agency operations; or (2) the initiating agency is issuing a document to meet an immediate statutory deadline; or (3) the initiating agency presents other compelling reasons why interim issuance is essential.

(b) In the event of a waiver, the initiating agency shall clearly indicate that the issuance is interim, has been published pursuant to a waiver, and is subject to review. EEOC reserves the right, after publication, to review the document in light of the objectives of the

Order. The initiating agency may make substantive conforming changes in light of comments by EEOC and other affected agencies.

§ 1690.308 Notice of unresolved disputes.

(a) The disputes resolution mechanism in Section 1-307 of the Executive Order should be used only in extraordinary circumstances, and only when further good faith efforts on the part of the EEOC and the agency involved would be ineffective in achieving a resolution of the dispute. Before using the disputes resolution mechanism, the EEOC or the initiating agency must have fully participated in the coordination process, including giving notification to the EEOC and the affected agencies of its intention to publish in final within 15 working days.

(b) EEOC or the affected agency shall then send written notification of the dispute and the reasons for it to the EEOC and to the other affected agencies. Thereafter, but within the 15 day notice period, the EEOC or the affected agency may refer the dispute to the Executive Office of the President. Such reference may be made by the Chair of the EEOC or the head of the Federal agency. If no reference is made within 15 working days, the decision of the agency which initiated the proposed issuance will become effective.

§ 1690.309 Interpretation of the Order.

Subject to the dispute resolution procedures set forth above and in accordance with the objectives set forth in 1-201 and the procedures in 1-303 of the Order, the EEOC shall interpret the meaning and intent of the Order. EEOC also will issue procedural changes under the Order, as appropriate, after advice and consultation with affected agencies as provided for in these procedures.

Subpart D—Reporting Requirements

§ 1690.401 Reporting requirements.

The regulations do not establish reporting requirements other than the required notices of proposed rulemaking and formal and informal review.
