

to (1) carrier error, when the carrier accepted the package with a guarantee for delivery by the closing date and time, or (2) significant weather delays or natural disasters, CDC will upon receipt of proper documentation, consider the application as having been received by the deadline.

Any application that does not meet the above criteria will not be eligible for competition, and will be discarded. The applicant will be notified of their failure to meet the submission requirements.

H. Evaluation Criteria

Application

Applicants are required to provide measures of effectiveness that will demonstrate the accomplishment of the various identified objectives of the cooperative agreement. Measures of effectiveness must relate to the performance goals stated in the purpose section of this announcement. Measures must be objective and quantitative and must measure the intended outcome. These measures of effectiveness must be submitted with the application and will be an element of evaluation.

An independent review group appointed by CDC will evaluate each application against the following criteria:

1. Importance of the Laboratory in Zambia's Public Health Laboratory Network (40 points)

The extent to which the applicant's proposal demonstrates the key role of the laboratory for HIV, STD or TB control programs and disease surveillance in Zambia.

2. Ability To Jointly Work with CDC on the Project (20 points)

The extent to which the applicant documents their ability to work with CDC to jointly develop laboratory capacity in the areas of HIV, STIs or TB.

3. Personnel (20 points)

The extent to which professional personnel involved in this project are qualified to develop and implement laboratory projects in the areas of HIV, STIs or TB.

4. Administration (20 points)

The adequacy of the plans to account for, prepare reports, monitor, and audit expenditures under this agreement.

5. Budget (Reviewed, but not scored)

The extent to which the itemized budget for conducting the project is itemized and justified.

Does the application adequately address the requirements of title 45 CFR part 46 for the protection of human

subjects? Not scored; however, an application can be disapproved if the research risks are sufficiently serious and protection against risks is so inadequate as to make the entire application unacceptable.

Does the application adequately address the CDC policy requirements regarding the inclusion of women, ethnic, and racial groups in the proposed research? This includes:

1. The proposed plan for the inclusion of both sexes and racial ethnic minority populations for appropriate representation.

2. The proposed justification when representation is limited or absent.

3. A statement as to whether the design of the study is adequate to measure differences when warranted.

4. A statement as to whether the plans for recruitment and outreach for study participants include the process of establishing partnerships with community(ies) and recognition of mutual benefits.

I. Other Requirements

Technical Reporting Requirements

Provide CDC with original plus two copies of:

1. Interim progress report, no less than 90 days before the end of the budget period. The progress report will serve as your non-competing continuation application, and must contain the following elements:

a. Current Budget Period Activities Objectives.

b. Current Budget Period Financial Progress.

c. New Budget Period Program Proposed Activity Objectives.

d. Detailed Line-Item Budget and Justification.

e. Additional Requested Information.

2. Financial status report, no more than 90 days after the end of the budget period.

3. Final financial and performance reports, no more than 90 days after the end of the project period.

Send all reports to the Grants Management Specialist identified in the "Where to Obtain Additional Information" section of this announcement.

Additional Requirements

The following additional requirements are applicable to this program. For a complete description of each, see Attachment I of the program announcement.

AR-1 Human Subjects Requirements
AR-4 HIV/AIDS Confidentiality Provisions
AR-12 Lobbying Restrictions
AR-14 Accounting System Requirements

Executive Order 12372 does not apply to this program.

J. Where To Obtain Additional Information

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Program Announcement 03060]

Support for Government Monitoring and Evaluation Infrastructure for HIV/AIDS/STD/TB Control Activities in the Republic of Zambia; Notice of Availability of Funds

Application Deadline: August 7, 2003.

A. Authority and Catalog of Federal Domestic Assistance Number

This program is authorized under section 307 of the Public Health Service Act, (42 U.S.C. section 2421), as amended. The Catalog of Federal Domestic Assistance number is 93.941.

B. Purpose

The Centers for Disease Control and Prevention (CDC), announces the

availability of fiscal year (FY) 2003 funds for a cooperative agreement with Government of the Republic of Zambia (GRZ) for programs that support HIV, Sexually Transmitted Disease (STD) and Tuberculosis (TB) prevention and control activities in Zambia.

The purpose of this program is to build monitoring and evaluation (M&E) capacity to effectively monitor and analyze program activities in the areas of HIV/AIDS and STDs, as well as TB, the most common opportunistic infection associated with HIV in Zambia. Funds in this agreement will be used to support collection and analysis of information on these diseases and enhancements in information technology and capacity to analyze and disseminate findings. Collaborative activities between CDC and reference laboratories are intended to profoundly improve the effectiveness of HIV/AIDS, STD and TB program activities in Zambia.

