

FOR FURTHER INFORMATION CONTACT: On general issues: Vann H. Van Diepen, Office of Chemical, Biological, and Missile Nonproliferation, Bureau of Nonproliferation, Department of State, (202-647-1142). On import ban issues: Loren Dohm, Director, Policy Planning and Program Management, Office of Foreign Assets Control, Department of the Treasury, (202-622-2500). On U.S. Government procurement ban issues: Gladys Gines, Office of the Procurement Executive, Department of State, (703-516-1691).

SUPPLEMENTARY INFORMATION: Pursuant to the authorities vested in the President by the Constitution and the laws of the United States of America, including the International Emergency Economic Powers Act (50 U.S.C. 1701 *et seq.*) (IEEPA), the National Emergencies Act (50 U.S.C. 1601 *et seq.*), the Arms Export Control Act (22 U.S.C. 2751 *et seq.*), and section 301 of title 3, United States Code, and Executive Order 12938 of November 14, 1994, as amended, the U.S. Government determined on March 24, 2003 that the following person has engaged in proliferation activities that require the imposition of measures pursuant to sections 4(b), 4(c), and 4(d) of Executive Order 12938:

Khan Research Laboratories (Pakistan)

Accordingly, pursuant to the provisions of Executive Order 12938, the following measures are imposed on this entity, its subunits, and successors for two years (unless subsequently modified):

1. All departments and agencies of the United States Government shall not procure or enter into any contract for the procurement of any goods, technology, or services from these entities, and shall terminate any existing contracts;

2. All departments and agencies of the United States government shall not provide assistance to these entities, and shall not obligate further funds for such purposes; and

3. The Secretary of the Treasury shall prohibit the importation into the United States of any goods, technology, or services produced or provided by these entities, other than information or informational materials within the meaning of section 203(b)(3) of International Emergency Powers Act (50 U.S.C. 1702(b)(3)).

These measures shall be implemented by the responsible departments and agencies as provided in Executive Order 12938.

In addition, pursuant to section 126.7(a)(1) of the International Traffic in Arms Regulations, it is deemed that suspending the above-named entity

from participating in any activities subject to section 38 of the Arms Export Control Act would be in furtherance of the national security and foreign policy of the United States. Therefore, until further notice, the Department of State is hereby suspending all licenses and other approvals for: (a) Exports and other transfers of defense articles and defense services from the United States; (b) transfers of U.S.-origin defense articles and defense services from foreign destinations; and (c) temporary import of defense articles to or from the above-named entity.

Moreover, it is the policy of the United States to deny licenses and other approvals for exports and temporary imports of defense articles and defense services destined for this entity.

Dated: March 27, 2003.

John S. Wolf,

Assistant Secretary of State for Nonproliferation, Department of State.

[Docket No. 030325071-3071-01]

Request for Commercial Requirements for U.S. Launch Range Improvements and Modernization

AGENCIES: Federal Aviation Administration (FAA); Department of Commerce, Technology Administration, Office of Space Commercialization.

ACTION: Notice and request for information.

SUMMARY: The Department of Transportation (DOT) and the Department of Commerce (DOC) request input from the U.S. commercial space transportation sector regarding U.S. launch base and range support and modernization. Specifically, DOT and DOC seek to collect range support and modernization requirements from current or future commercial users of the Eastern Range at Cape Canaveral Air Force Station, Florida, and the Western Range at Vandenberg Air Force Base, California.

DATES: Responses must be received no later than June 2, 2003.

ADDRESSES: Please submit responses to this announcement to both the FAA and DOC, Office of Space Commercialization. Responses

submitted in writing must be submitted in duplicate to the FAA and the Office of Space Commercialization, respectively, as follows: Docket No. 030325071-3071-01, Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. Docket No. 030325071-3071-01, Office of Space Commercialization, Room 4800-B, U.S. Department of Commerce, Herbert C. Hoover Building, 14th & Constitution Ave., NW., Washington, DC 20230. If you wish to receive confirmation that FAA and DOC received your comments, include a self-addressed, stamped postcard.

You also have the option to submit comments electronically through the Internet to the FAA at <http://dms.dot.gov>. Information and/or data considered to be proprietary should be labeled appropriately and should not be filed electronically. You may review the public docket containing responses to this announcement in person in the Department of Transportation Dockets Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Dockets Office is on the plaza level of the NASSIF Building at the Department of Transportation at the above address. Also, you may review public dockets on the Internet at <http://dms.dot.gov>.

FOR FURTHER INFORMATION CONTACT: Kelvin Coleman (FAA), (202) 267-7972, or Paula Trimble (DOC), (202) 482-4574.

