**Agency Forms Undergoing Paperwork Reduction Act Review**

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 498-1210. Send written comments to CDC, Desk Officer, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503. Written comments should be received within 30 days of this notice.

*Proposed Project:* National Survey of State Endoscopic Capacity—New—National Center for Chronic Disease

**GENERAL SERVICES ADMINISTRATION**

**Office of Management Services; Revision of a Standard Form by the Department of the Treasury**

**AGENCY:** Office of Management Services, GSA.

**ACTION:** Notice.

**SUMMARY:** The Department of the Treasury revised part D of the SF 329, Administrative Wage Garnishment to:  
 a. Collect additional information on the employer; and  
 b. Authorize form for local reproduction.

You can obtain the updated camera copy in two ways:

**FOR FURTHER INFORMATION CONTACT:** Ms. Barbara Williams, General Services Administration, (202) 501-0581 for availability of the form and Lois Holland, Department of the Treasury, (202) 622-1563 for any other information.

**DATES:** Effective April 10, 2003.

Dated: April 1, 2003.

Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC). CDC proposes to conduct a study to provide a state-level assessment of the current capacity to conduct colorectal cancer (CRC) screening and follow-up examinations for average risk persons aged 50 and older. CDC has already conducted the "National Survey of Endoscopic Capacity (SECAP)". The tasks involved in this national capacity assessment included creating a list of all health care providers who own and use endoscopes for CRC screening and diagnostic follow-up; developing and administering a survey instrument to health care providers across the country who own lower GI endoscopes; and developing a tool to assess the number

of people currently unscreened. The data from the SECAP study will be analyzed at the national and regional level. In response to state requests, CDC would like to assist states in assessing the state-level capacity to provide colorectal cancer (CRC) screening and follow-up examinations to appropriate persons.

The proposed study will be conducted through the implementation of a survey which will be mailed to a random sample of providers known to possess flexible sigmoidoscopes and colonoscopes in three states. The sampling frame includes all types of physician specialists and health care providers who own lower endoscopic equipment and may be screening for CRC. The survey will provide

information on the types of health care providers who are performing CRC screening and follow-up examinations, the equipment currently being used for screening and follow-up examinations, and current reimbursement rates for these tests. The results of the analysis will be used to (1) identify state-level deficits in the medical infrastructure, (2) guide the development of state-level training initiatives and educational programs for health care providers, and (3) provide critical baseline information for state policy makers for the planning of state-level initiatives to increase colorectal cancer screening. CDC is currently in the process of selecting participating states through a competitive process. The annualized estimated burden is 688 hours.

Respondents	No. of respondents	No. of responses/respondent	Avg. burden per response (in hours)
Screening Call:			
Year 1 (3 states)	969	1	5/60
Year 2 (6 states)	1,940	1	5/60
Year 3 (6 states)	1,940	1	5/60
Annualized screening calls	*1,616		
Mail Survey:			
Year 1 (3 states)	797	1	25/60
Year 2 (6 states)	1,595	1	25/60
Year 3 (6 states)	1,595	1	25/60
Annualized mail survey	*1,329		

\*Average number of respondents per year.

Dated: April 4, 2003.

**Tom Bartenfeld,**

*Acting Associate Director for Policy, Planning and Evaluation, Centers for Disease Control and Prevention.*

**Proposed Data Collections Submitted for Public Comment and Recommendations**

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports

Clearance Officer on (404) 498-1210. CDC is requesting an emergency clearance for this data collection with a two week public comment period. CDC is requesting OMB approval of this package 7 days after the end of the public comment period.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Seleda M. Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 14 days of this notice.

*Proposed Project:* Severe Acute Respiratory Syndrome (SARS) Outbreak Investigation—New—National Center for Infectious Diseases (NCID), Centers

for Disease Control and Prevention (CDC). The purpose of this project is to respond to an outbreak of unknown etiology in the United States and abroad. Since late February 2003, CDC has been supporting the World Health Organization (WHO) in the investigation of a multicountry outbreak of atypical pneumonia of unknown etiology. The illness is being referred to as severe acute respiratory syndrome (SARS). By March 2003, cases of SARS were reported in the U.S. among travelers with a travel history to one or more of the three provinces in Asia where the SARS outbreak was first reported.

In order to investigate this outbreak in the U.S., several collections of information are required. Currently, CDC is collecting this information under an Epidemic Aid (epi-aid) which will expire in 30 days. To preserve continuity in the surveillance information collected by public health investigators, CDC is requesting a 6-month emergency clearance on the current surveillance forms. The information collected includes contact information for travelers on a flight with a person or persons suspected of having SARS, health care work exposures, and
