

DEPARTMENT OF EDUCATION

Note: The Department is not bound by any estimates in this notice.

Project Period: 60 months.

Page Limit: The application narrative (Part III of the application) is where you, the applicant, address the selection criteria reviewers use to evaluate your application. You must limit the application narrative to the equivalent of no more than 50 pages, using the following standards:

- A page is 8½" by 11", on one side only, with 1" margins at the top, bottom, and both sides.
- Double space (no more than three lines per vertical inch) all text in the

application narrative, including titles, headings, footnotes, quotations, references, and captions, as well as all text in charts, tables, figures, and graphs.

However, you must include all of the application narrative in Part III.

If, to meet the page limit, you use more than one side of the page, you use a larger page, or you use a print size, spacing, or margins smaller than the standards in this notice, we will reject your application.

Applicable Regulations: (a) The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 85, 86, and 99. (b) The regulations in 34 CFR part 299.

Description of Program: Funds under this program are to be used to reform, restructure, and upgrade all relevant operations and programs, within a school, that serve LEP children and youth. Before carrying out a project assisted under this program, a grantee will plan, train personnel, develop curriculum, and acquire or develop materials. In addition, grantees are authorized, under this program, to improve the education of LEP children and youth and their families by implementing family education programs, improving the instructional program for LEP children, compensating personnel who have been trained—or are being trained—to serve LEP children and youth, providing tutorials and academic or career counseling for LEP children and youth, and providing intensified instruction.

Priorities

Absolute Priority: The priority in the notice of final priority for this program, as published in the **Federal Register** on October 30, 1995 (60 FR 55245) and repeated immediately below, applies to this competition.

Under 34 CFR 75.105(c)(3) and section 7114(a) of the Act, the Secretary gives an absolute preference to applications that meet the following priority. The Secretary funds under this competition only applications that meet this absolute priority:

Projects that serve only schools in which the number of LEP students, in

each school served, equals at least 25 percent of the total student enrollment.

Competitive Priority: Within the absolute priority specified in this notice, the Secretary under 34 CFR 75.105(c)(2)(ii) and 34 CFR 299.3(b) gives preference to applications that meet the following competitive priority. An application that meets this competitive priority is selected by the Secretary over applications of comparable merit that do not meet the priority:

Projects that will contribute to systemic educational reform in an Empowerment Zone or an Enterprise Community designated by the United States Department of Housing and Urban Development or the United States Department of Agriculture, and are made an integral part of the Zone's or Community's comprehensive community revitalization strategies.

A list of areas that have been designated as Empowerment Zones and Enterprise Communities is provided at the end of this notice and is also available on the Internet at the following site: <http://www.ezec.gov>.

Invitational Priorities: Within the absolute priority specified in this notice, the Secretary is particularly interested in applications that meet one or more of the following invitational priorities. However, under 34 CFR 75.105(c)(1) an application that meets one or more of these invitational priorities does not receive competitive or absolute preference over other applications.

Invitational Priority 1—Reading

Projects that focus on reforming, restructuring, and upgrading reading instruction to assist limited English proficient students to read independently and well by the end of third grade.

Invitational Priority 2—Mathematics

Projects that focus on reforming, restructuring, and upgrading mathematics instruction to assist limited English proficient students to master challenging mathematics, including the foundations of algebra and geometry, by the end of eighth grade.

Invitational Priority 3—Preparation for Postsecondary Education

Projects that focus on motivating and academically preparing limited English proficient students for successful participation in college and other postsecondary education.

Invitational Priority 4—Professional Development

Applicants that consider the U.S. Department of Education Professional

Development Principles in planning and designing a Comprehensive School Grant project.

Those principles call for educator professional development that focuses on teachers as central to student learning, yet includes all other members of the school community; focuses on individual, collegial, and organizational improvement; respects and nurtures the intellectual and leadership capacity of teachers, principals, and others in the school community; reflects best available research and practice in teaching, learning, and leadership; enables teachers to develop further expertise in subject content, teaching strategies, uses of technologies, and other essential elements in teaching to high standards; promotes continuous inquiry and improvement embedded in the daily life of schools; is planned collaboratively by those who will participate in and facilitate that development; requires substantial time and other resources; is driven by a coherent long-term plan; is evaluated ultimately on the basis of its impact on teacher effectiveness and student learning; and uses this assessment to guide subsequent professional development efforts.

