Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared January 10, 2000 Through January 14, 2000 pursuant to the Environmental Review Process (ERP), under Section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 564–7167. An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 9, 1999 (63 FR 17856).

Draft EISs

ERP No. D–AFS–L65333–OR Rating EC2, Five Rivers Watershed Landscape Management Project, To Restore Terrestrial and Aquatic Habitat, Special-Use-Permit, Siuslaw National Forest, Waldport Ranger District, Lincoln and Lane Counties, OR.

Summary: EPA expressed concerns regarding potential water quality impacts from roads, increased logging, and entry into riparian buffers. EPA requested the Forest Service discuss these concerns in the FEIS.

ERP No. D–BLM–G65071–NM Rating LO, Albuquerque Field Office Riparian and Aquatic Habitats Management, To Restore and Protect, Rio Puerco Resource Management Plan Amendment (RMPA), Cibola, Sandoval, McKinley, Rio Arriba, Bernalillo, Valencia and Santa Fe Counties, NM.

Summary: Because the EIS is programmatic in content and the alternatives considered promote environmental enhancement, EPA has limited its review to insure that the DEIS meets the minimal administrative and procedural requirements established by the NEPA and CEQ Regulations and finds the DEIS to satisfy these requirements and takes no position on the preferred action or the alternatives.

ERP No. D–BLM–G65073–NM Rating LO, Farmington Field Office Riparian and Aquatic Habitat Management, To Restore and Protect, Farmington Riparian and Aquatic Habitat Management Plan, San Juan, McKinley, Rio Arriba and Sandoval Counties, NM.

Summary: Since the EIS is programmatic in content and the alternatives considered promote environmental enhancement, EPA Region 6 has limited its review to ensure that the DEIS meets the minimal administrative and procedural requirements established by NEPA and CEQ Regulations. EPA's limited review finds the DEIS to satisfy these requirements and takes no position on the preferred action or the alternatives.

ERP No. D–FRC–F03007–00 Rating EO2, TriState Pipeline Project, Construction and Operation of Natural Gas Pipeline Facilities, Docket Nos.: CP99–61–000, CP99–62–000, CP99–63–000 and CP99–64–000, Presidential Permit, IL, IN and MI.

Summary: EPA expressed environmental objections with the project. The issues raised include alternatives evaluation, waterbody crossings, sole source aquifer, wetland and woodland impacts and mitigation.

ERP No. D–FRC–J05079–00 Rating EC2, Cabinet Gorge (No. 2058–014) and Noxon Rapids (No. 2075–014) Hydroelectric Project, Relicensing, MT and ID.

Summary: EPA expressed environmental concerns regarding continuation of potential adverse impacts to bull trout, and bank and shoreline erosion and aquatic habitat degradation that results from project operations. EPA also believes further information is needed to explain why a minimum flow release from Noxon Rapids Dam was not recommended. EPA believes the USFWS recommended terms and conditions to protect the bull trout should be included as license conditions, and that corrective actions need to be developed to address bank and shoreline erosion problems.

ERP No. D–NPS–H65007–KS Rating LO, Tallgrass Prairie National Preserve General Management Plan, Implementation, Flint Hills Region, Chase County, KS.

Summary: EPA had a lack of objections to the proposed project.

Final EISs

ERP No. F–FHW–C40142–NY US–20/Broadway (Transit Road to Lancaster East Village Line) Reconstruction, Funding, COE Section 10 and 404 Permit, in the Villages of Depew and Lancaster, Erie County, NY.

Summary: EPA has no further issues with the project.

ERP No. F–FHW–F40365–WI US 151 Highway Project, from Dickeyville to to Belmont, Improvements, Funding and COE Section 404 Permit, Grant and Lafayette Counties, WI.

Summary: The FEIS addressed EPA's previous comments on wetlands, floodplains and other resources.

Dated: January 27, 2000.

