Fisheries of the Exclusive Economic Zone Off Alaska; Steller Sea Lion Protection Measures Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Correcting amendments.

SUMMARY: This final rule corrects the regulatory text of the final rule published January 2, 2003, implementing Steller sea lion protection measures for the Alaska groundfish fishery.

DATES: Effective May 7, 2003.

ADDRESSES: Copies of the Supplemental Environmental Impact Statement on Steller Sea Lion Protection Measures Off Alaska (SEIS), including the 2001 biological opinion (2001 BiOp) and regulatory impact review may be obtained from the Alaska Region, NMFS, P.O. Box 21668, Juneau, AK, 99802, Attn: Lori Durall. The SEIS is also available on the NMFS Alaska Region home page at <http://www.fakr.noaa.gov>.

FOR FURTHER INFORMATION CONTACT: Melanie Brown, NMFS, 907-586-7228 or e-mail at melanie.brown@noaa.gov.

SUPPLEMENTARY INFORMATION:

Background

A final rule published January 2, 2003 (68 FR 204), implementing Steller sea lion protection measures for the groundfish fisheries of the Bering Sea and Aleutian Islands Management Area (BSAI) and the Gulf of Alaska (GOA), contains errors in its paragraph designations, cross-references, regulatory text, and tables which are corrected by this action.

Corrections to the Office of Management and Budget (OMB) Control Numbers Table

Two corrections are needed in the OMB control number references in the table at 15 CFR 902.1(b). The OMB control number assigned to § 679.20(a)(8)(iii) is incorrect. Also, the table is missing an OMB control number and corresponding paragraph that applies to the Steller sea lion protection measures. This action corrects the number assigned to § 679.20(a)(8)(iii) to read “-0206”. OMB control number “-0269” that incorrectly was applied to § 679.20(a)(8)(iii) in the final rule is properly assigned to § 679.5(n)(2)(iii), which is added to the table with this action. This correction will accurately display the OMB control numbers for these collection-of-information approvals, as required by the Paperwork Reduction Act.

Corrections to the Regulatory Text

A number of corrections to the final rule for the Steller sea lion protection measures are needed for consistency with the final rule for Amendments 61/61/13/8 implementing the American Fisheries Act (AFA) (67 FR 79692, December 30, 2002, effective January 29, 2003). The AFA final rule at § 679.20(a)(5)(i)(A) and (a)(5)(ii) describes the Bering Sea subarea and Aleutian Islands subarea and Bogoslof district pollock AFA allocations, respectively. However, the Steller sea lion protection measures final rule provisions describing the seasonal apportionment of pollock in the BSAI and GOA also were codified at § 679.20(a)(5)(i)(A) and (a)(5)(ii)(B). This correction adds a new paragraph § 679.20(a)(5)(i)(B) describing the Steller sea lion protection measures seasonal apportionment of pollock in the Bering sea subarea. Section 679.20(a)(5)(i)(B) in the final rule regarding the Steller sea lion conservation area harvest limit is also redesignated as § 679.20(a)(5)(i)(C) to ensure proper paragraph designations. The seasonal apportionments for the GOA pollock fishery were codified by the AFA final rule at § 679.20(a)(5)(iii); therefore, no

additional changes are needed in the Steller sea lion protection measures final rule for the GOA pollock seasonal apportionments. Cross-references in § 679.22(a)(7) to the redesignated paragraph § 679.20(a)(5)(i)(C) also are corrected. This correction results in no substantive changes to the requirements of the AFA or the Steller sea lion protection measures.

In addition, the Steller sea lion protection measures final rule contains cross-references to § 679.20(a)(6)(ii) and (iii) at § 679.20(b)(2)(i) and (ii). These cross-referenced paragraphs were renumbered as (a)(6)(i) and (a)(6)(ii), respectively, when the AFA final rule was published. This action corrects these cross-references in § 679.20(b)(2)(i) and (ii) to § 679.20(a)(6)(i) and (ii). This correction does not substantively change the requirements of either the final rule for the AFA or the Steller sea lion protection measures final rule.

