BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

The NRC Seeks Qualified Candidates for the Advisory Committee on Reactor Safeguards

AGENCY: Nuclear Regulatory
 Commission.

ACTION: Request for resumés.

SUMMARY: The U.S. Nuclear Regulatory
 Commission (NRC) is seeking qualified
 candidates for an appointment to its
 Advisory Committee on Reactor
 Safeguards (ACRS) to fill a vacancy.

ADDRESSES: Submit resumés to: Ms.
 Sherry Meador, Administrative
 Assistant, Operations Support Branch,
 ACRS/ACNW, Mail Stop T2E-26, U.S.
 Nuclear Regulatory Commission,
 Washington, DC 20555-0001.

SUPPLEMENTARY INFORMATION: Congress
 established the ACRS to provide the
 NRC with independent expert advice on
 matters related to the safety of existing
 and proposed nuclear power plants and
 on the adequacy of proposed reactor
 safety standards. The Committee work
 currently emphasizes safety issues
 associated with the operation of 103
 commercial nuclear units in the United
 States; the pursuit of a risk-informed
 and performance-based regulatory
 approach; license renewal applications;
 risk-informed revisions to 10 CFR Part
 50; power uprates; transient and
 accident analysis codes; use of mixed
 oxide and high burnup fuels; and
 advanced reactor designs.

The ACRS membership includes
 individuals from national laboratories,
 academia, and industry who possess
 specific technical expertise along with a
 broad perspective in addressing safety
 concerns. Committee members are
 selected from a variety of engineering
 and scientific disciplines, such as
 nuclear power plant operations, nuclear
 engineering, mechanical engineering,
 electrical engineering, chemical
 engineering, metallurgical engineering,
 risk assessments, structural engineering,
 materials science, and instrumentation
 and process control systems. At this
 time, candidates are specifically being
 sought who have 15-20 years of
 experience, including graduate level
 education, in the area of thermal
 hydraulics.

Criteria used to evaluate candidates
 include education and experience,
 demonstrated skills in nuclear safety
 matters, and the ability to solve
 problems. Additionally, the
 Commission considers the need for
 specific expertise in relationship to
 current and future tasks. Consistent
 with the requirements of the Federal
 Advisory Committee Act, the
 Commission seeks candidates with
 varying views so that the membership
 on the Committee will be fairly
 balanced in terms of the points of view
 represented and functions to be
 performed by the Committee.

Because conflict-of-interest
 regulations restrict the participation of
 members actively involved in the
 regulated aspects of the nuclear
 industry, the degree and nature of any
 such involvement will be weighed. Each
 qualified candidate's financial interests
 must be reconciled with applicable
 Federal and NRC rules and regulations
 prior to final appointment. This might
 require divestiture of securities issued
 by nuclear industry entities, or
 discontinuance of industry-funded
 research contracts or grants.

Copies of a resume describing the
 educational and professional
 background of the candidate, including
 any special accomplishments,
 professional references, current address,
 and telephone number should be
 provided. All qualified candidates will
 receive careful consideration.
 Appointment will be made without
 regard to such factors as race, color,
 religion, national origin, sex, age, or
 disabilities. Candidates must be citizens
 of the United States and be able to
 devote approximately 80-100 days per
 year to Committee business.
 Applications will be accepted until July
 16, 2001.

Dated: May 16, 2001.

Andrew L. Bates,
Advisory Committee Management Officer.

SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

*Upon written request, copies available
 from:* Securities and Exchange
 Commission, Office of Filings and
 Information Services, Washington, DC
 20549

Extension: Rule 19b-4(e) and Form 19b-4(e);
 SEC File No. 270-447; OMB Control No.
 3235-0504.

Notice is hereby given that pursuant
 to the Paperwork Reduction Act of 1995
 (44 U.S.C. 3501 *et seq.*), the Securities
 and Exchange Commission
 ("Commission") has submitted to the
 Office of Management and Budget a
 request for extension of the previously
 approved collection of information
 discussed below.