The United States Government (USG) seeks to reduce the impact of HIV/AIDS in specific countries in sub-Saharan Africa, Asia and the Americas through its Leadership and Investment in Fighting an Epidemic (LIFE) initiative. To carry out this initiative, the Department of Health and Human Services (HHS) has organized its Global AIDS Program (GAP) to strengthen capacity and expand activities in the areas of (1) HIV prevention; (2) HIV care, support and treatment; and (3) capacity and infrastructure development, especially for HIV/AIDS surveillance activities.

Targeted countries represent those with the most severe epidemics and the highest number of new infections. They also represent countries where the potential for impact is greatest and where U.S. Government agencies are already active. Zambia is one of these targeted countries.

Through CDC, HHS is working in a collaborative manner with national governments and other agencies to develop programs of assistance to address the HIV/AIDS epidemics in LIFE Initiative countries. In particular, CDC's mission in Zambia is to improve surveillance for HIV, TB and STIs and to strengthen and make more effective programs for preventing and treating these diseases.

Measurable outcomes of the program will be in alignment with one or more of the following performance goals for the National Center for HIV/AIDS/STD/TB Prevention: Strengthen the capacity nationwide to monitor the epidemic, develop and implement effective HIV prevention interventions and evaluate prevention programs, and improve HIV/

AIDS information management and decision making by developing well coordinated databases by 2005.

C. Eligible Applicants

Applications may be submitted by agencies of the GRZ that implement or coordinate programs designed to control HIV, STDs and TB. Programs should have national impact. Applicants must have a mandate from the Government of the Republic of Zambia (GRZ) to provide these services.

D. Funding

Availability of Funds

Approximately \$200,000 is available in 2003 to fund approximately two awards. It is expected that the average award will be \$100,000, ranging from \$90,000 to \$110,000. It is expected that the awards will begin on or about September 1, 2003 and will be made for a 12-month budget period within a project period of up to five years. Funding estimates may change.

Continuation awards within an approved project period will be made on the basis of satisfactory progress as evidenced by required reports and the availability of funds.

Use of Funds

Funds May Not Be Used For:

1. Funds received from this announcement will not be used for the purchase of antiretroviral drugs for treatment of established HIV infection (with the exception of AZT and nevirapine in Prevention of Mother to Child Transmission (PMTCT) cases and with prior written approval), occupational exposures, and non-occupational exposures.

2. Funds will not be used for the purchase of machines and reagents to conduct the necessary laboratory monitoring for patient care.

3. No funds appropriated under this Act shall be used to carry out any program of distributing sterile needles or syringes for the hypodermic injection of any illegal drug.

Funds May Be Used For:

1. Funds may be spent for reasonable program purposes, including personnel, travel, supplies and services. Equipment may be purchased if deemed necessary to accomplish program objectives; however, prior approval by CDC officials must be requested in writing.

2. The costs that are generally allowable in grants to domestic organizations are allowable to foreign institutions and international organizations, with the following exception: With the exception of the

American University, Beirut, and the World Health Organization, Indirect Costs will not be paid (either directly or through sub-award) to organizations located outside the territorial limits of the United States or to international organizations regardless of their location.

3. The applicant may contract with other organizations under this program; however the applicant must perform a substantial portion of the activities (including program management and operations, and delivery of prevention services for which funds are required.)

All requests for funds contained in the budget shall be stated in U.S. dollars. Once an award is made, CDC will not compensate foreign grantees for currency exchange fluctuations through the issuance of supplemental awards.

You must obtain annual audit of these CDC funds (program-specific audit) by a U.S.—based audit firm with international branches and current licensure/authority in-country, and in accordance with International Accounting Standards or equivalent standard(s) approved in writing by CDC.

A fiscal Recipient Capability Assessment may be required, prior to or post award, in order to review the applicant's business management and fiscal capabilities regarding the handling of U.S. Federal funds.

Recipient Financial Participation

Matching funds are not required for this program.

E. Program Requirements

In conducting activities to achieve the purpose of this program, the recipient will be responsible for the activities listed in 1. Recipient Activities, and CDC will be responsible for activities listed in 2. CDC Activities.

1. Recipient Activities

- a. The applicant will plan and implement activities to build information technology capacity that supports M&E work. This may include a local area network and Internet access that will be used to disseminate information and communicate with public health officials within and outside of Zambia. This may also include training in the analysis and handling of data.

- b. The applicant will plan and implement activities to monitor the impact or assist in controlling HIV, STDs or TB in Zambia. This may include collecting and evaluating data on HIV, STIs and TB, and infrastructure building and training in the area of M&E.

