State Program Requirements; Revision of the Approved National Pollutant Discharge Elimination System (NPDES) Program in South Dakota

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; Approval of revision of the South Dakota NPDES Program under the Clean Water Act.

SUMMARY: On October 22, 2001, the Acting Regional Administrator for Region VIII of the Environmental Protection Agency (EPA) approved a revision to the existing South Dakota Pollutant Discharge Elimination System program. With this revision, the State of

South Dakota is now authorized to administer and enforce a sludge management (biosolids) program where the State has jurisdiction. This program will be administered by the South Dakota Department of Environment and Natural Resources (SDDENR).

FOR FURTHER INFORMATION CONTACT: Bob Brobst, Water Permits Team (8P-W-P), US EPA, Region VIII, 999 18th Street, Suite 300, Denver, Colorado 80202-2466; telephone number (303) 312-6129; email address brobst.bob@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Under Section 402 of the Clean Water Act (CWA), 33 U.S.C. 1342, the EPA may issue permits allowing discharges of pollutants from point sources into waters of the United States, subject to various requirements of the CWA. These permits are known as National Pollutant Discharge Elimination System (NPDES) permits. Section 402(b) of the CWA, 33 U.S.C. 1342(b), allows states to apply to the EPA for authorization to administer their own NPDES permit programs. In 1993, South Dakota applied to the EPA for authority to administer the South Dakota Pollutant Discharge Elimination System (SDPDES) program. The EPA approved South Dakota's application on December 30, 1993, as described in a January 11, 1994 **Federal Register** notice (59 FR 1535).

Section 405 of the CWA, 33 U.S.C. 1345, authorizes the EPA to issue permits for the disposal of sewage sludge. Section 405(c) of the CWA, 33 U.S.C. 1345(c), authorizes any state desiring to administer its own permit program for the sludge disposal to do so in accordance with Section 402 of the CWA. On August 12, 1998, South Dakota submitted such an application to the EPA, requesting that the State's original NPDES authorization be amended to include a state sludge management program described in an accompanying proposal dated March 23, 1998.

The EPA, having found that South Dakota's application meets all pertinent requirements in the CWA and the EPA's regulations, particularly 40 CFR parts 123 and 501, has approved South Dakota's application for primary authority to administer a sludge management program.

II. Public Comments

The EPA provided two periods for any interested member of the public to comment on this application. No comments were received.