Table 4 in 50 CFR part 679 specifies closures to directed fishing for pollock with trawl gear around identified Steller sea lion rookeries and haulouts in the Gulf of Alaska, the Bering Sea and the Aleutian Islands. The Steller sea lion protection measures final rule incorrectly specified the closed areas around Uliaga and Kagamil haulouts. Table 4 currently specifies a 10 nm closure around each of these haulouts (68 FR 218, January 2, 2003). Although these 10 nm closures are correctly specified for the waters within the Bering Sea subarea around these haulouts, Table 4 should have closed all of the Steller sea lion critical habitat around these haulouts that extends west of 170 degrees W. longitude into the Aleutian Islands subarea. In the proposed rule for this amendment, NMFS announced that directed fishing for pollock inside critical habitat in the Aleutian Islands subarea would be prohibited (67 FR 56703, column 1, September 4, 2002). Steller sea lion critical habitat includes an aquatic zone that extends 20 nm seaward from Uliaga and Kagamil haulouts (50 CFR 226.202(a), Table 2). Therefore, this action corrects Table 4 in 50 CFR part 679 by closing the waters of the Aleutian Islands subarea that lie within 20 nm of Uliaga and Kagamil haulouts to directed fishing for pollock with trawl gear.

Table 5 in 50 CFR part 679 specifies closures to directed fishing for Pacific cod with trawl gear, hook-and-line gear, and pot gear around identified Steller sea lion rookeries and haulouts in the Gulf of Alaska, the Bering Sea, and the Aleutian Islands. The final rule resulted in several errors that require correction.

First, Table 5 currently specifies closures to directed fishing for Pacific cod with hook-and-line gear and pot gear within the waters around Uliaga and Kagamil haulouts in the Bogoslof foraging area (68 FR 225–26, January 2, 2003). Although these haulouts are located in the Bogoslof foraging area, the critical habitat designated around these haulouts extends west beyond 170 degrees W. longitude, the western boundary of the Bogoslof foraging area (50 CFR 226.202(a), Table 2). Table 5 should have closed all of the Steller sea lion critical habitat around these haulouts that lies between 170 degrees W. longitude and 173 degrees W. longitude as well. The preamble to the proposed rule implementing the Steller sea lion protection measures explained that hook-and-line and pot vessels would be prohibited from directed fishing for Pacific cod in critical habitat east of 173 degrees W. longitude to the western boundary of the Bogoslof foraging area (67 FR 56703, column 2, September 4, 2002). Therefore, NMFS corrects Table 5 in 50 CFR part 679 by closing the waters that lie within 20 nm of Uliaga and Kagamil haulouts to directed fishing for Pacific cod with hook-and-line and pot gear.

Second, Table 5 currently specifies a closure to directed fishing for Pacific cod with hook-and-line gear within 10 nm in the waters around Chuginadak haulout (68 FR 225, January 2, 2003). Although Chuginadak is located in the Gulf of Alaska, the critical habitat designated around this haulout extends west beyond 170 degrees W. longitude, the eastern boundary of the Aleutian Islands subarea (50 CFR section 226.202(a), Table 2). For the reason stated above, this critical habitat should have been closed to fishing for Pacific cod with hook-and-line gear as well. Therefore, NMFS corrects Table 5 in 50 CFR part 679 by prohibiting directed fishing for Pacific cod with hook-and-line gear in waters west of 170 degrees W. longitude that lie within 20 nm of Chuginadak haulout. Table 5 retains the current 10 nm closure to directed fishing for Pacific cod with hook-and-line gear around Chuginadak in the Gulf of Alaska.

Third, Table 5 currently specifies no closures to directed fishing for Pacific cod with hook-and-line gear or pot gear around Marmot Island rookery in the Gulf of Alaska (68 FR 229, January 2, 2003). However, the proposed rule for this amendment announced that directed fishing for Pacific cod with hook-and-line gear or pot gear around Gulf of Alaska rookeries would be prohibited (67 FR 56704, column 2, September 4, 2002). The Steller sea lion

protection measures analyzed in the 2001 BiOp and in the SEIS specified 10 nm closures to hook-and-line and pot gear fishing around Marmot Island, and these closures were implemented in 2002 by emergency interim rule (67 FR 956, January 8, 2002). Therefore, NMFS corrects Table 5 in 50 CFR part 679 by closing the waters that lie within 10 nm of Marmot Island rookery to directed fishing for Pacific cod with hook-and-line or pot gear.

