Background

Faith-based organizations make an important contribution to the education of Americans and provide an important part of the social services network of the United States. Faith-based organizations acting alone or in partnership with public schools, community-based organizations, institutions of higher education, and other private organizations do much good work to advance the quality of education for all Americans. Often this good work of faith-based organizations is done despite meager resources, and in the past, it has generally been done without the assistance of the Federal Government.

The Department seeks to facilitate the contribution of faith-based and community organizations to increase the effectiveness of its programs and to provide equal access to a quality education for all Americans. We believe this will strengthen the effort to make sure that no child is left behind.

President Bush has directed Federal agencies, including this Department, to take steps to ensure that Federal policies and programs are fully open to faith-based organizations in a manner that is consistent with the U.S. Constitution and statutory requirements. The Administration believes that faith-based organizations possess an under-appreciated ability to meet the educational needs of disadvantaged children and to strengthen our system of education. The Administration believes that Federal agencies should ensure that there is equal opportunity for all private organizations, faith-based and secular, to use Federal resources to meet the needs of their communities.

President Bush has signed two Executive orders relevant to the Department's efforts on the faith-based and community initiative. Executive Order 13198, dated January 29, 2001, directs the Department to identify and eliminate regulatory and other programmatic obstacles to the full contribution of faith-based and community groups in order to increase the effectiveness of the Department's programs. Executive Order 13279, dated December 12, 2002, directs the Department to review and evaluate existing policies that have implications for faith-based and community organizations in order to assess the consistency of those policies with certain fundamental principles and policymaking criteria designed to ensure a level playing field for religious and nonreligious organizations. The order directs the Department, to the extent permitted by law, (1) to amend all such existing policies to ensure that they are consistent with the fundamental principles and policymaking criteria; (2) where appropriate, to implement new policies that are consistent with and necessary to further the fundamental principles and policymaking criteria; and (3) to implement new policies that are necessary to ensure that the Department collects data regarding the participation of faith-based and community organizations in social service programs that receive Federal financial assistance. This proposed amendment to the Department's regulations is part of its effort to comply with these Executive orders.

Significant Proposed Regulations

Current Regulations. Current program eligibility regulations at 34 CFR parts 75 and 76 do not state specifically that faith-based organizations are eligible to apply for and to receive funding under Department of Education programs on the same basis as other private organizations, with respect to programs for which such organizations are eligible. Similarly, current procurement regulations at 34 CFR parts 74 and 80 do not state specifically that faith-based organizations are eligible to contract with or otherwise receive assistance from grantees and subgrantees on the same basis as other private organizations, with respect to contracts or assistance for which such organizations are eligible.

Proposed Regulations and Reasons. Proposed §§ 75.52 (Eligibility of faith-based organizations for a grant) and 76.52 (Eligibility of faith-based organizations for a subgrant) state specifically that faith-based organizations are eligible to apply for and to receive funding under Department of Education programs on the same basis as any other private organization, with respect to programs for which such other organizations are eligible.

The Department seeks to clarify that the most qualified applicants will receive funding under the Department's programs, and that the religious character or affiliation of the private organizations that apply will not be taken into account. For that reason, the Department is additionally proposing the removal of §§ 75.532(a)(4), (b)(1) and (2) and 76.532(a)(4), (b)(1) and (2), which prohibit grantees and subgrantees, respectively, from using their grants and subgrants to pay for an activity of a school or department of divinity.

In addition, to clarify that grantees may not use their grants to pay for equipment or supplies used for religious worship, instruction, or proselytization, the Department is proposing a technical amendment to § 75.532(a)(2).

Moreover, although the Department believes that grantees and subgrantees may use their grants and subgrants to pay for construction, remodeling, repair, operation, or maintenance of any facility or part of a facility only to the extent that such facilities are used for eligible Department-funded activities (and not for inherently religious activities such as religious worship, instruction, or proselytization, or any other ineligible purpose), the Department is proposing simply to remove §§ 75.532(a)(3) and 76.532(a)(3) because there is no

statutory authority under which a grantee or subgrantee may use its grants and subgrants for construction, remodeling, repair, operation, or maintenance of any private educational facility (or part of a private educational facility). Because no Department program funds capital improvements for any such facility, these regulations have no application and are unnecessary.

