

3050 Martin Luther King, Jr. Drive,  
Shreveport, LA 71107. Grant: \$391,490.

#### Region VII

18. University of Kansas Center for  
Research, Ms. Rona Chamberlain, 2385  
Irving Hill Road, Lawrence, KS 66045.  
Grant: \$400,000.

#### Region VIII

19. University of Utah, Mr. William  
Ernest, 1471 Federal Way, Salt Lake  
City, UT 84102. Grant: \$399,702.

#### Region IX

20. Los Angeles Trade Technical  
College, Dr. Denise G. Fairchild, 400  
West Washington Blvd., Los Angeles,  
CA 90015. Grant: \$200,000.

21. The Regents of the University of  
California, Ms. Patricia Gates, 336  
Sproul Hall, Berkeley, CA 94720. Grant:  
\$200,000.

Dated: December 3, 2004.

**Dennis C. Shea,**

*Assistant Secretary for Policy Development  
& Research.*

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4900-FA-02]

### Announcement of Funding Awards for Fiscal Year 2004 Early Doctoral Student Research Grant Program

**AGENCY:** Office of the Assistant  
Secretary for Policy Development and  
Research, HUD.

**ACTION:** Announcement of funding  
awards.

**SUMMARY:** This document identifies the  
doctoral students selected for funding  
under the Fiscal Year (FY) 2004 Early  
Doctoral Student Research Grant  
(EDSRG) Program. The EDSRG program  
enables doctoral students to cultivate  
their research skills through the  
preparation of research manuscripts that  
focus on policy-relevant housing and  
urban development issues.

**FOR FURTHER INFORMATION CONTACT:**  
Susan Brunson, Office of University  
Partnerships, Department of Housing  
and Urban Development, Room 8106,  
451 Seventh Street, SW., Washington,  
DC 20410-6000, telephone (202) 708-  
3061, ext. 3852. To provide service for  
persons who are hearing-or speech-  
impaired, this number may be reached  
through TTY by dialing the Federal  
Information Relay Service on 800-877-  
8339 or 202-708-1455. (Telephone  
numbers, other than "800" TTY  
numbers are not toll free).

**SUPPLEMENTARY INFORMATION:** The  
EDSRG enables students to cultivate  
their research skills through the  
preparation of research manuscripts that  
focus on policy-relevant housing and  
urban development issues. Doctoral  
students have 12 months to complete a  
major research study. The maximum  
amount to be awarded is \$15,000.

This program is administered by the  
Associate Deputy Assistant Secretary for  
University Partnerships. This Office also  
administers Policy Development and  
Research's other grant programs for  
academics.

The Catalog of Federal Domestic  
Assistance number for this program is  
14.517.

On May 14, 2004 (69 FR 27111), HUD  
published a Notice of Funding  
Availability (NOFA) announcing the  
availability of \$150,000 in FY 2004  
funds for the EDSRG Program. The  
Department reviewed, evaluated and  
scored the applications received based  
on the criteria in the NOFA. As a result,  
HUD has funded the applicants  
identified below, and in accordance  
with Section 102(a)(4)(C) of the  
Department of Housing and Urban  
Development Reform Act of 1989 (103  
Stat. 1987, U.S.C. 3545), the Department  
is publishing details concerning the  
recipients of funding awards. More  
information about the winners can be  
found at <http://www.oup.org>.

#### List of Awardees for Grant Assistance Under the FY 2004 Early Doctoral Student Research Grant Program Funding Competition, by Institution, Address, Grant Amount and Name of Student Funded

1. University of Pittsburgh, Graduate  
School of Public and International  
Affairs, 350 Thackeray Hall, Pittsburgh,  
PA 15260. Grant: \$14,900 to Flexi Au  
Yeung.

2. Kansas State University,  
Department of Economics, 2 Fairchild  
Hall, Manhattan, KS 66506. Grant:  
\$15,000 to Heather Luea.

3. University of Texas at Arlington,  
School of Urban and Public Affairs, Box  
19588, 601 South Nedderman Drive,  
Arlington, TX 76019. Grant: \$14,200 to  
Marlene O' Meara.

4. The Regents of the University of  
California, Political Science  
Department, 2000 University Office  
Building, Riverside, CA 92521. Grant:  
\$15,000 to Jeffery McLaughlin.

5. The Regents of the University of  
California, UCLA-Department of  
Sociology, 10920 Wilshire Blvd., Suite  
1200, Los Angeles, CA 90024. Grant:  
\$15,000 to Andrew Deener.

6. Georgia Institute of Technology,  
275 5th Street, 1st Floor, Atlanta, GA  
30332. Grant: \$15,000 to Valerie Riecke.

7. Virginia Polytechnic Institute &  
State University, 460 Turner Street,  
Suite 306, Blacksburg, VA 24060. Grant:  
\$15,000 to Karen Danielsen-Lang.

8. The Regents of the University of  
California, UCLA-Department of  
Sociology, 10920 Wilshire Blvd., Suite  
1200, Los Angeles, CA 90024. Grant:  
\$15,000 to R. Varisa Patraporn.

Dated: December 3, 2004.

## DEPARTMENT OF THE INTERIOR

### Fish and Wildlife Service

#### Recovery Plan for Five Plants From Monterey County, CA

**AGENCY:** U.S. Fish and Wildlife Service,  
Interior.

**ACTION:** Notice of document availability.

**SUMMARY:** The U.S. Fish and Wildlife  
Service ("we") announces the  
availability of the final Recovery Plan  
for Five Plants from Monterey County,  
California. This recovery plan includes  
the following species: *Astragalus tener*  
var. *titi* (coastal dunes milk-vetch),  
*Piperia yadonii* (Yadon's piperia),  
*Potentilla hickmanii* (Hickman's  
potentilla), *Trifolium trichocalyx*  
(Monterey clover), and *Cupressus*  
*goveniana* ssp. *goveniana* (Gowen  
cypress). *Astragalus tener* var. *titi*,  
*Piperia yadonii*, *Potentilla hickmanii*,  
and *Trifolium trichocalyx* are listed as  
endangered. *Cupressus goveniana* ssp.  
*goveniana* is listed as a threatened  
species. These plant species are found  
primarily along the coast of northern  
Monterey County, California. *Potentilla*  
*hickmanii* also occurs in San Mateo  
County and has occurred historically in  
Sonoma County. *Astragalus tener* var.  
*titi* has occurred historically in Los  
Angeles and San Diego Counties,  
California. This recovery plan includes  
specific criteria and actions to be taken  
in order to effectively recover the  
species.

**ADDRESSES:** Copies of this recovery plan  
are available by request from the U.S.  
Fish and Wildlife Service, Ventura Fish  
and Wildlife Office, 2493 Portola Road,  
Suite B, Ventura, California 93003  
(telephone: 805/644-1766). An  
electronic copy of the recovery plan is  
also available at: <http://>

[www.endangered.fws.gov/recovery/index.html#plans](http://www.endangered.fws.gov/recovery/index.html#plans).

**FOR FURTHER INFORMATION CONTACT:**

Diane Steeck, Fish and Wildlife Biologist, at the above Ventura address.

**SUPPLEMENTARY INFORMATION:**

**Background**

Restoring endangered or threatened animals and plants to the point where they are again secure, self-sustaining members of their ecosystems is a primary goal of our endangered species program. The Endangered Species Act, as amended (16 U.S.C. 1531 *et seq.*) (Act), requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Recovery plans help guide the recovery effort by describing actions considered necessary for the conservation of the species, establishing criteria for the recovery levels for downlisting or delisting them, and estimating time and cost for implementing the recovery measures needed.

Section 4(f) of the Act requires that public notice and an opportunity for public review and comment be provided during recovery plan development. In fulfillment of this requirement, the Draft Recovery Plan for Five Plants from Monterey County, California, was available for public comment from May 13, 2002, through July 12, 2002 (67 FR 32003). Information presented during the public comment period has been considered in the preparation of this final recovery plan, and is summarized in the appendix to the recovery plan. We will forward substantive comments regarding recovery plan implementation to appropriate Federal or other entities so that they can take these comments into account during the course of implementing recovery actions.

The five plants addressed in this final recovery plan are threatened by one or more of the following: alteration, destruction, and fragmentation of habitat resulting from urban and golf course development; recreational activities; competition with nonnative plant species; herbivory from native or nonnative species; demographic stochasticity; modifications in hydrology; loss of individuals from roadside maintenance activities; and disruption of natural fire cycles due to fire suppression associated with increasing residential development around and within occupied habitat.

The objective of this plan is to provide a framework for the recovery of these species so that protection by the Act is no longer necessary. Actions necessary to accomplish this objective

include: (1) Permanent protection of habitat presently occupied by the species and the surrounding ecosystem on which they depend, with long-term commitments to conserving the species; (2) in protected habitat, successful control of invasive nonnative plants and successful management of other problems through at least 12 years; (3) development of management strategies that include results from research on the life histories of the taxa, and results from monitoring the species' responses to vegetation management; (4) surveys for additional populations, and successful reintroductions or establishment of populations for *Astragalus tener* var. *titi*, *Potentilla hickmanii*, and *Trifolium trichocalyx*, with populations of all five species assured of long-term survival; (5) establishment of seed banks; and (6) existing populations of *Cupressus goveniana* ssp. *goveniana* are assured of long-term survival, including successful recruitment and reproduction. Once these criteria have been met, *Cupressus goveniana* ssp. *goveniana* may be considered for delisting and *Astragalus tener* var. *titi*, *Piperia yadonii*, *Potentilla hickmanii*, and *Trifolium trichocalyx* may be considered for downlisting.

**Authority:** The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: August 19, 2004.

**Steve Thompson,**

Manager, California/Nevada Operations Office, Region 1, U.S. Fish and Wildlife Service.

**BILLING CODE 4310-55-P**

**DEPARTMENT OF THE INTERIOR**

**Fish and Wildlife Service**

**Recovery Plan for *Chorizanthe robusta* var. *robusta* (Robust Spineflower)**

**AGENCY:** U.S. Fish and Wildlife Service, Interior.

**ACTION:** Notice of document availability.

**SUMMARY:** The U.S. Fish and Wildlife Service ("we") announces the availability of the Recovery Plan for *Chorizanthe robusta* var. *robusta* (Robust Spineflower). This plant taxon is found along the central coast of California, primarily in Santa Cruz and Marin Counties. Historically, this plant also occurred in San Francisco, Alameda, Santa Clara, San Mateo, and Monterey Counties, California.

**ADDRESSES:** Copies of this recovery plan are available by request from the U.S. Fish and Wildlife Service, Ventura Fish

and Wildlife Office, 2493 Portola Road, Suite B, Ventura, California 93003 (telephone: 805-644-1766). An electronic copy of the recovery plan is also available at: <http://endangered.fws.gov/recovery/index.html#plans>.

**FOR FURTHER INFORMATION CONTACT:**

Connie Rutherford, Botanist, at the above Ventura address.

**SUPPLEMENTARY INFORMATION:**

**Background**

Restoring endangered or threatened animals and plants to the point where they are again secure, self-sustaining members of their ecosystems is a primary goal of our endangered species program. To help guide the recovery effort, we are working to prepare recovery plans for most of the listed species native to the United States. Recovery plans describe actions considered necessary for the conservation of the species, establish criteria for the recovery levels for downlisting or delisting them, and estimate time and cost for implementing the recovery measures needed.

The Endangered Species Act (Act) requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act requires that public notice and an opportunity for public review and comment be provided during recovery plan development. The Draft Recovery Plan for *Chorizanthe robusta* var. *robusta* was available for public comment from September 19, 2000, through November 20, 2000 (65 FR 56590). Information presented during the public comment period has been considered in the preparation of this final recovery plan, and is summarized in Appendix C of the recovery plan. We will forward substantive comments regarding recovery plan implementation to appropriate Federal or other entities so they can take these comments into account in the course of implementing recovery actions.

*Chorizanthe robusta* var. *robusta* was listed as endangered in 1994, and 190 hectares (469 acres) of critical habitat were designated in 2002. *Chorizanthe robusta* var. *robusta* is restricted to sandy soils along the coast and near-coastal areas in Santa Cruz County, and from the Point Reyes National Seashore in Marin County, California.

*Chorizanthe robusta* var. *robusta* is threatened by urban development, recreational activities, and competition with non-native vegetation. In addition, some of the populations contain very