Finally, the closure around Tanaga I./Bumpy Pt. for the Aleutian Islands subarea Pacific cod trawl fishery in Table 5 is also corrected. Directed fishing for Pacific cod using trawl gear should have been prohibited in the Harvest Limit Area (HLA) during the Atka mackerel HLA directed fishery (§ 679.22(a)(8)(iv)). A portion of the 20 nm critical habitat area surrounding Tanaga I./Bumpy Pt. extends west of 178° W longitude, and this portion of water, by definition, is part of the HLA (§ 679.2). Therefore, the portion of critical habitat for Tanaga I./Bumpy Pt. that lies west of 178° W longitude should have been closed to directed fishing for Pacific cod with trawl gear during the Atka mackerel HLA directed fishery. Table 5 of the final rule did not describe this portion of critical habitat associated with Tanaga I./Bumpy Pt. as being part of the HLA, although the proposed rule clearly announced that this portion of critical habitat would be closed too, until the Atka mackerel HLA fishery is completed (67 FR 56703, column 2, September 4, 2002). A footnote is added to Tanaga I./Bumpy Pt. explaining the closure around this site. Because haulout sites located east of 178° W longitude are closed to 3 nm to directed fishing for Pacific cod with trawl gear, the no-fishing zone in column 7 of Table 5 is corrected to show 3 nm and 20 nm closures that apply around the Tanaga I./Bumpy Pt. haulout.

Table 6 of 50 CFR part 679 specifies closures to directed fishing for Atka mackerel with trawl gear near identified Steller sea lion rookeries and haulouts in the BSAI. The final rule included two errors in Table 6 that require correction. First, footnote 4 to Table 6 was inadvertently omitted from the site Tanaga I./Bumpy Pt. in the final rule. This footnote was included in the emergency interim rule implementing the Steller sea lion protection measures in 2002 (67 FR 956, January 8, 2002). The footnote explains the closure around this site and is added to the site name with this correction. For the same reasons as described above for the Pacific cod trawl fishery, footnote 4 is also corrected to specify that waters

within 20 nm of Tanaga I./Bumpy Pt. and west of 178° W longitude are closed as part of the HLA, as defined in § 679.2.

Second, footnote 7 to Table 6 is corrected to further describe the 10 nm and 20 nm closures around Gramp Rock. The 20 nm closure for Gramp Rock should apply to waters located east of 178° W longitude, and the 10 nm closure for Gramp Rock should apply to waters located west of 178° W longitude. Gramp Rock should be closed to directed fishing for Atka mackerel using trawl gear in waters within 20 nm and west of 178° W longitude after the closure of the Atka mackerel HLA directed fishery. This action corrects the footnote accordingly.

Classification

The Administrator, Alaska Region, NMFS (Regional Administrator), has determined that this action is necessary for the conservation and management of the groundfish fisheries of the BSAI and GOA. The Regional Administrator also has determined that this action is consistent with the Magnuson-Stevens Fishery Conservation and Management Act and other applicable laws. No relevant Federal rules exist that may duplicate, overlap, or conflict with this action.

This action has been determined to be not significant for purposes of Executive Order 12866.

A formal section 7 consultation under the Endangered Species Act (ESA) was initiated for the Steller sea lion protection measures under the fishery management plans for the groundfish fisheries of the BSAI and the GOA. In a biological opinion dated October 19, 2001, (2001 BiOp), the Director of the Office of Protected Resources determined that fishing activities conducted under the Steller sea lion protection measures implemented by the final rule (68 FR 204, January 2, 2003) are not likely to jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modification of critical habitat. This correction fully implements the Steller sea lion protection measures analyzed in the 2001 BiOp and approved by the Secretary of Commerce.

On December 18, 2002, the United States District Court for the Western District of Washington remanded to NMFS the 2001 BiOp for the groundfish fisheries managed pursuant to the Steller sea lion protection measures published on January 2, 2003 (68 FR 204). *Greenpeace, et al. v. National Marine Fisheries Service*, No. C98 492Z (W.D. Wash.). The Court held that the biological opinion's findings of no

jeopardy to the continued existence of endangered Steller sea lions and no adverse modification of their critical habitat were arbitrary and capricious. On December 30, 2002, the Court issued an Order declaring that the 2001 BiOp "shall remain effective until June 30, 2003," while NMFS completes the remand. The response to the remand will evaluate the effects of fishing activities authorized pursuant to the final rule, as corrected by this action, on listed species and critical habitat.

