SUMMARY: This final rule implements revised product-price formulas for establishing Class III and Class IV milk prices. The formulas are applicable to all Federal milk marketing orders. Each of the amended orders was approved by producers who were eligible to have their milk pooled during the representative month for voting purposes. Referenda were conducted in two markets, and dairy farmer cooperatives were polled in the other nine markets to determine whether dairy farmers approve the issuance of the orders as amended.

EFFECTIVE DATE: April 1, 2003.

SUPPLEMENTARY INFORMATION: This administrative rule is governed by the provisions of Sections 556 and 557 of Title 5 of the United States Code and, therefore, is excluded from the requirements of Executive Order 12866.

This final rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule is not intended to have retroactive effect. This rule will not preempt any state or local laws, regulations, or policies, unless they present an irreconcilable conflict with the rule.

The Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may request modification or exemption from such order by filing with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with the law. A handler is afforded the opportunity for a hearing on the petition. After a hearing, the Department would rule on the petition. The Act provides that the District Court of the United States in any district in which the handler is an inhabitant, or has its principal place of business, has jurisdiction in equity to review the Department's ruling on the petition, provided a bill in equity is filed not later than 20 days after the date of the entry of the ruling.

Small Business Consideration

In accordance with the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities and has certified that this rule will not have a significant economic impact on a substantial number of small entities. For the purpose of the Regulatory Flexibility Act, a dairy farm is considered a "small business" if it has an annual gross revenue of less than \$750,000, and a dairy products manufacturer is a "small business" if it has fewer than 500 employees.

Federal Register

Vol. 68, No. 29

Wednesday, February 12, 2003

For the purposes of determining which dairy farms are "small businesses," the \$750,000 per year criterion was used to establish a production guideline of 500,000 pounds per month. Although this guideline does not factor in additional monies that may be received by dairy producers, it should be an inclusive standard for most "small" dairy farmers. For purposes of determining a handler's size, if the plant is part of a larger company operating multiple plants that collectively exceed the 500 employee limit, the plant will be considered a large business even if the local plant has fewer than 500 employees.

In consideration of the economic impact of changes to the Federal milk marketing order program implemented by this final rule on small entities, AMS prepared a regulatory flexibility analysis that was included in the final decision (67 FR 67906). The analysis indicates that the Department minimized the significant economic impact of the regulations on small entities to the fullest extent reasonably possible while adhering to the stated objectives. The Department reviewed the regulatory and financial burdens resulting from the regulations and determined, to the fullest extent possible, the impact on small businesses' abilities to compete in the market place. The Department reviewed the regulations from both the small producer and small processor perspectives, attempting to maintain a balance between these competing interests. Neither small producers nor small handlers should experience any particular disadvantage as a result of the order amendments.

No additional information collection or reporting requirements will be necessitated by the amendments.

An analysis of the economic effects of the alternatives selected was done and summarized in the final decision. A complete economic analysis is available upon request from Howard McDowell, Senior Economist, Office of the Chief Economist, USDA/AMS/Dairy Programs, Stop 0229-Room 2753, 1400 Independence Avenue, SW., Washington, DC 20250-0229, (202) 720-7091, e-mail: howard.mcdowell@usda.gov.

Civil Rights Impact Statement

Pursuant to Departmental Regulation (DR) 4300-4, a comprehensive Civil Rights Impact Analysis (CRIA) was

conducted and published with the final decision on Federal milk order consolidation and reform. The conclusion of that analysis disclosed no potential for affecting dairy farmers in protected groups differently than the general population of dairy farmers. This issue was reconsidered in the Final Decision (67 FR 67906) with regard to the order amendments, and the conclusion has not changed.

Findings and Determinations

The findings and determinations hereinafter set forth supplement those that were made when the Northeast and other orders were first issued and when they were amended. The previous findings and determinations are hereby ratified and confirmed, except where they may conflict with those set forth herein.

The following findings are hereby made with respect to each of the aforesaid orders:

(a) *Findings upon the basis of the hearing record*. Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the orders regulating the handling of milk in the respective marketing areas.

Upon the basis of the evidence introduced at such hearing and the record thereof, for each of the aforesaid orders, it is found that:

(1) The said orders, as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing areas, and the minimum prices specified in the orders, as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said orders, as hereby amended, regulate the handling of milk in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in, marketing agreements upon which a hearing has been held.

(b) *Additional Findings*. It is necessary in the public interest to make these amendments to the Northeast and other orders effective for milk marketed on or after April 1, 2003. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the aforesaid marketing areas.

The amendments to these orders are known to handlers. The final decision containing the proposed amendments to these orders was issued on October 25, 2002.

The changes that result from these amendments will not require extensive preparation or substantial alteration in the method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making these order amendments effective for milk marketed on or after April 1, 2003.

(c) *Determinations*. It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in Sec. 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within each of the specified marketing areas, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order amending the Northeast and other orders is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the orders as hereby amended;

(3) The issuance of the order amending the Northeast and other orders is favored by at least two-thirds of the producers who were engaged in

the production of milk for sale in each marketing area.

[Docket No. AO-313-A44; DA-01-07]

Milk in the Central Marketing Area; Interim Order Amending the Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Interim final rule.

SUMMARY: This order amends certain pooling provisions of the Central Federal milk order on an interim basis.

This interim order amends the *Pool plant* provisions that: Establish lower but year-round supply plant performance standards; will not consider the volume of milk shipments to distributing plants regulated by another Federal milk order as a qualifying shipment for the Central order; exclude from receipts diverted milk made by a pool plant to another pool plant in determining pool plant diversion limits; and establish a "net shipments" provision for milk deliveries to distributing plants. For *Producer milk*, this interim order adopts amendments that: establish higher year-round diversion limits; will base diversion limits for supply plants on deliveries to Central order distributing plants; and eliminate the ability to simultaneously pool milk on the Central milk order and a State-operated milk