2. CDC Activities

a. CDC will provide technical assistance in designing and building local area networks, setup of databases and other information technology projects. CDC will also provide guidance in selecting computer equipment to assist in achieving project goals, subject to agreement by CDC and the recipient.

b. CDC will assist in developing and implementing data and information dissemination plans for HIV, AIDS, TB, and STD data and results.

c. CDC will provide technical assistance including support from Atlanta-based staff for planning and implementing M&E activities. Activities may include identifying appropriate indicators to track progress in HIV, TB, and STD prevention and care, and in developing appropriate ways to collect and analyze the data needed to produce these indicators.

F. Content

Applications

The Program Announcement title and number must appear in the application. Use the information in the Program Requirements, Other Requirements, and Evaluation Criteria sections to develop the application content. Your application will be evaluated on the criteria listed, so it is important to follow them in laying out your program plan. The narrative should be no more than 20 pages, double-spaced, printed on one side, with one-inch margins, and unreduced 12-point font.

The narrative should consist of background information about the institution and its place in the national public health structure; objectives for the agreement and a description of how they will be accomplished; background on the staff members who will work with CDC to implement the project; and a description of prior and proposed collaboration with the Zambia CDC office. The narrative should also contain a program plan that addresses activities to be conducted over the entire five-year project period. A detailed budget justification is required.

G. Submission and Deadline

Application Forms

Submit the signed original and two copies of your proposal and PHS 5161-1 (OMB Number 0920-0428). Forms are available in the application kit, available from the CDC Zambia Office, American Embassy, Lusaka, tel. +260-1-250955, and at the following Internet address: <http://www.cdc.gov/od/pgo/forminfo.htm>.

If you do not have access to the Internet, or if you have difficulty accessing the forms on-line, you may contact the CDC Procurement and Grants Office Technical Information Management Section (PGO-TIM) at 770-488-2700. Application forms can be mailed to you.

Submission Date, Time, and Address

The application must be received by 4 p.m. Eastern Time August 7, 2003. Submit the application to: Technical Information Management-PA 03060, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341-4146, USA.

Applications may be e-mailed to pgotim@cdc.gov.

If you e-mail your application, you must also mail a hard copy of the application to the address listed above, for documentation purposes.

PGO-TIM will acknowledge receipt of applications by sending a postcard to all applicants.

Deadline

Applications shall be considered as meeting the deadline if they are received by 4 p.m. Eastern Time on the deadline date. Any applicant who sends their application by the United States Postal Service or commercial delivery services must ensure that the carrier will be able to guarantee delivery of the application by the closing date and time. If an application is received after closing due to (1) carrier error, when the carrier accepted the package with a guarantee for delivery by the closing date and time, or (2) significant weather delays or natural disasters, CDC will upon receipt of proper documentation, consider the application as having been received by the deadline.

Any application that does not meet the above criteria will not be eligible for competition, and will be discarded. The applicant will be notified of their failure to meet the submission requirements.

H. Evaluation Criteria

Application

Applicants are required to provide measures of effectiveness that will demonstrate the accomplishment of the various identified objectives of the cooperative agreement. Measures of effectiveness must relate to the performance goals stated in the purpose section of this announcement. Measures must be objective and quantitative and must be submitted with the application and will be an element of evaluation.

An independent review group appointed by CDC will evaluate each application against the following criteria:

1. Importance of the Institution in Zambia's Public Health System (40 Points)

The extent to which the applicant's proposal demonstrates the key role of the institution for HIV, STD or TB control programs in Zambia.

2. Ability to Jointly work with CDC on the Project (20 Points)

The extent to which the applicant documents ability to work with CDC to jointly develop M&E capacity in the areas of HIV, STIs or TB.

3. Personnel (20 Points)

The extent to which professional personnel involved in this project are qualified to develop and implement M&E projects in the areas of HIV, STIs or TB.

4. Administration (20 Points)

The adequacy of the plans to account for, prepare reports, monitor, and audit expenditures under this agreement.

5. Budget (Not Rated, but Evaluated)

The extent to which the itemized budget for conducting the project is itemized and justified.

6. Does the application adequately address the requirements of Title 45 CFR part 46 for the protection of human subjects?

Not scored; however, an application can be disapproved if the research risks are sufficiently serious and protection against risks is so inadequate as to make the entire application unacceptable.

Does the application adequately address the CDC policy requirements regarding the inclusion of women, ethnic, and racial groups in the proposed research? This includes:

1. The proposed plan for the inclusion of both sexes and racial and ethnic minority populations for appropriate representation.