The measures in this rule correct the regulatory text to reflect the proper and intended paragraph designations, cross-references, regulatory text and tables of the final rule published on January 2, 2003, in order to make the regulations consistent with NMFS' intent and current industry practice. The affected fishermen were already complying with such measures pursuant to an earlier rule. Additionally, on January 15, 2003, NOAA Fisheries Alaska Region posted maps depicting the correct closures on its official webpage for use by affected fishermen. As a result, this rule seeks to bring the published regulations into conformity with the status quo. Prior notice and an opportunity for public comment on the substance of these measures was provided by the September 4, 2002, proposed rule. All comments provided pursuant to that proposed rule were considered in the development of the January 2, 2003, final rule. An additional opportunity for public comment would perpetuate any confusion or lack of clarity that may exist as a result of the incorrect information in the January 2, 2003, final rule. Accordingly, the Assistant Administrator for Fisheries finds good cause to waive prior notice and opportunity for public comment pursuant to 5 U.S.C. 553(b)(B). Because the affected industry is already complying with the corrected measures, additional time is not required to allow them to come into compliance. Therefore, the Assistant Administrator for Fisheries also finds that there exists good cause to waive the requirement of a 30-day delay in the effective date of this rule pursuant to 5 U.S.C. 553(d)(3).

List of Subjects

15 CFR Part 902

Reporting and recordkeeping requirements.

50 CFR Part 679

Alaska, Fisheries, Recordkeeping and reporting requirements.

Dated: May 1, 2003.

Rebecca Lent,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

■ Accordingly, 15 CFR part 902, chapter IX, and 50 CFR part 679, chapter VI are corrected by making the following correcting amendments:

15 CFR Chapter IX

PART 902 NOAA INFORMATION COLLECTION REQUIREMENTS UNDER THE PAPERWORK REDUCTION ACT; OMB CONTROL NUMBERS

■ 1. The authority citation for part 902 continues to read as follows:

Authority: 44 U.S.C. 3501 *et seq.*

■ 2. In § 902.1, the table in paragraph (b) under 50 CFR is amended by adding in numerical order an entry for § 679.5(n)(2)(iii) and revising the entry for § 679.20 (a)(8)(iii) to read as follows:

§ 902.1 OMB Control numbers assigned pursuant to the Paperwork Reduction Act.

CFR part or section where the information collection requirement is located	Current OMB control number (All numbers begin with 0648-)
* * * *	
(b) * * *	
50 CFR
679.5(n)(2)(iii)	-0269
679.20 (a)(8)(iii)	-0206
* * * *	

50 CFR Chapter VI

PART 679—FISHERIES OF THE EXCLUSIVE ECONOMIC ZONE OFF ALASKA

■ 1. The authority citation for part 679 continues to read as follows:

Authority: 16 U.S.C. 773 *et seq.*; 1801 *et seq.*; 3631 *et seq.*; Title II of Division C, Pub. L. 105-277; Sec. 3027, Pub. L. 106-31; 57 Stat. 113; 16 U.S.C. 1540(f); and Sec. 209, Pub. L. 106-554.

■ 2. In § 679.20, paragraph (a)(5)(i)(B) is redesignated as paragraph (a)(5)(i)(C), a new paragraph (a)(5)(i)(B) is added, and paragraph (b)(2)(i) and (ii) is revised to read as follows:

§ 679.20 General limitations.

* * * * *

(5) * * *

(i) * * *

(B) BSAI seasonal allowances--(1) *Inshore, catcher/processor, mothership, and CDQ components.* The portions of the BSAI area pollock directed fishing allowances allocated to each component under Sections 206(a) and 206(b) of the AFA will be divided into two seasonal allowances corresponding to the two fishing seasons set out at § 679.23(e)(2), as follows: A Season, 40 percent; B Season, 60 percent.

(2) *Inseason adjustments.* Within any fishing year, the Regional Administrator may add or subtract any under harvest or over harvest of a seasonal allowance for a component to the subsequent seasonal allowance for the component through notification published in the **Federal Register**.

* * * * *

(b) * * *

(2) * * *

(i) *Pollock inshore-offshore reapportionment.* Any amounts of the GOA reserve that are reapportioned to pollock as provided by paragraph (b) of this section must be apportioned for processing by the inshore component in the GOA and the offshore component in the GOA in the same proportions specified in paragraph (a)(6)(i) of this section.