Selection Criteria

(a)(1) The Secretary uses the following selection criteria in 34 CFR 75.210 and sections 7114, 7116, and 7123 of the Act to evaluate applications for new grants under this competition.

(Authority: 34 CFR 75.210(f)(1) and (2)(iii)–(iv))

(Authority: 20 U.S.C. 7426(h)(5))

Intergovernmental Review of Federal Programs

This program is subject to the requirements of Executive Order 12372 (Intergovernmental Review of Federal Programs) and the regulations in 34 CFR part 79.

One of the objectives of the Executive order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

If you are an applicant, you must contact the appropriate State Single Point of Contact (SPOC) to find out about, and to comply with, the State's process under Executive order 12372. If you propose to perform activities in more than one State, you should immediately contact the SPOC for each of those States and follow the procedure established in each State under the Executive order. If you want to know the name and address of any SPOC, see the list in the appendix to this application notice; or you may view the latest official SPOC list on the Web site of the Office of Management and Budget at the following address: <http://www.whitehouse.gov/omb/grants>.

In States that have not established a process or chosen a program for review, State, areawide, regional, and local entities may submit comments directly to the Department.

Any State Process Recommendation and other comments submitted by a SPOC and any comments from State, areawide, regional, and local entities

must be mailed or hand-delivered by the date indicated in this application notice to the following address: The Secretary, E.O. 12372—CFDA# 84.290U, U.S. Department of Education, 400 Maryland Avenue, SW., Room 7E200, Washington, DC 20202–0125.

We will determine proof of mailing under 34 CFR 75.102 (Deadline date for applications). Recommendations or comments may be hand-delivered until 4:30 p.m. (Washington, DC time) on the date indicated in this notice.

Please note that the above address is not the same address as the one to which an applicant submits its completed application. Do not send applications to the above address.

Instructions for Transmittal of Applications

Note: Some of the procedures in these instructions for transmitting applications differ from those in the Education Department General Administrative Regulations (EDGAR) (34 CFR 75.102). Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed regulations. However, these amendments make procedural changes only and do not establish new substantive policy. Therefore, under 5 U.S.C. 553(b)(A), the Secretary has determined that proposed rulemaking is not required.

Pilot Project for Electronic Submission of Applications

The U.S. Department of Education is expanding its pilot project of electronic submission of applications to include certain formula grant programs, as well as additional discretionary grant competitions. Application Instructions

Parity Guidelines Between Paper and Electronic Applications

The Department of Education is
expanding the pilot project, which
began in FY 2000, that allows applicants
to use an Internet-based electronic
system for submitting applications. This
competition is among those that have an
electronic submission option available
to all applicants. The system, called e-
APPLICATION, formerly e-GAPS
(Electronic Grant Application Package
System), allows an applicant to submit
a grant application to us electronically,
using a current version of the
applicant's Internet browser. To see e-
APPLICATION visit the following
address: <http://e-grants.ed.gov>.

In an effort to ensure parity and a
similar look between applications
transmitted electronically and
applications submitted in conventional
paper form, e-APPLICATION has an
impact on all applicants under this
competition.

Users of e-APPLICATION, a data
driven system, will be entering data on-
line while completing their
applications. This will be more
interactive than just e-mailing a soft
copy of a grant application to us. If you
participate in this voluntary pilot
project by submitting an application
electronically, the data you enter on-line
will go into a database and ultimately
will be accessible in electronic form to
our reviewers.

This pilot project is another step in
the Department's transition to an
electronic grant award process. In
addition to e-APPLICATION, the
Department is conducting a limited
pilot of electronic peer review (e-
READER) and electronic annual
performance reporting (e-REPORTS).

To help ensure parity and a similar
look between electronic and paper
copies of grant applications, we are
asking each applicant that submits a
paper application to adhere to the
following guidelines:

- Submit your application on 8½" by
11" paper.
- Leave a 1-inch margin on all sides.
- Use consistent font throughout your
document. You may also use boldface
type, underlining, and italics. However,
please do not use colored text.
- Please use black and white, also, for
illustrations, including charts, tables,
graphs, and pictures.
- For the narrative component, your
application should consist of the
number and the heading of each
selection criterion followed by the
narrative. The heading of the selection
criterion, if included, does not count
against any page limitation.
- Place a page number at the bottom
right of each page of the narrative
component, beginning with 1; and
number your pages consecutively
throughout the narrative component.