Lastly, the Department is proposing to add a new paragraph (f) to § 74.44 and a new paragraph (j) to § 80.36 to clarify that faith-based organizations are eligible to contract with and otherwise receive assistance from grantees and subgrantees, including States, on the same basis as other private organizations, with respect to contracts or assistance for which such organizations are eligible. The proposed paragraphs state that such faith-based organizations are subject to the same limitations to which grantees and subgrantees are subject regarding the use of Department funds for inherently religious activities, unless the organization is selected as a result of the genuine and independent private choice of the beneficiary of the program and provided the organization otherwise satisfies the requirements of the program.

Proposed §§ 75.52 (Eligibility of Faith-Based Organizations for a Grant) and 76.52 (Eligibility of Faith-Based Organizations for a Subgrant)

Proposed paragraph (a)—Participation by faith-based organizations in the Department's programs. This paragraph clarifies that a faith-based organization is eligible to participate in the Department's direct grant programs (proposed § 75.52) and State-administered programs (proposed § 76.52) on the same basis as any other private organization, with respect to programs for which such other organizations are eligible. If a faith-based organization meets the statutory and regulatory tests for eligibility, the Department considers it eligible. The inclusion of qualified faith-based organizations increases the pool of potential applicants and enhances competition. As a result, the inclusion of qualified faith-based organizations increases the quantity of highly qualified applicants that are eligible to receive Federal funding, contributing to an increase in effectiveness of the Department's programs, a savings of Federal dollars, the generation of new ideas, and the provision of services to people who may not otherwise receive them. The Department needs the contribution of qualified faith-based organizations that serve in areas of great

need and that have strong ties to the community to achieve the Department's goal of ensuring that no child is left behind.

Consistent with this principle, the paragraph additionally provides that the Department and the States shall not discriminate against a private organization on the basis of the organization's religious character or affiliation.

Proposed paragraph (b)—Prohibition on use of funds for inherently religious activities. This paragraph clarifies that a faith-based organization that receives a grant under a program of the Department (proposed § 75.52) or a subgrant from a State under a State-administered program of the Department (proposed § 76.52) is subject to the provisions of §§ 75.532 and 76.532, respectively. Those sections prohibit grantees (§ 75.532) and States and subgrantees (§ 76.532) from using their grants and subgrants to pay for inherently religious activities, such as religious worship, instruction, or proselytization; and for equipment or supplies used for religious worship, instruction, or proselytization. Sections 75.532 and 76.532 also currently prohibit grantees and subgrantees from using their grants and subgrants to pay for construction, remodeling, repair, operation, or maintenance of any facility or part of a facility to be used for religious worship, instruction, or proselytization; and an activity of a school or department of divinity, as so defined. As explained above, however, the Department seeks to eliminate those provisions elsewhere in these proposed regulations.

Proposed paragraph (c)—Inherently religious activities that must be offered separately in time or location and be voluntary. This paragraph clarifies that a private organization that engages in inherently religious activities, such as religious worship, instruction, or proselytization, must offer those services separately in time or location from any programs or services supported by grants from the Department (proposed § 75.52) or subgrants from a State under a State-administered program of the Department (proposed § 76.52), and that participation in any such inherently religious activities by beneficiaries of the programs supported by the grants or subgrants must be voluntary.

The religious liberties of program beneficiaries must be guarded. No one should be coerced into participating in inherently religious activities to receive federally funded services. Thus, the inherently religious activities of faith-based groups must be separated by time

or location from the programs or services supported by grants from the Department or subgrants from a State under a State-administered program of the Department, and participation in such inherently religious activities by beneficiaries of the program supported by the grants or subgrants must be voluntary.

Proposed paragraph (d)—Faith-based organizations may retain their religious character. The restrictions on the use of grants and subgrants for inherently religious activities do not prohibit faith-based organizations from engaging in inherently religious activities. The restrictions only prohibit such funds from being used to support these activities. This paragraph clarifies that a faith-based organization does not have to suppress its religious identity to qualify for a grant or subgrant.

A faith-based organization that applies for or receives a grant or subgrant may maintain its character and independence, including the definition, practice, and expression of its religious beliefs, provided that it does not use the grant or subgrant to support inherently religious activities. Many faith-based organizations are concerned that they must give up their religious identity to receive Federal funding and, as a result, have not sought opportunities to use Federal funds to meet needs in their communities. This concern has served as a barrier to facilitating the contribution of faith-based organizations to aid the Department in achieving its goal of making programs more effective. The Federal Government does not ask other types of private organizations to compromise their philosophical identity or ideology to receive Federal funds so the Department does not require faith-based organizations to compromise their philosophical identity or ideology either. Faith-based organizations, like other private organizations, must use the Federal funds for the purpose of the applicable program. Clarifying that faith-based organizations do not have to suppress their religious identity encourages them to participate in the Department's programs and contributes to increasing the effectiveness of the Department's programs.