TSCA Chemical Testing; Receipt of Test Data

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's receipt of test data on N-methylpyrrolidone (NMP) (CAS No. 872–50–4). These data were submitted pursuant to an enforceable testing consent agreement/order issued by EPA under section 4 of the Toxic Substances Control Act (TSCA).

FOR FURTHER INFORMATION CONTACT: *For general information contact:* Joseph S. Carra, Deputy Director, Office of Pollution Prevention and Toxics (7401), Office of Prevention, Pesticides and Toxic Substances, Environmental Protection Agency, Ariel Rios Bldg., 1200 Pennsylvania Ave., NW., Washington, DC 20460 telephone numbers: (202) 554–1404 and TDD:

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does This Action Apply to Me?

This action is directed to the public in general. This action may, however, be of interest to those persons who are concerned about data on health and/or environmental effects and other characteristics of this chemical. Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the technical person listed under ''FOR FURTHER INFORMATION CONTACT.''

B. How Can I Get Additional Information, Including Copies of This Document or Other Related Documents?

1. *Electronically.* You may obtain electronic copies of this document, and certain other related documents that might be available electronically, from the EPA Internet Home Page at http://www.epa.gov/. To access this document, on the Home Page select ''Laws and Regulations'' and then look up the entry for this document under ''**Federal Register**—Environmental Documents.'' You can also go directly to the **Federal Register** listings at http://www.epa.gov/fedrgstr/.

2. *In person.* The Agency has established an official record for this action under docket control number OPPTS–44653. The official record consists of the documents specifically referenced in this action, any public comments received during an appplicable comment period, and other information related to this action, including any information claimed as confidential business information (CBI). This official record includes the documents that are physically located in the docket, as well as the documents that are referenced in those documents. The public version of the official record does not include any information claimed as CBI. The public version of the official record, which includes printed, paper versions of any electronic comments submitted during an applicable comment period, is available for inspection in the TSCA Nonconfidential Information Center, North East Mall Rm. B–607, Waterside Mall, 401 M St., SW., Washington, DC. The Center is open from noon to 4 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Center is (202) 260–7099.

II. Test Data Submissions

Under 40 CFR 790.60, all TSCA section 4 enforceable consent agreements/orders must contain a statement that results of testing conducted pursuant to enforceable consent agreements/orders will be announced to the public in accordance with section 4(d) of TSCA.

Test data for N-methylpyrrolidone (NMP) were submitted by the NMP Producers Group on behalf of the member companies: Lyondell Chemical Company (formerly ARCO Chemical Company), BASF Corporation, and ISP Management Company, Inc. These data were submitted pursuant to a TSCA section 4 enforceable consent agreement/order and were received by EPA on November 23, 1999. The submission includes a final report entitled ''*N*-Methylpyrrolidone - Carcinogenicity study in B6C3F1 mice; Administration in the diet for 18 months.'' NMP is an inert, stable, polar solvent that is used in a wide variety of processes. Its commercial uses result from its strong and frequently selective solvent power. One of the major uses of NMP is the extraction of aromatics from lubricating oils. It is also used as a medium for polymerization and as a solvent for finished polymers. It is the preferred solvent in a variety of chemical reactions and the manufacture of numerous chemical intermediates and products such as plastics, surface coatings, and pesticides. An important use of this chemical is as a substitute for methylene chloride in paint strippers. NMP is also used in the recovery and purification of acetylenes, olefins, and diolefins, in the removal of sulfur compounds from natural and refinery gasses, and in the dehydration of natural gas.

EPA has initiated its review and evaluation process for this submission. At this time, the Agency is unable to provide any determination as to the completeness of the submission.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

January 21, 2000.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before March 31, 2000. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commissions, 445 12th Street, S.W., Room 1-A804, Washington, DC 20554 or via the Internet to lesmith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Les Smith at (202) 418–0217 or via the Internet at lesmith@fcc.gov.