Abstract

The narrative component should be
preceded by a one-page abstract that
includes a short description of the
population to be served by the project,
project objectives, and planned project
activities.

Selection Criteria

The narrative should address fully all
aspects of the selection criteria in the
order listed and should give detailed
information regarding each criterion. Do
not simply paraphrase the criteria. Do
not include resumes or curriculum vitae
for project personnel; provide position
descriptions instead. Do not include
bibliographies, letters of support, or
appendices in your application.

GPRA Program Performance Indicators

The Government Performance and
Results Act (GPRA) of 1993 directs
Federal agencies to improve the
effectiveness of their programs by
setting outcome-related goals for
programs and measuring program
results against those goals. One of the
steps taken by the U.S. Department of
Education to implement this Act is to
ask its grantees to report annually their
progress toward meeting the objectives
of their projects in relation to the GPRA
program performance indicators.
Therefore applicants for new grants
should ensure that the project goals and
objectives they propose in the narrative
component of their applications include
outcome-oriented performance goals
and objectives that are measurable and
reportable in relation to the GPRA
performance indicators for the
particular program under which they
are seeking Federal assistance.

Applicants under the Bilingual
Education Comprehensive School

Grants Program should, in devising project goals and objectives, take into account the following GPRA performance indicators:

- *English proficiency:* Students in the project will annually demonstrate continuous and educationally significant progress on oral and written English proficiency measures. *Target:* 75 percent of project students will make gains in oral and written English proficiency.

- *Other academic achievement:* Students in the project will annually demonstrate continuous and educationally significant progress on appropriate academic achievement measures of language arts, reading, and mathematics. *Target:* 75 percent of project students will make gains in academic achievement in language arts, reading, and mathematics.

- *Students exiting programs:* Students in Title VII projects who have received bilingual education/ESL services continuously since first grade will exit those projects in three years. This GPRA program performance indicator applies to students in transitional bilingual education projects or special alternative instruction projects. The indicator also applies to students in dual language education projects to the extent that those projects must assist the participating students to become proficient in English, but the participating students do not need to exit the projects in three years.

- *Teacher training:* The number of teachers in Title VII Comprehensive School projects who receive quality professional development in the instruction of limited English proficient students will increase each year by 20 percent.

Empowerment Zone/Enterprise Community Priority

The application narrative should describe the extent to which the proposed project will contribute to systemic educational reform in the particular Empowerment Zone or Enterprise Community and be an integral part of the Zone's or Community's comprehensive revitalization strategies. A list of areas that have been designated as Empowerment Zones and Enterprise Communities is provided at the end of this notice and is also available on the

Internet at the following site: <http://www.ezec.gov>.

Table of Contents

The application should include a table of contents listing the various parts of the narrative in the order of the selection criteria. The table should include the page numbers where the parts of the narrative are found.

Budget

A separate budget summary and cost itemization must be provided on the Budget Information Form (ED 524) and in the itemized budget for each project year. Budget line items should be directly related to the activities that are proposed to achieve the goals and objectives of the project.

Submission of Application to State Educational Agency

Section 7116(a)(2) of the authorizing statute (Elementary and Secondary Education Act of 1965, as amended by the Improving America's Schools Act of 1994, Pub. L. 103-382) requires all applicants except schools funded by the Bureau of Indian Affairs to submit a copy of their application to their State educational agency (SEA) for review and comment (20 U.S.C. 7426(a)(2)). This requirement applies both to applicants that submit their application to the U.S. Department of Education electronically and to applicants that submit their application in conventional paper form. Section 75.156 of the Education Department General Administrative Regulations (EDGAR) requires applicants to submit their application to the SEA on or before the deadline date for submitting the application to the U.S. Department of Education. This section of EDGAR also requires applicants to attach to the application they submit to the U.S. Department of Education a copy of their letter that requests the SEA to comment on the application (34 CFR 75.156). This letter should be attached to the Project Documentation Form contained in this application package. **APPLICANTS THAT DO NOT SUBMIT A COPY OF THEIR APPLICATION TO THEIR STATE EDUCATIONAL AGENCY IN ACCORDANCE WITH THESE STATUTORY AND REGULATORY REQUIREMENTS WILL NOT BE CONSIDERED FOR FUNDING.**

Continued Eligibility of Current or Prior Grantees for New Grants

Please note that the authorizing statute for the Comprehensive School Program provides that entities that have received Title VII grants are eligible for funding under this competition only if

their new applications propose activities that do not duplicate activities currently or previously funded by a Title VII grant.