2. The proposed justification when representation is limited or absent.

3. A statement as to whether the design of the study is adequate to measure differences when warranted.

4. A statement as to whether the plans for recruitment and outreach for study participants include the process of establishing partnerships with community(ies) and recognition of mutual benefits.

I. Other Requirements

Technical Reporting Requirements

Provide CDC with original plus two copies of:

1. Interim progress report, no less than 90 days before the end of the

budget period. The progress report will serve as your non-competing continuation application, and must contain the following elements:

- a. Current Budget Period Activities Objectives.
 - b. Current Budget Period Financial Progress.
 - c. New Budget Period Program Proposed Activity Objectives.
 - d. Detailed Line-Item Budget and Justification.
 - e. Additional Requested Information.
2. Financial status report, no more than 90 days after the end of the budget period.
 3. Final financial and performance reports, no more than 90 days after the end of the project period.

Send all reports to the Grants Management Specialist identified in the "Where to Obtain Additional Information" section of this announcement.

Additional Requirements

The following additional requirements are applicable to this program. For a complete description of each, see Attachment I of the program announcement, as posted on the CDC Web site.

- AR-1 Human Subjects Requirements.
- AR-4 HIV/AIDS Confidentiality Provisions.
- AR-12 Lobbying Restrictions.
- AR-14 Accounting System Requirements.

Executive Order 12372 does not apply to this program.

J. Where To Obtain Additional Information

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Program Announcement 03044]

Enhancement of an Integrated HIV Program for Voluntary Counseling and Testing, Clinical and Home-Based Care in Malawi; Notice of Availability of Funds

Application Deadline: August 7, 2003.

A. Authority and Catalog of Federal Domestic Assistance Number

This program is authorized under section 307 of the Public Health Service Act, (42 U.S.C. 242l), as amended. The Catalog of Federal Domestic Assistance number is 93.941.

B. Purpose

The Centers for Disease Control and Prevention (CDC) announce the availability of fiscal year (FY) 2003 funds for a cooperative agreement program for the enhancement of an integrated HIV voluntary counseling and testing (VCT), clinical and home-based care program in Malawi.

The purpose of this program is to provide assistance to a Malawi-based public or private non-profit organization in the provision of an integrated HIV program that includes VCT, clinical care, and home-based care in the country of Malawi. This program will also assist in the development of plans and strategies for replicating a successful service model to extend these service capabilities to other private and public sector sites and providers.

The HIV epidemic in Malawi has matured to the point that both illness and mortality are at very high levels. Malawi has recently succeeded in garnering initial approval for a large Global Fund award to address the HIV epidemic. Three critical elements included in the Global Fund award are: (1) VCT; (2) clinical care and treatment for HIV and opportunistic infections; and (3) home-based care for HIV-infected individuals. Thoughtful, integrated, and innovative programs to address this triad of services are urgently needed to effectively address

implementation of Global Fund activities. Extension of successful integrated programs through training and replication of successful models is a critical step in increasing availability and accessibility to these HIV services for those in need.

Measurable outcomes of the program will be in alignment with one or more of the following performance goals for the National Center for HIV, STD and TB Prevention: Working with other countries, USAID, international, and U.S. Government agencies, reduce the number of new HIV infections among 15 to 24 year olds in sub-Saharan Africa from an estimated two million by 2005.

C. Eligible Applicants

Applications may be submitted by public and private non-profit organizations and by governments and their agencies with a current capacity for providing three integrated services: (1) VCT; (2) ambulatory facility-based HIV clinical care and anti-retroviral (ARV) treatment; and (3) home-based care in the country of Malawi. Organizations based outside Malawi, including organizations whose headquarters are based outside Malawi, are not eligible to apply.

D. Funding

Availability of Funds

Approximately \$175,000 is available in FY 2003 to fund one award. It is expected that the award will begin on or about September 15, 2003 and will be made for a 12-month budget period within a project period of up to three years. Funding estimates may change.

Continuation awards within an approved project period will be made on the basis of satisfactory progress as evidenced by required reports and the availability of funds.

Use of Funds

Funds may be utilized only for activities associated with HIV/AIDS. CDC funds may be used for direct costs such as salaries; necessary travel; operating costs, including supplies, fuel, utilities, etc.; and staff training costs, including registration fees and purchase and rental of training related equipment.

Antiretroviral Drugs

The purchase of antiretroviral drugs, reagents, and laboratory equipment for antiretroviral treatment projects requires pre-approval from the Global AIDS Program headquarters.

Needle Exchange

No funds appropriated under this Act shall be used to carry out any program of distributing sterile needles or