Rule 19b-4(e) permits a self-
 regulatory organization ("SRO") to
 immediately list and trade a new
 derivative securities product so long as
 such product is in compliance with the
 criteria of Rule 19b-4(e) under the
 Securities Exchange Act of 1934
 ("Act"). However, in order for the
 Commission to maintain an accurate
 record of all new derivative securities
 products traded through the facilities of
 SROs and to determine whether an SRO
 has properly availed itself of the
 permission granted by Rule 19b-4(e), it
 is necessary that the SRO maintain, on-
 site, a copy of Form 19b-4(e) under the
 Act. Rule 19b-4(e) requires SROs to file
 a summary form, Form 19b-4(e), and
 thereby notify the Commission, within
 five business days after the
 commencement of trading a new
 derivative securities product. In
 addition, the Commission reviews SRO
 compliance with Rule 19b-4(e) through
 its routine inspections of the SROs.

The collection of information is
 designed to allow the Commission to
 maintain an accurate record of all new
 derivative securities products traded
 through the facilities of SROs and to
 determine whether an SRO has properly
 availed itself of the permission granted
 by Rule 19b-4(e).

The respondents to the collection of
 information are self-regulatory
 organizations (as defined by the Act),
 including national securities exchanges
 and national securities associations.

Ten respondents file an average total
 of 100 responses per year, which
 corresponds to an estimated annual
 response burden of 100 hours. At an
 average cost per burden hour of \$47.50,
 the resultant total related cost of
 compliance for these respondents is
 \$4,750 per year (100 burden hours
 multiplied by \$47.50/hour=\$4,750).

Compliance with Rule 19b-4(e) is
 mandatory. Information received in
 response to Rule 19b-4(e) shall not be
 kept confidential; the information
 collected is public information.

An agency may not conduct or
 sponsor, and a person is not required to
 respond to, a collection of information
 unless it displays a currently valid
 control number.

Written comments regarding the
 above information should be directed to
 the following persons: (a) Desk Officer

for the Securities and Exchange Commission, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 10102, New Executive Office Building, Washington, DC 20503; and (b) Michael E. Bartell, Associate Executive Director, Office of Information Technology, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Comments must be submitted to the Office of Management and Budget within 30 days of this notice.

Dated: May 15, 2001.

Jonathan G. Katz,

Secretary.

BILLING CODE 8010-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-44301; File No. SR-GSCC-00-13]

Self-Regulatory Organizations; Government Securities Clearing Corporation; Order Approving a Proposed Rule Change Relating to Establishment of a Cross-Margining Agreement With the Chicago Mercantile Exchange and a Clarification of the Government Securities Clearing Corporation's Cross-Margining Rules

May 11, 2001.

On October 13, 2000, the Government Securities Clearing Corporation ("GSCC") filed with the Securities and Exchange Commission ("Commission") a proposed rule change (File No. SR-GSCC-00-13) pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act").¹ Notice of the proposal was published in the **Federal Register** on January 23, 2001.² No comment letters were received. For the reasons discussed below, the Commission is approving the proposed rule change.

I. Description

On August 19, 1999, the Commission approved GSCC's proposed rule change to establish a cross-margining program with other clearing organizations and to begin its program with the New York Clearing Corporation ("NYCC").³ GSCC is now establishing a cross-margining arrangement with the Chicago Mercantile Exchange ("CME") similar to

the one GSCC already has in place with NYCC. With the GSCC-CME cross-margining arrangement, GSCC will implement its "hub-and-spoke" method of cross-margining, which was introduced in the rule filing establishing the GSCC-NYCC cross-margining arrangement and which applies when more than one clearing organization is involved in cross-margining with GSCC.

(i) GSCC's Cross-Margining Program

GSCC believes that the most efficient and appropriate approach for establishing cross-margining links for fixed-income and other interest rate products is to do so on a multilateral basis with GSCC as the "hub." Each clearing organization that participates in a cross-margining arrangement with GSCC (hereinafter a "Participating CO") will enter into a separate cross-margining agreement between itself and GSCC, as NYCC did and now CME will do. Each of the agreements will have similar terms,⁴ and no preference will be given by GSCC to one Participating CO over another.