(ii) *Pacific Cod inshore-offshore reapportionment.* Any amounts of the GOA reserve that are reapportioned to Pacific cod as provided by paragraph (b) of this section must be apportioned for processing by the inshore component in the GOA and the offshore component in the GOA in the same proportion specified in paragraph (a)(6)(ii) of this section.

* * * * *

■ 3. In § 679.22, paragraph (a)(7)(vii)(C) is revised to read as follows:

§ 679.22 Closures.

(a) * * *

(7) * * *

(vii) * * *

(C) *Criteria for closure -- (1) General.* The directed fishing closures identified in paragraph (a)(7)(vii)(A) of this section will take effect when the Regional Administrator determines that the harvest limit for pollock within the SCA, as specified in § 679.20(a)(5)(i)(C) is reached before April 1. The Regional Administrator shall prohibit directed fishing for pollock in the SCA by notification published in the **Federal Register**.

(2) *Inshore catcher vessels greater than 99 ft (30.2 m) LOA.* The Regional Administrator will prohibit directed fishing for pollock by vessels greater

than 99 ft (30.2 m) LOA, catching pollock for processing by the inshore component before reaching the inshore SCA harvest limit before April 1 to accommodate fishing by vessels less than or equal to 99 ft (30.2 m) inside the SCA until April 1. The Regional Administrator will estimate how much of the inshore seasonal allowance is

likely to be harvested by catcher vessels less than or equal to 99 ft (30.2 m) LOA and reserve a sufficient amount of the inshore SCA allowance to accommodate fishing by such vessels after the closure of the SCA to inshore vessels greater than 99 ft (30.2 m) LOA. The Regional Administrator will prohibit directed fishing for all inshore catcher vessels

within the SCA when the harvest limit specified in § 679.20(a)(5)(i)(C) has been met before April 1.

* * * * *

■ 4. Tables 4, 5, and 6 to Part 679 are revised to read as follows:

¹ Where two sets of coordinates are given, the baseline extends in a clock-wise direction from the first set of geographic coordinates along the shoreline at mean lower-low water to the second set of coordinates. Where only one set of coordinates is listed, that location is the base point.

² Closures as stated in 50 CFR 679.22(a)(7)(iv), (a)(8)(ii) and (b)(2)(ii).

³ This site lies within the Bogoslof area (BA). The BA consists of all waters of area 518 as described in Figure 1 of this part south of a straight line connecting 55°00' N/170°00' W, and 55°00' N/168°11'4.75" W. Closure to directed fishing for pollock around Uliaga and Kagamil is 20 nm for waters west of 170°W long. and 10 nm for waters east of 170°W long.

⁴ The trawl closure between 0 nm to 10 nm is effective from January 20 through May 31. Trawl closure between 0 nm to 3 nm is effective from August 25 through November 1.

⁵ Trawl closure between 0 nm to 15 nm is effective from January 20 through May 31. Trawl closure between 0 nm to 20 nm is effective from August 25 to November 1.

⁶ Restriction area includes only waters of the Gulf of Alaska Area.

⁷ Contact the Alaska Department of Fish and Game for fishery restrictions at these sites.

⁸ No-fishing zones are the waters between 0 nm and the nm specified in column 7 around each site and within the BA.

⁹ This site is located in the Bering Sea Pollock Restriction Area, closed to pollock trawling during the A season. This area consists of all waters of the Bering Sea subarea south of a line connecting the points 163° 0'00" W long./55°46'30" N lat., 165°08'00" W long./54°42'9" N lat., 165°40'00" long./54°26'30" N lat., 166°12'00" W long./54°18'40" N lat., and 167°0'00" W long./54°8'50" N lat.

¹⁰ The 20 nm closure around this site is effective in federal waters outside of State of Alaska waters of Prince William Sound.

¹¹ Some or all of the restricted area is located in the Segum Foraging area (SFA) which is closed to all gears types. The SFA is established as all waters within the area between 52° N lat. and 53° N lat. and between 173°30' W long. and 172°30' W long.

¹Where two sets of coordinates are given, the baseline extends in a clock-wise direction from the first set of geographic coordinates along the shoreline at mean lower-low water to the second set of coordinates. Where only one set of coordinates is listed, that location is the base point.

