

air agencies includes any necessary revisions to SIPs, monitoring certification, and audit responsibilities.

Burden Statement: The ICR estimates the annual State and Local burden for the proposed CAIR to average 5,351 hours per year. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to, or for, a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State and local entities affected by this ICR include State and local air quality agencies. Additionally, States are expected to achieve the reductions required by the proposed rule from large EGUs, so the burden to those entities is estimated in this ICR.

Estimated Number of Respondents: Respondents are expected to include 1,750 businesses and 104 State or local agencies.

Frequency of Response: The frequency of response will vary by task.

Estimated Total Annual Hour Burden: The total annual reporting and recordkeeping hour burden for all respondents is estimated to be approximately 607,978 hours per year.

Estimated Total Annual Cost: Total annual costs of information collection are estimated to be approximately \$68.1 million for CAIR. This estimate includes \$20.8 million annualized capital or start up costs.

Dated: July 13, 2004.

Jeffrey S. Clark,

Acting Director, Office of Air Quality Planning and Standards.