Cross-margining is available to any GSCC netting member (with the exception of inter-dealer broker netting members) that is, or that has an affiliate that is, a member of a Participating CO. Any such member (or pair of affiliated members) may elect to have its margin requirements at both clearing organizations calculated based upon the net risk of its cash and repo positions at GSCC and its offsetting and correlated positions in related contracts carried at the Participating CO. Cross-margining is intended to lower the cross-margining participant's (or pair of affiliated members') overall margin requirement.

The GSCC member (and its affiliate, if applicable) signs an agreement under which it (or they) agrees to be bound by the cross-margining agreement between GSCC and the Participating CO and which allows GSCC or the Participating CO to apply the member's (or its affiliate's) margin collateral to satisfy any obligation of GSCC to the Participating CO (or vice versa) that results from a default of the member (or its affiliate).

Margining based on the net combined risk of correlated positions is based on an arrangement under which GSCC and each Participating CO agree to accept the correlated positions in lieu of supporting collateral. Under this arrangement, each clearing organization holds and manages its

own positions and collateral and independently determines the amount of margin that it will make available for cross-margining (referred to as the "residual margin amount").

GSCC computes the amount by which the cross-margining participant's margin requirement can be reduced at each clearing organization (*i.e.*, the "cross-margin reduction") by comparing the participant's positions and the related margin requirements at GSCC against those at each Participating CO.⁵ GSCC offsets each cross-margining participant's residual margin amount (based on related position) at GSCC against the offsetting residual margin amounts of the participant (or its affiliate) at each Participating CO. If the residual margin that GSCC has available for a participant is greater than the combined residual margin submitted by the Participating COs, GSCC will allocate a portion of its residual margin equal to the combined residual margin at the Participating COs. If the combined residual margin submitted by the Participating COs is greater than the residual margin that GSCC has available for that participant, GSCC will first allocate its residual margin to the Participating CO with the most highly correlated position.⁶ If the positions are equally correlated, GSCC will allocate pro rata based upon the residual margin amount available at each Participating CO. GSCC and each Participating CO may then reduce the amount of collateral they collect to reflect the offsets between the cross-margining participant's positions at GSCC and its (or its affiliate's) position at the Participating CO.⁷ In the event of the default and liquidation of a cross-margining participant, the loss sharing between GSCC and each of the Participating COs will be based upon the foregoing allocations and the cross-margin reduction.

GSCC will guarantee the cross-margining participant's (or its affiliate's) performance to each Participating CO

⁵ NYCC uses GSCC's margin rates to determine margin reduction. CME, which utilizes its own rates, and GSCC will compare margin reduction rates and will use the lower of the two in determining margin reduction.

⁶ GSCC has computed and tested disallowance factors that will be applicable to each potential pair of positions being offset. "Disallowance factor" means the specified percentage in the cross-margining agreement between GSCC and CME that is applied to reduce the residual margin amount used to calculate the margin offset.

⁷ GSCC and each Participating CO unilaterally have the right to not reduce its participant's margin requirement by the cross-margin reduction or to reduce it by less than the cross-margin reduction. However, the clearing organizations may not reduce a participant's margin requirement by more than the cross-margin reduction.

¹ 15 U.S.C. 78s(b)(1).

² Securities Exchange Act Release No. 43849 (January 17, 2001), 66 FR 7522.

³ Securities Exchange Act Release No. 41766 (August 19, 1999), 64 FR 46737 (August 26, 1999) [File No. SR-GSCC-98-4]. The rule changes necessary for GSCC to engage in cross-margining were made in the NYCC cross-margining rule filing.

⁴ It is anticipated that in the interest of conformity NYCC and GSCC will execute a new cross-margining agreement that is substantially the same as the draft agreement with the CME.