²Closures as stated in 50 CFR 679.22(a)(7)(v), (a)(8)(iv) and (b)(2)(iii).

³No-fishing zones are the waters between 0 nm and the nm specified in columns 7, 8, and 9 around each site and within the Bogoslof area (BA) and the Segum Foraging Area (SFA).

⁴Some or all of the restricted area is located in the SFA which is closed to all gears types. The SFA is established as all waters within the area between 52° N lat. and 53° N lat. and between 173°30' W long. and 172°30' W long. Amlia I./East, and Tanadak I. (Amlia) haulouts 20 nm hook-and-line and pot closures apply only to waters located east of 173° W longitude.

⁵This site lies within the BA which is closed to all gear types. The BA consists of all waters of area 518 as described in Figure 1 of this part south of a straight line connecting 55°00'N/170°00'W, and 55°00' N/168°11'4.75"

⁶Hook-and-line no-fishing zones apply only to vessels greater than or equal to 60 feet LOA in waters east of 167° W long. For Bishop Point the 10 nm closure west of 167° W. long. applies to all hook and line and jig vessels.

⁷The trawl closure between 0 nm to 10 nm is effective from January 20 through June 10. Trawl closure between 0 nm to 3 nm is effective from September 1 through November 1.

⁸The trawl closure between 0 nm to 15 nm is effective from January 20 through June 10. Trawl closure between 0 nm to 20 nm is effective from September 1 through November 1.

⁹Restriction area includes only waters of the Gulf of Alaska Area.

¹⁰Contact the Alaska Department of Fish and Game for fishery restrictions at these sites.

¹¹Directed fishing for Pacific cod using trawl gear is prohibited in the harvest limit area (HLA) as defined at § 679.2 until the HLA Atka mackerel directed fishery in the A or B seasons is completed. The 20 nm closure around Gramp Rock and Tanaga I./Bumpy Pt. applies only to waters west of 178°W long. and only during the HLA directed fishery. After closure of the Atka mackerel HLA directed fishery, directed fishing for Pacific cod using trawl gear is prohibited in the HLA between 0 nm to 10 nm of rookeries and between 0 nm to 3 nm of haulouts. Directed fishing for Pacific cod using trawl gear is prohibited between 0-3 nm of Tanaga I./Bumpy Pt.

¹²The 20 nm closure around this site is effective only in waters outside of the State of Alaska waters of Prince William Sound.

¹³See 50 CFR 679.22(a)(7)(i)(C) for exemptions for catcher vessels less than 60 feet (18.3 m) LOA using jig or hook-and-line gear between Bishop Point and Emerald Island closure areas.

¹⁴Trawl closure around this site is limited to waters east of 170°0'00" W long. Closure to hook-and-line fishing around Chuginadak is 20 nm for waters west of 170°W long. and 10 nm for waters east of 170°W long.

¹Where two sets of coordinates are given, the baseline extends in a clock-wise direction from the first set of geographic coordinates along the shoreline at mean lower-low water to the second set of coordinates.

²Closures as stated in 50 CFR 679.22 (a)(7)(vi) and (a)(8)(v).

³No-fishing zones are the waters between 0 nm and the nm specified in column 7 around each site and within the Bogoslof area (BA).

⁴The 20 nm Atka mackerel fishery closure around the Tanaga I./Bumpy Pt. Rookery is established only for that portion of the area east of 178° W longitude. Waters located within 20 nm of Tanaga I./Bumpy Pt. and west of 178° W long. are including in the harvest limit area, as defined in §679.2.

⁵Some or all of the restricted area is located in the Sequam Foraging Area (SFA) which is closed to all gears types. The SFA is established as all waters within the area between 52° N lat. and 53° N lat. and between 173°30' W long. and 172°30' W long.

⁶This site lies in the BA, closed to all gear types. The BA consists of all waters of Area 518 described in Figure 1 of this part south of a straight line connecting 55°00'N/170°00'W and 55°00'N/168°11'4.75" W.

⁷Directed fishing for Atka mackerel by vessels using trawl gear is prohibited in waters located a) 0-20 nm seaward of Gramp Rock and east of 178°W long., and b) 0-10 nm of Gramp Rock and west of 178°W long.