Final Application Preparation

Use the Checklist for Applicants provided below to verify that your application is complete. If you submit your application in conventional paper form, provide three copies of the application, including one copy with an original signature on each form that requires the signature of the authorized representative. Protection of Human Subjects in Research (Attachment to ED 424)

I. Instructions to Applicants about the Narrative Information that Must be Provided if Research Activities Involving Human Subjects are Planned.

If you marked item 12 on the application "Yes" and designated exemptions in 12a. (all research activities are exempt), provide sufficient information in the application to allow a determination that the designated exemptions are appropriate. Research involving human subjects that is exempt from the regulations is discussed under II.B. "Exemptions," below. The Narrative must be succinct. Provide this information in an "Item 12/Protection of Human Subjects Attachment" and insert this attachment immediately following the ED 424 face page.

If you marked "Yes" to item 12 on the face page, and designated no exemptions from the regulations (some or all of the research activities are nonexempt), address the following six points for each nonexempt activity. In addition, if research involving human subjects will take place at collaborating site(s) or other performance site(s), provide this information before discussing the six points. Although no specific page limitation applies to this section of the application, be succinct. Provide the six-point narrative and discussion of other performance sites in an "Item 12/Protection of Human Subjects Attachment" and insert this attachment immediately following the ED 424 face page.

(1) Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable.

(2) Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

II. Information on Research Activities Involving Human Subjects

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Is it a research activity?

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge, such as an exploratory study or the collection of data to test a hypothesis, it is research.* Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Is it a human subject?

The regulations define human subject as "a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information." (1) *If an activity involves obtaining information about a living person by manipulating that person or that person's environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met.* (2) *If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an

individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of *exemptions* are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. ***If the subjects are children, this exemption applies only to research involving educational tests or observations of public behavior when the investigator(s) do not participate in the activities being observed.*** [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or

federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

Copies of the Department of Education's Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff (GPOS) Office of the Chief Financial and Chief Information Officer, U.S. Department of Education, Washington, D.C., telephone: (202) 708-8263, and on the U.S. Department of Education's Protection of Human Subjects in Research Web Site at <http://ocfo.ed.gov/humansub.htm>.

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Pub. L. 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. **ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.**

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those barriers

that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

- (1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.
- (2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.
- (3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

Estimated Burden Statement for GEPA Requirements

The time required to complete this information collection is estimated to vary from 1 to 3 hours per response, with an average of 1.5 hours, including the time to review instructions, search existing data resources, gather and maintain the data needed, and complete and review the information collection. **If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to:** U.S. Department of Education, Washington, DC 20202-4651.

This publication by the U.S. Department of Education is an unofficial version of the State Single Point of Contact (SPOC) List published by the Office of Management and Budget (OMB). This publication incorporates the most recent revisions made by OMB. The Department has made every effort to ensure the accuracy of the information contained in this unofficial version. However, the only official version of the State Single Point of Contact (SPOC) List is posted on the Grants Management section of the OMB web site <http://www.whitehouse.gov/omb/grants/spoc.html>. You may save a text version of this document at the aforementioned site. Please note it will be necessary to put a row of space between each state listing.

STATE SINGLE POINTS OF CONTACT (SPOCs)

It is estimated that in 2001, the Federal Government will outlay \$305.6 billion in grants to State and local governments. Executive Order 12372, "Intergovernmental Review of Federal Programs," was issued with the desire to foster the intergovernmental review of proposed Federal financial assistance and direct Federal development. The Order allows each State to designate an entity to perform this function. Below is the official list of those entities. For those States that have a home page for their designated entity, a direct link has been provided on the official version <http://www.whitehouse.gov/omb/grants/spoc.html>. **States that are not listed on this page have chosen not to participate in the intergovernmental review process, and therefore do not have a SPOC. If you are located within one of these States, you may still send application material directly to a Federal awarding agency.**
