Agency: Bureau of Labor Statistics.
Title: Job Openings and Labor Turnover Survey (JOLTS).

OMB Number: 1220-0 New.

Frequency: Monthly.

Affected Public: Business and other for-profit. Not-for-profit institutions; Federal Government; State, Local, or Tribal Government.

Number of Respondents: 16,000 (full survey year). To begin collection, respondents will be added 1,000 per month until the full sample is reached.

Estimated Time Per Respondent: 56 Minutes (Estimate).

Total Burden Hours: 14,859 (Calendar Year Average).

Total Annualized Capital/Startup Costs: \$0.

Total Annual Costs (Operating/Maintaining Systems or Purchasing Services): \$0.

Description: The Job Openings and Labor Turnover Survey (JOLTS) will collect data on job vacancies, labor hires, and labor separations. The data can be used as demand-side indicators of labor shortages. These indicators of labor shortages at the national level would greatly enhance policy makers' understanding of imbalances between the demand and supply of labor. Presently there is no economic indicator of the demand for labor with which to assess the presence of labor shortages in the U.S. labor market. The availability of unfilled jobs—the number of job vacancies or the vacancy rate—is an important measure of tightness of job markets, parallel to existing measures of unemployment.

Type of Review: Revision.

Agency: Employment and Training Administration.

Title: Claims and Payment Activities.

OMB Number: 1205-0010.

Affected Public: State, Local, or Tribal Government
