

made, this final rule may take effect within less than 30 days.

National Environmental Policy Act. This rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Considerations. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. The Administrator has determined that this rule is exempt from the requirements of the Regulatory Flexibility Act because the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4022, prohibits flood insurance coverage unless an appropriate public body adopts adequate floodplain management measures with effective enforcement

measures. The communities listed no longer comply with the statutory requirements, and after the effective date, flood insurance will no longer be available in the communities unless remedial action takes place.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Paperwork Reduction Act. This rule does not involve any collection of information for purposes of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*

Fisheries of the Northeastern United States; Atlantic Bluefish Fisheries; 2006 Atlantic Bluefish Specifications; Quota Adjustment; 2006 Research Set-aside Project

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; correction.

SUMMARY: NMFS is correcting a final rule that appeared in the **Federal**

Register of February 24, 2006. The document issued final specifications for the 2006 Atlantic bluefish fisheries. Inadvertently, Table 1 of the final rule contained incorrect individual state commercial quota allocations (after adjusting for the research set-aside quota). This document corrects that error.

DATES: Effective March 27, 2006.

FOR FURTHER INFORMATION CONTACT:

Bonnie Van Pelt, Fishery Policy Analyst, (978) 281-9244, fax (978) 281-9135.

SUPPLEMENTARY INFORMATION: The final rule, including final quota specifications for the Atlantic bluefish fisheries, was published in the **Federal Register** on February 24, 2006 (71 FR 9471). The final rule presented a new alternative (different than the alternative published in the proposed rule) to ensure that recreational harvest limits would not be

exceeded. Table 1 listed incorrect individual state commercial quota allocations in the columns entitled “2006 Commercial Quota (lb) with Research Set-Aside” and “2006

Commercial Quota (kg) with Research Set-Aside.” The amounts that appear in the row entitled “Total” remain the same. The following corrections are made:

1. On page 9473, Table 1. Commercial State-by-State Allocations for 2006 as Adjusted by the Research Set-Aside (RSA) is corrected to read as follows:

TABLE 1. CORRECTED COMMERCIAL STATE-BY-STATE ALLOCATIONS FOR 2006 AS ADJUSTED BY THE RSA

The Assistant Administrator for fisheries, NOAA (AA) finds good cause pursuant to 5 U.S.C. 553(b)(B) to waive prior notice and the opportunity for public comment because it would be impracticable and contrary to the public interest. This rule corrects a calculation error in the state allocations for bluefish in the final rule published on February 24, 2006 (71 FR 9471). When the final state allocations were calculated to reflect the new transfer amount, NMFS inadvertently made an error in calculation; i.e., the table that revised the individual state quota allocations carried over a conversion factor that did not correctly account for the RSA quota based on the new proportion (recreational/commercial split). Providing for a 30-day delay in effectiveness for this rule would prevent the correction of the aforementioned final rule before it becomes effective. Publication of incorrect state quota allocations could cause some unnecessary confusion among those states whose allocation is different from the levels previously calculated.

Providing for a public comment period for this rule would prevent the correction of the aforementioned final rule before it becomes effective. Publication of incorrect state quota allocations could cause some unnecessary confusion among those states whose allocation is different from the levels previously calculated. The correction provides a slightly higher allocation to each of the states.

The AA further finds pursuant to 5 U.S.C. 553(d)(3) good cause to waive the thirty (30) delayed effectiveness period for the reasons stated above. This rule corrects a calculation error in the state allocations for bluefish in the final rule published on February 24, 2006 (71 FR 9471). When the final state allocations were calculated to reflect the new

transfer amount, NMFS inadvertently made an error in calculation; i.e., the table that revised the individual state quota allocations carried over a conversion factor that did not correctly account for the RSA quota based on the new proportion (recreational/commercial split). Providing for a 30-day delay in effectiveness for this rule would prevent the correction of the aforementioned final rule before it becomes effective. Publication of incorrect state quota allocations could cause some unnecessary confusion among those states whose allocation is different from the levels previously calculated.

This rule has been determined to be not significant under Executive Order 12866.

Dated: March 13, 2006.

James W. Balsiger,

Acting Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

Fisheries of the Exclusive Economic Zone Off Alaska; Adjustment of Pacific Cod Total Allowable Catch Amounts in the Bering Sea and Aleutian Islands

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; inseason adjustment.

SUMMARY: NMFS is adjusting the Pacific cod total allowable catch (TAC) amount in the Bering Sea and Aleutian Islands Management Area (BSAI). This action is necessary to prevent exceeding the Pacific cod acceptable biological catch (ABC) in the BSAI and is consistent with the goals and objectives of the Fishery Management Plan for Groundfish of the BSAI (FMP).

DATES: Effective March 14, 2006, through 2400 hrs, Alaska local time (A.l.t.), December 31, 2007.

FOR FURTHER INFORMATION CONTACT: Josh Keaton, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI according to the FMP prepared by
