

responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it merely approves a state rule implementing a federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act. This proposed rule also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant.

In reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the Clean Air Act. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this proposed rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct. EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the executive order. This proposed rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Hydrocarbons, Incorporation by reference, Intergovernmental relations, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: August 27, 2001.

[Docket #OR-00-002b; FRL-7045-1]

Approval and Promulgation of State Implementation Plans and Designation of Areas for Air Quality Planning Purposes: Oregon

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Environmental Protection Agency (EPA) proposes to approve the revisions to Oregon's State Implementation Plan which were submitted on November 20, 2000. These revisions consist of the 1996 carbon monoxide periodic year emissions inventory for Klamath Falls, Oregon and the Klamath Falls carbon monoxide maintenance plan. EPA also proposes to approve Oregon's request for redesignation of Klamath Falls from nonattainment to attainment for carbon monoxide.

In the Final Rules section of this **Federal Register**, the EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. If no adverse comments are received in response to this action, no further activity is contemplated.

If the EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

DATES: Written comments must be received in writing by October 22, 2001.

ADDRESSES: Written comments should be addressed to Connie Robinson, Office of Air Quality (OAQ-107), at the EPA Regional Office listed below.

Copies of the State's request and other information supporting this action are available for inspection during normal business hours at the following locations: EPA, Office of Air Quality (OAQ-107), 1200 Sixth Avenue, Seattle, Washington 98101, and State of Oregon Department of Environmental Quality,

811 SW Sixth Avenue, Portland, Oregon 97204-1390.

FOR FURTHER INFORMATION CONTACT:

Connie Robinson, Office of Air Quality (OAQ-107), EPA, Seattle, Washington, (206) 553-1086.

SUPPLEMENTARY INFORMATION: For additional information, see the Direct Final rule which is located in the Rules section of this **Federal Register**.

Dated: August 21, 2001.

Charles E. Findley,

Acting Regional Administrator, Region 10.

[CA-035-MSWb; FRL-7058-6]

Approval and Promulgation of State Plans for Designated Facilities and Pollutants: California

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a revision to the California State Plan for implementing the emissions guidelines applicable to existing municipal solid waste landfills. The revision to the State Plan was submitted by the California Air Resources Board for the State of California to satisfy requirements of section 111(d) of the Federal Clean Air Act. In the Final Rules section of this **Federal Register**, EPA is approving the revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial action and anticipates that it will not receive any significant, material, and adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no significant, material, and adverse comments are received in response to this action, no further activity is contemplated in relation to this proposed rule. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action.

DATES: Comments must be received in writing by October 22, 2001.

ADDRESSES: Written comments should be addressed to Andrew Steckel, Rulemaking Office (AIR-4), Air Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne

Street, San Francisco, CA 94105–3901. Copies of the documents relevant to this proposed rule are available for public inspection at EPA's Region IX office during normal business hours. Copies of the submitted revision to the State Plan are also available for inspection at the following location: California Air Resources Board, Stationary Source Division, Rule Evaluation Section, 1001 "I" Street, Sacramento, CA 95814.

FOR FURTHER INFORMATION CONTACT: Mae Wang, Air Division (AIR–4), U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105–3901, Telephone: (415) 744–1200.

SUPPLEMENTARY INFORMATION: This document concerns the approval of a revision submitted by the California Air Resources Board on December 20, 2000, to the State of California's Section 111(d) Plan for Existing Municipal Solid Waste Landfills. For further information, please see the information provided in the direct final action which is located in the Rules section of this **Federal Register**.

Dated: August 8, 2001.

