Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: 2002 Survey of Mental Health Organizations, General Hospital Mental Health Services, and Managed Care Organizations (SMHO)—(OMB No 0930-0119, Revision)—The 2002 SMHO, to be conducted by SAMHSA's Center for Mental Health Services (CMHS), will be conducted in two phases. There will be only minor changes to the forms used in the 2000 SMHO. Phase I will be a brief two-three page inventory consisting of four forms: (1) A specialty mental health organization form; (2) A general hospital or Veterans Affairs Medical Center with either separate mental health services or integrated mental health services forms; (3) A community residential organization form; and (4) A managed behavioral healthcare organization form. This short inventory will be sent to all

known organizations to define the universe of valid mental health organizations to be sampled in Phase II. The inventory will collect basic information regarding the name and address of the organizations, their type and ownership, size measures (e.g., number of staff), and the kinds of services provided.

Phase II will sample approximately 2,000 mental health organizations and utilize a more detailed survey instrument. Although the Sample Survey form will be more comprehensive, it will be very similar to surveys and inventories fielded in 2000 and earlier. The organizational data to be collected by the Sample Survey form include university affiliation, client/patient census by basic demographics, revenues, expenditures, and staffing.

The resulting data base will be used to provide national estimates and will be the basis of the National Directory of Mental Health Services. In addition, data derived from the survey will be published by CMHS in *Data Highlights*, in *Mental Health, United States*, and in professional journals such as *Psychiatric Services* and the *American Journal of Psychiatry*. *Mental Health, United States* is used by the general public, state governments, the U.S. Congress, university researchers, and other health care professionals. The following table summarizes the burden for the survey.

Questionnaire	Number of respondents	Responses/ respondent	Average hours/ response	Total burden (Hrs.)
Phase I (Inventory)				
Specialty Mental Health Organizations	3,342	1	0.25	836
General Hospitals:				
with Separate Psych. Units	1,622	1	0.25	406

SUMMARY: The Office of the Secretary, along with its various agencies, gives notice to the public of alternate agency mail site for submission of comments to rulemaking documents, notices, and any other relevant Departmental documents under public review for which comments have been solicited and for which a Washington, DC, address was indicated. In addition, because the Department Internet access, including receipt of outside Email, has been shut down under court order until further notice, these alternate agency mail sites should be used instead of any electronic transmittal of public comments, unless otherwise noted by the specific agency. This notice does not apply to written comments that are to be sent to addresses outside of Washington, DC.

FOR FURTHER INFORMATION CONTACT:

Duncan L. Brown, Office of the Secretary, Washington, DC 202/208-4582.

SUPPLEMENTARY INFORMATION: The purpose of this notice is to ensure that the public's comments on rulemaking documents, notices, and other relevant documents for which comments have been solicited and for which a Washington, DC, address was indicated, are received by the Department's agencies for appropriate consideration. This action is taken due to the closure of the Brentwood Postal Facility, Washington, DC, on October 21, 2001, because of the threat of anthrax contamination. While some mail from this facility has been retrieved, the delay in mail delivery to the Department's agencies in the Washington, DC, area continues because of enhanced screening of all mail coming to the agencies' Washington offices. This action today will ensure that comments that were to be sent to Washington, DC, are retrieved in a timely manner. A separate postal facility will now receive incoming comments and the agencies' offices identified in the **ADDRESSES** section of this notice (outside Washington, DC, postal delivery) will take appropriate measures to transmit public comments to the respective offices.

The Department's agencies normally encourage electronic transmittal of comments under directives for more efficient government. However, a Federal district court has ordered the shutdown of the Department's internet access, including outside Email. Consequently, the Department's agencies ask that the public submit only written comments to those agency sites as identified in the **ADDRESSES** section of this notice until further notice, because Department is not able to receive electronic submissions at this time.

Dated: January 18, 2002.

P. Lynn Scarlett,

Assistant Secretary—Policy Management and Budget.