Proposed paragraph (e)—Prohibition on discrimination against program beneficiaries or prospective program beneficiaries on the basis of religion. This paragraph prohibits discrimination by private organizations against beneficiaries or prospective beneficiaries of the Department's programs on the basis of religion. One who administers or delivers services to such beneficiaries (e.g., an employee or prospective employee of a grantee or

subgrantee) is not considered a "beneficiary" or "prospective beneficiary" for purposes of this provision.

Proposed paragraph (f)—Effect of contribution of own funds. In the case of grants or subgrants that require fund matching, the Department's regulations stipulate that Federal rules apply to those matching funds. In addition, in cases where grantees and subgrantees pledge to contribute their own funding in excess of matching funds required under the grant or subgrant announcement, those excess funds pledged in the grant or subgrant application are considered part of a "grant agreement" and are therefore also subject to Federal rules.

If a grantee or subgrantee provides funds in excess of those funds stipulated in grant or subgrant matching requirements or agreements, Federal rules will not apply to the extent that those excess funds are not commingled with the funds stipulated in the matching requirements or agreement. If the excess funds are separated from those "required" funds, they will not be subject to Federal rules. If those excess funds are not kept separate from the "required" funds, they will be subject to Federal rules.

Technical amendment to § 75.532(a)(2) relating to the prohibition on use of grants to pay for equipment or supplies to be used for religious worship, instruction, or proselytization.

To clarify that grantees cannot use their grants to pay for equipment or supplies used for religious worship, instruction, or proselytization, the Department is proposing a technical amendment to § 75.532(a)(2). The Department believes that no clarification is needed for § 76.532(a)(2) relating to States and subgrantees.

Removal of §§ 75.532(a)(3) and 76.532(a)(3) relating to the prohibition on use of grants and subgrants to pay for construction, remodeling, repair, operation, or maintenance of any facility or part of a facility to be used for religious worship, instruction, or proselytization.

The Department believes that grantees and subgrantees may use their grants and subgrants to pay for construction, remodeling, repair, operation, or maintenance of any facility or part of a facility only to the extent that such facilities are used for eligible Department-funded activities (and not for inherently religious activities such as religious worship, instruction, or proselytization, or any other ineligible purpose). The Department is nevertheless proposing the removal of §§ 75.532(a)(3) and 76.532(a)(3) because

there is no statutory authority for grantees and subgrantees to use their grants and subgrants for construction, remodeling, repair, operation, or maintenance of any private educational facility (or part of a private educational facility). The Department accordingly has no programs that fund such capital improvements. Therefore, rather than amend these provisions to clarify the limitations under which grantees and subgrantees could use their grants and subgrants if such statutory authority existed, the Department proposes simply to remove these provisions. If and when such uses are authorized by statute, the Department will issue program-specific regulations in accordance with the statute.

Removal of §§ 75.532(a)(4), (b)(1) and (2) and 76.532(a)(4), (b)(1) and (2) relating to the prohibition on use of grants and subgrants to pay for an activity of a school or department of divinity.

Consistent with the principle that faith-based organizations are eligible to apply for and to receive funding under Department of Education programs on the same basis as any other private organization, with respect to programs for which such other organizations are eligible, the Department is additionally proposing the removal of §§ 75.532(a)(4), (b)(1) and (2) and 76.532(a)(4), (b)(1) and (2), which prohibit grantees and subgrantees, respectively, from using their grants and subgrants to pay for an activity of a school or department of divinity. Grantees and subgrantees that use their grants and subgrants to pay for such an activity will still be subject to §§ 75.532(a) and 76.532(a), which prohibit them from using their grants and subgrants to pay for (1) religious worship, instruction, or proselytization, and (2) equipment or supplies to be used for those activities. To the extent that they perform eligible activities, however, they need not be disqualified from participating in Federal programs simply by virtue of their status as religious schools or departments.

