47 CFR Part 73

[DA 04-781, MB Docket No. 02-126, RM-10448]

Radio Broadcasting Services; Wynnewood, OK

AGENCY: Federal Communications Commission.

ACTION: Proposed rule, dismissal.

SUMMARY: This document dismisses a pending petition for rulemaking to add an FM allotment in Wynnewood, Oklahoma. The Commission had requested comment on a petition filed by David Garland, proposing the allotment of Channel 266A at Wynnewood, Oklahoma. *Wynnewood, Oklahoma*, 17 FCC Rcd 9557 (MB 2002). The petitioner filed comments in support of the proposal. In addition, a counterproposal was filed by DFWU, Inc., proposing the alternative allotment of Channel 265A at Konawa, Oklahoma. Both the original proposal in this proceeding and the counterproposal were determined to be in conflict with, and outside the comment period for, proposals under consideration in MM Docket No. 01-180. *Holdenville, Oklahoma*, 16 FCC Rcd 14,912 (MM 2001). This document therefore dismisses the petition and counterproposal in this proceeding and terminates the proceeding.

We will accept written comments and information during this reopened comment period. We solicit comments on the original proposed critical habitat designation (January 22, 2004, 69 FR 3064). Of particular interest to us are comments on the criteria used to identify critical habitat, the special management considerations, and additional suggestions regarding the primary constituent elements identified for the California tiger salamander in this proposed rule. Please feel free to suggest other sources of information relevant to this species of which you may be aware.

An analysis of the economic impacts of proposing critical habitat for the California tiger salamander is being prepared. We will announce the availability of the draft economic analysis as soon as it is completed, at which time we will seek public review and comment. At that time, copies of the draft economic analysis will be available for downloading from the Internet at <http://ventura.fws.gov>, or by contacting the Ventura Fish and Wildlife Office directly (see **ADDRESSES** section).

Please submit electronic comments in an ASCII file format and avoid the use of special characters and encryption. In the event that our internet connection is not functional, please submit your comments by the alternate methods mentioned above.

Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home addresses from the rulemaking record, which we will honor to the extent allowable by law. In some circumstances, we would withhold from the rulemaking record a respondent's identity, as allowable by law. If you wish for us to withhold your name and/or address, you must state this prominently at the beginning of your comments. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of

organizations or businesses, available for public inspection in their entirety.

Background

On January 22, 2004, we published in the **Federal Register** a proposed critical habitat rule for the Santa Barbara DPS of California tiger salamander listed under the Endangered Species Act of 1973, as amended (Act) (16 U.S.C. 1531 *et seq.*). Six critical habitat units, totaling approximately 13,920 acres (5,633 hectares), are proposed for designation for the Santa Barbara County DPS of California tiger salamander. The proposed critical habitat is located in Santa Barbara County, CA. For locations of these proposed units, please consult the proposed rule (69 FR 3064).

The comment period for the proposed critical habitat designation originally closed on March 22, 2004. We are now announcing one public hearing and are reopening the comment period to allow all interested parties to submit oral or written comments on the proposal. We are seeking comments or suggestions from the public, other concerned agencies, the scientific community, industry, or any other interested parties concerning the proposed rule. Comments already submitted on the proposed rule need not be resubmitted as they will be fully considered in the final determination.

Section 4(b)(5)(E) of the Act requires that a public hearing be held if it is requested within 45 days of the publication of a proposed rule. We received numerous requests for an extension of the comment period and for a public hearing. In response to these requests, we are reopening the public comment period and holding a public hearing on the date and at the address described in the **DATES** and **ADDRESSES** section.

Anyone wishing to make an oral statement for the record is encouraged to provide a written copy of their statement and present it to us at the hearing. In the event there is a large attendance, the time allotted for oral statements may be limited. Oral and written statements receive equal consideration. There are no limits to the length of written comments presented at the hearing or mailed to us.

Persons needing reasonable accommodations in order to attend and participate in the public hearing should contact Patti Carroll, Region 1, at 503/231-2080 as soon as possible. In order to allow sufficient time to process requests, please call no later than 1 week before the hearing date.

Information regarding this proposal is available in alternative formats upon request.

List of Fisheries for 2004

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Proposed rule.

SUMMARY: The National Marine Fisheries Service (NMFS) is publishing the proposed List of Fisheries (LOF) for 2004, as required by the Marine Mammal Protection Act (MMPA). The proposed LOF for 2004 reflects new information on interactions between commercial fisheries and marine mammals. NMFS must categorize each commercial fishery on the LOF into one of three categories under the MMPA based upon the level of serious injury and mortality of marine mammals that occurs incidental to each fishery. The categorization of a fishery in the LOF determines whether participants in that fishery are subject to certain provisions of the MMPA, such as registration, observer coverage, and take reduction plan requirements.

DATES: Comments must be received by May 13, 2004.

ADDRESSES: Send comments to Chief, Marine Mammal Conservation Division, Attn: List of Fisheries, Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910. Comments may also be sent via email to 2004LOF.comments@noaa.gov or to the Federal eRulemaking portal: <http://www.regulations.gov> (follow instructions for submitting comments).
