SUPPLEMENTARY INFORMATION: The Council has two U.S. conservation grants programs for acquisition, restoration, and enhancement of

wetlands in the U.S. Any individual or organization who has a long-term, partner-based project with matching funds can apply. The focus of this notice is standard grant proposals for requests from \$51,000 to \$1,000,000 per proposal (if well justified, more may be requested). A separate notice will be issued later this year for small grant proposals for requests up to \$50,000 per proposal.

The NAWCA established the Council, a Federal-State-private body that recommends projects to the Migratory Bird Conservation Commission (MBCC) for final approval and requires that proposals contain a minimum 1:1 ratio of non-Federal matching funds to grant funds. "Match" (as referred to throughout this document) can be cash, in-kind services, or land acquired/title donated for wetlands conservation purposes.

This notice provides a summary of the 2003 proposal instructions and eligibility criteria available on the internet to develop a NAWCA standard grant proposal. In order to complete a proposal correctly, consult the Web site at <http://birdhabitat.fws.gov> for detailed instructions. If you cannot access the Web site, contact the Council Coordinator.

Paperwork Reduction Act: In accordance with the Paperwork Reduction Act (44 U.S.C. 3501), the Office of Management and Budget has assigned clearance number 1018-0100 to this information collection authorized by the North American Wetlands Conservation Act of 1989, as amended (16 U.S.C. 4401 *et seq.*). The information collection solicited is necessary to gain a benefit in the form of a grant, as determined by the Council and MBCC, is necessary to determine the eligibility and relative value of wetland projects, results in an approximate paperwork burden of 400 hours per application, and does not carry a premise of confidentiality. Your response is voluntary. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The public is invited to submit comments on the accuracy of the estimated average burden hours for application preparation and to suggest ways in which the burden may be reduced. Comments may be submitted to: Information Collection Clearance Officer, Mail Stop 224 ARLSQ, U.S. Fish and Wildlife Service, Washington, DC 20240 and/or Desk Officer for Interior Department (1018-0100), Office of Information and Regulatory Affairs, Office of Management and Budget, New

Executive Office Building, Washington, DC 20503.

New NAWCA Proposal Information: Six documents are available on the Internet at <http://birdhabitat.fws.gov> and are summarized below:

1. *2003 Grant Administration Policies and Assistance Award.* Describes policies and procedures that NAWCA projects must comply with and shows the one-page grant agreement that will be completed if the proposal is funded.

2. *2003 Eligibility Criteria & Processes.* Describes eligible activities and costs for NAWCA projects, gives links to cost principles that apply to all Federal grant programs, and describes steps in the proposal funding process. A standard grant proposal is a four-year plan of action supported by a NAWCA grant and partner funds to conserve wetlands and wetlands-associated fish and wildlife through acquisition (including easements and land title donations), restoration, and/or enhancement (including creation). Match must be non-Federal and at least equal the grant request (referred to as a 1:1 match). Match is eligible up to two years prior to the year the proposal is submitted and grant and match funds are eligible during the two-year future Grant Agreement period.

3. *2003 Proposal Instructions.* Describes changes from the 2002 instructions, gives required information for a proposal and provides examples. A proposal has the following sections: Project Officer's Page; Summary; Purpose and Scope; Budget and Work Plan; Technical Assessment Questions; Attachments (budget table, tract table, partner contribution statements, optional matching contributions plan, Standard Form 424, optional aerial photographs, maps); and Easements, Leases, and Indirect Cost Rate Agreement.

4. *2003 Word Proposal Outline.* A fill-in-the-blank proposal using the Word program.

5. *2003 WordPerfect Proposal Outline.* A fill-in-the-blank proposal using the WordPerfect program.

6. *2003 Excel Budget Table.* A fill-in-the-blank budget table in case you do not want to use the budget tables provided in the Word and WordPerfect files.

Dated: February 4, 2003.
