FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency (FEMA).
ACTION: Final rule.

SUMMARY: Base (1% annual chance) Flood Elevations (BFEs) and modified BFEs are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community. This date may be obtained by contacting the office where the FIRM is available for inspection as indicated in the table below.

ADDRESSES: The final BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: Matthew B. Miller, P.E., Chief, Hazards Study Branch, Federal Insurance and Mitigation Administration, FEMA, 500 C Street SW., Washington, DC 20472, (202) 646-3461, or (E-mail) matt.miller@fema.gov.

SUPPLEMENTARY INFORMATION: FEMA makes the final determinations listed below of BFEs and modified BFEs for each community listed. The proposed BFEs and proposed modified BFEs were published in newspapers of local circulation and an opportunity for the community or individuals to appeal the proposed determinations to or through the community was provided for a period of ninety (90) days. The proposed BFEs and proposed modified BFEs were also published in the **Federal Register**.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67.

FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and FIRM available at the address cited below for each community.

The BFEs and modified BFEs are made final in the communities listed below. Elevations at selected locations in each community are shown.

National Environmental Policy Act

This rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act

The Acting Administrator, Federal Insurance and Mitigation Administration certifies that this rule is exempt from the requirements of the Regulatory Flexibility Act because final or modified BFEs are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the NFIP. No regulatory flexibility analysis has been prepared.

Regulatory Classification

This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism

This rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform

This proposed rule meets the applicable standards of section 2(b)(2) of Executive Order 12778.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 00-39; FCC 01-330]

Broadcast Services; Digital Television

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document resolves a number of petitions for reconsideration of the Federal Communications Commissions' Report and Order and Further Notice of Proposed Rule Making (R&O). This document addresses a number of issues related to the conversion of the nation's broadcast television system from analog to digital television (DTV), including when to require election by licensees of their post-transition DTV channel, whether to require replication by DTV licensees of their NTSC Grade B service contours, whether to require DTV licensees to place enhanced service contours over their principal communities, and how to process mutually exclusive applications. The document also modifies the minimum hours of

operation of certain DTV stations and establishes guidelines for television stations that may seek an extension of the deadlines for construction of DTV facilities. Our intention in revising some of the decisions reached in the Report and Order is to revise certain requirements that may be having the unintended consequence of hindering, rather than furthering, the DTV transition, and to prioritize those elements most important to the transition. The decisions reached in this document should maximize the number of DTV stations providing service to at least all consumers in their community of license by allowing DTV stations to go on the air initially with lower-powered, and therefore less expensive, facilities.

DATES: The decisions and rules adopted herein shall be effective February 19, 2002, except for FCC Form 337 which contains information collection requirements that have not been approved by OMB. Written comments on this new information collection are due February 19, 2002. The FCC will publish a document announcing the effective date of FCC Form 337 once OMB approval is received. This form appears as an appendix to this document.

ADDRESSES: Federal Communications Commission, Washington, DC, 20554. In addition to filing comments with the Office of the Secretary, a copy of any comments on the information collections contained herein should be submitted to Judy Boley, Federal Communications Commission, Room 1-

C804, 445 12th Street, SW, Washington, DC 20554, or via the Internet to jboley@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Kim Matthews, Policy and Rules Division, Mass Media Bureau, (202) 418-2130. For additional information concerning the information collections contained in this document, contact Judy Boley at 202-418-0214, or via the Internet at jboley@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Memorandum Opinion and Order on Reconsideration (MO&O), FCC 01-330, adopted November 8, 2001, released November 15, 2001. The full text of the Commission's MO&O is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room TW-A306), 445 12th Street, SW., Washington, DC 20554. The complete text of this MO&O may also be purchased from the Commission's copy contractor, Qualex International, (202) 863-2893, 445 12th Street, SW., Room CY-B402, Washington, DC 20554. The text of the MO&O is also available from the FCC's Internet website: www.fcc.gov.

Paperwork Reduction Act

This MO&O contains either a new or modified information collection. It will be submitted to the Office of Management and Budget (OMB) for review under Section 3507(d) of the PRA. The Commission, as part of its continuing effort to reduce paperwork burdens, invites the general public and other government agencies to comment on the information collection contained