Clean Air Act Proposed Approval of Operating Permit Programs; Pinal County Air Quality Control District, AZ

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the Pinal County Air Quality Control District (Pinal or District) operating permit program. The Pinal operating permit program was submitted in response to the directive in the 1990 Clean Air Act (CAA) Amendments that permitting authorities develop, and submit to EPA, programs for issuing operating permits to all major stationary sources and to certain other sources within the permitting authorities' jurisdiction. EPA granted interim approval to the Pinal operating permit program on October 30, 1996. See 61 FR 55910. The District consequently revised its program to satisfy the conditions of the interim approval; however, the effective date of

the revisions was made contingent upon EPA approving the changes under both 40 CFR part 70 and 40 CFR part 52. On September 5, 2001, the District revised the rules again in order to make the effective date of the rule changes contingent solely upon EPA approval under part 70. EPA is proposing to approve the operating permit program contingent upon Pinal submitting the rules that were adopted on September 5, 2001 as a revision to its part 70 program. **DATES:** Comments on the program revisions discussed in this proposed action must be received in writing by October 22, 2001.

ADDRESSES: Written comments on this action should be addressed to Gerardo Rios, Acting Chief, Permits Office, Air Division (AIR–3), EPA Region IX, 75 Hawthorne Street, San Francisco, California, 94105. You can inspect copies of Pinal's submittal and other supporting documentation relevant to this action during normal business hours at the Air Division of EPA Region 9, 75 Hawthorne Street, San Francisco, California, 94105. You may also see copies of the submitted title V program at the following location: Pinal County Air Quality Control District, Building F, 31 North Pinal Street, Florence, Arizona 85232.

FOR FURTHER INFORMATION CONTACT: Ginger Vagenas, EPA Region IX, Permits Office (AIR–3), U.S. Environmental Protection Agency, Region IX, (415) 744–1252 or vagenas.ginger@epa.gov.

SUPPLEMENTARY INFORMATION: This section provides additional information by addressing the following questions:

What is the operating permit program?

What is EPA's proposed action?

What are the program changes that EPA is approving?

What is the effect of this proposed action?

I. What Is the Operating Permit Program?

The CAA Amendments of 1990 required all state and local permitting authorities to develop operating permit programs that met certain federal criteria. In implementing the operating permit programs, the permitting authorities require certain sources of air pollution to obtain permits that contain all applicable requirements under the CAA. The focus of the operating permit program is to improve compliance by issuing each source a permit that consolidates all of the applicable CAA requirements into a federally enforceable document. By consolidating all of the applicable requirements for a facility, the source, the public, and the

permitting authorities can more easily determine what CAA requirements apply and how compliance with those requirements is determined.

Sources required to obtain an operating permit under this program include "major" sources of air pollution and certain other sources specified in the CAA or in EPA's implementing regulations. For example, all sources regulated under the acid rain program, regardless of size, must obtain permits. Examples of major sources include those that have the potential to emit 100 tons per year or more of volatile organic compounds, carbon monoxide, lead, sulfur dioxide, nitrogen oxides (NO_x), or particulate matter (PM₁₀); those that emit 10 tons per year of any single hazardous air pollutant (specifically listed under the CAA); or those that emit 25 tons per year or more of a combination of hazardous air pollutants (HAPs). In areas that are not meeting the national ambient air quality standards for ozone, carbon monoxide, or particulate matter, major sources are defined by the gravity of the nonattainment classification. For example, in ozone nonattainment areas classified as "serious," major sources include those with the potential of emitting 50 tons per year or more of volatile organic compounds or nitrogen oxides.

II. What Is EPA's Proposed Action?

Because the Pinal operating permit program substantially, but not fully, met the criteria outlined in the implementing regulations codified at 40 Code of Federal Regulations (CFR) part 70, EPA granted interim approval to the program in a rulemaking published on October 30, 1996 (61 FR 55910). The interim approval notice described the conditions that had to be met in order for the Pinal program to receive full approval. This **Federal Register** notice describes the changes that have been made to the Pinal operating permit program to correct conditions for full approval.

EPA is proposing full approval of the operating permits program submitted by Pinal based on the revisions adopted as of September 5, 2001. These revisions satisfactorily address the program deficiencies identified in EPA's October 30, 1996 rulemaking. See 61 FR 55910. In addition, EPA is proposing to approve, as a title V operating permit program revision, additional changes to the rules. The interim approval issues, Pinal's corrections, and the additional changes are described below under the section entitled "What are the program changes that EPA is approving?"