Proposed §§ 74.44(f) (Procurement Procedures) and 80.36(j) (Procurement)

Lastly, the Department seeks to clarify that faith-based organizations are eligible to contract with or otherwise receive assistance from grantees and subgrantees, including States, on the same basis as other private organizations, with respect to contracts or assistance for which such organizations are eligible. Such faith-based organizations are subject to the same limitations to which grantees and subgrantees are subject regarding the

use of funds for inherently religious activities, unless the organization is selected as a result of the genuine and independent private choice of the beneficiary of the program and provided the organization otherwise satisfies the requirements of the program. For example, a supplemental educational service provider that contracts with or otherwise receives assistance from a subgrantee pursuant to section 1116 of the Elementary and Secondary Education Act of 1965, as amended by the No Child Left Behind Act of 2001, is not subject to the same limitations to which grantees and subgrantees are subject regarding the use of funds for inherently religious activities because the provider, by statute, is selected as a result of the genuine and independent private choice of the parent of an eligible child. However, the provider must still satisfy all applicable statutory requirements.

Executive Order 12866

1. Potential Cost and Benefits

Under Executive Order 12866, we have assessed the potential costs and benefits of this regulatory action.

The potential costs associated with the proposed regulations are minimal and arise from statutory requirements and those we have determined to be necessary for administering the Department's programs effectively and efficiently.

In assessing the minimal potential costs and substantial benefits—both quantitative and qualitative—of this regulatory action, we have determined that the benefits would justify the costs.

We have also determined that this regulatory action would not unduly interfere with State, Local, and Tribal governments in the exercise of governmental functions.

Summary of Potential Costs and Benefits

These proposed regulations would not add significantly to the costs of implementing the Department's programs, but will significantly increase the benefits that the Secretary believes will be obtained through successful implementation.

As noted elsewhere in this preamble, the proposed regulations would increase the pool of potential applicants from which the Department may select grantees, the States may select subgrantees, and grantees and subgrantees may select entities with which to contract or otherwise provide assistance, thereby increasing the quantity of highly qualified private organizations that are eligible to receive

Federal funding. The proposed regulations will enable the Department to facilitate the contribution of faith-based organizations to increase the effectiveness of the Department's programs. The proposed regulations will also ensure that Federal funds are used only for proper purposes and clarify for faith-based organizations, the Department, and the public the rules for using Federal funds.

The existing procedures for ensuring that Federal funds will be used for proper purposes will be used to ensure that funds are not diverted to improper purposes. The Department will employ its standard procedures for monitoring grantees that it would employ even if the proposed regulations were not promulgated. For purposes of the Unfunded Mandates Reform Act of 1995, these regulations do not include a Federal mandate that might result in increased expenditures by State, local, and tribal governments, or increased expenditures by the private sector of more than \$100 million in any one year.

2. Clarity of the Regulations

Executive Order 12866 and the Presidential memorandum on "Plain Language in Government Writing" require each agency to write regulations that are easy to understand.

The Secretary invites comments on how to make these proposed regulations easier to understand, including answers to questions such as the following:

- Are the requirements in the proposed regulations clearly stated?
- Do the proposed regulations contain technical terms or other wording that interferes with their clarity?
- Does the format of the proposed regulations (grouping and order of sections, use of headings, paragraphing, etc.) aid or reduce their clarity?
- Would the proposed regulations be easier to understand if we divided them into more (but shorter) sections? (A "section" is preceded by the symbol "\$" and a numbered heading; for example, § 75.52 *Eligibility of faith-based organizations for a grant.*)
- Could the description of the proposed regulations in the **SUPPLEMENTARY INFORMATION** section of this preamble be more helpful in making the proposed regulations easier to understand? If so, how?
- What else could we do to make the proposed regulations easier to understand?

Send any comments that concern how the Department could make these proposed regulations easier to understand to the person listed in the **ADDRESSES** section of the preamble.

Regulatory Flexibility Act Certification

The Secretary certifies that these proposed regulations would not have a significant economic impact on a substantial number of small entities. These proposed regulations require the Department and States to administer grant programs in accordance with constitutional standards and to maximize the efficiency and productivity of such programs. States are not considered small entities under the Regulatory Flexibility Act.

Paperwork Reduction Act of 1995

These proposed regulations do not require any additional information collection requirements.

Intergovernmental Review

These proposed regulations affect direct grant programs that are subject to Executive Order 12372 and the regulations in 34 CFR part 79. One of the objectives of the Executive order is to foster an intergovernmental partnership and to strengthen federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

This document provides early notification of our specific plans and actions for these programs.

Assessment of Educational Impact

The Secretary particularly requests comments on whether these proposed regulations would require transmission of information that any other agency or authority of the United States gathers or makes available.

PART 80—UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS TO STATE AND LOCAL GOVERNMENTS

9. The authority citation for part 80 continues to read as follows:
