

Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

2. **Administrative and National Policy Requirements:** We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. **Reporting:** At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118.

4. **Performance Measures:** Under the Government Performance and Results Act (GPRA), the Department has established the following long-term goal for this program: By the end of FY 2008, at least 65 percent of all American Indians with disabilities who exit the program after receiving services under an individualized plan for employment will achieve an employment outcome. Each grantee must annually report its performance on this measure through the American Indian Vocational Rehabilitation Services Program Annual Performance Reporting System.

In addition, this program is part of the Administration's job training and employment common measures initiative. The common measures for job training and employment programs targeting adults are: Entered employment (percentage employed in the first quarter after program exit); retention in employment (percentage of those employed in the first quarter after exit that were still employed in the second and third quarter after program exit); earnings increase (percentage change in earnings pre-registration to post program and first quarter after exit to third quarter after exit); and efficiency (annual cost per participant). The Department is currently working toward implementation of these

common measures. Each grantee will be required to collect and report data for the common measures when implemented.

SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC–561 "Annual Report of Interlocking Positions" (OMB No. 1902–0099) is used by the Commission to implement the statutory provisions of Section 305 of the Federal Power Act (FPA), as amended by Title II, section 211 of the Public Utility Regulatory Policies Act of 1978 (PURPA) (16 U.S.C. 825d). The Commission can employ enforcement proceedings when violations and omissions of the Act's provisions occur. The compliance with these requirements is mandatory.

Action: The Commission is requesting a three-year extension of the current expiration date, with no changes to the existing collection of data.

Burden Statement: Public reporting burden for this collection is estimated as:
