

addressing the issue from interested parties.

Taking of Private Property

The Coast Guard anticipates that any potential rulemaking will not effect a taking of private property or otherwise have taking implications under E.O. 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

The Coast Guard anticipates that any potential rulemaking will meet applicable standards in sections 3(a) and 3(b)(2) of E.O. 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

The Coast Guard anticipates that any potential rulemaking will not be economically significant and will not present an environmental risk to health or risk to safety that may disproportionately affect children under E.O. 13045, Protection of Children from Environmental Health Risks and Safety Risks.

Environment

The Coast Guard anticipates that any potential rulemaking will require an Environmental Assessment due to the advertised size of the event and its proximity to sensitive environmental areas. An environmental analysis has been required from the event sponsor. Further, any potential rulemaking will be designed to minimize the likelihood of maritime accidents and attendant environmental consequences and to enhance the safety of participants, spectators, and other maritime traffic. The Coast Guard invites comments addressing possible effects that any such rulemaking may have on the human environment or addressing possible inconsistencies with any Federal, State, or local law or administrative determinations relating to the environment. It will reach a final determination once it has received a detailed parade of sail plan and environmental analysis from the sponsor organization.

SUPPLEMENTARY INFORMATION:

A. Background

This rule proposes amendments to the DFARS to revise policy pertaining to the acquisition of transportation, transportation-related services, and transportation in supply contracts. For contracts for transportation or transportation-related services, the rule specifies that contracting officers should consider using, as evaluation factors or subfactors, the offeror's record of claims involving loss or damage, provider availability, and support for DoD readiness programs such as the Civil Reserve Air Fleet and the Voluntary Intermodal Sealift Agreement. For contracts that will include a significant requirement for transportation of items outside the continental United States, the rule contains a requirement for use of an evaluation factor or subfactor that favors suppliers, third-party logistics providers, and integrated logistics managers that commit to using carriers that participate in one of the readiness programs. The rule implements a policy memorandum issued by the Under Secretary of Defense (Acquisition, Technology and Logistics) on January 15, 1998, Subject: Transportation Acquisition Policy. The January 15, 1998, memorandum is available via the Internet at http://www.acq.osd.mil/log/tp/trans_programs/defense_trans_library/tp_library.html. The rule also updates references and organizational names and addresses, and make other editorial changes.

This rule was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

B. Regulatory Flexibility Act

The proposed rule is not expected to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because information available to DoD indicates that most small entities that are eligible to transport DoD cargo or passengers already participate in DoD readiness programs. Therefore, DoD has not performed an initial regulatory flexibility analysis. DoD invites comments from small businesses and other interested parties. DoD also will
