C. Notification of Academic Problem/Change

If at any time during the semester/quarter, scholarship grantees are advised to reduce the number of credit hours for which they are enrolled below the minimum of 12 (or the number of hours considered by their school as full time) for a full-time student or at least 6 hours for part-time students; or if they experience academic problems, they must submit this report (page F-04 of student handbook).

VIII. Other Information

Regulations at 42 CFR part 36.304 provide that the IHS shall, from time to time, publish a list of health professions eligible for consideration for the award of Indian Health Professions Preparatory

and Pregraduate Scholarships and Indian Health Scholarships (Professions). Section 104(b)(1) of the IHCA, as amended by the Indian Health Care Amendment of 1988, Public Law 100-713, authorizes the IHS to determine specific health professions for which Indian Health Scholarships will be awarded.

Interested individuals are reminded that the list of eligible health and allied health professions is effective for applicants for the 2005-2006 academic year. These priorities will remain in effect until superseded. Applicants for health and allied health professions not on the above priority list will be considered pending the availability of funds and dependent upon the availability of qualified applicants in the priority areas.

Previous Request for Comments

This request provides a 30-day comment period required by OIRA. The Coast Guard has already published the 60-day notice required by 44 U.S.C. 3506(c)(2) (69 FR 56782, September 22, 2004). That notice elicited one comment to information collection 1625–0036. The commenter states that the information collection is not adequate to protect the U.S. coastal environment and suggests keeping satellite records of our coastline and requiring foreign ships to notify the Coast Guard prior to entering our waters. In general, the comment is beyond the scope of this information collection. Information collection 1625–0036 aids the Coast Guard in determining if a tank vessel complies with certain safety and environmental protection standards. Tank vessel design, construction and system operating information must be submitted and/or maintained on board for compliance with these standards. Details of the collection can be found in the supporting statement in the docket. COI 1625–0036 is one of a number of Coast Guard information collections related to environmental protection and maritime security. For example, COI 1625–0100—not part of this notice—relates to the Coast Guard requirement that certain vessels report to the Coast Guard 96 hours in advance of arrival to a U.S. port.