SUPPLEMENTARY INFORMATION: The February 2000 White House report on the Future Use and Management of the U.S. Space Launch Bases and Ranges documented a national strategy to enhance and expand the government-industry partnership for management and use of the Eastern and Western ranges (EWR). This strategy included a recommendation to allow commercial users of the Eastern and Western ranges adequate opportunity to communicate their requirements so they could be actively considered and factored into Air Force decisions on range improvements and modernization.

Further, the report recommended that the government establish an ongoing process for collecting, communicating, and considering commercial requirements for EWR support and modernization. Thus, the Departments of Transportation and Commerce seek to work with U.S. commercial space sector users of the EWR to collect commercial launch range requirements, especially those common to multiple users, for

launch range support and modernization. Responses to this announcement should include the following:

1. A detailed explanation of the requirement;
2. Technical and economic rationale, as well as, overall importance; and
3. Key dimensions of performance, with threshold and objective requirements if possible.

A threshold requirement is a minimum acceptable value for a system capability or characteristic, which, in the user's judgment, is necessary to provide an operational capability. An objective requirement is a value beyond the threshold that could have a measurable and beneficial impact on the system capability, supportability, or operational concept of employment. (For example, "The imaging subsystem must be capable of maintaining coverage on space launch vehicles from first motion through powered flight as a threshold and orbital insertion as an objective.")

Subsequent to collecting these requirements, DOT and DOC will consolidate and prioritize requirements, with consultation from the commercial sector, and prepare a report. This report will contain commercial requirements for EWR support and modernization, and will be provided to the Air Force such that commercial sector requirements for range support and modernization can be considered in the Department of Defense (DOD) requirements process.

This request is applicable to requirements for EWR support and modernization only, and not to mission specific requirements that may be appropriately handled via the Universal Documentation System (UDS), per Air Force Space Command Instruction 21-104.

Dated: March 27, 2003.

Patricia G. Smith,

Associate Administrator for Commercial Space Transportation, Federal Aviation Administration.

Dated: March 28, 2003.

Benjamin H. Wu,

Deputy Under Secretary for Technology, Department of Commerce.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Agency Information Collection Activities: Submission for OMB Review

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice and request for comments.

SUMMARY: The FHWA has forwarded the information collection request described in this notice to the Office of Management and Budget (OMB) for review and approval. We published a Federal Register Notice with a 60-day public comment period on this information collection on August 6, 2002. We are required to publish this notice in the **Federal Register** by the Paperwork Reduction Act of 1995.

DATES: Please submit comments by June 2, 2003.

ADDRESSES: You may send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention: DOT Desk Officer. You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burden; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information.

SUPPLEMENTARY INFORMATION:

Title: Survey of Drivers' Attitudes on Speeding and Speed Limits.

Abstract: The FHWA plans to enter into a cooperative agreement with the State of Massachusetts to initiate a project entitled "Demonstration and Evaluation of Rational Speed Limits," to be performed by the Governor's Highway Safety Bureau of the Commonwealth of Massachusetts. As part of this cooperative agreement, information on local drivers' attitudes towards speeding, speed limits and enforcement will be gathered through a survey. A survey will be performed both before and after engineering, enforcement and educational measures to reduce speeding are implemented. The information obtained from the survey will help the FHWA understand the effectiveness of the measures and drivers' responses to them. The responses to the survey will be voluntary and will not involve information that is required by

regulations. There will be not direct costs to the respondents other than their time.

Respondents: Drivers in Natick, Massachusetts.

Estimated Total Annual Burden: The burden hours per response will be approximately 10 minutes. We estimate that a total of 800 drivers (400 "before" and 400 "after") will be involved in the survey. Therefore, the total estimate is 133 burden hours.

FOR FURTHER INFORMATION CONTACT: Ms. Elizabeth Alicandri, 202-366-6409, Office of Highway Safety, Federal Highway Administration, Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590. Office hours are from 7:00 a.m. to 3:30 p.m., Monday through Friday, except Federal holidays.

Electronic Access: Internet users may access all comments received by the U.S. DOT Dockets, Room PL-401, by using the universal resource locator (URL): <http://dms.dot.gov>. It is available 24 hours each day, 365 days each year. Please follow the instructions online for more information and help. An electronic copy of this document may be downloaded using a modem and suitable communications software from the Government Printing Office Electronic Bulletin Board Service at telephone number 303-512-1661. Internet users may reach the **Federal Register** home page at <http://www.nara.gov/fedreg> and the Government Printing Office's database at <http://www.access.gpo.gov/nara>.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended; and 49 CFR 1.48.

Issued on: February 7, 2003.

James R. Kabel,

Chief, Management Programs and Analysis Division.
