

complete this investigation; it provides the investigating State agency with a uniform method of compiling and analyzing information that can subsequently be used to study trends, economic importance, and other matters. This form is arranged in sections so that the disease investigations can be completed in stages by different inspectors, depending upon the location of the flock, hatchery, and breeding flock. The inspector obtains some of the needed information by interviewing the appropriate poultry producers. When several States are involved in a pullorum-typhoid infection, the completed form will be sent to each of the States involved so that all of them will be aware of the investigation's outcome.

Sentinel Birds Banded for Identification Prior to Flock Vaccination

When a Federally licensed *Salmonella enteritidis* bacterin is used to vaccinate a flock, 350 birds must remain unvaccinated so that they can be used to conduct the necessary serological tests for *Salmonella pullorum* and *Salmonella gallinarum*. These test birds must be banded so that they can be recognized as sentinel birds. A report is submitted annually to APHIS, from the various States, with information from their participants and data required by the various disease control programs of the NPIP.

Request for Salmonella Serotyping (VS Form 10-3)

This is a National Veterinary Services Laboratory (NVSL) form that must be completed by State or APHIS personnel who are submitting samples for salmonella serotyping. If samples were sent to NVSL without this form, lab

personnel would have no way of identifying any given sample as to the flock from which it came, or even the disease for which the sample is to be tested.

Printing and Mailing Computerized Printouts

These printouts are constructed by hatchery operators who ship large numbers of small chick orders all across the United States. These computerized lists contain all the information found on a VS form 9-3, but reduce the paperwork load substantially because they are computer generated. These printouts are sent every month to those States that request them. The States use these printouts to monitor the number of small chicks they are receiving.

Foreign-Trade Zones Board

[Docket 1-2003]

Foreign-Trade Zone 57—Asheville, North Carolina, Expansion of Manufacturing Authority—Subzone 57B Volvo Construction Equipment North America, Inc. (Construction Equipment)

An application has been submitted to the Foreign-Trade Zones Board (the Board) by Volvo Construction Equipment North America, Inc. (Volvo CENA), to expand the scope of manufacturing authority under zone procedures within Subzone 57B, at the Volvo CENA plant located at sites in the Asheville, North Carolina area. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on January 7, 2003.

Subzone 57B was approved by the Board in 2000 at sites located at 2169 Hendersonville Rd. (U.S. Rt. 25), in

Skyland, North Carolina and at 1856 Hendersonville Rd., in Asheville. Authority was granted for the manufacture of articulated haulers and wheel loaders (Board Order 1164, 66 FR 28890, 5/25/2001).

Volvo CENA is now proposing to expand the scope of manufacturing activity conducted under zone procedures at Subzone 57B to include additional finished products (skid-steer loaders and compaction rollers). These finished products fall into categories which enter the United States duty-free. Volvo CENA's application indicates that foreign-sourced materials under the proposed expanded scope fall into categories which are already included in the scope of authority granted pursuant to the company's original subzone application (65 FR 47377, 8/2/2000).

Expanded subzone authority would exempt Volvo CENA from Customs duty payments on foreign components when used in export production of the new products. On its domestic sales, Volvo CENA would be able to choose the lower duty rate that applies to the new finished products for foreign components, when applicable.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at one of the following addresses:

1. Submissions via Express/Package Delivery Services: Foreign-Trade Zones Board, U.S. Department of Commerce, Franklin Court Building—Suite 4100W, 1099 14th St., NW., Washington, DC 20005; or

2. Submissions via the U.S. Postal Service: Foreign-Trade Zones Board, U.S. Department of Commerce, FCB—Suite 4100W, 1401 Constitution Ave., NW., Washington, DC 20230.

The closing period for their receipt is February 12, 2003. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to February 27, 2003.

A copy of the application and accompanying exhibits will be available for public inspection at the Office of the Foreign-Trade Zones Board's Executive Secretary at address Number 1 listed above, and at the U.S. Department of Commerce Export Assistance Center, 521 East Morehead St., Suite 435, Charlotte, NC 28202.

Dated: January 7, 2003.

Dennis Puccinelli,

Executive Secretary.
